Pacific Army Commander Visits Missile Command

Role Assigned Army Missiles Is Outlined

Gen. Isaac D. White, Commander-in-Chief, U. S. Army, Pacific, arrived at Headquarters of the Army Ordnance Missile Command Monday for an official visit of two days.

He is accompanied by Maj. Gen. W. C. Baker, Jr., Assistant Chief of Staff for Logistics, and several officers of his staff.

Maj. Gen. J. B. Medaris, Commanding General, AOMC, welcomed Gen. White. He was scheduled today to hear briefings on deployment of the Redstone Ballistic Missile, and on the Jupiter and Pershing missile systems. Dr. Wernher von Braun outlined the Army's role in the national space exploration program.

Later Gen. White visited the Ordnance Guided Missile School where he heard details of the training program. He will be guest of honor at a dinner this evening in the Officers' Club.

Tuesday the briefings covered other Army missile systems; Cor-

(See PACIFIC on Page 2)

Gen. Lynde Is Named Chief of Field Service

Maj. Gen. Nelson M. Lynde, Jr., has been named the chief of the Field Service Division in the Office of the Chief of Ordnance.

Gen. Lynde was commander of the Ordnance Automotive Tank Command at Detroit until the new assignment was announced by the Army early in June.

Meeting of AFGE Is Slated Next Week

The next monthly meeting for officers and members of Redstone Arsenal Lodge 1858 of the AFGE will be held Monday evening, July 13 at 7:30 p.m. in Carpenters Hall, 2505 Clinton Avenue West, Huntsville. All members are urged to attend.

President Lowther announced that concerted efforts will be made to establish a Civilian Welfare Fund which will benefit Arsenal employees. Suggestions of all government employee organizations, and the recommendations of individual employees, are invited.

The AFGE program, President Lowther said, will be representative of the more than 4,000 members of RSA Lodge and other Government employees at the Arsenal. Suggestions may be made to AFGE officers or mailed to AFGE at P. O. Box 305, Huntsville.

It was also disclosed by President Lowther that the AFGE and IAM have issued a call for an organizational meeting to form a Huntsville Government Employees Council. Invitations were sent to the Postal Union, Letter Carriers, and trade unions. A meeting was held to discuss the organization in Carpenters Hall last night.

President Lowther said it is believed such an organization could present united stand on legislation. He cited recent efforts of RSA Lodge 1858 to restore funds for the Nike Hercules program for FY 1960.

Wallace Branham was elected vice-president for AOMC and Doyle Eastep vice-president for ABMA at the last meeting of the AFGE Lodge.

NATO SUPPLY AND MAINTENANCE OFFICERS VISIT

Thirty military and civilian representatives of NATO countries are visiting the Army Ordnance Missile Command today and tomorrow to learn about the missile supply and maintenance philosophy of AOMC.

The visitors are members of the NATO Maintenance Supply Services Agency, a group of logistic representatives from NATO Headquarters and member countries.

They will be welcomed by Maj. Gen. J. B. Medaris, AOMC commanding general, and Brig. Gen. J. G. Shinkle, commander of the Army Rocket and Guided Missile Agency. The AOMC host officer is Col. Sylvester A. Hall, assistant chief of staff for support operations.

Senior officers among the visitors will be Brig. Gen. S. Valvis of Greece and E. J. Fischer of France.

In addition to general maintenance and supply philosophy, the group will be briefed on the specific mission of ARGMA as a national inventory control point, and the means by which the agency supports a missile system in the field.

ARGMA, an element of the Command, has charge of the Army's battle field type rockets and missiles with ranges up to about 100 miles, and anti-aircraft and anti-missile missiles.

Before arrival here, the NATO group will have visited several other U. S. military activities, including the Pentagon, Brooks Air Force Base, Ala., and a Logistics Management Center at Ft. Lee, Va.

The visit will end with a tour of some of the Army Ballistic Missile Agency laboratories.

Safety Office Urges Safe Practices Over July 4 Week End

National statistics prove that the Fourth of July weekend is one of the most accident riddled dates on the calendar.

Therefore, the Redstone Arsenal Safety Office has issued words

(See SAFETY on Page 2)

'Familiarization Tour' Is Given Astronauts

SCIENTIFIC AND PROFESSIONAL PROGRAM REVISED

The Army recently announced that several revisions are being made in the Scientific and Professional program and that an official name change will take place as the men retained under this program title are discharged gradually, and the program as it is now known is made obsolete.

The new name is the Scientific and Engineering Assistants Program. This title was adopted to identify the personnel and positions coming under the revised arrangements.

The Scientific and Professional Program has operated since 1948. Soldiers with college backgrounds in certain scientific engineering and professional type specialties have been assigned duties under this program which has gained the Army research development assistance of over 30,000 men who served their two-year obligation in fields in which they had specialized in college.

The Army, mindful of the increasing needs for soldiers with education and background to support modern Army needs, has recently conducted a survey of the 3,000 man S&P program to determine areas of improvement in making the best use of its soldiers.

Analysis of the S&P program showed that better management could be attained by: (1) adopting personnel standards related to accepted standards in the various professional areas — standards such as those used by the Civil Service Commission;

(2) Assuring that duty positions clearly require professional level performance in scientific or engineering specialties and eliminating those that do not;

(3) Encouraging supervisors to assign greater professional responsibilities;

(4) Reducing the frequency of interruptions from professional

(See S&E PROGRAM, Page 2)

Dr. von Braun and Others Brief Seven On Army Missiles

The National Aeronautics and Space Administration Project Mercury Astronauts, the trainees selected for the nation's first manned rocket flight, visited the Army Ordnance Missile Command Monday and Tuesday.

The seven men were here for a general familiarization tour.

The Army's Redstone and Jupiter ballistic missiles will be employed in the Project Mercury program. Both were developed by the Army Ballistic Missile Agency, AOMC. Both missiles will carry the Mercury space capsule over ballistic trajectories at the Atlantic Missile Range. The program will test capsule functioning and separation and will also provide for the Mercury Astronauts.

The seven Astronauts are Capt. Leroy G. Cooper, Jr., USAF; Capt. Virgil I. Grisson, USAF; Capt. Donald K. Slayton, USAF; Lt. M. S. Carpenter, USN; Lt. Cmdr. Walter M. Schirra, USN; Lt. Cmdr. Alan B. Shepard, Jr., USN; and Lt. Col. John H. Glenn, Jr., USMC.

The group was welcomed to Redstone Arsenal, headquarters of AOMC, by Maj. Gen. J. B. Medaris, Commanding General. Later, at a briefing session, they were also welcomed by Brig. Gen. J. A. Barclay, ABMA Commander.

A briefing on "Capabilities of ABMA" was given the Astronauts by Dr. Wernher von Braun, Director of Development Operations.

Other briefings were as follows: Redstone, Jupiter, and Jupiter-C Programs, by Lt. William S. Porter, of ABMA Control Office; Satellite and Space Probe Programs, by Dr. O. H. Lange, ABMA Project Officer for ARPA and NASA Projects; Project Mercury Program, by Dr. Joachim P. Kuettner, Mercury Project engineer, and Saturn and Future Manned Space Potential, by Herman Koelle.

Yesterday afternoon, the Astronauts witnessed demonstrations of the Redstone and Jupiter missiles and heard technical discussions of the missiles by William A. Mrazek, Director of S&M Lab, and Maj. William A. Leonard of the Ordnance Guided Missile School.

