ARMY UNVEILS ITS TOW

Prototype Firing Tests Underway At Redstone

TOW MISSILE IN FLIGHT—The Army's TOW missile, a heavy assault anti-tank weapon, is shown in flight during a recent development test at Redstone Arsenal. The optically tracked missile is guided in flight by means of a two-wire link between the gunner and the missile. The TOW system is managed by the U. S. Army Missile Command under Lt. Col. Ballard B. Small, Project Manager. Hughes Aircraft Company, Culver City, Calif., is prime contractor.

The Department of Defense announced today that the Army had successfully fired guided rounds of its new long range supersonic anti-tank missile the TOW. In these test firings, TOW missiles scored center hits on tank-sized targets more than a mile away. Both stationary and moving targets have been used. The firings were directed by the Army Missile Command at Redstone Arsenal. Data obtained from the current tests will be used to refine a final design of the missile system.

In the next few months of the program, TOW missiles will be fired from a variety of military vehicles as well as its ground tripod.

Developed for use against hard-point targets such as tanks and gun emplacements, TOW gets its name from the description Tube-launched, Optically-tracked, Wire-guided. It is the first supersonic missile guided in flight by means of a wire link between the launcher and the missile.

A major improvement of this weapon over present anti-tank missiles is the simplified and highly accurate aiming device. To fire at stationary targets or moving targets, the gunner simply aligns the cross hairs of his telescopic sight on the target and then launches the missile which automatically flies along his line of sight. With TOW, the gunner does not have to estimate range to the target, speed of the target, or angle between the course of the target and his weapon. He needs only to keep the cross hairs of his sight on the target. Signals transmitted through the wire link automatically correct the missiles course.

TOW can be carried by troops and fired from a simple lightweight launcher mounted on a tripod. It can also be mounted on a variety of ground vehicles including the M-113 armored personnel carrier. TOW development is un-

der the direction of the Army Missile Command, a major element of the U.S. Army Materiel Command. Lt. Col. Ballard B. Small, Jr., is Project Manager. Hughes Aircraft Company, Culver City, Calif., is prime contractor for the TOW. Warhead development is under the Army Munitions Command at Picatinny Arsenal, N. J. Launcher and missile power sources are being developed under advice of the Army Electronics Command.

McGregor Range Chalks Up 1000 Hawk Launchings

A thousand Hawks in five years. That's the launch record for the Army's air defense missile which has been chalked up by McGregor Guided Missile Range, N. M.

Hawk No. 1,000 streaked out of the desert one day this past July. It was an annual service practice firing by the 8th Missile Battalion (Hawk), 15th Artillery, Miami-Homestead Air Force Base Defense.

The first Hawk missile was fired at McGregor Range on June 8, 1960, by the 2nd Missile Battalion, 71st Artillery, Ft. Bliss, Texas.

Hawk, a 16-foot killer of jet aircraft and airbreathing guided missiles, is stationed with troops in the United States and overseas. It is managed from the Army Missile Command, where Col. George H. McBride is Hawk Project Manager.

BLOODMOBILE
The Red Cross Bloodmobile will be at Bldg. 7110 tomorrow. The visit was deferred so everyone could attend Zero Defects.

Combined Redstone Federal Campaign Is Ready For Kickoff Rally Monday

Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command, will deliver the keynote address next Monday in opening the 1966 Combined Federal Fund Campaign at Redstone.

Gen. Zierdt will be the main speaker for the kick off rally at the Rocket Auditorium which will signal the opening of the first drive ever conducted at the Arsenal under the Federal Government's "one drive a year" concept.

Combining all of the fund raising appeals of previous years into one concerted campaign, the drive will be conducted over a six-week period in support of 40 agencies on the local, national and international level.

Leonard Brockman, chairman of the 1966 drive, said that while the

rally will serve as the official opening, the campaign literature and pledge cards have been distributed by most of the agency chairmen and a number of them have already started accepting contributions.

The Combined Federal Campaign was inaugurated last year with six widely scattered municipal areas participating. The success attained at each of these areas prompted an expansion of the program to 60

additional areas, one of which is the Huntsville-Madison County area.

"For this reason," according to Brockman, "the result of our efforts will be closely watched by Federal officials in their planning for future fund raising appeals within the Federal establishment."

He added that the agencies for which the appeal is made will also be comparing the results with (See ONE DRIVE on Page 3)

Union Backs Drive

Dennis Garrison, national vice president of the American Federation of Government Employees, has called on members of Redstone Arsenal Lodge 1858 to support the Combined Federal Campaign which opens here on September 20.

Speaking before a meeting of Shop Stewards from all Arsenal agencies, Garrison said, "The union supported the 'single drive' concept a long time ago and now that the Government is adopting it, it deserves our continued support."

He said that he has been assured by drive officials that no goal will be set other than the suggestion that each employee give what he feels is a fair share.

"The AFGE feels," he added, "that a single campaign is more efficient, economical and better for employees and management as a whole."

FIRST PLEDGE FOR ZERO DEFECTS—Col. Stanton W. Josephson, Director of the Army Missile Command's Directorate of Research and Development, is the first in his organization to sign a Zero Defects pledge card. Charles D. Cox of the Engineering Requirements Office stands by to present a Zero Defects pin to the Colonel. The Zero Defects program will get its official kick-off at a Wednesday morning mass rally at Huntsville Stadium by all employees of the Missile Command.

Zero Defects Emphasizes Quality Out Does Quantity

"Zero Defects has my complete support. It must have yours as well if it is to work here at Redstone Arsenal . . . And what better place could there be for it to work . . . what better place could there be for the acceptance of this challenge than here where the Department of Defense Zero Defects Program was born."

With these words prepared for delivery this morning, Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command, keyed the kickoff of the Army Zero Defects program at Redstone.

Leading off a battery of speakers, Gen. Zierdt issued a challenge to his personnel to make Zero Defects a way of life. "I sincerely feel that if you do not have such a goal on the job, you need it," he said. "The nation that all of us serve deserves it—our national security requires it."

In outlining the history of zero defects that started with the Pershing missile development program, Gen. Zierdt pointed out that more than 1,000 major industrial organizations associated with the nation's

defense now have zero defects programs in their plants.

"More important to me has been the marked change in attitude among people where zero defects programs are operating—the great feeling of pride and accomplishment that has come to those who have applied themselves to making it work. There have been truly astonishing results attained in better products, workmanship and reduction in cost," he said.

The most colorful speaker scheduled on the Zero Defects kickoff was University of Alabama's Head Football Coach Paul W. "Bear" Bryant.

Backing up the Department of Defense praise for the program, Coach Bryant, in his prepared remarks, attributed his highly successful coaching career to the individual player's pride in his work, his competitive spirit and a desire to become an important part in the team effort. These are the same points emphasized by the Army's Zero Defects program, he pointed out.

(See ZERO DEFECTS on Page 3)

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-136, Extension 976-1400 or 376-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication. The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

It's Back-To-School Time . . .

There she is, with sparkly eyes and shining morning face, loving that first week of school.

What will this year be like for her—an unforgettable time of learning and growing and enjoying—or will an accident on the way to school cut short her progress and her fun?

Whether it's a year of triumph—or tragedy—depends largely on what you teach your child about traffic and its dangers. It's your responsibility—not the school's—to see that your child knows:

- What is the best route from home to school;
- Which are the best intersections for crossing;
- What the signs and signals mean;
- How to interpret the crossing-guard's directions.

Warn your child also:

- To avoid all contact with strangers, to walk directly home from school and check with you before going out to play, and not to play in streets or driveways.

Reserve School Names Staff

Staff assignments of the Huntsville Army Reserve Officers School for the 1965-66 academic year are announced by Col. Angelo L. Ferranti, commandant of the facility that is open to all officers of the Army reserve corps.

