VOL. XIII; NO. 24

REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

OCTOBER 21, 1964

New Reserve Role Sketched By General Wright

A SHOT OF REDEYE—The Army's Redeye air defense missile successfully intercepted this Grumman F-9F jet recently during a development test firing at the U. S. Naval Ordnance Test Station at China Lake, Calif. The shoulder fired missile was not carrying a warhead against the drone which was traveling at more than 420 knots. Part of the missile can be seen imbedded in the tail section (arrow). Development of the system is managed by the Redeye Project Office of the U. S. Army Missile Command, Redstone Arsenal, Ala.

The Commander of all U.S. Army Reserve Forces discussed the "Importance of Our Reserve Components" last Friday night at Redstone Arsenal.

Lt. Gen. W. H. S. Wright was guest speaker during a meeting of the Huntsville Chapter, Reserve Officers Association of the United States at the Officers Open Mess.

Gen. Wright said that never before have Reservists been expected to contribute so much to the Army's part in National Defense.

"We must have fast-moving, hard-hitting Army National Guard and Army Reserve Units which can be quickly deployed to assist in meeting the troop requirements for an emergency requiring forces beyond the capabilities of the Active Army," he said.

Gen. Wright was introduced by another visitor to Redstone, Maj. Gen. William J. Sutton, Chief of the U.S. Army Reserve.

Other visiting General Officers present included:

Maj. Gen. William C. Bullock, Deputy Commanding General, Third Army; Maj. Gen. George A. Carver, Commanding General of

(Pictures on Pages 2 and 3)

the Army's Fourth Corps; Maj. Gen. Leon L. Mathews, Commanding General of the 87th Maneuver Area Command; Maj. Gen. George O. N. Lodoen, Director of Army Affairs, ROA; Brig. Gen. Lewis C. Pattillo, former Chief Umpire, 87th Maneuver Area Command; Brig. Gen. Horace B. Hanson, Jr., Deputy Commanding General, 87th Maneuver Area Command; and Brig. Gen. Ernest R. Ellis, Chief Umpire, 87th Maneuver Area Command.

Local General officers meeting with the Reserve group were:

Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command; Brig. Gen. Howard P. Persons, Jr., Deputy Commanding General, Air Defense Systems; Brig. Gen. Charles W. Eifler, Deputy Commanding General, Land Combat Systems; and Maj. Gen. John A. Barclay, USA Ret.

In telling of a new role in which Reservists are being called upon to perform, General Wright said: "The Berlin call-up, and later the Cuban Crisis, pointed up the fact that the Reserve forces of today must be compatible with the Active Army units they may be called to reinforce. And they must be as responsive and as flexible."

He also spoke of the wide variety of roles Reservists will play in the future. (See RESERVE on Page 3)

Redstone Slated For Retirement

The Redstone missile will join 13 other Army veterans to be honored at the season's final retirement parade Friday, October 30.

This parade, known as "The Sergeant's Parade" will be conducted by the top non-commissioned officers at Redstone Arsenal. Sgt. Maj. E. R. Slayton will serve as Commander of Troops. Making up his staff will be Sgt. Maj. Roland Martin, Sgt. B. T. Galvin and Sgt. Maj. J. H. Judd.

All Redstone units have now been withdrawn from Europe, replaced by the Pershing missile. The Army is now in the process of disposing of Redstone equipment.

In addition to the normal retirement parade, the program will include a short talk by Maj. Gen. John G. Zierdt, Commanding General of the Missile Command, on the Redstone's significance to the Army and Redstone Arsenal. Dr. von Braun, who played a major part in the Redstone development program, will speak briefly on the missile's achievements as a space launch vehicle.

AADS-70's Group Will Make Report

Two industrial teams that are doing work on an Army air defense system for use in the 1970s (AADS-70's) will come to Redstone Arsenal this week to report on "how their work is coming along."

The two teams, Hughes Aircraft Company and Radio Corporation of America, currently working competitively on component verification programs, will conduct separate Progress Reviews at the Army Missile Command Oct. 21-22.

An Army spokesman said the teams will review technical accomplishments. (See AADS-70 on Page 3)

United Givers Collections Are \$158,624 At Mid Point

The wide area from which Redstone personnel commute daily is expressed through the donations that have been made to the Redstone Arsenal United Givers Fund drive.

With the drive rapidly approaching record proportions, Arsenal personnel have earmarked their contributions for the United Funds of 18 different counties or cities in northern Alabama and southern Tennessee.

Four of the agencies represent the residents of communities in Tennessee, the remainder are scattered over northern Alabama.

The 1964 drive has reached the halfway point with pledges from 90 per cent of the Arsenal work force totaling \$218,186. Contributions have been collected totaling \$158,624.

The halfway totals give clear indication that the performance of last year when the final contri-

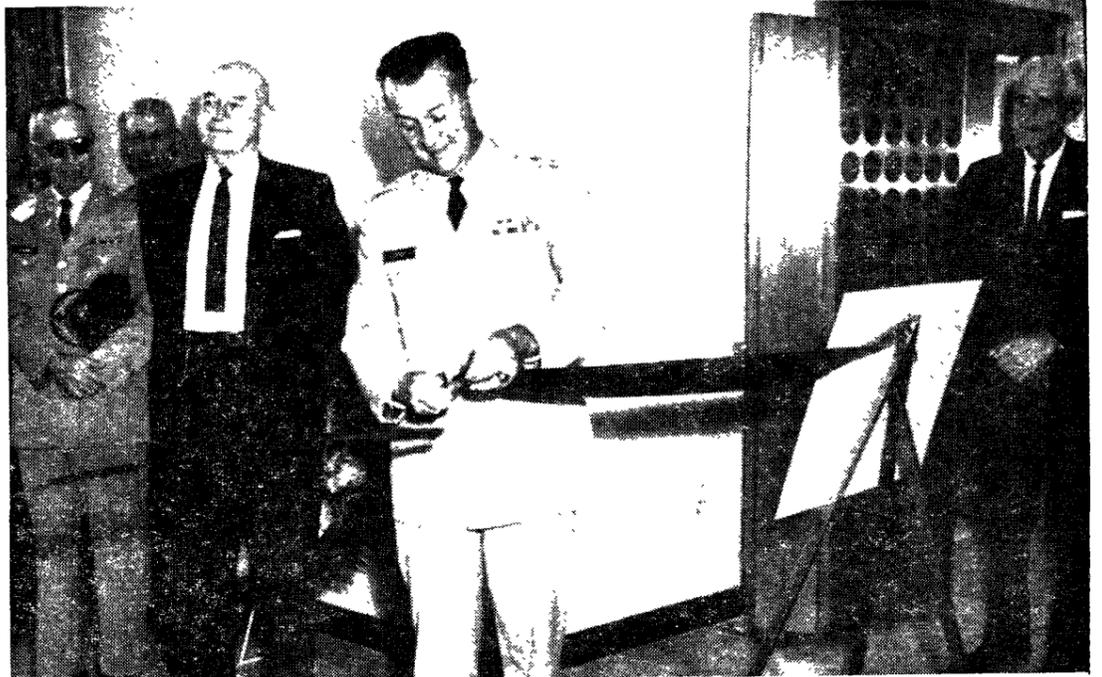

butions totaled slightly over \$206,000, will be surpassed.

Ten of the sixteen reporting agencies in the drive have received pledges from 90 per cent of their assigned personnel with three of them attaining a perfect 100 per cent rating.

