MARCH 8, 1961

THINK AND GIVE—Marvin Salmon (left) and William Potter from the Preventive Maintenance Branch of the Post Engineer at Redstone sal contributions in envelopes for the National Health Agencies and Federal Joint Crusade Agencies. Both men have roving jobs that bring them in contact with all elements at the Arsenal. Both are inclined to adopt the slogan "Think and Give" to make the world a brighter place with truth; and with research to dominate and wipe out crippling disease. Salmon's home is in New Hope and Potter's at Grant.

AOMC Communication Conference Is Here

Pershing Guidance Systems Proves Effective in Test

The U. S. Army's Pershing ballistic missile was successfully tested at Cape Canaveral, Fla. Mar. 1 in a firing utilizing all components of its tactical inertia guidance system, the Department of Defense announced last week.

The Pershing's sharply tapered warhead section carried a full load of instrumentation to transmit to ground stations information on the functioning of components.

Brig. Gen. Richard M. Hurst, Commander of the Army Ballistic Missile Agency, said the firing satisfied all test objectives.

"Tonight's" complete test of Pershing's tactical guidance system marks a major advance in the development program," Gen. Hurst said.

During its trip down the Atlantic Missile Range, the Pershing ejected a series of flares to facilitate optical tracking of the missile.

The Pershing is a selective range ballistic missile destined to support field Armies. Last week's (See PERSHING on Page 2)

This Is First Such Meeting in AOMC

The Army Ordnance Missile Command's first Communication Conference features a presentation by the Martin Company of Orlando, Fla., on "Value Analysis Publicity and Communication at Martin, Orlando."

George J. Parker, Director of Management Engineering, and Lawrence S. Katz, Value Analysis Administrator, are scheduled to speak this morning, the second day of the conference.

The conference, under the direction of Robert F. Mello, Director of Civilian Personnel at AOMC, is attended by management representatives from governmental and industrial organizations throughout the southeast.

Value Analysis is a program designed to reduce the cost of developing and producing Army missile systems. A continuing review of all system parts is conducted under the direction of the Value Analysis administrator to determine the necessity of all parts. In some cases, modifications can be made to simplify the production of the part, thereby reducing cost.

Parker is a veteran of 30 years experience with the Daystrom Company, the Daystrom Instrument Division, the Dana Corporation, Sperry Gyroscope and U. S. Steel. He has been with Martin-Orlando since November, 1959. He holds a Bachelor of Science degree in Mechanical Engineering from Armour Technical Institute.

Katz is responsible for all phases of the Value Analysis program of Martin-Orlando. He has been with the Martin Company since 1955. He completed his undergraduate work at Johns Hopkins University and the University of Baltimore. He later studied at the Maryland Technical Institute. Maj. Lloyd W. Conner of the Sergeant Weapons System Project Office in the Army Ballistic Missile Agency Control Office, also will speak this morning on "Value Analysis and our National Economy."

Tuesday's scheduled speakers include Maj. Gen. August Schomburg, Commanding General of AOMC; Mello; Daniel Rochford of Standard Oil; Dr. Bartley E. Bess, Jr., of Redstone Arsenal; David Bushnell, International Business Machines; and Walter Wiesman, AOMC Communication Adviser.

Bushnell replaces Theodore Dahl, also of IBM, who is unable to attend due to illness.

Command Brochure Given First Place Outstanding Award

The U. S. Army Ordnance Missile Command has received a first place award for outstanding brochure production in 1960 from the Advertising Club of Birmingham.

The award-winning brochure was developed under the guidance of AOMC Headquarters, Civilian Personnel Office, for nation-wide use in recruiting highly specialized engineers and scientists and top-quality college graduates.

The 28 page document was issued early in October, 1960, and distributed to leading colleges and universities, as well as technical societies, throughout the country by the Command's Area Technical Placement Offices, located in New York, Chicago, Dallas and San Francisco.

Printed by the Birmingham Publishing Company, the brochure describes the missions of AOMC (See BROCHURE on Page 2)

Western Electric Receives Further Work on Hercules

The Department of the Army March 3 announced the award of two contracts totaling \$6,200,000 to the Western Electric Company for work to be performed on the Nike Hercules missile system.

A \$5,000,000 award covers production of ground equipment. Most of the work will be done at Western Electric's Burlington, N. C., plant, while the remainder will be performed by Douglas Aircraft in Santa Monica, Calif.

The second contract, for \$1,200,000 is for production of missile test equipment. Work will be done at Western Electric's Greenboro, N. C., plant.

Nike Hercules, second generation of the Nike family of air defense missiles, is now on-site in several industrial centers and heavily populated areas throughout the United States.

Western Electric is prime contractor for the Hercules system. The Army Rocket and Guided Missile Agency is technical supervisor.

The New York Ordnance District administers the contract.

Award of an additional \$2,228,595 contract for further work on Nike Hercules was announced March 2.

The award, made by the Army (See WESTERN on Page 2)

LT. COL. ZACARIAS F. RAEL

Rael Succeeds Cason in OGMS Troop Command

The appointment of Lt. Col. Zacarias F. Rael as commander of the School Troop Command at the Army Ordnance Guided Missile School is announced by Colonel Charles W. Eifler, commandant.

Rael succeeds Lt. Col. Claude E. Cason who recently retired after more than twenty years of active service.

A native of Las Vegas, N. M., Rael was formerly chief of the Officers Training Division at the Missile School, and served as com-

(See TROOP on Page 2)

Carriers Will Discuss Health Benefits Program

Representatives of insurance carriers participating in the Federal Employees Health Benefits Program will hold a one-hour question and answer period March 9, in the Rocket Auditorium with individuals who have questions or wish fuller explanations of coverage under the existing policies.

Since this is not a conference in which any changes will be made from one carrier to another, the morning program has been staggered to allow individuals to hear the carrier's representative with whom he is insured.

The Aetna representative, Keith Wheeler, will hold his discussion period between 9 and 10 a.m.

Blue-Cross, Blue-Shield is scheduled between 10 and 11 a.m. with Kenneth Burnett conducting the session.

The American Federation of Government Employees representative, Dennis Garrison, is scheduled between 11 a.m. and noon.

Subscribers will have the opportunity to discuss coverage, claims and mutual problems with the insurance representative. The sessions were arranged by Leon-

(See CARRIERS on Page 2)

GEN. HURST IN ARMY MAGAZINE ARTICLE TELLS ABOUT PERSHING

The U. S. Army's Pershing ballistic missile, which has just added another success to its near perfect test firing record, will "soon become an outstanding addition to America's arsenal of defense weapons" according to the man supervising its development.

Brig. Gen. Richard M. Hurst, Commander of the Army Ballistic Missile Agency, in an article in the April issue of the "Army Information Digest," describes the Pershing as accurate, mobile, reliable and simple in operation. The magazine was distributed today.

Pershing is a two-stage, solid propellant ballistic missile designed to support the field Army. ABMA is supervising development.

Gen. Hurst attributes the Pershing's record of success to the ex-

tensive ground testing program applied to Pershing. "It is easier to make corrections on the ground than in the air," he says.

Among the more significant tests described by Gen. Hurst were those to which the second stage of the missile were subjected. These included "spin" tests to check against separation of the bonding between the solid propellant and the motor case, simulated high-altitude tests to prepare the missile for weather and climate phenomena it would encounter during an actual test firing and complete captive firing tests of ignition of the second stage following first stage burn out.

Gen. Hurst pointed out that in addition to "helping to insure early success in the test program (See GEN. HURST on Page 2)

WINS PROMOTION—Lt. Col. James B. Clift, assistant Continental Army Command liaison officer assigned to the U. S. Army Ordnance Missile Command, has the silver leaves of a lieutenant colonel pinned on by Major General August Schomburg, commanding general of AOMC, and Mrs. Clift. A native of Iowa, Lt. Col. Clift has been assigned to the Missile Command since 1959. He studied chemical engineering at Iowa State College, and entered the Army in 1935. Prior to his arrival here, he was assigned to the first U. S. Army Missile Command in Italy.

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Wednesday at no expense to the Government by Jack W. Hoffhaus, Hartselle, Alabama, with exclusive regard for the reader interests of personnel at Redstone Arsenal, Alabama, in accordance with an agreement between the publisher and the Public Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama.

