

Physically Handicapped Are An Asset To All

SECURITY GUARD—Houston McConnell is holding down a civilian guard position just like he did prior to going into the service. The only difference is that a battlefield injury left his left leg permanently paralyzed.

It took a war for employers throughout this country to realize what a valuable manpower source was being wasted due to the failure to employ a person with a physical handicap.

During the war years the government as well as private industry was forced to hire whomever was available, including those who were handicapped in some way. It was found through this experience that these persons, when properly placed, performed as well as able-bodied workers, and at times better.

In the past 20 years some 200,000 handicapped workers have been hired and last year alone, 19 out of every 1,000 persons employed by Federal agencies were either physically handicapped or had been restored to health after having suffered a mental or nervous disorder.

The Army Missile Command has (See **HANDICAPPED** on Page 4)

Slice Of Biggest Pay Raise Stays Right Here

Sabin Vaccine Will Be Administered In County

The Madison County Medical Society hopes to immunize between 90,000 and 95,000 persons in its forthcoming anti-polio program.

A dress rehearsal for persons who will run the various immunization stations will be held Sunday at 3 p.m. in Huntsville High School. A National Guard helicopter is to deliver vaccine to be used in the rehearsal to the high school Saturday at 11:30 a.m.

Clinics to administer the oral (Sabin) vaccine are scheduled Oct. 20, Dec. 1 and Jan. 12 at 26 city and county schools. For complete immunization against all strains of polio, a person must take vaccine on all three dates.

Everyone who has not had the complete Sabin series should be immunized. This applies to everyone over six weeks of age whether or not they have had Salk vaccine shots.

The Salk vaccine immunizes the recipient but it does not prevent him from harboring polio virus in his body, then passing it on to someone else who is not immune. To be of maximum effectiveness, immunization with oral vaccine must include at least 90 per cent of the population and be distributed evenly through all age groups and parts of the community.

All three types of Sabin vaccine have been recommended by the U. S. Public Health Service. Pre-registration forms will be distributed on the week preceding im- (See **SABIN VACCINE** on Page 3)

Tables Turn! Macpherson Does Talking

Col. William J. Macpherson, commandant of the Army Ordnance Guided Missile School who introduces dozens of guest speakers at graduation ceremonies each year, became a graduation speaker himself last Friday at Salt Lake City, Utah.

The occasion was the graduation of representatives of several Army missile research, maintenance and training agencies from a new equipment training course on the Sergeant missile system conducted by the Sperry Utah Company, prime contractors for the missile which has been adopted by the United States and West Germany.

Col. Macpherson awarded diplomas to the graduates at a dinner at which he hailed the new Sergeant General Support Shop Set as "a long-needed step toward significant savings in time, money and manpower in the field maintenance of missiles."

The "SGSSS" enables maintenance technicians to carry to a combat area much repair equipment heretofore stationed behind the line of battle.

The equipment makes it possible for them to perform high echelon repairs to many electronic chassis that control the launching and guidance of the ballistic missile.

Some of these chassis contain hundreds of parts wired together in intricate electronic circuits and cost several thousand dollars each. Heretofore, if one failed under combat conditions, it was replaced with an entirely new assembly. The old one was then sent back to a distant depot for repair. Often it was discarded.

Some graduates of the SGSSS course will return to home stations at the Army Missile Com- (See **TABLES TURN** on Page 4)

COLONEL HIRSCH

Col. Hirsch Announces Retirement

Colonel O. M. Hirsch, who has been the Project Manager for the Pershing ballistic missile system since the Army began operating under the Project Manager concept, has announced he will retire from active duty on Oct. 31.

Col. Hirsch will be succeeded as Pershing Project Manager by Col. Edwin I. Donley, who for the past two months has been special assistant to Brig. Gen. Charles W. Eifler, Deputy Commanding General for Land Combat Systems.

Col. Hirsch has not announced his plans for the future, but he and Mrs. Hirsch will make their home in Huntsville.

Successful Record

Under Col. Hirsch's leadership and direction, the highly mobile two-stage Pershing chalked up the most successful record ever achieved by any missile fired down the Atlantic Missile Range.

Col. Hirsch was first assigned to Redstone Arsenal in 1955. His first position in the Army's missile program was the post of Executive Officer and Chief of (See **COL. HIRSCH** on Page 3)

Goal Is Close In UGF Drive

The Office of the Deputy Commanding General, Land Combat Systems, is the first organization to reach 100 per cent participation in the 1963 United Givers Fund campaign.

R. A. Malone, agency chairman for the organization, reported all 24 of the persons in his organization had pledged a Fair Share to the drive. All but three per cent of the total had been collected at the end of last week.

Among the larger organizations an interesting dual has developed with Supply and Maintenance edging ahead of Procurement and Production in the weekly report.

J. W. Linton, agency chairman for S&M, indicated participation (See **UGF DRIVE** on Page 4)

GATE 7 CLOSED

Gate 7 will be closed to afternoon traffic the rest of this week and Monday of next week due to missile testing in the area of the gate.

The closing of the gate will apply to afternoons only and will not affect traffic through the gate in the mornings during this period. The gate will be in operation from 6:30 a.m. until 8:10 a.m. as scheduled.

Increase To Reflect On October Pay

A slice of the biggest pay raise in U. S. military history will stay right here at Redstone Arsenal when military personnel stationed at the Army Missile Command, the

Schedule on Page 3

Nike Zeus Project Office and the Army Ordnance Guided Missile School receive their share.

This schedule also includes the increase for retired personnel in the area and dependents living in the Huntsville area while a serviceman is serving at an overseas post.

The bill, signed last week by President John F. Kennedy, will be reflected on pay checks at the end of this month.

One of the fields the bill covers is special pay for physicians and dentists on an increasing scale for longevity or service.

The new pay bill also lifts restriction on more than one payment of incentive pay. Two such payments are authorized for servicemen who are required by competent orders to perform multiple hazardous duties in order to carry out the assigned missions. (See **PAY RAISE** on Page 3)

ROKs Graduate First Class From Missile Support Unit

The Republic of Korea's first missile support unit is being activated at the U. S. Army Ordnance Guided Missile School this week following the graduation last Friday of 18 ROK officers and enlisted men from individual courses on the Hawk missile system.

Sergeants First Class Yoon Taeno and Lee Wonkoo were honor men in the pioneer group.

The Koreans are the third U. S. ally in the Far East and the first on the Asiatic mainland to be trained on the Hawk air defense weapon which is now a standard system with the North Atlantic Treaty Organization, Japan and

Nationalist China.

The Koreans were graduated along with officers and men from West Germany, Greece, The Netherlands and the U.S.A.

S/Sgt. Peter J. Beijer of the Netherlands Air Force and Cpl. Joseph Muehling of the West German Air Force took top honors in courses on the Nike air defense missile.

