

Anti-Missile Systems Office Set Up

ARSENAL GETS SAFETY AWARD — For the first time in five years the three agencies located at Redstone Arsenal have received the Ordnance Corps' Certificate of Merit for Safety. Maj. Gen. H. N. Toftoy accepted the certificate for 1956 on behalf of all three commanders from Brig. Gen. George W. White, Office of Manpower chief, last week. Left to right are: Stuart H. Jones, RSA Civilian Personnel Chief; Gen. White; Gen. Toftoy; Col. Keith T. O'Keefe, deputy commander at Redstone; and Henry C. Dyer, deputy safety officer.

Col. Collins To Head Unit

The establishment of the Redstone Arsenal Anti-Missile Missile Systems Office was officially announced Monday afternoon by the Department of the Army.

The new office, located in Bl. A-156, will be headed by Col. Matthew R. Collins, who will also continue in his present capacity as director of the Research and Development Division—Ordnance Missile Laboratories.

Initially the office will be manned by five officers and 19 civilians. Three officers and 15 civilians will be transferred from the R&D Division, one officer and three civilians from the RSA Industrial Division, and one officer and one civilian from the RSA Field Service Division.

The Anti-Missile Missile Branch of Projects Management Staff will become an integral part of the new office, and is moving to Bl. A-156 from its present location in Bl. 715.

Redstone's Air Defense Labs continue their work as an independent operation.

GEN. MEDARIS GETS OAK LEAF CLUSTER TO LEGION OF MERIT

The Oak Leaf Cluster to the Legion of Merit was to be presented by Army Secretary Wilber Brucker to Maj. Gen. J. B. Medaris at a military review Tuesday afternoon at Ft. Leslie McNair, Va.

The award was given for Gen. Medaris' services as commander of the Army Ballistic Missile Agency from February, 1956, to October, 1957.

The citation hailed his "dynamic leadership and initiative, technical ability, and eminent skill in combining the work of science and industry which has resulted in the eminently successful Jupiter missile."

CORRECTION

Maj. Andrew J. Draper was incorrectly identified in last week's issue of The Redstone Rocket as the Commissary Officer. Maj. Draper is actually the Post Quartermaster. The Rocket regrets this error in identification and is happy to correct it.

Ordnance Safety Award Is Presented to Post

FIRE SIRENS WILL 'SOUND OFF' POST PROGRESS IN UGF

The Arsenal's fire sirens are sounding off at noon each day to report the installation's progress in the United Givers Fund drive. Each blast represents \$1,000 contributed to help with the community-building programs of the 17 agencies in the Huntsville-Madison County UGF.

This auditory method of reporting will continue until the installation's goal of \$94,000 is reached. "When you hear the sirens, you should rightfully feel proud of your part in lending a helping hand to those in need," says C. W. Huth, chairman of the executive committee for the drive.

32ND ORDNANCE DET. CELEBRATES FIRST BIRTHDAY

The 32nd Ordnance Detachment, a "Jack of all trades" unit assigned to the Ordnance Guided Missile School, celebrates its first birthday Tuesday, Nov. 5.

The unit, a Nike missile direct support organization, with a present strength of 40, was activated for many purposes.

Attached to the School's Unit Training Center, it has a primary mission of performing maintenance on the Nike missile and integrated fire control systems assigned to UTC.

(See 32ND ORD on Page 2)

12 SOLONS DUE

Congressional Housing Group to Tour Post Wed.

A delegation of 12 Congressmen, all members of the Subcommittee on Housing of the House Banking and Currency Committee, will tour Redstone Arsenal, the Army Ballistic Missile Agency, and the Ordnance Guided Missile School on Wednesday, Nov. 6.

A Certificate of Merit for Safety for 1956 has been awarded the three agencies located at Redstone Arsenal by Lt. Gen. E. L. Cummings, Chief of Ordnance.

Maj. Gen. H. N. Toftoy accepted the certificate for all three commanders from Brig. Gen. George W. White, chief of Ordnance's Office of Manpower, in a brief ceremony in his office last week.

During 1956 the civilian man-hours at the Arsenal increased 17 per cent, and at the same time the accident frequency rate declined 17 per cent.

Military personnel and activities increased during 1956 eleven per cent, while the accident rate was reduced 22 per cent.

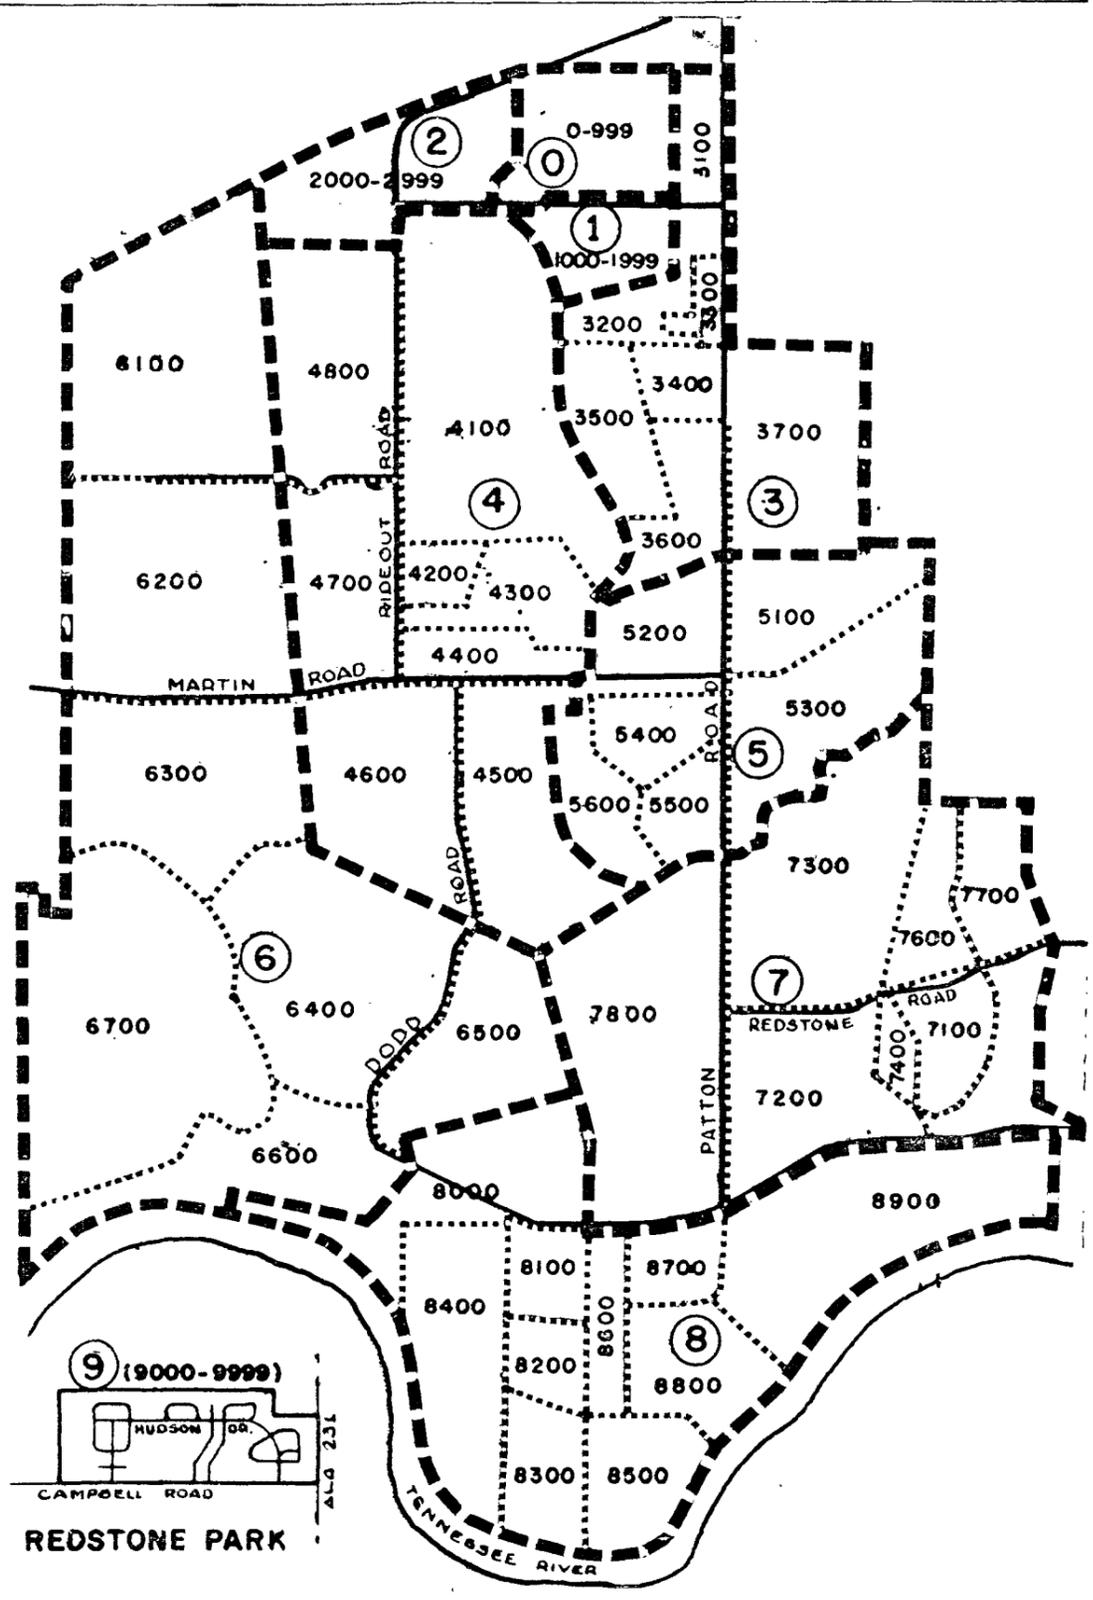

Contractor personnel increased 20 per cent, with no change in the accident frequency rate over the previous year.

