REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

NOVEMBER 10, 1965

AMC CITES COMMAND

TOFTOY AWARD—The Alabama Section of the American Institute of Aeronautics and Astronautics presented its 1965 Toftoy Award for outstanding program management to Col. I. O. Drewry, Nike-X Project Manager. The award was presented to Col. Drewry by Carl Pinyerd, Deputy Pershing Project Manager and last year's winner. Col. Drewry (left) is shown chatting with Maj. General H. N. Toftoy, (Ret.), a former Commanding General of Redstone Arsenal for whom the award is named. At right is Mrs. Drewry who was present for the award ceremony.

Maj. Gen. Tolson To Speak To AUSA

Maj. Gen. J. J. Tolson, Commanding General of the U. S. Army Aviation Center and Commandant of the U. S. Army Aviation School at Ft. Rucker, will be the speaker at the Nov. 16 meeting of the Tennessee Valley Chapter, Association of the United States Army.

The general will discuss increased use of air mobility by the U. S. Army.

The meeting, to be held in the Ball Room of the Redstone Officers Open Mess, will be preceded by a reception for the guest speaker at 6:30 p.m. in the Nike Room. The dinner and program will start at 7:30 p.m.

Gen. Tolson is a 1937 graduate of the U. S. Military Academy where he was commissioned a second lieutenant of infantry. He is also a graduate of the Chemical Warfare School, the Army Para- (See AUSA on Page 2)

Cost Reductions Here Exceed FY 1965 Goals

Cost Reduction Week, which started Monday, got off to a fast start for the Army Missile Command.

A commendation for outstanding support of the Cost Reduction Program was made Monday morning to the Missile Command by the Army Materiel Command.

Horace Williams, Missile Command Cost Reduction Coordinator was in Washington to receive the citation which was based on exceeding fiscal year 1965 goals.

Joining the other subordinate commands in the Materiel Command-wide Cost Reduction Week observance, the Missile Command will place stress on the importance of intensifying the cost reduction program.

Local observance will include exhibits of significant cost cutting actions.

In speaking of cost reduction, Gen. Frank S. Besson, Jr., Commanding General of AMC, called for top priority attention in the effort during FY 66.

Following Cost Reduction Week, a Seminar will be held Nov. 17-18 in Washington to discuss impact of new procedures, problem areas,

exchange of cost-cutting ideas; acceptable documentation of cost reduction actions; and means of stimulating wider participation in the program.

Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command, in proclaiming Cost Reduction Week here, said:

"Substantial additional resources can be made available to support Army combat readiness if we continue to apply the concepts of cost reduction and strive for further improvement in the efficiency and economy of our operations."

Following is the full text of the commendation awarded to the Missile Command:

"The Army Missile Command is officially commended for initiative, diligent and outstanding support of the (See AMC CITES, on Page 2)

Col. Drewry Receives Toftoy Award; Lloyd Johnson Gets Schilling Award

Col. Ivey O. Drewry, Project Manager of the Army's Nike-X missile defense system, Friday evening was named 1965 winner of the Holger N. Toftoy Award given by the Alabama Section of American Institute of Aeronautics and Astronautics.

Col. Drewry is the first military recipient of the award.

The award, named for Major General Toftoy (Ret), a former Commanding Officer of Redstone Arsenal, has been presented to civilians on two previous years.

Lloyd Johnson, formerly an employee of the Army Missile Command, was given the 1964 Martin Schilling Award for his contributions to the Alabama Section of the AIAA.

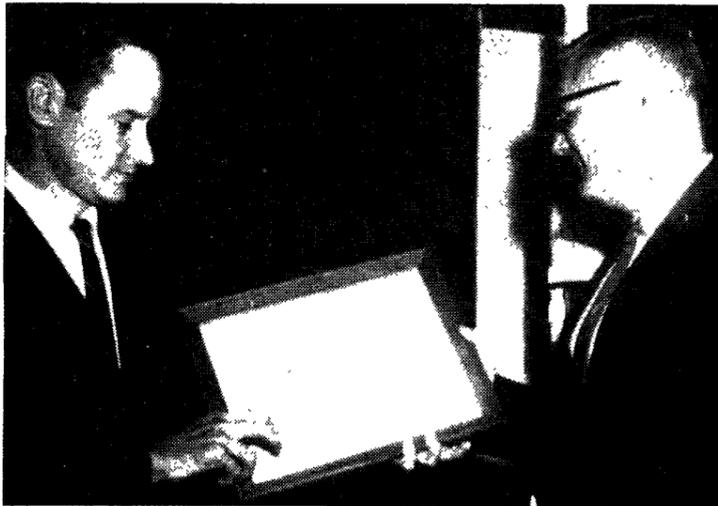

Johnson was editor of the section newspaper, The Explorer, for four years prior to leaving Redstone Arsenal last summer to go to work in Washington.

The awards were presented during the AIAA meeting at the Redstone Officers' Open Mess.

The Toftoy Award is presented annually to a person selected by the Alabama Section of the AIAA for outstanding management of a missile or related project. Col. Drewry was presented the award by Carl Pinyerd, Deputy Project Manager of the Pershing system and last year's Toftoy Award winner.

The Nike-X Project which Col. Drewry heads is the Army's highest funded research and development program. The Nike-X missile system is being developed as a defense against intercontinental ballistic missiles and submarine launched ballistic missiles.

The Colonel is a native of Jasper, Ala., and has been an Army officer for 25 years. He came to Redstone Arsenal from Korea in 1962 to head up the Nike Zeus anti-missile

GETS SCHILLING AWARD—Lloyd Johnson (right) a former member of the Missile Command's Research and Development Directorate has received the Schilling Award of the Alabama Section of the American Institute of Aeronautics and Astronautics. Johnson received the award for his services to the Section as editor of its publication "The Explorer" for more than four years. He was editor until transferring to another government agency in Washington earlier this year. Presenting the award is Max W. Stone, last year's winner.

missile project, forerunner of the Nike-X Project.

He is a graduate of the Armed Forces Staff College and the Industrial College of the Armed Forces.

The Nike-X Project has some 300 employees at Redstone Arsenal and nearly a third that many at other locations including the Kwajalein (See AWARDS on Page 2)

HARD POINT Studies Contract Goes To Douglas

The U. S. Army Thursday awarded an \$847,854 contract to Douglas Aircraft Company for studies on HARD POINT Defense Systems, a program of the Advanced Research Projects Agency.

HARD POINT is part of ARPA's Project Defender, a study of ballistic missile defense systems.

Work on the contract will be done at Douglas' plant in Santa Monica, Calif.

The U. S. Army Missile Command manages the HARD POINT program for ARPA which is an agency of the Department of Defense.

(See HARD POINT on Page 2)

New Officers, Board To Be Elected By Ordnance Post

Officers and six new members of the Board of Directors have been nominated for the Tennessee Valley Post of the American Ordnance Association. The election and installation will take place Nov. 19 during the Post's Annual Meeting.

The list of proposed nominees is: President, John H. Goodloe, Thiokol Chemical Corporation; Vice President, J. P. Smith, J. P. Smith Associates; Vice President, A. V. Pilling, Hayes International Corp.; Vice President, Col. I. O. Drewry, Nike-X Project Manager; Secretary-treasurer, J. W. Hendrix, Brown Engineering Company; National Council Member, Col. O. M. Hirsch (Ret.), MSFC.

Holding those offices now are Horace R. Lowers of the Army Mis-

sile Command and Paul K. Schaeppi of the Army Missile Command, K. A. Woltersdorf, J. F. Hatch, Jr., SPACO, Inc., Goodloe and Smith.