Two of the perfect organizations, the Office of the Commanding General and the Quality and Reliability Management Office, were reported previously. The third perfect organization is the Mobile District Office of the Corps of Engineers.

While they didn't quite reach 100 per cent in overall participation, the Rohm and Haas personnel made pledges which, when added to the Company contribution, exceeds Fair Share goal by over \$1,000.

The contribution from the on-base facility of the chemical firm totals \$6,701.61 against a Fair Share goal of \$5,000. (See UNITED GIVERS on Page 2)

OPEN FOR BUSINESS—Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command, cuts the ribbon officially opening the new First National Bank facility on Redstone Arsenal. Looking on are M. B. Spragins, Chairman of the Board at First National, Col. E. D. Moh'ere, Chief of Staff at the Missile Command and Col. Robert M. Allgeier, Intelligence Operations and Security.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication. The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates of post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

Education is man's going forward from cocksure ignorance to thoughtful uncertainty.

—Kenneth G. Johnston

Day of Prayer

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA
A PROCLAMATION

Whereas the Congress of the United States, by a joint resolution approved April 17, 1952, provided that the President "shall set aside and proclaim a suitable day each year, other than a Sunday, as a National Day of Prayer, on which the people of the United States may turn to God in prayer and meditation at churches, in groups, and as individuals":

Now, Therefore, I, Lyndon B. Johnson, President of the United States of America, do set aside and proclaim Wednesday, the twenty-first day of October, as the National Day of Prayer in the year 1964.

Under our laws,

—Every man has the right to pray;

—No man can be told how he must pray;

—Each man prays as his own conscience dictates.

I call upon all of our citizens, therefore, to observe the National Day of Prayer in accordance with our custom—each in his own way and in his own faith.

I urge that each of us turn to God on that day

—Acknowledging that our country continues, as it was founded, "with a firm reliance upon the protection of Divine Providence";

—Thanking Him for the blessings of mind and spirit which he has heaped upon us in a land of vast bounty;

—Begging His forgiveness for our shortcomings;

—Asking for the patience, the wisdom, the understanding, and the courage we need to carry on His work.

In witness whereof, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

Done at the City of Washington this twenty-second day of September in the year of our Lord Nineteen Hundred and Sixty-Four, and of the Independence of the United States of America the One Hundred and Eighty-Ninth.

(SEAL)
By the President:
DEAN RUSK
SECRETARY OF STATE.

U. N. Marks 19th Birthday

Oct. 24 is the official birthday of the United Nations. The 19-year history of this organization proudly reflects the basic principle of its original charter—in the name of "we the peoples of the United Nations . . . to save succeeding generations from the scourge of war, which twice in our lifetime has brought untold sorrow to mankind. . . ."

The history of the United Nations is a turbulent one. Again and again it has seen the threats of world war—world disaster—rise and recede. In less than two decades, moreover, the world organization has grown to such importance that the U. S. Ambassador to the United Nations, Adlai Stevenson has described its success or failure as the "difference between world order and world anarchy."

But we must remember that the United Nations is not and was never intended to be a world government. It serves, rather, as a "town meeting" for the world. Its assembly hall is a common meeting place for nations to air problems of mutual concern by a forum of public debate, open discussion and peaceful negotiation.

The Cuban Crisis of two years ago is a classic example of its worth. The United Nations immediately provided for a discussion of the United States' complaint, thus focusing world attention on the facts and the threat to peace and security. The ensuing solidarity of the Latin American nations and the force of world opinion against the Soviet maneuver—fostered to a great extent through the United Nations—served as a strong support to the determined actions of the United States.

The importance of the United Nation's role in the crisis lay not in its ability to force a solution on a great power, but rather in its ability to provide the means for finding and supervising a solution. The United Nations has no will of its own. It is a forum in which wills can be expressed and harmonized. But it is, and will continue to be, a vital forum—where men may confront each other across the conference table, rather than across the plain of battle. (ANF)

GENERAL'S CONFERENCE—These officers were only three of 14 general officers who attended the Reserve Officer's meeting at Redstone Arsenal last Friday night. From left, Lt. Gen. W. H. S. Wright, Maj. Gen. William J. Sutton and Brig. Gen. Horace B. Hanson.

UNITED GIVERS

Local Boy Scouts Qualify To Wear Shiloh Patches

Some 308 area Boy Scouts have qualified for the coveted Shiloh shoulder patch this month, an award which recognizes a 14-mile hike along trails of Shiloh National Military Park.

The hiking trails at the Park led the Scouts to sites of the Battle of Shiloh. Following the 14-mile trek, local Scouts toured the Park's museum and saw a drama-

tized film of the Battle. Scout members who range from Tenderfoot to Eagle attended the Madison District Fall-O-Ree Saturday at Green Mountain. Fall-O-Ree events included log raising contests and competition in knot tying, compass reading, signaling and first aid.

During the over night camp out, the Scouts were graded by Fall-O-Ree officials on food preparation and camp appearance.

The Thunderbird Patrol copped the special award for signaling techniques.

RESERVE OFFICERS CHAT—Getting together for a brief chat, and a picture, these officers were part of the more than 300 who attended the Huntsville chapter meeting of the Reserve Officer's Association. From left, Maj. Gen. W. H. S. Wright, Lt. Col. John Edgar, Maj. Gen. William J. Sutton, Lt. Col. Pete Redding and Lt. Col. L. L. Perdue.

RESERVE

(Continued From Page 1)

ty of tasks that Army Reserve and National Guard units are now trained and equipped to perform.

"At present, the Army National Guard is manning approximately 46 of our Nike Air Defense batteries, protecting population, industrial and defense centers from air attack.

"These batteries are an integral part of the Air Defense system in the United States, and a very valuable one. They routinely pass Army Training Tests and Technical Proficiency Inspections—their scores compare very favorably with those of the active Army Nike units; in some instances, they are higher," General Wright said.

"Changing mobilization require-

The first group consists of units which are designed for early deployment. Because of this, they are given preference as resources become available so that they may be ready to accomplish their missions within a very short time after mobilization.

"Because these units must be

ready for deployment in record time, personnel must be highly trained and equipment in top shape. Aptly enough, this group is known as the Immediate Reserve. The second group, which includes all other Army Reserve and Guard units, is known as the Reinforcing Reserve."

In speaking of new concepts of training, General Wright said:

"In our contingency plans, the high priority Reserve and National Guard units are to be deployed in a matter of weeks. They should therefore be getting the feel of field operations with the active Army NOW.

"To this end, over 1,000 Army National Guardsmen and Army Reservists of three brigades and supporting units participated with units of the active Army in Exercise DESERT STRIKE, recently held in the area of Fort Irwin, California.

"This was the largest armored and mechanized joint exercise since World War II. During DESERT STRIKE, Reserve units "stood on their own two feet" and no distinction was made between them and active Army units. Such participation clearly demonstrates the ONE ARMY concept in operation.

"In addition, our future plans call for even more Army Guard and Reserve units to be airlifted in Air Guard and Air Force Reserve planes to training sites. This will accomplish three useful things—training in airlift operations, a

saving of transportation money, and getting units to training facilities better suited to the unit mission.

"The reduction of the traditional two hour training assemblies in favor of more weekend training assemblies would greatly increase the available time for training. Selected Guard and Reserve units are now testing this concept. Preliminary results indicate that training and morale are sharply up and that strength in personnel is increasing.

AADS-70's

(Continued From Page 1)

plishments they have made to date as well as review some of the tasks they have been asked to do.

