VOL. X; NO. 51

REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

MAY 9, 1962

Secretary Hodges Is Visitor

Sen. John Sparkman Also in Party

Secretary of Commerce Luther H. Hodges, and Alabama's Senator John J. Sparkman, took a quick look at Army missile products before a speaking engagement in Huntsville Saturday.

A display of Army missiles in front of the Army Ordnance Missile Command headquarters included the Pershing, the Army's selective range ballistic missile mounted on an XM-474 tracked vehicle; the Nike Hercules, anti-aircraft missile now defending major American cities; the Lacrosse, the accurate and mobile field artillery guided missile.

The two brothers of the ballistic artillery rocket family, Honest John and Little John, also were on display for the Washington visitors.

At an AOMC briefing, the Redeye, man portable defense against low flying aircraft, and the M-72, hip pocket rocket with a tank killing punch, were shown to the party.

Included in the group landing at Redstone Airstrip Saturday (See SEC. HODGES on Page 2)

Secretary Stahr Resigns Office

Washington (AFPS) — Secretary of the Army Elvis J. Stahr, Jr., has resigned his post with the government to become President of Indiana University.

The resignation is effective June 30. His successor has not been named.

President Kennedy, in his letter accepting Secretary Stahr's resignation, said he did so with "regret and reluctance."

Secretary Stahr was President of West Virginia University before assuming the post of Secretary of the Army in January 1961.

He was a Rhodes Scholar and an Army officer in WWII.

CHAPLAINS WILL EXCHANGE PULPITS WITH PASTORS

Three Redstone Arsenal chaplains will exchange pulpits with local Huntsville clergymen on Sunday, May 20, as part of Armed Forces Day celebration.

The Post Chaplain, Lt. Col. John E. Batterson, will exchange pulpits with Rev. Elmer Johnson, pastor of the First Methodist Church, and president of the Huntsville Ministers Association.

The post Chapel Cathedral Choir, under the direction of CWO DeWitt Mytinger, will appear with Chaplain Batterson at the First Methodist Church. They will sing two selections, and will be accompanied on the organ by Pvt. George Gucker, a graduate of the Stanford University College of Music.

Rev. Johnson, who will conduct the 10 a.m. service at the Post Chapel, will bring the First Methodist Church choir with him. The Choir is under the direction of Kenneth Turvey, well-known director of the Huntsville Community Chorus.

Maj. Alister Sinclair, Deputy Post Chaplain, will exchange pulpits with Rev. John Sadler, pastor (See CHAPLAINS on Page 2)

Rubber Use in Missiles Under Discussion in 3-Day Meeting Here

Army scientists will stretch discussions on rubber in missiles and rockets over a three-day period at the Army Ordnance Missile Command during the Army Elastomer Meeting which began yesterday.

Elastomers include any rubber-like material, and their use in missiles is extensive. An elastomer is used to bind propellants in solid fuel motors, for gaskets and couplings in liquid fuel motors, and as insulators for the miles of electrical wire used in a missile system.

Members at the meeting, representing most of the Army's technical services and the National Aeronautics and Space Administration, will present a variety of problems on the use of rubber in missiles.

Dr. David C. Sayles, chief of the AOMC Propulsion Laboratory's (See RUBBER USE on Page 3)

BLOODMOBILE VISITS

The Red Cross Bloodmobile will be at Bldg. 7110 on May 16 between the hours of 8:30 a.m. and 2:30 p.m.

TWO CONTRACTS LET FOR REDEYE, LAW WEAPONS

Two contracts totaling \$5,080,870 were awarded Friday for work on the Redeye missile and the M-72 light anti-tank weapon (LAW).

Flightex Fabrics, Inc., a division of Hesse-Eastern, Everett, Mass., received \$3,095,180 award for production of launchers for the LAW at their Brockton, Mass., plant.

The LAW is a small, light and simple to operate weapon for use by the individual soldier against tanks, armored vehicles, concrete bunkers, earth-filled log emplacements and sand bag fortifications.

A \$1,985,690 award went to the Pomona Division of General Dynamics for continued research and development work on the Redeye air defense guided missile. Work will be performed at the Company's Pomona, Calif., facility.

The Redeye is a man-portable, missile system designed to provide combat troops with their own capability for destroying low flying enemy aircraft.

The Boston Ordnance District will administer the Hesse-Eastern contract, and the Los Angeles Ordnance District the General Dynamics contract.

100 Students and Teachers Chosen for Summer Jobs

One hundred people will add another "r" to their "readin', ritin' and rithmetic curriculum at the Army Ordnance Missile Command this summer—research.

These are the college and university faculty members, graduate and undergraduate students, and high school science teachers and students who will work in the AOMC Research and Development Directorate under the summer employment program.

Between 400 and 500 applications have been received, from areas as widespread as New York and Texas, at the AOMC Civilian Personnel Office for the summer jobs in the physical science areas. There are no clerical or stenographic positions within this category.

A committee from the R&D Directorate and the CPO have reviewed the applications and made

selections based on the needs at AOMC and the qualifications of the applicants. All jobs are in the physical sciences which apply to the rocket and missile missions at AOMC.

At the present time, 90 commitments have been made. A final list of appointments will be announced by June 1, and those hired will report for work early in June.

Five of those selected will be graduating high school students receiving "Junior Fellowships" awarded under the sponsorship of the Redstone-Tennessee Valley Chapter of the Armed Forces Communications and Electronics Association. This program offers financial aid to high school students from this area who plan to enter college this fall and pursue the engineering and scientific fields.

Army Missiles on View—

50,000 Guests Expected For Annual Open House

Parachute Jump by Guardsmen to Be Additional Highlight

Army missiles will stand front and center in full inspection dress Saturday, May 19, Armed Forces Day, when Redstone Arsenal opens its gates to an anticipated 50,000 visitors.

Armed Forces Day is the once-a-year opportunity for the public to see results of the work done by the Army Ordnance Missile Command and the Ordnance Guided Missile School. The Marshall Space Flight Center, also will participate in the Armed Forces Day activities.

An elite group of Alabama National Guardsmen will share the spotlight with the Army rockets and missiles Armed Forces Day.

The Guardsmen are members of the 20th Special Forces Group with headquarters in Birmingham. Some 150 Guardsmen will execute a parachute jump as part of the Arsenal's Armed Forces Day open house.

The parachute drop is scheduled for 2:30 p.m. The drop zone is an area almost two miles long on one of the Army Ordnance Missile Command's small rocket test areas.

Special Force Guardsmen will land in an area where many small rockets and missiles will be fired during Armed Forces Day. As part of the observance, several lucky youngsters will actually push the buttons which fire the missiles.

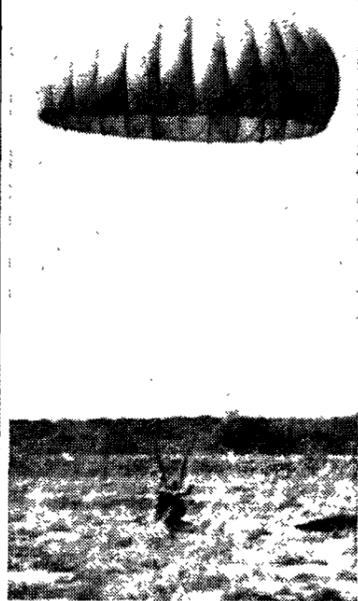

Also participating in the parachute exercise will be regular Army personnel from Fort Bragg, N. C. The jump will be from C-119 aircraft—the flying boxcars.

Members of the Special Forces Group are more than just weekend warriors; they are exactly what their name says—a special group.

Although headquarters for the Guardsmen is Birmingham, the Group is made up of personnel from throughout Alabama. Members who make parachute jumps must qualify by successfully completing parachute school at Fort Benning, Ga.

The 20th is one of four Special Forces Guard groups in the country. Other units are in Utah, Louisiana, and W. Virginia.

(See 50,000 GUESTS on Page 2)

SPECIAL FORCES JUMPER—A member of the 20th Special Forces National Guard Group makes a landing at Redstone Arsenal where he and 149 other Guardsmen will participate in a mass jump on Armed Forces Day. Several Guardsmen made a practice jump last week to check the terrain of the two-mile long jump zone.

FIRST REPORT ON FREEDOM BOND DRIVE IS DUE

At the end of the first week of the 1962 Freedom Bond Drive, the tally of new memberships is incomplete, according to Mr. John L. Edgar of the Army Ordnance Missile Support Agency Finance Accounting Office.

Last year 63 per cent participation was attained throughout the Army Ordnance Missile Command at the Arsenal among, both the Military and the Civilian personnel.

Canvassers have been named in each organization throughout the Command, and reports for the first week's effort will be available this week.

STARS AND STRIPES FOREVER—Col. O. M. Hirsch, Pershing missile project officer at the Army Ordnance Missile Command at Redstone Arsenal, Ala., looks through a 1918 copy of "Stars and Stripes" newspaper. The copy was printed during the era of General John J. Pershing, General of the Armies, after whom the Pershing ballistic missile is named. A picture of Pershing, the man, is at the top right corner of the paper and a model of the Pershing missile on its tracked vehicle sits on the desk.