Proposed new members of the Board of Directors and their years of service are: W. A. Beach, SPACO, Inc., 1966; J. L. McDaniel, Army Missile Command, D. H. Newby, MSFC, 1967; Maj. Gen. J. A. Barclay (Ret), Northrop Space Laboratories; B. F. Beckelman, Boeing Company; C. W. Huth and R. D. Walker of MSFC, 1968.

Nominations are proposed by the nominating committee.

Guest speaker for the AOA Annual Meeting this year will be Adm. Arleigh Burke (Ret), National President of the organization.

The meeting will be held at the Redstone Officers Open Mess.

HOW'S THIS FOR A BOSS?—Dr. William Carter, the Missile Command's Chief Scientist, has the honor of presenting a check for \$100 to his secretary, Frieda Rice. The check represented the second place award in national essay contest sponsored by Miss Rice's sorority, Beta Sigma Phi. Dr. Carter had written the essay on the subject, "Why I Like My Employee to Be a Beta Sigma Phi." Miss Rice is very active in the international non-scholastic social, cultural and service sorority and has served three terms as president of her local. At the present time she is the chapter parliamentarian, the city council representative and is advisor to a chapter for younger (18 to 22) women.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-136, Extension 376-1400 or 373-1535.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication. The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

Rocket Ruminations

What we have to do is to be for ever curiously testing new opinions and courting new impressions.

—Walter Pater

To All Employees

The period 8 November through 12 November, 1965 has been designated as "AMC Cost Reduction Week."

When I assumed command, I indicated that the Missile Command Cost Reduction Program would receive my personal attention. I asked for your assistance and you have responded each year in a commendable way. Our FY 1965 savings of approximately \$71 million against an AMC assigned goal of approximately \$48 million earned an achievement of 197%, a record for which we can rightfully be proud.

As we observe Cost Reduction Week, it behooves each of us to rededicate our thoughts and talents toward effecting new and greater economies. With the rising cost of maintaining a strong defense posture, there exists a challenge to minimize the increased costs through greater efficiencies.

The new savings goal for FY 1966 of approximately \$30 million presents a challenge. Beginning with The President and continuing through all levels of management, strong emphasis continues to be placed on this Program. The emphasis is designed to stimulate and promote further improvements. In the final analysis program success depends on individual contribution.

I am certain that many of you have ideas which would help to reduce costs. These ideas, when submitted through the Suggestion Program, may entitle you to a cash payment and result in a savings to the Army.

Through a demonstrated spirit of team work, I know we will meet or exceed our FY 1966 saving objective. Will you let your cost cutting ideas be made known now?

JOHN G. ZIERDT
Major General, USA
Commanding

A Time To Remember . . . And Plan For Tomorrow

Forty-seven years ago, a group of men met in a railroad dining car, in the Forest of Compiègne, France, and signed a truce ending World War I. The date was Nov. 11, 1918.

In the years that passed, other men have met and signed truces ending wars in which thousands have died. Those who survived will never forget their experiences.

Every year, countless men and women all over the world, young and old, pause for a moment of recollection and silent prayer at 11 a.m., Nov. 11.

In the United States we know this day as Veterans Day and we hold commemorative services at the Tomb of the Unknowns in Arlington National Cemetery. In England, their dead are honored in front of the Cenotaph in London; and in France, at the Arch of Triumph in Paris.

This is the day on which everyone remembers. Those of us now in service have our memories also. We honor our comrades in arms in various ways. Many of us take part in memorial services in the air and on land and sea. There are some of us who, this year, may be too busy to pause and pray, for we will be fighting yet another action, many miles from our homeland.

And there may be some of us who will be remembered at this time next year.

But no matter where or how we spend the day of Nov. 11, 1965, we should remember why those before us have passed on. The causes of the past are the same as the causes today—to preserve and protect the freedoms that we so very much enjoy.

We do not want to live under a dictatorship, monarchy or communism. We enjoy the form of government that has been in this country since its birth. We want those who come after us to enjoy that same freedom and consequently, we have to fight and sometimes die to preserve it.

This year, when we pause at 11 a.m., Nov. 11, remember the past, think of the present and plan for tomorrow. (AFPS)

(Continued From Page 1)

Army Materiel Command Cost Reduction Program as evidence by the accomplishment of goals in at least one half of the assigned areas and of total savings in excess of the goal.

"During FY 65 the AMC program achieved savings of \$752.4 million, 69% above the established goal. The AMC command was responsible for more than one half of the total Army savings and thus enabled the Army to attain its goal in the DOD Cost Reduction Program. The effort of MICOM contributed significantly to the excellent accomplishment of the program."

HARD POINT

(Continued From Page 1)

Negotiating the contract for the Army was the Systems Contract, Division A, Branch of the Missile Command's Procurement and Production Directorate.

General Dynamics Gets Redeye Work

The U. S. Army Thursday awarded a \$1,844,443 contract to General Dynamics, Pomona, Calif., for continued research and development work on its Redeye air defense missile system.

Redeye is a shoulder fired weapon which will give combat troops an effective defense against low-flying enemy aircraft. It can be taken anywhere a soldier can carry a rifle.

The Army Missile Command at Redstone Arsenal manages the Redeye system for both the Army and Marine Corps who are jointly funding development of the weapon. Col. A. W. Reed is Project Manager.

The Los Angeles Procurement District negotiated the contract for the Army.

Germans Present OGMS Global Map

As a token of appreciation for courtesies extended to hundreds of German Army students at the U. S. Army Ordnance Guided Missile School, Lt. Col. Hans J. Behrends, German Army Liaison Officer, presented a large scale world map for use in the school's control room to Col. Erwin M. Graham, Jr. commandant.

The gift was made on behalf of Behrend's predecessor, Lt. Col. Hans W. P. Finck, who established a record of "foreign" service at the Missile School with a five-year tour of duty before returning to his homeland recently.

Oct. 29, 1940—Peacetime compulsory military service was inaugurated when Secretary of War Stimson drew no. 158 from lottery bowl.

Test Site in the Marshall Islands which it operates as a national range.

As Nike-X Project Manager, Col. Drewry has the management responsibility of a research and development effort funded at \$400 million this year. It embraces development work in a wide variety of fields ranging from missile and radar design and testing research to missile re-entry physics.

Under Col. Drewry's direction the project has developed a huge multiple function, phased array radar which is the first of its kind in the Free World, and the highest acceleration guided missile for defense purposes known.

Johnson, winner of the Schilling Award, is a native of Granite, Oklahoma, and a graduate of the University of Alabama.

While at the Missile Command he was a member of the Advanced Systems Laboratory in the Research and Development Directorate.

Johnson's citation said he had "served the Alabama Section unselfishly and unstintingly as edi-

tor of the Section publication "The Explorer." For a publication of this type an editor's duty includes those of reporter, editor, publisher, proof reader and just about all functions imaginable."

A total of four awards were presented during the meeting. Dr. William Lucas of the Marshall Space Flight Center received the Hermann Oberth Award for his contributions to the fields of aeronautics and astronautics.

A special award was given to Dr. Walter Dornberger, who gained fame for his participation in the German rocket research programs.

Hidden Naval Hardware Dredged From Lagoon

Bit by bit the lagoon at the Nike-X Project's Kwajalein Test Site in the Marshall Islands is giving up its World War II treasures.

The latest is a 50 pound brass ship bell belonging to a freighter that has lain some 20 years in 180 feet of water.

The bell, with a 16 inch diameter mouth and 16 inches high, was brought up from the bottom by Kwajalein scuba divers. When found, it was solidly encrusted by sponge and coral growth, hardly a thing of beauty.

