SAM-D Air Defense Gets Go-Ahead

Sloan Fellowship Goes To William A. Davis, Jr.

William A. Davis, Jr., an Army Missile Command scientist renowned for his work in Laser research, has been selected for an Alfred P. Sloan Fellowship at the Massachusetts Institute of Technology.

The Chief of the Missile Command's Special Research Projects Branch, Research and Development Directorate, will join about 45 other Sloan fellows when classes begin in June.

The Sloan Fellowship Program is a one-year training program designed for young executives, from private industry and government, who have demonstrated outstanding management potential. The program qualifies the participant for a master's degree in industrial management.

Davis is only the second Army employee ever selected for the honor. William V. Gudaitis, Deputy Director of the Missile Command's Army Inertial Guidance and Control Laboratory, was selected a year ago.

Born in Sebring, Fla., Davis received his early education in Nashville, Tenn., and began working at Redstone Arsenal in 1954. His first position was in the Redstone Industrial Division as a Supervisory Ordnance Engineer. Two years later he moved into the Hawk Project Office of the Army Rocket and Guided Missile Agency.

He assumed his position as Chief of the Special Programs Section, later renamed the Special Research Projects Branch, in 1960.

Davis is largely responsible for both the Army Missile Penetration Aids Programs and the Mis-

WILLIAM A. DAVIS JR.

sile Command's Laser program. But since 1961, he has conducted extensive Laser research and his efforts have been commended by the Department of the Army and Department of Defense. He also won the Toftoy award in 1963 for his contributions to the management of the program.

Prior to coming with the Army, Davis served for four years as a general engineer with the Charleston Naval Shipyard.

He is a graduate of Vanderbilt University with a BS degree in Mechanical Engineering.

At MIT, the Sloan fellows will study a variety of subjects, including economics, labor relations, law, foreign policy, finance and taxation. In addition to the classroom work, the group will meet with top officials in industry and government throughout the year.

(See FELLOWSHIP on Page 2)

AUSA Begins Membership Drive Here

A joint Arsenal-community campaign to strengthen the Army's posture in the Tennessee Valley area through increased membership in the Association of the U. S. Army will be launched Monday, according to Dr. Frederick S. Schultz, president of the local chapter of the world wide organization.

Throughout the next five weeks members of the Tennessee Valley Chapter will seek to re-enroll all of the present membership and sign up all others who want to be a part of the work being accomplished by the Association to insure that the U.S. Army is the finest that can be raised, trained and equipped.

The Chapter president said that it is hoped that the present membership of 3,800 will be increased to at least 5,000 by Armed Forces Day, the traditional ending of the annual drive.

At the present time the Tennessee Valley Chapter ranks in size to the Ft. Bragg, N. C., chapter.

Dr. Schultz has tapped Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command, and Joseph Peters, of the Boeing Company, to direct the campaign effort at the Arsenal and in the community, respectively.

James O. "Pick" Johnson will carry the campaign to National Guard and Reserve units in the area; Earl Dotson will be in charge of the drive for members from local industry; Col. Erwin Graham was named chairman of the campaign for the U.S. Army Missile & Munitions Center.

Gen. Zierdt designated John McDaniel to serve as the Executive Chairman for the membership drive within the Missile Command and he will be assisted by

(See AUSA on Page 2)

Contract Definition Is Authorized By Defense

The Defense Department has authorized the U.S. Army to initiate a Contract Definition Phase for the new SAM-D air defense missile system with Navy participation, anticipating possible common usage of the system or some components of it by both branches of service.

SAM-D (Surface-To-Air-Missile-Development) is the latest generation of an air defense system designed for a battlefield and continental defense role in the 1970's against low, medium and high flying aircraft and short range missiles.

With the beginning of a Contract Definition Phase, the Army plans to ask several contractors for proposals to develop SAM-D. Preliminary development of components for the weapons system has been going on since the summer of 1964. Doing the component work are two contractor teams, one headed by Hughes Aircraft Company and the other by Radio Corporation of America.

The SAM-D Project office, responsible for technical supervision of the system, is located at the Army Missile Command. Col. Edward M. Dooley is Project Manager. His two deputies are Charles A. Cockrell, an Army civilian, and Navy Capt. William A. Arthur.

With the Army and Navy working together on this project, the Defense Department hopes common areas are found that can be jointly pursued in meeting future air defense needs. Development is proceeding toward a weapon system that will be fully acceptable for the Army and will contain components of a system that could measure up to the environmental conditions found aboard a ship.

A SAM-D battery in the field will be a highly mobile unit mounted on either tracked or wheeled vehicles. Mobile launchers each will carry several of the single-stage, solid-propellant missiles in launching-shipping containers. A multifunction phased array radar will perform all functions for which several radars have been required in other missile systems. Under normal operation

(See SAM-D on Page 3)

LT. COL. WILLIAM J. MCCLAIN

New Provost Marshal Joins Arsenal Staff

Lt. Col. William J. McClain has just been assigned to the U. S. Army Missile Support Command as Provost Marshal for Redstone Arsenal.

He comes to this assignment from Anniston Ordnance Depot, Ala., where he held the same position for more than a year.

Lt. Col. McClain is a native of Tennessee. He entered the Army in February 1943 and has been on active duty since finishing his basic training at Ft. Bliss, Texas.

Assignments have taken him to the Asiatic Pacific during World War II, and later to Japan and Korea. In Japan in 1954 Col. McClain earned an Army Commendation Medal to which a cluster was added during an assignment with the Northern Area Command at

(See PROVOST on Page 2)

Wage Board Survey Is Underway

Another periodic Army-air Force Wage Board survey started today to determine wages paid by industrial firms in the Tennessee Valley area for comparison with those paid to government wage board employees of the Army and the Marshall Space Flight Center at Redstone Arsenal.

The purpose of the survey is to assure that the hourly-paid employees of the Arsenal are comparable to those paid to similar employees by local industrial concerns.

It is being conducted by representatives of both Federal agencies, and covers firms in Huntsville, Decatur and Sheffield.

Some 2,800 wage board employees, equally divided between the Army and NASA, will be affected by the survey.

Any adjustments of the Army Wage Board pay schedule will be made by the Army-Air Force Wage Board in Washington. Wage schedules for employees of the Marshall Space Flight Center are set by NASA Headquarters, also in Washington.

The survey will not affect the pay of Classifications Act (GS) employees. Their pay rates are established by Congress.

Torian Receives Award

The first installment to one of the largest monetary awards ever made to an Army civilian at Redstone Arsenal was presented to William Torian, a Supply Data Specialist in the Supply and Maintenance Directorate, last week.

Maj. Gen. John G. Zierdt, Commanding General of the Army Missile Command, presented Torian with the first \$500 of a Special Act or Service Award that could eventually total \$1155.

The award was made in recognition of Torian's proposal to substitute computer printouts and type-written material for expensive typesetting in illustration supplements.

His idea has been implemented by the Directorate with savings for Fiscal Year 1965 that have been audited.

Implementation of his development resulted in audited savings during Fiscal Year 1965 totaling \$103,944. Based on these savings, the MICOM Incentive Awards Committee recommended an award of \$1155 to Torian.

