P&P Directorate Takes A DARE (System)

Automation Eases Print Retrieval

Down through the ages, people have taken dares and lived to regret it, but with the men and women at the U.S. Army Missile Command who handle missile and rocket spare parts this is not the case. Here, the word "DARE" stands for a problem which was tackled and solved, resulting in everyone concerned being better off.

A study of setting up an automated system for storing engineering drawings and later quickly retrieving them was started four years ago. Out of it came DARE—Documentation Automated Retrieval Equipment—which now is being put into operation.

There are 1,500,000 drawings and associated documents of the numerous missile and rocket systems on the line for the Army kept in the Engineering Documentation Division of the Procurement and Production Directorate. Each month, 30,000 new or revised drawings are added to the working file. In the past, each drawing was photographed on 35-millimeter microfilm and the developed film inserted in the "window" of an electric accounting machine aperture card.

When a request for a drawing to be reproduced came in, a clerk went to the numerical file of these three-by-seven inch cards and manually removed the one needed, if it was there. The card was returned to the file after a copy of the drawing was made.

There are approximately 5,000 requests for the copies of drawings every day. These drawings are distributed to bidders, depots and other agencies for ordering repair parts, as well as being used in-house.

Now under DARE, all microfilm aperture cards have been converted to 35 millimeter microfilm chips with coded identifying data on each chip. These three-inch long chips are kept in a master file, (See DARE on Page 2)

Chaparral Firing Test Successful

Chaparral, a U. S. Army air defense weapon system currently under development, has undergone successful guided firings at the Naval Ordnance Test Station, China Lake Calif. The Chaparral is designed to protect forward area Army forces against low altitude air attack.

The Chaparral system utilizes a modified Army self-propelled vehicle (XM548) as a mount for launching the Navy developed Sidewinder IC missile. Using an infrared guidance system and slightly modified for the surface to air application. By maximum use of existing missile and "off the shelf" support equipment the Army is minimizing cost and development time.

Chaparral is under the U. S. Army Materiel Command's In- (See CHAPARRAL on Page 3)

Static Test Men Meet At Redstone

Key officials of a rocket static test group this morning began a three-day meeting at the Army Missile Command to discuss the latest techniques in static testing.

Nearly 100 government and industrial representatives are here for the meeting as part of the Department of Defense organization known as the Interagency Chemical Rocket Propulsion Group on static testing.

Welcoming the conferees was Brig. Gen. C. C. Harvey, Deputy Commanding General for Air Defense Systems at the Missile Command.

Harry Williams, is Missile Command coordinator. The group will assemble and review developments in static testing and will establish (See TEST MEN on Page 3)

ZERO DEFECTS
Now that the excitement of a Zero Defects rally, complete with band, chorus and speakers has died down, The Rocket set out to discover what effect this has had on people who were asked to apply this kind of thinking as a way of life. The results are amazingly uniform. For answers see pages 8 and 9.

Lowery Gets Commendation For Heroism

A U.S. Army Missile Support Command messenger from Decatur, Ala., Robert M. Lowery, has been officially commended by the Department of the Army for displaying heroism in reviving a drowning youth two months ago in Chattanooga.

It was Saturday, August 14, and Lowery was dozing on the edge of the Alamo Plaza Motel pool in Chattanooga as a group of children swam. "Suddenly, I heard a woman scream for help," recalled Lowery, "and I jumped up. I saw this young boy floating in the water."

The youngster was eight-year-old Michael Bowling. He had stopped breathing and was turning black, according to Lowery.

Lowery said it looked to him like the boy was dead, but pulled him out of the pool and started artificial respiration, using the back press method. After a few minutes, the youngster regained consciousness and began to talk to his rescuer. An ambulance crew, which arrived on the scene later, said Lowery's quick action saved the boy's life.

The Commanding General of the Missile Command, Maj. Gen. John G. Zierdt, presented the commendation to Lowery Friday afternoon. Attending the ceremony were Michael's parents, Mr. and Mrs. R. H. Campbell of Birmingham, and his six-year-old brother Jimmy.

Lowery said that he learned how to give artificial respiration during World War II when he was in the (See LOWERY on Page 3)

CHAPARRAL—The U. S. Army's new Chaparral air defense guided missile system is designed to protect forward area Army forces from low altitude air attack. The system consists of a missile launcher and mount. The missiles are carried and handled as a single round of ammunition and will be fired from a turret mounting four launcher rails. The system uses a modified standard Army self-propelled tracked vehicle. The Chaparral program is managed by the U. S. Army Materiel Command's Interim Air Defense Project Manager, Lt. Col. John Peterson. At the U. S. Army Missile Command, Redstone Arsenal, the program is the responsibility of the Chaparral Commodity Office headed by Lt. Col. William Smith.

Combined Campaign Hits 'Crucial Stage' Here

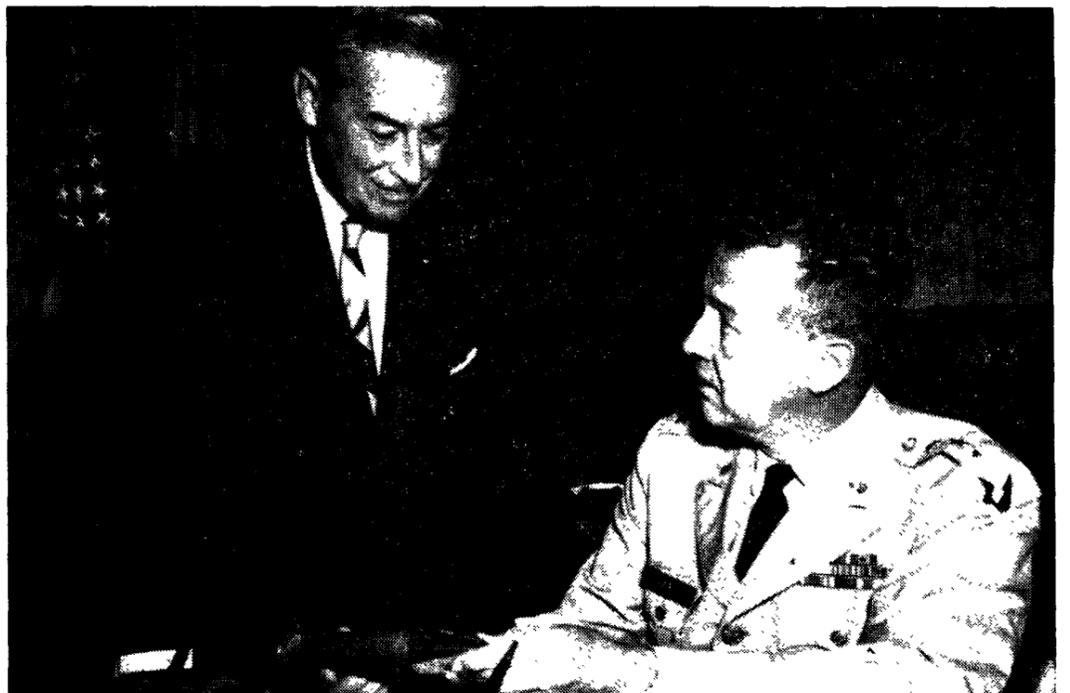

With almost \$200,000 already banked, the 1966 Combined Federal Campaign entered the "crucial stage" this week according to L. M. Brockman, Executive Chairman for the fund raising effort.

