REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

JULY 13, 1960

Col. Crane Will Head Zeus Office

Until Present Appointment He Was Assistant

Lt. Col. Glenn Crane is now Project Officer in charge of the Army's Nike Zeus anti-missile missile program.

In making the announcement, yesterday, Maj. Gen. August Schomburg, Commanding General

COL. GLENN CRANE

of the Army Ordnance Missile Command, said that Col. Crane will head the experienced Army-industry team responsible for developing the anti-ICBM weapon system.

As "Mr. Zeus," Crane succeeds Col. John G. Zierdt, who last month was appointed Commander (See COL. CRANE on Page 2)

Industrial Team Is Commended By Col. Zierdt

Picture Inside

Col. John G. Zierdt, Commander of the Army Rocket and Guided Missile Agency, Thursday (July 7) commended the industrial team responsible for developing the Army's Nike family of air defense missiles.

Addressing a meeting of the Department of Defense Research and Engineering Policy Council at Ft. Monroe, Va., Col. Zierdt said: "This basic contractor team with 15 years experience in missile development and production has been carefully expanded to accomplish the complex and diversified needs of the Nike Zeus program."

Col. Zierdt, speaking on "Managing a Major Missile System Research and Development Program (Nike Zeus)," said that the Army was pleased with its choice of the Western Electric Company as system contractor for the nation's first major missile system - Nike Ajax. Western Electric is also prime contractor for the Nike Hercules and Nike Zeus programs under the direction of ARGMA, an element of the Army Ordnance Missile Command.

He also complimented the Douglas Aircraft Corporation and the Bell Telephone Laboratories as major sub-contractors in developing the Nike missiles, and the corps of engineers for their "splendid effort" in construction of test sites.

Col. Zierdt told the high level policy makers that "the current political situation no longer permits anything less than the accelerated development and fielding of weapons systems. In short," he continued, "the problem has become that of accomplishing" (See COL. ZIERDT on Page 2)

71.3 PER CENT ENROLL IN HEALTH BENEFITS PLANS

Total enrollment in the Employees Federal Health Benefits Program reached 71.5 per cent of the Total strength of the U.S. Army Ordnance Missile Command.

Of 14,063 employees, 10,012 enrolled in one of the three plans offered under the Federal Health Benefits program. The figures do not reflect those employees who are dependents of the military or wives of husbands who have enrolled in family plans. Temporary employees are ineligible to participate in this program. A few additions from outlying posts such as Kawajalein may not have reached Personnel authorities here yet.

Statistical breakdown for the three plans follows: Blue Cross, 5503; Indemnity, 4213; and American Federation of Government Employees, 231.

The Finance and Accounting Office at the Arsenal will now bear the brunt of the work that has been shared with the Civilian Personnel Offices in various Agencies in setting up this program

Roy E. Fox and his staff in Finance and Accounting have coor. (See HEALTH on Page 2)

Contracts Awarded For Building Addition And Reconstruction

Col. R. W. Love, U.S. Army District Engineer at Mobile, announced June 30 the award of two contracts for construction at Redstone Arsenal.

One contract, amounting to \$80,786.75, went to the Pearce and Gresham Company of Decatur for constructing an addition to the Structures and Mechanics Building for use by the Army Ballistic Missile Agency as a vibration exciter facility in testing rocket motors.

The addition, which will be a concrete structure with a floor area of about 1800 square feet, is scheduled for completion by the end of October.

The other contract, amounting to \$584,919.70, went to the Whaley Company, Inc., of Birmingham, for rehabilitating a 3-story clay tile masonry building for use as a 46-bed hospital.

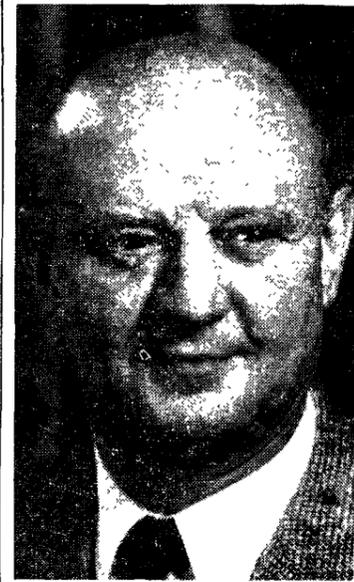

The work will include providing new floors, partitions, doors, windows, and freight elevator; installing food service equipment; and altering heating, ventilating, air conditioning, plumbing, and electrical facilities.

It will also include constructing a one-story equipment building to house a 100-KW generator unit. The rehabilitation job is scheduled for completion in June 1961.

Gen. Schomburg Urges Safe Working Conditions

Rudolph and Dannenberg To Be Honored July 15

The Exceptional and Meritorious Civilian Service Award, the highest honor which the Army can confer upon a civilian, will be presented to two Huntsville residents. Dr. Arthur Rudolph and

DR. RUDOLPH

Konrad K. Dannenberg July 15. The presentation will be made by Major General August Schomburg, Commanding General of the

DR. DANNENBERG

Army Ordnance Missile Command, in a 3:00 p.m. ceremony at (See DR. RUDOLPH on Page 3)

He Opens Safety Conference on High Energy Propellants

Maj. Gen. August Schomburg emphasized the continued importance of safe working conditions to keep pace with expanding weapon technology as he opened an explosives safety seminar on high energy propellants yesterday at Redstone Arsenal.

Approximately 150 representatives of government and private agencies engaged in research, manufacture and testing of solid propellants are attending the seminar sponsored by the Armed Services Explosives Safety Board.

Gen. Schomburg, Commanding General of the Army Ordnance Missile Command, host for the three day event, told the group:

"Providing safe working conditions today requires a degree of technical competence heretofore unknown. The safety engineer must not only stay on top of the complex technology as it applies to safety, he must also know the weapons system from A to Z.

"New and complex safety problems occur daily. New and ingenious solutions to such problems must be found. It is through groups such as yours that this is made possible."

Other speakers in the opening session included Col. A. W. Hamilton, USA, Chairman of the Armed Services Explosives Safety Board; Col. Owen T. McCloskey, Redstone Arsenal Commander, and Henry Marsh, vice president of the American Ordnance Association and consultant to the Secretary of the Army and the Armed Services Explosives Safety Board.

The seminar will discuss problems presented in handling, mass-production and testing the new types of solid propellants required by modern missiles.

The group will tour the propellant plant facilities at Redstone Arsenal tomorrow afternoon.

Papers will be presented by representatives of the Safety Board Thiokol Chemical Corporation, Olin Mathison Chemical Corporation, Aero-General Corporation, Army Environmental Health Laboratories, Hercules Powder Company, Naval Ordnance Laboratory, Jet Propulsion Laboratory, Rohm and Haas Company, Space Technology Laboratory, Air Research and Development Command, Esso Research and Engineering Corporation, Picatinny Arsenal, Grinnell (See GEN. SCHOMBURG, Page 2)

Col. Bush Recalls First A-Bomb Tested by U.S.

15th Anniversary Of Event Is Noted

Saturday was the 15th anniversary of the first explosion of an atomic bomb at Trinity Site, Alamogordo, N.M. It was one of history's best kept secrets.

Today, Col. Howard C. Bush, one of the men responsible for

keeping that secret is again serving as custodian of the Army's latest weapon secrets. He is Security Officer of the Army Ordnance Missile Command.

Appointed the first commanding officer of Trinity Site responsible for its preparation and for main- (See A BOMB on Page 2)

COL. HOWARD C. BUSH

AER DRIVE-NETS 130 PER CENT OF THE GOAL SET

This year the joint Army Emergency Relief and Army Relief Fund campaign conducted between May 15 and July 1 achieved 130 per cent of the goal set at the beginning of the campaign.

A total of \$4,546.68 was contributed by Army personnel stationed here during the six-weeks drive. Maj. Lloyd Deppensmith, Campaign chairman, said, "This is an outstanding demonstration of interest, confidence, and support of AER as the Army's way of caring for its own and their desire to help one another." Contributions exceeded the quota by \$1,066.68.

Agencies participating included AOMC, ABMA, ARGMA, OGMS, and RSA, and the Red Cross Field Director's Office.