The publisher will receive editorial content for publication in the Rocket only through the Public Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama, Bldg. 7101, Extension 876 - 3362. All advertising copy and payments therefor are received by Mrs. Zillah Newsome, 311 Holmes Ave., N. E., Huntsville, Alabama, P. O. Box 346, telephone JE 4-4701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$5.15 a year, or \$2.83 for six months, Alabama sales tax included. Mailing arrangements may be made with the publisher.

Gen. Hurst

(Continued From Page 1)
at Cape Canaveral, these tests effected significant savings in time and money.

The first test of the Pershing over a ballistic trajectory was conducted at Cape Canaveral on February 25, 1960. The first six firings, each a test of the first stage only, were all successful.

Close cooperation of the Army and civilian industrial elements of the Pershing development team is cited by Gen. Hurst as an important part of the development program.

"The entire program is animated by the need to provide effective, modern weapons for our soldiers in the minimum amount of time," said Gen. Hurst.

The Martin Company, Orlando, Fla., is major contractor for the system. Major sub-contractors include: TAPCO Division of the Thompson - Ramo - Wooldridge Company of Cleveland, Ohio, Eclipse-Pioneer Division of the Bendix Corporation, Teterboro, N. J., Bulova Watch Company, Long Island, New York; and the Thiokol Chemical Corporation, Huntsville.

The Food Machinery and Chemical Corporation, San Jose, Calif., in coordination with the Army Ordnance Tank-Automotive Command in Detroit, is responsible for the prime mover, the fully-tracked XM-474.

Troop

(Continued From Page 1)
manding officer of the 299th Engineer Combat Battalion in Germany from 1955 to 1958 before coming to Redstone Arsenal.

Rael attended Highlands University at Las Vegas before entering the service and recently received his degree from the University of Omaha under the Army's educational plan known as "Operation Bootstrap." He entered the Army on extended active duty in 1940 and was commissioned in the Corps of Engineers in 1942. He has served overseas both in Europe and the Far East.

His decorations include the Silver Star and the Bronze Star Medal, with Oak Leaf Cluster.

Col. Rael attended the Command & General Staff College, Fort Leavenworth, Kan.; the Engineer Field Officers Course, Fort Belvoir, Va.; Submarine Mine Course, Fort Monroe, Va.; and the Ordnance Staff Officer Guided Missile and Nuclear Weapons Course here.

With his wife, Agnes, and children Patricia, Catherine, and Michael, he resides at 3611 Crestmore Drive, Huntsville.

Carriers

(Continued From Page 1)
ard Brockman, Army Ordnance Missile Command Personnel Office and coordinator of the Health Benefits program. He did this because an increasing number of subscribers indicated a desire to discuss problems of coverage and claims.

While Pershing is still in the development stage, Gen. Hurst points out that "some items have been committed to small-scale production to checkout production facilities and verify pre-production planning."

Gen. Hurst reported that Pershing's development program is "progressing satisfactorily and on schedule."

Brochure

and its elements, including White Sands Missile Range.

It gives the types of employment opportunities that are available for professional people and the many benefits derived from federal employment.

Pershing

(Continued From Page 1)
missile was pre-set to travel less than maximum range.

As in all previous tests, the solid propellant two stage missile was fired from its mobile transporter-erector-launcher. Both stages performed properly.

Pershing is being developed under ABMA's technical supervision by the Martin Company, Orlando. The Pershing's inertial guidance system is an ABMA design provided by Bendix Eclipse-Pioneer Division.

Tonight's firing was conducted by the Launch Operations Directorate of the George C. Marshall Space Flight Center. Martin Company personnel were intergraded into the firing crew.

Western

(Continued From Page 1)
my's New York Ordnance District which administers the contract, went to the Western Electric Company.

The funding will purchase additional components of the Nike Hercules system. Work will be performed at Western Electric's Winston Salem and Greensboro, N. C., plants and the Charlotte, N. C., facility of the Douglas Aircraft Company.

ARGMA Film Shows Story Of Test and Evaluation

As part of a continuing effort to apprise potential users of the test services and facilities available at the Army Rocket and Guided Missile Agency, a documentary film has recently been produced by the ARGMA Research and Development Operations covering the missile system test capabilities of its Test and Evaluation Laboratory.

The movie will be shown in the auditorium of Bldg. 7120 at 9 a.m., 10:30 a.m., 1 p.m. and 2:30 p.m. March 15. Representatives of the Army Rocket and Guided Missile Agency, the Army Ballistic Missile Agency (both elements of the Army Ordnance Missile Command) and NASA's George C. Marshall Space Flight Center have been invited to attend.

THIOKOL DEVELOPS MOBILE LOADER FOR SOLID FUEL

Redstone Division Demonstrates Way

On December 30, 1960, Thiokol Chemical Corp.—Redstone Division successfully demonstrated a new technique for casting solid propellant rocket motors by loading in the field a motor similar to that used in the Falcón missile. A mobile propellant loading plant, designed and fabricated by Thiokol's Redstone Division was used to cast the motor. The plant was completely self-contained and equipped with its own power supply. The loading was accomplished without recourse to outside or fixed facilities during extremely cold and rainy weather—further demonstrating the feasibility of this mobile loading operation.

The essentially complete mobile propellant plant was mounted on four separate trailers. One of these carried a portable air compressor; a second, a portable generator; and the remaining two, which were ordinary low-boy type trailers, contained the propellant loading unit and the plant control system.

A significant feature of the design was the incorporation of continuous in-line mixing of a monitored flow of curing agent with a stream of propellant pre-mix just prior to casting the complete propellant into the motor. After loading and finishing, the motor was successfully static fired in one of Thiokol's test pits.

Heating tapes were used successfully for maintaining the propellant at normal temperatures during the casting period, demonstrating that these items could be

HAMLETT TO STUDY AT ROCK ISLAND

Robert G. Hamlett, missile test engineer in the Army Rocket and Guided Missile Agency Test and Evaluation Laboratory, has been selected to attend a three week course at the Ordnance Management Engineering Training Agency, Rock Island Arsenal, during the period May 15 to June 2.

The OMET course is designed for engineers and scientists who are engaged in the analysis of test data and the design of industrial and research experiments.

In his present assignment, Hamlett is responsible for planning, coordination and conduct of final development, final engineering and industrial quality control testing of the XM-72 rocket grenade.

A native of Pulaski, Tenn. Hamlett graduated from Tennessee Polytechnic Institute in 1958 where he majored in mechanical engineering. He is married to the former Miss Katherine Cobb of Pulaski. The couple and their two children live at 2204 LaSalle Road, N. W.

used successfully for curing a rocket motor in the field.

The successful mobile loading operation clearly indicated the feasibility of producing solid rocket propellant, transporting it almost any distance to a selected location, and loading a very large solid propellant rocket motor in the field.

Through use of this casting technique, limitations on the size of a solid propellant rocket motor can be eliminated. The motor can be cast, cured, and fired from any pre-selected site. This makes possible on-site and near-site operations including the handling of the entire casting operation on barges.

Technical Writers Meet Here Tomorrow, Friday

ARGMA, is hosting a technical art symposium tomorrow and Friday. More than 100 technical publications representatives of leading missile developers from across the nation will assemble at ARGMA for the event.

Objectives of the symposium will be to acquaint contractor groups with ARGMA's requirements in technical illustrations; discuss new techniques in the state of the illustration art; present views on overcoming production problems; and to stress new ideas for accomplishing economy in developing technical illustrations.

The visitors will be welcomed to ARGMA Thursday at the ARGMA Auditorium by Col. Robert W. E. B. Detchemendy, Chief, Maintenance Division, FSO; and Mr. Curtis Williams, Chief, Publications Branch, FSO.

Thursday will see lectures by: Mr. Tom Douar, The Martin Company; Robert Hollister, Douglas Aircraft Company; Bernard Markowitz, Goodway Printing Company; Mary Jane Hearn, George Rudd, Charles Stokes, and Hunter Vardaman, all of Tech Pub., FSO, ARGMA.

A cocktail hour and banquet will be held for the symposium guest, Thursday night at the Holiday Inn. Following the banquet dinner, John Bayles of Bell Telephone Laboratories will speak on:

"Things to Come."