The initial installment of \$500 represents the maximum amount that can be paid for incentive awards at this level. The remaining \$655 will have to be approved by the Army Materiel Command

WILLIAM TORIAN

and the Army Incentive Awards Boards.

A native of Memphis, Torian came to Redstone in 1958 from the Mallory AF Depot where he had been employed in the same capacity. He attended the University of Tennessee branch in Memphis.

While this is the first large award he has received, Torian has seen several of his ideas become procedures. He has received several small awards, both at Mallory and since coming to Redstone.

Traffic Control Designed To Build In Safety Factors

Manufacturers build safety factors into vehicles, engineers construct highways to move traffic at a safe pace, and then a driver gets into his vehicle. The man who obeys the laws is generally a safe driver, but sometimes even the safe ones are in a hurry, harrassed, angry and the safety factor goes out along with the exhaust fumes.

That's why law enforcement is so very important. Men who control traffic are charged with maintaining a safe environment instead of letting a distraught driver cover the road network like a bullet gone astray.

Speeding is the misdemeanor committed most frequently by vehicle operators at Redstone Arsenal according to the Provost Marshal records. It also most frequently lands offenders in the U. S. Commissioners Court.

More operators in 1966 have discovered this can affect their bank balance than operators did in 1965. Statistics for February 1965 show 36 apprehensions by the 291st Military Policemen who patrol the Arsenal. Only 11 were referred to the United States Commissioner. In 1966 during the same period 45 were apprehended and sent to the commissioner. In 1965 the balance were referred to supervisors for punitive action. The figures from the commissioner are not available but no case is forwarded through all the channels without evidence of guilt.

In March of last year for the same crime, speeding 15 miles or more over the posted legal limit, 41 individuals were referred to supervisors, 84 went to court.

This pattern will continue unless

(See TRAFFIC on Page 3)

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-135, Extension 376-1400 or 376-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication. The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

Rocket Ruminations

And though these shattering walls are thin, May they be strong to keep hate out and hold love in.

—Louis Untermeyer

Hatch Act Explained For Army Personnel

Discretion is the key to the rights and privileges of Federal employees in their activity in support of partisan political campaigning, according to Lt. Col. George Eblen, the Missile Command's Staff Judge Advocate.

"The Hatch Act governing the political activity of federal personnel," commented the Judge, "is one of the least understood and most often misinterpreted public laws now on the books."

Much of the misunderstanding is laid to a commonly held belief that the Hatch Act was written with the express purpose of outlawing political activity in the Federal establishment. "This is just not so," Col. Eblen said. "The Act was passed primarily for the purpose of protecting the government worker from the Spoils System."

"But at the same time," he added, "it calls on him to be discreet in his activity and not allow it to become extreme."

A Federal worker may wear a political badge, display a campaign sticker and he may even voice his opinion in private as to the relative merits of the candidates. He may contribute to a campaign, attend rallies and sign political petitions.

All of these actions are well within the guidelines for Federal employees and are acceptable as long as they are conducted with discretion and do not create a spectacle.

For instance, a person is well within his rights when he wears a lapel badge, but he is considered to be overstepping the limits when he bedecks himself to the extent that his appearance becomes overly conspicuous. Distributing badges and buttons is likewise frowned upon.

Federal laws encourage government workers to register for voting and to cast their ballots in all elections. They also permit par-

ticipation in certain political activities leading up to the election.

"We do as much as possible to let a man express himself in a preference of candidates," The Staff Judge Advocate stated. "He certainly is privileged to vote as he pleases and to speak his mind privately concerning his own convictions — but he is not expected to begin stumping for a candidate."

The worker can attend rallies, but not play a conspicuous part; he can attend political conventions, but not as a participant; and he can sign political petitions although he should refrain from initiating the petition and from passing one around for others to sign.

Employees have the right to express their opinions on all political subjects and candidates as they do not take an active part in the management of a campaign that is partisan in nature.

In non-partisan elections, where candidates run without party affiliation, government workers are free to participate fully and may be a candidate themselves, provided their activity does not interfere with their assigned tasks.

Before a Federal employee is permitted to campaign for a partisan political office, he must resign his civil service position. However, if others carry on the campaign on behalf of a Federal employee without his active help, the worker may continue his employment until elected.

There are many provisions of the Hatch Act that are not generally known by the individual employee, and others that are misunderstood. As a result a number of workers have declined invitations to attend political functions in the belief that they would be in violation of the Act.

The fears that have been brought to the attention of Col. Eblen and his staff have as often as not proven unfounded. "The

FELLOWSHIP

(Continued From Page 1)

One of the highlights will be a field trip to Western Europe.

Davis is a member of the American Institute of Aeronautics and Astronautics, the Association of the U.S. Army, the Masons and the Huntsville Vanderbilt Club.

He is married to the former Bernice Janene Noffsinger of Nashville and they have two daughters, Janet Sue and Virginia Lane.

PROVOST

(Continued From Page 1)

Frankfurt, Germany. The latter award was made in 1961.

Mrs. McClain is also a native of Tennessee. She is the former Miss Opal M. McCluggage, daughter of Mr. and Mrs. Walter McCluggage and the colonel's parents are Mr. and Mrs. William J. McClain, all of Lawrenceburg.

The new Provost Marshal's family includes three daughters and a son. The oldest, Patricia is 13, Deborah is 11, Conya 8, and William Jr., 5.

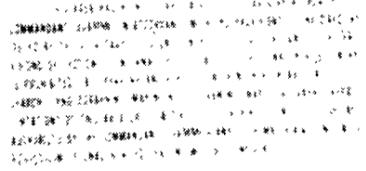

trouble is," according to the Judge. "too many people assume that all political activity is taboo and don't bother to seek advice."

He advised that any worker seeking clarification as to their rights under the Hatch Act should check with the Office of the Staff Judge Advocate, or submit the question in writing to the Civil Service Commission.

RESTRICTED AREA

CAMERAS CAN'T READ—Mrs. Dorothy B. Hager (left) and Mrs. Helen D. Lee, guardians of the Classified Storage Vault in the U. S. Army Missile and Munitions Center and School, Redstone Arsenal, Ala., point accusing fingers at our camera after it failed to read the sign on their office door declaring the office 'off-limits' to cameras.

Girls Keep Many Secrets

Who says women can't keep secrets? Here at the U.S. Army Missile and Munitions Center & School, Redstone Arsenal, Alabama, two women make a job of keeping secrets.

Mrs. Helen D. Lee and Mrs. Dorothy B. Hager are in charge of the School Vault where all classified documents are maintained. Before anyone can take a document out of the area they must, first be cleared for access to this material and second they must personally sign for the document they are taking.

With over 4000 classified papers in their keeping it is no wonder

that Mrs. Lee and Mrs. Hager take their jobs seriously. Whenever they are absent from the vault it is always locked. Usually one or the other is in the vault at all times during the day to keep operations functioning smoothly. Security is the password with these two 'secret keepers'.

Helen, who lives in Huntsville with her husband James T. Lee and 2 children, has been with MMCS for 11 years while Dorothy has been here for 6 months. Dorothy, her husband Ernest L. and their 3 children also resides in Huntsville.