Lt. Col. Stanley E. Kreger is assistant commandant; Maj. Gerald W. Myers, Adjutant and Supply; WO George A. Butz, Personnel Officer; Capt. Paul Donaldson, Administrative Officer; Lt. Col. John S. Hinkle, Operations Division; Capt. Osceola C. Ashworth and Capt. Elmer F. Hargis, Assistant Operations;

Col. Thomas M. Phillips, Command and General Staff Director; Lt. Col. John T. Black, Robert S. Kinch, Floyd M. Saxton, Cecil E. Varner and Edward W. Bradshaw, C&GS Instructors; Lt. Col. Wickliffe Hendry, Common Course Dept Director;

Lt. Col. John F. Heath and William B. Baker, Common Course Asst Dept Directors; Lt. Col. Robert M. Langley and Robert C. Lowery, Majors James F. Nixon, Jr. and Wesley R. Swift, Common Course Instructors; Capt. R. A.

Burdett, Jr., Common Course Instructor at Sheffield; Lt. Col. John A. Hauth, Artillery Instructor; Maj. Leo W. Jex, Air Defense Instructor;

E-7 Loui J. Barnes, Jr. and Robert H. Labbe, Administrative Supervisors; E-7 William W. Kerr and E-6 Samuel C. Hemphill, Supply NCO's;

E-6 George A. Davis, Jr., Chief Clerk; E-5s James M. Bridges, James D. Gillespie, Carl R. Reed and E-4's Johnny R. Barron and William A. Richards, Administrative Specialists; E-5 James T. Vann, Illustrator and E-3 Jerry A. Nabors, Film Library Specialist.

These assignments complete the organization for the 1965-66 school year and the school is expecting the largest enrollment in its history. There is every indication that the school may become the largest of its kind in Alabama, Col. Ferranti said. The school is open to all reserve officers in the area. For any additional information, contact Mr. Howard Cornelius at 536-5631 or visit the Reserve Training Center at 1218 North Meridian Street.

SCOUT LEADERSHIP SEMINAR—With record attendance of 135 from nine North Alabama counties, the 1965 annual leadership seminar of the Tennessee Valley Council of Boy Scouts of America was held at the Army Ordnance Guided Missile School last weekend. Here Frank Miller (left) of Huntsville checks training booklet with Louis Weed of Decatur (center) and John Becton of the local Scout office.

Scout Meet Is Termed Success

The largest attendance in several years marked the annual leadership seminar of the Tennessee Valley Council of the Boy Scouts of America held at the Army Ordnance Guided Missile School last Friday and Saturday.

Some 135 Scout leaders from nine North Alabama counties attended the sessions that were designed to train them to direct pack and troop activities throughout the area, according to Lt. Col. Charles R. Richards, OGMS executive officer who served as chairman of the seminar.

The Scout leaders, headed by John H. Goodloe, Council president, and Scout Executive Robert L. Haskins, were welcomed officially by Col. Erwin M. Graham, OGMS commandant, devoted ten hours on Friday and Saturday in detailed discussion of their youth activities.

Fantasy Offers Children Chance To Meet The Cast

Fantasy Playhouse Children's Theatre has introduced a new form for youngsters to meet the principals of the cast for the three plays proposed this season.

Patrons' children will be invited to eat with the cast backstage between performances.

Fantasy also is offering tickets on a family plan at a 25 per cent reduction until Sept. 20. Information can be obtained from the Civic Arts Council or from Mrs. James T. Sawyer, 831-0757. Season tickets cover three productions, Peter Pan, Oct. 9-10; Cinderella, Dec. 4-5; and Sinbad, the Sailor, Mar. 26-27, 1966.

All performances will be at Huntsville High School at 2:30 and 7:30 p.m. on Saturdays and 2:30 p.m. Sundays.

Oct. 19, 1913—First shoulder sleeve Army insignia, known as a "shoulder patch," depicting a wildcat in a circle was authorized for 81st Division.

CHIEF ENGINEER VISITS MISSILE CENTER—The newly appointed Army Chief of Engineers was a recent visitor at Redstone Arsenal. He is Lt. Gen. William F. Cassidy, shown here conferring with Col. I. O. Drewry, Nike-X Project Manager. General Cassidy also talked with Maj. Gen. John G. Zierdt, Commanding General of the Missile Command, and officials of the Marshall Space Flight Center. Accompanying him on the visit were Maj. Gen. George H. Walker, Division Engineer for the South Atlantic Division of the Corps of Engineers; and Col. Andrew P. Rollins, Deputy Director of Military Construction in the Office, Chief of Engineers in Washington.

ZERO DEFECTS

(Continued From Page 1)

In relating the connection between the military and athletic need for zero defects, Coach Bryant said, "In my business, just as in yours, we can't afford to make mistakes . . ."

Bryant placed emphasis on the need for team effort. When the game is underway, he said, every man must do his assigned job accurately and on schedule — and each must do his job right the first time.

Adding a light note to his talk, the popular Alabama coach referred to the first game of the 1965 season for the Crimson Tide. This will be played Saturday against the University of Georgia. "I won't predict how the season is going to turn out. I will say this, that we'll win those games in which we have Zero Defects."

Zero Defects and the soldier was the basis on which Army Capt. Roger Donlon discussed the program. The hero of Vietnam — the only Medal of Honor winner since the Korean War—described how quality material was depended upon to help his small force beat back and defeat a massive night attack by Viet Cong.

When the attack started, the Captain related, he gave his communications sergeant the first of what he thought would be a series of continuing messages to higher headquarters. As it turned out, however, Capt. Donlon had only one minute to get word of the attack out on the radio, and then the radio shack and equipment were destroyed by a direct hit.

He pointed out that had there been any difficulty in getting his radio equipment, to work there was a probability of defeat. The victory, however, was won by quality men who built quality material for quality soldiers.

Industry's spokesman for the meeting was G. T. Willey, vice-president and general manager of Martin/Orlando. His company is prime contractor for the Pershing missile and the pioneer in Zero Defects.

As an authority in the field, Willey told of the great need for employee participation and enthusiasm if a Zero Defects program is to be successful.

In describing Zero Defects in action, the Martin official said that there is a need for the individual to regain a sense of craftsmanship. The needs of national defense and the challenge of the missile age provide the incentive.

The rewards of the Zero Defects program go to government, industry and the individual. By doing the job right the first time, a worker provides a savings in hardware defects that is felt up and down the procurement line.

The matter of craftsmanship is based on the voluntary aspect of zero defects. Each worker sets his own standard for quality and achieves it. It is this self-satisfaction that makes the program go.

In addition to the short talks, the program included entertainment by the U.S. Army Field Band Chorus of Ft. Meade, Md., and by

ONE DRIVE

(Continued From Page 1)

those of previous years. Each of the fund raising agencies involved must approve of the single drive before it can be undertaken.

This approval was received this year, but if the results fail to come up to the usual high standard at Redstone, it is doubtful if these agencies will sanction another such drive next year.

"If this should happen," according to the drive chairman, "we will have to go back to the spring and fall drives of other years."

During the past 12 months over \$250,000 has been donated by Redstone personnel to the support of the fund-raising agencies for which the appeal is made.

Last fall over \$230,000 was turned over to some thirty UGF agencies in northern Alabama and southern Tennessee localities. This spring the National Health Agencies received \$14,000 and the International Welfare Agencies realized \$8,000 from the Joint Fund drive.

There will be no monetary goals set for the campaign this year and there will be no Fair Share allotments established for the individual contributors.

"Our only suggestion," according to Brockman, "is that every person participate in the drive to the extent that they desire. If everyone gets behind the drive in this way we will have accomplished our objective."

In an effort to attain this end, the members of the Executive Committee for the campaign and the various agency chairmen are conducting an educational program to explain the aims and objectives of the drive as well as the campaign procedures to all personnel.

In addition to Brockman, the members of the Executive Committee that was designated by Gen. Zierdt to conduct the drive are, Charles Hallman, OGMS, William Callahan, Nike X, Edith Gibbs and Leonard Twinem, Supply and Maintenance, and Al LaGrone, Marietta Graves and William Jasper, all of the Support Command.

The agency chairmen were designated by their individual organizational chief and will be responsible for conducting the drive within their own unit.

They are: Lt. Col. Charles Richards, OGMS; Maj. W. A. Shunk, Nike X; Guy Piercy, Support Command; Roy Pugh, Research and Development; L. M. Wheat, Procurement and Production; Howard Crumrine, Supply and Maintenance; Edward Michael, Quality and Reliability Management Office; B. A. Ingram, Air Defense Fire Distribution Systems Office; Abner McNaron, Comptroller and Director of Programs; James Williams, Missile Intelligence; Arthur E. Tarwater, Air Defense Systems; Robert Malone, Land Combat Systems, and Robert Lowery, MICOM Headquarters units.

