CAMPAIGN SETS RECORD

Local AUSA Has Largest Chapter

The Tennessee Valley Chapter of the association of the U. S. Army has been officially recognized as the largest chapter in the organization at the three-day annual meeting which ends tomorrow at the Sheraton Park Hotel in Washington D. C.

That was the word from Dr. Frederick S. Schultz, president of the chapter and chief delegate, who said the local chapter has 3800 dues-paying members. The Fort Benning-Columbus, Ga., chapter was previously the largest.

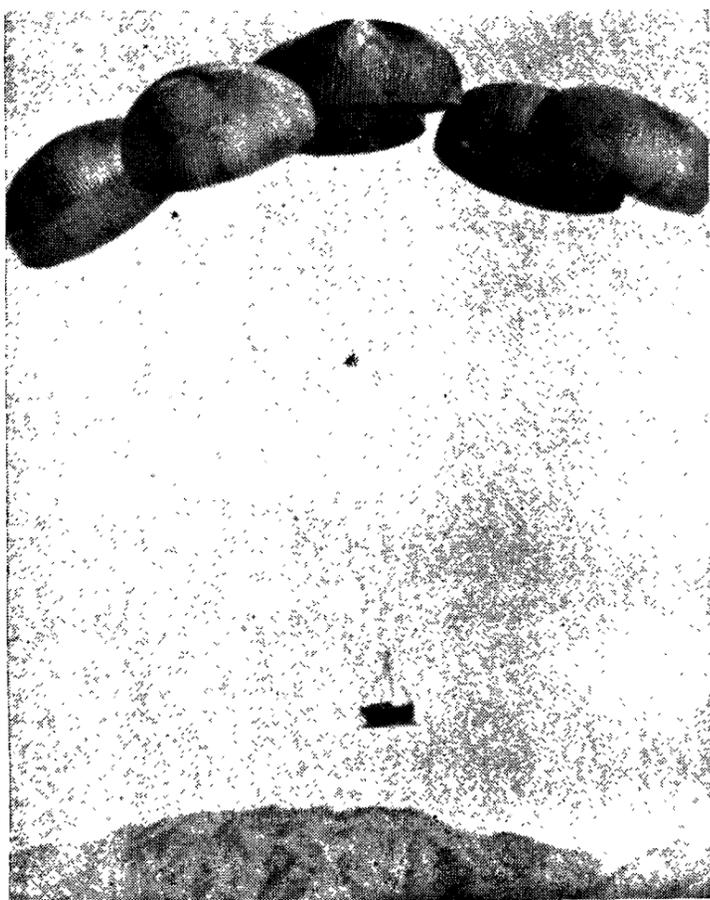

This year's annual meeting has about 20 local members among the 3,000 official representatives from more than 100 chapters from all parts of the world.

The Tennessee Valley Chapter received two special awards and some cash at the official luncheon on Tuesday which was presided over by the AUSA national president and former Secretary of the Army Elvis Stahr.

Dr. Schultz accepted the award along with Maj. Gen. John A. Barclay who was president for 1964-65 and headed the membership drive that more than doubled the chapter's active membership during that period.

Both Schultz and Barclay gave special recognition to J. Allen Miller of the Army Missile Command who actively directed the Arsenal-wide membership campaign.

The chapter also was acclaimed (See AUSA on Page 2)

LANCE HITS THE SILK—Nestled beneath six giant parachutes, more than 10 tons of Lance missile system equipment floats earthward during recent air drop tests at the Army's Yuma Proving Grounds, Ariz. The equipment, including the system's self-propelled launcher with a missile, was dropped from an Air Force transport plane flying at 1,500 feet. Shortly after it hit the ground, Army troops swooped in on the vehicle, derigged it, moved it from the drop zone and conducted tests simulating a tactical situation. Lance, the Army's newest artillery missile, is being developed as a highly mobile weapon which can be transported easily by plane or air dropped. The Lance program is managed by the Army Missile Command. LTV's Aerospace Michigan Division is system prime contractor. (See story on Page 6).

Gen. Eifler Nominated For 2 Stars

Brig. Gen. Charles W. Eifler, Deputy Commanding General, Land Combat Systems, at the Army Missile Command was among officers announced by the Department of the Army for promotion to Major General.

The nominations by President Johnson will be sent to the Senate for confirmation.

Gen. Eifler, assigned at Redstone twice during the Army career which has taken him to the threshold of two stars, has been in his current assignment since April 1963. He was Commandant of the Army Ordnance Guided Missile School from July 1959 until August 1961.

Gen. Eifler is widely recognized throughout the Defense establishment as an authority on management of complex technical programs and as one of the Army's leading experts in missiles for tactical warfare.

At OGMS, introduction of

BRIG. GEN. CHARLES W. EIFLER

Gen. Lodoen To Talk Friday

Maj. Gen. George O. N. Lodoen, USA-Ret., will speak to the Huntsville Reserve Officers Association chapter Friday evening in the Redstone Officers Open Mess.

National director of Army affairs for the Reserve Officers Association, Gen. Lodoen will discuss current legislation programmed for national defense and its impact on the armed services.

Gen. Lodoen will also make a special presentation on the same

subject at an "Officers Call" at 1:30 p.m., Friday in the Rocket Auditorium. Maximum participation of officers on extended active duty is encouraged. Civilian personnel, who are also reserve or retired officers, are encouraged to attend.

Officers on active duty at the Marshall Space Flight Center or who are in an inactive reserve are invited to attend the "Officers Call."

new instruction methods was among his many accomplishments (See GEN. EIFLER on Page 3)

ONE HARMLESS VIETNAMESE DOLL—After checking over a doll from Vietnam for a possible booby trap, Lt. Vincent P. Villani, Commander of the 13th Explosive Ordnance Detachment, puts it back together before returning it to the owner, Mrs. Betty Gold (right). Getting a closer look at the doll after it was found to contain no explosives are Johnny Halusek and Ella Mae Hensley. Looking on in the background are Mrs. Faye Hensley, holding a younger son, and Mrs. Katharina Halusek. Lt. Villani and his men have looked at more than 16 Vietnamese dolls after it was reported they might contain explosives, but none was found to be dangerous.

Participation Reaches 90 Per Cent Of People

Collections through cash donations and payroll deduction allotments to the 1966 Combined Federal Campaign have soared to a record high at Redstone with over \$240,000 already banked, a week before the end of the campaign.

The largest contribution ever collected during a single drive at Redstone lists over 90 per cent participation among Arsenal personnel.

Heading the list of percentage participation for a major organiza-

tional unit is the Nike-X Project Office with 97.5 per cent participation.

At the close of business last Friday there had been \$89,200 in cash donations made to the drive together with \$151,768 in payroll deduction allotments for an overall total of \$240,969. The contributions were made by 11,473 personnel.

The fifth weekly area chairman report boosted the Air Defense Fire Distribution Office to the 100 per cent participation Honor Roll. The office is the fifth of the 17 areas to reach the coveted rank.

B. A. Ingram, area chairman for the ADFDSO, reported that contributions had been made by each member of the 119-man office.

In releasing the fifth weekly report, Leonard Brockman, executive chairman for the 1966 drive, commended the area chairmen and their key workers for their efforts in putting the drive over so well.

He said that the campaign workers have worked tirelessly in accomplishing their additional duties. He added that their work has been especially gratifying considering the fact that an entirely new concept of fund raising had been introduced at the Arsenal this year.

This entailed a great amount of training under the one-drive per year plan with its payroll deduction privilege. Each of the chairmen adapted themselves well to the revised program and turned in an exceptionally good performance.

However, Brockman noted, the distribution of funds as designated (See CAMPAIGN on Page 2)

Army Investigates Vietnamese Dolls

Sixteen requests for examination of Vietnamese dolls suspected of possible booby trapping were received by the Army at Redstone Arsenal over the week end. None of the dolls was found to be dangerous.

This was the report made Monday morning by Lt. Vincent P. Villani, Commander of the 13th Explosive Ordnance Detachment, who had responsibility for examining the dolls.

The dolls, which had been received by family and friends of servicemen stationed in Vietnam, were brought in from various points in the Huntsville area, including Pulaski, Scottsboro and Guntersville.

A warning about the possibility that some of the dolls may have been filled with explosives came in news stories alleging that some dolls sold to military personnel in Vietnam had burst, injuring soldiers.

To be on the safe side, persons owning dolls bought in the Southeast Asia nation were advised to contact Military Police at the nearest military installation.

Lt. Villani said that further calls about the dolls would be checked out by his organization.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

Rocket Ruminations

Hearing Aids, Please

A couple of hundred seats went begging last Friday night when the U. S. Army Field Band was heard in concert in Huntsville.

It's too bad this happened because far more than a couple of hundred music lovers wanted to hear the outstanding performance this famed group of musicians gave. The two hundred who didn't hear when they could have heard have room to be bitter.

The Huntsville performance of the Army Field Band was sponsored by the Tennessee Valley Chapter of the Association of the U. S. Army. The appearance had been requested almost two years ago. The band is that popular with the public.

Supported from public funds, of course no charge is made for Army Band concerts. However, Friday night was a busy night and competition was stiff for the use of auditoriums. The 1,000-seat capacity one at Lee High School was the largest AUSA could rent to offer the public the opportunity of hearing these accomplished professional musicians. Because of this, admission tickets were printed and distributed from central points in Huntsville and at Redstone Arsenal.

The tickets went like hot cakes. A few days before the concert all distribution centers were besieged with requests. An intensive publicity campaign was waged urging persons who were holding tickets, but found they could not attend the concert, to pass them along for redistribution. As late as 4 p. m. before the performance at 8 p. m. an internal news release on the telephone news service of the Missile Command resulted in six tickets falling into the hands of persons anxious to hear the Army Field Band.