In explaining his term, Crucial Stage, Brockman said that the results so far have been very encouraging, however, we will still

have a lot of work ahead before we can write the campaign off as a success.

The total contributions through cash donations and payroll deduction allotments during the first three weeks of the drive are \$193,655.22. The payroll deduction allotments total \$131,299.66.

(See CAMPAIGN on Page 3)

INTEREST IS STILL MISSILES—Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command, shows a small missile to Maj. Gen. John Bruce Medaris (Ret.) during a visit today at Redstone Arsenal. Gen. Medaris was the first to command the Army Ordnance Missile Command, the predecessor to the present organization. The missile they are looking over is the Micaw, an in-house development of the Command's Research and Development Directorate.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

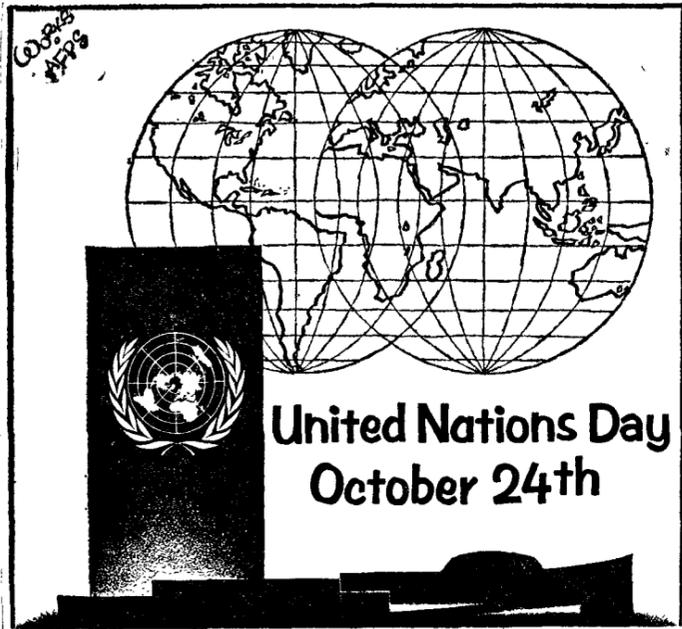

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline both display and wanted is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

Rocket Ruminations

Hold thy lighted lamp on high,
Be a star in someone's sky.

—Henry Burton

United Nations — Best Agent For World Peace, Prosperity

Oct. 24, 1965, is United Nations Day—20th anniversary of the day the UN Charter became effective.

The United Nations was created in the aftermath of World War II to formulate a means of healing the world and to eliminate the possibility of another such holocaust.

In its peacemaking role, it has acted time and again as a mediator and firm guardian of peace. In Africa, in Asia, in the Middle East, the UN has intervened, with persuasion when possible, with force of arms when necessary, to prevent minor conflicts that might have grown to threaten the security of the world.

In its role as an agent of world prosperity, it has fostered cooperation between nations. Without that cooperation, there would be no international progress.

It would be impossible, for instance, to explore outer space if it were not for international agreements to govern the use of radio frequencies. Weather information is exchanged under the auspices of the World Meteorological Organization using the facilities and satellites of all industrialized nations. The United States, Mexico, Israel and the Soviet Union are cooperating in studies on the use of nuclear power reactors in desalting sea water.

The UN is dedicated to improving the lot of mankind and fighting sickness, poverty and ignorance. Programs have been initiated to combat disease and improve sanitation. Developing nations are helped in their efforts to improve economic and social growth through the organization of natural resources, and with loans from international lending agencies affiliated with the UN.

The United States has always been one of the strongest supporters of the UN and its undertakings. As Americans and as members of our country's military forces, it is our duty to understand what the UN is and what it stands for, and to support it in whatever way we can.

Our peace and prosperity is interwoven with the peace and prosperity of the world, and our nation's freedom is secure only as long as the freedom of the world is secure. (AFPS)

DARE SOLVES PROBLEM—The commanding General of the U. S. Army Missile Command at Redstone Arsenal, Maj. Gen. John G. Zierdt (left), learns about a new automated system to store and retrieve engineering drawings being put into operation. Known as DARE (Documentation Automated Retrieval Equipment), it will have up to 1,500,000 drawings photographed on three-inch 35-millimeter microfilm chips and available for almost instant reproduction. Here, DARE system analyst, James A. Wilkes shows Gen. Zierdt a microfilm aperture card of a drawing. Cards like this one were kept in numerical file under the old system, and had to be manually removed for reproduction. From left to right are: Gen. Zierdt; Col. B. A. Saholsky, Director of Procurement and Production Directorate, where DARE is located; Wilkes; and Kelly Prady, Assistant Director of Support Operations, Procurement and Production Directorate.

DARE

(Continued From Page 1)

and when a drawing number is fed into a computer—the brain of DARE—that chip automatically is brought forward. From the chip, either a microfilm aperture card, which can be screened in a viewer, or a copy of the drawing is made. The chip then is returned to the master file.

The entire file of film chips normally is processed once a day, taking about seven hours. Routine requests of the day are filled, and new chips are inserted and outdated ones deleted during the daily searching operation.

One of the major improvements

over the old system, according to James A. Wilkes, DARE systems analyst, is that drawings are available all the time, resulting in less time to assemble technical data packages needed in procurement actions. Under the previous system, when a card was out of the file, requests for that particular document could not be processed. At certain peak periods, as many as 50,000 cards were out. Now, any drawing is available for reproduction within an average of 60 seconds.

Getting engineering documents ready for a procurement request took up to 15 days and individual requests consumed as many as five days. It wasn't uncommon for engineers and scientists to

wait while clerks searched the microfilm card file for important drawings. This problem was becoming more acute with the addition of new missile systems and with increased emphasis on unlimited competitive buying.

A "blue streak" priority request for engineering drawings must be filled within 24 hours. Normally, orders are fed into the computer in the form of punch cards, but for a "blue streak" a switch can be pulled, stopping the normal DARE operation, and the drawing numbers typed straight into the storage and retrieval system.