Pershing Name Packed a Wallop in 1918, as Now

The Pershing missile project manager at the Army Ordnance Missile Command has inherited a bit of the past in a 1918 newspaper featuring his missile's namesake. General of the Armies John J. Pershing.

Col. O. M. Hirsch, project manager for the Army's speedy ballistic punch, found a copy of the 28th issue of "Stars and Stripes" in a trunk in the basement of his father's home.

The issue featured a full length photograph of General Pershing and a story announcing that the First Army, American Expeditionary Force, was in the field and ready to go.

The newspaper was printed in France on Aug. 16 during the time the might of American forces was massing to beat back the Germans. If General Pershing had had the missile which today bears his

name, its detonation on target would have exceeded the total firepower expended during all of World War I.

A front page story on "July Launching Equal Usual Year's" refers, however, to ships, not missiles.

Other signs of pre-missile Pershing days are scattered throughout the paper. Rooms in London's finest hotels are advertised at one dollar a day. The song "Roses of Picardy" was popular and haberdashers advertised clothes that were comfortable in or out of the saddle.

One news story announced that "Dad couldn't buy his new 1919 Spring Model Buggy to match the old sorrel mare because the War Industries Board had just put the lid on all chromatic effect in buggy decorations."

Remember the good old days?

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Wednesday at no expense to the Government by Jack W. Hoffhaus, Hartselle, Alabama, with exclusive regard for the reader interests of personnel at Redstone Arsenal, Alabama, in accordance with an agreement between the publisher and the Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama.

The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama, Bldg. 5250, Room A-136 Extension 876-4161. All advertising copy and payments therefor are received by Mrs. Zillah T. Heath, Huntsville, Alabama, P. O. Box 346, telephone 534-4701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$5.15 a year, or \$2.83 for six months. Alabama sales tax included. Mailing arrangements may be made with the publisher.

50,000 GUESTS

(Continued From Page 1)
The Group is composed of two companies. One of the companies is Company B, made up of personnel from Huntsville, Decatur and Florence.

Col. Henry Cobb is commander of Group Headquarters in Birmingham. Captains Bill Martin and Lee Cone are commanders of 5th and 6th Operational Detachment A in Huntsville.

Various tours, displays and briefings are being planned on the Arsenal, according to the chairman of Redstone's Armed Forces Day committee, Lt. Col. James O. Green.

A huge, tent-like inflatable structure called a pentadome will house many displays showing the work of the Army-industry teams which have produced such missiles as the Pershing and Nike Zeus. Both missiles will be displayed during the observance.

Many displays in the pentadome will allow visitors to operate them. Dozens of exhibits will be on display.

Armed Forces Day activities will begin with a parade in downtown Huntsville at 10 a.m. Many of the Army's missiles will enter the parade as well as marching troops and the 55th Army Band. More than a dozen high school bands from the North Alabama area also have been invited to march in the parade.

The gates to the Arsenal will open at 12:30 p.m. and open house will continue until 4:30 p.m.

During the afternoon many smaller Army rockets will be fired

on the Redstone test ranges. Firings have been scheduled for 1 p.m., 1:45 p.m., 3:30 p.m. and 4:15 p.m.

This year, youngsters who visit Redstone during open house will actually fire some of the rockets. They will be selected at the firing range and will be permitted to push the button which sends an Army missile on its way.

The rocket firings and other events will be televised by closed circuit, enabling visitors in the exhibit area to see what is happening on the firing ranges.

A new event this Armed Forces Day will be a parachute jump by the 20th Special Forces Group of the Alabama National Guard. About 200 Guardsmen will participate in the jump. The event also will take place on the firing range. It is scheduled for 2:30 p.m.

Central parking areas will be designated for automobiles and a bus shuttle service will transport visitors to activity areas on the Arsenal.

SEC. HODGES

(Continued From Page 1)
morning were John E. Horne, chief of the Small Business Administration; John H. Prince, Deputy Asst. Secy of Commerce for Administration and Lewis G. Odum, Staff Director and General Counsel for the Senate Select Small Business Committee.

The Washington administrators and legislators were greeted by Huntsville Mayor R. B. Searcy, Biene Spragins, James Record, Charles Cummings and Tom Thrasher.

Brig. Gen. Richard M. Hurst, Deputy Commanding General, Ballistic Missiles, AOMC, served as host for the Army portion of the visit.

The group also toured the Marshall Space Flight Center in the

100 STUDENTS

(Continued From Page 1)
A number of summer employees this year will be "repeats" who are coming back for their third summer of research work at AOMC.

According to Jack N. McConaha, acting chief of Civilian Personnel at AOMC, experience of the last few years has shown that the professors, teachers and science students hired during previous summers have made significant contributions to the Army's rocket and missile programs. They are not assigned to long term projects, but to areas where they can make valuable suggestions and record significant accomplishments within the three month time frame.

The summer employe program at AOMC has been in progress several years, but most active the past three. Due to reorganization and consolidation of AOMC R&D activities this year, there will be fewer summer employees this summer than last.

Those who come to work in June will be given a thorough orientation on many aspects of the rocket and missile programs at AOMC, and a tour of the research facilities.

Secretary Hodges was in North Alabama to give the principal address at the Huntsville Industrial Expansion Committee annual dinner meeting at the Officers Club on Redstone Arsenal.

Professor: "Students, because I am dismissing you 10 minutes early, please go quietly so as not to wake the other classes."

Most Dangerous Place? Your Home!

What's the most dangerous place on earth?

A battlefield or a construction job?

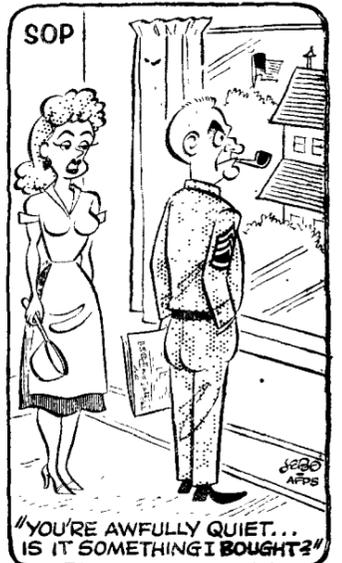

No, say the experts. It's your home.

Official statistics show that nearly as many lives are lost each year in home accidents as were lost in battle during the entire three-year Korean conflict.

According to the National Safety Council, 9,400,000 persons suffered disabling injuries in the United States due to accidents at home, public places and highways during 1960. More than 4,000,000

were injured in their own homes, while less than 2,000,00 were hurt at work.

Since the moment you started reading this story, for example, two Americans were injured in home accidents. One person is injured at home every eight seconds.

Technical Staff, will serve as chairman of the first technical session on Rubber Applications to Rocket and Missile Programs.

He also will open the presentations with a discussion of the application of elastomeric materials to solid propellants.

Other AOMC propulsion scientists and their topics are: Orvil Ayers, "Chemical Energy;" Henry Allan, "Present Binder Systems;" Clay Howard, "Characterization and Identification of Polymers;" Reginald Skinner, "Processing of Propellants;" William Thomas, "Physical Properties of Propellants;" and Donald Morgan, "Storage Stability of Propellants."

The AOMC portion of the presentations will wind up with a panel discussion of the topic presented by local propulsion scientists with Dr. Sayles serving as moderator.

The technical services will delve into research of new elastic materials and their current activities in the field of rubber products dur-

Standard 'Language' Set for Computers

A standard language for computing devices employed throughout the Department of Defense has been published by the Defense Supply Agency.

The U. S. Air Force introduced the standards two years ago and found them satisfactory. The revised issue incorporates the requirements of all Military Departments. It was prepared by the Electronics Systems Division of Hanscom Air Force Base.

Hereafter, the different symbolic languages and diagrams employed by manufacturers of digital computing devices will be replac-

ing the final two days of the meeting.

The meeting is being sponsored by the Quartermaster Research and Development Office, and is being hosted by the Army Ordnance Missile Command.

ed by the standard. It is described as Military Standard MIL-STD-806B, "Graphic Symbols for Logic Diagrams." Copies are available from the Government Printing Office of military contracting officers.

The standard language will be employed by engineering, training, and maintenance personnel of the Defense establishment who deal with the design, construction, installation and maintenance of digital computers.

Savings in manpower and dollars will accrue to the Military Departments. The need to retrain personnel each time a new digital device is installed will be greatly minimized. Maintenance of equipment will be simpler and more efficient operations are anticipated.

"WILL TAKE LESS" SALE

Open 'til 9 Sat. Nite — And Open All Day Sunday!

— We're Noted For The Cleanest Cars In Town! —

— A Sample Of Our Cars Are Listed Below —

1959 CHEVROLET

Bel Air Four-Door "6" with std. shift, radio, heater, new tires and it's a one-owner car with low mileage. Unusually clean. "Will take less" than \$1495.

1960 FORD

Fairlane "500" Fordor V8 with automatic shift, radio, heater, new tires and other extras. "Will take less" than \$1595

1957 CHEVROLET

Four-Door "6" with auto. shift, radio, heater and new tires. Has only 38,000 actual miles (spare tire never used). Like a new one. "Will take less" than \$1195.