Contributions will be used to provide financial assistance to (See AER on Page 3)

ACCEPTS FUNDS — Capt. Robert H. DeYoung, Redstone Army Emergency Relief Fund Officer, accepts a check for \$2,370 from Capt. Preston Jett, OGMS, as the Missile School's contribution in the annual AER-Army Relief Fund campaign which closed on July 1. The School had the largest dollar quota and was second in the percentage count. AOMC led with 152 per cent of the established quota, OGMS had 142 per cent; Redstone Arsenal, 127 per cent; and ABMA, 120 per cent.

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Wednesday at no expense to the Government by Jack W. Hofhaus, Hartsville, Alabama, with exclusive regard for the reader interests of personnel at Redstone Arsenal, Alabama, in accordance with an agreement between the publisher and the Public Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama.

The publisher will receive editorial content for publication in the Rocket only through the Public Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama, Bldg. 4505, Extension 2722. All advertising copy and payments therefor are received by Mrs. Zillah Newsome, 311 Holmes Ave., N. E., Huntsville, Alabama, P. O. Box 346, telephone JE 4-4701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$5.00 a year, or \$2.75 for six months. Mailing arrangements may be made with the publisher.

COL. CRANE

(Continued from Page 1)
of ARGMA, when Brig. Gen. J. G. Shinkle was made Commander of the White Sands Missile Range, N.M.

Col. Crane has been assistant to Col. Zierdt on the Zeus project since February, 1960. Prior to that he was Special Assistant to the Commanding General of AOMC.

Col. Crane entered the Army in August, 1941, and served overseas in Africa, Sicily, Italy, France and Germany, receiving the Bronze Star in Germany in 1945.

After World War II he left the Army and worked as a research engineer on a gas turbine propulsion project. Upon rejoining the Army he served with the 2nd Armored Division, Ft. Hood, Texas and later was appointed Post Ordnance Officer at Ft. Sill, Okla. From 1946 to 1949 he served as an ROTC instructor at the University of Oklahoma. For the next two years he was Chief of the Systems Test Division at the White Sands Missile Range, N.M.

Prior to his assignment with the Coast Office in 1955, he served two years as the Resident Ordnance Officer at Bell Telephone Laboratories, followed by an assignment in Paris with Dr. von Karman on the NATO Advisory Group for Aeronautical Research and Development.

A graduate of the Command and General Staff College at Ft. Leavenworth, Kan., and the Guided Missile School at Ft. Bliss, Texas, Col. Crane received his BS in electrical engineering from the University of Missouri in 1941. He also studied engineering at Shrivensham University, England, after World War II.

Col. Crane is the son of Mr. and Mrs. David Elrow Crane of St.

TOURS GOODYEAR PLANT—Col. John G. Zierdt (right), Commander of the Army Rocket and Guided Missile Agency, tours the Goodyear plant with Bill Burns (left) and Goodyear Vice President L. A. Murphy. Burns is explaining the mount for a Nike-Zeus radar transmitter. The visit took place during a Department of Defense Research and Engineering Council held at Ft. Monroe, Va., last week.

A BOMB

(Continued from Page 1)

taining the security of the installation, Col. Bush, then a captain, was with the Manhattan Project, an operation which maintained, over a period of three years, a degree of secrecy never before attempted or maintained over such a period of time.

This wall of silence was broken only by the explosion of an atomic bomb over the Japanese city of Hiroshima.

During the many months of preparation for that first blast, Colonel Bush and his men, known at Alamogordo as the "Bushwackers," patrolled the site under the blazing desert sun in the day, and at night in sub-zero temperatures.

The security patrols continued around the clock, through the night of July 15, until the time that the bomb was installed on its 110 foot tower.

With the bomb almost ready, Colonel Bush cleared the area, making sure that the 250 men of the military population of Trinity Site and the more than 100 civilian scientists and military observers were under cover, accounting for each person by name.

After everyone was accounted for, he climbed the tower with Dr. George Kistiakowsky and Dr. Kenneth Tompkins Bainbridge. In the few hours remaining, Col. Bush "baby sat" with the bomb, standing guard with a "tommy gun to prevent any last minute attempt at a sabotage, while the two scientists made the final pre-

at the end of the fiscal year, transfers from Army to NASA payrolls, and a payroll increase of seven and one-half per cent.

In accordance with Civil Service Regulations, enrolled employees who have a change in family or marital status may make certain changes in selection of a plan or option 31 days before or 60 days after such changes. New employees may enroll within 31 days of appointments. Employees on the roles June 30 who declined to enroll in a plan will have another opportunity about October, 1961.

paration of the weapon.
At 3:30 a.m. on the 16th, just 30 minutes before the scheduled detonation, one of the sudden thunderstorms common on the desert, began pouring rain down on the three men on the tower, and throwing bolts of lightning to the desert floor around them, causing a postponement of the blast.

After an hour the storm left as abruptly as it had appeared, and the detonation was rescheduled for 5:30 a.m.

Col. Bush recalls, "At 5:05 Doctors Kistiakowsky and Bainbridge and I left the tower and went to the south control shelter, six miles from ground zero. We arrived at 5:25." In the shelter was Dr. J. Robert Oppenheimer, and other key scientists and military men who had been working on the project, the results of which they would see in just a few minutes."

Just before 5:30, the designated observers took their places at specially prepared periscopes, protected from the expected light by three thicknesses of the type glasses used in welder's goggles. The others lay stomach down on the floor, their eyes buried in their arms, their feet toward ground zero.

Col. Bush continued his story "Behind the blockhouse, Dr. Oppenheimer stood looking through a periscope. I sat near his feet with my back toward ground zero, up against the blockhouse wall.

"The bomb was detonated at 5:31 a.m. Even with my back to the blast and my eyes buried in my knees which were drawn up before my face, I saw a bright white light, which gradually faded to a light purple and then to darkness.

"The the shock wave struck, the sound booming off the mountain range surrounding the site. It was louder than anything I had ever heard. Like a thousand cannons might sound if they were lined up hub-to-hub and fired simultaneously.

"A short while later protected medical personnel approached the area with detection instruments to collect samples and measure radiation." Upon arrival at the site

they found that the steel tower had been vaporized by the explosion, and for 1500 yards around, the desert sand had been fused into a green crust resembling jade.

Thus in great secrecy, after years of time and two billion dollars had been spent, the world's first atomic bomb was exploded.

Now 15 years later, after receiving the Legion of Merit for his efforts, Col. Bush is serving as Chief of the Security Office, AOMC. He is responsible for safeguarding the latest additions to the Army's arsenal of weapons, the missiles developed at Redstone Arsenal by the Army Ballistics Missile Agency and the Army Rocket and Guided Missile Agency.

Col. Bush is married to the former Miss LaRue Elliott Tinsley, now living in Sante Fe, N.M. While serving as a member of the Women's Army Corps, Mrs. Bush was Asst. Post Engineer Officer at Los Alamos where she supervised the construction of the atomic experimental facilities.

Prior to his present assignment the colonel served as Provost Marshal, 1st Corps (Group) in Korea. He has been awarded the Legion of Merit, the Army Commendation Medal, and the Good Conduct Medal. He has also received the Meritorious Unit Award four times.

COL. ZIERDT

(Continued From Page 1)

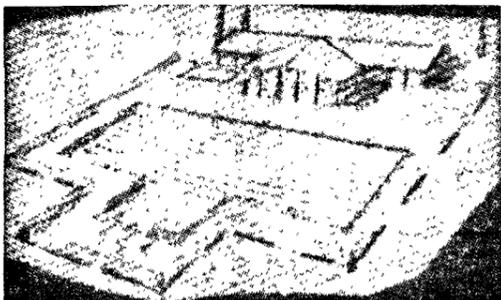

more, and in less time."

In noting that the Nike Zeus anti-missile missile development effort was continuing on schedule, Col. Zierdt said that the Army has looked at many approaches to ballistic missile defense, with result that the Nike Zeus is the best way to do the job.