SAM-D WELCOMES NAVY ABOARD—Two Naval officers assigned to the SAM-D Project Office at the Army Missile Command on Redstone Arsenal recently paid a visit to the new Project Manager, Col. Edward M. Dooley. Here, Col. Dooley greets Capt. William A. Arthur, Navy Deputy to the Project Manager. Looking on is Cdr. Alfred M. Pride, Assistant Navy Deputy. SAM-D (Surface-to-Air-Missile—Development) is an air defense missile system under development for use on land and sea in the 1970's.

SAM-D

(Continued From Page 1)

tions, a single radar will detect targets, track the targets, and then issue guidance commands to the defensive missile with its nuclear or conventional warhead in flight. A Battery Control Center will coordinate firing operations within the battery and serve

as a communication center.

Plans are for SAM-D to eventually replace the Nike Hercules and a portion of the Hawk air defense systems, both deployed in the United States and overseas.

Russian History II (A 464), a 15 lesson course, is now available from the United States Armed Forces Institute (USAFI).

TRAFFIC

(Continued From Page 1)

the drivers pay closer attention to the laws—patterned basically on the laws of the State of Alabama in which the Arsenal is located—according to Col. Anders O. Wiklund, Assistant for Operations and Security at the U. S. Army Missile Support Command. His views are in agreement with those of the newly arrived Provost Marshal, Lt. Col. William J. McClain. The latter is no stranger to Alabama law. He held the same position at Anniston Ordnance Depot, Anniston, Alabama.

So far in 1966 no one has been stopped for speeding at less than five miles over the limit although last year six such misdemeanors were referred to supervisors. In the ten-14 MPH category 49 supervisors were compelled to reprimand their employees although none were referred to the commissioner. Of the 57 stopped so far this year, nine have been referred to the Commissioner.

Sometimes the MPs have a problem. People get careless about reading signs and land in a stream of traffic going in the opposite direction on a one-way street. Ignoring any of the regulatory traffic signs will earn the driver a reprimand and can land him in the Commissioner's Court Room as one driver discovered to his sorrow in February. Since just one of 43 was referred to the Commissioner the odds are fairly high that running a sign will not land the driver in court facing a fine, but it could.

March records show that in 1965 22 faced their supervisors and in 1966 the number apprehended for

Some Paychecks May Be Less Under New Deduction Plan

This is the time of the year for Redstone personnel to give serious thought to income tax matters if it is not already behind them for the current year.

Those who owe more than has been deducted throughout the past year are either trying to figure out how to pay the additional amount or stunned from the amount of the check already written.

Part of their problem has already been solved by the Bureau of Internal Revenue with Public Law 89-368 which set up a new withholding rate schedule. The new schedule provides a graduated scale whereby the amount withheld will more nearly equal the total liability for the individual wage earner. The new system will be effective with the first pay received after April 30,

and will be reflected in the pay received by Redstone civilians on May 5 or 12, as appropriate.

The new schedule will be included in the military pay to be received on May 31.

While the new withholding rate may appear to some to be an increase in taxes, the Public Law points out that no one will be paying an increased tax. Rather, the individual taxpayer will be paying more each pay day so that the total amount withheld will greatly reduce the additional amount still owed by many workers.

The Tax Adjustment Act of 1966 (Public Law 89-368) provides for the use of six graduated withholding rates ranging from 14% to 30% in lieu of the flat 14% now used. The actual amount to be withheld is determined by the marital status of the individual as well as the number of exemptions claimed for tax purposes.

The MICOM Finance and Accounting Center is in the process of distributing an information sheet which will be directed to all personnel, military and civilian. It will provide a detailed explanation of the new schedule and will include tables to enable each person to determine how much of their pay will be withheld.

At the same time each person will be given a new Form W-4 (Employee's Withholding Exemption Certificate). These forms will have to be completed and returned to the MICOM Finance and Accounting Center. The information provided on the form will enable the Center to make the correct deduction according to the desire of the individual. A number of people now claim fewer exemptions than they actually have; this is perfectly legal and there is no reason to believe that the practice cannot be continued.

The number of exemptions listed on the Form W-4 will be used in computing the withholding deduction. For those persons who fail to furnish a new Form W-4, tax will be withheld on the basis of a single person with no exemptions.

ignoring signs increased to 30.

Most lesser infractions are referred to supervisors and this can upset a man forced to reprimand an individual and then report his tongue lashing or other punishment in writing through channels to the arresting authorities.

The traffic control people take a dim view of failure to obey the rules. They say the same people would call for the law if someone pointed a gun at them, but when these people get behind a wheel they become equally lethal when they disobey the rules.

The statistics cover all of the organizations on the installation including contractors who account for more than half the cars registered and the heaviest volume of daytime traffic on the road network while most people working at the U. S. Army Missile Command, the Support Command, Nike-X Project, the Army Missile and Munitions School and Center and Marshall Space Flight Center are sitting behind desks. In addition there are the two government-owned contractor-operated companies here, Thiokol Chemical Company and Rohm and Haas Company.

Traffic control at peak hours flows the smoothest, the MPs report when everyone operates within the prescribed patterns.

SOCIAL ^{and} CLUB EVENTS

MRS. ELEANOR SEARLE WHITNEY

Mrs. Whitney Schedules Morning Talk At Chapel

The entire Redstone Arsenal military population and all dependents are invited to hear Mrs. Eleanor Searle Whitney, nationally known lecturer and soloist, when she presents a program at 9:30 a.m. next Tuesday in the Post Chapel.

Her visit to the Arsenal is being sponsored by the Catholic and Protestant congregation of the Chapel. A reception for Mrs. Whitney will be given in the Chapel social room following the program.

The distinguished visitor has had personal experience with many religions and spends more than six months a year traveling to give talks throughout the world. She has spoken and sung for all groups and denominations.

Her travels have included several trips to the Holy Land and

tours of Africa, Europe, Asia and the United States speaking and singing in churches, colleges, hospitals, private homes, missions and women's clubs.

Mrs. Whitney is a former concert soloist and opera singer, and is an active member of the National Council of the Metropolitan Opera, and the National Society of Arts and Letters.

She has been named a number of times to the list of best dressed women, and after being named "best hatted" numerous times, she received the first Golden Hat Award from the American Millinery Institute.

Her visit to the Arsenal will be one of several appearances in this area as she is scheduled to speak to various groups during a two-day visit to Huntsville.

Noncommissioned Officers Wives Plan Fashion Show

The Redstone Arsenal Non-Commissioned Officers Wives Club will have a Spring fashion show at 7:30 p.m., Monday, April 25 in the main ballroom of the Redstone NCO Open Mess.

Models will be members of the

Wives Club under the direction of Mrs. H. W. Decker.

Hostesses for the month are Mrs. H. J. Bullard, Mrs. Robert Bullock and Mrs. William D. Brown.

READY FOR SHOW—Part of the entertainment scheduled Sunday at 8:15 p.m. is a show within a show: the Third Army Entertainment Contest. The men (left to right) are: SP4 Ciampini Umberto, SP4 Paliani Alfiero and SP4 Menna Emanuele dry running their act. Their skit is a farce of American tourists at dinner in Italy. The men are not eligible for the contest because they are members of the Italian unit studying missiles at the Army Missile and Munitions School and Center. In addition to the farce, there are vocalists, instrumentalists and a band.