The mileage of motor vehicles was up by 40 per cent, while the accident rate dropped by 30 per cent.

"This reduction in the accident rates was achieved while operations were increasing and when new personnel were employed," Gen. White said in making the presentation.

"This is indeed considered to be an outstanding achievement in the field of accident prevention, and one for which Redstone Arsenal, the Army Ballistic Agency, the Ordnance Guided Missile School, their commanders, and all employees should feel exceedingly proud," he said. "Your activities are varied and hazardous and being of a research nature, there do not exist standard codes and regulations which can be easily adopted to your operations."

W. E. Albright is safety officer for Redstone Arsenal.

SAVE THIS MAP — The Rocket prints this map to help make the transition easier when the Arsenal's new building numbering system becomes effective Nov. 15. The post is divided into 10 major sectors, which are indicated by the heavy broken lines. The major sectors are divided by the smaller dotted lines. In the lower left corner of the map is an inset of the Redstone Park, which is also included in the new numbering system.

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Wednesday by Jack W. Hoffhaus, Hartselle, Alabama, with exclusive regard for the reader interest of personnel at Army Ballistic Missile Agency, Redstone Arsenal and Ordnance Guided Missile School in accordance with an agreement between the publisher and the Public Information Office, Redstone Arsenal, Huntsville, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or Redstone Arsenal. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or Redstone Arsenal.

The publisher will receive editorial content for publication in the Rocket only through the Public Information Office, Redstone Arsenal, Bldg. A-101, Extension 2212 or 2704. All advertising copy and payments therefor are received by Mrs. Zillah Newsome, 303 E. Holmes St., Huntsville, Ala., telephone JE-44701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$3 a year, or \$1.75 for six months. Mailing arrangements may be made with the publisher.

Col. Patterson Tells Women's Defense Group Impact of Missiles on Warfare

The impact of guided missiles and nuclear weapons on warfare was explained last week by Col. C. G. Patterson of the Army Ballistic Missile Agency to the National Women's Advisory Committee of the Federal Civil Defense Administration.

The Committee met in the Mayflower Hotel in Washington, D. C., to hear Col. Patterson who is chief of the Department of the Army Staff in the Missile Agency.

"We are in the midst of a technological revolution in warfare," we can control this revolution, we Col. Patterson observed. "Before must first understand it. Today we are in the early stages of a new age of intercontinental range, super-sonic speed, and destructive power measured in terms of megatons and megadeaths."

Col. Patterson emphasized that the changes in warfare caused by new weapons means that the "decisive margin of strength will belong to the side possessing superior mobility, communications, destructive power, and abundance of skilled manpower with which to exploit the effectiveness of these systems."

"Western civilization," he added, "can no longer afford the luxury of international disunity in which we were able to indulge as long as the West enjoyed ascendancy over the East. The Eastern world is rapidly mastering the know-how of technology which has been one of the primary secrets in promoting our industrial growth, assuring national strength

32ND ORD

(Continued From Page 1)

It must also furnish a certain amount of instruction to other units assigned to UTC, besides having to furnish personnel to conduct technical and tactical training tests.

On top of this, the unit must maintain a model direct support shop for the other units to use as an example, and must furnish instructional materials in support of the School's Officer Training Division.

Besides all these various missions, the 32nd is the School's demonstration unit, charged with the responsibility of conducting missile and equipment displays for visiting dignitaries, State Fairs, special celebrations, and similar affairs.

The unit was formed under the command of CWO Henry D. Arrott. It is presently commanded by Lt. Charles P. Morris, while CWO Arrott remains as executive officer.

and underwriting Western military power."

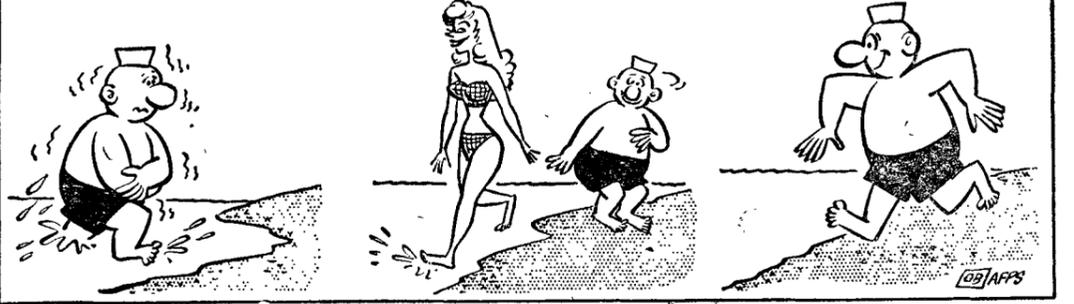

Col. Patterson said there is no technological reason to preclude development of missiles traveling at many times the speed of sound with ranges such that they can reach any place in the world in a matter of minutes.

"We would be forgetful of our American heritage," he remarked, "if we were to accept the philosophy that there is no defense in this day of missiles and that we should give up without struggle to the insidious inroads of international communism."

SNAFU

The returning soldier started up the gangplank of the San Francisco-bound transport. A cute little pet skunk was in the man's arms.

"Hey, soldier!" barked the Checking Officer. "You can't take that skunk down in the troops' hold with you! Think of the odor!"

"Oh," oh'd the G.I., casually, "he'll get used to it!"

"How long have you been working in this warehouse, soldier?"

"Ever since I saw you coming in the door, sir!"

Thiokol Rocket Motors Claim Reliability Record of 97.5 Pct.

BRIGHAM CITY, Utah — In actual flight tests, large long-

range missiles powered by Thiokol solid propellant rocket motors are claimed to have achieved a 97.5 percent reliability record.

These figures were disclosed by J. W. Crosby, president of Thiokol Chemical Corporation during the company's formal opening of its new Utah Rocket Division near here.

Although solid propellant motors have long proven themselves in smaller rockets and guided missiles, this flight performance record is believed to be the first conclusively established for large solid engines powering missiles approaching the IRBM and ICBM class.

A pioneer in solid propellant rocketry, Thiokol first broke the "size barrier" for large solid propellant motors with its successful engine for General Electric's RV-A-10. To date, 130 engines developed in this size or larger have been fired. Ninety static tests were completely successful, said Crosby. In forty actual flight tests, only one missile failure was partially attributed to the rocket engine.

Crosby pointed out that the missile most extensively proven in flight tests has been the 3-stage Lockheed X-17 developed for the Air Force as a test rocket for its ICBM program.

TIME magazine has cited the X-17 as a strong contender for all presently known speed and altitude records, even though the figures are not confirmed officially. The X-17 is said to have reached a speed of over 9,000 MPH and an altitude of 600 miles

—higher than the initial orbit height of Soviet satellite.) Soviet satellite.)

Thiokol developed and produced all the solid propellant engines for the three stages of the X-17.

In addition to its flight-proven large engines, Thiokol produces solid propellant motors for several of our other important operational missiles. Among them are the FALCON air-to-air missile, the surface-to-surface Lacrosse, and the Army's newest team of anti-aircraft missiles, the Nike-Hercules, with triple the range of the Nike-Ajax for high-flying craft and pilotless bombers, and the Hawk, designed for low-flying craft attempting to come under the radar screen.

Thiokol also supplies the extremely high-thrust booster for the Martin Matador.

Backed by their years of experience in solid propellant rocketry, Thiokol has developed even larger engines than those listed, but their classification is still secret, officials said.

Thiokol scientists believe the size and scope of solid propellant engines virtually limitless. The opening of the new Utah Division indicates the company's

NEW UNIFORMS NEED WARRANT, ARMY CAUTIONS

Washington (AFPS) — The Army has again cautioned officers and enlisted men against buying Green and Dress Blue uniforms which do not carry warranty labels from commercial sources.

Controls in effect since Sept. 16, as established by AR 700-8400-3, specify that firms manufacturing the new uniforms for sale through commercial outlets must submit samples to the Army Uniform Quality Control Board to obtain certification that materials used meet Army standards.

