Top Manager Receives AOMC Status Briefings

Gen. Besson Given Intensive Rundown

The top manager of a brand new Army Command visited the Army Ordnance Missile Command last week to learn the management details of the Army's missile center.

Lt. Gen. Frank S. Besson, Jr., Commanding General of the Army Materiel Command, arrived at Redstone Airstrip Monday at 5 p.m. and spent Tuesday in intensive briefings of the various parts of the AOMC organization.

A special briefing on the status of the Nike Zeus system was the first topic on the agenda for the new AMC commander. He heard a breakdown on the research and development, industrial, and field service programs for AOMC.

Financial management was the last topic discussed by General Besson before he departed on a

busy schedule from Redstone Arsenal Airstrip.

Lt. Gen. Besson served as Army Chief of Transportation before taking over his new command in March, 1962. He now heads an agency that includes all Army arsenals and supply agencies.

Other distinguished visitors to AOMC last week included Maj. Gen. William J. Ely, deputy CG of AMC, Brig. Gen. Fred P. Campbell, chief of staff of AMC, and Brig. Gen. David C. Lewis, Chief of Special Weapons, Army Research and Development.

The week before Gen. Besson's visit to AOMC, the Department of the Army released the following information concerning the structure of his Command and of the Army Combat Development Command:

"The Army Materiel Command. (See GEN. BESSON on Page 2)

Launcher Contract On Sergeant Goes To Dallas Firm

Award of a \$1,194,906 contract was made last week to Ling-Temco-Vought, Dallas, Tex., for the production of launchers for the Sergeant missile system. The work will be performed in their Dallas plant.

A surface-to-surface solid propellant guided missile, Sergeant is under the technical management of the Army Ordnance Missile Command.

The St. Louis Ordnance District will administer the contract.

Wage Board Employees To Get Pay Increase

2,000 Pay Checks Will Be Fatter After 17 June

Approximately 2,000 Army wage board (hourly) employees will receive pay increases ranging from three cents per hour in Step 2 of Grade 1 to 11 cents in Step 2 of

Grade 15 on June 17. The Army-Air Force Wage Board announced the increases Monday. They resulted from a recent survey in the Huntsville area conducted by the Board.

The new rates will be applied step for step and grade for grade. For example, an employe currently serving in step 2 of Grade 11 at \$3.02 per hour will receive \$3.13 per hour under the new schedule. A Wage Board Supervisor in step 2 of Grade 8 at \$3.58 per hour would receive \$3.71 per hour under the new schedule.

Wage board employes who receive checks on 5 July 1962 will be paid one week (10 June through 16 June) at the present rate and one week (17 June through 23 June) at the new rate. Wage board employes who receive checks on 12 July 1962 will be paid at the new rate for the entire pay period of 17 June through 30 June. The new rate schedules are in the box at the bottom of this page.

Holmes Heads New Lab

Col. Sterling C. Holmes of the Army Ordnance Missile Command has been named to command the Army's new Limited War Laboratory at Aberdeen Proving Ground, Md.

Col. Holmes has reported to Washington to assist in planning the laboratory, but no date of his assuming active command has been announced.

At AOMC, Col. Holmes was deputy to Brig. Gen. John G. Zierdt, Deputy Commanding General, Guided Missiles.

The Limited War Laboratory is designed to provide the Army with an organization for developing specialized weaponry and other materiel for use in guerrilla and counter-insurgency operations.

Col. Holmes will have under his command a staff of some 70 military and civilian personnel. The staff represents a wide variety of scientific fields and will work closely with key agencies of the Army's Combat Development System.

Included on the staff will be chemists, physicists, electronic and natural scientists, analysts and engineers. They will conduct re-

COL. S. C. HOLMES

search and development to provide highly effective weapons and techniques to meet requirements in the field.

Recruitment of personnel to staff the laboratory already has begun. The personnel will work in specialized facilities including experimental fabrication shops and through the variety of resources available at Aberdeen and other Army agencies.

Col. Holmes came to Redstone Arsenal in July, 1958. He holds a bachelor of science degree from North Carolina State College and a master's degree in mechanical engineering from the University of Southern California.

CG Says Problems May Be Solved by Meeting of Minds

Solutions to problems in metallurgical research should come from a meeting of the minds in this field, Maj. Gen. Francis J. McMorrow said in welcoming a group of metals experts to Redstone Arsenal Monday.

The Commanding General of the Army Ordnance Missile Command told the Nonferrous Metallurgy Section of the American Ordnance Association that AOMC was happy to host the second meeting of a group which stood to con-

West German Officers Visit Missile Command

Officers of the West German Army headed by Brig. General Hans R. Greiner, visited the Army Ordnance Missile Command Monday for an extensive look at the home of Army missiles.

Gen. Greiner is chief of the Depot Organization Command of the German Army.

He was accompanied by Brig. Gen. Johannes Mueller, Chief of the Logistical Section, German Ar-

200 at AOMC Are Eligible for Special Training

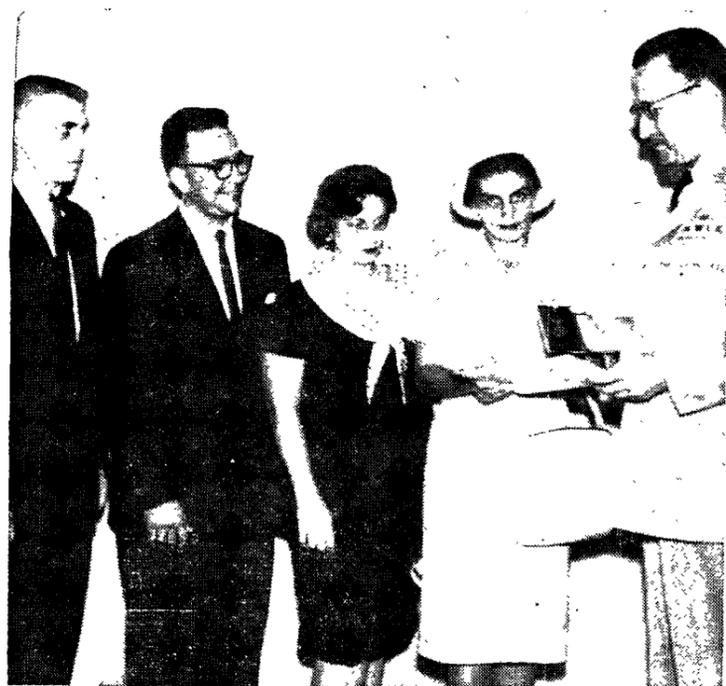

Select personnel at the Army Ordnance Missile Command are eligible for specialized training which later could lead to top executive positions in the Department of the Army.

Jack N. McConaha, acting chief of the AOMC Civilian Personnel Office, said the plan is designed to develop a roster of outstanding talent which will be available for filling high level positions throughout the Army. This training is designated the Ordnance Corps Senior Career Executive Program.

The positions are those which involve management decisions. They are not administrative types of work. Some 200 persons at AOMC fall in the eligible group. Eligible for the program now are GS-14's and GS-15's and above.

The man who sits in a management chair may have to decide whether the Army should go ahead with research and development on a weapon system or go into production on an item the Army has developed.

Among those selected at AOMC for participation in the program will be incumbents of a few select positions created by Congress for persons in the scientific, engi-

LINDNER HONORED POSTHUMOUSLY.—Brig. Gen. Richard M. Hurst, Deputy Commanding General, Ballistic Missiles, Army Ordnance Missile Command, presents Mrs. Kurt Lindner with a Meritorious Civilian Service Medal awarded posthumously to her husband for work he performed while employed at the Army Ballistic Missile Agency. The award is the highest that can be made by the Chief of Ordnance. Mr. Lindner's family was present for the ceremony. Left to right are: Diethard Lindner, Charles Eudy, son-in-law, and daughter, Mrs. Eudy.

Kurt Lindner Presented Posthumous Army Award

Mr. Kurt Lindner's outstanding contributions to the Army's missile program have been recognized by the posthumous award of the Meritorious Civilian Service Award—the highest a major Army commander such as the chief of a technical service can approve.

Mrs. Lindner accepted the award from Brig. Gen. Richard M. Hurst, Deputy Commanding General, Ballistic Missiles, Army Ordnance Missile Command, at a ceremony Friday.

Her son, Diethard; son-in-law and daughter, Mr. and Mrs. Charles Eudy, and Mr. Lindner's former chief, Dr. Wernher von Braun, director of the NASA Marshall Space Flight Center, stood with Mrs. Lindner as the citation lauding her husband's work on the Redstone and Jupiter projects was read.