DARE, which was designed and built by Magnavox Company of California, is thought to be the only system of its kind.

CAMPAIGN

(Continued From Page 1)

These contributions have been made by 69 per cent of the personnel included in the campaign. The remaining 31 per cent of the personnel who are not yet listed as contributors hold the key to success or failure in the overall campaign.

That is why Brockman called on the area chairman to redouble their efforts during the next week to insure that the drive ends on a successful note. He added that the collections during the remainder of the campaign has an even greater significance.

This is because the final result will be the sole determinant as to whether the one-drive concept will be repeated at Redstone in future years.

Among the organizations, the Army Missile Support Command continues to set the pace with contributions totaling \$43,939. Not far behind are the three large directorates, Research and Development, Procurement and Production, and Supply and Maintenance, in that order.

Smaller units have the participation lead headed by three perfect records. In the latter category are Comptroller and Director of Programs, the Quality Reliability Management Office and the Office of the Commanding General.

The Nike X Project Office has reached 84 per cent in participation and the Air Defense Fire Distribution Systems Office is just a percentage point behind.

In addition to the Army organizations, the Rohm & Haas company and the Thiokol Company have posted outstanding results during the first third of the drive.

Thiokol has contributed almost \$17,000, all through payroll deductions, from 79 per cent of their personnel. Rohm & Haas, with a smaller work force, has attained 78 per cent participation with a total contribution of over \$7,000.

standards for calibration of test equipment.

Several technical papers will be presented, and panel discussions will be part of the program. On Thursday, the group will tour Missile Command static test facilities.

W. A. Dennison, of the Naval Propellant Plant at Indian Head, Md., is chairman of the group.

Aberdeen Is Host To 47th AOAM Meeting

ABERDEEN PROVING GROUND, MD. The 47th annual meeting of the American Ordnance Association was held Thursday at the Aberdeen Proving Ground, Md. where the association was founded in August, 1919.

A highlight of the meeting, which featured live tests and demonstrations of the Army's newest weapons and equipment, was the presentation of the association's Scott Gold Medal to Gen. Frank S. Besson, Jr., commanding general of the U.S. Army Materiel Command.

The award was made before thousands of association members by their president, Adm. Arleigh Burke, former Chief of Naval Operations, who noted the many distinguished contributions of Gen. Besson in the fields of military engineering and logistics.

Sponsorship of the annual AOAM meeting rotates between the Army, Navy and Air Force. This year's program included the Nike-X, Lance and Redeye missile system, all project managed from Redstone Arsenal.

SOCIAL ^{and} CLUB EVENTS

Wives Group To Organize

More than 60 wives of men in all branches of the Armed Forces who are residing in the Huntsville area while their husbands are overseas, and widows of service men, were guests last Thursday at a coffee in the home of Mrs. John G. Zierdt.

The group included wives of both enlisted and officer personnel. They are planning to form an organization and have regular meetings to share their mutual interests. During the coffee, they discussed possible names for their organization and the project they may like to pursue.

At the present time, all those eligible whose names have been reported to the Adjutant's Office, Army Missile Support Command, 876-3816 are receiving regular mailings of information about activities on Redstone Arsenal.

Any others who fall in the category covered by the organization who wish to join should call the above number and give their name, address and husband's status.

MRS. McBREARTY IS BRIDGE WINNER

Monday night bridge had seven tables of players competing at the Redstone Officers Open Mess last week.

Winner was Mrs. Charles McBrearty with Mrs. John Tyson in second place and Lt. Michael Pope in third.

Reservations to play with the Monday group are handled by Mrs. Peter Kostoff and Mrs. Raymond Astor.

Recreation Association Plans Halloween Dance

Tickets for the annual Halloween dinner-dance of the Redstone Recreation Association went on sale today. The event which has become the major one of the year for the recreation group, is scheduled Saturday, Oct. 23, at the Sheraton Motor Inn in Huntsville. The evening begins at 6:30 p.m.

Music for dancing is being provided by the Clyde Elliott Orchestra.

Persons interested in attending the dance can purchase tickets from any of the association's directors, or by calling 539-4009.

Prizes for the most interesting costumes will be awarded.

Shelby Chamberlain Breaks Ice, Gets Cup

"Happiness is Getting Acquainted" was the theme of Huntsville Toastmistress Club meeting Wednesday night at the Russel Erskine Hotel.

Miss Marian Hocker presided. Tabletopics were presented by Mrs. Snoch Nilsson as an interview situation. Ten members and guests participated. Mrs. Joseph Duchac was voted best topic speaker.

Mrs. Duchac also served as toastmistress of the evening. The program included "icebreakers," autobiographies of three new members; Mrs. R. M. Coulter, Mrs. R. D. Chamberlain, and Mrs. Sid Stein. Mrs. Rhoda Stambaugh presented an extemporaneous entitled "getting acquainted." The best speaker's cup was awarded to Mrs. Chamberlain, a Nike-X employee.

Guests of the evening were Miss Diane Brewer, Mrs. C. T. Phillips, Mrs. Helmut Krenn, Miss Fran Upshaw, Mrs. Margaret Thomas.

The next meeting will be a joint Founder's Day celebration

SODALITY COFFEE—Mrs. Robert Bitoni (left) president of the Catholic Women's Sodality at Redstone Arsenal was hostess to Monsignor John McGonigle and Chaplain Logue at the group's October meeting. Among the guests were approximately 50 members of Huntsville Parishes. The event followed the regular Mass which the group attends monthly at the Post Chapel. Coffee was served in the Chapel Social room. Approximately 100 people attended. This was also Mrs. Bitoni's farewell to the group. Her husband is transferred to Europe.

Technical Writers To Meet Oct. 14

The Huntsville chapter of the Society of Technical Writers and Publishers will meet in the Rocket Room of the Redstone Officer's Open Mess at 7 p.m., Oct. 14.

Maj. Donald Goettel, Signal Corps, U.S. Army, will speak on

with the Rocket City and Alahunt Toastmistress Clubs, October 20.

"The Importance of Technical Documentation." Maj. Goettel is a veteran of 14 years of Army service. He earned a mechanical engineering degree at Washington State University in 1951 and entered the Army the same year. Post graduate work at the University of Arizona led to a degree in Electrical Engineering in 1960. He is currently assigned as an advisor to the Alabama National Guard in Decatur, Alabama.

Visiting STWP members from other chapters are encouraged to

EIGHT TABLES IN PLAY

Thursday bridge sponsored by the Redstone Officers Wives Club drew eight tables last week.

Holding high score for the day was Mrs. R. J. Astor. Mrs. G. T. Fearson was second and Mrs. Robert Newell, third. Low was scored by Mrs. T. E. McDermott.