Cleaned up, it turned out to be gleaming brass inscribed in Japanese letters with the name of the ship, Haki Bayama, the name of a Japanese mountain. The date of the ship's launching is given as the year 2600 on the Japanese calendar, or 1940 on ours. The word Maru followed the name, indicating it was a commercial ship not a warship.

The bell joined other artifacts brought up from the bottom of the lagoon including navigation

and personal gear recovered from two big four-motored Japanese flying boats earlier.

The heavy bell was laboriously cut from its moorings on the sunken ship by divers who could work 10 minutes at a time. Because of the depth they had to return to the surface often to avoid going through long decompression procedures to prevent bends.

The Kwajalein Lagoon was the scene of heavy fighting during the war when the Japanese used it as a naval and seaplane base.

Nine of the cluster of islands that surround the lagoon are now operated by the Army's Nike-X Project Office at Redstone Arsenal as a testing site for the Nike-X Missile Defense System.

For the some 3,000 Americans living on Kwajalein, scuba diving is a sport comparable to what golf is in the United States. Like treasure hunters, they pour over old maps and battle accounts looking for sunken wrecks.

The bell was found by Bill Madden and Charles Redman of the

OLD SUNKEN BELL—With the coral and sponge cleaned off, this old Japanese bell still shows its brassy luster after lying some 20 years on the floor of the lagoon at the Army's Nike-X Project Kwajalein Test Site in the Marshall Islands. Putting the finishing touches on the bell are Dick Krebs of Bell Telephone Laboratories and 1st Lt. Charles Schelin who helped bring it up from 180 feet of water. The Japanese characters spell out the name of the Japanese ship it was cast for and the date of its launch as the year 2600 in the Japanese calendar, or 1940.

Test Site Project Office, Bill Howe of Western Electric and Dick Krebs of Bell Telephone Laboratories who spends his spare time researching the location of ships

and planes sunk in the lagoon. It was brought to the surface by a team composed of Krebs, Capt. Al Chaney, CWO John Keeling, 1st Lt. Charles Schelin and Nor-

man Williams.

Col. Melvin D. Clark is the Commanding Officer of the Kwajalein Test Site for the Nike-X Project Office.

BELL ON THE BOTTOM—Oversized shears are used by 1st Lt. Charles Schelin of the Army's Nike-X Project to cut loose a 50 pound brass bell from a Japanese ship sunk during World War II. The bell was recovered from the bottom of the lagoon at the Project's Kwajalein Test Site in the Marshall Islands. It had lain in 180 feet of water for some 20 years and was thickly encrusted with tube sponges and coral.

TWO SERVICE CEREMONY—(Left to right) Army Maj. Gen. John G. Zierdt congratulates Air Force Col. Ralph A. Newman after pinning the eagle insignia of a Colonel on him at a promotion ceremony, Mrs. Newman shared the pinning duty with the General who commands the U. S. Army Missile Command where Col. Newman is stationed as Air Force liaison officer. The Newman's are natives of Marion, Virginia.

Air Force Liaison Gets Promotion To Full Colonel

Col. Ralph A. Newman, Air Force Space Systems Liaison Officer to the Army Missile Command, Monday received the insignia of his promotion to full colonel. Maj. Gen. John G. Zierdt, Commanding General of the Missile Command, pinned on the Colonel's eagles.

Col. Newman's career has covered an assignment in the Pentagon, training on the job with industry which gave him a broad background in research and development management, and an ROTC professorship at Lehigh University. His earlier assignments covered supply management.

He is a graduate of the Air Command and Staff College at Maxwell Air Force Base, Ala., and holds a Bachelor of Science Degree from Virginia Polytechnic Institute where he also earned his ROTC commission. He has also taken graduate courses at George

Washington University.

Col. Newman and his wife, the former Miss Beatrice A. Brown, are both from Marion, Va., where her mother, Mrs. M. M. Brown still lives.

Prior to his assignment as Chief,

U.S. Air Force Field Office at Redstone Arsenal, the assignment he presently fills, Col. Newman was Director of the Dynasour Launch Vehicle Program Office, and Chief, Configuration Management, Titan III System Program Office.

His present duties cover liaison for the Air Force between the Army and the Marshall Space Flight Center.

He was integrated into the Regular Air Force in August, 1947.

Tom Patterson Breaks 600 Barrier With Big Game

PARADE OF STARS

Supply Management League: Tom Patterson, 625 (247-204), Mel Tack, 559, Joe Hill, 556, Mike Sakellarides, 549, Tom King, 548 (207-206), Gary Phillips, 547 (212), Bob Hollman, 546 (215).

Redstone League: Ed Marshall, 585 (212-222), Jim Gulley, 584 (201), Carl Worley, 560 (201), Oliver Patrick, 560, Ray Profitt, 558, Vic Passavant, 547, Jack Ward, 544.

Field Services League: Paul Barney, 579, George Sumner, 553 (220), Jim Wiswall, 540, Joe Macy, 530.

AMC League: Ken Bell, 556 (204), Bill Leary, 541, Howard Helmick, 535 (211), Paul McLin, 534, Walt Hefflin, 532 (214).

After several near misses, Tom Patterson rolled his way onto the civilian bowler's Honor Roll and captured Bowler of the Week laurels with a 625 in the Supply Management League.

Patterson opened his big set with a rousing 247, and after dropping to 174 in the middle, came back with a 204 closing game. However, his efforts were not enough to prevent the Chicken Hawks from dropping a 3 to 1 nod to the strong Bramblett quintet.

He is the sixth member of the strong Monday night loop to throw an Honor Roll total. The other three civilian leagues have been able to manufacture only four better than 600 scores.

The All-Sports team pressed even closer to the front running Jones Lumber team with a 3 to 1 win over the Marauders while the leaders were being held to a split. The Lumbermen now lead by a scant half point.

Joe Hill and Bob Hollman with 559 and 546 respectively, set the All-Sport pace. Their mates helped the cause along with a 1032 game (957 scratch) while the De-buggers had a 1034 game and a 3023 series for a sweep over Bak-

er Real Estate.

Dean's Trailer Court opened up the Redstone League standings a little when they put together a 3006 series and a sweep over the defending champion Giles Garden Center team. Dean's lead the second place Six Shooters by two.

The new leaders got a 560 from Carl Worley, a 558 from Ray Profit and a 547 from Vic Passavant.

Ed Marshall rolled the top series in the league with a 585, a single, stick better than Jim Gulley was able to muster in 3 to 1 win by Standard Oil over the Wee Fives.

Another shift in first place occurred in the Field Services League where the Crackers used a sweep over the Chiefs to jump into the lead. The losers dropped all the way to third behind the Guided Muscles.

Paul Barney and George Sumner gave the Crackers their big boost with 579 and 553 respectively. Sumner's set included a 220 game.

