

Arsenal Bond Buying Almost Unanimous

The recent decision of the Federal Government increasing the interest rate on U. S. Savings Bonds was eagerly received at Redstone Arsenal where nine out of every ten personnel are regular Savings Bonds buyers through the payroll deduction program.

The interest rate was increased from 3.75 to 4.15 per cent on all Series E Savings Bonds bringing increased savings to the 11,396 Arsenal employees who are using the Savings Bond route to future security.

In announcing the new interest rate, President Johnson called on Federal employees to set an example for the rest of the Nation by enrolling for regular partici-

pation in the U. S. Savings Bond Program.

He said the program, "is both prudent and patriotic. It is prudent because it strengthens the security of your own family, and it is patriotic because it strengthens the economy of the Country."

"Not all of us," he said, "are called upon to fight for freedom in Vietnam, but we can help that cause by strengthening our Country and by strengthening its economy here at home."

While increasing the security of their own families, Redstone Arsenal civilians invested \$4,641,921.50 in the Nation's economy through payroll deduction Savings Bond purchases in 1965. Almost 62

per cent of all U. S. Savings Bond sales in Madison County during 1965 were made to Army civilian employees at Redstone Arsenal.

Military personnel at the Arsenal procured Savings Bonds totaling \$473,775 during the same period. Their bonds, however, are not issued by the Finance and Accounting Agency at Redstone and are not included in the Madison County bond sales.

Their faith in the future of their Country more than equalled the construction costs of the Francis G. McMorrow Missile Laboratories, one of the Army's most modern scientific complexes.

In this \$4.4 million structure many of these same employees

are engaged in the research activities that insure our combat forces have the best weapons that technology can develop.

The Redstone rate of participation, already one of the highest among Department of Army installations, has shown a steady increase in recent months. Over 92 per cent of the 12,371 assigned personnel have authorized payroll deductions for the purchase of U. S. Savings Bonds.

Almost every organizational element at the Arsenal has had a hand in the steady increase and 11 units, ranging in size from four to over 400 personnel, claim 100 per cent enrollment.

Largest of these is the Finance

and Accounting Center where over 400 military and civilian personnel are listed as U. S. Savings Bond buyers. The Metrology Center has a perfect record among its 118 assigned personnel and the Air Defense Fire Distribution Systems Office counts all of its 108 personnel on the bond rolls.

Other 100 per cent organizations are the Office of the Commanding General, Office of the Deputy Commander for Land Combat Systems, the Quality and Reliability Management Office, and the Small Business Office, all in the Army Missile Command, and the Office of the Commander, the Dental Surgeon, the Control (See MINUTEMAN on Page 2)

SCHOOL CONVERTS SPACES

HITCHHIKING ROOSTER—SP5 William H. Allison holds Charley, the hitchhiking rooster who went home to Decatur with Charles Odom undetected because he rode outside and underneath Odom's car. Odom and Sp5 Allison are assigned at the Army Exhibit Unit of the U. S. Army Missile Support Command. Sp5 Allison is from Cape Girardeau, Mo. Charley may have to explain his origin to the Provost Marshal. He also hitchhiked a ride across the Arsenal on one of the Exhibit Unit's trucks, and if he continues his hobo ways he may be picked up for trespass on a Government installation.

Missile Command Schedules Change Of 52 Positions

A total of 52 positions presently filled by military personnel at the U.S. Army Missile Command will be converted this year to civilian spaces.

This is in line with the Department of Defense decision to use civilian employees as much as possible in positions now filled by military personnel.

The Missile Command's actions will involve four officers and 48 enlisted men. The "Civilianized" positions will include both Wage Board and General Schedule employees, and the work will include such areas as medical lab assistants, clerks, draftsmen and cooks.

This action will not affect the total employment of the Missile Command.

ARSENAL ASKS \$600,000 FOR CONSTRUCTION

A request for \$600,000 for Redstone Arsenal is included in the Department of Defense's \$1 billion military construction bill submitted to the Congress the past week. The request is for fiscal (See ARSENAL ASKS on Page 3)

Civilians Will Replace 307 Military Personnel

The Army Missile & Munitions Center & School has been authorized to convert 307 positions now held by military personnel into permanent civilian jobs on its staff and faculty by the end of this year, Col. Erwin M. Graham, Jr., commandant, announced Monday.

The action is being taken under a Department of Defense "civilianization" program announced last fall and now being implemented by the Continental Army Command, of which the Center & School is an element.

Col. Graham said the intent of the program is to release experienced uniformed experts and specialists for support of combat forces and to bring more permanence to the staffs of such continuing activities as the Center & School.

A significant number of the new positions are on the School's faculty, Col. Graham said. Of some 780 platform instructors, only 149 spaces are currently filled by civilians, and the "turbulence" caused by frequent transfers of military instructors will be reduced by the civilian hiring program.

One goal of the new em-

ployment program is to achieve a higher ratio of civilian instructors, Col. Graham said. He pointed out, however, that the new jobs stretch across the entire spectrum of the Center & School's activities and work missions.

The Ammunition training for Viet Nam and elsewhere is doubling the School's output of graduates from 3,500 to 7,000 during the Army's current fiscal year, is bringing in dozens of Explosive Ordnance Units from all over the nation for refresher training throughout each year and has expanded the School's whole scope of activity. Because of this increased activity, the authorized strength of the School's permanent party will rise from 2,000 to about 2,500 later this year.

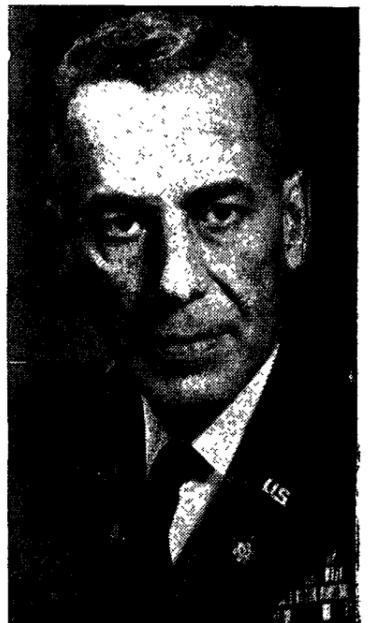

(See SCHOOL TO on Page 3)

Colonel McGinnis Named Command Chief Of Staff

Col. Eugene J. McGinnis has been named Chief of Staff of the U.S. Army Missile Command. He replaces Col. Edward D. Mohlere who has been assigned as Special Assistant to the Commanding General, pending retirement at the end of the month.

A native of Arenzville, Ill., the 46 year old Col. McGinnis is in his second tour of duty at Redstone Arsenal. He was with the Ordnance Guided Missile School from 1958 to 1962 and came back in 1964 serving as Deputy to the Deputy Commanding General of Land Combat Systems, Army Missile Command.

His 25 years' Army service began in April, 1941. Since that time he has gone through the New Guinea and Phillipine campaigns of World War II and was in the Occupation Forces in Japan. Col. McGinnis also served at Butzbach Ordnance Depot in Germany; was with the Military Assistance Advisory Group in Vietnam; and (See COL. MCGINNIS on Page 2)

Five Reach 30 Years Of Service

Five Army civilian employees were the honored guests last week for a ceremony in recognition of their having completed 30 years of dedicated service to the Federal Government.

Maj. Gen. John G. Zierdt, Commanding General of the U. S. Army Missile Command, presided over the ceremony and presented each of the veteran employees with Department of Army length of service pins and certificates.

The honorees were Raymond Peck, of the Research and Develop- (See 30 YEARS on Page 3)

Lance Is Undergoing Tests Of Engine And Propulsion

Ground testing of the Army's newest battlefield missile, Lance, has gotten under way in the extensive test facilities of the Army Missile Command at Redstone Arsenal.

Testing of both Lance engines and propulsion systems is being conducted by the Test and Reliability Evaluation Laboratory of the Research and Development Directorate.

The new Lance support operations were announced by the Missile Command which directs the program under Col. W. E. Mehlinger, Project Manager.

The Static Test Branch, headed by Sam R. Moore, will conduct operations with the support of contractor personnel.

Modifications to test stands formerly used for the Pershing and Redstone missiles have been completed to accommodate Lance testing.

By activating test facilities earlier than was originally planned, the Army will be able to support both the development effort and the qualification tests on propulsion systems which normally would be done later in the program.