Other long-time associates of Mr. Lindner, including Dr. Arthur Rudolph and Dr. Walter Haessler—

The Redstone Rocket

The Redstone Rocket is a privately owned newspaper published every Wednesday at no expense to the Government by Jack W. Fitzhugh Hartzelle, Alabama, with exclusive regard for the readers' interests at Redstone Arsenal, Alabama, in accordance with an agreement between the publisher and the Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama.

The Rocket is NOT an official or semi-official Army or Ordnance Corps publication. Policies and statements reflected in the news and editorial columns represent the views of the individual writers and are not necessarily those of the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal. Appearance of advertisements in the Rocket does not constitute an endorsement of the advertising matter by the Department of the Army, the Ordnance Corps, or any organization at Redstone Arsenal, Alabama.

The publisher will accept editorial content for publication in the Rocket only through the Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama, Bldg. 5250, Room A-10, Extension 376-4151. All advertising copy and payments therefor are received by Mrs. Zillah T. Heath, Huntsville, Alabama, P. O. Box 346, Telephone 534-1701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Market rates for the Rocket are \$5.00 a year or \$2.43 for six months. Alabama sales tax included. Mailing arrangements may be made with the publisher.

GEN. BESSON

(Continued From Page 1)
 under Gen. Besson, was activated on May 8. The mission of the command and its subordinate elements is to supervise all phases of the materiel cycle from research and development through production to distribution and maintenance. The Command Headquarters is in Washington, D. C.

"The subordinate commands, their commanders and locations, are as follows:

Weapons Command, Maj. Gen. Nelson M. Lynde, Rock Island Arsenal, Ill.

Mobility Command, Maj. Gen. Alton K. Sibley, Detroit, Mich.

Supply & Maintenance Command, Lt. Gen. August Schomburg, Washington, D. C.

Missile Command, Maj. Gen. Francis J. McMorrow, Redstone Arsenal, Huntsville, Ala.

Munitions Command, Maj. Gen. William K. Ghormley, Picatinny Arsenal, Dover, N. J.

Electronics Command, Maj. Gen. Stuart S. Hoff, Ft. Monmouth, N.J.

Test & Evaluation Agency, Brig. Gen. William F. Ryan, Aberdeen Proving Ground, Md.

"The U. S. Army Combat Developments Command, under Lt. Gen. John P. Daly, will have the mission of developing new operational doctrine and organizational concepts for the Army in the field for war gaming and field experimentation, and for initiating qualitative materiel requirements. Its headquarters will be at Fort Belvoir, Va. Its subordinate commands, for which no commanders

have been named, will be located as follows:

Combat Developments Experimentation Center, Ft. Ord, Calif.
 Special Weapons Development Office, Ft. Bliss, Tex.

Combined Arms Group, Ft. Leavenworth, Kan.

Army Institute of Advanced Studies, Carlisle Barracks, Pa.

Combat Service Support Group, Ft. Lee, Va.

Remote Area Conflict Office, Ft. Belvoir, Va."

CG SAYS

(Continued From Page 1)
 tribute so much to weapons development.

Taking part in the discussions at AOMC Monday and Tuesday were representatives from industry, scientific institutions and government with extensive experience in metals production, development and research. They met at Redstone from a dozen states and the District of Columbia.

The Nonferrous Metallurgy Section of AOA was organized last November at the Ordnance Tank and Automotive Center in Detroit. Its purpose is to expand the availability of technological knowledge in the metallurgical field.

VISIT

(Continued From Page 1)
 my Staff and Capt. Hans-Georg Poske, Chief of Staff for the German Navy Fleet Base Command, Capt. Gert Eschricht, Chief of Sea Transport; Col. Werner Henning, Deputy Chief, Material Office, Armed Forces Staff and Col. Rainer Schwartz, Chief of Materials Planning and Programming.

The German group received a mission, organization, and facilities briefing on AOMC, followed by an explanation of Army missile system development and testing, procurement, production and contract management, and logistical support concepts.

They also toured the Ordnance Guided Missile School. During the inspection of OGMS facilities, they saw the Army's Hawk missile, an anti-aircraft weapon now used by NATO troops in Europe.

AWARD

(Continued From Page 1)

mann, both of MSFC, and representatives of the Chrysler Corporation, Arleigh Trabern and Frank Quinn, attended the presentation.

Mr. Lindner joined the staff of the Army Ballistic Missile Agency when it was activated in 1956 as Chief, Redstone Jupiter Liaison Office, Technical and Scientific Staff, Guidance and Control Laboratory. Gen. Hurst was ABMA's last commander.

The Meritorious Service award was presented for the work he accomplished from Feb. 1, 1956, through April 25, 1960. He died July 5, 1960. Mr. Lindner had 14 years of government service at the time of his death and had received a ten year service pin, and an outstanding performance rating for the period from May 7, 1957, through April 30, 1958.

The citation accompanying the award signed by Lt. Gen. J. H. Hinrichs, Army Chief of Ordnance praised Mr. Lindner's exceptional judgement, organizational ability, technical competence and dynamic energy which enabled him to formulate and execute a coordinated Research and Development Program that resulted in perfecting guidance and control systems within limited schedules for the Redstone and Jupiter missile systems. The citation points out that the guidance systems attained remarkable accuracy.

Among the things Mr. Lindner accomplished was establishment of a Contractor Service Center which trained contractor personnel in the complex guidance and control system and also in areas where the contractor personnel could assist the laboratory where personnel shortages existed.

By transferring responsibilities to areas where they would ultimately be, he relieved eight per cent of the laboratory workload. He also introduced a product improvement program at contractor facilities for the Redstone and Jupiter guidance and control systems.

The Secretary of the Treasury reported in 1866 that the Civil War, to that time, had cost the Federal Government 6.19 billion dollars. By 1910, the cost of the war, including pensions and burial of veterans, had reached 11.5 billion dollars.

VISITORS FROM "DOWN UNDER" TOUR OGMS—Mr. and Mrs. L. A. Rumble of Katoomba, Australia and their daughter Marilyn who recently received her degree from Jacksonville State College on a Rotary International scholarship toured the Missile School last week. In the foreground with his back to the camera is Tazwell Taylor Shepard, Jr., son of Capt. Tazwell T. Shepard, Naval Aide to President Kennedy who was a member of the touring party with his grandfather, Senator John J. Sparkman.

Capt. D. H. Vicknair Joins Pershing Project

Capt. Darrell H. Vicknair, has been assigned as Pershing Project Officer at the Army Field Office, Cape Canaveral, Fla.

Capt. Vicknair was assistant operations and shop officer for the Special Weapons Depot in Ger-

many before coming to Cape Canaveral.

He entered the Army in 1953 after graduation from McNeese State College with a bachelor of science degree in physics.

He was a Nike Ajax platoon leader at Fort Bliss, Texas, before his assignment to Germany.

Capt. Vicknair and his wife, Margie, are living at Patrick Air Force Base, Fla. with their two children, Christie, 4, and Kevin, 2.

THE EXTRA CARE AIRLINE

UNITED

AOMC Personnel On Job Halfway Around the World

Hundreds of people scattered halfway around the world daily carry on the business of Army missile system management for the U. S. Army Ordnance Missile Command.

Ten of them who draw AOMC pay checks are approximately 2,500 miles from Command Headquarters coordinating Army missile business with contractors and Navy personnel at the Navy's Pacific Missile Range Headquarters, Point Mugu, Calif.

They contribute to that part of AOMC's rocket and missile testing program which is conducted from the Pacific Coast near Oxnard, Calif.

Currently the major portion of the work is concerned with the testing program of Nike Zeus, the anti-missile missile which is the Army's answer to the ICBM threat.

The chief of the Army group at Point Mugu is Col. John G. Redmon who is designated the Deputy Commander Army, Pacific Missile Range. Col. Redmon lists Honolulu, Hawaii, as his hometown.

Also in the Army contingent is Capt. Robert W. Elliott from Salem, Ind. He is the Project Officer in the Army Office.

Other military personnel in Col.

Commendation Medals

The following Commendation Medals were awarded at the end of May:

Army Commendation to Air Force Lt. Col. Lewis Parry Sims for exceptionally meritorious service in the Mobile Air Materiel Area Jupiter Liaison Office, U. S. Army Ordnance Missile Command.

Redmon's office are SFC William L. Creith, North Hollywood, Calif. and SP4 William S. Meade, Round Lake, Ill.