Some Purchases Cannot Be Stored On Shelf

Sara W. Jones can't walk into an Army warehouse somewhere and pull out a sample of the kinds of things she buys for the Army Missile Command.

But she can tell you in detail the ramifications of negotiating a contract for studies of re-entry physics and propellant research to mention a couple of the kinds of complicated actions that come across her desk.

Sara is one of the few women who are contract negotiators (her official title) at the Missile Command Procurement and Production Directorate. She's been in the procurement business most of the time since she first went to work in 1941 at Milan Arsenal, Tenn.

The things she bought at Milan didn't have such "far out" titles as those she works on today. There she was concerned with ammunition supply—the support services for ammunition production lines such as safety shoes, packing cases, ammo components, uniforms for line operators, lumber, chemical and paint products.

At Redstone, where she's been working since 1956, she negotiates contracts for research and development work. "I start talking to the technical people as soon as they have an idea for a new project so I'll understand step by step what they will need eventually. When they reach the stage where they want to go out for proposals from interested contractors, I'm ready to put their package together in the proper technical and contractual language," she said.

The most exciting time on her job, Sara feels, comes when the resulting proposals are received from the contractors. "It's like opening a Christmas package," she commented with a twinkle. "We're eager to see what they offer, how they propose to accomplish the required work, their capabilities and financial status, and how much it is going to cost."

The next step is getting the cog-

nizant people together for an evaluation of the proposals and decide which should receive contracts.

"Our intent, of course, is to see that the award is made to the best advantage of the government, cost and other factors considered," Sara continued. "Award of R&D contracts may be influenced by the proposal which promises the greatest value to the government in terms of possible performance, growth potential, and other factors rather than the lowest probable cost."

The contractors appreciate her thoroughness and thoughtfulness in their association with her. She says, "I try to explain the organization of the Missile Command, and the Procurement and Production Directorate down to my own office so they will understand how we all work together. Those who are doing their first government business are often confused as to who is who and what is what."

As described by other Missile Command people who do business with her, Sara is extremely fair and knowledgeable. She reached her present enviable position through hard work and close attention to necessary minute details.

Hobbies? Sara's are music and little league baseball. She's the pianist for the Junior 9's (nine-year-old boys and girls) at the First Baptist Church in Huntsville, and the baseball interest is fostered by her 11-year-old son, George.

Sara's husband is employed at the Post Engineer, Army Missile Support Command. Both were originally from Gibson, Tenn., near Milan.

A Series E United States Savings Bond, purchased in September, 1941, at the cost of \$18.75, today has a value of \$39.13 and is continuing to earn interest at the rate of 3 3/4 per cent compounded semi-annually.

MANY STEPS—Sara W. Jones, a contract negotiator in the Army Missile Command Procurement and Production Directorate, returns to her office with a contract after consulting with other elements of the Command concerned with the service covered by the award.

Former Redstone Aviator Decorated For Gallantry

Being a hero is never a matter of choice, a truth attested to by Maj. Harvey E. Stewart, former staff member at the Aviation Branch of the U. S. Army Missile Support Command at Redstone Arsenal and he has just recently come back from duty in Viet Nam.

The Major has received the Soldiers Medal, the highest military honor awarded for non-combat gallantry for his part in the helicopter rescue of two Vietnamese from the South China Sea.

Maj. Stewart commanded an aviation company in Viet Nam and flew 700 missions, a record for a company commander. He and his men were in several major actions, among them the fighting at Bien Hoa and Dung Xoai. At Dung Xoai, his helicopter was so badly shattered by ground fire that it was scrapped. He wears a Purple Heart Medal with Cluster for wounds he sustained in two actions, and has been awarded 21 clusters to the Air Medal he earned in Korea. He has been recommended for the Distinguished Service Cross, the Silver Star in two actions, the Distinguished Flying Cross and two

Legion of Merit awards. The Major is humble about the fantastic number of missions and his narrow escape when he had only a skeleton of a helicopter and no instruments to guide him after anti-aircraft fire struck his ship. He says, "If you haven't learned to pray beforehand, it's too late on that last, long glide."

One of the reasons his company was able to accomplish so much, he explains, is that they had the equipment and the support of a maintenance unit on hand. The maintenance crew kept the helicopters in top flying condition and the twenty-five assigned pilots kept them going. Maj. Stewart said, "It makes a difference when the maintenance crew is right there and belongs to you. You don't have to wait in line until someone from another unit gets around to doing the work. You say, 'Have it on the line at 0800 and it is there.'"

The dedication of the men in the Company is reflected in their log books. They set a record of 2609 hours flown in one month in the HU-1 (Huey) helicopter. The next highest activity logged in the Army during the same period was at Redstone Arsenal which regularly averages the heaviest traffic on any Army Airfield.

The Major was the Deputy Chief of the Aviation Branch here from 1960 through 1963 when he was reassigned to the Command and General Staff College. That was his last Stateside assignment before he went to Viet Nam.

His family remained in Huntsville. The Major is a native of Talladega, Ala., and a graduate of Jacksonville State College. His wife is the former Miss Travis Stricklin of Oneonta, Ala. Maj. Stewart received his commission in the Reserve Officers Training Program and was integrated into the Regular Army in 1956.

While his father was in Viet Nam, 13-year-old Randall Stewart

MAJOR HARVEY E. STEWART

decided to become an Eagle Scout. He made the rank in time for his father to witness the award on his return to Huntsville. The youngest member of the Stewart family is Randy's sister, Melissa.

The Major's next assignment will be with the 9th Field Artillery Missile Group at Fort Sill, Okla. On this assignment, his family will go with him. After a year in his basic branch of artillery and missiles, he expects another assignment as an Army pilot.

U.S. Forest Ranger Graduates At Top

A former U.S. forest ranger turned missile man was high man among 11 graduates who received certificates Friday from the Army Ordnance Guided Missile School.

Pfc. Kenneth A. Lindstrom, 24, of Miloca, Minn., scored 90.1 in the Hawk internal guidance and launcher electronics course.

The graduates heard Lt. James A. Gust of the School's department of individual training stress the need for "zero defect" approaches to missile maintenance. CWO Victor H. Napier of the Nike Branch, DIT, was master of ceremonies.

Pfc. Lindstrom is a graduate of St. Cloud State College in Minnesota.

Radio Corporation Gets \$7.7 Million MTE Contract

The Army Missile Command today announced the award of a \$7.7 million definitization contract to Radio Corporation of America as part of its MTE program to find a single test and repair system able to service several future land combat missile systems.

Earlier this year, \$3.7 million of the \$7.7 million award was announced as a letter contract.

Work on the Multi-system Test Equipment contract will be performed at the company's Aerospace System Division in Burlington, Mass.

MTE is directed from the Missile Command's Land Combat Commodity Office, of which Col. C. D. Sterner is manager.