In addition to the static firing tests, Lance will be put through a series of "torture tests" at Redstone Arsenal devised to check its ability to stand up even under the most drastic climatic conditions. These tests will include en- (See LANCE on Page 2)

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-136, Extension 376-1400 or 376-1500.

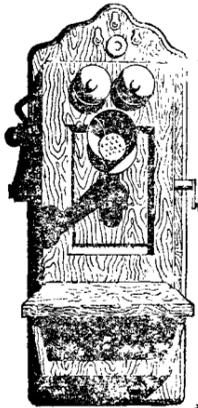

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon on Friday before publication. The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

Rocket Ruminations

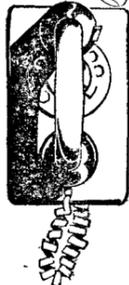

Now I am wiser: for I know there is not any memory with less satisfaction in it than the memory of some temptation resisted.

—James B. Cabell

Editorial—

**IMPROVED
BUT
STILL
NOT
SECURE**

Tiny microphones and other sophisticated snooping devices spawned by an age of electronic eavesdropping have captured the public's imagination.

The clever methods of trench-coated espionage agents are continually unearthed by government investigators.

Clearly outlined procedures have been established to regulate the handling of classified information and documents.

These things add up to a security-conscious public. And in the Army, where secret-keeping is a big responsibility, such watchfulness is essential, particularly during the present time of expansion and activity.

But, in our concentration on preventing a major security breach, we're liable to overlook some obvious causes of dangerous information leaks.

Take your telephone, for instance. It makes your job a lot easier—but it's not secure. Nor is the washroom or the snackbar, your desk drawer or your coat pocket.

Never discuss classified information over the phone or in public places. In fact, never discuss it anywhere unless the other person has a definite "need to know."

Never tuck classified documents in your pocket or desk drawer for even a few moments, and never leave them in the open unattended.

In short, don't let the habits of daily routine lull your common-sense security consciousness. It would be mighty embarrassing to be on the watch for spies—and be done-in by your own telephone. (ANF)

VA Issues Warning

Wives and parents of recently inducted servicemen were warned today that the new GI insurance is not sold to beneficiaries by mail, but is handled directly by the serviceman with the military unit to which he is assigned.

A few private out-of-state insurance companies are mailing policies to the wives and parents with them named as the beneficiaries and accompanied by material which misleads them into believing they are buying the new GI insurance provided by law last September, Neil R. Smart, Manager of the VA Regional Office in Montgomery, said today.

Effective September 28, 1965, all servicemen were automatically covered by \$10,000 GI insurance with low-cost premiums deducted from their military pay, Smart explained. The VA contracted with leading commercial insurers to handle the administration of the

program.

Although not licensed in the state, insurance commissioners state that these companies are permitted to solicit by mail. However, Smart emphasized, the government GI insurance program is not handled through the mails. Unless they indicate in writing that do not want the new insurance coverage, all servicemen are automatically covered by the new \$10,000 group insurance.

March 16, 1945 — Iwo Jima fell to the United States' 4th and 5th Marine Divisions after 26 days of bitter and bloody fighting. The price was high — 4,129 Marines killed, 15,308 wounded, 441 missing. But the Japanese also lost heavily. Twenty thousand were killed and the U. S. had a base within 750 miles of Tokyo.

Nov 1, 1941 — Atlanta Army Depot was officially activated.

COL. McGINNIS

(Continued From Page 1)

served with the Office, Assistant Chief of Staff for Force Development, Department of Army, prior to his re-assignment to Redstone.

He holds the Arrowhead and two battle stars for action in New Guinea, the Commendation Medal and the Bronze Star Medal for Vietnam duty.

He is a graduate of the Command and General Staff College; attended University of Maryland and University of Alabama.

A member of the Executive Board Tennessee Valley Boy Scout Council, Col. McGinnis is a member of the Heroes of '76 Masonic Lodge, National Sojourners and member of the board of directors, Redstone Federal Credit Union.

Mrs. McGinnis is the former Dorothy Lillian Hood of Crystal Springs, Miss. They are parents of a son, Walker Lelon, and a daughter Elizabeth Jean.

LANCE

(Continued From Page 1)

Environmental test chambers that simulate the heat of the tropics and the cold of the arctic; specially devised shock and vibration tables; sand and dust chambers; and a treatment area in which equipment will be submerged under water.

These tests, along with actual firing data, will help determine the final designs of the equipment. Developmental flight testing of Lance started one year ago at White Sands Missile Range, N.M.

Lance is the Army's newest artillery missile system and can fire either nuclear or conventional warheads. The first Army missile to use pre-packaged storable liquid propellant, Lance will fill the Army's need for a highly mobile weapon system that can be transported easily by plane or air dropped. Lance will have substantially greater range and accuracy than the Honest John which it will replace.

LTV's Michigan Aerospace Division is prime contractor for Lance.

VETERAN EMPLOYEES HONORED—Maj. Gen. John G. Zierdt is pictured with five Missile Command civilians who were honored by the Commanding General for completing 30 years Federal service. They are, left to right, Arleigh L. Kobernat, John Cusick, Raymond K. Peck, Paul D. Barker, and Carl E. Seibert. A sixth 30-year veteran, Morris H. Knight, was not present for the ceremony last week. He received his Department of Army service pin and certificate this week.

30 YEARS

(Continued From Page 1)

ment Directorate, Paul Barker, Supply and Maintenance Directorate, Carl Seibert, Pershing Project Office, Arleigh Kobernat, Inspector General's Office, and John Cusick, who works in the Air Defense Fire Distribution Systems Office.

MORRIS KNIGHT

Morris Knight, of the Procurement and Production Directorate,

also qualified for the 30-year service award, but was unable to attend the ceremony.

Their total of 180-years service includes active military duty and two of the civilian employees, Kobernat and Cusick, retired as commissioned officers prior to starting their civil service careers.

A supply and maintenance inspector, Kobernat is serving his second tour of duty at Redstone, having concluded his active military service here as a Lieutenant Colonel in 1954.

He had enlisted in the Army from his home in Cloquet, Minn., in May 1931, and was commissioned in the Ordnance Corps ten years later.

Following his military retirement Kobernat was employed at Letterkenny Army Depot in Pennsylvania for a year and then enrolled at Tampa University. He received his Bachelor of Science degree from Colorado University in 1959.

He returned to the Arsenal in the summer of that year to accept a position with the Inspector's office and he has remained with that organization.

Cusick retired from the Army in 1957 as a Major assigned to the U. S. Army Air Defense Board at Ft. Meade, Md. He had completed almost 23 years active duty, 15 of which was as an Artillery officer.

A native of Patterson, N. J., he enlisted in the Army in 1927 and

after serving three years, left the Army. He was recalled in 1940 and received his commission a year later at Camp Davis, N. C.

Soon after retiring from active duty, Cusick accepted a position with the U. S. Army Air Defense Engineering Agency at Ft. Meade and he came with the organization to Redstone in June 1964.

Peck has spent his entire Federal career in Civil Service. A native of Silver Spring, Md., he is a graduate mechanical engineer from Georgia Tech and at the present time is Chief of the Engineering Documentation Branch, Technical Programs Coordinating Office.

He came to Redstone in June 1953 from the Army Catalog Office at Cameron Station, Va. Prior to that he had worked for the Corps of Engineers and the Office, Chief of Ordnance, both in Washington, D. C.

A guided missile engineer assigned to the National Maintenance Point, Barker has also accumulated all of his Federal service in the civilian ranks. A native of Springfield, Mass., he is a graduate of Northeastern University in Boston.

He began his career at the Springfield Armory and during the early days of World War II he was engaged in the design and development of the M-1 rifle. He remained as special assistant to the Commanding General and had an important role in production of the weapon.

Later during the war period he was employed by the Desert Training Center at Pomona, Calif., and at the close of the war he transferred to Raritan Arsenal.

He spent nine years at the New Jersey facility and came to Redstone in 1952 and was with the Redstone Arsenal Control Office and the Field Services Division of the Army Rocket Guided Missile Agency prior to taking the job in Supply Maintenance.

Seibert was a Department of Navy employee for 26 years prior to accepting a position in the Field Services Directorate of the Army Ballistic Missile Agency in January 1961. He was associated with the Pershing system in ABMA and now in the Missile Command is a general engineer in the Systems Support Division.

Born in California and raised in Florida, Seibert started his career in 1934 with the Naval Gun Fac-

tory in Washington, D. C. After 18 years he transferred to the Naval Aviation Test Station at Chincopague, Va.

