Chaparral Selected For New Battle Role

PART OF THE NEW AIR DEFENSE BATTALION—The Army Missile Command's Chaparral missile system will be one of two weapons in new battalions the Army is organizing to provide field commanders with low altitude air defense in forward battle areas. The other weapon is the Vulcan, a 20 mm automatic gun. The Chaparral Management Office at the Missile Command which directs Chaparral development, production and field support, is headed by Lt. Col. William Smith. Aeronutronic Division of Philco Corporation, Newport Beach, Calif., is system prime contractor.

Air Defense Battalions Announced By Army

The Army Missile Command's Chaparral missile system is one of two weapons selected by the Army for a new air defense role.

In an announcement Thursday, the Army said that new air defense battalions are being organized to provide field commanders with low altitude air defense not now available in forward battle areas. In addition to the Chaparral, the new battalions will be equipped with the Vulcan, a 20 mm automatic gun.

The Chaparral Management Office at the Missile Command, which directs Chaparral development, production and field support, is headed by Lt. Col. William Smith. The program is under the cognizance of Brig. Gen. Clarence C. Harvey, Jr., Missile Command Deputy Commanding General, Air Defense Systems.

Beech To Be Target Maker For Missiles

Award of a \$1,809,850 contract for target guided missiles was made today by the U. S. Army Missile Command.

Beech Aircraft Corporation of Wichita, Kansas, received the firm fixed price contract for the work to be performed at its Wichita plant.

Target guided missiles are used in test programs for Army air defense missile systems and in troop training.

Col. Richard Irvin, Jr., Commodity Manager of the Air Defense Commodity Office, directs the target missile program for the Missile Command at Redstone Arsenal.

The contract was negotiated by the Procurement and Production Directorate, headed by Col. B. A. Saholsky.

Aeronutronic Division of Philco Corporation, Newport Beach, Calif., is the system's prime contractor.

The Chaparral system uses the modified Navy developed Sidewinder I-C missile mounted on an M548 self-propelled vehicle while the Vulcan is an Air Force gun developed by the Army adapted to ground vehicle mount.

These two weapons will complement each other by combining quick reaction and extremely low altitude capability of the Vulcan with the longer range capability of the Chaparral.

Field army air defense is now provided by the Hawk, an all-weather low and medium altitude guided missile, and the Nike Hercules, an all-weather medium and high altitude guided missile. Both the Hawk and Nike Hercules will continue to provide air defense in the field army area. When organized, the new gun/Chaparral battalions will also complement the air defense capabilities of the hand-held Redeye missile now en-

(See CHAPARRAL on Page 3)

EIGHTEEN RETIRE AT MONTH'S END

February's end found 18 men with more than 20 years of active Army service on the retiree roll call.

Retirement ceremonies were conducted at the Arsenal Post theater under the Command of Brig. Gen. Clarence C. Harvey, Jr., Deputy Commanding General for Air Defense.

Seven of the men received retirement honors: Lt. Col. Charles R. Richards, Capt. Charles M. Pace, First Sgt. Edgar N. Eubanks, M/Sgt. John L. Lopes, SFC E-7 Charles W. Snipes, Sgt. E-6 Nestor Barreto-Gonzales and SFC Virgil W. Middleton. All but Middleton had been assigned at the Army Munitions and Missile Center and School. Middleton was with Headquarters, Army Missile Support Command.

Other retirees include Col. Glenn Crane, Deputy Chief of Staff at the Missile Command; Lt. Col. Terence H. McCormick, Missile Command Field Office at Orlando, Fla.; First Sgt. Samuel J. Warner, Jr., 291st Military Police Company; SFC E7 Ray G. Blackwell, SFC Joe P. Howell, SFC Hansel G. Moore, SFC Leo G. Tegtmeier, M/Sgt. John R. Wortham, and SFC John T. Henderson, all assigned at the Munitions and Missile Center and School and S/Sgt. Vito G. Ruggieri of the 291st MPs.

The 55th Army Band played for the ceremony.

Gen. Freeman, CONARC CG, Will Visit School

Gen. Paul L. Freeman Jr., commanding general of the U. S. Continental Army Command with headquarters at Fort Monroe, Va., will pay his first official visit to the Army Missile & Munitions Center & School, an element of his command, here next Wednesday and Thursday, Mar. 9-10, Col. Erwin M. Graham Jr., commandant, announced today.

The 58-year-old four-star general has command responsibility for almost 2,000,000 military and civilian personnel in the five Armies based in the continental U. S., heads the Army school system and also serves as the commander-in-chief of Army Forces in the U. S. Strike Command and in the Atlantic area of the North Atlantic Treaty Organization.

He visited Redstone Arsenal briefly in 1964 while heading the Strike Command at Tampa, Fla. to address a dinner meeting of the Tennessee Valley chapter of the Association of the U. S. Army.

Gen. Freeman is to arrive here late Thursday, Mar. 9, by plane from the Air University at Montgomery where he will address U. S. and international students earlier that day.

He will be honored that evening at dinner at the Redstone Officers Open Mess. Col. Graham and members of the staff and faculty of the Missile & Munitions Center & School will be hosts.

The following day he will inspect facilities of the Center, attend a luncheon and depart early in the afternoon for Fort Monroe.

Gen. Freeman is the son of an Army doctor. He was born in Manila, Philippine Islands, and spent most of his youth at various military posts. He was graduated from the U. S. Military Academy in 1929 and commissioned as an infantry lieutenant.

Becoming proficient in the Chinese language, he was Assistant Military Attache in Chungking at the time of Pearl Harbor in 1941 and served in China and India in various posts.

In 1943 he became a member (See GEN. FREEMAN on Page 3)

GEN. PAUL L. FREEMAN

McConaha Returns From International Personnel Meeting

Jack N. McConaha, Director of Civilian Personnel at the Army Missile Command returned the past week after attending a three-day Army Worldwide Civilian Personnel Directors' Conference at the Pentagon.

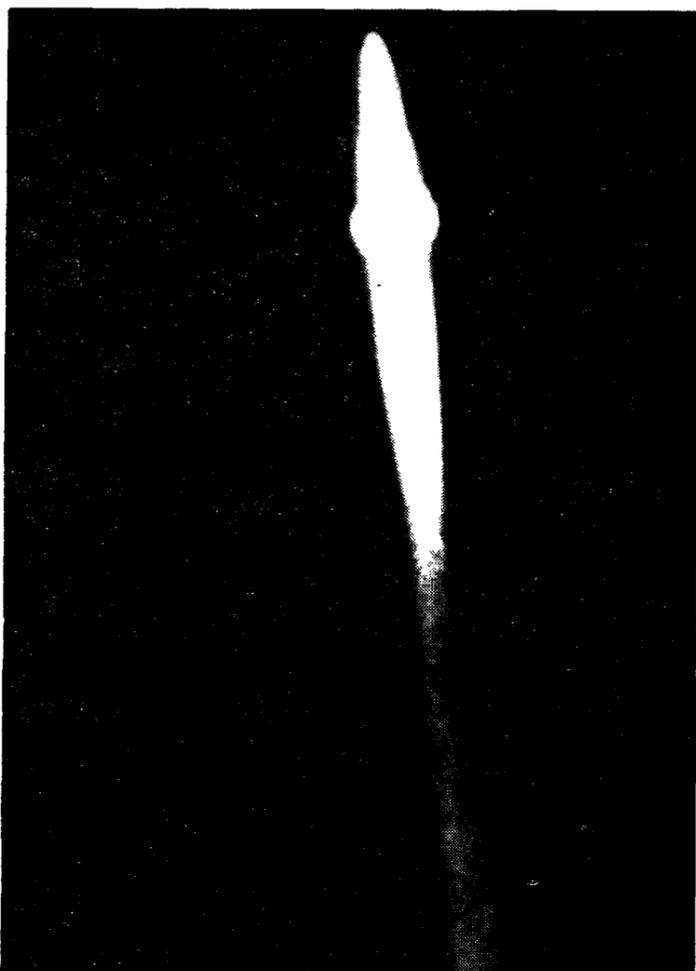

Support for the effort in Viet Nam was the underlying theme introduced by Gen. Harold K. Johnson, Chief of Staff of the Army, in his remarks to some 36 Directors of Civilian Personnel from within the United States and in foreign countries.

