REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

OCTOBER 15, 1958

UGF DRIVE HITS 70 PCT. MARK

AOMC, ARGMA Units Near Finish

(Photos Inside)

More than 70 percent of the personnel at Redstone Arsenal have made pledges or cash contributions so far to the Redstone United Givers Fund 1958 campaign, it was announced by Stuart H. Jones, Executive Chairman for the UGF.

During the previous reporting period figures based on data received from agency chairmen totaled 59 per cent participation. A meeting of Executive Committee Members and Agency Chairmen is scheduled today.

Figures for participation by civilian and military personnel percentage-wise are identical.

The Rohm and Haas Company completed their campaign drive with 100 per cent participation.

The Army Ordnance Missile Command Headquarters was near the finish line with 92 percent.

Close behind is the Army Rocket and Guided Missile Agency with 91 percent of the personnel having already contributed.

Other percentages of participation by Agencies are: Thiokol, 83 percent; Army Ballistic Missile (See UGF on Page 2)

Five Million Man-hours of Safety Marked Up

Redstone Arsenal civilian personnel this week achieved a noteworthy safety goal. As of Monday, a total of 5,000,000 man-hours had been worked without a lost-time injury.

"The working of 5,000,000 man-hours without injury is indeed a very fine accomplishment and would be the envy of almost any industry," according to Safety Office officials.

For comparison purposes, only within recent years a world's record for the ammunition and shell loading industry (5,000,000 man-hours) was celebrated at Milan Arsenal, Milan, Tenn.

The operations at Redstone, although all not involving explosives, do involve many hazardous materials and operations. There are many new and different type operations, too, involving various industrial processes and materials handling equipment which would not be found in many industries.

"Also, it is considered quite a credit to Redstone personnel that they are able to drive on the installation with the terrific traffic flow without wrecks that involve serious injury," Safety officials said. "Fortunately, most wrecks recently have been limited to rather minor fender and bumper collisions."

DR. SIEGFRIED GERATHEWOHL

Noted Space Medicine Authority Assumes New Duties at ABMA

A noted space medicine authority, Dr. Siegfried J. Gerathewohl, has assumed duties at the Army Ballistic Missile Agency.

Dr. Gerathewohl is planning research work in the Missile Agency's Research Projects Laboratory headed by Dr. Ernst Stuhlinger. Until recently he was associated with the Space Medicine Division of the Air Force School of Aviation Medicine, Randolph AFB. (See NOTED on Page 2)

MISSILE TRAINING

OGMS Is Pioneer In Closed Circuit Television Courses

Photo Inside

The Army has opened a new era in space age education by telecasting a two-hour course in guided missiles over a closed-circuit cable from the Ordnance Guided Missile School to the Army Armor School at Fort Knox, Ky.

Col. H. S. Newhall, Commandant of the Missile School, said the use of television for the first time to instruct in missiles enables the two Army Training Centers to save an estimated \$11,000,000 by jointly using costly equipment and skilled instructor already stationed at the Missile School.

This is the first time that the Army has used closed circuit television over such a distance — 280 miles — and it may be the forerunner of other missile training courses to be telecast from this birthplace of the free world's first satellites and the nation's only operational ballistic missiles.

Col. Newhall said he has already received inquiries from other branches of the military services concerning transmission of missile courses. These could include the Pentagon in Washington, the Air Force University at Montgomery, Alabama, and (See OGMS IS on Page 10)

ANNUAL MEETING OF AUSA SET

The fourth annual meeting of the Association of the U. S. Army will be held Oct. 20, 21, and 22 at the Sheraton-Park Hotel in Washington, D. C.

The major public event of the Army's year, the meeting is sometimes referred to as the Army's annual "family reunion."

The 1958 meeting will highlight the Army's unique capabilities in

AOMC Sending Display For Meeting of AUSA

The Army Ordnance Missile Command is sending several items for display at the AUSA meeting.

The AOMC exhibits will include a Jupiter-C rocket, a Jupiter nose cone mock-up, and a Redstone engine.

Attending the meeting from AOMC will be Maj. Gen. J. B. Medaris, AOMC Commanding General, and Dr. Ernst Stuhlinger, Director of Research Projects Laboratory, Army Ballistic Missile Agency.

Jupiter Missile Destroyed in Test At Cape Canaveral

CAPE CANAVERAL, Fla. — A Jupiter missile launched by a routine test at the Atlantic Missile Range Thursday night apparently went out of control shortly after launching and was destroyed by the range safety officer to disperse the remaining fuel before it impacted in a vacant area of the Cape.

No injuries or significant property damage was reported.

The powerful Jupiter soared aloft after what appeared to be a normal takeoff, but had to be destroyed by the range safety officer after 32 seconds.

At Development Engineering Inspection

AIRMEN DEMONSTRATE JUPITER

A demonstration by U. S. Air Force personnel with the Army-developed Jupiter Intermediate Range Ballistic Missile was performed Friday with "maximum efficiency and within the reaction time established by the Air Force an operational requirement," it was announced by Brig. Gen. John A. Barclay, Commander of the Army Ballistic Missile Agency.

The Agency, an element of the

Army Ordnance Missile Command, was responsible for development of the Jupiter.

