

The Redstone Rocket

VOL. V, NO. 10

REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

JUNE 26, 1956

NOT A TOY—The missile test tower shown above loaded with missiles, is not a toy. Valuable information is gained from the study of this structure and other models made in the Graphic Engineering and Models Studies Section of the Army Ballistic Missile Agency. Gerd W. deBeek and Ross Rives are shown operating the crane used to place missiles in the tower. Notice the "midgets" working on the missile at left.

Missile Model Makers Save Lot of Dollars

BY VERA SMITH
Public Information Office

Missile model makers in the Army Ballistic Missile Agency save the government thousands of dollars a year.

Through the molding of both technical and non-technical models the layman, as well as engineers and scientists, can see and study both existing and future missiles.

Additional Pictures Inside

"Missile models are not toys," says Gerd W. deBeek, chief of the Graphic Engineering and Models Section. "From the study of these models we can determine what equipment will be necessary for the construction, maintenance, and transportation of these weapons. Also, what materials will be needed and what size, shape, and weight they should be."

Engineers use these models to aid in the design of missile carriers, mobile launchers and maintenance equipment suitable for travel both on the highways and on the battlefields. The study of these models helps also in the design of future missiles.

Scientists use them during conferences and the models are subjected to flight tests in the wind tunnels.

New employes and military per-

sonnel are introduced to the missile program through the use of these models during orientation.

Scale models of every phase of the missile program are made in this segment of the Army Ballistic Missile Agency.

Sand tables showing the terrain of the Army Ballistic Missile Agency with its streams, roads, railroads, hills, mountains, and wooded areas along with the missile test tower, blockhouse, mobile launchers, cranes, service stations, static test stands, and even people, can be found here.

Information necessary for the drawing of blueprints and writing of specifications is gathered from the study of these models which are made in the Models Studies Unit.

Chief of this unit is Ross D. Rives, son of Mr. and Mrs. Clyde Rives of Lewisburg, Tenn.

Mr. Rives joined the Graphic Engineering and Models Studies Section here in June, 1951. In July, 1952 he was drafted and stationed at Redstone to perform the same duties as a private in the Ordnance Corps he had performed as a civilian.

When he was discharged in July, 1954, he was hired to again perform the duties of his original position.

Mr. Rives is a graduate of Middle Tennessee State College where

(Continued on Page 2)

AIRSTRIPE CONTROL SYSTEM TO BEGIN

Activation by ABMA Is Scheduled Mon.

A ceremony formally activating the Army Ballistic Missile Agency airstrip's newly installed air transportation control system is scheduled at 11 a. m., Monday, July 2.

A new steel-frame control tower was recently erected at the airstrip, housing a new approach controller for use by the ABMA airstrip and also, on a temporary basis until January 1, by the Huntsville Airport, in instrument weather.

A ribbon across the ABMA airstrip will be cut by a plane in which Maj. Gen. John B. Medaris, ABMA commander, will be riding.

Planes from Ft. Rucker, Ala., will fly overhead during the ceremony and then land for an inspection.

CO-OP STUDENTS RETURN TO JOBS

Co-operative students who have been at their respective universities during the past school quarter have returned to their positions in the Army Ballistic Missile Agency and Redstone Arsenal.

Co-Ops returning from Auburn are Bill Chambers, John Watson, Ralph Caner, Tom Tytula, Malory Jackson, Sam Uptain, Ronald Brown, John Gresham, Van White, Jasper Weston, Winfred Couch, Milton Kirkland, John Ball, Troy Plunk, Cecil Gregg, Bob Francis, Jimmie Lewis, Bob Wright, Don Ellis, Main Honour, Bill Mastin, Bill McCann, Al Lutz, George Pope, Clarence Tillery, Joe Castleberry, Jessie Edwards, Dave Snoddy, Charles Darwin, Walt Mitchell, Bill Hooper, Charles Davis, Tracy Jackson, Axel Roth, and Larry Muddock.

Co-Ops returning from Georgia Tech are Bill Clark, Leroy Hall, Bill Burbank, Bob Martindale, Lee Rhodes, Fred Johnson, Otis Bishop, Jim Stover, and Fleming Pruitt.

Co-Ops returning from University of Tennessee are Hoyle Yearwood, Dave Hunt, and Rex Waddell.

New Co-Ops reporting from their respective universities for their first industrial training phase are as follows: Auburn—Vic Ruwe, Furman Furlong, Ken Morris, Sherman Jobe, Don Patrick, J. C. Dunaway (transfer from Brookley Field) and Don McLeroy; Georgia Tech—Cal Dahlke; University of Alabama—Willie Weaver, Patricia Boggs, Pat Espy, and Mirt Davidson; University of Tennessee: Bill Pitcher; and from VPI—Clyde Via.