On Friday lectures will be presented by: Sam Edwards, John Brannon, and John Hickey, The Raytheon Company; Edwin Hart and Charles Stokes, Technical Publications, FSO; E. C. Russel, Mr. Charles Martin, Mr. E. R. McLaughlin and Mr. W. C. Moore, Western Electric Corporation.

In addition to the presentations, numerous art exhibits will be displayed. The guest will also tour the ARGMA, Research and Development Laboratories.

It is believed that this is the largest technical art symposium ever held before in the United States.

Col. Cliff

(Continued From Page 1)

sion Artillery in Japan, from 1949 to 1950. He served with the U. S. Army Missile School at Fort Bliss, Texas from 1952 to 1956.

After majoring in chemical engineering at the Iowa State College at Ames, he entered the Army in 1935, first serving with the 84th Field Artillery Bn., and later with the Montana District of the Civilian Conservation Corps.

Married to the former Helyn McMillan, daughter of Mr. and Mrs. Frank A. McMillan, of Chino, California, he is the son of Mr. and Mrs. Charles Cliff, of Hornick, Iowa, who recently celebrated their 55th wedding anniversary during a visit with their son.

The couple has three children: Shirley, 15; Sandra, 12; and Lois, 8.

Lt. Col. Cliff is a member of Masonic Lodge Nr. 502, Sloan, Iowa, and of the Reserve Officers Assn., Huntsville. He holds the Army Commendation Medal for his service with the 24th Division.

ONE YEAR AGO: Italian air force personnel began Jupiter training at the U. S. Army's Ordnance Guided Missile School, Redstone Arsenal, Ala.

Doris L. Wambeke Named Secretary To General Zierdt

Brig. Gen. John G. Zierdt today announced the appointment of Doris L. Wambeke as the new secretary to the Commander of the Army Rocket and Guided Missile Agency replacing Miss Marie Ashcraft, who has transferred to the Missile and Rocket Inventory Control Center.

Mrs. Wambeke, who served as the secretary to the Deputy Commander since December 1958, will be replaced by Doris Lumpkin, present secretary to the Chief Scientist of ARGMA.

A graduate of Alabama College where she majored in secretarial science, Mrs. Wambeke entered the Federal Service in 1951 when she accepted employment as a clerk-stenographer at Fort Benning, Ga. She came to Redstone Arsenal in 1956.

Mrs. Lumpkin started to work for the Civil Service at the Headquarters of the Ryukus Command on Okinawa as a clerk typist in 1956 after a series of secretarial positions with private industry. She came to work at Redstone and the Army Rocket and Guided Missile Agency in August of 1958.

Miss Ashcraft, who has been serving as secretary to the ARGMA Commander since the Agency's inception in April of 1958, will be a supply equipment officer of the Missiles and Rockets Inventory Control Center. Prior to her ARGMA assignment she served as the secretary to the

PROMOTED TO MAJOR

Eugene W. Menning, Plans and Training Officer, U. S. Army Signal School Electronic Det. No. 2, was promoted recently at the U. S. Army Ordnance Guided Missile School.

A veteran of over 16 years service, Menning served with the Korean Military Advisory Group, Korea, before being assigned to the staff and faculty here. He is the son of Mrs. Regina J. Fiebrig of New Philadelphia, Ohio.

He resides with his wife, Elizabeth, at 310 Hughes Drive, Redstone Arsenal, Alabama.

Local History Will Be Taught at Center Four Nights Weekly

A course in local history entitled "From Log Cabins to White Columns in Madison County" will be offered at the University of Alabama Huntsville Center beginning on Sunday afternoon, April 9, at 3:00 p.m. at the new University Center Building on University Drive.

This course is designed to satisfy requests of interested citizens who have asked that a non-credit course be offered which will acquaint them with the local history of the city and county and aid them in attacking local research projects. These will be eight 2-hour sessions of the group to be held on Sunday afternoon.

Topics for lecture and discussion will include "The Formative Period in Madison County History from 1808-1820," "The Economic,

Deputy Commanding General of Redstone Arsenal.

J. L. EDGAR SPEAKS

John L. Edgar, president of the Huntsville Chapter of the Federal Government Accountants Association, addressed a meeting of the New Orleans chapter of the association Thursday, Feb. 23, at the Coast Guard Officers' Club on the lakefront at Bayou St. John, New Orleans, La. As his theme, Edgar discussed accounting for the Army's missile program at Redstone Arsenal.

Political and Social History to 1860." and a "Review of Madison County on the Eve of the War Between the States." The course will be taught by Dr. Frances Roberts, Associate Professor of History at the Center.

Applications for registration may be completed on or before March 31 at the Registrar's office between the hours of 9:00 a.m. and 8:00 p.m. on Monday through Thursday, 9:00 a.m. and 5:00 p.m. on Friday and 9:00 a.m. and 12:00 noon on Saturday. A fee of \$10 will be charged for the series.

MRS HARRIS IS GARDEN CLUB'S NEW PRESIDENT

The Redstone Arsenal Officers Wives Garden Club met Tuesday, Feb. 21, at the Squirrel Hill Officers Club.

Mrs. M. L. Kirchhofer was featured on the program. She talked about and displayed Japanese flower arrangements.

Officers for the coming year were elected: Mrs. J. E. Harris, president, Mrs. Alice Fuller, vice president; Mrs. Charles O. Blaser, secretary; and Mrs. S. Ball, treasurer.

Door prizes were awarded Mrs. W. G. Trainer and Mrs. D. H. Mytinger.

Next meeting of the Group is on March 21 at the Squirrel Hill Club at 8 p.m.

Bridge Winners Are Mrs. Patton and Maj. Washbourne

Seven tables of bridge were in play on Monday, Feb. 27 at the Squirrel Hill Officers Club during the Bridge Group meeting.

High for the women was Mrs. Winford Patton with Mrs. Robert Ross second. Winner for the men was Maj. Kyle Washbourne with Lt. Hugh Bauer second.

Golfers Plan Lunch At Squirrel Hill At Noon Wednesday

The Golf Group of the Redstone Arsenal Officers Wives Club plans a "kickoff" lunch as a pre-season get-together on Wednesday, March 15 at the Squirrel Hill Officers Club.

The Group will meet at noon in the Rocket Room. Each member will be contacted by phone. The president, Mrs. H. H. Wishart, is urging all golfers to attend.

Cancellations may be made until noon on March 13 by contact-

Catholic Ladies Plan Fashion Show, Bridge Lunch on March 15

The Catholic Chaplain's office on Post has tickets for the bridge-luncheon-fashion show to be sponsored by the Catholic Ladies Club at the Holy Spirit Auditorium on Airport Road at 10 a.m. on March 15.

Mrs. Stephen Connelly is chairman for the event. Models wearing clothes from the Town And Country Shop will be members of the Club.

The Bonnet Box will furnish the millinery and Sylvia's Salon of Beauty will make up the models. Children's fashions from the Kiddieland shop will also be modelled.

On post, tickets may also be obtained from Mrs. John R. Foley, ext. 876-5715; off post, Mrs. William Davoren, JE 4-9886.

Lloyd and Northrop To Attend Rocket Society Conference

William P. Lloyd and Charles L. Northrop, Director and Associate Director, respectively, of the Army Rocket and Guided Missile Agency Test and Evaluation Laboratory, will attend the Missile and Space Vehicle Testing Conference to be conducted by the American Rocket Society in Los Angeles, California from March 13-16.

Lloyd and Northrop plan to attend sessions relative to guidance and navigation control, propellant handling, range operations, human factors, test facilities, static testing, flight testing, high altitude simulation, and instrumentation and communication.

A program of field trips to Vandenberg Air Force Base and to the Air Force Flight Test Center has been organized by the con-

ing Mrs. W. J. Fries, ext. 877-4948.

Arsenal Gray Ladies Staff First Aid Rooms in Schools

Red Cross Volunteers and Gray Ladies from Redstone Arsenal introduced a new first aid program into two Huntsville Schools which will expand throughout the city.

Gray Ladies staff the first aid rooms which were formerly staffed by teachers who had to take time from their classrooms to render first aid to minor injuries.

Mrs. C. J. Payne, vice chairman of Gray Ladies, working with the cooperation of the Chairman of Volunteers, Mrs. J. H. Davitt, and Mrs. William Kiser, Chairman of Gray Ladies, initiated the program.