The Conference was held Feb. 15-17 under the general direction (See McCONAHA on Page 3)

Western Electric Receives Contract

The U. S. Army Missile Command announced Monday the award of a \$2,240,000 contract for work on the Nike Hercules missile system.

Western Electric Company received the award for improved (See HERCULES on Page 3)

HOT ROD MISSILE—Streaming a comet-like wake behind it, the Army's Sprint anti-missile missile streaks through the air during a flight test at White Sands Missile Range, N.M. This photo, released by the Army for the first time today, shows the second stage heated to incandescence by air friction. The bulges are created by the guidance fins on the rear of the stage. Sprint is being developed under direction of the Nike-X Project Office, Redstone Arsenal, to intercept ICBMs and submarine-launched missiles in flight. Because of its hypersonic speeds in the relatively dense portions of the atmosphere, the missile's skin in places reaches temperatures hotter than those inside its own rocket motors.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-136, Extension 376-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

Rocket Ruminations

I am the people—the mob—the crowd—the mass, Do you know that all the great work of the world is done through me?

—Carl Sandburg

New Interest Makes Bonds Better Than Ever Investment

Investment in U. S. Savings Bonds has always been attractive to American men and women. Payroll savings plans that provide for automatic deduction, regular interest, and known security have drawn thousands of federal employees into bond buying programs.

Now, Savings Bonds are a better investment than ever. Interest on Series E and H Bonds has been increased from 3.75 to 4.15 percent. Under the increased interest a \$100 Series E Bond, costing \$75, can be redeemed for its face value after only seven years.

U.S. SAVINGS BONDS

... NEW 4.15% INTEREST

In making the announcement of increased bond interest, President Johnson called bonds "the most important investment that any American can make."

The President said, "The Savings Bond Program is both prudent and patriotic. It is prudent because it strengthens the security of your own family. It is patriotic because it strengthens the economy of our country, it supports our fighting men in Vietnam . . . and it supports the cause of our freedom everywhere in the world. It helps to preserve the buying power of our American dollars."

With the increase in bond interest, everyone should give serious consideration to joining or increasing their investment in the Savings Bond Program. It's a sound investment in yourself and your country. (AFPS)

Automatic Control Group of IEEE To Hear Dr. Bailey

The Huntsville Chapter of the IEEE Professional Technical Group on Automatic Control will meet tomorrow evening to hear about "The Systems Engineering Aspects of Autopilot Design" at 7:30 p.m. at the Alabama Research Institute.

Guest speaker will be Dr. Milton Bailey. Dr. Bailey is Assistant Technical Director of the Sprint Program at the Martin Company, Orlando, Florida. He received the PhD in Electrical Engineering from Georgia Institute of Technology. Before joining Martin Company, Dr Bailey served as Assistant Professor at Georgia Institute of Technology and later was named Head of the Department of Electrical Engineering at Mississippi State University. Dr. Bailey is the author of several technical papers on automatic control systems. He is coauthor of the book "Systems Engineering Mathematics" published in 1962.

Members and nonmembers are invited to attend.

JAG TAX TIPS

This is the fourth in a series of ANF articles prepared by First Lt. Paul M. Little, Chief, Personal Tax Branch, Legal Assistance Division, Office of the Judge Advocate General.

Subject to limitations, active duty pay received for periods of absence from duty by reason of injury or sickness may be excluded from gross income for federal income tax purposes.

For absences beginning after December 31, 1963, pay received for the first 30 days of each continuous absence may not be excluded, except in rare instances in which the individual's pay has been cut to less than 75% of his regular rate due to disciplinary action.

Sick Pay received after the first 30 days of absence may be excluded up to a maximum of \$100 per week.

Personnel filing delayed tax returns may have absences beginning prior to January 1, 1964; in that event, active duty pay for the entire period of absence may be excluded, up to a maximum of \$100 per week, with the following limitation: sick pay for the first seven days of each continuous period of absence may not be excluded unless either (1) the absence is a result of injury or (2) the taxpayer is hospitalized on account of sickness at least one day during the period of absence.

A retired serviceman can claim the sick pay exclusion if (1) he was retired for disability incurred in active service, (2) at least some of his retirement pay is not otherwise tax exempt, (3) the tax payer is not employed by the United States Government (includes nonappropriated funds), and (4) he has not reached "retirement age." See the Retired Army Personnel Handbook (March, 1965), pages 26-28.

The exclusion and weekly rate are determined in accordance with instructions contained in Form 2440, Statement to Support Exclusion of Sick Pay, which form has been prescribed for claiming the exclusion on Form 1040.

Service personnel entitled to benefits under this section of the law should make their claims when they file their individual income tax returns with the Internal Revenue Service.

Military personnel having questions relating to the sick pay exclusion are urged to consult their local Army Legal Assistance Officer. (ANF)

Research Personnel Will Present Technical Papers

Five research physicists of the Research and Development Directorate at the Army Missile Command will be attending professional meetings across the United

States in March.

Dr. Herbert B. Holl, Systems Engineering Branch, Advanced Systems Laboratory, will be in Washington, D.C., March 15-18 for the 50th anniversary meeting of the Optical Society of America. At the Missile Command, he develops working methods on applications of optical and electromagnetic phenomena.

During March 28-31, Dr. Harry C. Meyer III and George A. Tanton, Solid State Physics Branch, Physical Sciences Laboratory, will be in Durham, N. C., for the 1966 March Meeting of the American Physical Society.

The American Meteorological Society and the American Institute of Aeronautics and Astronautics will hold their Sixth Conference on Applied Meteorology March 28-31 in Los Angeles. Two representatives of the Aerophysics Branch, Physical Sciences Laboratory, Dr. Oskar M. Essenwanger, Branch Chief, and Helmut P. Dudel, plan to attend the conference.

Each of the physicists will present technical papers at the conference he attends.

Twelve Research and Development people will present papers at the 43rd annual meeting of the Alabama Academy of Science on the campus of Birmingham Southern College April 1-2. They are: Dr. Dale R. Koehler, Dr. Thomas G. Miller, John T. Grissom, Thomas G. Roberts, Richard E. Ely, Vernon A. Nieberlein, Oskar M. Essenwanger, Romas A. Shatas, Dr. Alfred C. Daniel, Dr. James A. Merritt, 1st. Lt. Thomas A. Vickers, and 1st. Lt. George J. Dezenberg.

GEN. FREEMAN

of the Joint War Plans Committee in Washington on which his planning team conceived the strategy of Battle of Leyte Gulf during which General of the Army Douglas MacArthur made good his legendary "I shall return" promise. Gen. Freeman afterward served in the Southwest Pacific and participated in the liberation of the islands where he was born.

Working in many high-level capacities in Washington, Latin America and elsewhere, he returned to infantry combat early in the Korean War and commanded the first unit to reach its objective during the first United Nations offensive after the enemy breakthrough earlier that year. In 1951 his regimental combat team was surrounded by five Communist Chinese divisions while attacking 20 miles ahead of United Nations forces. Battling for four days, the team held positions until U. S. tanks broke through from the south, allowing it to rejoin Eighth Army with units and most of its equipment intact.

Gen. Freeman assumed command of CONARC in April 1965 after serving with the Chief of Army Information and at high-level posts in NATO, Austria, Frankfurt and Paris. Prior to his present assignment, he was senior Army member for weapons evaluation with the Joint Chiefs of Staff in Washington.

HERCULES

Wives Plan Luncheon Tuesday At Open Mess

The Redstone Arsenal Officers Wives Club will lunch next Tuesday at the Redstone Officers Open Mess at 12:30 p.m.

Wives of officers assigned in the Production and Procurement Directorate are in charge of the event. Mrs. B. A. Saholsky is the chairman.

The theme will center around

At The Service Club

By Betty Hayes

Variety is the key word for entertainment at the Service Club this week. Card nights, a contest, and a snack time are programs which will take place, but wait a minute. Let's begin with tonight.