Under this regulation the responsibility for determining that uniforms carry the warranty label rests with the individual.

Commanding officers both in the States and outside the ZI now are required to insure that no controlled-list uniforms items bought after Sept. 16, are worn unless they are properly labeled.

In the event such items later are found to be off-color or inferior to comparable garments in QM stores, military personnel are encouraged to submit their purchases to the Army Uniform Quality Control Office, Natick, Mass., or to an overseas control office for examination.

If an article is determined by the board to be non-regulation, the buyer will be notified so that he may request adjustment by

Capt. Bailey Strain Named Top Speaker At Toastmaster Meet

Capt. Bailey T. Strain was elected "best speaker" at the weekly meeting of the Redstone Toastmasters Club Oct. 22 for his impromptu speech on what to expect from Toastmasters.

Other speakers were T. C. Burns, who explained the Toastmasters' "family tree"; Maj. Bob Darnell, who reviewed a trip to China; and Steve Dobbs, who gave the key to dynamic living. Toastmaster for the evening was Bob Cramer.

Table topics were led by Henry Clifford. Walt Barney served as general evaluator, Lt. Con Swartwout acted as grammarian, and Ed Smock served as parliamentarian.

Guests for the program included Clay Morgan, Tommy Stramiello, Capt Robert Sherman, and Col. Kirkpatrick.

Frank Southerland was elected to membership during the business session.

the seller. Should the merchant refuse to make good on a sale, the facts should be reported to the Quality Control Office, the Army said.

SAME PROGRAM, NEW AWARD — Mrs. Herbert L. Betsill, (right), secretary to the chief of Redstone Arsenal's Field Maintenance Office, accepts the outstanding performance rating she recently earned from Brig. Gen. John G. Shinkle, deputy commanding general of Redstone. Three times under the Incentive Awards program, Mrs. Betsill has been recognized for her work. In 1953 she was presented the Superior Accomplishment Award while she was secretary to the commanding officer of the Army Transportation Corps Depot at Charleston, S. C., and also while there she received cash for a suggestion which was put into effect. Mrs. Betsill's husband is an engineer in the Army Ballistic Missile Agency. While they lived in Charleston, he worked for the Navy.

At the Service Club

Mike Todd is not the only one throw a party. We got a real ex-around this old world who can travaganza together in less than

30 days. Of course, we didn't munch on chocolate covered grasshoppers or gulp jellied rattlesnake consomme, but our refreshments furnished by the Jaycees really hit the spot with all the guests.

The Phantom Players led by the old tooting spook himself, Charlie Lyle, furnished eerie and ethereal music for the occasion. Dick Burkarth and Robert Kessler were the featured vocalists of the evening. Highlighting the entertainment was a specialty number by the newest quartet in town, The Dry Bones, composed of Jim Lucas, Frank Gibson, Leon Cose, and Clair Bonner.

The bewitching sorceresses from Birmingham, Chattanooga, and the Arsenal enchanted everyone. There were witches, black cats, cow girls, sarong-clad beauties, Oriental Flowers of the East, and other representations of this and other worlds. The couple most originally costumed was Mr. and Mrs. Jim Booton, who won the prizes on their clever cat costumes.

Our Small Games Tournament Team brought home two trophies from the recent meet down at Ft. Benning. SFC Edward Reese was runnerup in the Horseshoe Singles Tournament, and he and SFC Robert Bishop brought home the honors as runners-up in the doubles event. Congratulations to both of them!

The registration for the dance classes closed last night and if you missed getting enrolled, it's really a shame. Nearly 50 Rocket eers are skipping the eight fantastic or stepping on blue suede shoes and having a wonderful time. This expert instructor we've got down here has gotten some of his students out to the dances in just six short weeks. I tell you, there's something to these six easy lessons. Next time, don't pine—jine!

The Bridge Classes are still open to those interested in learning the ways and means of distracting contracting. Be here Wednesday for the lessons. They are only 25 cents each.

Most of you know that the Ft. McClellan Chess team was here over the weekend for a challenge game with our Chessmen. It turned out to be a really competitive affair. At 2000 hours Sunday night, they finally called it a draw and started making plans for the next match at Ft. McClellan. We're proud of our team and the wonderful comeback they made.

Cathedral Caverns will be the object of our attention next Saturday afternoon. A bus will leave the Service Club at 1330 hours to take those signed up for the scenery and supper to Grant, Ala.,

UGF 'EARRINGS' — A new use for those little United Givers Fund lapel pins which UGF contributors are receiving nowadays is demonstrated above by Jo Campbell of the Redstone Industrial Division — you simply convert 'em into earrings! (See inset.) UGF campaign officials on the Arsenal are hoping a lot of the ladies will adopt the clever fad and "play it by ear" to help spread the good word about the United Givers Fund.

and the Caverns. The caves contain many interesting Indian relics and a geological giant that you won't want to miss. Be sure you sign up by Friday at 2200 hours if you plan to go.

Tomorrow night is All hallows Eve, and the atmosphere will be filled with apparitions and such. Have fun, kids, and don't miss a

Our vountary health and welfare organizations are a traditional and significant part of the American scene. Established to meet our human needs, they find their strength in our generosity. Give to the United Givers Fund Give a Fair Share.

ABMA 'GUARD OF THE MONTH' — Maj. L. W. Sheeran (left), deputy chief of the Army Ballistic Missile Agency's Intelligence and Security Office, presents a plaque and citation to Whitt H. Hirston, ABMA, "Guard of the Month." Looking on is Capt. Melvin F. Lamb of the ABMA Civilian Guard detachment.

minutes to a central point for rapid analysis.

NEW PHOTO-TRANSMITTING DEVICE DEVELOPED BY ARMY SIGNAL CORPS

HEADQUARTERS THIRD UNITED STATES ARMY, Fort McPherson, Ga. — Newspaper editors may soon have an old problem solved for them by the Army.

It has long been an accepted matter that it is impossible to get pictures to accompany fast-breaking stories which break near a newspaper's deadline. It simply takes too much time to develop the pictures and transit them.

But soon, using a device recently devised by the Army, editors may find the problem just reversed. They may find themselves with a picture before the story is filed.

A portable radio facsimile system developed by the Signal

Corps can put a high-quality photo in the hands of a person miles away five minutes after the photographer clicks the shutter.

Work on this system was done at the U. S. Army Signal Engineering Laboratories at Fort Monmouth, N. J. It is the fastest known means of flashing a photograph from one spot to another.

The set can flash vital military reconnaissance pictures by radio to Command headquarters in time to affect a critical decision — perhaps change the course of the battle.

The equipment fits easily into the back of a jeep or car and can send a picture to its companion receiver 40 miles away.

The set can also send a photograph thousands of miles over standard telephone lines or around the world by means of long-range radio circuits.

The new facsimile combines high speed Army picture-sending tech-

niques with a polaroid film that produces a finished print one minute after exposure. No dark-rooms or messengers are needed.

In combat, a front-line soldier with a specially equipped camera can take a picture of enemy movements and get a 3¼ by 4¼-inch picture to his commander in five minutes flat.

It takes one minute for the picture to develop in the camera, giving a print that fits right into the transmitter in his jeep. The set automatically sends the picture in three minutes. Far behind the lines, the picture is received on another sheet of polaroid film, and is ready for use one minute later.

The set can also be mounted on a light reconnaissance plane or helicopter. This would allow an aerial photographer to send pictures continually to battle headquarters direct from the aircraft.

Another important application is speeding of weather predictions. The device could be used to tie together a network of widely-scattered weather radars. Scope pictures from each of these stations could be sent in

LAND AND SEA—Private First Class Wayne Wilson (left) of Mena, Ark., gets the benefit of Sergeant First Class William B. Painter's 13 years' experience with DUKWs as he works on one of the amphibious vehicles at Fort Story, Va. Painter, from Fulton, N.Y., is one of only eight DUKWmasters in the Army today.

* * * * *

ARMY DUKW-MASTER, RARE BIRD HE, OPERATES VEHICLES ON LAND, SEA

FORT STORY, Va. — Sergeant First Class William B. Painter of the Army Transportation Corps has a particularly special interest in his Army job. He's one of only eight amphibious truckmasters in the United States Army.

When Painter, son of Mrs. William B. Painter of (Route 1) Fulton, N. Y., entered the Army Air Corps in February, 1942, he probably never dreamed that he'd arrive in France on June 6, 1944, via amphibious truck and under German fire to boot. But he did and that started him off on a new military career that he's been following for 13 years.

Faced with the problem of landing on enemy-held shores in Europe and the Pacific, the Army early in World War II recognized the need for an amphibious version of the versatile 2½-ton truck one capable of operating on water as well as land.

The DUKW ("duck") was the answer, a 2½-ton truck that could be discharged from a landing craft miles out at sea and carry a profitable payload under fire to an assault beach, and a vehicle that could be used ferrying men, guns and supplies across rivers.