A tour of ABMA facilities included visits to the Fabrication and Assembly Engineering Laboratory, System Support Equipment Laboratory, Structures and Mechanics Laboratory, Computation Laboratory, and Test Laboratory. At the Test Lab, the Astronauts saw a static firing of a rocket engine.

Today, the group was scheduled to tour the Guidance and Control Laboratory, to hear briefings on Guidance vs. Control, Mercury Control and Automatic Abort System, and Telemetry and Tracking. At the S&M Lab, they were to receive briefings on Mercury Booster Design, Recovery, Nose Cone Ablation, Quality Tests, and Structural Tests. At the System Analysis and Reliability Laboratory, briefings were slated on Mercury Flight Simulation and Inspection Checkout.

Dr. Ernst Stuhlinger, Chief of Research Projects Laboratory, was scheduled to close the day's briefings with a discussion of "Interplanetary Travel." Another

Redstone Personnel Lead Savings Bond Participation Here

Lt. Francis C. Fuentes, Savings Bond officer, reports that Redstone Arsenal is the closest organization here to the goal set by the armed forces of 65 per cent participation in the Savings Bond program.

Redstone has a percentage of 61.1 per cent of its people participating in the program.

Second is the Ordnance Guided Missile School with 57.52 per cent of its personnel sharing the payroll deduction plan for savings bonds. Percentages for the other organizations are: Army Ordnance Missile Command, 52.35 per cent; Army Ballistic Missile Agency, 41.88 per cent; Army Rocket and Guided Missile Agency, 40 per cent.

The greatest participation increase was among the military with an approximate 11 per cent participation when the Savings Bond Drive started and with 24.95 per cent when the concerted drive ended.

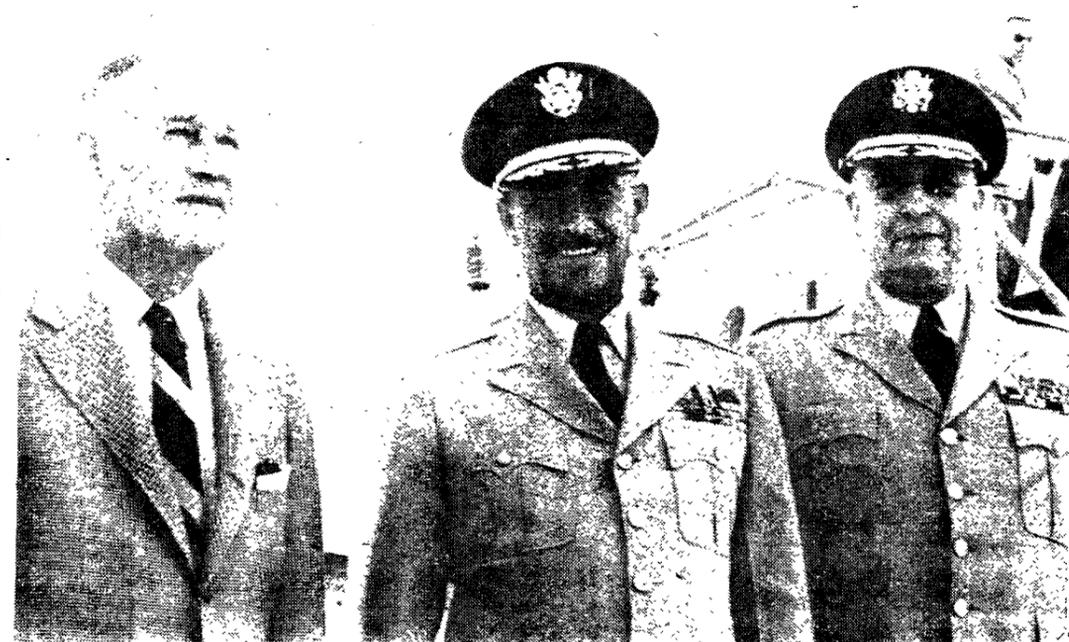

Lt. Fuentes pointed out that the bond program is a continuing thing that can be started by the individual at any time during the course of the year, and that the concerted effort once a year is just a reminder to individuals that there is a place for bonds in a savings program.

He also said that ten divisions qualified for Minutemen awards and that 52 elements having less than 100 people qualified for the Commanders Savings Bond award.

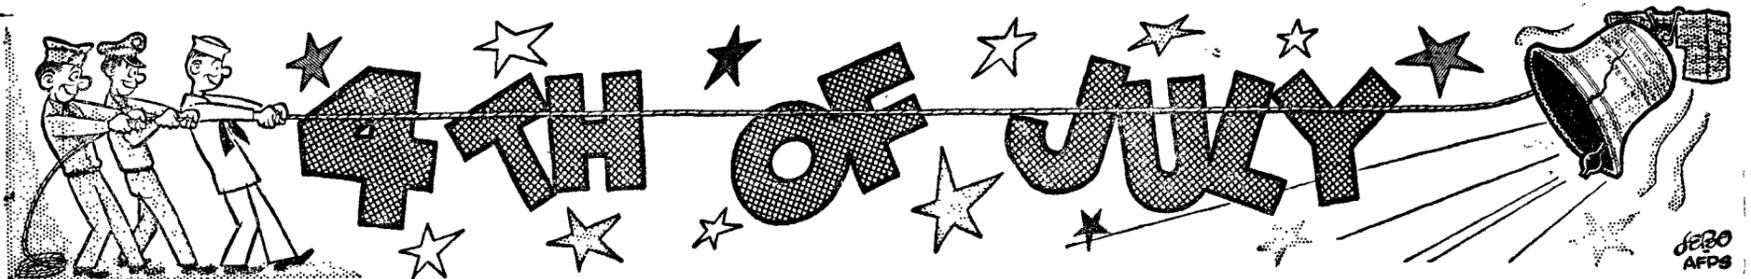

CBS EXECUTIVES HERE

Edward R. Murrow and Fred W. Friendly, executives of CBS television have been at Redstone Arsenal since Monday in connection with a television program that CBS is considering for the Fall schedule.

The two have been conferring with the Army's missile experts here before planning a program covering the Army's missiles.

PACIFIC COMMANDER IN CHIEF VISITS AOMC—General Isaac D. White (left), Commander-in-Chief, U. S. Army, Pacific, and Maj. Gen. W. C. Baker, Jr. (right), Assistant Chief of Staff for Logistics, are welcomed to headquarters of the Army Ordnance Missile Command by Maj. Gen. J. B. Medaris, AOMC Commanding General. Gen. White and Gen. Baker arrived Monday for an official visit of two days.

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Wednesday at no expense to the Government by Jack W. Hoffhaus, Huntsville, Alabama, with exclusive regard for the reader interests of personnel at Redstone Arsenal, Alabama, in accordance with an agreement between the publisher and the Public Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama.

The publisher will receive editorial content for publication in the Rocket only through the Public Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama, Bldg. 4505, Extension 2722. All advertising copy and payments therefor are received by Mrs. Zillah Newsome, 311 Holmes Ave., N. E., Huntsville, Alabama, P. O. Box 346, telephone JE 4-4701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$5.00 a year, or \$2.75 for six months. Mailing arrangements may be made with the publisher.

TOUR

(Continued From Page 1)
static firing was set for this afternoon.