At Ft. Monroe, Col. Zierdt met with Gen. Bruce C. Clarke, Commanding General of the Continental Army Command before leaving to visit the Goodyear Aircraft Company at Akron, Ohio. Goodyear is a sub-contractor to Western Electric in the Zeus development program.

members of the Army and their families when emergencies beyond personal resources arise. Arsenal contributions were turned over to the Redstone Army Emergency Relief Fund Officer, Capt. Robert M. DeYoung.

"The generous response was made possible by the personal support given the campaign at all levels of the Command and the fine work of the many officers and enlisted drive coordinators," Maj. Deppensmith said.

Assisting the major in conduct of the drive were: Capt. Walter Kasper, AOMC; Capt. Stuart Miller, ABMA; Lt. John Pohl, ARGMA; and Capt. Preston Jett, OGMs.

The Army Ordnance Guided Missile School contributed the most money, turning in \$2,370. Percentages attained were AOMC, 152 per cent; OGMs, 142 per cent; Redstone Arsenal, 127 per cent; and ABMA, 120 per cent of the established quotas.

DR. RUDOLPH

(Continued From Page 1)

the Redstone Arsenal post theater. Personnel of both the Army Ordnance Missile Command and the National Aeronautics and Space Administration have been invited to witness the ceremony honoring two outstanding civilian employees of those agencies.

Dr. Rudolph, Director of the newly formed Research and Development Division of the Army Ballistic Missile Agency, an element of AOMC, has been employed by the Army since the original team of German Rocket experts came to the United States.

He will be cited for his contributions to the Army while serving as Project Director for development of the Redstone and Pershing ballistic missiles.

Mr. Dannenberg will be cited for his service as ABMA's Project Director for the Jupiter Intermediate Range Ballistic Missile.

Also a member of the Army's original team of rocket experts, Mr. Dannenberg is now employed by the George C. Marshall Space Flight Center, NASA's Huntsville facility.

Modern Olympic Games Revived by Excavation

The Olympic Games are a series of international athletic contests held every four years and are in reality a revival of ancient Greek festivals.

Farther back than history records, some of the people of the Greek Peloponesus began to hold contests in foot racing. The races were held in honor of Zeus, the chief of the gods, on the plain of Olympia, in Elis. Gradually the festival became an affair of national importance and was celebrated by all the Greek states.

A general truce was called during the holding of the contests. In 776 B.C. the Greeks began to keep a record of the names of victors thus giving us the starting point of Greek history.

The four-year interval between two successive series was called an Olympiad. In the course of time, boxing, wrestling, jumping, discus throwing, chariot racing and other athletic exercises were added to the original foot race.

Those who entered the contests had to show a name free from civil or personal dishonor. Early contestants had to be of pure Greek blood, but under the rules of the Romans, both Greeks and Romans took part.

In the early Olympics, sacrifices occupied the first day. They were of grain, wine and lambs, and were made to Zeus. Solemn oaths were taken that the contests would be fairly judged and the contestants would compete as good sportsmen.

The foot races usually came first, and were followed by wrestling, boxing and other events. One of the most prized contests was the pentathlon, which consisted of five different tests of strength and skill. The pentathlon has lasted down to modern times.

In 394 A.D. the Roman Emperor Theodosius forbade the celebration of the games. They were not resumed for 1,500 years. The event responsible for the revival of the modern games was the excavation of ruins of the ancient stadium in 1878.

Following the discovery. Baron Pierre de Coubertin, a Frenchman, organized a movement to revive the games. As a result, in 1896 some of the finest amateur athletes assembled at Athens to engage in a series of international contests.

Except during the two world wars, the Olympic Games have been every four years since 1896, with the 1960 summer Games to be held in Rome.

A CLEAR HEAD TO GET A-HEAD: A manual of 91 years ago warned soldiers that drinking was frowned upon and that "a habitude of this debasing vice" would disqualify them from offices of trust.

1779 Orders Gave Soldier Hard Task

Ft. Belvoir, Va. (AFPS) — Difficult orders, as a rule, are readily followed in military life, but one enlisted man stationed here in 1779 received what may be the granddaddy set of all time.

Uncovered here, the orders dispatched one man to proceed by horseback to deliver secret papers to the commanding officer of Ft. von Steuben on the Ohio River.

The rider was given enough cash and provisions to fill his needs to his destination, but faced the possibility of bartering with Indians if the finance department at Ft. von Steuben wasn't in operation.

The orders authorized him to exchange his uniform buttons and musketry badges to obtain salt and other miscellaneous necessities for the return trip.

"Upon return to his home station, soldier will submit a written report showing the full names and ranks of commanding officers of all military forts visited, so that the Department of War can be informed and bring their rosters up to date," the orders concluded.

So far as it is known, the results of the trip have never been disclosed.

MILITARY SERVICE AND CITIZENSHIP: It's not on the contemporary military reading program list of books but DA Pamphlet 21-50, "Voting Information," is "a must" for every soldier of voting age. It clues you on your state or territorial voting laws so get with it and get your ballot ready.

For Dinner, Snake Steaks for Rangers

Ft. Benning, Ga. (AFPS) — "Filets de crotalus" is an item on the menu of Ft. Benning's Army Ranger Camp situated in Florida near Eglin AFB. It is a delicacy not for the squeamish, perhaps, but one to gratify the palates of gourmets and Rangers alike.

For Ranger mess hall freezers are stocked with more than 100 pounds of rattlesnake steak—compliments of the Andalusia, Ala., Rod and Gun Club.

It was present because some 300 Alabama sportsmen were grateful for the experienced advice of Ranger Capt. William Cairns during their annual Rattlesnake Rodeo—a hunt to keep down the snakes which are even more of a menace to livestock than to man.

The captain, an expert on reptiles—snakes are a rich source of food in swamp survival, part of the Rangers' training—gave the club detailed orientation on the rattler and techniques to bag it.

So there's steak tonight, men—and don't forget to write Mom about that swell Army chow!

HOLLYWOOD BOUND — Shapely starlet Julie Reding, who would make an excellent traveling companion in anybody's book, presents an easy-on-the-eyes sight as she prepared to jet to filmland from the "City of Lights."

EUROPE'S SUMMER SHOWS

HEIDELBERG, Germany (ANS) —Soldiers stationed in Europe at this time have an opportunity to attend two events which the average tourist will spend thousands of dollars to see this year. They are the Passion Play at Oberammergau, Germany, and the Olympic Games being staged in Rome, Italy.

MILITARY HISTORY NOTE

Only July 1, 1898, Col. "Teddy" Roosevelt's "Rough Riders" regiment of volunteer cavalry, 9th and 10th Regiments, Kent's Division of infantry and detachments of many other units stormed up the hill before Santiago, Cuba, forcing the Spaniards to break from their trenches and flee.

MRS. J. G. SHINKLE tells the Officers Wives Club members goodbye at a luncheon given in her honor July 6. She leaves for White Sands Missile Range tomorrow.

* * * * *

Farewell Lunch Is Held To Honor Mrs. Shinkle

Mrs. J. G. Shinkle, wife of Brig. Gen. Shinkle, was honored with a farewell luncheon in the Hawk Room of the Squirrel Hill Officers Club yesterday (June 6) by members of the Redstone Arsenal Officers Wives Club. Gen. Shinkle, former Commander of the Army Rocket and Guided Missile Agency here, has been reassigned as Commanding General of the White Sands Missile Range, N.M. Approximately 100 guests attended the luncheon. A Mexican motif was used in the decorations which included displays of Mexican figurines, straw hats and scarves. Two paper mache burros were hung behind the head table. The colors used in Mexican art were re-emphasized with bowls of zinnias on the tables.

Special guests were Mrs. R. B. Searcy, Jr., Mrs. Harry Webb, Mrs. J. A. Ramsey, Mrs. R. L. Spragins, and Mrs. Milton Cummings.

Mrs. Shinkle was introduced to

the guests by Mrs. Herman Rabinowitz, Wives Club president. Mrs. Shinkle extended best wishes for future Wives Club programs and bade the group farewell.

Chairman for the luncheon was Mrs. C. A. Hall. Her committee chairmen were: Mrs. H. M. Murray, food; Mrs. O. D. Street, III, hospitality; Mrs. O. E. Hufnagel, publicity; and Mrs. Glenn Crane, decorations.