Shortly after he arrived in England, Painter was transferred to the Sixth Amphibious Engineer Brigade for the Normandy landing. He received intensive training on the DUKW, and participated in a D-day operation that required six companies of 50 DUKW's each to churn through seven miles of water and fire to land 105mm. howitzers and crews. It was done without loss of a man.

A month later Painter was on his way to the Pacific to participate in combined Army-Navy operations as a member of the Second Engineer Brigade.

Since World War II he's been assigned at Fort Eustis, Va., and Fort Story, has been an ROTC instructor at the University of

Army Signal Unit Located in Eritrea Is Most Efficient

KAGNEW STATION, Ethiopia — In 1921, when radio was yet in its infancy, the War Department established a network of radio stations connecting all Corps Area headquarters and other key cities with a control station in Washington, D. C.

Today, known as the Army Wisconsin, and has served with a rail unit in Japan. But he's been with his DUKWs again at Fort Eustis and Story since the fall of 1953.

A DUKWmaster since 1954, he supervises the training of drivers and maintenance men in his company and controls DUKW operations on the beach when the unit is on a problem. He recently returned from France where he, his 76 men and 38 DUKWs participated in the NODEX (New Over-the-Shore Discharge Exercise) training operation held by U. S. Forces in Europe.

As an operations man, supervisor and instructor, Painter's jobs require that he know every facet of the duties of his men and be able to do everything that they can and have to do with the DUKW.

Besides being thoroughly familiar with the operation, maintenance and loading of the DUKW for ship-to-shore movement of men and materiel, he has to know the operation of various types of harbor craft, navigation under all kinds of sea, surf and beach conditions during day or darkness. He must be able to read and understand ships' manifests and stowage plans, and to estimate the number of men and amphibious vehicles required to accomplish ship-to-shore operations within specific time limits.

Command and Administrative network, the system contains more than 500 stations and employs some 10,000 people in a vast, global communications system.

A trophy, awarded annually to the major area maintaining the highest efficiency level of the

Army's world-wide communications network, was recently won by the U. S. Army Middle East Signal Communications Detachment stationed here at Asmara, Eritrea in Ethiopia.

The trophy, emblematic of annual leadership in operational skill, is named in honor of the

Chief of Signal Officer of the Army during 1951-55, Major General George I. Back (Ret.) General Back originated the promotion of communications center proficiency.

The award is determined by the Chief Signal Officer from analyses of network reports.

Redstone Defeats Maxwell, 6-0, For First Grid Victory of Year

The Redstone 'Rockets', scoring on an 18-yard pass play from Giroty to Hemphill in the second quarter, defeated the Maxwell "Mentors" 6-0 Sunday afternoon in a game played at Maxwell Air Force Base, Montgomery, Ala. It was Redstone's first victory this year.

The Redstone team held Maxwell to 59 yards on the ground and 60 yards in the air. Maxwell was in scoring position twice during the first quarter; at one time, they were on the 1-foot line with six inches to go for a first down, but they were stopped cold by Schmidt, Mitchell, and Branda.

Redstone unveiled a new running star in fullback Melvin Watson, who continuously ran up the middle for gains of 8 and 10 yards. Defensive guard Charles Branda seemed to be the key man as he repeatedly threw Maxwell runners for losses.

On Friday night, 1 November, at 1930 hours on Linton Field, the Redstone 'Rockets' will battle with the 937th Eng Group from Fort Campbell, Ky.

WILLIAM D. MURPHREE

William Murphree Returns From Visit To England, Ireland

William D. Murphree of Redstone Arsenal has recently returned from Great Britain where he visited the leading companies in England and North Ireland which are engaged in research and development of aircraft and missiles.

Murphree also attended the 6th Anglo - American Aeronautical Conference at Folkestone, England, where the latest developments in pure and applied research were discussed. Sixteen formal papers were presented by outstanding scientists from both Great Britain and the United States.

Murphree is an aeronautical research engineer in the Research Laboratories, R & D Division-OML. These laboratories have the assigned mission to conduct long-range research in support of Redstone Arsenal's guided missile and rocket responsibilities.

Lt. Specker Cited By Sec'y Brucker For Presentation

The Secretary of the Army, Wilber M. Brucker, has commended 1st Lt. R. W. Specker of the ABMA Control Office for a presentation he made on the occasion of the recent visit of Defense Secretary McElroy and Secretary Brucker.

Lt. Specker described the Redstone Ballistic Missile System. Of his presentation, Secretary Brucker had this to say:

"Every one who heard you came away feeling that you had made a difficult subject understandable to the layman. You truly did a magnificent job. Your professional attitude and poise certainly point to a bright future ahead of you."

Maj. Gen. J. B. Medaris, Agency commander, added his congratulations and expressed appreciation to Lt. Specker whose chief, Col. J. G. Zierdt remarked that "your outstanding performance reflects great credit on you, the Control Office, and the Army as a whole."

THE STAMP CORNER

BY J. H. MULDER

The sixth commemorative stamp issued by the U. S. POD was for the Alaska-Yukon Pacific Exposition. This exposition was held in Seattle, Wash., from June 1 to October 16, 1909. Only one stamp was issued, perforated and imperforated.

Mint copies of the perforate today sell for about 75c and used copies 15c. The imperforate sells for \$4 and \$2. These stamps are still quite plentiful and any serious collector would have no trouble in acquiring them for his collection.

Redstone Officers Wives Club News

A reminder from our club president, Mrs. Walter Mullane:

Only those who are paid up members of the Officers Wives Club are eligible to participate in our various groups and activities. Please send your dues to the club treasurer, Mrs. William Hahn, without delay.

GOLF GROUP

Chairman, Mrs. Hartsell Northington. Don't be discouraged, golfers, we can't have rain every Wednesday. Please arrange to five scores by the end of October; handicaps are being figured. A Ringer Tournament starts the first Wednesday in November. This tournament will be in progress for the month of November. Watch the notices for a Coffee or Luncheon Award Day each month and hope for good weather.

BOWLING GROUP

Chairman, Mrs. Paul Daigle. High team: 1st place—No. 4 Alley Cats, won 9, lost 3; second place — No. 7 Shoo Flies, won 8, lost 4.

High game: Millie Whalen—200. High Series Individual: Grace Vezzoli—509.

High Team Series: No. 7 Shoo Flies—1839.

High Individual Averages: Grace Vezzoli—158 and Kit De Noya—135.

PARTY BRIDGE

Chairman, Mrs. Victor Pederesen.

1st place, Clema Bowlby; 2nd place, Pat Wall; 3rd place, Beuy Carmichael; consolation, Al Fleagle.

GARDEN CLUB

Chairman, Mrs. Carl Messinger. The regular monthly meeting of the Redstone Garden Club was held Tuesday night, Oct. 15 at the home of Mrs. John B. Collins. Mrs. Gordon B. Patten was welcomed into the club as a new member. The project for the November meeting will be making Christmas wreaths. The members will gather evergreens and pine cones for this project. The program for the evening consisted of the members creating fall arrangements for their homes, using dried material gathered from the woods and fields.

PAINTING GROUP

Chairman, Mrs. Myron Dakin. An enthusiastic group of 14 ladies met on Tuesday morning, Oct. 22, for our first lesson, and much promise was displayed by

the budding artists. This group meets at the Scout house, Bldg. T-114, on Squirrel Hill.

AN INTERVIEW WITH NEWCOMERS

(By Mrs. John Fill)

Dorothy E. Lehtonen, a charming brunette, is the wife of Col. E. O. Lehtonen, chief of the Industrial Division of RSA. She is the mother of three lovely children. She is native of Millstone, N. J. Dot met Col. Lehtonen while she was still at school. Before her marriage in 1938 she worked as a secretary for a chemical concern. However, it was not until 1940 when her career as an Army wife began and her first experience as such was at Pine Camp, N. Y. As most Army families do, Dot moved her family from one post to another. Two weeks after her husband was called overseas, their first baby was born. It was the happy month of December, 1944, when her husband returned from the South Pacific and together they moved to Fort Knox, Ky. Dot enjoyed her three-year stay in Germany, where she put up "tent" in Mainz, Eschwege, and Fussen. It was in Fussen where Brian joined his sisters. Dot traveled in Germany and Austria and became interested in collecting paintings, clocks and wood carvings, which adorn her home here. Her time is devoted to her family and she loves to play golf and go bowling.

Elisabeth L. Collins, a happy Southerner, is the wife of Col. M. R. Collins, Jr., chief of the Research and Development Division of RSA. She was born and reared raise African violets and sew.

at Shreveport, La. Already having some association with the Army through her relatives, Libby decided to visit them at Augusta Arsenal in Georgia. Little did she know then that she was going to stay there for a much extended visit. Lt. Collins "came, saw and conquered" her. They were married in the lovely month of June. While World War II saw her husband in China, Libby was busy raising their first child. Reunited after the war, Libby saw many parts of Texas and there among other Army wives became interested in womens club activities. In Los Angeles Libby relaxed while sightseeing and taking in some football games. Jimbo, the youngest of the Collins clan, joined his brother and sister at White Sands, N. M. Libby has not yet experienced a tour overseas, so she avidly listens to the tales of her friends who have been abroad. She is a devoted mother to their three fine children and still finds time to She loves a good game of bridge.

