VOL. XI; NO. 7

REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

JUNE 27, 1962

TRAVELING IN STYLE—If Maj. John P. Ross president of the Huntsville Chapter of the National Defense Transportation Assn., is planning to take a trip he's sure to have adequate and charming escorts. Surrounding the happy Major are four airline hostesses who participated in the program of the NDTA chapter's monthly meeting last week. The girls are (left to right): Miss Ovie Folds, Delta Airlines; Miss Joan Dauphine, Pan American; Miss Valerie Sterling, American, and Miss Betty Barnett, Southern.

Final Move Set to End AOMC Reorganization

Support Agency UGF Appointments Announced Today

Col. Thomas W. Cooke, Army Ordnance Missile Support Agency Commander, today announced the following appointments in the forthcoming Redstone United Givers Fund campaign:

Mr. Bill Henry, chairman for AOMSA and Post Engineer representative; Mr. Sam Mathis, Logistics representative; Mr. Jerry Breedlove, S-1, S-2, (including the 291st Military Police and Troop Command), S-3 and Hospital representative; and Mr. J. C. McKinney, Technical Operations, Control, Finance and Accounting, and the Commander's Office.

Plan Requires Permanent Post For Each Civilian

Army Ordnance Missile Command personnel were informed today that completing the reorganization of the Command set in motion six months ago requires involving civilian personnel reduction in force procedures.

Normally, reduction in force procedures are used as a device to reduce the number of employees. In this instance, however, they will be used to place employees not yet assigned in permanent job spots in the new AOMC organization.

The AOMC announcement said there are 136 white collar employees remaining to be placed as of today. These are personnel with particular job skills that could not be fitted into the reorganized AOMC at the same pay grade and level of responsibility they held before the reorganization. About 300 others who could not be placed immediately after the reorganization have since been assigned to jobs.

AOMC said it would continue its current recruiting campaign to fill more than 200 vacant positions in certain categories.

Use of the reduction in force procedures will have little or no effect on most of AOMC's more than 8,500 civilian personnel. The Command emphasized that the procedures were being used to place employees in jobs to which they are entitled under strict conformance with Civil Service regulations. Only those job categories in which the unassigned personnel have qualifications will be involved in the procedure.

AOMC currently is realigning (See FINAL MOVE on Page 2)

Army Interest in Space Outlined by Gen. Hurst

The Army's continuing interest in space was described to members of the Space Science Summer Study at the University of Iowa last Wednesday.

Brig. Gen. Richard M. Hurst, Deputy Commanding General, Ballistic Missiles, Army Ordnance Missile Command outlined the major efforts within the Army that are contributing to the problems of operations in space and said:

"The Army has built up particular talents and capabilities. Where these are needed in the National interest, they should be used, whether it be on the ground or in space."

One of the Army's top missile managers, Gen. Hurst was commander of the Army Ballistic Missile Agency during the period when its space missions were being transferred to the National Aeronautics and Space Administration.

"The Army views space as an environment—not as a technology," Gen. Hurst said. "We feel that there are a substantial number of valid Army requirements in support of the Army's assigned mission of land warfare, for which the use of space can make a major contribution."

"This is not to say that the Army operates independently of

other services or National agencies. However, there are certain tasks so fundamental to the Army mission that they must be accomplished using Army equipment in Army hands."

Gen. Hurst described the Army's historic role in space, starting with the Diana moon radar experiments in 1946 and including the Explorer I, first U. S. satellite, and Army medical support for the Project Mercury program.

He described in detail Army research in the field of communications, mentioning ionosphere investigation, micro-circuitry, fluid amplifiers for guidance and control communications and solar energy research as a power source for space electronics.

He also discussed the cesium beam oscillator, better known as the atomic clock, a device that only loses one second of time in 500 years, and major areas of Army interest in feeding and clothing men as it relates to space operations.

"We have a newly developed plastic feeding tube packaging for the dehydrated semi-solid space ration components," Gen. Hurst said.

He stated that new flexible packaging for heat processed food would replace the traditional tin can.

Gen. Hurst also discussed the role of man in space and the protective gear needed to keep him alive.

"We feel that the man should be covered with a suit providing only pressurization — including breathing equipment — and mobility."

"Most common approaches to this problem appear to be based on including all possible protective and life support systems in the suit itself."

"We say that the space man will work when 'the weather allows'."

He also covered current Army Ordnance Missile Command programs including plasma jet facilities for laboratory study of re-entry bodies, packagable liquid propellants for use in Army field missiles and the LASER, a high light intensity beam for use in long distance communications and missile tracking.

MISSILE MOTOR MOUTHPIECE—Vic Grimes of AOMC's Test and Evaluation Laboratory looks up at the 40 ft. microwave antenna tower used to broadcast raw data from missile motor tests "live" to computers three miles away for instantaneous processing.

Computers Are Mouthpieces For Missile Motor Tests

Evaluation Is Faster Than the Eye Sees

A solid fuel rocket motor roars in a captive test stand—at the same time a computer in a laboratory three miles away spits out the test results.

Sounds impossible, but instantaneous results are what Army Ordnance Missile Command scientists of the Test and Evaluation Laboratory are getting when they conduct a missile motor test.

With radio wave transmission, evaluating motor performance data now can be done in minutes instead of days necessary under the old manual system.

The laboratory's new microwave radio system transmits bits of data

direct from motor to computation laboratory where they are converted into detailed engineering information on the firing in a time span measured in microseconds—a millionth of a second.

"Before the motor stops smoking, we have its performance on paper," says F. Z. Horton, chief of the flight instrumentation unit that handles data collection during a firing.

"It is a real time situation," Horton said. "The computation laboratory is processing data from ignition to burnout."

"The process eliminates the weeks of manual computation time that was formerly involved when we static tested a motor." (See MISSILES on Page 2)

Insurance Briefings Continue

Employees Asked To Return Cards To Personnel

Briefings on the Group Life Insurance being offered under the sponsorship of the Redstone Civilian Welfare Council are scheduled for the next week.