The Redstone was chosen by NASA for the first manned flight in a ballistic missile because of its reliability. It has been launched more than 40 times, more than any other U. S. ballistic missile, with but two unsuccessful firings. Jupiter has demonstrated extreme accuracy and high reliability in 20 firings.

NASA has announced the Redstone Mercury flights will carry man 130 miles into space, providing a period of weightlessness in flight of five minutes or enough to test human reaction to the gravity-free state in preparation for orbital flight.

ABMA will supply the missile systems and is working with other participants in the NASA program to assure compatibility of the missiles with the Mercury capsule. The Agency will also check out, test, and fire the vehicles. Plans call for recovery of the capsule and the missile booster at sea.

SAFETY

(Continued From Page 1)
of caution to personnel who will take advantage of this long weekend.

Some of the rules they have set forth:

1. Have your car checked to be sure it is in first class shape to operate.
2. Start early and avoid heavy traffic, if possible.
3. Avoid excessive speeds
4. Avoid driving at night, if possible.
5. Use common sense in all forms of recreation, especially in water sports.
6. Avoid traveling when you

duties;

(5) And providing for local advisory groups to assist commanders in placing and using the specialized services of these soldiers.

The new S&E title will show that the people assigned under this program possess scientific or engineering backgrounds and will indicate these men are assistants to research and development project leaders in the Army's current programs.

Many soldiers in the present S&P Program will be transferred to the new S&E Program. The men who do not qualify under the revised standards will be retained under the S&P titles and status until discharged from service. During the succeeding months, the S&P program will work itself out of existence and be replaced by the new S&E program.

Atlantic to Pacific, Sergeant Swims It To Shatter Record

Ft. Kobbe, C. Z. (AFPS) — An Army infantry sergeant is believed to have set a record in swimming the 47-mile length of the Panama Canal in less than two days.

Six persons who previously stroked their way from Atlantic to Pacific waters broke their trips for at least one night of rest on land. But SFC George Harrison, Jr. did it in an actual swimming time of 22 hours, 52 minutes.

The 32-year-old sergeant hit the water just beyond Gatun Locks on the Atlantic side hours before dawn, following a spotlight on the boat that accompanied him. The going got really rough when he reached the open water of Gatun Lake, whipped by a strong wind.

Those who preceded Harrison in making it through the "Big Ditch" include the famed explorer Richard Halliburton who swam from ocean to ocean in 50 hours.

Ala. Accountants Win National Trophy

New York, June 24. — The North Alabama Chapter of the National Association of Accountants was proclaimed the winner of the coveted Stevenson Trophy which goes to the winner in the international performance competition conducted annually among 141 chapters of NAA. This recent announcement was made by NAA president John B. Inglis, partner in the public accounting firm of Price Waterhouse & Co., New York.

In winning the Alabama group compiled a total of 5941 points based on excellence of performance in such categories as growth and retention of membership, attendance at chapter and national activities, educational programs, manuscript writing, employment placement, publicity and public relation, and special activities of a business, civic and community nature.

The Des Moines (Iowa) Chapter was awarded the Remington Rand Trophy for taking second place in the competition, accumulating 5688 points.

The Nashville Chapter has won the Carter Trophy which is awarded each year to the chapter whose performance in the competition has improved most outstandingly from the previous year. In winning, Nashville advanced from its last year's position in 104th place to 7th place.

In addition to the three trophies, performance banners were awarded the chapters who finished in the first twenty positions in the competition. The trophies and banners were presented to the winners as a highlight of the Association's annual dinner, June 24. The event was held at The Waldorf-Astoria, New York, where NAA held its 40th international accounting conference, June 21-24.

Members of the North Alabama Chapter attending the convention

Meeting Combines Business and Social Activities for Wives

Cocktails and dinner were served at the Noncommissioned Officers Open Mess on June 25 for the NCO Auxiliary social meeting which was attended by 41 members and three guests.

Mrs. Donald Stewart was welcomed back after an absence of several months. New members were Mrs. Edgar Popp and Mrs. Francis Keenan. Guests for the evening were Mrs. Floyd Singleton, Mrs. Richard L. Anglin, and Mrs. John Brown of Atlanta. Mrs. Brown is visiting her mother, Mrs. Wilburn Wilson.

Mrs. John Diem was appointed a representative to the nursery committee, replacing Mrs. Randolph Weaver who will be leaving soon for Germany.

An announcement was made that the Christmas Charities Service is now collecting toys and clothing at the Brown Engineering building on Memorial Parkway. This was brought to the attention of members moving household goods.

Members were urged to attend the bowling league for the summer each Tuesday at 7 p.m.

Mrs. Randolph Weaver will hold the next executive board meeting at her home, located at 1242A Hermes Rd., in the new housing area adjoining Weeden Manor.

Enjoying vacations, but missed by the members, were Mrs. Harry Eullard, Mrs. Robert Schumaker, Mrs. Allen Macy, and Mrs. Earl Pelham.

News about former members received from Mainz, Germany consisted of information concerning M-Sgt. William Hamilton and M-Sgt. J. B. Bailey being promoted to E-9; SFC. Fred Coles, who was promoted to master sergeant, is now custodian of their NCO Open Mess; SFC Fred McElvoy and family transferred from Mainz to Ft. Sill, Okla., following the death of their son.

Farewell gifts were presented to Mrs. Jack Greenwood, a charter member, and Mrs. Millard R.

were Philip Herm, Morton Prouty, and Frank Donlin from the Tri-Cities area, Jim Thomas and Frank Hayes from Huntsville; Frank J. McLaughlin, J. Grady Shaw, Robert Raney, Doug Kelly, Joe T. Jones, John Mongoven, and Bob Stephenson from Decatur.

Morton Prouty, president of the North Alabama Chapter, accepted the award.

At the Service Club

"Club England" was the theme of the dance Tuesday night at the Service Club. Ray Dreeman and Tom Stachowiak did a wonderful job on the back drop painting. Did you ever see a beetle play a trumpet, a June bug play the drums? A splash of paint brought forth an effective scene. Blue lights were used over the scene and this created a wonderful atmosphere for a perfect dance.

Congratulations to Jan Hendrix winner of last week's Pool Tournament. The next pool tournament will be on July 23 so plan now to participate.

We will celebrate Independence Day the Fourth of July with a picnic at the boat dock picnic area. The hot July weather makes this holiday an ideal time for an outdoor picnic so we will move all of our fun under a blue sky and blazing sun to the river bank. The buses will leave the Service Club at 1700 hours. After the sun goes down we'll build a fire and enjoy a wiener roast with all of the trimmings. There it is - a super star-spangled picnic that really is going to be a bang! Make reservations today. The Huntsville Junior Hostesses will be guests at the picnic.

Bingo—Monday night at 2015 hours in the nice cool lounge. The prizes are unique, and you are sure to enjoy the new modified games. Join the gang Monday night.

Wednesday is the last night for the Fox Trot and Jitterbug classes, therefore, the class should be well prepared to show off their new steps at the next dance. July 8 is the date for the new series of classes. The classes will consist of the Fox Trot and Tango. Make reservations now for one of these classes because only a limited number can be accommodated in each class. See you for the first Tango.

I would like to give you a preview of the coming attractions in July:

July 9 the Show Production Group will meet to start work on a production for August. If you can sing, dance, play the piano or

France. Both of their husbands are retiring.

The door prize was won by Mrs. Frank Domm. Hostesses were Mrs. Jose Ortiz, Mrs. Samuel Minton, and Mrs. E. W. McClure.