SCOUT CORNER

The Cub Scout Pack 234 of RSA consists of five dens. Any lad between the ages of 8 and 11 is welcome to participate in the fun and learning. Besides weekly meetings with a swell team of Denmothers, the Cubs also participate in baseball and football games and their swimming program this summer was particularly successful. The Pack will meet again Nov. 21 at the Scout house, Bldg. T-114, and the theme will be "Openhouse." There will be an exhibit of Cub Scout activities. Parents, come and see what your sons have done. Other parents, whose boys are eligible, are especially invited to come and see how Cub Scouting can be of interest and benefit to their boys. The Pack was led by Lt.

200 Attend School's Quarterly Reception

Approximately 200 persons attended the quarterly reception held by the Ordnance Guided Missile School at the Redstone Arsenal Officers Open Mess last Wednesday night.

The School holds the receptions in order to give the staff, faculty, and students an opportunity of meeting and greeting newly arrived officers, and of saying goodbye to those about to depart.

Guest of honor was Brig. Gen. George W. White, commanding general of the Ordnance Training Command, Aberdeen Proving Ground, Md., who attended with other members of his staff. Maj. Gen. and Mrs. H. N. Toftoy of Redstone Arsenal also attended.

Officers scheduled to depart OGMS prior to the end of the year are Lt. Col. Louis F. Driver, Jr., Maj. Leland G. Ewalt, Maj. Robert S. Kinch, Maj. Kenneth F. Searcy, Capt. Clarence E. Ayres, Capt. Joseph A. Davison, Capt. Charles E. Mosgrove, Lt. Richard H. Blakeslee, Lt. Leonard F. Menice, Lt. Richard F. Foulke, Lt. Richard O. Mann, CWO Spencer F. Ball, CWO Daniel F. O'Brien, CWO Alexander A. Smyklo, CWO Allen T. Spivey, WO Willis M. Bakke, WO Hubert M. Blumer, WO Burl B. Dykes, WO Raymond S. Ferry, WO Monroe M. Green, and WO Arthur E. Wilkin.

Col. Haggard for nearly one year. We thank Col. Haggard for a responsible task well done. We greet Capt. Gannon as the new Cub Master. And Cubs, remember your motto: DO YOUR BEST.

Camera Club to Hold Dinner, Business Meet

The Huntsville Camera Club will hold a dinner meeting at Steadman's Restaurant at 7 p.m. Wednesday, according to John Kubilis, an illustrator in the Industrial Division, RSA.

A constitution for the newly formed club will be discussed, and a place for holding regular meetings may be voted on, Kubilis says.

Twenty-one amateur and professional photographers attended the last meeting, at which color slides and black and white enlargements were shown and discussed.

"Those who have been thinking of joining the club are invited to attend this dinner meeting, or come for the business session beginning at 7:30," Kubilis says.

Col. Heath Honored at Reception

Col. Calvin A. Heath, recently assigned chief of the Industrial Operations Division, Army Ballistic Missile Agency, was honored by personnel of his Division at a reception Thursday night in the Officers Club of Redstone Arsenal.

Maj. Gen. J. B. Medaris, Agency commander, and Mrs. Medaris were among the guests. Approximately 150 attended the buffet reception.

Col. Heath formerly commanded the San Francisco Ordnance District. He is a native of North Woodstock, N. H., and has been in the Army since graduation from the University of New Hampshire in 1938.

Col. and Mrs. Heath are residing on the Arsenal.

FROM MULES TO MISSILES — That's the saga of the recently redesignated 40th Field Artillery Missile Group (Heavy), now in training at the Army Ballistic Missile Agency. In December of 1956, the unit — then one of only two mule-pack outfits left in the U. S. Army — was deactivated at Ft. Carson, Colo. And now, less than a year later, the organization has been reactivated as the first in the Army to be equipped with the Army's newest and biggest weapon, the Redstone missile. The photo above shows the 40th in training during the "olden times" when they were guiding mules, — instead of missiles.

Bake Sale Set Sat. By Officers Wives

The Redstone Arsenal Officers Wives Club will hold a bake sale of cakes, cookies, pies, and candy at the Post Exchange on Saturday, Nov. 2, from 9 a.m. to 2 p. m.

Post personnel are urged by club officials to attend and buy a supply of home-baked goods. Proceeds from the sale will go to help support youth activities on the post, including the nursery, Scouting, and the Teen-Agers Club.

Saturday's bake sale will be one of a series of such events planned by the Officers Wives Club.

Chaplain Hughes Sets Protestant Ser.

This Sunday, Nov. 3, at 1930 Chaplain Hughes will begin a Sunday Evening Protestant worship service. The program will be on a more informal basis and will last about an hour. "We cordially invite all who are interested to come and worship with us," says Chaplain Hughes.

The sermon Sunday night will

focus on the baby during its first few months.

The final session will be led by the Protestant chaplains. The group will divide into several sections with one chaplain to a group and according to the participant's choice or denomination. The final meeting will concern itself with a discussion of Baptism and the relation of the child and family to their respective religious groups.

This program is open to all Protestant personnel and dependents who are interested. Each meeting will be held in the Social Room of the Chapel at 1930 hours on successive Tuesday nights, starting on 5 November.

be entitled "Is Christianity Outdated?" The musical program will be led by our youth choir which is directed by Bill Shambragh.

The anthem they will sing is "Chanukah Hymn." The nursery also will be open during the service of those with small children.

CHARITY FASHION SHOW — The Huntsville Chapter of Beta Sigma Phi (social) sorority plans a fashion show at the Shalamar Club on the Memorial Parkway at 3 p.m. on Sunday, Nov. 3. Sorority members will model around-the-clock fashions for the coming Winter season. The fashion show is sponsored by the sorority in order to raise money for the charities it supports. These include support of a girl at Girls Town, (at Whiteface, Texas) Christmas baskets for needy families, and aid to the local school for mentally retarded children. Illustrating a preview of the types of costumes are (left to right above): Miss Jeannine East, Mrs. Alden Cox, and Mrs. Joel Briggs. Miss East is wearing a suit of black wool with white gloves. Mrs. Cox is shown is a champagne formal of lace and net and Mrs. Briggs is wearing a black embroidered taffeta suitable for many occasions. They all work at ABMA.

(Photo by Bill Kellar)

SERIES OF PROGRAMS FOR EXPECTANT PARENTS SLATED AT POST CHAPEL

Tuesday night, 5 November at 1930 hours a series of discussions for expectant parents will begin at the Post Chapel.

The program will be composed of five sessions. The first session will be led by Chaplain Hughes.

The concern here will be mental and spiritual preparation for the new child. The program will likewise be explained, and introduced at this session.

The second meeting on 12 November will be led by Dr. D. B. Reynolds, of Huntsville. His subject will cover pregnancy and delivery.

The third session will be conducted by Dr. Milton B. Peeler, a Huntsville pediatrician. His pro-

ROCKET MODEL FIRES FOR AUSA — Visitors at the annual meeting of the Association of the U. S. Army in Washington, D. C., this week will see a miniature jet-propelled sled race up the inclined track shown above, in a pyrotechnic display on a model of a 600-ft. ballistic ramp located at Redstone Arsenal. The real ramp is used by Rocket Development Laboratories for testing rockets fired from a sled traveling at several times the speed of sound. Pvt. Joe Wagoner, left, of Flintstone, Md., and Pvt. Anthony Koromilas, of Dover, N. H., will give the countdown and fire the tiny model. Other displays at the AUSA show include, Hawk, Dart, and Lacrosse missiles from the Projects Management staff. (Photo by Bill Kellar)

Troops Span Rhine In Shortest Time

LEIPHEIM, Germany — The 498th Engineer Battalion set a new record in bridge building for the U. S. Army in Europe when it spanned 750 feet of the Rhine River recently in two hours, 28 minutes.

The feat was accomplished near

ments were heard from the other guests, Bob Horne of Huntsville Mattress Company, and Thurmond Burns, Lt. Governor of Alabama's Toastmasters District No. 48, the latter making several announcements pertaining to North Alabama Toastmastering activities. After hearing from Jokemaster Jim Badgett, the meeting was adjourned.

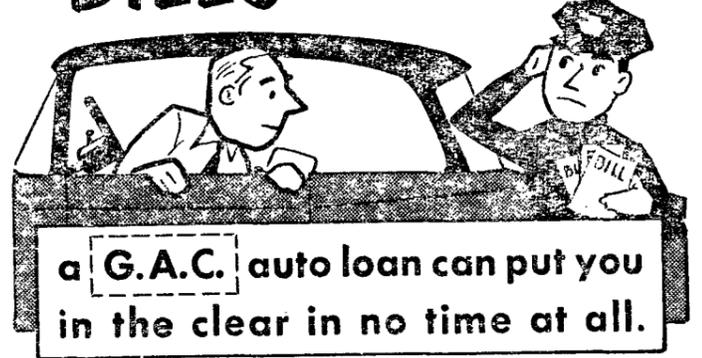

Speyer, scene of several important crossings by American Army units during World War II, and far surpassed the previous record of three hours, 55 minutes.