But two hundred ticket holders didn't get the message and two hundred empty seats heard a wonderful band concert . . . for free!

by the individual contributors is not going to meet the amount requested from the Huntsville-Madison County United Givers Fund.

The \$152,524 that has thus far been earmarked for the local fund raising agency is short of the \$191,000 that was turned over to the UGF last year. While the final amount to be turned over to the Madison County UGF will be somewhat higher, it is not likely to equal the donation made last year.

The big gainer in the drive this year is the National Health Agencies. The \$38,807 that has been designated for the eight organizations of this fund is considerably higher than in any previous year.

The National Health Agencies had previously participated in the Joint Fund drive with the International Welfare Agencies in the spring of the year.

AUSA

(Continued From Page 1)

on the basis of its activities throughout the year in support of Army objectives. These include four dinner meetings attended by a total of some 2,000 persons at which top-ranking officers explained Army progress in aviation. Special Forces, counterinsurgency and other topics. In addition, the chapter was lauded for vigorously assisting with manpower and money a number of localized Army activities. These include providing special AUSA plaques for outstanding students of the Army Ordnance Guided Missile School who achieve averages of 96 or better; financing of special entertainment for foreign students and their families;

and active participation in community affairs related to the Army.

The cash prize came in form of \$400 which was put up two years ago by the San Francisco chapter in the nature of a challenge for larger membership.

Dr. Schultz traveled to Washington as the special guest of Lt. Gen. Lewis W. Truman, commanding general of the Third U.S. Army in Atlanta.

GENERAL GETS CHECK—Huntsville and Madison County United Givers Fund officials turned the tables Monday. Instead of taking a check from Major General John G. Zierdt, Commanding General of the Army Missile Command at Redstone Arsenal, they gave him one. Instead of a bank check, however, it was a small gold colored pin shaped like a check mark denoting he had given his check to the fund drive. From left are: John Hatch, President of the Huntsville/Madison County UGF; Major General Zierdt, and Art Douyard, Campaign Chairman of the Huntsville/Madison County UGF drive.

GEN. EIFLER

ments. At the Missile Command he has directed all the Army's land combat weapons systems managed from Redstone including the Pershing, Sergeant and Lance ballistic missiles.

The Department of Army announcement made no mention of future duty assignments for the 36 Army Officers nominated for promotion by the President.

A native of Altoona, Pa., the 51-year-old General is a 1936 graduate of Pennsylvania State College, with a B. S. Degree in Civil Engineering. In 1948, he received a Master's Degree in Electrical Engineering from Massachusetts Institute of Technology.

Gen. Eifler began the Army career which has taken him to assignments of increased importance as a second lieutenant in the U.S. Army Reserve in 1936, transferring

to the Regular Army in October of 1940.

In Huntsville Gen. Eifler has been an active participant in many community projects and an active member of the Tennessee Valley Chapter, Association of the U.S. Army, Tennessee Valley Post, American Ordnance Association, Madison County Council of Community Organizations and Rotary.

He and Mrs. Eifler reside on Redstone Arsenal. They have two daughters, Julia Ann, married in mid-September to William Joseph Roberts, and now living in Atlanta Ga.; Mary Elizabeth, a freshman at Pennsylvania State, State College, Pennsylvania; and a son, Charles W., III, a student at Butler High School.

Nov. 20, 1948 — New balloon altitude record of 26.5 miles was established by U. S. Army Signal Corps, one of the six technical services whose materiel functions were taken over by the Army Materiel Command.

HUNTSVILLE, ALA CELEBRATING A CENTURY OF SERVICE 1865-1965

Library Offers Haven to Read and Hear Music

Libraries are becoming highly specialized in this age of technology, but the old-fashioned family kind that most cities and the Army furnish is presided over at Redstone Arsenal by Miss Norma Short.

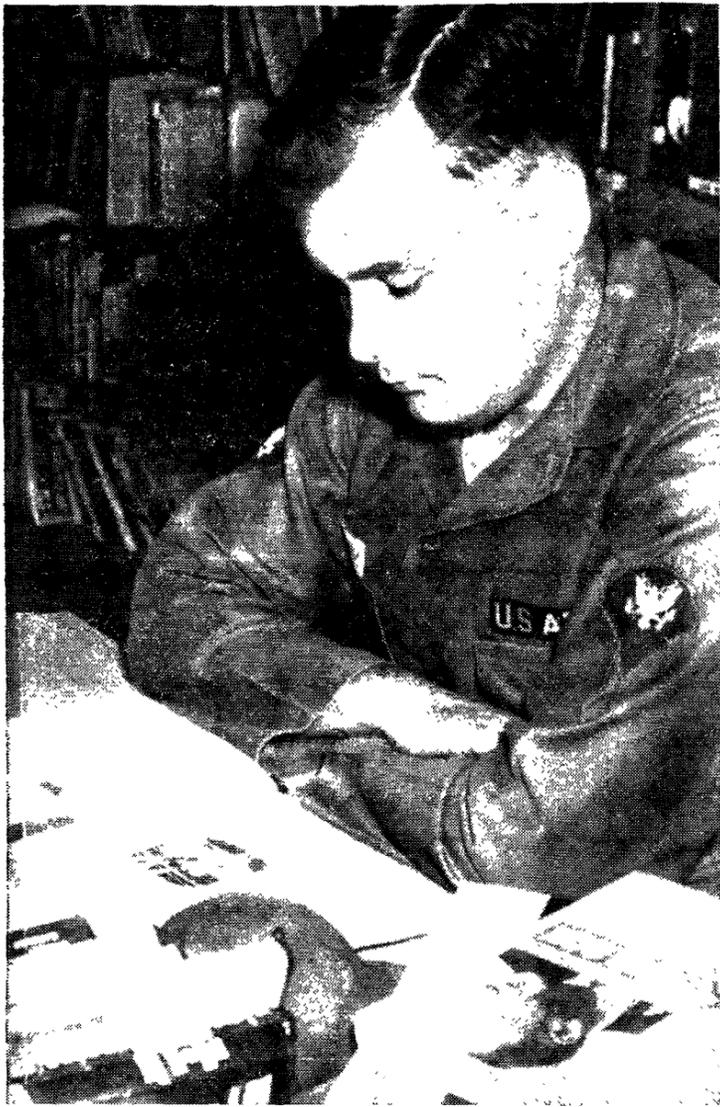

A building is shared, cheek by jowl, with the special missile technology library at the Ordnance Guided Missile School and often

the same people patronize both.

In the library provided by the Special Services Division of the Army Missile Support Command where Miss Short is, some of the most faithful users are the dependents of the military personnel stationed at the Arsenal. That includes Marines, Air Force, and Navy as well as Army and troops (See LIBRARY on Page 5)

Lance Hardware Air Drops On Yuma Desert

More than 10 tons of military hardware supported by six giant parachutes recently floated down out of the clear skies over the Army's Yuma Proving Grounds, Ariz., successfully completing another test in the development of the Army's newest missile system—Lance.

The air drop was part of an Army program to determine the effects of air delivery of the Lance. The drops were made from an Air Force C-130 transport at an altitude of about 1,500 feet.

Parachuting of the Lance hardware marks up a "first" for the system—the first time a ballistic missile system has been dropped in this manner as part of its planned development program.

Lance, which can fire both nuclear and conventional warheads, is being developed to fulfill the Army's need for a highly mobile weapon system which can be transported easily by plane or air dropped.

Early drops established proper rigging and drop procedures which then led to the more sophisticated tests. During its final tests, minutes after the Lance hit in the designated drop area, troops swooped down on the equipment, derigged it and moved it in simulation of a tactical situation.

The Army Missile Command's Test and Reliability Evaluation Laboratory was the test leader for the air drops. Many other elements of the Army Materiel Command participated, as well as representatives of the Combat Developments Command.

The Missile Command at Redstone Arsenal directs the Lance program under Col. W. E. Mehlinger, Project Manager. LTV's Aerospace Michigan Division is system prime contractor.

Prior to the actual air drops, controlled impact drops were conducted at Yuma in which equipment was dropped on concrete from heights of seven to 12½ feet. These tests provided data on such things as tie-down procedures and the capability of equipment to withstand ground impact forces.

To soften the impact in actual drops, as many as six giant parachutes were used.

Lance is the first Army missile selected to use pre-packaged, storable liquid propellants, and it will use a new modified inertial guidance and control concept which was conceived and developed in the Army Missile Command's Research and Development Directorate.

Major ground support equipment for the system includes a self-propelled launcher, a fully mobile lightweight launcher and a transporter loader. The entire firing unit is self-contained and self-sustaining on two tracked vehicles.

It has been undergoing development flight testing at White Sands Missile Range since March, 1965.

ALABAMA CLUB HONORS NIGERIAN—The first African student to attend the U. S. Army Ordnance Guided Missile School, Lt. Patrick Okaka of Nigeria, receives a certificate of appreciation from Program Exchange Club, where Lt. Okaka spoke and explained the customs of his country. Educated in Nigeria and British schools and universities, Lt. Okaka was a member of the first ammunition officer course to be graduated here since the Continental Army Command concentrated all its Class V (ammunition) training at Redstone Arsenal.

Claims Officer Settles A Whopper

When an insurance agent this week handed him a check for more than \$22,000, Capt. A. A. Windell at the U. S. Army Missile Command didn't have visions of going on a buying spree.

The money isn't his to keep. The check was compensation to the Army, collected by Capt. Windell as part of his job as Claims Officer in the Staff Judge Advocate's Office.

"This claim is the largest our office has collected," the Army lawyer said. "And so far as we can determine, it's the largest any claim office has collected below the Department of the Army level."