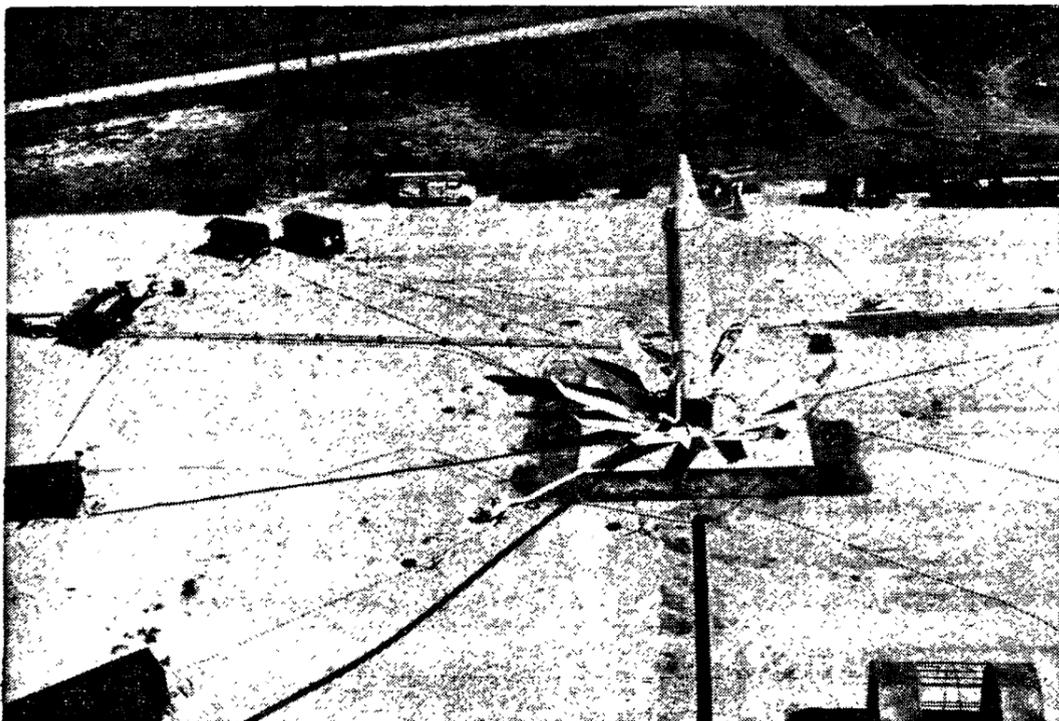

The demonstration staged by airmen included pre-launch inspection, assembly, check-out, and erection of the huge missile as it would be accomplished in the field. The airmen were members of the 864th Strategic Missile Squadron (IRBM-Jupiter), now in training at AOMC headquarters.

The crew also demonstrated the rapid refueling system and preparations for firing of the missile from either a fixed or mobile launch pad. A contractor technical compliance inspection was included as part of the conference.

The demonstration climaxed at (See AIRMEN on Page 2)

warfare, which are expressed in the meeting theme: "The United States Army, Ready for Action—Any Kind, Any Time, Any Place."

Attending will be top military and civilian officials of the Department of the Army; major field commanders; Army school commanders; officers and enlisted (See AUSA on Page 2)

JUPITER DEMONSTRATION—The Jupiter Intermediate Range Ballistic Missile is shown above during a demonstration by airmen of the 864th Strategic Missile Squadron (IRBM-Jupiter) of its pre-launch inspection, assembly, checkout, fueling, and erection as it would be accomplished in the field. The demonstration, staged last week at headquarters of the Army Ordnance Missile Command where the 864th is in training, climaxed a four-day Development Engineering Inspection of the progress of integrating the Army-developed Jupiter weapons system into the Air Force family of weapons. More than 200 Air Force officers, contractors participating in the system, and key personnel of the Army Ballistic Missile Agency took part in the inspection. The Agency, an element of the Missile Command, was responsible for development of the Jupiter. In photo above, the "rose-petal" device encircling the base of the missile folds up to form an all-weather enclosure for personnel working on the weapon. Various components of the Jupiter system are shown ranged around the missile. (Additional photos inside.)

CROZIER GOLD MEDAL AWARDED GEN. MEDARIS—The American Ordnance Association's coveted Crozier Gold Medal was awarded last week to Maj. Gen. J. B. Medaris, Commanding General, Army Ordnance Missile Command. In photo above, Henry J. Marsh, a director of the AOA from Wilmington, Del., gets ready to affix the medal on Gen. Medaris. The medal—given for outstanding work in increasing mobility, reliability, and power of military development—was presented at the AOA's Southwest Regional meeting in El Paso, Texas. Presentation was by Brig. Gen. Benjamin W. Chidlaw (Ret.), AOA president from Cleveland, Ohio.

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Wednesday by Jack W. Hoffhaus, Hartselle, Alabama, with exclusive regard for the reader interests of personnel at Redstone Arsenal, Alabama, in accordance with an agreement between the publisher and the Public Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Ala.

The publisher will receive editorial content for publication in the Rocket only through the Public Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama, Bldg. 4483, Extension 2722. All advertising copy and payments therefor are received by Mrs. Zillah Newsome, 308 E. Holmes St., Huntsville, Ala., P. O. Box 346, telephone JE 4-4701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$5.00 a year, or \$2.75 for six months. Mailing arrangements may be made with the publisher.

Airmen

four-day Development Engineering Inspection of the progress of integrating the Jupiter weapons system into the Air Force family of weapons. More than 200 Air Force officers, contractors participating in the Jupiter IRBM system, and key personnel of the ABMA took part in the inspection.

Representatives of the following Air Force Commands and industrial contractor firms were among those attending the Development Engineering Inspection:

Headquarters, Ballistic Missile Center, Air Material Command, Inglewood, Calif.; Air Research & Development Center, Andrews Air Force Base, Md.; Ballistic Missile European Theater Office, South Ruislip, England; Mobile Air Material Area, Brookley AFB, Ala.; Strategic Air Command, Offutt AFB, Neb.; Air Force in Europe, Weisbaden, Germany; U. S. Air Force in Europe, Ramstein, Germany; Missile Division 1, Vandenberg, Calif.; Douglas Aircraft, Calif.; Hqs., Air Material Command, Wright Patterson AFB, Ohio; Hqs. USAF, Washington, D. C.

Kirkland Air Force Base, N. M.; Lowery Air Force Base, Colo.; Middleton Air Material Area, Olmsted AFB, Pa.; Office of Inspector General, Norton AFB, Calif.; Randolph Air Force Base, Texas; Sandia Air Force Base, Albuquerque, N.M.; Sheppard Air Force Base, Texas; Sacramento Air Material Area, McClellan AFB, Calif.; Supreme Headquarters Allied Powers Europe, and Chrysler Corporation, Detroit, Mich.

