ARGMA OPEN HOUSE INVITATIONS GO INTO MAILS—
Shown above is Maj. E. W. Kreischer, Chairman ARGMA "Open House" Committee as he turns over invitations for mailing to Mrs. Judy Bridges of Mail & Records, ARGMA. The event is scheduled for Oct. 15. All Arsenal employes and military personnel, as well as the public, are invited. Plans for the day include tours, displays, exhibits and firing demonstrations of missiles and rockets.

Target Intercept Computer Is Installed at White Sands

Will Guide Nike Zeus Anti-ICBM

WASHINGTON, D. C. — The first prototype model of a target intercept computer for guidance of the Army's Nike Zeus anti-ICBM missile has been installed at White Sands Missile Range, the Department of the Army announced today.

Designed for speed, accuracy and reliability, the computer will receive position, speed and direction of incoming missiles from radar tracking stations to determine their exact trajectory.

With this information the computer is able to dictate a precise launching time and issue necessary steering orders so that the Nike Zeus missile will intercept and destroy the enemy intercontinental ballistic missile.

The computer is considered the fastest and most reliable ground guidance computer so far developed in the nation's defense program. Remington-Rand Univac, St. Paul, Minn., a Division of Sperry Rand Corporation, designed and developed the computer with the cooperation of Bell Telephone Laboratories for the Army Ordnance Corps.

Through built-in error detection (See TARGET on Page 2)

'I Aim At Stars' Opens in Huntsville Tomorrow Night

The United States Army will put on a big show in conjunction with the Oct. 6th Southern Premiere at Huntsville's Tony Theater, of "I Aim at the Stars," the story of Dr. Wernher von Braun. The Columbia Pictures release was produced by Charles H. Schneer, with the cooperation of the Army. The premiere is sponsored by the Huntsville-Madison County Chamber of Commerce.

Gen. H. N. Toftoy, U. S. Army (act. ret.) nicknamed "Mr. Missile", returned to Huntsville to visit with his daughter and son-in-law, Mr. and Mrs. George Williams, and their children, Ken, Mark and Candi. While in Huntsville, he will be an honored guest at the premiere performance of "I Aim at the Stars." Gen. Toftoy will also participate in the special television show being programmed by WAFG-TV from 7:30 to 8:00 p.m. Oct. 5th.

The General has special reasons (See I AIM on Page 2)

Shillelagh Conference Held at Newport Beach

A delegation from Redstone Arsenal recently concluded a week-long review of the Shillelagh guided missile program at Newport Beach, Cal.

The group included Jacob Zarovsky, William McKnight, Dr. Nils Muench, Dr. W. C. McCorkle and Lyle M. Barnard, all of the Army Rocket and Guided Missile Agency; Harry E. Cook of the Army Ordnance Missile Command; Niles White of RSA; and Dr. Henry M. Shuey of Rohm & Haas.

They were members of an ad hoc committee evaluating development of the Shillelagh program which met at the plant of Aeronutronic, a division of the Ford Motor Company and prime contractor for the Shillelagh.

The Ordnance Tank Automotive Command is responsible for development of the Shillelagh system. ARGMA supervises development of the missile.

The Shillelagh will be a lightweight, surface-to-surface guided missile.

Col. LeVine Named Redstone Arsenal Deputy Commander

Redstone Arsenal is making some significant changes in its organizational structure, Col. Owen T. McCloskey, Redstone Arsenal Commander announced, this week.

Effective last Saturday Col. Lester H. LeVine was named Deputy Commander; Lt. Col. Robert C. Skillinger became Assistant for Logistics; Maj. Henry L. Gotzian, Chief, Control Office; and Maj. Michael S. Spinello, Chief, Transportation Division.

At the time the new appointments were announced, another announcement was issued that the Office of Director of Depot Operations is discontinued and the functions of the organization along with the people and equipment are transferred to command responsibility of the Assistant for Logistics temporarily, pending establishment of the Deputy Chief for Technical Missions. The move consolidates logistical functions under one staff office. Depot Operations is redesignated Redstone Depot and will continue to carry out national mission responsibility. In addition to this Division, Field Maintenance, Consolidated Supply, Inspection, and Property Disposal Divisions are transferred to Logistics. These were all a part of the Office of Director, Depot Operations.

Maj. Spinello, in addition to the surface and water transpor-

Army Invests Additional \$199 Million In Nike Zeus

New York Firm Gets Additional Hawk Funds For Work on Components

Award was announced Sept. 29 of a \$1,374,317 contract to the W. L. Maxson Corporation of New York City for further work on components for the Hawk guided missile.

The award supplementing an existing contract covering research and development work on adaption kits for the missile warhead, was made by the New York Ordnance District.

Hawk is a surface-to-air guided missile designed to defend against low flying high performance aircraft. It has recently demonstrated anti-missile capabilities by "killing" Army free flight rockets in tests at White Sands Missile Range, N. M.

The Army Rocket and Guided Missile Agency, an element of the Army Ordnance Missile Command, is supervising development of the Hawk system. Raytheon Company of Waltham, Mass., is prime contractor.

ARMY AND NASA HAVE DISPLAYS AT STATE FAIR

Agencies of the Army Ordnance Missile Command and NASA joined hands in the display of spectacular missile exhibits at the Alabama State Fair in Birmingham which began Monday.

Perhaps one of the biggest attractions of the Fair is the giant Pentadome which houses some of the exhibits including a Redstone and Corporal missile.

NASA has two displays in the Administration Building. In addition to the Pentadome, the Army has two exhibits near the stadium.

Most of the missiles in the Army inventory are displays and several continuous movies of firings are available.

Maj. Gen. J. A. Barclay is scheduled to visit the fairgrounds today.

responsibilities, will assume coordination responsibility of the Army Ordnance Missile Command Aviation Division.

Another change in assignment (See REORGANIZES on Page 3)

New York Ordnance District Awards Contract for System

The Army today invested an additional \$199,125,000 in development of its Nike Zeus anti-missile missile system.

The Department of the Army announced that a supplemental contract in that amount had been awarded by the New York Ordnance District to the Western Electric Company, system prime contractor, to continue the Nike Zeus research and development program for another 12 months.

Included in the contract are funds for continued engineering, installation and operation of equipment required in the development and test program. The Nike Zeus system is now in the advanced development stage and various equipments are being tested at White Sands Missile Range, N. M., and Whippany, N. J. Additional future tests are planned at Pt. Mugu, Cal., Ascension Island in the Atlantic and Kwajalein Island in the Pacific.

The Nike Zeus system is the only project under active development designed to defend against intercontinental ballistic missiles. It is not in production.

A major portion of the work will be performed at the Western Electric plant in Burlington, N.C., and the Whippany, N. J., facility of the Bell Telephone Laboratories, responsible for overall system design and development. The Douglas Aircraft Company of Santa Monica, Cal., sub-contractor for the missile and ground support equipment, will share in the award.

Other major subcontractors and their areas of effort being funded under the contract include:

Sperry Gyroscope Company, Great Neck, L. I., development of the discrimination radar transmitter; Goodyear Aircraft Company, Akron, Ohio, radomes for the system and heavy equipment for the acquisition radar transmitter; Remington-Rand Univac, St. Paul, Minn., computers; Continental Can Company, Coffeeville, Kan., pedestals for the target track radar; Texas Instruments, Dallas, engagement display devices and New Mexico State University, targets for the test program.

Countless other subcontractors and suppliers will share in the (See NIKE ZEUS on Page 3)

EIGHT RETIRE DURING PARADE SEPTEMBER 30

Eight men received retirement honors during the Sept. 30 Retreat Parade and Review at the Arsenal Parade Field.