Perhaps the music of the 82nd Army band helped. It was on hand playing a special set of snappy selections.

Or perhaps it was national pride. Observing, in addition to Lieutenant General John F. Uncles, VII Corps Commander, were engineers of the French Army and German Air Force, and several officers of the Turkish Army.

Battalion officials were even more critical observers. In their perfectionist critique they estimated that at least 15 minutes could be shaved off the operation.

Toastmaster Program Shows Value of Good Speech Organization

The Mason-Dixon Toastmasters Club, at its regular meeting Oct. 22, featured a slate of speakers which illustrated to members and guests the importance of proper speech organization.

The president of the speech improvement group, Dr. Roger Clapp, presided at the meeting. At the conclusion of the dinner, Past President Bob Cloyd acted as moderator between two panels of impromptu speakers. One group, composed of "fools", offered critical analysis of certain aspects of club programming, while "wise men" from the second group defended the administration and volunteered solutions to the problems voiced.

The Toastmaster of the evening, Lee Cropp, a part-time Texan, opened the formal speaking portion of the meeting with a joke about Texas and then introduced the evening's five speakers. Jim Badgett described the advantages of owning "A Custom-Designed Kitchen"; Dr. Richard Haskins pictorially dramatized the military maneuvers employed at "The Battle of Dunkirk," stressing the far-reaching consequences of that engagement; Wally Branham amused the club with a tongue-in-cheek presentation of

"A Philosophy for the Other Fellow"; and Dick Ely painted a word picture of "The American Automobile Today," praising the comfort of recent models while decrying high costs and superfluous design features. Ed Buchanan gave a special talk on "Toastmastering, Its Organization and Its Purpose."

General Evaluator George

Woodward and his panel of evaluators — Dr. Pasquale Martignoni, Waite Todd, Hilmar Haensch, and Charles Cockrell — directed constructive criticism toward the individual speakers and the meeting as a whole. Ely was voted the evenings' best speaker.

A membership application was received from Lee Paris and com-

ALL WAYS RELIABLE

EYE — Joy Harmon, 19, shapely New York City Donut Queen, receives her crown from Norman Moreau, SK2, Coast Guard Training Center, Groton, Conn., as other servicemen look on at the USO Servicemen's Canteen in New York recently. Joy will represent New York in the upcoming Donut Queen national contest. You notice that everyone in the picture is smiling happily. Presumably they are happy basking in the reflected glory of the new queen.

USE OF ATOMIC ENERGY IN FOOD PRESERVATION SEEN IN FEW YEARS

HEADQUARTERS THIRD UNITED STATES ARMY, Fort McPherson, Georgia — "Peaceful use of atomic energy," which has been a catch-phrase for several years, is expected to become a reality in the field of food preservation within two or three years.

A number of theoretical applications of nuclear energy and several costly small-scale applications have been seen already. But the use of atomic energy in any wide-scale consumer use has heretofore been deemed largely economically unfeasible.

"But initial production by commercial industry of foods preserved by radiation may start in 1960.

This conclusion was drawn by the Interdepartmental Committee on Radiation Preservation of Foods. Established in May, 1956, the committee includes representatives of the Department of the Army, the Atomic Energy Commission and the Departments of State, Interior, Agriculture, Commerce and Health, Education and Welfare.

Research so far indicates that most foods will remain wholesome when preserved by irradiation. Also, it is expected to be economically feasible to radiate food by

But the Army is setting out in the next two years to find out if these things are true in actual practice. The Department of Defense is constructing the Army Ionizing Radiation Center at Lathrop, California. It will probably be in operation inside of two years.

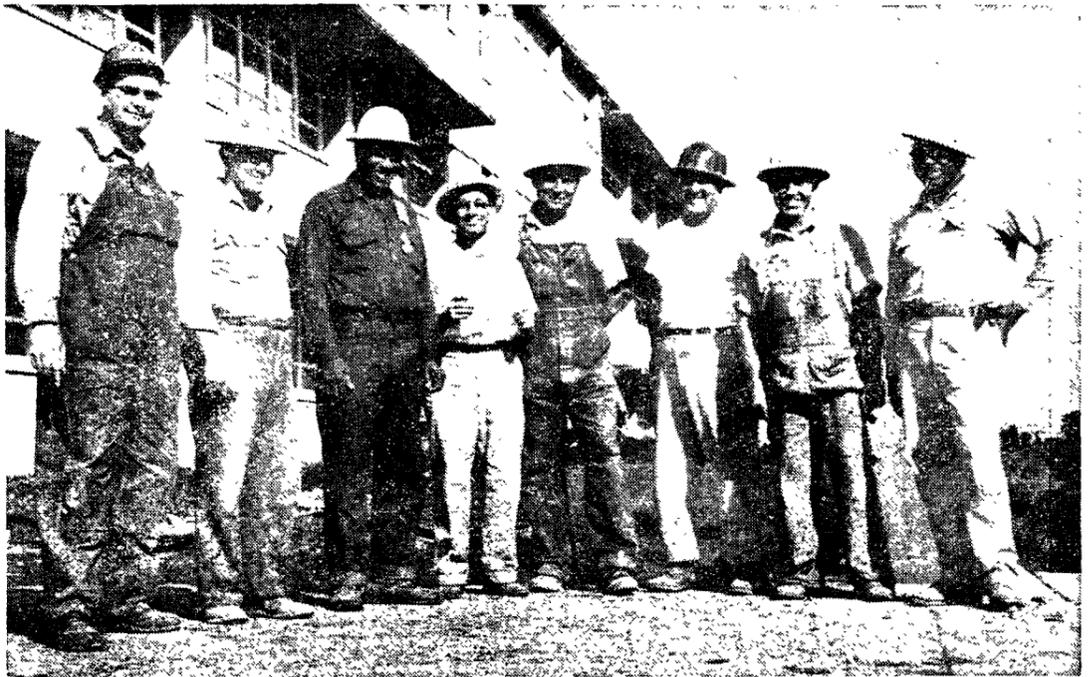

A reactor is being supplied by AEC, and the Army Quartermaster Corps is constructing a high-energy particle accelerator.

The job of the Center will be to perfect radiation of food and make it cheap enough to be of practical use.

Tests of human volunteers and animals fed irradiated foods indicate that no wholesomeness of food is lost. Eighty selected foods have been studied so far. There are presently more than 70 industrial firms and educational institutions participating in the research program. This program of outside participation will be enlarged as the program unfolds.

During Fiscal Year 1958, further taste-testing, packaging and storage studies will continue. In FY 1959, pilot plant research on 20 foods and subsequent production of several saleable foods will have started.

By the 1960 fiscal year, the

CONSTRUCTION WORKERS GIVING — Construction workers on the Arsenal are taking an active part in the United Givers Fund Drive, even though none are considered permanent employes, and many live outside of Madison County. Solicitors in the J. A. Jones Construction Co., of Atlanta, which is building the Structures and Mechanics Laboratories for ABMA, are shown above. They are: N. S. Owens, Decatur; O. F. Paulk, Elkmont, Ala.; A. H. White, Huntsville; Ernst Bender, team captain, from Gurley; H. W. Moore, Rainsville, Ala.; Garnett Campbell, Huntsville; L. D. Rose, Elkmont; and Howard Elliott, Stevenson, Ala. (Photo by Rex Evers)

Army proposes to conduct large-scale troop acceptance tests — to see if the men like irradiated food. If so, the days of C-rations may be numbered.

Systematic screening of about 559,000 repair parts by the Army has resulted during the past two years in the selection for elimination of 225,000.

It's convenient to give to the UGF. Decide how much you want to give. Pay cash or simply sign a pledge card. Or, in the case of contractor personnel, chances are you'll want to give through the payroll deduction plan. Cash . . . pledge . . . or payroll deduction — give as you please, but give.

The C-82 was the first airplane designed in WWII exclusively to carry cargo.

A private's pay was a little over six dollars a month when the U. S. Army was founded in 1775.

A German V-2 rocket was successfully fired on Sept. 6, 1947, from the carrier Midway.

GENERAL WHITE VISITS OGMS — Brig. Gen. George W. White (left), commanding general of the Ordnance Training Command, Aberdeen, Md., and Col. Henry S. Newhall, commandant of the Ordnance Guided Missile School, discuss the Lacrosse and other missile systems during a break from Gen. White's official visit to OGMS. Gen. White and other members of TOTC were here for a two-day inspection tour of the School. TOTC is in charge of all Ordnance Corps training.

Dental Care For Army Dependents Is Returned to Redstone Arsenal

HEADQUARTERS THIRD UNITED STATES ARMY, Fort McPherson, Ga. — Dental care for Army dependents has been returned to one Third Army installation — Redstone Arsenal — and is expected to go into effect soon at other posts.