1959 CHEVROLET

Parkwood 4-dr. Station Wagon with power steering, power brakes, V-8 engine, auto. drive, radio, heater and beautiful red and white finish. Like new. "Will take less" than \$1695.

1955 CHEVROLET

Two Door "6" with standard shift, radio, heater, new tires and 33,000 actual miles. Like brand new one. "Will take less" than \$695.

— SPECIAL —

1957 CHEVROLET

Bel Air Sports Coupe with radio, heater, turquoise and white finish. Nice car. Special Car. "Will take less than \$695.

1959 CHEVROLET

Bel Air 2-door with V8 engine, radio, heater, fender skirts and beautiful tan finish. It's a one-owner car with 28,000 actual miles and like new. "Will take less" than \$1495.

1959 FORD

Galaxie Tudor Hardtop with radio, heater, new tires, V8 motor, auto. shift, bronze and tan finish and it's a Southern car with 33,000 actual miles. We have two of these cars to choose from. "Will take less" than \$1295.

1957 FORD

Fairlane "500" Tudor Hardtop with radio, heater, and it is a sharp car. BARGAIN TODAY. "Will take less" than \$795.

1959 PONTIAC

Bonneville 4-Door Hardtop with power brakes, power steering, and shining white finish. Has only 20,000 actual miles. It's like new. "Will take less" than \$1995.

1960 PONTIAC

Catalina 4-Door Hardtop with power brakes, power steering, radio, heater, 2-tone mahogany finish, matching interior and it's a one-owner model with 23,000 actual miles. Another like new car. "Will take less" than \$2195.

1956 CHEVROLET

Four-Door with "6" cylinder engine, standard shift, radio, heater, brand new tires and only 44,000 actual miles. "Will take less" than \$795.

1958 PONTIAC

Four-Door sedan with radio, heater, new tires and it's 2-tone green. Fine looking car. "Will take less" than \$1095.

1960 KARMANN GHIA

Convertible with radio, heater, and 15,000 actual miles. Like new. "Will take less" than \$1595.

1960 VOLKSWAGEN

Sedan with heater and radio, and only 20,000 actual miles. "Will take less" than \$1295.

1960 PLYMOUTH

Four-Door "6" with auto. shift, radio, heater, and it's like a new one. One-owner car—spare tire never been used. "Will take less" than \$1395.

1956 STUDEBAKER

Champion "6" with std. shift, and 22,000 actual miles. "Will take less" than \$495.

— SPECIAL —

1957 DE SOTO

SPORTSMAN Hardtop 2-door with blue and white finish, and all DeSoto extras. Nice car. "Will take less" than \$695.

Key Places Filled in Intermediate Range Weapons System Division

Six men have been named to key positions in the Intermediate Range Weapons Systems Division of the Industrial Directorate.

They are William K. Jann, a native of Brooklyn, the director of the IRWSD; Paul A. Wisner, a Kansan who is Deputy; John R. Godman, Chief of the Engineering Branch from Oregon; Cecil R. Stump, head of Program Management Branch, from Ohio; Edward Foxworthy from Michigan, chief of Procurement; and Paul C. Noller, Senior AOMC Industrial Representative at the Field Liaison Office at Martin Company, Orlando, from Michigan.

The missile systems included in this program for the Army Ordnance Missile Command represent the old and the new: Lacrosse, an early missile was developed in 1951 at Cornell Laboratories for which the Martin Company is prime contractor for production. Present activity with this system is repair parts and product engineering. The former are usually obtained through nation-wide competition. Activity is confined to support of deployed units.

Many contractors are involved on the newer Pershing system for which Martin is contractually responsible to AOMC for over-all system compatibility. Contractors are involved in producing the system, including the ground and support equipment, training equipment and related items. Pershing, as the people at AOMC know, is replacing the Redstone.

William K. Jann

Mr. Jann was deputy director of ABMA's Engineering Division of the Industrial Directorate before the reorganization of AOMC; He came to Alabama from the Ordnance Ammunition Command at Joliet, Ill. During World War II he was in the Army Air Force; and when the war ended, he earned a degree in mechanical engineering at the University of Colorado.

A registered professional engineer in the State of Alabama, Mr. Jann has had formal training in special weapons and missiles as well as studying top management procedures. He is a member of

the American Ordnance Association, the Society of American Military Engineers and the Reserve Officers Association.

Mr. and Mrs. Jann have two sons, William Kenneth, Jr., 9; and Donald born Friday the 13th of April.

Paul A. Wisner

Mr. Wisner, Mr. Jann's deputy, received his degree at the University of Kansas in Business Administration and did graduate work in economics at the University of Wichita.

During World War II he was with the Naval Amphibious Forces in the South Pacific. He has worked for both industry and the government, including assignments with the Department of Justice and the Industrial Division. Office Chief of Ordnance. At the Arsenal he has worked in industrial with such missile systems as Redstone, Jupiter and Pershing. He too is a member of the AOA and the AUSA. Mr. and Mrs. Wisner have three sons: Jim, 18; Mike, 13; and Joe, 12.

John R. Godman

Mr. Godman is another who worked in ABMA before the reorganization. He was chief of the Structures and Propulsion Section of the Engineering Branch. He too came to the Arsenal from OCO where he was employed in the Industrial Division.

Mr. Godman is a graduate from Oregon State where he earned his degree in electrical and mechanical engineering. He is a registered professional engineer and a member of AUSA.

Mr. and Mrs. Godman have two daughters: Diana, 15; and Carolyn, 11.

Cecil R. Stump

Mr. Stump, a graduate from Bowling Green (Ohio) University with a degree in education, was employed by the Lima, Ohio Board of Education, later worked for the Veteran's Administration. He served in the Navy during World War II. He came to Redstone Arsenal in 1953 and was one of the original members of the ABMA team working on Redstone, Jupiter and Pershing.

A member of the AUSA, he is

also a member of the Redstone Arsenal Incentive Awards Committee. The Stumps have three children, Charles, 20; James, 17; and Terrace Lynn, 11.

Edward Foxworthy

Mr. Foxworthy was chief of the ABMA Procurement Branch for the Redstone missile system before the reorganization. He joined the organization in 1956, transferring from the Ordnance Tank Automotive Command Secondary Item Procurement Branch in Detroit.

During World War II, he was with the Army Air Force and after the war worked for an auto manufacturer in Detroit in procurement. In 1951 he joined the Ordnance Corps. He is a member of AUSA and AOA.

Mr. and Mrs. Foxworthy have four sons: Gary, 17; Leslie, 15; Paul, 12; and Edward, Jr., 10.

Paul C. Noller

In the Field Liaison Office at Martin Company, Orlando is Mr. Noller, Senior AOMC Industrial Representative.

Mr. Noller's staff monitors the engineering and manufacturing of Pershing and Lacrosse.

He is a graduate of Michigan State University. He was formerly an Ordnance officer assigned to the Maintenance Branch, Field Service Division at Redstone Arsenal.

Texas Company Gets Hercules Motor Work

The Intercontinental Manufacturing Co., Garland, Tex., has been awarded a \$368,055 contract for production of components for the Nike Hercules sustainer motor.

Work funded by the contract will be divided between company plants in Garland and New Brunswick, N. J.

Nike Hercules, an air defense missile now on site around key cities and defense installations, is under the management of the Army Ordnance Missile Command.

The St. Louis Ordnance District will administer the contract for the Army.

WE PLAY BALL WITH SERVICEMEN FROM BEGINNING TO END!

You'll like our friendly, matter-of-fact, handling of money problems

- We get right down to brass tacks.
- We make loans for every reason—to pay bills, to finance purchases, for furloughs and emergency trips.
- We even shuffle payment dates to suit your pocketbook.

Besides, it's smart to establish your credit with an organization that has offices from coast to coast; and in addition, maintains a World-Wide Loan Service especially designed for U.S. military personnel stationed overseas. The moment a G.A.C. Credit Certification Card is issued to you, your credit goes wherever you go.

Loans up to \$300

UNITED

GERMAN OFFICIAL INSPECTS HONOR GUARD—Maj. Gen. Francis J. McMorro, (left) Commanding General of the Army Ordnance Missile Command, and Dr. Hans G. Shiffers, Chief of the Budget and Finance Division of the German Federal Ministry of Defense, inspect an honor guard from the 291st Military Police Company. The Honor Guard met the German official at the Arsenal Air Strip when his plane landed last Thursday. Between the General and the German Official is Lt. Patrick Barney, Commanding the Honor Guard Platoon.

Boy Scouts and Explorers To Encamp on Arsenal

Hundreds of Boy Scouts and Explorer Scouts will be guests of Redstone Arsenal May 11 and 12 when the Madison District Boy Scouts Spring Camporee is held at the Normandy Farms Picnic Area.

Col. Thomas W. Cooke, Redstone Arsenal Commander, is making post facilities available for the annual event in accordance with es-

established Army policy of support to the Scouting program. CWO Spencer F. Ball, UTC, is Campmaster for the event.

The outing will begin with registration at 3 p.m., Friday, May 11. Scouts and their supervisors have been requested to use Gate No. 9 upon arrival. An orientation of assistant judges will be held at 7:30 p.m. Friday, and Scoutmasters

will be oriented at 8 p.m. Nature study and competitive events fill most of the two-day program. The Scouts will camp out Friday night.

