When 10 Cents 'Launched' a Missile

MISSILE FIRING LAB COMES LONG WAY SINCE 'TAPE' DAYS OF '53

CAPE CANAVERAL, Fla.—The Army's missile firing program at this beach-front launching site has progressed a long way from a day when a 10-cent spool of tape became a major problem.

James E. Rorex, one of a small group associated with every Army launching since the program began in August, 1953, told the story of the tape.

The incident occurred in the Fall of 1953. A Redstone Ballistic Missile was on the pad, fueled and ready to be fired. Suddenly a tape-driven spool in a telemetry device failed to function; the tape broke.

Missile Firing Laboratory employees jumped in a car, drove to a drygoods store in Cocoa,

bought a 10-cent roll of silk tape and thread. They repaired the tape drive and the device functioned perfectly when the Redstone lifted off the pad.

Rorex joined the Firing Laboratory directed by Dr. Kurt H. Debus in 1952 when it was organized to launch the Redstone missiles then under development at Redstone Arsenal, Ala.

He is a native of Cherokee, Ala., where his mother, Mrs. Elizabeth Rorex, resides. He was graduated from the University of Alabama with a degree in electrical engineering in 1949. He worked in radar at Keesler Air Base, Biloxi, Miss., then was a consulting engineer in Anniston, Ala., before joining the Army missile program in 1952.

For several years Rorex and his co-workers traveled between Redstone Arsenal and Cape Canaveral for launchings. In 1955 he moved to Florida and now lives with his wife, Ruth, at 141 Val—
(See MISSILE on Page 2)

89TH ORD CO. IS REASSIGNED

Redstone Missile Group Goes to Okla.

(Photo Inside)

The 89th Ordnance Company (Redstone) is being reassigned to Fort Sill, Okla., from the Army Ballistic Missile Agency.

The main party of officers and enlisted men departed Huntsville last Saturday.

The company is one of several units which were activated at ABMA and underwent Cadre Specialist training to support the giant Redstone Ballistic Missile System in the field.

Seven officers and 124 enlisted men are assigned to the 89th which will be permanently assigned to the Fourth Army installation, Capt. David P. McNamara, a native of Buffalo, N.Y., commands the Company.

The Redstone Missile is a highly accurate, liquid propelled, surface-to-surface missile capable of transporting nuclear or conventional warheads against targets at ranges up to approximately 200 miles. It is a forerunner of the Jupiter missile.

The Redstone fills the Army's need for mobility because the missile, launching equipment, and fuel are transported by truck convoy. Lightweight ground equipment assists in the erection of the Redstone in the field.

FSD Switches to Tape For Processing Data On Supply Management

Redstone Arsenal's Field Service Division is one of the first such units in the Army Ordnance Corps to change over from use of an IBM card system to a computer operation utilizing magnetic tape in its processing of supply management data.

The FSD change-over went into effect this month, after several months of advance planning. It is regarded as the initial step toward conversion within the Division of a number of other presently manual operations.

The new method, which utilizes a huge complex of machinery known as an IBM 704 located in the Army Ballistic Missile Agency's Computation Laboratory, is used to keep records of world-wide stocks of missile systems components for the purpose of supply to the field. Some 35,000 different items are involved, FSD officials point out.

Mrs. Edith Gibbs is chief of FSD's Automatic Data Processing Office. Deputy chief of the 28-employee office is H. H. Parker.

'OLD HOME WEEK' FOR OGMS GROUP—It was "old home week" for a group of Ordnance Guided Missile School military personnel from West Germany last Friday when they met and talked with their homeland's Minister of Defense, Franz Josef Strauss (second from right). Mr. Strauss was here for an official visit at Redstone and the Army Ballistic Missile Agency. At right in photo above, making the introductions, is Brig. Gen. John G. Shinkle, Redstone deputy commanding general. The OGMS group includes (left to right) Maj. Heinz Casper, Capt. Wolfgang Wiest, Capt. Raimund Schelb, Capt. Johann Lorenz, Capt. Konrad Mueller, and Capt. Werner Kothe. All are students at the School except Capt. Kothe, who is liaison officer.

Annual West Point Founder's Day Dinner Set Tomorrow Night

The annual West Point Founder's Day Dinner will be held tomorrow night, 20 March, at the Redstone Arsenal Officer's Club. Festivities will begin at 1830

\$1½ Million Contract Awarded for Building OGMS Troop Facilities

Col. Harold E. Bisbort, U. S. Army District Engineer at Mobile, Ala., has announced the award of a contract in the amount of \$1,506,154 to the Blount Brothers Construction Co., of Montgomery, Ala., for the construction of interim troop facilities for the Ordnance Guided Missile School.

Col. Bisbort said that proposals for the work were solicited from 50 prospective contractors and that five proposals were received.

The contract calls for the construction of a 1,000-man troop facility on an expedited schedule, with initial occupancy within

AT OGMS

The Marines Have Landed

(Photo Inside)

The Marines have landed at the U. S. Army Ordnance Guided Missile School.

For the first time in its history, the School is training Marines in the inspection, repair, and maintenance of a guided missile system.