Mrs. Shinkles plans to leave for the New Mexico post tomorrow by plane. Gen. Shinkle and son Mike and daughter Miriam will travel by car. Suzanne, will remain in Huntsville where she is employed by Brown Engineering.

Party Bridge Honors Go to Mrs. Bull and To Mrs. Spragins

The Redstone Arsenal Officers Wives Party Bridge Group met

Navy Reserve Group Visits Chemstrand

The Naval Reserve Research Company 6-17 of Huntsville joined with the North Alabama Chapter of the American Institute of Industrial Engineers for a tour of the modern facilities of the Chemstrand Corporation, Decatur.

The Naval Reserve Officers assembled for the tour at the Naval Reserve Training Center Huntsville, Monday, July, 11 and proceeded from there to the Chemstrand Plant.

CDR. H. M. Tatum, USNR, Deputy Chief Maintenance Branch, Field Support Division, ABMA, was in charge of the Reserve Group.

Engineer Society Meets Tomorrow

The Alabama Society of Professional Engineers will meet at the VFW Club on North Memorial Parkway tomorrow night at 7 p.m.

Richard H. Morris, Editorial Director of Technical Publications Company in Barrington, Ill., will present his views on Soviet Russia.

Morris toured the USSR for the State Department and has approximately 150 slides to illustrate his talk.

Cline Will Address Radio Amateur Gp.

A. T. Cline, Engineer in Charge of the Atlanta Office of the Federal Communications Commission, will address the next meeting of the Huntsville Amateur Radio Operators Club on July 15 at the Naval Reserve Armory in Big Springs Park.

The members are inviting all amateurs in the area to hear Cline speak. The program begins at 7:30 p.m.

DAVIS IS IN EUROPE

W. C. Davis, Physical Scientist, Signal Office, AOMC Headquarters, Redstone Arsenal, has gone to Europe to attend the Symposium of Geophysics and Aeronomy at Copenhagen. Later, Davis is to attend the Twelfth General Assembly of the International Union of Geodesy and Geophysics at Helsinki, Finland.

From a newspaper in the Far East comes the story of a boy who, on his mother's receiving her driver's license, dubbed her: "Oh-Ma, the dent maker."

last Wednesday.

Winners were Mrs. J. T. Bull, first; and Mrs. R. L. Spragins, second.

Reservations for Wednesday's play can be made by calling Mrs. R. S. Kinch, 534-5785.

The group meets every Wednesday at 10 a.m. at the Squirrel Hill Officers Club.

KEY-BARCLAY WEDDING PLANNED IN SEPTEMBER IN TEXAS CITY

The engagement and approaching marriage of Miss Mirian McRae Key to Douglas Hines Barclay has been announced by the parents of the bride-elect, Mr. and Mrs. J. W. Key of Texas City, Texas.

Mr. Barclay is the son of Maj. Gen. and Mrs. John A. Barclay. The General is the Deputy Commanding General of the U. S. Army Ordnance Missile Command.

The bride-elect is the granddaughter of the late Senator and Mrs. W. H. Key, Sr., of Russellville, Ala., and Mrs. Charles McRae and the late Mr. McRae of Tupelo, Miss.

Miss Key received a degree from Auburn University in June of this year. She is a member of the Phi Mu sorority.

Mr. Barclay is a student at Auburn University and a member of the Pi Kappa Phi fraternity.

The wedding will be Sept. 3 at the First Methodist Church in Texas City.

Miss Marian McRae Key will marry Douglas Barclay in church ceremony next Fall at Texas City, Texas.

Deployed Redstone Missile Is Returned For Troops to Test

WHITE SANDS MISSILE RANGE, N.M., — An Army Redstone missile, recently returned from deployment in Europe, was successfully fired under tactical conditions July 6 at White Sands Missile Range, N.M.

This Redstone, originally assigned to the 40th Missile Group in Germany, was fired by Battery A of the 209th Field Artillery Group stationed at Ft. Sill, Oklahoma.

The firing was conducted under

simulated tactical conditions and again demonstrated the reliability and capability of the 70-foot-tall Redstone deployed overseas since June 1958.

The Redstone, developed by the Army Ballistic Missile Agency, served as the first stage for the Army's Jupiter-C space vehicle, which orbited the Free World's first scientific earth satellite.

Husband: Dear, it says here that more than 5,000 camels are used each year to make paint brushes.

Wife: Isn't it amazing what they can teach animals these days!

TWO EAGLE SCOUTS—Two Explorers from Post 203 attained Eagle Scout Rank recently during a Boy Scout Court of Honor held at the Post Chapel. They are John Baker and Jack Dempsey. With parents and Scout officials above, they are (left to right) (standing): Lt. Col. James H. Davitt, Redstone Scout Committee Chairman; Baker, Col. Harry C. McClain, Arsenal Scout Institutional representative; Dempsey, M-Sgt. Jack E. Dempsey, and Capt. Thomas Gannon, Scout Master. Seated are (right): Mrs. Baker and Mrs. Dempsey.

TWO EXPLORERS ATTAIN RANK OF EAGLE SCOUT

Two members of Explorer Post 203 were awarded Eagle Scout Rank during a Boy Scout Court of Honor held at the Post Chapel on June 30.

They are Jack Dempsey and John Baker. Both boys are 15-years-old, and achieved the bulk of their twenty-one merit badges prior to joining the troop at Redstone Arsenal.

Baker, who has been an active Scout for four years, earned his merits while serving with the Trans-Atlantic Council at La Rochelle, France. He intends to try for a Palm now that he has attained Eagle rank. Altogether, Scouts can earn three palms. He attended Farley School last year.

Baker is the son of Sgt. and Mrs. George E. Baker. Sgt. Baker is on the Protocol Office Staff at the Ordnance Guided Missile School.

Dempsey has been a Scout for seven years. He attended Westlawn School last year, he transferred with his parents, M-Sgt. and Mrs. Jack E. Dempsey, from San Pedro, Calif. His father was stationed at Ft. McArthur.

M-Sgt. Dempsey is an instructor for the Hawk missile system at OGMS. The family has been in Huntsville two and one-half years.

Col. Harry C. McClain, Post

Arsenal Volunteers Receive Recognition From Red Cross

Fourteen volunteers representing Redstone Arsenal attended the Red Cross annual meeting Friday, July 8, at Huntsville Electric Service Center.

A Color Guard preceded the parade of Red Cross Volunteers. Post Chaplain, Maj. James H. Goewey, gave the invocation and benediction.

Richard Spencer was re-elected as chapter chairman for another one-year term. Named to serve with him were William Davoren, Bruce Grant, vice chairman; Mrs. Edward Branch, secretary; and I. Wind, treasurer. Other members of the board of directors

Surgeon and Arsenal Scout Institutional Representative, presented the awards at the Court of Honor. He was introduced by Lt. Col. James H. Davitt, Committee Chairman.

A total of 21 awards were made which included promotion to First Class Scout and various merit badges. Crewmen who received awards are: Tom Ryan, Neil Plain, Larry Davitt, Tom Gannon, Steve Kelsey, Jerry Fowler, Bill Wynn, Buddy Gilbert, Don Southard, and Tom Jandebour.

Parents and guests witnessed the ceremony which was followed by a social hour during which the Scouts served refreshments.

were Bob Sampson, Frank B. Wilson, R. O. Magnusson, Dr. Carl Grote Sr., Mrs. H. E. Miller, Major Lloyd Deppensmith, Leonard Brockman, V. M. Burkett, Hartwell Lutz, John McKenna, Bill Finn, Harold Bee and Leo Peterson.

Col. Owen T. McCloskey, Redstone Arsenal Commander, received a certificate from the American Red Cross Southeastern Area Headquarters for support of Red Cross programs through post public information media. Certificates of appreciation were received by Maj. Jesse Garner, CWO. George Dye, M/Sgt. Oliver Coker, Thelma Dawson, James C. Curtis S-4 Section of Redstone Arsenal Troop Command, Mrs. Edwin Montgomery, Mrs. Benjamin J. Shelton, Mrs. Franklin Bass, Meadow Gold Daries and William C. Ingersoll.