Employees are being advised by the program coordinator, Leonard Brockman, to complete the enrollment cards immediately and send them to:

Insurance Office, Civilian Personnel Office, Room 107, Bldg. (See INSURANCE on Page 2)

Management Studied by Project Men

Fourteen key personnel from missile project offices at the Army Ordnance Missile Command are attending a four-week school for project managers at Ft. Lee, Va. The course is sponsored by the Army Materiel Command.

Those participating in the school, and the offices they represent, are:

Col. O. M. Hirsch, Lt. Col. R. J. Schofield and Euel Ayers, Pershing; Herman H. Libbe, Sergeant; John A. Robins and Gregory J. Long, Missile "B"; Lt. Col. William J. Nelson and Eric E. Gustafson, Nike Zeus; Frederick Sittason and L. J. Steakley, Mauler.

Also, Jewett O. Kirkland, NATO-Hawk; Edward L. Smock, Nike Hercules; John W. Lordarski, Shillelagh; and Charles A. Cockrell, Research and Development Directorate.

The school started June 18 and continues until July 14.

Notice to Rocket Advertisers

Because of the 4th of July holidays next week, Rocket advertising deadlines, on both display ads and Want-ads will be moved up to Friday noon, June 29, for this next week's Rocket only.

Thank you,
The Publisher

Georgia Tech Co-op Is Active in Rocket Society

Ronnie Davis, a Georgia Tech Co-op student at Redstone Arsenal, has been leading student support of the American Rocket Society, Alabama Section.

Some of the thirty-five Co-op students at Redstone Arsenal are active in Student Chapters of the American Rocket Society at their colleges. However, Davis, who is Secretary of the Executive Committee of the student's Redstone Co-operative organization and a member of the ARS Alabama Section Publicity Committee, is emphasizing the advantages of the American Rocket Society membership to the Co-op students. Several are student members of the Alabama Section.

Davis is working this quarter in the Guidance Control and Aeroballistics Laboratory at the Army Ordnance Missile Command (Redstone Arsenal). He is in his junior year of aeronautical engineering at Georgia Tech, a member of Tau Kappa Epsilon Fraternity and the Georgia Tech Chapter of the Institute of Aerospace Sciences. He is a 1959 graduate of Chattanooga High School where he

RONNIE DAVIS

was an honor student, and a National Merit Scholarship finalist. His parents, Mr. and Mrs. James O. Davis and sister, Sue live at 3109 Lookaway Trail in Chattanooga.

He is a member of the Highland Park Baptist Church in Chattanooga. In addition to his Co-op academic engineering studies at Georgia Tech, technical work at Redstone Arsenal, and American Rocket Society activities, Ronnie Davis pursues his hobbies of photography, travel, swimming and tennis.

Substantial contributions are being made to the missile activities here and to the American Rocket Society by the seventy Co-op engineering and technical students who

Participating from seven colleges in the Southern area, one-half of the Co-ops work at AOMC at one time while the remaining half of the group attends college.

The alternate school-work periods are arranged either on a quarter or semester basis, depending on the particular school, and the program continues throughout the entire year including the normal summer vacation period.

Usually, a B. S. Degree is obtained in five years with the significant advantage that the student has already accumulated two and one-half years of technical experience plus substantial financial assistance from salary during the work periods.

The U. S. Army has equipped its combat forces at home and overseas with six missile systems: the surface-to-surface Redstone, Lacrosse, Honest John and Corporal and the surface-to-air Hawk and Nike Hercules guided missiles.

Maj. Huber Joins Zeus Development Team at Command

Maj. Leo K. Huber has joined the development team working on the Nike Zeus anti-missile missile system at the Army Ordnance Missile Command.

He has been assigned as chief of the Systems Engineering Branch of the Antimissile missile Systems Division, Research and Development Directorate. Maj. Huber replaces Maj. Orlando Garcia, who will attend the University of Maryland for a year under the Army education program.

Maj. Huber has been at Red-

stone Arsenal since 1960, and has completed the 18-week Guided Missile Ordnance Staff Officer Course at the Ordnance Guided Missile School here. Maj. Huber lives on post with his wife, Joan, two daughters, Marian, 6, and Karen, 8 months, and son, Kenneth, 4.

INCENTIVE AWARDS

The Incentive Awards Committee has announced the following:

Outstanding Performance Rating and Sustained Superior Performance
 Joyce B. Plaster, Librarian, R&D Directorate.

Sustained Superior Performance
 William M. Karnes, Procurement Analyst, Edward W. Ertl, Supervisory Contract Specialist, both Industrial Directorate; Marion B. Anderson, Supervisory Equipment Specialist, Field Service Dir., Betty L. Kelley, Supervisory Clerk, Industrial Directorate.

Suggestion Awards
 Frank S. Brown, Industrial Directorate, \$15 award — this suggestion resulted in the redesign of the exhaust louver, gas turbine, generators, Sperry-Utah Model GT-GE70-2-1, used on the SERGEANT Missile System Vans.

Charles E. Chambers, Paul D. Kennamer and Charles L. Twyman, Field Service Directorate, \$15 each—this was a joint suggestion which resulted in the use of a standard letter of acknowledgment for reply to Unsatisfactory

Equipment Reports.
 Cleve A. Hardiman, Field Service Directorate, \$20 award—this suggestion resulted in EAM Cards being stapled to change sheets when the cards are submitted to the Machine Room.

Charles W. McNitt, Industrial Directorate, \$15 award—this suggestion resulted in letters of commendation being sent to all personnel within Industrial Directorate who do not use any sick leave during the fiscal year.

Adrian A. Wilson, Industrial Directorate stationed at the Martin Company—\$25 award—this suggestion concerned request for Dummy Drawings on Breakouts.

Mrs. Florence T. Crane, Field Service Directorate, \$15 award — this suggestion resulted in the use of a form for division OCMS Reports. This form is estimated to save \$123 per year.

Miss Janet M. Malone, Field Service Directorate, \$20 award—this suggestion resulted in non-skid door mats being placed at the entrance to Buildings 3732 and 3747.