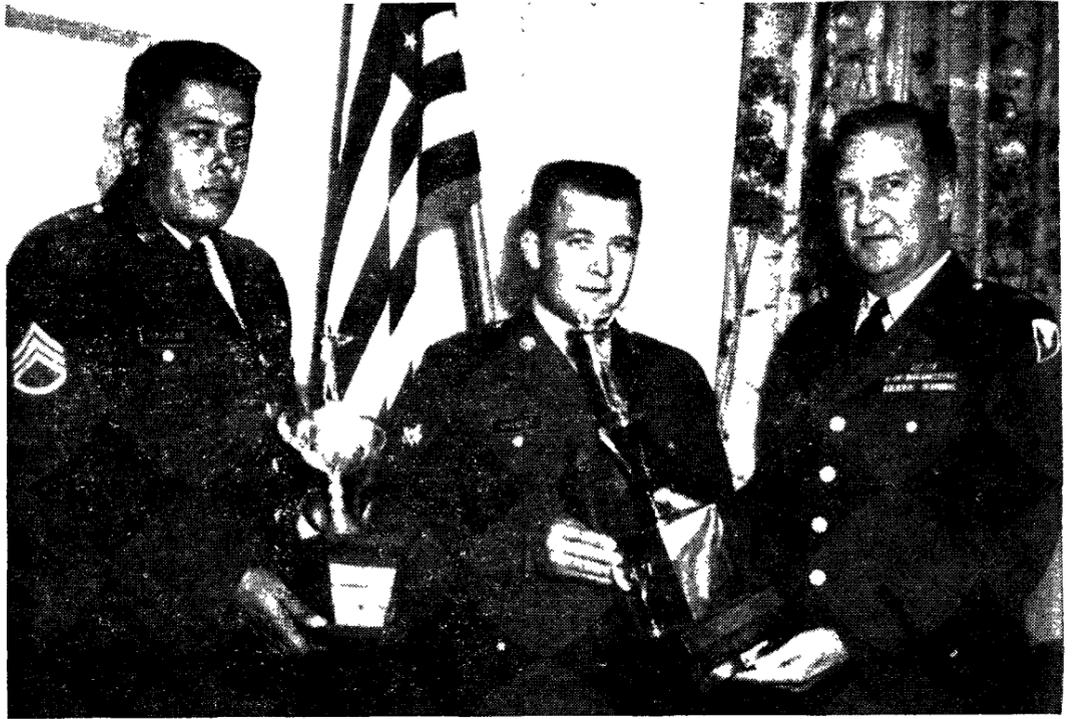

The Bombers protected their AMC League lead with a 3 to 1 decision over the Packers as the Ramblers and the Tow Boys continued their deadlock for the runner up slot three points off the leading pace.

Ken Bell took high honors for the league with a 556 for the Stars, a team that lost three points despite having three bowlers in the over 500 category.

Rollers Add To Lead On Clean Sweep Win

The Rocket Rollars continued to add to their lead in the OGMS Officers bowling league last week when they scored a sweep over the Rounders despite the top individual effort of the league season.

Bob Percy was responsible for the latter when he had games of 203 and 214 and ended the evening with 579. The Rollars offset

CHAMPIONSHIP SHOOTER—SP4 James K. Chilcoat (center) presents the trophies he won at the Florida State Championship meet to Col. Thomas W. Cooke, Commander of the U. S. Army Missile Command. Chilcoat also won the trophy held by the team captain, S/Sgt. Adolpho Salazar. The match for smallbore riflemen drew 125 contestants. Chilcoat went from marksman to master in less than two years as a member of the Redstone team. These trophies represent the grand aggregate award and the grand aggregate prone trophy. They will remain on display in the trophy case at Support Command Headquarters.

DeBolt Tosses Third Honor Count In A-B-C

Ray DeBolt walked off with all the individual honors in the A-B-C Officers Bowling League last week when he rolled a 224 game and a 621 series.

In passing the 600 mark DeBolt joins Wiley Cooper and Eric Mauerhoff on the league Honor Roll. Cooper had a 613 and Mauerhoff a 601 earlier in the year.

He started his series with a 214 and then added games of 183 and 224. However, his team, Lucky Strikes, fell to the Black Jacks, 3 to 1. Don Vanderheyden added a 532 to the losing cause.

Cooper rolled a 534 total to pace the Wheezers to a split with the S Wonnors which was enough to boost their lead over the Lucky Strikes to three points.

Mauerhoff tossed a 556 series for the S Wonnors.

The Saturn V team scored the only sweep of the evening with the Stump Knockers as their victims.

Percy's efforts with a 564 by John Bowen and a 524 by Myron Sato.

The leaders rolled games of 939, 979 and 913 for a 2831 total and now lead by three and a half points.

Gary Hitt lead the Bad Gnus to another sweep when he rolled a 534. The Gnus used the sweep to tie the Black Jacks for second place.

The Black Jacks captured three points from the Satellites as Orrin Butterfield collected 533 mapsles and Linn Grubbs came in with a 532.

FELLOW TEXANS—Pvt. Kevin P. Sires from Lamesa, Texas displays the form he used to win the Post-Wide Pool Tournament while Miss Molly Patterson, formerly from San Antonio holds the trophy Pvt. Sires won. Miss Patterson is the Redstone Service Club Director. Pvt. Sires represented the 5th ETC in the tournament.

Jeannette Sell Shoots Low Gross And Low Putt

In an all-irons tournament of the Golf Group sponsored by the Redstone Arsenal Officers Wives Club, Jeannette Sell shot low gross and low putts with Martha Napper second in both categories. Lee Zierdt came in with low net followed by Anne Dorris. Today, the Group will present the Club's championship trophy to the winner during lunch at the Redstone Officers Open Mess at 12:30.

ARTIST AND DRAFTSMAN—Pvt. Luis Antonio Colon-Ortiz has only the last half of his hyphenated surname on his uniforms. Some of his fellow Puerto Ricans taking basic training at Ft. Jackson had names that contained several more hyphens than a standard Army name tape could accommodate. His hometown is Bercy, Puerto Rico. Spanish is his basic language. He is working at mastery of English by listening, reading and movies. Pvt. Ortiz was studying art at Ponce, P.R. when his draft call came. His father is a designer for a New York belt firm. Pvt. Ortiz has decided the Army is out to make a linguist of him. He has the word that instead of a drafting job in the U. S. Army Missile Support Command, he will soon be on his way to Germany.

Civilians, Officers Study For Career Advancement

Fifteen Redstone civilian employees and a Missile Command officer recently took advanced training in their individual career fields. All but one of the locals attended the U.S. Army Management Engineering Training Agency, Rock Island, Ill.

The largest single group of these is the seven who took the 40-hour Pert/Cost course. Included in this class are: Robert

Quick and Michael Wilkie, of Supply and Maintenance; James Hill, Sergeant; Leslie Elliott, Lance; James Ballard, Redeye; Donald Mastin, Nike X; and Loma Sloan, General Counsel.

Charles Bucy, of Installations and Services, and Charles Arnold, Research and Development, studied Design and Analysis of Experiments. This is a 120-hour course.

Maj. John Levaas, of the Hawk Project Office, and Phillip Arnston, Nike X, enrolled for Managing the R&D Program, a 20-hour course.

The Middle Management Seminar, an 80-hour course, had three locals included in the class. They were Wilburn Bynum, Supply and Maintenance, William Lasseter, of the Post Engineers, and Edward Johnson, Procurement & Production.

William Kemp, another Procurement & Production employee enrolled for the Statistical Quality Control course. This is an 80-hour course.

The last Redstone civilian on the training list is William Roberts, of the Nike Project Office. He attended the School of Systems and Logistics at Wright-Patterson AF Base, Ohio.

Graduates To Get Diplomas Today

The Ordnance Guided Missile School graduation time and date has been changed for this week only to Wednesday, at 1:30 p.m. in the Post Theater.

The guest speaker will be Lt. Col. Kenneth C. Johnson, Deputy for Missile Command Special Logistics Study Task Force. He is a 1953 graduate of the Missile Officer Course and served as the School's Operations Officer from 30 June 1954 to 30 March 1955.

This change from the normal Friday date has been made because of the Nov. 11th Veterans' Holiday on Thursday.

Nov. 11, 1921 — American Unknown Soldier of World War I was buried at Arlington National Cemetery.

Bronze Star Awarded To Viet Nam Vet

For meritorious service in connection with ground operations in Viet Nam, Capt. Abraham F. Chadwick, now assigned to the Army Ordnance Guided Missile School staff at Redstone Arsenal, was awarded the Bronze Star

with the approval of the President.