ERECTION OF JUPITER—Erection of the mighty Jupiter IRBM is shown above during a demonstration for Air Force officers from bases throughout the U. S., contractors participating in the Jupiter System, and personnel from the Army Ballistic Missile Agency during a four-day Development Engineering Inspection held last week at the Army Ordnance Missile Command. Airmen of the 864th Strategic Missile Squadron, in training at AOMC hqtrs, performed highly successful demonstrations in erection, assembly, checkout, and rapid fueling. Airmen conducted the firing sequence so rapidly that reaction time was within the operational requirements. M-Sgt. Phillip E. Ross of the 864th SMS (above) directs the erection of the Jupiter by use of lightweight erection equipment.

men of the active Army, the Army Reserve, and the National Guard; industrial and business leaders; members of the press; educators; members of Congress and other Government officials and professional men; and ROTC cadets. Last year, more than 2,000 attended.

The annual meeting provides AUSA members with an outstanding opportunity to review plans, programs, and progress in the defense of the Free World. It also provides an opportunity for public display of some of the Army's latest items of equipment and material.

The program for the annual meeting will be highlighted by addresses by the Secretary of the Army and the Chief of Staff; presentations on (1) STRAC — "The Army's Capabilities for Limited War" (2) ARADCOM — "The Army in Air Defense of the United States" and (3) SEATO-NATO; and panel discussions on "The Application of Military Force in Support of Free World Policy" moderated by Roger Hilsman, and "The Army Looks to the Future" moderated by Lt. Gen. A. G. Trudeau.

Speakers who have already accepted invitations include: Wilbur M. Brucker, Secretary of the Army; General Maxwell D. Taylor, Chief of Staff; General Bruce Clarke, CG, CONARC; Lt. Gen. C. E. Hart, CG, ARADCOM; Lt. Gen. A. G. Trudeau, Chief, R&D; Admiral Antoine M. Sala, Naval Deputy of NATO; Prince Wan, Foreign Minister, Thailand; Roger Hilsman, Library of Congress; and Dr. Robert Osgood, University of Chicago.

At the Sheraton-Park Hotel, the AUSA will present more than 16,000 square feet of industrial exhibits in 121 booths, illustrating the latest industrial developments in the military fields.

Some of the Army's latest

Noted

(Continued from Page 1)

Texas.

Dr. Gerathewohl is internationally known for his experiments on the effects of weightlessness in space flight.

He has been with the School of Aviation Medicine since he came to this country from Germany 11 years ago. He is presently employed by the Army Surgeon General, Washington, with duty at ABMA.

The weightlessness experiments he has conducted for the past four years with jet aircraft were designed to simulate for short periods the conditions man will encounter in space travel.

Dr. Gerathewohl was born in Ebersbach, Saxony, Germany in 1909. He studied psychology, physiology, and human engineering at the Institute of Technology in Dresden, Saxony, and the University of Bavaria in Munich. He received his Ph. D degree from Dresden in 1936, and his degree as a Diploma Psychologist from the University of Munich in 1944.

For more than 10 years prior to his arrival in the U.S. the doctor held various posts in the German government, in the fields of psychology and aviation medicine.

He has published two books and over 70 papers dealing with military psychology, aviation psychology and aviation medicine. He is a member of the National Academy of Science-NRC Armed Forces Committee on Vision; the Aeromedical Association; the German Psychological Association; the American Psychological Association; the Space Medical Association; the Scientific Society for Aeronautics; and the German Rocket Society.

Earlier this year Dr. Gerathewohl was presented the Arnold D. Tuttle Award by United Air Lines and the Aero Medical Association for his space medicine research.

He has also been named Associate Professor of Experimental Psychology at the School of Aviation Medicine of the Air University, Maxwell AFB, Ala.

Mrs. Gerathewohl and their two daughters, Amrei, 15, and Doris, 7, expect to move to Huntsville shortly.

equipment and material will be also on exhibition at the hotel. This exhibition will include displays and demonstrations of some of the latest developments in equipment and material of the Army, including experimental and prototype models.

UGF

(Continued from Page 1)

Agency, 67 percent; Redstone Arsenal, 66 percent; and the Ordnance Guided Missile School, 37 percent. The Area Engineer drive which was greatly hampered by the labor dispute situation is gaining momentum.

The emphasis in this year's UGF campaign is on a total amount to be contributed; no definite Arsenal goal has been announced. Instead, "Fair Share" contributions have been emphasized, with 100 percent participation sought.

Monitors and solicitors are urged to obtain pledge cards from personnel as expeditiously as possible.

The drive ends Nov. 15.

Geographical Note

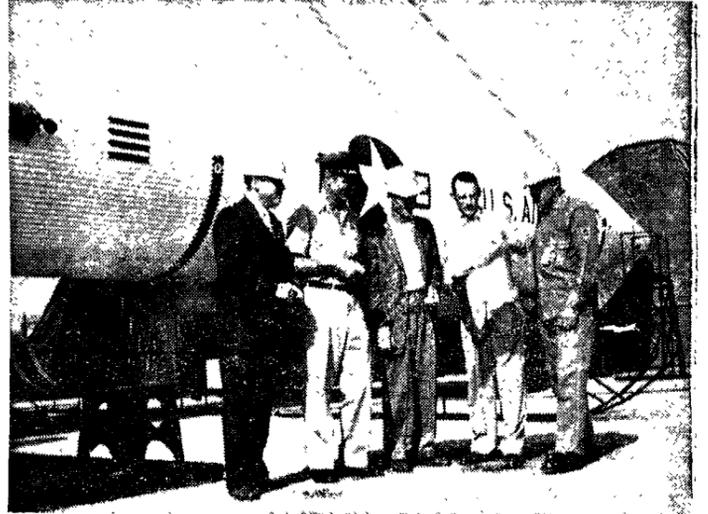

Redstone is unique—but it's not the only one.