The "leathernecks," who will be with the Army for a one-month period, are Sgt. Ronald L. Foster of Memphis, Tenn.; Sgt. Walter L. Lewey of Burlington, N. C.; and Sgt. Colbert R. Huff of Rock Island, Ill. Sgts. Foster and Lewey are stationed at Camp Lejeune, N. C., and Sgt. Huff's home station is at Santa Ana, Calif.

Col. Henry S. Newhall, OGMS commandant, said the Marines are attending the Lacrosse Missile System Mechanical Repair Course which teaches students to maintain and repair the mechanical system of the missile and its associated handling equipment. Resident instruction for the Lacrosse system began March 3.

The arrival of the Marines means that the Ordnance Guided Missile School, the Army's only service school devoted exclusively to guided missile training, will have trained students from all four of the U. S. services plus representatives of nine North Atlantic Treaty Organization countries who are currently in resident training.

By June of this year, OGMS will have graduated about 4,500 students during the past 12 months.

three months. The following buildings will be constructed from government-furnished Quonset buildings: 12 barracks buildings, a mess hall, six administration buildings with day rooms, and a classroom building together with necessary utilities and roads.

CIVIL DEFENSE: What Would YOU Do?

Atomic Fall-out, Effects Described

By J. C. HAND
RSA Civil Defense Coordinator

Third in a series of articles about RSA emergency plans.)

What is FALL-OUT and how

might it affect me?

a. When an atomic or thermonuclear device is detonated near the ground, great masses of pulverized debris are sucked upward, sometimes to heights of 80,000 feet or more. Radioactive material released by the explosion and vaporized by its heat condenses on the tiny debris particles and later falls back to earth as dust. This is fall-out.

b. The intensity of radiation is very high immediately after the burst, but "decays" or diminishes rapidly. Therefore, particles reaching the ground near the burst will be very highly radioactive, while those which are carried a long distance will have lost much of their radioactivity before they fall to the ground.

c. The area of significant fall-out contamination will depend upon the size of the bomb, and the direction and intensity of the winds at various heights. In general terms, it will be a modified cigar-shaped area extending "downwind" from the point of burst. In the case of the bomb fired at the Bikini Atoll on March 1, 1954, the area of dangerous contamination was nearly 14,000 square miles. Some of the early fall-out from this explosion occurred in the form of a fine dust which looked like snow. On the uninhabited islands about 170 miles downwind, the fall-out began about eight hours after the detonation and continued for several hours. In the downwind belt about 20 miles wide and 140 miles long, the residual radiation would have been fatal to nearly all persons remaining there 24 to 48 hours if they had not taken cover. Up to 190 miles from ground

zero, it would have been fatal to from 5% to 10% of the people. This points up the importance of promptly seeking cover from fall-out.

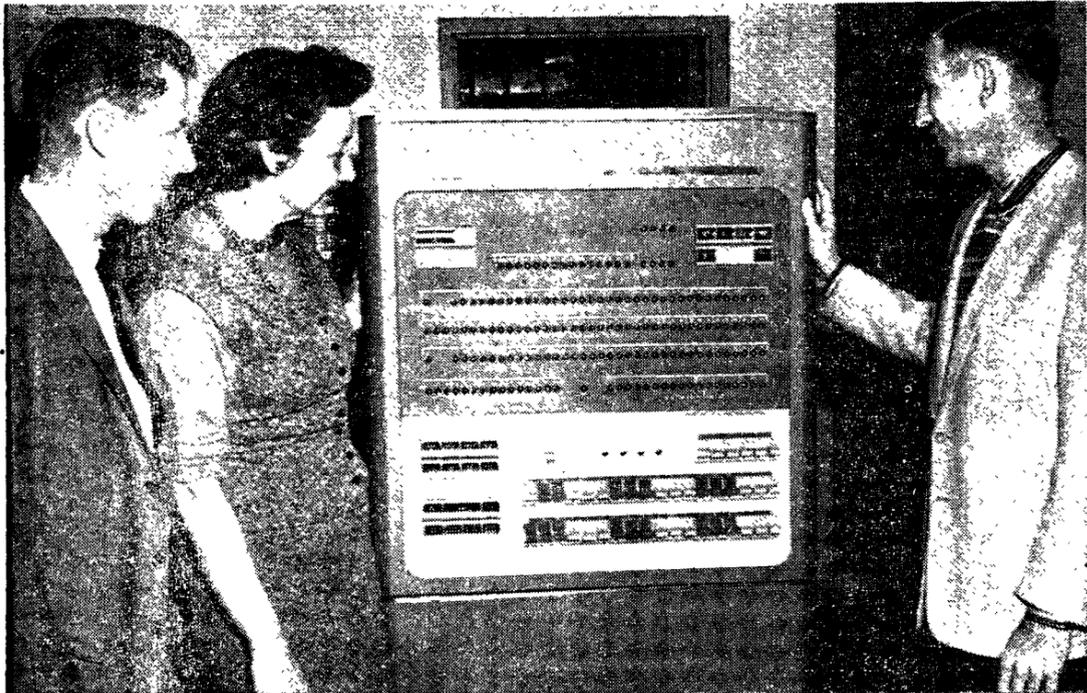

What is considered good cover from fall-out?

a. Beyond the range of probable blast and thermal effects, such cover as is available should be used. The best protection from fall-out is that which places you farthest removed from the fall-out particles on the ground and roof of buildings. Test data indicate that the radiation level indoors on the first floor of an ordinary frame building would be about one-half the level out of doors. Greater protection would be afforded by a brick or stone house, and the basement of an average residence would reduce the exposure to about one-tenth. It has been stated that shelter in an old-fashioned cyclone cellar, with a covering of earth 3 feet thick, would reduce the radiation dose to about 1/5,000.

b. Adequate food and water should be stocked in sealed containers and proper sanitation measures should be taken to permit shelter occupancy for several days. In the individual home, 48 hours after detonation, people may emerge from cover for a few minutes at a time if necessary. Exposure for longer periods should not be risked until the area has been checked by radiation instruments and pronounced safe.