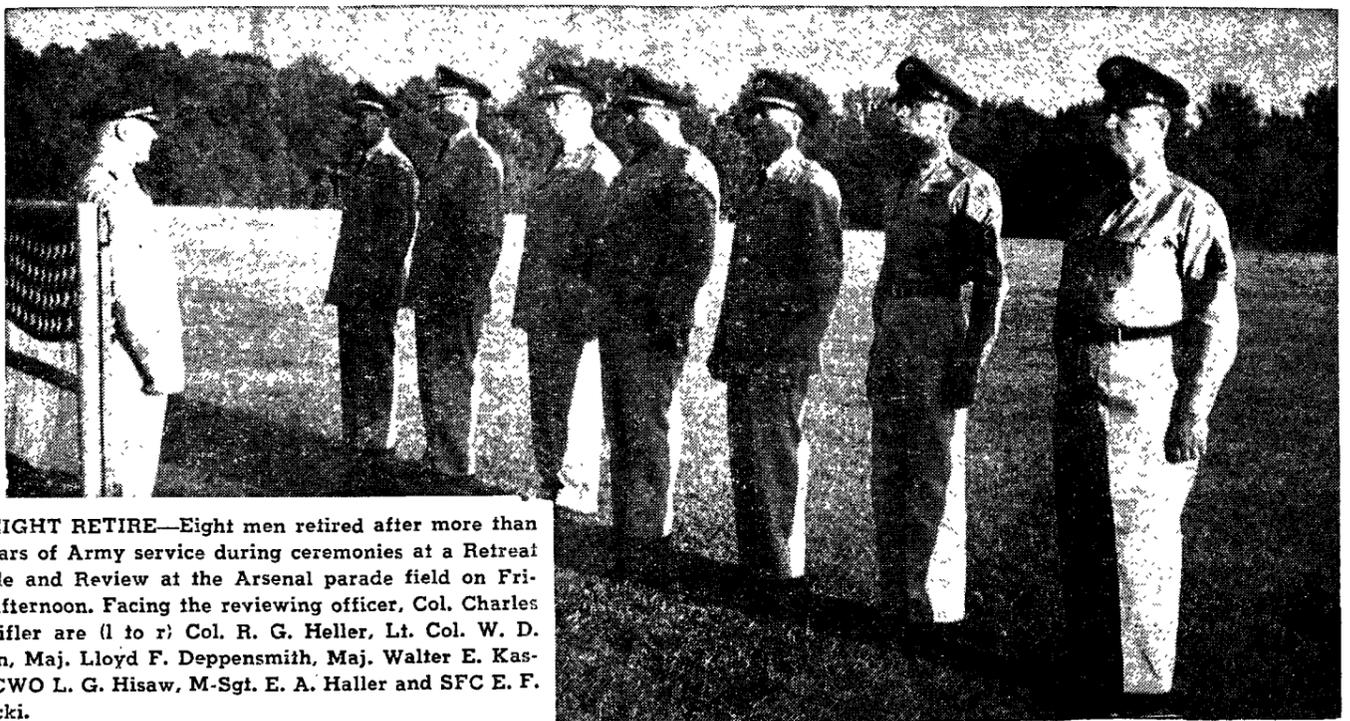

On the reviewing stand with Col. Charles W. Eifler, Commandant of the Ordnance Guided Missile School, the reviewing officer, were:

Col. Owen T. McCloskey, Arsenal Commander; Col. Thomas W. Cooke, Chief of Staff, Missile Command; Col. Raymond W. Burkett, Deputy Chief, Research and Development, ARGMA; and Col. G. L. Barnhill, Director, Field Support Operations, ABMA.

The men retiring were:

Lt. Col. Raymond G. Heller, Director of Depot Operations, RSA; Lt. Col. William D. Rabon, Deputy Director of Field Support Division, ABMA; Maj. Lloyd F. Deppensmith, Deputy Troop Com-

(See PARADE on Page 2)

EIGHT RETIRE—Eight men retired after more than 20 years of Army service during ceremonies at a Retreat Parade and Review at the Arsenal parade field on Friday afternoon. Facing the reviewing officer, Col. Charles W. Eifler are (l to r) Col. R. G. Heller, Lt. Col. W. D. Rabon, Maj. Lloyd F. Deppensmith, Maj. Walter E. Kasper, CWO L. G. Hisaw, M-Sgt. E. A. Haller and SFC E. F. Sawicki.

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Wednesday at no expense to the Government by Jack W. Hoffhaus, Hartselle, Alabama, with exclusive regard for the reader interests of personnel at Redstone Arsenal, Alabama, in accordance with an agreement between the publisher and the Public Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama.

The publisher will receive editorial content for publication in the Rocket only through the Public Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama, Bldg. 4505, Extension 2722. All advertising copy and payments therefor are received by Mrs. Zillah Newsome, 311 Holmes Ave., N. E., Huntsville, Alabama, P. O. Box 346, telephone JE 4-4701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$5.00 a year, or \$2.75 for six months. Mailing arrangements may be made with the publisher.

TARGET

(Continued From Page 1)

tion circuits, the computer continually checks itself to assure that each operation is completed. If the computer discovers error it will give a signal, automatically isolate the error to a specific location, and assist in correcting any faulty calculations.

Modular construction of the nearly 175,000 basic components of the computer makes possible fast and easy repair of any of its functional units. A basic module can be replaced in less than five minutes.

An input-output section allows communication with humans or with radar or other external digital equipment. The control section directs the operation by encoding instruction words into computer language and commands the rest of the computer to follow these instructions.

Registers of the arithmetic section add, subtract, compute square roots and other mathematical computations as well as logical operations. The twistor memory feeds a word or instruction to the computer every five micro seconds. A micro second is one millionth of a second.

The Army Rocket and Guided Missile Agency, an element of the Army Ordnance Missile Command, is supervising development of the unique Nike Zeus system. Initial testing of various system components, including missile firing tests, have been carried out at White Sands, another element of AOMC.

I AIM

(Continued From Page 1)

for his interest in "I Aim at the Stars" It was to the General, then a colonel in the U. S. Army, that Dr. von Braun surrendered with his team of Peenemunde scientists in 1945. Gen. Toftoy was responsible for bringing the missile team first to White Sands, N. M., and later to Redstone Arsenal.

In addition, Gen. Toftoy is one of the eight living persons portrayed in the story.

On Thursday, Oct. 6, the Army will conduct a corps of approximately 40 visiting southern, nationally and internationally syndicated newsmen, here to cover the premiere, on a tour of Redstone Arsenal.

They will be hosted by Col. Lee B. Jones, Chief of Research and Development, Army Ballistic Missile Agency, at a luncheon at the Officer's Club, and will tour the laboratories and facilities of NASA, the National Aeronautics and Space Administration. They will also observe training and range firing demonstrations by Army guided missile and rocket experts.

During the day, the entire block of Washington Street, on which the Tony Theater is situated will be closed to vehicular traffic, and four huge Army missiles will be erected for display in the theater area—a Jupiter C, a Nike Hercules, a Nike Ajax and an Explorer.

In the evening, bands will present a concert for the benefit of the Huntsvillians expected to gather in the streets to observe the

OGMS Cast In Armed Forces TV Symposium

The Army Ordnance Guided Missile School participated recently in the first Armed Forces Television Symposium held at the Pentagon in Washington to demonstrate the use of closed circuit video in military training.

The Missile School presentation was made Wednesday before about 500 high-ranking officers and representatives of military training centers throughout the United States. Lt. Col. Edward J. Kloos, director of individual training, Capt. William W. Millican, chief of the OGMS Television Branch, and Joseph DuRand, of the TelePromPTer unit of the School were in charge of production.

The presentation stressed the use of giant TV screens measuring as much as 12 by 20 feet to

festivities.

In addition, the assembled crowd will be able to view all aspects of the proceedings, on four-camera closed-circuit TV system provided by the Ordnance Guided Missile School, commanded by Col. Charles W. Eifler. The arrival of the press, dignitaries and celebrities at the theatre entrance, as well as the Premiere's on-stage proceedings, will be televised for the people in the street.

"I Aim at the Stars" stars Curt Jurgens as Dr. von Braun, and Victoria Shaw, Gia Scala, Herbert Lom and James Daly. J. Lee Thompson directed from a screen play by Jay Dratler.

PARADE

(Continued from Page 1)

mander; Maj. Walter E. Kasper, Assistant Chief, AOMC Security Officer; CWO Luther G. Hisaw, Signal Electronic Detachment, OGMS; M/Sgt. Edward A. Haller, and SFC. Edmund F. Sawicki. The men retiring all had more than 20 years of Army Service.

In addition to the retirement of the eight men, Col. Eifler trooped the line in a jeep, and the 55th Army Band furnished the music for the march and the ceremony.

Maj. Jesse A. Garner was Troop Commander for the parade, and Capt. Donald L. Voorhees was parade adjutant. Maj. Garner is the RSA Troop Commander, and Capt. Voorhees the RSA Adjutant. The orders of the day were read by Cap. Victor B. Swann.

magnify small missile parts for close study by large numbers of students. It also emphasized the use of the double sound tracks on video recording tape for presentations in both English and the languages of any of the 12 Allied nations which send students to the Missile School. Both these techniques were pioneered here.