All women whose husbands are members of the NCO Open Mess are urged to join the NCO Auxiliary which meets the second and fourth Thursday of every month at 7:30 p.m.

act attend the first meeting so that we can start work soon.

A tour is scheduled to Lake Winnepesaukah, Chattanooga, Tenn., on July 12 at 1230 hours. This is Chattanooga's complete amusement park and consists of the following means of entertainment: Swimming, miniature golf, boating, thrilling rides and picnic facilities. Make reservations today for this delightful tour.

Glenn Slayton and Orchestra will play for the dance on July 16. The Birmingham and Huntsville will be guests for the dance.

We will tour the Cathedral Caverns the "world's greatest" on July 18. The buses will leave the Service Club at 1230 hours. The Cathedral Caverns, located in Wright's Cove north of Grant, Ala., has six unique attractions such as World's largest underground canyon, largest cave entrance, largest stalagmite (Goliath) and largest "frozen waterfall". The new section which has just recently been opened will be an added attraction on this tour. Make reservations today.

FRANCES

Local Toastmistress To Be Installing Officer in New Club

Mrs. L. K. Wood, active member of the Huntsville Toastmistress Club, will go to Jackson, Miss., to serve as Installing Officer for the newly elected charter officers of Le Fleur Toastmistress Club on June 29, 1959.

Mrs. Wood, past President of the Memphis Toastmistress Club and Speech Contest Winner of Council 2, has been instrumental in organizing two other Toastmistress clubs—one in Tennessee, and this, the first to be established in Mississippi.

Officers from the International Toastmistress Clubs headquarters will award Le Fleur its charter after the banquet which will be held at the King Edward Hotel on the 29th. As a part of these ceremonies, Mrs. Wood will present certain of the objectives of Toastmistressing in an address over radio station WJQS in Jackson.

In addition to her outstanding accomplishments in Toastmistress, Mrs. Wood is serving as Secretary to the Huntsville Hospitality Club, and was recently awarded an "Oscar" for her superior performances in local Little Theatre plays.

BABY BORN AT BONN

Capt. and Mrs. R. F. Nottrodt send word that a daughter, Sonja Grace, was born on June 16. She weighed nine pounds at birth.

Capt. Nottrodt was the Technical Intelligence Officer here until his assignment last year to the Military Assistance Advisory Group to the German Air Defense Command at Bonn, Germany. Mrs. Nottrodt is the former Miss Betty Russell, daughter of Mrs. Jeannette C. Russell, receptionist for the Army Rocket and Guided Missile Agency's Field Service Division.

Father: "Son, when I was your age I was carrying water for a gang of bricklayers."

Son: "Gee, Dad, I sure am proud of you. If it hadn't been for your drive and perseverance I might have had to do something like that myself."

MODEL PLANE WINNER — William R. Lauderdale (right) and L. F. Vaughan of the Structures and Mechanics Laboratory, Army Ballistic Missile Agency, discuss design of Lauderdale's model airplane which took first place speed honors in the recent Heart of Dixie Model Airplane Championship. The craft scored 163 miles per hour during the event and Dr. Laird Jackson, contest director, is asking the Academy of Model Aeronautics, Washington, D. C., to accept the flight as a national speed record. Lauderdale and Vaughan are employed in the Laboratory's Missile Assembly Section.

HEART OF DIXIE MODEL PLANE CHAMP IS WILLIAM LAUDERDALE

William R. Lauderdale of the Structures and Mechanics Laboratory, Army Ballistic Missile Agency, recently took first place honors in the annual Heart of Dixie Model Airplane Championship held at Gunter Air Force Base, Montgomery, Ala.

More than 200 contestants participated in the contest, sponsored by the Exchange Clubs of Montgomery. Lauderdale won first place in the Class C speed event, with a record of 163 miles per hour. Dr. Laird Jackson, contest director, is asking the Academy of Model Aeronautics, Washington, D. C., to accept the flight as a national speed record.

Lauderdale's plane is of original design and weighs about two pounds. Propeller drive, it is powered

by a one-cylinder gasoline engine. It features elliptical wing planform with a wing span of 20 inches. The engine is mounted to magnesium and the airplane is built around the engine.

During the contest the plane was flown on a single line 70 feet in length.

Lauderdale built the craft four years ago. Last year he won first place in speed competition in the National Model Airplane Championship held in Chicago.

He is a resident of 3310 Hutchens Ave., Huntsville.

Boy: "Gee, honey, you're cute."
Girl: "I wish I could say the same for you."

Boy: "You could if you lied as I did."

RSA Garden Club Held June Meeting At Officers Club

The RSA Garden Club June meeting was held at the Squirrel Hill Officers Club.

New members are: Mrs. Tina Benito, Mrs. Pat Brice, Mrs. Betty Clift, Mrs. Lois Hasty, Mrs. Helen La Reau, Mrs. Gwen Moore, Mrs. Joanne O'Brien and Mrs. Lee Van Keuren.

The program for the evening was presented by Mrs. Esther Robinson and topics discussed were "Modern Arrangements" and "Table and Wall Arrangements." Mrs. Sue Boxell took charge of refreshments. Members worked on their flower arranging later in the evening.

The Garden Club Plaque for the month of June was awarded to Col. and Mrs. W. J. Durrenberger, 51 Bomford Drive.

OLIVER RETIRES—Master Sergeant Leo B. Oliver, formerly assigned to the Maintenance Branch, Ordnance Guided Missile School, has retired after more than 20 years active Army service. Col. Ernest W. Ewbank, assistant commandant of OGMS, holds the retirement citation signed by Army Chief of Staff General Maxwell D. Taylor.

ARMY RELIEF AND EMERGENCY RELIEF HELP THE NEEDY

When Army personnel or their families need financial assistance because of emergencies beyond their resources, they can turn in confidence to the Army Emergency Relief and the Army Relief Society.

The Army Relief Society has been rendering assistance to needy widows and orphans of Regular Army personnel since 1900. The Army Emergency Relief has been giving assistance to members of the Army and their families for the last 16 years.

Operated on the basis that "the Army takes care of its own," the two organizations are supported by a combined annual campaign. This year's campaign, with a goal of \$600,000, began June 15 and will continue until the end of this month. Redstone Arsenal's share of the total Army-wide goal has been set at \$4,392.62 — 15 percent of the assistance extended here last year which totaled more than \$29,000.

Funds collected are available for meeting such emergencies as nonreceipt of pay, allotment or allowances; loss of pay; acute illness when government facilities for treatment or hospitalization are not available; funeral expenses of dependents; travel expenses due to emergencies; payment of initial rent, or payment to prevent eviction; or privation of dependents due to any cause.

Assistance is usually given in the form of a loan. However, if repayment would cause undue hardship, the assistance is given as an outright grant.

All Army personnel at Redstone are urged to participate in

the annual drive for funds. A small contribution from each member of the Army will assure attainment of the 1959 goal and guarantee continuation of the program of assistance without incurring an annual deficit, or depleting assets set aside for emergency needs.

Maj. Andrew J. Draper is serving as chairman for the Arsenal drive. He is being assisted by Maj. Victor H. Kemp, RSA; Capt. Walter E. Kasper, AOMC; 1st Lt. Richard B. Davidson, ABMA; 1st Lt. Fred J. Lokay, ARGMA; and 1st Lt. Donald R. Winter, OGMS.