As Claims Officer for the Missile Command, Capt. Windell normally processes about 250 claims a year—both for and against the government. Most of these, he said, are claims against the government for such things as damage to household goods when Military personnel are transferred. Some others fall under the Federal Tort Claims Act which stem from automobile accidents involving government vehicles.

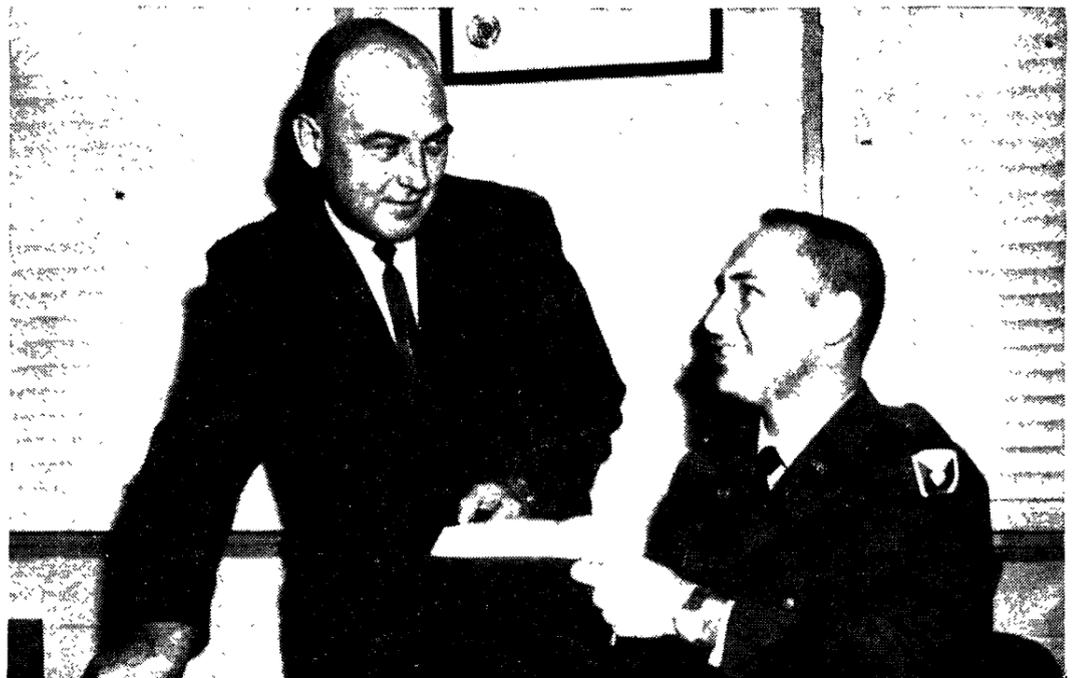

Capt. Windell said this act covers not only government vehicles but government employees driving private autos on official business.

A few claims that cross his desk are the result of fires or other mishaps which occur in government housing.

This particular claim, for \$22,830, was payment to the government for damage caused earlier this year when several cameras on one of the Missile Command's test ranges were smashed. The cameras had fallen from a 400-foot tower which a contractor had

just completed.

Although the tower wasn't completely finished, contractor approval had been given for use of the tower. Cameras, mounted on a platform, were to be used on the

WINDELL RECEIVES CHECK—Capt. A. A. Windell accepts a check for more than \$22,000 from Joe Jennings, representing a Huntsville insurance company. The check was for damages to government equipment. Capt. Windell, who is Claims Officer for the Army Missile Command, handles about 250 claims a year—both for and against the government. This check was the largest the Army officer has handled.

The Redstone Rocket —
October 27, 1965 Page 6

• The Army's familiar SERGEANT missile is getting a face-lifting in the form of the latest advances in fire control and ground support systems. A team of engineers is traveling around the world to modify the on-site missiles in Europe, the Pacific, and the continental United States. SERGEANT is a mobile surface-to-surface ballistic missile capable of carrying nuclear and conventional warheads. (ANF)

tower to take pictures of one of the Army's smaller missile system firings.

In the first use of the tower, the platform, carrying the cameras, fell to the ground from about 300 feet. This brought Capt. Windell and the Claims Office into the picture.

Capt. Windell conducted an investigation, found a malfunction and concluded the contractor was liable for damages. The Claims Office made a written demand for damage and several weeks of negotiations and investigations followed.

The climax came this week with presentation of the check for damages.

As part of his duties, Capt. Windell investigates and processes claims, then makes recommendation on action to be taken. His recommendations are forwarded to Lt. Col. G. C. Eblen, Staff Judge Advocate, who is the approving authority.

A native of Evansville, Ind., Capt. Windell received his law degree from Indiana University in 1963. He has been stationed at Redstone Arsenal, as Claims Officer, for more than a year.

Owens Tells Personnel Administrators To Tailor Jobs To Fit Handicapped

The Society for Personnel Administration, Huntsville Chapter, heard Clinton Owens, District Superintendent of the Huntsville Office of the Alabama Vocational Rehabilitation Service speak on "Rehabilitation and Placement of Handicapped People."

Introduced by the program chairman, Delbert Spears, Owens told the meeting of the local business and government personnel administrators that Alabama's Vocational Rehabilitation Service was available for rehabilitation, placement and possibly recruitment of physically and mentally handicapped personnel. Owens pointed out that sometimes it is necessary for employers to "tailor a job for the handicapped person," rather than the usual employment practice of "finding the man for the job." By rehabilitating a person so that his earning power is increased or restored, the community as a whole will benefit.

Sharing the program spotlight, James Record, Chairman of the

Madison County Board of Commissioners and co-chairman, Space Science Exhibit Center, unveiled the artist's drawing of the Alabama Space Science Exhibit Center.

Record discussed proposed \$1.9 million facility, which is to be voted on by the people of Alabama as Amendment No. 3 on Nov. 30; and which estimates show draws 500,000 to one million visitors annually to Huntsville. The center will be located where the Army's Missile Display Area is presently—off Patton Road north of Goss Road on Redstone Arsenal. If Amendment No. 3 passes on Nov. 30 and the Center is built, Huntsville can share with the entire nation our pride of the space and missile accomplishments developed in Alabama.

John Hinkle, President of the Society for Personnel Administration Huntsville Chapter, offered the group's unanimous endorsement of the Science Center and en-

couraged active support of Amendment No. 3 for a "yes" vote Nov. 30.

Rites Held For Dr. Hart

Funeral services for the Rev. Dr. George Fredrick Hart, 56, pastor of St. Mark's Lutheran Church, Huntsville, were held Monday in the sanctuary of the church where he was pastor for nearly 15 years.

Burial followed in Huntsville's Maple Hill Cemetery.

The Rev. Hart died Friday night in a Huntsville hospital following a three-week illness. Along with his many other civic activities he was a charter member of the Huntsville Army Advisory Committee.

Survivors include his wife and two sons, all of Huntsville.

Births At Post Hospital

Lori Jean Standley, Oct. 18, daughter of 1/Lt. and Mrs. Phillip Standley.

William Sorden, Oct. 17, son of CWO and Mrs. Edward H. Sorden.
John Michael Wallace, Oct. 16, son of SSgt and Mrs. Lawrence J. Wallace.

Jerry Daniel Copeland, Oct. 18, son of SSgt and Mrs. James V.

Copeland.

Marvin Kurt Steele, Oct. 16, son of Navy E-6 and Mrs. Dewey R. Steele.

Daniel Ray Reynolds, Oct. 18, son of Sgt and Mrs. Levi Ray Reynolds.

Alton Dee Day, Oct. 19, son of Retired Po 2 Navy and Mrs. John Day Jr.

Cindy Ann Sekelsky, Oct. 17, daughter of PFC and Mrs. Joseph W. Sekelsky.

ATTENTION SERVICEMEN

FREE estimates for claims purposes on any damaged electronic item, brought to our store. We will outfit your home with one item or any selection of RCA Victor TV, stereos, radios, tape recorders, or RCA Whirlpool washers, dryers, refrigerators, freezers, dishwashers, or air-conditioners. Hughes Awarded \$1 Million Plus SAM-D Contract

A \$1,249,287 contract for continued work on the new SAM-D concept of air defense for the field Army was announced today by the Department of the Army.

The cost plus fixed fee contract was made to Hughes Aircraft Company, Fullerton, Calif. A similar contract, was made a week ago to Radio Corporation of America, Moorestown, N. J. These two contractors are heading teams handling preliminary development of system components.

SAM-D (Surface-to-Air Missile—Development) is planned for use primarily against high performance aircraft, but with some defense capability against short range tactical missiles. It is a new look at what field commanders can expect in the 1970's, and may eventually replace the Nike Hercules and Hawk systems.

