REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

JUNE 1, 1954

SCHOOL FINISHES REDSTONE SURVEY

Top-Level Seminar Will Start Soon

George Washington University has concluded a study of management development needs of Redstone, according to Dr. Julian Mancill, director of the Redstone Graduate Institute.

A final report containing recommendations, was submitted to General Vincent, May 15. The report recommended the development of a dual program.

The first part would be a high level seminar in intermediate and advanced management for top-level Redstone executives.

The second part of the recommendation concerns the establishment of a formal program of graduate courses in the fields of business administration and management to be conducted by some college in affiliation with the Graduate Institute. This would lead to a Master's Degree to qualified persons, Dr. Mancill said.

The Redstone Graduate Institute Advisory Committee in Business Administration and Management has recommended, and the Commanding General has ruled that the program proposed in The George Washington University report be instituted for the summer on an interim basis, i.e., the program be set up for three months in order that more time may be devoted to further study and planning for the long range program. George Washington University has agreed to provide the formal courses and academic credit to duly qualified persons who want it for this summer program.

Plans and arrangements are practically complete to implement the summer program. A top level seminar of some 14 outstanding lecturers is being developed. These men and women will be brought to the arsenal from all over the country, from government and industry. Certain top-level executives of Redstone will be designated to participate in this seminar and one elementary course "Introduction to Management" will be offered by The George Washington University. Academic credit may be received in both the advanced seminar and the elementary course for those duly qualified.

Announcements concerning details of classes and seminars will be published at a later date.

A. G. Of Tennessee Sends Certificate

A Certificate of Appreciation for Redstone's support of the reserve program of our Armed Forces was awarded recently to the commanding general of the arsenal by the adjutant general of the State of Tennessee.

The certificate is "in recognition of faithful and cooperative spirit in the release of employes for performance of military duty" in the National Guard of Tennessee.

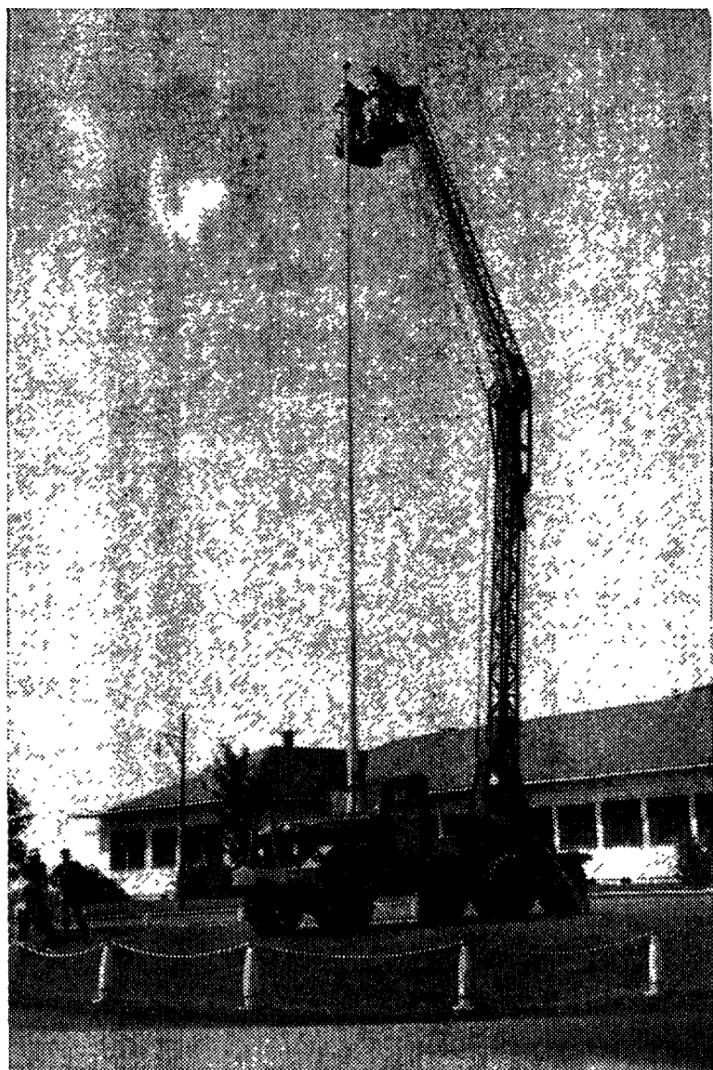

The certificate, signed by Maj. Gen. Joe W. Henry, Jr., the adjutant general, stated in part:

"Many of our citizens, veterans and non-veterans alike, are members of the National Guard of the United States. They assume certain obligations to participate in summer field training and other tours of active duty for training, which require their absence from civilian occupations for brief periods.

"It is gratifying to note that your organization is wholeheartedly supporting this reserve program of our Armed Forces, and authorizing military leave of absence for its employes so that they can participate in such training."

DID YOU KNOW?

That there were more traffic accidents at Redstone during the first four months of 1954 than during the first four months of 1953 and 1952—combined. Fifty-five accidents were reported this year through April. For the same months, 17 accidents were reported in 1952 and 37 accidents in 1953. **DON'T BE A STATISTIC!**

GOING UP?—Here's the easy way of reaching to the top of a 60 foot flagpole to put on a new rope. A crew from the Post Engineer Paint Shop had to call on OGMS for help to handle this tall job. It just happened that a CORPORAL "servicer" was in the neighborhood. The "industrial monkey" was quickly commended and two intrepid pole-climbers went aloft to replace the old rope. Much later, people in A-101 were still wondering how such things were done before the age of guided missiles. (Photo by Sam Hobbs)

SERVICEMEN'S PHOTO CONTEST IS OPEN FOR REDSTONE FANS

Photographers, man your cameras!

The Fifth Interservice Photography Contest has started and entries are now being received at the Service Club, according to Miss Molly Patterson.

The contest, open to personnel in the Army, Navy, and Air Force, offers big prizes to the top seven winners in the black-and-white class and the three top winners in the color division.

Entry blanks are available at the Service Club. There will be no local judging. All entries submitted here will be sent to Third Army. Winners there will go on to the Pentagon for final judging by a distinguished panel to be named later.

The deadline for entries here has not been announced, but it is expected to be sometime late this month.

The finalist photos will be displayed in Washington and a trophy will be awarded to the most popular entry, as determined by public ballot.

In addition "Modern Photography" magazine will award prizes to the top ten winners. However, the magazine has no part in the judging or administration of the contest.

Some of the prizes to be awarded by "Modern" include: Press Camera, 4 X 5—Linhof Super Technika or Speed Graphic, with rangefinder; or Stereo, Revere or Stereo Realist, with viewer, or a movie camera.

For second and third prizes a 2 1/4 X 3 1/4 Century Graphic with Graftar lens; Twin lens reflex; 35 mm Argus C4 or Kodak Signet; or a 8 mm roll film camera.

Black-and-white photos may be in size from 8 X 10 to 16 X 20—unmounted. They should not be tinted or toned. Color slides must be from 35mm to 4 X 5, no smaller, no larger.

Color slides will be returned, but black-and-whites will not.

The choice of subject matter

depends on the imagination of the photographer, Miss Patterson said. About the only requirement is that the subject have appeal and meaning.

Standards of judging include—new ideas and approaches to familiar subjects; interesting subject matter and treatment; attention to details which are visually interesting; photographic technic; which includes developing, enlarging, burning, dodging, and cropping.

"Y'all Please Come" Bond Chairman Says

June is Savings Bond month at Redstone and other Third Army installations, according to Capt. Kenneth Ahana, disbursing officer at the arsenal.

Capt. Ahana has been named chairman of the Bond Committee.

"Our goal is 100 per cent participation at Redstone," Capt. Ahana said. "If a bond every pay period is too much, you can have as little as \$6.25 a pay period deducted from your check. That way, you will get a bond every pay period.

"With just this small amount being deducted, it would mean a savings of about \$1100 in five years."

Third Army Commander Lt. Gen. A. R. Bolling had this to say about the bond drive: "The Payroll Savings Plan is a practical method providing a substantial share of things desired in life . . . It provides funds for the purchase of homes, college education for children, income to supplement retirement benefits, and a chance to take advantage of unexpected opportunities."