A special program was initiated on post to teach new Gray Ladies in classrooms and on-the-job to handle first aid situations between 10 a.m. and 2:30 p.m. on school days. These volunteers do not administer medicine.

Cooperating with the Gray Ladies were the principals of Westlawn Junior High and Madison Pike Elementary Schools, L. J. Morris and J. H. Grinstead,

Dr. Raymond Christian, Superintendent of City Schools, Col. Harry McClain, Post Surgeon, and Clifford Harmon, Red Cross Field Director at the Arsenal.

Instructors in the first aid courses included: Mrs. H. D. Mitman, Mrs. A. Schumacher, Mrs. C. N. Thran, Mrs. R. P. Barnard, Mrs. C. J. Payne, Mrs. William Kiser, Mrs. F. C. Gay, Mrs. J. E. Batterson and Mrs. H. A. Lawson. The first aid courses were in addition to the regular Gray Lady training the volunteers receive.

The Huntsville Chapter of the Red Cross will take over in April to expand the program. Women are currently training to take care of other city schools where the service is needed.

Mrs. Bergmann Is Party Bridge Winner

The Party Bridge Group sponsored by the Officers Wives Club

AOMC to Celebrate St. Patrick's Day

An Irish dinner, two floor shows and the Gene Lewis Sextet will highlight the annual St. Patrick's Day Party at the Officers Open Mess March 18.

The ARGMA sponsored event, open to all members of the mess, is slated to get under way at 6:30 p.m. with an Irish dinner. On the menu is Irish stew, corn beef and cabbage and a fish stew.

The dancing, which gets under way at 8:30 p.m., will be preceded by a "Happy Hour," with the first floor show scheduled for 9 p.m.

had six tables in play at last Thursday's meeting at the Squirrel Hill Officers Club.

Mrs. R. A. Bergmann was high with Mrs. R. B. Ross, second, and Mrs. A. V. Garrabrant, third.

"Party Day" bridge and the regular monthly luncheon of the Redstone Arsenal Officers Wives Club will be combined March 21.

COL NEWHALL HONORED—

The former commandant of the Army Ordnance Guided Missile School, Col. H. S. Newhall, and Mrs. Newhall were guests of honor at a dinner held by Col. Charles W. Eifler and the OGMS staff last week. Now in the Personnel and Training Division of the Office of Chief of Ordnance in Washington, Col. Newhall is shown here as he spoke at the dinner. Left to right are Mayor R. B. Searcy of Huntsville, Mrs. Newhall, Col. Eifler, Mrs. Searcy and Mrs. John G. Zierdt.

OPEN 9 A.M. TO 8 P.M. DAILY

At the Service Club

I don't know just what the elements will be doing between now and the day the article goes to press, but today I can look out the window and see Spring sunshine and people walking about outdoors without shivering. This is the kind of weather for outdoor sports, and I would like to remind you that we have archery equipment, bats and balls, shuffleboard, tennis rackets and badminton, among others for check-out here at the Club.

On our regular schedule, we have our usual dance classes on Wednesday night, the 8th, starting at 1930 hours.

The Shutter Club will meet on Thursday night March 9 at 1800 hours, then a Chess Contest will get underway at 2000 hours.

Friday night, the Recorded Phase of the All-Army Entertainment Contest for 1961 will begin at 2000 hours.

March 11, Saturday, a tour headed for Vulcan Park in Birmingham will leave the Club at 1330 hours. For this you will need to sign up in advance. So drop by the office and be included.

Sunday morning, March 12, hot coffee and donuts will be served at 0930 hours. At 1330 hours, a pinocle contest will be held. Our weekly record dance will begin at 1900 hours under the theme of "Record Hop."

Then, of course, Monday night is an evening of games night, beginning at 2015 hours.

The Bridge Club will meet at

1930 hours in the small lounge on Tuesday.

HISTORY: The Post-Wide Pool Tournament held here the 23rd, 24th and 25th of February was a hotly contested battle that ran one day over its expected schedule. Twenty organizations sent entries. After three days of some really outstanding playing, Pvt. Tommy J. Britton of the 224th Ordnance Detachment, UTC, OGMS, came out on top as Post Pool Champion. Runner-up was Pfc. Walter V. Pruskey, 226th Ordnance Detachment, UTC, OGMS. James Lynch, Thomas George, and Alexander Schleber assisted as officials.

Those of you who dropped by the Club on the night of February 25th were somewhat surprised, it seems, to find that the Ling Branch Saloon from Dodge had opened with barkeepers dispensing soft drinks. It wasn't quite as sudden as it seemed. The EM Council planned the evening. The entire evening was deliberately planned to be so relaxed that a few introductions skipped that night are now in order. Among the entertainers were "emcee" Brett Combs; folk-singer, Harry Ennis; dancer, Sylvia Turner; pianist, Bill Aldrup; singer, Dick Winn; and vocalist, Nancy Hitzke. Then there was August "Freida" Kaluzny and Leroy "Gesso" Ramin, who unfortunately shot the bartender, thinking it was all part of a skit. We lose more bartenders that way. The bartender was Ed Vienneau, may he rest in peace.

Winners at the gambling casino that evening were Michael Howard, Joyce Covington, and Angel Rodriguez. Covering the various

LT. COL. E. V. LAU Lt. Col. Ernest V. Lau Joins ARGMA Industrial

Lt. Col. Ernest V. Lau, a recent graduate of the Armed Forces Staff College in Norfolk, Va., has been named the special assistant to the Director of Industrial Operations for the Army Rocket and Guided Missile Agency.

Col. Lau entered the Army in July 1941 and was commissioned a Second Lieutenant after completion of Officers Candidate

gambling tables and money cage were members of the EM Council and a few "big timers" imported from Chicago for the night.

Charlie Lyle's Orchestra provided the music, and very good music it was, for a dance at the Club Sunday night. Usually we have record dances on Sunday nights. Drop in for one sometime, they are fast becoming one of the more popular features on the Service Club program.

That's all I have for this week, but keep your eye on the column, as we have some interesting programs coming up in the future including the return of the Hilding Holmberg Orchestra for one of the dances.

—Margaret

Five Lieutenants Promoted at ARGMA

Five officers have been promoted to the grade of first lieutenant at the Army Rocket and Guided Missile Agency, an element of the Army Ordnance Missile Command.

The officers were Edward T. Diehl, a native of Petersburg, Va.; James M. Fultz, of Maloneton, Ky.; James R. Miller, Detroit, Mich.; Donald E. Moore, Bon-

School at Aberdeen Proving Ground, Maryland.

During WW II, Col. Lau saw action in Asia. He participated in both the China Defensive and Offensive Campaigns.

After serving in various Ordnance staff positions, which included a two year tour as Commanding Officer of the 6th Ordnance Battalion in Austria, he attended the Ordnance Advanced Officers Course. He also attended the Command and General Staff College.

After graduation he was assigned in Vietnam. Col. Lau was awarded the Army Commendation Medal by the Secretary of the Army in 1957 for accomplishments in Vietnam. Col. Lau also served in several assignments in the Office, Chief of Ordnance in Washington, D. C.

A graduate of State Teachers College in Bloomsburg, Penn., the colonel and his family reside at 445 Rice Drive, Redstone Arsenal, Alabama.

ners Ferry, Idaho; and Thomas F. Morris, Pound, Va.

Lt. Diehl, a graduate of Virginia Polytechnic Institute, serves as a project officer for the Hawk missile program in the Control Office.

Lt. Fultz, a staff officer in the Anti-Missile Missile and Space Defense Projects Office of the Research and Development Directorate has a degree in chemical engineering from the University of Dayton.

A graduate of Western State College, Bowling Green, Ky., Lt. Miller serves as the Chief of the Calibration Laboratory of the Quality Assurance Division in Industrial Operations.

An electronic engineer in the Industrial Directorate of ARGMA, Lt. Moore received a degree in electrical engineering from Gonzaga University and entered the Army in August 1959.

Lt. Morris is an electrical engineer in the Engineering Division of the Industrial Directorate. He received a degree from Virginia Polytechnic Institute, where he majored in electrical engineering.

All five attended the Ordnance Guided Missile School. Following graduation in April, they were assigned to ARGMA.

Foxworth Is Presented 30-Year Service Emblem

Maj. Don R. George Retires; Is Aviator, Transportation Staff

Maj. Don R. George, aviation staff officer in the U. S. Army Ordnance Missile Command transportation office, has retired from active duty.