The AADS-70's, now in early development, is being designed to engage and defeat the air supported threat of the 1970's and those ballistic missiles most likely to be encountered by a field army.

Current effort at the Army Missile Command is under the direction of the Future Missile System Division of the Directorate of Research and Development.

LOCAL STATISTICS

In welcoming the group to Redstone Arsenal, Gen. Zierdt quoted statistics about Army Reserves at Redstone. He said: "The Missile Command has an assigned strength of 302 officers. Included among these are 179 Army Reserve Officers, or 59 per cent.

"The statistics at the Army Ordnance Guided Missile School are even more impressive," he continued. "The school has an assigned strength of 168 staff officers. Eighty seven and one half percent of them . . . or 147 . . . are Army Reserve. Student Officers number 58. Forty nine of them are Reserve, or 84 per cent.

"These figures prove more than any words of mine that we would be out of business without the Reserve," General Zierdt said.

"And, if that is not enough to show that we really depend on Reserve Officers, we can go to civilian personnel statistics for further backing," he continued.

"Approximately 325 civilians in this area are active in some Reserve Officers Program . . . either the Army, Navy, Air Force, Marines or Coast Guard. An estimated 97 per cent of them are employed at Redstone by the Army or the Marshall Space Flight Center."

ments, the introduction of new weapons and equipment and the adoption of new organizational concepts to meet current and future global challenges affect the Reserve Components just as they do the Active Army," he continued.

"The readiness of both, in terms of equipment, personnel and training must be considered in determining whether we have the credible military strength necessary to complement our diplomatic actions. In making this determination, our contingency war plans are fulfilled by the allocation of specific types of units of both the Active Army and the Reserve Components which are to be phased in as required by the deployment schedule.

"In the light of these requirements, all of the units of the Reserve Components have been divided into two priority groupings.

FIAT OUTSELLS ALL OTHER AUTOS AMONG COMMON MARKET COUNTRIES

Fiat is far and away the hottest selling car in the six Common Market countries according to statistics recently released by the European Economic Community.

A tally of passenger car registrations at the end of September 1962, in Belgium, Holland, Luxembourg, France, West Germany and Italy shows that Fiat with Germany and Italy shows Fiat with are Volkswagen with a total of 381,320 sales, and Renault with 248,516 registrations.

Additional figures show that Fiat is not only the best selling make but also the most popular import among these countries. Exclusive of Italy, Fiat has marked up a total registration of 114,471 in the E. E. C. countries. Volkswagen follows by less than half, with 52,944 registrations, exclusive of Germany.

Tennessee Valley Field Trials Scheduled Oct. 31

The Tennessee Valley Field Trial Club will hold their second annual fall four-stake field trial for pointing dogs at Redstone Arsenal Oct. 31 and Nov. 1. The trial will be sanctioned by the Amateur Field Trial Clubs of America.

Entrance to the field trial will be at the intersection of Alabama Highway 20 and Slaughter Road, four miles west of Huntsville.

The entry fee will be \$6 for the puppy stake, \$8 for the derby stake, \$10 for the all-age stake, and \$12 for the shooting dog stake.

The judges, Ed MacFarrior and

Bob Simpson, both of Courtland, Ala., will award trophies to winners of the first three places in each stake.

The public is cordially invited without charge.

The deadline for entering the trial is 6:00 p.m. Friday, Oct. 30. Entries can be made by contacting Marvin Carroll, Route 2, Madison, telephone 837-2748. Braces will be drawn Friday, Oct. 30 at 7:00 p.m., at the Ship-to-Shore Restaurant in Madison, following a Dutch Dinner which will begin at 6:00 p.m. for the club members and participants.

Hi-Power Rifle Team Wins Trophies At Fountain City

The Redstone Hi-Power rifle team, still flushed over their victory last month in Indiana, pulled a repeat performance this past weekend at the fall Hi-Power Rifle Open Championships at the Volunteer Rifle and Pistol Club, at Fountain City, Tenn.

PFC James Chilcoat (Hq & Hq Co, OGMS), led the assault and shot himself right out of the sharpshooter class, jumping over the expert rating and into the master category.

In making the leap, Chilcoat captured the 200 yard off-hand award, the 500 yard slow fire match and the individual aggregate for his division.

In the team matches Chilcoat teamed with SFC Carl Franquet,

SFC James Dillon and SSGT Gentry Hawk to capture first place in the shot range team match and the aggregate first place in the short and long range team matches.

Hawk, firing as an expert, walked away with first honors in the 20 yard rapid fire match.

A special feature of the meet was a demonstration of the AR-15 rifle conducted by members of the Shaw AF Base team. The local shooters expressed the opinion that the weapon constituted one of the greatest advances in small arms history.

That Season's Here Again

WORKING RETRIEVER—Duck hunters in the area will wish for a retriever like the Springer bringing home the duck across a flooded cornfield.

Soccer Teams Schedule Atlanta Trip

Two international soccer teams from the U.S. Army Ordnance Guided Missile School, here, will travel to Atlanta Nov. 8 to vie against soccer squads from Georgia Tech and the Georgia Lockheed Employees' Recreation Club.

Five teams from Europe and Asia are competing in a newly-formed soccer league at the "Missile Academy." Denmark, German Army, German Air Force, Greece and Korea play their own version of football each weekend.

To date, the Germans hold the lead in the intramural rivalry, but the Greek missilemen are expected to close the gap, according to 1/Lt. Robert B. Green, athletic director.

During the season, several of the local teams will also play matches with Georgia Tech, Auburn, University of Tennessee, St. Bernard College and others.

Games played so far at the "Missile Academy" saw a German Air Force crew blank the Koreans 14-

0. The Germans won a second game 6-2 victory against contenders from Denmark.

The German Army this week will play Greece, and the German Air Force team will face Denmark squad.

Korean students will meet the Germans Oct. 24 at the school. On the same day, Greece will challenge Denmark. Games will be played each Saturday until championship play-offs on Dec. 5, Green said.

DUCKS UNLIMITED TO MEET OCT. 27

Ducks Unlimited has a meeting scheduled at 7 p.m. in the Utility Building Auditorium Oct. 27.

Among the people who will be on hand is a taxidermist and the State chairman of Ducks Unlimited, Don Drennen of Ensley.

The program includes a sample of the taxidermist's art, a color film and a talk covering the rules which will govern hunters on the Wheeler Wildlife Reservation — open for the first time to hunters. Duck calls will also be demonstrated.

Ducks Unlimited is encouraging fathers to bring along their sons—when they are old enough to be supervised as hunters. The organization was formed to promote conservation. One of the projects is financing the improvement of rookeries in Canada and portions of the United States.

One of the problems facing conservationists is the draining of swampland for farming — thus eliminating the duckmotel and restaurants along the flyways.

a more luxurious way to save money? Get new Pink Lotion Trend today—any size. They're all economical.

You'll find the Woman's Touch in every Purex product.

HOW TO SAVE—SFC Felton G. Collins, an instructor in the missile components department at the Army Ordnance Guided Missile School, took time out from classes recently to explain his cost saving idea to Col. William J. Macpherson, School commandant. Felton's idea was one of the kind that makes officers wonder why they didn't think of it first. He won an Army incentive award for suggesting that connectors to tuning coils used in soldering classes at the School be permanently soldered with colored lead-in wires. The cost saving amounts to an estimated \$1,160 a year by eliminating excessive burning out of the coils.