Col. Erwin M. Graham, Jr., Missile School commandant, presented the medal which was forwarded from U. S. Army headquarters in the Asiatic republic.

Capt. Chadwick is chief of the electronics division of the school's Missile Components Department. He is the son of Fred Chadwick of Kenova, West Va. and a 1956 graduate of Marshall University at Huntington, West Va. He arrived here in June after a year's service in Viet Nam.

Good Book Theme Highlights Meet Of Toastmistress

"Happiness Is A Good Book" was the theme of the Huntsville Toastmistress Club meeting Wednesday night at the Russel Erskine Hotel.

Miss Marian Hocker presided. The table was decorated with a display of books and autumn flower arrangements. The meeting was opened with an invocation by Mrs. Alois Sandecki. Tabletopics were presented by Mrs. R. M. Coulter, who called on members to improvise a presentation of the Nobel prize to their favorite author. Five members participated. Mrs. Joe Moquin was voted best topic speaker.

Mrs. R. P. Hearn served as toastmistress. The program included autobiographies of three new members; Mrs. Genie M. Miller, Mrs. John Ford and Mrs. Marguerite E. Martin. Mrs. Miles Hardenburgh presented an extemporaneous speech entitled "The Good Book is the TM Handbook." The best speaker's cup was awarded to Mrs. Ford.

Evaluation was presented as an editorial board. Miss Dolli Wiginton served as chief editor, assisted by Miss Nell Curtis and Mrs. J. F. Duchac. Tellers were Mrs. Clyde Wilson and Mrs. Sid Stein.

The next meeting will be November 17.

Mrs. Johnson Wins Thursday Bridge Game

Five tables of players participated in the Thursday bridge game sponsored at the Redstone Officers Open Mess by the Wives Club Bridge Group.

Mrs. C. G. Johnson was high with Mrs. M. F. Gatwood second and Miss R. J. Astor third. Mrs.

WOMEN OF THE YEAR—Five Redstone women were cited locally in connection with the Army Materiel Command's Woman of the Year Award. Edith Gibbs, Chief of Data Processing Office for Supply and Maintenance, was named the Missile Command nominee for the AMC Award and the other four were presented Cer-

tificates of Achievement after having been nominated for the higher award. Pictured are (left to right), Mary DeYoung, Comptroller and Director of Programs, Betty Layton, Missile Support Command, Mrs. Gibbs, Helen Blanton, Research and Development, and Lucille Chapman, Comptroller and Director of Programs.

Liaison Officers Wives Will Be Hostess At Coffee

Wives of officers assigned in the U. S. Army Missile Command will have the wives of liaison officers at the Command as hostesses at the Nov. 23 Coffee at 10 a.m. in the Redstone Officers Open Mess.

Reservations will be taken until noon the Friday before by Mrs. P. J. A. Tees, 881-8729; Mrs. P. J. Keefe, 877-5153; and Mrs. John Johnson, 877-5755.

Cancellations will be accepted by Mrs. Ralph A. Newman until noon Monday. Her phone is 877-5550.

T. H. Lynch scored low.

Mrs. A. V. Garrabrant handles reservations to play with the Group.

John Tyson Wins At Bridge

John Tyson was high among the players at Monday night bridge at the Redstone Officers Open Mess last week.

Six tables of players participated with Mrs. Thomas Lynch tallying second and Mrs. Jack F. Ray in third place.

Mrs. Peter Kostoff and Mrs. Thomas Lynch handle reservations to play with the group. They have asked that bachelor officers or interested couples who like to play bridge contact them. Mrs. Kostoff said that if an individual does not have a partner, she will be happy to help make the arrangements to find one. Play is open to members and associate members of the Open Mess and their dependents.

Chemical Engineers Will Meet In Decatur Nov. 15

A meeting of the North Alabama Section of the American Institute of Chemical Engineers will be at the Decatur Country Club, Nov. 15, beginning at 6:30 p.m.

The guest speaker will be the National President of AIChE, Dr. William B. Franklin. The subject of his talk will be "Development of Engineers and Managers."

Dr. Franklin has been with the Humble Oil Company since 1934 and is presently Technical Manager of their Baytown (Texas) Refinery. He was educated at the University of Texas where he received his Bachelor of Science and Master of Science degrees in Chemical Engineering and his Doctorate in Physical Chemistry. Dr. Franklin received the South Texas Section Distinguished Service Award from AIChE in 1960 and is listed in American Men of Science.

Reservations must be made by noon Friday, Nov. 12 with Betty

Professional Engineers To Have Student Night

The Northeast Alabama Chapter of the Alabama Society of Professional Engineers will hold their annual Student's Night meeting on Thursday, Nov. 11, in Room 100 of the University of Alabama Extension Center at 7:30 p.m.

Carl Leary, Executive Director of the Public Housing Authority, will give a brief talk on the proposed Space Museum. Guest speaker will be Dr. E. B. Norton, L.L.D. and L.H.D., President of Florence State College. Dr. Norton's topic will be "A New Urgency in Education in Our Day."

The public is urged to bring high school students who are interested in furthering their education. Reservations are not required since there will be no social hour or dinner in connection with this meeting.

PRINTER—John Berry, printing equipment operator at the U. S. Missile Support Command, entered the profession through the back door. He worked in a Huntsville cotton mill until the mill closed ten years ago and then began a whole new career. The Horatio Alger twist to his story is promotion and recognition for sustained superior performance to a man who is deaf and mute.

Lunch Time Is Lively, Not Noisy With Berry

Like most lunch rooms at break-time, the one in the Army Missile Support Command's printing plant vibrates with conversation. However, there is a unique twist. Several conversationalists will be using the hand alphabet of the mute in addition to their vocal cords.

The reason is John Berry, a reproduction equipment operator who is deaf and mute. When he came to work for John Tyson in 1954, Berry handed out cards with the mute alphabet and his fellow workers — especially those who work in his immediate area — learned to converse with him.

The John Berry story has some-

thing of a Horatio Alger twist. He was a cotton mill hand in Huntsville who lost his job when the mill closed. Management was skeptical of finding him a new position as easily as some of his fellow workers. More than ten years later his record shows promotion, mastery of new equipment, and an award for sustained superior performance.

His supervisor, John Allan, marvels at the uncanny accuracy with which he can gauge the printing machines even with his back turned. The machine completes its operation and Berry feeds in the next item, almost without looking. He says he can feel the change in

the vibration. This ability also warns him when someone is at his own front door. In most instances he feels the footsteps on the front porch. Allan is one of the co-workers who learned the alphabet of the mute. He says that Berry is a morale builder as well as a good worker.

One of Berry's proudest possessions is an automobile operator's license. This gives him a chance to go fishing when he takes a notion.

Mrs. Berry is also deaf and mute. Both of them studied at the Ala-

Dr. David Sayles Receives Gold Medal Nomination

Dr. David C. Sayles of the Army Missile Command's Propulsion Laboratory has been nominated for the Gold Medal Award of the American Institute of Chemists (National Chapter).

The presentation will be made at the organization's 1966 annual meeting. The award is for "noteworthy and outstanding service to the science of chemistry or the profession of chemist or chemical engineer in the United States.

Dr. Sayles has received two other major honors during the past year. The American Chemical Society presented him with its James T. Grady Award in recognition of his effort to increase the public's understanding of chemistry and chemical engineering through the medium of communication. The Army chemist also received the American Ordnance Association's Knowles Award. It was for his contribution towards the development of improved weaponry which has increased the defensive and retaliatory posture of the United States.

bama School of the Deaf and Blind at Talladega. She shares her husband's enthusiasm for fishing but isn't quite as enthusiastic about

his interest in wrestling. In their quiet world, an alarm clock is a flashing light and sometimes their little dog.