Saturday's schedule begins at 6 a.m. and the Camporee winds up at 10 p.m. Camp inspection, competitive events, patrol cooking inspection and camp cleanups are included in the program.

A campfire will be held at 7 p.m. Saturday and will include the presentation of awards, including the Order of the Arrow.

Those named to judge the competitive events are: Arnold Miller, first aid; Richard S. Edmonds and Cliff Wilkinson, knot tying; Monte W. Korb, mapping; Alex T. Deluca, signs and signals; Donald E. Morgan and John Cotney, baseball throw; James R. Williams and Richard O'Bryant, firebuilding;

A. L. Singleton and Howard Young, carry relay; Frank Gardner and Bill Ingersoll, cooking and campcraft; John W. Barnes, compass course and nature trail; and Burton D. Niemeyer, Explorer events. Chief scorekeeper will be George Hughes.

The 55th Army Band is scheduled to play around noon Saturday at the event. Parents and others interested are invited to attend the campfire.

The Normandy Farms Picnic Area will be closed to picnickers during the two days of the Camporee.

Arsenal Class-Shop Building to Be Sold

A one-story class and shop building at Redstone Arsenal, which has become surplus, will be sold to the highest bidder, according to an announcement by the Army District Engineer at Mobile, Ala.

The building is 70 by 126 feet with concrete foundations and floor, wood walls, and built-up roof, and is being offered for sale "as is, where is."

It must be removed from the site by August 3. Terms of the sale require removal of all concrete. However, alternate bids on the basis of leaving concrete foundations and floors in place and completing removal by July 14, will be considered. Priority will be given to bids including removal

of all concrete.

Prospective bidders may obtain bid forms and make arrangements to inspect the property by contacting Roger W. Scuggin in the Office of the Area Engineer, Building 7155, Redstone Arsenal, telephone 876-3433.

Bids will be opened publicly at 2:00 p.m. C. S. T., May 31, at the Corps of Engineers district office, 2301 Airport Blvd., Mobile.

An Annapolis, a visiting admiral told a midshipman, "Name three of the great naval figures in our history."

The midshipman promptly replied, "Farragut, Jones—and, beg pardon, sir, but I didn't quite catch your name."

Bowling League Trophies Awarded at Club Brunch

Members of the Redstone Arsenal Officers Wives Bowling League met recently for brunch at the Squirrel Hill Officers Club to elect officers and to present awards.

Newly elected officers are: Mrs. E. V. Lau, president; Mrs. H. B. Holmes, III, vice president; Mrs. L. F. Deppensmith, secretary; Mrs. C. F. Means, treasurer; and Mrs. C. R. Graham, sergeant-at-arms.

Teams ending in first, second, and third place were the Rock and Rollers, Unpredictables, and Alley Cats. Bowlers on the first team included: Mrs. D. P. Vander Heyden, Mrs. E. M. Riddlehoover, Mrs. J. P. Dobbins, Mrs. R. E. Kelly, Mrs. F. W. Dill.

Second place team: Mrs. D. L. Byrd, Mrs. C. F. Means, Mrs. R. R. Javins, Mrs. C. H. Fuller, and Mrs. David Robinson.

Third place team: Mrs. E. V. Lau, Mrs. P. N. Boyer, Mrs. N. I. Reiter, Jr., Mrs. W. L. Allan, Mrs. H. H. Wishart, and Mrs. J. E. O'Grady.

High averages, during the bowling season, were held by Mrs. E. V. Lau, 162; Mrs. D. P. Vander Heyden, 158; and Mrs. H. B. Holmes, III, 156.

Individuals receiving awards for high single game, scratch, were Mrs. G. E. Robertson, 247; Mrs. Lau, 233; and Mrs. H. B. Holmes, III, 214.

High individual single game.

MRS. CRANE IS MEDALIST IN CHRYSLER CUP

Fifteen golfers qualified in the Chrysler Cup Tournament with Mrs. Glenn Crane scoring as medalist.

Results at the end of the first week are playoffs in the first flight between Mrs. Crane and Mrs. W. D. Lewis;

Second flight is between Mrs. William F. Kaiser and Mrs. W. W. Witten;

Consolation playoff will be between Ms. Hugh H. Watson and Mrs. B. F. Glisan.

Trophies will be awarded at a luncheon in the Rathskellar immediately following regular play next Wednesday.

with handicap, awards went to Mrs. J. R. Harris, 248; Mrs. W. D. H. Blackman, 242; and Mrs. N. B. Anderson, 239.

Mrs. Robertson rolled a 586 series to win first place in the high individual three game category. Second and third place winners were Mrs. Vander Heyden, 558 and Mrs. Lau with 551.

High individual three games, with handicap, winners were Mrs. R. F. Sullivan, 633; Mrs. S. C. Holmes, 622; and Mrs. N. B. Anderson, 614.

Mrs. C. R. Graham was presented the most improved bowler trophy.

Persons receiving pins for having bowled a 200 game during the past season were: Mrs. Anderson, Mrs. Riddlehoover, Mrs. Vander Heyden, Mrs. Javins, Mrs. Means, Mrs. Merle L. Hanson, Mrs. Harris, Mrs. Blackman, Mrs. H. B. Holmes, III, Mrs. Fred J. Babes, Mrs. Deppensmith, Mrs. Sullivan, Mrs. C. I. Thompson. Mrs. Lau and Mrs. Robertson received 225 pins.

The Sports Car Buffs

By Pat Patterson

Activity in the area is picking up almost as fast as the trees are turning green this spring and the average Buff is finding plenty to do with his time and automobile.

First on the agenda was the Second T. V. R. - S. C. C. A. Championship Slalom, held April 29th at the North Florence Shopping Center, Florence, Ala. With Dr. John Hardiman and Jim Baker at the helm, 33 cars made their two timed runs over the course which turned out to be much faster than the first of these events held in Huntsville. The run included slaloms of all sorts, serpentine, bricks to straddle and put your off-side wheels through and the like.

Fastest time of the day was turned in by Bill Mitchell, in a race prepared Alfa, with 1 min. 39.71 seconds. This, of course, captured the under 1300cc class as well.

Second overall and first in the

1300 to 1600cc class was Ray Mosling, in his tried and true Porsche, with a time of 1 min. 42.36 seconds.

Gene Salyer's Austin-Healy turned in the third best time of the day, a 1 min. 44.28 seconds to take first in the over 2 liter class while Guy Thompson won the 1600 to 2000cc class at 1 min. 44.77 sec. to finish fifth overall.

The general consensus of opinion was, "A great Event," and I am sure that everyone is looking forward to the next event in this new championship series. Watch this column for the announcement of the next one and come on out for a Sunday full of fun and motor sport.

The next item of interest was the meeting of the Twickenham Automobile Club last Thursday at Clark Steadman's here in Huntsville. This meeting marked the end of the '61-'62 winter-spring phase of the club's operation and the major item of business was the election of officers for the coming six months.

With thirty-two votes being cast the results turned out this way. For President, Vick Baucom (Chrysler). Vick was our Vice-Pres. during the last six months and I am sure will do a fine job in the number one seat.

The Vice President and Activities Chairman will be Bill McClain (Philco-OGMS). Bill has shown through his activities this past year that he is a real go-getter. I am sure that you will find a host of activities in the coming six months.

Keeping the Secretary-Treasurer's job among the distaff members of the club Miss Peggy Neal was voted into this hard and unappreciated office. It seems that we have quite a group of pushers in office this time and I am sure, if past performances is any measure, that all the enthusiasts in the area can look forward to an active and very enjoyable summer season.

With the end of a season arriving the club awarded it's revolving trophies at this meeting and the Patterson family again garnered the laurels in both the competitors and workers category.

Yours truly won the former by a slim margin over Vick Baucom and Bill McClain while Jan walked off with the workers trophy for the second time beating out Vick Baucom and this writer, respectively.

The first event for the new season is a Gymkhana scheduled for May 20. It seems that John Schlosser has given up organizing rallies and has turned to this phase of the sport. Keep your eyes open for further information on this one. It should be a goodie.

Remember! Defensive driving pays dividends. Yield your right of way and live to drive another day.

Sports By Handy

Stock Car Racing

A new sport is taking over; Stock Car Racing. Every Friday night at Hobbs Island starting at 1745 hours til 2030 hours the roar of racing engines are heard.

This sport does not cater to one class of sportsman, it is for all. When you go Friday watch for Car 22 driven by SFC Hammack, Signal Det. No. 2 and for the expert mechanic S/Sgt. Hawk, Co. B, OGMS, to bring honors to representatives of Redstone.

Normandy Farm Picnic Area

The Normandy Farm Picnic Area will be closed May 11-12-13 for the Boy Scouts Jamboree. Plenty of room for "picnicking" at the Tennessee River Area at Area No. 2.