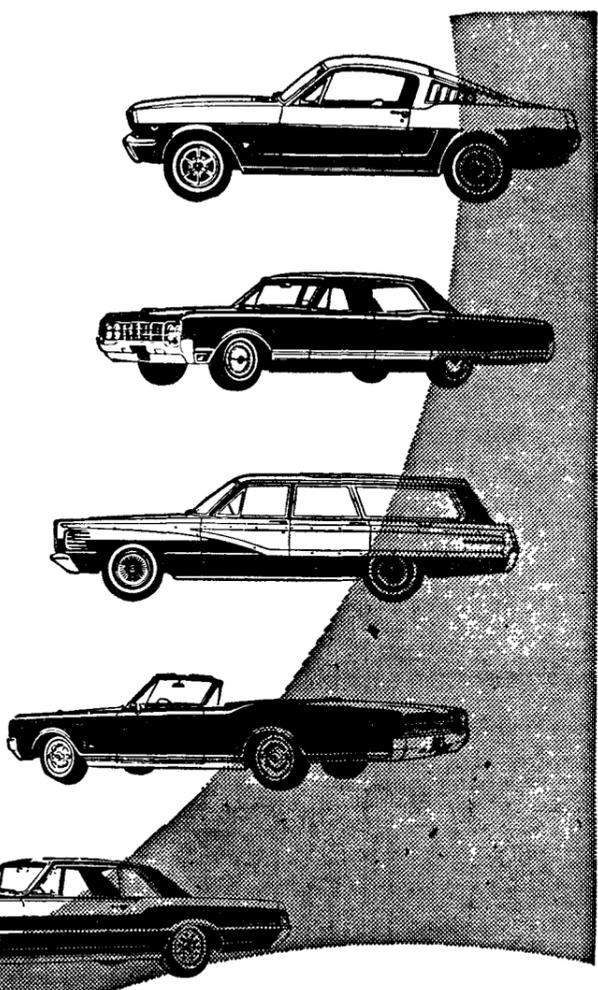

The U.S. Army Missile Command at Redstone Arsenal, Ala., manages the advanced air defense system. Col. B. R. Luczak is SAM-D Project Manager.

The missile system will be highly mobile with units mounted on standard tracked or wheeled vehicles, but also could be employed in semi-fixed installations. It will include advanced radars, computers, data processing techniques and missile components applicable to a wide range of possible future air defense systems.

The Los Angeles Procurement District of the U.S. Army Materiel Command awarded the contract.

Harvest Ball Draws Capacity Crowd To Dance

The Third Annual Harvest Ball to raise money for charity, including the Army Distaff Foundation, was highlighted by supper, a floor show and dancing to the music of the Missile Aires under the Direction of CWO Robert E. Edmonds, Jr.

Chairman for the annual event was Mrs. C. C. Harvey, Jr. whose committees were headed by Mrs. Morris W. Pettit, hostess and protocol; Mrs. B. R. Luczak, entertainment; Mrs. Harold Zier, decorations; Mrs. J. G. Higgins, menu; Capt. Safron Canja, tickets; and Lt. William E. Lynn, assistant.

Approximately 500 attended the event at the Redstone Officers Open Mess. The Orbit-Aires, a barber shop quartet, sang at the evening's opening and at dinner. The quartet includes Blair Walker, baritone; Jack Fohner, lead; Ver-

non Nelson, tenor, and J. E. "Pop" Bunn, bass.

The floor show was introduced by Col. W. E. "Rusty" Mehlinger as master of ceremonies. Mrs. Arthur E. Harvey, Jr. sang the blues accompanied by the band and Pete Riblet presented a variety dance. Lyn Elder accompanied his folk songs on the guitar. Another quartet, the "Chapel Four" presented a variety of songs. These include Samuel Turner and Bernard Johnson, first and second tenors and Bernell Mapp and Raymond Humphrey, first and second bass.

Cornucopias of fruit and gourds spilled among the vines on the supper tables. Cloths were pumpkin-shaded and harvest moons were used to identify places. Candles glowed in silver candelabra, lending sparkle to formal dress and jewels.

HARVEST BALL COMMITTEE MEMBERS—(Left to right) Lt. William E. Lynn, Mrs. B. R. Luczak, entertainment; Mrs. J. G. Higgins, menu; Mrs. C. C. Harvey, Jr., chairman; Mrs. C. D. Sterner, Redstone Officers Wives Club president; Mrs. Morris Pettit, hostess and protocol; Mrs. Harold Zier, decorations; Capt. Safron Canja, tickets. This is the third annual charity ball the Redstone Officers Wives Club has sponsored.

Volunteers To Have Coffee Receive Caps Next Week

Red Cross Volunteer schedules are heavy with social as well as service work next week.

A Coffee will be held at the Redstone Arsenal Sportsmen's Club above the Arsenal Post Office at 10 a.m. on Nov. 4. Uniforms with white gloves will be worn by the

Volunteers.

Mrs. William Shunk, 877-4542, is accepting reservations until noon Tuesday.

Rehearsal for capping of new Volunteers is set for 6:30 p.m. Nov. 5 at the Post Chapel. Anyone unable to attend who has earned a cap has been asked to contact Mrs. Glenn Crane, 877-4037 or Mrs. William Shunk.

The real capping is set at the Post Chapel at 7 p.m. Nov. 8. Twenty-two women and one man are scheduled to receive caps at the candlelight ceremony. Families and friends are being encouraged to attend.

The ceremony will be followed with a social hour in the Chapel Social Room.

Mrs. Garrabrant Wins At Bridge

Monday night six tables of bridge were in competition at the Redstone Officers Open Mess.

High scorers for the evening were Mrs. Andrew Garrabrant, first; Mrs. Lella Mullins, second; and Mrs. Owen W. Wilson, third.

Reservations to play with the Monday night group are handled by Mrs. Raymond Astor and Mrs. Peter Kostoff.

Mrs. Collins Wins Thursday Bridge Game

Among the ten tables in competition at bridge sponsored Thursday by the Redstone Officers Wives Club, Mrs. T. L. Collins won. The group plays at the Redstone Officers Open Mess.

Second high was Mrs. B. A. Saholsky with Mrs. R. U. Scott in third place. Low was Mrs. J. F. Ray.

Reservations to play with the group are handled by Mrs. A. V. Garrabrant.

Red Cross Volunteers To Learn About Clinic

Red Cross Volunteers will receive two days of instruction on work assignments at the Post Dental Clinic Nov. 1-2 between 8:30 and 11:30 a.m.

Col. James T. Thompson, Post Dental Surgeon, will conduct the course.

Volunteers interested in joining

At The Service Club

By BETTY HAYES

Do you have that costume ready for the Halloween Dance? Only four more days until the big event. Details on this and other Service Club activities will be given as you read this column.

The travelogues tonight begin at 7:30 p.m. The adventures are guaranteed to take you to exciting places.

Card favorites will be played Thursday at 8 p.m. while bridge night is scheduled for Tuesday at 7 p.m. If you enjoy cards, mark your social calendar for these events.

I bet that you are wondering at this point when the contests will be. Here's the information - on Friday night a pool contest will begin at 8 p.m., and a pinochle contest will take place on Saturday at 7 p.m. Remember the more that enter; the bigger the prizes.

For tasty refreshments stop by the Service Club on Saturday afternoon at 3:30 p.m.

Coffee call begins on Sunday at 9 a.m.

As I mentioned earlier, the Halloween Costume Dance is scheduled Sunday at 8 p.m. Prizes will be awarded for the best costumes. Why not see if you can leave with one. Don't say that you haven't had enough time to get a costume together because I have mentioned the program throughout Oct-

the Dental Clinic staff but have not had a chance to sign up can do so by calling Mrs. Charles Swick, 877-5372.

ober in the news articles.

If you don't win the prize for the best costume, you will still enjoy dancing to the beats of the Count Downs, Smithy, Kirby, Jim, Mac, and Larry. Sunday evening will be the last night for the Count Downs since two members of the group will be leaving Redstone Arsenal. To the group I would like to say that you will be missed at the Sunday night dances.

Gary Cuthbertson, 4th ETC, was the winner of the shuffleboard contest for October, and Ernest Ziemski, 2nd ETC, came in second.

Congratulations to Randy Zemel, Marine Training Detachment, who named the mystery tune for "Stop the Music" in October.

See you at the Service Club.

GEM EXHIBIT

The Huntsville Gem and Mineral Society plans to exhibit stones, jewels and jewelry of members in Dunnivant's Mall Nov. 6.

The exhibits will open at 10 a.m. and close at 10 p.m. Coordinator is the Society's president, Alton Hooker.

NUCLEAR CONFERENCE—Some 200 persons interested in what nuclear blasts do to missiles are shown at Redstone Arsenal. The meeting was sponsored by the Defense Atomic Support Agency (DASA) in Washington with the U. S. Army Missile Command as host. Lloyd Lively, Special Assistant to the Missile Command Director of Research and Development was Project Officer. Shown here checking in with receptionist Margaret Hanson Ellett of the Directorate of Research and Development are (left to right): Lively, Col. George Hasselbacher, Chairman of the Blast and Shock Division of DASA; and Jack R. Kelso, Chairman of the Air Blast Branch, DASA. Col. Hasselbacher and Kelso were conference chairmen.

• Unit personnel officers will be relieved of their pay responsibilities under a recently approved plan to modify the Army's Military Pay Voucher System. All pay operations will now be centered on the finance officer who is already

legally financially responsible for payment of military pay and allowances. Pay files and associated personnel will be physically relocated in the finance office. A DA directive will be published to outline the change-over. (ANF)

The sign of confident borrowing

for 150,000 servicemen every year

More than 150,000 servicemen put their trust in the HFC sign every year. A sure sign—of prompt, understanding loan service. With 1400 stateside offices, HFC can serve you too—wherever you're stationed. And Household can transfer and service your account wherever you're moved—even overseas. So for all loans, look to the sign of the oldest, largest company—HFC.

Hawk Instructor Addresses Grads

One of the most widely dispersed missile weapons in the free world is the Hawk, Lt. Robert A. Mann told the graduating class at the U. S. Army Ordnance Guided Missile School.

Mann, who is an instructor in the Hawk Division of the Air Defense Department, was guest speaker at commencement ceremonies Friday to three classes of the missile repair course. Speaking to 20 U. S. Army and 7 U. S. Marine Corps graduates, he explained how the Hawk has been adopted by the U. S. Army, the Marine Corps, and 17 foreign nations and stated that it is the first missile to be positioned in combat in Viet Nam with the Marine Corps.

Lt. Mann was introduced by Lt. John E. Merz, an instructor in the Nike Division of the Air Defense Department.