Civilian Personnel Office Slates Move To Building T-152

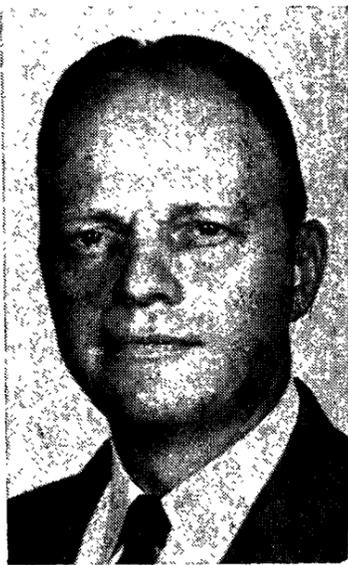

That part of the Civilian Personnel Office and the Redstone Arsenal—ABMA Civil Service Board located in Building W-441 will move to Building T-152 over the weekend of 30 June and 1 July 1956.

In order to accomplish the move in an orderly manner, it is necessary that the office be closed at 1200 hours 29 June until 0730 hours 2 July 1956. All telephones will be disconnected during this period of time and operating segments are requested not to contact the Civilian Personnel Office on official business during this period.

After this move is completed, the entire Personnel Office staff will be located in Building T-152

CONVENTION DELEGATE

Maj. Paschal E. Redding, Jr., (USAR), department head of the Military Intelligence Branch of the Huntsville U. S. Army Reserve School, was delegate for the

HEADS UNITED GIVERS—Louis Grabensteder, Redstone Arsenal civilian executive, was recently elected president of the United Givers of Huntsville and Madison County, Inc. The United Givers Fund campaign will be launched this fall.

EDUCATION LEVEL OF SOLDIERS UP

Arsenal Average Now 13.55 Years

The recent Educational Level Survey of military personnel at Redstone Arsenal, conducted by the Army Education Center, has revealed a new increase in average years of education.

The Arsenal educational average is now pegged at 13.55 years per man.

This excellent figure compares favorably with the average for June 1955—13.11, and December 1955—13.32. This continuing rise is due in large part to the diligent efforts of the Post personnel who are taking advantage of the various educational facilities available to them. By enrolling and completing USAFI courses, attending group study and off-duty college classes, and passing the High School and College G. E. D. Tests, the Officers and EM of the Arsenal are increasing the educational average to a point where it stands virtually unmatched in the United States among Army installations.

Furthermore, they are aiding and improving their own abilities in the process and increasing their chances for promotion and responsibility.

Oberth Marks First Birthday in U. S.

Prof. Hermann Oberth celebrated his 64th birthday and his first in the United States—yesterday. Prof. Oberth, internationally known authority on rockets and guided missiles, came to work at the Arsenal last July.

Alabama Department of Army Reserve Officers Association, at last week's national convention in New Orleans.

CHARLES H. DODGE
To Address Groups

SPACE FILM DUE PUBLIC SHOWING

Rocket, Astronomical Groups Set Meeting

The American Rocket Society, Alabama Section, and the Rocket City Astronomical Association will hold their next meetings jointly next Thursday evening, 23 June, at the Rocket Auditorium at Redstone Arsenal. The time has been set for 8 p.m.

Arrangements have been made with the Provost Marshal's Office to admit without passes interested members and friends of the two societies at Gate No. 1 off Whitesburg Drive starting at 7:30 p. m.

It was felt that the two presentations would be of such timely interest to members of both technical societies and to friends and citizens of North Alabama, that both programs should be combined.

Dr. Wernher von Braun, president of the Rocket City Astronomical Association, will personally introduce the film, "Challenge of Outer Space," a documentary film produced by the Combined Armed Forces of the United States.

This is the first public showing of the film.

Charles H. Dodge, Aerojet project engineer, will give a presentation on the "Aerobee-Hi Upper Atmosphere Sounding Rocket."

Dr. von Braun's film is a formal presentation of his ideas and proposals for the establishment of a manned earth satellite and subsequent space travel. Highlights of the film include illustrations, models, and Dr. von Braun's answers to difficult questions raised by Pentagon officials.

Charles Dodge illustrates his own presentation with a film entitled "The Sky Is No Limit."

Mr. Dodge, a graduate of Stanford University, did his undergraduate and post graduate work in the fields of civil, mechanical and aeronautical engineering. His experience includes three years in the Structures Department of Lockheed Aircraft; and seven years at JPL where his special efforts were directed to the design and development testing of the Corporal thrust chamber.

Dodge joined the Liquid Engine Division of Aerojet-General Corporation five years ago. His activities at Aerojet have included: design studies for liquid propellant JATOS, chemical pressurization systems, cockpit ejection rockets, and Project Engineer for a drone-type mono-propellant rocket engine. Dodge is a member of the Institute of Aeronautical Sciences and the American Rocket Society.

A special feature of the June meeting of the Alabama Section, ARS, is the presentation of money awards to winning high school students who submitted essays on some phase of rocketry. The winners of the awards were:

First Prize (\$50): Thomas Gunter, Huntsville High.

Second Prize (\$25): Anne King, Decatur High.