A supervisory contract negotiator Knight is Chief of Systems Contract Division A. He came to Redstone in 1965 from the Small Business Administration in Atlanta to accept a position as Chief Negotiator and Manager of GOCO (Government-owned, contractor-operated) contracts.

He is a native of Charleston, S. C., and began his Federal career there as an apprentice moulder at the Charleston Navy Yard. He studied law under the LaSalle Extension University of Chicago while completing his apprenticeship and received his LLB degree in 1942.

He spent a year on active duty with the Navy during the war and became a chief metallurgist at the Naval Air Station, Corpus Christi, Tex., after leaving the service.

Knight had a break in service in 1948 when he entered the political field to run for Congress in 1948 for the seat that was being vacated by Lyndon B. Johnson, who was running for the Senate. Johnson was successful in his bid but Knight wasn't and he went to Atlanta to resume his Civil Service career with the Office of Naval Materiel.

ARSENAL ASKS

(Continued From Page 1)

year 1967.

Modernization of existing facilities for research, development and test purposes at the Army Missile Command is covered by the Arsenal proposal.

According to the Defense Department, the proposed bill includes only those projects which must be initiated in FY 67 to meet military operational schedules or those which are required for the health and safety of personnel.

SCHOOL TO

(Continued From Page 1)

Col. Graham said the civilianization program will have a beneficial impact on the local economy. He pointed out that the 307 civilian employees will establish residence in the area, whereas most of the military whom they are replacing lived on Redstone Arsenal.

The Civilian Personnel Office of Redstone Arsenal—located at the intersection of Bob Wallace Ave. and Jordan Lane—is solely responsible for announcing details, processing applications for the new jobs and conducting Civil Service tests, Col. Graham said. No applications will be received directly at the Missile & Munitions Center & School.

Recruitment of the new employees will also be aided by seven regional offices of the Army Missile Command and by advertising in metropolitan centers throughout the nation.

Defense Transportation Group Meets Tomorrow

The National Defense Transportation Association will meet at the Elks Lodge tomorrow night at 7 p.m.

The program will include a Department of Defense film, "Why Vietnam?" and election of officers.

April 10, 1963 — The U. S. atomic submarine "Thresher" sank in the Atlantic with 129 men aboard.

Meteorologist's Avocation Is Vocation Too

WEATHERMAN AT WORK—H. D. Bagley leads three lives . . . in all kinds of weather. As a research meteorologist at the U. S. Army Missile Command, he compiles information on worldwide upper air conditions which have an effect on a missile's flight. The soft-talking Georgian also has a weather program on one of the television stations in Huntsville. His TV weathercasts have been stamped " . . . of high informational and educational value" with the American Meteorological Association's seal of approval. Meteorology is Bagley's hobby, too.

A U.S. Army missile lifts off its launcher in a plume of smoke and fire, and in a few seconds is streaking into the upper atmosphere at supersonic speed. Suddenly, a strong cross wind buffets the missile and it veers off the trajectory, but its guidance and control system corrects the situation and the missile is back on course.

The warhead went on to hit the target because missilemen on the ground knew in advance the jet stream of winds was blowing at the high altitudes due to work of such persons as H. D. Bagley, a soft-talking Georgian who spends almost all of his wakeful hours on matters concerning weather.

Conditions in the upper atmosphere, like wind direction and velocity, have a great effect on a missile's flight. So do density of the air, pressure and temperature. The denser the air, the greater resistance to the missile.

To support the Project Offices at the U.S. Army Missile Command which manage operational missile systems, Bagley, a research meteorologist in the Aerophysics Branch of the Physical Sciences Laboratory in the Research and Development Directorate, helps put together profiles of upper air conditions in the Northern Hemisphere. He uses data supplied by the National Weather Records Center at Asheville, N.C. The data comes from more than a hundred stations which daily send aloft radiosondes. These miniature radio transmitters and instruments are carried several miles up by helium-filled balloons, and beam back to Earth information on humidity, wind, temperature and pressure.

The information is stored in a computer's memory. It is made available not only to the various projects, who use it as they constantly improve the missile systems, but also to the American soldiers who operate the weapons in the field. Depending upon the location and season of the year, data on climatological conditions a missile probably will run into on its flight are fed into the system before launching.

Although his most important service is with the Army, thousands of people in the Tennessee Valley know H. D. Bagley from seeing his face in their living rooms. His day isn't over when he gets off work at Redstone. He still has to climb Monte Sano Mountain and present two five-minute weathercasts under the glaring lights of television. On the way up to WHNT-TV he stops by the U.S. Weather Bureau station at the Huntsville-Madison County Airport for facts and figures to build his weathercasts around.

Bagley has been a TV weatherman since 1963 when Channel 19 went on the air as Huntsville's second television station. Two years later, the American Meteorological Society put its coveted seal of approval on his weathercasts. At that time, only 49 of the seals had been handed out for "broadcasting of weather programs of high informational and educational value."

Bagley, who grew up on a farm north of Atlanta, recalls that he first became interested in the weather when he was ten years old. A pilot from Atlanta landed an old Ford Tri-Motor in a pasture near his home and would take you for a ride for 50 cents. The youngster scraped up a half-dollar, took the short hop over the Chattahoochee Valley and was deeply impressed by flying through cloud formations.

In 1937, at the age of 19, he

joined the Navy for what was to be an eight-year hitch, mostly at sea. When Japanese bombs started raining on Pearl Harbor, Bagley's ship—the destroyer USS Tucker—was tied up to a tender in the harbor. The Tucker limped out to sea on one engine to fight again, but she was sunk later in the Battle of the Solomon Islands. Bagley, who was shell loader on a five inch gun, made it off safely and was assigned to another destroyer, the USS Bennett, which was hit by a Japanese suicide plane off Okinawa while he was aboard.

Before getting out of the Navy in 1945, Bagley, then a Chief Aerographers Mate, worked in the weather office of the Naval Air Station in Atlanta. Upon his release he joined the Weather Bureau, and for the next 13 years worked in Rome, Ga., Columbia, S. C., Atlanta and Montgomery, Ala. He was sent to Huntsville in 1958 to establish a Weather Bureau station and during the next two years, advanced to the position of forecaster. In 1960, the old Army Ballistic Missile Agency employed him to do meteorological research. He has been at Redstone ever since.

Bagley says the greatest critic of his weather reporting on television is his wife, the former Mary Jo Rogers of Calhoun, Ga., who was working for the Weather Bureau when he met her in Rome, Ga., 21 years ago. They have two sons, Hollis, 17; and Bert, 10.

Weather is H. D. Bagley's life.

He not only works full-time and part-time at it, but it's his hobby. You can tell by the scattering of barometers, thermometers and other weather instruments around his home in Huntsville.

Dr. Hutchens Rejoins Staff At University

Dr. Eleanor N. Hutchens will return to teach at the University of Alabama in Huntsville beginning in the spring quarter, 1966. Dr. Hutchens is Associate Professor of English at Agnes Scott College, Decatur, Georgia. She will teach here as Visiting Associate Professor through the 1966-67 academic year.

A native Huntsvillian and the daughter of the late Morton M. Hutchens, Dr. Hutchens earned her under-graduate degree at Agnes Scott and her Ph.D. at the University of Pennsylvania. She has recently taught in the summer term at the University of Alabama here. She taught full time at the Huntsville Campus from 1957 to 1961.

Dr. Hutchens has published a book, "Irony in Tom Jones," and a number of articles in scholarly journals.

April 4, 1951 — Supreme Headquarters, Allied Powers in Europe (SHAPE) was established in Paris.

BELLWOOD ACRES

Belonging to Mr. and Mrs. George D. Reed, Jr. Located 10 miles east of downtown Huntsville, 5 miles from the city limits. Go north on 231 to 72 east to New Market highway, turn right on Bell Factory Road. Go ½ mile southeast of intersection of New Market and Bell Factory Road. Follow arrows.

Beautiful Bellwood Acres consists of 47 acres, subdivided into large lots—from 1½ to 3½ acres. This subdivision has been well planned and has blacktop streets. THESE LOTS HAVE BEEN RESTRICTED TO PROTECT THE BUYER. BELLWOOD ACRES IS JOINING THE FLINT RIVER INDUSTRIAL SITE THAT HAS RECENTLY BEEN PURCHASED BY THE UNIVERSITY OF ALABAMA, HUNTSVILLE FOUNDATION.