Cited as honor students were SP4 Edmund L. Gerheuser, Jr., in Hawk Pulse Acquisition Radar and Battery Control Repair; SFC Robert M. Petitpas in Hawk Continuous Wave Radar Repair; and USMC Pvt. Kenneth F. Broomell in Hawk Internal Guidance and Launcher Electronic Repair.

Nearby there is a picture of a very good looking girl resting her hand on a globe and holding a leaf out of a calendar. On the table in front of the globe is a pith helmet and an unsmoked cigar that look as if the photographer forgot to clean up the place before shooting the picture.

Somewhere in all of this there is a story. First off, the girl is Sandy Atkinson who is a secretary at the Nike-X Project's Kwajalein Test Site in the Pacific. She works for Lt. Col. Bryant who was at the Nike-X Project at Redstone a couple of years ago.

The hat and cigar are mementoes from the days when Col. Glenn Crane now Deputy Chief of Staff at the Missile Command was Commanding Officer of the Kwajalein Test Site. Twas said that General MacArthur had his corncob pipe, General Patton had his pearl handled

45's—and Col. Crane had his pith helmet and cigar.

The story is this. One year ago on October 31 the Kwajalein Test Site managed to lose a whole day—24 hours. Nobody flipped a page on the calendar. Those who had them turned their calendar watches off for a day and everybody took two Saturdays, back-to-back.

The reason was that Kwajalein, being on the far side of the International Date Line, was a day ahead of the United States—

This fouled things up as far as communications were concerned. So, everybody there just marked time for 24 hours and took two Oct. 31sts. Then, when Sunday, November 1 arrived here they picked up the time again and it was also Sunday, November 1st there.

Confused? Forget it. We only did the story to have an excuse for using the picture.

WOW—Obviously this is a picture of a very pretty girl. If for some strange reason you're interested there's a story hereabouts that tells what this picture is all about.

Tom Lindsay Makes Second Honor Roll Appearance

PARADE OF STARS

Supply Management League: Tom Lindsay, 609 (213-208), John Montana, 587 (221), Joe Hill, 585 (206-200), Charley Reimer, 568 (211), Fred Stewart 565 (205), Howard Lee, 559, Hal Miller, 545, Bob Holloman 544.

AMC League: Howard Helmick, 579, Al Stevens, 573 (241), Ken Bell, 560 (211), Paul McLin, 552 (214), Don Ellerbe, 530.

Field Services League: Tom Childress, 552 (220), Mel Berger, 541, Bob Adams, 558, Sam Boda, 536, Bill Lasewicz, 534.

Redstone League: Ed Murrah, 568 (226), Lew Crouch, 567 (201), Bill Davenport, 553, Bill Corley, 552, Rufus Gattis, 546 (208), Jim Gulley, 544.

While bowling activity in three of the civilian leagues seems to have gone into something of an eclipse, at least the scores have, the Supply Management League continues to be a high-scoring wheel.

In last week's firing the bowlers in the other three leagues really had a scrap to find totals of over 550 while the Management League had its usual 600 total plus five others who passed the 550 mark.

Tom Lindsey was the top man again as he became the first bowler to hit a pair of Honor Roll scores with a 609 in the tough Monday night loop. Tom started out with a 188 and then came rolling in with games of 213 and 208 for his Bowler-of-the-Week performance.

John Montana was not far off the Honor Roll pace with his 587 that led Bramblets to a sweeper over the Top Cats. Charley Rymer pitched in with a 568 as Bramblets put together a 2962 total and a 1033 game.

Joe Hill also came through with an outstanding effort when he rolled a 585 as All-Sports took a sweep from the Manglers with a 2912 total.

Jones Lumber was held to a split in their match, but it was enough to hold onto first place with a one game bulge over the Jay Hawks and the Debuggers.

When it comes to a close league race, the Redstone loop really knows how to knot things up. The other Monday night league has two teams crowded into first place with another four just a half point off the pace. As a matter of fact the 15th place team is only five and a half points out.

But high scores was something that the league just about didn't have last week — blame it on the

tenseness of the league race.

Ed Murrah, an old-hand at tossing good totals, was up to his tricks with a 568 that included a 226. Lou Crouch was next in line by the narrowest of margins with his 567, and Bill Davenport put together a 553 effort.

The Valley Cleaners captured three to take over a share of the lead with the Photo Lab as Sanders Motors dropped all four and fell from first to tenth. Third place is shared by the Six-Shooters, Giles Garden Center, Dean's Trailer Park and Ginger-Ruth.

Scoring in the AMC League was just about as scarce although Howard Helmick did his best to uphold the league honor with a 579 without a 200 single, for the Skippers.

Bill Stevens was just about as tough with a 573 with a 241 game for the Cavaliers, and Ken Bell was just as effective as ever with a 560 for the Stars.

The league leading Maulers suffered through their second straight "off-night" and fell into a tie for the lead with the Bombers by winning a single game. The Bombers made the Lancers their second straight victim of a sweep.

The Cavaliers put together the top team efforts when they tossed a 1108 game and a 2969 series.

Bob Adams was the top bowler in the Field Services League, although his 558 was not much more than his average. Tom Childress was second with a 552, including the best game, a 220.

The Chiefs took three points to hold onto their two game lead.

Arsenal Pistol Team Takes Memphis Meet

The Redstone Pistol team dominated the winners circle recently when they went to Memphis to compete in the Fall Pistol Tournament in that city.

The four-man Redstone team composed of Jim Degen, Ralph Kreps, Francis Gurecki and Paul Kulick captured six first place awards, ten seconds and seven third place awards. In addition they accumulated two open award winners and won the Center Fire team Match.

Degen set the pace for the local shooters with the two Open award winners, a first, three seconds and four thirds in the Master class. Kreps was also entered in the Master class and he took a pair of firsts, three second and three thirds.

Gurecki dominated the Expert class with three first and four seconds.

'Rough' Is Lucky For Local Golfer

In his years of logging yard after yard on the golf course Bill Donehoo has never hit a hole-in-one, but last Saturday afternoon he made his luckiest shot. It led him to \$500.

Donehoo, an employee of the U.S. Army Missile Command, was at the Monrovia Golf Course. "I had just got off my second shot on No. 4 hole and was walking down the fairway," he said. "Looking down in the grass, I saw this ring."

The thought raced through Donehoo's mind that he had read a notice on the clubhouse bulletin board which told of someone losing a valuable ring on the course.

It turned out that this was the ring—studded with a four-and-a-half carat diamond—which had been lost by Nolen Drake of nearby Madison more than a week earlier. "It sure did sparkle in the sun," Donehoo said. "I knew it wasn't glass."

Donehoo was in a foursome that had intended to play 18 holes, but the lucky golfer was so excited that he cut his time on the course to nine holes. He returned the diamond ring, valued at more than \$6,000, to its owner and collected the \$500 reward.

At the Missile Command, Donehoo is Chief of the Performance Branch in the Hawk Project Office's Procurement and Production Division.

Rollers Black Jacked But Hold Onto Lead

The Blackjacks provided most of the fireworks during last week's action in the OGMS Officers league at the Arsenal Lanes when they fired a 2814 total series for a 3 to 1 win over the league leading Rocket Rollers.

The loss was not enough to dislodge the Rollers from the lead but it did reduce their leading margin to a point and a half.

Orrin Butterfield led the Black Jacks in their assault on the Leaders with a 541, high for the week. Tom DeLoach added a 530 and George Earle chipped in with 527. Byron Sato tossed a 534 in the los-

Redstone Riflemen Continue To Excel

Thirteen individual awards plus the Expert and Marksmen Grand Aggregate composed the loot for the Redstone small bore rifle team following the Fall Small Bore Rifle championships in Atlanta this past week end.

Five riflemen represented the Arsenal in the meet against some of the most competent shooters in the southeast, both military and civilian.

They were Staff Sergeants Adolpho Salazar, Joseph Galipeau, Larry Larson and Lewis Marler, and Specialist Cecil Fain.

Adams, Dozier Too Much for Hopefuls

With George Adams and Dave Dozier setting a hot pace, the Wheelers swept aside the Hopefuls last week to protect their lead in the A-B-C Officers Bowling League at the Arsenal Lanes.

The Lucky Strikes were just as effective as the leaders in scoring a sweep over the Stump Knockers. However, they had to be content with holding onto the league's runner up slot.

Adams rolled a 227 game on his way to a 583 set and Dozier chipped in with a 550 to turn the Hopeful hopes into a hopeless cause.

Trevor Dumitru tied Dozier for the second high individual total with a 550 that included a 226 game and Bill Loomis added a 539 for the Saturn V cause.

Karl Bayer put together the best game of the week when he tossed a 229 and ended with a 531. Pete Littlefield totaled 534 and Eric Mauerhoff topped 532 sticks.

The Bad Gnus scored the only sweep of the week at the expense of the Satellites and moved into second place. Gary Hitt hit for 525 for the Gnus.

In other matches the Rounders took the Squirrel Hill Mob, 3 to 1, and F Troop split with the Missiles.

Ducks Unlimited To Meet Nov 4

Ducks Unlimited will sponsor the annual waterfowl hunters rally Nov. 4 at 7 p.m. in the Madison County Coliseum. Last year's meeting was the largest such gathering ever held in North Alabama.

Highlights of the program this year will be a new color film on waterfowl, a report on the Wheeler National Wildlife Refuge hunt and a talk by Fred W. Stanberry, Director of the Tennessee Game & Fish Commission.

A drawing will be held again this year for door prizes. There is no admission charge.

Ducks Unlimited is a non-profit organization dedicated solely to the conservation of waterfowl and the perpetuation of duck hunting. The local meeting is one of many held throughout the country as a means of recruiting new members and raising funds for construction and maintenance of duck breeding areas in Canada.