Turns out there are two small towns also named Redstone in the U.S.

One is in Sheridan County, Montana, and the other in Carroll County, N.H.

(Editor's note: Maybe THAT IS where our mail sometimes strays to.)

WSEG VISIT—Members of the Weapons System Evaluation Group—which is the top military and scientific staff for the Joint Chiefs of Staff and the Assistant Secretary of Defense—are shown above upon their arrival last week at headquarters of the Army Ordnance Missile Command for an orientation tour and observation of progress in the Jupiter Intermediate Range Ballistic Missile program. Greeting the group was Col. C. G. Patterson (left), Assistant Chief of Staff, Military Applications and Training, AOMC. Members of the WSEG group were (left to right) Vice Admiral John H. Sides, USN, Director; Maj. Gen. Louis V. Hightower, Senior Army Member; and Dr. Charles A. Boyd, Director of Research.

Col., Mrs. Daigle Celebrate Their 25th Wedding Annivers'y

Lt. Col. and Mrs. Paul J. Daigle celebrated their 25th wedding anniversary last Saturday, (Oct. 11) at Redstone Arsenal. Lt. Col. and Mrs. Daigle were married in Calumet, Mich., while the colonel was a senior at the Michigan College of Mining and Technology. Mrs. Daigle is the former Miss Norma MacLellan of Calumet, Mich.

The Daigles have three children, Paul N., a sophomore at Stanford University, Kathryn E., a freshman at San Jose State College; and John M., a freshman at Butler High School in Huntsville. Lt. Col. and Mrs. Daigle reside at 38 Ripley Drive, Redstone Arsenal. Col. Daigle is assigned here as chief of the Engineer Test and Evaluation Support Branch in the Industrial Division of the Army Rocket and Guided Missile Agency.

DR. GRUENE CITED
Dr. Hans Gruene recently received an Outstanding Performance Award from Brig. Gen. J. A. Barclay, Commander of the Army Ballistic Missile Agency. The presentation was made in an Army blockhouse at Cape Canaveral, Fla. Dr. Gruene is Deputy Director of the Missile Firing Laboratory at the Cape, one of ABMA's ten laboratories. Dr. Gruene was cited for his outstanding performance of duty as a key member of the group which launches all of the Army's large ballistic missile and space vehicles. He has more than 15 years experience in the missile field.

Dance Is Scheduled

Redstone Chapter 353, National Sojourners, and Monte Sano Camp Heroes '76 are sponsoring a Fall dance at the VFW Club on Memorial Parkway on Friday, Oct. 24. All Master Masons who have been or are presently military officers should contact Fred Sayers or CWO George Broxton for reservations.

Music for the event will be furnished by Charlie Lyle and his band, and there will be snacks and entertainment, it was announced.

George Turner, Fireman, Is 'Safe Worker of Week'

George Turner, of the Redstone Arsenal Fire Department, has been named by the RSA Safety Office as "Safe Worker of the Week."

(Incidentally, last week was "National Fire Prevention Week." Turner, a fireman, was selected after being recommended by fellow-workers and after a careful investigation of his good record of safe-work practices, the Safety Office said. He has never received a disabling injury.

He is one of the real old-timers on the Fire Department, having been a member without interruption since early World War II days. He was born and educated in Lincoln County, Tenn., where he now lives. He is married to the former Lara Hollis. Mr. and Mrs. Turner have no children, but are very proud of their nephew, Charles Hollis, who came to live with them when he was 10 months old. After completing his education, Charles works with North American Aviation Corp. office at White Sands Missile Range, N. M. His hobby is fishing and he boasts

GEORGE TURNER

of catching a 20-pound catfish from the river near his home.

Turner is a very conscientious fire-fighter and fire preventer, the Safety officials said. Recently, he was enroute from his home to Fayetteville, Tenn., when he observed a truckload of corn on fire in a garage by a farmhouse. Being alert, he stopped and backed the truck out of the garage, while

Ala. Chapter of American Institute of Chemists to Hear National President

The national president of the American Institute of Chemists will address the Alabama Chapter at a dinner meeting Thursday, Oct. 23, at the Russel Erskine Hotel in Huntsville.

He is Dr. Emil Ott, who is vice-president of the Chemical Division of the Food, Machinery, and Chemical Corporation of New York. A native of Switzerland, Dr. Ott received his Ph.D. from the Swiss Federal Institute of Technology in 1927. He came to the United States the same year. He served for many years as director of the Hercules Powder Co.

The dinner, at 7 p.m., will be preceded by a social hour beginning at 6 o'clock Dr. Ott's address will be at 8.

Cost of the dinner, a filet mignon, will be \$2.75. Reservations may be made with Martin Williams, of ARGMA, ext. 3795 or 37-36; Wilbur A. Reihl, ABMA, ext. 6730; Billy Crew, Thiokol ext. 136; and Dr. Charles Colburn, Rohm & Haas ext. 430.

his wife alerted the residents of the house. With the help of his wife and two other people, he was successful in extinguishing the fire. He investigated the cause and found a defective muffler which started the fire.

The Safety Office commended Turner for "a little off-the-job application of your on-the-job training."

NATO GROUP HONORS OGMS COMMANDANT — Representatives of the North Atlantic Treaty nations studying at the Army Ordnance Missile School last week presented Col. H. S. Newhall (center), OGMS Commandant, with a hand-made rack containing miniature flags of nine countries. The rack, made by Danish Chief Warrant Officer Bent K. Bordall (left) contains a scroll signed by the several hundred NATO officers and enlisted men at OGMS. The scroll was illustrated by German Airman Klaus Peter Quinque (right). The ceremony was timed to coincide with the departure of the first Italian missile units to be trained at OGMS for further training at Fort Bliss, Texas. The ceremony was held at the Rocket Auditorium.