Summer Employees Provide Successful Replacements

After evaluating the recently completed 1964 Summer Employment Program in the Army Missile Command, the Civilian Personnel Office at Redstone Arsenal terms it "most successful."

The program has been carried out for a number of years at the Missile Command, but improved methods of selection and training have greatly improved it during the past two years.

The two-pronged objective of the program is to provide gainful employment for students and teachers during the summer months, and to assist in meeting specialized personnel needs, especially in the area of research and development.

The past summer program included employees whose educational backgrounds ranged from high school graduate level to one with a PhD degree, and assignments ranged from engineering aid (GS-3) to physicist (GS-13) including virtually all technical fields.

Because of the emphasis on scientific and technical subjects, most of the summer employees were assigned to the Missile Command's Directorate of Research and Development.

Before assuming their summer duties, the students are extensively briefed.

This year, a special lecture series in aerospace science and engineering subjects were added in a joint project of the Missile Command and Marshall Space Flight

Center. This series was directed by Dr. Reginald I. Vachon, professor of mechanical engineering at Auburn University.

John McDaniel, technical director of the Directorate of Research and Development, said the summer program was one of the most valuable in attracting and retaining high quality personnel.

"We can spot the outstanding people during the summer program, and when we hire them on a permanent basis, they're ready to go to work without the normal period of getting accustomed to a new location," McDaniel said.

Small Missiles To Protect Troops Challenge Scientist

An Army missile scientist told a gathering of engineers Friday that the task of developing effective weapons to defend forward troops against tanks, aircraft and short range missiles poses a challenge as great as that of developing a defense against ICBMs.

Dr. W. W. Carter, Chief Scientist of the Missile Command, made the statement in Albuquerque, N. M., during an address before the Annual Symposium of the American Society of Mechanical Engineers.

"In light of the world situation, the Army is working with a full spectrum of weapons from massive nuclear attack to counter insurgency," Carter said.

"It should be obvious that such a situation poses a variety of land combat situations and it should

also be obvious that the Army has decided that missiles and rockets provide necessary firepower and flexibility to meet a great majority of these situations," he added.

Carter discussed the Army's effort to develop versatile missile weapons—from the long range ballistic missiles to the shoulder fired air defense and armor defeating weapons.

"The Army's Redeye shoulder-fired, front line air defense missile system is a good illustration of a solution to our problem of meeting requirements for simplicity," Carter told the gathering of nuclear and aerospace engineers.

As for the development of future missile weapon systems, Carter said the Army was looking for new means of target acquisition and new ways of packaging to get compactness and mobility.

The Army missile scientists also discussed what he termed the "necessary technical environment" to provide a healthy combination of facilities for carrying out research, opportunities for advanced education and an industrial potential.

"The elements of education, research and engineering from the three-legged stool for steady progress," Carter said.

"We realized this in Huntsville several years ago and set out to

do something about it," he added.

Carter, along with other Army, NASA and University of Alabama officials has been instrumental in furthering development of the University's Huntsville Campus and in establishing the University's Research Center in Huntsville.

19" diag. tube 17 1/2
sq. in. picture.

Lifetime Circuit Board Guarantee

At this low, low price you'd expect to get a TV that picks up only channels 2 to 13. Instead, you get a quality-built General Electric Portable that picks up all 82 channels—needs no changes or attachments for future channel additions in this area.

• Big 19-inch picture • Top control for easy use • Built-in antennas—dipole antenna for VHF; loop antenna for UHF • Convenient, sturdy handle • 4-inch Dynapower speaker.

† The General Electric Company guarantees the Etched-Circuit board* to be free of manufacturing defects for the lifetime of the television receiver.

The General Electric Company will, at its option, repair any defects or accept claims for such repairs provided repairs are made by one of the following: (a) General Electric Distributor; (b) Franchised General Electric Dealer; (c) Authorized Independent Service Agency.

* The picture tube is warranted for one full year in all receivers. All other parts are warranted for 90 days in monochrome receivers.

'Dedicated Service' Is Librarian's Trademark

If you think there are Army Regulations to cover every conceivable subject in which the Army is involved, you're right.

And all these AR's flow into the Army Missile Command Library for distribution and filing. In addition, all the Army Materiel Command, Missile Command, Redstone Arsenal regulations as well as other Department of the Army publications, and copies of incoming and outgoing teletypes come into the library.

Tucked in with the regulations are some shelves of other reference material such as Dun and Bradstreet, the Army Register, the Encyclopedia Britannica, Home Book of Proverbs, Maxims and Familiar Phrases; also two Bibles which are used frequently.

The acting chief of the Library is slender, attractive Lista D. Martin who also serves the Missile Command as Top Secret Control Officer and COSMIC (NATO) SEATO and CENTO Control Officer. Her tenure in the Library is relatively short, but she has been coming to Redstone from Hartselle for about 11 years.

She worked for the Department of Agriculture for seven years in twelve Alabama counties following her graduation from Draughtons Business College, Nashville, Tenn., before coming to Redstone.

Her first duties here were in other areas including the Procurement and Production Directorate. "This is a demanding job," Lista said, "and requires a prodigious amount of close attention, but is very satisfying."

Lista is able to bring some sense of excitement to her position while approaching it with an equanimity that keeps the wheels turning smoothly.

"We get requirements for regulations from the Missile Command Staff Officers and others located on the Post, according to their needs, and make distribution, all of the time keeping cost reduction in mind," Lista stated. She says their phones ring frequently, and about 90 percent of the calls are questions about teletypes.

At home in Hartselle, in a house she bought in 1958, Lista enjoys the responsibility of her home and has done much of the maintenance and painting herself. A member of the Church of Christ, she started developing a history of the congregation some two years ago. It has taken a lot of research in such places as the Court House looking up old deeds, hours pursuing old newspaper files, and personal contacts with "old-timers" of the town.

She helped set up the church library and is the assistant librarian. At one time she assisted in publication of the church bulletin and has taught a class of 6 to 10-year olds at the church on Wednesday nights.

The other girls in the library are Frances Young, Ruth Wideman, Suzanne Woodliff and Lilla Bentley.

Frances is the alternate Top Secret Control Officer and alternate COSMIC (NATO) SEATO and CENTO Control Officer. She too is a relatively newcomer in the Li-

brary, having transferred there last June from the Travel Section of the Administrative Office. Her Redstone time totals seven years.

Frances has a quick wit that allows her to enjoy even the heavy responsibility she carries. Dealing with highly classified material is a formidable challenge which she meets willingly and successfully.

A tall, brown-eyed blonde originally from Scottsboro, Frances now lives in Fayetteville since her marriage in July to Douglas Young who works in the P&P Directorate.

The "oldtimer" in the Library is Suzanne Woodliff with 15 months experience behind her. She started "working her son's way through school" when he went to Battleground Academy in 1958. He is now a junior at Auburn. She formerly worked in the Supply and Maintenance Directorate where she had central files in her division.

To lively Suzanne's lot falls the chore of reading incoming publications to determine who has an interest in them, then directing the correct number of copies to the right offices. It takes certain amount of shrewdness, and like her associates in the Library, she can see the funny side of situations to keep her duties from becoming deady dull and mundane.

Anyone who reviews quantities of Army publications every week needs some leavening trait to temper her duties. She greets people with a ready and sparkling smile, always ready to help.

Suzanne was born in Chicago, graduated from high school in Evanston, Ill., and came to Huntsville in 1940 as it is her family's hometown.