The Coliseum seats 2,000. Doors will open at 6:30 p.m.

Employees Ready To Present Series Of Tech Papers

Ten employees of the Army Missile Command's Research and Development Directorate are slated to present papers in a series of technical conferences scheduled throughout the United States.

Seven men, from the Physical Sciences Laboratory, will present papers at the Southeastern Section Meeting of the American Physical Society, to be held at Charlottesville, Va., Nov. 1-3. These include:

Dale R. Koehler, "A New X-Ray Spectrometric Technique"; Thomas G. Miller, "Diamond as a Neutron Scintillation Counter"; John T. Grissom, "Spectral Information and the Experimental Resolution Problem"; Romas A. Shatas, "Vibrational Spectrum of Neutron Irradiator MgO"; David W. Howgate, "Local Phonon Spectrum in F-Center Absorption"; Ronald W. Mitchell, "The Infrared Spectra of Normal, Imine-Deuterated and N-15 Ethyleneimine"; Thomas G. Roberts, "Intense Pinched Beams of Relativistic-Electrons."

H. W. H. Dykes, a research chemist in the Propulsion Laboratory, will present a paper, "Rapid Determination of Oxidation Inhibitors and their Homologs." This presentation will be made at the Southeast - Southwest Regional Meeting of American Chemical Society at Memphis, Tenn., Dec. 2-4.

E. M. Pierce, also of the Propulsion Lab, will present the paper, "Crosslinking of Nitro Cellulose and Polybutadiene," at Picatinny Arsenal on Nov. 3.

Larry C. Atha will present a paper, as co-author with Thomas G. Wetheral, entitled "Fluoric Controls, A Description of Available Components and Current Applications."

Both Atha and Wetheral work in the Army Inertial Guidance and Control Laboratory. The presentation will be made at the Annual Meeting of the American Society of Mechanical Engineers in Chicago, Ill., Nov. 8-10.

TRAINING INSTRUCTOR OPENINGS

The U.S. Civil Service Board of Examiners at Redstone Arsenal has announced openings for training instructors in ammunition and electronic fields. The announcement is AT-35-26(65).

Grades will be established at GS-5, \$5000 a year to GS-11, 8650 a year.

The new register will supersede those established in the past. If anyone wants to be considered, he must re-establish eligibility.

ROADS Scholars Will Be Procurement Experts

The Army Missile Command is going to have its own brand of "ROADS Scholars" next month under a new project designed to provide a sound base upon which to build for managerial and supervisory positions, according to an announcement made this week by Colonel B. A. Saholsky, Director of Procurement and Production.

Project ROADS, which stands for Replacement Opportunities as Developed Specialists, is the brain-child of the Procurement and Production Directorate. The program is tailored to cover all aspects of procurement practices, and is the proposed answer to urgent needs for new blood who appear to possess potential for growth in first line supervision and to progress into more responsible management areas.

When the Army Missile Support Command Civilian Personnel Office surveyed current and future losses of personnel through retirement and normal attrition, the projected results revealed that losses in this area would amount to 130 people of which approximately 90 percent would be individuals of supervisor or top managerial caliber.

Faced with this problem, a study was made to immediately establish a comprehensive program suitable for insuring a timely and steady flow of highly-qualified professional personnel into the work force.

The first carefully selected class of Missile Command employees is scheduled to begin year-long studies in mid-November.

Entrance to the course is almost as difficult as getting a genuine Rhodes Scholarship!

When Missile Command employees were canvassed for applicants to the course, some 130 responded. From this group 18 were selected after thorough screening of their qualifications. First requisite for an applicant is a passing grade on the Federal Service Entrance Examination.

The applications were reviewed by a panel consisting of people from various segments of the Procurement and Production Directorate and a representative from the Civilian Personnel Office. After narrowing the field, oral interviews were conducted to select the candidates with the greatest potential

for procurement management development.

Most of the successful applicants have bachelors degrees in business subjects, others have comparable experience, or had high scholastic ratings in their schools.

The portion of the classroom training conducted on the Arsenal will be in Bldg. 4488. The course instructors will be competent procurement personnel who can pass on the managerial and supervisory knowledge they have gained from years of practical experience in application of procurement procedures. The instruction will supplement the normal procurement training courses offered by the Army's Logistic Management Center, which is also a part of the program.

During their year of instruction, the class will cover in depth such subjects as small purchases, formal advertising, programs and budgets, procurement planning, negotiation procedures and contract administration, will make field trips, and participate in on-the-job training.

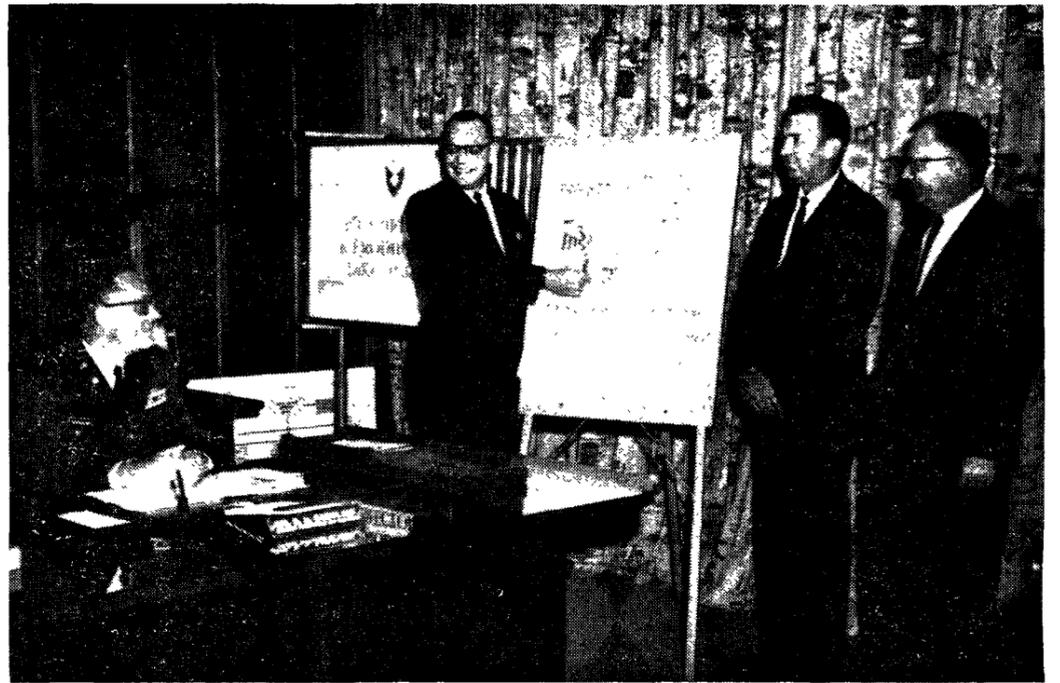

While undergoing training, the class members will receive broad exposure to all aspects of procurement activity as well as becoming familiar with other elements of the Missile Command.

As a result, when an individual has completed this course and has been assigned to his permanent position, he will have a firm grasp on the overall picture rather than a limited view confined to the work in his own office.

This would be similar to the programs followed in some industries where newly employed college graduates spend time working in different areas of the company organization so they ultimately have an understanding of every function of the organization.

Those selected for the first class are: Jay C. Billings, James E. Brannon, Armistead M. Bolling, Georgia Coll, Patrick R. Davis, Linda S. Evans, Elizabeth S. Glover, Douglas D. Goodman, Harold W. Hunt, Benny M. Hyatt, Vernon A. Kerry, Edward M. Lewis, Sarah A. Newman, Raymond L. Nowell, Zane M. Phillips, Thurman A. Spangler, Houston N. Townsend, and Chester M. Tuttle.

All arrangements for Project ROADS were formulated by W. E.

NEW "ROADS" TO TRAVEL—Col. B. A. Saholsky, seated, Army Missile Command Director of Procurement and Production, listens to a description of detailed final plans for a new year-long course in procurement practices for Missile Command personnel. Standing, left to right, are W. E. Kirk and Vernon L. Wooten of the Directorate who have been responsible for planning the advanced training, and F. B. Adams of the Missile Support Command Civilian Personnel Office, who assisted in selection of the first candidates for the comprehensive course designed to prepare people for future top managerial and supervisory positions. "ROADS" stands for Replacement Opportunities As Developed Specialists.

Kirk and Vernon Wooten in the Procurement Training Branch of their directorate, in consultation with F. B. Adams of the Civilian Personnel Office.

Project ROADS is loaded with all kinds of potentials for the future. It will provide a means for fulfilling the recurring need for experienced professional procurement personnel, and provide a useful tool in recruiting young talent. Its format may be applicable for training other than procurement people.

The project will make the Federal career program in the procurement field particularly attractive to college students. It will be a great aid in recruiting some of the more outstanding seniors just prior to graduation.

WACS FROM ASIA TO VISIT SCHOOL

Two officers from Japan's newly organized Women's Army Corps along with another from the South Vietnamese Army's Women's Corps will visit Redstone Arsenal Thursday and Friday as a part of a hospitality program arranged by the Foreign Liaison Office of the U. S. Army Ordnance Guided Missile School.

Japanese WAC Lieutenants Kazuko Watanabe and Yoko Naganuma and Vietnamese Lt. Luu Thi Huynk Mai, escorted by U. S. WAC Maj. N. M. Lowry, will come to Redstone Arsenal from the U.S. WAC Training Center and School at Fort McClellan, where they are currently training.

The visitors will be house guest of Maj. and Mrs. R. W. Riehm and Capt. and Mrs. D. M. Landram. The major and the captain are in charge of the Missile School's Foreign Liaison Office.