At the Service Club

OPEN HOUSE—The new Huntsville Junior Hostesses were introduced Sunday at the Open House at the Service Club. Mrs. Milton Cummins of Huntsville is Chairman of the group and has been working tremendously hard to get new members. A special program was prepared for the afternoon. A "Junior Hostess Skit" was well presented by Jo Lowery, Cathy Vaughn, Margaret Mullins, Gene Holbel and Marshall Fitzgerald. Refreshments

and dancing were enjoyed during the afternoon. Norman Raffish was our Master of Ceremony. **A DANCE?** You can bet it's a dance! This dance is going to be one of the gayest dances the Service Club has ever planned for the enlisted personnel on October 16 at 8 o'clock. The music will be hot and fast or sweet and loud, just whatever you desire because that's the way the band members plan to help you have a good time. They'll start the music at

8 o'clock sharp and there will be music for all. The PARAGONS will play at intervals throughout the evening. Kermit Scheer and Jim Baker with the "Merry Mixers" will be the callers for the square dance. The theme of the dance is "Barn Dance and the club will be decorated throughout like a barn. Join us "cause it's fun."

TOUR—See many spectacular cavern scenes at the fabulous Cathedral Caverns, at Grant, Ala., on Oct. 18. The buses will depart from the SC at 1:30 p.m. Make reservations soon for the tour.

COSTUME BALL? Every one well, nearly every one — in one way or another celebrates Halloween. We will celebrate on October 28 with a Costume Ball. Prizes will be available for the most unique costume. The ghosts and spirits attending the ball are sure to be haunted for a long time by the smiling faces, gay laughter and dancing feet of all their friends.

Tommy Allan and his famous Orchestra, will present an evening of dance music and entertainment long to be remembered. Miss Jeanne Carroll, lovely singing star with the orchestra, is a beautiful asset to any bandstand. Don't miss the beautiful Miss Carroll when she appears with Tommy Allan and His Orchestra Thursday, October 28th at 8 o'clock.

The next **DISC JOCKEY SHOW** is scheduled for October 19th. There was a considerable amount of enthusiasm displayed at the last show so join us for an evening of relaxation by music as furnished by our two MC's Al Daniels and Norm Raffish.

The **SQUARE DANCE CLASSES** will continue on Thursday night at 7:30. Our Instructor, Mr. Roberts, has a variety of new dances planned for us in the next few weeks. See you for the next "Salty Dog Rag".

Beginning on October 22nd we will have three **DANCE CLASSES** on Wednesday night. Beginners at 7 o'clock, rumba at

Competitive Events**

The Redstone Arsenal Officers Wives Golf Group held two competitive events last week: a low putt for nine holes and a low total for three blind holes.

Winners in the low putt event were: First flight, Mrs. S. M. Frank, 17 putts; second flight, Mrs. B. A. Rich, 17 putts; third flight, Mrs. W. F. Kaiser, 16 putts.

K. V. Estes of the Municipal Golf Course selected the numbers for the low total, three blind holes event, drawing numbers 6, 8, and 9. Winners of the event were:

First flight, Mrs. Glenn Crane, 15 points; second flight, Mrs. J. E. Devine, 15 points; third flight, Mrs. H. M. Murray, 18 points.

The group's event this week will be a blind bogie for three holes with all members participating. There are presently 30 officers' wives taking part in the activities of the Golf Group.

'Dabby's Rangers' Continue Winning Ways In Unit Level Football

"Dabby's Rangers" (Hq. Det. No. 1) continued their winning streak in six-man unit-level football by defeating 1st ETD 82-0. Ken Redding was the "Big Gun" for the Rangers, scoring six touchdowns in the game. Harbers and Andre were outstanding defensive players for 1st ETD.

"B" Det. ABMA walloped 9615th Signal Corps, 60-6. The scoring combination for "B" Det. was Goldspinner, Swink, and McClorrey.

In its opening game, the 291st MP Company smashed a 43-6 victory over Hq. Det. UTC. Hargroves was the scoring ace for the MP's; he scored three touchdowns and played a remarkable defensive game.

Fullback Alan Cameron led the 864th Air Force Squadron to a 26-14 victory over 2nd ETD. The Air Force team scored in each quarter of the game with Cameron leading the running attack. Second ETD's hope was kept alive by the flashy running of Team Captain Cargo. Cargo scored two touchdowns for 2nd ETD.

Pete Monroe's dazzling 65-yard

run in the last four minutes of the game gave "A" Det. OGMS a 26-24 upset victory over Hq. & Hq. Det. No. 2 Quarterback Herbert Alfree in a vain attempt to keep Hq. & Hq. Det. in the winning column ripped off a 50-yard run in the closing seconds of the game.

FOOTBALL SCHEDULE (through 21 Oct.)

15 Oct. "B" Det. ABMA vs. 2nd ETD.
16 Oct. — 291st MP Co. vs. Hq. & Hq. Det. No. 2.
17 Oct. — 864th AF vs. "A" Det. OGMS.
18 Oct. — Hq. & Hq. Det. No. 1 vs. 9615th Sig. Corps.
20 Oct. — 1st ETD vs. 2nd ETD.
21 Oct. — "B" Det. OGMS vs. Hq. & Hq. Det. No. 2.

John Cameron Dies Of Wreck Injuries

John Francis Cameron, 29, of Test Lab, ABMA, died Oct. 7 in a Huntsville hospital of injuries received in an automobile accident several days earlier.

He had been injured when the car he was driving collided with a truck at the intersection of U.S. 231 and Alabama 66 near Arab.

His mother, Mrs. Myrtle Cameron, was killed instantly. Cameron moved from Birmingham to Huntsville in 1956. He was an electronics engineer.

He formerly worked for Radio Station WBAM in Montgomery.

A native of Birmingham, Cameron attended Ensley High School. He was a graduate of a Chicago electronics technical school.

He was an enlisted man in the U. S. Air Force shortly after World War II.