Civilians who help carry on Army business at the Navy installation are Louis J. Daue, a general engineer; Charles F. Lipsey, project engineer; Geraldine F. Hamilton and Donna Shane, secretaries and Jean Romano, a clerk. They all live in Oxnard. Mary Steppler another clerk, lives in Fillmore Calif.

from March, 1958, to June, 1962.

Air Force Commendation to Air Force Lt. Col. Harvey J. Sorenson, Chief, Huntsville Office, Space Systems Division, Air Force Systems Command for service from July, 1958 to May, 1962, at the Army Ordnance Missile Command.

Army Commendation to Lt. Col. James B. Clift, United States Continental Army Command Liaison Officer to the Army Ordnance Missile Command from July 6, 1959, to May 31, 1962.

Army Commendation to Col. W. G. Trainer, Post Engineer at the Army Ordnance Missile Support Agency. The Commendation covers the period from May, 1959, to May, 1962.

Army Commendation to Maj. John Vester Yelverton, Chief, Plans and Training Division, AOMSA, for the period April, 1959,

ELIGIBLE

(Continued From Page 1) neering and research and development field. They carry higher salaries than those paid government civil service employees and are excepted from civil service regulations.

Also eligible is another group—supergrades. These generally cover employes in the industrial and management area, and are jobs higher than the highest civil service grades reached through regular promotion channels. In civil service, GS-14's and GS-15's also are eligible for the initial phase of the program. GS-13's will be eligible for the second phase which begins at a later date.

Participation in the program is optional, but qualified persons are encouraged to apply. Deadline for registration is June 8.

The names and multiple career executive appraisals of applicants from AOMC will be forwarded to the Department of the Army where participants will be selected after a review of their qualifications. Selections of GS-14's, GS-15's and above will be announced beginning July 15.

Those chosen will be accorded high level training which could involve rotation among Army installations, understudy work in top offices, assignments with industry, attendance at courses at the Industrial College of the Armed Forces, Washington, D. C., Secretary of the Army fellowships, or other fellowships and scholarship awards.

The employes selected will be expected to make themselves available after the training and development for reassignment or transfer to executive positions.

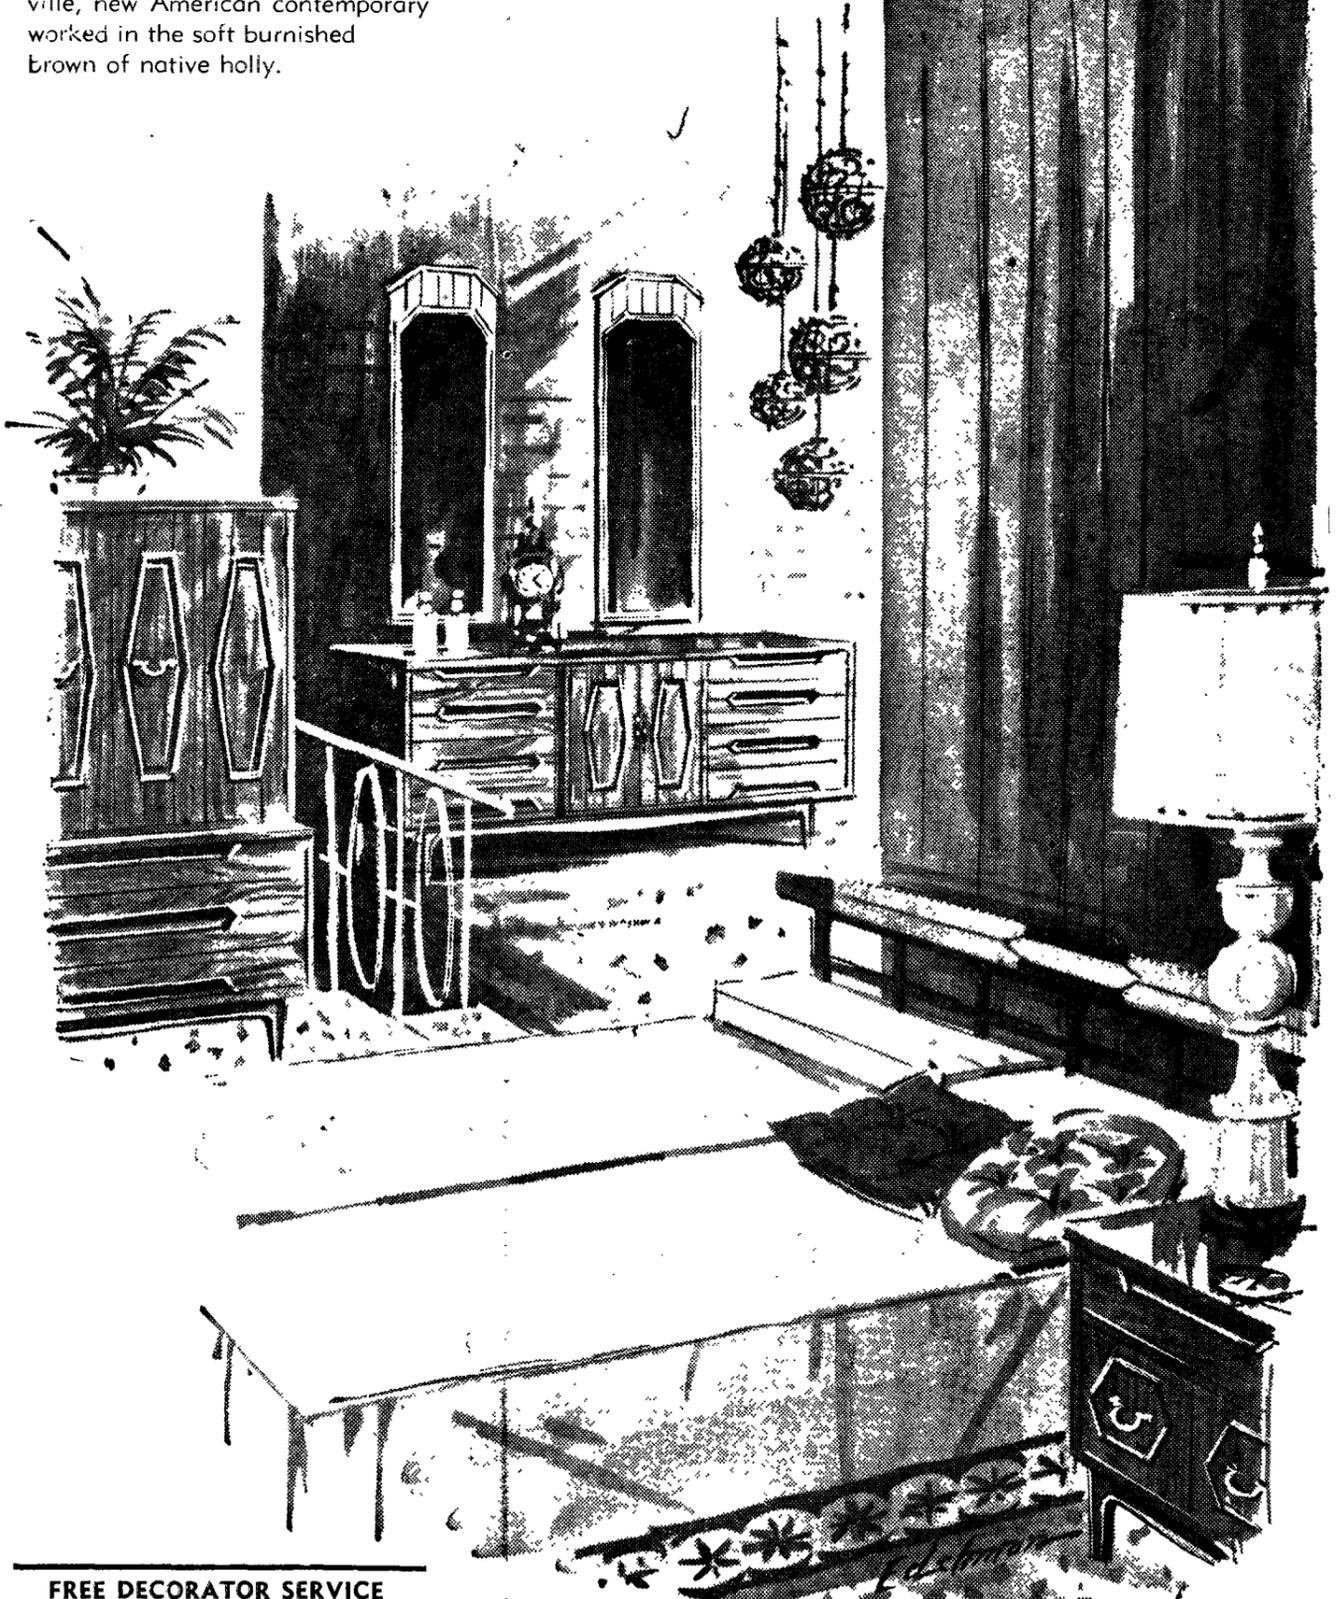

The applicants who qualify also will sign an agreement that they are available for rotation assignments to other Army installations or for transfer to higher level positions.