WHAT MAKES THIS BELLWOOD ACRES SO VALUABLE IS THE JOINING OF THIS 120 ACRE INDUSTRIAL SITE. This development by Mr. Reed is for developers and investors, jackpot profits for builders. Get land for profit in future use. If an area is ever right for development, this is it. For years no property to compare has been available in this ascendant section where there is such spectacular beauty and wonderful things to do. And there is no limit as to how expensive the homes may be. Now is the time to get the prize land for current and future use. See for yourself the inherent quality here, and remember you set the price.

This is truly a remarkable auction, one with quality and variety rarely found. Acquire home sites with special appeal for all ages and tastes. Land with great potential for speculators, investors, and developers, and home owners.

Bellwood Acres is one of the newest developments in the Rocket City, Huntsville, Alabama. These lots all have large frontage, from 280 to 381 ft. fronting on the two blacktop streets. One is Pine Drive, the other is Reed Road. Telephone & Electricity are available to these lots. Two of these lots have been sold and expensive homes will be or have been built.

This Bellwood Acres was developed with only one thought in mind—for large acreage and not just small 100x150 lots. People in Huntsville like acreage and this property has been well subdivided for those people who like large tracts. Whatever your plans are, you will find just the right lot here. Inspect this property before auction day and make your selection, then come to the sale and get one or more lots.

Once development begins, the property value will rise drastically. You can hold what you don't need for yourself and sell later for big profits to pay for construction on your preferred site. You will find in this beautiful Bellwood Acres prestige, rare beauty, history, charm, accessibility, contentment—all in one of the fabulous growth areas of north Alabama. A lot in Bellwood Acres insures exciting outlook on fuller, richer life. Whatever your pleasures, you will find a rich blend of features to gratify them at this unspoiled beauty spot away from the garish over-development of most sections.

So be sure when you attend the auction sale of 20 large lots with acreage in Bellwood Acres, to pick the lot of your choice and be there for this great sale. These 20 lots consisting of 47 acres will be auctioned on Saturday, April 9 at 2:01½ P.M. So drive out and look this beautiful site over and be sure and attend this auction.

Bellwood Acres is located 10 miles from downtown Huntsville, Alabama on blacktop road. It is located well, being close to churches, stores, shopping areas, and also schools. This Bellwood Acres has been zoned residential only.

Terms 1/3 down sale day, the balance in 1, 2, 3 years, a bankable note at 6% interest. Possession with delivery of deed. Call for this property, will sell.

Stewart Fires 265 But Ed Leahy Has Top Total

PARADE OF STARS

Supply Management League: Fred Stewart, 626 (265), Hal Miller, 594 (232-215), Billy Tippins, 581 (223), Jim Wiswall, 576. Wes Fordham, 552, Jack McBride, 551, George Bush, 549, Mel Webb, 549, Gary Phillips, 547, Tom Lindsay, 546.

Redstone League: Eurt Sharp, 611 (209-208), Norm Comus, 585 (216), Tom Smith, 580 (220-204), Dave Reese, 556 (227), Dick Cizek, 553, Ed Murrah, 550 (231), Jim Denk, 539.

Field Services League: Ed Leahy, 634 (233-213), Paul Barney, 588, Al Sarge, 565, Mike Shuput, 554, Ray Herlston, 546, Fred Hopper, 535.

AMC League: Ken Bell, 564, Tom Patterson, 557 (211), Bill Seigman, 552, Joe Leary, 551, Bill Crews, 550, Howard Roop, 542, Jim Gulley, 540.

Fred Stewart did most of his striking in one game while Ed Leahy and Burt Sharp spread their strikes over all three games as all three of them turned in Honor Roll counts in the Civilian Bowling leagues last week.

Stewart grabbed high game honors with a 265 and totaled 626, Leahy fired a 634 count and Sharp accumulated 611 maples for his three games. Each of the latter two went over 200 twice.

Rolling for the Marauders in the Supply Management League, Stewart strung together a string of six to open his game. After leaving the 5-8 on a light hit, and sparing in the seventh, he came back with three more, before leaving the 4, 7 and 8 in the eleventh.

His game paced his mates to a 1058 game and a 3 to 1 win over the Debuggers. The Brick and Tile quintet won all four from Bramblets and added another game to their lead when the All-Sports Trophies was held to a 3 to 1 win by the New Streaks.

Hal Miller was runner up for individual honors with a 594 for Baker Real Estate, Billy Tippins totaled 581 and Jim Wiswall turned in a 576.

Leahy fired games of 233 and 213 around a 188 for his 634 total to lead Central TV to a trio of wins over the league leading Guided Muscles. The loss dropped the Musclemans lead to a mere half point over the Crackers.

FRED STEWART

The latter crew won a trio behind the lead of Paul Barney whose 588 gave him a 181 average for the year. Leahy leads the league with 186.

Sharp put together games of 209, 194 and 208 as he totaled 611 to lead the Ginger-Ruth Shop to a split with the Valley Cleaners who got a pair of 200s and a 580 from Tom Smith.

The Dean's Trailer Park team that has led the Redstone League for several weeks dropped all four to Giles Garden Center and fell into a tie with the Six Shooters, with Ginger-Ruth a single game off the pace.

Giles took their lead from Norm Comus and Dick Cizek with 585 and 553 respectively. Ed Murrah led the Six Shooters in their 3 to 1 win with a 550.

The AMC League leading Bombers also took a drop when they absorbed a 3-1 loss from the Rejectors and fell into a tie with the Maulers who were winning three from the Lancers.

Jim Gulley tossed a 540 for the Maulers and Joe Leary led the Lancers with 551.

The Ramblers continued their torrid pace and moved to within two and a half points of the leaders with a sweep over the Panthers. It gave the Ramblers 21 pins out of the last 24. Tom Patterson led the attack with 557.

Ken Bell grabbed individual honors for the week with a 564 to lead the Stars to three wins from the Thunderbirds.

TOURNAMENT WINNERS—Norma Street and Ralph Sturgill are all smiles as they exhibit the trophies that they received from Col. Russell Sell for their winning performances in the recent Supply and Maintenance bowling tourney. Norma was a double winner grabbing the overall handicap title with 679 and the women's scratch crown with 555. Sturgill took the men's scratch award with a 599. It was the second consecutive year that the top award in the mixed tournament went to the women. Pat Hood took the title in the 1965 meet.

A-B-C Bowlers In Showdown Battle

Don Vanderheyden stood off a closing rush by Jim Bochnowski and grabbed individual honors for the A-B-C Officers bowling league last week.

Vanderheyden put together games of 223, 211 and 191 for a 625 series and a 21 pin margin

over Bochnowski. The latter opened with a 216, slumped to 167 and then closed out his set with a 221.

Eric Mauerhoff put together a 591 total for the S Winners to lead his mates to a sweep over the Bochnowski-led Hopefuls. The S Winners backed up Mauerhoff with three more better than 500 counts for a 2930 team total.

The Lucky Strikes, with Vanderheyden at the helm, were only able to manage an even break with the Pin Splitters. Don Drissell

helped the Strikes along with a 544 and Len Martinec led the Splitters with a 514.

The league leading Wheelers dropped three out of four to Saturn V and saw their lead whittled to a single point. With only three nights left on the schedule, half of the league teams are in an excellent position to grab the title.

Saturn is a single point off the pace with the S Winners and the Lucky Strikes deadlocked two points out of first.

Volleyball Lead At Stake Tonite

A battle of 'giants' takes place tonight at the Post Gymnasium when the two leading teams in the Unit Level Volleyball League collide at 6:30 p.m.

The winner of tonight's contest between the German Staff and the Japanese Student squads will have a 6 won and none lost record while the losers will sport a 5 and 1 record.

This game marks the mid-way point in the league. With only 12 games to be played one loss at this stage could be costly.

Action tonight promises to be fast and fierce with both teams going all out for the win. Each team realizes that they must meet once more before the league is finished but, as every player knows, each game is played 'one-at-a-time' and this one really counts.

GERMANS TRAVEL TO ATLANTA FOR WEEKEND GAMES

The German Air Force soccer team of the U. S. Army Missile and Munitions Center & School faces a tough test this weekend when they collide with two strong teams from the Atlanta area.

On Saturday, they meet the Atlanta Soccer Club and then Sunday they battle the Lockheed Marietta Soccer Club. Both games will be played at the Lockheed soccer field in Marietta starting at 2 p.m.