He has accepted civilian employment in Miami, Fla.

Assigned to the Army Ordnance Missile Command in July, 1953, he served as chief of the Aviation Section before going to the Transportation Office.

A holder of the Air Medal with 11 Oak Leaf Clusters, he served with the 19th Engineer Combat Regiment, Italy, in 1943. He participated in the Naples-Foggia, Rome-Arno, North Apennines, and Po Valley campaigns. After World War II, he attended San Marcos Army Air Force and Field School and the Field Artillery School. Assignments as a liaison pilot followed.

In Korea from September 1950 to October 1951, Maj. George served with the 25th Infantry Division, receiving the Distinguished Flying Cross. After an assignment as aviation officer at Ft. Belvoir, Va., he became commanding officer of the 937th Engineer Aviation Company of the Inter-American Geodetic Survey at Ft. Clayton, Canal Zone.

In addition to the Bronze Star Medal, and other decorations, the major holds the Senior Army Aviator Badge and the Liaison Pilot Badge.

ARGMA Librarian Presented Award By Gen. Zierdt

Lewis H. Foxworth, a staff member of the Army Rocket and Guided Missile Agency's technical library, received a certificate marking thirty years of Government service recently from the ARGMA Commander, Brig. Gen. John G. Zierdt.

The award was made in a ceremony in Gen. Zierdt's office. Foxworth, a native of Fayetteville, Tennessee, is a retired Army captain. He saw duty with the Army of Occupation during World War I and also saw action in North Africa, Sicily, Italy, France and Germany during World War II.

Mr. Foxworth, who has been with ARGMA's technical library for five years, lives with his wife, Grace, and daughter, Lyndia, age eleven, at Route 6, Fayetteville, Tenn.

His wife is the former Miss Grace Posey, daughter of Mr. and Mrs. James Posey, Route 4, Petersburg, Tenn.

Contract to Sperry Covers Further Work On Sergeant Missile

Sperry Utah Engineering Laboratory has received contracts in excess of four million dollars from the U. S. Army Ordnance District, Los Angeles, for continued work on the U. S. Army's Sergeant

THIRTY YEARS SERVICE—Lewis H. Foxworthy, an Army civilian employe of the Army Rocket and Guided Missile Agency, was presented a certificate for thirty years of Government service, by Brig. Gen. John G. Zierdt, ARGMA Commander, recently.
20 YEARS AGO: February 1941—New draftees line up for chow outside a mess hall at Camp

weapons system, it was announced last week.

Included in the new funding are amounts of \$1.7 million for Sergeant repair parts, \$1.5 for industrial production and \$950,000 for research and development work. The money is for additional funding on current contracts.

The Sergeant, a solid-fueled, surface-to-surface Army ballistic missile, is now in industrial production at Sperry Utah. It is scheduled to become available for troop use in production quantity during 1961.

Sperry Utah is prime contractor for the Sergeant system. The

Army Ballistic Missile Agency is technical supervisor.

The Judge Advocate Advises

Enforcement of Support

The Uniform Reciprocal Enforcement of Support Act, enacted, sometimes with modifications, in forty-eight of the fifty states, has as its purposes (1) the improvement of the means to enforce duties of support across state borders and (2) the creation of uniformity in the states' laws concerning enforcement of the duties of support across state borders.

As amended in 1953 and 1958, the model of the Uniform Reciprocal Enforcement of Support Act provides for criminal enforcement, civil enforcement, and inter-state registration of support orders.

Under the Act's provisions, the governor may demand from another state's governor the surrender of any person found in the other state who is charged in the first state with the crime of failing to provide for the support of someone in the first state, even though the person was not in the first state when the crime was committed. The governor of the first state may also surrender on demand by the governor of any state any person found in the first state who is charged in the other state with the crime of failing to provide for the support of a person in the other state.

The Act also provides means whereby support proceedings may be expeditiously brought in a state to which a person with a duty of support has moved, called the "responding state" in the Act. The state from which a person with a duty of support has moved is called the "initiating state" in the Act, if a proceeding under the Act is commenced within the state. After the person owing support leaves the state of those to whom he owes support, a petition may be filed, for those to whom support is owed, in a court in the initiating state.

If that court finds that the petition states facts from which it may be determined that the person owes a duty of support and that a court of the responding state may obtain jurisdiction of the person or his property, the

court is to so certify and send copies of the petition and the court's certificate to a court in the responding state, or to the information agency in the responding state, which agency will forward the papers to the proper court in the responding state.

When the court of the responding state receives the papers from the court of the initiating state, the responding state's court shall docket the cause, notify the prosecuting attorney (whatever his title), set a time and place for a hearing, and try to obtain jurisdiction over the person who allegedly owes support.

The responding state's court is to inform the initiating state's court if the responding state's court fails to obtain jurisdiction. If the responding state's court obtains jurisdiction, the prosecuting attorney has the duty diligently of orders are to be sent to the initiating state's court.

If the responding state's court finds a duty of support, it may order the person to furnish and subject the person's property to the order. Copies of all support orders are to be sent to the initiating state's court.

When the responding state's court receives payment from the person owing support, it sends the payment on to the initiating state's court, which then applies the payment to the persons to whom the support is owed.

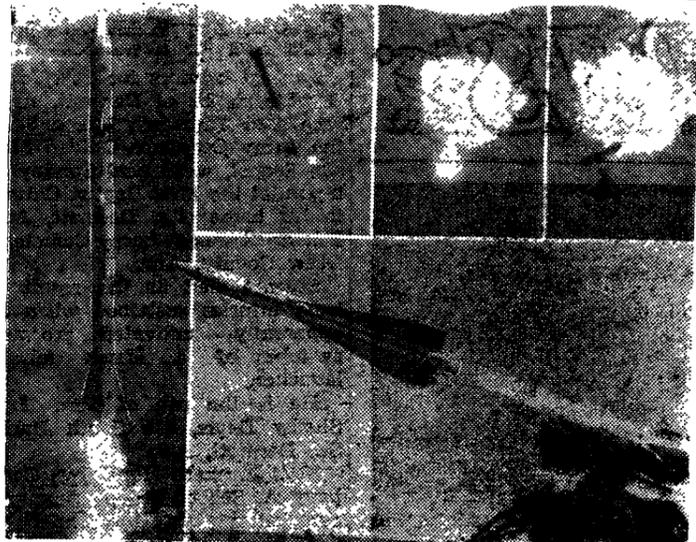

The act provides for exchange among the states of lists of the addresses of the courts having jurisdiction under the Act.

If the initiating state fears the person sought may flee from the responding state, the initiating state may include in its petition a request that the responding state's court arrest the person in order to retain jurisdiction over him.

An example of the procedure under a typical version of the Act might be as follows: A wife in State A leaves her husband, but remains in State A. Her husband then moves separately to State B. Two months later, a child of the wife and husband is born in State A. The husband refuses to return to the wife and child and refuses to support the child.

The wife files a petition for support of the child in a court in State A. When the court in State A finds the petition sets forth facts from which it may be determined that the husband owes support to the child and that a court in State B may obtain jurisdiction of the husband, the court in State A transmits the papers to the court in State B.

If State A's court requests that

IN FOR THE KILL—The Army's Hawk air defense missile (bottom right) blasts off moments after a Corporal ballistic missile (left) is fired as the Hawk's target. Series of photos at top shows the Hawk closing in for the "kill" high over the White Sands Missile Range, N. M. The missiles came together at a combined speed of several times the speed of sound.

State B physically restrain the husband for support proceedings, State B's court may order the husband's arrest. The prosecuting attorney of the county in State B being notified initiates a support action in State B's Court may hear evidence about the case and order payment by the husband, which payments the court will then transmit to the court in State A for payment to the wife for support of the child.

If the duty of support is based on a support order of another state, the person to whom support is owed may register the order with the clerk of a proper court in a second state having jurisdiction over the person owing support. In that second state the

proper court will then hold hearings and confirm or refuse to confirm the order. The support order as confirmed will then have the same effect as if it had been originally made in the second state.

HQ. DET. USAG winners of the RSA League championship and "Little Dixie Classic" runner-up: (Top row) SP4 Purnell, PFC Apke, and SP4 Nichols. (Bottom row) SP4 Williams, PFC Woolery, and 1st Lt. Rutherford. Not present when picture was taken: SP4 Greeson, SP5 Smith, and SP5 Matienzo.

