OCTOBER 17, 1962

Best Chapter Award Goes To Tennessee Valley AUSA

Tennessee Valley Chapter Delegates were in the thick of activities at the past week's Annual Meeting of the Association of the U. S. Army. The meeting was held in Washington the past week.

The local chapter was presented a Best Chapter Award Wednesday having the AUSA's largest membership as of June 30.

Of prime importance was the local chapter's introduction of a resolution dealing with research and development. The resolution read:

WHEREAS, the United States Army through its Research and Development activities has developed tactics and weapons that keep it abreast of today's needs; and

WHEREAS, the largest proportion of government research and development work has been contracted to private industry, educational institutions and non-profit organizations and should continue to be so contacted; and

WHEREAS, the increasing pace of scientific evolution has placed heavy demand on the United States to keep abreast of the state of scientific arts to assure the acquisition of the most modern weapons and equipment for the national defense;

NOW, THEREFORE, BE IT IT RESOLVED that the U. S. Army continue to expand and accelerate its program of research and development through the provision of modern facilities including Army laboratories manned by capable personnel to further the objectives of public and private agencies.

In addition to that resolution, the Tennessee Valley Chapter took

LT. COL. M. D. CLARK

New Chief Named At Atlantic Range

Lt. Col. Melvin D. Clark has assumed duties as Chief of the Atlantic Missile Range Army Field Office at Patrick Air Force Base, Florida.

He replaces Col. Arthur MacKusick, who retired in August. Col. Clark has served as deputy chief of the Army Field Office since July, 1961.

As Department of Army representative at the Atlantic Missile Range, Col. Clark has responsibility for Army activities ranging from Cape Canaveral to Ascension Island, 5,000 miles downrange in the South Atlantic.

The Army is now testing the Pershing, a ballistic, selective-

(See NEW CHIEF on Page 3)

active interest and helped push other resolutions which called for establishment of effective ballistic missile defense by production and deployment of the Nike Zeus system; endorsed the Army's counter-insurgency and civic action capabilities.

Taking part on the program for the four-day meeting was Lt. Gen. Frank S. Besson, Jr., Commanding General, Army Materiel Command. He was part of a panel which outlined the progress in reorganization of the Army.

Adm. Clark Confers On Nike Zeus

Thursday was Army-Navy Day at Redstone Arsenal.

Rear Admiral John E. Clark, Commander, Pacific Missile Range, with headquarters at Point Mugu, California, made his first official visit to the Army Missile Command.

Heading the list of Redstone officers with whom Adm. Clark conferred were Maj. Gen. F. J. McMorrow, Commanding General of the Missile Command, and Brig. Gen. H. P. Persons, the Command's Deputy Commanding General, Air Defense Systems.

Adm. Clark also met with Col. Ivey O. Drewry, Jr., Nike Zeus Project Manager and members of the Zeus staff. Basic purpose for the visit was discussion of Nike Zeus activities currently programmed over the Pacific Missile Range.

He was accompanied by Col. John G. Redmon, Chief of Army Field Office at the Pacific Missile Range.

Nike Zeus tests are conducted on the Pacific Missile Range from Point Mugu and Kwajalein Island. Land tests are made at White Sands Missile Range, New Mexico. The Army Materiel Command, of which the Missile Command is a component, is responsible for the development and testing of Nike Zeus, the Free World's only anti-missile missile in advanced development.

Included in Adm. Clark's party (See ADM. CLARK on Page 3)

COL. D. F. SHEPHERD

Col. Shepherd Named Target Product Chief

Col. Daniel F. Shepherd has been named Product Manager for the Target Missiles/Multisystem Test Equipment program of the Army Missile Command. He will serve under Brig. Gen. H. P. Persons, Jr., Deputy Commanding General, Air Defense Systems.

This is Col. Shepherd's second tour of duty at Redstone Arsenal, having been assigned to the Army Ballistic Missile System when it was activated in 1956. He was on duty here during development of the Jupiter missile and when the first satellite was placed in orbit by the U. S. Army.

Col. Shepherd entered active military service from reserve status in 1941, serving in Washington, D. C., England, North Africa and Continental Europe. His duties were primarily with ammunition development and supply.

After World War II, he went to Sandia Base, N. M., and to Washington where he was engaged in development and production of atomic weapons and missiles until his first assignment to Redstone Arsenal.

He is a graduate of the Command and General Staff School at Ft. Leavenworth, Kans., and from the Armed Forces Industrial College in Washington.

Col. Shepherd was stationed in (See SHEPHERD on Page 3)

Army Missile Command Schedules Moving Day

Army Leaders See OGMS TV Program

The Army's new Chief of Staff, Gen. Earle G. Wheeler, and numbers of other high-ranking officials watched a demonstration of the Ordnance Guided Missile School's educational television facilities at the convention of the Association of the U. S. Army in Washington last week.

Sponsored by the Army and the American Telephone & Telegraph Co., the demonstration featured excerpts from televised missile maintenance courses produced at OGMS and carried over open coaxial cables to the convention's exhibit area in the Sheraton-Park Hotel.

Highlights were taken from the two-hour Preventive Maintenance Course which the Missile School has been transmitting regularly for four years now to the Armor School at Fort Knox, Ky. After each demonstration, viewers were invited to ask Capt. Kenneth E. Shave, chief of the OGMS-TV Branch, questions about the use of video for such training.

Some 58 of the live transmissions were from Huntsville during the three-day convention. Gen.

Flu Shots Begin Monday For Army, MSFC Civilians

The Civilian Welfare Fund Council is sponsoring a flu inoculation program in Bldg. 7110 for civilian employes of the Army and the Marshall Space Flight Center at a nominal cost to the individual.

Inoculations will be administered beginning at 9 a.m., Oct. 22, by qualified personnel under the direction of doctors licensed by the State of Alabama. Individuals allergic to eggs have an adverse reaction to these shots.

Schedules for personnel from the Army Missile Command, the Army Missile Support Command, the Ordnance Guided Missile

(See FLU SHOTS on Page 3)

Moving day for Army Missile Command components affected by the recent reorganization will get underway Saturday morning, Oct. 20.

Responsibility for accomplishing the relocations has been assigned to the Army Missile Support Command. Col. Thomas W. Cooke, Commander, AMSC, said that moves will be scheduled on weekends. Organizations to be moved first will be notified by Oct. 17. Lt. Col. R. F. Kriz has been appointed as a project officer for the relocation activities, he added.

This major physical movement of personnel and offices is the result of establishment of the project manager system within the Missile Command. The moves are designed to bring together various units of the project offices, some of which are now housed in several buildings throughout Redstone Arsenal. The plan of consolidation has been approved by Maj. Gen. F. J. McMorrow, Commanding General, Army Missile Command, based on current personnel authorizations.

The location of offices under the relocation plan, and movement coordinators will be as follows:

Building 5250: Commanding General and Staff; Mauler Project Office; Missile "B" Project Office; Pershing Project Office; Sergeant Project Office; Liaison Offices and Support Services. Emmette M. Jennings is movement coordinator.

Building 4488: Directorate of Procurement and Production; Hercules Project Office; Hawk Project Office. Willard Collins is movement coordinator.

Building 4505: Directorate of Research and Development; Zeus Project Office; FABMDS Project Office. Michael K. Foster is movement coordinator.

Detailed space allocations with in the three buildings and detailed movement plans are being developed by the movement coordinators who are working with officials of the organizations involved. These plans are to be submitted to Col. Cooke for consolidation and issue of movement orders.

Logistical support services for the movement, such as lab crews, vehicles, material handling equipment and packing supplies are provided by the Missile Support Command.

A detailed plan has been prepared (See MOVING on Page 3)

90 YEARS OF SERVICE RECOGNIZED—Maj. Gen. F. J. McMorrow, Commanding General, Army Missile Command, spoke highly of the honors attached to the 30 year service pins he presented Monday to three members of his Command. Shown with Gen. McMorrow are Charles A. Simmons, Mason B. McCary and E. Thompson Hewes.