Surviving are the widow; a son Johnny, and an infant daughter; his father, John Edward Cameron, Fairfield; two brothers, Edward Cameron, Tampa, Fla., and Ray Cameron, Birmingham; eight sisters, Mrs. Pauline Sharp and Mrs. Gene Hymmer, Huntsville; Mrs. Hazel Boone and Mrs. Louise

Capt. Willard's Dogs Win Again

"Zahigkeit," a short-haired German pointer owned by Capt. Francis J. Willard, Chief of the Security and Safety Liaison Office, ABMA, won honors in dog shows at Chattanooga and Knoxville recently.

"Zahigkeit" won first prize in the "Open Dogs" competition, fourth prize in the "Sporting Group," and placed first as the "Winner Dog" and in the "Best of Breed" competition. This competition was held in Knoxville.

In Knoxville, "Siekig," another of the captain's dogs, won first place in "American Bred" competition and was reserve winner in the Chattanooga and Knoxville competition.

Snow, Birmingham; Mrs. Betty Pinson, Tuscaloosa; Mrs. Elaine Brooks, Gadsden; Mrs. Mary Corder, Texas, and Mrs. Lois Adcock, Columbia, S. C.

Funeral services were held on Thursday at the East Huntsville Church of Christ. Burial was in Rice Cemetery, New Market, Laughlin Funeral Chapel, directing.

Ground and Shipborne Electronics Group of AOA Holds Meet Here

The Ground and Shipborne Electronics Committee of the American Ordnance Assn. is holding its annual meeting at The Army Ordnance Missile Command Headquarters this week. The meeting began yesterday and continues through today.

Forty persons from leading industries of the nation are attending. M. D. Lockwood, of the Sperry Gyroscope Co., is chairman of the committee.

Technical papers were presented by various industries and government agencies yesterday. At 6 p.m. the Tennessee Valley Post of the association was host to the committee at a dinner at the Russel Erskine Hotel.

Col. Thurston T. Paul Jr., deputy commander, Army Ballistic Missile Agency, was the speaker. About 200 persons attended.

This morning, the visiting group toured some of the major facilities of the Arsenal.

DONATION FOR UGF—James B. Ritchie (third from left), resident manager of Hayes Aircraft Corporation, presents Victor G. Sorensen (second from left), Army Ballistic Missile Agency Chairman of the Redstone United Givers Fund Drive, with a check for \$750 from Hayes employes. From left to right are Dwain Walters, UGF monitor for the ABMA Fabrication, Assembly, and Engineering Laboratory; Sorensen; Ritchie; and Mrs. Ann Vaughn, Hayes employe of Huntsville. Less than five per cent of the Aircraft Corporation's 300 employes at ABMA are residents of Madison County. The UGF contribution represents an accumulation of employe payroll deductions. Most of the employes are employed at the Fabrication Lab where Hayes provides contract engineering services.

CWO Arrott Named 'Safe Supervisor'

CWO Henry B. Arrott, Chief, Training Branch, Unit Training Center, OGMS, has been selected "Safety Supervisor of the Week" because of the very fine job that he has done as Safety Officer for the UTC.

The selection was made by the Redstone Arsenal Safety Office.

As Safety Officer for UTC, Arrott is responsible for promoting interest in avoiding accidents in all phases of training, not only for U.S. troops, but also a large number of NATO troops. Presently in UTC are Italian, Norwegian,

CWO HENRY B. ARROTT
* * *

and Danish groups.

On the job, the troops must not only be concerned with industrial type hazards, but must also be made aware of such hazards as high voltage, high-pressure air, and the various explosives and propellants used in missile systems. UTC's Commanding Officer is Lt. Col. Albert G. Cole.

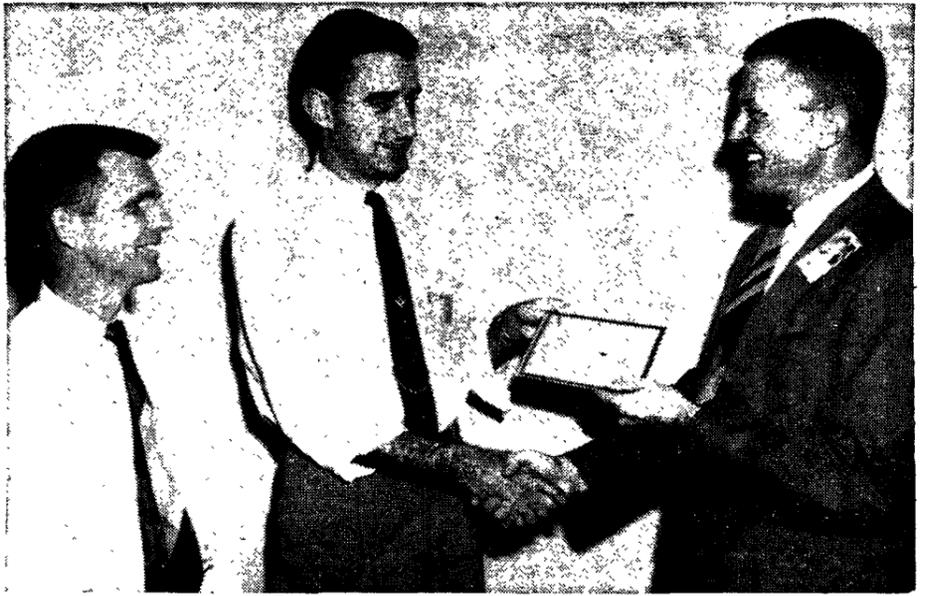

Arrott entered the service from upstate New York in 1943 and served in the European Theatre during World War II. He has been associated with Ordnance during his entire career and became associated directly with missiles in 1955. He and his wife, Mary, live at 4111 Arlington Circle, Huntsville. His hobbies are swimming, tennis, hi-fi, phono-

graphs, and square dancing.

Anyone is quickly impressed by the interest shown in safety by personnel in the UTC by only a quick tour through its facilities, the safety office said. Arrott attributes this interest to the fact that "Safety personnel have not only been appointed in each unit, but they have been worked with closely day by day in order to keep up their interest."