Ruth Wideman transferred into the Library about a month ago, from the Consolidated Supply Receipt Unit. She had previously worked at Redstone in the Command Library during 1958 and 1959, she returned to work last March.

She's courteous and gracious to her customers who come in seeking copies of the publications she keeps posted and up-to-date.

Ruth, and her husband Tom Wideman who works at the Photo Lab, have two children, a son 11, and a daughter, 14. She says their son plays football, basketball and baseball, and that's the main topic of conversation for breakfast, dinner and supper.

Her evenings are filled with doing as much PTA work as she can, chauffeuring children to their activities, one night for her bowling, and maybe once in a while, staying home to collect her wits and grab a little rest.

The Widemans are originally from Sylacauga, and Ruth did general office work in the Avondale mill there for 12 years. They came here when her husband was released from service following a tour of duty in Germany.

The dignified, gray haired lady in the Library is Lilla Bentley who came to Redstone seven years ago from Anniston where she had worked at the Army Depot for eight years. She's been in the Li-

WE'RE HERE TO HELP YOU—These ladies find the Army Publications their numerous customers seek. They compose the staff in the Command Library, and are, left to right, Suzanne Woodliff, Frances Young, Ruth Wideman and Lilla Bentley. In the cases behind them are all the unclassified regulations that control official Army business.

brary since last March, and before that was in the P&P Directorate.

Her husband is employed at the

Foreign Students Authorized Wear Of School Patches

The Continental Army Command has authorized all Army service schools to allow foreign students to wear distinctive insignia of the institution they are attending.

The action confirmed a practice which the Ordnance Guided Missile School adopted several years ago when foreign students repeatedly requested the right to wear the OGMS crest. These have been presented to students upon completion of their individual training courses.

The CONARC authorization also authorizes the use of Military Assistance Program funds for purchase of the insignia.

EIGHT ASSIGNED

Eight officers were newly assigned to duties at the Ordnance Guided Missile School last week, according to Col. William J. Macpherson.

The officers and their assignments are: Maj. Malcolm F. Spicer, new missile and literature; Major Hubert Ford, DIT; Capt. Robert Walker, Office of Academic Operations; Capt. Luther Wickline, School Troop Command; Lt. Lynn C. Maddox, DIT; Lt. Errol H. Ball, Office of Academic Operations; and CWO Victor Napier and Paul Kremer, DIT.

Holiday Office Center. They have three children including an Air Force son who is on his third overseas tour, this time in Spain. A daughter lives in Dallas, Texas, and a son is in the 11th grade at Huntsville High.

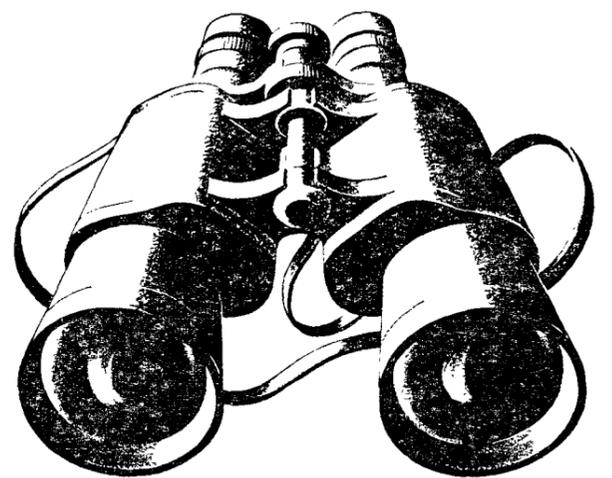

Lilla signs for classified material and keeps track of where it is filed. She already has a file drawer completely stuffed with pink "snowflakes," and "This is only October," Lilla said. It's no small feat to control all the ma-

terial these receipts represent, but Lilla goes about it quietly and efficiently.

Her spare time is devoted to work for her church, the Southside Baptist, where she is president of her Sunday School class, and does Womens' Missionary Society and Training Union work.

This one office is the very heart of the rules and regulations that govern official actions at the Missile Command headquarters. It's no wonder they have so many visitors looking for assistance.

THE LIBRARY'S ACTING CHIEF—Lista D. Martin stands in front of the "books" in her Library, nearly all of them from the same publisher, the Department of the Army! She is the acting chief in the Missile Command Reference Library, a part of the Administrative Office.

BRACED FOR INSTRUCTION—Seemingly seated on infinity, Lt. Gen. Charles W. G. Rich, commanding general of the Third U. S. Army at Atlanta, Ga., makes his first official visit to the Army Ordnance Guided Missile School at Redstone Arsenal, Ala. Squeezed into a seatless van, he made himself comfortable to watch a demonstration of the firing controls of the Sergeant ballistic missile by instructor Virgil M. Mills while Col. William J. Macpherson (back to camera) looks on. Vans such as these are used by U. S. and German Army units deployed with NATO missile forces in Europe.

Combat Requirements Has New Chief, Lt. Col. Roth

A veteran artillery officer has been assigned to the Army Missile Command's Directorate of Research and Development as chief of the Combat Requirements Branch of the Future Missile System Division.

Lt. Col. Almon R. Roth comes to Redstone Arsenal from Korea, where he was commander of the 1st Battalion, 77th Artillery. As chief of the Combat Requirements Branch, Col. Roth will relate the missile needs of the field soldier to the scientists who plan missile systems to counter expected threats.

Col. Roth entered service in

1945 immediately after receiving the BS degree in Military Science and Engineering from the United States Military Academy at West Point, New York. He received the MS degree in mechanical engineering from the University of Southern California, Los Angeles.

Col. Roth and his wife, Evelyn, will live at Redstone Arsenal. They have three sons, Richard, 17, Ronald, 15, and Randall, 4. Their daughter, Lynanne, is 12.

A native of Caledonia, Minn., Col. Roth is the son of Mr. and Mrs. R. A. Roth of 123 W. Caledonia St.

Seven Commended For UGF Gifts

Seven enlisted men in the Training Aids Division of the Office of Logistics at the Ordnance Guided Missile School have received special letters of commendation from Lt. Col. Willard Anderson, chief of the Office and chairman of the United Givers Fund for the School.

Each was commended for giving more than his share quota, according to Col. Anderson.

They are: PFC Jose Tarango, PFC Carson E. Metzger and Pvt. Robert H. Felix of the publication arts section; PFC Dennis R. Carol and PFC Harold F. McKenzie Jr. of the Drafting section; Sp/4 James F. Fish of the graphic arts section, and Pvt. Donald Alley of the illustration section.

Social

Wives Hear Army Band

The Redstone Arsenal Officers Wives Club heard the 55th U.S. Army Band Oct. 13 at a luncheon concert in the Squirrel Hill Officers Club.

Lunch was preceded by a social hour. At the punch bowl were Mrs. William C. Brame, Mrs. Kenneth Davis, Mrs. Gerald Nurre, and Mrs. James Wharton.

The sponsors were wives of officers who are assigned to the Marshall Space Flight Center. Mrs. R. H. Kessler was chairman. Serving on her committee were Mrs. Samuel Yarchin, Mrs. W. Scott Fellows, Mrs. John Thompson, Mrs. Wharton and Mrs. Joseph Morrow.

Cornucopias spilled gourds among the fall flower arrangements on the lunch and serving tables. Oversized musical notes against the backdrop emphasized the musical theme of the program. CWO R. E. Edwards, directed the band.