Bowling

With heartiest congratulations from the Commanding Officer, Ft. McPherson, 3rd U. S. Army Headquarters, the Redstone All-Star Bowling team came home with the Third Army Bowling Team Cham-

3 Ft. Jackson, S. C. 9384
4 Ft. Stewart, Ga. 9322

The winning team consisted of Major Donald P. Vander Haden; S/Sgt. John R. Jones. M/Sgt. Edward B. McGowen; Sfc. Edward Blydenburgh; Sfc. John Kennedy; Sp4 Glenn Carlson; Pfc. Daniel Slak.

Softball

With the weather holding up, many teams are taking advantage of evening practice before the start of the season. With the league started on the May 7, ten teams in the league and with four games nightly on Monday-Tuesday and Thursday a lot of hustling, fast, and high scoring games are expected.

One late flash to all concerned: Spikes no longer than 5/8" will be authorized and must be purchased by the individual. Spikes are optional—not a must.

OLD SOLDIERS MEET at Redstone Arsenal. They had their basic training in 1939 in the Coast Artillery at Ft. Barrancas, Fla. They found one another here because SFC Pershing R. West (right), is always on the lookout for the rare serial number beginning 700. Left to right are: M/Sgt. James T. Stewart of the Army Ordnance Missile Support Agency's Field Maintenance Division, SFC James G. Quate. SFC West and SFC Quate are from the Ordnance Guided Missile School. In discussing the reunion at which they relived old times at Ft. Barrancas last weekend the conversation and the hands grow animated.

BUDDIES IN BASIC TRAINING IN 1939, THREE SOLDIERS REUNITED HERE

SFC Pershing R. West, chief clerk of Visual Prompting Branch at the Ordnance Guided Missile School, is always on the lookout for serial numbers beginning 700, a series that was discontinued in the 1940's and has become a rarity. It took SFC West's sharp eyes to spot two men with whom he'd taken his basic after all three were assigned at Redstone Arsenal. He spotted their serial numbers. He also discovered all three had had a break in service. The three old soldiers—planned and held a reunion because they not only have serials beginning 700 but also took Coast Artillery basic training at Ft. Barrancas, Fla., back in 1939 in preparation for an assignment in Panama which all three wanted. One of them, SFC James G. Quate, went to Pan-

ama. The recruiting posters fooled the other two—one went to San Diego and the other, M/Sgt. James T. Stewart, was assigned to an ack-ack battalion which eventually entered Europe through Belgium and ought across France into Germany. He transferred later and became the first sergeant with the 179th Tank Battalion, 45th Division in Korea. Meantime, SFC Quate was following a parallel route across Europe with the 102nd Infantry. He was also in Korea with the Engineers when Stewart was there, but the two never met. SFC West went to the Phillipines as a warrant officer. Last weekend they went to Ft. Barrancas to reminisce about the days when their very modern out-

fit acquired one of the first potato peelers in the Army and looked up some of the men who have returned to Florida to retire. There they relived the days when logs and sticks were used instead of real guns and ammunition, drill was held in the main hall of the barracks building on rainy days, and they never had to leave the barracks for any service from a haircut to laundry unless they were going to a movie. On \$21 a month, funds for entertainment were limited. They swam in the Gulf of Mexico at Ft. Barrancas which now belongs to the Navy, and retraced the path of march and maneuver which was once familiar. At present M/Sgt. Stewart, who earned a commission in the Infantry during World War II, is the noncommissioned officer in charge of the Electronic Maintenance Branch at the Field Maintenance Division of AOMSA. He is a grad-

uate of the Ordnance Guided Missile School. He and his wife live in a trailer off post. SFC Quate is NCOIC of the Officer Special Training Division at OGMS. The Quate family lives on post and includes a 12-year-old daughter, Sharon. SFC West's son, Coby, is a football star at 15. Daughter Linda is a year older. Sgt. and Mrs. West

own a home in Meadow Hills Subdivision. M/Sgt. Stewart's son, James T., III, is with the 24th Division in Germany. On a Florida shore, the three "old" sergeants toasted "old times" and reviewed a past when not one of them tipped the scales at more than 130 pounds.

METALS SOCIETY PLANS MEETING; OFFICERS NAMED

The Tennessee Valley Chapter of the American Society for Metals will meet May 10 at the Cornelian Hotel (on U. S. 21) in Decatur.

The program begins with a social hour at 5:30 p.m., followed by dinner at 6:30 p.m. and a technical session at 7:30 p.m. Mr. Jacon Greenspan of Watertown Arsenal Laboratories, Mass., will speak on "Developments in the Technology of Light Metals," a field to which he has made substantial contributions.

New chapter officers are: Chairman: E. J. Wheelahan, AOMC, who came to Redstone Arsenal last year after serving as Commander in the U. S. Navy and working as a civilian and a variety of Civil Service and industrial positions: vice-chairmen: James Lee, Ford Motor Co., Sheffield, and Felix LaLacona, NASA;

Secretary, Gene Gorham, Reynolds Aluminum Co., Sheffield; and treasurer, Richard Hopper, NASA.

Felix LaLacona (539-5238) and Richard Hopper (539-4401) are handling information and reservations.

PROTESTANT MEN TO ORGANIZE MONDAY NIGHT

Protestant men living at Redstone Park are forming a "Protestant Men of the Chapel" group with the initial meeting scheduled for 7:30 p.m. on Monday, May 14 at the Redstone Park chapel.

Charcoaled hamburgers with trimmings are on the menu.

On the business agenda are plans to be discussed for the future of the organization. Also during the business meeting, officers will be elected.

Interested individuals can contact Donald Hamilton, 7136-B Redstone Park (Tel. 536-0141).

Mrs. Harvey Heads Ladies' Auxiliary, Engineers' Society

Mrs. Arthur E. Harvey, Jr., will be installed as president for the Ladies Auxiliary to the Northeast Alabama Chapter of the National Society of Professional Engineers on May 15.

The meeting will be held at the home of Mrs. Harrison Rees, 8304 Hickory Lane, Southeast, Huntsville at 7:30 p.m.

Outgoing president, Mrs. R. E. Neal will report on the past year's activities including the program to sponsor a Scholarship Fund for an engineering student.

Other new officers are Mrs. Lawrence B. Haley, vice president; Mrs. Grover Dausman, secretary,

SOCIAL ^{and} CLUB EVENTS

Sojourners Chapter Sends Delegate to Convention

Redstone Chapter No. 353 of the National Sojourners hosted their ladies at a dinner and meeting in the Redstone Arsenal Officer's Club last Friday night.

The guest speaker for the occasion was Lt. Col. Charles E. Harrison of the USAOMC Signal Office.

Maj. Rudolph D. White of the Ordnance Guided Missile School was elected third vice president of the organization.

Maj. Joseph A. Justin was elected delegate to the National Convention which will be held in Baltimore, Md., this year on the June 15th weekend. With him will go Lt. Col. Grady S. Pepper, president, and Col. R. S. Bates, secretary.

Francis M. Finley, a recent applicant for membership passed away on April 26th. A minute of silence was observed in his memory. His name was then entered on the rolls of the chapter as a member.

Mrs. Hein, and Capt. Renaudin Win Prizes

Monday night party bridge drew ten tables of players to the Squirrel Hill Officers Club on Apr. 30

Winners for the women were Mrs. Elwood Hein, high, and Mrs. James Clift, second.

Winners for the men were Capt. William Renaudin, high, Mr. Homer Cobbs, second.

Reservations and cancellations

Protestant Women To Hold Bake Sale

The Protestant Women of the Chapel will hold a bake sale in front of the Post Exchange between 10 a.m. and 2 p.m. Saturday. Proceeds will be used to aid local Cuban refugees.

Mrs. Bill Holland and Mrs. George Houser are in charge of the arrangements. Donations of pastries, cakes, cookies, etc., may be brought to the site on the morning of the sale, or may be delivered at the Post Chapel the afternoon preceding. If the individual has no transportation, Mrs. Holland (877-5037) will pick up the items.

Toastmasters Add Two New Members

Redstone Toastmasters inducted Capt. Dave Morse and Mrs. Joe Kirshstein as new members at their weekly meeting.

Speaking featured several Toastmaster basic training speeches. Larry Wood copped first place with "Fallout, Facts and Fallacies."

The Toastmaster Basic Training Program includes twelve speeches designed to provide varied speaking experiences aiding speakers to improve speaking ability.

deadline is noon on Saturday. These are handled by Mrs. John Severeid.

PITTSBURGH PHYSICIST TO ADDRESS ASTRONOMICAL GROUP HERE THURS.

Rocket City Astronomical Association members will hear Dr. Manfred A. Biondi, Professor of Physics, University of Pittsburgh, talk on "Reactions in the Upper Atmosphere." 8 p.m., Thursday, May 10 at the University of Ala-

and Mrs. John T. Calhoun, treasurer. Mrs. John Caudle will be installing officer.

New business on the agenda is a coffee planned for the wives of visiting members of the Alabama Society of Professional Engineers on May 18-19 at the Blue Room of the Russel Erskine Hotel. The Coffee is planned from 10 a.m. until noon on May 19.

bama Huntsville Center Auditorium.

Dr. Biondi graduated in physics from M.I.T. and obtained his Ph.D there in 1949. He has worked as a research physicist at M.I.T., Westinghouse Research Labs and United States Naval Research Labs.