James R. Dickerson, Industrial Directorate, \$15 award—this suggestion resulted in the use of an Immersion Chamber for Thermal Shocking by Immersion of small electrical and electronic components.

Clyde J. Lincoln, Research and Development Directorate, \$15 award—this suggestion resulted in the mounting and adjustment mechanism of mirrors in the Test Cell being changed.

Betty I. Finley, Industrial Directorate, \$15 award—this suggestion resulted in the installation of a spring clip on the side of file cabinets to hold the locking bar while the cabinets are unlocked.

Orye W. Lessor, Industrial Directorate, \$25 award—this suggestion resulted in the installation of fluorescent lights in the Metrology Laboratory.

Howard L. Hightower, Industrial Directorate, \$25 award—this suggestion resulted in the required

QUIZ

1. The last time a sophomore was named to the consensus All-America football team was in 1957.

length of pre-production samples of cable assembled being submitted in separate pieces when they are to be subjected to the bend twist and impact tests.

Who was this outstanding half-back?

2. Max Carey was one of two players elected to the Baseball Hall of Fame in 1961. Who was the other, and for which two NL teams did he play?

3. Which halfback was the AFL's top player in 1960? (a) Abner Haynes (b) Billy Cannon (c) Gene Mingo

4. Chicago's 1961 Stanley Cup title was its first since: (a) 1947

(b) 1941 (c) 1938.

5. Who was the only NFL player to win the Most Valuable Player award more than once before the award was discontinued in 1947?

(Answers to Quiz)

1. Bob Anderson, Army.
2. Billy Hamilton, Philadelphia and Boston.
3. (a) Abner Haynes, Dallas Texans.
4. (c) 1938.
5. Don Hutson, Green Bay.

LOOKING AHEAD—Two young scientists, John Thornton of Huntsville, (left) and David Zavadil of Brookfield, Wis. look over a cluster of Hawk missiles during their visit to Redstone Arsenal recently. Col. George E. Pickett, Signal Officer for the Army Ordnance Missile Command conducts the boys on the tour. Both boys won science awards at the International Science Fair in Seattle, Wash.

International Science Fair Winners Visit Missile Research Laboratories

A promising young scientist saw the present and the future of scientific research as he visited the home of Army missiles last week.

David Zavadil, a Department of Army science service project winner from Brookfield, Wis., was invited to Redstone Arsenal, as a reward for his efforts in the field of plasma jets.

His escort for the trip was another science project winner, John Thornton, from Huntsville. Both boys won their awards at the International Science Fair in Seattle, Wash.

The main point of interest for the 18-year old scientist was the Army Ordnance Missile Command plasma jet facility and it was the first stop on a three day tour of the various organizations on the arsenal. The plasma jet simulates missile nose cone re-entry into the atmosphere in the laboratory.

Accompanied by Dr. Thomas A. Barr, chief of the plasma jet project at AOMC, Zavadil saw the 8,000 kilowatt facility under construction in the Research Laboratory.

In the afternoon he toured the

Electromagnetics Laboratory and the Propulsion Laboratory where Pershing and Nike Zeus are manufactured.

The second day of his stay at Redstone was taken up with visits to the Thiokol Chemical Corp. plant where solid propellant

motors for Army missiles such as the Marshall Space Flight Center drew the attention of the visiting scientist in the afternoon, as he saw the fabrication laboratory where the giant Saturn boosters

Soldier Breaks Academic Record

A soldier from Forest Hills, N.Y., recently set a new academic record

at the Army Ordnance Guided Missile School by scoring 98% in a course on maintenance of the Corporal ballistic missile.

Private Frederick J. Schonberger, 23, of 65-47 Elwell Crescent in the Long Island suburb of New York City, topped a 677 record set last year by French Air Force Sgt. Henri Monthoux of Lyons, France.

He was presented a special honors plaque of the Association of the U. S. Army by Carl E. Duckert, vice president of the local Tennessee Valley chapter. Schonberger's grade was the highest yet achieved by more than 25,000 graduates from all branches of the U. S. armed forces and 14 foreign nations.

Private Schonberger, who attended New York University for one year before entering the Army last January, is being retained at the Missile School to serve as an instructor in the same course in which he starred.

Small Bore Shooters Bring Home Trophies

Army Ordnance Missile Command small bore shooter, walked away with another armful of trophies at the Small Bore Regional Championships in Knoxville, Tenn. Saturday and Sunday.

Competing with the top small bore shooters in the country, the AOMC marksmen came away with 12 individual places and one team first in two days of shooting.

A two man team of SSgt. Obie S. Muegling and Sp6 David E. Munro shot a 780 score out of a possible 800 to win First Masters in the Iron Sight competition.

In individual competition, Sp5 James Maloney took one first place unclassified and seven second place awards; Sgt. Buford Harrison won three first marksman service awards and PFC Nicholas Dimona won a second place unclassified.

The AOMC team's next match will be the Tri-State Championships in Chattanooga, Tenn. on July 7-8.

M-Sgt. McGowan Heads Alabama Bowling Men

M/Sgt. Edward B. McGowan, Co. B. School Troop Command, Ordnance Guided Missile School will govern Alabama bowlers for 1962-63. At a recent meeting in Birmingham, McGowan was elected President of the Alabama Bowling Association.

McGowan, or "Mac" as he is known to the hundreds of bowlers throughout the state, has been well groomed for this job. For the past two years he has served as first vice-president and prior to that was a director in the association for two years. "Mac" has also served as a director in the

Southern Bowling Association. In the Huntsville Bowling Association he has held various offices for the past several years.

In 1960, McGowan was co-director of the Alabama State Tournament held in Huntsville and it was considered by many to have been the best run tournament in the history of the state association.

In the six years McGowan has been assigned to Redstone Arsenal, he has qualified and made the 2 Post Bowling Team five times. He was a member of this year's team which was successful in winning the Third Army Team Event at Ft. Rucker.