Here at Redstone, Mrs. Josephine Smith has been named to act as co-chairman for the drive with Capt. Ahana. Committee members will be announced later.

In the words of Capt. Ahana: "Y'all PLEASE come."

72 RIFed Employees Apply for Jobs Here

DRIVERS TO MEET MR. SAFETY SOON

He Will Watch For Courteous Drivers

Redstone Arsenal is going to have a "Mr. Safety" to assist in the re-emphasized program for courteous driving by all arsenal personnel. In fact, two Mr. Safety's will be in action.

The Courteous Driving Committee is requesting selected arsenal individuals to serve as a Mr. Safety for a two-week period. The two selected for a period will meet the following Monday to discuss their observations of acts of courteous driving during the period and to select the most courteous individual for presentation to General Vincent, who has expressed his personal desire to meet the selectee.

Mr. Safety will remain unidentified until the period is complete and the selection is made.

Last week's announcement concerning the proposed award was premature. The Committee was discussing various awards at that time, but later investigation of available funds required the committee to lower its sights on selection of awards.

Final selection of a "Safety" mechanical pencil and notebook set was made. The awards will be made by the commanding general at the time Mr. Safety has made his selection. In addition, a commendation certificate expressing the arsenal's appreciation for the selectee's contribution to courteous driving will be given.

Readers should note boxes printed elsewhere in this and later issues of The Rocket, covering the Redstone accident history. Almost all occurred because of careless or thoughtless driving habits.

LT. WHITENER

Whitener Joins Special Services

A college wrestler is now the assistant Special Services Officer at Redstone. He is 1st Lt. James D. Whitener who was teaching school near Monroe, N. C., prior to entering the armed forces.

Lt. Whitener is a graduate of Davidson College where he received his bachelor's degree in English.

However, English and wrestling were not the lieutenant's only pursuits. He was active in the glee club and a member of the Phi Mu Alpha music fraternity as well as Alpha music fraternity, Alpha Tau

Fifteen Are Hired And 31 Decline Proffered Jobs

Seventy-two applications for jobs, submitted by Separated Career Employees, have been received by Civilian Personnel, it was announced by Stuart Jones, Civilian Personnel chief.

Of these, 15 have received appointment here, and 31 have refused job offers. The remaining applications are still pending.

"Separated Career Employees—or SCE," Jones said, "are Civil Service employes with permanent status who have been separated from their jobs due to reduction in force, or other impersonal reasons."

Such employes are eligible to "bump" indefinite appointment employes in the same job category anywhere in the United States, he said.

(In the past, such an employe was able to "bump" another employe of lower retention status only in the immediate vicinity. It was later enlarged to include an entire Civil Service district. Now it includes the whole country).

Jones said that he is not concerned about there being a great flow of SCE applications here. "I think this about the peak," he said.

In explaining how one employe may take over a job being held by another worker, Jones said there are three main priority groups into which all civil service employes fall.

Group one is composed of permanent employes—i.e., employes who received their appointment before Sept. 1, 1950. The second group is composed of employes who at one time held permanent status but who since have been given an indefinite appointment—largely through promotions.

The third group is composed of indefinite appointees (about 73 percent of Redstone's employes fall into this third category.)

Each of these three groups are in turn broken down into two subdivisions: veterans and non-veterans.

Employes in the first group, when separated from service due to no fault of their own, may "bump" employes of the other two categories—provided the employes fall under the same job classification.

In the same way, employes of the second group have job priority over those of the third group. And veterans of a group have priority over non-veterans of the same group.

"It follows," Jones said, "that any SCE who wants a job at Redstone must be given one—provided there is a job for which he is classified and provided it is being held by an indefinite appointee."

Baker to Address Reserve Officers

Maj. W. H. Baker, of the British Royal Army Ordnance Corps, will be guest speaker at the regular monthly meeting of the Reserve Officers Association at 7 p.m. on June 2 at Steadman's Restaurant.

Officers' ladies are invited to attend the meeting. Reservations can be made by calling Charles Arnold, Ext. 3945; Ed Jungerman, Ext. 2211; or Theo Combel, Ext. 2824.

Omega.

Lt. Whitener came into the Army in September, 1951. Before coming to Redstone, he was the commanding officer of B Co., 28th Infantry Regiment at Ft. Jackson, South Carolina.

According to the lieutenant, he enjoyed the training company more than anything else he had done in the Army. However, he is sure that he'll enjoy Special Services even more.

The Redstone Rocket

The Redstone Rocket is a civilian employe newspaper published every Tuesday in the interests of Redstone Arsenal personnel. It is published by special agreement between Jack W. Hoffhaus, Huntsville, Ala., printer, and the Civilian Welfare Council, Redstone Arsenal, Huntsville, Ala.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and under no circumstances are they to be construed as those of the Department of the Army.

All editorial material for publication must be submitted to the Public Information Section, Bldg. A-101, Tel. 3-2123.

All advertising and ad payments are handled by Mrs. Zillah Newsome, Twickenham Hotel, Huntsville, Ala., Tel. 670, as representative for Jack W. Hoffhaus. Appearance of advertisements of products or services in The Rocket does not constitute an endorsement by the Department of the Army.

The Redstone Rocket is Distributed free of cost to personnel at Redstone Arsenal. Mailing rates for The Rocket are \$3 a year, or \$1.75 for six months. Mailing arrangements must be made with Jack W. Hoffhaus.

An arsenal employe was working inside an aluminum tank, which was sitting on a concrete base. He was using a 110 volt electric drill with current supplied by a 3-wire flexible cord, with the third wire grounded. The drill had been used for approximately 2 hours without mishap.

When the employe started to re-enter the tank, after his coffee break, he brushed against the tank and found it to be electrically charged or "hot". The employe called this fact to the attention of his foreman. An inspection of the tool, which had been left lying in the tank, disclosed no defects. After considering several different methods of finishing the job it was decided to use an air drill instead of an electrical appliance.

Since working in and around metal vessels is a common occurrence at Redstone, it should be re-emphasized that electrocution hazards are greatly increased when personnel are required to use electrical equipment while working inside tanks, tank cars, and other types of metal vessels, due to the large area of the body that is often in contact with the metal. This is especially hazardous under adverse conditions, such as damp locations. While no hard and fast rule can be established concerning the use of electrical appliances in tanks, etc., every effort should be made to use low voltage portable extension lamps of the 32-volt type. Pneumatically operated tools should be used in lieu of electrical appliances whenever possible. —Ed Summers.

SOUTHERN GUARDS TO GET RATIONS OF CORN PONE, BLACK-EYED PEAS

THIRD ARMY HEADQUARTERS, Fort McPherson, Ga.—National Guardsmen of North and South Carolina, Georgia, Florida, Alabama, Mississippi and Tennessee will get plenty of Southern fried chicken, with rice and gravy, at the National Guard encampments to be held at Third Army installations from June through August, Lt. General A. R. Bolling, the Third Army Commanding General, has announced.

Lt. Col. I. R. Shea, the Third Army Food Service Advisor, Quartermaster Section, who has been busily engaged on food plans for the National Guard encampments, says the meals for this year's camps will come from the

Army's Master Menu, with some modifications.

In some instances, Col. Shea said, rice will be substituted for potatoes, while the chicken frequently will be a substitute for other meats listed on the master menu.

Three other items of food which are very popular in the southland, grits, corn bread and black-eyed peas, will be on the Guard menu.

"Men of the south like their chicken fried crisp and golden brown," Col. Shea said. "They like their chicken gravy thick and creamy, and generously poured over their rice, and that is the way it will be served to the Guardsmen too." The grits will be served at breakfast about three times each week, while the corn bread and peas will be on the dinner menu several times during each encampment.

Some 50,000 National Guardsmen from the states comprising the Third Army Area will enter camps for two weeks of training this summer. The first contingent of troops will arrive at the camps on June 13. They will be followed every two weeks until all the Guardsmen have undergone training. The camps will close August 29.

All of the National Guard Divisions will train at Fort McClellan, Ala., while some small non-divisional units will also train there.