Three Receive 30-Year Pins

Three Army Missile Command employes were honored Monday they marked 90 years total service to the United States. Maj. Gen. J. McMorrow, Commanding General, presented Mason B. McCary, E. Thompson Hewes and Charles A. Simmons framed certificates of recognition and pinned on each 30-year service pin.

McCary is Requirement and Distribution Officer of the Directorate of Supply and Maintenance. He is both a Marine Corps and Army veteran and has been Redstone Arsenal three and a half years. He is a native of Annis Ala.

Hewes is a Program Specialist for the Directorate of Procurement and Production, having been here more than eight years. A native of West Virginia, government service includes a (See THREE on Page 3)

The Redstone Rocket

The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Ordnance Missile Command, Redstone Arsenal, Alabama, Bldg. 5250, Room A-136. Extension 876-4161. All advertising copy and payments therefor are received by Mrs. Zillah T. Heath, Huntsville, Alabama, P. O. Box 346, telephone 531-4701, as representative of the publisher.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$5.15 a year, or \$2.83 for six months, Alabama sales tax included. Mailing arrangements may be made with the publisher.

Rocket Ruminations

Doing easily what others find difficult is talent; doing what is impossible for talent is genius.
—Henri Frederic Amiel

A Successful Show

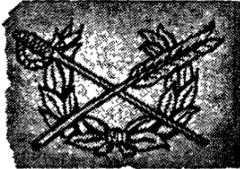

An estimated 120,000 people visited the Army Missile Command's exhibits at the recent Alabama State Fair in Birmingham.

According to Col. Thomas W. Cooke, Commander, Army Missile Support Command, these displays were well received.

Because of the very nature of the Army Missile Command's mission, it is difficult to explain and show the public how their tax money is being spent. The displays at the Alabama fair—and others in which the Command participates—do much to help tell our story.

Obviously the displays, explanations and other exhibits have been so well prepared that they bring great credit to everyone connected with the Army Missile Command.

The Judge Advocate Advises

VOTING

On Nov. 6th of this year general elections will be held in all states and territories of the United States.

Every citizen has a social responsibility to staff the offices of our government with the most capable, intelligent, and unselfish persons available. An informed, alert citizen can do much to protect himself and to assist in good government by voting.

All citizens are not eligible to vote. The legislative bodies of the several states have passed laws setting forth requirements which a person must meet before he can cast his ballot. The more common legal requirements of voting pertain to age, citizenship in the United States, residency in a state, county, and precinct for a prescribed period and registration with the local election officials. Generally speaking, all states provide for

voting by absentee ballot.

VOTING ASSISTANCE

In 1955 Congress passed "The Federal Voting Assistance Act." This act directed the Secretary of Defense to establish a voting assistance program designed to help members of the Armed Forces to vote by an absentee ballot when their duties or service required them to be away from their local voting places at election time. In addition, the act authorizes the printing and distributing by the Government of a postcard application form for absentee ballot (commonly referred to as the FPCA). The FPCA can be used by military personnel and their dependents to apply for an absentee ballot and to register by absentee process if the laws of their home states authorize it. It is not mandatory that the FPCA be used, however, its use is recommended because when completed it will contain the infor-

CHEMISTS ELECT DR. DAVID SAYLES 1962 CHAIRMAN

The American Institute of Chemists, Alabama Section, elected Dr. D. C. Sayles as its new chairman for the 1962 term.

Other officers elected are: Vice Chairman, James O. Mann, Jr., Minnesota Mining and Manufacturing Company, Decatur, Ala.; Secretary, Grafton F. Mangum, Thiokol Chemical Company; Treasurer, Lee A. Naftel, NASA; Representative to the National Council, Dr. Robert W. Walker, Rohm and Haas Company; Advisor, Martin D. Williams, ASTIA.

Membership in the American Institute of Chemists is open to any person who has a degree in Chemistry (B. S.) from a recognized academic institution.

For almost four decades, the

information required by the majority of states.

ELIGIBILITY

Upon receiving a completed FPCA, state election officials will determine the eligibility of an individual to vote under the law of that state. An individual who is uncertain of his eligibility to vote by absentee ballot in any election should inquire of the Secretary of State of his home state or other appropriate election officials as to what steps he must take to register, pay poll tax, or meet other requirements.

In general, a soldier's voting residence is considered to be that state, city, and county in which the person lived before entering military service.

FPCA forms and information about the voting requirements of specific states may be obtained from the legal assistance personnel at the Judge Advocate Office, Building 5250, Room B-265.

JET AGE INOCULATION—Maj. Albert Birkenstein (right), executive officer in the Supply Management Division, Directorate for Supply and Maintenance, receives his flu inoculation in the lobby of Army Missile Command Headquarters from M/Sgt. I. E. Messick, medical technician at the U. S. Army Hospital at Redstone Arsenal while the preventive Medicine Chief, Capt. Barrett Sklar observes from behind. Civilians and military are both getting flu shots before the season for the virus.

American Institute of Chemists has engaged in activities devoted to raising the professional standard of chemists and chemical engineers, and, in addition, awards and honor scrolls are presented

to outstanding chemists annually. Awards are also made to students for recognition and encouragement of potential advancement in chemistry and chemical engineering on the basis of their records.

THE EXTRA CARE AIRLINE

UNITED

AN ITALIAN WARRANT OFFICER at Villafranca, Italy, hands a package to U. S. Army soldier, SP6 George H. Wade at left (Macon, Ill.) of the 110th Aviation Co, Southern European Task Force (SETAF), for a mercy mission to Terni, Italy. Containing the life-saving antibiotic *Staphacillin*, the package first was air sped by a U.S. Air Force jet from an Army Hospital in Landstuhl, Germany, here to Villafranca where it was put aboard this H-34 CHOCTAW helicopter for the last leg of its mercy mission. The drug was airlifted to Terni in a successful attempt to save the life of a three-month-old Italian boy. (CHOCTAW is manufactured by Sikorsky Aircraft Division of United Aircraft Corp.)

TV

(Continued From Page 1)
Wheeler used the open circuit to relay congratulations to Capt. Shave and the OGMS-TV video staff.
Others who also spoke directly to OGMS were Gen. Herbert B. Powell, commanding general of Continental Army Command; Assistant Secretary of the Army Richard Nations; Lt. Gen. August Schomberg, CG of the Army Supply & Maintenance Command; Col. Earl Blaik of West Point football fame; Lt. Gen. R. W. Colglazier; Maj. Gen. H. L. Scofield; and Maj. Gen. R. J. Meyer, in charge of individual training at CONARC.
Lt. Col. Earl D. Hicks, Post Signal Officer at Redstone Arsenal, supervised the Army's participation in the display at the convention hall.

ADM. CLARK

(Continued From Page 1)
were Capt. Richard S. Garvey, USN, Range Safety Officer at Point Arguello, California, Mr. James M. Pike, General Engineer at the Pacific Missile Range, Point Mugu, and Mr. Orville E. Ova, Deputy Logistics Office, Point Mugu.
A limited tour of the Arsenal was included on the agenda before the party left by air Thursday afternoon.

NEW CHIEF

(Continued From Page 1)
range missile with two solid fuel motors, at Cape Canaveral.
A native of Marion, Iowa, Col. Clark came to Patrick AFB from the Air War College at Maxwell AFB, Alabama. He had previously served three year tours at Lawrence Radiation Laboratory, Livermore, Calif., the U. S. Army Depot at Oppama, Japan, and the Army Field Forces Board Number 2 at Fort Knox, Kentucky.

Col. Clark holds a master's degree in physics from the University of Rochester, Rochester, New York, and a bachelor's degree from Coe College in Cedar Rapids, Iowa.

Col. and Mrs. Clark live at 50 N. Magnolia Drive at Patrick AFB, Florida. They have three children: David, 20; Richard, 17; and Julia, 9.

WELCOME TO REDSTONE — Assistant Secretary of Defense Thomas D. Morris (right) and his party were welcomed aboard Oct. 9 by Maj. Gen. F. J. McMorrow, Commanding General, Army Missile Command (standing next to Secretary Morris). Shown with them are Brig. Gen. F. P. Campbell, Chief of Staff, U. S. Army Materiel Command, left and James N. Davis, Deputy Assistant Secretary of Defense. The visitors were given a day-long briefing on new management techniques as they relate to the Mauler weapon system which is under the Army Missile Command.