The senior German liaison officer at OGMS, Lt. Col. Hans W. P. Finck delivered the graduation address.

He said the presence of graduates from five nations of Eur- (See **ROK's GRADUATE**, Page 4)

Bloodmobile Visit

The Red Cross Bloodmobile will be at Redstone Arsenal between 8:30 a.m. and 2:30 p.m. at Bldg. 7110 on Oct. 16.

Coordinator for the operation is Col. William Luk, Troop Commander and Provost Marshal for the Army Missile Support Command.

The canteen will be staffed by members of the Huntsville Chapter, the stations will be staffed by volunteers from Redstone Arsenal.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-136, Extension 876-4161.

All advertising copy and payments therefor are received by Mrs. Zillah T. Heath, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon on Friday before publication. The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates for the Rocket are \$5.25 a year, or \$2.89 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Hartselle, Ala.

Rocket Ruminations

I shall endeavor to enliven morality with wit, and to temper wit with morality.
—Joseph Addison

Troops Prepare To Fire Sergeants At White Sands

The U. S. Army's Sergeant missile system and the soldiers who have been trained to man it arrived at White Sands Missile Range, N. M., last week in preparation for graduation firings.

Two tactical firings of the powerful missile will be made by the 5th Missile Battalion, 30th Artillery. The firings will take place at White Sands Stallion Camp. Fort Sill ranges are not large enough to contain firings of the Sergeant which has a range of up to 75 miles.

Management of the Sergeant program is one of the major responsibilities of the Army Missile Command. Col. J. Mort Loomis, Jr., Sergeant Project Manager, located at Redstone Arsenal, discharges this responsibility.

The 5th Battalion is conducting the firings as the final examination of their Sergeant training. Members of the Battalion have

been undergoing extensive unit training at Fort Sill since early July.

Sergeant is a reliable, rugged, accurate and mobile field artillery missile system. It is 34 and one half feet long and weighs 10,000 pounds.

As a second generation missile, Sergeant possesses several outstanding advantages over its predecessor—the Corporal. The principal advantages are operational simplicity, immunity to all known electronic countermeasures, reduced crew requirements and an improved reaction time.

Sergeant played a part in the historic achievement which put the Free World in the race for space. The Jupiter C launch vehicle that orbited the first U. S. satellite—Explorer I in January of 1958 used solid propellant upper stages which were scaled-down Sergeant motors.

WHAT'S WRONG?—Firemen would quickly point out that Mrs. Willie Entrekin, left, is emptying an ash tray into a waste basket and Mrs. Doris Flowers is about to try for coffee on an already overloaded electrical circuit. The two Missile Support Command secretaries posed the fire safety violations to emphasize Fire Prevention Week which is in progress. Electrical circuit and equipment were leading causes of fire on the installation last year.

COL. HIRSCH

(Continued From Page 1)

Staff to the Commanding General of Redstone Arsenal.

In 1957, he was assigned to the Ordnance Executive Development Program and attended the Graduate School at the University of Chicago where he received a Masters Degree in Business Administration, while concurrently spending two years studying industrial management of the General American Transport Corporation, International Harvester Co., Sears Roebuck & Co., Motorola Corp., Inland Steel Corporation, Argonne Laboratories and Armor Research Foundation.

Assigned to ABMA

Col. Hirsch was reassigned in 1959 to the Army Ballistic Missile Agency here, as Director of Industrial Operations, which carried the responsibility of principal contracting officer on all ABMA contracts.

He remained in this position until 1962 when he was assigned as the Pershing Project Manager.

In September, 1962, Col. Hirsch was named Acting Deputy for Land Combat Systems, a spot he filled until May, 1963. This was in addition to his regular duty as Pershing Project Manager.

Col. Hirsch is a native of Kansas City, Missouri. He was graduated from South West High School in Kansas City, and subsequently entered Kansas City Junior College where he studied

mechanical engineering. He later attended the University of Missouri in Columbia.

While attending the University of Missouri, he commanded the Pershing Rifles and was a member of the Scabbard and Blade honorary military society.

Civilian Employment

Col. Hirsch later was employed as a designer for a Kansas City refrigerator manufacturing corporation, and held the position of Works Manager and General Superintendent of that organization when he went on active duty in 1942.

Col. Hirsch was detailed to the Ordnance Corps from the Infantry where his initial assignment was Assistant Area Engineer during the construction of the Ohio River Ordnance Works.

He subsequently commanded the Cornhusker Works (a bomb and shell loading facility), the Denver Small Arms Ammunition Plant, and the Nebraska Ammunition Plant and later was Executive Officer to the Commanding General of the Ordnance Ammunition Center.

During the Korean War, Col. Hirsch commanded a separate Army Battalion in support of the U. S. X-Corps and the Republic of Korea I Corps. He was later transferred to Japan where he commanded the Ikego Insular Ammunition Depot Complex.

Following this assignment in Japan, he was transferred to Redstone Arsenal.

Col. Hirsch's decorations in-

PAY RAISE

(Continued From Page 1)

It also provides \$55 a month special pay for duty where the individual is subject to hostile fire, mines or other hostile action. This has never before been provided and will not be paid in time of war.

Another change is the option of the people above the rank of Captain without dependents to live in other than government quarters and draw the allowance authorized for their pay grade.

The bill includes a family separation allowance which is new. It is payable in cases of enforced separation of the military man

clude the Legion of Merit, the Bronze Star Medal, the Army Commendation Medal, and other Service Medals.

He is married to the former Edna Kirker of Kansas City, Missouri. They have two children: Martin F., who is married to the former Eva Ruth Ford, daughter of Mr. and Mrs. Earle R. Ford, Jr., of Huntsville; and Karen, of Brunswick, Georgia, who is married to B. J. Faulk formerly of Huntsville.

SABIN VACCINE

(Continued From Page 1)

munization days to avoid delay at the clinics.

Donations of 25 cents or more will be asked, but no one will be refused because of his inability to make a contribution. Vaccine will be given to infants in a dropper and to older children and adults on a cube of sugar.

Persons willing to help at the clinics are asked to contact either Dr. Charles Butler or Joe Payne, chairmen of the manpower committee for the Medical Society. Chairmen of the steering committee are Dr. Milton B. Peeler, Dr. J. Earl Robertson and William T. Marr.