Reservations for the event, which drew approximately 150 officers' wives and their guests, were made by Mrs. W. Mehlinger, Mrs. S. Josephson, Mrs. C. Powell, and Mrs. C. Richards. Mrs. A. McNeil handled cancellations.

Mrs. John O'Keefe, Wives Club president, announced that the Club is sponsoring a hand sculpting group. Members interested in joining should contact Mrs. Earl P. Otto, she said.

The Garden Club has arranged for distribution of dogwood trees on post, a project which the Huntsville area garden club federation is promoting. On post, the Post Engineer will plant the trees where indicated in the quarters areas.

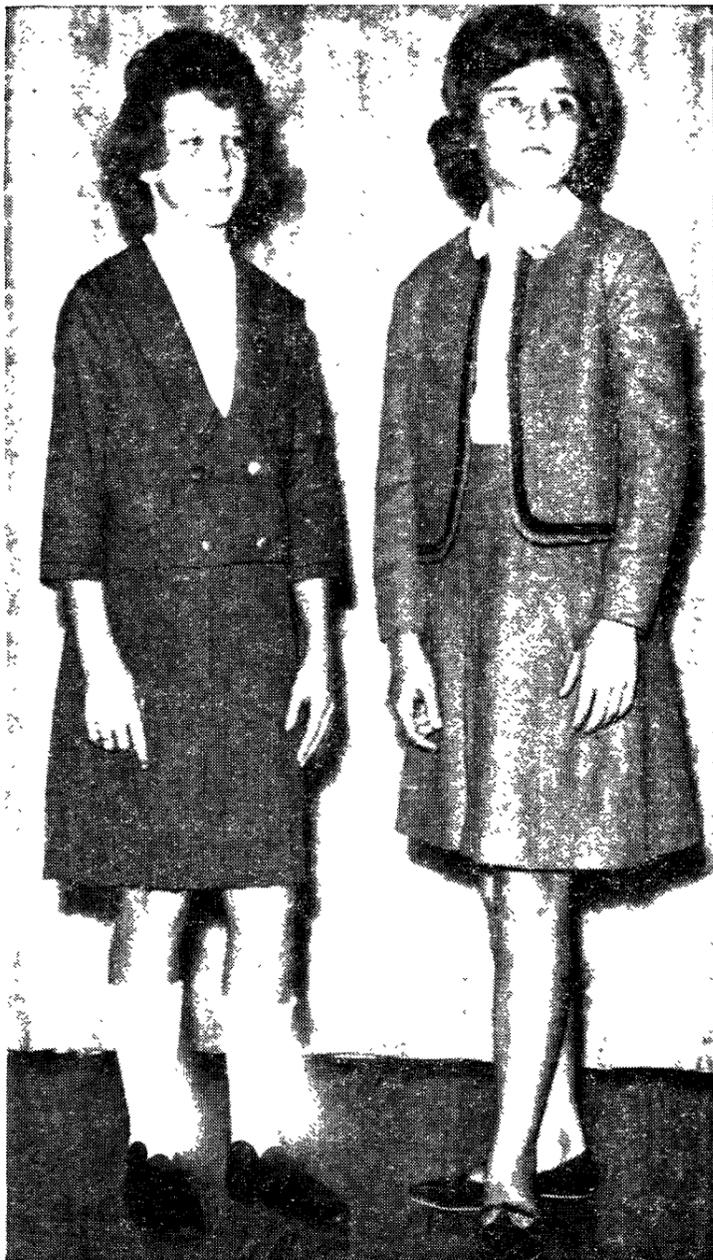

Mrs. O'Keefe also mentioned that the Post Nursery is in need of toys. The nursery is another project partially supported through the efforts of the Officers Wives Club.

Dunlap, Mrs. Gulbranson Are Party Bridge Winners

Playing on the men's team at Monday night bridge last week at the Squirrel Hill Officers Club, Mrs. A. Cobban came in second, George Dunlap first.

Mrs. I. Gulbranson won for the women with Mrs. L. Mullins runnerup.

Reservations to play with the group are handled by Mrs. George Scott, 772-3273.

CHURCH OR SCHOOL—Mitzi Bayne and Vicki Heizer model suits in the Christian Youth Fellowship junior high school fashion show at Redstone Arsenal. Mitzi's red jacket and gray pleated skirt are accented with a mock turtle-neck sweater blouse. The casual costume is completed with white socks and black pixie boots. Vicki's blue suit has a band of deeper blue outlining the jacket. Her white blouse has a bermuda collar and the flatheeled shoes are two-tone.

COAT AND PARTY DRESS—Debbie VerBeek wore a blue blanket-plaid coat in the junior high girl's fashion show at the Mother-Daughter Tea sponsored by the Christian Youth Fellowship teenagers at the Redstone Post Chapel while Cindy Sterner wore a full-skirt rose chiffon, party dress with coverup front and back over a matching taffeta slip. Her pumps are gold.

Toastmistresses To Hold Joint Meeting Tonight

The Rocket City and the Huntsville Toastmistress Clubs announce their Joint Meeting, Wednesday night, Oct. 21, at the Russel Erskin to commemorate Founder's Day.

Mrs. G. W. Warren and Mrs. Walton W. Rodgers are serving as co-chairman for arrangements and plans for the joint meeting.

Guests to be honored are International Toastmistress Clubs elected and appointed officers. Invitations have been issued to presidents of local women's civic clubs and to former Toastmistresses.

The feature of the program is to

MRS. TYLER IS BRIDGE WINNER

Nine tables of officers wives competed at Bridge Thursday morning—members of the group sponsored by the Redstone Arsenal Officers Wives Club which meets each Thursday at the Squirrel Hill Officers Club.

Winners were Mrs. S. W. Tyler, first, Mrs. Arthur C. McDermott, second, and Mrs. J. A. Davis, third.

The reservations to play on Thursday mornings at 10 a.m. are handled by Mrs. A. J. Matthews, 536-9958.

be a Panel discussion of Toastmistress orientation. The Panel Chairman will be Mrs. Harry Passmore, ITC Historian, of Birmingham, Alabama. Members of the Panel will be current and former Toastmistresses. Mrs. L. K. Wood, ITC Director of the Southeast Region, will present her award winning speech given before international competition.

Both clubs are looking forward to a gala evening.

Bloodmobile Plaques Go To 291st MPs, 13th Ord

The 291st Military Police Company and the 13th Ordnance Detachment won the military plaques for the highest percentage of donors in the two military categories during the October visit of the Red Cross Bloodmobile to Redstone Arsenal last Wednesday.

Col. William Luk and Capt. Farley Thompson, the coordinator and the assistant, made arrangements for visit of the unit and the scheduling of the donors. Altogether, 644 donors were processed.

Among the civilian population on post, the Marshall Space Flight Center had the highest percentage of donors.

The Bloodmobile was directed by Dr. Charles Moss of Birmingham. Mrs. R. B. Braid is the Chairman of Volunteers for the operation.

For his fourth time since taking over as the Missile Command's Commanding General, Maj. Gen. John G. Zierdt and his aide and driver were among the donors. The aide is Capt. Saffron Canja, the driver S/Sgt. Richard Frahm.

Miss America '64 To Tour Command

Miss America of 1964 is planning to visit Redstone Arsenal on Nov. 5th, and a reception has been arranged for her at the Service Club by the Army Missile Support Command.

Miss Donna Axum, now a junior at the University of Arkansas, held the title until the recent Atlantic City pageant which selected Arizona's entry for the 1965 crown.