Dr. Sayles Slated For TV Appearance

The role of chemistry in this scientific era will be discussed Thursday evening over television by an Army scientist.

Guest will be Dr. D. C. Sayles,

from the technical staff of the Propulsion Laboratory in the Directorate of Research and Development, Army Missile Command.

He will be interviewed on WFAG-TV by Jack McNutt, News Director, on the program "Story Behind the Story," which follows the ten o'clock news.

Post Library

By Jean L. Hoffman

Autumn with its cool crisp evenings and its bright, blue October weather is an excellent time to enjoy the harvest of timely new titles added this week by Chief Librarian, Anna Lee Farrar. Add color and sparkle by reading some of the current periodical articles in Town and Country, Vogue, Esquire, Saturday Review, Variety, Downbeat, Metronome, and Sporting News. Whether your interest be Jazz, Football, or Oriental Cookery, Post Library has the latest informational and recreational materials designed for your reading pleasure.

This week's best-selling novel is Pulitzer Prize winner Allen Drury's "A Shade of Difference," described as a timely and compelling political novel with the United Nations as the setting. Received just in time for the observance of United Nations Day (Oct. 24).

Arthur C. Clarke has fifteen new science fiction stories entitled "Tales of Ten Worlds" termed brilliant and designed to keep the science fiction enthusiast in orbit.

"Fire on the Mountain," is Edward Abby's latest work of fiction concerned with a man who decides to defy the United States government. Edward Abbey has spent many years in New Mexico, Arizona, and Utah, and is to be remembered for his "Jonathan Troy," and "The Brave Cowboy," made into a movie.

A factual and handy desk-reference volume is Rudolf Flesch's latest contribution, "How to Be Brief," an index to simple and readable writing.

"Western Unity and the Common Market," by Walter Lippmann, one of the foremost political commentators of our time, is both brief and incisive. The result of Mr. Lippman's trip abroad in the spring of 1962 "to have a look at the grand project of the Western Alliance—the Common Market," this interpretation reveals startling findings.

Adventure and suspense are to be found in "Bataan; the March of Death," by Stanley L. Falk and "The Climb Up to Hell," by Jack Olsen, senior editor of Sports Illustrated.

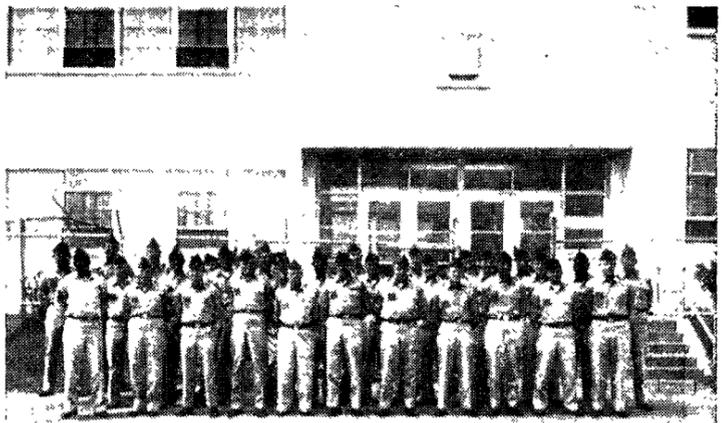

Other new non-fiction titles added this week are:

Garbo, a Biography (Billquist); Dictionary of Aphrodisiacs (Wedek); Selling Houses Successfully (Gross); Pedigree Cats (Tenent); Pennsylvania Clocks and Clockmakers (Eckhardt); Dear Dead Days (Addams); Bird Life and the Painter (Kelly); 1,000 Questions Answered by Experts (McIntyre);

World History of the Dance Mark Twain: Family Man (1960); (Sachs); Shout Treason (Berne); Hitler, the Missing Years (Hanfstangl); The Battle of France 1940 (Goutard); The World of the Wall Street Journal;

The Vampire, his Kith and Kin (Summers); The Shakespeare Country (Furness); The Lotus and the Robot (Koestler); Isle of St. Helena (Blakeston).

Telstar, the world's first trans-Atlantic space satellite television relay, is sending scientific data back to earth in addition to amplifying and resending communications between Europe and the United States.

SENIOR NON-COMS AT OGMS—Members of the second Ordnance NOC Career Course attended a one-week session at the Army Ordnance Guided Missile School here recently. The 32 students shown here came to Redstone to add a knowledge of Army missiles to the special training they are receiving at Aberdeen Proving Ground, Md.

United Givers Campaign At Halfway Mark

Redstone Arsenal's annual Givers Fund campaign passed the half-way point this week and encouraging reports continue to reach drive officials.