At The Service Club

By BETTY HAYES

Do you have time on your hands this week? If you do, attend the events at the Service Club. Each evening will be filled with a variety of entertainment which you won't want to miss.

For example, I imagine there are places where you have wanted to travel, but you feel that you will never have an opportunity to go. You have a chance to travel tonight by film to an exciting place. Stop by the Service Club for the travel adventure at 7:30 p.m.

On Thursday evening another sports spectacular will be shown at 7:30 p.m. You are promised an evening's thrill by viewing a popular and memorable sports event.

Rehearsals for the All-Army Entertainment Contest will be held Friday and Saturday at 8 p.m. If you have not entered the contest yet, it is not too late. I suggest that you call the Service Club, 876-4531, if you think that you are qualified for any of the seven classes of competition.

Coffee and light snacks will be served on Saturday afternoon at 3:30 p.m.

The All-Army Entertainment Contest will be held on Sunday night at 8:15 p.m. I suggest that you attend this event for a variety of delightful entertainment.

Lots of prizes are in store for those of you who participate in the evening of games Monday.

Bridge anyone! The little lounge will be reserved for bridge players on Tuesday at 7 p.m.

Three big events for next week are a post-wide pool tournament, a pizza party, and the Spring Showcase. For more information on

Hail and Farewell Scheduled Friday

The quarterly Hail and Farewell party for the Missile Command, Support Command, Nike-X, and Combat Development Command will be Friday, in the main ballroom of the Redstone Officers Open Mess between 5 and 7 p.m.

Host for this quarter's Hail and Farewell is the Procurement and Production Directorate of the Army Missile Command.

The reception will honor those officers who have arrived during January, February, and March and those departing during April, May,

and June. These officers and their wives will participate in a receiving line from 5 to 5:30.

All officers and civilian employees associated with these officers are invited to attend. Dress will be duty uniform or business suit.

See you at the Service Club.

Mrs. Mattis Holds High Bridge Score

Mrs. William Mattis won the competition in the Thursday bridge group sponsored by the Redstone Arsenal Officers Wives Club at the Open Mess last week.

In second place was Mrs. G. T. Fearson; Mrs. E. Lederman was third. Low was Mrs. Jack Davis. Six tables were in play.

and June. These officers and their wives will participate in a receiving line from 5 to 5:30.

All officers and civilian employees associated with these officers are invited to attend. Dress will be duty uniform or business suit.

THE FASHION TRAVELERS . . .

HAVE ARRIVED!

ECKSTEIN WINS MONDAY BRIDGE

Herbert P. Eckstein won at bridge at the Redstone Officers Open Mess during the Monday evening meeting of the bridge group last week.

In second place was Lt. David W. Chenault. Mrs. B. A. Saholsky was third.

Reservations to play with the group are handled by Mrs. Jeff Kirby, 877-4030 and Mrs. Charles McBrearty 837-0546.

Packaging Group Will Hold Meeting

Missile Command packaging requirements in support of procurement will be the theme of the monthly meeting of the Society of Packaging and Handling Engineers next Monday evening.

The meeting will be held at the Plantation Restaurant in Huntsville with the social hour starting at 6:30. Dinner will be served at 7:00 with the business meeting scheduled to start an hour later.

Roger Dodd, of the Procurement and Production Directorate's Packaging Branch, will be in charge of the presentation. A question and answer session will follow the presentation.

PIANO CONCERT SCHEDULED

Joseph Fennimore, 1965 Young Artist winner of the National Federation of Music Clubs Young Artists auditions, will be presented in a piano recital on Sunday, April 17, at 3 p.m., in Huntsville Junior High School auditorium.

The concert is under the joint auspices of the Huntsville Music Study Club and the Music Appreciation Group. Tickets are available to the public at The Arts Council office in the Temporary Civic Arts

Engineers Will Be Told About Flood Control

The Northeast Alabama Chapter of Professional Engineers will hold their monthly meeting tomorrow at Michael's Restaurant in Holiday Inn, West, on South Memorial Parkway. Commencing at 6:00 p.m.

Featured speaker will be William A. Giardini, P.E., vice president, Brown Engineering Company and Chairman of the Huntsville Flood Control Committee. Giardini's topic will be "Huntsville's Flood Control Program and the City Ordinance being Proposed for Effecting the Program."

The Chapter's nominating committee will present a slate of nominees for Chapter officers for the year 1966-67. All members and guests are urged to attend. Reservations can be made by calling Bennie Shultz, P.E., at 876-2888 (office) or 881-4588 (home).

Girl Scouts Plan Open House Sunday

Girl Scout troops at Redstone Arsenal will hold open house at Bldgs. T-3181 and T-3183 Apr. 17 between 2-4 p.m. for friends of the Scout program.

Mrs. John L. McCombs, Neighborhood Chairman, for the Arsenal Girl Scouts said the girls will serve refreshments. She has three troops of Brownies, two troops of Girl Scouts, and a troop of Cadettes and a troop of Senior Girl Scouts in the program.

The basis of the program, Mrs. McCombs says, is service.

Center, 311 West Clinton Avenue in Huntsville.

FOR A HAPPY EASTER—JANGOs Cindy Sterner, left, and Linda Hooker, right, lend a hand to Brownies Vicki Heath and Dona Stembridge, left to right in center, as they color eggs for the Easter party JANGOs had on Saturday afternoon at the Redstone Officers Open Mess for Huntsville needy children. Redstone Arsenal Brownie Troop 104 members have been working to decorate dozens of eggs for the party. JANGO (Junior Army Navy Guild Organization) members at Redstone serve as nurses aides and also receive training in community service.

Another Double Series Of Community Concerts Are On Year's Schedule

Huntsville Community Concert Association is scheduling another double concert series for next season, it is announced by Alan L. Compton, president of the association and director of the SAM-D Systems Support Division.

The sell-outs of double series during the past two seasons have

caused the association's board of directors to again sign up two separate groups of four attractions each for the 1966-67 year.

The two series have been identified in the past as the "red" and the "blue" series. The coming season's series will be changed to "gold" and "green" for identification in purchasing season memberships.

Both series will feature some of the most outstanding presentations now available on the concert stage, according to Compton.

FLOWER ARRANGEMENTS

The Redstone Arsenal Officers Wives Garden Club will receive a lesson in Japanese flower arranging from Mrs. Robert Tatum, an International Garden Club member, at the Apr. 19 meeting between 12:30 and 2:30 p.m. at the Redstone Officers Open Mess.

Reservations to attend the meeting are unnecessary. Further details can be obtained by calling 877-5767.

Live a little better

with Spring Cash from **MUTUAL**

Does the grass look greener in your neighbor's yard? Perhaps he got cash from us... cash for gardening, home improvements, spring clothing or other seasonal needs. You can do the same! Bowling Titles At Stake In Two Civilian Leagues

PARADE OF STARS

Field Services League: John Echenroth, 603 (221-200), Ed Murrah, 600 (245), Joe Holub, 598 (210), Nick Sparks, 592, Sam Boda, 585, Ralph Sturgill, 571, Max Baer, 567, Chuck Thompson, 558, Troy Faulkner, 551, Len Twinem, 548.