Fort Bragg, N. C., will also be the scene of training for National Guard non-divisional units, while Camp Stewart, Ga., will be the training site for Anti-Aircraft Artillery units.

ORDNANCE GUIDED MISSILE SCHOOL

JEAN BREWER

The blackberry winter has finally lifted its chill and at this writing the School is enjoying beautiful weather.

An "Open House" that will go down in OGMS history as "tops" was given on Sunday, May 16, by Major E. A. James and his lovely wife, Jimmie, at their new home 1417 Billie Watkins Street. During the afternoon more than forty guests were received. Among those visiting were General Vincent and Mrs. Vincent, Colonel James P. Snooks and Mrs. Snooks, Lt. Colonel Walter Dolle and Mrs. Dolle, Lt. Colonel George H. McBride, Chief of Training Division, and Mrs. McBride, and members of the staff and faculty of the Mechanical Branch, OGMS. The refreshment table was beautifully arranged with crystal and silver with yellow tapers and flowers completing the perfect setting for a lovely party. Mrs. John P. Rigg and Mrs. Woodrow Crum presided at the punch bowl.

These are a few of the School's recent and present vacationers: Lt. Thomas Cooper spent a week's leave at home; Bernie Bachman and her husband, M/Sgt. Bachman, spent several days with their parents in Michigan; Pfc. Donald Dale is visiting in his native state Pennsylvania; Egt. Ed Chapman is on matrimonial leave to Pittsfield, Mass.; Cpl. Richard Smith has just returned from a 15 day leave sporting a "Ford" and on top of that he is practically a civilian again. He is in the process of clearing post and by the time this paper goes to press he will be on his own. This explains why Smitty has been so happy in the past few days; M/Sgt. Duncan, Facilities & Service, has just returned from twenty glorious (as he put it) days spent with his family in New Orleans; Cpl. James Jordan is on leave to New York. Jim plans to pay a visit to Montreal, Canada, before returning to School duty.

The 9352nd TSU volleyball team had a wonderful "few days" in Ft. McClellan in spite of the fact that they lost the tournament. The members of the team who participated are: Lt. Edward Sparkman, M/Sgt. Amos Stacy, SFC Millard Gatwood, captain of the team, Cpl. Richard Kash, Pfc's David Albrecht, John Gelzer, Bradley Rose and Walter Gruver. We are very happy to know that Dorothy Durham's husband is returning from Japan. Dot is assigned to SAM Sect., Internal Branch as clerk-typist.

All of us recall the outdoor demonstration given by the Arsenal Fire Department and how quickly Mrs. Germann volunteered to cooperate in using a fire extinguisher. She has demonstrated quite often her versatility in handling any situation that may arise; but imagine the surprise of Management Assistance officials when the daily Performance Analysis time sheet showed that Mrs. Germann had spent two hours of one day in calisthenics. Investigation revealed that a mistake had been made by M/Sgt. Kraus, who fills out the time sheets for that particular office. However, if calisthenics is considered a sport, we know of no one who would come nearer qualifying as "a good sport" than Mrs. Germann.

Internal Branch extends a "welcome home" to Lt. Gordon Dasher who has just undergone a tonsillectomy at Fort McClellan. "Often the unexpected is the most pleasant." An example of the truth of this old adage was a recent happening at the Mechanical Branch. The occasion was the birthday of our popular Mary Frances Myrick, clerk-typist of Missile Fundamentals Section.

Even though it was during the "cold spell" of May, Neapolitan ice cream was considered appropriate to go with the huge cake she brought in from her home in Tennessee. During the coffee break some of her many friends sang Happy Birthday to Mary Frances and devoured the refreshments. Lts. Dick Barlow and Dick Baker were especially appreciative because they had arisen late that morning. My, my, ice cream and cake for breakfast.

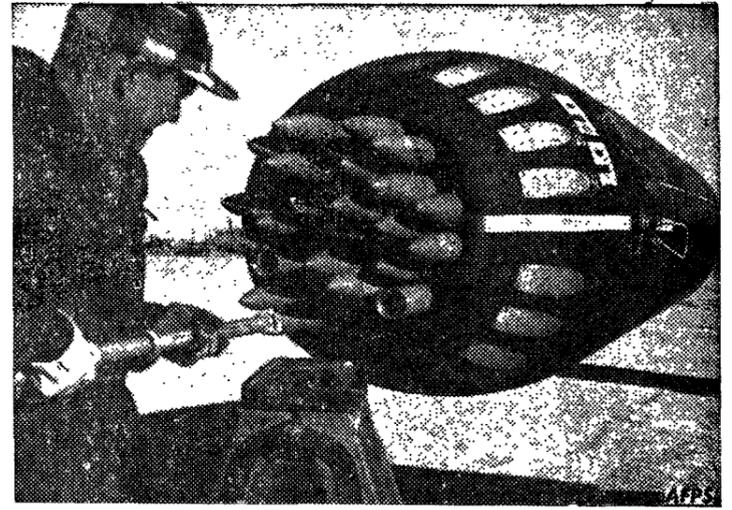

Congratulations to Mr. and Mrs. George Crockett on the arrival of their daughter, and to Lt. and Mrs. Billy Walker who are the parents of a brand new son.

The outcome of the Maintenance Br. vs. Propellants-Explosive Br. softball game was Maintenance scored 29 runs, Propellants 12 runs.

Lt. Milton Young has officially been assigned Chief, Facilities & Service Branch, also, SFC Alfred Dowlin has recently been assigned to that Branch.

Donald Dale and Marshall Grove of the 55M Sect., Mech.

LOADED FOR BEAR

America's Saturday night answer to the enemy's Sunday punch might well be 2.75 inch air-to-air rockets being loaded into the wing pod of an F-89D all-weather fighter-interceptor. A honey-combed pod holds 52 rockets on either wing. Any one rocket is capable of bringing down the world's largest bombers.

Thanks Expressed By Mrs. Linton

The following letter, quoted in part, is from Mrs. Paul M. Linton, the wife of Capt. Linton in whose memory "Linton Field" was named:

Dear General Vincent:

I am at a loss for words to express to you how proud and grateful we, the children and I, are to have had Paul's name selected as the one to bear the name of the new athletic field at Redstone. It surely is an honor the children and I will always cherish.

Please extend to all who had a part in this wonderful tribute to Paul our sincere thanks.

I hope in the not too distant future to be able to make a trip to Redstone to see this wonderful spot dedicated to Paul...

Sincerely,
Dorothy M. Linton

Comedy Skit Is Set At Post Wives Club

"This Is Your Strife," based on the TV show "This Is Your Life," will be the subject of a skit during the program for Officers Wives Club on June 8. The meeting will be a coffee at 9:30 a.m. at the Officers' Mess.

The skit will be presented by a picked cast, and will precede the serving of refreshments. Mrs. Frederick Sayers will be the program chairman for this meeting.

Those planning to leave their children at the post nursery should call either Mrs. Archibald Dean at 1662-M or Mrs. Frank Gasper at 5807-W to make reservations. No reservations are necessary for members to attend the meeting since it is a coffee.

Post Kindergarten Graduates 10 Tots

Ten children completed the kindergarten course here on the post and received their diplomas May 28 in ceremonies at the home of Lt. Col. and Mrs. Theodore Ebbert. Brig. Gen. Thomas K. Vincent presented the diplomas.

The children are Stephanie Ahana, Pat Shepherd, Linda Mae Yanker, Dennis Dougherty, Michael Becker, Jeffrey Wiswall, Garry Gilino, Mary Zukaitis, Gael Ebbert and John Zukaitis.

The group presented a skit under the direction of their teacher, Mrs. Robert Anderson.

Refreshments were served to the children and their parents, who attended the graduation exercises on the lawn of Ebbert's quarters.

This closes the first year for the post kindergarten, started last fall as a new arsenal facility for children of military personnel and post residents.