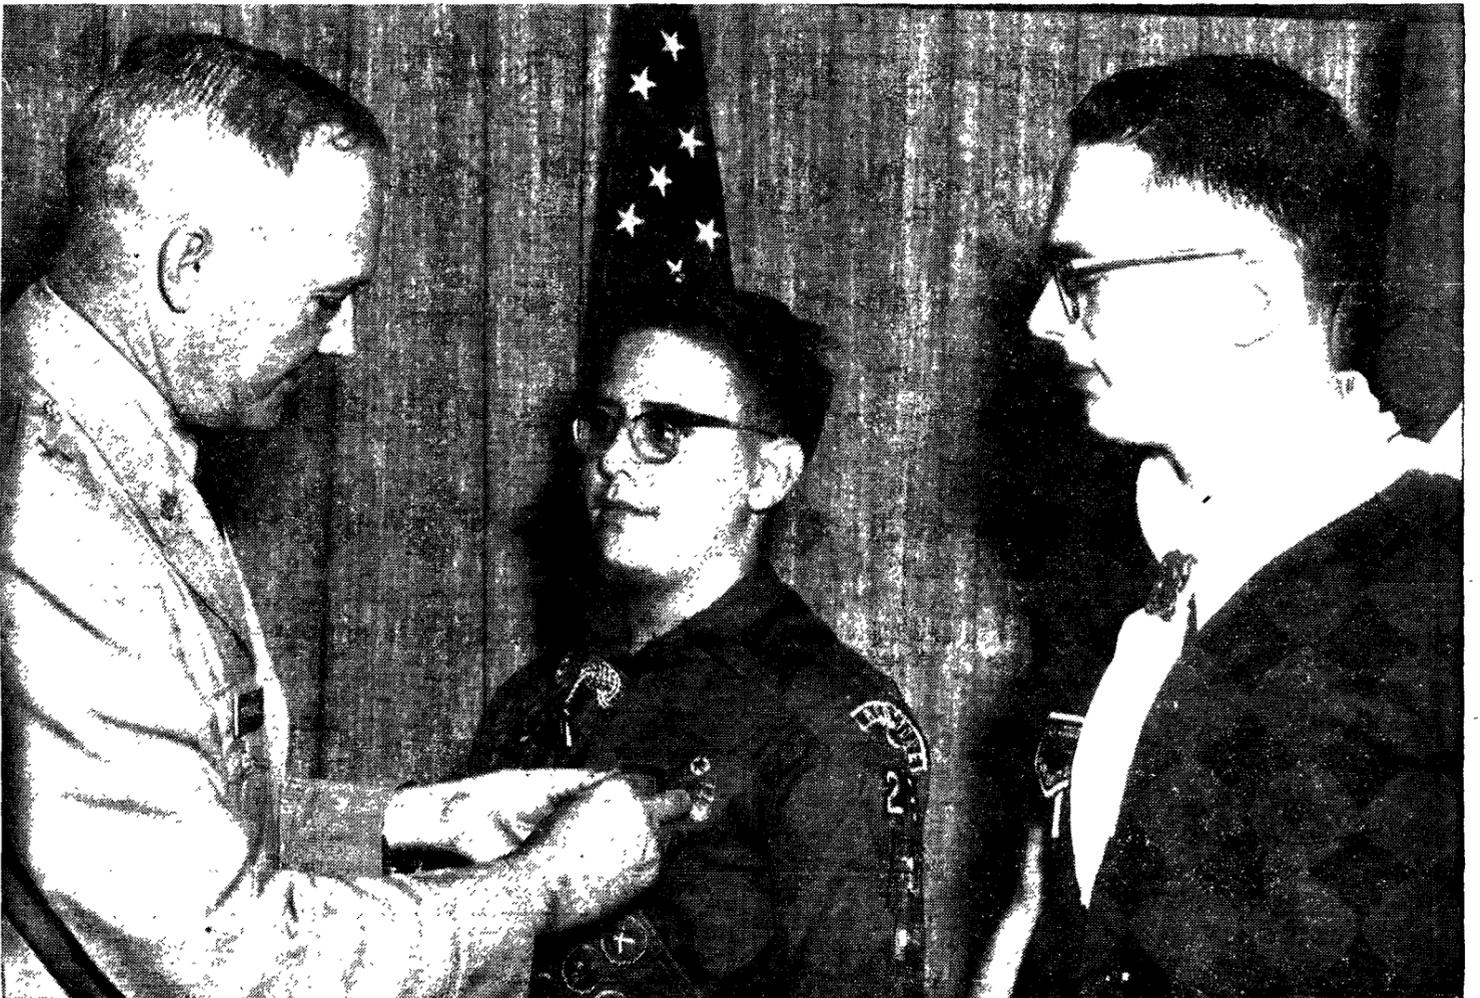

Campaign leaders pointed out that personnel have achieved a third week total of 73 per cent pledged of the Fair Share potential for those organizations reporting.

Drive officials said that almost all organizations have reached the 50 per cent pledge mark. Only two units are slightly under the 50 per cent notch, with two not reporting.

Campaign conductors emphasized that one of the most encouraging aspects of this year's campaign is the close relationship between the number of personnel participating and the fair share pledged.

The drive has achieved 73 per cent of the Fair Share Goal with 75 per cent of the military, civilian and contractor personnel participating.

Officials note that 54 per cent of the reported total strength re-

EAGLES FROM A STAR—Two of Scoutings highest awards were presented Thursday by Brig. Gen. H. P. Persons, Deputy Commanding General, Air Defense Systems, Army Missile Command. The Eagle insignia is pinned over the breast pocket of Kenneth Birkenstein, 14, while Private First Class Sam Williams, 20, awaits his turn. Kenneth is the son of Major and Mrs. Albert Birkenstein, Redstone Arsenal who were proudly standing by. PFC Williams is the son of Mr. and Mrs. Sam Williams of Mayton, Penn-

sylvania. Both are members of Redstone Arsenal Troop 234. PFC Williams is a Redstone Arsenal instructor assigned to the Ordnance Guided Missile School. He serves as Assistant Scoutmaster for the troop. Other guests at the presentation were Major Philip Burleson, Advancement Chairman, Troop 234; Scout Executives Robert Haskins and Glenn Ragan of the Tennessee Valley Council; Colonel H. C. McClain, Installation Scout Representative; Second Lieutenant William D. Critser, Assistant Scoutmaster.

flected at Redstone Arsenal is giving the fair share.

Contributions collected at the midway point totaled \$87,099.66. Not all pledges were paid during the third week of the campaign.

This year's Fair Share Goal is 80 per cent of one day's pay for employees of Redstone Arsenal.

Finance Officer Gets Promotion

Among recent promotions is that of Col. David A. Marcelle, Finance and Accounting Officer in the Army Missile Support Command, who reported here in Aug-

ust as a lieutenant colonel.

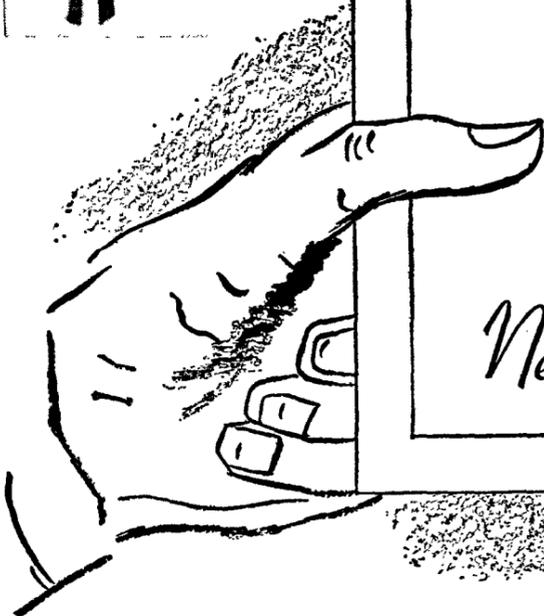

Col. T. W. Cooke, Commander of the Support Command, pinned the silver eagles on the shoulder of his Finance Officer — with assistance from Mrs. Marcelle.

Col. Marcelle is a veteran of more than 22 years service who began his Army career with the

Infantry and has served in both Washington, D. C. and overseas in Plans and Training. He was commissioned as a Regular Army officer in the Finance Corps and held his first post in this capacity with the 82nd Airborne Division.

As a pastime, he studies languages and oriental warrior sports.

PRESENTS TROPHY—Brenda Hanson, Post Service Club Recreation Director, presents the individual trophy to PFC Klaus Lewejohann, 3rd ETC, winner of the Post Ping-Pong tournament. Looking on is the Senior German Air Force Officer.

Sports by Handy

By Sgt. Robert Handy

Football

In the game held October 9 the two quarterbacks came to realize that simple hard hitting football tactics will not be enough to win the Post Level Football Championship.

The A-Bombs looking for their first win took on the heavy favorite Crusaders, and for three quarters of the game with the score 12-6 in their favor, took command of the game.

With about 10 minutes left in the game, the roof fell in and before the smoke cleared, the game was tied at 12-12 and it stayed at 12-12 til the final whistle. So it looks as tho the first quarterback reaching the bag of tricks for some dazzle-dazzle will walk away with the Championship. Standings of October 11 follow:

Team	W	L	T
Crusaders	1	0	2
Knights	0	0	2
A-Bombs	0	1	2

Tennis

With a surprising gift of sunshine and coolness, tennis is still being played on the good courts in the Troop Area. Rackets, and possibly shoes, may be had by checking with the Work-Out Facility Bldg. 3474. These items are issued on hand receipt to the individual daily or week-ends depending on availability. Individuals must furnish the tennis balls. Again, it has been noticed that

the lights are left on at the courts well after 2100 hours. Lights will be turned off by the last individuals to leave the courts. Lights must be out by 2100 hours each night. Policing the area is the individual's responsibility and is one factor that keeps the courts open.

Soccer

It is planned that a Soccer game between the German troops at the OGMS School and Auburn University will be played at the new football field Saturday, October 20, tentative time 1400 hours. Soccer has speedballed to a favorite sport here in the south and is one of the most interesting sports to watch and play. In the time that OGMS has had the Soccer bug, they have been tried, but never beaten. Come out and see for yourself the 90 minute spectacular.

Misc. Information

The Redstone Arsenal Circular 28-2 (Basketball) and 28-6 (Volleyball) for the 1962-1963 season has been distributed to the units here at Redstone Arsenal. All Unit Commanders and interested managers should read these circulars carefully and keep track of the dates for entering teams and the dates of all meetings and officials clinics to be held by the Sports Branch, Special Services Division. Any one (military) interested in such circulars contact the Sports Branch for a copy.

Bowling

In the Redstone Arsenal Thursday Morning League, Juanita Hubbard made a hard 5-10 split, and was soon followed by Myrtle Louis making a 5-7 split. Not to be outdone, Ernestine Anderson picked up a 4-9 split. To top the days bowling, Peggy White bowled a triplicate of 148. It may sound easy to make a triplicate high or low, but, try making it sometime.

On Wednesday nite, Oct. 10, Sfe Paulette of the Jockeys, proved that even bowling lane managers

know something about bowling by slipping, falling, and help of the pin machines, to a 232 game and a 539 scratch series. So anyone can see that bowling is for the aged as well as the youngsters.

Rifle And Pistol Team To Be Organized Here

A new Rifle and Pistol team is being organized for the Troops at Redstone Arsenal.