Film time will begin in the TV room tonight at 7:30 p.m. Don't miss this evening's delightful traveling adventure.

On Thursday and Tuesday evenings join us in the little lounge for bridge night at 7 p.m. For those of you who don't know how to play the game, come and let the experts show you the fundamentals.

Attention chess players! A contest will be held Friday at 8 p.m. A prize will be in store for the winner.

Stop by the Service Club on Saturday afternoon for coffee hour at 3:30 p.m.

Let's hope that the luck of the Irish will be with you on Saturday night when we play St. Patrick's musical quiz at 8 p.m. A special prize will be given to the man who identifies the mystery tune.

Tasty snacks will be served to you Sunday night at 8.

Don't miss the evening of games scheduled for Monday at 8 p.m.

Many thanks to those who appeared on the show, George Washington's Frolics, Feb. 21. If you enjoyed this show, you won't want to miss the Shamrock Revue Mar. 15, and Skullabaloo on Mar. 20. More information on these shows and other March events will be given each week in this column.

See you at the Service Club.

the Irish saint who is credited with ridding Ireland of snakes: St. Patrick.

The program will be presented by Jean Martin of Martin Interiors.

Reservations are being handled until noon Friday by Mrs. W. L. Taylor 877-5257; Mrs. R. L. Nearhoof, 539-6997; Mrs. E. E. Hayes 877-5262; Mrs. W. P. Hooker 877-5759. Mrs. John F. Boyes 877-5144 will accept cancellations until noon Monday.

Wives Group To Breakfast Then Tee Off

The Golf Group sponsored by the Redstone Arsenal, Officers Wives Club will kickoff the coming season with breakfast and play on the Arsenal Course March 9, at 8:30 a.m.

Wives of both active and retired officers are eligible to play on the Special Services Course with the Golf Group.

Reservations deadline in noon March 7. Mrs. Norris Hightower, 877-4146; Mrs. Howard Hazlitt, 877-5758 are handling reservations.

Weather permitting, play will be a blind bogey.

Mrs. William Mattis Wins Thursday Bridge

Thursday the bridge group sponsored by the Redstone Arsenal Officers Wives Club had eight tables in play at the Redstone Officers Open Mess.

Winner of the session was Mrs. William Mattis, second, Mrs. G. T. Fearson and third, Mrs. Lella Mullins. Low tally was held by Mrs. Daniel Bowers.

Play is scheduled by Mrs. A. V. Garrabrant each week.

ORIENTATION FOR WIVES—Army Missile and Munitions Center and School faculty are conducting orientation of wives of incoming U. S. and Allied officers and executives for the three Army agencies and NASA's Marshall Space Flight Center. Lt. Orrin L. Butterfield demonstrates one of the training aids used in the Sergeant missile system for (left to right): Mrs. John G. Higgins, wife of the Post Surgeon, Mrs. James T. Thompson, wife of the Post Dental Surgeon; Mrs. William F. LaHatte, wife of Army Col. LaHatte who is an executive in NASA's Saturn space rocket management office, and Mrs. Clarence C. Harvey, Jr., wife of the Deputy Commanding General for Air Defense Systems at the Missile Command.

New JANGO Classes Will Begin Soon

The third nurses aide training class for the Redstone JANGO Guild will start April 2. JANGO stands for Junior Army Navy Guild Organization, and is an inter-service, non-profit organization for the wives and daughters of Armed Forces Officers, both active and retired.

The training course will be held at the Post Hospital and conducted by Maj. George Hasler, Chief Nurse. Those interested in further information about the new class should call Mrs. Ivey O. Drewry, 877-5136, the Redstone JANGO chairman. Mrs. John G. Zierdt is the adviser.

On completion of their training, the Redstone JANGOs work as nurses aides in the Post Hospital, Dental Clinic and at the Bloodmobile. The second class completed their training last summer and was capped in September.

JANGOS has two groups of members: Juniors, 14 to 21; and Seniors, over 21.

The JANGO Guild at Redstone is the first outlying Army Guild to be founded on an Army post in the United States. JANGO headquarters are in Washington, D.C., and all Guilds outside that area are referred to as outlying.

Founded in 1942, JANGO is governed and guided by a Board of Directors composed of the wives of senior officers of the Army, Navy, Air Force, Marines and Coast Guard. Mrs. Lyndon B. Johnson is the Honorary President and Mrs. R. G. Davis, wife of a Marine

MRS. SAHOLSKY WINS AT BRIDGE

Mrs. B. A. Saholsky was the winner at the Monday night bridge competition at the Redstone Officers Open Mess last week.

Runnersup were Mrs. Peter C.

Corps General, is the active president.

JANGO first became a national organization with its Junior activities when a former Surgeon General of the Navy requested the JANGO program for all Navy hospitals.

All funds raised by JANGOs annually through dues, donations and other means are allocated for the administration of JANGO, selected local charities, and the JANGO scholarship fund.

Kostoff, second, and Col. J. H. Hellmers, third.

Mrs. Jeff Kirby, 877-4030 and Mrs. Thomas Lynch, 877-5764 handle reservations to play with the group each week.

Sunday School Faculty Honored At Dinner Party

Sunday School teachers and chaplains assistants were honored at dinner at the Post Chapel social rooms Friday night during the first annual appreciation dinner for them.

Three letters of appreciation were awarded by Chaplain (Maj.) John P. Kirkland to Col. and Mrs. George E. Meadors, to SP5 Timothy Scheetz and to SP4 Ronald Fleetwood. Col. Meadors, who is about to depart for a new assignment, has been serving as the Protestant

Sunday School Superintendent. Mrs. Meadors has been active in several areas of religious endeavor. The two specialists are chaplain's assistants whose enlistments are about to expire.

About 85 members of the congregation, Protestant Chaplains, and guests attended the dinner.

Among the guests of honor were Col. and Mrs. R. P. Davidson, representatives of the Army Missile Support Commander.

Shuput Hits Honor Roll, Five Others Just Miss

PARADE OF STARS

AMC League: Dick Gore, 596 (212-217), Jim Gulley, 579 (219), Howard Roop, 548, Harold Jackson, 537, Ken Champagne, 536, Tom Patterson 536.

Supply Management League: Walt Young, 592 (212), Dick Horan, 577 (220), Tom Lindsay, 573 (216), Mel Webb, 568 (223), Sonny Yates, 559, Tom Patterson, 551, Charles McCleary, 549, Roy Whalen, 542, Dan Chepkauskus, 541.

Redstone League: Carl Reynolds, 598 (205), Bob Adams, 592 (213), Ed Demirjian, 578 (204-200), Jim Gamble, 569 (205-204), Henry Gattis, 566 (212), Jim Stuart, 558, Bob Lindeman, 554.

Field Services League: Mike Shuput, 629 (226-222), Ralph Sturgill, 592, (207-204), Ed Leahy, 576, Jim Wiswall, 556, Frank Ralph, 542, Al Sarge, 539, Bill Crump, 537, Bill Lasewicz, 535.

One Honor Roll total was posted in the civilian bowling leagues last week together with a whole host of near misses.

Mike Shuput grabbed Bowler of the Week honors when he put together games of 226, 222 and 181 for a 629 series to lead Central TV to a 3135 team total and clean sweep over the Chiefs in the Field Services League.

Five other bowlers came within a single spare of reaching Honor Roll status in what was a good week of scoring among the civilian bowlers.

Ed Leahy, Frank Ralph and Bill Lasewicz joined Shuput to boosting the TV crew to their top effort which was second best in the Field Services loop this year.

The Guided Muscles were not nearly as productive in the accumulation of fallen pins, but were just as effective in taking four straight from the Spoilers to boost their lead to two and a half points. The second place Crackers were held to a split by the Crackers.

Dick Gore came within four sticks of a 600 as he led the Ramblers to a 3-1 win over the Tow Boys in the AMC League. Gore had games of 217 and 212. His three strikes in the tenth frame won the second game by three pins and helped his mates to a single pin margin in total pins.

