

Industrial Security Council to Meet Here

Redstone Arsenal will be host this week to 75 members of the Southeastern Industrial Security Council in a three-day conference representing the Army, Navy, Air Force, and private industry.

George McClain, an under-secretary in the Office of the Secretary of Defense, Washington, D. C., will be the principal speaker. He is Assistant Director in the Office of Personnel Security Policy.

An industrial security program is relatively new in the security field. The council is concerned with clearance methods of individuals employed by private concerns engaged in defense work. The Department of Defense participates to put the entire program in the three services on a common footing.

The main purpose of the conference is to promote uniformity in the interpretation of regulations and in procedures directly affecting industry.

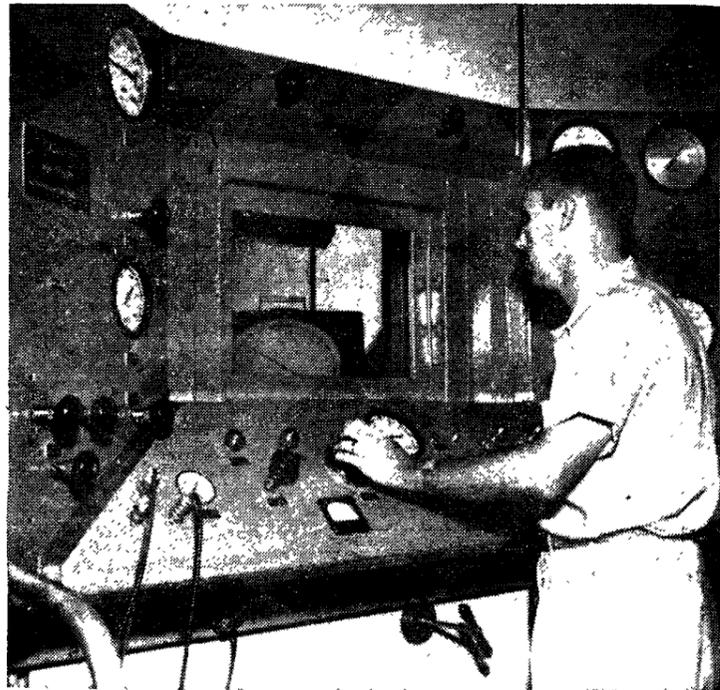

Explanations of investigative procedures used in the Air Force will be made by Maj. W. R. Bellamy of 6th District; in the Navy by J. M. Chucknow of the 6th Navy District; and in the Army by Capt. S. A. Fragge of 3rd Army.

T. E. Anthony, from Robins Air Force Base, is the Council's chairman. He will open the conference in Rocket Auditorium Thursday morning.

After a welcome address by Gen. H. N. Toftoy, members will go on an extensive orientation tour of the Arsenal, ABMA, and the Guided Missile School. Friday will be devoted to committee reports and business sessions.

PERFORMANCE PLUS PERSONALITY PAYS! — Gen. H. N. Toftoy presented Mrs. Charlotte J. Forrester, an invaluable secretary-stenographer in Research and Development Division, with an award for sustained superior performance, accompanied by a check of \$200, in his office Thursday. Mrs. Forrester's 201 file is loaded with letters of appreciation from her superiors for work performed swiftly, accurately, and cheerfully under stress and a heavy work load. "Go see Charlotte" is common advice among her fellow workers when problems arise, and "Can I borrow Charlotte?" a frequent query from other supervisors. The presentation was arranged by Frank Holmes, Incentive Awards. Left to right are: Gen. Toftoy, Mrs. Forrester, Howard Forrester, her husband, from Consolidated Supply, and Harry F. Vincent, her immediate supervisor. (Photo by Kellar)

HIGH PRESSURE TESTING — Jim Allen (above), chief of the Systems Pneumatic and Hydraulics Unit of the Analysis and Reliability Laboratory, is shown testing a missile valve in a test chamber constructed by the men in this laboratory. High pressure testing is one of the many fast and economic ways scientists in the Army Ballistic Missile Agency have found to detect defects in missile parts.