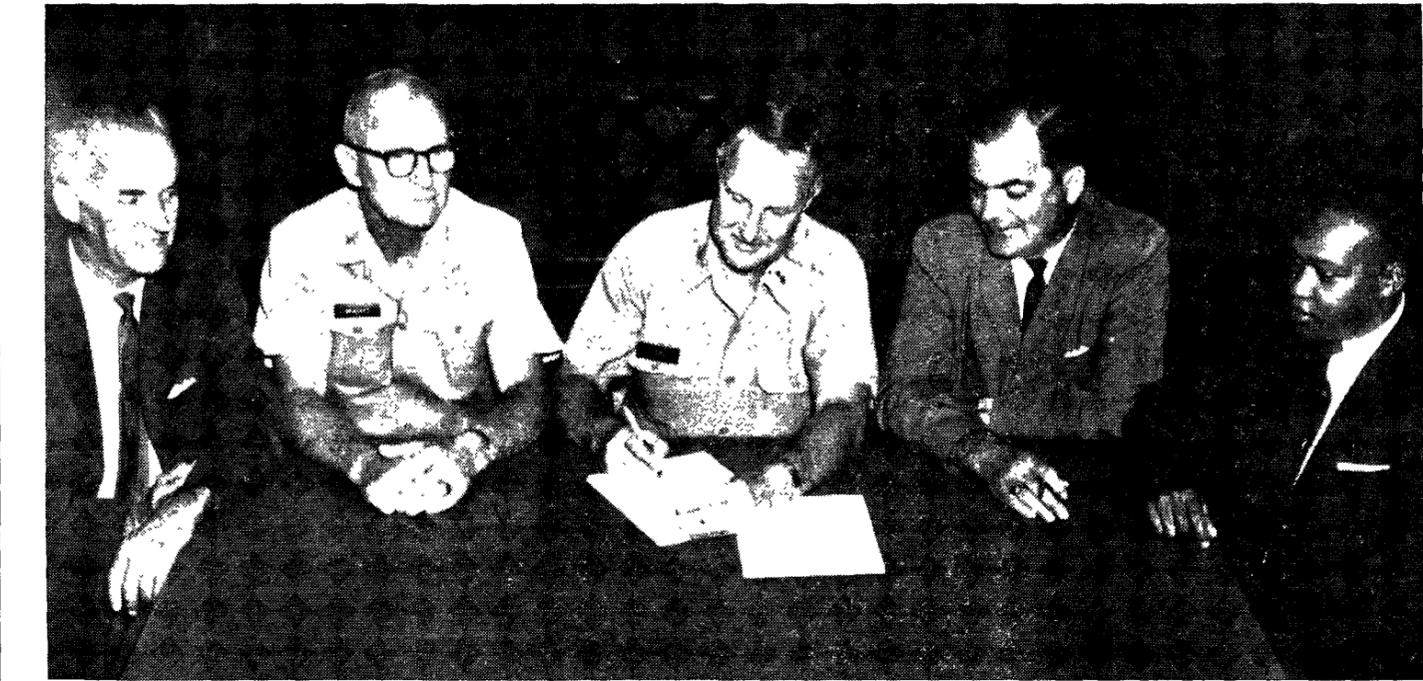

The contract was negotiated by the Procurement and Production Directorate of the Missile Command.

AUSA Officers Named To Represent Local Post

Dr. Frederick S. Schultz, president, and Lt. Col. William T. Weissinger (USA, Ret.) first vice president of the Tennessee Valley Chapter of the Association of the U.S. Army were named last week to represent the chapter at the Third Regional Conference this week and at the national convention next month.

Action was taken at the first dinner meeting held by newly elected officers and directors since they were installed in July.

The Third Regional Conference is being held 16-17 Sept. at Third Army headquarters, Fort McPherson, Ga. The AUSA national con-

SIGN UNION CONTRACT—Col. Thomas W. Cooke, Commander of the U. S. Army Missile Support Command, signs the contract between the Army-Air Force Exchange and the American Federation of Government Employees Lodge 1858. At left is James V. Adair, General Manager of the Exchange at Redstone, and Col. George Meaders, chief Army negotiator. Left of Col. Cooke is Dennis Garrison, National Vice President of the AFGE who worked

as the AFGE chief negotiator, and Robert Winn, a vice president of the local lodge and representative of the Exchange employees at Redstone Arsenal. Points of the contract include policy, practice, procedures and working conditions and will now be reviewed for acceptance in Washington. It is believed that this is the first contract between the Army-Air Force Exchange Service and a national union under Executive Order 10988.

Doubtful Air Hangs Over Unit Level Touch Football

An apparent early lack of interest has thrown a crimp into plans for a Unit Level touch football league on the Arsenal this fall. By the end of last week only three units had indicated their intention of fielding a team.

While it is expected that several more organizations will answer the opening bell, their delay in sign-

ing up has moved the start back a couple of weeks already. It is hoped now to get the league in action on Monday, Sept. 27.

With regular football off the fall schedule this year, the Special Services office substituted touch football in the interests of attracting more participants.

However, according to Sgt. Lyles of the Sports staff, several more teams will have to indicate their

James O. Johnson, special events; John E. Hatch, Jr., OGMS; Earl J. Dotson, annual meeting.

Informal correspondence from the national headquarters indicated that the local chapter has become the largest in AUSA but formal announcement is awaiting a detailed report from all chapters.

Oct. 11, 1954—The first class of the Army Supply Management Course (later designated the U. S. Army Logistics Management Center, an Army Materiel Command activity at Fort Lee, Virginia) opened with 34 students. Principal speaker was the Hon. Frank H. Higgins, Assistant Secretary of the Army (Logistics and Research and Development).

vention will meet at the Sheraton-Park Hotel in Washington, D.C. Oct. 25-26-27. The chapter's secretary-treasurer, Jack R. Altherr, will also attend the Third Army meeting.

Dr. Schultz announced the following appointments to committee chairmanships for the 1965-66 season: W. T. Weissinger III, program; Vance J. Thornton, membership; Reavis O'Neal, Jr., information; Carl J. Leary, awards; A. A. Stewart, finance; Karl Woltersdorf and W. T. Weissinger, West Point; Col. Edward D. Mohlere, public affairs; Maj. Gen. John A. Barclay (USA, Ret.) nominations;

intentions to compete before a schedule can be arranged.

Meanwhile Lyles is going ahead with a rules clinic for prospective officials for both touch football and youth football. He said that the transfer of several officials has created a problem which can be erased only through the location of a number of volunteers who will serve the program in this capacity.

Military personnel who would like to serve as football officials are asked to contact the Special Services office as soon as possible.

SELF MOTIVATING Management Techniques

The self-motivating abilities of management people CAN be developed; in turn these abilities generate initiative, drive and cooperative spirit. Specific objectives are easier to define, and the effect of the benefits may be traced to greater efficiency and production.

The Dale Carnegie course helps develop these traits, to find out how individuals and companies may benefit.

DALE CARNEGIE

Plan to attend an Exploration Seminar at the **King's Inn Motel** N. Memorial Parkway **TUESDAY, SEPT. 16th - 7 P.M.**

GENERAL GOES TO KINDERGARTEN—The Commanding General of the Army Missile Command, Maj. Gen. John G. Zierdt (right), and Col Thomas W. Cooke, Commander, Missile Support Command, dropped in Monday for a visit at the Redstone Nursery and Kindergarten. Here, Mrs. David Bliss explains some of the work of students in her class.

DR. ALBERT KLAS VISITS MISSILE SCHOOL STUDENTS

Dr. Albert Klas, administrative executive of the Federal Republic of Germany's Embassy in Washington, D. C., visited the German Army and Air Force student detachments at the Army Ordnance Guided Missile School early this

week.

Accompanied by an assistant, Harry Gorn and P. Glock of the Embassy staff, Dr. Klas received briefings on training operations, visited Maj. Gen. John G. Zierdt at his Missile Command headquarters and met with the German administrative staff here. They were escorted by Lt. Cols. Hans W. P. Finck and J. H. Hellmers, German Army and Air Force Liaison officers at the School.

• The U.S. Army War College at Carlisle Barracks, Pa., has welcomed its 50th anniversary class. The school was established in 1904 and has graduated a class of senior officers every June except during the war years. During the 10-month course, the officers from all branches of the Armed Forces are prepared for command and high level staff duties.

For the serviceman on the move:

TWA 1/2 Price Fares.

Here's the way to make your furlough really go places! To qualify, just wear your uniform and show your leave papers, when you buy your ticket and when you travel. You'll go on a standby basis and keep half the regular Jet Coach fare.

For the service family on the move:

TWA Family Style Fares.

With TWA's new Family Style Fares, three can fly for the cost of two. Six for the cost of three. The larger your family, the more you save—up to 50%! Here's how it works:

- Only the head of the family (husband or wife) pays full fare, for travel between Monday and Friday noon. Then—
- Other parent (or first child 12 through 21) saves *one-third* the regular fare.
- Each additional child 2 through 21 saves *two-thirds* the regular fare. (One infant under two years flies free with the family.)
- Reservations are confirmed—no need to stand by.

What's more, TWA has frequent departures from Nashville and Atlanta to destinations throughout the U.S. And Redstone Arsenal personnel enjoy all the usual Jet Coach features, including fine meals and beverages. If you're short of cash, only 10% down lets you fly now, pay the rest later. For more information, stop in at your Base Airline Ticket Office (JAMTO). Or call your nearest TWA office.