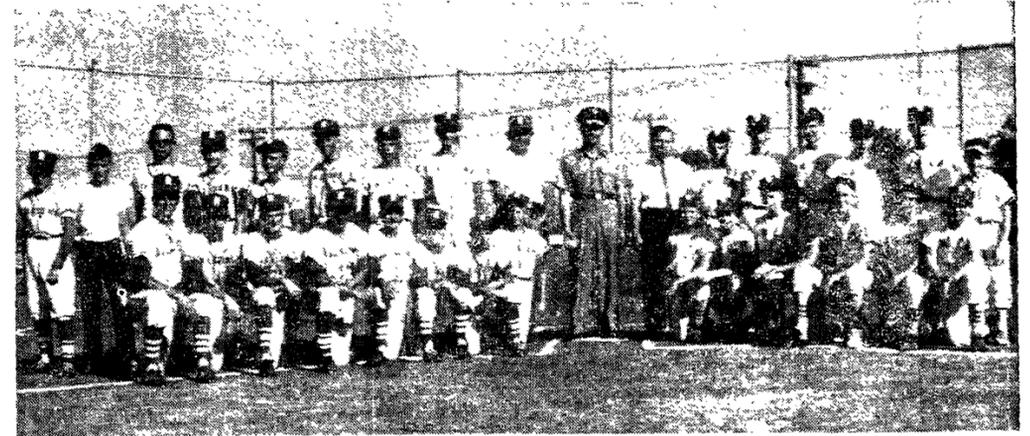

With his qualifications and his love of the game, Alabama bowlers can be assured the very best management during the coming season.

GOLF COMPETITION PLAYED FOR LOW GROSS, NET, PUTT

The Golf Group sponsored by the Redstone Arsenal Officers Wives Club played for low putt, low gross, low net last Wednesday at the Arsenal Golf Course.

Winners were: Mrs. J. R. Miller, low putt; Mrs. V. J. Laver, low gross; and Mrs. R. J. Schofield, low net.

The Golf Group begins play for the Gunna Madaris trophy today. The tournament will run through July 13.

PONY LEAGUE SPORT FIELD DEDICATED—Col. Henry J. Katz (center in Army uniform) formally dedicated the Pony League Baseball field at the corner of Hughes Drive and Goss Road last week. He turned the field over to the Pony League coach, SP5 Al Vasko. SP5 Vasko is under contract with the New York Mets. His Redstone Falcons won the first game over the Jaco team from Huntsville by a score of 12-6. Left to right kneeling are: D. Schmitt, B. Antonelli, C. Graham, J. Nelson, B. McPherson, R. Moore, M. Detchemendy, F. Neal; standing: N. Sholar, J. Disney, J. Mitchell, F. Osborne, K. Cobb, P. Searcy, B. Henderson, M. Eyley, SP5 Vasko, Col. Katz and Coach John Cotney of the Jaco team. Members of the Jaco team at right were not identified.

How's Your Know How?

1. What government agencies have control over the nation's public lands?
2. Where is the oldest fort on United States soil?
3. Which of the states has the longest seacoast?
4. Who organized the "Granger Movement"?
5. What is the world's longest unfortified border between two countries?

- (Answers to Quiz)
1. The Department of the Interior and the Department of Agriculture's Forest Service are the principal agencies concerned.
 2. El Morro Castle in Puerto Rico is the oldest. Spain began building the fort in 1539 at San Juan which commanded the strategic gateway to the Spanish Main.
 3. Alaska's coastline stretches at least 6,640 miles. Florida is second with 1,197; California third with 840.
 4. Oliver H. Kelly, taking an interest in problems of the farmer, set up the National Grange of the Patrons of Husbandry in 1867.
 5. The boundary between Canada and the United States.

AOMC's YOUNGEST COLLEGE GRADUATE—Mrs. Diane S. Burrows, an employe this summer in the Program and Contract Analysis Branch of the Industrial Directorate, was graduated this year from East Tennessee State College at the age of 18. She is shown busy at her desk at AOMC where she assists research personnel who analyze reports and come up with missile system costs.

Youngest College Graduate

Diane S. Burrows Is Mathematician Here

Probably the youngest college graduate ever to come to work at the Army Ordnance Missile Command is an employe this summer in the Program and Contract Analysis Branch of the Industrial Directorate.

She is Mrs. Diane S. Burrows, a dignified young lady of 18, who was graduated this year from East Tennessee State College, Johnson City, where she majored in mathematics.

Diane entered college when she

was 14. "I was in a combination junior high and high school in Tulsa, Okla. where our teachers frequently described college entrance examination," she said.

"My curiosity was aroused as to just what those exams were like, and I wanted to try them. We talked to the Dean of Liberal Arts at Tulsa University who assured us I could enter college there if I took the exams and made an acceptable score, and had a letter from my school principal recom-

rest of her class received their regular diplomas. So Diane was a junior in college by the time she received a high school diploma.

She spent the first two college years at Tulsa U., then transferred to the University of Tennessee for two quarters. From there she went to East Tennessee State for her final year.

When she entered junior high school she was given achievement and aptitude tests. Her scores were so high that she was placed in accelerated courses which permit moving along as fast as the student can cover the work.

In college, when the dean asked Diane what her major would be, she picked the subject in which she had made the most progress—mathematics. Her choice of a major was not based on a long, deep and abiding interest in one subject in particular. Her minor was physics. "The two seem to go together," Diane said.

She is now helping the research personnel in her branch who analyze reports and come up with costs on missile systems. She is also reading stacks of documents to gain familiarity with the work in her office.

Diane was married just before entering East Tennessee State. Her husband, John, is an employe in the Research and Development Directorate Launch and Ancillary Equipment Laboratory. He too is a graduate of East Tennessee State, and a mathematics major.

They decided to come to Redstone because they feel the work here offers the greatest challenge. Their residence is at 3912 McVay St., Huntsville.

Diane's interests away from

work cover classical music and stereo. While at Tulsa U. she was a member of the choral group, and at the University of Tennessee she sang with the chorus. She is a member of Chi Omega National social society, an organization she joined while attending Tulsa U.