Reservations to play are made with Mrs. A. V. Garrabrant.

attend all functions of the Huntsville chapter. Ed Barnard, 842-2787, is handling reservations.

ALLIED WIVES HONORED—The Huntsville Council for International Visitors entertained with a coffee Thursday morning (Oct. 7) at the headquarters on Gates Avenue, in honor of the allied wives of the Ordnance Guided Missile School. Mrs. John Payne was chairman and about 75 guests called. Pictured from left are Mrs. von Mayerhofen of Munich, Germany; Mrs. Patrick Okaka of Nigeria; Mrs. Karin Hallberg of Copenhagen, Denmark; Mrs. Maria Luisa Pizzella of Naples, Italy; Mrs. Richard W. Riehm and Mrs. Martin Phillips, pouring coffee.

**TA-CO-BET Art Show
October 16 And 17**

The annual Ta-Co-Bet Clotheline Art and Craft Show will be held Saturday and Sunday, Oct. 16 and 17.

Some of the finest artists and craftsmen from Alabama, Georgia, Tennessee, North Carolina, Arkansas, Florida, and Mississippi will exhibit in this year's show.

The exhibits will be displayed from 9 a.m. to sunset each day and offer much variety. Paintings in oil, caseins, polymers, watercolors, and mixed media will be shown. Drawings, prints, collages, wood carvings, metal sculpture, ceramics, needlecraft, dolls, rocks and fine craft items of all kinds will give buyers and viewers a wide selection. Indian relics and artifacts will be displayed. Most all items in the show will be for sale.

Ta-Co-Bet, located near Scottsboro on top of Sand Mountain east of Comer Bridge on Alabama Highway 40, offers a spectacular view for this show. Overlooking the beautiful panoramic view of the Tennessee Valley with its Gunterville Lake and mountain slopes all decked in the richest array of fall colors, Ta-Co-Bet will present a sight the viewer will never forget.

Viewers and buyers are advised to come on Saturday while stocks are fresh. Dress for the outdoors and wear sensible shoes. Bring your camera. Plenty of good food will be available each day at the concession stand operated by the Scottsboro Business and Professional Women's Club.

Additional information may be obtained by calling Scottsboro 574-4467 or writing Ta-Co-Bet Enterprises, Scottsboro, Ala.

FANCY FOOTWORK—A spirited maneuver in the German Air Force soccer team's 10-0 win over the International Soccer Club of Nashville, Tenn., is shown as S/Sgt. Dietrich Lisse (second from right) displays fancy footwork to get around Joseph Riley. At left is SFC Albert Eberle.

German Airmen Shut Out Koreans In Soccer Opener

The German Air Force soccer team at the Army Ordnance Guided Missile School racked up two more victories against intramural and outside opponents during the past week.

In the opening match of regularly scheduled intramural competition between teams from Japan, Korea and a Franco-American

squad, the Germans smothered the Korean Army 8-0 under the leadership of Lt. Gerhard Bauer.

The second victory of the week came in a return match against the International Soccer Club of Nashville, Tenn. played at Linton Field on Sunday afternoon. The Germans won 10-0.

The Airmen tackle the Japanese

AMC League: Bernie Robinson, 617 (208-205-204), Floyd Clark, 606 (257), Paul McLin, 572, Howard Helmick, 570 (217), John Hauth, 566 (204), Joe Barnes, 559, Bob Biss, 551 (215), Dick Gore, 546, Ken Bell, 546 (213).

Supply Management League: Fred Stewart, 603 (242), Jack Bailey, 602 (267), Tom Patterson, 599 (225-202), Bob Keel, 562 (202) Cliff Cline, 561, Joe Hill, 560 (213), Howard Lee, 549, Tom Lindsey 548.

Redstone League: Dick Cizek, 590 (215-211), Ed Marshall, 581, (243), Ray Profitt, 564, Tony Calamusa, 559, Vic Passavant, 559, Bob Adams, 557, Tom Reynolds, 548, Jim France, 534 (247).

Field Services League: Frank Ralph, 581 (212-205), Mike Shuput, 563 (219), Howard Jess, 562, Clay Moneymaker, 561, Jow Holub, 546, Nick Sparks, 545 (221).

A couple of tremendous team efforts captured the spotlight last week as civilian bowlers went on a striking spree that resulted in seasonal high totals being posted in every category.

There was a 3154 team series rolled in the Field Services League and a 1116 game manufactured in the Supply Management League. On the individual front, there were four 600 totals and five games of over 240.

Bernie Robinson captured the Bowler of the Week honors for the AMC League with a steady 617. Not far behind were his team mate, Floyd Clark, Fred Stewart and Jack Bailey, each of whom reached Honor Roll status by passing the 600 mark.

Bailey got his 602 total with a big 267 game that set the pace for 1116 game that the Huntsville Brick and Tile quintet posted. Stewart also used a closing rush in posting a 603. He started with a string of seven strikes and ended with 242. Both were thrown in The Supply Management League.

One pin kept Tom Patterson off the list in the Management League when he ended his evening work with a 599. This league has produced four of the seven 600 totals rolled so far.

Robinson and Clark combined their efforts with a 572 by Paul McLin in leading the Maulers to a sweep over the Ramblers in a duel for first place in the AMC loop.

Robinson tossed three 200 games while Clark ended the evening with a 257 which included another string of eight strikes. Howard Helmick shot a 570 as the Skippers fired games of 1036 and 1058.

The Central TV team of Frank Ralph, Clay Moneymaker, Mike Shuput, Bob Adams and Jim

Haight put together games of 1031, 1083, 1040 in manufacturing a 3154 series and a clean sweep over the Wheels. All five of the TV men went over 500 with Ralph setting the pace with 581.

The largest number of 500 bowlers for a league performed in the Redstone League with an even two dozen making the list.

Dick Cizek was the Redstone leader for the second straight week as he tossed a 590 total for the Giles Garden Center. Another Gardner, Jim France started slow but ended the evening with a 247 game.

Ed Marshall fired a 581 while Ray Profitt and Vic Passavant turned in 564 and 559 respectively for Deans Trailer Court.

The Redstone League recorded somewhat of an oddity when 11 different bowlers turned in duplicate scores for each of the first two games. However, not one of them was able to complete the triplicate.

Skiers Meet Tonight

The Huntsville Ski Club begins its season with a meeting tonight at 7:30 in the Recorders Court Room of the New City Hall.

The club is inviting interested skiers and watchers to attend. Tentative items on the itinerary are trips to the Smokies, the Rockies, and Europe if enough enthusiasm is generated.

Tonight's program will include ski movies, an outline of the events scheduled for the coming season, and a barter session of ski equipment.

Kenn Parr can furnish details. His phones are: 876-0343 and 881-7191.