Graduate Study Courses For Fall Named

Dr. A. B. Moore, Dean of the Graduate School, University of Alabama has announced the on-Arsenal courses to be offered as a part of the Graduate Study Program for the Fall Quarter September 17th to December 11th.

Mathematics 126 — Partial Differential Equations — which includes expansion of orthogonal functions, separation of variable methods, eigenvalues, heat, wave, potential equations in various coordinate systems. Green's functions and Laplace transforms. Prerequisite: Differential Equations. Classes will meet on Monday and Wednesday from 5:15 to 7:15 p.m. with the first class meeting on 19 September in Classroom No. 1, Bldg. T-152.

Physics 131 — Intermediate Electricity and Magnetism — which includes electrostatics, elementary theory of dielectrics, magnetostatics, metallic conduction, thermoelectric effects, elec-

tronic forces, induced electromotive forces, moving charges, introduction to Maxwell's equations. Prerequisite: Integral Calculus. Classes will meet on Monday and Wednesday from 5:15 to 7:15 p.m. with the first class meeting on 19 September in Classroom No. 5 in Bldg. T-152.

Mechanical Engineering 201 — Fundamental Thermodynamics — which course is designed to further the graduate students' knowledge of thermodynamics. Prerequisite: Graduate standing or consent of the instructor. Classes will meet on Monday and Wednesday from 5:15 to 7:15 p.m. with the first class meeting on 19 September in Classroom No. 6 in Bldg. T-152.

Engineering Mechanics 204 — Advanced strength of materials — which is a continuation of MH 161 and includes the analysis of

(Continued on Back Page)

GEN. MEDARIS ADDRESSES CLASS

OGMS Graduates 5000th Student; Honor Falls to Captain Brooks

The Ordnance Guided Missile School reached a milestone in its four-year history Friday by graduating its 5,000th student.

The honor fell upon Capt. Herold E. Brooks, Jr., who received congratulations from Maj. Gen. John B. Medaris, commanding general of Army Ballistics Missile Agency who delivered the commencement address, and Col. Henry S. Newhall, commandant of the school.

Capt. Brooks, a 1946 graduate of the U. S. Military Academy at

West Point, was the fourth man to receive his diploma from among eight graduates of the ten-week Ordnance Guided Missile Operations Officers Course.

Capt. Brooks will remain at the school as an instructor in the Collective Subjects Division.

Col. Newhall, who introduced Gen. Medaris, noted that, "Today is a milestone in the history of Ordnance Guided Missile School. We have come a long way from March 7, 1952, when we started

our first course at the school with seven officers. Today we graduate our 5,000th student."

General Medaris, who cautioned the graduates not to lock themselves in an ivory tower, and concern themselves with only one phase of ordnance activity, but to be "both a technician and an operator . . . a doer and a planner," also awarded the Association of the United States Army Medal to Capt. John C. Fischer, who finished at the head of the class as honor student with an academic rating of "Superior."

General Medaris gave the graduates "what I consider to be the finest piece of advice I ever received in a single sentence . . . There is no I in ordnance . . . I ask that you remember it, particularly in that little understood meaning involving the unselfish devotion of an ordnance officer to the needs of the armed forces.

"The only purpose of existence of the Ordnance Corps is to serve the line troops. We have the distinct privilege of sharing with other professions of outstanding importance, such as the ministry and medicine, the responsibility of not doing things for ourselves, but for doing them for others . . . We must not forget that this is both a privilege and an obligation."

SYSTEMS PNEUMATIC, HYDRAULICS UNIT DETECTS FLAWS IN MISSILES

Located in a small building in the Army Ballistic Missile Agency is a small group of test engineers and inspectors who play a vital role in the building of guided missiles at this installation.

There are the members of the Systems Pneumatic and Hydraulics Unit of the Systems Analysis and Reliability Laboratory.