In their most recent games the German squad swamped the Nashville International Soccer Club on Mar. 6th and then played the same team to a 4 to 4 tie the following week at Redstone Arsenal.

Nashville arrived short handed so the home team 'loaned' players to them to make up a team. This could have spelled the difference since three of the goals scored by Nashville were made by one of the 'loaned' players.

Hard hit by turnover of personnel, the German squad is slowly rebuilding their 1966 squad. During the summer months they expect to play many college and city teams, much as they did last year when they fielded an outstanding squad.

April 29, 1957 — Secretary of the Army Brucker dedicated Army's first nuclear power reactor at Fort Belvoir, Va.

Reserves To Hear Adm. R. Kefauver

Rear Admiral Russel Kefauver, USN, Assistant Chief U.S. Naval Operations for Reserves will be the guest speaker of the Huntsville Chapter Reserve Officers Association of U.S. on Friday evening, March 25.

This will be a dinner meeting at the Redstone Officers Open Mess and ladies are invited. Reservations may be made by calling Cdr. Bill Howard, USNR at Ex-876-2071, Lt. Col. Bud Shields, USAFR at 837-4000 at Ex-2111, Cdr. John Snyder, USNR, at 881-5701.

April 25, 1945 — Delegates of 46 nations met at San Francisco to organize a permanent United Nations.

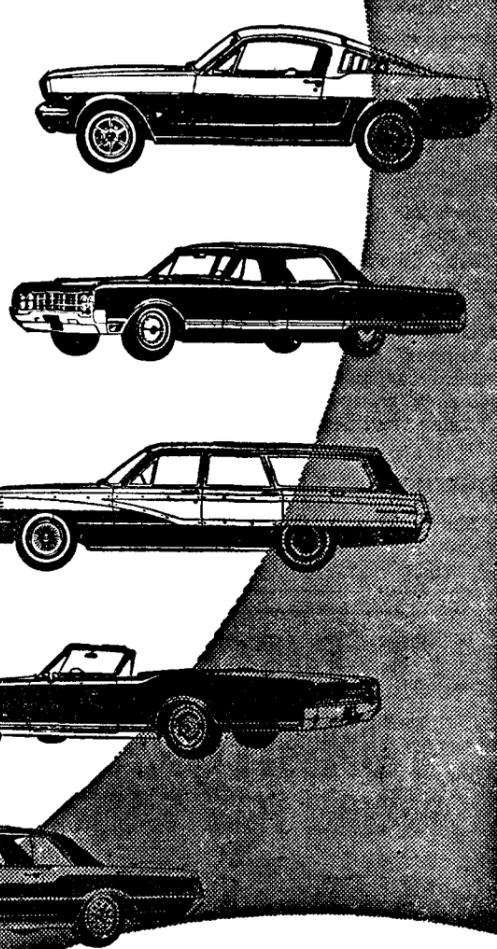

April 30, 1939 — President Franklin Delano Roosevelt opened the New York World's Fair, dedicated to the world of tomorrow.

ON THE BALL—Sp4 William Seeger, SSgt Francisco Chargualaf and Pvt Carl Anderson, Hq & Hq Co, STC, U. S. Army Missile and Munitions Center & School zero in on the 'eight' ball as they prepare for the Company Level, School Troop Command Pocket Billiard Tournament. Competition will involve singles matches and doubles teams.

SUNDAY, March 27
 Walt Disney's "That Darn Cat" (F)
TUESDAY, March 29
 "The Night of the Grizzly" (F)
 One show only at 1900 hours.

Maj. Gen. York Of Alabama Will Be AUSA Spring Dinner Meeting Speaker

An Alabama-born major general who now commands one of the Army's largest training centers will be the speaker at the Spring dinner meeting of the Tennessee Valley Chapter of the Association of the U.S. Army, it is announced by Dr. Frederick S. Schultz, president.

Maj. Gen. Robert H. York, CG of the Army Infantry Center at Fort Benning, Ga., will speak at the meeting to be held at the Redstone Arsenal Officers Open Mess on the evening of Wednesday, March 30. All members of the chapter, which is the world's largest with 4,000 members, are invited to attend on a first-come, first-served basis, Dr. Schultz said. Ladies are encouraged to attend.

Tickets for the dinner will go on sale this week at \$2.50 each at agencies on Redstone Arsenal. The event is set for 6:30 p.m.

Scouts From Lincoln Visit At Redstone

Three busloads of Lincoln County Girl Scouts visited Redstone Arsenal recently for a tour of the U. S. Army Demonstration Unit and the Marshall Space Flight Orientation Center.

Escorts for the 139 visitors and their 22 leaders were Cadette Scouts Susan Kinch and Nancy Allen from the Redstone Troop. Mrs. John McCombs, Unit Service Chairman represented the local leaders and Mrs. Sam Calloway from Fayetteville, Tenn., was in charge of the visitors.

Conclusion of the trip was a picnic and games at the picnic area on the Tennessee River.

Born in Hartselle, Gen. York converted National Guard service into an appointment to West Point where he was graduated in 1938. Commissioned in Infantry, he was assigned to the "Big Red One" First Infantry Division where he served for six years and took part in its campaigns in Africa, Sicily and Normandy. He assumed command of the 331st Infantry Regiment with the 83rd Division in Normandy in 1946.

He has served in the tactical department at West Point, on the Army General Staff, attended the

Army War College, the Harvard Business School and been liaison officer in Singapore.

After duty with the Office of Army Research and Development in Washington, he was sent to Viet Nam for research, development and evaluation assignments. He commanded the 82nd Airborne Division at Fort Bragg, N. C. during its operations in the Dominican Republic.

Gen. York has commanded the Infantry Center since last July. He recently visited Army troops in the Far East and Europe.

MEN, MEN, MEN, MEN—Like a mother hen watching over her chicks, Joyce Moore of the U. S. Army Missile & Munitions Center & School, keeps tabs on the locator cards of over 7,000 men presently at the School. Mrs. Moore meets each arrival during their in-processing and maintains the locator file in case of emergency or inquiries concerning the men.

She Keeps Tabs On Number Of 7,000 Men In School

Elizabeth Taylor has her headlines and Zsa Zsa Gabor her numerous husbands BUT, there is one pretty lady at Redstone Arsenal, who just happens to have the names, addresses AND telephone numbers of over 7,000 men.

Joyce Moore of the U. S. Army Missile and Munitions Center & School is quite proud of her accomplishment.

Joyce has the unique position of

greeting each arrival to the USAMMCS as they process into Redstone Arsenal. The names, addresses and telephone numbers are put on locator cards for ready reference in case anyone wishes to contact any of the men day or night.

Each year over 7,000 students and permanent party reports to the \$70,000,000 installation. This includes both U.S. and Allied per-

RECORD BUSTING BUNCH—Col. Erwin M. Graham Jr., Commandant, U. S. Army Missile and Munitions Center & School, Redstone Arsenal, Alabama (left) presents the first "Superior Rating" given by the School to 1/Lt. Daniel S. Berkey of the 66th Ord Det (ED), USA D/Support Maint Activity, Bellmore, New York. Other members of the team are (left to right): MSgt Malcolm M. Munson, SFC E7 Clarence C. Hemminger, Sp6 Leo Sheldon Shriver, Sp6 Joscelyn Graham, Sp5 John L. Davis, Sp5 Charles T. Wolff and Sp4 Melvin K. Moran.

Explosives Team Merits Superior School Rating

Wherever you heard the words 'explosion' or 'bomb' in the city of Bellmore, New York you usually find the men of the 66th Ordnance Detachment.

This same eight-man team hit the U.S. Army Missile and Munitions Center & School, with the force of a 'bomb' and in fact did 'explode' a 4-year academic record during their two-weeks of training here.

With an academic rating of 95.83 they became the first Explosive Ordnance Disposal (EOD) team to ever receive the Superior Rating given by the school.

Col. Erwin M. Graham Jr., commandant of the School presented the team leader, 1/Lt. Daniel S. Berkey, an engraved school plaque and a superior rating certificate for the entire team.

Seven of the group have been together since April 1965 with the senior NCO, M/Sgt. Malcolm M.

sonnel.

Meeting these 7,000 men each year doesn't effect Joyce too much because she classifies herself as a happily married woman with four children at home. She is married to George H. Moore, Jr. whom she met while attending school in Memphis, Tenn.

Munson joining the crew last October. Confidence and ability are the bywords for these demolition men. Lt. Berkey describes his team "as the best in the services, reliable, well trained and knowledgeable in their profession."