How much exposure can a person take without serious injury?

a. There is no easy answer, as many variables enter into the problem. However, for general
(See ATOMIC on Page 2)

NOW IT'S ON TAPE—Officials of Redstone Arsenal Field Service Division's Automatic Data Processing Office watch an IBM 704 magnetic tape computer "do its stuff" after FSD recently changed over to the new operation instead of using the IBM card system for its processing of supply management data. Left to right are H. H. Parker, deputy chief of ADPO; Mrs. Edith Gibbs, chief; and Lynn Barnes, computer programmer. The Division was one of the first such units in the Army Ordnance Corps to make the change-over.

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Wednesday by Jack W. Hoffhaus, Hartsville, Alabama, with exclusive regard for the reader interests of personnel at Army Ballistic Missile Agency, Redstone Arsenal and Ordnance Guided Missile School in accordance with an agreement between the publisher and the Public Information Office, Redstone Arsenal, Huntsville, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or Redstone Arsenal. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or Redstone Arsenal.

The publisher will receive editorial content for publication in the Rocket only through the Public Information Office, Redstone Arsenal, Bldg. A-101, Extension 2212 or 2794. All advertising copy and payments therefor are received by Mrs. Zillah Newsome, 588 E. Holmes St., Huntsville, Ala., telephone JE-44701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$3 a year, or \$1.75 for six months. Mailing arrangements may be made with the publisher.

Missile

(Continued From Page 1)

encia Road, Rockledge, Fla. They have a little daughter, Martha, just one year old.

When the Army first moved into the Cape area, Rorex said, they shared the only blockhouse with the Air Force, then working on the Matador and the Snark projects. The Redstone was the first U.S. ballistic missile launched from Canaveral.

Now chief of the radio frequency and telemetry unit and co-responsible with Karl Sender for all electronic engineering functions, Rorex said the early telemetry equipment tracking the big rockets was rather primitive. To get parts, the pioneers sometimes scrounged undamaged components from the remains of missiles after launching.

The Army's buildup, in terms of equipment and personnel, has been slow and consistent over the years, Rorex added. The first Laboratory office was a small room inside the service structure, the big mechanical contraption which encloses the missiles until launch time.

The first building in which missiles were assembled at the Cape was a tin structure, shared with the Air Force. Redstones were put together along one side, Snarks along the other.

In the last two years the Air Force particularly has greatly expanded its facilities. Now there are huge, separate hangars for the Army missiles, for Air Force and Navy rockets and missiles. Many blockhouses have sprung up on the windswept beach.

Rorex has actually seen but three launchings, the first of the Redstone series. Now he watches his recording devices in one of the Army's missile hangars; it is called the "Telemetry Receiving Section."

The Jupiter-C rocket, which carried the Explorer aloft into orbit, is simpler from the telemetry standpoint than the Army's ballistic missile weapons—the Redstone and 1,500-mile Jupiter.

By way of comparison, Rorex said the Jupiter-C carries one transmitter which may return up to 50 measurements during flight. The weapons systems may carry two or three transmitters, sending back as many as 150 different measurements.

Does he like the work? Rorex grinned happily—"I don't think there is anything anywhere as enjoyable as this business," he said.

Atomic

(Continued From Page 1)

reference the following is given: (1) Less than 25 Roentgens of whole body exposure to gamma rays ("fall-out radiation") over a brief space of time will not result in obvious injury.

(NOTE: You will not need an instrument to detect and measure radioactivity — you can rely on your local radiological defense teams to warn you of the presence and the amount of radioactivity.)

(2) Doses of about 100 Roentgens (100r) will produce nausea and vomiting in some individuals.

(3) About 400 R would probably prove fatal to some 50% of people so exposed.

(4) 600 R or more would probably be fatal. Somewhat larger doses are required to produce a given effect if the radiation is received over several days or in intermittent exposures.

b. If you have been exposed to radioactive dust or water, be sure to change your clothes and shoes. You should take a bath, scrubbing thoroughly with warm water and ordinary soap. Pay particular attention to your hair and finger nails.

DO NOT BE ALARMED—BE ALERT!

(First Aid and Food will be discussed in a later issue. Add each installment to your file.)

West Point

(Continued From Page 1)

hours. All graduates and former cadets of West Point living in the Central Tennessee and Northern Alabama area are expected to attend.

The dinner is to celebrate the 156th anniversary of the founding of West Point. Since its founding in 1802, 21,659 men have graduated from West Point.

Optical Tooling Topic For Meeting of Society Of Mechanical Engineers

Optical tooling will be the subject at the March 25th meeting of the North Alabama Sub-Section of the American Society of Mechanical Engineers.