The efficiency of the "eyes" and "brain" of the guided missiles built here depends on these highly-skilled men, for it is their job to detect flaws in missile parts before the monsters are fired.

By being placed under terrific high pressures and frozen to sub-freezing temperatures, the valves, switches, and other intricate parts

are tested and inspected thoroughly. They must be perfect before they are sent to the mechanics who actually put the jig-saw puzzle together, says the Chief of the Systems Pneumatic and Hydraulics Unit, Jim Allen.

The body of the missile, also, is brought to this laboratory to be filled with water or pressurized with air to reveal any cracks or holes there might be in the mighty shell.

With speed and accuracy these engineers test hundreds of items no larger than your hand and some more delicate than a piece of jewelry.

(Continued on Page 2)

THE MONEY MEN — Financial matters is an everyday topic of conversation among all men—but not on quite as large a scale as when these three gentlemen got together recently at an Army Ballistic Missile Agency Orientation Conference. They are, left to right, Lt. Col. W. J. Durrenberger, Chief of Financial Management Office, ABMA; W. W. Storey, Ordnance Comptroller, Washington, D. C., and Samuel Hassman, Office of the Deputy Chief of Staff for Logistics, Washington, D. C. (Photo by Kellar)

'PENCILS-FOR PUPILS' DRIVE TODAY

Tomorrow (Wednesday, September 12) will be "Pencils for Pupils" Day on the Arsenal.

There are small children in Huntsville and Madison County who began the trek back to school unable to buy the pencils they need. The Arsenal has been invited to help collect used pencils for these students.

A volunteer worker from your division will come by and ask you to clean out your desk of all those short pencils which you no longer use, and give them to needy pu-

pils.

A conference of volunteer workers, one from each division, was at Civilian Personnel. Each one was to receive a jar labeled "Pencils for Pupils," which you will see displayed for collection.

Make a search at home, and bring all the pencil stubs you can find. Some school child will be glad to get them.

Frank Holmes, Incentive Awards, and Foster Haley, Public Information Officer, are co-chairmen of the campaign.

Joint Birthday, Back-to-School Party Held

A joint birthday-going-back-to-school party was held by Susie Clark, Bonnie Dill, Lucey Elliott and Jane Raber in the Clark's back yard recently.

Susie, Lucey and Jane had birthdays. Susie and Jane are going to St. Mary's on the Mountain in Tennessee this semester.

After a barbecue supper, the hostesses and their guests went to the Officers Open Mess for a juke box dance from 8 p.m. until 11 p.m. There they cut the birthday cake and served Cokes.

The guests included Jeanne Nickerson and her brother Charley, Mike Shinkle, David Hallock, Diane Parker, John Gasper, Elaine Waswall, Ginny Seigler, Tommy Hooper and Graham Campbell.

Tech Materials And Equipment Branch Has Dinner, Dance

Nearly a hundred employes and guests of the Technical Materials and Equipment Branch, Hq. Commandant, ABMA, enjoyed a dinner and dance last Friday night at the Huntsville Elks Club.

for the men with Lt. M. H. Krackov second and Major Rudolph Axelson low.

Host and hostess for the next meeting on September 17 will be Major and Mrs. L. G. Ewalt.

Dr., Mrs. Shook Host Couples Bridge Club

Members of the Couples Bridge Club met last Tuesday (Sept. 3) night at the Officers Open Mess with Dr. and Mrs. Burton Shook as hosts.

Mrs. Whitt Compton had high score for the ladies, with Mrs. Rudolph Axelson second and Mrs. M. H. Krackov low.

Lt. J. B. Humphrey won high

CREDIT UNION SEEKS MEMBERS

Credit Union officials have announced that they are soliciting new members for the Redstone Arsenal Federal Credit Union.

At present the amount in the treasury makes it desirable to extend more loans.

Some of the reasons people borrow money, it was pointed out, are: financing new cars, furniture, clothing, or military uniforms.

In four and one-half years, the Credit Union here has built up over a million dollars in assets.