During their first week at MMCS the team was put through

extensive tests in the field. This was the basis for their record-breaking score. The second week is to acquaint them with new concepts of EOD and to bring them up to date on new techniques and procedures.

All of the men are graduates of the United States Naval Explosive Ordnance Disposal School, Indian Head, Md.

Others in the team are: SFC Clarence C. Hemminger, SFC Joscelyn Graham, Sp6 Leo Sheldon Shriver, Sp5 Charles T. Wolff, Sp5 John I Davis and Sp4 Melvin K. Moran.

CONSERVATION, BEAUTIFICATION ARE GOAL—After signing a proclamation declaring March 20-26 National Wildlife Week in the Huntsville area, Mayor Glenn Hearn points proudly to the work in downtown Huntsville. The theme of this year's annual observance is "the preservation of natural beauty" and the mayor explains the city's use of nature's beauty in its beautification plans to (left to right) SFC Robert Heflin, Redstone Arsenal Sportsmens Club; Irving Latham, regional director of the Alabama Wildlife Federation; and Martin Brinkman of the Rocket City Sportsmens Club. (Photo Courtesy of Huntsville Times).

Conservation Preserves Beauty And Wild Life

The preservation of natural beauty will be featured during the annual observance of National Wildlife Week, March 21-26, and during the balance of 1966. Members of the Redstone Arsenal Sportsman Club are inviting all citizens to join them in efforts designed to ensure that the tremendous values of outdoor beauty and wildlife are preserved, and when possible, enhanced. The Redstone Sportsman Club, affiliated with the National Wildlife

Federation, is sponsoring local efforts toward wildlife preservation. "In addition to cleaning up our roadways, there are many other areas where significant efforts can be made to preserve the natural beauty and enrich outdoor experiences such as fishing, camping, boating, picnicing, and hiking," says the president of the Redstone club, S/Sgt. Billy Allegood. He pointed out that plants set out to beautify roads can be

of varieties offering important food and habitat to wildlife.

"We must not overlook the fact that most conservation practices also improve natural beauty," Allegood reminds. "When the pollution is removed from a stream, its beauty is enhanced. When trees or grasses or shrubs heal scars on the land due to mining, overgrazing or bad agricultural practices, the natural beauty is restored. Conservation preserves natural beauty."

The National Wildlife Federation, represents some 2,000,000 persons in state conservation organizations, associate members and individual contributors. The Federation was organized in 1936 to coordinate citizen efforts in sound management of the nation's natural resources.

The Redstone Arsenal Sportsman Club is an organization to promote the same high ideals of wildlife conservation on Redstone Arsenal. The membership has conducted several extensive conservation projects which have benefited every outdoorsman on the installation. Seeding of game bird feeding areas and cleaning brush from fishing areas are examples

Soldering Seminar To Be At Arsenal On April 20

A Soldering Technology Seminar is scheduled Apr. 20 from 9 a.m. until 3 p.m. in the Rocket Auditorium.

Sponsors for the seminar are from the Procurement and Production Directorate of the U. S. Army Missile Command. Their deadline for registration is Apr. 8.

Principal speaker will be Howard H. Manko, Director of the Solder Research and Development at Alpha Metals, Inc., in Jersey City, N. J.

Manko has conducted seminars at Northeastern University, Boston, Mass., and the Illinois Institute of Technology in Chicago as well as seminars sponsored by professional groups, at national and international industrial and military locations. He is also an author of a book on soldering.

Techniques and theory will both be covered, including printed circuit work and quality control. Registration is open to military,

civilian and contractor personnel. Admission to the seminar will be by registration only since the number of seats in the Rocket Auditorium is limited. Additional information may be obtained by calling 876-3807 or 876-6845.

\$6.3 Million Will Go To Raytheon For Hawk

The U. S. Army Missile Command last week awarded contracts totaling \$6.3 million to Raytheon Company, Lexington, Mass., for work on two new configurations of the Hawk air defense missile system.

One contract, for \$4.5 million, is for continued design and development work on Improved Hawk. This program, which was started in 1963, calls for providing the weapon system with increased reliability and maintainability, reduced reaction time and increased performance in a Field Army environment.

Self-Propelled Hawk, a more

mobile version of the system mounted on full-track vehicles for forward area air defense, receives \$1.8 million in engineering services under the other contract.

Hawk is a supersonic 16-foot-long solid-propellant missile in operation with Army and Marine Corps troops overseas and in the United States. The weapon system also is built and operated by a NATO production organization.

The Army Missile Command at Redstone Arsenal is responsible for technical supervision of Hawk. Col. George H. McBride is Project Manager.

Under the contracts, which were

Cummings Relected Chairman Of Board

Directors of Information Sciences, Inc. today announced the reelection of Milton K. Cummings, president of the parent Brown Engineering Company, as chairman.

Officials of the Atlanta-based information systems and service firms also re-elected four officers, Douglas Brown, president; George R. Martin, vice president; Robert W. Bigoney, secretary and treasurer, and Winston Huff, assistant secretary.

Information Sciences was form-

negotiated by the Missile Command's Procurement and Production Directorate, work on Improved Hawk will be performed at Raytheon's Bedford, Mass., plant, and on Self Propelled Hawk at its Andover, Mass., plant.

ed in May 1965 as a subsidiary of Brown, a Huntsville-based company. Operations of ISI are located in Birmingham, Montgomery and Huntsville and Merritt Island, Fla.

March 3, 1863 — The Medal of Honor law was amended by an act which extended its provisions to include officers as well as enlisted men and made the law retroactive to the beginning of the Civil War.

WHAT'S IN A JOB? Well, for Lois Towers, a mail clerk (motor vehicle operator) in the Supply and Maintenance Directorate, there is quite a bit. Not only does Lois handle the packages and drive the truck, but she also performs the first echelon maintenance on her vehicle. And, according to her supervisors, Lois has excelled in all aspects of the job. Prior to taking over the mail clerk job last November, Mrs. Towers filled a number of occupations such as mail and file clerk, dictaphone operator, typist, telephone operator, maintenance clerk and housewife. She is married to another S&M employee, Benjamin J. Towers, and is the mother of four children.

Republic Of Germany Men Spend Two Days At Arsenal

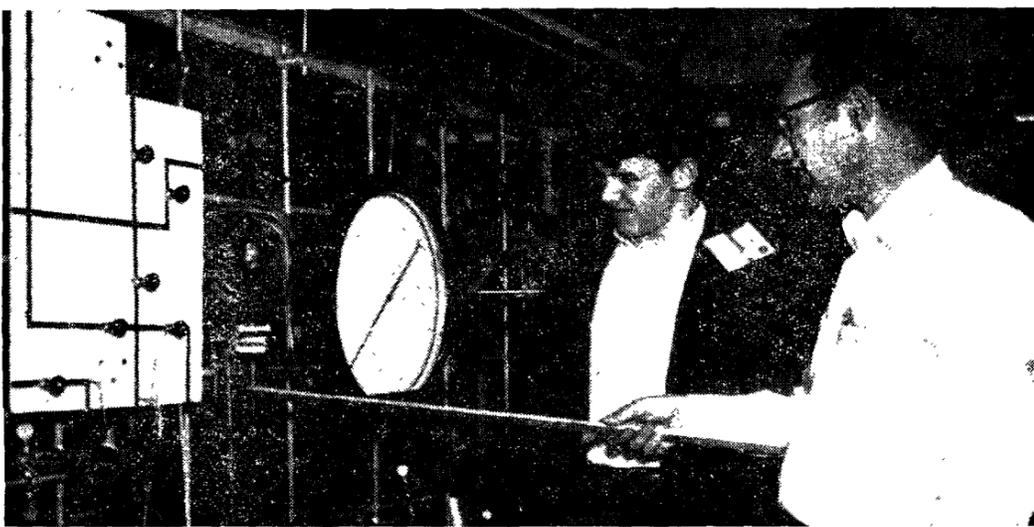

A party of officers from the Federal Republic of Germany Thursday morning began a two-day tour of facilities at Redstone

Arsenal. Heading the visiting dignitaries was Brig. Gen. Karl-Eberhard Boehm, a staff officer for NOR-THAG (NATO-Northern Army Group).