Nationwide...Worldwide...depend on

TWA

All fares plus tax.
Family Style is a service mark owned exclusively by Trans World Airlines, Inc.

C.I.T. knows that you don't enjoy borrowing money.

(That's why we give
you such fast service.)

Don't ever think we're rushing you through when you stop in at C.I.T. for a loan to pay bills . . . to travel . . . or meet personal problems. The reason you'll find us handling your application so fast is this: We've learned that people don't come to us when they need sympathy. They come to us when they need money. So expect speedy money service when you come to see us about your loan. (There are over 400 C.I.T. offices from coast to coast where you'll get the same zippy service.)

SOCIAL ^{and} CLUB EVENTS

At The Service Club

By BETTY HAYES

The days in September are passing rapidly, and it won't be too long before preparations will be made for Thanksgiving, Christmas, and New Year's programs. Wait a minute—let me back up and tell you about the programs which are scheduled this week. Plans for the holiday seasons will be in this column in the weeks to come.

Travel with us to fascinating places near and far when travelogues are shown tonight at 7 p.m. Everyone has enjoyed these films so much that we have decided to show them Wednesday evenings in October as well as this month.

If you haven't signed up for the ice skating party yet, stop by and add your name to the list on your next visit to the Service Club. Meet here on Thursday evening at 7 p.m., and we will go to the Ice Palace as a group.

Table tennis and chess are the contests for this week. The table tennis games will begin Friday at 8 p.m., and the chess contest starts on Saturday at 7 p.m. The more who enter the bigger the prizes.

Hot coffee and donuts will be served on Sunday morning at 9 a.m.

Dance to your favorite records on Sunday evening at 8 p.m.

On Monday, September 20, an evening of games will be played in the main lounge at 8.

Bridge night is one of the most popular activities. Join us on Tuesday night at 7 in the little lounge.

Melvin Martinez, Co. B, had the lucky service number for September.

Friday evening the Fall and Winter Fashion Show will take place. Check this column for more information on this event.

See you at the Service Club.

Quality Control Group To Meet

The Huntsville Section of the American Society for Quality Control will meet Monday, Sept. 20, at 6:30 P.M. at the Redstone Officer's Open Mess.

John H. Patterson, Deputy Director of Quality Assurance, Defense Supply Agency, Detroit Region will present a "Project 60 Status Report." Project 60 is the Defense Supply Agency's name for the nation-wide implementation of government inspection, quality assurance, and reliability.

Patterson is a member of ASQC and the AOA.

Smock Elected Delegate For Instrument Society

Robert Smock, chief of the Standards Engineering and Evaluation Laboratory, Metrology Center, has been elected National Delegate to the Huntsville Section, Instrument Society of America, for the 1965-67 term.

Smock has been an active member of the ISA for six years and previously held the offices of vice-president and treasurer for the Huntsville Section. He has been in Government Service for 19 years and holds an AB degree in Physics.

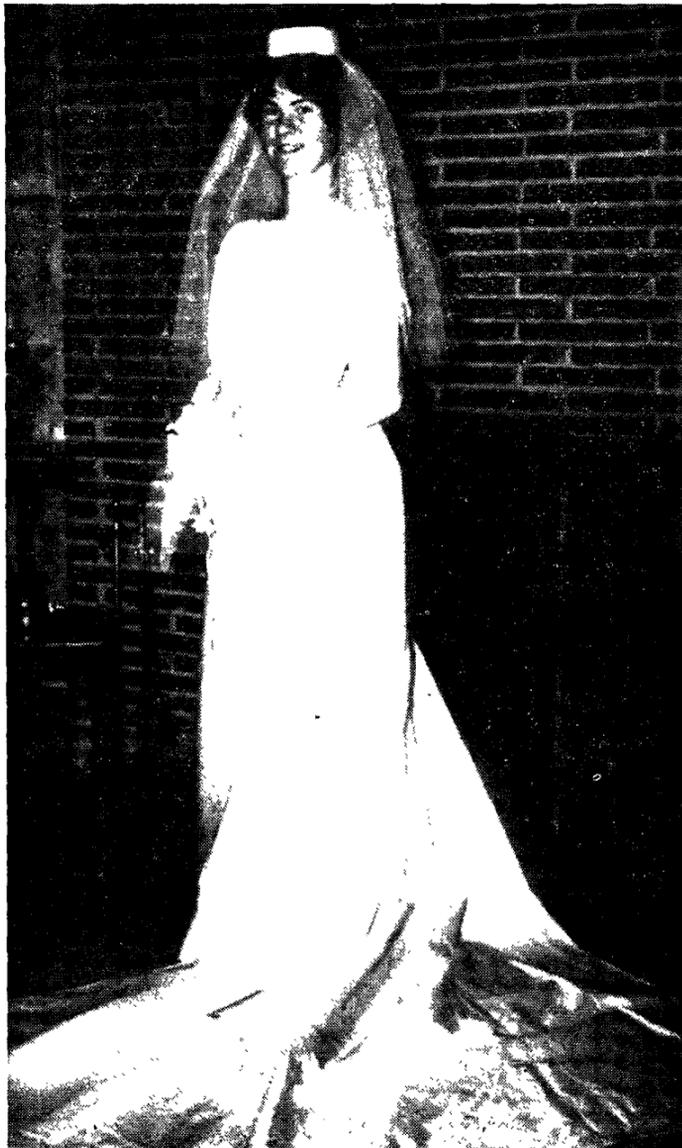

The concentration of aerospace and missile engineering work associated with NASA and the Army Missile Command in Huntsville has resulted in the local ISA Section being the largest in the Southeastern District. Its present membership is approximately 150 persons.

Births At Post Hospital

Sept. 5, a son to Sp4 and Mrs. J. C. Moore.

Anthony Paul Pomerleau, Sept. 5, son of Sp5 and Mrs. Raymond H. Pomerleau.

Patricia Maria Kutzsche, Sept. 6, daughter of SSgt and Mrs. Frank

Mrs. William J. Roberts
MARRIED SATURDAY

Miss Julia Ann Eifler Is Bride Of Mr. Roberts

Miss Julia Ann Eifler, daughter of Brig. Gen. and Mrs. Charles William Eifler, was married Saturday afternoon to William Joseph Roberts, son of Mr. and Mrs. William J. Roberts, West Wyoming, Pa. The double ring ceremony in the Redstone Arsenal Post Chapel was performed by Chaplain Richard L. Andrist. A reception followed at the Redstone Officers' Open Mess.

The bride, given in marriage by her father, wore a full length bridal gown of peau de soie. The bodice and front panel of the skirt were appliqued with Alencon lace and accented with crystals and seed pearls. The batteau neckline extended into traditional pointed sleeves. The Empire silhouette was complemented by a detachable chapel train. Her elbow length tiered veil of silk illusion was held in place by a pill box of peau de soie. She carried a bouquet of white roses, lilies of the valley and tuberoses.

Miss Mary Elizabeth Eifler, sister

E. Kutzsche.

Hilda Mercedes Rodriguez-Mercado, Sept. 5, daughter of 2/Lt. and Mrs. Jose Ramiro Rodriguez-Mercado.

of the bride, was maid of honor. The bridesmaids were Miss Carol Roberts, the bridegroom's sister, and Mrs. Eugene Bratton. They wore gowns fashioned on Empire lines. The bodices were royal blue

Mrs. Scott, Mrs. Boyes Tie In Bridge Tournament

Mrs. R. U. Scott and Mrs. John H. Boyes tied in bridge competition at the Redstone Officers Mess Thursday during play sponsored by the Redstone Arsenal Officers Wives Club.

In second place was Mrs. W. R. McCullen. Mrs. Peter Kostoff came out low among the nine tables.

Mrs. Kostoff and Mrs. Raymond Astor handle reservations to play with the group.

Chemical Engineers To Meet In Decatur

A meeting of the North Alabama Section of the American Institute of Chemical Engineers will be at the Crescent Motel in Decatur, Sept. 21, at 6:30 p.m.

For the first meeting of the season, a technical program is not planned. Instead, the guest speaker will be Flip Timberlake, who will present a comedy autobiography. Timberlake is a Decatur resident and is employed by the City Water Department.