Col. Thomas W. Cooke, Commander, Army Missile Support Command, and Col. W. J. Macpherson, Commandant, Ordnance Guided Missile School made a joint announcement for continued support of a Redstone Arsenal Rifle

and Pistol Team.

Army Missile Support Command, Ordnance Guided Missile School and the Army Missile Command military personnel are eligible. However, due to the difference of organization and mission, coordination of leave time for team members has been difficult.

Advance planning concerning duty functions of Rifle-Pistol team members will allow full attendance at competitive matches in the future.

Construction of a large bore rifle range is anticipated at Redstone Arsenal. The range would be constructed to include 600 yard distances and will conform to the same safety specifications of the National Rifle Association, according to present planning.

Such a range could sustain troop proficiency requirements, including non-active duty military personnel such as members of National Guard and Reserve units of all services in the North Alabama area.

Alabama has no officially recognized firing range for large bore rifles. This new facility would be used for the military in this area as well as rifle and pistol tournaments similar to those held at Camp Perry, Ohio.

The team will be issued equipment and coaches will be assigned to the shooters. Novices will also be schooled in the different classes of competition for rifles and pistols.

At the Missile School, Capt. P. G. Neilson, 876-5460, is the coordinator. Capt. W. D. Burroughs, 876-2906, will be coordinator for Missile Command and Missile Support Command personnel.

Memo to all wives with husbands stationed in Europe

—Advertisement

How KLM can help you join your husband in Europe

Here are several ways KLM makes it possible for you to fly over and join your husband in Europe.

Pay only one tenth of fare now. Sons and daughters from 12 to 25 may fly family plan. Children under 12 pay half-price. Infants under 2 pay only 10 per cent. DC-8 Royal Jets and low-fare DC-7cs.

1. KLM's Pay Later Plan. You pay only one tenth of your fare before you fly, the remainder over 24 months. **Example:** A down payment of \$35.00 will take you from Huntsville to Frankfurt (DC-7C Economy Fare). KLM's interest rate is one of the lowest — 4¾ per cent discounted per annum.

2. Choice of planes. On KLM, you can fly to Europe on low-fare DC-7Cs. Or you can choose KLM's Royal 8 Jets that get you to Europe in only 8 hours.

3. Traveling with children. No problem on KLM. Friendly cabin crews help you take care of your children, prepare food, supply special cribs for babies.

What it costs:

Here is a breakdown of a typical KLM fare to Europe, based on a one-way economy class flight on a DC-7C from Huntsville to Frankfurt:

Adult's fare	\$341.90
Child under 12	\$162.95
Infant under 2	\$ 27.60

Sports Car Buffs

By Ray Mosling

Nineteen sports car enthusiasts gathered at the Huntsville Speedway on Hobbs Island Road on Oct. 7 for a miniature Monoco Grand Prix slalom conducted by Bob Cortner (Linde) of the Twickenham Auto Club. To say the course was tight would be an understatement. The result put the larger cars at a disadvantage and allowed the fastest time of the day to be turned in by a Volkswagen sedan! (Bring your Volkswagens to the next slalom!)

Because the slalom was conducted in a gravel lot, even the experienced slalom drivers had considerable difficulty keeping their cars within the narrow rows of rubber pylons. The award for the most pylons tipped over was won by a contestant who got a total of 30.

The contestants were allowed one practice run on the course before two officials timed runs. One timed run consisted of two laps around the course. Two seconds per pylon tipped over were awarded as penalties.

At the end of three hours, six trophy winners had been determined. Bob Preston (Boeing) drove his MG Midget to first place in the 0-1300cc class with a time of 1:26.50 minutes.

Walt Lowry (Sperry), driving a borrowed MG-A, tied for first place in the 1300-2000cc class with Bob Cortner (Linde), driving a TR-3, and Ray Mosling (Thikol), driving a Porsche.

Winners of the subsequent run-off were Ray, with a time of 1:22.51 minutes; and Bob, with a time of 1:22.75 minutes. Gene Salyer (Consolidated Systems) drove his tried and proven Austin Healy 3000 to first place in the 2000cc and over class with a time of 1:25.75 minutes.

Second place in this class was captured by Norm Goldberg (Boeing), driving his new TR-4, with a time of 1:29.90 minutes. The Sedan class was nailed by Ray Mosling (Thikol), driving a borrowed Volkswagen, with a time

ANTI-CORROSION EXPERT—Stewart B. Tulloch (left) of the Research and Development Directorate, checks over a vital missile part that has been properly treated by Lloyd Gilbert of Rock Island Arsenal to prevent deterioration through rust or corrosion. Gilbert is an instructor in deterioration prevention who has just given two one-week courses on the subject for personnel of the Army Missile Command. Tulloch is a deterioration prevention chemist with the Engineering Requirements Coordination Office, and has spearheaded anti-deterioration programs for the Missile Command.

Deterioration Studies Make Missiles Reliable

Time and effort spent to make a missile reliable is largely wasted if the missile corrodes or otherwise deteriorates in the field before it is used.

This was the underlying philosophy in two one-week courses in deterioration prevention which ended Friday at Redstone Arsenal.

of 1:24.20 minutes.

Trophies for the Monoco Grand Prix Slalom were presented at the Twickenham Auto Club held on Oct. 11.

al. Lloyd Gilbert, an instructor in deterioration prevention at Rock Island Arsenal, worked closely with a representative of the Army Missile Command's Research and Development Directorate to set up the courses.

The courses were designed to show missilemen the savings which can be realized through proper deterioration prevention methods, and to show them how action can be taken in each step of production.

Stewart B. Tullock, a chemist

specializing in deterioration prevention with the R&D Engineering Requirements Coordination Office, said reliability and deterioration prevention must be considered in the initial design of a missile, and applied as long as the missile is in existence.

Tullock has played the lead role in setting up a program of deterioration prevention for the Army Missile Command, which is

Missile Scientists Present Papers On Liquid Propulsion

Two Army Missile Command propulsion scientists from the Directorate of Research and Development will present papers at a symposium on packaged liquid propellants and packaged liquid propulsion systems.

The two-day symposium is sponsored by the Bureau of Naval Weapons in Washington, D. C., this week.

Dr. W. W. Wharton, chief of the Propulsion Chemistry Branch in the Physical Sciences Laboratory, will tell about new ingredients for packaged liquid propellants.

Wharton and his group of chemists are responsible for the technical direction of a nationwide study effort on liquid propellants, which includes all military services, contractors, and other government agencies. The group recently received the Army's R&D Achievement Award for their work in this field.

Sam Hardy, an aeronautical power plant research engineer in the Propulsion Laboratory, will present a paper entitled "Propulsion System Requirements for AUTOMET Controlled Missiles."

monitored by Horace Lowers, the AMC Chief Engineer. The program has also been adopted by Missile Command contractors.

The same courses in deterioration prevention will be given at Watertown Arsenal beginning November 1.

HAT SALE—Mrs. Grady Poole fits a hat on a customer at the hat sale sponsored by the Catholic Women's Sodality at Redstone Arsenal last week. Proceeds from the sale were earmarked for relief of Cuban refugees. The event proved so successful that plans for annually sponsoring this event are being considered.

MRS. FERRELL IS THURSDAY PARTY BRIDGE WINNER

Mrs. C. L. Ferrell was the winner at the Thursday competition of the Party Bridge Group sponsored by the Redstone Arsenal Officers Wives Club.

Mrs. W. M. Tarr was second among the nine tables that met at the Squirrel Hill Officers Club.

Tomorrow the Group will hold "Party Day" which means they will play from 10 a.m. until 2:30 p.m. with lunch served by the Club.

Reservations this month are handled by Mrs. Frank Moore.

PHI DELTS TO MEET

Phi Delta Theta alumni plan a get-together at 4:30 p.m. in the Nike Lounge at the Squirrel Hill Officers Club next Wednesday afternoon.

Information can be obtained from Lt. Jimmy Tucker (876-2400) or William (Bubba) Evans (876-1778).