Special attention was given to the transmission over leased cables of missile courses to distant training centers such as the U. S. Military Academy and Fort Knox, Ky., as a means of avoiding costly duplication of instructors and equipment.

The Air University at Maxwell Air Force Base, Ala., and the Southeast Signal Corps School at Fort Gordon, Ga., also made presentations along with other training centers of the Army, Navy and Air Force.

Kreger Is Named Comptroller At Missile School

Standley E. Kreger, deputy comptroller at the Ordnance Guidance Missile School, has been named acting comptroller in the absence of Michael F. Deegan, it was announced by Col. Charles W. Eifler, commandant.

Deegan is presently attending a 13-month course of graduate work at the Army Comptroller School of Business Administration at Syracuse (N. Y.) University.

Kreger joined the Missile School in October 1956, as chief of the Management Branch, after serving for three years in various administrative capacities at Redstone Arsenal. In May of 1960 he assumed the duties of deputy comptroller here.

A former high school teacher, he taught Industrial Arts and Mechanical Drawing in the school systems of Lawrence County, Ohio, for four years following his graduation from Ohio State University in 1937. He is a reserve officer holding a rank of major and assigned as an instructor in military intelligence at the USAR School, Huntsville.

He is the son of Mr. and Mrs. Albert W. Kreger of West Milton, Ohio, and resides with his wife, Anne, and their two children, Pamela Anne and Timothy, at 2221 Bide-A-Wee Drive, NE, Huntsville, Ala.

"The arsenal of the soldier's will is in the hearts and minds of his people."

CLYDE B. BROWN

Bledsoe and Brown Are Members of 1960 UGF Staff

The secretary and the treasurer for the 1960 Redstone United Givers Fund Drive are Clyde B. Brown and W. T. Bledsoe.

Brown is chief of the Plans and Administrative Office, Field Service Operations, ARGMA, where he has been assigned in various capacities since 1952. He has seen many changes in the organization.

Prior to coming to Redstone, he served six years with the Veterans Administration as a contract representative, working in Tuscaloosa and Montgomery.

Born at Jacksonville, Ala., he is a graduate of Jacksonville College and later attended Auburn University. Brown followed the teaching profession until he went into the Army during World War II. He served for four and one-half years, and was with the 11th Armored Division in Europe. Since then he has been active in Reserve and National Guard Units, presently serving as Operations Officer of the 279th Signal Battalion (Corps), Alabama National Guard.

Mr. and Mrs. Brown and their daughter, Carole Ann, live at 805 Carmelia St., S. E., Huntsville.

W. T. BLEDSOE

Bledsoe, a native of Arkadelphia, Ark., came to the Arsenal four years ago from the Veterans Administration in Nashville.

(Continued From Page 1) contract funding.

The Nike Zeus system is designed to use advanced radars and electronic computers to detect and track ballistic missile warheads, discriminate between real warheads and decoy devices and launch and control Nike Zeus missiles to intercept the attacking missile warheads and render them ineffective.

Lt. Col. Sovers Is The Inspector General For AOMC

Col. James W. Sovers is the Inspector General at the Army Ordnance Missile Command, his second assignment at Redstone Arsenal.

He was assigned at the Ordnance Guided Missile School

Tenn.

He is deputy chief of the Redstone Arsenal Internal Review Office.

During World War II, Bledsoe served with inspection teams for personnel in the Fourth Service Command.

Prior to that he taught school in Union County Arkansas.

As a hobby, he is developing new strains of hybrid iris, and has approximately 250 rose bushes to care for.

Mr. and Mrs. Bledsoe, who have a married daughter living at Jackson, Tenn., now live at 1015 Cole Drive, S. E., in Huntsville.

Thiokol Works 2 Million Man Hours Without Lost Time

The Redstone Division. Thiokol Chemical Corporation, recorded 2,000,000 accident free man-hour worked, Sept. 21.

It is the third time the Division has achieved this mark, and the sixth time it has exceeded a million hours worked without an accident.

In recognition of their efforts in attaining this outstanding safety

record, each employe of Thiokol's Redstone Division received four silver dollars. Previously, two silver dollars has been distributed to each employe on the occasion of the millionth accident free manhour worked, last May. When the Division reaches its three millionth safe hour, anticipated in approximately four months. Thiokol's 1600 Huntsville employes will each receive an additional award of six silver dollars.

Thiokol's Redstone Division, developer of solid propellant rocket motors for some of today's most powerful weapons in the arsenal of defense, has established an outstanding safety record in the past several years. Its safety practices have prevented serious injuries in the propellant and chemical areas, and accidents that have happened have been of the type that could occur in any industrial plant.

Thiokol's Redstone Division, developer of solid propellant rocket motors for some of today's most powerful weapons in the arsenal of defense, has established an outstanding safety record in the past several years. Its safety practices have prevented serious injuries in the propellant and chemical areas, and accidents that have happened have been of the type that could occur in any industrial plant.

His assignment in Turkey was to activate the Turkish Ordnance School, a one-year assignment.

Col. and Mrs. Sovers have a thirteen-year-old daughter, Elizabeth Ann. Among the awards he has earned are the Bronze Star, Purple Heart and French Croix de Guerre with palms.

MRS. NIDEVER, LT. SWOGER WIN AT BRIDGE

The Monday night party bridge winners at the Squirrel Hill Officers Club last week were Mrs. Richard Nidever, high for the ladies, and Lt. William Swoger, high for the men.

Second for the ladies was Mrs. Homer Finch and for the men, Capt. Homer Finch.

Mr. and Mrs. W. L. Patton were host and hostess. The group meets every Monday night at 7:30 at the Club.

University Dean Addresses Meeting Of Accountants

The Federal Government Accountants' Association met Thursday evening, Sept. 22, in the Russel Erskine Hotel.

Jack L. Edgar, president, introduced several new members including executive accountants presently assigned to Army Ordnance Missile Command: John Graves, State Comptroller, and R. W. Washburn, president of Southern Association of Engineers.

A. C. McNaron, vice-president and program chairman, presented Dr. W. C. Flewellen, Jr., Assistant Dean of School of Commerce and Business Administration, University of Alabama, guest speaker. Dr. Flewellen discussed the responsibility of professional accountants toward encouraging

Recreation Group Is Making Plans for Trips in 1961

Walt Wiesman, newly elected president of the Redstone Recreation Association, announced inquiries concerning both overseas and domestic tours during the coming year have been received.

"The way it looks now, we may need two planes for next year's European trip," Wiesman said, "But the questionnaires returned to us will lead us to more definite conclusions."

The announcement followed the first meeting of the newly elected board of directors which includes President Wiesman, employed at AOMC; Bob Fleagle, ABMA, first vice president; Woody Horton, ABMA, second vice president; and Paul House, Thiokol, treasurer.

Other members of the board are Dr. C. D. Leatherman and Harold Schulz from OGMS; William Bright, AOMC; Mrs. Cleo Cason and Morris Knight, ARG-

students to pursue higher education in the field of Business Administration.

He outlined the curriculum which the University recommends for business administration majors. Following his address, a group discussion was held covering the possibilities of expansion of the Huntsville University Center.

The program was preceded by a social hour, dinner, and a short business session.

WHAT'S UP?—Members of a steering committee at the Army Rocket and Guided Missile Agency take a peek at a poster announcing a very special event in Huntsville. Their big secret is a dance they are planning the evening of Oct. 15 at Fort Raymond W. Jones Armory on South Memorial Parkway. Committee members are (l to r) Nancy R. Vaughn, E. M. Stone, Maj. Merle W. Ashley, Joseph O. Williams, chairman, Doris L. Wheeler and Karl P. T. Marx.

Engineers Have First Fall Meeting

On Friday, Sept. 30, the Alabama Society of Professional Engineers opened its Fall season in Huntsville with a lunch at the Albert Pick Motel followed by director's and committee reports.

In the evening the State Society was joined by members of the local chapter and registered professional engineers from the Decatur-Tri-Cities areas at a dinner in the Chemstrand Plant, Decatur.

Following an address by the State President the engineers were conducted on a tour of the Acrylan Process Department by members of the plant staff. Over 100 engineers participated in the meeting and plant tour.

The two-day meeting concluded with a luncheon Saturday following a morning business session.