Fortune Runs Nike-X Story

Fortune smiled on the Nike-X Project this month.

Fortune Magazine, that is. The big project was the subject of the lead article in this month's issue of the publication. All or portions of 11 pages were devoted to an article titled "Countdown for Nike-X" which included, among other things, an analysis of the decision on whether or not to deploy the system.

This decision, Fortune said, "could turn out as fateful as any since Franklin Roosevelt ordered work to start on the atom bomb."

The cover of the magazine features a photograph of the transmitter and receiver faces of the Nike-X system's pilot Multifunction Array Radar at White Sands Missile Range.

Inside it ran a picture of Col. I. O. Drewry, the Project Manager, Maj. Gen. Austin Betts, Army Deputy Chief of Research and Development; another full page of the MAR, a picture of the Sprint in flight and an artist's concept of what a Nike-X engagement might look like.

RECEIVE HIGH CIVILIAN AWARDS — The Meritorious Civilian Service Award, the second highest honor available to Army civilian employees, has been presented to these four employees of the Army Missile Command. Shown from the left are: Robert O. Black,

Quality and Reliability Management Office; John Robins, Deputy Project Manager for Lance missile system; Norman Schaeffer and Paul Schaeppi, both of the procurement and Production Directorate.

SERGEANT-MAJOR J. C. Meachum is the new Sergeant Major at the Army Ordnance Guided Missile School, Redstone Arsenal. He is replacing S/Maj. Harry D. Keever who was transferred to Thailand. Prior to Meachum's arrival in September, he was the Chief Administrative NCO of the Adjutant General's office at U.S. Army, Hawaii. A veteran of 24 years service, he is the son of Mr. Oscar J. Meachum, Lexington, N. C. As the Sergeant Major, he is the highest ranking non-commissioned officer at the Missile School and works in the Commandant's office.

At The Service Club

By BETTY HAYES

Start the week off right by traveling to picturesque places by films tonight at 7:30 p.m. A seat will be reserved for you; don't be late.

Since Thursday is a holiday, coffee and donuts will be served at 9 a.m.

On Thursday evening join us in the little lounge for smoker poker at 8 p.m.

Are you a master at the chess-board? Why not try your skill against other players on Friday at 8 p.m.

On Sunday morning coffee and donuts will be served at 9 a.m.

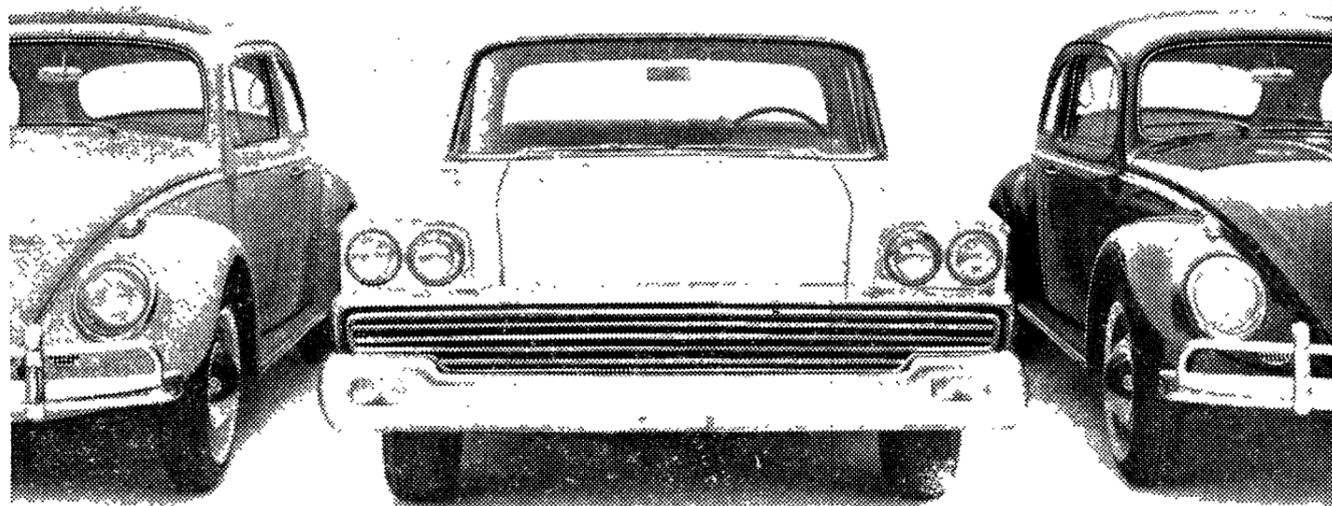

The Travelers will play your favorite dance sounds at the Jump Beat on Sunday night at 8 p.m.

An evening of games begins Monday night at 8 p.m.

Bridge is on the agenda for Tuesday Nov. 16 at 7 p.m.

David Jackson was the winner of the lucky service number for October.

Congratulations to Kevin Sires, 1st ETC, who was the pool champion last month. James Scarcelli, 2nd ETC came in second place. See you at the Service Club.

©1961 VOLKSWAGEN OF AMERICA, INC.

We also sell some superior domestic used cars.

Sound funny coming from a Volkswagen dealer? It's a fact.

We get all kinds of cars as trade-ins.

As they come in, our mechanics put each one through a rigid 16-point safety and performance check. The ones that pass get the complete treatment. They're renovated, rehabilitated, tuned-up, tightened-up, washed and polished, inside and out.

Whether they're chevies, fords, caddies, or used VWs, every one has proved itself good enough to carry our reputation around in it.

Trade-ins that don't pass the exam? They don't even see our used car lot.

We can't afford the luxury of selling anything but the best.

Habit, you know.

Films Win Management Group Award

Two Army Materiel Command installations have received awards for films entered in the Industrial Management Society's annual methods improvement competition.

The first place award in the training and general education group went to the Supply and Maintenance Command as the result of Anniston Army Depot's

film "Selling Dimes."

Second place in the methods engineering projects group went to the Munitions Command for Radford Army Ammunition Plant's film "Propellant Charge."

Films submitted by the Test and Evaluation and the Electronics Commands did not receive awards, but represent fine professional accomplishment, according to a message from the Army Materiel Command.

Trophies will be awarded, and winning films shown at the IMS Clinic Nov. 18 in Chicago, where industry and government repre-

sentatives assemble to pool efforts towards improved methods.

A Munitions Command film won a first place award in last year's competition. AMC has stressed that film entries are encouraged.

Arrangements will be made for the widest possible showing of the winning films.

Sales of U. S. Savings Stamps, principally through the Treasury's School Savings Program, average more than \$18 million annually. More than 100 million separate stamps are sold each year.

SCROLL OF APPRECIATION—M/Sgt. Norman O. Hancock, son of Mr. and Mrs. Elijah M. Hancock of Baileyton, Ala., was recently presented a Seventh U. S. Army Scroll of Appreciation for his outstanding work with the G-3 Section (Operations) of the 7th Army Headquarters at Stuttgart, Germany. He is shown here at left receiving the certificate from Col. Erwin M. Graham, Jr., Commandant of the Ordnance Guided Missile School. Hancock, who is a 21-year veteran, is presently assigned to the S-3 Section of the School Troop Command. He is a graduate of Fairview High School at Cullman, Ala., and attended St. Bernard College there. He presently resides with his wife, Mary, at Vinemont, Ala.

Need money? Borrow a dime and call C.I.T.

Yes, you may make application by phone at C.I.T. Or even by mail. But, frankly, we enjoy meeting people so much we hope you drop by our office in person. That way we can talk over your loan to pay bills, or the money you need for travel. Or discuss whatever problem a C.I.T. loan can solve for you. Remember, you'll find a C.I.T. office just about anywhere you happen to be. There are over 400 C.I.T. offices from coast to coast. There's a welcome waiting for you at every one. Why not call now?