Third Prize (\$15): Jackie Moon, Huntsville High.

Members of the Board of Awards were: Harold W. Ritchey of Thiokol Corp., and George A. (Continued on Back Page)

PRECISE MINIATURES—Mr. Bill Kaylor (left) and Mr. Ross Rives are shown above preparing miniature launching and handling equipment for missile models. These tiny items are made of plaster of Paris, and are painted to create exact likenesses.

DR. WERNHER VON BRAUN
To Introduce Film

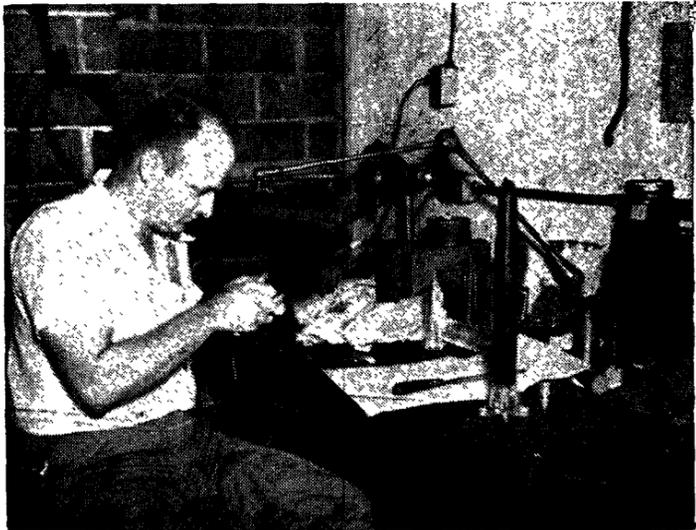

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Tuesday by Jack W. Hoffhaus, Huntsville, Alabama, with exclusive regard for the reader interests of personnel at Redstone Arsenal, in accordance with an agreement between the publisher and the Public Information Office, Redstone Arsenal, Huntsville, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or Redstone Arsenal. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or Redstone Arsenal.

The publisher will receive editorial control for publication in the Rocket only through the Public Information Office, Redstone Arsenal, Bldg. A-101, Extension 2212 or 2704. All advertising copy and payments therefor are received by Mrs. Zillah Newsome, 308 E. Holmes St., Huntsville, Ala., telephone JE-44701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$4 a year, or \$1.75 for six months. Mailing arrangements may be made with the publisher.

COMPLICATED MODELS — The more complicated missile models are made by Clifford Troup in the machine shop in the Army Ballistic Missile Agency. Here Mr. Troup is shown making models of plastic. Other models are made of aluminum, wood, and brass.

ences. Models are molded of plaster of Paris, brass, aluminum, plastic, and wood.

The more complicated models, like those used in the wind tunnel, are made in other segments of ABMA. Data gathered from testing these models is of great portance in the development of pilot missiles.

These test models are made in the Fabrication Laboratory and in the machine shop. Some are made of aluminum, others of brass or other metals being considered for the construction of the hull.

Clifford Troup, machinist in the machine shop is an expert in the field of carving missile models from metal.

Mr. Troup, son of Mr. and Mrs. G. R. Troup of Ardmore, Tenn., is a native of Huntsville. He is a graduate of Huntsville high school and resides with his family at 803 Cedar Avenue in Huntsville.

When new scientific facts, techniques and systems are discovered new drawings and blueprints must be made.

PFC Philip Woodbury from Woodstock, Conn., is one of the many members of this staff who creates the patterns for the missile models, area layout, and missile equipment.

As a draftsman in the Graphic Engineering and Models Studies Section it is his job to outline the pattern for these various phases of the missile program.

He is the son of Mr. and Mrs. Melzar Woodbury, Sr., of Woodstock. PFC Woodbury was stationed here in July, 1955, after successfully completing a nine-week course at Ft. Belvoir, in drafting.

The cost of making missile models is negligible compared to the cost of constructing and launching an actual pilot missile.

"For every dollar spent on scale models, a thousand dollars is saved on pilot missiles," Mr. de Beck says.

Many missile systems, from drawing board to launching site, are worked out in this section of the Army Ballistic Missile Agency before the program is initiated.

Major Arthur Pinkham, Post Signal Officer, and family are vacationing in Maine.

Missile Model

(Continued from Page 1)

he received his Bachelor of Science degree in 1951.

Working with Rives is Bill Kaylor, son of the Reverend and Mrs. L. J. Kaylor, pastor of the Presbyterian Church in Reform, Alabama.

Mr. Kaylor, who has for many years studied and taught ceramics, sculpture, design, and painting is not new at Redstone though

he joined the ABMA staff in February of this year. He was a member of the Mission Planning staff here from 1953 until 1954 when he resigned to teach at the University of Alabama extension in Huntsville. He holds a Master of Fine Arts degree from the University of Alabama.

Rives and Kaylor create models of the various structures and phases of the missile program from plaster of Paris using tiny lathes, brace and bits and other small mechanical devices to obtain the exact details. The models are hand painted to create complete likenesses.