The State Society was headed by the following; President, Henry R. Hudson, Montgomery; Vice President Theodore Jaffe, Auburn; Treasurer, Alton Little, Auburn, and J. O. Holloway, Montgomery.

The local chapter is headed by

MA; Mrs. Cora Carr Briskey, RSA; Robert Van Roo, Contractors Representatives; Gerd DeBeek, George Landwehr, Ray Lawrence, George Pedigo and James Stamy from NASA; Miss Jimmie Dew and John Morris, ABMA; and Mrs. Marjorie Ganes, Rohm & Haas.

The board plans a concerted effort for a new membership drive soon. The directors will have applications available and should be contacted by prospective members, Wiesman said.

Planning committees for overseas and domestic activities will be established under the vice presidents.

Questionnaires will be mailed to all present members by the middle of October and will cover plans and programs for 1961.

ARGMA TO CLOSE OPEN HOUSE VIA AGENCY DANCE

A dance will climax the Oct. 15 open house of the Army Rocket and Guided Missile Agency facilities at Redstone Arsenal.

The dance is scheduled in the evening at the Fort Raymond W. Jones Armory on South Memorial Parkway in Huntsville, and is

the following: President, John D. Beal, Jr., ABMA, Vice President Hallet Brazelton, Chemstrand Corporation, Treasurer, Richard B. Pettus, U. S. Industrial Chemical Co., and John M. Candle, MSFC.

Registered Professional Engineers from Kansas, Tennessee, North Carolina and South Carolina also participated.

limited to ARGMA personnel and their immediate families.

Col. John G. Zierdt, ARGMA Commander, said the open house will be held in conjunction with dedication ceremonies for ARGMA's new headquarters building on that date.

The public will be permitted to witness actual missile and rocket firings, view displays of missiles and related components.

They will also be allowed to tour Thiokol Chemical Corporation, the Rohm and Haas Company plants and the new headquarters building.

Decorations and refreshments for the dance will be provided by the Redstone Arsenal non-commissioned officers club. Sale of tickets will be limited to approximately 800 at \$1.25 per person. The ticket sales were limited due to the space available in the building.

Mrs. Pearson Wins At Party Bridge

Winners at the Thursday meeting of the Party Bridge Group sponsored by the Redstone Arsenal Officers Wives Club were Mrs. S. R. Pearson, high; and Mrs. R. S. Kinch, second.

The group meets at the Squirrel Hill Officers Club at 10 a. m. on Thursdays.

Reservations for next week's play may be made before Wednesday noon by calling Mrs. R. K. Wensley, Arsenal ext. 877-5859.

The group will sponsor a "Party Day" on Oct. 20, meeting at 10 a. m. and playing until around 2 p. m. Traveling prizes and a high prize will be awarded. The Group has lunch at the Club on "Party Day".

EXPLORERS HOLD COURT OF HONOR

Clarence Kelly, special agent at the Birmingham Office of the FBI, spoke to members of Air Squadron 234 of the Explorer Scouts at their Court of Honor at Morrison's Restaurant Friday night.

Following the talk, awards were presented to members for various achievements in their particular programs. Mike Murray and Richard Kloos became the first members of the RSA group to receive the Silver Award in Exploring.

Members of RSA's scouting group heard Kelly describe his personal experiences with the modern-day criminal which he finds is much more ingenious and subtle than his gangster counterpart of a few decades ago.

Kelly classified jewel thieves and bank robbers as the most proficient lawbreakers, citing several examples of jewel robberies which occurred abroad airplanes in flight. He said that this type of criminal has become so cunning that only 20 per cent of such cases are solved.

Noting the increase in crime over the past ten years, Kelly said that there were 700 bank robberies in Alabama last year, and estimated that there would probably be over 800 in 1961 if the trend continues.

In closing, Kelly warned scouts to beware of the subtle influences of Communism infiltrating our county and which threaten our way of life. Along these lines he cautioned them against getting involved with what might appear in an innocent group in the beginning, but later turns out to be a Communist front organization.

"Any passive association with such a group can ruin your reputation and mar your chances for opportunity in later life," he said.

Lt. Col. Edward J. Kloos, master of ceremonies, presented Maj. James H. Goewey, retiring chaplain at RSA, with a special award for his efforts in youth work here. Col. Owen T. McClowsky, post commander, also spoke briefly.

Award winners at the meeting include: (merit badges) James H. Wynn, citizenship in the home; Mike Murray, fingerprinting; Wilfred Mrazek, citizenship in the home; Richard Kloos, salesmanship, firemanship, fingerprinting; David Cherry, rowing, lifesaving, camping, Robert Buchholz, lifesaving, camping; Randy Bergmann, citizenship in the community, home repairs.

Civic Orchestra Plans Four Concerts

The Huntsville Civic Orchestra will present its opening concert with Claudette Sorel, French pianist as guest soloist, on Nov. 7.

Season tickets for the four programs scheduled Nov. 7, Jan. 16, March 13, and May 1 are now on sale through board or orchestra members.

On-post Mrs. H. D. Mitman, ext. 877-5244 has tickets available. A complete season ticket is six dollars. Enlisted personnel and student tickets are half that. Sustaining and patron memberships are also available.

The orchestra gained national recognition last year with conductor Russell Gerhart, formerly with the St. Louis Philharmonic Orchestra.

14th Annual Plum Nelly Show Is Scheduled Oct. 8, 9

The fourteenth annual Plum Nelly Clothelines Art Show is set for Oct. 8, 9 at the place of its origin, the studio of Fannie Mennen, Chattanooga artist and teacher.

The studio is located on top of Lookout Mountain in the New Salem Community off Georgia Highway 143 between Trenton and LaFayette.

The show is held in an open woodland with paintings and crafts of hometown artists displayed from wire clotheslines.

This year 16 painters and sculptors will exhibit. In addition 40-odd craftsmen will display ceramics, jewelry, carvings, pottery and other items.

Miss Mennen suggests that all visitors come dressed in warm clothing and shoes for walking on rough terrain.

From Birmingham U. S. 11 and the road over Sand Mountain are both good, but be sure to go all the way to Trenton to pick up Georgia 143.

All roads and intersections

Mrazek, aviation; Richard Kloos, vocational. Boy Scout "50 miler" award; William Arnold, Bill Babcock, Bob Buchholz, David Cherry, Tim Koenaman, Wilfred Mrazek, Scout Lifeguard — David Cherry.

Boy Scout Rank—James Wynn, Star Scout; Randy Bergmann, Life Scout. Air Explorer Awards—Randy Bergmann, Gold Award; Mike Murray and Richard Kloos, Silver Awards.

MY VOTE

The freeman, casting with unpurchased hand.
The vote that shakes the turret of the land.

—Oliver Wendell Holmes

This year Freedom's Foundation again is offering awards as high as \$1,000 for the best letters on the subject "My Vote—Freedom's Privilege." It's a big and timely subject; you shouldn't have any trouble in finding 500 well-chosen words to tell how you feel about it. The deadline is Nov. 1—the address, Freedom's Foundation, Valley Forge, Pa.

"The newest and most advanced weapon of war is no better than the man controlling it. Man has always been, and will always be, the most important factor in any combat equation."

—Lt. Gen. Arthur G. Trudeau

Trageser Will Speak At Next ARS Meeting

Milton B. Trageser, group leader in the Instrumentation Laboratory and lecturer in the Department of Aeronautics and astronautical at Massachusetts Institute of Technology will be the main speaker at the Oct. 18 meeting of the local chapter of the American Rocket Society to be held at 8 p. m. in the City Electric Auditorium.

Trageser's subject is "A Recoverable Interplanetary Space Probe."

An abstract of his speech follows:

An examination of the features of a specific second generation space device, its operation, and its mission, gives an impression of some of the electronic and electromechanical aspects of second generation devices in general.

The specific experiment involves a 340-pound space probe which is launched into an orbit to a nearby planet, Mars or Venus. After orbital injection, the self-contained guidance and control system of the probe navigates it in a close, well-controlled passage by the planet, at which time a photograph is made. The gravitational field of the planet establishes a new orbit for the device which returns the probe to the earth. Navigational maneuvers during the return trip cause a re-entry vehicle to impact in an area of moderate size on the earth, per-

within a radius of ten miles of the show will be plainly marked by "Art Show" signs.

Red Cross Volunteer First Aid Classes Start on Monday

Mothers at Redstone Arsenal will study Red Cross First Aid, a course necessary to serve as a volunteer in the First Aid Room at Madison Pike Elementary School and at Westlawn Junior High School.