Military personnel of the Ordnance Guided Missile School, Missile Command and Missile Support Command are invited to the reception which will be held from 3:30 to 4:30 Thursday, Nov. 5. Refreshments will be provided by the AMSC Special Services Division.

Miss Axum is to visit the Marshall Space Flight Center from 2:30 p.m. on the same day.

Miss Axum will be in Huntsville to visit Mr. and Mrs. L. R. Moffet Jr. who requested that a tour of Redstone Arsenal facilities be arranged.

COMMAND COFFEE

The Army Missile Command Officers Wives will have Coffee next Tuesday in the Redstone Room at the Squirrel Hill Officers Club.

The Group meets at 10 a.m. Mrs. Deborah Handy, 877-4877 and Mrs. Pat Duke, 536-6848 are taking reservations until noon Friday. Cancellations will be accepted until noon Monday. Club numbers will be required when the reservation is made.

JAYCEES TO RING BELLS

The Huntsville Jaycees are about to start ringing doorbells ahead of the trick and treat set in their annual promotion of a Christmas party at the Huntsville Community Center for underprivileged youngsters in the Huntsville-Madison County Area.

Chairman of this year's candy sale is Samuel L. Uptain of the Missile Command's Research and Development Directorate. He said that the men will ring doorbells between 6:30 and 9 p.m. weekdays from Oct. 22-29.

Last year the Jaycees fully clothed 240 children from the proceeds.

VARIATION—(Left to right): Linda Webb chose a brown crepe with inserts of print in brown and white tones filling the slit skirt and forming a scarf at the neckline. Pat Fisher wore a blue and white pin striped shirtwaist in seersucker and Alann Leonard showed a red and white print blouse under a navy sweater and matching skirt.

OFF TO THE GAME OR AROUND HOME OR SCHOOL—(Left to right): For the Redstone Arsenal Fall Fashion Show sponsored by the Christian Youth Fellowship during the mother-daughter tea, the junior high girls choice of clothes to model covered almost every occasion—Becky Baker wore a cherry red skirt with matching cherry and white print blouse—Sherry Fisher slipped into a red and white checked overblouse outside her dark capris and Louise Hartman chose a blue sailor with miniature red printed pattern against a white background. Many of the clothes modelled were season sparners.

(ANF)—Twenty years ago, on October 20, 1944, Army General Douglas McArthur landed his forces on the island of Leyte in the Philippines. He thus fulfilled the promise he had made two and a half years earlier: "I shall return."

CDC HEAD HONORED—Col. Frank J. Wasson Jr. (left), chief of the Combat Development Command Ordnance Agency at the Ordnance Guided Missile School, recently was honored for his service in Korea by the Seventh Army. Col. Walter S. Schlotzhauser, deputy commander of the CDC Combat Service Support Group at Fort Lee, Va., who was visiting Col. Wasson's office on a familiarization trip, presented the plaque from the Army Advisory Group (Korea). It cited Col. Wasson for meritorious performance as the senior ordnance advisor to the ROK Army.

Soldiers Of All Decades 'Gripe'

Complaints made today by the American soldier are not much different than those made by his counterparts in 1776.

This statement was made this week by Sgt. Maj. Harry D. Keever who heads the Commandant's Senior NCO Council at the U.S. Army Ordnance Guided Missile School here.

The Council allows senior non-commissioned officers to submit recommendations to Col. William J. Macpherson, School Commandant, on the "Missile Academy's" mission and on troop welfare.

Soldiers of 1776 didn't want to march without boots. Today's soldier wants the Army to provide bus transportation to and from the Post Exchange for their dependents. Fighting men of the Revolutionary period griped at the lack of proper clothing. Today, men of the service complain that uniform inspections are too frequent and too thorough.

While this country's first G.I.'s expressed discontentment over lack of housing and shelter, today's soldier is prone to complain that color television reception in the day room leaves something to be desired or that the tables in the billiard lounge are improperly balanced.

Early soldiers were bitter over the lack of sanitary conditions in the field. A soldier today gets upset when a post barber uses greasy kid stuff at the barber shop. In 1776, soldiers complained to the higher ups that they had to have better food to function as fighting men. Today, a G.I. is up in arms if the mess hall has run out of thousand island dressing.

"Each new missile student at OGMS views a video tape which I made here some time back. In the presentation, I let the new students know that the School is concerned about their welfare. Personally, my door is open to any student, regardless of rank, who has a recommendation to make,"

Keever said.

Keever's "open door" policy enables soldiers to air gripes where they can do some good, he said.

"Unlike the old Army—termed the brown boot Army—men of today's Army are treated with the

respect due an American soldier," Keever said, "but the same petty gripes are universal. The liaison between the Commandant and myself gives enlisted men a voice among the leadership of the School.

Complex Machines Create New Problems In Warfare

Graduates of the Army Ordnance Guided Missile School were told last Friday that they have been carefully trained to keep wars from starting either intentionally or accidentally.

Col. John L. Carson of Atlanta, chief of the Third U.S. Army's Nuclear, Chemical, Biological and Radiological division made this point in a talk to 60 U.S. and German students completing courses

on several missile systems.

He said today's complex machines of destruction require more human care than ever before.

Col. Carson emphasized that a misplaced wire or faulty switch on today's super weapons might cause a loss of a war or start a conflict by accident.

He used this theme to stress the importance that missile main-

tenance men now play.

Carson spoke at ceremonies in the Redstone Arsenal Theater, at which three officers received special awards for high academic grades.

Association of the U.S. Army plaques were awarded to Maj. John H. Vanston Jr. of Waco, Tex.; Capt Jack E. King, of Goshen, Ind., and Lt. Richard E. Pasco of San Francisco, Calif.

All averaged better than 96 per cent in a special weapons course.

Honor student diplomas went to Lt. Walter J. McCoanell, Spec. 6 Louis C. Rom, Pvt. Joseph R. Paul and Pvt. James M. Morvay.

Military Benefits Drops Rates Again

The Military Benefit Association again announced increased benefits and lower cost for members.

For the third time in less than two years, the Association increased the life insurance on members

effective Oct. 1, 1964. The new schedule provides eligible members up to \$30,000 group life insurance plus \$10,000 Accidental Death and Dismemberment for a combined death benefit of \$40,000.

A spokesman for the Association brought out that in most cases a members total death benefit has increased up to 100%, while at the same time a 23% re-

duction is made in cost. The Association also announced insurance coverage for spouses of eligible members is increased to \$5,000 without additional cost and eligibility for dependent children extended to age 23.

The spokesman for the Association said that this is the eleventh time since the Association was organized in 1956, that new or increased benefits have been added for eligible members.

Descriptive fact booklets and applications may be obtained without obligation from Military Benefit Association, Ninth Floor, Warner Building, Washington, D. C. 20004.

The Association, being non-profit and non-commercial, employs no salesmen, so the savings are passed on to the members. The spokesman said that a refund has been declared and paid each Christmas since organization, with the latest refund reducing the cost to eligible members to only \$3.25 per month, or 36% of the original cost.

The Association extends initial membership eligibility to all ranks and grades of service personnel on active duty and to cadets of the respective academies.

The spokesman said that another new and valuable benefit is that eligible members now can retire their membership and benefits for life.

The Association's basic organizational structure was thoroughly reviewed and approved by the Defense Department and MBA provides annual reports and certified audits of accounts direct to DOD. The Association has approval to

enroll members throughout the are authorized for payment of service, and monthly allotments members' insurance.