Tours of points of interest on the Arsenal and in Huntsville have been arranged. Highlights include a visit with Japanese students training on the Hawk Missile system and a dinner with Japanese officers at the Officers Open Mess Friday evening.

University Offers Aerospace Degree

Dr. J. R. Cudworth, Dean of the College of Engineering at the University of Alabama, has announced a new graduate curriculum at Huntsville which will permit the awarding of an M.S. degree in Engineering with a major in Aerospace. "The aerospace major has been updated to meet new developments in this scientific age,

and should be of special importance to the Huntsville area," Dean Cudworth said.

The faculty at Huntsville in Aerospace Engineering include Dr. J. Brainerd, Dr. R. Hermann, Dr. S. Hu, and Mr. R. Wood. Faculty from the Tuscaloosa Campus will assist in certain aspects of counseling and guidance in this program. Well qualified engineers employed in the Huntsville area will continue to assist in the program by providing instruction on a part-time basis.

Engineering students may now complete Master's degree programs in Huntsville while majoring in aerospace, electrical, engineering mechanics, industrial, and mechanical engineering.

A number of graduate students at Huntsville have been pursuing an aerospace curriculum, but until now, at least twelve semester hours of course work were required on the Tuscaloosa Campus to satisfy the residency requirement. Previous course work taken by these students will be validated for degree credit within existing University degree requirements.

"The aerospace engineering program, as now constituted, provides a much-needed addition to the University's program at Huntsville," Dr. Charley Scott, Director of Instruction in Huntsville, said.

Army Field Band Delights Huntsville

The lilt of an Irish jig, or the Pied Piper call of a good marching tune, the gypsy rhythm of the Spanish dance—a true musical potpourri was presented by the U.S. Army Field Band at Lee High School Auditorium Saturday night for an audience of about 1000.

The Band is famed in 15 countries and all the 50 United States for the variety of its musical format and the excellence of its musicians and chorus.

The director is Lt. Col. Robert L. Bierly whose troops tour in three modern buses, four trucks, and two sedans. The Army Field Band is one of the U.S. Army's three special 100 piece bands. One is at home at West Point and the

WRITES HOME—Sp6 Robert L. Throne uses a crate to write a letter home while he awaits his musical cue. He is a member of the U.S. Army Field Band which will wind up a tour of Southern States Nov. 1 and return to the Washington area. The makeshift desk is backstage at Lee high school Saturday night.

LT. COL. ROBERT L. BIERLY
Band Director

other in Washington, D.C.

Among the countries the Army Field Band has visited are: Yugoslavia, and Scotland. They played at the New York World's Fair, and have participated in presidential inaugurations.

The present tour of the South-

east will end on Nov. 1.

More than half of the band members are career Army men.

Nov. 11, 1936 — Stratosphere flight was made by Army pilots in balloon "Explorer" over South Dakota, reaching an altitude of 14 miles.

SELLING AT
ASOLUTE
SATURDAY, OCT. 30, 1965 — 10:06½ A.M.

AUCTION

The 194 Acre Farm Belonging to Mr. and Mrs. Harry Bryan Known As Cloverdale Farm, Located 6 Miles West of Pulaski, Tennessee, and 11 Miles East of Lawrenceburg, Tennessee On U. S. Highway 64. Only 45 Miles Northwest of Huntsville, Alabama! This 194 Acre Farm Will Be Offered In 5 Tracts And Then As A Whole. The Highest Price Will Determine The Sale.

The FARM consists of 194 acres of rolling to level land, a 6 room country home, having two halls, front and back porch, built of the finest material all yellow poplar. A beautiful front yard, lawn well shaded and having a large lake, metal tool house with feed room, large feeder barn. The large lake is well stocked with 3 to 5 lb. Bass, and all the bream you can catch. Also another large pond on this farm, several springs and one nice well.

This farm has 75 acres of bottom land with a complete network of drainage tile. The entire 75 acres of bottom land can be irrigated. The farm is fenced and cross fenced with woven wire and has over a mile of Highway frontage on each side. This farm is one of the best known livestock and hog farms in Middle Tennessee. Having 8 stall farrowing house also has several hog houses and pens for raising hogs. There is no farm in Middle Tennessee as well balanced as this farm having 62 acres on the north of Highway 64, all with drainage tile and with creek as north boundary, having road on east side of the 62 acres and all level and enough grass to run 100 head of beef cattle and enough level land to raise all your hay and grain. And with the irrigation system you can raise the same amount of crops in dry years as in a well seasoned year.

This farm is ideally located on the Federal Highway 64, that will give the buyers both east and west easy access to either a cattle or hog operation. You can drive on every foot of this farm from off highway 64. The farm is located in the fertile valley of "The Land Of Milk And Honey," Giles County. With our factories and progressive little city, the farm land in this section of Giles County is not for sale often. You either inherit it, buy it, or on a sale of this type, due to the owners health, he must sell part of this farm land.

This 194 acre farm also has a large feeder barn with a large hay loft, plus foliage crops of hay and grain for winter use. Tract No. 1—is north of Highway 64, consisting of 20 acres having road on east, level as a floor and has a nice homesite facing Highway 64, large spring branch. If you are looking for small acreage between Lawrenceburg and Pulaski, be sure and see Tract No. 1.

TRACT NO. 2—Joins Tract No. 1 with long highway frontage consisting of 21 acres with 3 or 4 nice homesites on Highway 64 and is level, some of the richest land on the entire farm with large everlasting spring. TRACT NO. 3—Consisting of 21 acres having as the north boundary a creek. This tract has several lovely homesites.

TRACT NO. 4—is directly across from Tract No. 1 and consists of 20 a. which are all level to rolling and is one of the finer tracts that you will find along Highway 64. It has 4 nice homesites and is ideally located with good drainage making it a suitable tract of land. Look this one over!

TRACT NO. 5—Consists of 100 acres, has the main 6 room home, the feed barn, large well stocked lake in front of the 6 room house and has another lake on back of tract, has metal tool house with feed room and all other out-buildings. This is one of the finest 100 acre farms in Middle Tennessee. The farm is well terraced, blessed with plenty of water and one of the most beautiful home sites ever offered under the auction hammer. It has a nice home built of yellow poplar and with a little money spent on it, could be made one of the finest Colonial homes in Middle Tennessee.

TRACT NO. 6—Consist of 12 acres is fenced and cross fenced, having a nice home site and is in permanent pasture and has a hog-farrowing house and several of the hog lots already fenced and cross fenced. If you are looking for small acreage with good drainage and a beautiful home site and a tract that is ideally located for any type home, this is it!

IF YOU ARE LOOKING FOR A SMALL TRACT ON WHICH TO BUILD A HOME . . . Or if you are looking for small acreage, or if you are looking for a 100 acre farm, BE SURE TO ATTEND THIS SALE AND BID THE high dollar on the tract of your choice.

This 194 acre farm, is well located and there are no words to express the fineness of this farm. It is a strategic location. It has highway frontage. It has rich rolling land of scenic beauty, ideal for many property uses. It has rich, lush pastures with excellent fences. It has hog fences and farrowing pen. It has U.S. Federal Highway paved frontage. Here, Ladies and Gentlemen, is a beautiful cattle or hog layout with rich, rolling pastures, plenty of water for your choice of beef or dairy cattle. You will make plenty of money with cattle here.

The main house is nestled in a tree shaded tract, widely known as Cloverdale Farms has a profitable history, a unique set of factors such as location, rich soil, bountiful water, good improvements make it highly desirable. Pastures are ready to pay livestock dividends and you will get bonus yields of any row crops or hay. You capitalize on years of practical improvements. Make it yours in its entirety or get a tract knowing that everything has been done right to make it profitable.

This farm is blessed with plenty of water having one lake, one pond, a creek, several springs and a well. This 194 acre farm can all be worked with a tractor. There is no farm in Middle Tennessee that is any finer. POSSESSION OF the land with the deed, the house on or before January 1, 1966.

TERMS: 29% down sale day, balance 5 years, bankable not at 6%. FREE—FREE—FREE to some lucky person sale day — A Flymo Lawn Mower. You must attend the sale to win this unusually light-weight easy-to-use lawn mower.

Gen. Zierdt Cited By ROA

Maj. Gen. John G. Zierdt received a Distinguished Service Citation from the Reserve Officers Association of the United States Saturday in St. Louis.

Commanding General of the U.S. Army Missile Command, Gen. Zierdt has been a champion of local Reserve Officer activities during duty assignments at Redstone Arsenal.

The award commended him for his outstanding contribution to the Nation's Defense structure by his

personal and official support of Reserve Programs of the U.S. Armed Forces.

It was presented during a luncheon meeting of Reserve Officers Affairs Committee hosted by Brig. Gen. Horace B. Hanson, Jr., Birmingham, Ala., who is Reserve Officer Association Vice President for Army.

Huntsville Reserve Officers in St. Louis for the meeting are: Lt. Col. R. F. Shields, Air Force; Commander John Graham and Lt. Cmdr. Edward S. Kind, Navy; Lt. Col. Pascal Redding, Lt. Col. John L. Edgar, Lt. Col. Lincoln H. Townsend (Ret.), Major James F. Nixon and Capt. Paul Neilson, all Army.

Federal Accountants Will Hear National President

The October meeting of the Government Accountant's Association Huntsville Chapter, Federal Gov- will be held Thursday, Oct. 28, at

the Redstone Officers Open Mess.

Featured speaker will be David Neuman, National President of the Federal Government Accountants Association. Neuman is employed as Assistant District Director for University Audit Policy, Office of Audit, Department of Health, Education, and Welfare, in Washington, D.C.