80-Voice Chorus To Be First In Concert Series

The Huntsville Community Concert Association begins the 1962-63 seasons at 8:15 p.m. in the Huntsville High School Auditorium with the 80-voice chorus of Coimbra, Portugal.

This is the first United States tour by the group which for more than two decades has been singing in Europe, Madeira, the Azores, South Africa and South America. They sang at Sao Paulo, Brazil when the city celebrated the Four Hundredth Anniversary of its founding.

The Coimbra chorus is conducted by Dr. Manuel Raposo Maeques. The repertoire includes music ranging from Renaissance masters through modern popular songs.

The Community Concert Association concert series is a complete sell-out with 1090 adults and 135 students registered. There will be no sale of single tickets for any concert.

Miss Margaret Mary McMorrow Weds Capt. Richard Cornelius Anglin

The marriage of Miss Margaret Mary McMorrow and Captain Richard Cornelius Anglin was solemnized at a Nuptial Mass, Saturday, Oct. 13, at the Post Chapel, Redstone Arsenal.

The bride is the daughter of Maj. Gen. and Mrs. Francis Joseph McMorrow and is the grand-daughter of Mr. and Mrs. Thomas Joseph Fox of West Hartford, Conn., and the late Mr. and Mrs. Francis P. McMorrow of New York.

The groom is the son of Mr. and Mrs. John Cornelius Anglin of Dorchester, Mass., and is the grandson of Mr. and Mrs. Lester Smith of Boston and Mrs. Cornelius Anglin of Dorchester and the late Mr. Anglin.

Miss Mary-Lace Castonguay of Hartford, Conn., cousin of the bride, was maid of honor. Other attendants were Mrs. Ronald G. Sparks, Mrs. Lawson W. L. White, Jr., Mrs. Leon Guzinsky, and Mrs. Harry F. Ennis.

Lt. Harry F. Ennis served as best man and the ushers were Captains Harvey E. Stewart, Carl R. Steimle, Sidney I. Davis, Lieutenants, Leon Guzinsky, Robert Hartmann, and Donald W. Elkins.

The bride was given in marriage by her father. She chose a traditional gown of white delustered satin. Reembroidered Alencon lace accented the neckline and the princess line of the bodice, continuing into the domed sides of the skirt. Pleats formed a bustled carriage back and flowed into a chapel train. Her finger-tip veil of bridal illusion cascaded from a wreath of waxed orange blossoms. She carried a spray of orchids and stephanotis.

The bride's attendants wore gowns of Autumn rose velvet, featuring a sweetheart neckline above a basque bodice. The domed skirt was ballerina length. They wore wreaths of matching velvet with a circular veil and carried cascade bouquets of white asters and baby's-breath.

Following the ceremony, a reception was held at the Redstone Arsenal Officers Club.

After a wedding trip to Florida, the couple will live on the Arsenal.

WEDDING SOLEMNIZED—Miss Margaret Mary McMorrow became the bride of Capt. Richard Cornelius Anglin in a Nuptial Mass at the Post Chapel Saturday.

Weisman To Address Accountants Group

Walter Weisman, Human Communications Advisor, Army Missile Command, will speak at the Federal Government Accountants Association Oct. 18 at the Huntsville Country Club.

Weisman, a native of West Germany, came to this country in 1945 with the rocket experts from Peenemuende.

Weisman's topic will be "The Human aspects of Communications."

Flower Show Highlights Meeting Of Wives Club

ORIENTAL ARRANGEMENT by Mrs. Spencer Ball

Mrs. Mottram Wins Best Of Show

Highlight of the October Sherry-Tea sponsored by the Redstone Arsenal Officers Wives Club was a flower show in the Hawk Room at the Squirrel Hill Officers Club on Tuesday, Oct. 9.

Chairman for the event was Mrs. Robert W. Van Wert. Mrs. D. H. Mytinger, president of the Garden Club sponsored by the Officers Wives Club, was in charge of the flower show arrangements.

"Best in show" ribbon went to Mrs. H. R. Mottram who also won in the chrysanthemum arrangement class.

Mrs. Spencer Ball was awarded the blue ribbon in the oriental class and Mrs. P. S. Neilsen was awarded a blue ribbon for her foliage arrangement.

Three ribbons in each class were awarded by Permanent Program chairman, Mrs. C. H. Fuller. Judges were Mrs. Perry Giles and Mrs. B. F. Hankins from Huntsville.

BEST IN SHOW by Mrs. H. R. Mottram

Toastmasters Seek New Members Here

The Redstone Toastmasters Club is recruiting new members to meet weekly at the Squirrel Hill Officers Club under the rules of the Toastmasters International, an organization which helps the individual develop speaking skill and oral expression of thought.

At last week's meeting plans for adding to the membership were discussed as a part of the business before Larry Wood, toastmaster for the speech program, took over.

Speakers were Mr. William Appleton, Capt. David Morse, Mr. Frank Britt, and Guest Speaker Curtis Sellers from the Mason-Dixon Toastmasters Club in Huntsville.

Appleton won the contest with a talk on "To the Woman Belongs the Skirt." Second place was taken by Capt. Morse.

Maj. Robert Bryant, president, has announced that he will be glad to furnish further information to anyone interested in Toastmasters skills.

JAPANESE GIVE SAYONARA PARTY

Lt. Col. Takashi Kawabe, Japanese Liaison Officer here for more than a year now, was host at a "Sayonara Party" at the Officers Club Friday evening.

Numbers of American friends and their wives called during the evening to wish the departing Japanese good luck as they conclude their training here.

During their stay, students of the First Japanese Missile Support Detachment established a new academic record at the U. S. Army Ordnance Guided Missile School when 21 of their members won special Association of the U. S. Army awards for averages of 96 or better on their studies.

Group Makes Plans To Go To Germany

A "Spontaneous Group," planning to spend Christmas in Europe, has been formed by Otto K. Goetz of the Test Division at the Marshall Space Flight Center.

Goetz made the announcement that 25 passengers are needed in the group to obtain the special fares offered by Boeing and Lufthansa German airlines. He said the group will have 21 days in Germany, not counting travel time, with only 13 leave days required.

Deadline for reservations and full payment of fare is Nov. 10. Mr. Goetz lives at 1103 Harrison Ave., SE, Huntsville.

Army Scientist Farms Precious Research Gems

An Army Missile Command scientist has turned ruby farmer in order to provide better and less expensive precious gems for use in Army research projects.

Charles Nixon, a chemist in the Missile Command's Electromagnetics Laboratory, uses a heat producing piece of equipment called an induction plasma to grow rubies used in experimental model lasers.

Laser stands for Light Amplification by Emission of Stimulated Radiation a process that uses ruby rods to focus light into a narrow, intense beam useful as a radar or long range communications device.

Induction Plasma

The induction plasma used to manufacture the rubies is a new research development itself. Using highly excited gas molecules, it produces concentrated heat that exceeds the temperature of the sun.

The heat is so intense that Nixon was sunburned by the induction plasma the first time he used it.

"The induction plasma furnace compresses four days of sunshine into ten minutes," Nixon said,

"Temperatures in the furnace go up to 28,000 degrees Fahrenheit."

The furnace is shielded now so there's no more danger of over-exposure.

Start of Ruby Growth

To start the rubies growing, Nixon lights the furnace and pours aluminum oxide powder mixed with chrome oxide down a tube into the flame. When the powder hits the flame it vaporizes and falls. As soon as the vapor gets out of the flame it condenses like rain and falls into an asbestos cup below the flame. The falling liquid forms an upside-down icicle the same way the lime in cave water forms a stalagmite when it falls from ceiling to floor.

"The rubies grow about one inch an hour," Nixon said. "The amount of chrome oxide you add to the aluminum oxide determines how red a ruby you get."

A crop of several rubies, sapphires, and shelite (a form of tungsten crystal) already have been grown in the plasma machine. The induction plasma can also be used to raise zircons and titanium crystals.

Experimented First

"The experimental models are about half the size of my thumb," Nixon said. "But the next crop should be larger, now that we know more about the process."

Nixon's ruby culture represents a breakthrough in the process of making artificial crystals. The common process is flame fusion, mixing hydrogen and oxygen at much lower temperatures to produce artificial crystals.