AMC League: Frank Strawn, 610 (219-203), Dick Gore, 556, Bernie Robinson, 538, Jim Kyzer, 533 (225), Tom Patterson, 524.

Supply Management League: Charley Rymer, 600 (218-216), Billy Tippins, 595, Ralph Porter, 568, Frank Rosencutter, 566, (225), Tom Lindsay, 560, D. B. Smith, 558, Jack Bailey, 549.

Redstone League: Mart Schmidt, 588, (227), Jim Denk, 581 (227), Jim Haight, 579 (226), Vic Passavant, 564, Ed Murrah, 562, Carl Reynolds, 556, Hal Vanderveen, 548, Chas. Lovoy, 545.

A whole season's work will be on the line tonight on two different fronts as the Civilian bowling league season draws to a close.

The Field Services league will wrap up their affairs at the Parkway Lanes while the AMC League will call it quits after tonight at the Starlite. Both loops have position rounds carded for the closing session and in each case two teams will meet in a head-to-head struggle for the championship.

The other two civilian leagues have four nights apiece on their schedules.

Last week's action turned up a bumper crop of Honor Roll efforts headed by Frank Strawn whose 612 almost single-handedly turned the AMC race into a two-team race instead of the three that had hopes a week ago.

John Echenroth hit a 603 in the Redstone, Ed Murrah had a 600 in the same league, and Charley Rymer hit the magic figure on the nose in the Supply Management League.

Strawn had a 219 and a 203 as he led the Skippers to three wins from the Ramblers who lost a brilliant opportunity to move in close to the leaders. The leading Bombers dropped a pair and the second place Maulers lost all four. Had the Ramblers been able to sweep they would have gotten into second, just a point and a half off the Bombers' pace.

But Strawn took care of that and as a result the Ramblers now have to beat off the TOW Boys to hold onto third. The Maulers will be trying to get back on the beam against the Bombers needing three points for a tie and all four to win.

About the same situation exists in the Field Services League where the Crackers will be trying to protect a one and a half point lead over the Guided Muscles.

The Musclemen won all four last week as Joe Holub just missed an Honor Roll count with 598 and Nick Sparks turned in a 592 effort. The Crackers held on with three behind Murrah and Sam Boda who fired a 585 effort.

Central TV, losers' of seven of the last eight, fell out of the running last week and will be fight-

ing to stave off the Chiefs for third spot in the final standings.

The Huntsville Brick and Tile team is just about as close to the title in the Supply Management League where they hold a nine and a half point bulge over the All-Sports Trophies.

Last week the Tilers fired a 1139 game (1059) scratch and a 3027 team total in making believers out of the Sportsmen. Tippins led the attack with a 595, Tom Lindsay shot a 560, D. B. Smith contributed a 558, Jack Bailey had 549 and Tom Phillips turned in a 525.

The lineup for the big game showed, Phillips, 198, Bailey, 192, Smith, 237, Tippins, 213, and Lindsay, 219.

Rymer turned in his heroic for the Bramblett's in their all-winning effort against the New Streaks. They had a 2965 team total which included a 2602 scratch pinfall.

The Redstone race is tightening up again with Dean's Trailer Park holding onto a three-point advantage over the Ginger-Ruth Shop. Dean's won three last week while Ginger-Ruth was taking all four from the Super Hawks.

The leaders turned in a total pinfall of 3021 with their low individual hitting a 525. Vic Passavant set the pace with 564 and Charley Lovoy came in with a 545.

Jim Haight led the Ginger-Ruth men to their sweep with a 579 and Lou Crouch added a 539 with the team collecting 2989 pins.

The best individual effort of the night was turned in by Mart Schmidt who collected 588 for Sanders Motors.

Whoops!

It seems that the report last week on "short athletes have their day" meant that they won two out of three instead of sweeping the field clean in volleyball competition.

The Japanese took the first and third game, the Germans won the second.

Haywood Bags

Low Score Using Irons

Officers Wives Club members of the Golf Group played an all irons competition last Wednesday on the Redstone Arsenal course.

Among the 26 in the competition, Betty Haywood shot low score followed by Grace Wachslar and Joy Tyler in a tie. Billie Fogel was third and Louise Hicks and Alma Hendley tied for fourth place.

Wheezers Capture Title In Rolloff

It took a roll-off to break a tie before the Wheezers captured the 1965-66 championship of the A-B-C Officers bowling league championship last week.

At the end of the regular season the Wheezers and Saturn V were in a deadlock with 72 points apiece, after each won three on the final night. The two went back at it on Saturday afternoon with the Wheezers grabbing the crown with a 2794 to 2683 win.

Tom Wilkerson set the playoff pace with a 549 and Bob Braid helped the cause along with a 514.

Wilkerson was also the leading light in the Wheeler attack that brought a trio of wins over the Hopefuls on the last night of the regular season. He fired a 546 and Wiley Cooper added 524 more.

Saturn got into the rolloff with three out of four from the S Wonders despite a 585 put together by Eric Mauerhoff in the losing cause. Bill Martin led Saturn with 538 and Joe Morrow contributed 512.

The Stump Knockers fell a single game short of emerging from the league's cellar when they took three from the Lucky Strikes, and the Pin Splitters handed the Black Jacks another 3 to 1 setback.

Johnny Johnson turned in a 544 for the Knockers and Howard Hazlett felled 525 more maples. Don Vanderheyden kept the Lucky Strikes in the match with a 535.

Gun Collectors Ask For Charter

The North Alabama Gun Collectors Association has applied for a state charter and elected interim officers.

The group met at Brown Engineering Company Auditorium, drawing approximately 30 charter members. The Association plans to incorporate. Installed as officers were: Joe Morris, president; Charley Hendley, vice president; and Dorothy Hopper, secretary-treasurer. The Board of Directors has seven members.

Rollers Nab Title In MMCS Loop

There are still two weeks of bowling left on the schedule of the MMCS Officers league, but as far as the Rollers are concerned it is all wrapped up.

The Rollers took all four points in their match with the Missiemmen last week to take a nine and a half point lead into the final two sessions. The second place Rounders also scored a sweep against the Bad Gnus, but it was to no avail.

The latter sweep eliminated the final hope for the rest of the league of catching the pennant-bound Rollers. The Bad Gnus went into the match trailing by five and a half.

When it was over they found themselves knocked all the way to fourth place, three points behind the Rounders, and a point

and a half behind the Black Jacks. The Rounders turned in a 2800 team effort led by Al Leonard who fired a league-leading 562. Bob Percy collected 548 sticks and Bob Love added a 516.

The Black Jacks won three and a half from F Troop as George Earle hit for 519, Ron Parker had 512 and Tom DeLoach downed 508 sticks.

● All commanders have been reminded of their obligation to maintain the Army's "credit rating" by taking steps to prevent their men from going into debt beyond their means and to counsel those men who are deep in debt. With the aid of the Legal Affairs Officer the commander can often cushion the financial impacts of sudden PCS, expensive TDY, and high living costs, and arrange a suitable agreement between the debtor and his civilian creditor. In the case of negligent debtors who bring discredit to the Army, commanders should eliminate them from the service. (ANF)

Lt. Col. Margaret Clark Honored In Hometown

Standing stiffly erect, the petite blonde glanced approvingly at the hundreds of faces turned toward her and smiled warmly:

"This is the happiest day of my life."