Models created for lectures, orientation, and displays are not built to scale. Scale models are used to show field employment. They are classified and only used for classified lectures or confer-

IN SPORTS CAR COMPETITION—Chuck Saffell, Gillfillan representative on the Arsenal, will drive his 2.9 Ferrari with 12-cylinder V-type engine in the Second Annual Courtland (Ala.) Sports Car Races on July 1. A number of other Arsenal civilians and servicemen will participate in the competition.

ARSENAL PERSONNEL ENTER AUTOS IN COURTLAND SPORTS CAR RACES

The Second Annual Courtland Sports Car Races will be run on July 1 this year at Courtland, Ala., approximately 20 miles west of Decatur. As before, the Alabama Region of the Sports Car Club of America is providing the program in cooperation with the Athens Lions Club and the North Alabama Motorcycle Club.

These same groups produced Alabama's first sports car races at Courtland last year and plan to better that program which was considered highly successful for a first effort. Early indications point to about twice the number of last year's entries with the in-

clusion of several highly potent racing machines such as D Type Jaguars, Ferraris, Porsche Spiders, Allards, Arnolt-Bristols and Kurtis sports cars.

With these entries in mind, the race committee has eliminated three turns from the course in order to provide a mile long back straightaway where very high speeds may be developed. This move should also reduce the excessive tire wear which was a problem last year when many of the faster cars used three sets of tires during the weekend of practice and racing. However, the

course still includes ten turns of 45, 90, and 140 degrees to test the brakes and handling qualities of the cars.

Among the improved facilities for spectators are plans for installation of bleachers along the straightaway and better communications to keep spectators fully informed of interesting developments as the races progress.

The schedule of races is as follows:

10:30 a.m. — Production cars under 1500 c. c. displacement and modified cars under 1300 c. c. displacement.

11:45 a.m. — Production MG's not exceeding 1300 c. c. displacement and production Volkswagens.

1:00 p.m. — Production cars over 1500 c. c. displacement and modified cars over 1300 c. c. displacement.

2:30 p.m. — Women's race.

4:00 p.m. — Feature race, all classes.

The day before the races will be devoted to registration, technical inspection of cars and practice on the course.

A number of civilians and servicemen from Redstone Arsenal will participate or act as officials at the races. Chuck Saffell, Gillfillan representative, and his wife, Audrey, are both officials and contestants. Chuck's 2.9 Ferrari is regarded as the car to beat for overall honors. W. K. Mayfield, Industrial Division, will be a pit crewman with the Ferrari. Dan Gates and Francis Pixley of ABMA with Lt. Chet Langley of OGMS are building a 750 c. c. special based on Crosley components which they hope to race. Lts. Ken Myers and John Atchley will assist Leith Potter, Chief Pit Steward. In addition to these, several other Arsenal employees not yet assigned will be active in communications, technical inspection, etc.

Headquarters for the race will be in Decatur.

Putting freshly laundered bed linens at the bottom of the drawer and using those at the top is one way to preserve the life of your linens. They need the rest between uses.

7,300 Rockets — 16,000 Readers

cently discharged, came here from Alaska. Now, SP2 Parker is about to ship out for Alaska, probably to treat sick pet polar bears.

We scouted around for old campaigners to interview, but found only a number of ancient US's with unpublishable comments. Couldn't find any birds, either.

Why do they keep the mess hall door locked on the South side?

A flurry of parades has hit us already, and two more seem to be heading this way rapidly. Immediate leave is contemplated by some. Cowards! . . . TDY, anyone?

A mass exodus from the barracks will soon take place. Msrs. Messer, Powell, and Shreve, who are all more or less married, will move off post. Surprise your wife. Show up at breakfast in fatigues. Then try to convince her to let you back in the house.

ESSAY CONTEST WINNERS FETED BY SOJOURNERS

The National Sojourners, Redstone Chapter 353, met recently at the Redstone Arsenal Officer's Open Mess for the purpose of honoring the winners of the Sojourner's Essay Contest on "What America Means to Me."

Major Arthur Pinkham, president, presented engraved silver loving cups to Peggy Mullins of Huntsville High School, first place winner, and to second place winner, Harry Johnson, Huntsville High, and Betty Ann King, Hazel Green School.

Following the presentation, Captain J. F. Hosemann, Jr., chairman of the Americanism

Committee, read Miss Mullin's first place essay to the audience. Guest speaker for the occasion was the Rev. George F. Hart, who talked on "Americanism" from a spiritual standpoint.

The judges for the contest were Capt. Loren Lieke, Assistant Inspector General, Redstone Arsenal; Capt. Elvin D. Arnoldy, Medical Supply Officer, RSA Hospital, and Specialist 3d Class Jerome M. Giner, Adjutant's Division, Redstone Arsenal.