Clinics will be operated between 11 a.m. and 5 p.m. on Oct. 20, Dec. 1 and Jan. 12 at the following schools:

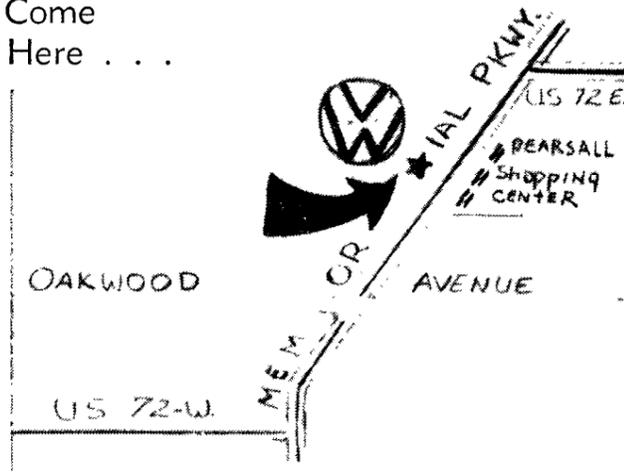

Lakewood, Highland, Lee High, Chapman, University Place, Terry Heights, East Clinton, Monte Sano, Butler, Fifth Avenue, Huntsville High, Ridgecrest, Whitesburg, Westlawn, Buckhorn, Central Junior High, Gurley, Owens Cross Roads, New Hope, Farmers Capital, Farley Junior High, West Madison, Madison Cross Roads, Hazel Green Madison Junior High and Council Training High.

from his family and is payable in addition to any allowance or per diem to which the member is entitled. It is also payable when his

dependents cannot live near his station and the expense of moving the dependents to that area is not authorized.

NOT EVEN A GERMAN LAND MINE could discourage Carl Towery, an engineering draftsman in the Ground Support Equipment Laboratory. Towery lost his left leg on Omaha Beach but has become a skilled draftsman after learning the trade since coming to Redstone after the war.

HANDICAPPED

(Continued From Page 1)

enjoyed a record of outstanding achievement in the employment of the handicapped. Throughout the Arsenal there are persons producing up to prescribed standards despite a handicap that at one time would have barred them from employment.

Houston McConnell and Carl Towery are just two of the many handicapped persons who have performed valuable duties despite wartime injuries that left them permanently disabled.

McConnell, a civilian guard, left his position as a guard for the old Huntsville Arsenal in 1944 to enter the Army and was assigned to the 28th Division. While participating in the Battle of the Bulge he was injured in the right leg and spent the next 20 months in Army hospitals.

Discharged in 1946 with a permanently paralyzed leg, from the knee down, McConnell came back to the Arsenal and was given his

old job back.

Furloughed when the Arsenal was in the process of closing in the late 40s, McConnell was re-employed in 1950 and has been with the guard force ever since. He was awarded an outstanding performance award and last year was presented a 10-year safe driving award.

An engineering draftsman, Towery is assigned to the Ground Support Equipment Laboratory, where he has compiled an outstanding service for 12 years.

Towery was a member of the 29th Division that hit Omaha Beach on D-Day. He was in the fourth wave of troops to go ashore. Soon after going ashore he was injured by a land mine and his left leg had to be amputated.

After being released from the service he was employed by Huntsville Arsenal and he learned drafting on-the-job. In 1949 he transferred to the Milan Arsenal but came back here two years later and has been the recipient of several letters of commendation from his supervisors in recog-

niton of his performance.

In Supply Jack Hogue, a supervisory program specialist, supervises the work of six other people despite being confined to a wheel chair. Hogue was involved in a motorcycle accident while attending college.

His work has been of such high caliber that he has been recommended for an Outstanding Performance Award by his supervisor.

Another Supply worker who is a valuable member of the Command team is Leon Hinds, a technical illustrator, who has been deaf since birth.

Despite his affliction, Hinds worked hard at developing his artistic skill and has attended classes at Birmingham Southern and the Huntsville Center.

UGF DRIVE

(Continued From Page 1)

in his organization has risen to 90 per cent, a single percentage point ahead of the total turned in by Richard Edmonds for P&P.

The Fair Share figures for the two organizations reflect the same difference with S&M at 80 per cent and P&P at 79.

Other organizations reaching 80 per cent in participation are, the Mauler Project Office with 89 per cent; Hercules Project Office, 89; Shillelagh, 84; Rohm & Haas, 82; Zeus Project Office, 81; and the Directorate of Research and Development, 81.

ope, the New World and Asia was evidence of "the firm determination of their people to remain free."

Finck defined the missile technicians as "a new kind of technical soldier who may never see his commander or his enemy but

is responsible for the efficient functioning of some of the most powerful weapons ever devised by man."

He was introduced by Lt. Col. Ward T. Gilbert, OGMS director of individual training. National anthems were played by the 55th U.S. Army Band.

FUNNY MAN—Lt. Col. Earl D. Hicks, Assistant for Communications, Army Missile Support Command, and Redstone Arsenal's Project Officer at the 1963 Alabama State Fair, presents famed comic Buster Keaton with a Lacrosse missile model just before a Grand Stand performance.

FAIR TIME—Visitors to the Alabama State Fair Redstone Arsenal Exhibit look on attentively as a member of the Test and Evaluation Laboratory of the Missile Command's Directorate of Research and Development demonstrates the Army's "hip pocket" rocket. In the demonstration, a miniature rocket zipped along a wire to simulated kill of a tank following a great big bang that startled visitors throughout the colorful Redstone exhibit area.

\$213 Million Given WECO For Work On The Nike X

The Army awarded the largest single contract it has ever given for missile work, \$213,382,000 to the Western Electric Co., funding continued development and testing of the Nike X anti-missile missile system.

This is an incentive type contract.

Also covered in the contract will be further testing at Kwajalein Island in the mid-Pacific using components originally developed for the Army's Nike Zeus anti-missile missile system. The tests involving engagements with target vehicles fired west over the Pacific by inter-continental ballistic missiles launched in California are providing further data for the accelerated development of the Nike X system. It is an advanced version of the Nike Zeus designed for greater effectiveness as a defense against missile attack.

Nike X will use components originally developed for the earlier systems, including the three-stage Nike Zeus missile in addition to new phased array radar and a second missile, a high-acceleration weapon called Sprint.

The contract covers only development and testing at Kwajalein, White Sands Missile Range, N. M., and other locations, and does not include funds to produce and deploy the weapon system.

Western Electric Company, the system's prime contractor, has major plants in Burlington, Greensboro and Winston-Salem, N. C.

Other Nike X work is performed at company facilities in Laureldale and Allentown, Penn. System design and development is the responsibility of Bell Telephone Laboratories, Whippany, N. J.

Nike X subcontractors sharing in the funding will include:

Avco Corp., Everett, Mass., discrimination techniques and

studies; Cornell Aeronautical Laboratories, Buffalo, N. Y., discrimination studies; Douglas Aircraft Co., Santa Monica, Calif., Nike Zeus missile equipment and engineering services; and General Electric Co., Syracuse, N. Y., radar techniques and signal processing equipment.

Others are Martin Co., Orlando Sprint missiles equipment and engineering services; Raytheon Co., Wayland, Mass., advanced radar components; Sperry Rand Corp., Great Neck, N. Y., radar; Sperry's Univac Division, St. Paul, Minn., data processing equipment; and Sylvania Electronics Products Co., Waltham, Mass., radar.