ARMY ISSUES CALL

The Army has issued another call for enlisted men to train as helicopter pilots under the Warrant Officers Training program. Active duty enlisted men who meet the physical and mental qualifications may apply under AR 611-85. Those selected will receive an appointment as a Warrant Officer and the coveted wings of an Army Aviator after successfully completing a 36-week course. (ANF)

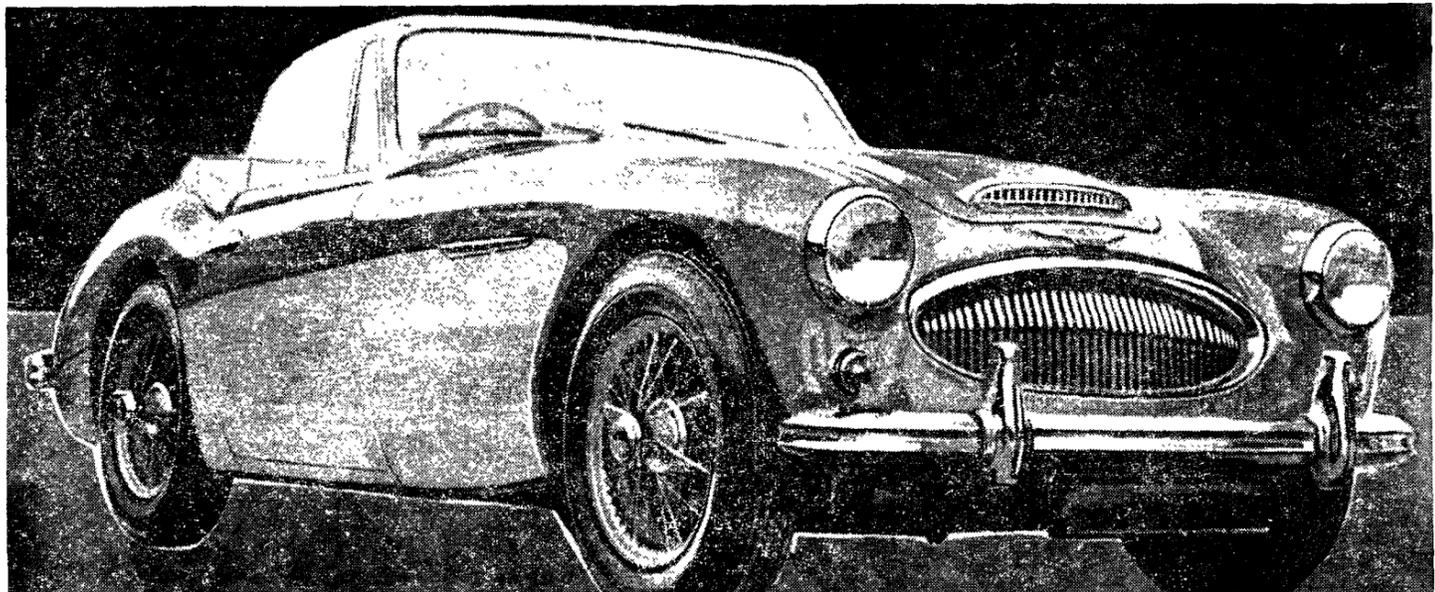

While here, the Germans were briefed and toured activities at the U.S. Army Missile Command. Later, they observed German personnel in all phases of missile training at the Army Missile and Munitions Center and School. Col. Edwin I. Donley, Deputy Commander for Land Combat Systems at the Missile Command, welcomed the group. Then began a round of missile discussions, among them the Lance and Sergeant systems.

TWO GLASS BLOWERS—Lawrence Rives (left), a senior at Albertville, Ala., High School, who has a glass blowing project in his chemistry class came to Redstone Arsenal recently to meet the Army Missile Command's scientific glass blower, Harry Nappier. Here, Nappier shows the youth some of his work in the Physical Sciences Laboratory of the Research and Development Directorate.

Foreign Hospitality Program Being Organized By School's Liaison Office

A special foreign hospitality program for foreign wives and children is now being organized by the Foreign Liaison Office at the Army Missile & Munitions Center & School with the voluntary assistance of dozens of Redstone Arsenal and Huntsville area wives.

Spearheaded by Mrs. Richard W. Riehm, wife of the Foreign Liaison Officer, programs and events are moving so rapidly that the international wives are now publishing a bi-weekly bulletin to advise the hundreds of overseas visitors at MMCS of the events and projects in which they may participate.

A basic objective is being achieved, according to Mrs. Riehm, with the establishment of a club in the Foreign Liaison Office which is open to all the foreign students and their families regardless of their commissioned or enlisted status.

This is already in use for organizational meetings of the various national groups and for evening social affairs in which MMCS students and families of all nationalities are taking part.

German Enlisted Wives held their first Kaffee Klatsch at the NCO Club on March 15th with 42 in attendance to discuss plans for future activities with Mrs. Klaus P. Heinrich and Mrs. Eberhard Hotfilder and representatives of the Foreign Liaison Office. Italian and Greek ladies also attended with a view to developing their own groups later. The German EM wives will meet hereafter on the Third Tuesday of each month.

All the activities aim toward blending on-post activities with those of the Huntsville Council for International Visitors in this area and with out-of-town visits arranged by regional representatives of the national Council for Service to International Visitors in major cities throughout the South. The wider scope of programs was stimulated by the action of the Huntsville City Council earlier this month in appropriating \$5,800 to match funds already granted by Madison County to finance operations of the local Council for International Visitors for the rest of the city's fiscal year. These local and area programs dovetail with an official program of education and hospitality for the foreign students that is being conducted by the Foreign Liaison Office under directives from the U.S. State Department and the Continental Army Command.

Parallel activities reflect a human approach that finds the international and U.S. ladies collecting such items as 16 baby beds, children's furniture, pots and pans, linens, ironing boards and other items that are difficult to ship when foreign students are transferred here. A "pool" of such items is now being maintained at the Rocket Nursery on post and the Foreign Liaison Office.

Social evenings are highlighting English-language films supplied by the various nations represented here.

Tours of local points of interest are scheduled regularly for the foreign wives and children and include such diverse places as the City Hall, Library and stops at firms such as Meadowgold Dairies for a visit and free ice cream, Southern Bell Telephone, John Blue Industries, Brown Engineering, SPACO, Coca-Cola Bottling and others.

Reciprocating for the efforts being made on their behalf, the foreign wives have already begun a community service program that finds them helping local residents on a number of projects.

The wives of two German lieutenants, Mrs. Dagmar von Mayerhofen and Mrs. Christel Guntzsch, are working with Girl Scout groups in the area. They are to help with a Girl Scout camping trip set for March 26th. Other such activities find the foreign wives speaking and showing slides and films at a number of church and school groups.

A panel of German, Italian, Japanese, French and American wives will take part in a panel dis-

ussion and attend a luncheon at Florence State College when the Girl Scouts regional conference is held there on April 23rd. Mrs. Richard England and Mrs. Anne Whitfield are local residents involved in this activity.

Since the programs are widening at such speed, Mrs. Riehm asks that all who wish to participate, whether military or civil-

lian, phone her at 877-5053 or 876-1704.

April 14, 1890 — Delegates of 18 Republics of North, Central and South America met in Washington, adopting a resolution creating the first International Bureau of American States, later known as the Pan American Union.

IT'S HALF FARE ON SOUTHERN FOR THOSE UNDER 22

Service personnel under age 22 can get a real break on air travel if they can schedule their trips in the states of Georgia, Alabama, Mississippi, Louisiana, Tennessee, Florida and the Carolinas over the Southern Airways system.

Southern, like other airlines, provides half-fare on a "stand-by"

basis for military personnel in uniform. But, Southern Airways makes its "Youth Fare" available to eligible service personnel and under this plan, also at a fifty per cent fare reduction, reservations can be made, eliminating the need to stand by. And uniform wearing is not required.

CAREER MILESTONE—Lloyd Gilbert, a corrosion consultant for the U. S. Army Weapons Command, displays a part of the equipment he uses for his Corrosion Control training course to Ethel Norris and John Robinson. Robinson, of the Supply and Maintenance Directorate, was the 2000th student enrolled for the course of training which Gilbert takes to installations across the country, and Mrs. Morris, of the Civilian Personnel Office, was the class coordinator.

Visiting Teacher Reaches Milestone In Army Career

When Lloyd Gilbert, of the U.S. Army Weapons Command, opened the first of two one-week Corrosion Control course sessions here last week he passed a milestone in his Army teaching career.

Included in the opening session was the 2000th student to enroll for the class that is taught by Gilbert at Army installations in every part of the country during the past eight years.