PRIZE WINNERS IN FALL HANDICAP—Shelley Crane has her name engraved twice on the Fall Handicap Tournament perpetual trophy behind which she is standing. She won the tournament at Redstone Arsenal in 1962 and again in 1965. Left to right with her are other trophy winners in this year's tournament: Ginny Bowers, Grace Wachslar, Jackie Hightower, Shelley, Billie Fogel and Jeanette Sell.

Army team this evening. Korea and Japan continue the intramural competition next Monday evening.

In the encounter with the Nashville team, S Sgt Dietrich Lisse registered four goals, Sgt Arthur Frank and SFC Albert Eberle scored two each while Sgt Uwe Miegel and Sgt Anton Reinlein had one each.

Crane Is Two-Time Winner

Shelley Crane is a second time winner in the Fall Handicap Tournament among the Golf Group of the Redstone Arsenal Officers' Wives Club. Her first win was in 1962.

Prizes were awarded at lunch after regular play Wednesday. Mrs. Crane and Grace Wachslar

were in the first flight play-off. Consolation prize went to Ginny Bowers.

Jeannette Sell won the second flight over Jackie Hightower, and Billie Fogel edged out Lilith Lewis for the second round consolation.

Approximately 25 members of the Golf Group entered the tournament.

Tough Defense Paves Way For Touch Football Wins

Air tight pass defense proved the key to victory in each of the games as the Unit Level touch football season opened last Friday with a triple header at Linton Field.

In each game the eventual winner came up with key pass interceptions every time the opposition threatened to score and while their own aerials were paving the way to victory.

MICOM got the season rolling with a 13-0 win over C Company, 4th ETC made one touchdown stand up for a 7-0 win over 1st ETC, and Headquarters, STC had an easier time in chalking up a 20-0 shutout of 3rd ETC.

In this week's game A Company got into action for the first time when against MICOM in the first game of last night's double bill. 1st ETC also debuted against 2nd ETC in the second game.

The Friday night opener pits STC against C Company and 3rd ETC will try to even their slate against 4th ETC in the final game. Another organization, 5th ETC, has joined the league and will get into action next week.

MICOM rode the sturdy right arm of Bob Lechewicz to their opening game win. The quarterback guided his team on a sus-

tained march of 72 yards the first time they got hold of the pigskin. The payoff came on Lechewicz' pass to Jim Dekrich.

Mike Stuart was on the receiving end of another Lechewicz aerial for the second touchdown in the second period. Two C Company threats were halted by pass interceptions by Jim Olberdong.

The second game was a scoreless defensive duel with the 1st generating the only scoring threat. But Dan Barr ended the drive by picking off a pass in the end zone.

Dick Avery got the 4th moving late in the third period and after pitching his mates to the 9 yard line, he found Bob Evans free in the end zone and hit him with the only score of the game.

The 1st wasn't through yet and kept coming back looking for the equalizer. But interceptions by Obie Wright and Dave Crawford preserved the win for the 4th.

Tony Laurent masterminded the win for STC. Not only did he han-

dle the passing chores, for his team, but he sparked the defensive effort that kept the Third Herd at a safe distance throughout the game.

Laurent hit Dick Kettler with scoring bombs in each of the first and third quarters, and sandwiched a touchdown pass to Pete Valentine between.

Besides Laurent, the STC defensive stalwarts included Bill Seeger, and Pet Garcia, linebackers, and Darrell Hembrey, a tackle.

Arsenal Shooters On Alabama Team

The Redstone smallbore rifle team continued to pile up the trophies when they went to Birmingham last week end to compete in the Alabama State championships.

The six man team accumulated seven trophies with two firsts in the expert class, four in the sharpshooter category and another winner in the marksman class.

In addition to their winning trophies, four Arsenal shooters were selected for places on the ten-man Alabama State smallbore team of 1965. They are SSGTs Adolpho Sa-

Officials Clinic Sets Stage For Basketball

It is still a few more weeks before basketball becomes the major activity on the Unit Level sports agenda, but the Special Services Office, looking ahead to the winter months, has scheduled an officials clinic.

Slated for next week, the clinic is intended as a means to line up a supply of officials to handle the games once the schedule starts. However, Irv Lyles, of the Sports staff, said that all players and coaches are urged to attend the sessions.

He said that new NCAA rules will be discussed at length and that a very excellent film, "This Is Basketball" will be shown. The film was produced in Indiana, the

lazar and Joseph Galipeau, and Specialists James Chilcoat and Cecil Fain.

Other Redstone shooters making the trip to Birmingham were Sergeants Larry Larson and Lewis Marler.

hotbed of high school basketball, and will serve as a helpful guide to officials, players and coaches alike.

HAYWOOD, WACHSLER WIN

Wednesday, playing low net, low gross, members of the Redstone Arsenal Officers Wives Golf Group had almost 30 players competing at the Arsenal Golf Course.

Betty Haywood came in with low net with Midge Clisson the runner-up. Grace Wachslar scored low gross with Irma Wiklund as runner-up.

COIN SHOW

Saturday and Sunday the North Alabama coin collectors will display their collections at the Sheffield Community Center the third annual show in this area.

Sponsors are the Rocket City Coin Club of Huntsville, Athens Coin Club, Decatur Coin Club and Muscle Shoals Coin Club.

Robert L. Simmons, Jr., 1153 N. Wood Ave., in Florence is handling overnight accommodations and bourse tables. An auction, exhibits and awards are on the agenda.

SCOTCH 4-SOMES TO PLAY OCT. 24

The Redstone Officers Wives Golf Group will sponsor a mixed Scotch-foursome Oct. 24 on the Arsenal Golf Course to be followed with a buffet in the Hawk Room of the Redstone Officers Open Mess afterward.

Deadline for reservations to play is Oct. 19. Mrs. E. I. Donley, president of the Golf Group asked that everyone interested in playing, whether or not they have a partner, please sign up.

Tee-off time will be assigned in advance by Mrs. William Wachslar, chairman, and the Arsenal Pro, Mac MacClure.

Mrs. Donley also announced that non-golfers for the day still can sign for the buffet in the evening.

Rocket Rollers Rocket Past GNUS With Sweep

The Rocket Rollers rolled their way into the lead of the OGMS Officers bowling league last week when they swept all four points in a series with F Troop as the Bad Gnus were forced to settle for a 3 to 1 win.

Loss of the single point dropped the Gnus a half point off the Roller pace.

The Black Jacks moved into third when they rolled a 2712 series to sweep their series from the missilemen. Linn Grubbs took all the league individual honors for the Black Jacks when he blasted out a 568 series that included a 224 game.

His team mates, George Earle and Tom DeLoach, pitched in with 508 and 506 respectively. The only other 500 sets were turned in by Gary Hitt and John Harris, both members of the Bad Gnu quintet.