It was established to serve all civilian and military personnel here as well as certain other ac-

tivities stationed at Redstone Arsenal. For further information call Extension 2856.

CERTIFICATE OF ACHIEVEMENT—Chief Warrant Officer Donald A. Donah (center) is presented a Certificate of Achievement upon completion of 20 years service, by Col. H. S. Newhall (right), Commandant of the Ordnance Guided Missile School. At left is Lt. Col. Everett M. Amos, Commander of the Electronic Training Detachment at OGMS where Mr. Donah was a NIKE track radar instructor.

CWO DONALD A. DONAH RETIRES FROM ARMY AFTER 20 YEARS SERVICE

Chief Warrant Officer Donald A. Donah, who served at the Ordnance Guided Missile School since April 1955, retired from the Army Friday after more than 20 years service.

CWO Donah, who will make his home in Culver City, California, was a member of the Signal Corps Electronic Training Detachment, attached to OGMS. He was a NIKE track radar instructor in

the school.

A native of Plattsburg, New York, he graduated from Plattsburg High School in 1935 and entered the service in August 1936.

Since then he has served at Plattsburg Barracks, Pa., Fort Totten, N. Y., Fort Hamilton, N. Y., Fort Monroe, Va., Camp Davis, N. C., and Fort Bliss, Texas, as well as putting in two overseas tours of duty in Germany from

March to July 1945 and from March 1952 to March 1955.

His last previous tour prior to being assigned to OGMS was as Brigade Radar Warrant with Headquarters, 34th AAA Brigade, Germany.

Among the decorations he is authorized to wear are the Good Conduct Medal with two loops, American Campaign Medal, Bronze Star Medal, World War II Victory Medal, European - African-Middle Eastern Campaign, Army of Occupation Medal (Germany) and the National Defense Service Medal.

An avid softball fan and player, he captained the Seacoast Branch, Artillery School team which won the Sixth Army championship in 1948 and was player-manager of the Army Field Forces Board No. 4 team which won the Fort Bliss title in 1951.

The son of Mr. and Mrs. Arthur Donah of 28 City Hall Place, Plattsburg, he is married to the former Mildred Johnson, daughter of Mrs. P. C. Johnson, Sr., and the late Mr. Johnson, of 4837 Beloit Avenue, Culver City. CWO and Mrs. Donah have two children, Paul, age 12 and David, age seven.

It's the little things which break up marriages—little blonds, little brunets, little redheads.

SERVICE CLUB SCHEDULE

Tonight the Missilemen and Missilemaids are scheduled to practice at the Post Service Club.

Tomorrow night Charlie Lyle and his orchestra will be on hand for the Wednesday night dance. Girls are being encouraged to join the Junior Hostesses, a service organization that also joins in the fun on dance nights or other scheduled parties.

Thursday night the Bridge Club meets at 7 p.m. There will also be bridge instructors on hand to help beginners.

Friday night at 7 p.m. pinocle is scheduled.

Fishing and a picnic at Gunterville Dam is scheduled for Saturday at 1 p.m. The register for this event is in the Service Club now.

Coffee and donuts will be waiting for the men who rise at about 9 a.m. Coffee Call on Sunday morning is at 9:30 a.m. followed by an hour of music. An evening

Mechanic: "Lady, I've found the trouble with your car. You've got a short circuit in the wiring."

Lady: "Well for goodness sake, lengthen it."

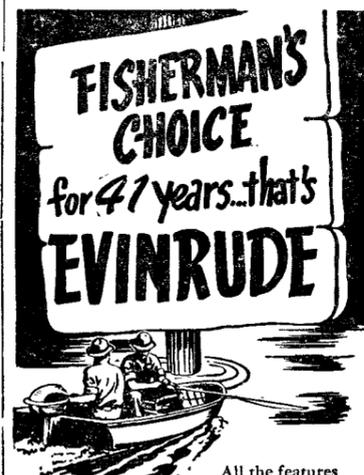

Too many of us spend money we haven't earned to buy things we don't need, just to impress a lot of people we don't like. —Anvil Chorus.