FABRICATION LABORATORY BY LUCILE EZELL

"Do not hurry, do not worry. As this world you travel through. No regretting, fuming, fretting. Ever can advantage you. Be content with what you've done; What on earth you leave undone.

There are plenty left to do. Wonderful advice if one would but heed it. Too many people keep trying to carry the world on their shoulders and just can't let 'George' do it. However, for some reason there aren't plenty left who will do our job, so we will carry on as correspondent, as Pvt. Ken Luther has gone to work at the Test Stand and our Lab. hasn't taken time to elect a new reporter.

Have you heard that our drawing administration supervisor, Mrs. Carolyn Nolte, has accepted a position with the United States Treasury Department in Austin, Texas? Carolyn is leaving us to join her husband, Bill, who is attending the University of Texas. Bill will major in Mechanical Engineering, finishing his bachelors and later receiving his master's degree. While at Redstone and ABMA, Carolyn held positions both in the Training Branch of Civilian Personnel, and in Feb. Lab. where she made many friends, she frequently expressed her feelings for her fellow workers in her articles in our Rocket. Having illness and deaths in her family back in Texas, which caused her to be absent from work, and an extremely heavy work load in addition, it was necessary to relieve her, at least temporarily, from the responsibility of writing the Fab. Lab. Column for the Rocket. In her articles, Carolyn never failed to express her feelings of affections for the friends in the Lab. and in her leaving says she feels that she is leaving a well-loved place and many friends. She sends a feeling of deep appreciation for such knit-cooperative people, and that she considers them friends rather than, 'Associates-at-work.'

Carolyn received the following

awards while at her work here: Folding Block to fold blueprints, easier, quicker and neater — \$10.00.

Destruction by shops of unclassified blue prints too dirty, torn, etc. for reuse instead of breaking them up return them, to Drawing Administration having to destroy them—\$10.00. Scratched Drawing chargeout card to eliminate wasted time inserting and retrieving cards from the typewriter—\$10.00. Also suggestion adopted but no award made for misspelling on the backs of the Redstone Badges corrected.

The Noltes were both born in Texas and are happy to be returning home, where a nice three-bedroom house with two baths, and other modern conveniences will take the place of their 28-ft. trailer. They also have garages for both the Packard and Jaguar. Carolyn tells me, they have plenty of room and a little Radar device tuned in on Fab. Labbers. "Any Fab. Labber, who comes within two-hundred miles of Nolte's Manor' and veers off course gets a warning shot across the bow of their car." We are certainly sorry to have Mrs. Nolte leave; however, we are fortunate to have Mrs. Gloria Pickett replacing her in the drawing room.

STILL ANOTHER TRAVEL-OGUE OF INTEREST... From Frankford Arsenal in our midst is William C. Depsch of Philadelphia, Pa., now located in Tool Engineering Section. James Seabot hails from Decatur, Georgia, Calvin Bailey (NO—NOT—JACK BAILEY, on Queen for a Day program, girls) comes from Syria, Georgia; Leonard T. Moore is from Chattanooga, working in Tool Engineering Sec. along with Mrs. Syble Vines, of Arab, secretary to Tool Eng. Section and replacing Mira Kinnermer, who due to illness had to leave us for a while.

MODELS & FIXTURES SECTION, W. V. Mounts office, has George W. Shamblee, from Aniston Ordnance, somewhat akin to ole LONESOME GEORGE GOBEL — Our Huntsville girls, Miss Martha Jo Patton and Miss Carole Roberts, are temporary employes in Wilson's office and our Drawing room until their clearance, then they will go to work with Power Plant & Booster Unit, supervised by Max Siebigerth. Max is fortunate to have the big boy — Jack Freeman, Engineer, who hails from Birmingham, our big steel city; Mrs. Faye Johns travels from Killen, Alabama and works as secretary to Walter Crumpton of Planning Unit of our Lab. Faye is another one of those Lauderdale County girls that rides with employes from Rogersville, that little town that

can boast more girl employes at the Redstone Arsenal than men employes.

Mary Roberts comes to us from Field Service Division. Mary is an Athens girl and is now secretary to Phil Yohannan of Advanced Planning Unit; Albert R. Hughes is from Warrior, Alabama. You will locate Samuel C. Black, Jr. in Mr. Bailey's office. When you call on John Cresap you will see R. E. Key, who is a Weidinger Engineer, and Herschel C. Do s, Engineering Aide and a Co-op student. The girls with the pleasing personalities in the front office are: Mrs. Judy Vaccaro, from Albuquerque, New Mexico, and Miss Barbara Watson of Scottsboro, Alabama. To all of you, we extend a hearty WELCOME.

OUR MILITARY... Thomas Sandercock will receive his discharge 19 June 56. The Sandercocks will return to Pennsylvania. Tom will be missed and especially so in Dick Taylor's office, Fuselage Unit. Goodbye is being said to another of Fuselage Unit's employes, Gene Cowie, receiving his discharge to return to the University of Michigan, after receiving his degree will return to work for Chrysler. On 12 June our Fred Harthoff received his discharge and returned to Toledo, he says to "Work for the 'Ole Man'. We of the Lab. send best wishes to Y-O-U A-L-L!