At most installations in the states Army dentists may not work on dependents' teeth, even if they have time.

The Huntsville Dental Society and the Alabama District No. Eight Dental Society have both expressed their concurrence in

the Army's wish that Redstone be classified "remote," thereby allowing dental care for dependents when the military dentists have sufficient time.

Col. R. E. Hammersberg, Third Army Dental Surgeon, praised the Huntsville and Eighth District societies in being the first to approve widened dental opportunities in the Army.

The Department of Defense calls any post remote which is located in an area which has more than 2,000 population for every dentist. All posts in Third Army come under this "remote" classification, but the Defense Department has further stipulated that local dental groups must concur before care for dependents will be allowed.

Third Army dental authorities have pointed out that no new dental care is involved. Even at Redstone, where the remote classification has been declared, dependents have only the opportunities they had before Dec. 7, 1956, the date of the Army's "Medicare" program went into effect.

Dental societies near Fort Stewart, Ga., Fort Bragg, N. C., and that some dental care be allowed Fort Jackson, S. C., have concurred in Third Army's suggestion dependents. The North Carolina Dental Society and the Columbia society, though agreeing wholeheartedly with the major thesis of permitting care, had mi-

nor reservations in their recommendations for dental treatment.

Army dentists previously spent about 15 per cent of their time working on dependents. Now they

New Stripes 52,121 ARMY TROOPS IN LINE FOR PROMOTION

Washington (AFPS) — The Army has authorized more than 52,000 promotions to grades above E-3 and a stripe for privates E-2 as they reach eight months' service during the quarter ending Dec. 31, 1957.

The quotas by grade are: E-7, 101; E-6, 153; E-5, 6,701; E-4, 45,166; for a total of 52,121.

For October, November and December, major commands have been authorized to promote all privates E-2 who reach eight

months' service on the first day of the month in which they are considered for advancement and who are recommended by their immediate commanders.

Appointments to the top three grades will not be made in any of the following MOS's: 073, 421, 551, 553, 632, 714, 719, 762, 763, 764, 767, 773, 941, 942, 943, 951 and 952.

In addition no promotions will be effected in the following grades and MOS's:

To pay grade E-7: 524, 635, 715, 716, 765, 768; To pay grade E-6: 631, 635, 643, 715, 716, 765; To pay grade E-5: 524, 631, 643, 768.

The two kinds of wood which make a match: (a) He would; (b) She would.

CWO Cox Awarded Achievement Citation

A Certificate of Achievement for outstanding performance of duty has been presented by Col. R. C. Gildart, commanding the 40th Field Artillery Missile Group (Heavy), to James A. Cox, chief warrant officer, who is personnel officer of the Group.

CWO Cox plans to retire from the Army Dec. 31, 1957. He lives in Killen, Ala., with his wife, Gaynell, and their two children.

He entered the Army Dec. 1, 1937 at Fort McClellan, Ala.

The Certificate recognized his service as chief of the military personnel branch, U. S. Army Chemical Corps Training Command, from Jan. 6, 1956 to July 19, 1957.

Since joining the 40th Group, Cox has served also as assistant adjutant and insurance and savings officer.

months' service on the first day of the month in which they are considered for advancement and who are recommended by their immediate commanders.

Appointments to the top three grades will not be made in any of the following MOS's: 073, 421, 551, 553, 632, 714, 719, 762, 763, 764, 767, 773, 941, 942, 943, 951 and 952.

In addition no promotions will be effected in the following grades and MOS's:

To pay grade E-7: 524, 635, 715, 716, 765, 768; To pay grade E-6: 631, 635, 643, 715, 716, 765; To pay grade E-5: 524, 631, 643, 768.

The two kinds of wood which make a match: (a) He would; (b) She would.

28 KEY RSA EMPLOYEES STUDIED AT 8 COLLEGES DURING SUMMER

Twenty-eight key employees from Redstone Arsenal studied this past summer at eight colleges and universities scattered the length and breadth of the United States.

As has been the case for the last several years, the Training Branch of the Civilian Personnel Office worked closely with arsenal officials to select and encourage personnel to take advantage of the courses, through the Summer Institute Program.

At the request of government and industry, a number of colleges and universities have set up these intensive summer training programs. The highly specialized one and two week courses cram a great deal of technical information in the shortest possible time.

Those from Redstone Arsenal attending courses this summer were: Bernard J. Alley and John R. Munger, R&DD-OML, attended a two-week program in Industrial Application of X-ray Diffraction at Brooklyn Polytechnic Institute.

To Colgate University went James Flanagan, Civilian Personnel Office, to participate in a one week course called Establishment and Appraisal of the Management Personnel Division Program.

From June through August, fourteen employees (all from R&DD-OML), were attending a variety of courses from one to two weeks in length at Massachusetts Institute of Technology.

Robert M. Burlison, attended a class in New Developments in Industrial Analysis; Gaines P. Gravlee, a course in Analog Digital Conversion Techniques; Donald I. Graham, Jr., The Psychology of Man-Machine Systems; Henry A. McGee, Jr., Thermodynamics; JoAnn Hadaway and Rosco P. Watts, Editing Technical Reports; Joseph P. Rush, Organization for Research and Development; Edward T. Carr, Stress Analysis; Jack R. Pass and Richard J. Stein, Nuclear Reactor Technology; William G. Garner, Hubert L. Greene, Frank C. Godfrey, and Saul Wasserman, Missile Aerodynamics.

To the University of Michigan went Robert C. Haraway and Robert C. Conard of R&D-OML Division for a course in Automatic Control; Eddie L. Brooks, and J. D. Waugh also of R&D-OML for a course in Application of Advanced Numerical Analysis to Digital Computer Problems; John W. Fike and Charles B. Baird, R&D-OML, for Advanced Digital Computer Engineering and Logical Design; Joseph C. Craft and Stephen L. Johnston, R&D-OML, Introduction to Digital Computer Engineering; and Robert D. Young, Jr., R&D-OML, Introduction to the Electronic Computer and its Applications.

Nine Redstone Arsenal employees attended Summer Institute Courses at Penn State during the Summer. Wilbur L. Finley, R&D-OML, Technical Report Writing, Hargro McCallum, Ryndal L. Wetherington, Norman L. Comus, Herbert Crowson, and E. D. Messer, all of R&D-OML, were enrolled in Research and Development Management Development; Preston Watts and Roy Plumer, R&D-OML, Creative Engineering, and William D. Cook, R&D-OML, Nuclear Power Cycles.

One employee, William B. Harrell of Industrial Division, attended a course in Advanced Quality Control by Statistical Methods at Purdue University. Civilian Personnel Office sent John R. McCormick to a Technical Writer's Institute at Rensselaer Polytechnic Institute.

Mrs. Cleo Cason, Chief, Technical Library, attended a Management of Recorded Information course at Western Reserve University.

Mrs. Cleo Cason, Chief, Technical Library, attended a Management of Recorded Information course at Western Reserve University.

Joe Siller Awarded Service Ribbon

Joe Siller was recently awarded a commendation ribbon with metal pendant. Siller is an engineer in the Warheads and Fuze Section, Project Management Staff Research and Development Division, Redstone Arsenal.

He was cited for meritorious service while recently on duty here as a lieutenant in the same office he now occupies. Siller is a native of San Antonio, Tex., who came to Redstone from the Diamond Fuze Laboratories in Washington, D. C. He received his degree from St. Mary's University at San Antonio.

The citation reads in part: "Technical status of warheads and fuses for missiles and rockets was materially advanced by his efforts and by monitoring and coordinating research and development projects as well as establishing technical requirements. He made major contributions to the improvement of proximity fuzes, safety, and Army mechanisms and auxiliary items."

Wantads Get Results

100 PER CENT UGF CLUB — The Field Maintenance Office at Redstone Arsenal was one of the first offices on the installation to complete its United Givers Fund solicitation. Every employe contributed, with gifts averaging approximately \$10. Workers shown are: seated, left to right, Mrs. Gladys B. Betsill, Maj. Raymon S. Dotson, Chief of the Field Maintenance Office, and Miss Louise Devasher; standing, Capt. Thomas F. Gannon; T. M. Frazier, Sherman Clay, S. D. Squires, L. D. Ellenburg, and Billy F. Pitt. (Photo by Rex Evers)

Top Junior, bored and yawning, was listening to his Old Man sound off in another lecture to his pesky offspring. This time it concerned the lad's increasingly late hours.

"And remember, son," The Top concluded, "it's the early bird that catches the worm!"

"Huh," huffed Junior, "and what about that worm? What did it pay him to get up early, anyhow?"

"Look, brat," declared The Top, "that worm wasn't getting up then. He'd been out on an all-night party and was just dragging himself home!"