Thin-skinned grapefruit, heavy for its size, is likely to be more juicy than fruit with a coarse or puffy skin.

7,800 Rockets — 16,000 Readers

of games begins at 8:30 p.m. Monday night a square dance will be held at the Service Club beginning at 7 p.m.

REDSTONE DEPOT
By WANOPHUS (Pronounced
One of Us)

All rested, with hard work as our aim
Back from the Labor Day week-end we came.
In Corinth, Miss. with relatives to see,
Eleanor Hardin was busy as could be.
Also cruising down Mississippi ways
Went A. A. Stewart for a few days.
"Clevie" Hayes is way up North To South Dakota he went forth.
Annette Sturgill on the Florida coast
Acquired quite a tan of which she can boast.
Back on the job and now well Is James Huskey, who's been sick for a spell.
W. G. Irvin in his new red car Didn't get to go very far,
For he ran out of gas as he rounded a bend.
And for his boss he had to send.
Delauris McDaniel took off on a trip —
To Washington, D. C. she did skip.
"Gene" Smith traveled to South Alabama,
While Lloyd Elledge on his new house did hammer.
Wilburn Dickey journeyed to Kentucky —
At the horse races we hope he was lucky.
These Depot people we wish to commend,
For their corpuscles they did lend.
James Harris, William Smith, and Ernest Gurley
Arrived at the bloodmobile

OH, FOR THE LIFE OF A PHOTOGRAPHER! — George Tames (that's George at left), New York Times photographer who spent last week on the arsenal taking photos for a forthcoming Times pictorial feature, reluctantly (haw!) dragged himself away from his more serious duties to assist arsenal photographer Carl Pickens pose this week's Rocket Pin-up. Mr. Tames, a man who enjoys his work, agreed that Miss Maurice Tiller really didn't NEED anybody to tell her how to look pretty. A native of Decatur, Miss Tiller works in the Management Services Branch, Control Office, Army Ballistic Missile Agency.

attend either the Limestone County Fair, September 10 thru 15, or the Madison County Fair, September 24 thru 29, will be proud to see the Depot display of the Corporal Missile among the attractions.
Among those returning from trips this week were — Wilton C. Neely, who visited friends in Memphis, Tennessee, Wilburn H. Dickey from two weeks of National Guard Camp and Mrs. Grace Bailes who traveled with her daughter to the Smokey Mountains to see "Unto These Hills." Also returning from vacation was Clifton Saxon who journeyed to Cincinnati, Ohio.
The Depot was happy to have Colonel O'Keefe, Deputy Post Commander, as a visitor. Barron Currin from Civilian Personnel gave an informative talk on the new Performance Appraisal method to the Depot supervisory personnel.
The Depot Safety Committee was organized last week for the purpose of coordinating the overall Depot Safety Program and maintaining a continued interest in the Safety Campaign at all levels of supervision throughout the Depot. To date two meetings have been held by the committee, composed of; Howard F. Calder, James T. Hill, James D. Maples, Herman Schrimsher, Wilburn H. Dickey, Bevil O. Patterson, John L. Leak and Harold W. Vander-Veen. Representatives of the Arsenal Safety Office attended the meetings and rendered a great deal of assistance in setting up the organization. The Depot has had

Joseph C. Moquin To Address SAM

Joseph C. Moquin, chief of the Management Survey Branch of ABMA, will be the speaker for the September program of the North Alabama Chapter of the Society for the Advancement of Management.
The meeting will be at 6:30 p.m., Wednesday, Sept. 12, at the Russel Erskine Hotel. Mr. Moquin's topic will be "Engineering Approach to Organization."

an outstanding safety record for the past five years and it is hoped that committee activities will not only maintain but also improve our excellent safety record.

Attending a three-day conference at ABMA on supply control recently were George D. Reed and Dave Stephenson. Opal Cribbs and John L. Leak will leave soon for a week's training in safety at Jefferson City, Indiana. Journeying South for a vacation will be Annette Sturgill, no training involved.