"It doesn't take long to understand who is behind this interest after talking briefly with the

friendly and enthusiastic CWO Arrott," Safety Officials added.

'WISE OWL'—Allen Deschere (right), General Manager of Rohm and Haas Company, Redstone Arsenal Research Division, and Cecil Jackson (left), Safety Coordinator, congratulate Richard Meinert on becoming the fifth member of the Redstone Arsenal "Wise Owl" Club. The "Wise Owl" Club is composed of persons who have escaped serious eye injury by wearing safety glasses at the time of an accident. "Wise Owl" candidates should be brought to the attention of the RSA Safety Division, 3404, for processing applications for membership. The "Wise Owl" Club is sponsored by the National Society for the Prevention of Blindness.

LT. CROOKE CITED

Lt. James A. Crooke, of the Army Rocket and Guided Missile Agency, was recently awarded the Army Commendation Ribbon with Metal Pendant. Presentation was made by Brig. Gen. J. G. Shinkle, ARGMA Commander. Lt. Crooke is a Project Engineer with the Engineer Test and Evaluation Support Branch, Industrial Division, ARGMA.

A traffic expert remarked recently that if all the automobiles in the country were placed end to end it would be Sunday afternoon.

PARKWAY CENTER

TV MISSILE PIONEERS — Col. H. S. Newhall (left), OGMS Commandant, points out part of the Nike-Hercules missile system to Col. Carl Isham, director of the guided missile preventive maintenance course at the Army's Armor School, Fort Knox, Ky., as a TV camera focuses on them. OGMS is pioneering in the use of closed-circuit television for instructional purposes. A guided missile maintenance course will be televised to Fort Knox and save the Army about \$11,000,000 in manpower and equipment.

OGMS Is

(Continued from Page 1) several other military centers where phases of guided missile training are given.

The purpose of the course is to train high-ranking officers in the methods of inspecting missiles at sites throughout the world to determine that the weapons are being kept in instant combat readiness.

This unique method of training in the complicated new weapons was undertaken by the "Space Academy" here in cooper-

ation with the Armor School by direction of the Secretary of the Army and the Continental Army Command.

The courses will be conducted on a regularly scheduled basis from now through next June, originating from the Guided Missile School for two hours on the first three Wednesdays of each month.

Tests to evaluate the effectiveness of the new technique in missile education will be given the students who attend the televised courses to determine the student reactions to this new media of instruction.

The courses to be given will deal with maintenance of six Army missiles, the Nike-Ajax, Nike-Hercules, Corporal, Lacrosse, Hawk, and Redstone. Cameras will make pick-ups from five locations in the huge academic buildings and technical laboratories of the Missile School which have equipment unofficially valued at more than \$100,000,000.

Using a screen that measures six by eight feet, the new technique will offer a number of advantages in the training of military personnel in the highly complex missile field, Col. Newhall

said. The most important advantage is that missiles and equipment costing tens of millions of dollars and already available at the Missile School can by television become available for instruction anywhere in the United States.

The big screen will make small groups of five or six persons.

The development of new methods designed to hold attention and simplify instruction will not only widen the scope of missile training but will inevitably improve the quality of instruction throughout the Missile School itself, the commandant emphasized.

The courses to be televised deal mainly with the use of preventive maintenance "indicators" — methods and mechanisms used to subject missiles and their intricate components to exhaustive efficiency tests at regular intervals to insure their immediate availability in event of an emergency.

Reserve Officers Assoc. Meeting Set

The Huntsville Chapter of the Reserve Officers Association will meet at the Russel Erskine Hotel at 7 p.m. on Friday, Oct. 17. An Army program will be featured.

"Then there's the story about the miser who got on the bus and read the sign 'Pay As You Leave.'"

"What happened?"
"He's still riding."

Group From AOMC Attends Conference At Eglin AFB, Fla.

A group from the Army Ordnance Missile Command recently attended the 27th Joint Civilian Orientation Conference held at Eglin Air Force Base, Fla.

Purpose of the conference was to witness static displays of the latest Air Force aircraft and view flying demonstrations of their offensive capabilities, according to Maj. Lester E. Clark, Chief, Air Research and Development Command Liaison Office, AOMC, who extended the invitation to attend to the local delegation and provided transportation for them.

About 7,000 visitors attended the conference, he said, among them the 300 civilian guests of honor consisting primarily of municipal and state officials from throughout the country.

Such demonstrations are given three times yearly, Maj. Clark said, and he hopes to take another AOMC group down for the next one in May.

The AOMC delegation included: Col. Charles J. Payne, Col. Jerome S. Jefferds, Col. C. C. Haug, Lt. Col. William E. Kaiser, Maj. Fred J. Babes, Lt. Carl C. Chastain, Lt. Hugh P. Gallagher, John L. McDaniel, Joseph F. Rush, and Capt. John W. Mordan.

RHYMINDER

Big Bill was the plant Hercules He could lift heavy objects with ease.

Now he's loaded with trouble, That has him bent double He used not his brain nor his knees.

ARGMA DISPLAY — John W. Higgins, left, and Edward C. Hamilton are shown beside an ARGMA Nike-Hercules revolving display at the Alabama State Fair in Birmingham. Both are electrical engineers in the Systems Engineering Laboratory, ARGMA Industrial Division, and monitor engineering production and servicing contracts of missile manufacturers in private industry. Higgins, a '49 graduate of Auburn, has been here since 1951; Hamilton, University of Alabama, '53, came here in 1955.

Value Analysis Seminar

Attended by Local Group

Three representatives of the Army Rocket and Guided Missile Agency, one from Army Ordnance Missile Command headquarters, and one from the Army Ballistic Missile Agency recently attended the first Ordnance-wide Value Analysis Seminar held at Watervliet Arsenal, N. Y.

The trio from ARGMA, representing Col. R. O. Lehtonen, Chief of ARGMA's Industrial Division, included Lt. James A. Croke, Austin L. Couch, and William E. Gibbons. AOMC and ABMA representatives were, respectively, James E. Holt and James W. Mollins.