Reservations deadline is noon Monday, Sept. 20, with J. L. Murphy, Jr., of Thiokol Chemical Corporation, 876-9292.

brocade, and the full length blue crepe skirts had panel trains. Royal blue Chanel bows with nosetip veils of silk illusion completed their attire. They carried bouquets of yellow roses and white mums.

Don Harrigill was best man. The ushers were Charles Eifler, brother of the bride, Richard Roberts, the bridegroom's brother, and Lt. Eugene Bratton.

Mrs. Eifler wore a blue lace suit with white accessories and the bridegroom's mother chose a green lace dress with matching accessories. They both wore white rose corsages given by the bridegroom.

For their wedding trip, the bride was dressed in a turquoise suit with black accessories and the white rose corsage from her bridal bouquet. The couple will reside in Atlanta, Ga. The bridegroom will be a graduate assistant in Physics at Georgia Institute of Technology while he studies for an advanced degree.

BRAZILIAN VISITORS TOUR—Huntsville Council for International Visitors and the U.S. Coast Guard joined forces aboard the repair ship "Osage" to entertain 20 Brazilian military officers visiting the U.S.A. under State and Defense Department auspices. They spent Sunday and Monday of this week at Redstone Arsenal.

CITATION FOR CANADIAN—Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command, awarded a Certificate of Achievement to Canadian Maj. Ronald H. Duke on the latter's leaving Redstone Arsenal. For the past two years, Maj. Duke served as Leader of the Canadian team integrated into the Mauler Project and also served the past two months as Canadian Liaison Officer to the Missile Command. He returned to Canada this week for reassignment.

Second Brazilian Group Tours Here

A visit to the three major organizations on Redstone Arsenal was one of the highlights this week for 18 Brazilian officers from the Corps of Engineers School in Rio de Janeiro.

The visitors were guests of the U.S. Army and on Monday toured the Army Missile Command, Army Ordnance Guided Missile School and National Aeronautics and Space Administration's Marshall Space Flight Center.

They saw the Huntsville Jaycee Fair Saturday night after a catfish and hush puppy dinner. On Sunday's schedule was a cruise up the Tennessee River to Guntersville Dam in a Coast Guard boat.

This was the second delegation of military officers from Brazil to visit the Arsenal during the past month. In August, 80 officers and students of the Brazilian War College were here on a tour sponsored by the U.S. Department of Defense.

The Huntsville Council for International Visitors handled local hospitality.

Personnel Group To Hear Panel Of Educators

A panel of Huntsville college educators will feature the first fall meeting of the local chapter of the Society for Personal Administration.

The dinner meeting will be held at 6:30 p. m. Tuesday, Sept. 21, at the Redstone Officers Open Mess.

Participating on the panel will be Dr. Richard D. Morrison, president of Alabama A & M College, Elder A. V. Pinkney, president of State Vocational Technical School.

W. R. Jasper, Equal Employment officer for the Army Missile Support Command, will be moderator.

John Hinkle, Chief of Development and training Division of the Civilian Personnel Office, Missile Support Command, is this year's president of the Society.

RESERVES TO PICNIC

Edwin S. King, president of the Huntsville Chapter of the Reserve Officers Association, announced a chapter picnic at 4 p.m. Sunday afternoon at Redstone's Tennessee River Picnic Area. The area is near the Saturn barge dock. Information on picnic arrangements may be obtained by calling Jack Edgar, 534-9866, Harold Wright, 538-5596 or Ed King, 536-6186.

MAYOR GLENN HEARN

Mayor Hearn Will Address Accountants

Huntsville Mayor Glenn H. Hearn will be the featured speaker at the September meeting of the Huntsville Chapter, Federal Government Accountant's Association September 16, at 6 p.m., at the Redstone Officers Open Mess. The subject of his talk will be "City Government."

Mayor Hearn will be introduced by Huntsville City Councilman Abner C. McNaron, a member and a past president of the Chapter. This first meeting of the new year has been designated ladies night, and all wives are especially invited. Members and Prospective members are requested to contact Walter H. Parker, Chairman of the Attendance Committee, 876-1451 or 881-0393 for reservations.

Civilian Investigators To Be Hired By 3rd Army

HEADQUARTERS, THIRD U. S. ARMY, Ft. McPherson — It has been announced by the Department of the Army that twenty-seven civilian investigators will be hired for duty in the Third US Army area by the United States Army Intelligence Command. The Command, with headquarters at Ft. Holabird, Md., performs all security investigations and most of the counter-intelligence services within the United States for the Department of the Army.

The investigator jobs range in grade from GS-7 (\$6050. a year) to GS-11 (\$8650. a yr). Applicants are required to have at least three years general experience and varying amounts of training or specialized experience in investigative work.

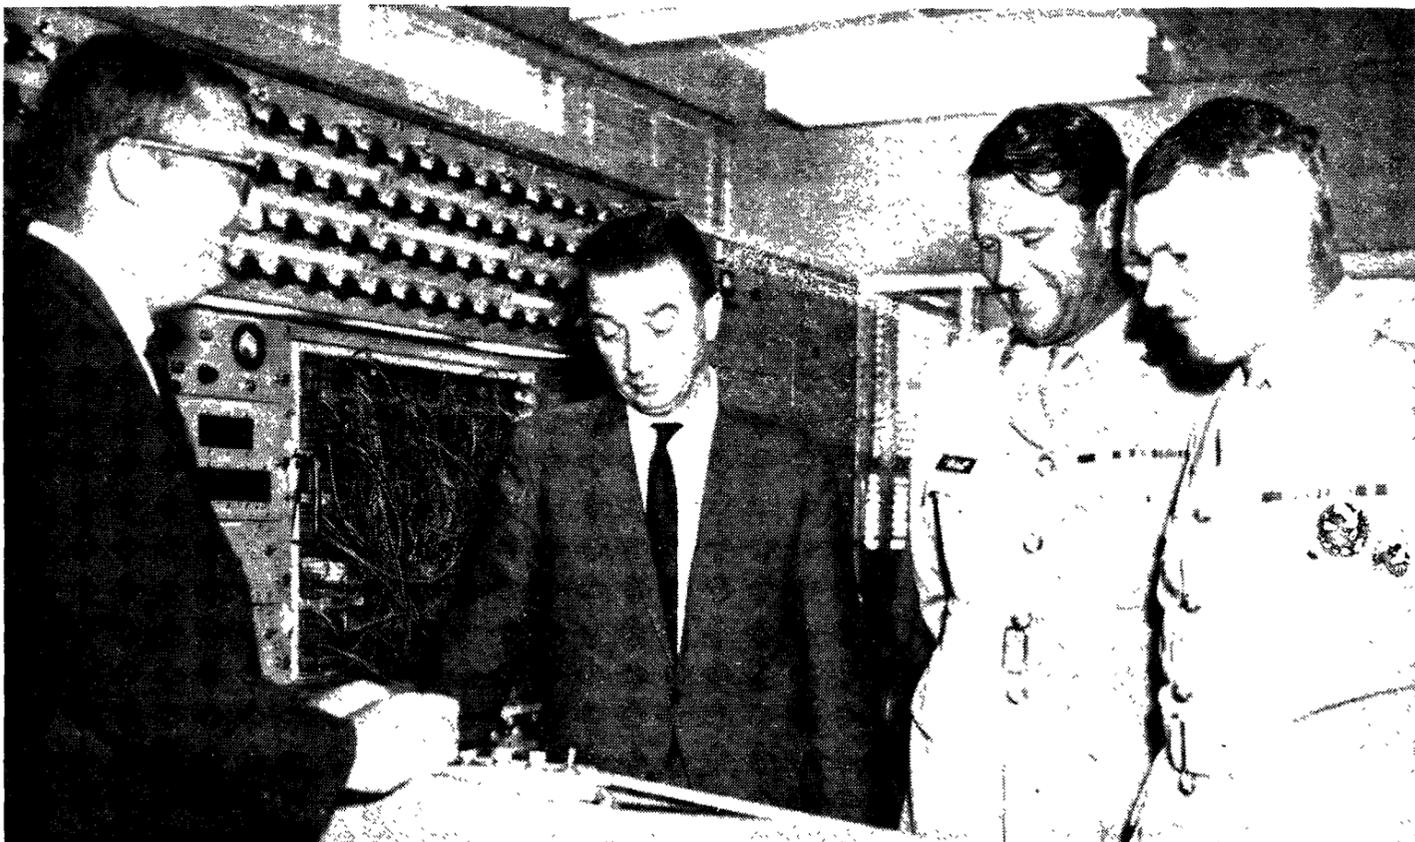

The positions will be located at Ft. McPherson, Ga., Ft. Benning, Ga., Ft. Campbell, Ky., Ft. Bragg, N.C., Ft. McClellan, Ala., Ft. Rucker, Ala., Ft. Gordon, Ga., Ft. Jackson, S.C., Miami and Tampa, Fla., Memphis, Tenn., and Birmingham, Huntsville and Montgomery, Ala.