The Nike X development program is managed for the Army by Col. I. O. Drewry, Project Manager, and his staff headquartered at Redstone Arsenal. The New York Procurement District administers the contract.

SOUVENIRS—Hostesses Fran Foster (right) and Ann Dowell (left) pass out souvenir plastic missiles to visitors to the Redstone Arsenal Exhibit at the 1963 Alabama State Fair.

Arsenal Airline Office Provides Service For All

A slight misconception is apparently limiting the benefits of a commercial facility that is located on the Arsenal as a service to all personnel.

It is the Joint Airline Military Traffic Office (JAMTO) located in Bldg. 3684. Its presence on the Arsenal provides military and civilian personnel with a convenient location where they can obtain airline tickets and reservations without leaving the post.

"For some unknown reason military personnel have realized a great benefit from our service," commented John Forney, the office manager. "But civilians," he

added, "have never given us a chance."

About the only explanation that Forney can offer is that the civilians feel that the service is limited to military use, which is not true.

The local office is one of many established by the nation's airlines at leading military installations. They are operated through a joint agreement between the airlines.

The purpose of the JAMTO is to make the services of the airlines more accessible. Personnel of the office are employed by the airline companies and each is experienced in the procedures of air traffic and transportation.

Anyone contemplating a trip, whether it be in the line of duty, in an emergency, or a pleasure trip, can make all the necessary arrangements at the JAMTO. An air freight section is also available to Arsenal personnel.

Forney came to Redstone last summer to head the office after having been employed as manager of the city ticket office for the American Airline at Columbus, Ohio. Forney has a total of 17 years service with American.

Completing the office staff are three ticket sales agents, each coming to the Arsenal from a different airline. Tom Upton gained his prior experience with United, Mrs. Jean Roddy with Eastern and Mrs. Monte McGee with Southern.

Manufacturers produced 32.4 million dolls in 1940 and 2.1 million doll carriages to put them in.

The Redstone Arsenal Smallbore rifle team came home with firsts in every match in which members participated at the Dixie Roundup in Birmingham last weekend.

S. Sgt. Obie S. Mueing shooting in the master class brought home firsts on the Dewar course using iron sights, in the 100 yard any sight match, in the any sight aggregate, the grand aggregate and the National Rifle Association building fund match.

CWO Harley Winterrowd shooting as a sharpshooter came home with firsts in the 50 yard iron sight match, the 50 meter any sight and the Dewar any sight, to receive the any sight aggregate.

He also placed first in the NRA building fund match.

SP6 James Maloney, also a sharpshooter, brought home a first place on the 50 meter iron sight and the 50 yard any sights to score second in the grand aggregate.

PFC Gary McGee, shooting as a marksman, shot first place in the 100 yard any sight match, the 50 yard any sight, the 50 meter any sight and the 100 yard any sight to place first in the any sight aggregate.

Shooting as a team in the expert class S/Sgt. Mueing and CWO Winterrowd placed first.

As a team of sharpshooters, SP6 Maloney and PFC McGee also placed first.

Five Golfers Beat The Pro

Pro James MacClure at the Redstone Arsenal Golf Course lost to five members of the Arsenal Officers Wives Club Golf Group last week during the regular Wednesday competition.

Those who beat the pro are Mrs. G. W. Budd, Mrs. John Miller, Mrs. W. D. Lewis, Mrs. D. E. Bowers, and Mrs. William Clifton. Altogether there were 16 in the field.

ATTEND INVITATIONAL

Five from the Golf Group sponsored by the Redstone Arsenal Officers Wives Club attended the Turtle Point Invitational matches in Florence.

They are Mrs. F. E. Napper, Mrs. Charles Payne, Mrs. William Clisson, Mrs. W. D. Lewis and Mrs. V. J. Laver. Mrs. Lewis won the fourth flight and Mrs. Payne placed third in the second flight.

TAGGED FOR GIVING—Brig. Gen. John G. Zierdt, Commanding General, Army Missile Command, is pinned with a United Givers tag following his contribution to the Fair Share campaign now under way at Redstone Arsenal. Maj. Arlen A. McNeil, UGF solicitor for the Office of the Commanding General and Chief of Staff, does the honors. Gen. Zierdt expressed his unqualified endorsement of the seven week campaign which is aiming for 100 per cent Fair Share participation among Missile Command personnel.

DOD GROUP GETS NIKE X PREVIEW

High level Department of Defense officials saw and heard Nike X in a visit to Redstone Arsenal.

The group was interested in what the Nike Zeus Project Office and Col. I. O. Drewry, the Project Manager, plan for the new missile system during the next two years.

Two days were taken up by briefings on topics ranging from organization of the Nike Zeus Project to missile testing procedures.

The group was greeted by Brig. Gen. John G. Zierdt, Commanding General of the Army Missile Command.

Among the Washington group were Daniel Fink, Assistant to the Deputy Director of Defense Research and Engineering for Strategic Systems; Dr. Charles Herzfeld, Deputy Director of the Advanced Research Projects Agency (ARPA); and Dr. Samuel J. Rabinowitz, another ARPA Deputy Director.

Other members included Robert S. Sargent, Office of the Deputy Director of Research and Engineering; John A. Whitman, Staff Assistant to the Deputy Director for Research and Engineering; and Lt. Col. C. J. LeVan, Director of Special Weapons (Zeus) of the Office of the Chief of Army Research and Development.

Col. Drewry briefed the group on the Nike Zeus organization. He was followed by Norman Buchholz, System Definition and Test Program; Frank Broyles, Technical Development Plan; Glen Sadler, Multi-function Array Radar; William Graves, Sprint Missile; Maj. Robert L. Bryant, Management Techniques; Jerry Bow-

man, Budget; and Julian Davidson, Threat Analysis and Systems Effectiveness. All are Zeus Project personnel.

SOCIAL ^{and} CLUB EVENTS

GENERAL GREETINGS GENERAL—Maj. Gen. R. L. Spragins (ref.) and Mrs. Spragins (left) were among the more than 900 people from the Huntsville area and the military and civilian employees at Redstone Arsenal who attended the reception honoring Brig. Gen. and Mrs. John G. Zierdt Friday night. This is one of a series of events planned to honor the newly appointed Commanding General of the Army Missile Command. The Zierdts have been living near Washington, D. C., for the past year and one-half.

CHIEF SCIENTIST—Dr. and Mrs. W. W. Carter, the Army Missile Command's chief scientist and his wife, were among the guests who welcomed Brig. Gen. and Mrs. John G. Zierdt upon their return to Redstone Arsenal. Approximately 900 people attended the reception honoring the Zierdts. The event was held at the Squirrel Hill Officers Club Friday night.

Pattons Win At Bridge

Mr. and Mrs. Winford Patton were winners in the men's and women's division during the Monday night party bridge competition at the Squirrel Hill Officers Club last week.