We in the Depot would like to take this opportunity to personally commend Mr. Williams and Mr. Bates of Budget and Analysis for the outstanding services they have rendered the Depot in budgeting operations. Ingenuity, judicious planning and work on their part have helped us accomplish our mission in the most efficient manner possible.

Let's all give — 100 percent.
* * *

During the past week we were happy to welcome to the Depot family new employees, Joyce A. McLendon and Frances S. Smallwood. Joyce will be working in the Surveillance Office and Frances will be an attractive addition to the Ammunition Storage Branch. To Ladye Kathryn Leonard, a new stenographer in the Procedure Shop, we wish to give a late but hearty welcome.

The stork which had been hovering over the George Reed household for several days alighted August 23 with a nine pound eleven ounce boy, Rodney Bradford — congratulations to proud father George whose candy and cigars were enjoyed by all. "Gus" Woodard puffed up such a cloud of cigar smoke that it still hovers over his desk.

Depot personnel wish to express their sympathy to Mr. J. A. Brown of the Surveillance Office in the death of his sister.

ROHM & HAAS CHEMIST TO DELIVER PAPER AT CONFERENCE IN PENNA.

Dr. Fred Hawthorne, physical-organic chemist at the Redstone Arsenal Research Division of Rohm & Haas Company, has been invited to deliver one of the 11 papers to be presented at the Sixth Reaction Mechanisms Conference to be held at Swathmore, Pennsylvania, Sept. 12-15.

The Reaction Mechanisms Conference are held biennially and attract top men in the field of reaction mechanisms from the United States, England and France. Attendance is by invitation only and is limited to 150. Speakers are chosen on the basis of important contributions to the field during the two years preceding a symposium.

The symposia were initiated in 1944 by chemists interested in reaction mechanisms to provide a conference where ideas and information could be exchanged in an informal atmosphere. Among the originators were Professors P. E. Bartlett of Harvard, H. C. Brown of Purdue, and S. Winstein of U. C. L. A.

Dr. Hawthorne's paper is entitled "The Re-examination of the Baeyer-Villiger Reaction Using Trifluoroperoxyacetic Acid." The Baeyer-Villiger reaction was first observed in 1899 by Baeyer and Villiger, both outstanding German chemists, and has been used as an occasional synthetic tool since. It provides a simple direct path from ketones to esters, many of which are unobtainable by other

more conventional means. Many of the exotic esters supplied are useful as synthetic intermediates in other reactions and can be converted to acids and alcohols which are used as pharmaceuticals, polymers, resins, and insecticides.

From a kinetic standpoint the Baeyer-Villiger reaction presented a challenge because of its unique course, and high selectivity with regard to the ester produced. Each reaction has two possible products which should be produced in equal amounts, but the reaction was found to give predominant amounts of one ester. Dr. Hawthorne's work has given a clear explanation for this peculiar behavior.

Dr. Hawthorne received a B. A. in chemistry from Pomona College in 1949 and a Ph.D. in chemistry from U. C. L. A. in 1953. He spent a year as research associate at Iowa State College, and joined Rohm & Haas in 1954. He is the author of over 20 papers in the field of reaction mechanisms

IRE to Hear Talk On 'Transistors' At Meeting Tonight

"Transistors" will be the principal topic of discussion tonight at a dinner meeting of the Institute of Radio Engineers at Steadman's Restaurant, having as a visiting speaker Abraham Ko-

DR. FRED HAWTHORNE

SCUTTLEBUTT

"Whom do I apologize to?"

He: "Why does the average girl prefer beauty to brains?"

She: "Because the men that can see outnumber those who can think."

"Your wife says you can't keep anything from her."

"She's mistaken. I have a quarter inside the lining of my vest at this very moment."