Classes in standard first aid will be divided into two sections: evening classes will be held at Madison Pike Elementary School from 7:30 p.m. to 10 p.m. Oct. 3, 4, 6, and 7. Morning classes will begin in the Post Chapel Social Room at 9:30 a. m. Monday, Oct. 10-13. Daytime classes will break up at noon.

The ten-hour course will cover treating abrasions, cuts, giving artificial respiration and obtaining emergency medical help for major emergencies.

NCO Wives Plan Harvest Moon Dance

The NCO Ladies Auxiliary are planning a Harvest Moon Dance October 15th at the N. C. O. Club.

The highlight of the evening will be "The Spot Light"—While

mitting the physical recovery of the photograph.

The characteristics of the probe as a well-integrated electronic-electromechanical device and the characteristics of some of its guidance and control components are emphasized.

Buffet Dinner Is Held by NCO Wives

The monthly social of the Ladies Auxiliary was held at the NCO Club Saturday, Sept. 24.

Thirty-two members and their husbands enjoyed a buffet dinner which included, ham, roast beef, turkey, salad and all the trimmings.

Mr. and Mrs. James Schumaker won the door prize, a beautiful clock.

After the dinner, dancing was enjoyed by the party. Hilding Homberg furnished the music for the dancers.

Hostesses for the evening were, Mrs. Harold Womack, Mrs. Guy Rossi, Mrs. Ira Godwin and Mrs. James Reynolds.

The next business meeting will be held at the Club Oct. 13 at 7:30 p. m.

couples are dancing, a spot light will circle over the floor. When the music stops, the couple standing in the spot light will win a silver dollar. If you are lucky, you may win more than one. Just being in the right spot at the right time always has been advantageous.

Door prizes and fun are guaranteed for this evening, so all members and their husbands are urged to attend.

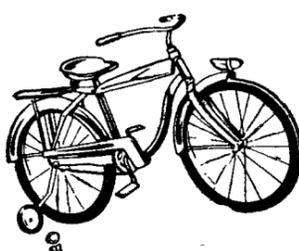

WORTH REPEATING: "There seems to have been no real beginning, nor will there ever be an ending to progress in Army medicine." Lt. Gen. Leonard D. Heaton, Army Surgeon General.

FRIDAY! THE GREATEST SHOW ON WORTH!

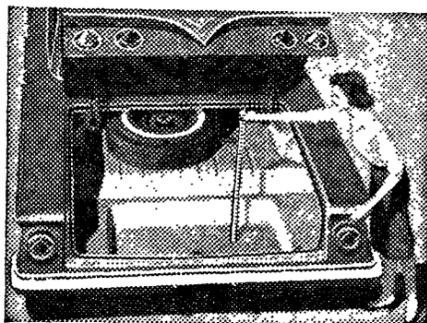

SIXTY-ONE WONDERFUL CHEVROLET

IMPALA 4-DOOR SPORT SEDAN—one of five Impalas that bring you a new measure of elegance from the most elegant Chevis of all.

Here's the car that reads you loud and clear—the new-size, **you-size** '61 Chevrolet. A car so right for you in so many ways that once you compare it with the rest of the crop you'll agree nothing else near the money measures up to it.

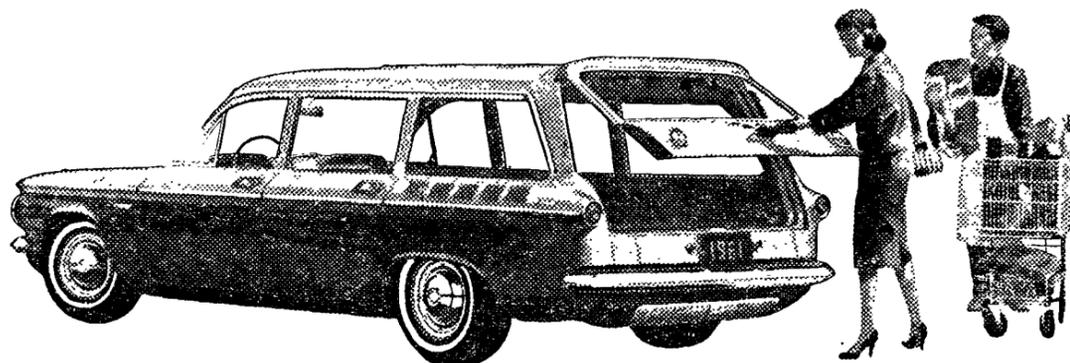

There's never been a trunk like it before! The floor's recessed more than half a foot—to form a deep well for holding things you used to leave home. Packing's easier, too—the loading height is as much as 10½ inches lower.

We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees and elbows the undisputed right of way. And the new easy-chair seats are as much as 14% higher—just right for seeing, just right for sitting.

NEW '61 CHEVY CORVAIR

MORE SPACE — MORE SPUNK
AND WAGONS, TOO!!

The newest car in America: the CORVAIR 700 LAKEWOOD 4-DOOR STATION WAGON.

GREEN STREET

HUNTSVILLE, ALA.

Col. Crane Receives Phone Call Day Before Its Placed

Mars Hookup Links Kwajalein With Arsenal Facilities

A two a. m. telephone call—received here nearly a day and a half before it was placed—marked the beginning of a new two way communications line linking Kwajalein Island with the Army Rocket and Guided Missile Agency at Redstone Arsenal.

Lt. Col. Glenn Crane received the impromptu call from another ARGMA staffer now on Kwajalein, Col. Matthew R. Collins Jr.

It was the first transmission of a new "ham" radio installation on the remote South Pacific Island and was transmitted through the Redstone military affiliate

radio station (MARS). The local MARS station piped the voice into the bedroom of Col. Crane with a telephone patch. Col. Crane is project director for Ballistic Missile and Space Defense, with responsibility for the Nike Zeus anti-missile missile system. Col. Collins recently transferred from ARGMA to its Pacific Field Office on Kwajalein where a complex for the Nike Zeus system is being installed.

When completed, it will be used to test the Nike Zeus anti-missile missile system against Atlas IC-BM's launched from California. Col. Collins was checking out the new station which provides an informal communications link with people in Agency headquarters at Redstone.

"It was like he was in the next room," Col. Crane said. Crane was in bed.

Official business will continue to be transacted over teletypes at the isolated Post, since regulations prohibit its discussion on "ham" radio sets.

PFC Mark Germain, one of four operators on duty around the clock at the Redstone station, arranged the call.

Germain has the world at his fingertips. Any of the operators may talk to the Congo, Netherlands, Australia, Hungary or even a ham at the North or South Pole—in a single day.

The purpose of the MARS station is to have a backup communications facility in the event of an emergency. It also provides an excellent training site for Army students.

Col. Collins made his call from the Kwajalein station. Station K4WMA picked up the call at

FIRE PREVENTION IS STRESSED BY ARSENAL MARSHAL

Oct. 9-15 is Fire Prevention Week, William M. Klieber, Arsenal Fire Chief, announced. This

Redstone and connected the colonel with the home phone of Col. Crane.

In this simple manner, the station does a great service to personnel because it can handle emergency traffic and communications to isolated areas.

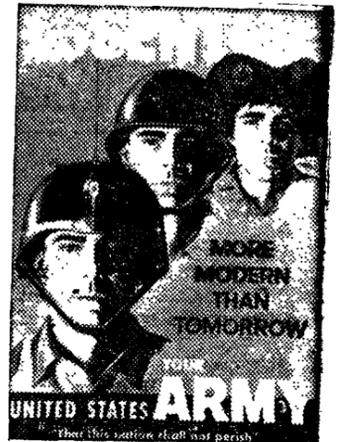

It is forbidden to contact several places in the world, including Cambodia and Indonesia, because "hams" are unauthorized in those countries.

In addition to fixed places, it can talk to ships at sea or airplanes.

Recently, the operators kept in contact with "hams" up the Eastern coast on the status of a Hurricane.

Actually, thousands of "hams" operate every day. There is a directory of call letters published as thick as a Mahattan telephone book. And the messages fly continuously to points all over the world, unknown to the layman on the street.

SPECIAL FORCES FACT: Guerrilla warfare operations are conducted generally in enemy territory by predominantly indigent forces with the objective of reducing the combat effectiveness, industrial capacity, and morale of the enemy.

is a national observance, which began 50 years ago as "Clean-Up Day" and was first proclaimed in 1911 by 22 governors, Klieber said. Eleven years later the first Presidential Fire Prevention Week Proclamation was issued, he continued.