FIREFIGHTER TRAINING . . .

FIRST VIEW IT—Instructor of a firefighting auxiliary unit of troops at Redstone Arsenal, Fred Carr slings the training coordinator Sam Slomane over his shoulder in a demonstration of a lift and carry.

THEN DO IT—The soldiers take turns practicing on one another. Left to right are: Pvt. William Lopez and SP4 Jerry Haas, Pvt. Carlton Sasebo and PFC Bill Swartz, Pvts. Jim O'DeKirk and Alexander Artis.

TWO LIFESAVING METHODS—Instructor Carr carries a limp PFC William Lopez down the ladder while SP4 Milton Rayburn steadies the sling in which PFC Bill Swartz is being lowered. The whole purpose of these practice sessions is to have a backup of men trained in the rudiments of firefighting and lifesaving in case of a disastrous fire which would occupy all the firemen on post.

TAKES THREE TO BRACE—Water pressure from the hose is too much for one man so three mount shoulder harness which they knot themselves and steady the stream into the blaze. Left to right in the practice session are: PFC George Cathey, Sgt. Alonzo Davis and SP4 Robert Thomas.

Army Payroll Hits High General Tells Oldtimers

A new high point in Army civilian employment and in payroll at the U. S. Army Missile Command at Redstone Arsenal was revealed Friday by Maj. Gen. John G. Zierdt, Commanding General.

Speaking at a luncheon honoring the annual Ft. Bliss Oldtimers Reunion in Huntsville, Gen.

Zierdt said that combined civilian employment of the Missile Command and the Nike-X Project Office is now just short of 10,000. This is the highest employment reached in Army missile programs since the establishment of the Marshall Space Flight Center in 1960. There will be continued hiring of personnel in specified skill categories, he added.

This employment means that total Army civilian and military

payroll at the North Alabama Missile and rocket center now stands at almost \$110 million.

Gen. Zierdt's remarks were made in a comparison between present Army activities in this field with those in the late 1940's.

The Ft. Bliss Oldtimers Reunion is an annual meeting of those military and civilians who pioneered in the United States' early work in missiles, rockets, and space development.

Nov. 21, 1963 — U. S. Army Cold Regions Research and Engineering Laboratory, one of the unique Research and Development installations of the Army Materiel Command, was dedicated at Hanover, New Hampshire.

Eight Employees Pursue Career Development Study

Off-post training continues to have an important role in the daily assignments of Redstone employees with eight more Arsenal workers leaving their normal duty station this week to enroll for advanced training in their individual career fields.

The training courses, ranging in length from a week to six months, are made available to the locals under the Missile Command's Career Development Program administered by the Training and Development Division of Civilian Personnel.

All but one of the locals are civilian employees.

The one military personnel is E-5 Alexander Ardis of the Air Defense Fire Distribution Systems Office. He is accompanying Jack Parker of Supply and Maintenance

TOP SOLDIER—Pvt. Joseph H. Jenkins, son of Mr. and Mrs. E. Joe Jenkins, Tapoco, N. C., was recently named October post soldier of the month for Redstone Arsenal. Jenkins who is a member of Hq Co., School Troop Command, U.S. Army Ordnance Guided Missile School, won a plaque, a U.S. savings bond, and a free week-end in the city of Huntsville by outperforming some 2,500 permanent party enlisted men stationed here. Jenkins entered the Army in May of 1965 and completed basic training at Fort Gordon, Ga. He is a 1964 graduate of Tennessee Wesleyan College, Athens, Tenn., with a B.S. degree.

Gen. Clarence C. Harvey Is New Club Commodore

Brig. Gen. Clarence C. Harvey, Deputy Commanding General of the Missile Command for Air Defense Systems, last Friday evening was elected Commodore of the Redstone Yacht Club along with several other new officers and directors.

Some 90 people attended the meeting held at the Yacht Club's club house.

During the meeting plans were also made for the Club's annual banquet to be held this Friday night at the Hotel Russel Erskine.

Other officers elected include: Roy B. Southworth, Vice Commodore; Maj. John M. Kminek, Rear Commodore; Don Howard, Secretary; Lt. Larry Martin, Master at Arms; and Lt. William A. Moeller, Custodian.

The board of directors this year are James W. Yates, Russell Mitchell, Brooks Grimme and Major Arthur W. Brochu.

Carrigy Named TV Producer

TelePrompTer corporation has announced the appointment of John Patrick Carrigy as producer for the company's Huntsville Operation in support of the Ordnance Guided Missile School.

Carrigy has been affiliated with TelePrompTer Corp. in Huntsville since September, 1958 in the capacity of television director. Prior to coming to Huntsville, he was employed as a director with Station WWL-TV in New Orleans, La., and as a cameraman-director with station WBRZ-TV in Baton Rouge. He is a graduate of Loyola University of New Orleans, with a degree in Business Administration.

Carrigy's appointment was announced jointly by Jimmie Griffin, TelePrompTer Huntsville Contract

Representative, and Jay Merkle, 1st, Vice-President of TelePrompTer's Group Communications Division in New York, N. Y.

Carrigy succeeds the late Robert O. Gilmore who died in a plane crash near Huntsville Oct. course at the Ordnance Guided Missile School on Monday. He is enrolled for a course in Ballistic Missile Maintenance Technician (Pershing) which he will complete in July of next year.

JOHN PATRICK CARRIGY

TelePrompTer has operated the Guided Missile School's closed circuit television system since September, 1958. The company currently employs 35 people in its Huntsville operations.

TelePrompTer has operated the Guided Missile School's closed circuit television system since September, 1958. The company currently employs 35 people in its Huntsville operations.

Complete Dispersal AUCTION
Sat., Nov. 13, 1965, 10:08 1/2 A.M.

100 Head of Holstein and Brown Swiss Cattle, Complete Line of Milk Equipment and some farming equipment, belonging to M. B. Spragins. This is located 6 miles north of Huntsville, and 15 miles southeast of Ardmore on the Ardmore to Huntsville Highway 53. This is better known as the SPRAGINS' KING PLACE DAIRY.

CATTLE
70 head of Holstein and Brown Swiss in milk and heavy springers
20 head of open heifers
10 calves

These cattle are all good ages and 35 head are being milked now. This herd was established approximately ten years ago and has been culled each year. The herd is built around imported Canadian and Wisconsin cattle which are subject to registration. These are high grade Brown Swiss cattle bred for production. The breeding program has been maintained and improved since the establishment of the herd. This program includes the exclusive use of American Breeder Service Bulls. All cows are TB and Bangs tested, health papers will be furnished that can go anywhere. These will be available auction day.

Get Animals With Inherited Ability to Produce Extra Milk
Make the most of your good feed and management. Get cows with inherited ability to produce more milk, get replacements for your herd that will make you extra money. A lot of these cattle will freshen on or before November 15. Their size and conformation will impress you. Be at the auction if you are alert to the chance to make a good deal.

A Master Dairyman Built This A-1 Herd
Their standard of accomplishments serve as a beacon light for any who would leave the world better than they found it. Regardless of your selection standards, it will pay you to be at this auction. These are cows that have been kept on trial to see that they more than pay their way. They are gentle, healthy and in good condition. Put these cows in your stanchions and more money in the bank.