Second for the men was Col. Robert Van Roo and Second for the women Mrs. Robert Scott. Eight tables were in play during the evening.

Reservations to play with the group may be made with Mrs. Peter Iber, 877-5235.

YARD OF MONTH

The plaque from the Redstone Arsenal Officers Wives Garden Club was awarded to Col. and Mrs. W. F. Register, 42 Ripley Drive this month.

The Registers yard was selected for overall neatness and appearance. Judges were Mrs. J. B. Cobb and Mrs. R. T. Davidson.

Gordon Hallmark To Speak Oct. 18

The Northeast Alabama Chapter, Alabama Society of Professional Engineers will feature their annual ladies night Oct. 18 beginning with a social hour at 6:30 p.m. in the Hawk Room of the Squirrel Hill Officers Club.

Gordon Hallmark, Army Missile Command Hercules Project Office and ladies night chairman, said the event will be highlighted by a guest speaker following a buffet supper at 7:30.

Dancing is scheduled to the music of the Gene Lewis Combo.

The Guest speaker will be Leroy A. Simms, editor of the Huntsville Times, who was formerly with the Birmingham News and Associated Press. Simms is a native Alabamian, is active in the Huntsville Industrial Expansion Committee program and is a member of the Community Advisory Committee for the Army Missile Command and the Marshall Space Flight Center.

Reservations for chapter members, all area engineers and their wives may be made with Randy Neal, or Jim Webb, both in the Zeus Project Office. Deadline for reservations is Oct. 16.

Mrs. Mullins Wins Bridge Competition

Winners at bridge sponsored by the Redstone Arsenal Officers Wives Club last Thursday are Mrs. J. D. Mullins, first, Mrs. I. Seidman, second and Mrs. C. Hasseltine, third.

The Bridge Group plays every Thursday morning at the Squirrel Hill Officers Club and is open to members and associate members of the Wives Club.

Reservations to play with the group are being handled by Mrs. E. Schorsten, 536-6893.

Thursday's competition drew seven tables of players.

HIGHEST CIVILIAN AWARD—Arthur Tarwater, chief of the Nike Hercules Project's Systems Support Division, is shown receiving the highest civilian award given by the Army Materiel Command. The award—the Department of the Army's Decoration for Meritorious Civilian Service—was presented in recognition of Tarwater's work on the project from Dec. 1959 to Dec. 1962. From left are: Col. Bernard Luczak, Nike Hercules Project Manager; Brig. Gen. John G. Zierdt, Missile Command Commanding General who presented the award; Mrs. Tarwater and Tarwater.

Tarwater Receives Award For Meritorious Service

Arthur E. Tarwater, Chief of the Nike Hercules Project's Systems Support Division, has received the highest civilian award given by the Army Materiel Command.

During recent ceremonies in the office of Brig. Gen. John G. Zierdt, the Missile Command's Commanding General, Tarwater was presented the Department of Army Decoration for Meritorious Civilian Service.

The decoration cited Tarwater's contributions to Army missile projects for the period of December 1959-December 1962.

According to the citation, as the Commanding General's principal civilian representative and technical director of a special project he rendered exceptional service and demonstrated extraordinary

technical judgment and unusual coordinative ability.

"The distinguished character of his performance serves as an incentive to others and has earned for him the respect and admiration of all . . . participants in a program of national interest."

Tarwater came to Redstone Arsenal in 1955 and became Chief of the Hercules Systems Support Division in August 1962 when the Hercules Project Manager's Office was established.

The nomination of Tarwater for the award, signed by Maj. Gen. F. J. McMorrow, said "His exemplary service, technical competence, missile knowledge and ability to coordinate diverse team efforts reflect great credit to himself, the Department of the Army, the Department of Defense, and the Federal service.

EDUCATORS TO HEAR SNEED

A. V. Sneed, Chairman of the City Board of Education, will speak October 15 to the Huntsville Citizens Committee for Better Schools.

Subject of his talk will be "Future Plans for Huntsville Schools," with emphasis on the building program.

The meeting will be held at 7:30 p.m. at the Madison County Board of Health Building. The public is invited.

CHIEF SCIENTIST SCHEDULES TALK

The Army Materiel Command Chief Scientist is to speak tonight at the Squirrel Hill Officers Club to the Institute of Electrical and Electronics Engineers.

Dr. Craig M. Crenshaw will address the Huntsville Section of IEEE on Research in the Army.

Dr. Crenshaw received a Bachelor of Science Degree with honors in Mathematics and Physics from Southwestern at Memphis, in June 1937. He was awarded a Degree of Doctor of Philosophy in 1942 from New York University where he majored in Physics.

In May 1942 he joined the staff of the Signal Corps, Engineering Laboratories at Fort Monmouth, N. J., as a Research Physicist working on acoustic location of artillery weapons. In 1956 he became Director of the Physical Science Division in the Signal Corps Research and Development Laboratory. The Chief Signal Officer USA appointed Dr. Crenshaw as his Chief Scientist for Research

and Development in 1957.

In July 1962, Lt. Gen. F. S. Beson chose Dr. Crenshaw to be Chief Scientist of the Army Materiel Command. Dr. Crenshaw is a member of Sigma Xi Scientific Fraternity and also active in the

American Physical Society, American Association for Advancement of Science, New York Academy of Science, Institute of Electrical and Electronics Engineers and the Armed Forces Communications Electronics Association.

WINDUP—Col. Thomas W. Cooke, Commander of the Army Missile Support Command, accepts the \$1140 check raised through a benefit dance for the Army Distaff Foundation fund. The dance was sponsored by the Redstone Arsenal Officers Wives Club. Mrs. N. T. Dennis (left), club president, and Mrs. W. W. Holmes, chairman for the dance, presented the checks to Col. Cooke to be forwarded to headquarters for the Distaff Foundation in Washington, D. C.

At The Service Club

By: Brenda Hanson

As we move into October, plan ahead for all the holidays and celebrations. The Halloween Dances and Thanksgiving parties will require some dancing skill. Now is the time to prepare. Joining our Dance Class in the main lounge every Tuesday, 7 p.m.

Wednesday night, the page turns to bridge instructions in the Small Lounge. These lessons are given every Wednesday night. So if you are interested in joining, we'll be very happy to have you.

Thursday night, the 10th, is set aside for practice dancing. If you have been having trouble with some of the more intricate steps, this is a chance for you to iron out the wrinkles. The event begins at 7:30 p.m.

Calling All Ping Pong Players. Friday night a table tennis contest presents a chance to prove

your adroitness and take home a prize.

Saturday night, the main event is a musical quiz show. Molly will play the tunes and the first to identify the tune wins the prize. In addition is a grand prize for

identification of the mystery tune.

On Sunday, Coffee Call is 9:30 a.m. in the Service Club kitchen. At 8 p.m., the lounge will rock to the records and dance time.