SOLEMN BUSINESS—Little Gael Ebbert seems to consider winning a blue ribbon at the flower show, sponsored by the Madison County Horticultural Society, a very serious undertaking. She is holding the miniature Oriental garden in a sea shell which placed first in the novelty class at the show. Gael is the daughter of Lt. Col. and Mrs. Theodore Ebbert, and won the only prize awarded to the Redstone Garden Club exhibit. (Photo by O. B. Schlotterbeck)

Thayers Entertain With Cocktail Party

Col. and Mrs. Henry C. Thayer entertained with a cocktail party last night at the Officers' Mess when 100 guests were invited to attend. An arrangement of spring flowers centered the refreshment table flanked by silver candelabra holding lighted tapers.

Maj., Mrs. Sparks Give Dinner Party

A farewell dinner party was given May 27 by Maj. and Mrs. Enoch Sparks on the eve of their departure from Redstone. The event, held at the Officers' Mess included 25 guests.

Those invited were Brig. Gen. and Mrs. Thomas K. Vincent, Col. and Mrs. James P. Snooks, Jr., Col. and Mrs. Paul Elias, Col. and Mrs. Benjamin Beach, Maj. and Mrs. Frederick Sayers, Maj. and Mrs. William Baker, Capt. and Mrs. Joseph Hinesley, Capt. and Mrs. Joseph Loncaio, Capt. and Mrs. Kenneth Ahana, Mr. and Mrs. Angelo Ferranti, Lt. and Mrs. Norman Moffett, Mr. and Mrs. Paul Barker, and Mrs. Clinton A. Waggoner.

Maj. and Mrs. Sparks and daughters will leave June 3 for Florida where Mrs. Sparks and the girls will live while Maj. Sparks is overseas. He will report to Ft. Lewis, Washington in July for assignment in the Far East.

Mrs. John Coffin will serve as assistant director of the Vacation Bible School at the Huntsville Church of the Nativity during June 7-18, and Mrs. Theodore Ebbert will be in charge of the Arts and Crafts classes. The school will run from 8:30 a.m. to 12 noon for children from four to 12 years of age. Mrs. George Potts and Mrs. Stuart Jones will also assist at the school. All children are welcome to enroll for the session.

Army Discloses New Separation Policy

HEADQUARTERS 3RD ARMY, Ft. McPherson, Ga.—The Army has put into effect a new speed up separation policy for enlisted men.

The new directive states that men who have served 21 months of active duty in the Army on their current enlistments and are due for separation from active service during the months of June and July, may if they so desire be separated on or before June 25 of this year.

If the men so elect they may continue in the Army until their normal separation date is reached.

This directive applies to all men in the Third Army Area which covers the Southeastern states of Alabama, Florida, Georgia, Mississippi, North and South Caro-

PERSONALS

Jimmie Snooks, son of Col. and Mrs. James P. Snooks, Jr., has arrived home for summer vacation from Vanderbilt University, Nashville.

Mr. George Snider of Montgomery and Mr. and Mrs. E. Byrd Bass of Anniston were weekend visitors at the home of Col. and Mrs. Henry C. Thayer.

Miss Doris Toftoy, daughter of Brig. Gen. and Mrs. H. N. Toftoy, is home from the University of Alabama.

Col. and Mrs. Miles B. Chatfield and daughter Anne were in Atlanta last weekend for the graduation of Bradley Chatfield from Georgia Military Academy. The graduation ceremony was held on May 30.

Maj. and Mrs. Frederick Sayers and Capt. and Mrs. Joseph Hinesley honored Maj. and Mrs. Enoch Sparks with a farewell barbecue dinner May 30 at the Sayers' home, 1906 Woodview Dr., Huntsville. Thirteen guests were included in the courtesy.

The Chapel Guild will meet at 10 a.m. tomorrow (June 2,) at the Service Club.

Mr. and Mrs. Donald Thorn of Austin, Tex., and formerly of Redstone, visited friends and relatives in this area last week.

The Handicraft Group of the Chapel Guild met May 28 at the home of Mrs. George Levings. They worked on assembly line production of "stocking children" rag dolls to be sold at the Thrift Shop.

CWO Winfred Gresham, formerly assigned at Redstone, is returning from Korea to be stationed at Ft. Hood, Tex., with the 1st Armored Division.

MP HI-LITES

BY DICK HECTOR

Too many people keep telling me that I am hiding behind a pen-name for fear of reprisal. So, "Tonto" bites the dust... "Gitt um up Kemo Sabe"...

If things keep up like they have been for the last week or so I am going to change the name of this column to BON VOYAGE. Last week I welcomed MSGT Booker into the Orderly Room as our new First Sergeant... This week I have to say good-bye to him along with MSGT John B. Hawco and SFC Cedric E. Pierce... All three have left for overseas assignments. So, along with bidding adieu to our three stalwarts I say hello to MSGT William J. Stanley, our new First Sergeant, and Sgt. Dave Scott, the Company Operations Sergeant.

Congratulations are in order for eight newly made PFC's: Chester E. Burns, Joe Devanney, William K. Johnson, Thomas F. Schroeder, Charlie Washington, Luther Corbitt, Ray Hamilton and Doyle Rogers.

SPORTS HI-LITE OF THE WEEK: From our correspondents in Indianapolis, the home of the famed 500 miler... Sgt. Dabney (Lead Foot) Campbell, driving PMP No. 16, a souped up GMC auto, broke all existing speed records in qualifying the other day... Old "Lead Foot", assisted by Jack "Foxy" Wolff, his riding mechanic, tore through the traps at the almost unheard of speed of 49.76 MPH (Maximum). Hats off to Dabney, a true enthusiast of the sliding turf.

CRIME HI-LITE OF THE WEEK: Cpl. Wilton R. (Gumshoe) Grice, Chief, Crime Detection Section, Redstone Arsenal, should be lauded publicly.

"Gumshoe", hot on the trail of crime always, recently caught one of the most nefarious criminals ever seen at Redstone. On a TDY status with the local PX, he was solely responsible for the apprehension and conviction of Gumba Gamboidella, the guy who has been stealing the do-nut holes out of the PX do-nuts for the last year.

lina, Tennessee and Ft. Campbell, Ky.

ARMY ANNOUNCES SCHEDULES FOR MAJOR FIELD EXERCISES

HEADQUARTERS 3RD ARMY, Ft. McPherson, Ga. — The Army has released a tentative schedule of 10 major field exercises to be conducted during the 1955 fiscal year, according to information forwarded to Lt. Gen. A. R. Bolling, Third Army Commander, by the Department of the Army.

The 10 announced exercises, involving an estimated 136,700 troops, will include training in Arctic, amphibious, mountain, jungle and diversified weapons operations.

Exercise Green Hills, to be conducted in the Camp Carson, Colorado area, will take place during September-October, 1954. A mountain exercise involving the 31st Infantry Division, Green Hills will provide training in organization of the battlefield in mountainous terrain under conditions in which both friendly and enemy forces have the capability of employing atomic weapons. Tactical air operations, night operations, animal and tramway supply and evacuation, electronic, chemical bacteriological and radiological warfare will be included. Green Hills will be conducted in four phases: two weeks of battalion combat team exercises, one week of regimental combat team training and one week of division exercises.

An exercise in mountain and cold weather operations, Hail Storm, will be conducted at Camp Carson and Camp Hale, Colorado, January-March, 1955.

Approximately 10,000 troops of the 37th Infantry Division, in regimental combat team increments, will participate. The purpose of Hail Storm is to provide training in mountain operations under winter conditions. It is set up for evaluation of tactical doctrines applicable to the employment of and defense against atomic weapons. Set up in three phases, the nine-week exercise will, in addition to testing equipment, include training in electronic and chemical, bacteriological and radiological warfare, tactical air operations, and serial supply and evacuation.

Snow Bird, an Arctic exercise, will be conducted in Alaska January-February, 1955. Employing one regimental combat team of the 11th Airborne Division, the exercise will provide joint training in the employment of Army and Air Force units under Arctic conditions. Organization of forces and terrain and maneuverability required when enemy forces have an atomic capability will be stressed.

During February-March, 1955, Exercise Surf Board will be held at the Naval Amphibious Base, Pacific, Camp Pendleton, California. Army participation calls for an estimated 5,000 troops of the 44th Infantry Division. The exercise will include logistical support of amphibious operations, atomic operations, electronic and chemical, bacteriological and radiological warfare. Surf Board is intended to provide training for a regimental combat team in planning for and conducting a ship-to-shore movement. Fire support coordination will include naval air, naval gunfire, and organic artillery.