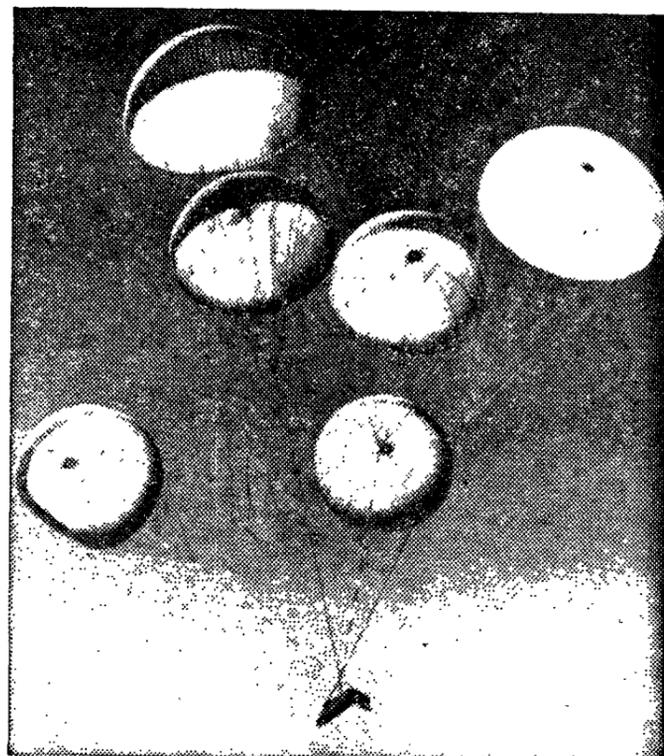

Twenty-year pins were presented to Mrs. Peter Horne and Sgt. John Cammack, both water safety instructors, at Redstone Arsenal. Fifteen-year service bars pins were awarded to Mrs. John A. Barclay and Mrs. M. R. Collins. Recipients of ten-year service bar pins were Mrs. H. D. Arrott, Mrs. J. B. Clift, Mrs. R. N. Flint, Mrs. H. C. McClain, Mrs. Thurston Paul, Mrs. O. L. Smith, Mrs. M. G. Gecik. Five-year service bar pins were received by Mrs. W. M. Kiser, Mrs. J. B. LeVaas, Mrs. C. A. Van Pelt and Mrs. Herman Rabinowitz.

The Service Bars and Pins were presented by Mrs. J. H. Davitt and Mrs. C. W. Nestor.

Guests at the meeting were Mrs. J. Carlton Lee of Birmingham, Volunteer Field Consultant, Col. Owen McCloskey, Commander of Redstone Arsenal; Col. H. C. McClain, Commander of Redstone Arsenal Hospital; Clifford Harmon, Arsenal Field Director, American Red Cross and Lt. Col. Donald C. Malisky.

Volunteers from Redstone Arsenal were: Mrs. J. H. Davitt, on Post Chairman of Volunteers; Mrs. W. M. Kiser, Graylady Chairman; Mrs. H. N. Brownson; Mrs. M. R. Collins; Mrs. J. H. Goewey; Mrs. C. E. Harrison; Mrs. H. A. Lawson; Mrs. H. H. LaReau; Mrs. Charles Mauceri; Mrs. H. C. McClain; Mrs. H. D. Mitman; Mrs. David Robinson; Mrs. K. H. Seifert, and Mrs. C. N. Thran.

Father: So you want to become my son-in-law, do you?
 Suitor: No sir, I really don't. But I want to marry your daughter and I don't see how I can avoid it.

MOBILITY for the Modern Army is dramatized in an air drop of the new M-113 aluminum armored personnel carrier at Fort Bragg, N.C. The nine-ton tracked vehicle can be airlifted by transport plane to a trouble zone and dropped by parachute.

HONORED AT MISSILE SCHOOL—First Lt. August W. Swanson, (center), displays a certificate of achievement presented to him recently at OGMS. Lt. Col. C. W. Holmes, chief of the Field Artillery Missile Division is at left. Swanson won recognition for his outstanding performance of duty as a plans and scheduling officer in the division.

WHAT'S IN A NAME?

FORT SILL, Okla. (ANS) — Ever get tired of waiting in the payline while the fellow in front of you signs his name to his pay voucher?

of trainees in the 4th Tng. Bn., USATC here. Among their number is a man who goes by the name of Pvt. Franz Clemens Karl Alexander Hubert, Count von Schoendorn-Viesenheid. It's the name listed on all his Army records.

Relax and think of the plight

Rules for Reducing Cost of Permanent Moves Are Published

WASHINGTON (ANS) — Department of the Army has issued a directive to field commanders outlining the actions that will be taken to reduce the costs of moves incident to permanent changes of station. These actions are necessary because of rising costs incident to PCS movements and the funds approved for this activity in fiscal year 1961.

The reduction in funds available for PCS movements has caused a number of developments affecting all personnel.

One result means less frequent moves between stations within the United States for both enlisted personnel and officers. Enlisted personnel will not be moved from one station to another within the Continental United States in less than 18 months except for those undergoing initial basic and advanced individual training.

Reassignment of officers within the Continental United States will

be allowed only to meet certain requirements.

Another result of the permanent change of station reduction is the decrease of temporary duty in connection with PCS moves, from a maximum of seven days to a maximum of one. This does not preclude TDY for the purpose of schooling and will become effective on August 1 of this year.

Utilization of commercial sea and air transport will be curtailed except to those overseas areas not adequately served by Military Sea Transport Service (MSTS) and Military Air Transport Service (MATS). This change will also become effective August 1, 1960.

Hawaii sent 15 petitions and resolutions asking for Statehood before it was finally admitted as the 50th State. The first petition was submitted in 1903, just three years after it became a U.S. Territory.

SHOES! SHOES! SHOES! SHOES!—Safety shoes that is, and all have contributed to the welfare of their owners, and proving beyond any doubt their value in accident prevention. In each case these employes escaped serious injury because they were wearing this safety apparel at the time they were involved in an accident. Shown left to right are, Allen McCurdy, an employe of the Barry Industries, Harry Canteberry, Roy C. Howard and William C. Jones, employes of the Post Engineer, RSA. All four of these wise workmen have been nominated for membership in the Golden Shoe Club, an organization which promotes the importance of Safety Shoes in the control of foot injuries in industrial operations.

Prefab Nuclear Plant Goes to Greenland

Brooklyn, N. Y. (AFPS)—During its annual Arctic resupply operations, the Military Sea Transportation Service is shipping a three and three-quarter million dollar prefabricated nuclear power plant to Thule, Greenland.

From Thule the plant will be moved by sled to the Army's Polar Research and Development Station at Camp Century, Greenland.

ATTENTION PLEASE! — Italian star Sylvie Koshina happily shows the gold coin she was given on the set of her new film, "De Luxe Females." No fool that producer — in Miss Koshina he's made at least one titleworthy choice for the movie.

Pacific 'Scatter' Radio System Is Unveiled by Army

Washington (AFPS) — The Department of the Army has announced the establishment of a 6,500-mile communications system in the Pacific area which will give the Armed Forces there a virtually trouble-free network.

Called the Pacific Scatter Communication System, it is one of the largest of its kind in the world and has eight interconnected stations extending from Oahu, Hawaii, to Luzon in the Philippines.

The system, completed by the Army and Page Communications Engineers, Inc., Washington, D.C., uses advanced broadcasting techniques. Radio signals are sent upward to a layer of atmosphere—the ionosphere — which bounces them back in scattered fashion to a number of receivers on earth. In this way, at least one receiver will always pick up a clear sig-

ARMY HISTORY NOTE

On July 7, 1828, the Army Corps of Engineers completed the Baltimore and Ohio Railroad. This was the first track for passenger cars in the United States. Army Engineers are celebrating their 185th Anniversary this summer.

nal.

A major advantage of the scatter system is that it operates outside the crowded high-frequency radio communications band, keeping interference to a minimum. Reliable communications are possible between a transmitter and receiver up to 1,200 miles apart.