The implementation of the entire program will be completed by Nov. 30.

Army Engineers Develop Superior Paint Remover

Development of a fast acting solvent by either brushing or highly efficient organic stripper spraying, for the removal of paint or enamel. The new organic stripper is one has been announced by the U. S. of two new developments in the Army Corps of Engineers, active organic coatings field made re- ing to were received at the Engi- cent in the Materials Branch of near Office of the Missile Com- and Development Laboratories, Fort Belvoir, Va.

The second development is a paint that gives greater reflectance of solar energy. Camouflage paint which reflects a high percentage of incident solar radiation has been obtained through use of newly developed special green pigments. The new paint allows camouflage painting of Army missiles and prevents excessive heat absorption by mis- siles exposed to maximum solar radiation. Formerly such missiles had to be painted white to prevent excessive absorption of solar ener- gies. The stripper is non-flam- ing and subsequent overheating of mable and can be applied to any delicate instruments inside.

The stripper is so formulated that it softens and penetrates the paint or enamel film and releases a gas which lifts the film from the substrate. The stripper con- tains detergent emulsifiers so that the loosened, partially dissolved, paint film then can be flushed off with water, leaving a clean, smooth surface. The stripper is non-flam- ing and subsequent overheating of mable and can be applied to any delicate instruments inside.

LAW Contract Is Awarded Firm In Massachusetts

Award was announced last week of a \$2,221,401 fixed-price in- centive contract to the Hesse Eastern Division of Flightex Fab- rics, Inc., Everett, Mass., for the production of rocket motors and parts for the M-72 light anti-tank weapon (LAW).

The work will be done at the company plant in Everett.

The LAW is designed for use against tanks, armored vehicles, concrete bunkers and similar tar- gets, and is carried over the shoul- der in a throw-away case that serves as a launcher.

The weapon can be carried and fired by one man. If desired, four rounds can be carried in a canvas pack slung over the shoulder. The loaded launcher weighs only 4½ pounds.

The LAW program is under the management of the U. S. Army Ordnance Missile Command.

The Boston Ordnance District will administer the contract for the Army.

Fourteen Complete Conference Leader Course Open Here

Fourteen employees at the Army Ordnance Missile Command recent- ly completed instruction in Con- ference Leadership under the di- rection of the Personnel Develop- ment Division of the AOMC Per- sonnel Office.

Instructors for the course were Neil Lerch and Edwin Harrison.

The course is designed to devel- op leadership and participation in conference method problem solv- ing among key personnel. The course includes lectures, discus- sion and other devices, and prac- tice conferences led by one stu- dent with other students as partic- ipants.

Graduating were: Andrew Biss, George Bowers, Milton Bucholz, Carl Hanzlik and Robert Moore, Industrial Directorate; Raymond Bates, Raymond Turner and Victor Williams, Research and Develop- ment Directorate; James Baugh- man, Charles Bredon, George Farrar, and James Helton, Field Service Directorate; William Ed- wards and Allen Spivey, Army Ordnance Missile Support Agency.

Public Relations Course Is Open to Senior Grade Officers

An advanced school program is sponsored by the Army to train senior officers in the public relations and communications fields for positions at policy-making levels.

Four officers will be selected for this year's program from among applications submitted. The courses begin in September and January. The training courses will be for 12-18 months duration.

Eligible officers will be selected from regular Army colonels and promotion list lieutenant colonels. Applications of interested officers should be sent air mail to the Chief of Information, Department of the Army, Washington 25, D. C.

Applications must include transcripts of college records, present assignment and approximate termination date. The suspense date is June 15.

Any colonel or lieutenant colonel who qualifies will be assigned in this field and will be assigned a secondary MOS.

Col. Katz to Attend Governor's Parade

Col. Henry J. Katz, deputy commander, Army Ordnance Missile Support Agency, will attend the annual Governor's Day parade and review to be staged by members of the Alabama National Guard June 9 at Ft. McJannet.

He will be the guest of Maj. Gen. Walter J. Hanna, Adjutant General of the Alabama National Guard at the event which will begin at 9 a.m. at McClellan's Baller's Field.

Governor's Day is held each year for National Guard troops during their two weeks summer encampment. It is the day when the Governor, who is Commander-in-Chief of the Guard, reviews the troops.

"WORLD YOUTH FESTIVAL: Communist Masquerade" topic of the May 1 issue of *For Communists*, explains the history and operation of The World Festival of Youth. The issue documents the fact that the Festival is supported financially by the Soviet Government and other communist government and represents a major Soviet propaganda effort in a continuing program to influence youth to support and accept communist views on international questions.

OUTSTANDING STUDENT HONORED—Pvt. John F. Cascarino of Lebanon, Pa., who scored 96.5 in a difficult course at the Army Ordnance Guided Missile School, receives a special plaque from the Tennessee Valley Chapter of the Association of the U. S. Army. A director of the local chapter, Reavis O'Neal Jr., made the presentation at ceremonies in the Post Theater on June 1st. Cascarino attended Villanova College and Penn State University prior to entering the Army.

Top Grad Honored At Missile School

Pvt. John F. Cascarino of Lebanon, Pa., received a special award yesterday from the Tennessee Valley Chapter of the Association of the U. S. Army for averaging 96.5 in a difficult course at the Army Ordnance Guided Missile School.

novia College and Penn State University before entering the Army, received a plaque from Reavis O'Neal, Jr., a director of the local AUSA chapter.

Myles R. Hardenburgh, chief of quality assurance division of the Army Ordnance Missile Command, spoke at the graduation exercises held for 10 officers and 29 enlisted men Friday in the Redstone Arsenal Theater.

Cascarino, who attended Villanova College and Penn State University before entering the Army, received a plaque from Reavis O'Neal, Jr., a director of the local AUSA chapter.

importance of individual competence. Receiving diplomas were seven and understanding of national and officers of the German Army and international goals to the missile a U. S. Navy petty officer along with the Army graduates.

BASEBALL

Many spectators are missing the national pastime when they do not go to the ball game at Linton Field on Mondays, Wednesdays and Fridays at 1900 hours. With the weather holding up and with a "nothing to do" attitude, the ball park (Linton Field) is the place to go in the evenings.

The teams are playing "heads up" ball and thrills are many for the spectators. The season is still young, but good potential for the Post team is in the making. Come and cheer for your favorite. The Post Level Baseball League stands as follows:

Team	Won	Lost
Officers	2	0
Co. B OGMS	1	0
Hq. OGMS	1	0
Co. A OGMS	2	1
291st M. P.	0	2
Hq. AOMC	0	3

SOFTBALL:

One way to let off steam, after a hard day at the office, is to come out to the softball games held Mondays-Tuesdays-Thursdays at 1800-1930 hours, and let your team know you are backing them to the hilt. The presence of so many spectators will also make the Umpires earn their salt. Relax at a good ball game.

The Softball League stands as follows:

Team	Won	Lost
Hq. AOMSA	7	0
AOMC No. 2	6	0
Co. A OGMS	5	3
Co. B OGMS	5	3
Medical Det.	4	2
Signal Det.	4	3
291st M. P.	3	4
Officers	3	4
AOMC No. 1	2	3
Hq. UTC	2	5
3rd ETC	0	6
Hq. OGMS	0	7

Swim Classes For Beginners Open Now

Whether a pool, a lake, or a river, swimmers welcome the time to use the old swimmin' hole. The season is now.

Water safety habits of juniors is a major concern to swimmers and non-swimmers alike.

The Joint Activities Council is sponsoring a swimming program this year to teach beginners in three sections with not more than 15 in a class. The requirement is that the junior swimmers be children of military personnel stationed at Redstone Arsenal.

The classes begin on June 18. The clearing house for registering is at the Special Services Swimming Pool, Bldg. 3469. The time to register is this week.

Later in the season, other types of classes will be taught, including a Scout program, intermediate swimmer, swimmer, junior life-saving and senior lifesaving.