The league leading Bombers added another point to their margin with a clean sweep over the Lancers while the Maulers were winning three out of four from the Stars. Jim Gulley had a 579 for the Maulers and Jerry Keagy topped the Bombers with 536.

Carl Reynolds fired a 598 and Henry Gattis collected 566 more as Burketts had a 3074 for a sweep in the Redstone League. In other sweeps, Dean's took over sole possession of first at the expense of the Six-Shooters, and Gin-

ger-Ruth tied for second with four for four against Aero's.

Ed Demirjian and Ray Proffitt led the Dean attack while Bob Adams (592) and Jim Haight combined their efforts to do the Aero's in.

Another 592 by Walt Young set the individual pace in the Supply Management League, as Huntsville Brick and Tile continued their winning ways with a sweep over the Marauders.

The second place All-Sports five kept pace with a sweep over the Manglers as Mel Webb shot a 568.

Rollers Beat Off Black Jack Threat

Coming up with the strikes when they were needed, the Rocket Rollers beat off a serious challenge from the Black Jacks and added to their lead in the MMCS Officers bowling league last week.

Leading the Jacks by a scant half point as the action started, the Rollers took two of the three games plus total pins from the second placers despite the absence of any outstanding individual scores.

Pete Lewis was high for the Rollers with a 514 and Myron Sato added a 504. George Earle flattened 532 sticks for the Jacks, Linn Grubbs got 504 and Orrin Butterfield shot a 502.

The Rounders scored the only sweep of the week with the Squirrel Hill Mob as their victims. F Troop won three from the Missilemen and the Bad Gnus took a trio from the Satellites.

Milt Fogel shot a 526 for the Rounders and Terrell Park collected 522 pins for the Bad Gnus.

Yacht Club Will Hold Open House

Military and city officials will share the limelight with some 100 boats Saturday (Mar. 5) when the Redstone Arsenal Yacht Club holds its third annual open house and boat show on the Arsenal.

Brig. Gen. Clarence C. Harvey, Commodore of the Club, is scheduled to present honorary memberships in the Yacht Club to Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command; Mayor Glen Hearn of the City of Huntsville, and Col. Thomas Cooke, Commander of the Army Missile Support Command.

The presentations are to be

made at 10 a.m. Saturday at the Yacht Club's clubhouse, Building 3614, on the Arsenal.

The general public is invited to attend the boat show and open house during the hours of 9 a.m. to 1 p.m. Signs will be posted on Arsenal roads giving directions to the show and visitors will be admitted through the Redstone gates.

Directions to the show and open house may also be obtained from Military Police on the gates.

Club officials say more than 100 small boats and cruisers, including 1966 models, will be on display during the show. Yacht Club members will be on hand to dis-

cuss their boats.

Free coffee and donuts will be served by wives of Yacht Club members.

The show and open house is the kick-off event of the Yacht Club's 1966 season which will include six cruises during the summer. Included in the cruises are trips via water to Paducah, Ky., and Chattanooga and Knoxville, Tenn.

Members in the club, which has more than 140 members at present, are open to persons connected with Arsenal activities, including military, civilian employees, and contractor personnel.

Officers Seek The Honor, C Company Gets Trophies

C Company of the MMCS School Troop Command captured the 1966 Unit Level basketball championship last week helped somewhat by a league regulation that each team be at least fifty per cent enlisted personnel.

The regulation gave the crown to C Company even before the final game was played on Monday night with the Officers.

The latter, after dropping a second round game to C, came back to score three impressive wins last week and eliminated all other championship hopefuls. The two teams were to have met on Monday night for the third time in two weeks following a clash between the Military Police and the Medics for second place.

The Officers routed MICOM, the MPs and C Company on successive nights last week to reach the final game.

Only in the first of the three games were the Officers in any serious danger. In that one MICOM, trailing by 15 three minutes from the end put on a furious rally that closed the gap to three points, only to have Bob Murphy turn in

a three point play for a 52-46 final score.

Murphy ended the game with 21 and Bill Flynn added 14 more. Jim Odenkirk led MICOM with 13 and Dick Waugh scored 12.

The second game was no match as the Officers enjoyed their hottest night of the season against the Policemen, who lost almost their entire team after tying the Officers for the regular season title.

Murphy put on a 34-point performance in pacing the 89-43 win. Bill Flynn and Bill Lenzi each contributed 17 while Jerry Rusnick collected 16 in the losing cause.

The Officers made it three straight on Friday when they took a 62-55 win from C Company to set up the final game.

Although the score was fairly close all the way, the Officers never trailed and were able to come up with the big shots every time C Company threatened. Flynn grabbed scoring honors with 20, Murphy added 18 and Lenzi hit for 15.

Four Unbeaten In Handball Tourney

The first two rounds of the 1966 Unit Level handball tournament was completed last week with four players winning two matches apiece in the winners' bracket.

Joe Yancher, Irv Lyles, Tony DiAmbrosio and Willy Clinton each came out victorious in their first two encounters, while Tom Ellis came back from an opening round to hang up a pair of wins in the losers' bracket.

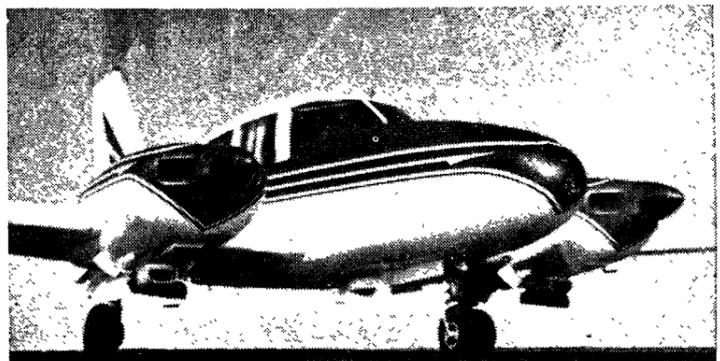

Sixteen players were in the opening field for the singles championship which will be concluded next week. Doubles play will start at the close of individual play.

S & M Pair Takes Lead In City Meet

Two Supply and Maintenance teams will be out to add to their bowling laurels this Sunday when they go after the Directorate championship when the S & M angles meet is rolled at the Star-Lanes in Huntsville.

They are Ginny Hight and Norma Street, second place finishers in the Division II doubles of the Huntsville City championships last weekend. Ginny kept right on going and captured the second place money for Division II all-events.

She fired a 661 (533 actual) along with a 641 (530 actual) but Norma tossed for a 1302 in the doubles. Ginny shot a 605 in singles and 588 in the team event for her 1854 all-events total.

Norma had an all-events total of 356, however, she was competing in Division I in this event and ended further down in the list.

They are just two of the almost 100 entries who will be trying their luck in the annual S & M angles event this weekend. The defending champion of the event

Pat Hood who fired a 711 total (91 actual) last year.

Wheezers Regain Lead In A-B-C

The Wheezers replaced the Lucky Strikes at the top of the A-B-C Officers Bowling league last week when they took a 3-1 win from the Black Jacks as the Strikers were dropping a match to the S Wonnors by the same margin.

The Hopefuls also won a trio of points in a match with the Saturns and climbed into a second place tie with the Lucky Strikes, a single point out of the lead.

Jim Bochnowski captured individual honors for the week when he posted a 578 for the Hopefuls. Lynn Kidd was ten points behind for the S Wonnors and Don Vanderheyden flattened 547 sticks for the Lucky Strikes.

The S Wonnors posted the high team total when they accounted for 2732 pins.

• The United States Military Academy was host to more than 200 student delegates from 96 colleges and universities in the U.S. and Canada for the 17th annual Student Conference on U.S. Affairs, a forum for the discussion of national security problems. General Maxwell D. Taylor, special advisor to the President, delivered the principal address. (ANF)

Vanderbilt Staff Schedules Three Nuclear Lectures

Lectures on Nuclear Spectroscopy Research at Vanderbilt University will be presented at the University of Alabama Research Institute at 10 a.m. Tuesday by three professors.