Monday is our weekly evening of games held at 8 p.m. in the Main Lounge.

Miscellaneous

Perhaps you have been seeing

some of our bulletin boards, posters, and handbills wondering who is the talented artist. We are fortunate enough to have Dan Beabee of the US Marine Corps here temporarily.

He has contributed a helpful hand to the club and the Service Club Staff is grateful to Dan for

his contribution to the program.

In October, we have some very fine programs. Some that you will not want to miss are the pot luck supper, "Bye Bye Shorties," a musical comedy, and the Halloween costume dance.

We are looking forward to seeing you at the club.

—Brenda

COMPLETE DISPERSAL AUCTION FAIRVIEW FARMS

45 Minutes Drive From Huntsville

Monday, Oct. 14 — Tuesday, Oct. 15 — Wednesday, Oct. 16

Sale Starts At 10:01 2/3 Each Day

Wire or Write
For Plats or
Brochure For The
Farm Cattle and
Farm Equipment

REAL ESTATE—Will Sell Monday, Oct. 14

4,000 Acre Farm will sell Monday, October 14th. 800 Head of Hereford and Angus Cattle, complete line of farming Equipment, belonging to Mr. P. S. Dunnivant of Huntsville, Ala.

Located on Highway 64, 15 miles west of Winchester, Tenn. and 15 miles east of Fayetteville, Tenn. 85 miles southeast of Nashville, Tenn., and 34 miles north of Huntsville, Alabama. Frontage along both sides of Highway 64, this farm will be sub-divided into 46 tracts, it will be so divided that it will have a house, or barn, or a good home site on each Tract. This farm consists of 4,000 acres, all level land with 1500 acres in Permanent pasture, and 1200 acres in crop land, with 1300 acres in young and marketable timber, is all level and fertile, and blessed with abundance of everlasting water, having 6 large ponds, 2 large wells. The 16 houses and 12 barns have individual wells for their water supply. This farm has 180 acre wheat base, 32 acre cotton base, and .6 acre tobacco base. You have good access to all this farm from Highway 64 running through the entire farm. This farm is located in the fertile plains of Lincoln and Franklin Counties, which make this one of the most desirable cattle or row crop farms ever offered for sale.

The 1500 Acres in permanent pasture has excellent fence around this acreage and is cross fenced, and fenced into small lots, this acreage has been running eight to nine hundred head of cattle and the 1200 acres in cropland furnishes plenty of hay and grain for this farming operation.

LIVESTOCK—Will Sell Tuesday, Oct. 15

140 Head of young Angus Brood Cows weighing over eleven hundred pounds.

230 Head of Hereford Brood Cows, which weigh over eleven hundred pounds.

110 Head of Hereford and Angus Open Heifers. 304 Calves. By sale day nearly all cows will have calves by their side. 9 Angus Herd Sires and 7 Hereford Herd Sires. This is one of the finest herds of Beef Cattle ever sold at the high, high dollar. Nearly a 100% calf crop each year from the brood cows. Mr. Dunnivant has culled this herd each year, and keeping nothing but the best, replacing the cows from choice heifers. The Hereford and Angus Cows are nearly all purebred, but there are no papers. The best bulls that money can buy of both breeds have been used on this Farm. All Cows that have produced choice calves have been bred back to the herd bulls. This Fairview Farm is noted everywhere for its Beef Cattle. All Cattle will have health certificates and all calves are Caltfoot vaccinated and can go anywhere.

FARMING EQUIPMENT—Will Sell Wednesday, Oct. 16

Industrial Group Schedules Meeting

The North Alabama Chapter of the American Institute of Industrial Engineers will meet Oct. 14 at the Sahara Motel.

The evening's program will be highlighted by a presentation on "Space Vehicles" by Dr. Harry O. Ruppe. Dr. Ruppe is the Deputy Director of the Future Projects Office at the George C. Marshall Space Flight Center.

Dr. Ruppe was born at Leipzig, Germany, and attended high school in that city. He studied theoretical physics and mathematics at the University of Leipzig and the Technical University at Berlin-Charlottenburg, receiving Bachelor and Master degrees from the latter institution. His Ph.D was earned at the Berlin Institute of Technology.

From 1955 until 1957 Dr. Ruppe served as assistant on supersonic aerodynamics to the Professor of Theoretical Physics at the Free University in Berlin, Steglitz. He was consultant on solid propellant rocket motor development in the Engineering Office of the German firm Sommerkorn in Frankfurt from 1956-57.

Dr. Ruppe came to the United States in October, 1957, and has been employed here since that time. He is a member of the DGR, a German Society for Rockets and Space Flight, senior member of the American Rocket Society as well as a member of the board of directors of the Alabama Section of the A.R.S. He is a fellow of the British Interplanetary Society.

Social hour begins at 6:00 p.m. with dinner at 7:00 p.m. and the program at 8:00 p.m.

Mrs. Redtath Surprises UGF

The Redstone UGF campaign received an unexpected boost last week with the receipt of a donation from Paris, France.

The contribution, from Genevieve Redtath, a former Arsenal employee was received in the Hawk Project Office. Mrs. Redtath is assigned to the NATO Hawk Liaison Office in Paris.

In her letter accompanying the contribution, Mrs. Redtath said that her donation was being made through the Hawk Project Office to help her present organization attain a better record than Procurement.

While employed at the Arsenal she was assigned to the Industrial Directorate and was a regular Fair Share contributor.

She started work at the Arsenal in March of 1958 soon after her husband, who is in the military service, was assigned here. When he was transferred to Europe last fall, Mrs. Redtath obtained a job in the Liaison Office.

GIRL SCOUTS RETURN FROM JUBILEE—Three girls from Senior Troop 18, Redstone Arsenal, represented Sommajade Girl Scout Council at the recent Jubilee held in Mobile. Scouts from eight states participated in four days of seminars, planning sessions and sightseeing trips. Shown as they return to Redstone, are, left to right, Penny Lyn Schick, Denise Acardi and Susan Palmer. On hand to greet them were, left to right, Catherine Wolfe who won the coveted Best Camper award at the third session of established camp at Camp Trico, and Deborah Ver Beek, who recently received the God and Country award for outstanding service; to the Ft. Bliss, Tex. post chapel.

Pledge Fair Share

The Missile Components Division of the Army Ordnance Guided Missile School last week be-

came the first major element of the activity to achieve 100 percent participation and secure 100 percent pledges for its "Fair Share" contributions to the United Givers

Fund, according to Maj. Ralph L. Nearhoof, chief. Its roster includes 145 persons whose quota is \$1,484.50.

ARMY AWARDS \$15 MILLION INCENTIVE CONTRACT FOR TOW

The Army has announced the award of a \$15,432,059 incentive contract to Hughes Aircraft Co., Culver City, Calif., for continuing research and development of its TOW missile system.