Service Conducted For SP4 Stuart

Funeral services for SP4 Jerry E. Stuart, 21, of Dermott, Ark., who died Thursday, March 2, at the Army Ordnance Guided Missile School, were held Sunday at 2 p.m. at the First Baptist Church in his home city, Dermott, Ark. Interment was at Lacey Cemetery, Drew County, Ark.

Stuart died as the result of head injuries sustained when he apparently activated power switches of a Hawk missile launcher.

He is the son of Mrs. Lois Shelby Davis, 215 South Hardy St., Dermott, Ark.

SP/4 Kenneth Hunsicker, Company A, School Troop Command, escorted the body to Dermott.

A board of officers has been appointed to investigate the accident. A memorial service for the deceased will be conducted by Chaplain Alister Sinclair at 1600 hours Wednesday, March 8, at the RSA Post Chapel.

CO. A, OGMS winners of the "Little Dixie Classic" championship and Redstone Arsenal League runner-up: (Top row) 2nd Lt. Morris, Pvt. Vallair, 1st Lt. Neidhardt; (bottom row) 2nd Reynolds, SP4 Bourgeois, SP5 Hunsicker, and PFC Adams. Not present for picture; SP5 Knight.

Movie Schedule

Wednesday, March 8, "No Time for Sergeants" (F) starring Andy Griffith and Nick Adams. Time 1800 and 2030 hours.

Thursday-Friday, March 9-10, "The Misfits" (M) starring Marilyn Monroe and Clark Gable. Time 1300 and 2030 hours. INCREASED ADMISSION: 40c.

Saturday, March 11, "Hangman's Knot" (F) starring Randolph Scott and Donna Reed. Time 1300, 2030 hours. SPECIAL MATINEE: 1000 hours.

Sunday-Monday, March 12-13, "Flaming Star" (F) starring Elvis Presley and Barbara Eden. Time Sunday 1400, 1800 and 2030 hours.

No. 2; and Hq, USAG respectively.

Three matches will be played nightly Monday, Tuesday, Thursday, and Friday beginning 1800 hours during the regular season. The regular season will terminate April 14.

The first six teams that complete the regular season play will then enter a double elimination tournament beginning April 17 and ending April 21. Trophies will be awarded to both championship and runner-up teams of the regular season and tournament play.

All-Stars Get Ready for Tourney

After being twice defeated, by Woody Anderson All-Stars, the Redstone Arsenal All-Stars overwhelmed the UTC All-Stars 80-54.

Five Redstone Arsenal All-Star players broke double figures; Merritt (18), Huffstetler (17), Nichols (14), Godsey (11), and Bourgeois (10), for a well balanced scoring combination. Merritt was high scorer of the evening dropping in six field goals and six free throws.

The UTC All-Stars had four players in double figures; Adams (13), Hollenbaugh (10), and Thom-

Three Volleyball Matches Scheduled

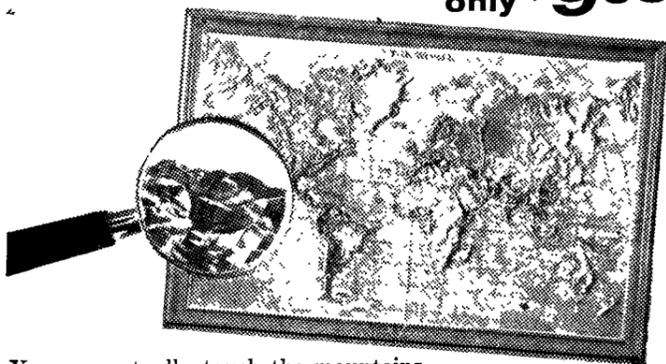

The RSA Volleyball League action began March 1 with three matches played at the Post Gymnasium.

UTC; Co. "A", OGMS No. 1; and Hq. OGMS, each won two consecutive games to win their match against ARGMA; Co. "A", OGMS,

son (10), and Gribble (13). During the first half the RSA All-Stars led 34-22 with Nichols scoring 10 of his 14 points. The second half attack was led by Huffstetler with 15 points of RSA's 46 points.

Two practice games now remain before the All-Stars travel to Ft. Gordon for the Third Army Tournament, March 13-17. These games are scheduled with Woody Anderson at 6 p.m., March 4 in the Redstone Arsenal Gym; and Huntsville VFW, 7 p.m. March 8 again in the Redstone Arsenal Gym.

Troop Commander Retires at OGMS

Lt. Col. Claude E. Cason, commander of School Troops at the Army Ordnance Guided Missile School since January of 1958, retired yesterday after more than 20 years of active Federal service.

A native of Ft. White, Fla., Cason entered the Florida National Guard in 1937 and went on active duty in 1940 as first sergeant with the 124th Infantry Regiment. He was commissioned a second lieutenant in February 1943 at Fort Benning, Ga., and served in the European theater with the 46th Armored Infantry Battalion during World War II.

During the Korean conflict he served as a company commander and was assigned as a motor officer in Japan following the war. He became director of technical training at the Ordnance Automotive School at Atlanta, Ga., in

1951, and served in various capacities as an Ordnance officer in Europe before being assigned to the Missile School.

LT. COL. C. E. CASON

His decorations include the Bronze Star with oak leaf cluster for valor, the Purple Heart and the Combat Infantryman's Badge.

The Casons reside at 7600 Saxon Dr., Huntsville. They have three children.

ABMA Names Committee To Study Achievement Award Nominations

The Army Ballistic Missile Agency has named a committee to study agency nominations for a new Department of the Army Research and Development Achievement Award.

The award will be made to scientists and engineers who are selected on the basis of technical improvements they made to materially improve the Army's capability or contributions to the nation's welfare.

The award can also be given to non-technical personnel who make contributions within the group.

ABMA committeemen are John McDaniel, Jess Huff, Charles Hussey, William Grafton and Holm Hinrichs, all of Research and Development; Horace Lowers of Industrial Operations and Herman Libby of Field Service Operations.

In addition, Stuart Clarke, director of ABMA personnel, will act as chairman in a non-voting capacity.

Welding Technique Discussed by AOA

Twenty members of the American Ordnance Association's Welding Section met today at Redstone Arsenal to discuss welding techniques and processes, particularly those used in missile systems.

The group also heard briefings on Army Ordnance Missile Command organization, functions, and mission.

Harry Ingram of the Air Reduction Company, is chairman of the meeting for AOA.

Col. J. S. Jefferds, Assistant Chief of Staff for Industrial Operations at AOMC welcomed the group to Redstone Arsenal March 1. Later they toured several facilities and laboratories.

The AOA is composed of members of all military services and civilians interested in Ordnance activities.

The meeting will conclude this afternoon.

SAFE DRIVING AWARD

Julius C. Brannon, Mail and File Clerk in ABMA's Industrial Operations, recently received a one year safe driving award. Col. O. M. Hirsch, Chief, Industrial Operations presented the award.

Brannon is a native of Centre, Ala., where he attended Cherokee High School. He is married to the former Miss Evelyn Evans of Meridian, Miss., and they have one daughter, Phyllis Ann, 4.

Washington's Legacy A Greatness of Spirit

What so many people both in England and America couldn't understand about him was why a rich Virginian landowner should associate himself with the cause of revolution. He, if any man, should have been the perfect Tory, fiercely loyal to the King, contemptuous of such rabble-rousers as Samuel Adams and Tom Paine.

For, weren't the Washington's a fine old English family whose members had played a part in their nation's history since the 12th century? Wasn't this man the very picture of a wealthy patrician? Yet here he was—throwing in his lot with rebels against the Crown. He, who had served his King as an aide to Gen. Braddock in the French and Indian War, was now turning against his own kind.

All of these people, aghast at George Washington's decision to lead the fight for American independence, simply didn't understand the man. He was not in rebellion against British law and order; he respected them deeply. But he also believed in the right of liberty and property; he was convinced that the British laws prior to the Revolution interfered with the right of free government to which all British sub-

jects were entitled.

Moreover, he was American-born and he loved his country and his countrymen — their free, pioneering spirit, their appetite for living close to nature. These were more precious to him than fealty to a monarch he had never seen. But this was incomprehensible to the Tory mind.