She doesn't plan to do graduate work this fall although she received a National Science Foundation Fellowship. Instead, she is going to stay home and catch her breath after spending so many years of her young life in school and working. "I feel I need a vacation," she said.

Maybe sometime in the future she will return to college to resume her career as a mathematician and physicist. Whether she does, she feels her experience at AOMC will be valuable to her.

Why does this station wagon look like a bus?

The VW wagon is built for transportation. You will not find a wasted inch in it. It has no nose because the engine is in the rear. (Which gives it better traction.) It is four feet shorter than the conventional wagon. (Makes it more maneuverable, easier to park.) It is taller than the conventional wagon and shaped like a box. (This lets it hold more than the biggest conventional wagon.) It loads from the side. (This is the shortest distance to the carrying area.) Its driving seat is raised. (Gives you enormous visibility on hills and curves.)

Then, too, the VW wagon is the only station wagon you can buy with a hole in its roof. (Lets sun warm the passengers, breezes fan them. Also allows room for tall things. Like an 8-ft. wardrobe that stands up through the roof.) It's a funny thing about the VW wagon. Most people who start out saying it looks like a bus, end up calling it a bus. With great affection. Note: you can come in and take one of our box-shaped hole-in-the-roof VWs for a drive. At any time. (And don't be surprised if you end up calling it your bus.)

MARGARET MARY McMORROW

MISS McMORROW'S ENGAGEMENT TO CAPT. ANGLIN ANNOUNCED

Maj. Gen. and Mrs. Francis Joseph McMorrow of Redstone Arsenal, announce the engagement of their daughter Margaret Mary, to Capt. Richard Cornelius Anglin, United States Army, son of Mr. and Mrs. John Cornelius Anglin of Dorchester, Mass.

Grandparents of the bride-elect are Mr. and Mrs. Thomas Joseph Fox of West Hartford, Conn., and the late Mr. and Mrs. Francis Patrick McMorrow of New York. She is the niece of Mr. and Mrs. Fred M. Castonguay of Hartford, Conn. Miss McMorrow attended the National Art Academy in Washington, D. C., and studied art in Europe.

Capt. Anglin is the grandson of Mr. and Mrs. Lester Smith of Boston and Mrs. Cornelius Anglin of Dorchester, Mass., and the late Mr. Anglin.

He is a graduate of Northeastern University in Boston and is presently assigned to Redstone Arsenal as an Army Aviator.

The couple plan an early fall wedding.

AOMSA WIVES COFFEE

Wives of officers assigned at the Army Ordnance Missile Support Agency will hold a coffee at 10 a.m. July 2 beside the swimming pool at the Squirrel Hill Officers Club.

Reservations and cancellations are being handled by Mrs. R. N. Grove and Mrs. J. Hall. Deadline is June 28.

Toastmistresses Install Officers

Miss Thelma Leonard was presented the Audrey Darnell cup at the annual meeting of the Huntsville Toastmistress Club, Wednesday night. Miss Leonard was selected for her outstanding participation in and contributions to club activities.

Miss Nell Curtis received the President's cup from Mrs. Miles R. Hardenburg, for perfect attendance and devotion during her term of office.

Mrs. Barbara Ray was installed as president by Mrs. Gene Passmore, Regional Supervisor, International Toastmistress Club. Other officers for the new term are Mrs. Mary Jane Hearn, vice-president, Miss Thelma Leonard, secretary, Mrs. Grady Kennedy, treasurer, and Mrs. Gervaise Wyss, council representative.

Miss Virginia Lipscomb was inducted as a new member. Mrs. Cora Carr Briskey presided as Toastmistress. The program consisted of committee reports and transfer of records to the incoming chairmen.

Other distinguished guests included Mrs. Eleanor Wood, Assistant Supervisor, and Mrs. Clara Culpepper, Council 8 Chairman, Southeast Region, ITC.

High School Girls Meet Air Hostesses

Twelve Huntsville high school girls got a glimpse of the life of an airline stewardess Thursday as guest of the National Defense Transportation Association's local chapter.

To afford a realistic background, dinner for the chapter's monthly meeting was served on trays in airline style. C. C. Nixon, Jr., district sales manager for American Airlines and former chief of AA's training college in Fort Worth, Texas, spoke on "Airline Hostesses" at the dinner meeting in the Officers Club.

After the talk, the girls questioned four stewardesses about the job of an airline hostess. The hostesses were Betty Barnett, Southern, Ovie Folds, Delta; Valerie Sterling, American; and Joan Dauphine, Pan American.

MRS. HARRY R. ROGERS

Miss Harvey, Lt. Rogers Wed in Chapel Ceremony

The marriage of Miss Judy Parishes Harvey and Lt. Harry R. Rogers was solemnized in a formal military wedding ceremony at Redstone Arsenal Post Chapel Sunday night.

Lt. Col. John E. Batterson, Post Chaplain, officiated. The bride was given in marriage by her father, Mr. Arthur E. Harvey, Jr. Miss Kathy Marie Elmore was maid of honor.

Attendants included Miss Janet Corrine Harvey, sister of the bride; Mrs. Harvey H. Rogers, Maryville, Tenn., sister-in-law of the groom; Miss Irlene Dobbins, Athens, and Mrs. William H. Poor, Huntsville.

WO Frederick H. Morman, Jr., served as best man. Ushers included Master Arthur E. Harvey, III, brother of the bride, Capt. Donald M. Reese, Lt. Hilliard Good, Jr., Lt. Gary B. Babcock, Lt. Clifford R. Harper, Lt. Stanford K. Evans, Lt. Robert E. Harper, Lt. James M. Tucker, and Lt. Carl H. Neu, Jr.

Miss Deborah Ann Harvey, sister of the bride, dressed in white lace with white accessories served as flower girl while her brother, Master James Britton Harvey carried the ring on a white satin pillow.