Hitt hit for 214 and 540 while Harris amassed 529 maples.

Kidd, Cooper Share ABC League Honors

Elvin Kidd and Wylie Cooper split the individual honors in the American-British-Canadian Officers Bowling league last week at the Arsenal Lanes.

Kidd strung together a 542 series while Cooper was the toughest for a single game when he tossed a 215 midway in a 535 set. Jack Knight was close behind with a 213 effort.

In team scoring the Wheelers used a 2756 series to take a 3-1 win from the Stump Knockers and the S Wonnors rolled a 961 single game.

The league - leading Lucky Strikes clung to their narrow lead despite being held to a split by the second place Hopefuls.

REDSTONE ARSENAL, ALABAMA

ZERO DEFECTS HAS SUPP

Lovelady: We need to be right.

Swinea: It's a good thing.

Burks and Turner: Concentrate to do it right.

Zero Defects has caught on at Redstone.

A spot check around the Arsenal this week, a month after the campaign was launched, revealed that men and women typical of the people who make things go at the home of Army missiles are behind the program to do things right the first time.

In the Fire Department, Acting Crew Chief Daniel Eves looked a little hurt that anyone would think of a fireman making a mistake in the first place:

"The program is sensible," he said and set the record straight by pointing out that firemen cannot afford mistakes.

Eves reaction, and those of others who discussed the program, left little doubt that Zero Defects is a going operation here where the Defense Department program began more than a year ago.

Across the street in the Air Defense Fire Distribution Systems Office, Barbara Swinea, a secretary, echoed the fireman's sentiment. She said, "I think it's a good thing. It will work."

In the U. S. Army Missile Support Command's Logistics Office, everyone expressed enthusiasm for the program. Sam Mathis, chief of space utilization in the logistics area, said, "Lots of things are being done to establish a Zero Defects program. We have to get the feel of this before the results will be apparent."

And his secretary, Judy Hanvy (still quite new to her job) says she is working on Zero Defects too.

Vera Benson in the Provost Marshal Division finds planning ahead is the way to achieve Zero Defects. Her method is get the details in hand and then do the job so that it can be done completely and ac-

curately the first time. She quoted one of the speakers at the ZD Rally, Capt. Roger C. Donlon, who used a drastic example of how a life can hang in the balance. "Even if life doesn't depend on Zero Defects," she said, "progress comes quicker for everyone."

Virginia Barnes in the AMSC Maintenance Support Division feels the program has made people more conscientious.

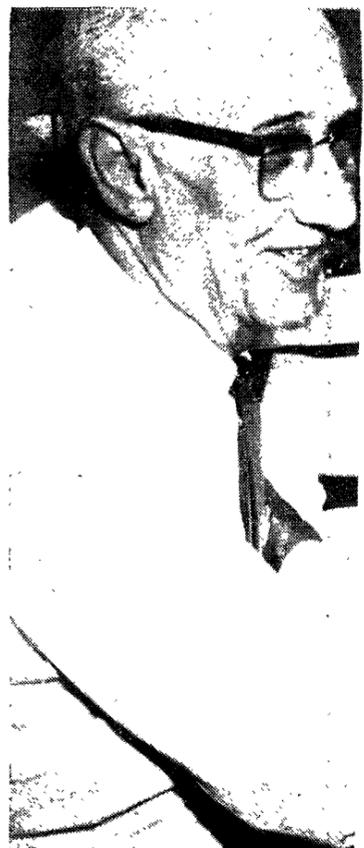

Roland Bowers, an inspector in the Maintenance Support shops, said, "It's nothing new in our work but it serves as a reminder to all of us and makes us try harder. No one is more aware of the need of Zero Defects than someone in Maintenance. A mistake means you have to tear down the whole thing and start all over again."

In the Production and Procurement Engineering Division the same thought was echoed by James Herron. He said, "We have had to live with Zero Defects always. It has affected us for years." Don Cooper, in the same area added, "Our analysis must be correct."

Opal H. Burks and Joan Turner, both in cataloging at the Supply and Maintenance Directorate, believe the rally helped them. The concensus is that Zero Defects serves as a reminder to concentrate on doing a job right the first time.

Malcolm Tully, an S&M technical writer, finds the emphasis on Zero Defects encouraging people to take a hard second look at their work. "You just can't afford to have mistakes staring out of a printed page at you," he said.

And T. R. Lovelady, electronics technician in the Test and Evaluation Laboratory of the Research and Development Directorate, finds striving to be right just comes naturally. His job is monitoring missile tests.

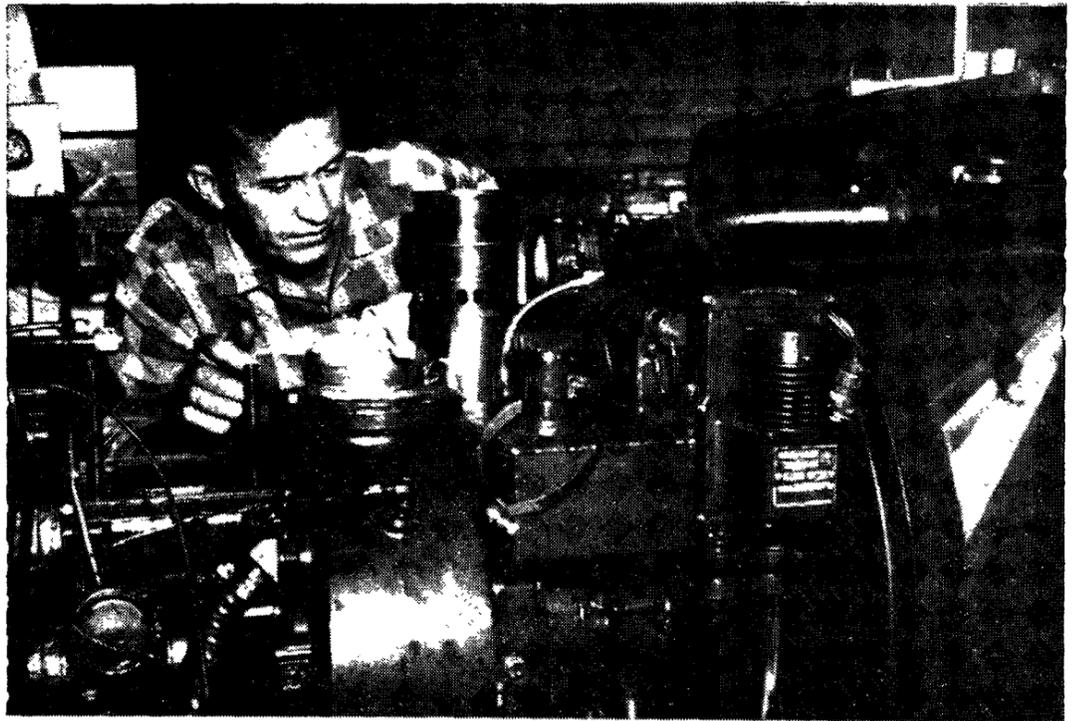

Mathis: M

PORT OF WORKING FORCE

lerron and Cooper: It's a Way of Life

Bowers: Makes us try harder.