H. L. Nicholson, optical tooling engineer for Charles Bruning Co., Inc., will present a color and sound movie showing the development of optical tooling methods. In addition to the movie, a demonstration of optical tooling in-

struments and scale models of optical tooling instruments will be included.

Nicholson, who completed his toolmaker's apprenticeship in 1940, has been in the field of tooling and quality control ever since, except for four years in the Air Corps during World War II. He has completed responsible assignments with Detroit Arsenal, Chrysler Corp., and ABMA. In addition to his formal education, Nicholson has completed training programs presented by the Detroit Corporation of Applied Science and the Chrysler Corp. He has also been a member of the Michigan Society of Statistical Quality Control.

The meeting will be held at the LaParee Restaurant on South Memorial Parkway following dinner at 7 p.m.

Reservations for the dinner only are required and may be requested by calling Rohm and Haas Co.,

Ext. 384, by March 21. Visitors are welcome.

Times change: About the only thing you can do on a shoestring these days is trip.

THE KOECKERT STRING QUARTET

Famed German String Quartet to Play in Huntsville

The world-famous Koeckert String Quartet will be at the Huntsville High School Auditorium at 8 p.m. on Wednesday,

March 26. The quartet is sponsored by the Huntsville Chamber Music Guild.

Tickets are on sale at the Book Shop, the Madison Piano Company, the Public Library, or may be obtained by dialing JE 4-6523. During the advance sale, tickets are \$1.50. They will also be on sale at the door for \$1.75. Students and enlisted personnel may obtain tickets for \$1.

The Kockert Quartet is the first string quartet to come to the United States from Germany since the war. They make their home in Munich. According to some critics, they are the leading German chamber music organization.

This Quartet was formed in 1939 while the men were still students at the Prague Conservatory in Czechoslovak. Forced out of that country through politics, they made Germany their headquarters.

Through regular appearances at the Salzburg and Venice Festivals, the Kockert Quartet is already known to many Americans who visit Europe. The program next Wednesday night will include selections from Haydn, Beethoven and Brahms.

Rudolf Koeckert is first violinist, Willy Buchner second violinist, Oskar Riedl violist, and Josef Merz violoncello. They formed the quartet first while

Military Accident-Free Record Is Broken at 21

The string of military days without serious injury was broken on the night of March 12. An enlisted man lost control of his vehicle and crashed into a steel post near a guard house in the ABMA area. He was hospitalized at the Post Infirmary with facial injuries.

This accident interrupted the longest period of accident-free experience, for military personnel, since establishing a goal of 30 accident-free days on the

"Safety Scoreboard." The record to reach the goal of 30 days of 21 days without injury is a good indication that it is possible

Three Officers Promoted

Three project officers in the Industrial Operations Division at the Army Ballistic Missile Agency received their first lieutenant bars from Col. Calvin A. Heath, director of the Division, in a recent promotion ceremony. They were Lt. Robert W. Springer, Lt. James G. Cavalaris, and Lt. Charles Eugene Brewer.

Prior to their assignment with the Agency, all three were stationed at the Aberdeen Proving Ground, Md. Lt. Springer, a graduate of Penn State University, is from Baltimore, Md. Lt. Cavalaris, a graduate of the University of Tennessee, is from Knoxville. Lt. Brewer, also a graduate of the University of Tennessee, is from Fountain City, Tenn.

ANYONE CAN PLAY

Golf Day Event Slated By Military Policemen

The Second Annual International Golf Day will be held in Huntsville soon, sponsored by local members of the Military Police Association (headquarters, Augusta, Ga.)

The matches, proceeds from which will go to charity, will be played March 28, March 31, and April 1, at the Huntsville Country Club course, it was announced by Lt. Col. Dean H. Jones, Provost Marshal for Redstone Arsenal and chairman for the event.

This year, Golf Day will be open to anyone who wishes to play. Last year participation was limited to members of the Military Police and their invited guests in related law enforcement fields such as civil police, security guards, etc.

Each participant in the event will compete (using the handicap system) against one of the greatest golfers of modern times, Doug Ford, who won the coveted Masters Tournament at Augusta, Ga., last year. Local scores will be posted against Ford's score for the first round of the upcoming 1958 Master's Tourney, April 3. For those golfers who do not have an established club handicap, the Callaway system of handicapping will be used.

An added attraction of interest to the lady golfers is that they may add seven strokes to their club handicap (no added handicap under the Callaway System.)

A wind-proof cigarette lighter will be given by the Military Police Association as a prize this year to all who beat Ford, Col. Jones said. The lighter is of metallic green enamel with crossed pistols hand-painted in gold on one side and on the other the inscription, "I beat Doug Ford on 1958 MPA International Golf

Day."

Entrance fees have been established at \$1.25, of which 25 cents will go to MPA for promotional and award expenses and the remaining dollar to a local charity to be designated by the Provost Marshal, Col. Jones. Fees will be collected at the course by a representative of the MPA. Customary green fees for the Country Club course will be in effect for non-members. For further details about participation in International Golf Day, contact Col. Jones at Arsenal extension 3632, or Capt. Walter E. Kosper, of the ABMA Intelligence and Security office, extension 4329. Capt. Kosper is assistant chairman for the event.