Hess Wins Field Service Spring Golf Tournament

Marvin Hess won the Field Service Directorate Spring Open Handicap Golf Tournament with 290 for 72 holes. The tournament was played at the Municipal Golf Course.

Second place in the championship flight went to Maj. A. A. Hord with a 295. Others in the title flight included Gary Mann, 297, Paul Kennedy, 298 and Mel Tack 298.

The first flight was won by Jerry Myers in an 18-hole play-off with Neal Mathis. Myers and Mathis were tied at the end of regulation play with scores of 302.

Third in the first flight was Dan Cargal, 304, followed by Lt. Col. Dan Capstick, 306, and Floyd Falconer, 306.

It was CWO Ed Gonsolves in the second flight with a winning score of 297. Jack Torzillo came in second with 298. Third place was taken by Gary Phillips with a 302; fourth was Frank Ralph with 310 and fifth spot was taken by Curtis Raynes with a 312.

Winners and runnerups of all flights will be presented trophies. The third, fourth and fifth places will receive prizes. Presentations will be made by Col. Sylvester A. Hall, Director of Field Service Directorate.

'Ink Spots' to Appear At Post Service Club

The Five Fabulous "Ink Spots" will appear at the Service Club on Friday, June 8th at 8:00 p.m.

They will present four hours of entertainment—a one hour floor show and three hours of dancing. Some of their greatest numbers will be featured. "If I Didn't Care," "The Gypsy," "To Each His Own," "Maybe," "I Don't Want to Set the World on Fire," "Bless You," "The Java Jive," and a host of other old and new favorites.

CUB SCOUT SWIM PARTY

Cub Scouts of Arsenal Pack 308 enjoyed a swimming party at the Sahara Motel Monday morning. The following Scouts participated under the direction of Scoutmaster Cpl. Tom Hilliard: Mark Reiver, Steve Schuppner, Joe Ortiz, Brian Geehan, John Payne, Michael Krembs, Lucius Floyd and Mark Bergmann.

Sports Car Buffs

By Ray Mosling

THE NICE WEATHER recently has apparently stimulated activities of the sports car folks in this area.

The result is an impressive list of events planned for the coming months. The Sports Car Club of America Divisional Races are planned for the weekend of June 30-July 1 at Courtland. These races should be even more thrilling than the Regional Races we have just witnessed.

THE FOURTH SCCA championship slalom is planned for the early part of July, and a rally is planned for the latter part of the month.

IN AUGUST, the SCCA Prenational Rally here in Huntsville is scheduled for the 25th and 26th, and more than likely the fifth and final SCCA slalom in this series will take place during this month.

No slaloms are planned during the month of June because of the race program presently underway. Dates and places for these events will be presented as they become available. Tomorrow even-

ing at 7:30 the Twickenham Auto Club will hold their first June meeting at Clark Steadman's. We hope to see you there.

EIGHT ENTHUSIASTS from the Huntsville area attended the Gran Prix Rally in Birmingham May 27th. General opinion of the entrants was "very interesting and about par with similar events in that area over the past few years." The course was well chosen for sports cars as well as for a typical Sunday afternoon drive. Scenery along the 175-mile rally course was wonderful and the roads had many curves, hills and bridges.

A REAL WORK-OUT was given navigators when the instructions were given to use "rallymeters" for distance computations instead of miles during one portion of the rally. A rallymeter was defined to be 3960 feet, just off the scales on most rally calculators. This type of gimmick usually accounts for slightly unraveled contestants and many lost souls. This year's event was no exception, with some of our top rallyists finishing well down the list.

WITH RESPECT TO LOCAL INTEREST, this is how the final results looked: In first place was the team of Jerry Fordenberry and Catherine Coleman in a '49 Chevrolet. Second place was taken by the team of Ken Haggood and Frank Lucky in a Peugeot.

BOTH TEAMS ARE FROM BIRMINGHAM. The Huntsville team of Bill McClain and Vic Baucom in Bill's MG-A nailed third place. A. Lynch and Pete Walden of Florence, a really top rally team in local events, took fourth place in a Corvette. Two other teams from Huntsville, Web Mayfield and Corbett Cornelison, and John Schlosser and Don Franke, placed within the first twelve places. The only complaint heard concerning this event was an excessively low average speed given for one portion of the course. Normal traffic on this portion was traveling much faster than the rally cars, making a dangerous situation.

AS A RULE, this type of course instruction receives the greatest

Redstone Little Leaguers Take First Game 21-2

Local Little Leagues officially opened the season on May 26.

The Redstone Minor League took the field against Madison Pike with Redstone a one-sided victor—21 to 2.

Much credit goes to pitcher Bob Humphries, known to his teammates as little leity. Bob pitched a no-hitter in four innings he struck out 11 of his opponents and gave up only four bases on balls. Team-mate Brian Geehan knocked two home runs—both with men aboard.

attention when organizing a rally to avoid situations such as this.

A SMALL NOTE on seat belts: almost as important as having seat belts is the proper installation. The instructions supplied with belt sets are designed for maximum effectiveness and safety; therefore, follow them to the letter. And, as the small sign says, "don't get caught dead sitting on your seat belt." According to the National Safety Council, the highest percentage of fatal accidents occurs within 25 miles of home and at speeds less than 40 miles per hour, so fasten your seat belt even if you are only going to the grocery store.

THIS LOVELY MISS . . . preparing to take a dip in the Sahara pool . . . is Ruth Scott, employe of GC&A Lab, Research and Development Directorate, AOMC. A native of Altoona, Ala., she is 5'1" tall, and her hobbies are art and swimming.

QUIZ

1. Can you name the last major league pitcher to go through a complete season with an earned average under two runs per game?
2. Which major league baseball team posted the least wins for a whole campaign?
3. There is only one coach remaining in the National Basketball Assn. of the original teams that opened the 1946-47 NBA season. Name him and the team he coaches.
4. What jockey became the first American to win 4,000 races?
5. Only one professional boxer has held three world championships simultaneously. Name him and the titles he held.

(Answers to Quiz)

1. Billy Pierce of the Chicago White Sox compiled a 1.97 earned run average while pitching in 1955.
2. The worst performance by a major league team for an entire season was that of the Philadelphia Athletics in 1916. In that year, the A's won only 36 games against 117 defeats.
3. Red Auerbach of the Boston Celtics is the only remaining coach of the original NBA coaching clan.
4. Johnny Longden became the first American jockey to win 4,000 races when he scored on Fleet Diver at Hollywood Park on May 15, 1952.
5. Henry Armstrong is the only boxer to have held three world titles at one time, possessing the featherweight, welterweight and lightweight titles during the late 1930s.

Transportation, AOMSA, was granted an award of \$50 for an adopted suggestion which resulted in RSA Form 492 being discontinued by printing similar information on the remarks section of DF Form 110. The first years actual savings was \$1,434.

Shelby J. Hall, Jr., Consolidated Supply Division, AOMSA, was granted an award of \$30.00 for an adopted suggestion which contributed to a revision of AR 725-20. The revised AR will require Depots supplying this installation to indicate the station requisition number on the selection and/or picking tag. The results will improve operations in Consolidated Supply Division.

DR. ROBERT DICKE

Princeton Professor Will Address RCAA

Dr. Robert H. Dicke, professor of physics, Princeton University, will speak to RCAA members Tuesday, June 12, 8 p.m. at the Huntsville Utilities Auditorium. His subject will be "The Age of the Universe."

Dr. Dicke graduated from Princeton in 1939 and received his Ph.D. in Physics from Rochester in 1941. He returned to Princeton in 1946 where he has been associated with the Physics Department until the present time.

He has done extensive work in the study of microwaves and is well known as an authority on gravitation.

The meeting is open to the public.

Sojourners Honor Contest Winners

Friday night the National Sojourners, Redstone Chapter 353, played host to Misses Sharon Sims and Cheryl Green, Butler High School seniors who tied as winners in the Chapter's Annual Americanism Essay contest which is open to the seniors of the local high schools.

Miss Sims is the daughter of Air Force Col. and Mrs. Lewis P. Sims stationed at the Arsenal. Miss Green is the daughter of Army Lt. Col. and Mrs. James O. Green III, of the Army Ordnance Missile Support Agency.

Maj. Benjamin B. Albert Jr., chairman of the Sojourner Americanism Committee, introduced the young winners, their sponsor, Mrs. Christine Jones of the Butler High faculty and Mrs. Lila Stewart, BHS student counselor, to the members and their ladies.

Cmdr. John H. Graham, First Vice President, presented each of the young winners a U. S. Savings Bond on behalf of the local chapter.