Today, nearly all governors proclaim this week commemorating the Great Chicago Fire of Oct. 8-19, 1871 which resulted in the destruction of 17,430 buildings.

Losses amounted to \$175 million, small when compared to today's huge fire waste which last year amounted to \$1 1/4 billion, with 11,300 persons dead as a result of over one million fires.

At Redstone Arsenal during Fiscal Year 1959 there were 161 fires causing over \$157,000 damage. In Fiscal Year 1960 there were 193 fires causing \$3,800 damage.

MPs Are Victorious Over Co. B, OGMS

A crowd of about 200 watched a hard fought battle between the 291st MP Co. B, OGMS. The 291st emerged the victors by a score of 19 to 6.

After the opening kick off the 291st moved the ball down into B Co's territory only to lose it on downs on the one yard line. With good running by Norton, B Co. advanced the ball to the MP's twenty before losing it on a fumble. The ball was recovered by Spangler of the 291st. and the first period ended with the MP's taking over.

The MP team failed to get a first down and B Co. took over on downs. On the second play from scrimmage Edwards skirted around right end for 25 yards and the first score of the game. The point after was missed.

The 291st quickly broke into the scoring column on the third play from scrimmage; Evans hit Minor on a 38 yard toss for 6 points for the 291st. The point after was unsuccessful.

The first half ended with Co. B punting to the MP's after failing to get a drive started.

The second half was a defensive battle with the ball exchanging hands five times before the 291st scored again. The key defensive play was a recovered fumble by Minor on the OGMS' 14 yard line.

Three plays later Evans smashed into the end zone for the second MP score. Noble ran the extra point over and the 291st led 13 to 6. An unsuccessful series of plays led B Co. punting from their end zone to the 29. The MP's took over as the third period ended.

Once again the two teams defenses sparked as they exchanged the ball four times; and once

REDSTONE PLACES FOURTH IN THIRD ARMY TOURNEY

Redstone Arsenal picked up fourth place in the Third Army Baseball Tournament played at Ft. Benning, Georgia.

Redstone dropped their opener 17-6 to a strong Ft. Gordon team. Gordon picked up 17 runs on 16 hits and Redstone collected 6 runs on 5 hits. Hugh Bass had a home run, triple and single to lead Redstone.

In their second game Redstone drew Ft. Jackson and beat them 6 to 5 in a fine game. Redstone had 6 runs on 13 hits and Ft. Jackson picked up 5 runs on 3 hits. Pitcher Bob Schlett hurled 8 and 1/3 innings of no-hit ball before Jackson could catch him. Jackson got 5 big runs to knot the score in the top of the ninth inning. In the last of the ninth Redstone loaded the bases with a walk, intentional pass and a single. Bill Miller was brought on to pinch hit and promptly delivered a single to wrap up the game for Redstone.

Redstone next met the host Ft. Benning team and was eliminated from the tournament 13 to 8. Despite the fact that Redstone pitching forces were depleted,

again the key defensive play was a recovered fumble by the 291st's Moody on B's 23 yard line. Three plays later Evans scored his second touchdown of the night, on a ten yard jaunt. The point after touchdown failed and the score stood at 19-6.

On the kick off return Norton ran the ball back to the 33, but an intercepted pass by Fromvail, of the 291st, was the end of B's chances. The game ended with the MP's in possession of the ball and defeating 'B' OGMS, 19-6.

SILVER HOLLOW-WARE is displayed by winners and runners-up in the Championship Tournament sponsored by the Golf Group of the Redstone Arsenal Officers Wives Club recently. The prizes were awarded at a luncheon and business meeting of the Group. Left to right are: Mrs. N. I. Reiter, runner-up and Mrs. H. M. Murray, winner of the second flight; Mrs. T. T. Moxley, runner-up and Mrs. E. J. Kloos, first flight; and Mrs. C. J. Payne, medalist and club champion, and Mrs. Glenn Crane, runner-up for the championship.

played a fine ball game. Redstone went into the 8th inning leading 8 to 4 and then the sky fell in as Ft. Benning came up with 9 runs. Bass again led Redstone with a triple, two doubles and a single. Bass ended the tournament with 8 hits in 12 times at bat. The team played fine ball and the people here at Redstone can be very proud of them.

The final standings and place that each team finished are as follows:

Co. A Wallops ARGMA-ABMA Football Team

A very wet Linton Field was the scene of a muddy battle between Co. A, OGMS and ARGMA-ABMA. Despite a steady downfall of Alabama sunshine, Co. A scored four touchdowns in their 28 to 0 victory.

A Co. received the opening kickoff and marched 45 yards to pay dirt. Reynolds scored from the two yard line and Foster ran the extra point over for a 7-0 score.

After the two clubs exchanged the ball a couple of times; both offenses found it rough going on the muddy field. A Co. scored

Co. A Tags Co. B 21-13

Campaigning in their second game in two nights Co. A, OGMS edged Co. B, OGMS, 21-13, in a seesaw battle.

First to score, Co. B, jumped into a 6-0 lead in the first quarter on a 20 yard pass from Suchan to Falvey; the attempt for extra point was missed.

Co. A, retaliated in the second period as Foster crossed the illusive white line twice, once for the TD and again for one point. The half ended with Co. A leading Co. B 7 to 6.

Norton, of Co. B, scored on a 25 yard end run in the second half and an extra point conversion put a fired up Co. B into the lead 13 to 7.

This fire was cooled slightly when Reynolds passed to Bohleman for a tying Co. A touchdown. Bohleman put the final damper down as he converted the extra point on a pass from Reynolds.

Co. A added seven insurance points on a 20 yard run by Reynolds and an extra point run by Foster. The game ended with Co. B on the short side of a 21-13 score.

Nine UGF Agencies' Aim Is Child Welfare Work

the second touchdown of the evening on a 14 yard jaunt by Byrd. The point after was successful on a run by Foster. The first half ended with Co. A ahead 14-0.

In the late minutes of the third period, Foster, proved his versatility again, on a 38 yard run for Co. A's third score of the night. Reynolds ran the extra point over and the score stood 21-0.

In the fourth period, A Co.'s quarterback Reynolds scored his second touchdown on an 18 yard run. A pass from Reynolds to Slinkard made the score 28-0. The game was completely dominated by Co. A as ARGMA-ABMA never threatened to score.

The ARGMA-ABMA defensive unit prevented scores by Co. A twice; once on a recovered fumble on their 3 yard line and again on an intercepted pass in the end zone. Final score Co. A, 28, ARGMA-ABMA, 0.

Sports Car Clubs Sponsor Rally

The two local sports car clubs, Twickenham Auto Club and Tennessee Valley Region, S. C. C. A., have announced joint sponsorship of the seventh annual running of the now famous Monte Sano Rallye.

Open to all motorsport enthusiasts whether drivers of foreign or domestic sports cars or sedans, this rallye has for years provided the Southeast U. S.'s only complete test of car, driver and navigator, by featuring a series of varied elements, rather than laying stress on a single phase of the rallyists skill, as in the usual event of this type.

Driver and navigator skill and judgement plus car capability will again, as in past years, be

Many organizations are dedicated to the aid of children—either through character building, financial assistance or physical welfare. In the Arsenal United Givers Fund drive this year nine such local agencies will receive support through contributions.

Widely known as giving youth a constructive outlet are girl and boy scout organizations. Both the Boy Scouts, TVC Council, and Girl Scouts, Sommajade Council, are represented in UGF. These organizations provide recreational, character building opportunities for children of this area. Both offer a camp program at which the children can put to practice many scouting lessons.

The Grace Center Day Nursery another agency of the UGF family, provides health surroundings, good meals, supervised play and pre-school education for children of working mothers. The service is available six days per week.

In the area of pre-school assistance is the Council Day Nursery for negro children of low income families. This nursery gives the children educational instruction, supervised play, well balanced meals and character development.

The Madison County PTA Special Milk Fund provides an extra one-half pint of milk to the county school children during the winter months.

Offering boys a healthy outlet of athletics and other skilled activities is the Boys Club of Huntsville. In the club building, boys may participate in wood working handicraft and indoor games—all of which are geared to character building.

The Crippled Children's Society Rehabilitation Center offers physical therapy, occupational therapy, speech and hearing therapy and physiological testing. This center is not restricted to children, but also serves adults.