Tully: Can't afford mistakes.

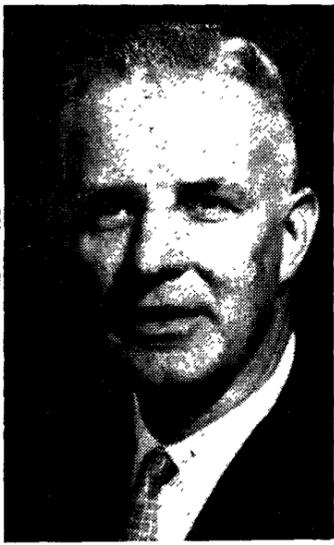

Hanvy: Im trying.

get the feel.

Eves: It's sensible.

DR. HELMUT W. E. SCHLITT

Contamination Control Group To Hear Dr. Schlitt

Dollars Versus Dirt is the theme for a two day symposium sponsored by the Huntsville Chapter of the American Association for Contamination Control, Oct. 20 and 21 at the Sheraton Motor Inn, Huntsville.

The program has been prepared by Will Gibson of the Army Missile Command and offers nationally recognized speakers who will present papers on a wide range of subjects from "the effects of contamination in the field of microbiology" to "missile systems." Two sessions will run concurrently with eighteen speakers and should afford anyone attending a chance to hear the speaker of his choice.

In addition to the technical sessions, those attending will have the opportunity to visit 30 exhibits of the nation's leading suppliers as well as tour the facilities of the Army Missile Command and the Marshall Space Flight Center.

The Wednesday luncheon speaker will be Dr. Otis F. Gay, M.D., M.P.H., who will discuss pollution

First Ammunition Graduates Hear Munitions Speaker

The first class of ammunition officers to complete training at the Army Ordnance Guided Missile School since the course was transferred here in mid-summer will receive diplomas at a formal graduation ceremony in the Redstone Post Theater Friday morning.

Col. Lee S. Kaufmann, who heads the Directorate of Materiel Readiness at the Army Munitions Command in Dover, N.J., will address the graduates. He will be introduced by Col. Erwin M. Graham, Jr., Missile School Commandant.

The 40 graduating ammunition officers include the first Nigerian student, Lt. Patrick Okaka, to be trained here. His is the 18th nation to be represented here.

The 85 graduates include 40 U.S. officers, a Belgian officer and Lt. Okaka. Also on the roster are 10 U.S. officers, 18 U.S. Marines and 15 U.S. enlisted men completing missile management and maintenance courses.

REAL "FAIR DEAL"—On duty last week with the Ordnance Guided Missile School's demonstration of educational television at the Southeastern States Fair in Atlanta, Ralph C. Bluemke received good news of his promotion to Specialist Fourth Class from Col. Erwin M. Graham, Jr., OGMS commandant, who was inspecting the exhibit. Sp/4 Bluemke's home is in Westport, Conn.

from the view point of a medical officer of health.

Dr. Helmut W. E. Schlitt, Vice President and Director of New Products Technology for Litton Industries will be the Wednesday night banquet speaker. Dr. Schlitt was one of the top rocket scientists

at Pennamunde and has a wealth of technical knowledge to share. His topic will be "The effect of Contamination on Inertial Systems."

For Symposium reservations, call John Coan 539-7711 or Ted Walton 532-1442.

Series E and H United States Savings Bonds outstanding include more than \$20 billion which already have passed their original maturity date and are being held by their owners in extension periods. Those Bonds continue to earn interest.

Quality Control Experts To Meet

The Huntsville Section of the American Society for Quality Control and the Reliability Group of the Institute of Electrical and Electronic Engineers will hold a meeting on Monday, Oct. 16, at 6:30 p.m. at the Redstone Officer's Open Mess.

Jack W. Finger of Western Electric Company, Burlington, North Carolina will speak on "The Western Electric Approach to Electronic Product Reliability." Finger has the responsibility for planning and administrative of the quality control, reliability, and maintainability programs of Nike-X Contractors.

Alvin Steinberg, 876-0671, is handling dinner reservations.

At The Service Club

By BETTY HAYES

Speaking of variety! Variety is the key word when it comes to events at the Service Club this week. Read this column further, and I will tell you about the big events.

Exciting places will be visited by films tonight at 8 p.m. when travelogues are shown in the main lounge. A seat will be reserved. Don't be late.

Have you ever ice skated? If not, why not try Thursday at 7 p.m. Sign up in the Service Club office for the event. We will leave the Service Club and go as a group to the Ice Palace. Even though you may have spills, I guarantee you plenty of thrills.

The contest for the week is shuffleboard, which begins at 8 p.m. on Friday night. Since the equipment is used regularly, I know that most of you participate in the game. Try your skill against other players. Who knows—you may be the winner!

Stop by the Service Club Saturday afternoon for tasty refreshments at 3:30 p.m.

Saturday night a musical quiz game entitled, "Stop the Music," will be played at 8 p.m. tunes of yesterday and today.

Start your morning off right with a hot cup of coffee and a donut Sunday at 9.

Later dance to the beats of the Count Downs at the "Swinging Fall Dance" on Oct. 17 at 8 p.m.

Lots of surprises are in store for you Monday night at 8 p.m.

On Tuesday Oct. 19, bridge night is scheduled for 7 p.m. Be on hand for an enjoyable evening.

Sign up for the post-wide table tennis tournament next week. A trophy will be given to the winner.

I might also remind you to get your costume ready for the Halloween Dance on Oct. 31. The Junior Hostess and the Enlisted Man with the best costumes will be chosen.

See you at the Service Club.

Shortly after the end of World War II, Sept. 8, 1945, U.S. forces began their occupation of South Korea.

The Southeast Asia Treaty, establishing SEATO, was signed by the U.S. Sept. 8, 1954.

EDUCATOR VISITS REDSTONE—A professor at the University of Massachusetts who is heading a project to establish a national photographic transparency collection, duplication and distribution center, Dr. Raymond Wyman (center) was at Redstone Arsenal Friday. Here, he looks over a model of the Jupiter missile with Col. E. D. Mohlere (right), Chief of Staff, Army Missile Command, and John Kubilis, Chief, Visual Arts and Presentation Division, Army Missile Support Command. Dr. Wyman stopped at Redstone on a survey trip in connection with a move to set up a national center for distributing transparencies on a variety of subjects to schools and other institutions.