SOCIAL ^{and} CLUB EVENTS

Officers Wives Club To Install Officers

OGMS Wives Sponsor June Lunch Meeting

The Redstone Arsenal Officers Wives Club will meet for the last time until after the summer season next Tuesday at the Squirrel Hill Officers Club.

The meeting will be a luncheon with a social half hour planned from 12-12:30 p.m. followed by lunch.

New officers for the coming year will be installed following the luncheon.

Also on the agenda is an illustrated talk by Mrs. Jean Martin, Huntsville interior decorator, who

will show fabrics, upholstery and drapes and discuss "tricks of the trade" in color coordination.

The wives of officers stationed at the Ordnance Guided Missile School are sponsoring the June luncheon. Mrs. William MacPherson is chairman. She is reminding the membership that the noon hour is one-half hour earlier than other luncheons this year.

Reservations are being handled by Mrs. R. A. Robinson, 877-4464 and Mrs. C. C. Anderson, 877-4541. Deadline is 1 p.m. Friday.

Mrs. W. J. Nelson will handle cancellations until 10 a.m. on Monday.

Chemists Meet Tomorrow Night

The Alabama Chapter of the American Institute of Chemists will meet at the Redstone Arsenal Officer's Club Thursday, June 7 at 7:30 p.m.

The meeting is not to be a dinner meeting but will be a social meeting during which establishment of a new North Alabama Chapter of the Institute will be discussed.

The proposed new chapter is to include Franklin, Colbert, Lauderdale, Lawrence, Limestone, Morgan, Madison, Marshall, Jackson and DeKalb counties.

Chemists and chemical engineers who are not members of the American Institute of Chemists are cordially invited to this meeting.

Mrs. French, Capt. Salzman Score High

Eight tables of bridge were in play at the Monday meeting of the Bridge Group at the Squirrel Hill Officers Club last week.

Winners for the women were Mrs. Donald French, high, and Mrs. Charles Graham, second.

Winners for the men were Capt. Martin Salzman, high, and CWO Eugene Krembs, second.

Births at Post Hospital

Howard James Foy, III, 8 lbs., 6 1/2 ozs., May 26, son of Pfc and Mrs. Howard J. Foy.

James Dale Creagh, 5 lbs., 11 1/2 ozs., May 28, son of Sp4 and Mrs. Jesse R. Creagh.

Patricia Gibson, 6 lbs., 13 1/2 ozs., May 28, daughter of MSgt. and Mrs. William Gibson.

Wilfred John LaPrade Jr., 8 lbs., 5 ozs., May 28, son of Sp5 and Mrs. Wilfred J. LaPrade.

Jimmy Lee Ramsdell Jr., 6 lbs., 8 1/2 ozs., May 28, son of SSGt. and Mrs. Jimmy L. Ramsdell.

Kyle Lee Havill, 6 lbs., 1/2 ozs., May 29, son of Sp4 and Mrs. Edward E. Havill.

Michelle Anne Jenks, 6 lbs., 3 ozs., May 29, daughter of SSGt. and Mrs. Michael T. Jenks.

Last Meeting of Season Planned by Accountants

The Huntsville Chapter Federal Government Accountants Association will hold its last meeting of the current season at the Huntsville Country Club June 7 at 6:30 p.m.

Newly elected officers will be installed by the outgoing President, Abner C. McNaron.

Highlights of the evening will include the annual report of the Awards Committee, presentation of membership certificates, award of the FGAA scholarship, annual report of functional committees and a brief report on the 11th Annual Symposium of FGAA held in Philadelphia, May 27-30.

Air Force Management Specialist to Speak

Air Force Lt. Col. Charles W. Getz will address a joint meeting of the American Institute of Industrial Engineers and the Naval Reserve Research Company 6-17 of Huntsville at the Town House on June 11.

The meeting will begin with a social hour at 6 p.m. Dinner reservations are being handled by Bob Mullins who said members are encouraged to bring guests.

Lt. Col. Getz is Chief of the Control Division, Office of the Assistant for Programming at Headquarters Air Force Systems in Washington, D. C.

His topic will be "Management Control Systems Used in the Air Force Systems Command."

Col. Getz has a masters degree in Industrial Management from the University of Pittsburgh and is working toward a doctor of business administration degree at George Washington University.

He has written several papers and manuals on management in the ballistic missile and research development fields.

Student Selected for Auburn Science Class

Ronald L. Sentell, son of Mr. and Mrs. Claude M. Sentell, Jr., is one of 20 high school students selected from 12 states for an eight week Summer Science Training Program at Auburn University.

Mr. Sentell is Chief of the Traffic Management Section of the Army Ordnance Missile Command Transportation Office.

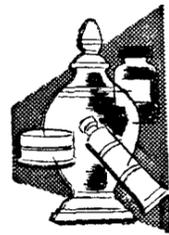

Competition for this study opportunity was open only to boys in the 11th grade. The program is designed to provide academically superior students with educational experiences in the life sciences beyond those normally available at high school level.

Ronald plans to be an aeronautical engineer, and will probably attend Auburn after graduation from high school.

Citizen Soldiers of 45th National Guard Division Train...

THE SUBJECT OF ATTENTION is the U. S. Army's HONEST JOHN missile. Members of Battery B, 1st Rocket Howitzer Bn., 189th Arty., 45th National Guard Division training at Ft. Chaffee, Ark., listen closely as S/Sgt. Walter M. Massey (with pointer), 3rd Missile Bn., 32nd Artillery, Ft. Sill, briefs them on the tactical-range artillery rocket. Prime contractor of the HONEST JOHN is Douglas Aircraft Co., Inc.

MEMBERS OF THE ONE ARMY train with a U. S. Army M-41 tank during their recent two-weeks summer camp with the 45th Oklahoma National Guard Division. The 45th Division, totaling almost 5500 men, trained this month at Ft. Chaffee, Ark., and Ft. Hood, Tex. The M-41, classed as the Army's light tank, has a maximum speed of 40 m. p. h. The Cadillac Division of General Motors Corp. produced it.

BOOTSTRAPPER GRADUATES military science from the University of Omaha under the Bootstrap program. Maj. Paul W. Simpson received a bachelor of science degree in

program. Approximately 407 undergraduates received bachelor's degrees during the exercise on June 4.

THE AMERICAN CIVIL WAR was the first war in which voting by soldiers and sailors in service was provided for by National laws.

Repast for the Rangers No Fare for Squeamish

If, as the old saying goes, one man's meat is another man's poison, people with queasy stomachs would do well to pass up lunch at the Swamp Rat Room.

And what is the Swamp Rat Room? Well, Duncan Hines never gave it his imprimatur and Howard Johnson never provisioned it. It exists, in fact, only in the lore of the Army's tough, combat-wise Rangers, trained to live off the land, whether it be Florida swamps or North Georgia mountains.

Lunch at the Rangers' Swamp Rat Room would be both filling and nutritious, providing any non-Ranger could bring himself to order from its menu.

He might begin with the soup course — Alligator Snapping Turtle Soup with Reindeer Moss — and go on to the chef's salad of broken fern and bittergrass with snake vine shoots. For fish he could choose from mud-baked East Bay River mullet, live reef oysters on the half shell, broiled Yellow River mud catfish and Blackwater Bay blue crabs.

Entrees? He'd have his choice of the following: Broiled Florida woods steer, hickory-smoked suck-

ling razorback hog, roast boar possum, grade-A spotted skunk steak; barbecued Holly Creek alligator; fresh-cooked Florida swamp rabbit, hickory-smoked cottonmouth water moccasin; baked box turtle in the box and hot roasted wood worms.

For side dishes he could choose

from fresh green palmetto hearts, fresh green Weaver River bamboo sprouts and broiled coral fungus. He could wash all these goodies down with either sassafras tea or boiling creek water. Of the latter beverages the Swamp Rat Room menu advises thoughtfully, "Please strain minnows before drinking."

Dessert, finally, would consist of sweet gum swamp candy (in season) or a variety of berries: blue, black, goose, gopher and huckle.

But he'd have to bring his own bicarbonate of soda.

"FROM MARX TO NOW" is a Department of Defense pamphlet, intended to inform members of the U. S. military establishment about the rise of communism and its threat to our political system. It is a portion of the Armed Forces Information and Education program of films and pamphlets, and

supports particularly the Armed Forces Information Film (AFIF 119), "The Road to the Wall." "From Marx to Now" is the first in a new series, titled ALERT, to be published by the Office of Armed Forces Information and Education.