In his talk Dr. Biondi will touch on NASA's project High Water in which MSFC's recent Saturn 2 played a leading role. Dr. Biondi is expected to give some of the experimental results of this project by telling what happened to the water ejected into upper-atmospheric space.

Garden Club to Hear Mrs. Sam Burt

The Garden Club sponsored by the Redstone Arsenal Officers Wives Club will meet Tuesday night, May 15, at 7:45 p.m. at the Squirrel Hill Officers Club.

Guest speaker will be Mrs. Sam Burt of the Valley View Garden Club in Huntsville. Her topic will be "Fundamental Flower Arrangements."

ARMY DAUGHTERS LAUNCH TOY DRIVE FOR CHAPEL, NURSERIES

Daughters of the U. S. Army at Redstone Arsenal are beginning a "Toy Drive" to help restock the Post Chapel and the Redstone Rocket nurseries this week.

Toy boxes will be located at the Commissary and at the Chapel for contributions.

Members plan to be at collection points centrally located in the housing area between 9:30 and 10:30 a.m. on May 10. The points for pickup are: Niblo Drive and Dyer Circle intersection; Dyer Circle near Quarters 219-221; West Circle at Quarters 270-272; and at the junction of Hughes and Skinner Drives.

Individuals who wish to contribute toys and miss the collectors at the collection points, may call 877-4960 to arrange for pickup.

COINS TO BE DISPLAYED

The Athens Coin Club will sponsor a coin display Tuesday, May 15, in the penthouse of the First Federal Savings and Loan Association in Athens beginning at 7:30

Mrs. Robert Jackson Heads Bridge Group

At Thursday party bridge, Mrs. W. D. Burroughs made high score among the five tables in play at the Squirrel Hill Officers Club.

Second high was made by Mrs. R. W. Washburn, with Mrs. Paul Simpson in third place.

The group has selected a new chairman for the coming season, Mrs. Robert R. Jackson. She succeeds Mrs. K. V. Washbourne who was presented a silver bowl at the end of her term.

Reservations to play with the group should be in by noon on Wednesday. Mrs. William Phillips is handling reservations.

p.m.

The Athens Coin Club has extended an invitation to all interested numismatists to attend the regular meetings on the third Tuesday of each month.

AUSA Annual Party to Be Enjoyed on May 18

The Association of the U. S. Army plans the annual dinner and cocktail party at the Southern Cafeteria in the Huntsville Industrial Center, Meridian St., North, on May 18 beginning at 6:30 p.m.

Tickets, limited to 300 due to seating capacity, may be obtained at the arsenal from Mr. James Webb, Bldg. 5250, Army Ordnance Missile Command; Mr. Donald L. Voorhees at Bldg. 7101, Army Ordnance Missile Support Agency; Mrs. Helen Blanton, Bldg. 4505, Research and Development Directorate; Mr. Joseph Williams, Bldg. 4488, Industrial Directorate; Mr. William P. Burnett, South End Bldg. 5681, Field Service Directorate; Mr. Reavis O'Neal, Bldg. 3300, PIO Office, Ordnance Guided Missile School; and Mrs. Wanda Reed, Bldg. 4488, Room 309, Marshall Space Flight Center.

Mr. Henry Hall Wilson, Jr., Legislative Advisor to President John F. Kennedy is scheduled as the principal speaker with Peter Hackes of the NBC News staff in Washington slated to be Master of Ceremonies.

The meeting will include in-

Junior High Youth Fellowship Elects

The Protestant Junior High Christian Youth Fellowship elected officers for the summer season at a recent meeting.

The new officers are: John Fishback, president; Ann Casey, vice president; and Jim Nelson, secretary-treasurer. The Fellowship meets each Sunday at 5:30 p.m. at the Post Chapel Annex, Bldg. 3151, and all Protestant Junior High students are invited to participate.

Special features of the program during the month of May include missionary program, a panel which will discuss, "Is Honesty the Best Policy?" and a discussion of "Christian Symbols." Another feature of the May program is a picnic at Normandy Farms on Saturday, May 19 at 4:00 p.m.

Installation of new officers and is open to Couples. Tickets are being sold on a first come-first served basis as six dollars per person. Tickets include all expenses.

ARTHUR HARVEY IS SPEAKER AT VALUE ANALYSIS SEMINAR

Two men from the Value Analysis Office of the Army Ordnance Missile Command Industrial Directorate are at Sperry Utah Company, attending a seminar on Value Analysis.

Arthur E. Harvey addressed key personnel on the importance of Value Analysis in industry at the beginning of the session last week. The seminar at Sperry is for management groups. Mr. Harvey's visit was part of a tour in which he is visiting Chance Vought Company at Dallas, Texas, and General Mills and Minneapolis Honeywell at Minneapolis to review progress of the Value Analysis programs.

Ralph Crawford is attending the two-week seminar. Engineers are divided into two teams and assigned projects in areas of possible excess cost. Up to 75 percent dollar savings has resulted from this with no loss of reliability.

OUTSTANDING STUDENT AWARD TO HIGHLIGHT AIE MEETING MAY 14

Mr. James A. Owen, graduating senior of Industrial engineering from the University of Alabama, will receive the North Alabama Chapter, American Institute of Engineers outstanding senior student award for 1962 in Huntsville on May 14. The meeting is scheduled at the Sahara Motel.

Presentation will be by Professor George C. K. Johnson, head of the University of Alabama Department of Industrial Engineering.

Dr. Marvin A. Griffin, UA professor of Industrial Engineering, will deliver a talk titled "Department of Future Engineers. Dr. Griffin has been doing research

for the Engineering Council for Professional Development to help acquaint high school students with opportunities for engineers.

Mr. Dudley Reese, 876-2266 is handling reservations. The event begins at 6 p.m.

"Well, boys," said Jenkins, excusing himself, "I guess I'll have to go home and explain things to my wife."

"Explain what things?" asked a friend.

Jenkins shrugged his shoulders wearily. "How should I know?"

"OUR 60TH YEAR"

LEAFY DELLS, birdsong bells and a pretty maid seen through the trees are indications of the Summer almost here. The pretty miss is Miss Phyllis Holloway, clerk-stenographer in the Army Ordnance Missile Command Research and Development Directorate.

QUIZ

1. What modern baseball player was Most Valuable Player and pennant-winning manager the same year?
2. What is the difference between the decathlon and pentathlon events in track?
3. Duke Kahanamoku was the only man to hold an Olympic swimming title for a dozen years. True or false?
4. What animal has the same walking habit as the bear?
5. Is the term 'schuetzen' used in billiards, riflery or archery?

(Answers to Quiz)

1. Lou Boudreau in 1948 while managing the Indians.
2. Ten events is a decathlon; five in a pentathlon.
3. True. The Hawaiian star won the 100-meter freestyle event in record time in 1912, repeated the win in the next Olympics in 1920 and again in 1924.
4. The raccoon, which like the bear has naked full-soled feet and walks on the soles.
5. It's used in riflery and refers to the offhand shooting-standing position in which one arm or elbow is allowed to touch the body.

Birmingham Business Man Named by Dept. of Army

The Department of the Army recently announced the appointment of Mr. Roy D. Hickman as the new Civilian Aide to the Secretary of the Army for the state of Alabama.

Mr. Hickman is chairman of the board of the Alabama Engraving Company of Birmingham.

In his capacity as civilian aide Mr. Hickman will act as the state consultant and advisor to Army Secretary Elvis J. Stahr, Jr., on matters concerning the Army throughout the State of Alabama. Mr. Hickman was chosen for this important role because of his interest in Army affairs and his previous experience with the Army.

Missionary to Speak At Chapel Sunday

Miss Helen Rosser, who has served as a missionary to Korea for more than 35 years will be guest speaker at the Sunday evening Family Hour next Sunday at 6:30 p.m. at the Post Chapel.

Miss Rosser was taken by communists while serving at her mission station, and was a prisoner of the communists for three years. Her last missionary assignment prior to her recent retirement was at the Methodist Mission in Pusan, where she served as a public health nurse.

She was the founder of a boys town project in South Korea for begger boys, and this work still claims much of her interest. Miss Rosser will illustrate her talk with

colored slides.

Families are invited to attend this special service. Refreshments will be served in the social rooms following the service.

ANAESTHETIST—Maj. Elizabeth Artz administers oxygen to a patient in the operating theater at the Redstone Arsenal Army Hospital. The Major has been in the Far East and Europe during her 21 years of service. She first specialized in fever therapy, transferred to anaesthesia when wonder drugs made fever problems a thing of the past. Maj. Artz was near the battle line in Korea during the most heated fighting and served under buzz bomb fire in England.

Maj. Elizabeth Artz Will Chuck Army Nursing for Farmwife Career

For 21 years an Army nurse, Maj. Elizabeth Artz is looking forward to retirement and a June wedding.

She is the anaesthetist at the Redstone Arsenal Army Hospital and expects her replacement before she puts aside the tools with which she has worked for the past year at the Arsenal.

The Major is a native Pennsylvanian who is going back to Newcastle where she will live on a farm near her hometown, close to the Ohio border.

Her future husband is Mr. Carl Booher.