Missile School Honors Teachers

Two officer-instructors were honored by the Army Ordnance Guided Missile School last week when they were chosen as outstanding instructors for the third quarter of calendar year 1965. Both received their military training in college ROTC units.

Capt. Gary F. Dunn of the OGMS Officer Training Department in the

Directorate of Individual Training was named as Outstanding Instructor. A graduate of Claremont Men's College, Claremont, Calif., his hometown is Pacific Palisades, Calif. and he has been assigned here for the past 15 months.

Named as alternate for the same reporting period was 1st Lt. Harry L. Cochrane, a graduate of The Citadel at Charleston, S.C. His home is Allentown, Pa. He has been assigned to the Directorate of Individual Training's Officer Training Department for almost

two years.

Capt. Dunn specializes in the Logistics Management Division while Lt. Cochrane is in the Materiel Division.

Helms Talks To Graduates

"It has been said that there is always someone who doesn't get the word," and with this opening remark Capt. Bobby T. Helms proceeded to give the graduating class at the U.S. Army Ordnance

Guided Missile School the word on non-resident training. Helms, who is Chief of the Sergeant Division of Land Combat Missile Systems Department, was the guest speaker at commence-

ment ceremonies Friday in Vincent Hall Auditorium of two classes in Nike, two in Pershing, and one in Sergeant missiles. Included in the graduating class were 21 U.S. enlisted men and 14 enlisted men from Germany.

Capt. Helms stressed the need for continual development of one's skills and knowledge after leaving the class room because a great portion of the training must be conducted away from the school; therefore, the extension program "sends" the school to the man in the field. This arrangement provides not only for U.S. personnel but for foreign military as well.

Honor graduates were: Lance Cpl. Peter Franz Wiener of Bremen, Germany, in Nike Acquisition Radar and Computer Repair; Sp5 David W. Nelson, Monson, Maine, in Nike Hipar Acquisition Radar and Simulator Repair; Pvt. Carl R. Sare, Jr., in Ballistic Missile Rocket Motor and Structures Repair (Sergeant); Pvt. Charles E. Born, Chicago, Ill., in Ballistic Missile Propulsion and Structures Repair (Pershing); and Sp4 John A. Pierson, Jr., Clarington, Ohio, in Ballistic Missile Test Station Repair (Pershing).

CAREER DEVELOPMENT IS AIM OF 19 EMPLOYEES

Off-post training programs have taken 19 Redstone civilian employees away from their normal duty stations this week, and in a number of cases, for longer periods of time.

The local personnel were selected to attend the training in various parts of the country under the career development program administered here by the Training and Development Division of Civilian Personnel.

Metals Society To Sponsor Six-Day Heat Treat Course

The Tennessee Valley Chapter of the American Society for Metals will host an intensive six day course "Principles of Heat Treating" at the Holiday Inn, Huntsville, from Oct. 27 through Nov. 3. Instructors will be furnished by Metals Engineering Institute, Metals Park, Ohio.

Many government agencies, industrial firms and individuals are using this intensive heat treating course as part of their technical training program for employees engaged directly in heat treating practice and as an information source for employees associated in capacities such as research, quality control, engineering and sales. Enrollment in the course will be limited to the first 30 applicants. A limited number of one day registrants will be accepted at reduced tuition rates. The detailed program of instruction and full tuition rates are available from Kenneth Parr who can be reached at 881-7191 or 876-0343.

Parr, local chapter member and chapter education advisor stated that: "The course is being brought to Huntsville this year to better serve local & area government and industrial concerns in need of fundamental heat treating information. Since the course has been offered throughout the U.S. and Canada a number of times during the past 2 years it has become well recognized and is considered a valuable education in practical heat treating theory and practice. We in the local chapter are quite pleased that Huntsville has been chosen as one of the three cities in the U.S. to host this course this year. The same course will be held in Houston and Philadelphia during Dec. 1965 and March 1966 respectively. We are hoping that the savings in employee travel and per diem expenses will be added incentive to local industries to enroll their personnel in the Huntsville course as soon as possible."

The largest single group of Arsenal personnel are the seven who have been enrolled in the Army Project Managers course at the U.S. Army Logistics Management Center at Ft. Lee, Va. This is a 120-hour course, ending October 29.

Those at the Logistics Center are: Francis Cason and James Humphrey, of Nike X; Norman Frederick and Thadeus Valander, of Sergeant; Theodore Bricker, Pershing; Ross Vinson, Hercules; and George Bailey, SAM-D.

Four more of the locals are at the Joint Military Packaging Training Center, Aberdeen Proving Grounds, Maryland. They are enrolled for 80-hour courses.

One of them, Wendell Sanders, Research and Development, is taking the Packing and Carloading course. Charles Nesbitt and Douglas Swartz, of Lance, and Charles McColly, Supply and Maintenance, are taking the Phase I course of Preservation and Inter-

mediate Protection.

Joseph Foster, of the Assistant for Communications, is enrolled for General Cryptographic Repair at the U.S. Army Signal School at Ft. Monmouth, N.J. It is a 320-hour course ending December 3.

Harold Yeargen, Nike X, is at Wright-Patterson AFB, Ohio, for the Maintenance Management Orientation at the School of Systems and Logistics.

Three Redstone workers are at the U.S. Army Management Engineering Training Agency, Rock Island, Ill., where each is enrolled for a different course of training.

Calvin Droke, Quality and Reliability Mgmt. Office, is taking Evaluation of Producers Quality Control, Harold Oliver, of the Ordnance Guided Missile School, is enrolled for Work Methods and Standards Appreciation, and Emil Luft, Procurement and Production, who is taking Statistical Quality Control II.

Dr. W. W. Carter, the Missile Command's Chief Scientist, is in

SECURITY CHIEFS MEET—The security chiefs of the Missile Command and the Nike-X Project Office met with the head of the Security Division of the Army Materiel Command Monday at Redstone Arsenal. The top AMC security officer is Col. John P. Gillis (left). During the visit, his first to Redstone, he was briefed on current and projected use of automatic data techniques for vehicle registration, document accountability and Nike-X missile defense system security operations. With Col. Gillis are, left to right, Col. Anders O. Wiklund, Assistant to the Redstone Arsenal Post Commander; William Heflin, Missile Command Security Officer; and Houston Adams, Nike-X Security Officer.

Washington attending the Executive Computer Seminar, offered by the IBM Corporation. Thomas Browne, of the Support Command's Safety Office, is in Charlestown, Ind., where he is enrolled for Munitions Safety at the AMC Field Safety Agency.