A nurse was showing the sergeant to his room. "Now," she said, "we want you to be happy and enjoy yourself while here, so if there's anything you want that we haven't got, let me know and I'll show you how to get along without it."

JAMES P. PAULK

Paulk Is Named Safe Supervisor of Week

James P. Paulk has been named Safe Supervisor of the week by the RSA Safety Division. James is Warehouse Foreman of the Ballistic Missile Materiel Branch, Depot Operations. He has completed more than 10 years of government service without a disabling injury to himself or to anyone under his supervision. His present job consists of supervision of storage and handling of material using both manual and me-

SOME SPORTS STARTED IN ARMY, BUT INTEREST DIDN'T END THERE

FORT LEONARD WOOD, Mo. —Horseshoe pitching and table tennis weren't designed for aging men and children — they're old Army games.

At least, so a research-minded chanical handling equipment. This is considered one of the most hazardous types of work at the arsenal.

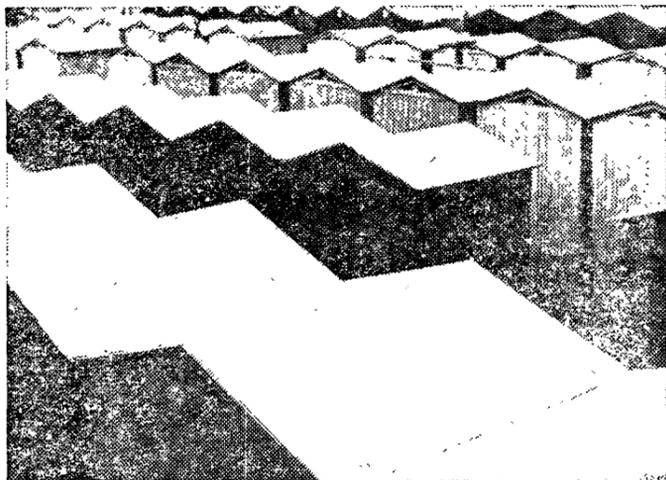

The Safe Supervisor of the Week is an army veteran. He spent two and one half years in the European Theater and was awarded three battle stars. He said much of his early army training consisted of safety and he feels sure that this has saved him from serious injury many times. Mr. Paulk says he has found that the safe way of doing things is always the best and it saves time too. His supervisors say he is one of the most dependable supervisors in his branch. They say he never starts a job without first studying it, getting the men and material he needs, gives proper instructions, and follows up to assure the job is going according to plan.

James is married to the former Mary Lee McNatt of Athens, Ala. They have one son, Danny Ray, who is six and they reside at Athens, Route 8. His favorite past time is hunting and fishing.

soldier here, Private Frederic A. Hamlin of (413 N. 9th St.) Columbia, Mo., claimed when interest was running high during recent post elimination tourneys.

Civilian followers of the Roman Army started pitching horseshoes around 200 B.C. Roman soldiers threw the discus, an expensive hand-tooled job beyond the means of the lowly roustabouts, who compromised by using the cast-iff shoes of the troopers' horses. Because of the difference in weight, they soon found it more fun to throw the shoes for accuracy than for distance.

And so the Roman soldiers aped the aping civilians, and horseshoe pitching has been popular with soldiers—as well as farmers—ever since. Having, it is said, been introduced to Americans by British troops during the Revolution, it ranked number three in

ROOFTOPS—This photograph earned Sp5 Charles L. Heitel, of Ft. Carson, Colo., first-place in the experimental division of the black and white group in the 8th Interservice Photography Contest.

sports popularity with American officer in Africa just before the soldiers during World War II. Boer War who invented table tennis, or ping pong, says Hamlin. It was probably a British Army

Arsenal Golf Course to Be Dedicated Next Friday

The Special Services Officer announces the official opening of a new recreational facility, a beautiful 9-hole golf course and driving range.

Military personnel, their dependents and guests are invited to attend the opening ceremonies at 0900 hours, July 3 at the new course which is located one-half mile west of Squirrel Hill Officers Club on Goss Road.

Beginning at 0830 until 0850, the 55th Army Band will open the ceremonies. Maj. Gen. John B. Medaris will perform the ribbon-cutting at No. 1 tee and at 0900 hours will open play at the Redstone Arsenal golf course by teeing off the first ball. Members of his foursome and initial foursomes will follow. The course will then be open to all authorized golfers.

M-Sgt. James E. McClure was

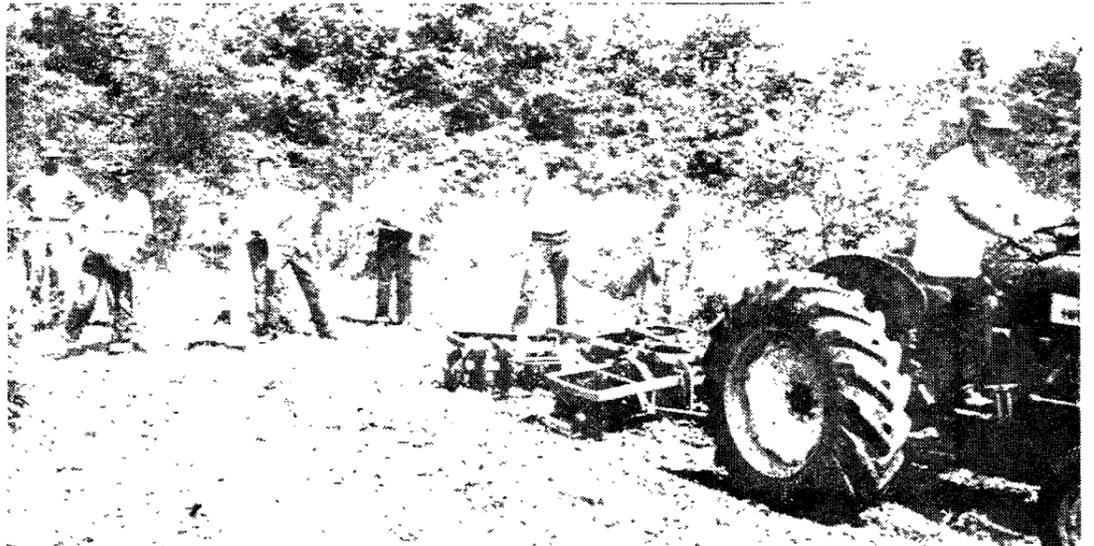

selected as golf professional for the Redstone Arsenal golf course. M-Sgt. McClure transferred from Ft. McClellan to take this position. While at Ft. McClellan he designed and helped construct and then managed their golf course. He has been a golf professional and member of the Alabama Professional Golf Association for five years.

Two other active and talented golfers are assigned to the Redstone Golf Course — M-Sgt. Harold Womack, greens superintendent, and Pfc. Dean Allen (1958 winner of the Redstone Arsenal Golf Tournament), pro shop clerk.

A low monthly plan of \$4 per month for single members and \$5 to a member and one dependent has been established for membership. Also available will be monthly memberships for other dependents at \$2 each. Rates for Saturday, Sunday, and holidays will be 75c for 9 holes of golf and \$1.25 for 18 holes. For all other days, rates will be 60c for 9 holes and \$1 for 18 holes.

Monthly membership cards are available for purchase at the Special Services Office, second floor, Bldg. 3648 (Post Office Bldg.). The first 50 members to join will receive, in addition to their membership, a very helpful 1959 book of golf rules.