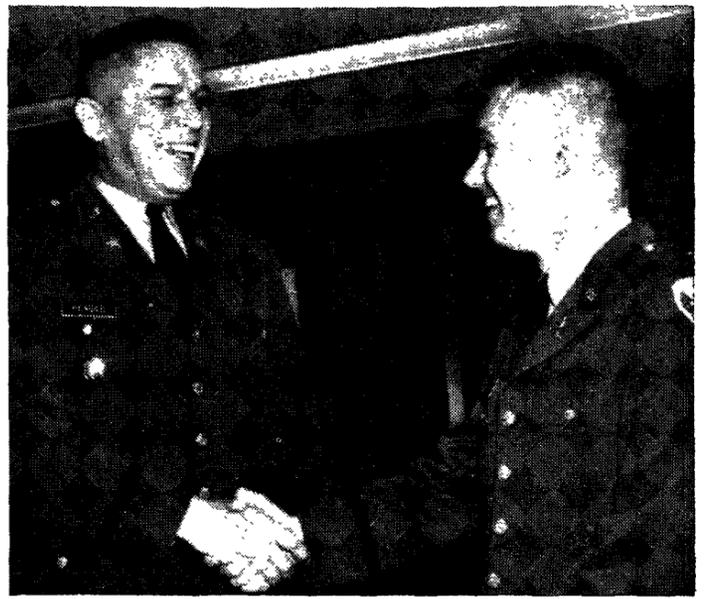

Dr. J. H. Hamilton will talk about internal conversion processes studied by high resolution internal conversion and electron-gamma directional measurements;

Dr. B. Van Nooijen will discuss conversion coefficient measurements by various techniques and Dr. A. V. Ramayya will cover Li-Ge gamma spectroscopy — singles and coincidences.

Dr. J. H. Hamilton, Associate Professor of Physics, Vanderbilt University, obtained his Ph.D. in Physics at Indiana University in 1958. He has contributed significantly to experimental nuclear physics (in excess of 100 publications). Dr. Hamilton organized an International Conference on Internal Conversion Processes at Vanderbilt in May 1965. He is the editor of a new book on Internal Conversion Process, published by Academic Press, 1966.

Dr. B. Van Nooijen obtained his Ph.D. from Technological University of Delft (Netherlands) in 1958. He is at present N.S.F. Senior Foreign Scientist at Vanderbilt University. Dr. Van Nooijen has made excellent contributions in the fields of nuclear beta decay and internal conversion studies.

Dr. A. V. Ramayya has been a research associate at Vanderbilt for the last two years. He received his Ph.D. in Physics from Indiana University. He has been closely involved in the development of new experimental techniques at Vanderbilt. His major interest is experimental nuclear physics.

FT. BLISS HIGH SCORER—First Lt. Jerry O. Williams (right), recently assigned to the Research and Development Directorate at the Army Missile Command, is congratulated by Lt. Col. Robert M. Pearce, R&D Director. The young officer scored 94.89 in a course at the Army Air Defense School in Ft. Bliss, Tex., before coming to Redstone. He was ranked sixth in a class of 47.

Lt. Williams Scores High

A young officer working in the Research and Development Directorate at the Army Missile Command, 1st Lt. Jerry O. Williams, recently scored 94.89 in a course at the Army Air Defense School, Ft. Bliss, Texas.

The high score gave Lt. Williams a ranking of sixth in a class of 47 taking the Air Defense Officer Basic Course. The average class grade was 89.34.

"This school is proud of the academic record achieved by Lt. Williams in a highly technical field," said Col. John T. Evans, Secretary of the Air Defense School. "He has shown marked potential and it is this school's hope that he will contribute mater-

ially to the effectiveness of his organization." At the Missile Command, he is assigned to the Combat Requirement Branch of the Future Missile Systems Division.

Lt. Williams holds a bachelor's degree in Civil Engineering from North Carolina State University where he was enrolled in Army ROTC, and is studying for a doctorate in the same field. He is a native of Alcoa, Tenn.

THAT'S MY DAD—It's a toss-up as to the prouder of the Adams', as dad receives his new Warrant Officer bars at the Army Missile & Munitions Center & School. WO William H. Adams beams down at son Timothy as the youngster stares back in admiration. Mrs. Adams aids Col. Erwin M. Graham Jr., commandant of MMCS, in the pinning ceremony. WO Adams, formerly an instructor in the Missile Components Department, DIT, was recently assigned to Korea.

SIDE LOOK—An OV-1 MOHAWK sports its side-looking airborne radar (SLAR) in an external container slung underneath the battlefield surveillance aircraft. In addition to the SLAR for reconnaissance missions, the MOHAWK can also be equipped with cameras for photographic assignments and in this role has an infrared capability for night operations. Grumman Aircraft Engineering Corp. makes the MOHAWK.

following an intensive study of problems relating to deficiencies in the manner in which repair parts are managed, stocked and issued, and of the adverse impact that such deficiencies have on the Materiel Readiness of the Army.

Supply and Maintenance Schedules Seminar Series

Personnel of the U.S. Army Supply and Maintenance Command will be at Redstone next week to

conduct a series of seminars designed to establish command objectives for the solution of various logistics problems.

The seminars will be held on Monday and Tuesday covering the broad areas between MIL-

STRAP and the interfaces with Logistics Data Systems. Three separate sessions are planned for Supply and Maintenance Directorate personnel.

Middle management personnel will participate in the opening seminar at 9:30 Monday morning with the first line supervisory personnel included in the session that starts at 1:00 p.m., Monday afternoon. Both sessions will be held in Room A-115 of Building 5250.

On Tuesday morning the Command/Executive level group seminar will be held starting at 10:00 a.m., in Room A-200 of Building 5250.

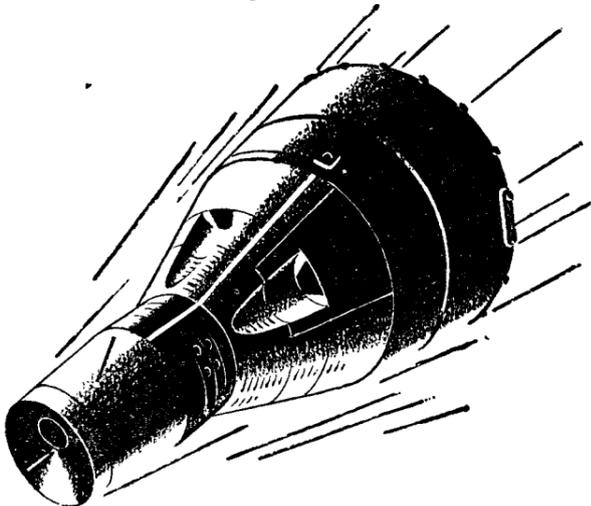

Col. Russell Sell, Director of Supply and Maintenance, will introduce the visitors and Enoch Sparks has been named coordinator for the Directorate.

The USASMC presentation team is headed by Lewis Anderson, executive assistant to the Director of Supply. He will be accompanied here by E. R. McDaniel, George Kaufman, Donald Slaugh, W. S. Carpenter and Max Migdall.

The seminars are being presented at each of the Army Materiel Command commodity commands in addition to several Defense Department installations.

Hire High School Students For Part Time Employment

Over fifty North Alabama high school students have been added to the Army payroll at Redstone Arsenal this year under the part-time needy student program authorized by the U. S. Civil Service Commission.

The program was established last year to encourage the employment of needy high school and college students to perform certain clerical and semi-skilled assignments.

Since the program was inaugurated, students have been employed from each of the Huntsville high schools, the Councill Training School and Lake View High School in Guntersville.

The students work 15 hours per week, generally from 1:30 until 4:30, Monday through Friday. They carry a heavy class load during the morning hours with their work at the Arsenal creditable for completion of work-study program.

They are paid a minimum of \$1.25 per hour, plus the shift differential where applicable.

To date the students have been employed for work in each of the Missile Command's functional directorates and General Counsel Office, the Missile Support Command and the Missile and Munitions Center and School.

Administration of the program is assigned to the Civilian Personnel Division. The program coordinator is LeRoy Daniels, a staffing specialist who accepted the position in Personnel in December

LEROY DANIELS
Program Coordinator

after having been employed by the Alabama Employment Service in Huntsville.