Washington was not a bookish aristocrat; he was a man of action, capable of the greatest fortitude when things went against him—capable also of fanning that fortitude in the hearts of men around him. As Commander-in-Chief of the American Army, and later as President, his spirit—not always serene; often passionate—kept bickering subordinates and politicians essentially behind him. It is one of the brighter promises in the history of the young nation, he fathered that he died knowing he had the gratitude and deep love of his countrymen. (AFPS)

MODERNETTES

A Spaghetti Supper to be sponsored by the Modernettes Social Club of Huntsville will be held in the Ideal Bakery Hostess room on the Decatur Highway March 11 and will be served from 6:30 until 8:30 and will dance until midnight.

This is the second in a series of informal get-togethers sponsored by the club for single adults in Huntsville.

Anyone desiring to attend should contact Mary Mazza, Ext. 876-3204, Doris Gilbert, Ext. 876-2955, or Mary Vivian Simmons, Rohm and Haas Company.

PROMOTED TO CAPTAIN

Lt. Daniel Malone of ABMA's Training Office, has been promoted to captain. He is Project Officer there for the Honest John, Littlejohn, Missiles "A" and 11 guests will be served from 6:30 vision of Special Weapons.

Capt. Malone lives here on the Arsenal with his wife, the former Miss Anne Farquhar, daughter of Admiral Allan S. Farquhar, 2507 River Road, Jacksonville, Fla. They have one daughter, Shannon, 7 months.

Capt. Malone is the son of Col. Paul B. Malone, Jr., retired, of 620 Seabrook Parkway, Jacksonville.

After graduating from the U. S. Military Academy at West

Point in 1955, Capt. Malone entered the Army as an officer. He came to ABMA around the first of September last year from the Ranger Department of the U. S. Army Infantry School at Fort Benning, Ga.

He has received the Army Commendation for duty with the 3rd Armored Division in West Germany and the oak leaf cluster for duty while serving with the Infantry School at Fort Benning.

CENTURY FLASHBACK—One hundred years ago Army troops were in brisk training as this gun squad demonstrates. Picture was taken, probably in Virginia, by famed photographer Matthew Brady. It is one of many being revived to mark this year's Civil War Centennial observances.

BUNN JOINS TEST AND EVALUATION STAFF AT ARGMA

Wiley C. Bunn, a native of Tuskegee, Ala., has joined the staff of the Army Rocket and Guided Missile Agency's Test and Evaluation Laboratory as an instrument design engineer with the Instrument Development Branch.

Bunn was previously employed as an instructor in the mechanical engineering department at Auburn University, engineer for Gas Light Co. of Columbus, Ga., and chief engineer and vice president of Tidewater Natural Gas Co., of Wilmington, N. C. He received his B. S. degree in mechanical engi-

KATZ JOINS ABMA FIELD SUPPORT

Harold K. Katz, former Executive Assistant to the Commander of ABMA, has been named Executive Assistant for ABMA's Field Support Operations.

Mr. Katz was born in Warrenburg, N. Y., and attended high school at Glens Falls, N. Y. In 1931 he received his bachelor of science degree in Electrical Engineering from Union College, Schenectady.

Entering the Ordnance Reserve Corps in 1937, and going on active duty in 1942, he served at Sioux Ordnance Depot, Sidney, Neb., from 1942 until 1946, as Operations Officer. He is presently Commander of the 3381st Civil Affairs Group, U. S. Army Reserve, in Albertville. He received the Army Commandation Ribbon for duty at Sioux Ordnance Depot in 1945.

Mr. Katz and his wife, the former Miss Louise Dubee, make

neering from Auburn University in 1950.

He married the former Miss Margaret Anne Beverly of Troy, Ala. The couple and their four children live at 2007 Princeton Blvd., Huntsville.

How's Your Know How?

1. What is Esperanto?
2. What have the following in common: (a) diamond; (b) pearl; (c) nonpareil?
3. What is the fiercest blow that can be struck by an animal?
4. Who was the "Father of the Atlantic Cable"?
5. If a thermometer reads 32 degrees centigrade would it be cold enough for water to freeze?

(Answers to Quiz)

1. A language designed for universal use.
2. They are old type sizes in printing.
3. The stroke of a whale's tail; it can smash even a large boat.
4. Cyrus W. Field.
5. No. Water freezes at 0 degrees centigrade and 32 degrees Fahrenheit.

MONROE RECEIVES AWARD

H. E. Monroe, Sr., recently accepted a plaque from representatives of the Victor Adding Machine and Calculator manufacturers, on behalf of Monroe's employees who have the greatest machine sales increase in the past year in 11 Southeastern States.

The plaque was presented at a banquet at the Kings Inn. Fifty employees of Monroe Business Equipment and their spouses attended.

Presentation was made by Victor's Regional Manager, Charles F. Himeback. Also present was Paul Waller, District Manager, Birmingham.

their home at Sunset Drive, Guntersville. They have one son, David, 20, who is an electrical engineering student at Georgia Tech.

Neptune's Daughter

IN OR OUT OF THE WATER, Hollywood starlet Ziva Rodann adds allure and sparkle to any beach outing. A lovely brunette, Ziva has lately toiled at Metro-Goldwyn-Mayer studios.

Safety tip for today: During this time of year, it is doubly important that a driver should leave enough room between his car and the car ahead to allow for unexpected stops. On icy pavement, it takes twelve times as far to stop as it would on dry pavement.

Boss: "Why are you late to work?"
Secretary: "A man followed me all the way."
Boss: "Is that any reason to be late?"
Secretary: "But he walked so slowly."

Test Men Continue Training on Job

As part of a continuing effort to indoctrinate its personnel in all facets of missile testing, the ARGMA Test and Evaluation Laboratory has initiated a program of cross-training among its technicians.

Currently, experimental missile testers from the laboratory's Test Area No. 4 are being taught basic data reduction techniques. The training is conducted on an informal basis and during periods of inclement weather when activities at the test area are at a minimum.

Normally, the test technicians have the responsibility for conducting tests and obtaining data records using both optical and electronic instrumentation.

The data is actually processed by the laboratory's Data Reduction and Computations Branch utilizing a wide variety of precision measuring, digitizing and plotting equipment.

By learning to operate this equipment, the missile testers acquire new skills. More important, they are impressed by the accuracies involved in processing data which, in turn, prompts them to obtain more precise data records.

The program was coordinated by Charles L. Northrop, Associate Director of the laboratory's Test Management Office. A native of Ansonia, Conn., Northrop graduated from the University of Connecticut where he majored in electrical engineering. During 1959, Northrop was Chairman of the Interservice Committee for Technical Facilities, Southeastern United States.

He is married to the former Miss Jane E. Hilliard of Greenwich, Conn. The Northrop's and their three children live at 1018 Bayfield Drive SE, Huntsville.

Seat Belts Help Make Driving Safe

Safety practices off the job as well as on are again being emphasized by the Redstone Arsenal Safety Office.

One of the items stressed, and one which the National Safety Council is also stressing, is the safety belt in automobiles. In the beginning Safety men agreed that a majority would not adopt the safe practice of installing and using safety belts because the cost was high though not prohibitive.

Manufacturers, in developing the belts, have cut the cost of the belt and installation to less than one third of the original figures.

Some of the reasons safety engineers offer for stressing the need to use safety belts:

1. Keeps passengers from being ejected if a car crashes or rolls;
2. Reduces the impact of a body against an interior surface;
3. Helps keep the driver in his seat after a jolt and enables him to maintain better control of his car;
4. Helps the individual survive crashes which would otherwise mean certain death;
5. Helps reduce fatigue by keeping the driver in a comfortable upright position while driving long distances.

The safety men point out that safety belts don't prevent all injuries, nor do they help in a "non-survivable" collision when a car is crushed or demolished. Nevertheless the belts do have "fans" among the safety engineers.

75 to Take Confirmation Vows Friday, March 10

Bishop Joseph Durick, D. D., Auxiliary Bishop of the Mobile-Birmingham Diocese will officiate at the Catholic Confirmation Service at the Post Chapel on Friday night, March 10 at 7:30 p.m.

Approximately 75 children and adults are in the confirmation class.

Bishop Durick and approximately ten visiting priests will be dinner guests of Monsignor Bernard M. Burns, Catholic Chaplain, at the Squirrel Hill Officers Club preceding the service.