OUR SICK — Eugeal Brooks, secretary to Robert Paetz, remains ill at her home in Athens. Mary F. Couch has been absent, due to her David's accident on the farm (run-away team). Mrs. Vi Jennings remains ill, at her home; she works in the Power Plant & Booster Unit. May the best of health return to each of you.

OUR TALENTED EMPLOYEES — Be on watch for a new record, probably a ROCK & Roll Tune, from our talented "Hill William,"

TESTING — This week's Rocket Pin-up, Miss Jennie Quick of the Transportation Office, seems to be telling the world something. Actually, she's just trying out the life-guards megaphone in a playful moment at the post swimming pool. This was like old times to Jennie, who only a couple of years ago was a cheerleader at Fayetteville High School. (Photo by Howard Gates.)

EIGHT MEMBERS OF OGMS COURSE APPOINTED WARRANT OFFICERS

Eight students at the Ordnance Guided Missile School have been appointed Warrant Officer, Junior Grade.

They are William H. Little, Jr., Roy F. Eichenauer, Roger T. Eneyart, John E. Blair, Charles L. Jones, Charles Salvo, Raymond S. Ferry, and Frank Lorenz.

WO Little entered the service in 1950 and served in Germany from 1951-1954. A former self-employed gunsmith, Mr. Little is married to the former Fleata E. Beasley of Greensboro, North Carolina. The couple has three children, and lives at 46 Polk Drive, Huntsville.

WO Eisenhower, holder of the Silver Star, Bronze Star, Purple Heart and Combat Infantryman Badge, has seven years overseas service to his credit since entering the service in 1940. He is married to the former Kathleen J. Stocking of Dorset, England. The couple has two children, Diane, age 11 and Shirley, age eight, and lives at 213 A Bufington Road, Huntsville.

WO Eneyart served with the 2nd Marine Division from 1942-1946 after entering the service in 1937. Originally from Ione, Washington, he is married to the former Thea Speck of Lewiston, Idaho. The couple lives at Joe's Trailer Park, Masten Lake Road, Huntsville.

WO Blair, originally from Owatonna, Minnesota, served in the South Pacific during WW II and in Korea from 1950-1952. He and his wife, the former Sonia Mary Stacy, have one child, Eugenia Marie, age one, and live at 102

West Pine Street, Huntsville.

WO Jones comes from Nantoga, Pennsylvania and is married to the former Hester A. Stier of Berwick, Pennsylvania. The couple has one child, Charlene Louise, age one, and lives on Route 5, Huntsville.

WO Salvo, who has served in Europe for four years since entering the service in 1942, holds the Bronze Star Medal and Combat Infantryman Badge. He is married to the former Orena Hinton, of Livermore, Kentucky. The couple, which has three children, lives at 412 Hof Circle, Huntsville.

WO Ferry entered the service in 1940 and has spent tours of duty in Europe, Korea and Okinawa, the latter coming just prior to his assignment to Redstone in 1953. Married to the former Irene Marie Sandy of Philadelphia, the couple has two children and lives at 1310 1/2 Meridian Street, Huntsville.

WO Lorenz had four years of duty in Korea to his credit prior to his assignment at Redstone last year. He is married to the former Frances Lanois of Ft. Eustis, Virginia. The couple has two children and lives at Kramm's Trailer Park, Huntsville.

North Ala. Cost Accountants Win Honors at Meeting

The North Alabama chapter of the National Association of Cost

Accountants ended the competition year thirteenth among the 129 chapters in the nation, it was announced by Rawn Brinkley, assistant secretary of the national headquarters in New York.

A banner, emblematic of the achievement of 13th place, was presented to chapter president Frank E. Donilon, Jr., of Tusculum, at the annual banquet held on Wednesday, June 27, as part of the program of the 37th International Cost Conference in Chicago.

The North Alabama chapter was tied with New Orleans for thirteenth place. First place in the nation went to the Birmingham chapter, with Philadelphia in second place.

S. A. Veatch, Redstone Arsenal, President-elect, attended the convention in Chicago, along with 12 other members from the North Alabama chapter.

PROMOTION—First in his outfit to get promoted is Chief Warrant Officer Quentin R. McCarthy (second from left) who rose from WO Junior Grade to Chief in the 217th Field Artillery Missile Battalion (Redstone) at the Guided Missile School. Flanking McCarthy are the three original members of the 217th, Lt. Colonel Glenn P. Elliott (left), Major Lawrence E. Stenstrom (second from right), and Captain Winfred G. Stevens. WO McCarthy entered the service in 1941 and served in the North African and Caribbean Theaters for three years during World War II. He was appointed WO Junior Grade in November 1954. Originally from Panama City, Florida, he is married to the former Eloise Ammons of Westville, Florida. The couple lives at 282 Redstone Park and has two children, John, age eight and Linda, age five.