Military Hunters Plan Meeting on Obtaining Permits

Hunting season opens on October 1. Anticipating this, the military sportsmen who wish to hunt on the reservation are scheduled to meet at the Post Theater on Oct. 17 at 4:30 p. m. to discuss procedures for obtaining permits for hunting and fishing. Lt. Col. O. M. Hirsch will pre-

side over the meeting.

Further information about hunting and fishing can be obtained from Sgt. Buford Harrison in Room 14 at the Provost Marshal's building, No. 1021. Sgt. Harrison's phone extension is 3000. The hunting and fishing permits are issued from his office.

A man went into a store and bought a golf ball. Clerk: "Shall I wrap it?" Customer: "No, I'll drive it home."

blenz, a widely known authority on the subject. Mr. Koblenz, an active IRE member, has had extensive experience in the field of transistor development, and is the author of numerous papers on the subject. He is also co-author of a book entitled "Transistors."

The growing importance of transistors and semi-conductor devices in modern electronics makes Mr. Koblenz's topic a very timely one, and his presentation is expected to be highly interesting and informative to all who have an interest in the field of electronics. The pre-meeting dinner will be served a-la-carte at 6:30 p.m. Those unable to attend the dinner are urged to attend the meeting which will follow at about 7:30. Visitors are cordially invited.

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Tuesday by Jack W. Hoffhaus, Hartselle, Alabama, with exclusive regard for the reader interests of personnel at Army Ballistic Missile Agency, Redstone Arsenal and Ordnance Guided Missile School in accordance with an agreement between the publisher and the Public Information Office, Redstone Arsenal, Huntsville, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or Redstone Arsenal. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or Redstone Arsenal.

The publisher will receive editorial content for publication in the Rocket only through the Public Information Office, Redstone Arsenal, Bldg. A-101, Extension 2212 or 2704. All advertising copy and payments therefor are received by Mrs. Zillah Newsome, 308 E. Holmes St., Huntsville, Ala., telephone JE-44701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$3 a year, or \$1.75 for six months. Mailing arrangements may be made with the publisher.

AIR FORCE GENERAL VISITS — Maj. Gen. D. N. Yates (left), commander of Patrick Air Force Base at Cocoa Beach, Fla., is welcomed to the Army Ballistic Missile Agency by Maj. Gen. John B. Medaris, ABMA commander. Gen. Yates was at ABMA for an orientation session recently. The Air Force Missile Test Center, which is under his command, is the site of many test firings of guided missiles developed at Redstone Arsenal and ABMA.

Detects Flaws

(Continued From Page One)

Some are placed under 1,000 lbs. of pressure per square inch, others under 3,000 to 5,000. Specific valves, which must carry liquid oxygen, are tested at minus-315 degrees Fahrenheit by using liquid nitrogen. Valves that tend to shrink or bind at this temperature would be no good in the stratospheric altitudes.

It's a dangerous operation, no matter which testing is being performed, but there has never been an accident — not even a minor one — at this test laboratory.

The creative ability of these engineers, too, has furthered the interrupted guided missile program here. For instance, they constructed their own test equipment and chambers to detect all types of defects in guided missile components, and one of the guided missile inspectors, Robert Merrell, ingeniously devised a "fixture" for testing the main gate valves which control the "heart" of the missile.

These and other constructive contributions to the Ordnance Corps guided missile program have saved valuable time and reduced the cost of this phase of

MONEY-SAVING PROCEDURE — W. E. Gibbons, chief, Acceptance Branch, Industrial Division and E. A. Schwerdtfeger, analyst, Management Division, are shown viewing a procedure Mrs. Helen Kirkland completed as a project for a course she attended in Procedure Analysis. The procedure prescribes a method for controlling budgetary requirements that will save the Arsenal approximately \$2,300 annually.

MAJ. DOTSON HEADS ARSENAL'S NEW FIELD MAINTENANCE OFFICE

MAJ. RAYMON S. DOTSON

Major Raymon S. Dotson has been named chief of the newly formed Field Maintenance Office here. Announcement of this appointment was made recently by Brig. Gen. H. N. Toftoy, Redstone Arsenal commanding general.