Be nonchalant when you fall down on the dance floor. This can be accomplished in one of two ways:

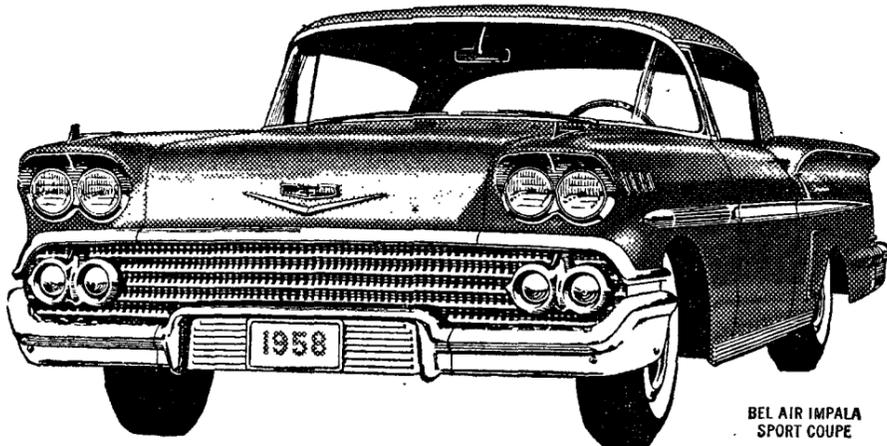

(a) Just lie there; they'll think you fainted.

(b) Start mopping up the floor with your handkerchief; they'll think you work there.

nall (R., N.J.); Rep. Albert Rains (D., Ala.), chairman of the Housing Subcommittee; Rep. Hugh Addonizio (D., N.J.); Rep. William A. Barrett (D., Pa.); Rep. Leonor K. Sullivan (D., Mo.); Rep. Thomas L. Ashley (D., Ohio); Rep. Charles A. Vanik (D., Ohio); Rep. Jackson E. Betts (R., Ohio); and Rep. Walter M. Mumma (R., Ohio).

Rep Robert E. Jones (D., Ala.) will join the group at Huntsville and remain with it while here.

Also among the official party will be John H. Arrington, Director of Family Housing, Department of Defense, and Bruce C. Kixmiller, of the Federal Housing Authority.

The party will arrive at the Redstone Army Airstrip at 11 a. m. Wednesday, and spend the remainder of the time before lunch inspecting post housing including Redstone Park and the Capehart, Wherry, and Military Construction (Army) projects.

After lunch at the Officers Open Mess (Bl. A-131), the group will spend several hours touring the post, before going into Huntsville for a tour of the city.

The Congressmen will be guests of honor Wednesday night at a banquet to be sponsored by the Huntsville Real Estate Board, headed by James K. Taylor.

The Huntsville Industrial Expansion Committee will assist with arrangements for the dinner, which will be held at the Russel Erskine Hotel.

The delegation will leave Huntsville Thursday morning for Patrick Air Force Base, Fla., where it will also pay an official visit.

580TH ENGINEERS END FIRST YEAR

The 580th Engineer Company (Redstone) celebrated its first anniversary with a full field inspection and presentation of a letter of appreciation from Col. R. C. Gildart, who commands the 40th Field Artillery Missile Group (Heavy) to which the unit is assigned.

The Group is in training at the Army Ballistic Missile Agency.

The Engineer unit was activated at Fort Belvoir, Va., Oct. 5, 1957, with Capt. Michael P. Clayton as commander. Officers and key enlisted personnel are graduates of specialized courses of The Engineer School. Ninety-five percent of the company's personnel are Regular Army.

Before the company's activa-

EARLY BIRD — Only two days remain in October, by the calendar shown above, circled for the blast-off day of the Arsenal's United Givers Fund campaign. But Capt. Milton E. Buchholz will not have to turn over a new leaf into November to complete his solicitation. On the contrary, he began before kick-off day, and completed his rounds a few days thereafter. Proof of the adage about "getting the worm" was gifts totaling \$150 from the first four people he contacted in the Projects Office of the Industrial Operations Division, ABMA.

(Photo by SP3 James R. Cox)

tion, Capt. Clayton spent several months in the selection of key personnel. All officers were assigned directly by the Chief of Engineers.

The unit was redesignated a Redstone support company from

the 2nd Engineer Amphibious Brigade and has a record of many successful operations in World War II. Lt. John A. Yeager is the executive officer and Thomas S. Knick is first sergeant.

Quality Control Conference Starts Thursday

The 1957 Quality Control Conference, jointly sponsored by the University and the Birmingham and Huntsville sections of the American Society for Quality Control, will be held Oct. 31-Nov. 1 at the University of Alabama campus.

The purpose of this conference is to assist industry in Alabama and surrounding states by emphasizing the role of statistical and non-statistical methods and techniques in the control of quality of manufactured products.

This year's program has been expanded to cover one and a half days of lectures and discussions which will be beneficial to managerial, design, supervisory, production and inspection personnel throughout an industrial organization. The conference will be divided into two sections: a Basic Section and an Advanced Section.

Basic Section subjects are designed to give managerial, supervisory, and other personnel who are just beginning their work in statistical quality control, an insight into what it is, what it can do, and the benefits derived. Advanced section subjects are designed to give persons with a basic foundation in the subject, some techniques which will serve to supplement and sharpen their basic knowledge.

The Basic Section will hear lectures on subjects as "Sampling Plans," "Data Analysis," and "Process Control Charts" while the more advanced lectures will cover subjects concerning "Test Techniques," and "Quality Assurance."

All registrants will have the opportunity to hear outstanding speakers on intriguing subjects such as "Controlling the Quality of Management Decisions," "Operations Research and Its Use," "A Quality Control Program Which Speaks Management's Language—Dollars."

Some of the speakers who will participate in this conference are: Dorian Shainin, Industrial Consultant, Rath and Strong, Boston; Frank Caplan, Supt. QC, Atomic Fuel Dept., Westinghouse Electric Corporation, Cheswick, Pennsylvania; D. H. W. Allan, Metallurgical Statistical Analyst, Iron and Steel Industry, New York City; Bill Andrus, Manager Scientific Computation Laboratory, IBM, Endicott, New York; N. L. Sample, Monsanto Chemical Company, St. Louis, Missouri; and many other outstanding leaders in the field of QC.

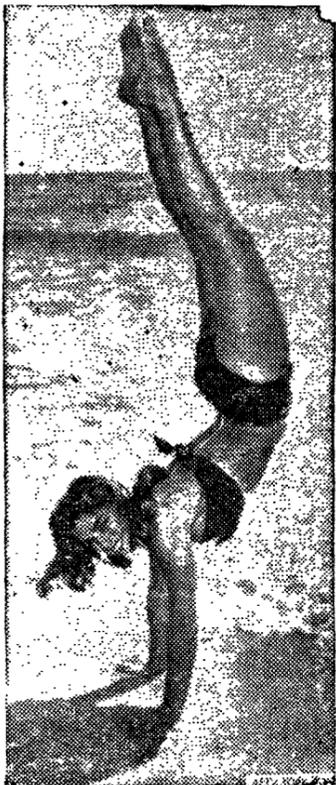

The registration fee is \$15.00, which includes the cost of the luncheon and banquet on October 31, and the luncheon on Nov. 1.

For further information, call W. B. Harrell at JE 2-5889 or RSA Ext 5377.

Post Theater to Be Open 7 Days a Week

Effective 4 November, the Post Theater will operate on a seven day schedule. The hours will remain the same.

INSIDE STORY— Betty Anderson was a hands down winner at Miami Beach, Fla., when the Chiropractic Association of America got together to choose Miss Correct Posture of 1957.

Col. Orman Tells Engineers of Work at Missile Test Center

Col. Leonard M. Orman was guest speaker at a meeting of the Huntsville Post of the American Military Engineers last Thursday night. Col. Orman is the ABMA Project Officer at the Air Force Missile Test Center, Patrick Air Force Base, Fla., and is also director of Army tests on the staff

of the Commander of the Air Force Missile Test Center.

Col. Orman is a graduate of West Point Military Academy, class of 1938.

He spoke on operations at the Missile Test Center. Included with his speech were films and slides showing various test missiles being fired and down-range instrumentation sites that are used in conjunction with firings at the Test Center.

Col. Orman pointed out the

Being subtle is merely the art of saying what you honestly think and then getting to hellangone out of there before your meaning is completely understood.

many problems involved in the program that is being conducted at Patrick.

Guests at the meeting included Brig. Gen. Philip C. Wenie, assistant commandant, U. S. Army Artillery and Missile School, Ft. Sill, Okla.

This was the first meeting of the society under its new officers with Col. Duncan Hallock, new president, presiding.

Hayfoot looked up from the scientific magazine he was reading.

"Holy smokes, fellers," he upped, "get a load of this, will ya—Three thousand and twenty-six elephants' tusks are used, annually to make billiard balls."

Strawfoot nodded, looking at Rear Rank Rudy. "That's a lot of ivory, chum!"

And the prize dimwit of Camp Webb said: "Aw, ya can't kid me! Elephants can't make billiard balls!"

All things come to him who waits: Including whiskers.

DUNNAVANT'S

Work Clothes
that are **RIGHT**
on the job!