Individuals interested in employment as investigators should complete Standard Form 57, Application for Federal Employment which may be obtained at any Post Office.

Applications must be received no later than Sept. 20 at the office of the Chief, Third US Army Central Civilian Personnel Office, Ft. McPherson. This office is coordinating the recruitment for the investigator positions in the Third US Army area.

Two P&P Men Honored By Associates

Almost a hundred Procurement and Production employees gathered at the Officers Open Mess last Thursday for an Appreciation Dinner for Kelley Prady and John White.

The two Assistant Directors recently traded jobs in the Directorate with Prady taking over Support Operations and White moving to Systems Operations. Both are veteran Federal employees and each has had considerable experience in the procurement and production areas of Army missiles and rockets.

Col. B. A. Saholsky, director, and his deputy, Paul Schaeppi, each spoke briefly in recognition of the honorees. Other speakers on the program were Lt. Col. S. W. Tyler and Curtis Williams.

Raymond Werden was master of ceremonies and the band of Sgt. Gene Lewis played for dancing after dinner.

BRIG. GEN. FINN IS SECURITY HEAD

Brig. Gen. John M. Finn, former Chief of Staff, 1 Corps, Korea, has been assigned to headquarters, U. S. Army Materiel Command (AMC) effective Oct. 11. In this new assignment he will assume the position of Chief, Mutual Security Office, replacing Major General Clarence C. Haug, who was recently assigned to U. S. Army Pacific.

A 1938 graduate of the United States Military Academy, Gen. Finn was assigned to the Military Assistance Advisory Group, Viet Nam as advisor to the Secretary of Defense, Viet Nam in 1955. He remained in that assignment for 26 months.

During World War II he participated in the Aleutian, Kwajalein, Leyte, and Okinawa campaigns. He holds the Silver Star with two Oak Leaf Clusters, the Bronze Star, the Purple Heart, Army Commendation Ribbon with Oak Leaf Cluster, and the Legion of Merit.

A graduate of the Army War College and National War College, Gen. Finn's other key assignments include: Student in the first class of the NATO Defense College, Paris, France; Operations and training Officer, J3, Allied Land Forces Central Europe, Fontainebleau, France; Chief of Staff, 9th Infantry Division, Fort Carson, Colo. and Chief of Staff, U. S. Army Ryukyus, Okinawa.

Oct. 30, 1781—Maj. Gen. Benjamin Lincoln was appointed Secretary of War. This office replaced Board of War and Ordnance and constituted the second step in the evolution of the War Defense.

Civilian Bowlers Get Slow Start As New Season Opens

Bowling made a return to the Arsenal recreational program last week as two of the four civilian employee leagues opened their seasons on downtown lanes. The other two civilian loops and all of the military leagues are set to open their seasons this week.

Opening night activity for the most part was pretty slow and only a handful of 500 or better totals were turned in each league.

But the over all slow start had little affect on Troy Faulkner who took the occasion to become the initial member of the 600 Club for the season when he put together a 602 set in the Field Services Men's League at the Parkway.

The Army Missile Command League almost had another member of the Club but a slow finish dropped Woody Rush to a 584 total at the Starlite. Rush started with games of 204 and 202 before dropping to 178.

Faulkner roled a consistently strong series with games of 196, 208 and 198 in posting his big series for the Crackers.

Central TV was the only four-point winning team in the Field Services League and the Guided Muscles turned in the best game and series for teams.

Bob Adams and Joe Holub split second high individual honors, each with a 536 total. Adams paced the Central TV attack that also included Jim Haight with a 533 and Mike Shuput with 528.

The Guided Muscles rolled a 987 game and a 2845 set to capture three points. Close behind Holub were Nick Sparks with 531 and Jim Wiswall at 522.

Rush set the pace for the Ramblers which was good for the high totals in the AMC League. The Ramblers posted a final game of 1020 to bring their three-game effort to 2684.

Helping boost the Rambler cause with Rush were Irv Laity with a 538, including a 218 game,

Plan Full Slate Of Fall Activity

Soccer, bowling, football and horseshoe leagues are being organized at the Army Ordnance Guided Missile School and some 500 officers and enlisted men have signed up for participation, according to Capt. Luther O. Wickline, athletics and recreation officer.

He hopes to field a U.S. soccer team to compete with squads from the German Air Force, Japanese Ground and Air Self Defense Forces and the Korean Army. Matches are being sought with several regional universities and sports clubs including Georgia Tech, Auburn, St. Bernard College, the Air University, Vanderbilt, Florida State and Lockheed-Marietta, Ga. Intramural matches will be scheduled for the Veterans of Foreign Wars soccer trophy.

Horseshoe pitching has already drawn 14 teams from the School's enlisted training companies.

Lights have been installed on the soccer grounds in the Linton Field sports complex, and practice sessions are now being held several nights each week.

Those wishing to participate in the sports program are asked to telephone or visit Capt. Wickline's office in Building 3481, phone 876-7690.

and Dick Gore with 528.

The second best individual total was rolled by Dick Gill who tossed a 223 game and a 574 set for the Thunderbirds. Howard Roop added a 523 for the same team.

Paul McLin totaled 568 for the Maulers, Ken Champagne had 527 for the TOW Boys and Ken Bell amassed 517 sticks for the Stars.

OPENINGS ANNOUNCED

The U. S. Civil Service Board of Examiners announces openings in two fields:

Announcement AT-35-23 (65) is for librarians beginning at GS-5, \$5000 a year up to GS-9, \$7220 a year;

Announcement AT-35-24 (65) is for inventory management specialist beginning at GS-9, \$7220 a year to GS-11, \$8650 a year.

Arsenal Riflemen Score In Florida

A new season got underway for the Redstone Arsenal small-bore rifle team last week when a three-man team went to St. Petersburg to compete in the Florida State championships.

The three riflemen, all from the Ordnance Guided Missile School, split seven first place and a pair of runner up trophies for their efforts.

The Redstone team was composed of SSOT Adolpho Salazar, SP4 James Chilcat and SP4 Cecil Fain. They were competing against top flight military and civilian shooters from Florida and other southern states.

Included in their awards were the Florida State Grand Aggregate

BOBO STARS . . .

Accountants Rally For Playoff Win

Finance and Accounting will be aiming a knock out blow in the direction of the Pershing Project Office tonight when the two teams get together in the second game of the playoff series to decide the championship of the Civilian Slo-Pitch Softball League.

The game will start at 5:15 on Softball Field No. 2, on Patton Road. If a third game is necessary, it will be played at the same time tomorrow evening.

F&A took the first leg of the playoff series last Thursday evening when they pushed three runs across the plate in the bottom of

the seventh inning for a 13-12 win over the defending champions.

Trailing 12-10 as they came up to bat for their last licks, the Accountants put together four consecutive hits for their winning runs. Roland Brown started the rally with a single, and Dwayne Kidd followed suit. Fred Smith doubled to score Brown and Dave Bobo singled to send both Kidd and Smith scampering home.

Until that time Pershing, led by

the hitting of Phil Owen and Wayne Dahlke had the upper hand, despite a trio of home runs by Elliott Agee for F&A. Owen collected two singles and a home run, while Dahlke connected for two doubles in addition to a homer and drove in seven runs.

Bobo handled the pitching chores in the winning effort while Del Williams took the loss for Pershing.