Headquarters for the new office is located in building 1032, off Patton Road, previously ammunition line 8.

The new office is established with mission for repair of Ordnance, Engineer, and Signal equipment as authorized by the Deputy Chief of Staff for Logistics for the Chief of Staff. The Field Maintenance facilities will be under four roofs; a missile shop, Inspection and Production

the Army Ballistic Missile Agency's research and development operation.

ar, radio telegraph and carrier equipment, teletype and photograph instruments, special purpose power units, fixed plant electrical equipment, Army-Air Corps Signal equipment and Transportation Corps boats.

Major Dotson, a native of Indiana, was raised by his grandparents, Mr. and Mrs. Edmon Lee Dotson of Ft. Wayne, Ind. He is a graduate of the North Side high school at Fort Wayne and attended the University of Maryland in College Park, Md. During his school days, Major Dotson excelled in track and pole vaulting and enjoyed model building and art.

Since he entered the service in August 1940, he has served two tours of duty in Europe and one in the Far East. He was Chief of the Automotive Division at the Ordnance Stock Control in Orleans, France, prior to his assignment to Redstone Arsenal.

Major Dotson is married to the former Miss Marianne Mullander of Eynatten, Belgium, who is a former American and German movie star.

Courses Named

(Continued From Page 1)

beams on elastic foundation, bending of thin plates, contact stresses, inelastic behavior of beams and various buckling problems. Energy methods are applied to some problems. Prerequisite: Advanced strength of Materials (MH 161). Classes will meet on Tuesday and Thursday from 5:15 to 7:15 p.m. with the first class meeting on 20 September in Classroom No. 1 in Bldg. T-152.

Physical Chemistry 242—Chem-

ical Kinetics — which is a study of reaction rates and mechanisms in homogeneous and heterogeneous systems. Prerequisite: Physical Chemistry (142). Classes will meet on Tuesday and Thursday from 5:15 to 7:15 p.m. with the first class meeting on 20 September in Classroom No. 5 in Bldg. T-152.

Mechanical Engineering 171 — Nuclear Reactor Engineering — which includes the fundamental aspects of Nuclear Physics, Reactor Analysis, Reactor Instrumentation and Control, Shielding, Health Physics, thermal aspects of Reactor Systems and descrip-

tion of several Nuclear Reactor Systems. Prerequisites: Credits in Math, Chemistry and Physics normally required for an Engineering Degree. Classes will meet on Tuesday and Thursday from 5:15 to 7:15 p.m. with the first class meeting on 20 September in Classroom No. 6 in Bldg. T-152.

All classes meet in Building T-152 (Civilian Personnel, RSA) which is located in the "Old Troop Area" off Patton Road about 1½ miles north of Gate 14. Registration should be done at the University of Alabama Center Office at Butler High School (4 Lane Drive) from 9 a.m. to 8 p.m. on either Monday, 17 September or Tuesday, 18 September.

SCHEDULE POST THEATRE

Sat., Sept. 8 — Walt Disney's "Song of the South" with Ruth Warrick, Bobby Driscoll and James Baskett.

Sun., Sept. 9, and Mon., Sept. 10 — "The Ambassador's Daughter."

Further information pertaining to the Graduate Study Program may be obtained by calling Arsenal Ext. 3530 or Huntsville JE 6-1596.

ter" starring Olivia De Havilland, John Forsythe and Myrna Loy.

Tues., Sept. 11 — "A Cry in the Night" with Edmond O'Brien and Natalie Wood.

Wed., Sept. 12 — "Private's Progress" with Ian Carmichael and Richard Attenbrough.

Thurs. and Fri., Sept. 13 & 14 — Jeff Chandler and Dorothy Malone star in "Pillars of the Sky."

Sat., Sept. 15 — "Gun Brothers" with Buster Crabb, Neville Brand and Ann Robinson.

She answered the \$64 question: When her husband said, "What do you think I am — man or a mouse?" and she replied, "You're a man. I'm afraid of mice."