Value Analysis, the subject of the seminar, is described by Col. Lehtonen as "an intensive, organized study of design, function, and cost relationship of an individual part or related group of parts—a long, hard, creative look at the item with the objective in mind of removing all excess costs but still retaining the same or better design, function, and reliability."

Royal Netherlands Air Force Group Honored by Clubs

Three Huntsville Civic Clubs this week are honoring the Royal Netherlands Air Force officers studying at the Ordnance Guided Missile School.

The Kiwanis Club heard a talk by Capt. Stephanus Van Dam, senior Netherlands officer, and viewing a film on "Happy Holland", on Monday.

Attending the dinner at the Russel Erskin Hotel with him were Mrs. Van Dam, Lt. and Mrs. Cornelius VanderZwan, and Lts. Peter Smit and August Haefkens. Tuesday evening, the Optimist Club heard Capt. Van Dam, and on Thursday evening he will present the Holland program to the Pilot Club.

Court: "Seaman Johnson, you are hereby sentenced to 20 days on bread and water. How do you like that?"

Johnson: "Toasted, sir."

DANISH SOLDIERS SAMPLE SCOUT STEW—Cpl. Ole Engel Madsen (left) and Cpl. Erling Johannsen, Danish soldiers now training at the Ordnance Guided Missile School, sample some American "Boy Scout stew" at the Westmoreland Scout Reservation near Florence, Ala., on Shoals Cheek. The pair, who were Scouts back in their native Denmark, were guests at a recent Tennessee Valley Scout Council training course for Scout leaders. The soldiers are members of the Royal Danish Ordnance Corps.

QUIZ

1. What two former New York Yankee hurlers share the record for winning the most World Series games?
2. In his pro career, former heavyweight champ Gene Tunney fought one man five times. He won twice, lost once and twice there was no decision. Who was his opponent?
3. What college basketball player led the nation in scoring last year?
4. Major league stars Jackie

Jensen and Paul Giel were All America grid selections during their college days. Name the college each played for.

5. In 1951, Elroy "Crazylegs" Hirsh tied Don Hutson's record for the most TD passes caught in a single season. He caught (a) 15, (b) 17, (c) 21?

(Answers to Quiz)

1. Allie Reynolds and Red Ruffing won seven and lost two.
2. Harry Greb.
3. Oscar Robertson, Cincinnati, 35.1 points per game.
4. Jensen, California, and Giel, Minnesota.
5. (b).

Explorer IV Signals Received Last Time By ABMA Scientists

Army Ballistic Missile Agency scientists received signals from the Explorer IV earth satellite for the last time at the Redstone Arsenal tracking station on October 4th, as the satellite completed its 927th pass around the earth.

Transmission was from the orbiter's high-power transmitter, which operated at 108.03 megacycles with 30 milliwatts of power. The low-power transmitter, 108.00 megacycles with 10 milliwatts of power, ceased operating early in September.

Scientific data from the high power transmitter was received by the Redstone Arsenal station for the last time on Sept. 20th. Thereafter, Army Ballistic Missile Agency scientists explained only tracking signals were received, probably a result of failure of some part of the transmitter.

The ending of all signals was an indication of battery failure. The last recorded signals from the satellite were received on October 6th by a U. S. Naval Research Laboratory Minitrack station as the satellite made its 949th pass around the earth.

Explorer IV, launched by the U. S. Army on July 26th, is now continuing a silent journey through space with eight months of its estimated 11-month lifetime remaining.

Although silent, the satellite will continue to yield valuable scientific data. Experts at the ABMA explained that change in the orbital elements can reveal atmospheric and geophysical data through direct visual observations employing special "Moonwatch" telescopes or the high-speed tracking cameras of the Smithsonian Observatory.

This data, combined with similar information from other satellites, will lead to improvements in geophysical and atmospheric density data. This is related to the density of the atmosphere at high altitudes and the shape of the earth's geophysical constants.

The satellite had traveled more than 28 million miles upon completion of its 994th trip around the earth at midnight last Thursday, averaging 28,500 miles per trip.

Latest calculations show that

Explorer IV is completing a revolution every 108.46 minutes. Its apogee, or farthest point from the earth, is 1271.2 miles; the perigee, or closest point to the earth, is 164.9 miles. Originally the satellite completed a revolution every 110.09 minutes with an apogee of 1370 miles and a perigee of 165 miles.

It is estimated to be traveling at about 15,000 miles per hour. Explorer IV was launched as a contribution to the overall Department of Defense program in cooperation with the International Geophysical Year research program, which is sponsored in the

Great Books Discussion Group Invites Members

The Great Books Discussion Group of Redstone Arsenal, U.S. by the National Academy of Sciences.

Instrumentation in the orbiter was devoted to the investigation of corpuscular radiation at extreme altitudes and latitudes. The Redstone Arsenal satellite tracking station is operated by the Guidance and Control Laboratory of the ABMA. The Agency is an element of the Army Ordnance Missile Command.

which has been meeting every other Monday evening at the Post Chapel, invites all military and civilian personnel at the Arsenal to attend future meetings of the group and participate in forthcoming discussions.

The group, which consists of both officers and enlisted men, as well as civilians, has in the past conducted discussions of selections from the works of Plato, Aristotle, Thomas Aquinas, Rabelais, and Shakespeare.

Membership in the group, and attendance at meetings, is without charge.

The selections to be read may be purchased from the Great Books Foundation through the local discussion group, or members

may provide their own copies. There is no official discussion leader. Rather, various members of the group take turns as leader. The meetings, which normally are held from 7:30 to 9:30 p.m., have often run overtime when the discussions have become too absorbing to be cut short abruptly.

The topic for next Monday will be Book I of "Novam Organum" of Francis Bacon. Future topics will include selections from the works of John Locke, Voltaire, Rousseau, Gibbon, Dostoyevsky, and Sigmund Freud.

Luck prevents some accidents—care prevents all accidents.