The Fort Bragg-Camp Mackall, North Carolina, area will be the site of Exercise Fire Ball, to be conducted in April, 1955. Employing approximately 30,000 troops, Fire Ball is scheduled to develop procedures, tactics, techniques and organization of the battlefield under conditions imposed by friendly and enemy employment of atomic weapons. An airborne and special weapons exercise, Fire Ball will include play of three consecutive divisions: tactical air operations, tactical helicopter operations, and mobile defense operations. Night operations, electronic and CBR warfare will be

included. Using troops of XVIII Airborne Corps, 82nd Airborne Division, 3rd Armored Cavalry Regiment and 508th Airborne Regimental Combat Team, methods of forcing the enemy into involuntary maneuvers and formations through employment of atomic weapons will be developed.

The second amphibious exercise of 1955 will be High Tide, conducted at the Naval Amphibious Base, Little Creek, Virginia, May 2-28. Troops of the 47th Infantry Division will participate in the maneuver, which will provide training for a regimental combat team in planning for and conducting a ship-to-shore operation. Fire support coordination will include naval air, naval gunfire and organic artillery. The exercise will include logistical support of amphibious operations, atomic operations, electronic and chemical, bacteriological and radiological warfare.

Fort Hood, Texas, will be the site of two armored and special weapons exercises. Blue 1, conducted in March, 1955, will have troops of III Corps and the 1st Armored Division participating. Blue Bolt II, to be held during the following May, will involve III Corps Headquarters and another armored division. Both exercises are set up to provide training in tactics, techniques, and organization of the battlefield under conditions imposed by friendly and enemy employment of atomic weapons. Exploitation following friendly atomic attack and mobile defense against an enemy attack with atomic capability will be part of the exercises. Tactical air support, tactical and logistical helicopter operations, night operations, electronic and chemical, bacteriological and radiological warfare will be included in the training offered by both Blue Bolt I and Blue Bolt II.

Tactical air operations, aerial supply and evacuation, electronic and chemical, bacteriological and radiological warfare will be a part of the infantry and special weapons exercise Apple Jack, to be conducted at Yakima Military Reservation, Washington, in May, 1955. Training in the organization of the battlefield in mountainous and desert terrain under conditions imposed by friendly and enemy atomic capabilities will be given the participating troops of the 44th Infantry Division.

Approximately 1,200 troops of the 11th Airborne Division will participate in Exercise Jungle Jim, to be conducted in Panama during May-June, 1955. Jungle Jim will offer training in jungle operations and provide an evaluation of the adequacy of current doctrines and tactics imposed by enemy employment of atomic weapons.

Capt. Diggs Cited For Weapons Repair

Captain Walter F. Diggs, chief of the Internal Branch of OGMS, received a Commendation Ribbon with Metal Pendant last week for his meritorious service while chief of the Weapons Branch, 8160th Army Unit, Tokyo Ordnance Depot, Japan.

The citation accompanying the award commends Capt. Diggs for his exceptional ability in super-

vising the rebuild of battle damaged and other unserviceable weapons and fire control equipment.

Capt. Diggs' efficient direction resulted in an increase in the production of rebuilt armament, and an improvement of quality at a reduced cost in material and man hours. The weapons went to resupply the United Nations Combat Forces in Korea.

9330 T. S. U.
BY PFC. JOHN SIMMONS

The most talked about topic in 9330 is probably the same as in other outfits throughout the Army—the possibility of an early release for the draftees. The Army is allowing professions planning to go back to school release up to three months early if their separation date occurs during a semester. Seasonal workers such as professional baseball players, farm boys, and summer camp workers are getting early outs to start at the beginning of their seasons. June and July separations were moved up to early June on a voluntary basis, creating mild panic. In the minds of those planning an early release is the big question—will 21 months of active service instead of 24 for others mean an increased draft liability?

It appears Sgt. Enlow is preparing for the Alabama heat wave, judging from the air conditioning unit he has installed in his room. Maybe Sgt. Hooper is giving air conditioners away for free in the supply room and Sgt. Enlow was the first to find out about it. If the air conditioner wasn't issued, wonder what happens to it during inspection.

Capt. Black announced that 9330 will be re-grouped into three detachments — Headquarters and Headquarters Detachment, Detachment A and Detachment B. Detachment A and B are tentatively being further grouped into platoons selected by work loca-

tion. A complete barracks with two television sets is being planned as a Company Day Room.

Cpl. L'Esperance (which means, "The Hope", in French) is still holding out on the grand old army tradition of giving away cigars when promoted. We hope he's telling the truth when he says he's making his own.

She talked in her sleep—so he sent her home to mutter.

Teacher: "If a farmer raises 3700 bushels of wheat and sells it for \$1 a bushel, what will he get?" Student: "An automobile."

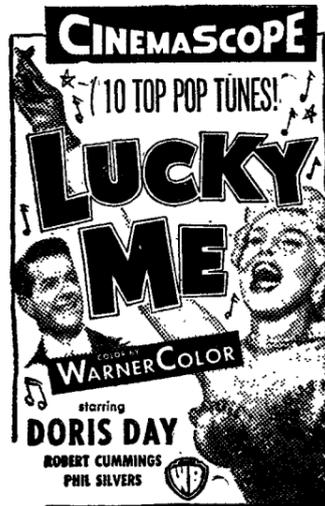

Nagging Wife: "Are you sure you'll love me when I am old and ugly?" Husband (reading paper): "Sure I do."

Why is it that people who don't know whether they're coming or going are usually in a big hurry to get there?

BY HELEN REED

"She has a wonderful sense of humor. She often saves the day when some situation arises and she can see the funny side. It lessens the tension for all of us." Those were Lt. Col. George McBride's words in describing his secretary, Mrs. Paul P. (Carol) Germann.

He said too, that she is most efficient at her job. Even if we know little or nothing about their business over there in the Training Division of OGMS, we'd be inclined to agree with all he said. One can get that impression immediately on meeting her.

The Germanns moved to Huntsville from Nashville the day after Thanksgiving in 1952 when Mr. Germann started to work at the Purchasing and Contracting Division here.

Carol came to work in January, 1952 at OGMS in the Facilities and Services Branch.

This, she found, a wonderful place to learn all about the school, and to get acquainted with all of the people. This is the place where all vehicles were dispatched for the school, and all of the complaints come. The school was young and growing, and work orders poured in.

Phoning people, talking to them in person, filled her days, and she thoroughly enjoyed it as her favorite vocation is knowing and dealing with people. "I love people," she remarked.

Before coming to Redstone, she was employed at Sewart Air Force Base for two years. There

CONSOLIDATED SUPPLY

BY JANE GRAHAM

The return of Spring brings many relapses of Spring fever. For me, it is a year-round ailment. And among the most effective remedies for such are holidays, especially those that fall on Mondays. Some of those who looked perked because of the long weekend are: Mary Lou Hennington and Wesley Fowler who with their families went to Morganfield, Kentucky to visit relatives; Sarah Mathis and family went to Louisville to see her brother; and Ruby Sydnos to Panama City to be with her family.

The following are people who regularly go out of town on their weekends whom I would like to

was a lapse of 11 years previously when she didn't work because she was too busy raising Mary Louise, now 13, and Paul, Jr., now 10.

"I worked in lots of places before I was married. Doctor, Lawyer, merchant, chief, I've worked for them all," Carol told us.

Her husband was in the Air Force for three years, so they lived around the country. He was first stationed at Kenyon College at Gambier, Ohio, then Chanute Field near Rantoul, Ill., and finally Madison, Wis. Between stations, they often came back to Nashville.

After his release from service, the Germann family went to Kansas City where Mr. Germann was sent by the firm employing him. He later decided to accept a job with the Air Force as a civilian officer, and they returned to Nashville again.

Carol attended high school in Louisville, Ky., and Fall's Business College in Nashville.

"I spend my time trying to make my boss and my family happy," Carol explained in reference to her way of life.