A native of Troy, Ala., Daniels graduated from Alabama A & M last year and attended Tuskegee Institute during the summer under a Department of Labor program to prepare college graduates to serve as personnel counselors.

Auburn Schedules Short Course On Space Navigation

A three-day short course in Guidance and Navigation on Spacecraft will be conducted at Auburn University Mar. 30 through Apr. 1 by Dr. Richard H. Battin, Deputy Associate Director of the Instrumentation Laboratory at Massachusetts Institute of Technology.

The course is sponsored by the Departments of Aerospace Engineering, Electrical Engineering and Engineering Extension Service at Auburn.

Registration will begin Wednesday afternoon at 1 p.m. at the Heart of Auburn Motel Restaur-

ant. Registrants will make their own arrangements for housing and meals. Cutoff date for enrolling is Mar. 20. The Engineering Extension Service at Auburn University is handling the enrollment registration. The University ZIP Code is 36830. Question periods will follow each lecture.

Inertial Guidance Panel Meets Here

The Army Missile Command is the host today and tomorrow for the eleventh quarterly meeting of the Army Technical Panel on Inertial Guidance, a group established in 1963 to bring together agencies concerned with all aspects of inertial technology. This is the first time the group has met at Redstone.

Harold L. Pastrick of the Army Inertial Guidance Management and Technology Center here is chairman for the meeting where representatives from Army agencies are projecting the Army Materiel Command's five year research, development, test and evaluation programs on inertial technology.

Engineers from the Munitions, Electronics, Weapons, and Mobility Commands, the Engineering Research and Development Laboratories, the Limited War Laboratories and the Geodesy Intelligence Mapping Research and Development Agency will also discuss current technology in detail and their progress in research and development.

As an example, future plans and recent inertial developments in arming and fuzing, avionics for aircraft, augmented artillery weapons, fire control and tactical surveying will be among the topics on the agenda.

Jess B. Huff, Director of the Missile Command Army Inertial Guidance and Control Laboratory, will welcome the panel members and tell them of the organization and mission of his laboratory.

John Osborne, Norman Bell and Frank Duvall from the Missile Command will explain recent developments and future plans for Army missiles.

Observers from the Navy, Air Force and the Office of the Chief of Army Research and Development are attending the meeting.

Lt. Col. Gene Budd Is Man With Many Hobbies

Like a popcorn addict sitting through a tense movie, Lt. Col. Gene Budd keeps adding hobbies to his collection.

One of them, photography, can be traced back to his father, Floyd, who is a commercial photographer. Col. Budd was born at Newark, N. J., his father now lives at Bricktown.

In June, 1941, Col. Budd became an Army Ordnance man and has lived in many places since—including the Far East, the Middle East, Europe and the United States. He is now Chief, Personnel Plans and Training at the U. S. Army Missile Command.

Some of his hobbies include a tank full of exotic tropical fish, albums of stamps, a scale model railroad, and recently he started to paint his own collection of oils. The paintings are inspired by photographs, etchings, real life or illustrations. He dreams colors into black and white images.

Col. Budd doesn't amuse himself with these projects alone. He plays the organ; he plays golf; and he raises Dachshunds of which there are three: Gretchen, who is brown, Heidi and Fritz are black and tan. Fritz is Heidi's pup and still excitedly exploring this bright new world.

Mrs. Budd is the former Miss Helen Neal of Gallatin, Tenn. She shares the colonel's interests in organ music, plays more golf than he does, and is his severest art critic. Their son, Floyd II, is a student at Auburn University and their daughter, Mrs. Bruno Procopio, is living in Fairbanks, Alaska.

Like most families in the armed services, Col. and Mrs. Budd are surrounded at home by furniture and bric-a-brac that reflects a nomad existence in assignments extending across the world.

The painting collection the colonel has started covers all of these areas and more. A Siberian scene hangs on his office wall and his first finished oil is a figure from the Middle East. Before returning to Redstone, Col. and Mrs. Budd were stationed in Turkey. An earlier assignment was at the Army Munitions and Missile Center and School.

Gretchen, Heidi and Fritz will probably never be preserved in oils. Col. Budd tried to capture the spirit of a cocker spaniel and found it not only challenged skill but demanded patience and a photographic memory. Even in a picture, a dog won't remain static long enough to make a good model.

MISSILE COMMAND OFFICER—The energetic, versatile Lt. Col. Gene Budd was hard put to stand still long enough for this picture beside some of the products of his camera and brush.

Training Courses Taught By Supply and Maintenance

An important but little publicized facet of the Missile Command Mission is the requirement to furnish training guidance to newly activated combat missile units.

Accomplishment of the mission is assigned to the Technical Assistance Division of the Supply and Maintenance Directorate whose primary objective is to furnish services to improve the performance and maintenance effectiveness of units in the field.

A great amount of personal and unit training is involved in bringing a unit to combat readiness and it is the job of the missile maintenance technicians from the Technical Assistance Division to develop a comprehensive training program even before the filler personnel are received.

The Missile Command personnel are assigned to the units along with the original cadre for the purpose of supervising every phase of the training scheme for the organization.

One such assignment was recently completed by Elmer Collier

when he spent over six months with the 1st Battalion, 333rd Artillery, a Nike Hercules unit at Ft. Bliss, Tex.

During his tour at Ft. Bliss Collier assisted the Battalion S-3 in developing almost 5,000 hours of lesson plans to cover basic and advanced training for the air defense unit.

By the time filler personnel started arriving late in December, the organization had a program established whereby the incoming

personnel would be integrated into the unit with a minimum loss of time.

The Redstone Rocket — Page 10 March 2, 1966

Orientations Soon Will Be Available

FORT MONROE, VA.—A list of references for use by commanders in preparation of overseas orientations for personnel being assigned to Vietnam will be distributed by the Command Information Division, Office of the Chief of Information, in the very near future.

Topics for consideration include: Protection of the Legal Rights of US Military Personnel Stationed in Vietnam; Proper Standards of Conduct, including Troop-Community Relations; Background of the Situation Which Requires That Troops be Stationed in Vietnam; Geography, Government, Laws, Customs, and Traditions of Vietnam; Code of Conduct, and Dangers of Communism.

These are supported by DOD and DA Pamphlets; films; Army Information Digest articles; DOD Fact Sheets; Commanders Digest and For Commanders articles; Command Information Fact Sheets, and references of a general nature which may support any of the above topics.

• A company-size recreation and athletic kit containing items such as softballs, gloves, horseshoe sets, and playing cards is now in regular use in Vietnam following a successful trial period there. The Recreation and Education Division of the Office of the Adjutant General, DA, reports requests for some 300 kits to supplement the original 10 test packages and 40 others already in use. (ANF)

Seventy-Two Schedule Graduate Level Courses

Seventy-two Arsenal military and civilian personnel have been selected to attend graduate level training courses at military installations and contractor plants scattered across the country.

The local personnel were enrolled for the training courses under the career development program administered by the Training and Development Division of Civilian Personnel. The off-post training courses are made available to help the selected personnel to better their career potential.

Twenty-nine of the Arsenal personnel left their duty stations this week and the remainder are scheduled to start their training next week. The courses range in length from one to six weeks.

The U.S. Army Management Engineering Training Agency at Rock Island, Ill., is the destination of 15 locals where they are enrolled in nine different courses.

Ronald Callaway (P & P) and John Troutner (Hercules) are taking Elements of Reliability, Archie Wilburn (ADFDS Office) and Jimmy Layne (Post Engr) are studying Management Statistics, and Mary Spelce (P & P) is enrolled for Systems and Procedures Analysis.

Charles Garrison (P & P) and James Leak (TOW) are attending the Middle Management Seminar, John McArthur (R & D) is enrolled for Quality Assurance Appreciation and Alter Weaver (P & P), is taking Work Planning and Control.

W. H. Butler and James Hudson (C & DP) and Florence Speake (Patent Ctr) will start the ADP Appreciation course next week, Noel Summers (Hercules) and Russell Gilbert (Post Engineer) will study Economic Analysis for Decision Making, and Wanda Harvel (P & P) is enrolled for Organization Planning.