Milking Equipment
Pick up items you've wanted and needed. Get, at the price you set, equipment to make your work load easier and to add new efficiency to your operation. Choose from:
1—500 gallon Milk Keeper, stainless steel—milk tank.
1—30 gallon Hot Water Heater
1—Wash Vat—2 compartments
3—Unit De Laval milking machine
3—Unit De Laval milking parlor station and equipment
Pipe line
Assortment of milk cans
1—Hammer Mill
1—Oat Crimper

OTHER ITEMS TOO NUMEROUS TO MENTION
Terms Cash—50% sale day—Balance 10% each month—Mortgage note at 6%.

OFFICER CANDIDATES—First soldiers at the Army Ordnance Guided Missile School to be chosen for officer candidate training under the Army's expanded leadership program are Sp/5 Junior R. Martin (left), 26, son of Mrs. Vera B. Sprabary of Fort Worth, Texas; and Staff Sgt. Robert A. Loy, 26, son of Mr. and Mrs. Alfred B. Loy of Knoxville, Tenn. They report to Fort Knox, Ky., Nov. 22nd for a 13-weeks course that can qualify them as second lieutenants. The Army is seeking 11,600 new officers to lead 213,000 additional soldiers scheduled to enter the service during the current fiscal year.

Two Officer Candidates Scheduled For Training

Two enlisted men at the Army Ordnance Guided Missile School have qualified for training under the Army's expanded Officer Candidate program and 38 others are awaiting action on applications or receiving special counsel, Col. Erwin M. Graham, Jr., commandant, said.

Staff Sgt. Robert A. Loy, 26, a Pershing missile system instructor, and Sp/5 Junior R. Martin, 26 a student have been accepted for officer training at Fort Knox, Ky. beginning Nov. 22nd, he said. If successful in the 13-weeks course, they will be commissioned as second lieutenants.

Loy is the son of Mr. and Mrs. Alfred B. Loy, 2746 Linden Ave., Knoxville, Tenn. Martin's father is on active duty with the Army

in Germany. His mother, Mrs. Vera B. Sprabary, resides at 2713 N. W. 32nd St. in Fort Worth, Texas.

Both men have high school diplomas and passed general aptitude, Officer Candidate and physical combat proficiency tests to qualify. Loy entered the Army in 1958; Martin in 1959.

Col. Graham said the expanded Officer candidate program seeks to provide 11,600 new officers during the current fiscal year to lead 213,000 additional soldiers who are scheduled to enter the service during the same period.

Civilians who are college graduates may enlist especially in the Army for the purpose of attending an Officer Candidate school, and such candidates may be married

Hewer Talks To School Graduates

Richard Hewer, Acting Chief of the Pershing Division, Land Combat Department, was the guest speaker at a graduation class of the Ordnance Guided Missile School Friday.

Addressing a group of 15 Army and nine Marine Corps students, Hewer said that history and goals make up a great percentage of one's life. The missile course which the students just completed is a part of their history and will condition or influence their future actions. These future actions become a part of the goals the individual has set—"even if it is to retire and sit on the front porch with old Rover at your feet," he said. So if the student uses his past actions (history) as a guide he can gauge his future actions (goals) and by planning and making the most of each opportunity such as the completion of this Missile course he will be on the path towards his goal, whatever it may be.

Marine PFC Jon F. Caudill, son of Mr. and Mrs. Finley P. Caudill,

men, he noted.

Col. Graham said Officer Candidate courses will be conducted for Artillery at Fort Sill, Okla; for Infantry, Military Police, Intelligence, Chemical, Medical Service and Finance at Fort Benning, Ga.; for Signal at Fort Gordon, Ga.; Engineer at Ft. Belvoir, Va.; Armor, Quartermaster, Transportation and Ordnance at Fort Knox, Ky.; and Women's Army Corps at Fort McClellan, Ala.

Col. Graham said all School troop and unit commanders at the Missile School have been instructed to give special and detailed advice to all prospective officer candidates.

North 1804 Washington St., Spokane, Wash., was honor graduate in his Hawk Internal Guidance and Launcher Electronic Repair course. Sp5 George A. Guglielmetti, son of U.S. Air Force senior MSgt and Mrs. M. Guglielmetti, 6313 South Clark St. Tampa, Fla., was top man in the Ballistic Missile Test Station Repair (Pershing) class. In the Nike Launcher Control Repair course, Pvt. Joseph F. Cupelli son of Mr. and Mrs. Anello Cupelli, 2327 Newbold Ave., Bronx, N.Y., was honor graduate.

• Television actress Shirl Conway, featured on "The Doctors and the Nurses," is the favorite star of DeWitt U.S. Army Hospital at Fort Belvoir, Va., following her week there to film an episode of the Army's "Big Picture" television series. Called "The Army Nurse—Soldier of Mercy," the program tells the story of the Army Nurse Corps around the world as narrated by Miss Conway. While at DeWitt, Miss Conway also hosted a reception for the Army's Doctors and Nurses. ANF

Collins Achieves Scholastic Record

Army missilemen have set all kinds of records since James H. Collins began his career at the U.S. Army Missile Command, but few have equalled the recent record that Collins set at the University of Arkansas.

An employee of the Command's Research and Development Directorate, Collins moved his family to Little Rock for the year of graduate study he completed in the University's Institute of Technology. At the end of 39 semester hours he had his Master's Degree in Instrumental Sciences with a straight A for every hour.

Collins shares the credit for his achievement with his wife, Betty Joe, who kept their four children busy when they were not absorbed in school work like their dad. Jim III, 16, a high school sophomore; Vann, 12, in junior high; Betty Joe, 9, in elementary school, and Lea, 4, a kindergartner, explored Arkansas countryside with their mother as chauffeur and guide, leaving their father behind with his books.

During the intensive study, Collins found little time to relax but he believes the period was even harder on his wife. After his graduation, as a treat to themselves, they brought their children home to Huntsville and then took a trip to Nassau to unwind before Collins returned to the Army Missile Command and his duties as Chief of the Analytical Services Branch of the Test and Reliability Evaluation Laboratory.

A native of Macon, Ga., Collins earned his bachelor's degree at Mercer University in his hometown.

He is modest about his recent scholastic achievement. "How else could I show my appreciation for an opportunity which would be welcomed by thousands of young

men." The year's training was a part of his career development program as a Civil Service employee of the Army and he was determined not to waste a minute.

Concerning his family's part in the safari, he says, "It was good for them to get out and meet new people with different backgrounds and attitudes. They have always lived in Huntsville.

"Being away from the job for a year was no cause to worry," Collins said. "Aubrey Presson took over the reins. Improvements and changes came about as they were needed. Of course," he added, "all of the section chiefs and their staffs are pros. I knew I could depend on them too."

"It's good to be back," he said. "I enjoyed the year at the University, but I have never worked so hard in my life."

TIES RECORD—James H. Collins, Chief of the Analytical Services Branch of the Test and Reliability Evaluation Laboratory, earned a straight A average and a Master's Degree in Instrumental Sciences at the University of Arkansas. Collins' feat ties the record in the University's graduate school. The Test and Reliability Evaluation Laboratory is a part of the U. S. Army Missile Command Research and Development Directorate.

Gen. Eifler Talks About Planning And Cooperation

Brig. Gen. Charles W. Eifler, Deputy Commanding General, U.S. Army Missile Command, stressed the necessity for community planning this morning (Wednesday) when he spoke to North Alabama civic leaders.

Representing the U.S. Army at Redstone Arsenal, he addressed a breakfast session of the first North Alabama Regional Planning and Development Conference.

Gen. Eifler challenged the group to make the North Alabama Regional Planning and Development organization an active and going business.

He said: "It will promote closer bonds between city and county governments for the benefit of all. And most important it will give you a united front for attracting new, diversified industry.

"My message to you is an old one that the U.S. Army has used as the magic formula for success since the days of the American Revolution . . . plan and cooperate."