Two of the newest agency additions to the UGF are the Madison County Aid for Retarded Children and the Harris Home for Children.

Special instructional aid and services are offered to retarded children under the program of the County Aid for Retarded Children.

The Harris Home is the only home of its kind in the state of Alabama designed to care for orphaned, neglected and abused negro children.

All the agencies listed depend in great measure on what the Arsenal employees contribute. The Arsenal's fund drive constitutes a substantial portion of the various local UGF budgets. These budgets are the financial lifeline of all the above agencies.

FIVE OF NINE organizations supported in Madison County by the United Givers Fund are represented above. Kneeling left to right among missile models in the Post Museum are Danny George, Salvation Army representative and Lucy Bones, Council Day Nursery. Standing (left to right) are Mark Schrimsher, Crippled Children's Clinic, Bill Nelson, Boy Scouts; and Danny George, Boys Club. The missile models are (left to right) Nike Zeus, three Redstones including the one the boys are holding and the one behind Danny; Hawk and Nike Ajax. Lucy is holding a model of Lacrosse.

SWEDISH OFFICERS VISIT — These Swedish officers visited the Army Ordnance Missile Command for briefings on the Hawk program. They are (first row, l to r) Major C. E. Rapp; Major C. C. Regardh; Brig. Gen. C. Harold Jentzen; Brig. Gen. Bertil M. Westergard; and Major Karl T. Stawatrom. (Second row, l to r) Milg Henrik Lundquist; Lt. Col. F. R. Grenander; Lt. Axle G. Cronvall; Major Gunnar Nordloff and Drik K. Soderback.

JONES ADVOCATES SCHOOL FOR TOP LEVEL EXECUTIVES

The Chairman of the U. S. Civil Service Commission, Sept. 26 mapped plans for a national administrative staff college to train civil service executives.

It would be a counterpart of

REDSTONE FEDERAL CREDIT UNION
Building 3649

the National War College which teaches senior military officers.

Roger W. Jones, in an address to the Huntsville Chapter of the Society of Personnel Administration, said there is a definite need for such a college today to provide uniformity, standardization and improve the executive abilities of present and future personnel.

Jones, who was appointed to his post by President Eisenhower two years ago, said such an institution would be a new concept at senior levels. He called upon civil servants all over the world to submit ideas concerning such an institution to his Washington, D. C. office.

He said the ideas would be used as an "encyclopedia" with which to launch such an institution aimed solely to train executives as career people.

Jones and several key members of his Washington staff spent the day in various conferences at the Army Ordnance Missile Command. Tomorrow they depart for White Sands, New Mexico, for a tour of the missile range, which

is an element of AOMC.

His "dream" institution climaxed an address to some 250 personnel administrators — military and civilian — at the Officers Club.

He had just completed outlining some standards for the more than two million civil servants all over the world.

He asked them to:

(1) Increase recruitment of qualified people to fill ranks.

(2) Forecast personnel needs based on the mission of the agency.

(3) Plan careers on an intelligent and long range basis.

The chairman pointed out that the spotlight shines on the specialist in the world today — that he has the center of the stage.

The master of ceremonies at the meeting this evening was Robert F. Mello, director of personnel at the Army Ordnance Missile Command. Jones was introduced by Mrs. Barbara Bates Gunderson, the only woman member of Civil Service Commission.

Jones joined Civil Service in 1939. He served on active duty in

LITTLE THEATER SCHEDULES FOUR PLAYS THIS YEAR

The Huntsville Little Theatre has opened its season ticket campaign for its 1960-61 season.

The season will open Oct. 14 with "Picnic" William Inge's prize-winning love story, having won the Pulitzer Prize, the New York Drama Critics Award, the Outer-Circle Award and the Theatre Club Award. Other performances of 'Picnic' will be Oct. 15, 16, and Oct. 21, 22 and 23.

The second play of the season on Dec. 10 and 11 will be the children's play, "The Emperor's New Clothes," the Little Theatre's sixth annual children's play.

In February the group will do "The Gazebo", a hilarious comedy resulting from the problems of a

mystery writer whose latest mystery comes true.

The closing play to be given in April will be "Angle Street," one of the most exciting, suspenseful and literate melodramas of the modern theatre — the film version was named "Gaslight."

The Little Theatre will present all its adult plays in the round in the ballroom of The Hotel Russel Erskine, while the children's play will be given at Huntsville High School.

Because of limited seating at the hotel, only 600 tickets will be sold. If there is a sell-out of season tickets, no single admissions will be sold, except to the children's play.

All seats will be reserved. Season tickets for the four plays are priced at \$5.00 each and are available from any active member of the Little Theatre, or may be obtained by calling JE 6-2533 or by writing to P. O. Box 931, Huntsville.

World War II and was released as a colonel. He holds a Master's Degree from Columbia University.

EM COUNCIL MEETING: Attention EM Council Members! Make sure that you are present for the EM Council Meeting, today, Oct. 5, at 1330 hours. It is up to you to make suggestions for improvements in the Service Club Program. If you cannot attend the meeting, please send an alternate.

FOOTBALL GATHERING: The Enlisted Men and the Huntsville Hostesses will attend the Football Game together on Oct. 11. Everyone will meet at the Service Club at 1900 hours. Following the game coffee and cookies will be served. Come and cheer for your favorite team.

DANCE CLASSES: Mr. Jim Doeffinger will teach the Foxtrot and Rhumba Dance Classes tonight, Oct. 5, starting at 1930 hours. Don't miss these classes because you will be denying your-

self the right to learn the basic steps to these popular dances.

SOCK HOP: Darn your socks and come to the Sock Hop on Oct. 9 at 2000 hours. The Huntsville and Birmingham Hostesses will be present to dance with you to your favorite records.

"NAME THAT TUNE": Current tunes and tunes of yesterday will be played for you to identify on Oct. 8 at 2000 hours. Candy bars will be awarded to the first person who identifies each tune.

CONTESTS: Shuffleboard: Join us for an enjoyable evening of Shuffleboard on Oct. 6 at 2000 hours. A prize will be awarded to the winner.

CHESS: Now is your chance to compete with the skillful Redstone Chess players on Oct. 7. The contest will start at 2000 hours.

PINOCHLE: Once again all Pinochle experts will be given a chance to prove that they are

MULTI-MILLIONS IN CONTRACTS LET IN SEPTEMBER

Army Ordnance awarded contracts to industry totalling \$327,685,642.27 in the closing days of September for research, development and production of ammunition, weapons, and guided missiles.

Lt. Gen. J. H. Hinrichs, Chief of Ordnance, reported Army missile programs required \$275,314,251 of the total. Ammunition contracts amounted to \$52,371,391.27. In addition, \$7,608,927 will maintain Midwestern ammunition loading plants in standby condition.

The largest single contract \$199,125,000 went to Western Electric Company of New York City to continue the Nike Zeus anti-missile missile program. Western Electric, in turn will place sub-contracts with nine major contractors for Zeus missiles and ground support equipment.

The Raytheon Corporation, of Waltham, Mass., received \$30,971,852 for production of the Hawk anti-aircraft guided missile system. Raytheon also received \$10,566,490 to supply Hawk components, and ground support for field maintenance equipment to NATO. Contracts were awarded for other missile systems as follows:

Pershing, the Army's new two-stage solid propellant ballistic missile, being developed by the Martin Company, Orlando, Fla., \$10,000,000 for research and development.

Redstone, the Army's largest ballistic missile now deployed in

sharp Penochle Player. The contest will begin at 1820 hours on Oct. 9

HISTORY: Joe Cormier was the Table Tennis Champion on Sept. 23. The Rho Sigma Chi held its monthly meeting on Sept. 27. The President, Cathy Vaughn discussed the October program with the members. Suggestions were made for future programs. Mrs. Perry Giles gave several demonstrations of flower arrangements.

Europe, \$1,286,749, to Chrysler Corporation, Detroit, Mich., for field service support and depot activities.

The improved Nike Hercules, the Army's most formidable air defense guided missile system, \$20,364,160 to the Western Electric Company for engineering services and ground support equipment.

The Watervliet Arsenal at Watervliet, N. Y., received \$1,745,960 to produce 90-millimeter recoilless rifles.

The Army's production contracts included: Hercules Powder Company, Radford Arsenal, Radford, Va., rocket motors, propel-

lants and explosives \$14,735,425. Rand Arms Company, Lake City Arsenal, Independence, Mo., \$8,863,283 for small arms ammunition and other items.