Another large group left for the U.S. Army Logistics Management Center, Ft. Lee, Va., this week. They include Kermit Faugnt and Richard Mears who are in the Defense Quality Control Management course, and Robert Miles and Andrew McLean who are taking Defense Advanced Procurement Management. All four are from the Procurement and Production Directorate. Howard Cox (LC Com office) will leave for the Virginia installation next week for International Logistics.

Jack Barrett, James Brown, James Dougherty and Billy O'Neal (all of P & P) together with Emmett Pearson (Hawk) are enrolled for Defense Procurement Management, while Lt. Col. William McHugh and Roy Accardi (R & D) are attending the R & D Management Orientation.

The largest single group from Redstone are the 15 that will go to Atlanta on March 9 to study Personnel Management for Executives offered by the Deputy Chief of Staff for Personnel.

Included in this group are: Robert Griffin and Josephine Hall (S & M), E. H. Haynes, William Jasper and G. V. Piercy (AMSC), George Mitchell (ADFDS), Lt. Col. Donald Burnett (Inspector Gene-

ral), Wayne Shaull (Redeye), Fred Cheplen (Pershing), Jacob Zarovsky (R & D), Mark Corthell (Inst & Svcs), Ora Lusk (Sergeant), Lt. Col. Thomason Ellis (Nike-X), and Harold Mitchell (F & A).

Robert Seavers (AMSC) is at the AMC Field Safety Agency, Charlestown, Ind., for Motor Vehicle Safety, and Charles Bucy (Instal & Svcs) together with Mark Thomas (Sergeant) will go to the same place next week for Nuclear Weapons Safety.

Eight employees of the Finance and Accounting Center will go to the U.S. Army Finance School at Ft. Benjamin Harrison, Ind., next week to take a course in Military Accounting.

They are William Third, Roland Huskey, Hershel Moore, George Goodlett, Fred Rossetti, Velda Wetherill, Louann Douglass and William Douglass.

Wright Patterson AF Base in Ohio is the destination of Lee Johnson (R & D), John Doss (Nike-

X), Linwood Varney (AMMCS) and Lee Dawson (Nike X). Doss and Varney are taking the Maintenance Management Information course, Johnson is studying Contract Law, and Dawson is enrolled for Cost Reimbursement Incentive Contracting.

Robert Powell and Curtis Williams (both of P & P) are in Washington to take the Defense Procurement Executive Refresher course offered by the Department of Navy, and Morris Knight (P & P) will take the same course starting next week.

Two more P & P employees, Lorene Cooper and Audrey Loftis, are at the Office, Chief of Naval Personnel, in Washington for Termination Settlement and Negotiation.

Joseph Stewart (S & M) is taking the Hawk System Engineering Course at the Raytheon plant at Ft. Bliss, Tex., and Vincent D'Antonio (AMMCS) is enrolled for Redeye New Equipment Training Field Maintenance at Honeywell, Inc., at West Covina, Calif.

John Smith, Lloyd Malone and Theodore Blake (all of S & M) together with John Hill (P & P) are attending the Missile System and

Logistical Support Orientation at the U.S. Army Missile and Munitions Center and School.

Wendell Sanders (R & D) will study Packaging Design at the Joint Military Packaging Training Center, Aberdeen Proving Ground, Md., and John Burke (ADFDS) is

at the U.S. Army Management School, Ft. Belvoir, Va., for Army Installation Management.

Attendance at the R & D Procurement Management Seminar at Norton AF Base, Calif., will occupy Clyde Parker (Hawk) all of next week.

REDSTONE TOUR AT 90—One of the wishes Henry Hervig (center) of Huntsville, had when he recently celebrated his 90th birthday was to tour the U. S. Army Missile Command at Redstone Arsenal. The wish was granted Hervig, who was born in 1878 (year the gasoline carburetor was invented), and he saw facilities where some of the world's most powerful missiles and rockets have been developed. Here, Morris Brooks and Charles Brooks show him through one of the laboratories of the Metrology Center, of which his son Don Hervig is director.

• A high-ranking DOD committee of Defense, will recommend improvements in the design and management of these facilities. The Army's Medical and Research Development Command is executive agent for the study. (ANF)

Looking for a new car for only \$1,671.95?

You've come to the right ad.

That's how little we charge for a Volkswagen. Of course you don't get certain things with it. Like a drive shaft, (The engine's in the rear.) Or a radiator. (It's air-cooled.)

Also, because a VW gets about 29 mpg, you don't get a whopping bill at the end of every month.

Come in and take a look. We think you'll like what you see.

And also what you don't see.

Calhoun To Offer Some Night Classes

Night classes, which were announced recently for the Spring quarter at the John C. Calhoun Junior College, will start Mar. 31. Dr. Carlton Kelley, president, said today.

Registration will be held from 7 until 9 p.m., Mar. 29.

Dr. Kelley said the night classes are being established to meet the needs of this area. He pointed out that there were some 175 students last year who expressed an interest in attending night school. "Now they will have an opportunity," he stated.

"Workers who want to improve their present skills, prepare for advancement or for change of employment, gain a vocational experience, or expand their general education are invited to enroll, but it is important that they get these applications back in as soon as possible," Dr. Kelley said. "A lot of people will welcome this—it is so cheap it's almost like a gift." The cost will be \$4 per credit hour or \$20 per course plus the cost of textbooks. Students should enclose \$5 with their applications to reserve a place in the class. The remaining \$15 must be paid at registration.

High school graduates are eligible for enrollment. Application blanks may be obtained at the college Monday through Friday from 8 a.m. to 4 p.m. or by writing the college for an application blank. Evidence of having graduated from high school must be furnished with the application or at the time of registration. This may be accomplished by asking the high school to mail a transcript of grades to the college.

Courses will be offered in freshman English, history, mathematics, and business. All classes will meet twice a week for two and a half hours.

The college reserves the right to

eliminate any class in which less than fifteen students enroll. Dr. Kelley also commented that

some 400 high school seniors have already applied for enrollment in the freshman class next fall.

Col. Glenn Crane Retires

Col. Glenn Crane, Deputy Chief of Staff at the U. S. Army Missile Command, will retire Monday after more than 24 years of Army service.

He plans to live at Santa Monica, Calif.

Col. Crane has been identified with Army missile programs since 1950, the year he completed courses at the Guided Missile School at Ft. Sill, Okla.

A native of Columbia, Mo., he was awarded a B. S. degree in

electrical engineering at the University of Missouri, in 1941. He has also received a Master's degree in business administration from George Washington University, and obtained advanced degree credits at Shrivensham University in England.

Col. Crane enlisted in the National Guard while in college at the University of Missouri. He received his commission in August, 1941, and served in Ordnance during World War II in North

Africa, Sicily, Italy, France and Germany.

After the war, he became a research engineer for a year at the Elliot Company in Jeannette, Pa., before returning to the Army.

In 1952, he attended the Command and General Staff College at Ft. Leavenworth. When he graduated in 1953, he was assigned to Redstone Arsenal with duty at the Bell Telephone Laboratories in Whippany, N.J. In March of 1965, he was assigned as chief of the Army Ballistic Missile Field Office at Inglewood, Calif., and remained on the Arsenal missile staff until

1962 in various executive capacities including the role of Project Director, Ballistic Missile and Space Defense, in the Army Rocket and Guided Missile Agency. He left Redstone to attend the Industrial College of the Armed Forces before taking over as chief of the Nike-X Kawajalein Test Site.