"We're investigating both methods of ruby growing," Nixon said. "But the induction process looks like it will give us larger and better quality rubies for less cost."

Started Farm Year Ago

At the Missile Command since 1958, Nixon has been working at ruby farming for approximately one year, before he harvested his first crop. He has a B.S. degree in

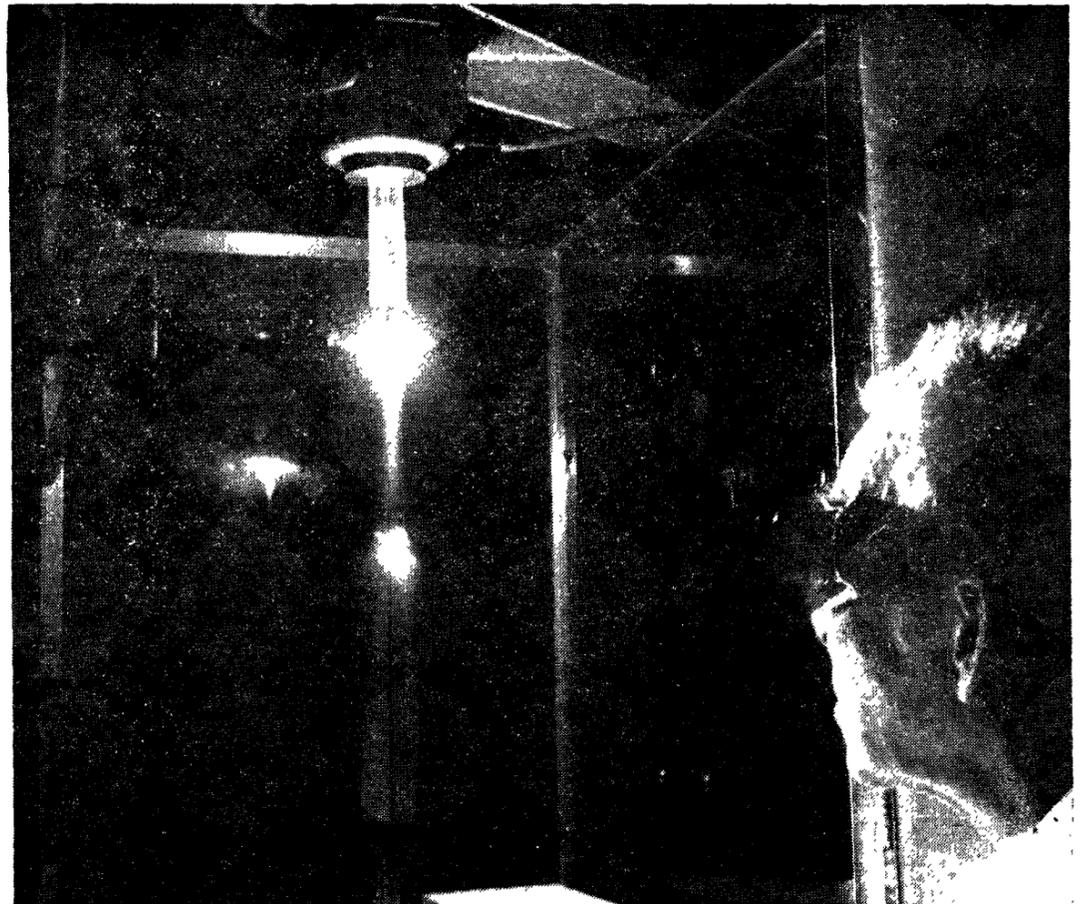

chemistry from San Jose State University, San Jose, Calif.

The Nixons live at 3102 Eckler Drive in Huntsville. They have

two sons, Alan, 20, who is a pre-law student at Florence State Teacher's College, Florence, Ala., and

Carl, 18, a freshman in engineer-

ing at Auburn University in Auburn, Ala., and one daughter, Mary, a junior at Butler High School in Huntsville.

HOME-GROWN RUBIES — Charles Nixon of the Army Missile Command's Electromagnetics Laboratory watches the flame from an induction plasma grow a ruby—the whitish lump below the flame. Goggles protect Nixon's eyes from the brilliant flame, which is approximately six times as bright as the sun. The rubies are used for research on lasers.

Sperry Gets More Work On Sergeant

Award of \$9,001,357 to the Sperry Rand Corporation was announced last week for continuation of engineering services on the Sergeant missile system.

Work will be performed by the Sperry Utah Company, a Division of Sperry Rand, at its Salt Lake City, Utah, plant.

Sergeant, a solid fuel ballistic missile, is designed to replace the Army's operational Corporal.

The Sergeant program is under the project management of the Army Missile Command.

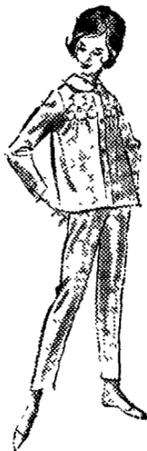

The Los Angeles Ordnance District will administer the contract.

Appeal Made For Weapons Technology

An appeal to American industry to continue their contributions to Army missile and weapons technology was made Thursday by the Chief of the Army Missile Command, Redstone Arsenal.

Horace Lowers, speaking to approximately 1,500 top representatives of the aerospace electronics industry in Los Angeles, said:

"We in the Army are most appreciative of industry contributions leading to new weapons concepts, and encourage continued participation in the nation's defense efforts, including unsolicited proposals.

"Extended radar networks are costly and cannot always reach into enemy-held territory," Lowers explained. "Some new approach to acquisition and tracking radars or a new approach to the elevation and stabilization of radar platforms is required.

"The Army's new approach to program management will insure that all programs receive necessary attention," he emphasized.

Lowers outlined the effect of the recent Army-wide reorganization on the Missile Command and other technical agencies involved in Army missile and rocket development.

His speech was given before the 20th Annual Electrical Society's conference which was held in Los Angeles' Pan Pacific Auditorium.

CHINESE GIFT TO OGMS—A feature of the celebration of Chinese Independence Day at a dinner at the Redstone Arsenal officers Club on "Double-Ten Day" Oct. 10 was presentation of a specially embroidered silk picture to OGMS Commandant, Col. William J. Macpherson (left) by Col. Fu-Kuo Wang, (center), senior officers of the Chinese Army detachment here. The picture was specially ordered from Taiwan by Lt. Col. Richard T. Hu, Chinese Liaison Officer, and his students for this occasion. At right is Capt. I-Ming Kuo.

184 Ord. Detachment Holds Bloodmobile Trophy

First time holders of a special trophy for troops who participate in the Bloodmobile program at Redstone Arsenal is the 184th Ordnance Detachment command by Lt. Richard F. Nelson at the Ordnance Guided Missile School.

The trophy was accepted by Lt. Nelson on behalf of his men who had 43.33 per cent participation in last month's Bloodmobile visit. Col. Thomas W. Cooke, Commander, School Commandant, Red Cross Field Director James Hudgins gave the trophy to Col. Cooke for rotation among the Troop units with the greatest per cent of participation during a Bloodmobile visit. No unit can win it twice in a row since individuals may give only once in two months.

Since 1956 6,319 gallons of blood have been collected during Bloodmobile visits at Redstone

Arsenal. The amounts drawn from the veins of GIs have not been kept separate from the total of combined military-civilian donations at the Arsenal and there is no way to estimate the exact amount donated by civilian or military alone.

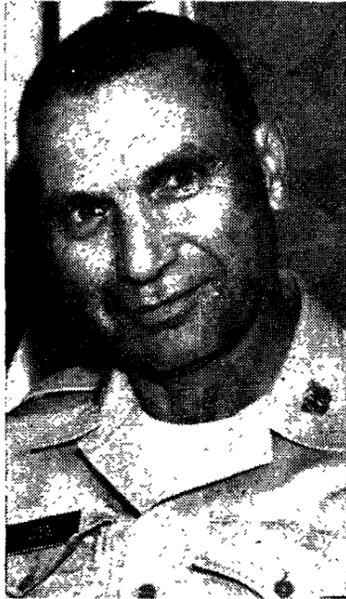

The blood is provided for emergencies at Veteran's hospital in the Alabama-Mississippi-Georgia-Florida region and is used to keep the level of the Birmingham blood center at a safe level.