"For all golfers scratch and dub alike, Golf Day will provide an excellent opportunity to compete against one of the foremost players of today, Doug Ford," Col. Jones stated. "Of equal import, however, this international event will provide a means for the Military Police and their friends to strike a note of charitable good will all around the world."

Last year's International Golf Day was an outstanding success, Col. Jones added, with several thousand dollars going to charities selected by local provost marshals all over the country.

General Mills Official To Address Accountants

Arthur H. Smith, director of management analysis, General Mills, Inc., Minneapolis, Minn., will be guest speaker at the March technical session of the North Alabama Chapter of N. A. A., today at 6:30 p.m. at the Florence Country Club

Smith will speak on "Management Accounting." Smith will be visiting the chapter as a national officer of N.A.A., and a special meeting of officers and directors

GEN. TOFTOY'S AIDE—Capt. appointed aide-de-camp to Maj. George H. Adams recently was Gen. H. N. Toftoy, commanding general of Redstone Arsenal. Capt. Adams is a graduate of Oklahoma State University with a bachelor's degree in engineering physics. Until his recent appointment, he was a project officer on the Projects Management Staff of the Research and Development Division. The captain is a charter member and executive officer of the Pistol Club at Redstone Arsenal, and is assistant captain of the Pistol team.

will be held at 4 p.m. today at the Country Club.

Smith is vice-president of the National Association of Accountants. He was elected to membership in N.A.A. in 1941 and has served the Minneapolis Chapter in various capacities including the presidency. He was a member of the National Committee on Research 1947-51; National Director 1950-54, serving during that time as chairman or member of several committees. He has appeared as a speaker before chapter meetings and regional and national conferences, and has contributed articles to the N.A.A. Bulletin.

Smith received his B.A. degree in accounting at the University of Wisconsin, and is a graduate of the Advanced Management Program of the Harvard Graduate School of Business Administration. He is a C.P.A. and a member of the Minnesota Society of C.P.A.'s and the American Institute of C.P.A.'s. He is currently on his state's committee on Accounting and Auditing Procedures and Practices.

He has participated in various community activities including Red Cross Drives, Chamber of Commerce, Wisconsin Alumni Association. He is a member of the Izaak Walton League of America and is an active sportsman.

SPEED LIMITS TOLD FOR POST

Beginning today, the following speed limits will be in effect at Redstone Arsenal, it was announced by the Provost Marshal Office:

In three areas the speed limit will be 60 miles per hour. These are: Patton Road south of Neal Road to Buxton; Buxton Road;

and Rideout Road. All plants areas and congested areas will be 25 miles per hour. All housing areas will be 10 miles per hour. All other open roads will be 50 miles per hour. These speed limits will remain in effect 24 hours a day seven days a week until further notice.

OML EXEC—Capt. Rudolf F. Nottrodt is now the executive officer for Redstone Arsenal's Ordnance Missile Laboratories. He was appointed recently by Col. Thomas E. Wood, director of OML. Capt. Nottrodt has been at Redstone Arsenal since July, 1955, as chief of the Technical Intelligence Office. He has been active in civic groups, as an Arsenal speaker, and is a member of Toastmasters International. He came to America, when he was 15, from Germany. He received his United States citizenship in 1940. Prior to his Redstone assignment, he was with G-2 at Ft. Meade, Md. His overseas assignments include Italy, Germany, and Korea.

Lieutenant Is Sarge And Rank Is Private

FORT LEWIS, Wash. — Permanent private to temporary sergeant to reserve lieutenant in 30 months is the promotion record piled up by Sergeant Frederick G. Lake since January, 1955.

Lake, of (800 Canal St.) New Orleans, La., resigned a National Guard sergeantcy to join the Army as a private. He made corporal on Okinawa and sergeant in Korea, all in the first 18 months.

Next step was studying for an officer's commission through ex-

sons interested in singing sacred music are invited to attend these rehearsals.

The Chapel nursery is open for babies and small children during these rehearsals. Any questions regarding the activities of the choir can be answered by calling the director, Pfc. William H. Shambaugh, Ext. 6466 or 2337.

Sturdley says that marriage teaches you loyalty, tolerance, understanding, perseverance and a lot of other things you wouldn't need if you'd stayed single.

The honeymoon is over when he stops helping her with the dishes and starts doing them by himself.

Quite often a girl gets rid of a headache by telling him she has one.

tension courses from the Infantry School at Fort Benning, Ga. Burning the midnight oil paid off recently when his reserve commission as a second lieutenant came through.

Lake will continue on his present assignment here as machine gun sergeant until his enlistment ends in January. Then he plans to attend the Artillery School at Fort Sill, Okla., and serve on active duty as an officer.

MP HONORED—Capt. Walter E. Kasper (right), deputy chief of the Intelligence and Security Office at the Army Ballistic Missile Agency, presents the MP of the Month plaque to Military Policeman SP-3 Frederick E. Wheatley, Jr. SP-3 Wheatley is assigned with Detachment "B" at the Agency.