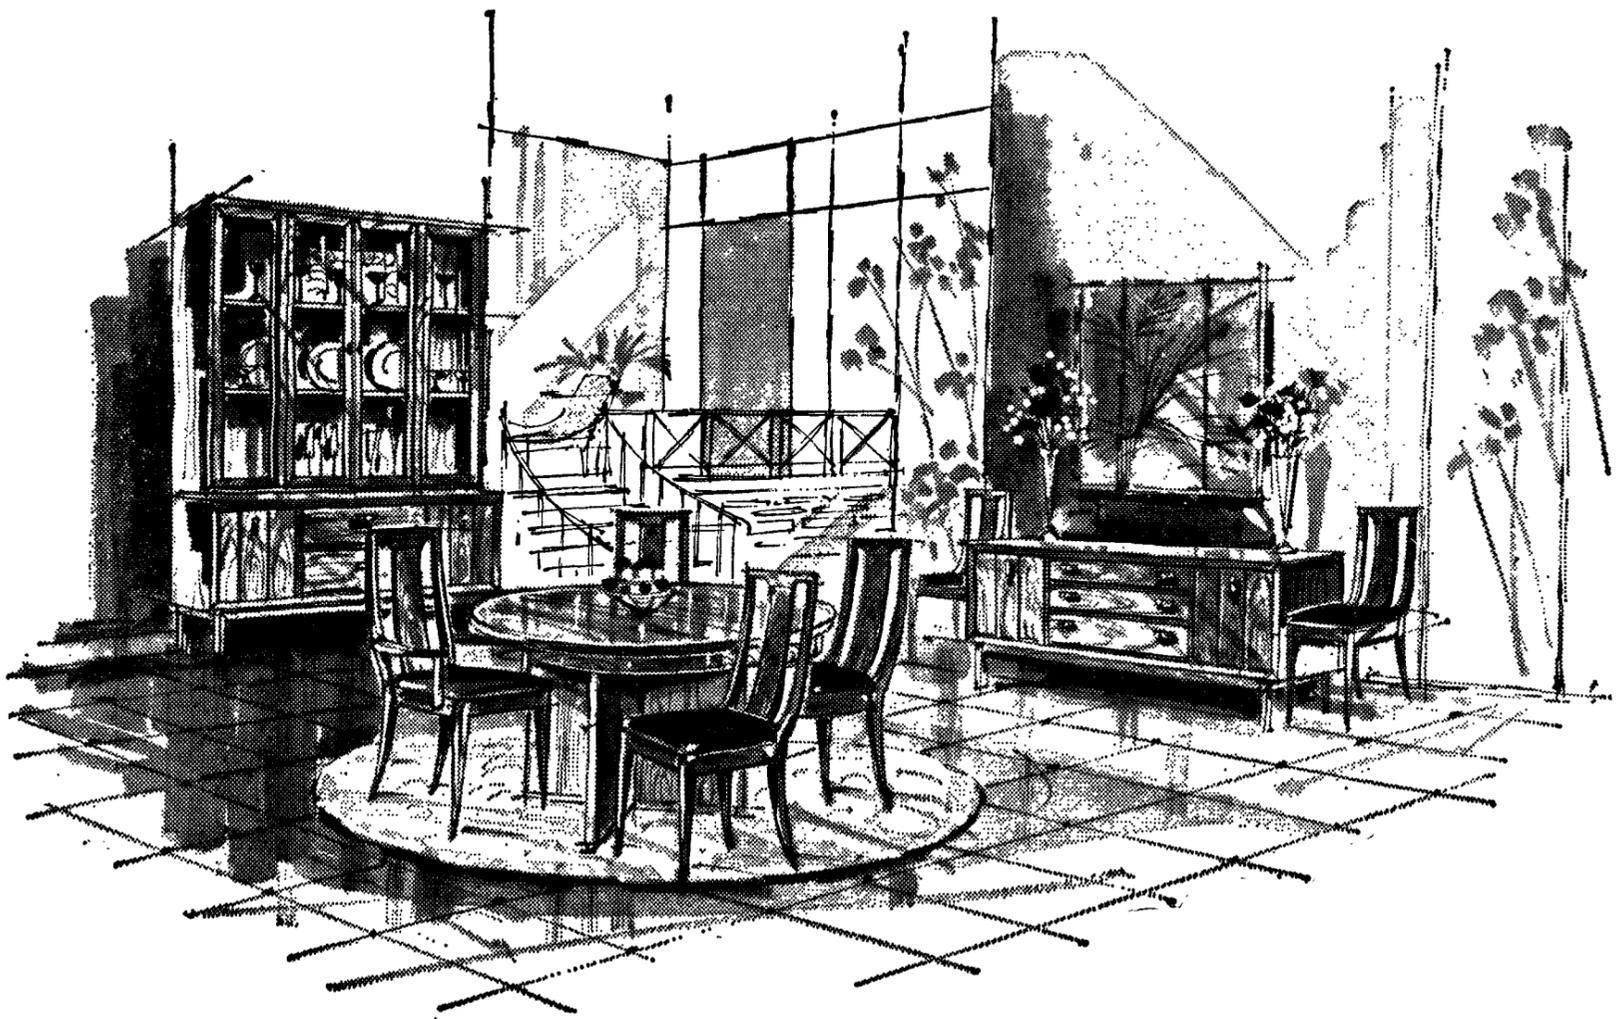

Col. Crane is married to the former Miss Mary Jane Shelver of Ortonville, Minn.

HE MIGHT BE THE OLDEST American enlisted man in Vietnam, but 61-year-old M/Sgt. Clarence Wise of El Paso, Tex., is a nimble, alert soldier who volunteered for duty with U.S. Army, Vietnam, because he thought "there might be something to do over here." Though he keeps a busy schedule as the 1st Logistical Command's Operations Sergeant, the five-time grandfather often spices his routine by signing up for perimeter guard duty. (ANF)

Four Die In Plane Crash In Georgia

George E. Eddy, Chief of the Security Branch, Intelligence and Security Division of the Army Missile Support Command, was one of four Redstone Arsenal employees killed Sunday night in an airplane crash near Columbus, Ga.

Eddy, his brother Paul, Wendell McKinney and Ray B. Reed died when their light plane crashed about eight miles from the Muscogee County Airport. The latter three were employees of the Marshall Space Flight Center.

They were on their way back to Huntsville Sunday night after attending auto races at Daytona Beach, Fla., when McKinney, the pilot, radioed the Columbus airport requesting landing directions. This was about 10:30 p.m. An aerial search was conducted when the plane failed to land and the wreckage was found about 8:30 a.m. Monday.

Eddy, 38, is survived by his wife, Imogene Johnson Eddy, and a son by a previous marriage Kenneth Ray Eddy, 18. His parents live in Brilliant, Ala.

He came to work for the Army in March, 1956. He had attended the University of Alabama Extension Center in Huntsville and Snead College. He was serving as a captain in the Alabama National Guard.

Paul Eddy was 33, McKinney was 32 and Reed would have been 32 in March.

LOOKING AT SHILLELAGH—Lt. Col. Spencer R. Baen (standing), Shillelagh Project Manager, explains the Shillelagh missile to officials from the Royal Netherlands Army during their recent

visit to the Army Missile Command. From left are Lt. Col. J. Van Bentham, Deputy Chief, Inspection Materiel Command and members of his party, T. J. DeCock Buning and H. D. Van Nieuwkerk.

UNDER FIRE—Basic trainees, (l to r) Pvts Rudolph M. Capman (Ft. Myers, Fla.), Lamont T. Thornton (Brooklyn, N.Y.), and John B. Story (Berterton, Md.), fire from the sitting, squatting and kneeling positions under the watchful eye of Army Drill Sergeant Joel T. Corson (Jacksonville, Fla.). The trainees are taking part in tests being conducted at Fort Gordon, Ga., to determine if the three positions should remain in the basic rifle marksmanship course taught at Army Training Centers.

HAPPY DAY—Earl C. Wade, right, gets ready to open a farewell gift just presented to him by Charles Riley on behalf of Wade's former co-workers in the Missile Command Army Inertial Guidance and Control Laboratory. Wade has retired after more than 31 years of Government Service. He came to Redstone in 1956, and had been employed by the Navy in Washington, D. C., California, and Florida during his career. The box held a piece of luggage.

This year marks the 25th or Silver Anniversary of U.S. Savings Bonds. The first Series E Bond was sold to President Franklin D. Roosevelt May 1, 1941.

February 9, 1870 — The weather service was established as part of the Army Signal Service. AMC today carries on this pioneering tradition through its meteorological studies to give support to ground forces.