This was the reaction of Lt. Col. Margaret Clark last week as friends and neighbors of her hometown of Arab, Ala., turned out to honor her on "Margaret Clark Day."

The occasion for the celebration was Col. Clark's recent return from Vietnam where she was Chief Nurse for the U. S. Army. Mayor Ralph Hammond proclaimed April 8 as a day "set aside in the city of Arab to honor a distinguished

and patriotic citizen."

Joining the tribute to the petite nurse were the Arab high school band; a color guard from the 113th Signal Battalion of the Alabama National Guard; members of the VFW and American Legion; a host of city officials and civic organizations and hundreds of onlookers and well-wishers.

Col. Clark is a former nurse at the Army hospital on Redstone Arsenal, having served here from 1950 to 1953.

Upon completion of 14 months of service in Vietnam, she was presented a Legion of Merit by Lt. Gen. Jean Engler, Deputy Commander of the U. S. Army, Repub-

Guard Training Will Take Place At Redstone Arsenal

Soldiers of the 1343rd Engineer Battalion, a unit of the Alabama National Guard, will conduct a training maneuver this weekend at Redstone Arsenal.

Lt. Col. Jim Winning, commander of the unit with headquarters in Athens, said "this routine maneuver will prepare the battalion for training to be held at Fort Shelby later this summer."

About 650 men will take part in the operation, he said.

Composed of several companies from towns throughout North Alabama, the 1343rd, a part of the selected reserve force, will begin assembling at the arsenal Saturday afternoon. That night the troops will bivouac in an area near the Redstone Airfield.

Next morning they will occupy and defend a designated area

against a simulated enemy. Personnel from the 1169th Engineers Group in Huntsville will serve as the "enemy" and also will act as umpire for the maneuver.

Although the primary mission of the 1343rd deals with engineering and support problems, a secondary role calls for the unit to be able to carry out infantry or tactical type missions, Col. Winning said.

Companies of the battalion taking part in the operation and their commanding officers:

Headquarters company of Athens, Capt. Marvin Clem; Co. A located at Athens and Moulton, Capt. Edward McMunn; Co. B of Scottsboro and Hammondville, Capt. Wolton Norwood; and Co. C of Hartselle, Capt. Dee Proctor.

RIDE DOWN MAIN STREET—Perched on the back of the small convertible, Lt. Col. Margaret Clark rode through the streets of her hometown once again last week to the cheers and greetings of hundreds of friends and neighbors. In the background can be seen the color guard that marched in the parade honoring her and a small portion of the crowd that lined the street.

lic of Vietnam, "for outstanding and meritorious services in directing the entire nursing operation."

She also was the first woman awarded the Air Medal for flying 50 hours in direct combat support.

When Col. Clark first arrived in Vietnam, there was one hospital and a staff of 10 nurses. When she left, there were nine hospitals and 333 nurses.

During the downtown ceremonies, Col. Clark was presented several mementoes.

She leaves soon for a new as-

• The Army's first Drill Sergeant Assistant Course is underway at Fort Dix, N.J. The program will provide cadre personnel to meet the shortage of qualified instructors for training recruits. Personnel for the course are selected from basic training classes on the criterion of leadership potential; individuals selected begin the course immediately after complet-

signment as Chief of Nurses at the Fort McClellan Army Hospital.

ing Advanced Individual Training. Graduates will return to their original basic training brigade for five cycles (40 weeks) after which they may attend the regular Drill Sergeant Course. (ANF)

John Manko Is First Male Red Cross Volunteer

What does a man do when he retires?

John A. Manko found himself a job as a Red Cross Volunteer at Redstone Arsenal and is a recorded first on the Arsenal's roll call of volunteers. He is the only man in Madison County working as a Red Cross Volunteer in a dental clinic and at the monthly visit to the Arsenal of the Red Cross Bloodmobile.

Desalination Talk To Be Heard Tonight

A Meeting of the North Alabama Section of the American Chemical Society will be held in the auditorium of the Research Institute of the University of Alabama on Sparkman Drive at 8 p.m. tonight.

Dr. Raymond W. Stoughton, from the Chemistry Division of the Oak Ridge National Laboratory, will speak on "Desalination and Water Recovery." The discussion will include a description of various methods proposed for the recovery of water from the sea and brackish sources. Solar energy and large-scale nuclear reactors are among the suggested energy sources.

Dr. Stoughton received his Ph.D. from the University of California and then, worked under the direction of G. T. Seaborg on the plutonium project in 1941. He came to Oak Ridge in 1943.

One day a week, Mr. Manko reports to the Arsenal's Dental Clinic to help mix fillings, assist the dentists during examinations and dental repairs or treatments.

Mr. Manko is the father of Mrs. Glenn E. Carothers. Maj. Carothers is the housing officer in the Army Missile Support Command. Mr. and Mrs. Manko came to Redstone Arsenal in 1965 to live with the Carothers after Mr. Manko retired from the Highway Express Lines trucking company in Pittsburgh, Penna. He wasn't bored with three grandchildren in the house, but he looked around to see what he could do of service because he claims he never learned to play.

Both Mr. and Mrs. Manko grew up in small Pennsylvania towns. He was born at Denorah 25 miles out of Pittsburgh where the principal employment was in the steel mill or mining. Mrs. Manko grew up in Spangler near Johnstown.

When their daughter, Lois, married an Army man, the horizons of Pittsburgh widened to encompass the whole world. In 1957-58 while the World's Fair was held in Brussels, Belgium, Maj. and Mrs. Carothers were stationed in Europe. That gave Mrs. Carothers parents a good excuse to visit the Fair and their daughter, or vice versa. The Mankos started with the idea they would spend two or three weeks

HELPING HAND—Dr. Ralph T. Lawson receives instruments from John Manko, first male Red Cross volunteer to serve at Redstone Arsenal, or in Madison County.

on vacation. The vacation stretched to more than six weeks during which time they not only visited the Fair, but Bertchesgarten in Bavaria, Italy and Switzerland as well.

Mr. and Mrs. Manko have also toured the United States because the Major's assignments have taken him to such widely separated places as Massachusetts and California; Virginia and Washington State.

Mrs. Manko is content now to help her daughter with the grandchildren and about the house. A fourth child is expected to join the other three sons. The whole family keeps up with the Manko son, Kenneth, a member of the faculty at Delta Junior College in Midland, Michigan.

Meantime, Mr. Manko expects to continue his Red Cross Volunteer work here until the Major is reassigned by the Army.

VOLUNTEER—John Manko mixes a temporary filling at the Post Dental Clinic.

KING OF THE ROAD!—Motorists at Redstone Arsenal are used to creeping along at a snail's pace, frequent stops, and even periods of not being able to move at all. But even the traffic hardened veterans had a new experience recently; a few of them were temporarily sidetracked by a plane. Motorists and the C-119 met on Rideout Road and, guess who won? The plane was being towed from Redstone Airfield to the Army Missile and Munitions Center and School where it will be employed for troop training.