Besides Oahu and Luzon, relay centers are located at Kauai, Midway, Wake, Ponape, Guam, and Palau. Extension of the Pacific system to other points in the Far East is under way.

Yankees Grab Lead In Minor League

Led by the fine pitching of Willy Bajosa and the powerful bats of his teammates, the Yankees recently captured victories from each of their opponents. Their latest triumph, an 18-7 verdict over the Tigers was enlivened by a spectacular fifth inning catch made by Yankee rightfielder Bernhardt Kraevsky. In other games the Yankees bettered the Pirates, Hitters and Rebels, by scores of 3-1, 22-2- and 15-2.

On June 28 the Pirates suffered their first defeat of the season at the hands of the Yankees. The six-inning game ended with a 3-1 score, attesting to the fine game played by both squads. These two teams will clash again at 5 p.m. Thursday July 14 at the Redstone Park diamond. A vicious contest is anticipated and spectator attendance is encouraged.

The Hitters have proved to be a rapidly improving team as they pulled the major upset of the year by outplaying the Pirates to the tune of 8-7. The Pirates, a team with the most versatile pitching staff in Minor League play, were unable to exercise their usual hitting power against the fine pitching of Chick Brady and reliever Mike Hensley. With some added beef to their hitting the Hitters could terrorize the league.

Bolstered by the fine pitching of newcomer Mike Eyler and the catching of Frankie Blankenship, the Rebels stopped the improved Hitters in a six-inning 11-9 contest this past Saturday morning. In another Saturday game the batting strength of the Pirates proved too much as they walked away with an 18-7 verdict over the Tigers.

League standings as of July 10 are as follows:

	GP	W	L	%
Yankees	7	6	1	.857
Pirates	8	6	2	.750
Tigers	7	3	4	.429
Rebels	7	3	4	.429
Hitters	7	1	6	.143

GOLF CLINIC WILL BE CONDUCTED BY ARSENAL PRO

A Golf Clinic for enlisted men will be conducted at the Arsenal Golf Course tomorrow night between 6 and 7 p.m., it was announced by Maj. Oscar Hufnagel, Special Services Officer.

Golf Pro James McClure will be in charge of the clinic which will be open to all enlisted men interested in the basic game of golf.

ARMY AVIATION HISTORY
The Army's Maj. William Mitchell was the first American to fly a plane over enemy lines in France. This was in April 1917.

HECK TO COMPETE IN DENVER TENNIS ELIMINATIONS

Redstone Arsenal got a large share of the sports limelight this month when PFC. Gerald W. Heck, Det. A, ARGMA, was selected by Third Army to participate in the U. S. Army Tennis Eliminations at Fitzsimmons General Hospital, Denver, Colo.

Heck shares the limelight with two other Third Army tennis men, a Lt. Kenneth C. Carter and SFC. Terry Scott. The threesome all participated in the 1959 Third Army Tennis Tourney in which Redstone brought home the championship. This year the tournament was discontinued.

Heck departed by air for the eliminations Monday beginning a 30-day tennis jamboree which could be extended if he is selected by The Adjutant General for the Interservice Championship.

Heck, 1959 Third Army Doubles Champion, has nearly 11 years experience in the net game, and holds a conference doubles championship at the University of Wisconsin, Milwaukee. Heck has competed with Redstone Arsenal's tennis teams as well as Huntsville's tennis teams.

He was a member of the University of Wisconsin's tennis team for four years. His home is Milwaukee.

How's Your Know How?

1. In U.S. history, what was the era of "shirtsleeve diplomacy"?
2. What was the first major disarmament conference in which the United States took part?
3. What was the cost of the Alaskan Territory?
4. What are The Independent Establishments of the United States?
5. What inscription is under the pediment of the west portico of the Supreme Court Building in Washington? Who wrote it?

(Answers to Quiz)
1. Prior to WWI when Secretary of State William Jennings Bryan, "the great commoner," dispensed with certain traditional diplomatic formalities.
2. The Washington Conference, called by President Harding in 1921 to discuss the limitation of national armament "in connection with which Pacific and Far Eastern questions could also be discussed."
3. It was purchased from Russia in 1867 for \$7,200,000.
4. They comprise in general all Federal executive offices not included under the 11 executive departments, such as the Smithsonian Institution and the Interstate Commerce Commission.
5. "Equal Justice Under Law," by the late Chief Justice Charles

MAKES HOLE-IN-ONE—The first golfer to make a hole-in-one on the Redstone Arsenal Golf course scored on hole number five recently. He is SFC. Welch Deboard of Co. B, Ordnance Guided Missile School. DeBoard and his family were transferred to the Arsenal from Sandia Base, N. M., last December. He began golfing while stationed at Aberdeen Proving Ground, Md., two years ago.

Swimming Classes Will Be Held for Military Personnel

A military swimming program will be sponsored by Special Services, beginning at 7 p.m. on July 18 at the Post Swimming Pool, Maj. Oscar Hufnagel, Special Services Officer, announced.

A beginners class will be used to kick off the program. Both beginners and intermediate classes will be held for swimmers and non-swimmers.

Evans Hughes.

Instruction will be directed by SP5 John Cammack, NCOIC at the pool. He will be assisted by lifeguards qualified as water safety instructors.

Interested military personnel may register at the Lifeguard Office.

DICK COFFEY, INC.

2305 Mem. Parkway N. W.

Flinching, a disease common to many hunters and shooters can be cured, but it's often a long process. Servicemen are particularly aware of this affliction which causes some 80 per cent of misses, both on paper targets and while hunting.

A result of shock, classified by psychiatrists as a type of trauma, flinching can, under the right circumstances, happen to an experienced rifleman as well as the newcomer. It is caused by the noise and recoil of a high-powered weapon.

As every shooter knows, some the hard way, if a rifle or shotgun isn't seated in the shoulder right, the guy who pulls the trigger is going to get jolted—but good. When this happens, the next time he lines up a shot, he's going to remember the wallop and worry about it.

So, instead of a steady squeeze on the trigger while keeping his sights on the target, he's going to jerk the trigger, close his eyes and prepare for the worst. Of course in the process he's going to miss what he was aiming at.

If you've been missing, and suspect flinching is the cause, try this simple test. Make up a couple of dummy cartridges and add them to a group of live ones. Mix them up and then start firing. If you close your eyes when you come to a dummy shell and pull off the target, you've flinched.

The only cure is concentration and the development of self-control. Put these two ingredients with constant practice and a lot of firing and you'll get over it.

MRS. POWELL AND MRS. MOXLEY ARE GOLF WINNERS

The Golf Group of the Redstone Arsenal Officers Wives Club played Scotch foursome yesterday at the Arsenal golf course.

Winners of the Scotch foursome and low putt were Mrs. E. W. Powell and Mrs. T. T. Moxley. Second on low putt were Mrs.

150 YEARS OF SERVICE—While a century and a half is but a portion of the total service of employes in the Industrial Division, ARGMA, the ten employes, above, represent 150 years. Ten and twenty year service award pins are presented by Col. H. H. Wishart, Chief of the Division. Left to right, are Francis L. Stricker, Howard E. Smith, Lee H. Smith, William L. Anderson,

Col. Wishart, pinning a 20-year pin on James H. Ballard, William T. Anderson, John C. Barrett, William C. Fordham, William R. Pfeiffer, Jr. and Thomas V. Kennamer. Stricker, Lee Smith, Ballard and Barrett received 20-year-pins, the others ten-year-pins.

NERVES OF STEEL — That's what's needed to stay steady in the company of blonde scene-stealer Karen Steele. The freckled femme plays a hoodlum's wife in "The Rise and Fall of Legs Diamond."

S. C. Holmes and Miss Lynda Holmes.

Second on Scotch foursome were Mrs. N. I. Reiter and Mrs. C. J. Payne.

PROTESTANT MEETING SET

The Redstone Arsenal Protestant men and women of the Chapel will have a dinner meeting at the Post Chapel at 6:30 July 21.