Mr. and Mrs. Art Stambough have returned from a two-week vacation at St. Petersburg, Fla.

Chances are that most gardens in Alabama will need watering during dry spells which normally come in June.

Cost Accountants Directors Assigned Duties By Veatch

Assignment of responsibilities to directors of the North Alabama chapter of the National Association of Cost Accountants was announced by president-elect Stanley A. Veatch of Huntsville at the June meeting of members of the old and new boards of directors in Decatur recently. Duties of the newly elected directors are: member attendance, Hubert E. Burleson, Decatur; education, Claude H. McBride, Jr., Decatur; employment, Hugh P. Henderson, Sheffield; meetings, Peyton W. Drake, Huntsville; membership, Howard W. Gifford, Tuscumbia; newsletter, Robert N. Stephen, Decatur; publicity, Frank W. Hayes, Huntsville; program, Frank J. McLaughlin, Jr., Decatur; publications, James G. Thomas, Huntsville.

Mr. Veatch asked the directors to nominate individuals to serve as associate directors and team captains.

Frank E. Donlon, Jr., of Tuscumbia, retiring president, expressed his appreciation for the co-operation he received from the chapter during the past year.

The secretary, Morton D. Prouty, of Florence, was delegated to write a letter congratulating the South Florida chapter on its establishment.

Directors meetings were scheduled for July 9 and July 23.

PVT. JAMES R. WHITE

Pvt. White Named OGMS Honor Student

Private James R. White of Louisville, Ky., has graduated as Honor Student from the Guided Missile Propellants - Explosive Specialist Course at the Ordnance Guided Missile School.

Pvt. White achieved a final grade of 92 and an academic rating of "Excellent" for his work during the eight week course.

A graduate engineer from the University of Louisville, Pvt. White worked as an engineering staff trainee at the Goodyear Tire and Rubber Co., Akron, Ohio, prior to entering the service and taking basic training at Ft. Leonard Wood, Missouri, in January.

The son of Mr. and Mrs. James H. White, 417 Chicopee Street, Louisville, Pvt. White is a member of the American Chemical Society; Sigma Tau, honorary engineering fraternity; Sigma Pi Sigma, honorary physics fraternity; and Omega Delta Kappa, honorary activities fraternity.

BY JOE JONES
Public Information Office

Citing a "growing restiveness" over the heavy burden being carried by the U. S. taxpayer, Brig. Gen. Herbert D. Vogel has called on military engineers to provide "the most defense for the fewest dollars."

The chairman of TVA's board of directors, speaking Wednesday night before the Huntsville Post of the Society of American Military Engineers, said the American people are now carrying the "greatest peacetime tax load in history."

"Most people consider this money well spent, but there is a growing restiveness at this tax load," he said. "There is an increasing pressure to reduce taxes and in the face of this, military engineers must provide the most defense for the fewest dollars."

He added: "In the past years the American government has gained firmer ground, and the national prestige has been improved. But the people are still wanting a tax reduction."

Gen. Vogel pointed to the reduced Tennessee Valley Authority budget as one example of economy effected "without impairing service."

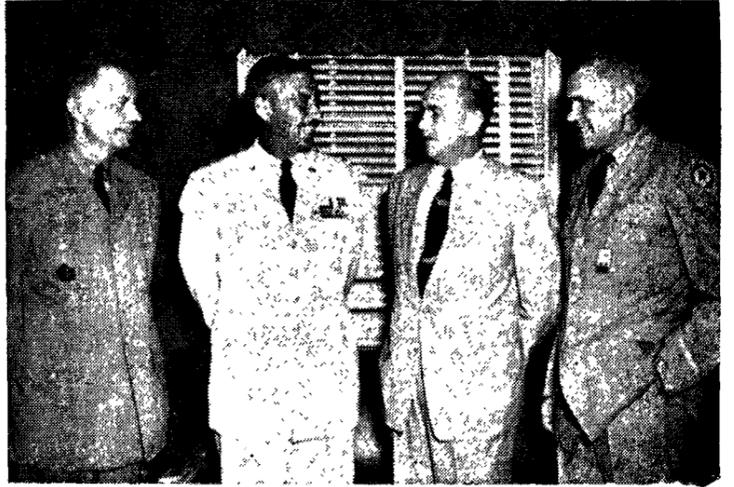

The TVA chief listed the economy and efficiency issue as one of the major challenges facing the military engineer.

He also urged the group to help "maintain our progress" in the training of young engineers and to be "patient and calm in the face of urgency."

This country, the speaker said, is falling behind Russia in the production of engineers. "We must spread the gospel, tell young men and women about the advantages and challenges of an engineering career."

Commenting on the mission of the arsenal, Gen. Vogel said, "I wish the public could see what you're accomplishing here. It cannot, but you will receive personal satisfaction from your work—and no reward is greater than this."