WORK SIMPLIFICATION—Jimmy W. Cosby, electronic equipment installer and repairer apprentice of the Shop Section, Instrument Branch, Research and Development Division—OML, located in Building 7855, demonstrates the improved method of engraving switches by use of a template which he designed and fabricated. Cosby applied the techniques learned during the RSA Methods Improvement Class No. 39, in developing the better method. The annual monetary benefit to be realized from the project amounts to approximately \$1,850. Students of this class were apprentices from various organizational elements of Redstone Arsenal and ABMA. The total annual monetary benefits resulting from the combined projects of this group reached approximately \$32,000. Glenn Halcomb was the instructor. The work simplification courses are conducted by the Management Improvement Branch, Management Division, RSA Comptroller. Two types of training are offered: Methods Improvement for shop personnel and procedure analysis for administrative personnel.

FAREWELL TO 89TH—Brig. Gen. J. A. Barclay, deputy commander of the Army Ballistic Missile Agency, bids goodbye to Capt. David P. McNamara, commanding officer of the 89th Ordnance Company, as Col. H. E. von Kaenel, director of the Agency's Training Division looks on. Capt. McNamara is departing from Redstone with his unit on a permanent change of station to Fort Sill, Okla. His company will fill to full strength and continue its training there, with the other elements of the school troops which consist of the 76th Engineer Company and the 4th Field Artillery Missile Battalion of the 33rd Field Artillery. Capt. McNamara has been stationed with the Missile Agency since 15 April 1957. The 89th Ordnance Company was activated on 15 Aug. 1957.

RETIREES AFTER MORE THAN 20 YEARS—M-Sgt. Tilson C. Livingston (right) receives the best wishes of Brig. Gen. John G. Shinkle, deputy commanding general of Redstone Arsenal, during a recent retirement ceremony in the general's office. M-Sgt. Livingston is an Ordnance supply specialist. Sgt. Livingston, who is now residing in Cumberland, Ky., joined the Army more than 20 years ago, enlisting at Bristol, Va. He received his basic training at Ft. Davis, Panama Canal Zone. A short break in service at the end of the enlistment was followed by continuous service for the next 20 years. He has served in Korea, Europe, Canada, and in many places in the United States.

SHOW OFFS—This trio of lovely lasses (from left), Carol Conn, Marjie Tennet and Joi Lansing, show how the television industry is shaping up.

MUELLER TO SPEAK ON 'GUIDANCE' AT MEETING OF ROCKET SOCIETY

At tonight's meeting of the Alabama Section, American Rocket Society, at the Huntsville Utilities Building, the subject will be "Guidance," and will be unclassified. Time of meeting is to be 8 p.m.

The speaker will be Fritz Mueller, deputy chief of the Army Ballistic Agency's Guidance and Control Laboratory. The lab is a unit of the Agency's Development Operations Division.

Mueller was born in Schalkau, Thuer, Germany, on Oct. 27, 1907. He is one of the pioneers in the development of guidance systems for missiles.

He received his degree as an electrical engineer in Germany in 1929 and from that time worked in the field of gyroscopic stabilizers and navigational instruments for marine use. In 1934, he came into contact with Dr. Werner von Braun and developed for him the control systems for the experimental A-3 and A-5 type guided liquid fuel rockets.

In 1938, Mueller came to this country to work for the Army Ordnance Corps, first at Fort Bliss, Texas, and later at Redstone Arsenal (from 1950 to 1956).

In 1945, Mueller came to this country to work for the Army Ordnance Corps, first at Fort Bliss, Texas, and later at Redstone Arsenal (from 1950 to 1956).

FRITZ MUELLER

Last year he transferred to his present position with ABMA. He became an American citizen on Nov. 11, 1954.

Des Laurier Elected Top Toastmaster

Emile Des Laurier was elected best speaker of the evening at the regular weekly meeting of Redstone Toastmasters Club held on 11 March. He spoke on the subject "Achieving a Goal."

Other speakers on the panel in-

HOW DO YOU RATE

YOU'RE SMART . . .

- . . . if you can clothe and feed your family, pay all your bills, and still put money in the bank.
- . . . if you have regular check-ups by your doctor and your dentist.
- . . . if you eat a proper amount of good nourishing, wholesome food.
- . . . if you get plenty of rest.
- . . . if you exercise your right to vote.
- . . . if you always remember your wife with a little gift when the wedding anniversary date rolls around.
- . . . if you remember your wife's birthday, and forget which one it is.
- . . . if you realize that your happiness, security and your life depend on your safe work and driving performance.

Mary: "Has he proposed to you yet?"

Jane: "No, but he has an engagement ring in his voice."

Expectant mother: "Would you like a baby brother or baby sister?"

Four-year-old son: "If it's not too much trouble, I'd like a pony."

cluded Tom Adcock, who discussed "Education in Alabama"; Tom Stramiello, who spoke on the subject "What Have I Done"; and Webster Mayfield, who developed "An Air-Tight Case."

Tony Demetriou served as Toastmaster, Frank Sutherland as Table Topics Chairman, Walt Slay as Grammarian, and Tom Enzor as Parliamentarian.

Maj. Dan Jannigan, Canadian Army, was a guest for this evening.

SWEARING IN — First Lieutenant Alfred D. Bartolacci of the Field Artillery Instructional Detachment (Redstone) at the Army Ballistic Missile Agency is sworn into the Regular Army by Lt. Col. R. G. McEwan, commanding officer of the Detachment. Lt. Bartolacci, an instructor in the (Redstone missile system at the Agency, entered the Army on 9 Sept. 1953. Prior to his assignment at ABMA he was with the 259th Field Artillery Missile Battalion (Corporal) in Europe and at Fort Bliss, Texas. He holds a BS degree in chemistry from the University of Pittsburgh and completed his basic training at Ft. Lee, Va. Lt. Bartolacci is the son of Mr. and Mrs. Attilio Bartolacci of New Kensington, Pa.