Two individuals in addition to Col. Cooke were recognized for outstanding efforts by the Red Cross. They are Lt. Col. George Grace and CWO George Dye of the Troop Command. Permanent plaques were presented to them.

The Bloodmobile is operating in Bldg. 7110 today between 8:30 a.m. and 2:30 p.m.

LT. COL. GEORGE GRACE

CWO GEORGE DYE

Military Construction Chief To Talk To SAME

The Society of American Military Engineers will hear Maj. Gen. J. B. Lampert, Director of Military Construction, Office of the Chief of Engineers, tomorrow night at the Squirrel Hill Officers

Club.

Gen. Lampert will speak after dinner which will be preceded by a social hour beginning at 6:30 p.m.

The General will also illustrate his talk with 35 mm. slides. His subject is "World Wide Military Construction."

Among the many assignments

Gen. Lampert has held since he graduated from the U. S. Military Academy in 1935 was that of executive officer on the Manhattan Project (the first atomic bomb project). He was also at Bougainville and Luzon and participated in the Liberation of the Philippines.

TELSTAR TO BE SUBJECT OF TALK

The Tennessee Valley Chapter of the Armed Forces Communications and Electronics Association will meet at Michaels in the Holiday Inn at 6:30 p.m. to hear Walter K. McAdams, Vice President for Defense Activities of the American Telephone and Telegraph.

McAdams talk will concern Time Factor Communications and the Telestar program.

McAdams has been with the American Telephone and Telegraph company since 1937, starting as a student engineer. He was named to his present post in 1960.

Lt. Col. Earl Dotson, Missile Command Signal Officer, announced that this meeting is open to wives of members and to other interested individuals. He will furnish details. The phone number is 876-0218.

At the Service Club

By Brenda Hanson

With the advent of the first chill and other indications of "indoor weather" on its way, I begin to think of those long cold winter evenings ahead, and wonder about the possibilities of finding something that is fun to do until warm weather peaks through to us again.

Some animals solve the problem by hibernation, and while sleep has its point, I believe you'll agree that we can find something that would be more entertaining.

For example, why don't you form the habit of dropping in the Service Club? Who knows? You may drop into a Fall and Winter full of fun. This week's schedule

Religious Services

PROTESTANT

POST CHAPEL — BLDG. 3714
SUNDAY — 1000 and 1115 hours. General Protestant Services. (Chapel Nursery open during these services).

Church School — 1000 hours — Ages 3 years to adult. Classes for children and young people grades 1 thru 12, meet in Chapel Annex, Bldg. 3151. All military and civilian personnel, and families are welcome.

Youth Fellowship — 1730 hours — Junior and Senior High meet in Chapel Annex. Bldg. 3151.

Sunday Evening Worship Service — 1900 hours—Post Chapel.
REDSTONE PARK CHAPEL
 (BLDG. 9600)

SUNDAY — 0945 hours — Sun- day School — 1100 hours — Morning Worship Service. 1800 hours — Youth Fellowship for all young people, age 9 or grade 4 and up. 1900 hours — Evening Worship Service. (Nursery is open for both Worship Services.)

CATHOLIC

SUNDAY — Masses — 0730, 0845, 1230 and 1700 hours. (Chapel Nursery open during Masses.)

Baptisms — 1330, or by appoint- ment.

DAILY MASS—0800 hours.
TUESDAY — Perpetual Help No- vena — 1930 hours. Choir Practice—2000-2100 hours.

WEDNESDAY — Instructions — 1900 hours.

SATURDAY — Confessions—1800 -1930 hours. Mass 1115 hours.

JEWISH

CONSERVATIVE JEWISH SER- vice — Friday Evenings — 2000 hours — Services are held at the Huntsville Conservative Synagogue — Randolph School, Randolph St., Huntsville. Servicemen cordially invited. For further information contact Fred Glusman, 536-6621.

REFORM JEWISH SERVICES — Temple B'nai Sholom, Corner of Lincoln and Clinton Streets., S.E., Huntsville. Friday evenings at 2000 hours; servicemen cordially invited. Sunday School at 0930 hours. For further on services or Sunday School, call Ben Keysering—536-2381.

CHRISTIAN SCIENCE SERVICE— Sunday — Service at 1100 hours. Wednesday services are at 2000 hours at S. White and Wells Ave., Huntsville. For information or transportation, call Christian Science Armed Services Minister, collect 776-2791.

certainly shows every indication of developing into an entertaining week, so cast your eye down the schedule of things to come, pick your choice and join us.

Wednesday evening's spotlight is on the Dance Class beginning at 1900 hrs. We invite you to come and attend the classes as Mr. Virgil Norris, the new instructor, along with the Service Club Staff, would like to see these classes increase.

Thursday, Oct. 18 marks the date for one of the most outstanding events for the month of October. An orchestra dance is on the program beginning at 2000 hrs. Furnishing the music for the evenings dance will be the Five Cookers. The theme for the dance is "The Rhythm Romp." Both the Huntsville and the Birmingham Hostesses will attend this dance.

Oct. 19, a Table Tennis Contest is on the agenda. As a usual event, these contests are hotly contested. This will begin at 2000 hrs. Prize will be given to the winner.

Oct. 20 is the big night of the week. We have two outstanding features for you. First is a Pot-

luck Supper at 1730 hrs. Then at 1900 is the Fort McClellan Variety Show. This show will consist of the winners of a Post-Wide talent contest at Fort McClellan. You can't lose by coming to see this show, so don't miss it!

Oct. 21 at 0900 hours will be the regular Coffee Call. Free coffee and donuts will be served in the Service Club kitchen.

Spotlighting the evening will be the record dance at 2000 hrs. The theme for this dance is "Swing and Sway."

Come down for an evening of dancing and relaxation.

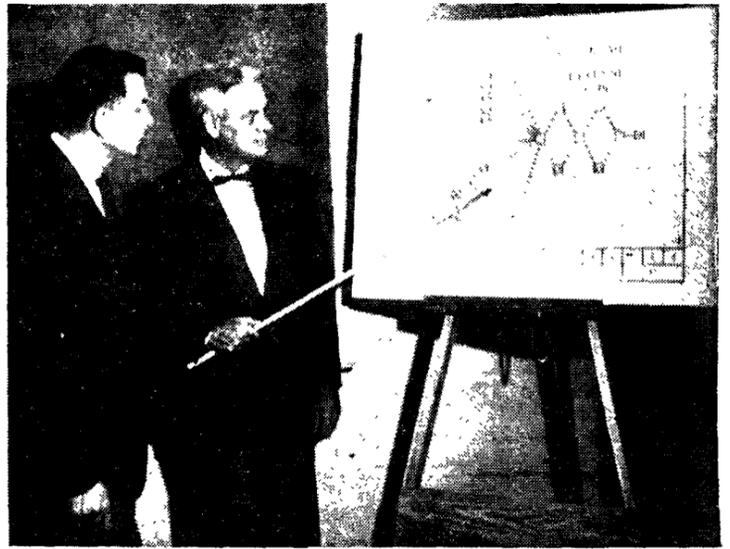

Oct. 22 is Game Night. Come to the Main Lounge and participate in our weekly games. We have an interesting array of prizes.

Oct. 23 is the night set aside as Slide Night. If you have some slides you would like to share with friends, bring them down. The showing begins at 2000 hours.

We are glad to have Molly back with us. As she made her first and grand entrance back to work she greeted us with this question "When is my next day off?" Nerve !!

See ye at the Service Club.

—Brenda

PROJECT PROGRESS—Roland L. Guard (right) Project Manager, Department of Defense Engineering Data Systems, Department of Defense and International Standardization Office, Army Missile Command points out progress on PERT to Don Ritchie, Logistic Management Institute, Washington, D. C. Ritchie was here recently to gather data on equipment inventories and requirements resulting from a Tri-Service Meeting in August for studies by the Logistic Management Institute. Result of the studies will go to the Secretary of Defense.