Maj. Artz spent three years at Ft. Devens, Mass. before she was assigned here. Her career in the

Army began with fever therapy but the advances in pharmacology which has produced so many wonder drugs has almost eliminated the need for fever therapists. So, Maj. Artz turned to anaesthesia as a specialty which she has practiced in hospitals all over the United States, in Korea, Japan and Germany.

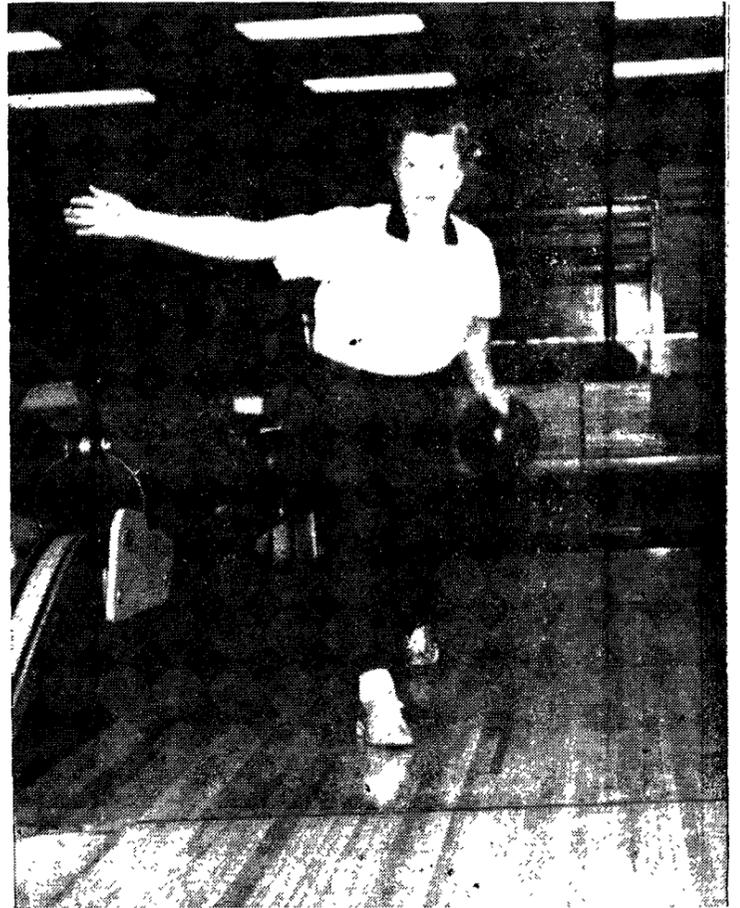

The major keeps busy during her off-duty time as well. At Redstone Arsenal she has had a piano, a luxury not available in more cramped nurses quarters in many sections of the world.

She bowls regularly and is a member of a team which is now second from the top in a league

in Huntsville. Her team was in first place until recently when the next highest team in the league out-bowled hers.

Serving on the front lines in Korea was no picnic according to Maj. Artz, but England was more frightening during the buzz bomb raids.

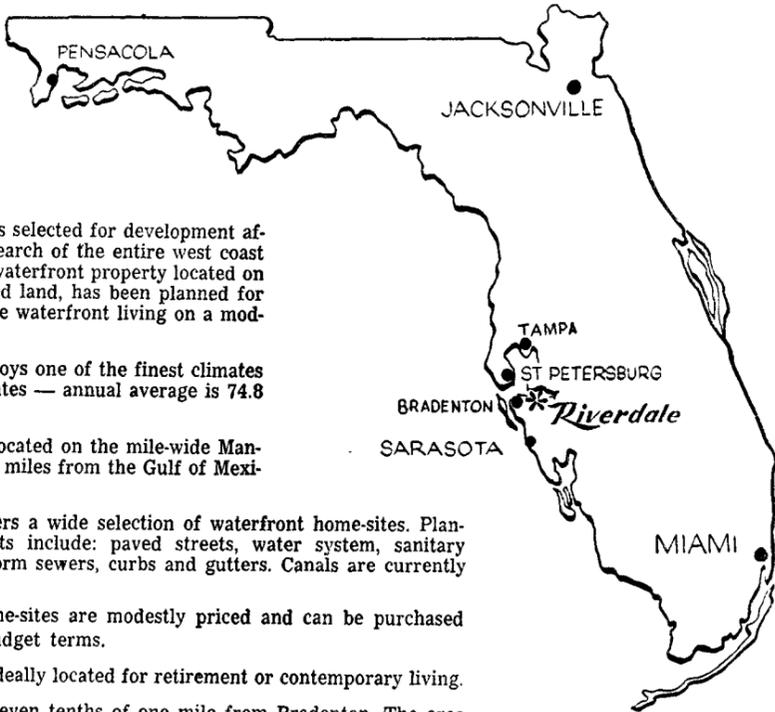

Maj. Artz is looking forward to her new career as housewife with enthusiasm. She fully intended to retire from the Army in May, but accepted an extension of 30 days when she was asked. She still plans her wedding date on June 28, even though her Army career does not end until June 30.

ARMY NURSE works hard, plays hard—Maj. Elizabeth Artz, anaesthetist at the Redstone Arsenal Army Hospital, is a member of a top-of-the-league bowling team in Huntsville. Stationed at the Army Ordnance Missile Support Agency a year, she plans a June wedding following retirement from the Army after more than 21 years of service.

Riverdale

A Fine Water Front Development
in the Heart of the Suncoast
area of FLORIDA

Riverdale was selected for development after a market research of the entire west coast of Florida. This waterfront property located on high, well drained land, has been planned for people who desire waterfront living on a modest income.

Riverdale enjoys one of the finest climates in the United States — annual average is 74.8 degrees.

Riverdale is located on the mile-wide Manatee River, seven miles from the Gulf of Mexico.

Riverdale offers a wide selection of waterfront home-sites. Planned improvements include: paved streets, water system, sanitary sewer system, storm sewers, curbs and gutters. Canals are currently 50% complete.

Riverdale home-sites are modestly priced and can be purchased on convenient budget terms.

Riverdale is ideally located for retirement or contemporary living.

Riverdale is seven tenths of one mile from Bradenton. The area offers a wide variety of shopping centers, churches, elementary and high schools and a Junior College.

Recreation activities in the area include: fishing, hunting, boating, water skiing, golf, gulf beaches and baseball — winter home of the Milwaukee Braves.

Transportation services to the area are the Bradenton-Sarasota Airport served by National and Eastern Airlines; Atlantic Coast Line Railroad, Seaboard Railroad; Trailways Bus Lines and U. S. Highways 19, 41 and 301.

Riverdale is a development of The Carolyn Company, Inc., a Florida corporation whose stockholders, officers and directors consist principally of active and retired Military Personnel.

or pleasure?

Either one—or both.
Most people buy the VW Kombi mostly for business.

A good buy.
It carries 1,786 lbs.—nearly twice the load of a standard half-ton—at half the cost per mile.

It's got lots of room. 170 cu. ft. of load space for potted plants or laundry bags or what you will.

Loads through big (4 ft. x 4 ft.) side doors or the back. Parks in four feet less space than half-tons. Never boils over or freezes. Can't. The engine is air-cooled.

Put in the two rear seats (they come with it) and you can carry eight people, station wagon style. Or, two, if that's a better number for you.

A great wagon for delivering a bouquet in person. A great wagon for taking the family out to the beach. (Plenty of room for beach balls, water skis, sand pails.) A great wagon for going places on vacation. (Plenty of room for luggage.)

The Kombi: the one that's discovered how to make business and pleasure mix.

DR. CARTER STRESSES TECHNICAL TRAINING IN N. CAROLINA SPEECH

Dr. W. W. Carter, chief scientist at the Army Ordnance Missile Command, said Friday the key to success in a variety of jobs in government and industry is technical training. He said scientific and engineering training applied not only to technical positions but management at all levels.

Dr. Carter made the remarks in an address to students and educators attending the Southeastern Colleges Science Conference held at N. C. State College.

"The glamorous fields of science are changing rapidly," Dr. Carter said. "You must not train yourself for two narrow a future. My advice is to concentrate on broad scientific fundamentals, then you can switch from one technical

field to another as necessary."

Using the Army Ordnance Missile Command as an example, Carter said one of the major factors in the quickening pace of technology has been military necessity.

"Any major nation today planning on a continuing existence must plan on heavy investment in military technology," he said.

"The fact remains that the Federal Government has the big scale research and development facilities which are needed for scientific research and progress. These facilities are just what is needed for education and training of substantial number of scientific and engineering students."

The missile scientist said the most vigorous and productive technical installations in the country today are showing a tendency to clump together in limited geographic locations. These locations usually are determined by close working relations between academic institutions and large scales applied science facilities.

He outlined the three basic elements to productive technical communities—teaching, research and application.

"Applied science facilities without academic inputs will last for a short time but eventually wither on the vine and lose their produc-

Weight Engineers To Hear Patent Attorney Tonight

Leonard Flank, assistant director of the U. S. Army Missile Patent Center, Army Ordnance Missile Command at Redstone Arsenal will speak during a regular meeting of the Society of Aeronautical Weight Engineers tonight at the Sahara Motor Inn.

The Society is a professional group which promotes weight control as a specialized branch of aeronautical engineering.