The program will include a report on the recent Protestant men of the Chapel conference at Fort Campbell. Individuals who can attend have been asked by the Chaplain's office to call Ext. 3-

JOIN MISSILE INTELLIGENCE OFFICE—Six former Air Force Intelligence men are now members of the Office of the Assistant Chief of Staff for Missile Intelligence at the Army Ordnance Missile Command. The six are: James W. Hoffman, Milton C. Wonus, Thomas G. Anderson, Virgil L. Duren, Jimmie W. Henderson and Robert M. Vaughn. Aggregated, their experience in intelligence work is more than 40 years.

Six Intelligence Analysts Join AOMC Missile Office

Six intelligence analysts formerly engaged with another Agency in this field have been employed by the Assistant Chief of Staff for Missile Intelligence at the U.S. Army Ordnance Missile Command.

The six to join the newly organized office headed by Carl Duckett are: Robert M. Vaughn, Jimmie W. Henderson, Milton C. Wonus, Virgil L. Duren, James W. Hoffman, and Thomas G. Anderson.

The group is employed in the Research and Analysis Division of the Office under R. H. Gerbrick, chief.

The recently organized Office is not yet fully staffed. It was established to maintain an awareness of the domestic situation in order to better evaluate foreign missile and space development and interpret development as it affects the United States and its forces.

Unlike most of the offices of Assistant Chiefs of Staff, the missile intelligence Office has both an operational and a staff responsibility. In this manner the Commanding General has direct control of situations that may demand immediate action. The Missile Intelligence Office is the first effort of this magnitude in the Army for keeping abreast of missile development.

Only three of the six divisions have had a chief appointed: the Technical Programs Division of which B. A. Owen, Jr., is chief;

Operations, Maj. S. C. Henry, and Research and Analysis, Gerbrick. The three top jobs remaining are in Administrative Services, Requirements and Dissemination, and the Scientific and Technical Division.

The ideal man in missile intelligence, according to Duckett, would have a combination of professional experience in engineering, the linguistic ability of a native in many languages, and full comprehension of intelligence analysis.

However, the majority of the men who fulfill the requirements are basically engineers with an understanding of intelligence procedures and analysis.

The engineering skills needed cover the entire field from ceramics to electronics.

The six men who recently joined the staff have aggregated more than forty years experience.

Robert Vaughn has ten years of experience in this field with Security Service and as an intelligence analyst. He is married and has two children, Betty, four; and Robert, one.

Jimmie Henderson has five and one-half years experience with two years service in Japan. He, too, has a son and daughter, Tina, two-years-old and Jimmie, two months.

Milton Wonus also worked in Japan for two years. Altogether he has been in Intelligence work six and one-half years.

Virgil Duren has been in In-

telligence and Security work for five and one-half years. The Duren's children are Donna Lee, three, and Gregory, seven months.

James Hoffman has the most experience of the six men. He has been in this type of work for eleven years. His family includes seven-year-old James, five year-old David, three year-old William, and Linda, one.

Thomas Anderson spent almost five years in this type of work before joining Missile Intelligence. Like the Wonus's, Anderson's have no children but Mrs. Anderson's twelve-year-old brother, Gary Clampitt, lives with them.

A seventh member of the Air Intelligence group that worked together in Texas plans to join the staff soon.

The Assistant Chief of Staff for Missile Intelligence was organized in April of this year and has absorbed the 283rd Ordnance Detachment, Technical Material which has operated here since February, 1956. The Ordnance Detachment will remain operational under the Assistant Chief of Staff for Missile Intelligence. The men in the organization are schooled in intelligence procedures and analysis and have had the advantage of working in the missile field previously.

Unlike the men in the phases of counter-intelligence, the intelligence analyst has no "cloak and dagger" assignments but studies the results gathered by others and evaluates usefulness and effectiveness. In order to do the job effectively, engineers are continually striving to keep abreast of the advances made in engineering, particularly in missiles, at home and abroad.

Italian Officers Visit Missile School

Four high-ranking officers of the Italian Air Force last week visited the U. S. Army Ordnance Guided Missile School where almost 500 of their countrymen have been trained on the Jupiter intermediate range ballistic missile.

Arriving by air from Washington on a tour of U. S. missile installations were Col. Vincenzo Muscianisi and Lt. Cols. Albo Ferrari, Giuseppe Napoli, Adelmo Quattrocchi. Their duties with the Italian Air Ministry in Rome involve training and assignment of personnel and liaison with the 5th Allied Tactical Air Force based in Italy.

The visitors were escorted on a

tour of OGMS facilities by Col. Charles W. Eifler, commandant; Maj. Jerry Marro, commander of the local U. S. Air Force training detachment; and Capt. Alberto Spadaccini, Italian liaison officer.

FARRAGUT

A COMPLETE EDUCATIONAL SERVICE

Admiral Farragut Academy, the Nation's First Preparatory School with Naval Training, provides a complete educational service to train young men—boys thoroughly prepared for the academic demands of college boys at their best physically... boys responsive to command, ready for leadership. The Academy is fully accredited by all the appropriate nationally recognized accrediting agencies.

Two fully equipped school plants, in Pine Beach, New Jersey and St. Petersburg, Florida, provide unusual educational facilities—modern classrooms, laboratories, excellent playing fields and gymnasiums. Equipment for the naval training program is exceptional.

Instruction is given in small classes by men who know and stimulate each boy to do his best, to meet and overcome obstacles. Students are accepted for grades 7 through 12 (New Jersey school—grades 9 through 12). Separate department for juniors at the Florida school.

Farragut training has been tested by the successful records of its graduates in 175 leading colleges and universities. Graduates rank high in the Service Academies. Our naval training is valuable for those who seek NROTC scholarships in college.

Farragut Summer Naval Camps, located in Pine Beach, New Jersey, give purpose to vacation time, emphasize naval lore and practical seamanship. A wide choice of social and athletic activities is offered in both Schools and Camps. Write for full information.

Industrial Progress On Upswing in India

India, located south of the Himalayan mountains in Asia, is a country in which six major racial strains have amalgamated in varying degrees to form a population of approximately 361,000,000. The inhabitants live in 1,266,900 square miles, about one-third the size of the United States.

Essentially the people still make their living through farming, but industry is on the rise in India. Since 1947 the country has made

greater industrial progress than in the entire century before independence. Great strides have been made in such industries as iron and steel, paper, small pumps, rubber tires, cement, soaps and hydrogenated oils.

The most important social unit in India is the family. Kinship which extends as far as ingenuity can trace the bloodline, carries with it an elaborate set of duties, rights and obligations. The oldest living male is always considered the head of the family.

Still in force are the caste systems under which the Hindus and Jains, major religious groups, live their lives. Hindi is the main language but 14 major languages including English are spoken. India had been under the control of Great Britain until 1947, thus the influence of the western world is

still felt in some quarters.

One of India's major problems is its population growth. Although the rise is only 1.3 per cent annually, even this comparatively normal growth is too much for India. One reason is that her base population is so large that the actual number involved in the yearly increase is over five million persons.

Secondly, pressures on food supply already require India to spend much of its foreign exchange on the importation of food. Also, the growth is uneven and is heaviest in areas which are already overpopulated. Finally, the necessity of allocating a substantial amount of future economic growth to food hampers attempts to raise the general standard of living.

A U. N. member since 1945, India is a secular sovereign democratic republic with a Central Parliament consisting of a Council of States and a House of the People. All executive action is taken by the President who is a ceremonial head of state acting on the advice of ministers responsible to a majority in the lower house of the central legislature.

Army Will Request 8,000 Inductees to Round Out Roll Call

WASHINGTON (ANS) — With a September call or 8,000 men, the Selective Service System will have requested 2,547,930 inductees since the September 1950 call.

The September call is based on attainment of approved strength after allowances have been made for enlistments and reenlistments in the Army.

The Navy, Marine Corps and Air Force do not intend to place calls with Selective Service during September.

Size of Indiana, Hungary Lies in Central Europe

Hungary, a U.N. member since 1955, is located in Central Europe and has a population of 9,808,000. Its 35,902 square mile area is about the size of Indiana. The capital is Budapest and agriculture is the main occupation with the great plain area being the most fertile.