NEW ARMY WEAPON?—With all the test stands, ranges, buildings, and people on Redstone Arsenal, there's still places where nature reigns supreme. The snake held here by Dr. James A. Merritt, chief of the Optical Spectroscopy Branch in the Physical Sciences Laboratory, was killed in the Lab building. Trying to get distance between her and the snake is secretary Nancy Clem, who says her nerves should return to normal in a day or so. Missile experts thought the snake was a garden variety.

HIGHEST AWARD TO FORMER MAYOR—Former Huntsville Mayor R. B. Searcy (left) has received the Army's highest civilian commendation. Searcy received the Outstanding Civilian Service Medal for his services to the Army at Redstone Arsenal during the past 12 years—a period when both the Arsenal and Huntsville underwent tremendous growth as a result of the burgeoning missile projects at Redstone. The presentation was made by Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command at the Arsenal. Gen. Zierdt also presented Searcy and Huntsville Banker M. B. Spragins (right) with plaques recognizing their services on the Army Advisory Committee. The committee is a board of Huntsville leaders who advise the Commanding General of community affairs. Spragins is chairman of the Committee and has been on it since 1947.

EVERETTE BROUILLETTE

Brouillette Is Elected President AFGE Lodge 1858

Members of Redstone Arsenal Lodge 1858, American Federation of Government Employees, Oct. 12, elected Everett Brouillette as president.

Brouillette succeeds Dennis Garrison, who served two years as president and led the lodge to the largest in membership. Garrison resigned after being elected national vice-president for the Fifth District, which encompasses AFGE lodges in five Southeastern states.

In other voting, Raymond Swaim was elected assistant president of the Lodge succeeding Earnest Jackson, who also resigned to become a full time AFGE National Representative for Alabama.

Brouillette, an employee of the Planning and Engineering Branch of ME Lab at the Marshall Space Flight Center, has been serving as MSFC vice-president.

He defeated Lester Mitchell for the presidency.

Swaim, employed by the Army Missile Support Command, defeated James Light for the post of assistant president.

After the election, Brouillette appointed Marvin O'Donnell to succeed him as temporary vice-president for the Marshall Center. He also appointed Joseph Miller to succeed Swaim temporarily as vice-president for AMSC. Elections to fill these positions will be con-

Physicist Leads Missouri Seminar

Dr. Harry C. Meyer III, a research physicist with the Army Missile Command, lead a seminary at Washington University in St. Louis, Mo. recently.

The topic discussed during the seminar was "Generation and Propagation of Microwave Phonons." Meyer and his colleagues have studied this and related phenomena during research work in the Physical Sciences Laboratory of the Directorate of Research and Development.

ducted at the next regular meeting. Garrison was sworn into the National Post by AFGE National President John Griner during a recent convention in Dallas, Texas.

Document Librarians Hear Research Specialist

A research specialist from the Army Missile Command's Directorate of Research and Development told about the Redstone Scientific Information (RSIC) appearing last Thursday before the Columbus, Ohio Chapter of the American Documentation Institute in Columbus, Ohio.

Hubert H. Murray, Jr., is chief of the Research Branch of RSIC. This organization has a number of scientists specializing in various fields who can answer research questions in any desired detail.

Murray told about the exchange of information on research problems, and also covered the methods used by RSIC to supply the local demand for scientific and technical information.

LOW-COST LOANS

Low-cost loan service to members is at the rate of 8/10% per month on the unpaid balance. For a \$100 loan repaid in twelve months, the cost is only \$5.28.

Loans are granted from \$50 to \$7,500, with repayment periods up to five years for mobile home and real estate financing.

Borrowers insurance provides coverage equal to the outstanding loan balance, subject to terms of the group policy, without additional cost to the borrower.

SERVICES AVAILABLE

- Shares Deposits
- Shares Withdrawals
- Loan Payments
- Loan Disbursements
- New Accounts
- Loan Counseling

Members' paychecks will be cashed when a shares deposit or loan payment is being made.

Those services listed are available at each of the Five Credit Union Offices.

Value Engineers To Hold Meeting

Hundreds of value engineers from throughout the nation are expected to descend on Redstone Arsenal in November for the Army's first Value Engineering Symposium. Representing big and little industries and various elements of government, the meeting will be conducted by the Army Missile Command.

George E. Fouch, Deputy Assistant Secretary of Defense, will deliver the keynote address for the two-day Department of Defense sponsored symposium. Maj. Gen. John G. Zierdt, Commanding General of the Missile Command, is expected to welcome the group to Redstone Nov. 18 and 19. Horace Lowers, Chief Engineer of the Missile Command, will moderate the

sessions. Specialists in value engineering from government and industry will discuss techniques applied in design, development, production, management and administration.

Planning for the symposium is under the general direction of Arthur Harvey, Chief of Value Engineering Office, Procurement and Production Directorate. Serving with him are D. G. Turvey, Louis Jackson, William Edwards, W. E. Gibbons, G. P. Wetherill, Karl Marx, R. G. Weber, and Warren Musgrove.

Oct. 21-Nov. 10 Are Safe Time To Mail Gifts O'Seas

WASHINGTON (ANF) — Christmas gifts for Armed Forces personnel overseas should be mailed

between Oct. 21 and Nov. 10.

Senders are urged to mail their gifts as early as possible during this period to minimize possibilities of non-delivery by Christmas Day.

Air mail items should be dispatched prior to December 10.

Gifts should be securely packed in cartons of wood, metal or double-faced corrugated fibarboard. Fragile items should be surrounded by tightly packed cushioning materials such as excelsior or shredded paper. Matches, lighter fluid and similar flammable items

are prohibited. Tobacco product and coffee may not be sent to many APOs.

Mailers should consult their local post office for details on these and other restrictions and for size and weight limitations to certain areas.

DIAMOND KINGS—Abner McNaron, chairman of the Civilian Welfare Fund Council, presents the CWF Softball trophy to Col. Edwin I. Donley, Project Manager of the Pershing Missile System. Members of the Pershing team are shown in the background. Pershing won the first round of the league schedule and then won two out of three playoff games against the second round winning team from the Missile Support Command.

Quality Control Symposium Set October 28-30

The Huntsville Section of the American Society for Quality Control (ASQC) will hold a two day symposium at the Redstone Arsenal Officer's Club on Thursday and Friday Oct. 29-30. The theme of the symposium will be "Quality Management Speaks."

The meeting will open with a keynote address by Maj. Gen. John G. Zierdt, Commanding General, also representing the Missile Command on the program will be Ken Joy, Chief Quality and Reliability Management Office, in a panel on organization.

Many Missile Command contractors will be speaking including Phillip Crosby of Martin, McClure of General Dynamics, Charles Law of IBM, Don Costello of ARINC, and Wyatt Lewis of General Electric.

Huntsville speakers include Edwin Perry of Chrysler, Jack Godsey of Thiokol, Robert Walters of Brown Engineering, Alfred Davies of General Electric, Steve Raminger of IBM.

Assisting in the conduct of the symposium from the Missile Command are Berry Davis, Ray Read, and Ray Heathcock.

THREE WILL GO

Capt. Robert Longshore, C. J. Markvart and Robert Gilmore will represent the Ordnance Guided Missile School at the annual Army Audio-Visual Conference Nov. 2-6 in Washington.

Capt. Longshore is chief of the television division at the School; Markvart heads the training aids division, and Gilmore is a representative of the Teleprompter Corp.

The conference will discuss the major problems and solutions in the field of audio-visual communication in the Army.