The speaker was introduced by Col. A. H. Lahlum, assistant engineer of the Mobile District, U. S. Corps of Engineers, who is

GEN. VOGEL VISITS REDSTONE — Brig. Gen. Herbert D. Vogel (rot.), chairman of the board of the Tennessee Valley Authority, addressed members of the Huntsville Post, Society of American Military Engineers last week. Shown above at the meeting are Col. Duncan Hallock, chief, Army Ballistic Missile Agency engineering office; Maj. Gen. John B. Medaris, ABMA commander; Gen. Vogel and Col. A. H. Lahlum, assistant engineer, Mobile District, U. S. Corps of Engineer. (Photo by Carl Pickens)

temporary president of the group. Over 100 men, military and civilian, engineers and non-engineers, attended the meeting, held at the Officers Open Mess.

It was the second meeting of the newly-formed Huntsville Post. Another session is scheduled next month to adopt a constitution and by-laws and hear a report from the nominating committee.

**Toastmasters Club
1932 Marks Birthday**

The first anniversary of its organization was celebrated Tuesday night, June 5, by Redstone Toastmasters Club No. 1932 at its regular meeting at the Officers Club.

Honorary memberships were presented during the evening to Brig. Gen. John A. Barclay, deputy commander of the Army Ballistic Missile Agency, and Col. Henry S. Newhall, commandant of the Ordnance Guided Missile School. Mrs. Barclay and Mrs. Newhall were also guests of the club.

Past president pins were presented to Capt. Joseph Hosemann, Jr., and Lt. Col. Roy C. Brewer. Maj. Marvin D. Parker received a president's pin.

Topic for the meeting was

**Square Dance Club
Organization Eyed;
Meeting Set Thurs.**

An organizational meeting will be held in the Twickenham Hotel, Thursday, 28 June, at 2000 hours for the purpose of setting up a square dance club in Huntsville.

It is important that all square dancers and those who think that they may be interested in square dancing attend this meeting, since it is planned to adopt a constitution, elect officers, set the day of the week for the regular meetings, etc. Following this there will be a dance, with particular emphasis on introducing the newcomer to the dance—no previous experience will be necessary.

The dress is up to you, but most of the dancers wear Western togs, or sport clothes, to get in the spirit of things. Tight skirts and high heels are definitely not recommended.

If you are interested and can't come to the meeting, drop a card to F. M. Eslick, 1908 LaFayette, Huntsville; give your name, address, telephone number, day of week that you would prefer for regular meetings, and state whether you have danced before.

**Acceptance Inspect'n
Classes Begin at
Frankford Arsenal**

PHILADELPHIA, Pa., June — The first of a series of special instruction classes in Acceptance Inspection opened in Frankford Arsenal recently and will continue for the next year.

Brig. Gen. Joseph M. Colby, Commanding General of the Arsenal, welcomed the class. Speakers were Francis C. Crotty, Chief of Training of OCO, and E. G. Paterson, Director of Quality Assurance of Bell Laboratories.

Through the medium of the study courses followed by the classes it is expected to establish electronic assembly standards of workmanship for the entire Ordnance Corps.

ATTENDS CONFERENCE
Stanley A. Veatch, president-elect of the North Alabama Chapter of the National Association of Cost Accountants, is attending the 37th annual International Cost Conference in Chicago, June 24 through 27.

"General Questions About Married Life." Cup winner was Maj. Wilford Mellors. Other speakers were Maj. Daniel F. Breedon and John Monroe. Critics were Web Mayfield, Maj. Raymond Hansotte, and Bob Smith. General critic was Jim Keat. Table topic chairman was Maj. George D' Louhy, and toastmaster was Ed Lawrence.

Brig. Gen and Mrs. H. N. Toftoy and son "Chuck" are vacationing in Florida this week.

**SFC DANIEL
RETIRES HERE**

The day after it was official, Sergeant First Class Henry C. Daniel received the word at Redstone Arsenal that he was retired.

This was Sgt Daniel's second tour at Redstone where he first served in 1950. Then, he went to Korea where he earned four bronze battle stars on his theatre ribbon. He asked to come back to the arsenal when that duty was ended.

Sgt. Daniel has been a member

of the 291st Military Police Company which guards the guided missile arsenal.

He has put in more than 20 years with the army which he first joined in 1934 at Ft. Benning Ga., his home state.

During his service, Sgt Daniel has earned the good conduct medal with three loops.

Upon his retirement, the sergeant was awarded a certificate for exemplary service by the commander of Redstone Arsenal, Brig. Gen. H. N. Toftoy.

Sgt. Daniel and his family will continue to reside at Redstone Park.

Space Film

(Continued From Page One)

Henderson and David H. Newby, both of Redstone Arsenal. Mr. Thomas P. Glynn, Chairman of the Essay Contest Committee, will present the awards.

The seating capacity at the Rocket Auditorium is 400. So come early. The meeting is unclassified.

Miss Bonnie Young, secretary in the Executive Office, left last Wednesday to visit Lou Schuessler, Jr., and family in Easton, Pa.