The Germanns reside at 219 Crestline Cr., Hillandale, Huntsville. They plan picnics, swimming parties, movies, any entertainment which will include the whole family. They take trips around the area to visit any parks or sites there are to see.

Her son collects marbles, (he now has 700), foreign money, and stamps, so Carol is always on the "lookout" for anything in that line she can add to his collection.

For the past four months, she has been taking a refresher course, too, at the North Alabama College of Commerce.

A full, busy life makes Carol a happy and interesting person to meet.

SERVICE CLUB ACTIVITIES

BY BOB KURTZ

The one main highlight of the week included in the Service Club's schedule of events will take place away from the confines of the Service Club itself.

On Sunday morning at 100 hrs. a bus will leave the Service Club for a tour of Muscle Shoals Dam. The area surrounding the dam is very conducive to the taking of excellent colored and black and white pictures. All photo bugs

should make it a point not to miss this trip but that by no means is meant to deter anyone else from going because it is assured that a good time will be had by all who attend. The only requirement necessary is that you sign up for the trip at the Service Club.

Besides these two offerings for your idle hours, the schedule also includes the Dancing Instruction Class on Tuesday evening, the usual Midweek Dance on Wednesday evening with Bob Yeazell and his Orchestra providing the

music and the TV fight time on Friday evening at 21 hours.

Saturday the Service Club will devote all its energies to the various facilities which are on hand for use. Bridge, shuffleboard, ping pong, pool and badminton will be among the games played to say nothing of the many less strenuous games which will also be available for your participation. Also the club invites your attention to its music room where excellent records and more privacy afford relaxation and pure enjoyment.

On Sunday evening there will be a Birthday party for those of you who were fortunate enough to be born during the balmy month of June. This party is also open to your friends so bring them along and let's have everyone do their celebrating together.

THINGS TO TALK ABOUT

ATHLETE OF THE WEEK

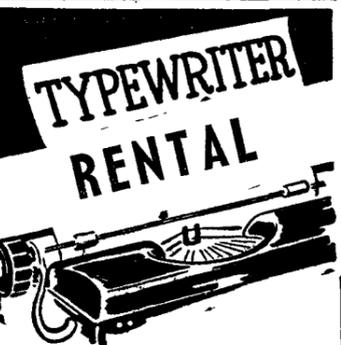

THREE LETTER MAN—Bob "Rip" Collins is a fellow who is at home in almost any sport. As one of Redstone's top hitters, he is also a handy man at right field or first base. During the fall he is the team's top pass-catching end. And the winter finds him putting his six-foot, four inch-frame to work under the basketball nets.

(Photo by SFC Dick Coddington)

ATHLETE OF WEEK IS COLLINS, REDSTONE'S THREE LETTER MAN

BY JACK WOLFF
RSA baseball, basketball or

football—choose your sport— but whichever you choose, you'll find Bob Collins an important team member.

Redstone's triple-threat Collins, better known as 'Rip' to his teammates, is now concentrating on baseball, clipping the horsehide at a .367 pace as regular right fielder for the Rockets. As a specialist in the long ball department, his loose-limbed 6'5" frame is responsible for many Redstone homers, doubles, and triples.

When the baseball season gives way and football enters the scene, Rip will make the changeover from ball-hawking outfielder to pass-snagging end for the Rockets football team. He played four quarter ball as regular end last season with the Rockets—a hard charging defense man and a favorite target for RSA quarterbacks.

Winter will bring to Redstone America's largest crowd getter—basketball. And here again we find Rip Collins a starting member of the Arsenal netmen. As a sharpshooting forward and crowd pleasing floor man, he and cohort Lou Schuessler created a great play making combination last season. Rip is expected to give a repeat this year of his brilliant hardwood performances.

Rip was a three letter man at Aliquippa High in his home town of Aliquippa in Western Pennsylvania. For three years he played varsity baseball and basketball and for two years senior football. He was named Western Pennsylvania's Interscholastic League end in 1951 but his greatest thrill came in the baseball season of that year. "The season's schedule had been pretty rough and when

ROCKETS WIN ONE AND LOSE ONE IN TILTS WITH FT. McPHERSON

The Redstone Rockets scored their most impressive victory of the season in downing Ft. McPherson 3-2 Saturday, May 22. However, the victory-conscious locals turned tails the following day and lost a wide open game to the Third Army team 18-8.

Don Miller won his fourth of the season in allowing the Fort Mac boys five scattered hits. Redstone garnered eight licks, four of them by Benny Cavaliere.

John Wall, whose last pre-Army connection was with the Birmingham Barons where he won three and lost none, was the losing pitcher. He was relieved by Taylor Phillips, who hurled for Atlanta in 1953.

The winning run was scored in the eighth frame by Cavaliere when he scooted home on a single by Paul Muratori.

The pro-loaded McPherson nine showed its power in the second game by smashing out eight runs in the first inning—and adding to that total in every succeeding frame by the tune of two, one, five, one, and two. The game was called off in the seventh because of darkness.

Redstone scored five in the third and three in the sixth. The Rockets mustered nine hits against 14 for McPherson.

Joe Perrotta, a new addition to the squad, was started cold in the second game. Stiff and wild because of no practice, he was relieved in the first inning by van Cott, who lasted until the fourth, when Stoner came in. Schutt finally finished the ball game. The loss went to van Cott.

In an earlier game, Bill Schutt pitched one hit ball to lead Redstone to a 7-0 win over the Huntsville Parkers. Schutt was denied a perfect game when James Mathias, third baseman for the visitors, got a scratch single

RSA Golf Tourney Planned for June 14

A golf tournament for all military personnel is to be held June 14, at the Huntsville Country Club, announced Capt. John Wattendorf of Special Services last week.

The seven lowest scorers of the tourney will be eligible to compete in the Third Army competition at Fort Benning the 10-14 of July.

At the Redstone match, a minimum of 27 holes must be played to compile a player's average, although 36 holes may be played, said Capt. Wattendorf.

Names of all personnel interested must be at the Special Service office before June 7.

we met the Westview High team it looked like it was going to stay that way," he relates. "I was trying to climb out of a hitting slump but the batting averages of the whole team had dropped as we went hitless in the first seven innings. The score was 0-1 as we came to bat in the eighth. The Westview pitcher was nervous with the anticipation of a no-hitter. With two out the batter before me got to first on a Westview shortstop's error. The count was 2-0 when I tagged one just right and started around the bases. I was pretty happy and excited with that homer, but at the same time I couldn't help feeling sorry for that pitcher when I saw the look of disappointment on his face as his eyes followed the ball out of the park."

Rip's work on the basketball floor for Aliquippa High netted him a scholarship to nearby Waynesburg College. He started on the long road to a degree in Medicine at Waynesburg with a pre-med major. For the sake of his scholastic work he dropped football from his athletic schedule and concentrated on basketball and baseball as extra-curricular activities.

Uncle Sam issued the call on March 5, 1953 while Rip was in his second semester of sophomore year at college. The usual eight weeks of basic training was taken at Aberdeen, Maryland. From Aberdeen, Rip came to Redstone to attend the Guided Missile School for 18 weeks. Graduation from school moved him to Plants Area 1 where he now does vital missile research.

Ten months from now, Rip will wind up his Army hitch and go back to civilian life. "Probably back to school, but physical education this time—that M.D. looks too far away."

RSA athletes have prospered over the past year and Rip was one who made it so. While the Army has his contract Redstone will benefit in the three major sports again this year by having Rip Collins in the starting lineup.

in the second inning.

The Rockets got two runs in the third, one in the sixth, and four in the seventh.

Schutt started things in the second inning when he made second on a wild pitch. Schweitzer grounded to third, but a bad play put him safely on second with Schutt on third.

Two more wild throws, following Barone's grounder to second, sent Schutt and Schweitzer home.

In the sixth inning one run was scored when Paul Cruden doubled bringing in Paul Muratori.

In the big seventh, Schutt again started things off, this time with a single to right. Schweitzer walked and Cavaliere bunted to load the bases. Barone got to first on an error, scoring Schutt and Schweitzer. Muratori singled to score Cavaliere, but Barone was tagged at the plate. Cruden hit to center to score Muratori.