Flank's subject will be "Invention: What is it?"

The patent lawyer received his law degree at DePaul University, Chicago. He also has a degree in mechanical engineering from the University of Illinois. In addition he studied electronic engineering at the University of California and government contract law at the University of Virginia.

Flank is a member of the Bar in the State of Illinois and is registered as a patent attorney at the U. S. Patent Office, Washington, D. C. He is admitted to the Court of Customs and Patents in Washington.

Flank resides at 1502 Elmwood Drive, S.E., Huntsville.

Civic Symphony to Present Pops Concert Monday Night

The Huntsville Civic Symphony's annual Pop's Concert will be Monday evening, May 14, at 8:15 p.m. at the Huntsville High School.

The Community Chorus will be heard again this year in two secular numbers for orchestra and chorus. The program will open with Handel's Suite from The Water Music. An outstanding work will be the Dvorak Symphony No. 5 in E minor (New World).

The Pops will close with a rousing number, where the symphony's brass section comes forth in Morton Gould's American Salute.

Conductor Russell Gerhart has made rapid recovery from surgery last month, and will be conducting. Tickets will be available at the box office after 7:30 p.m. that night.

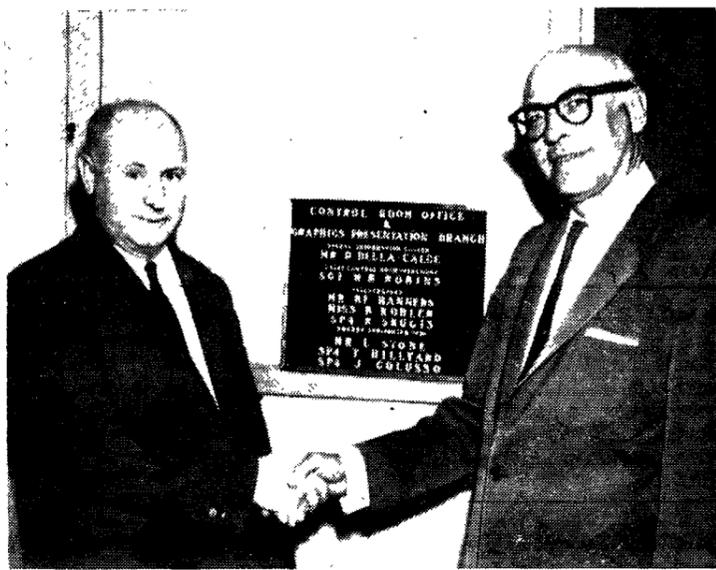

Adult admission is \$2.00, Enlisted personnel and students \$1. The 1962-63 Concert Season Subscriptions will also be available to the public May 14.

A flower exhibit has been set

up for the benefit of the

diverse people," he said. Similarly academic research and teaching eventually become sterile when denied contact with applications."

Dr. Carter has been with AOMC as chief scientist since 1959.

ROCKET AUDITORIUM TRANSFERRED—Mr. Lewis Stone (left), manager of the Rocket Auditorium, is welcomed by Sidney Mintz, Chief of Management for the Army Ordnance Missile Support Agency during transfer of the facility from the Army Ordnance Missile Command Research and Development Directorate to AOMSA. Mr. Stone will hold the facility available on the same basis as in the past, reserving it for conferences as scheduled. The phone number is 876-1661.

Gibbons to Make Study at Raytheon

Mr. William Gibbons, Value Analysis Office, will leave for Andover, Mass., May 7, to review Raytheon progress of proven cost

reduction ideas presently being implemented into the Hawk weapons system.

Raytheon and other AOMC contractors through AOMC guidance, periodically take long looks at manufacturing techniques and production designs to ensure possible cost reduction and improvement.

for intermission viewing by the Federated Garden Clubs of Huntsville.

The AOMC Value Analysis Office strives to make Army dollars go farther.

So You Think You're Expendable?

Or, 5 Good Reasons Why You Should Take a Vacation

(EDITOR'S NOTE: Second in a series prepared by Occupational Health Staff).

As early as April and May, we do and should begin thinking of our annual vacation—not just a day or two of annual leave which many employes dribble out here and there throughout the year; but an honest-to-goodness vacation of a week or longer in which we can forget about our jobs for awhile.

Most employes jump at the opportunity to take vacations — in fact, some may take too many. But, believe it or not, some personnel seemingly are afraid to leave the job long enough for a vacation.

According to our Occupational Health Service doctors, it is not at all rare to find upon examination of an employe, perhaps for suspected ulcer, heart disorder, or nervousness to find that the employe has not taken a real vacation in two or more years, has his maximum allowable annual leave, and has repeatedly had to take leave toward the end of the year or has lost some. Little wonder he or she has an ulcer, ticker trouble, or is shook up.

Some people have never really

learned how to enjoy themselves. They think leisure in general and vacations specifically are rather unimportant, if not actually silly.

Perhaps they think play is a waste of time, energy and money, or even selfish and positively sinful. "It may be all right," they say, "for children or old people to take it easy and have fun, but I have important work to do that takes ALL my time and energy."

Another familiar rationalization is, "yes, I'd sure like to take a vacation this year BUT: I just can't break away, who would do my work while I'm gone? Or things would just fall apart and I'd waste all the effort I've put in." Hog wash!

Are these people REALLY that unexpendable? Or is this simply another one of our many maneuvers for age enhancement? Just try it and see! Or are we afraid of getting our egos deflated by finding out how expendable we are—that the work and the world

will not stop during our absence?

Such people may know how to earn a living but they may not know how to live the life they earn. Of course work is important—very! Work is vital to everyone.

It is often (or should be) deeply satisfying and a great deal of fun. But work should never be regarded as the ONLY important or interesting thing in life. We need a combination of work and play if our lives are to be well balanced, full, free, truly healthy and happy.

Leisure is important because:

1. We Americans have more leisure than any people have ever had before in the history of the world—a challenge to us all to use it effectively.

2. Nobody can work all the time (neither play all the time), no matter how much he loves his work or how useful it is—without harm.

3. The combinations and strains of modern life cause tensions —

and unless we get enough enjoyment and relaxation to make up for them—tensions cause illness or depression or, at best, just plain grouchiness!

4. Most jobs fail to provide us with all the opportunities we need for creative, free, satisfying, and varied activity.

So here are five good reasons why you should plan to take a vacation this year:

1. Your employer, the government, has provided for you to take a paid vacation and hopes that you will use it to maximum benefit.

2. You owe it to your family. With the go-go-go paces of life that many of us lead, and each family member going according to his own schedule, little time is left for family fun all together.

3. You owe it to your job. Many people think that by keeping ones "nose to the grindstone" he can do the most effective job. However, to many peoples' regret they have found that continuous work without proper change-of-pace really results in loss of efficiency, decreased morale and motivation.

and increased hazard to emotional and physical health.

4. You owe it to your fellow workers. Its amazing how grouchy and hard to get along with all work and no play can make one. Of course some people should be on a permanent vacation, but with all of us it has some effect on our interaction with our fellow workers.

5. And last but not least you owe it to yourself. A third of your day is spent in work and thus is very important. But if that is all you are selling yourself short: you're not living—you're existing, and that without the spice which makes life fuller and more meaningful.

So why not plan for and take a real vacation this year. Keep in mind of course that half the fun is in the planning and in telling about it afterwards. Whether it's a trip to the Rockies, Florida, Timbuctoo, golfing, fishing, or simply sleeping in late and putting around the house; do the things you want to do. You can make it pay off in fun, health, and assurance of a fuller life.

4 R&DD OFFICERS ARE PROMOTED TO FIRST LIEUTENANT

Four second lieutenants of the Research and Development Directorate took the first step up the promotion ladder when they became first lieutenants last week.

Col. Raymond W. Burkett, director of R&DD, remarked that the first promotion was in many respects the most important, as he pinned silver bars on Joseph J. Freal, Lawrence F. Jelsma, Phillip R. Monson, and James W. Wright.

Lt. Freal is an infrared spectroscopist with the Chemistry Branch of the Research Laboratory, who uses the infrared equipment to evaluate materials for possible use in rockets and missiles. Lt. Freal received a BS degree from the University of Miami (Fla.), and the MS degree in physical chemistry from the University of Notre Dame.

Lt. Jelsma is an electrical engineer assigned as project officer in the Future Missile Systems Division. He received a BS degree in 1955 from Oklahoma State University and an MS degree in 1958 from Northwestern University, both in electrical engineering. Lt. Jelsma lives on post with his wife, Barbara, a daughter, Debra Lynn, 2, and a son, Lawrence, 8 months.

Lt. Monson is a project engineer in the Systems Requirements Branch of the Antimissile Missile Systems Division. He received an MS degree in physics from Stanford University in 1958, and has done post-graduate work in the field of chemical aerophysics. He lives on post with his wife, Beverly, two daughters, Melanie, 5, and Sean, 6 months, and a son, Hilary, 4.

Lt. Wright works in project management in the Future Missile Systems Division. He received a BS degree in 1959 and an MS degree in 1960, both in electrical engineering from the University of Illinois. He lives on post with his wife, Ruth, and a son, Michael, 1 1/2.