Miss Harvey chose a gown of silk organza with a bodice of lace. Sabrina neckline outlined in seal-

lops and irredescents with long pointed lace sleeves. The skirt is bell shaped and appitqued with lace. Her veil was a crown of illusion overlaid with pearls. She carried a white prayer book and a white orchid and lily of the valley corsage with streamers.

The bride is the daughter of Mr. and Mrs. Arthur E. Harvey, Jr., of 910 Hereford Drive, Athens. Mr. Harvey is Chief of the Value Analysis Office at the Army Ordnance Missile Command.

Lt. Rogers is the son of Mr. and Mrs. Samuel H. Rogers, Route 5, Maryville, Tenn. Lt. Rogers is assigned at the Ordnance Guided Missile School.

A reception followed the chapel ceremony at the Squirrel Hill Officers Club.

Left to right: Ed Anders as Love Bensey; Farley Miller as Sister Bessie; and Director S. D. Nilsson.

Little Theater Plans 'Tobacco Road' in July

The Huntsville Little Theatre will present TOBACCO ROAD as its summer production. The play will be presented in the round at the Russel Erskine Hotel Ballroom July 12-15.

Seven of the eleven characters in Tobacco Road are Redstone Employees. In the leading role of Jeeter Lester is Francis McKinney, mathematician with MSFC in the Aeroballistic Lab.

Nancy W. Neilsen will be seen in the role of Ada Lester, Jeeter's wife. Mrs. Neilsen will be making her acting debut with HLT in this play, although she has been active in backstage work for several seasons. She is an Administrative Assistant in the Civilian Personnel Office with U. S. AOMC.

George Hartsell, Visual Information Officer with AOMC, will portray Dude Lester, the half-witted, horn honking son of Ada and Jeeter. Mr. Hartsell has appeared in Double Door and Dial M For

Murder with HLT.

Psalm singing Sister Bessie will be played by Farley Miller. Miss Miller, a Systems Analyst with General Electric, was seen last season as Abby Brewster in Arsenic & Old Lace. She has done extensive work in the fields of lighting and Stage Managing.

Edward Anders, summer employe with G. E. in the Computer Center, will be seen as Love Bensey. Mr. Anders comes from Auburn University where he has to his credit such productions as Bus Stop, Guys and Dolls and Detective Story.

Jack Shepherd will be seen in the small but unique role of Henry Peabody. He appeared in the Mikado last season and he is an Illustrator with Thiokol.

Mary E. Chesser will portray Pearl in Tobacco Road. She has been active backstage with HLT, but this is her first appearance on stage. She works with Missile Intelligence AOMC.

Tobacco Road will be directed by J. D. Nilsson. Mr. Nilsson is a past president HLT and has directed JANUS, OH MEN, OH WOMEN, and THE GAZEBO. He is a Publications Specialist with General Electric. Assistant Director is another HLT veteran Al Olson. Mr. Olson, an Engineer with Chrysler, was last seen in Arsenic & Old Lace and is Vice President of HLT for the coming season.

Others in the cast are Barbara Kirk as Ellie Mae, Loretta Escher as Grandma, Gene Ward as Capt. Tim, and Wolfram Glaser as Mr. Payne.

Tobacco Road, once a very controversial drama, has gained its place in American theatre as a classic. It is Broadway's second-longest-running play. It played consecutively for eight years. After New York a company toured the U. S. and Canada for 12 years.

\$1 Million Surplus Sale Announced

The Atlanta Defense Surplus Sales Office, an activity of the Defense Supply Agency, located at the Atlanta General Depot, has announced a sale of over \$1 million worth of surplus Government property to be offered to the general public via the Telephone Spot Bid method on Thursday, July 12.

The second of its type to be conducted by the Atlanta DSSO, the sale will be opened for bids at 9 a.m. at the Atlanta Gen. Depot which will be the control point, and announced over telephone and loudspeaker systems simultaneously to two other sale sites located at Anniston Ordnance Depot, Ala. and Donaldson Air Force Base, S. C.

Bidders at each of the sale sites will have the same opportunity to bid on all items offered for sale, regardless of the location of the property. Prospective buyers are invited to attend the sale site most convenient to them. If they desire, successful bidders present at the sale may take the property home with them.

All items are available for inspection from now to the sale date and property may be seen at Donaldson AFB, S. C., Anniston Ord. Depot, Ala., Atlanta Gen. Depot, Forest Park, Ga., Redstone Ar

Tobacco Road has been produced in 14 languages in 22 countries. The HLT production will be the first in this state.

The audience will see a sensational, frankly spoken, comical, adult play. However, under this coating they will feel the compelling, moving and human tragedy that unfolds in the lives of the Lester family. These people are the symbols of once-great American pioneer stock now rundown and degraded through poverty and ignorance.

senal, Ala., Ft. Gordon, Ga., and Sewart AFB, Tenn. Property listed for sale includes a large variety of equipment such as tractors, trailers, forklifts, generators, railway cars, clothing, hardware and tools, vehicular equip., rock crushing and screening plants, a well drill, communications equip., and many other items of value to individuals and industries.

Free catalogs illustrating the property and listing locations of same may be obtained upon request from the Property Disposal Officer at any of the property locations or at the Atlanta DSSO, Dept "T", Atlanta Gen. Depot.

Target Missile Lives Up to Its Promise in Development Firing

The Army's newest target missile, the Redhead and Roadrunner, went through its paces like a finished performer in a development firing Friday at White Sands Missile Range, N. M.

Post firing evaluation indicated p.m. and Sunday matinee at 2 p.m.

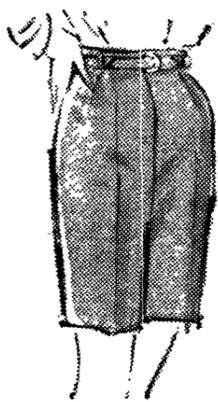

a completely successful test.

Ground launched with a solid fuel rocket booster, the target switched over to ram-jet powered sustainer flight and flew a scheduled low altitude, sub-sonic mission.

Parachute recovery was accomplished on ground command.

AOMC manages the target development program. North American Aviation's Columbus, Ohio, Division is prime contractor for the target development program.