Principal crops are wheat, rye, barley, oats, corn, potatoes and sugar beets. Winemaking is a

major industry. Others include milling, distilling and processing of sugar, hemp and flax. Iron, steel, machines, machine tools and vehicles are also produced. Mineral deposits include bauxite, coal and oil.

The government is a republic with a Presidential Council. Language is Hungarian and the first eight years of public school instruction are free. Roman Catholicism is the country's predominant faith.

President Zachary Taylor died in office on July 9, 1850, and was succeeded by Vice President Millard Fillmore.

RECEIVES SCROLL — Col. Thurston T. Paul, Jr., (right) Deputy Commander of the Army Ballistic Missile Agency, is presented a scroll by Lt. Col. Morton S. Jaffe, Judge Advocate General at the Ordnance Missile Command, on behalf of Redstone Chapter 353 National Sojourners. The scroll is presented to each departing member of the local chapter of Sojourners. Col. Paul is scheduled to leave for reassignment at the National War College, Washington, D. C. around August 1. Standing in the background is Col. C. J. Payne, who presided at the recent Sojourner meeting.

"ONE ARMY" FACT

The Puerto Rico National Guard may well be the oldest "territorial militia" organized in the western hemisphere. It was first organized in 1598 by the Spanish explorer Ponce de Leon.

Tenant: Say lady, don't you think the window of this room is rather small in case of an emergency?

Landlady: There won't be any emergency. My terms are cash in advance.

Army and Air Force Agreement Reached For Jupiter Missile

MOBILE — Army and Air Force officials in the Pentagon have signed an inter-service agreement formerly transferring the major part of the Jupiter missile responsibility to the Air Force.

The action ratifies a series of earlier agreements between the Mobile (Ala.) Air Materiel Area Air Force executive manager for the 1500 mile IRBM, and the Army Ballistic Missile Agency at Redstone Arsenal, developers of the weapon.

An Air Force spokesman said under the agreements maintenance, supply, engines and other technical aspects of the Jupiter go to the Air Force along with the responsibility for future installation of the missile at approved sites.

He said the Army will retain design control and other engineering work that may be required on the basic Jupiter system.

Signing of the pack climaxes a two year period in which the Army and Air Force have been working together getting the now operational Jupiter into the nation's missile arsenal.

It was assigned to the Air Force in 1948, but research and development and production continued under Army supervision with responsibility gradually moving to

the Air Force.

Jupiter squadrons are scheduled for deployment to selected NATO countries.

The current agreements virtually complete the transfer of the missile to the Air Force for operation and support.

The spokesman said that future Jupiter contracts may be negotiated directly between the Mobile AMA and the Air Force and the various missile contractors.

Officials in both services have expressed "extreme satisfaction" with the work relationship between AOMC and the Air Force agency in Mobile. "Naturally we'll continue working together," a spokesman said "to assure a fully reliable and efficient weapon system."

Reviewer Claims 'Review' Is Top Entertainment

By Molly Patterson
Skyline Review, a musical comedy presented at the Post Service Club last Thursday night, was a smash hit from start to finish. The show played to a full house and a very receptive audience. Bill Malloy and Frank Carbaugh did a comedy routine, "The Thinking Man" - Bill as Walter Crank-

case and Frank as the "Think Outside Man" at Mess No. 1. It was a scream!

Gene Louis Sextet backed the show all the way and did a 'banquet' job. The men in the combo really looked swanky in the white dinner jackets loaned by Hilding Holmberg from Huntsville.

Ray Dreeman introduced the show and acted as MC. He kept the show rolling with sixty minutes filled with singing, dancing, magic and comedy.

The show was not without glamour and spice—Two lovely dolls from Huntsville, Miss Sylvia Turner and Miss Julia Haislip entertained the troops with singing and dancing. There were plenty of whistles from the G.I. wolves and a few "WOWS" . . .

Bob Scaturo charmed the audience with his accordin solo and Lionel Victor made like Gene Kruper on the drums. Bob sang "Misty" accompanied by Ken Domke on the guitar. Bob Henderson is know as the "Voice" around the Service Club.

Sgt. Ronald W. Kipp kept the audience spell-bound with his magic act. Hats off to the Trio—Ronald Bogden, Frank Carbaugh and Bill Malloy. Those boys have only been singing together for about two weeks and they sounded great. Dave Hall made his mark show biz and almost broke up the audience with his interpretation of Marilyn Monroe singing "Big Daddy". Dave you deserve a lot of credit and that goes for the entire cast. Many thanks to all for a great show.

Molly P.

UNDERSEA GAS STATIONS TESTED

WASHINGTON (AFPS) — Underwater service stations at which Navy vessels could take on fuel, gasoline, lubricating oils and possibly fresh water while at sea may be the result of tests being conducted in the Gulf of Mexico for the U. S. Navy.

The tests are being made with a 50,000-gallon rubber container which was towed off the coast of Louisiana and submerged in ap-

NAME THE CARTOON CONTEST WINNERS: Last month SIAM (Safety is a Must) monthly publication for military personnel sponsored a name the cartoon contest. The cartoon depicted an unobserving motorist who found he had driven down a dead end road with no place to go except 500 feet straight down. Top winner in this cash contest was SP4 William T. Loftis, 291st MP Co. who received \$10 for the appropriate caption "Heir Drop." In the picture left to right: Capt. J. B. Myers, 291st MP Co. Commander, Specialist Loftis, SFC. R. J. Kardiban, who accepted second place award for PFC. David Coe, SPA Phillip Miller, third place winner, D. K. Womack, RSA Safety Division and Major Lloyd Deppensmith, Deputy Commander, Troop Command RSA who presented the awards. All winners are members of the 291st MP Co.

July 15 Is Deadline For All Executive Awards Nominations

Nominations are open until July 15 for Junior and Senior Executive Awards to employees of each Army Agency located at Redstone Arsenal.

The awards are made for exemplary achievement or notable contributions in the administrative field and are based on unusual competence, interest in public administration, endowment for leadership creative thinking, and close adherence to the basic principles of enlightened public service.

The Junior Executives are eli-

gible until the calendar year in which their 36th birthday falls.

During the year in which the 36th birthday falls, Executives fall into the Senior group. The executive must have at least one year of service with the nominating Agency to be eligible.

A plaque and written commendation from the Agency commander will be presented recipients. Office.

In addition to each principal award, not more than two honorable-mention awards from each agency will be presented. The latter will probably be a certificate and commendation from the employee's commander.

The Junior and Senior Executive Awards programs are sponsored by the Incentive Awards Office.

It Is Not Inevitable

Though the Kremlin proclaims that the triumph of communism is inevitable, we Americans are firmly resolved that we will not waver in our devotion to the cause of liberty, democracy, and human dignity. Dedicated effort on the part of all our citizens, men, women, and children, will preserve our priceless heritage and ultimately achieve the victory of right and justice.

The United States and the Free World must be prepared today to deter, or, if necessary, defeat two entirely different kinds of military action by the Soviets. The first, and I think least likely, is an all-out nuclear attack. This would be a general war, aimed at destroying the heart and main source of the Free World's military power.

The other type is limited war, or piecemeal attack against weak or isolated points in our defense shield. Limited war is used by the communists to capture a particular country or gain strategic retaliation against the major centers of their own strength. Soviet successes in limited war could, in the long run, be just as disastrous to the United States as nuclear devastation.

Your Army plays a key role in deterring both types of aggressive action. It must have strength so real and apparent that even the most power-mad aggressor will know beyond the chance of miscalculation that to provoke a war of any kind could only result in his defeat.

—Hon. Wilber M. Brucker, Secretary of the Army

APRIL WINNER — Pfc. George W. Reynolds, (left), 19, accepts a check as the first place winner of the April Military Suggestion contest at OGMS from Lt. Col. Donald C. Maliskey, assistant commandant. A maintenance technician for Nike-Hercules and Nike-Ajax missiles, Reynolds submitted a time-saving suggestion which helps test parts of the Ajax system more efficiently.

Husband: Darling, are you sure capital and labor? you know the difference between
 Wife: Sure, Capital is what you get it away from you. have and labor is what I do to