Soldiers Shed No Tears for Amphibian

FORT GULICK, Canal Zone—Students of the U.S. Army Caribbean School's Engineering Section here had plenty to do building bridges in the Gatun Lake area without worrying about crocodiles, especially one eight-and-a-half footer with a mean streak in him.

For no longer having to worry about this amphibian they can thank Master Sergeant Robert L. Spence of (1207 Vista Ave.) Boise, Ida., who spent two years off-duty time trying to get him.

Spence's patience was finally rewarded recently when, using a steel cable for line and piece of wood for bait, he nabbed the croc and dispatched him with a caliber .45 slug.

RETIREES FROM GOVERNMENT SERVICE—Alvin E. Swafford (second from right), of Redstone Arsenal's Field Service Division, holds a plaque given him by fellow employes when he recently retired from government service. Looking on, left to right, are Neal E. Roberts, deputy chief, FSD Maintenance Branch; Lt. Col. Frank E. Napper, chief, FSD; and Melvin Tack, Guided Missile Maintenance Procedures Shop foreman. Swafford was connected with the old Huntsville Arsenal and Redstone for a total of 14 years. His last job was with the supply unit of FSD's Guided Missile Maintenance Procedures Shop. Upon his retirement, Swafford is planning to "do a little farming" at his home near New Market.

At the Service Club

The SC news this week is headline news—**MARNE MEN IN CONCERT AT SERVICE CLUB**

The 3rd Infantry Marne Men sang at the SC last Thursday night in an excellent program of music. This concert is one of a series of appearances they are making in the states before they begin their European tour. This group was outstanding from the standpoint of musicianship and presentation. No one could miss the obvious enthusiasm and pride of the men in their work that this program reflected. The Redstone audience was highly appreciative of the very fine evening of music.

THE MILLER-MCKINLEY ORCHESTRA DRAWS CAPACITY CROWD
The Glenn Miller Orchestra

under the direction of Ray McKinley attracted a tremendous crowd at last night's dance. The band was great and their interpretation of the swing style of the late Glenn Miller was reminiscent of earlier days for many of the group. Seventy-five hostesses came from Birmingham and Nashville for the evening.

An end of the evening comment was—Sensational, but how my feet hurt. Three dog-tired SC hostesses could vouch for that.

OVERFLOW CROWD AT DANCE CLASSES

Sixty-two people attended the dance lessons at the SC last Wednesday night. Anticipating a greater crowd tonight the group will abandon the usual meeting place in the TV room and move to the lounge for the lessons. Encouraging news concerning dance partners for the EM is expected in the very near future. These lessons are free to all enlisted men and their guests. Keep in step and whirl and twirl into the next series of lessons.

OUTSTANDING REDSTONE TALENT COMPETES IN ALL-ARMY ENTERTAINMENT

Attends Conference

O. C. Lusk of Redstone Arsenal recently attended a four-day Army Storage-Management Conference at Raritan Arsenal, Metuchen, N. J.

Some 70-top-level military and civilian army officials from the Pentagon and 17 Ordnance Corps installations in the eastern states convened at Raritan March 10.

The conference was called to discuss and recommend regulatory and policy changes relating to world-wide storage activities in the Ordnance Corps.

REDSTONE CHESSMEN LOSE, BRIDGEDIERS WIN AT McCLELLAN MEET

The Redstone Chess and Bridge teams played the Ft. McClellan teams in a challenge meet at Ft. McClellan recently.

The McClellan team claimed a 10-4 victory over our Chessmen. Representing Redstone were Mike

Schulman, Captain, George Stebbins, Bill McNutt, and Madison Dengler.

The Bridge team composed of Bob Bates, captain, Max Buten, Mike Speer, Frank Sellers, and Dick Tyler won by a large score. See you by the coffee urn.

MISS WILHELMINA RIST

* * *
**Miss Rist, Former
 RSA Employee, Will
 Give Piano Recital**

The Huntsville Chamber Music Guild and the Huntsville Art League will present Miss Wilhelmina Rist, daughter of Mr. and Mrs. John A. Rist, in a piano recital at the city Electric Auditorium, Friday, March 21, at 8 p.m. Miss Rist is a former employee of the Redstone Arsenal Adjut-

ant Office. Her father is a production control specialist in ABMA's Fabrication Laboratory.

The public is cordially invited to attend.

Miss Rist, a graduate of Butler High School, is a junior and piano major at the University of Chattanooga, and is studying under Professor Harold J. Cadek, dean of the Cadek Conservatory of Music, which is affiliated with the University.

She was the recipient of an

Coffee With Irish Flavor Enjoyed by 130 Officers' Wives

Coffee with an Irish flavor was enjoyed by more than 130 officers' wives and guests March 11 at the Redstone Arsenal Officers' Wives Club Coffee held at the Redstone Room, Squirrel Hill Officers Club.