Interim Changes Made in Zeus Project Staff

Interim changes in Nike Zeus anti-missile missile system project manager's staff were announced today by Col. Glenn Crane, Zeus project manager.

J. V. Oiszewski, chief, Anti-Missile Missiles Branch, Maintenance Division, FSD, and Major James E. Peek, CONARC Developments project officer for ZEUS and the Field Army Ballistic Missile Defense System, are on loan to the manager's staff.

Col. Crane said Oiszewski and Maj. Peek, augmenting the regular staff, would assure continuity of Zeus management.

Col. Crane, Zeus project manager for the past two years, is due to leave AOMC shortly to attend the Armed Forces Industrial College. His principal assistant, Eric Gustafson, is currently attending a month-long project manager's course at Ft. Lee sponsored by the Army Materiel Command.

In other Zeus changes, Dr. Bruce A. Reese is acting as chief of the

Brockman Goes to England—

Son of Civilian Personnel Man to Study, Be Guide

Richard Brockman, son of Mr. and Mrs. Leonard M. Brockman, will fly to England in July to study and act as a guide for tourists visiting the newly-erected conven-

try Cathedral.

Buzz-bombs destroyed the original during World War II. The new one was finished this Spring.

Anti-Missile Missile Systems Division, R&D, in the absence of Lt. Col. William J. Nelson who is also attending the AMC course at Ft. Lee.

Brockman is one of 13 Episcopal Young Churchmen from Alabama scheduled to work and study in England this summer. The 13 were selected on the basis of a theme written earlier this year entitled "The Church and Its Mis-

sion in Today's World."

Richard plans to visit places and people his parents knew while they were in England including Oxford University where they studied. Richard is currently the president of the Young Episcopal Churchmen of Alabama.

He also is helping to earn spending money by working at a local filling station, a job that he alternates with his older brother, Leonard. The management does not al-

ways know which of the Brockman brothers will be on duty. The boys plan their workdays and play time to be sure one of them will be.

Mr. Brockman is a member of the Army Ordnance Missile Command's Civilian Personnel Office. He has taken his family with him on overseas tours including a tour in Panama where Richard met Queen Elizabeth of England. If he is presented to the Queen as scheduled during ceremonies at Coventry, this will be his second meeting with the Queen.

Cyclists Get Certificates

Bicyclists between the ages of six and 12 years concluded two-days of instruction on bicycle safety and were awarded certificates under the joint sponsorship of the Provost Marshal Division and the Safety Division of the Army Ordnance Missile Command.

The two-day instruction included lectures, films, a physical inspection of the bicycles and a rodeo.

Coordinators for the program were Lee Camp, Safety, and Lt. Hugh L. Barnett and Sgt. Henry T. Asseln, Provost Marshal Training Section.

Many starters did not complete the two-day instruction. Future courses are planned. Certificates are awarded on completion of both days of instruction.

RODEO WINNER—Kaven Kirby receives a pen and pencil set after winning the bicycle rodeo that concluded a two-day course of safe riding instruction for boys and girls between six and 12 years old. Lee Camp of the Safety Office, AOMSA, makes the presentation.

PROVED PROFICIENT—Kathleen Riley receives a certificate of completion from Thomas H. Blakemore, Assistant Chief, Provost Marshal Investigation Branch, following two-days of bicycle safety instruction and a bicycle rodeo. The course was sponsored by the Provost Marshal and Safety Office, AOMSA.

Books in Review

THE INAUGURAL ADDRESSES OF THE AMERICAN PRESIDENTS Annotated by Davis Newton Lott (Holt, Rinehart and Winston, 299 pp., \$8.95).

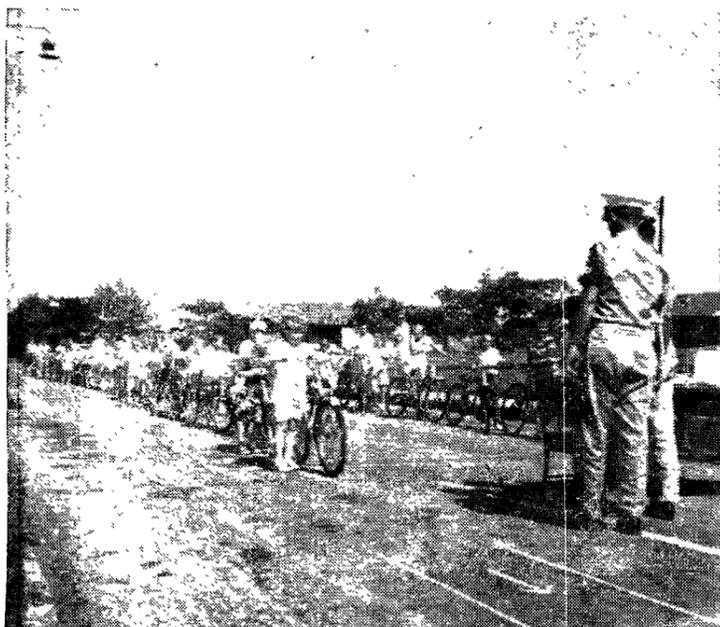

The thread of American history runs through these addresses, and reading them inspires pride in our country and the feeling that we can stand up and be counted with any people of the world when it comes to ideals, aspirations and moral integrity.

We have been remarkably consistent. Theodore Roosevelt's comment on relationships with other nations is valid today:

"Toward all other nations, large and small, our attitude must be one of cordial and sincere friendship. We must show not only in our words, but in our deeds, that we are earnestly desirous of securing their good will by acting toward them in a spirit of just and generous recognition of all their rights. But justice and generosity in a nation, as in an individual count most when shown not by the weak but by the strong. While ever careful to refrain from doing wrong to others, we must be no less insistent that we are not wronged ourselves."