The TOW (Tube-launched Optically-tracked Wire-guided missile) is a new heavy assault weapon designed for use by the combat infantryman.

The TOW contract announced will fund work to be done by Hughes at its plants in Culver City and Tucson, Ariz.

It is among the first Army projects to use incentive contracting provisions for the development of the weapon system, with the incentive fee based on the contractor meeting targets in the areas of performance, cost and time.

The TOW is being developed for use against heavily armored tanks and similar targets. It is designed to be carried by light vehicles, such as tracked carriers and trucks. It also can be transported by combat infantrymen.

The TOW development project is under the direction of the Anti-Tank and Aircraft Weapons Commodity Manager at the U. S. Army Missile Command, Redstone Arsenal, Alabama.

The new missile system, as envisioned in system definition, will be smaller than other anti-tank missile systems. However, it will use somewhat different guidance principles.

The missile is optically tracked and automatically guided in flight by commands transmitted by means of a two-wire link between the gunner and the missile.

Feasibility studies on the new system began in January, 1962. Hughes Aircraft was successful competitor in the feasibility concept competition. The firm was awarded a contract for further system definition in August, 1962,

Jones Will Speak At Chemist Meet

Lee W. Jones will be the guest speaker at the North Alabama Section of the American Institute of Chemical Engineers Oct. 15 at the Muscle Shoals Hotel in Sheffield.

Jones, an aerospace engineer, will talk about "A Chemical Engineer's View of a Liquid Rocket Motor."

The meeting begins at 6:30 p.m. with a social hour. Reservations in Huntsville are being handled by Dr. Lewis Hurt of Rohm and Haas Company. Deadline is noon Oct. 14.

Romantic place names must have an appeal; among the small towns that mushroomed between 1950-60 were Treasure Island, Florida, from 75 to 3,506 inhabitants and Romeoville, Illinois, from 147 to 3,574.

Civilians Enrolled In Ft. Lee Courses

Five Missile Command civilian employees have completed training courses at the Army Logistics Management Center at Ft. Lee, Va.

They were enrolled in the classes as a part of the Command's career development program.

Ralph Grooms, an equipment specialist in the Hawk Project Office, completed the three-week Specification Management Course last Friday, and James Gregory finished the Defense Advanced Procurement Management course

the same day. Gregory is a procurement analyst in the Directorate of Procurement and Production.

The other three, Troy Bowden, Walter Landes and Claude Sentell, were enrolled in the Installation Logistics Management Course. It is a one-week course.

Bowden is a logistics officer in the Directorate of Research and Development. Landes and Sentell are assigned to the Installation and Services Office, the former as a logistics officer and the latter is a traffic manager.

Redeye Contract Goes To General Dynamics

A California corporation has received a \$1,100,000 award for continued development of the Redeye surface-to-surface guided missile, the Army announced.

The award went to General Dynamics/Pomona, a division of General Dynamics Corporation, to fund work at its Pomona, Calif. plant.

The Redeye missile system is designed as a man-portable, man-fired missile, to provide combat troops with the capability of

Multipurpose Drone Shown At Monmouth

More than 100 military and civilian representatives of the artillery and missile fields were shown the Army's multipurpose drone system at a one-day orientation session at Fort Monmouth by the

destroying low flying enemy aircraft.

The development program for the missile is supervised by the Redeye Commodity Office at the Army Missile Command. Col. Norman T. Dennis is the Redeye Commodity Manager.

U. S. Army Electronics Command.

The drone, MQM-58A, is one of six project managed programs directed by ECOM under the U. S. Army Materiel Command to provide the Army with electronic systems and equipment for modern warfare. The MQM-58A is a redesignation of the former AN-USD-2 Project.

Business Women Observe 'Week'

Business and professional women are observing National Business Women's Week, as proclaimed by President Kennedy for the first full week in October.

Motorcades, coffees and banquets are on the agenda in North Alabama with two national officers of the Business and Professional women scheduled to make appearances here.

The National President of BPW, Miss Virginia Allen of Michigan will be the honor guest at a Coffee at the Decatur BPW tomorrow; and National Third Vice President Sally Cunningham will be the featured speaker at the Huntsville club's banquet Saturday night.

Kickoff speaker for the week was Dolly Flowers, Alabama's first Vice President appearing before a joint meeting of the Huntsville

and the Rocket City Toastmistress Clubs. The speaker is in a management staff office at the Army Missile Command.

September 2, 1945 — Surrender document signed aboard the U. S. S. Missouri in Tokyo Bay by Japanese Premier and Allies.

TROPHY WINNERS—The Maintenance Platoon, 1st Missile Battalion "Sergeant", 68th Artillery, won the trophy for the unit having the largest percentage of donors at the Sept. 18 Bloodmobile. The Platoon Leader, 2d Lt. Roland R. Groover, holds the trophy presented to him by Col. William Luk, Chairman for the Redstone Arsenal Donor Program. Sixteen of the 17 men in the unit donated blood. The man who didn't was on leave.

Materiel Command Award Presented To McDaniel

The highest Army award possible for a civilian by the Army Materiel Command has been made to John L. McDaniel, Technical Director of the Army Missile Command's Directorate of Research and Development.

Brig. Gen. John G. Zierdt, Commanding General of the Missile Command, presented the Meritorious Civilian Service Award in the name of Lt. Gen. Frank S. Besson, Commanding General of the Materiel Command.

Present to view the ceremonies

Vernor, Jr.

ZEUS PROJECT OFFICE

Mary S. Anderson, Willa L. Dye, Bohdan E. Hajduczuk, Mary G. Marlow, Fay S. Ogletree, Thomas D. Smith, Charles K. Stanley.

ORDNANCE GUIDED MISSILE SCHOOL

Helen D. Cox, Edna M. Fatheree, Marilyn E. Milner, Mary A. Ramsey and Janice A. Spaulding.

MISSILE SUPPORT COMMAND

Marcus S. Blodgett, Elwyn C. Brookshire, Reaver E. Brown, Thelma P. Carter, Lois T. Cochran, Hubert G. Copeland, George H. Crimes, James H. Davis, Elizabeth S. Dove, Robert V. Franklin, Jr., William H. Graham, Estel J. Greenwall, William L. Henderson, Jr., Linda M. Hurley, Benny M. Hyatt, Mary R. Jarrett, Rexford R. Javins, Mary G. Jenkins, Orville C. Lanier, Judith A. Lee, Melba S. McClain, Mary F. Maxwell, Edward L. Murphy, Jr., Mary M. Oden, Barbara L. Palmer, Dorothy N. Pascar, Jaul J. Putt, James R. Riley, Gladys M. Shannon, Billy J. Wilhite, Bobby F. Wright.