HOURS FOR POLIO SHOTS ARE SET AT DISPENSARY "B"

Maj. John C. McBroom, executive officer of the U. S. Army Hospital, announced that "Polio season is just around the corner so the Army is preparing to take steps to immunize military personnel and their dependents."

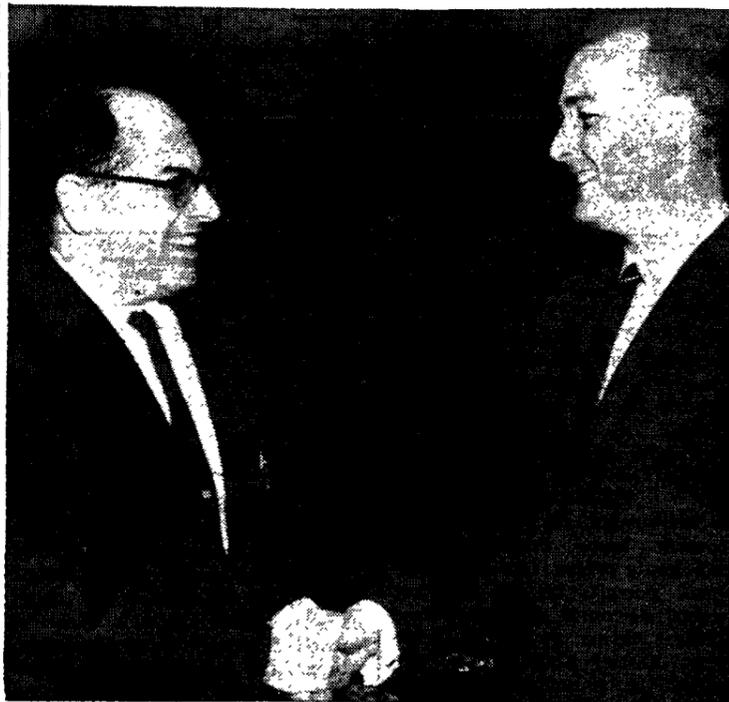

The shots may be received at Dispensary "B" between 10 a.m. and noon by the military personnel; between 1 p.m. and 4:30 p.m. by military dependents. The dispensary is open Monday through Friday for this immunization.

"A single shot could save hours of sorrow and possibly a life," Maj. McBroom said.

FIGHT MONDAY

The Floyd Patterson-Ingemar Johanssen fight will be on closed circuit TV at the Post Theater on Monday night, at 7 p.m. Tickets will be sold from 6 to 7 p.m. The set at the Service Club will also be on the same station. Tickets at both locations will be \$1 and will be available to military and dependents over 14.

ARMY AVIATION HISTORY. Lt. Frank E. Humphries became the first Army officer to solo in the Army's first airplane at College Park, Md., on Oct. 26, 1909.

SCIENTIFICALLY SPEAKING—Albert M. Rubenstein, assistant director of the Advanced Research Projects Agency, left, is greeted by Dr. Nils Muench, chief scientist of the Army Rocket and Guided Missile Agency, in Huntsville recently. Rubenstein conferred with scientists and engineers of ARGMA on research approaches to developing possible ballistic missile defenses. The Advanced Research Projects Agency of the Department of Defense is charged with the responsibility of conducting advanced research which may lead to development of missile and space systems.

DEBTS GROWING--

WITH NO RELIEF IN SIGHT?

Sales, bargains, cars on the easiest of terms, credit cards by the dozen—it's no wonder we often obligate ourselves to the limit, or beyond—unless we plan.

The low monthly payments are appealing, too. But when you have eight or ten of these, you may be in financial trouble.

So, you just have to let someone wait for their payment. Reminder notices from creditors tell you something's got to be done.

And this is where your Credit Union comes in—with a solution. By combining these debts into a low-cost Credit Union loan, you'll be ahead **two** ways. First you may lower your monthly payment to what you can easily handle and you'll save on the cost of credit.

We'll be pleased to help you!

Revisions in Military Justice Proposed

Revisions in the Military Justice System of the Armed Forces were recommended in a recent study made by an Army General Officer Committee the Department of the Army announced today.

This study was in line with the provisions of the uniform code of military requirement that it be continuously reviewed. This has been done ever since its enactment.

The committee report is being studied by the Department of Defense.

The Committee's recommendations would affect the three types of court-martial by eliminating summary and special courts-martial and setting up an indeterminate sentence system comparable to that used in many civilian criminal jurisdictions. Other recommendations would increase membership on the court of military appeals, and establish a sentence control board to determine sentence appropriateness.

Conducted by a committee headed by Gen. Herbert B. Powell, Commanding General, United States Continental Army Command, and composed of other general officers in command and staff positions. The Uniform Code of Military Justice Study was ordered in October 1959 by the Secretary of the Army, who called for a general inquiry into good order and discipline in the Army, including specifically a study of the nine-year old code.

The committee concluded that the code will not work well in wartime. Its findings showed that commanders do not have enough authority to take corrective action without resort to trial by summary or special court-martial, which in many cases places an unwarranted strain upon the record of a soldier.

Some offenses tried now by summary and special courts-martial range from misdemeanors to noncapital felonies. A summary court can adjudge a sentence including confinement for 1 month and a partial forfeiture of pay for one month. The maximum sentence that can be imposed by an Army special court-martial is six months confinement and partial forfeiture of pay for the same period any offense punishable under the code may be tried by a general court-martial, which may adjudge any punishment authorized by the code including the death penalty.

The committee recommends authorizing corrective action on the

part of the commander to handle nearly all disciplinary matters now tried by special and summary courts-martial which would be eliminated.

The committee recommends giving the battle group commander jurisdiction to take corrective action by imposing up to 90 days restriction or 90 days corrective custody on and detention of one-half of four months pay for forfeiture of one-half of three months pay. Records of command correction would be kept as reference for personnel actions on subsequent correction and court-martial purposes, but would be destroyed at the end of enlistment or term of service.

The accused, if he refused to accept such punishment under article 15, could demand a trial by a general court-martial, consisting of one lawyer-officer who would judge him in this instance. The sentence that could be imposed would be limited to six months confinement and two-thirds forfeiture of pay for a like period if otherwise authorized for the

offense.

General courts-martial proceedings were cited by the committee as too slow and cumbersome. Pre-trial procedures were noted as duplication with legal technicalities taking too much of the court members' time.

The committee recommends that if an accused requests and the convening authority approves, a general courts-martial for any noncapital offense may be conducted by a law officer only without any members on the court. The law officer, except when convened on an accused's demand for trial in lieu of command corrective action, could impose any authorized penalty except death.

They would provide further that any general court-martial may be convened without the members present to dispose of motions and other purely legal matters. The committee also recommends, where the defense is not complicated and where the offender is readily available that there be only one pre-trial investigation. Presently as many as four are conducted.

The committee proposes no

floor on sentences in its recommendations. Rather, as quickly as prisoners could be rehabilitated they would be returned to duty. They recommend setting up a sentence control board by the Secretary of the Army. The board would examine sentence appropriateness. It would have the power to cut, suspend or otherwise modify sentences but could not increase them. The board also would perform the functions of a clemency and parole board, and could recommend special cases to the United States Attorney General for treatment under the Youth Correction Act.

To assure stability in military law, the committee would increase membership in the court of military appeals from three to five, with two of these limited to four years service, one to be appointed every two years.

The recommendations grew from the committee's search for fairness, simplicity, speed and stability in the administration of military justice. The committee noted that these objectives can be accomplished, resulting in better discipline, and at the same

time improve the protections afforded a soldier.

Sources of information used by the committee in its study included comments and recommendations of all officers with general courts-martial jurisdiction in the Army. Comments of heads of departments of the Army agencies were studied comments of more than 150 Judge Advocates and 50 Military Defense Counsels were considered.

In addition, the attitudes and opinions of almost 2,000 enlisted men and 100 company, battalion and battle group commanders were surveyed and considered. The committee also studied the military codes of other countries, including the United Kingdom, Canada, France, Italy and the Netherlands."

The guest was amazed to see a dog playing poker with the rest of the family.

"My," he exclaimed, "what a smart dog."

"Aw, he's not so smart," said the head of the house. "Every time he has a good hand he wags his tail."