Redstone's next home contest will be June 15, when the Rockets go against Ft. McPherson.

Fabricators On Top In Softball League

As the company level softball league advances into the season, the Fabricators lead with 5 wins and 0 losses. In second place is the 9330th A team with 3 wins and 0 losses and the third slot is filled now by the 67th Engineers with 1 win and 0 losses.

The standings are as follows:

	Won	Lost
Fabricators	5	0
9330th A	3	0
67th Engineers	1	0
9352nd TSU	3	2
1st ETD	3	3

9615 TSU	1	3
9330th B	0	1
Thiokol	0	2
Tech. Engineers	0	2

Benning Is Crowned Volleyball Champs

Ft. Benning won the Third Army Volleyball Tournament, held at Ft. McClellan last week, by defeating Ft. Jackson in the finals.

Benning thumped the boys from Jackson 15-5 and 15-3 after losing the first game 11-13. Redstone was eliminated early in the tournament.

Benning had defeated Jackson earlier in the double elimination tournament by scores of 15-2 and 15-4.

After suffering one defeat in the first round of the contest Redstone was knocked out of the running by Ft. McPherson 15-6, 5-15, and 15-4.

Dannenberg to Talk At Seminar Friday

The third lecture of the Technical Orientation Seminar will be held at 8 a.m. Friday at Rocket Auditorium with K. K. Dannenberg as speaker, it was announced by Harry Kottas, secretary of OML councils and panels.

Dannenberg, power plant liaison engineer, GMDD, will discuss "Liquid Rocket Engine Development." The talk will be classified "Confidential."

Admission will be by "lecture clearance cards" available from Kottas in Bldg. A-101, telephone Ext. 2502.

Also, a Rocket Development Laboratory lecture card may be used, Kottas said.

Dannenberg will discuss some of the problems in the development of liquid rocket engines from the first large power plant to those available for present day missiles. He will cover the reasons for differences in today's engines and he will consider some indicated future trends.

NATIONAL PROCUREMENT
BY MARY HANNAH

After a long time no-see, no-hear from NPD, we have a long list of new employees, (God help them) to whom we wish to extend a hearty welcome! Leonard Allison, Wendell Esslinger, Barbara Berryhill, Betty Blasko, Wimbred McCartney, Jane Gregory, Rebecca Young, Reaford Williams, Jonnie Butler, Emma Jean Pilgrom, Esther Phillips, Harold Land, Craig Kennedy, Betty Newton, Cecil Rodgers, Naomi Talley, Jane Nelson, Pvt. Ross Marshall.

NPD will be operated by a skeleton crew when a goodly number of employees leave for various parts of the U.S. on their vacations. June Moss, Betty Newton, LaMerle Clem and Becky Young are as good as in Florida and as a warning to the male population in Panama City, we think these gals are all "out for bear."

Ida Fralick will be sipping mint tea (?) on a verranda in Kentucky.

Johnny King will be in New Orleans over the weekend.

Mel Bubien and Ann Hertz along with their husbands, will spend the weekend in Birmingham.

Major Keyserling will spend the weekend in Tennessee.

James (Pop) Crump and family are in Toledo, Ohio. Nellie Murphy will be in Miami and Key West next week, (when questioning Nellie about this vacation, naturally, the first thing she said was, "we've bought a portable ice-box and are going to eat all along the way." Nelly, better watch that waist line).

Miriam Evans will spend two weeks in June at the Rockie-Bye Lodge near Santa Rosa Island, in Valpariso, Fla. Becky Locke will spend a week in Daytona Beach. Seems as if NPD has been and will be well represented in that good ole land of sunshine.

Vera Kolasa and Clara Durden just returned from Florida vacations. Dot Poorter will be soon leaving for Texas, in fact, she's even counting the minutes. Dot will welcome a new niece named for her, she will also be bridesmaid at a wedding, her husband will be best man, each in different weddings.

Gil Bernstein just returned from a 3 weeks vacation in New York City. Lorene Garner spent a week in Monrovia with her brother, on a furlough from the Army, and I'm sure that the "fatted calf" met his fate.

Nancy Seward had a pleasure trip to Hollywood for 3 weeks,

THAT'S A FACT

The Secretary Bird!

A POPULAR BIRD BECAUSE OF ITS ABILITY TO TAKE ON EVEN THE MOST POISONOUS OF SNAKES AND BEAT THEM TO DEATH WITH WELL AIMED KICKS! FOUND IN AFRICA, IT DERIVES ITS NAME FROM THE PEN-LIKE APPEARANCE OF ITS HEAD FEATHERS.

Not So Rare!

THERE ARE OVER 490,000,000 U.S. SILVER DOLLARS IN CIRCULATION TODAY! THERE WAS A TIME WHEN A MAN SAVED HIS SILVER DOLLARS AS HIS SOLE SOURCE OF INSURANCE FOR THE FUTURE TODAY, WE KNOW THAT PURCHASING U.S. SAVINGS BONDS IS THE BEST INSURANCE FOR THE FUTURE!

You Can Begin SERVING YOUR COUNTRY AS WELL AS YOURSELF WITH A BETTER-THAN-EVER U.S. SAVINGS BOND

driving across the country making all points of interest; the Painted Desert, Petrified Forest, Boulder Dam and last but not least, LAS VEGAS, (maybe that's how she and Bill got the money for the Buick they swapped the Plymouth for).

The Admin. Br. recognizes the fact of their poor memory of names, so when someone leaves they find replacements with identical names, i.e., Mel Bubien—Mel Murphree; Leonard Blaylock—Leonard Allison. The first Mel and first Leonard are going to be badly missed and we wish them all the luck in their new locations. Speak of bad memories, wasn't that Betty T. walking in late the other morning 'cause one of the girls in the Admin. Br. forgot to go by for her?

Girls before going to a hair stylist while on vacation, you'd best get the advice of Vera Kolasa and Jo Goss are giving out. Don't sit down before asking "How much," seems hair cuts are as high in the big cities as is everything else.

Did you ever go fishin' so you could have fried fish and French fries—and wind up with boiled French fries. See G. P. Helms for the recipe and ask Ed Ertl and Cecil Stump and they'll tell you how much they enjoyed them. Speaking of fishin', seems Ed Goss and Ray Werden went fishing and caught three dozen. Don't get excited, men, they didn't catch over the limit. They only came home with seven. The others were so small they had to throw them back in.

NPD personnel are continuing their education—Col. Calvert just

back from attending school at Rock Island (wonder if he'll be able to stay now, or just home for a change of underwear and another box of cigars). Bill Blades is now at Rock Island, and Helen Kirkland will go in June. Holland Sauls is away becoming super-super (wonder how that could be, thought Holland was as super as they come) attending the Supervisory Development Program at Building 713.

Congratulations to Mr. Broadwater for being selected NPD representative on the Civilian Welfare Council, couldn't have been a better qualified person, and we know you will have all our welfare at heart, especially QC's.

Girls if you're interested in seeing the latest in men's apparel catch a glimpse of QC fellows entering the HOSPITALITY HOUSE in an ensemble called "Cricket in Bermuda" with matching knee socks. When will you put in your next appearance, Don Koppel?

Tom Smith, MP Br., is being

OML

BY ANN RICHARDS

Most of the news this week concerns the big holiday weekend which ended yesterday. Among the many trips made was one to Panama City, Florida, by Mary Johnson, Pat Elledge, Juanita Tuck, (OML) with Janis Smith of (Redstone Depot) and sister, Doris of the Ammunition Division.

Colonel and Mrs. Chatfield and their daughter, Ann, attended the graduation of their son, Brad, who is a student at Georgia Military Academy. Brad recently passed examinations for the Naval Academy at Annapolis, Md., and the Military Academy at West Point, N. Y.

Bubs Callaway was matron-of-honor at her sister's wedding in Heflin, Ala., this weekend.

Panama City had four more of our girls spending the holiday weekend on its beaches. They were Melba Hall, Betty Long, Freddie Hancock, and Dottie Floyd.

Dolores Allen and hubby, Neal of GMDD, spent the holidays in Tuscaloosa visiting their parents.