MOHAWK ARRIVES AT REDSTONE—Taxiing into Redstone Airfield is the Army's OVI-Mohawk, a surveillance and reconnaissance aircraft. Recently assigned to the U. S. Army Missile Command, the plane will be utilized for high-priority research in a program for the Advanced Research Projects Agency of the Department of Defense. Equipment will be demonstrated and evaluated in an 18-month program, the Army said. Work will be done by the ARPA Division of the Missile Command's Research and Development Directorate and by the Redstone Army Aviation Branch.

Personnel Administrators To Hear Dr. C. M. Hersh

Dr. Charles M. Hersh, Acting Assistant Commandant, and Executive Assistant for Education of the Army Missile and Munitions Center and School, will address members and guests of the Huntsville Chapter, Society for Personnel Administration at their meeting on Tuesday.

John S. Hinkle, Chapter Presi-

dent, will preside over the meeting to be held at the Redstone Officers Open Mess. Graham Shelton, Program Chairman, will introduce the speaker.

Dr. Hersh began his career in civil service five years ago. Prior to this he was Assistant Dean of the American University School of Government and Public Adminis-

tration in Washington, D.C. His BA degree included a major in physics and psychology. His Master of Arts and Ph.D were in political science, to include public administration. He was educated at Syracuse University for his BA and at the Maxwell School of Citizenship and Public Affairs for his graduate work. He is a member of American Association of University Professors and American Political Science Association.

Quality Manager For Sears Will Talk Tuesday

The Huntsville Section of the American Society for Quality Control will meet Tuesday night, at 6:30 p.m. at the Redstone Officer's Open Mess. This will be the annual ladies night.

Robert W. Peach, Manager Quality Assurance, Sears Roebuck and Company, Chicago, will present a talk, "The Importance of Product Quality to the Customer." Peach holds a degree in Business

and Engineering Administration from Massachusetts Institute of Technology, and a Master's Degree in Business Administration from the University of Chicago.

He has served as consultant to the Office of Standards and Quality Control, Federal Supply Service, General Administration. He is a senior member of the American Society for Quality Control, and received the Best Paper Award of the Textile and Needle Trades Division, ASQC, in 1964. He is presently instructor in Quality Control at the Illinois Institute of Technology.

Interested persons may call 532-1659 or 876-5419 for dinner reservations.

Missilemen Discover Life In Alaska Is Wild

People who test fire new missiles have to contend with a variety of things, but for sheer novelty nothing beats a herd of buffalo.

In a recent news release the Army Missile Command mentioned it was testing one of its newest anti-tank missiles in the Arctic to determine how the weapon would operate under extreme weather conditions. The tests were conducted at Fort Greely, some 105 miles southeast of Fairbanks, Alaska.

What the release didn't mention was that before the test engineers could fire the missile at its targets they had to check the range for browsing buffalo. Fort Greely is one of the few places in the country where the shaggy beasts still roam free outside a zoo.

Two Missile Command representatives, Marvin Carroll, a senior electronic engineer, and Frank Bunn, Chief of the Systems Test Branch, in the Command's Directorate of Research and Development were present for the tests. They recalled some of the strange events that took place in the Sam McGee country.

There were times, for example, when they could see two Mt. McKinleys, one on top of the other. This didn't affect the tests too much. Problems did arise, however, when the gunners began seeing two targets, upside down

THEY'RE NOT HOUSECATS—Marvin Carroll, a senior electronics engineer for the Army Missile Command, holds two lynxes trapped while he was at Fort Greely, Alaska, for recent arctic tests of an anti-tank missile system. Fort Greely personnel also hunt coyotes, moose and foxes. And, during the tests they had to check the range for buffalo. Carroll is a member of the Electrodynamics Branch of the Electromagnetics Laboratory in the Missile Command's Directorate of Research and Development.

targets and square targets that appeared like inverted triangles. At other times the targets seemed to drift around and bob up and down.

These disconcerting motions, Bunn says, were caused by freakish temperatures which averaged 20 degrees below zero and caused mirages just as high temperatures do on the desert.

Polaris, the so-called North Star, wasn't in the north at Fort Greely during the tests. It was almost directly overhead. Ordinarily the star is used by missilemen

to determine precise directions. The sun, on the other hand, barely rose above the horizon and the moon hung in the sky all day long.

And, if the buffalo hadn't caused problems other animals would. Photographer M. T. Abernathy, also from Redstone, was looking over the landscape one day and found himself being charged by an angry moose. Happily Abernathy in a short, furious sprint was able to beat the moose to a nearby truck.

During their off-duty hours Fort Greely personnel in season trap lynx, foxes, coyotes and other game. Many of the buildings sport magnificent sets of moose antlers, called racks.

One thing the tests proved was that you can't exactly simulate tactical conditions for missiles in a laboratory. No buffalo.

Carroll is a native of Atlanta, Ga. His parents, Mr. and Mrs. Stewart W. Carroll live on Lynn Valley Road.

Planners Get Ready To Celebrate Armed Forces Day Saturday, May 21

Countdown for the 1966 Armed Forces Day observance on Redstone Arsenal is underway. It will reach zero on Saturday, May 21, climaxing the week set aside in honor of American servicemen and women.

Demonstrations and displays showing the U. S. Army's "Power For Peace" will be open to the public both Saturday and Sunday. Some of the activity will be at the Army Missile Display Area on Patton Road, while other exhibits will be set up at Redstone Airstrip.

The local Armed Forces Day observance will get off to a start Saturday morning with a parade of troops, missiles and bands through downtown Huntsville.

Exhibits housed in the three giant airdomes at the Missile Display Area now are being improved for the thousands of people visiting Redstone to see on the upcoming Armed Forces Day week-

end. The Area first was opened to the public on Armed Forces Day last year.

Heading the team of Redstone people working to make 1966 the best year for Armed Forces Day observances is Lt. J. D. Kirby, Project Officer. Lt. Col. R. H. Vereen, who was Armed Forces Day Project Officer in 1965, is Lt. Kirby's adviser.

Assisting with planning from the various Army elements at Redstone are: Missile Command—Lt. Donald Esry and Louis R. Arcangeli, Supply and Maintenance Directorate; Randell D. Gilbert, Procurement and Production Directorate; Hugh O. Miller, Research and Development Directorate; and Bob Finney, Public Information Office; Missile Support Command—Capt. Del J. Ott and Wendell O. Terry, Transportation Division; John R. Russell, Com-

munications Division; Ralph Per-rill, Community Relations Officer; Leon Towry, Post Engineers; Lt. Harold Lynch, James Adair and E. E. Deibler, Post Exchange; W. T. Cook, Safety Division; Lt. Robert Jepson, Troop Command; C. K. Sparks, Maintenance Support Division; Gerald W. Breedlove, Provost Marshal; James Potevint, Consolidated Supply Division; and Army Missile and Munitions Center and School—Maj. Donald F. Knapp.

March 16, 1802 — Upon advice of President Jefferson, Congress established a military academy at West Point. It authorized a "Corps of Engineers" of 10 cadets (who were to receive \$16 a month) and authorized seven officers. The Academy was formally opened on July 4.

Electronic Engineers To Hear Dr. Y. H. Ku

The Huntsville chapter of the IEEE Professional Technical Group or Automatic Control will meet on Tuesday, to hear a presentation on "Nonlinear Systems with Random Inputs."

Members and nonmembers are invited to attend the meeting. Attendees are requested to use the South entrance of Building 5 of the IBM complex on Sparkman Drive for escort to Room 5-F where the program will begin at 7:30 p.m.