Day and Zimmerman Company, Lone Star Ordnance, Texarkana, Texas, \$7,971,747 for medium caliber ammunition and components.

Mason and Hanger Company, production of AEC Commission items at Pantex Ordnance Plant, Amarillo, Texas and Iowa Ordnance Plant, Burlington, Iowa \$4,472,006.

Physically Handicapped Have Opportunity To Exercise Their Talents

This week the physically "handicapped" employes in government and industry are being recognized throughout the Nation.

At Redstone Arsenal, and throughout the Army Ordnance Missile Command, no special observance is planned, because recognition is a 52-week job in the Civilian Personnel Offices.

Coordinators in personnel specialize in placing the physically handicapped in jobs where their special talents are needed, and where no physical hardship or hazard is existent for the individual.

The coordinators are: Delbert E. Harrison, Army Rocket and Guided Missile Agency; Dorothy Mintz, Army Ballistic Missile Agency; and Lester A. Himes, Redstone Arsenal and the Missile Command.

Statistics compiled for Personnel Officers in Washington show:

The majority of the physically handicapped workers do their work well, quantitatively and

qualitatively; the incidence of leave is comparable to able-bodied co-workers; and they remain on the job as a rule, leaving only to better their positions.

Since 1942 the Civil Service Commission has fostered employment of physically handicapped workers within the Federal Service through a selective placement program.

Recognition of ability came to this group of people during the manpower shortage of World War II. Faced with the problem of recruiting thousands of employes to man Federal offices and installations, the Civil Service Commission recognized the untapped reservoir of manpower in the physically handicapped.

Now, all of the Civil Service job announcements carry realistic minimal physical requirement — spelled out in the same manner the job specifications are spelled out to avoid any discrimination for a job that can be capably handled by a person with a particular disability.

On many, hearing aids and glasses are listed as acceptable.

Hazardous jobs for the non-nimble state the fact.

In the Spring of 1957, further

Owen Receives Award

George J. Owen, Engineering Technician employed by the Me-

chanical Calibration and Standards Laboratory, Quality Assurance Division, Industrial Operations, ARGMA, was presented an incentive award for a recent suggestion submitted by him.

The award was earned for suggesting the use of a calibration index for master gage blocks. The master gage blocks are used as primary reference standards of length calibrated to plus or minus one millionth of an inch. These blocks are used to calibrate laboratory gage blocks in other laboratories for inspection and in shops for production of items requiring a dimensional tolerance.

Using Owen's suggestion, the Calibration Index for the Master Gage Blocks, reduces time and the possibility of error in the process of calibrating lab and shop gage blocks.

Owen received two other incentive awards. One was an adapter for a lead checking machine for the inspection of thread

selective placement was insured by the Civil Service Commission in creating coordinators for selective placement of the handicapped. It is the job of these people to assure the physically handicapped that:

Physical standards will be fair, reasonable, and adapted to the realistic requirements of jobs;

An opportunity will be provided for fair appraisal of pertinent qualifications of physically handicapped applicants and employes.

Physical abilities of handicapped persons being considered will be appraised in relation to the essential physical requirements;

Employes who acquire disabilities as a result of work injuries, off-the-job accidents, or disease conditions will be given an opportunity for reemployment to transfer to a more suitable job.

MY VOTE

"Bad officials are elected by good citizens who do not vote."

—George Jean Nathan

Voting is everybody's privilege. Servicemen and dependents can win as much as \$1,000 for their ideas on this timely subject. It shouldn't be hard to put together 500 words on the subject "My Vote—Freedom's Privilege" and send them in letter form to this year's Freedom's Foundation letter-writing contest. The deadline is Nov. 1. Entries should be mailed to Freedoms Foundation, Valley Forge, Pa.

plug gages, the other was a plummet, a complex oil damped plummet used on an optional tooling test stand. This plummet establishes a true vertical reference plane.

Owen has been employed by the Mechanical Calibration and Standards Laboratory since October 1953.

ARGMA Established Training Office for New Equipment

ARGMA recently established a staff office to supervise and control ARGMA's mission training. The new office is directed by Maj. Lester B. Holmes.

The Training Office staff supervises new equipment training, depot maintenance training, inspector training, coordinates agency policy for training devices, and serves as a central point of coordination with outside organizations on training matters.

New equipment training is the responsibility of the agency developing the item of equipment. For example, the Agency is responsible for new equipment training on all guided missiles and training devices associated with ARGMA guided missile systems.

New equipment training is conducted to transfer the knowledge and skills required to operate, maintain and supply the new missile system from the developing contractor to key Army personnel.

Training precedes deployment of the tactical item by eight to 12 months. Key Army personnel, after attending the new equipment training courses, for setting up formal school courses to teach combat use of the equipment and how to service and maintain the equipment; and establish proper channels of supply.

New equipment training is taught by the developing contractor, supervised by ARGMA. Scope and content of a course is determined by ARGMA. The Training Office is responsible for the adequacy and effectiveness of this program.

The economical maintenance of complex costly equipment requires a capability to completely tear down and rebuild each item. When equipment becomes so worn and old it is uneconomical to do repairs in the field, major overhaul and rebuild is done at Army depots throughout the United States.

Training of depot personnel in theory, operation, maintenance techniques and special rebuild procedures of complicated missile systems is the responsibility of the ARGMA Training Office.

Army inspectors located at manufacturers' plants are responsible for accepting or rejecting items of equipment based on satisfaction of rigid specifications. Standardization and quality are controlled by key Army inspectors.

Performance of a guided missile complex depends upon proper functioning of each component. Standardization and quality are controlled by Army inspectors. Inspectors receive training early in the design phase of a guided missile system. They need to know the operation of system, the major assemblies, the components comprising each assembly, manufacturing and operating specifications for each component and assembly. ARGMA's Industrial Operations is responsible for this training under staff supervision of the ARGMA Training Office.

Maintenance and operation of guided missile systems present many new training problems. Equipment is complicated, expensive and is in short supply.

In many instances, complete guided missile systems cannot be exercised except under combat conditions. This creates problems: How to train operators not allowed to exercise equipment in all modes of operations? How to train maintenance technicians with no equipment or when the expense prohibits training use? ARGMA meets many of these problems by developing new maintenance and operational training devices.

The ARGMA Training Office assists in determining training device requirements and promotes and initiates policy covering needs for development, procurement, and support of these devices.

Training personnel analyze the schedules of development, production and delivery of support items required by Ordnance and other technical services. The personnel then determined overall

From the Past Record for Future Is Being Compiled

The hustle and bustle missile business causes most people in the Army Ordnance Missile Command to think in terms of the present and future, but Mrs. Mary T. Cagle of ARGMA lives in the past.

She is historian of that agency

bringing together the interests and needs for a coordinated program responsive to all requirements and giving unified direction to overall training.

Maj. Holmes is responsible for

and holds its activities for posterity.

Mrs. Cagle and her staff collects archive materials, diaries, memorandums, newspaper clippings and other data from the various ARGMA offices. Twice annually, she evaluates this "raw material" and transposes it into a historical document.

Special attention is given to major rocket and guided missile programs under by ARGMA.

Some of this material collected will serve as management guides in the future.

Mrs. Cagle first worked at Redstone in 1943, but left in a year to be with her serviceman husband. She returned to the Arsenal in 1946 and has 17 years government service.

His assistant is Carl M. McCranie, formerly training coordinator in Research and Development Operations, ARGMA. McCranie is a graduate of Florida State with 15 years of government experience.

1960 APPROVED UGF AGENCY BUDGETS

		%
American Red Cross	\$38,745.00	13.86

Jantzen
sportswear for
sportsmen

are you a
Bear Mountain man?

You are if you go for a man-sized sweater, thick and tough, boldly striped and buttoned higher than the ordinary low-slung cardigan. "Bear Mountain" is such a sweater and it's yours for 15.95 — provided you get here before the ski-and-sports crowd snap them all up.

Jantzen
sportswear
for sportsmen

action-tested
by Ken Venturi

Ken Venturi, pro golfer and member of the Jantzen International Sports Club, rates this new alpaca blend cardigan tops for free-swinging comfort. We rate it tops for styling, too. Expensive-looking narrow cable trim adds just the right touch of smartness; higher-rising 5-button front marks the beginning of a styling trend. Half alpaca, half wool in subtle shades, light through dark. 17.95