Dorra Test and family are visiting their parents in New York.

Let's all help Vera Smith get rid of those tickets to the Lions Club Festival at Big Spring Park on June 8 through 12. They are going to have wonderful prizes and "fun time" games.

We understand that Ewell Gordon had given up his fishing but we hear tales of his having spent much of the weekend on the river banks. Habits are hard to break,

especially when the fish started to bite, eh Gordon?

Mary Louise Vance of the Technical Library spent several days in Chicago last week when she accompanied her husband to the National Sojourners Convention at the Morrison Hotel. Major Vance was the official delegate to the Sojourners Convention from the Redstone Chapter.

Lois Robertson left last week on a three weeks tour of the western states with her parents. Madga de Beek recently returned from a vacation in Fort Myers, Florida. The Library welcomes to its staff, Mrs. Margarite Watson from Jackson, Miss., and Mrs. Pat West, New York City.

ROCKET DEVELOPMENT LAB
By Chris Cowley

By the time this article gets printed, everyone will be "dragging" into the office as a result of a long weekend; so let's take a peek at a few of the plans and see where most of the "relaxation" took place.

Mr. James said that he hadn't decided where to spend his time off, so maybe he just relaxed at home since he is going on TDY this week.

Mr. Swanson planned to stay at home. Guess he did some more painting on his green house, if he hasn't already finished.

The Payne family is planning to go to the May Day Celebration in Tennessee. Bill says that while there he is going to "just eat."

Fohrell's planned to visit Mammoth Cave. That would be a very nice trip. Hope they made it there and back and didn't get "stuck" like a stalagmite while there.

Chris and Bill Cowley went down Florida way to visit with her brother, who is stationed there in the Marines, and his family, whom she has never seen. (If you see a shiny red nose Tuesday, it isn't Rudolph! it's only me.)

Charles Quarles and family planned to go to Auburn. Auburn is Charles' "Alma Mater," but guess things have changed since he was there!!

We have all heard "fish stories" but to change things, Milburn tells "dog stories." If you haven't heard about his black dog and his rose bushes, you have missed something!! Wonder if the dog went to Mississippi with them for the weekend?

Mrs. Chapman said that she was going to stay home and sew. Her weekend was certainly well spent and she probably feels better than the rest of us.

Bob Richards and Walter Kopcha went to Picatinny Arsenal on TDY, guess their weekend was spent working.

Mr. James, Mr. Swanson, Dr. Bjork, Mr. White, and Mr. Williams are in Dayton, Ohio this week to attend the SPIA meeting.

CORRECTION FROM LAST WEEK'S ARTICLE—K.D. said he was just careful not to make dates for the nights that boxing is on TV.

TECH. & ENGR. DIV.
Anne Baucom

Looking around T & E we notice that Frank Petcher is riding in the car with five girls. The girls are Patsy Rozell, Myron Couch, Eulene Taylor, Daisy Harris and June Hogan. I know that Frank is really happy about this.

We also notice that Rebecca Young no longer works for Mr. Moshkoff in Electronic Branch, but is working in the other side of the building in NPD.

Ruth Cox really got a nice tan

Inspection Team Impressed Here

An inspection team from the Ordnance Field Safety Office on a visit to Redstone last week had some fine things to say about safety practices here.

The team, composed of H. L. Shultz and E. L. Williamson, were particularly impressed with the way they found Bldg. 857, at Range Five.

"It gives you a lift to walk into a building like this," Shultz said. "This building is one of the most orderly that I have ever visited. This is a fine example of a place for everything—and everything in its place."

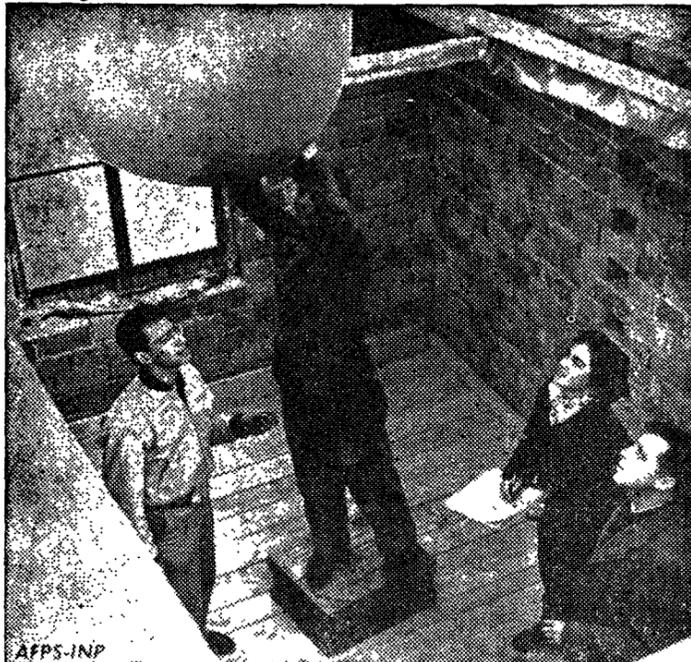

Wilbur Albright, safety officer at Redstone, added this comment to Shultz's report: "This office wishes to commend the supervisor and employes assigned to Bldg. 857 for their interest and acceptance of good housekeeping principles. It is through such efforts that has been demonstrated here that will make Redstone a leader in the accident prevention field."

Arthur Davis is supervisor in charge of the building.

MISNOMERS

New York (AFPS) — Walter Smart and Morton Brilliant flunked their legal lessons in night court. Smart was sentenced to six months for disorderly conduct. Brilliant was held for ignoring 21 traffic tickets.

FREEDOM FLIGHT

Somewhere in Germany four workers aligned with Radio Free Europe chalk up another hoped-for penetration of the Iron Curtain with leaflet-filled balloons. They are about to release one of thousands of free-flight balloons carrying hopeful messages of freedom. This one is destined for Czechoslovakia.

OVER \$161,000 CONTRIBUTED BY THIRD ARMY SOLDIERS LAST YEAR

HEADQUARTERS 3RD ARMY, Ft. McPherson, Ga., — More than \$161,000 was contributed by soldiers of the Third Army Area to charitable endeavors last year, according to Third Army.

The Third Army includes Alabama, Florida, Georgia, Mississippi, North and South Carolina, Tennessee and Fort Campbell, Ky.

"This is the American way of doing things," Chaplain Mitchell W. Phillips, Third Army Chaplain, said. "Service personnel have shown a spirit of love and compassion for those less fortunate by giving in generous measure."

Many contributions for missions, both at home and abroad, were received by Chaplains of the Third Army installations. Large amounts of money as well as

thousands of pounds of clothing have been collected and sent to Korea for the rehabilitation of that stricken land.

Generous contributions were made to the permanent organizations such as the Red Cross, March of Dimes, American Bible Society, Salvation Army and scores of others.

At Fort Bragg, N. C., wide participation was received in a fund to be sent to victims of the floods in Holland, while the Division Artillery Chapel No. 7 at Fort Campbell, Ky., contributed a generous sum to the Indian Mission School, Whitehorse, Yukon, Canada. Catholic personnel at Camp Rucker, Ala., made donations to mission churches in the surrounding civilian communities of Enterprise, Ozark and Dothan, Alabama. Fort Benning Catholic personnel helped support missions in that area also.

A family in France was supported by CARE packages and clothing from the Episcopal Altar Guild at Fort McPherson, Ga., and the Youth Fellowship there similarly supported a family in Spain.

Coal was sent by an adult Sunday school class from Redstone Arsenal, Ala., to local needy people. The Protestant Women's Guild at Camp Stewart, Ga., contributed to the families of two soldiers in an emergency. The 505th Airborne Infantry Regiment, Fort Bragg, N. C., helped care for a former member of the regiment who is a leg amputee

while one Catholic organization at Fort Bragg contributed a sum for the rebuilding of the OLMC Church in New York which had burned.

Chaplain Phillips lauded the abundant and cheerful spirit of unselfishness on the part of the American soldier.

Husband: "You want the new neighbors to think I'm a nosy, meddling busybody?"

Wife: "Well, when they get to know you better, they'll find out anyway."