Golf clubs will be available, but must be issued on a first-come, first-served basis. Due to the limited number of golf clubs available for this purpose, reser-

EXPLORERS PLANTING FEED—Air Explorer Scout Squadron 234 members recently planted seed for feeding quail at Redstone Arsenal. The project was taken as a joint service and conservation project by these Scouts. The squadron was helped by members of the Post Engineer and the Provost Marshal game warden. The Post Engineer supplied the groundbreaking equipment and the seed. Working together on the project are (left to right): S/Sgt. Buford Harrison, game warden from the Provost Marshal Division; Lt. James W. Davis, Scout leader and Post Veterinary; Explorer Scouts Richard Kloos, Mike Murray, Nyal Fuentes, Ken Clardy, Bob Holmes, Jack Dempsey and Wayne Jones, Henry Marks, tractor operator, is from the Post Engineer Division.

Tennis Team Takes Third Army Trophy

Notification has been received by the Special Services Office from Third Army Headquarters that the Redstone Tennis Team won the 1959 Third Army Tennis Tournament.

Details will be published in next week's Rocket. In the meantime, special congratulations are extended to the members of this team: Maj. Ralph Bassett, Capt. W. B. Heharg, Pfc. Gerald Heck and Pvt. Bernard Mueller. Col. E. W. Ewbank, who was unable to at-

SWIMMING POOL TO OPEN JULY 3

The Post Swimming Pool will open for all military personnel, their dependents, and guests at 1000 hours, Friday, July 3.

The hours of operation are: Monday through Saturday 1000-2000; Sunday 1200-2000. Picnic facilities are available on a first-come-first-served basis.

Odd days are for use by enlisted men, dependents, and guests; even days are for use by officers, their dependents and guests.

Special emphasis has been placed on safety at the pool for this season and an extensive training course has been conducted for the past several weeks in water safety. Each lifeguard at the Pool possesses a Red Cross Lifesaving Card. The lifeguards selected for this season are: Pfc. Jack Shasserre and Pfc. Paul George (chief lifeguards). Pfc. John Boylan, Pfc. Bob Connell, Pfc. Jake Candelaria, Pfc. Al Daniels, Pfc. Alan Finnieston, Pfc. Larry Moore and Pfc. Jim Sullivan.

Special Services cannot be responsible for loss of personal items left unattended at the Swimming Pool area.

Reservations cannot be made in advance. Rental carts will be available at 25c per 9 holes. Soft drinks, beer, and snacks will also be available at the pro shop.

Parents or an authorized adult must accompany and supervise dependents under 14 years of age; adults only are permitted utilization of the course on Saturday, Sunday and Holidays.

All efforts have been made to make this course the finest possible for the enjoyment and benefit of military personnel, their dependents, and bona fide guests.

GEORGIA TECH PROVIDES ADVANCED EXTENSIVE RESEARCH FACILITIES

(Editor's note: The following article is one in a series on organizations which comprise the membership of the Interservice Committee on Technical Facilities (ISCTF). Southeastern U. S. Chairman of the committee is Charles L. Northrup, Chief of the Systems Test Branch, Test and Evaluation Laboratory, Ordnance Missile Laboratories Division, Army Rocket and Guided Missile Agency.)

The Georgia Institute of Technology is one of those academic rarities — a large state-supported institution of higher learning located in the middle of a bustling metropolis. Famed for its hard-working graduates, research programs, "Rambling Wreck" song, and colorful football teams, Georgia Tech is a mass of buildings and automobiles located just four blocks west of Atlanta's famed Peachtree Street.

Tech's traditions began back in October, 1888, when it first opened its doors to a group of aspiring mechanical engineering students. At that time the campus consisted of only two buildings on a five-acre hill. Now, some 22,000 graduates later, the main campus is a complex of 76 buildings spilling over 134 acres of land.

Contributing significantly to Tech's growth and reputation has been its Engineering Experiment Station, now the largest university-connected engineering research organization in the entire South. During this past year Tech's research was budgeted at over \$2,500,000 and served both government and industry as well as the educational programs of the institution.

Campus Research

To be of maximum effectiveness in this broad range of activity the work is restricted primarily to fundamental and applied research, up to, but seldom including, product development. The Station serves as the contractual and administrative center of campus research, and directly contributes the major portion of the effort in special research facilities.

Tech's deliberate blending of education and service programs results in an unusually versatile capacity for research. Many of the faculty members in the schools of science and engineering work part-time in research projects of the Station, providing a valuable supply of theoretical and technological knowledge and experience. Other faculty members that make up Tech's reservoir of highly trained personnel (over 100 doctorates in scientific and engineering fields) are also available for consultation.

The physical resources for research at Georgia Tech are equally advanced and extensive.

Digital Machines

Example 1: The Rich Electronic Computer Center operates three digital machines, (1) a UNIVAC SCIENTIFIC (ERA 1101), (2) and IMB 650, and (3) a new Burroughs 220. The Center also has input-output equipment for each machine and for communication be-

Example 2: A general-purpose, medium-scale analog facility is available in the Analog Computer Laboratory. This system has about 50 amplifiers, with emphasis on non-linear equipment.

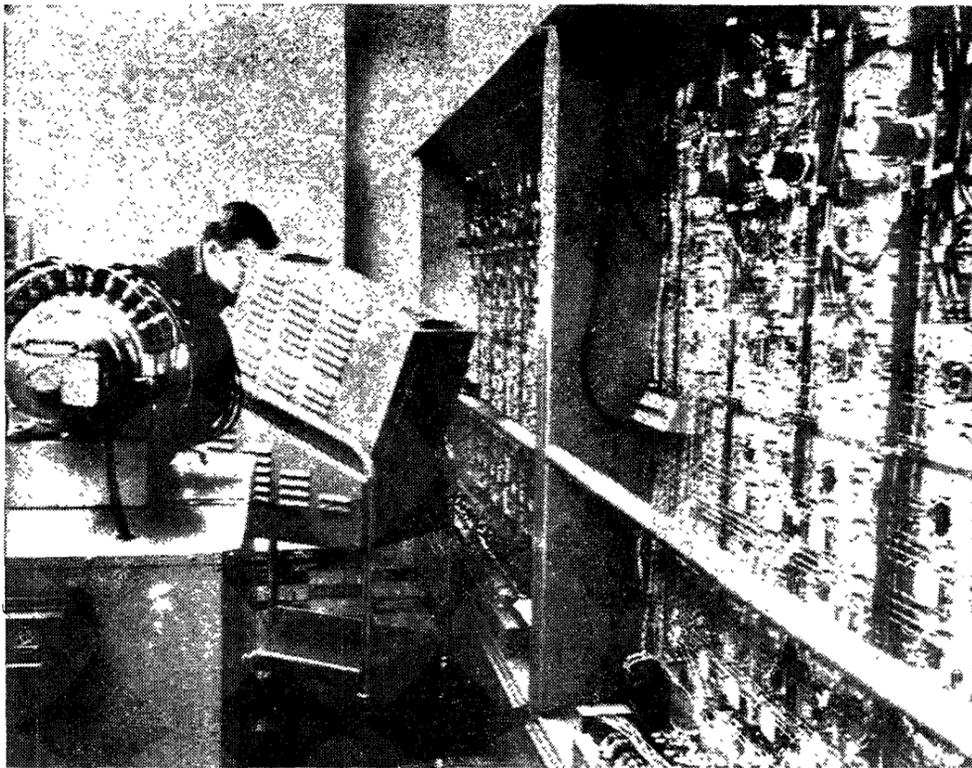

Example 3: A third computer facility is the AC Network Analyzer, a large-scale, special-purpose analog computer, used primarily for studies of power systems.