Previously, he was employed by the National Aeronautics and Space Administration as an Audit Manager and with the Army Audit Agency as Branch Chief of the Baltimore Branch, and then as Assistant District Manager of the Washington District. Neuman has a B.S. and a M.B.A. degree from the University of Pittsburgh and is a certified public accountant in the State of Maryland. He will talk about FGAA activities at the national level.

Association members will meet at 6:30 p.m. Dinner is scheduled at 7:00 p.m. All members are urged to attend. Prospective members are cordially invited and are requested to contact Mr. Walter H. Parker, Chairman of the Attendance Committee, 876-1451 or 881-0393 for reservations.

TO BE SOLD AT ABSOLUTE AUCTION SATURDAY, OCT. 30, 1965 1:35 P.M.

A fine 237 acre livestock farm, with a nice 8 room country home, and nice 6 room tenant house, belonging to Miss Grace McAlester and Mr. R. G. McAlester. Located 9 miles west of Pulaski, 9 miles east of Lawrenceburg, and one mile from Bodenham School, on U. S. Highway 64.

This farm has large feed barn, 3 everlasting springs, some good hardwood timber, 75 acres in level bottom land, fine gravity-flow spring, well, and other everlasting water supply. Farm has a 4 acre cotton base, 17 acre corn base and 59 acres of outstanding crop land.

This farm has as the south boundary, Choates Creek. Plenty of shade and everlasting pasture that could make this one of the highest producing farms in Giles County with very little money spent on minor improvements.

Tract No. 1—Consisting of 207 acres, approximately 50 acres of bottom land, with over one quarter of a mile frontage on Highway 64. This tract also includes the nice 8 room and bath home, enclosed back porch, nice front porch, plenty of shade in front lawn, well sodded with blue grass. The home has a double fireplace and flue, water in the house from large gravity flow spring, 3 acres of bottom land, most all of it along Highway 64. This would make ideal homesites. This 207 acre tract has 75 acres in young timber, some good hardwood timber, and 82 acres in permanent pasture, has large feed barn, and other buildings. If you are looking for property between Lawrenceburg and Pulaski on Highway 64, this tract is ideally located and would make a wonderful stock farm.

Tract No. 2 is located south of Highway 64 with approximately one-quarter mile of Highway frontage having the nice 6 room home, barn and outbuildings, and approximately 30 acres, in land of which about 25 acres are bottom land that can be worked with tractor, has Choates Creek for the Southern boundary, a large well and everlasting spring will supply water for any farm operation.

This is a well located small farm, and land will grow any kind of row crop. If you are looking for a nice baby farm located on U.S. highway, be sure and look this one over. It is a HONEY!

TERMS: 1/3 down, balance in 2, 3 years at 6% interest, a bankable note or cash. Possession with delivery of deed.

FREE—FREE—FREE to some lucky person attending this sale a transistor radio.

Command Employees Set Career Development Goal

Recent employee training and development activities include the participation of 63 Redstone civilians in off-post classes at Defense Department agencies, colleges and contractor plants scattered across the country.

The off-post training opportunities are made available to local personnel under the career development program administered by the Training and Development Division of Civilian Personnel. Enrollment in the classes is intended to help the individual employee to improve his career development potential.

The local employees enrolled for the classes are:

The U. S. Army Management Engineering Training Agency, Rock Island, Ill.: Donald Dockery, Sergeant, and Thomas Carr, OGMS, Economic Analysis for Decision Making; John Vickers and Jerry Dawson, both of Nike X, Managing the Value Engineering Program; Robert Hull, S&M, and John Wise, P&P, Middle Management Seminar; James Fisher, S&M, and Bobby Neeley, P&P, ADP Appreciation; Eric Gustafson, Nike X, and John Debs, Inspector General, New Organizational Concepts for Top Management; Robert Perry, Nike X, Stan Prosser, Lance, and Fred Simpson, P&P, Operations Research Appreciation; Bobbie Storm, Sergeant, PERT/COST Appreciation; and Robert Keeler, P&P, Work Planning and Control.

Defense Weapons Systems Management Center, Wright-Patterson AFB, Ohio: Kenneth Shipp, Nike X, Frederick Hill, Alexander Black and Vernon Andrews, all of Mauler, Cecil Ogren, Hercules, James Proctor, Shillelagh, and Donald Williams, TOW, all of who are enrolled for the Defense Weapons System Management Course.

U. S. Army Logistics Management Center, Ft. Lee, Va.: Paul Kittle, Purchasing and Contracting, Wiley Cristopher, Nike X, and James Seagraves, ADFDS Office, Defense Advanced Procurement; and Raymond Simpkins, Hugh Vandergriff, Janice Woodall, and Lawrence Eubanks, all of S&M, Defense Inventory Management.

U. S. Army Finance School, Ft. Benjamin Harrison, Ind.: Charles Maltbie, Martin Schmitz, Charles Trull, Collis Terry, Jerry Grauer, John McEwen, Francis Strickland, Larry Potter and Arvel Motte, all of the F&A Center, who are enrolled for the Military Accounting Course; and Lucille Sheets, Hawk, who is taking Programming and Budgeting.

Warner Robins Air Materiel Area, Robins AFB, Ga.: Fred Cheverie, Stephan Fedak, Wilburn Armstrong, Robert Summers and Margaret Hamilton, all of P&P, Defense Advanced Incentive Contracting.

School of Systems & Logistics, Wright-Patterson AFB, Ohio: William Willoughby, Qual & Rel Mgmt Office, Capt. Robert Walker, OGMS, and Norman Adams, Nike X, Defense Data Managers course.

Deputy Chief of Staff for Personnel, San Francisco, Cal.: Lovell Harrison, Civ Pers Office, Position and Pay Management; and Blanche Elrod, Civ Pers Office, Recruitment and Placement.

The Brookings Institute, Williamsburg, Va.: John Hand, Sergeant, General Administrative Conference.

Ling-Temco-Vought, Inc., Warren Mich.: John Murphy, Gen Counsel, Paul Newman, S&M, and Chris Zece, Lance, Lance Staff Planners Course.

University of California, Los Angeles, Cal.: James Cuff, Qual & Rel Mgmt Office, George Matthews, Redeye, and Ralph Simenson, R&D, Maintainability — A Major Element of System Effectiveness.

Civil Service Commission, Wash-

ington, D. C.: Allan Norman, R&D, Institute for Executives in Scientific Programs.

Shock and Vibration Information Center, U. S. Navy Research Laboratory, New Orleans, La.: Joe Walters, R&D, 35th Symposium on Shock & Vibration.

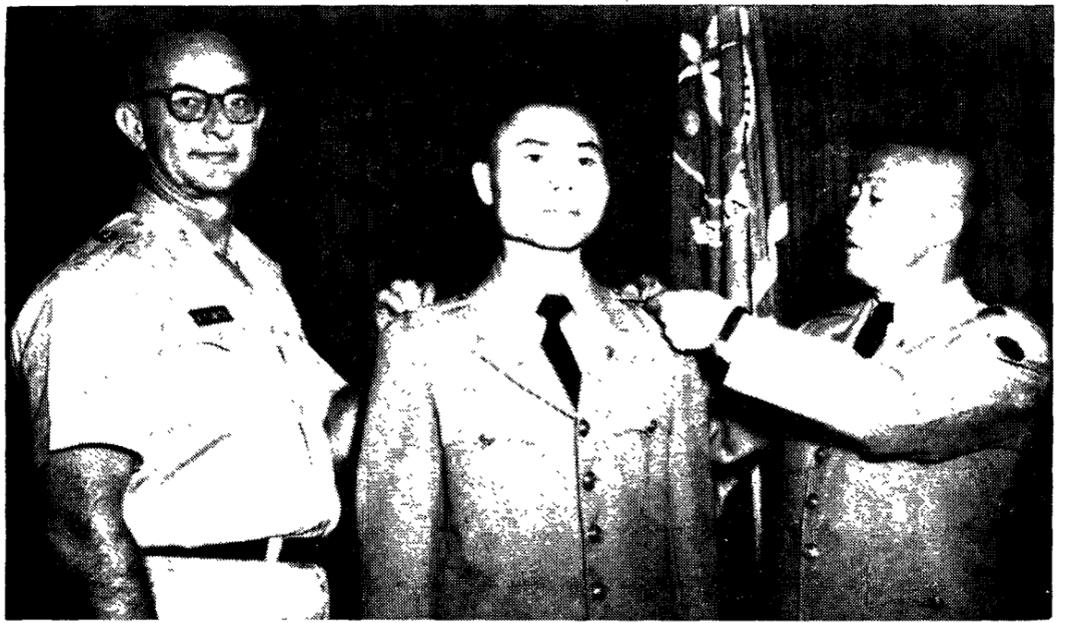

Dugway Proving Ground, Utah: E. H. Haynes, Safety Div (AMSC), CBR Weapons Orientation.

Metals Engineering Institute, Huntsville. Harold Penick, P&P Principles of Heat Treating.

Raytheon Co., Ft. Bliss, Tex.: Bernard Collins, Inspection Div (AMSC), Hawk Engineering course.

George Washington University, Washington, D.C.: Leonard Flank, Patent Center, Patents and Technical Data.

AMC Field Safety Agency, Charlestown, Ind.: Kenneth Cox, Safety Div. (AMSC), Munitions Safety.

PROMOTION FOR RKO OFFICER—At an informal ceremony in the Office of the Commandant of the Army Ordnance Guided Missile School, Col. Hobart V. Smith (left), assistant commandant, pins the new insignia of major on Yung Uk Kim, who was recently informed of his promotion by Republic of Korea (ROK) Army Headquarters. Major Chil Jin Ho (right), Korean liaison officer, is shown assisting with the pinnig. Major Kim is a student in the Hawk Supervisor Maintenance course here at the school.