The room was gaily decorated for the event with a St. Patrick's Day theme. Bright green shamrocks, bright green hats, and "wee folk" cutouts adorned the walls and hung suspended from the lights. In addition, the two coffee tables were decorated with bouquets of carnations edged with green, together with mums and heather.

Guests and newcomers at the coffee wore name cards decorated with lapel pins featuring shamrocks on which were centered tiny white pipes and hats.

The two bouquets were offered as door prizes and went to Mrs. D. E. Foxworthy and Mrs. J. A. Berry.

Redstone Arsenal wives were hostesses for the coffee and chairman of the committee was Mrs. M. R. Collins. Her committee members were: telephone, Mrs. Dudley Seldon and Mrs. Edwin Rudd; menu, Mrs. Edward Dooly; decoration, Mrs. Jim Bishop; name tags, Mrs. Jim Prewett and Mrs. Tom McGraw.

Pouring for the coffee were: Mrs. Melvin Fuller, Mrs. Archie Dean, Mrs. J. W. Donald, Mrs. W. J. Lindberg, Mrs. R. F. Nottrodt, Mrs. A. Q. Woodward, Mrs. A. L. Cox, Mrs. J. R. Hilborn, Mrs. G. W. Budd, and Mrs. P. C. Kostoff.

area scholarship and the Presser Foundation music scholarship, and has been awarded the Collegium Musicum Sophomore Music prize and the Mortar Board Scholarship prize. Miss Rist holds membership in Alpha Delta Pi social sorority, Alpha Lambda Delta scholastic fraternity, Kappa Chi Epsilon service fraternity, and Collegium Musicum. She recently received the Alpha Delta Pi pledge scholarship and essay awards.

Astute observation: "You don't make any footprints in the sands of time when you're sitting down."

COUNTING VOTES—Mrs. Raymon S. Dotson (kneeling) counts the votes during an informal election of a president and vice-president for the International Wives Club recently formed here. Mrs. Dotson was appointed general program chairman by Mrs. W. E. Swarouth, the newly elected president (right). Mrs. Kenneth B. Waugh was chosen vice-president. The group is composed of officers' wives who were born or reared in a foreign country. They hope to exchange information of cultural differences and domestic practices. Mrs. Dotson comes from Belgium, Mrs. Swarouth from Greece, and Mrs. Waugh from Australia. In all, 14 countries were represented at the initial meeting.

Immaculata Sodality Holds Second Meet

The Immaculata Sodality, the recently organized Catholic women's group at Redstone Arsenal, held its second monthly meeting last week, with 12 new members present.

During the meeting an Executive Board was organized composed of the officers of the group who are: Prefect, Mrs. R. S. Johnson; first assistant Prefect, Mrs. A. Hawkins; second assistant Prefect, Mrs. R. R. Resier; treasurer, Mrs. P. F. Brinkpeter; secretary, Mrs. F. J. Willard. Also included on the Board are Mrs. S. Jernigan, Eucharistic chairman; Mrs. C. H. Rawleigh, social chairman; and Mrs. C. Messinger, mission chair-

man. Spiritual books were passed out among those present for Lenten reading and Rev. John Zwack presented an inspiring message.

The Society will meet the first Friday of each month at 9 a.m. at the Chapel. Program will include Mass, conference, and breakfast. Free nursery facilities are available at the Chapel, and Catholic ladies are invited to attend. For further information call Mrs. Willard, Ext. 4655.

One day a little girl was heard talking to a neighbor child with whom she was playing cowboy. "You be Wild Bill Hickup," she said, "and I'll be Wyatt Burp."

RHYMES of the TIMES

RECIPE FOR SUICIDE:
TO ONE SLICK ROAD
ADD ONE FAST RIDE

THREE ROTARIANS met at the Army Ballistic Missile Agency last week. Left to right: Brig. Gen. J. A. Barclay, deputy commander and member of the Huntsville Rotary Club; Jimmy Hays, president, Huntsville Rotary, who presented a visitor's certificate to Dr. Ing Karl Fischer, Ministerial Director General, Republic of Germany. Dr. Fischer is a member of the Wilhelmshaven Rotary Club. Dr. Fischer visited the Agency and Redstone Arsenal with Franz Josef Strauss, Defense Minister who was briefed on Army developments in the missile field.

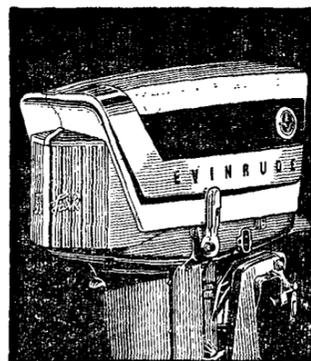

40th Group Proves Itself in Problem

The Army's first operational Redstone missile group has proven itself in the field at Ft. McClellan, Ala.
The 40th Field Artillery Missile Group (Redstone) from the Army Ballistic Missile Agency, comprised of five units, was located last week in tactical positions at Ft. McClellan, following a road march of over 100 miles. Arriving after darkness March 10 under the command of Colonel Robert C. Gildart, the group maneuvered in positions until last Thursday.

Under as near-realistic conditions as might be encountered in time of war, the officers and enlisted men of the 40th Group simulated all phases in the operation of delivering missiles on "potential" enemy targets.

This was the first extended field problem of a Redstone missile unit and is made in preparation for unit operational tests and overseas deployment of the group.