Ceramics Branch

Example 4: The Station's Ceramics Branch has extensive facilities for research and development on high-temperature materials. This group is presently working on a Redstone project to develop ceramic coatings for missile nose cones.

Example 5: The Hydraulics Laboratory is another very large and complete research area. Included are: two circulating water systems with a total flow capacity of 20 cubic feet per second; and 80-foot river flume; and a 90-foot variable slope flume. A special arrangement is now set up to study an unusually complex spillway system at a dam site in Iran.

Example 6: Tech's School of Aeronautical Engineering has made significant contributions to

YOUNG ENGINEER checks the heart of Georgia Tech's UNIVAC Scientific Computer. The brain of the computer is on the left.

* * *

helicopter design in the past few years, making good use of the school's nine-foot wind tunnel. The tunnel was recently modified and improved with up to date instrumentation.

Example 7: Facilities for investigations in solid-state physics include X-ray diffraction equipment and an electron microscope. The microscope has also been of great value in research on Georgia's most abundant minerals: Kaolin and other ceramic clays.

Paving Materials

Example 8: The Highway Laboratory Building contains large-scale testing machines and other equipment for studies in paving materials, soil mechanics and structures. One of the most interesting current projects involves the mixing of soil with concrete to produce economical road surfaces.

Example 9: Perhaps the most extensive facilities for research are found in the several areas devoted to electronics, which is the Station's largest field of endeavor. Much of this work is classified, involving projects in radar, communications countermeasures, radio-frequency and interference. Developments in these areas have included methods of bouncing radio waves off meteor trails and studies of the reflecting properties of the ionosphere. Under Tech's current building program, research facilities are expanding rapidly. A new Radioisotopes and Bioengineering Laboratory will be completed next month, adding 16,000 square feet of floor space for research and instruction in these areas. The largest project in the history of the institution is also presently in the final design stages: the construction of a \$4.5 million nuclear research reactor, to be completed in late 1960.

As President Edwin D. Harri-

* * *

son has said, "Georgia Tech is not only keeping pace with the South's industrial growth, it is actively contributing to it."

THE SOUTH'S LARGEST HOME FURNISHERS

ELECTRONIC EQUIPMENT TAKES THE TEDIUM FROM BOOKKEEPING

The Army Ballistic Missile Agency Industrial Division, directed by Col. Calvin A. Heath, eliminated overtime, tired people and long adding machine tapes in closing out its 32 programs at the end of the 1959 fiscal year.

This was accomplished by gearing the Division's bookkeeping methods for the IBM electronic 705 digital computer. The mass of detail was fed into the machine to report on the status of orders for missiles. The orders for one missile system usually number in the thousands.

The program was initiated by the Planning Office of the Industrial Division on an experimental basis in February, 1958 on the 704 Computer. The system of coding and feeding the machine the information worked so well that the complete information of the previous day's business was on the desk of the chief by 8:30 a.m. the following morning. All of the detail was included: the number of orders processed, individuals who handled the transactions, the effect on the budget, and the laboratory needing the material.

By July 1, 1958, the experiment was adopted on a permanent basis and manual records in the Planning Office were abolished. The personnel who formerly handled the detailed ledgers were placed on other jobs.

When this method became permanent, the daily report was expanded to include summaries of information from contracting agencies and the report was distributed through out the Division. With everyone current on recent changes, reconciliations became a thing of the past and inter-divisional questions regarding different programs' status was eliminated.

By February of 1959, the entire system of manual records in the Industrial Division was displaced by the machines.

Everything concerning the cost of missile programs was calculated, and the budget constructed from detailed information. Then the total budget, as approved was programmed on the memory cells of the computer so that actions could be recorded as soon as they occurred.

This method of reporting is simple. As each order is processed, a card is punched and fed into the computer which then stores the information until it is needed for another action. The computer is given subsequent information on the order and keeps the actions up-to-date so that at the close of each business day, a complete report can be made on the status of all orders until the program is closed out.

A summary of these reports is made by the computer to distribute to affected Districts or Arsenals in order to show how much of their allotments are un-

obligated, which project the money is intended for, how long it has been on hand, and the initials of the individual who handled the transaction.

The daily detail work done by the computer took the agony from end-of-the-fiscal-year reporting. The memory cells of the machine spit out the answers with alacrity, a point that has come to the attention of the Chief of Ordnance who is now considering plans and procedures for Ordnance-Corps-wide use.

The Army Rocket and Guided Missile Agency has already adopted a similar type reporting in the Industrial Division.

"The surest way to double your money," says Jack Benny, "is to fold it over and put it back in your pocket."

Weather Minutiae Get Army Interest

FORT HUACHUCA, Ariz., — The Meteorology Department of the Army Electronic Proving Ground here has received a special device for measuring invisible pockets of varying humidity and temperature within the atmosphere.

Called a refractometer, it was developed and produced by the National Bureau of Standards in Washington after several years of consultation with officials here.

Object of the measurements is to get more data regarding micro-meteorology or small-scale weather forecasting, and long range radio wave propagation which is affected by these atmospheric conditions.

The refractometer is attached to the wing of an airplane and electronically measures the difference it encounters in humidities and temperatures.

Mother: "And what did you do while mother was out shopping, darling?"

Little Precious: "I played postman, Mommy. I put a letter in every mail box on the street. They were real letters, too. I found them in your dresser drawer tied up with a blue ribbon."

Psychiatrist: "I wouldn't be too upset about your boy making mud pies. The fact that he sometimes tries to eat them is also quite normal."

Mother: "I'm not so sure about that, doctor, and neither is his wife."

Government Workers Are Eligible to Join ANAF Travel Club

(Taken From The Army Times)

The unique Army-Navy - Air Force Travel Discount Club, which is successfully staging the comeback of the cash customer, will accept membership applications from government employees, starting July 1st.

Membership in the club, formerly limited to military personnel, entitles the shopper to get a discount when he makes a purchase for cash. Over 25,000 military members have discarded wallets full of credit cards, and now travel and shop all over the world at reduced rates, courtesy of the ANAF Travel Discount Club!

The Club was established by the Army Times Publishing Company, in August 1958 to help military personnel on fixed incomes stretch their purchasing power.

In discussing this problem with businessmen it became apparent that the tremendous growth of charge plans in the past few years

has made cash customers as welcome as an agreement with the Russians, and as rare! Merchants paying added bookkeeping costs for the operation of charge plans, and then waiting 30-90 days for their money, expressed their willingness to give cash customers substantial discounts for payment on purchase, much as business men give each other discounts for paying bills promptly.

After contacting businessmen all over the world, the club selected over 4,000 establishments whose managements agreed to give discounts of from 5% to 25% to ANAF members, in exchange for cash payment. These cooperating establishments are in every state of the union, and in 54 foreign countries.

By opening the membership to government employees, the club expects to have 100,000 members by the end of 1959, and also to attract several thousand more cooperating merchants.

Members pay a modest \$3.00 fee for a year's membership. In return each receives an ANAF Discount Card, identifying him as a bona fide member; a Directory

111 High School Science and Math Teachers Tour Post

A group of 111 high school science and mathematics teachers from throughout the Southeast toured Redstone Arsenal last week.