Henry Almost Perfect In League Opener

A 277 game and a 601 series sparked the opening night activity in the phantom bowling league at the Pin Palace last Friday evening. The league is a 8-team loop made up of Post Engineer employees.

Bill Henry came within two balls of throwing a perfect game in tossing the big 277 game while Bill Klieber put together the 601 total.

Henry ran off eight straight strikes to start his game and then left the eight-pin standing in the ninth frame. He spared, fired two more strikes and ended the game by leaving the six and ten pins.

However, the big game was not enough to give Henry the top total of the evening. His 559 was no better than the 601 put together by Klieber.

championship, the position championship and second place in the prone championship. All of the awards were won in the Marksman classification.

There's a First National Full Service Branch on The Arsenal AT?

Youth Gridders Compete In City

All four of the Redstone Arsenal youth football teams will see action this week in the opening round of play in the Huntsville Parks and Playground fall recreational program.

This will be the first time the Arsenal has been represented in the local football program for youths although the Little League baseballers competed in the early rounds of the national tournament with city teams last summer.

Arsenal youths will form two teams in the 80-pound class, and one team in each the 95 and 110 pound classes.

The teams have been practicing for the past couple of weeks and their coaches report that all of them are ready to go. Sgt. Bob Williams, who will be coaching the 110-pound eleven stated, how-

ever, that he could use a few more candidates for his team.

Sgt. Dave Savage and Sgt. Marv Lucas will handle one of the 80 pound teams and Sgt. Bill Willis and Sgt. Bob Kelley are coaching the other. Specialist Chuck Wimsatt is coach of the 95-pound team with PFC Herman Tate as his assistant.

GOLFERS PLAY IF I'DA

The Golf Group sponsored by the Redstone Arsenal Officers Wives Club held an "If I'da" tournament with Mrs. Russell Sell coming in with low gross followed by Mrs. William Wachslar.

Mrs. E. I. Donley had low net and second place was a three-way tie among Mrs. Gerald Pratt, Mrs. Dean Lewis and Mrs. Wachslar.

NDTA TO MEET

The Huntsville Chapter of the National Defense Transportation Association will meet tomorrow night. The meeting will be at 7:00 p.m. at the Elks Club.

ON SAFETY PROGRAM—(Left to right): Jack Harbarger, Thiokol's Manager Safety; Gatewood Jackson, Travelers Insurance Co.; J. C. Guyton, State of Alabama Department of Industrial Relations; John H. Goodloe, General Manager Thiokol's Huntsville Division; and Col. Thomas W. Cooke, Commander, U. S. Army Missile Support Command.

6 Million Manhours Is Thiokol Safety Record

Ceremonies Thursday at the Huntsville Division of Thiokol Chemical Corporation marked the achievement of 6,000,000 manhours without a disabling injury. The 6,000,000 manhours record, begun on Feb. 7, 1963, was reached on Sept. 1, 1965, and spans a period of 937 days. It ranks among the highest records in the State of Alabama, and is particularly outstanding among the safety records of companies in the propulsion area of the rocket and missile industry. For the achievement, each Huntsville Division employee will receive a special check for \$15.00

from the company. Col. Thomas W. Cooke, Commander, U.S. Army Missile Support Command, told the assembled group, "It isn't the number reached that counts, but what the number means—people not being hurt and the suffering saved them and their families; dollars saved with the definite effect on the company's ability to bid for jobs a little tighter." John H. Goodloe, General Manager, emphasized Col. Cooke's remarks and pointed out that the record is also indicative of the prevention of disabling or fatal accidents to 36 people and of an iden-

tifiable savings of \$828,000. He pointed out that a part of the record showed that for the first eight months of 1965, the Huntsville Division has had only \$183,80 in vehicle accident costs; \$57.00 in fire loss; and \$71.00 in all other accident losses.

Also participating in the program were J. C. Guyton, Department of Industrial Relations, State of Alabama, who presented a Certificate of Achievement from the State; and Gatewood Jackson, Travelers Insurance Company, who presented a plaque commemorating the record.

Congratulatory messages included that of Gov. George C. Wallace, saying, "Such an accomplishment gives me a real conviction that companies such as yours will continue to provide leadership and inspiration to industrial development and progress."

Richardson To Study Management

Charles E. Richardson of the Nike-X Project Office will become the first Army employee at Redstone Arsenal in recent years to attend the 13 week Advanced Management Program held by the Harvard University Graduate School of Business Administration.

Richardson was one of 150 managers chosen nationally to attend the session starting Sept. 12.

The purpose of the course is to prepare middle management personnel for positions in top management.

Richardson was formerly Chief of the Nike-X Test and Range Operations Division. He has been at Redstone Arsenal since June, 1952.

Included in the subjects Richardson will study as a part of the Advanced Management Program are business policy, accounting and financial policy, finance, problems in labor relations and mathematical concepts for decision making.

A native of Aliceville, Ala., Richardson received a degree in electrical engineering from Auburn University. Before joining the Army's missile program he was a partner in a consulting engineering firm at Columbus, Miss.

More To Study Methods To Advance Their Career

Twenty Redstone civilian employees will leave their normal duty stations next week to enroll for advanced training courses in their individual career fields at other military installations or contractor plants.

The Arsenal employees were selected for the off-post training through the career development program administered here by Civilian Personnel's Training and Development Division.

Seven of them, all from the Supply and Maintenance Directorate, will go to Colmar, Pa., to study the Transistor Test Set at the American Electronic Laboratory. Their training will last for one week.

They are Edward Sullivan, Joseph Broyles, James Everhart, Edward Rowen, Richard Wingard, Norman Fleeson and Walter Burch.

The General Electric Plant in Cleveland, Ohio, is the destination of John Hunt of the Research and Development Directorate. He will take the Fundamental Course in Commercial and Industrial Lighting.

Robert Fleagle, also of R&D, is going to the Dugway Proving Ground in Utah where he will study CBR Weapons Orientation. It is a 40-hour course.

Three of the locals will take the Atomic Weapons Advanced Orientation at the Defense Atomic Support Agency at Sandia Base, N.M.

They are James Crawford, of Lance, William Thomas, of R&D, and Harold Zier, who works in the

University Offers Short Radiation Effects Course

A short course in "Radiation Effects on Materials", will be held Sept. 13-17, 1965 at the Huntsville Campus of the University of Alabama.

The course is designed to provide the engineer or scientist with no special background in nuclear physics a broad treatment of the nature of radiation effects in materials. To examine in depth certain practical topics in radiation effects on materials, and to arouse in the qualified engineer or scientist, a sense of proportion to recognize problems in radiation environments.

Prerequisites are: A degree in Science or Engineering or the equivalent will be required of all applicants.

Raymond M. Hollub, Associate Professor of Aerospace Engineering, University of Alabama is coordinating this course at Huntsville.

This course is sponsored by the University of Alabama, and will meet in Room 222 at Morton Hall, starting Sept. 13, at 8.30 a.m.

Nike X Project Office.

Four others are enrolled for training at the U.S. Army Logistics Management Center at Ft. Lee, Va.

James Hunter, of S&M, and Richard Martin, of Sergeant, are taking the International Logistics Management Course, while Harold Yeagan, of Nike X, and Robert Provost, of the Management Science Office, are enrolled for a course in the Use of Computers and Scientific Logistics Management.

Another quarter will take their training right here in Huntsville at Control Technology, Inc. They are enrolled for Digital Simulation, a 40-hour course.

They are Jerry Brookshire, Management Science, Peter Green, R&D, and Billy Gibbs and William Sellers, both of the Computation Center.

TRADITIONAL FIRST—The office of the Army Missile Command's Deputy Commanding General for Land Combat System is traditionally one of the first Redstone Arsenal organizations to reach 100 per cent participation in fund raising appeals. The 1966 Combined Federal Campaign is no exception. Robert Malone, chairman of the Land Combat System drive, held his first training session for the personnel of Brig. Gen. Charles W. Eifler's office last week. He concluded the session by accepting pledges from each of the seven members of the office staff. Pictured here with their completed pledge forms are (left to right): Malone, Lt. Clarence Longcor, Mrs. Robbie Senesac, Mrs. Marjorie Hunter, Col. E. J. McGinnis, Mrs. Louise Julick and Gen. Eifler.