Sen. Sparkman Warns of GI Home Loan Cutoff

WASHINGTON, D. C. — U. S. Sen. John Sparkman has warned that some World War II veterans will lose participation in VA guaranteed and direct home loan programs of the GI Bill of Rights due to recently enacted legislation.

The Alabama senator added the warning that after July 25, when the law goes into effect, additional World War II veterans will begin to lose eligibility in the programs.

He said the new legislation was enacted to phase out the programs provided by the G. I. Bill of Rights by a formula which established just how long the individual World War II veteran's eligibility will continue.

Sparkman said the formula provided that veterans' entitlement to benefits will expire 10 years from the date of discharge or release from the last period of active duty during World War II, with an additional period of one year for each three months of active duty.

He said that under the new law, no entitlement would end before July, 1962, or go beyond July 25, 1967, the new cut-off date.

Sparkman added that "even in cases where the formula established World War II veterans' entitlement to 1970 or beyond, under the

present law such entitlement would terminate on July 25, 1937, regardless.

He said the same formula was established to determine the entitlement of Korean veterans where the cut-off date was set for January, 1975.

RESERVE PERSONNEL on active duty for more than 72 hours are eligible for exchange privileges.

The Post Library

ANNA LEE FARRAR, Librarian
 "Operation Outdoors" will begin shortly for many families as they set out on summer vacations of camping, outdoor recreation, and sight-seeing. Numerous books on camping and outdoor activities are available at the Post Library.

Family vacations are fun and nothing adds more to the enjoyment than being profitably and happily absorbed in a good book. Take along a supply of them—some to fit the hobbies and interest of each member of the family, and some to read aloud together in the evenings or on rainy days.

Summer is a good time to catch up on the books you've meant to read. New titles are:

- Thomas Aitken, "A Foreign Policy for American Business."
- Doris Alexander, "The Tempering of Eugene O'Neill."
- Evelyn P. Ames, "Daughter of the House."
- Cleveland Amory, "The Proper Bostonians."
- Herbert E. Arnston, "Adam Gray: a story of the China Trade."
- Robert Aron, "Jesus of Nazareth: the Hidden Years."
- Isaac Asimov, "Breakthroughs in Science: Illustrated."
- Dorothy D. Baker, "Cassandra at the Wedding."
- Robert C. Batchelder, "The Irreversible Decision, 1939-1950."
- Edward Behr, "The Algerian Problem."
- Ludwig Bemelmans, "Italian Holiday."

- Joseph D. Bennett, "Luxury Cruise."
- Art Buchwald, "How Much is That In Dollars?"
- George Burchett, "Memoirs of a Tattooist, from the notes, diaries and letters of the late 'King of Tattooists,' George Burchett."
- Bernice Blackwelder, "Great Westerner; the story of Kit Carson."
- Charles E. Chapel, "The Gun Collector's Handbook of Values."
- Mark Clifton, "When They Come From Space."
- Don Congdon, "The Thirties: A Time to Remember."
- Elizabeth K. Copper, "Silkworms and Science: the Study of Silk."
- Leonard Cottrell, "The Concise Encyclopedia of Archaeology."
- Joe Dante, "The Four Magic Moves to Winning Golf."
- Beth F. Day, "Passage Perilous."
- Nicolette Devas, "Nightwatch."
- George Dixon, "Learning on a Column."
- Arthur H. Dodd, "Life in Elizabethan England."
- Richard Dougherty, "Duggan."
- Gerald M. Durrell, "The Whispering Land."
- Maurice Edelman, "Minister of State."
- Medford S. Evans, "Revolt of the Campus."
- Eugene R. Fairweather, "The Meaning and Message of Lent."
- Phyllis R. Fenner, "Stories for Fun and Adventure," a Collection for all Boys and Girls who love good Stories.
- Norman Foerster, "American Poetry and Prose."
- Enrich Froma, "May Man Prevail? An Inquiry into the Facts and Fictions of Foreign Policy."
- Catherine Gaskin, "I Know My Love."
- Ian Grev, "Catherine the Great."
- Elyzabeth Gunn, "The Last Summer."
- Ben Haas, "The Foragers."
- Walter F. Hahn, "American Strategy for the Nuclear Age."
- Joseph F. Hannan, "Never Tease a Dinosaur: Tales of a Man in a Woman's World."
- Seymour E. Harris, "The Dollar in Crisis."
- Alex D. Hawkes, "Orchids: Their Botany and Culture."
- Barbara W. Jackson, "The Rich

- Nations and the Poor Nations."
- Henry James, "Short Novels."
- Leland Jamison, "Light for the Gentiles: Paul and the Growing Church."
- Elizabeth Jenkins, "Elizabeth and Leicester."
- Maymie R. Krythe, "All About American Holidays."
- Louis Lasagna, "The Doctor's Dilemmas."
- Astrid E. Lindgren, "The Tomten."
- Emilie B. Loring, "Throw Wide the Door."
- James D. Lunt, "Charge to Glory."
- Leonard V. Matt, "Renaissance Art in Rome."
- McCall's "Giant Golden Make-It Book."
- Allan C. McLean, "The Gates of Eden."
- Tibor Mende, "China and her Shadow."
- Jean Merrill, "The Superlative Horse."
- John C. Monsma, "Science and Religion: Twenty-three Prominent Churchmen Express their Opinions."
- Marion Montgomery, "The Wandering of Desire."
- Dewi Morgan, "But God Comes First, a Meditation on the Te Deum."
- Theodore Morrison, "The Whole Creation."
- Ruth E. Moore, "Man, Time, and Fossils: the story of Evolution."
- Jack O'Connor, "The Big Game Animals of North America."
- Richard O'Connor, "Gould's Millions."
- John P. O'Grady, "They're a Weird Mob."
- Michael O'Malley, "Mimers Hill."
- D. Parasnis, "Magnetism From Lodestone to Polar Wanderings."
- Gordon Park, "An Approach to Cybernetics."

We also sell a funny-looking car.

We sell a car that looks like a beetle. And a station wagon that looks like a bus. But we (and all our fellow VW dealers) think of them a little differently. We think both VWs look just like what they are.

The VW Sedan carries 4 people. The station wagon carries 8 (bag and baggage). The wagon also handles a staggering amount of just stuff. (It has 170 cubic feet of space, compared to about 105 in conventional wagons.)

Both VWs have air-cooled rear engines. (No water or anti-freeze needed; terrific traction on ice and snow.) Both park in practically the same space. (The wagon is only 9 inches longer than the sedan.) Both defy obsolescence. (Nobody knows what year Volkswagen you drive. Except you.) And both have restored a sense of proportion to the size of cars.

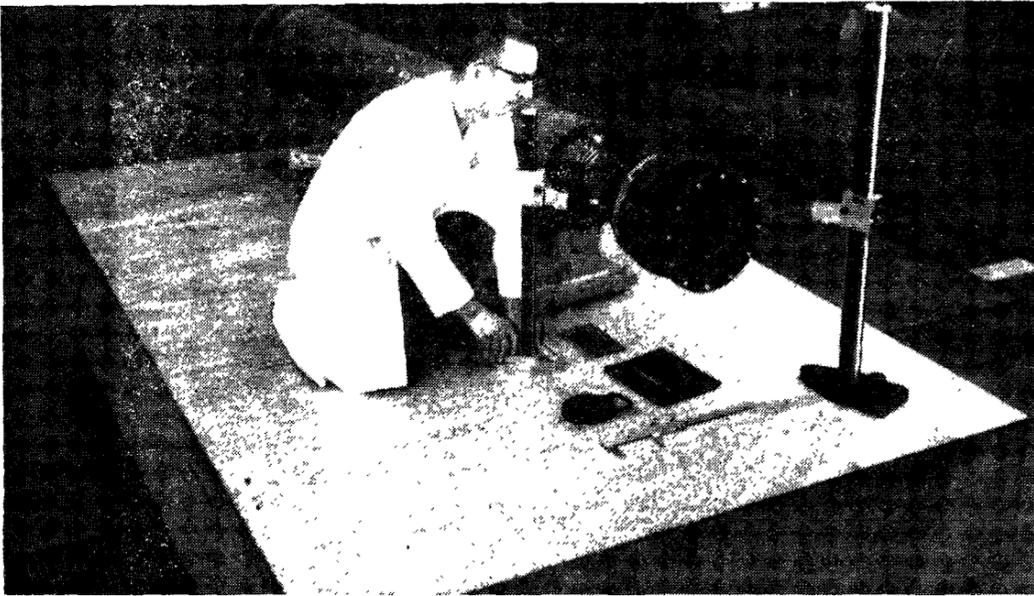

The VW Sedan is a pretty familiar sight, so not too many people laugh at it any more. But the VW wagon is still good for a few chuckles.