The teachers are attending a Summer Science Institute at Alabama Polytechnic Institute, Auburn, Ala. The Institute is sponsored by the National Science Foundation and API.

The group from Auburn was the second of seven from various universities scheduled to tour the Arsenal during the Summer. The first, from Tuskegee Institute, visited recently.

The Auburn group was headed by Dr. Ernest Williams, director of the Summer Institute.

listing all the establishments cooperating with the club; a decal for the windshield of his car; and monthly copies of the club's publication.

Membership is now open to all military personnel, active, reserve or retired; and all employees of federal, state, city and county governments.

LT. COL. BENTON RETIRES

Lt. Col. William C. Benton, analytical statistician in the Research and Development Division of the Army Rocket and Guided Missile Agency, has retired from the U. S. Army Reserve after serving almost 32 years, either on active duty or a member of the Army Reserve. He was commissioned in the Coast Artillery and transferred to the Chemical Corps.

Lt. Col. Benton is a World War II veteran, served in Germany in

the Army of Occupation, and organized and activated the 95th Chemical Group, Army Reserve, in Huntsville in 1953. He was the commanding officer of this outfit until his recent retirement.

Adam and Eve were naming the animals.

"I think I'll call that one a hippopotamus," Eve said.

"Why?" Adam asked.

"I don't know . . . I suppose it just looks more like a hippopotamus than any of the others."

AUCTION

SATURDAY, JULY 11

2:00 P. M., ON PREMISES

U. S. Highway 31, Five Miles South of Athens, Ala.

SELLING 46 ACRES SUBDIVIDED — RESIDENTIAL LOTS — COMMERCIAL SITES — SMALL TRACTS.

Valuable Highway Frontage

Over 1600 ft. of valuable frontage on new 4-lane 31 Highway. This type property is rarely offered, stands to gain in value as Athens, Decatur and Huntsville are rapidly expanding toward each other. Profit potential NOW for Motel, Trailer Court, Garage, Service Station or other business catering to the traveling public. As income producing property, or as an investment this can't be equaled in this area. To be sold in a manner to allow purchaser the amount of frontage their plans require, from 100 ft. up.

RESIDENTIAL LOTS

Approximately ¼ mile of paved road frontage to be sold in residential lots. Beautiful lying, rich, red level soil. All lots have depth of 200 ft. or more. Reasonable restriction to be announced day of sale.

SMALL TRACTS

9 small tracts of land, ranging from 2 acres up to 11 acres in each. This sale offers wonderful opportunity to people who are planning to build in the country, especially those who are not willing to settle for just a small lot. THIS SALE OFFERS YOU THE POSSIBILITIES OF BUYING A RICH, RED SOIL BABY FARM FOR THE PRICE YOU WOULD NORMALLY EXPECT TO PAY FOR A SMALL CITY LOT. There is a big spring on the 11 acre tract that will furnish ample water supply for a city. We invite your inspection of these tracts prior to sale.

COUNTRY HOME

Also to be sold in this sale is a large dwelling house, barn and other buildings. Situated on 3 acres. For a home or an investment, look this over.

FREE \$100 In CASH Will Be Given FREE

EASY TERMS — POSITIVE SALE REGARDLESS OF PRICE — 1/3 Down on day of sale, balance to suit purchaser, or all cash.

Sojourners Postpone Scheduled Meeting

Due to conflicting holiday events the Redstone Chapter 353 National Sojourners have postponed the customary first Friday of the monthly meeting date to the following Friday, July 10.

The social period will be from 1830 to 1930, followed by dinner and a business meeting. The main order of business will concern reports from the various committees. The main emphasis will be directed toward planning for the annual Sojourner picnic which is programmed for the month of July.

Master Masons who are interested in Sojourner activities and projects should plan to attend this meeting, and it is suggested you bring a friend.

Sailor: "Gosh, honey, I'm glad I'll be the first sailor you've ever been out with. Where shall I meet you?"

Doll: "How about the starboard side of pier seven at 2100?"

TOKEN GIVEN DEPARTING COMMANDANT — Colonel Henry S. Newhall, former Commandant of the Ordnance Guided Missile School, displays a token memorial which he received from the Commandant of the Army Ordnance School, Aberdeen Proving Ground, as a remembrance upon his departure from Redstone Arsenal for assignment in Washington, D. C. Maj. Gen. J. B. Medaris (right) Commanding General of the Army Ordnance Missile Command, made the presentation last week on behalf of the Aberdeen Commandant, Colonel A. Mark Smith II. A paperweight of clear plastic, the token is engraved with Colonel Newhall's name and decorated with the Ordnance School and Training Command crests. Colonel Newhall will take up duties on July 1 with the Field Services Division, Office Chief of Ordnance, in Washington. Col. Charles W. Eifler has been assigned as Commandant at the Ordnance Guided Missile School.

How To Display Old Glory
 There are "right" and "wrong" ways to display our American Flag. Texaco's free Flag History and Historic Touring booklet, gives these official American Flag Foundation rules:

YOUR FLAG'S blue field must be at the top if displayed from a staff at an angle from your home. If displayed from a horizontal rope or pole, flag should be hoisted out with blue field first.

HALF-MAST: When flown at half-mast, flag should be raised to peak, then lowered to half-mast. Before lowering, hoist to peak for an instant. On Memorial Day, flag is flown half-mast till noon, then raised to peak.

FLAG ETIQUETTE rules that our flag should never touch the ground. For decoration use red, white and blue bunting, but never drape or tie OLD GLORY.

WITH OTHER FLAGS: Our flag should be flown at top. Only flags of states or cities, or pennants of societies may be flown on same halyard.

GUARD AND MP OF MONTH
 PFC. Alfred C. Phelps (left), was chosen the Military Police-man of the Month.

Lawrence Lemley (right), was chosen the Civilian Guard of the Month. Both men received certificates of achievement from Lt. Col. Dean H. Jones, Redstone Arsenal Provost Marshal.

DAVID W. PRITCHETT

Pritchett Is Chosen Week's Safe Worker

David W. Pritchett, employe of the Field Support Unit, Property & Supply Section, Test Lab, has been selected as the Safe Worker of the Week.

Pritchett entered civil service in 1943 as an explosives operator in the Ammunition Div., Redstone. He worked as an explosive operator for eight years. In 1956 he transferred to the Test Lab as a carpenter and painter.

The major portion of Mr. Pritchett's work is on test stands which require frequent painting. In order to paint these structures much of his working area is not provided with permanent working platforms. Temporary platforms must be properly installed to facilitate painting and avoid moving over wet surfaces when doing his work.

When describing his work, Mr. Pritchett indicated that when a worker is careful he is more apt to avoid accidents. He states "experience has taught me that accidents don't just happen they are for the most part caused by the

The men were griping about the food as they moped down the chow line with their trays.

At last the mess sergeant could stand it no longer:

"What's going on with you guys? Monday you like beans. Tuesday you like beans. Wednes-

workman who fails to recognize hazardous conditions. I have 48 years to my credit without having had a disabling injury and I am going to try for 48 more."

Mr. Pritchett and his wife, Corella, reside in Morgan City, Alabama.

Operation Blonde

day you like beans. Now, all of a sudden, on Thursday you don't like beans."

Daffynitions: Raving Beauty—the gal who placed second in a beauty contest.

"Caution is the most valuable asset in fishing—especially if you are the fish."