Andrew Jackson put it: "To do justice to all and to submit to wrong from none." Or Woodrow Wilson: "... we have still been clear that we wished nothing for ourselves that we were not already to demand for all mankind—fair dealing, justice, the freedom to live and to be at ease against organized wrong." President Eisenhower: "We cherish our friendship with all nations that are or would be free." Or President Kennedy: "My fellow citizens of the world: ask not what America will do for you, but what we can do together for the freedom of man."

Reading the addresses provides a unique approach to the comprehension of our history and a warm appreciation of the deep roots of our national heritage.

DOWN THE HOME STRETCH—Bicyclists line up for a safety inspection by MPs and Post Safety. The inspection was part of the two-day instruction given cyclists recently.

OBSTACLE COURSE—Cones were set up for the bicycle rodeo to test the proficiency of the junior cyclists who completed the two-day safety course sponsored by the PM and Safety, AOMSA.

HUB OF SUPPLY SYSTEM—Charles Colvard points to Detroit, one of the sources for missile equipment shipped across the world. Every move of missile equipment is fed across the transceiver network to the Machine Operations in the Automatic Data Processing Office of the Field Service Directorate. Colvard, who helped set up the MILSTRIP program for Ordnance, is chief of Machine Operations. MILSTRIP (Military Standards and Requisitions Issue Procedures) is effective July 1.

PEOPLE AT WORK

Colvard Helped Plan MILSTRIP

New Supply System Ready to Operate

MILSTRIP is ready for a July 1 debut and the date has special significance to Charles Colvard, Chief of Machine Operations in the Automatic Data Processing Office of the Field Service Directorate.

He is a member of the Task Group from Ordnance who helped design the new supply system which is being introduced in all branches of the military services. MILSTRIP (Military Standardization Requisition and Issue System) will standardize forms, codes and legends throughout the Department of Defense, eliminating confusion and duplication of forms and records.

Only one form will be used to order any item, from paper to

exotic fuels. With 64 people working staggered shifts, Colvard's section accomplishes the gathering of data as the supply situation for missiles changes. Computers on the transceiver network process cards to and from depots throughout the world—create cards and keep an accurate tabulation of procurement in the field.

Colvard has been at the Arsenal for the past five years. All told, he has had 14 years of experience in mechanized data processing—previously with the Air Force at Gadsden where he also had computer experience.

Colvard served on the MILSTRIP Committee for Ordnance Implementation for more than a year. Sixty people met at Rossford Arsenal for seven weeks to rewrite all Ordnance 3-2 manuals dealing with

supply. This Task Group changed the whole concept of the Ordnance Supply System and submitted the proposal to the Chief of Ordnance for further processing by the Department of Defense.

The only regret for the past year that Colvard has is that it has interfered with his golf game. He is a par golfer but his activities with the MILSTRIP program have occupied his time so that he has turned to occasional bowling.

During World War II, Colvard served in Europe. When the Korean conflict grew heated, he was recalled to active duty.

Colvard and his wife, Janice, a native of Massachusetts, now live at 2219 Barrywood Circle, Huntsville. They have a five-year-old son, Keith, and a four-month-old daughter, Diane.

Memo to all wives with husbands stationed in Europe

—Advertisement

**How KLM can help
you join your
husband in Europe**

Here are several ways KLM makes it possible for you to fly over and join your husband in Europe.

Pay only one tenth of fare now. Sons and daughters from 12 to 25 may fly family plan. Children under 12 pay half-price. Infants under 2 pay only 10 per cent. DC-8 Royal Jets and low-fare DC-7cs.

1. KLM's Pay Later Plan. You pay only one tenth of your fare before you fly, the remainder over 24 months. **Example:** A down payment of \$35.00 will take you from Huntsville to Frankfurt (DC-7C Economy Fare). KLM's interest rate is one of the lowest — 4¾ per cent discounted per annum.

2. Choice of planes. On KLM, you can fly to Europe on low-fare DC-7Cs. Or you can choose KLM's Royal 8 Jets that get you to Europe in only 8 hours.

3. Traveling with children. No problem on KLM. Friendly cabin crews help you take care of your children, prepare food, supply special cribs for babies.

What it costs: Here is a breakdown of a typical KLM fare to Europe, based on a one-way economy class flight on a DC-7C from Huntsville to Frankfurt:

Adult's fare	\$351.90
Child under 12	\$172.95
Infant under 2	\$ 27.60

K.L.M. ROYAL DUTCH AIRLINES

SOLDIER OF MONTH—SP4 Russell J. Marena (center) is the first man from the Medical Detachment at Redstone Arsenal to be named the Post Soldier of the Month. He is assigned in Preventive Medicine. SP4 Marena is a native of Boston, Mass. He entered the Armed Forces in June, 1956 and took his basic training at Ft. Benning, Ga. Afterwards he was assigned as a Preventive Medicine technician with the 2nd Field Hospital at Munich, Germany. He is married to the former Miss Janice Burlingame. The couple has a daughter, Holly Ann, 5, and a son, William Colin, 2. Col. Thomas W. Cooke (right), Commander of the Army Ordnance Missile Support Agency, presented SP4 Russell a letter of commendation and a check. At left is Capt. Alva C. McNabb, Commander of the Medical Detachment.

Wilson to Represent Command in Europe At Technical Meets

Walter B. Wilson, Jr., of the Army Ordnance Missile Command's Research and Development Directorate, will represent AOMC at two technical meetings in Europe next month.

Wilson, chief of the rocket systems section in the Advanced Systems Laboratory, Future Missile Systems Division, will attend a six day session in Bonn, Germany, following a two day meeting in Paris.

A native of Northampton County, Va., Wilson holds a mechanical engineering degree from the University of Florida. He worked for the Glenn L. Martin Company in Baltimore and the Universal Moulded Products Corporation, Bristol, Virginia, before joining the Army missile team at Redstone in 1953.

He has worked on a variety of solid propellant, free flight rocket systems, including Littlejohn.

Although he spent considerable time overseas during World War II, this will be Wilson's first trip to Europe. The trip will combine business and pleasure. Mrs. Wilson is travelling to Europe with him. They plan to take leave for a short vacation in Italy and Switzerland before returning to Huntsville in late July.