A leading authority in the field of corrosion treatment, Gilbert takes his course of training to installations where there is a need

for this type of instruction. This enables a greater number of personnel to take the training at a large savings.

Gilbert has come to Redstone for two classes each year since 1958.

He received the U.S. Army Research and Development Award in 1964 in recognition of his work in the development and presentation of the course.

Gilbert is a member of the American Electro-platers Society, the National Association of Corrosion Engineers, the American So-

ciety for Testing Materials, and the Electro-Chemical Society. The Electro-platers Society honored him with the Electro-Plating Chromium Award in 1953.

RESERVE OFFICERS PARTICIPATE IN STUDY PROGRAM

The Huntsville USAR School (3392) provides the opportunity for all Reserve Officers in the Huntsville Area to participate in the non-resident educational program of the U. S. Army as a means for all non-unit officers to become branch qualified and proficient for possible unit assignments, according to Col Angelo Ferranti, School Commandant.

Recent actions regarding the inactivation and restructuring of reserve component units have caused an increase in the number of reservists without a unit assignment. The shortage of paid drill spaces in reserve component units restricts the professional military education and development for these individuals.

The training and career development of USAR officers not assigned to units are currently being met in part through the Army Extension Course Program and the USAR School Program. The USAR School Program is designed to afford the non-unit member the opportunity to gain that knowledge required to become branch qualified (officer career course) and

academically proficient (CGSC) for promotion and possible assignment to the highest positions in the reserve forces. In addition, participation in extension courses and USAR school courses provides individuals the opportunity to earn retirement point credits.

The 1966-67 reserve school year will begin in September 1966. Courses will be available for all reserve officers, regardless of their branch of service. These courses will include the first and second year "Common Block" type of training for all branches of service and all five years of the Command and General Staff College course. In addition, the third year Air Defense Course will be conducted for another year. For those student officers enrolling in the "Common Block" courses, active duty training for two weeks in the summer will be conducted at their respective branch service schools.

For further information regarding the reserve program, visit the USAR Training Center, 1218 Meridian St, NE or call Howard Cornelius, 536-5631.

FROM A GUEST TO THE BEST—Martin S. Ochs, Editor of the Chattanooga Times and principal speaker at Friday's graduation ceremony (second from right) congratulates outstanding graduates of the U.S. Army Missile and Munitions Center & School. The graduates were all recipients of the highest award presented by the School, the Association of the United States Army (AUSA) award. From left to right are: SFC Adolf Wittbrodt, 1/Lt. Peter R. Werner, Capt. Richard R. Florey, Capt. Leonard S. Y. Lai, PFC Marvin Y. Self II, and 1/Lt. Norbert Otto. Colonel Erwin M. Graham Jr., School Commandant (right) adds his congratulations to the distinguished students. Capt. Florey's record of 99.3 average is the second highest in the school's 14-year history.

REV. JOHN M. GINSTERBLUM

Three Days Of Recollection Are On Chapel Schedule

A series of days of recollection will be held at the Redstone Arsenal Post Chapel March 25-27 under the sponsorship of the Holy Name Society.

Friday the Rev. John M. Ginsterblum, S. J., of Creighton University Omaha, Neb., will hold Mass and conferences for the women. Mass will begin at 9 a.m., conferences will continue until lunch and resume again after lunch until 3 p.m.

The men of the Parish will meet at 9 a.m. Saturday. Conferences are scheduled to continue until 4:30 p.m.

Rev. Ginsterblum will conduct Masses on Sunday and will also hold family conferences in the Chapel Room Sunday afternoon at 3 p.m. The conference will be followed by a social hour.

Detailed schedules will be available in the Catholic Chaplain's office, 876-3253.

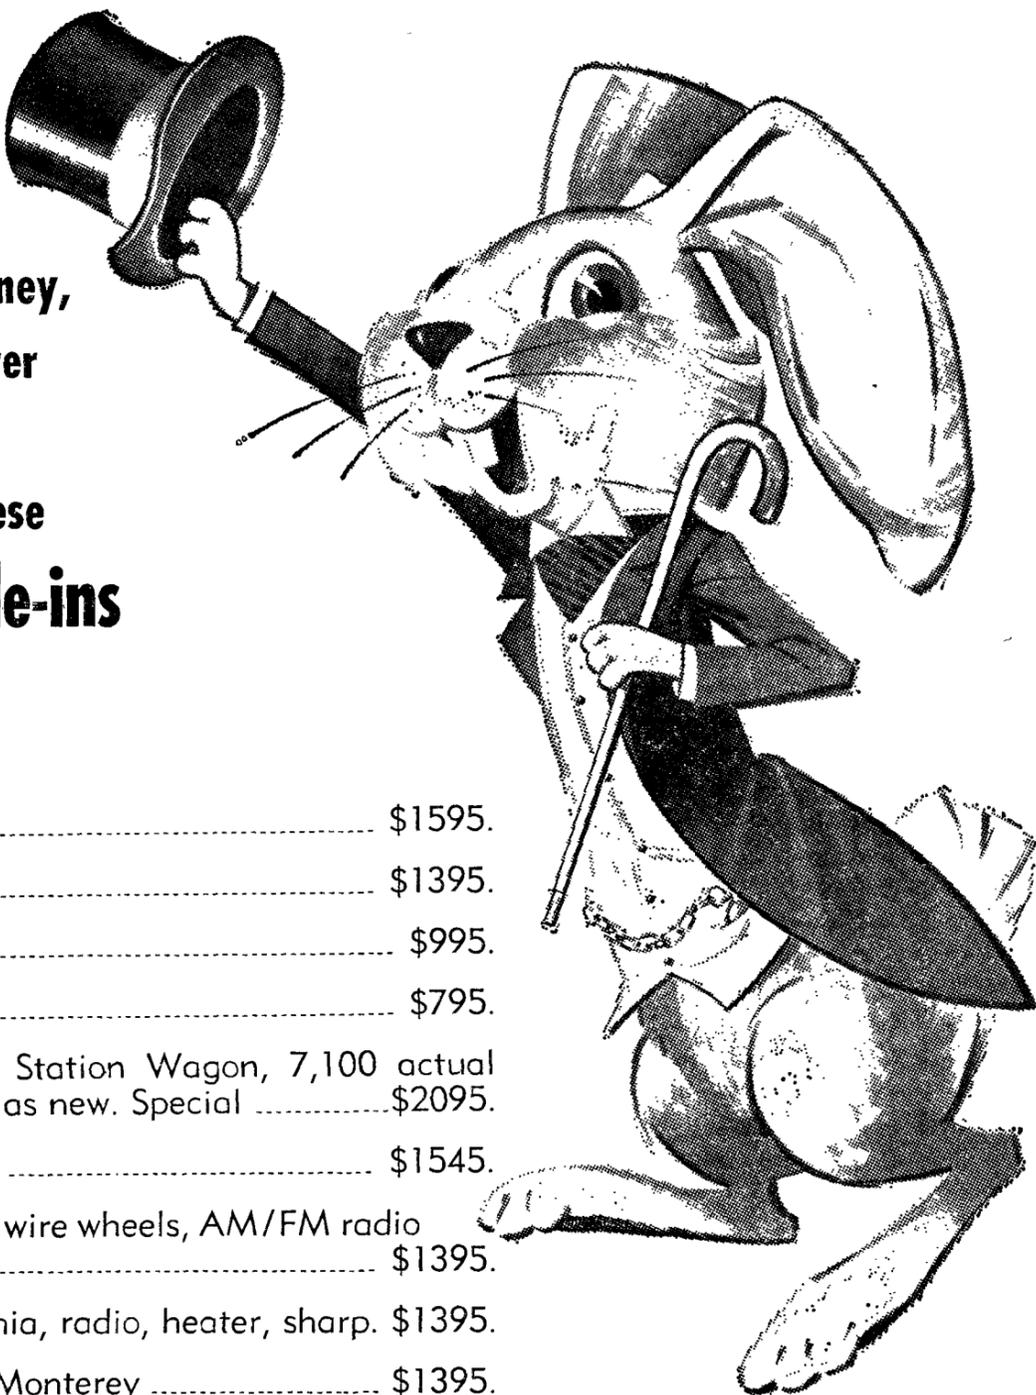

April 30, 1790 — First general organization of the Army under the Constitution provided for one regiment of infantry, with three battalions of four companies each; one battalion of artillery with four companies; and a total strength of 1283. A three-year term of enlistment was authorized.