AMC WINS SAVINGS BOND AWARD

Lt. Gen. Frank S. Besson, Jr., Commanding General, U. S. Army Materiel Command, was presented the Department of the Army's MINUTEMAN Award by Maj. Gen. Paul A. Mayo, Chief of Finance, on behalf of all Army Materiel Command employees for outstanding achievement in the Army's U. S. Savings Bond Program.

LOOK WHAT DAD'S GETTING—Mrs. John L. McDaniel (second from left) and children look over the Meritorious Civilian Service Award presented to Mr. McDaniel by Brig. Gen. John G. Zierdt, Commanding General of the Army Missile Command. McDaniel is Technical Director of the Command's Directorate of Research and Development. Looking on are his three children, from the left; Connie, Mark, William and John, Jr.

were Mrs. McDaniel and their four children.

McDaniel was cited for "His achievements in scientific and engineering leadership in research and development of rocket and missile weapon systems . . ." which have brought credit to the Army Missile Command and the Army Materiel Command.

This is the fifth time that McDaniel has received an award for his contributions to the Army's missile programs, dating back to 1955. In August, 1961, he received the Research and Development Achievement Award for scientific and engineering leadership.

Except for a two year tour of duty with the Navy during World War II, McDaniel has worked at Redstone Arsenal since 1942.

The majority of his Redstone R&D Operations of the Army Ballistic Missile Agency. He was appointed to his present position with creation of the Missile Command.

Seibert, General Engineer, PERSHING Project Office; Lois H. Raburn, Tape Librarian, Computation Center; Marjorie G. Williams, Control Clerk (Typing) OGMS.

Suggestions:

Gilbert A. Penny, Army Missile Command, \$10 award—this suggestion resulted in a Specifications Requirement Sheet being used to determine the need for Agency Purchase Descriptions and Specifications. This idea was implemented within the Engineering Division of the Army Ballistic Missile Agency for a period of time previous to the organization of the Army Missile Command. This joint suggestion has intangible benefits in the minor-limited category.

Daniel R. Cockrell, Army Missile Support Command, Letter of Appreciation—this suggestion resulted in a yield sign being placed on the right hand side of the road that intersects Duxton Road at the front entrance of the Finance & Accounting Office.

Norris D. Christopher, Army Missile Support Command, Letter of Appreciation — this suggestion resulted in SF-1080 billings from the Army Industrial Fund Accounting Division to the General Fund Accounting Division being prepared and submitted by Source Code rather than Work Authorization.

Major Francis B. Conway, Jr., Army Ordnance Guided Missile School, Letter of Commendation—this suggestion resulted in mouth to mouth resuscitator tubes being obtained and mounted in sterile wall containers in the U. S. Army Guidance Guided Missile School.

Louie R. Naylor, Army Missile Command, Letter of Appreciation—this suggestion resulted in Monthly Demand Detail Cards being interpreted each day to eliminate step number 1 of the Monthly Demand Detail Procedure.

Edwin P. Kellis, Army Missile Command, Letter of Appreciation—this suggestion resulted in the elimination of unnecessary typing by addressing Disposition Forms to: All Value Engineering Coordinators, instead of to: See Distribution.

Helen K. Logan, Army Missile Command, Letter of Appreciation—this suggestion resulted in a pair of earphones being procured for government owned tape recorders so that personnel can, when desirable, listen to classified tape recordings in private.

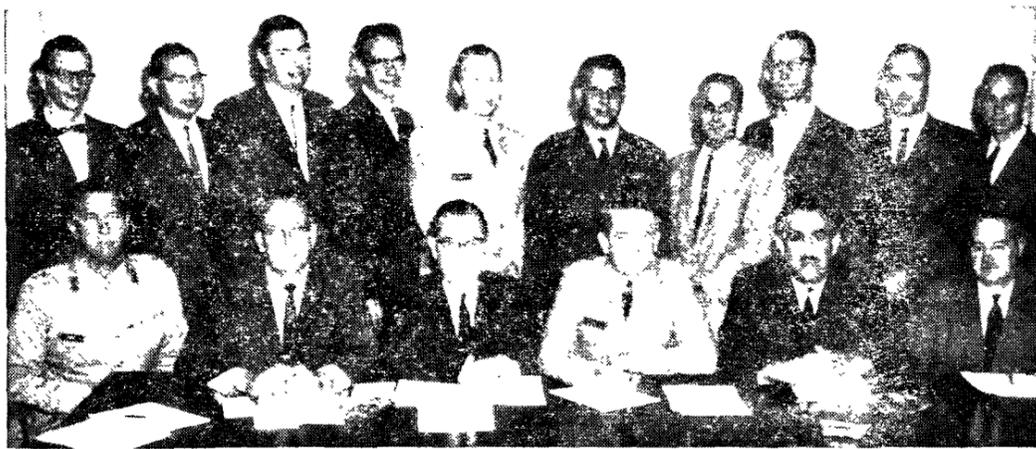

W. S. Irwin, Army Missile Command, Letter of Appreciation—this suggestion resulted in a change in the preparation of test procedure technical bulletins by

deleting the requirement for imprinting the front page with the "C I" notation.

G. L. Agnor, Army Missile Command, Letter of Appreciation—this suggestion resulted in display missile and rocket models being labeled for identification.

Helen C. Boggs, Army Missile Command, Letter of Appreciation—this suggestion resulted in a shelf being constructed above the wash basins in the ladies rest rooms in building 5678, which will be used as a place to deposit miscellaneous items while the wash basins are in use.

Dana Sperr, Army Missile Command, Letter of Appreciation—this suggestion resulted in the Daily Bulletin allowing advertisements for car pool arrangements to use office telephone numbers. Donald J. Ifshin, Army Missile Command, Letter of Appreciation—this suggestion resulted in vis-

INTERNATIONAL COOPERATION—The first annual tripartite technical cooperation panel is being conducted at Redstone Arsenal this week for the purpose of discussing Anti-Tank Missile and Guidance Controls. Panel Members represent the British and Canadian Armies, as well as the U. S. Army, Navy and Air Force. Pictured at the conference table are: front row, left to right; Lt. Col. Jack L. Jack, British Liaison Office, Washington, D. C.; Ivor Varnam, London, England; Maj. Cyril P. Fogg, London, Eng.; Lt. Col. Richard E. Cox, Army Materiel Command; Lt. Col. D. J. Jarnigan, Canadian Joint Staff; and A. C. Jones, also with the Canadian Joint Staff. In the rear row: Wiley F. Davis; William Yoakum, Redstone Arsenal; David Livingston, U. S. Navy; Maj. K. E. Lockwood, Army Materiel Command; Lt. Col. John E. Hicks, U. S. Air Force; Charles Petrides, Eglin AFB; Wesley W. Bruning, Wright-Patterson AFB; Capt. R. E. Butler, Ft. Knox; and Dennis Kasperek, White Sands Missile Range.

itor's names being placed on vis-itor's badges by using removable strips.