Suggestion: have some fun yourself. Come and take either or both for a ride today.

STONE AGE CARRY-OVER—This huge granite block, on which technician Marvin Russell is kneeling, is one of three used at the Army Ordnance Missile Command to check missile components. Called a surface plate, the giant stone can withstand the weight of a man, who must occasionally get on it to make adjustments for measuring missiles and their parts.

Granite Is as 'Precious As Rubies' in Research

Amid the ultra-modern and highly technical equipment used at the Army Ordnance Missile Command are three carry-overs from the stone age: huge blocks of granite.

To the Mechanical and Metrological Laboratory of the Industrial Directorate, where these missile age megaliths are used, the stones are more precious than rubies. They are kept in an air-conditioned room where not only the temperature, but also the humidity

and cleanliness of the air are controlled. But despite the sterility of their

surroundings the stones do not have a delicate "constitution."

They can physically support complete missiles or any part of a missile. The stones also can withstand abuse from personnel who are required at times to stand on the surface to obtain certain measurements. And they can stand great weights for long periods of time without suffering creeping fatigue.

These "precious stones" are each six feet wide, ten feet long, and thirty inches high.

"The tables are a base," said Donald E. Cooper, supervisor of the laboratory. "They have to be exact. We check the missiles manufactured by our contractors to be sure they are being produced to our specifications. This also allows us to determine whether our drawings and specifications have errors.

"If our base—or surface plate as these tables are called—is not accurate, it will throw off the exactness of the measurements of missile equipment. Inaccuracy of surface plates could, conceivably, mean possible acceptance of out-of-tolerance missile hardware. It also could mean rejection of good missile hardware. But to date the record of the Industrial Engineering Metrology Laboratory is excellent."

If a missile component is too long for one of the granite surface plates, there is no real problem. The three tables are perfectly aligned, and they are within .0015 of an inch the same height. A part more than thirty feet long can be placed on the tables, and accurate measurements then can

be made.

The smooth surface of the granite allows missile components and measuring instruments to be moved around as the need arises, and without the lubricant which would be needed on a metal surface plate. Each block is so smooth and so level that a missile or a fin from a missile can stand erect on it without the aid of vices, clamps and props that could cause the part to stand "untrue." In fact, the waviness in the surface of the table is not more than 25 millionths of an inch.

These 7.5-ton missile age stones are rare creatures of the stone-cutters art. Most granite surface plates are about two feet by three feet in size. But then only a few

places in the world have to measure anything as large as a Pershing ballistic missile.

"Surprisingly perhaps, the part we measure doesn't have to be big to get accuracy on the surface plates," Cooper said. "If we wanted to, we could measure a watch screw on it. But, of course, that would be like using an elephant gun to kill an ant. We have smaller surface plates to measure smaller items. The big ones are that accurate, however."

These stones have, in a way, evolved with men. What the cave man once laboriously chipped into an "instrument" for a few yards of flight, modern man has polished into a precise tool which helps him produce missiles which can fly hundreds of miles.

VA ANSWERS A QUESTION: Q. As a Korean veteran holding "RS" GI insurance, if I choose the new lower rate term insurance in order to collect a dividend, must I convert to a permanent type of insurance within a short time? A. You can convert to more permanent type anytime before you reach age 50.

Cause of Accident Proneness Usually Can Be Removed

Accident frequency is the barometer which indicates the trend of safety performance. A high frequency rate denotes unsafe acts, which, if not curbed, will produce serious accidents.

An analysis of accidents shows that there are "repeaters." It has been verified that a small group are responsible for the majority of accidents, and it is possible that some or all of these men are accident-prone. That is, they tend to have more accidents than would occur by mere chance.

Usually, however, accident repeaters are victims of faults that can be easily discovered and removed by common-sense methods. Accident proneness may result from any number of causes, and the supervisor can easily detect them when the employe is closely observed.

Supervisors should look for conditions surrounding the work of the accident repeater which might cause him to have accidents.

Accident-prone employes can be advised why they are accident-prone after a careful study. Most of the causes are personal matters and should be handled with considerable tact if results are to be expected. A lot can be accomplished if the employe is interviewed every so often and told that they are concerned about his repeated accident.

Occupational Health Service Offers Tips

Editor's Note: Third in a series prepared by Occupational Health Staff.

If You Scratch Don't Itch It

Communing with nature is wonderful! Perhaps few people can enjoy it more than we who live in the T. V. A. Lakes area, nestled between, among and on top of the increasingly verdant rolling hills of Northern Alabama and Southern Tennessee.

Water sports, fishing, hunting, hiking, spelunking or enjoying the scenery—there's nothing like it. Although a few may feel that such activities are "plumb vulgar," most people share in enjoyment of life in the out-of-doors.

As almost everything has pros and cons, advantages and limitations, good points and draw backs, we could even improve on Mother Nature—at least we think we can. Some things we could easily do without (but are not likely to) are insects, snakes, sunburn, poison ivy, and a talking wife when trying to catch fish.

Since, whatever we try, we simply cannot eliminate completely these things (except maybe the wife) we must learn to accept and cope with them.

Of all nuisances and hazards in the out-of-doors, perhaps poison ivy is the one which "irritates" people the most. For insects we have repellants. We can try to keep away from the snakes. For sunburn, we can keep our clothes on or use lotion. A talking wife, we can ask to be quiet, or not take

her on the next fishing trip, divorce her, or even drown her.

But poison ivy which grows anywhere becomes very itchy. Some people are "immune," even if they'd sit down in the middle of poison ivy. Others are so sensitive that they get a reaction if they are within a half mile of the stuff. For these poor souls (some 80% of us) poison ivy and its in-laws, poison oak and poison sumac, are the bane of nature, preventing full and free enjoyment of pleasure nature holds.

Most of us know what causes poison ivy (the three leaflets). But why such extreme reactions in some people? The answer lies within our own physiology as well as in the poison of the plant itself. The primary irritant (having a medical name which we could neither spell nor pronounce) is

the oily poison from any part of the plant which, even in very minute amounts, comes in contact with the skin.

Generally those people who are apparently "immune" have more pigmentation or coloration in their skin while people who react are more fair. But don't strain your luck. From the first exposure sensitivity to the poison is built up within the body. Following contacts and reactions become increasingly severe and painful.

Poison ivy is not a true ivy, but a member of the sumac family. It usually grows as a vine which clings to trees, fences, or poles. It can crawl along the ground and may even appear as a small shrub.

Poison oak, having a deeper notched leaf, is not an oak and does not look like a tree but is a vine also of the sumac family.

Poison sumac is the only correctly named and is a shrub or small tree, which can be differentiated from its non-poisonous relatives by its loose, drooping clusters of white berries.

A very minute amount of their oily poison can cause trouble. Direct contact isn't necessary.

Sensitive people can get it from shoes, clothing, another person or pets who have contacted the plant. Also, contact with the smoke from a bonfire burning poison ivy, oak, or sumac can do it.

So what can one do to prevent it?

1. Be able to recognize the plant and avoid contacting it.

2. Wear long sleeves and trousers (or leotards) when there is a possibility of being exposed to the plant.

3. After exposure, poisoning often can be prevented by washing the exposed skin with laundry soap (or detergent) and water followed by an application of rubbing alcohol.

If you know or suspect that you have contacted any of these plants, discard all clothing and shoes you have worn, of course with propriety.

Wash thoroughly with soap and water. Obviously don't wear (the same) clothes again until washed or cleaned.

The common tendency is to scratch the affected area when it begins to itch. This breaks the blisters and spreads the poison.

Apply calomine ointment, lotion, or caladryl to itching or red areas. This helps soothe and relieve the itching. There are several procedures still medically questioned such as "aqua ivy" which serve to reduce the sensitivity to ivy but we suggest that you check with your private physician about that.

If the eruption persists, spreads or is severe, see your physician.

One good rule to keep in mind is: "If you scratch, don't itch it."

SPEAKING OF LIBERTY

"IF WE STAND IDLY BY... IF WE SHRINK FROM HARD CONTESTS WHERE MEN MUST WIN AT HAZARD OF THEIR LIVES AND THE RISK OF ALL THEY HOLD DEAR, THEN THE BOLDER AND STRONGER PEOPLES WILL PASS US BY, AND WILL WIN FOR THEMSELVES THE DOMINATION OF THE WORLD."

...Theodore Roosevelt