Guest speaker will be Dr. Y. H. Ku, Professor of the Moore School of Electrical Engineering, University of Pennsylvania, who received the Ph.D. degree from MIT in 1928. Dr. Ku has worked as an educator, research director, and consultant both in China and the United States. In 1950, Dr. Ku returned to MIT as a visiting pro-

fessor of Electrical Engineering. In 1954, he joined the staff of the University of Pennsylvania. His name is listed in both American Men of Science and Who's Who in Engineering. He is an IEEE Fellow. His field of work includes analysis and control of nonlinear systems, electric energy conversion, and transient circuit analysis.

Army Offers Grazing Land To Leasees

Approximately 10,000 acres of haying and grazing land at Redstone Arsenal is available for lease.

Bids have been invited and must be received in the office of the Real Estate Representative, Building 7155, Redstone Arsenal, by 2 p.m. CST April 28, 1966. There will be a public opening of bids at this time.

Land available is divided into 15 lease units containing from 80 to 2,850 acres each. The leases, which will be for a 5-year term, will be effective July 1, 1966, for 11 units and January 1, 1967 for the remaining 4 units.

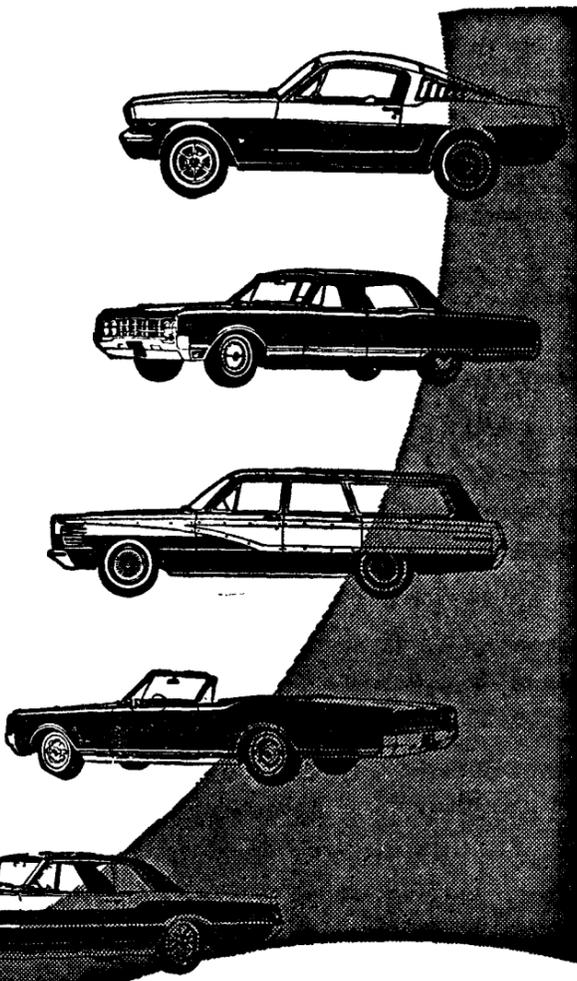

Interested persons may obtain further information and bid forms, as well as arrange for an inspection, by contacting the following:

Roger W. Scoggin, Building 7155, Telephone 876-2443, Wednesdays and Thursdays; J. N. Weldon, Post Engineer Office, Telephone 876-3628, Mondays through Fridays; or the District Engineer, U. S. Army Engineer District, P. O. Box 1169, Mobile, Ala. 36601.

Dollars invested in U. S. Savings Bonds remain outstanding about 7 years. Americans own over \$49 billion worth of E and H Bonds.

Seventh Graders Hear About German Customs

For a few fascinating moments Tuesday 300 Huntsville students visited the castles, forests, and cities of Germany. The trip was via slides and leading the tour was 1/Lt. Rolf Eisenhaber, chief of the German interpreter pool at the Army Missile & Munitions Center & School.

The students of the 7th grade at Joseph Bradley Junior High School took the imaginary vacation courtesy of the Foreign Liaison Division of MMCS. Frank Bowman Jr. of that division was in charge of the presentation.

Following the lecture on German history and slide presentation the students sought answers to numerous questions about Lt. Eisenhaber's homeland. They ranged from inquires about German highways to questions about the country's food.

The visit was part of a unique program of international cooperation via education, according to Bowman. He explains that with the cooperation of the soldiers from many foreign countries the program of lectures has become possible.

"We are especially pleased to have these fine young men presenting the programs because each does so as an extra task in addition to their regular students or interpreters duties at MMCS," adds Bowman.

The guest speaker program has been under way for some time but has gained momentum recently with the addition of several nationalities to the list of foreign students at MMCS. The program is conducted upon requests from local schools, says Bowman.

"We feel that a personal talk by soldiers of foreign lands is a fine way to promote understanding of those countries," says Bowman. "The Foreign Liaison Division at MMCS encourages other schools to request this type presentation," Bowman continued. "We will try to schedule as many lectures as possible bearing in mind the limited time of the foreign soldiers."

EDUCATION INTERNATIONAL STYLE—Interest runs high among students at Joseph Bradley Junior High School as a unique form of international relations unfolds. Lt. Rolf Eisenhaber, chief of the German Interpreter Pool at the Army Missile & Munitions Center & School discusses Germany with the seventh graders.

The Naval Air Reserve celebrates its 50th Anniversary this year. More than 29,000 men presently serve as "Weekend Warriors" in the Naval Air Reserve.

Mail this coupon and get taken for a ride

Dear Sir:

I don't mind being taken, as long as I get taken back without having to buy anything. I am prepared for you to bend my ear the entire time about all the advantages of the VW station wagon. How distinctive looking it is (I will laugh). How I can fit my sailboat in it. Or my camping equipment. Or my nine children. The excellent traction in snow because of the weight of the motor on the rear wheels. And of course, the delightful novelty of getting over 20 m.p.g. with this compact bus. Please call me to fix a convenient date, if a woman answers, hang up. My wife isn't quite ready for the idea yet.

'Challenge' Is Keynote To Success

"Challenge." "What will this get you?" According to Maj. Richard A. Huff, Special Assistant on Land Combat Systems, Maintenance Engineering Division, U.S. Army Missile Command, its the key to the success of a soldier.

"You're going to be challenged with people, places and situations that you have never been faced with before," he told 68 graduates of the Army Missile & Munitions Center & School Friday. "The Soldier who meets the challenge by doing the best he can in any job he gets in the Army is also the civilian that makes his way in

civilian life." Maj. Huff told the missile and munitions specialists that discharge papers won't make a fireball out of anyone. The cracker-jack in the Army is the same out of the Army, too. The soldier who does just what he has to do to get by for his tour of duty in the Army hasn't any steam to be a success after he gets out.

"It is also this same guy who is unhappy. He has no pride in doing a good job. Pride brings responsibility and opportunity. Very few in this world are born with opportunity but all of us can make our own chances for advancement in this world by hard work," expounded the major.

Maj. John R. Schaefer, from the Department of Individual Training introduced the speaker.

Karl Woltersdorf, Board of Directors, Tennessee Valley Chapter of the Association of the United States Army, presented the highest academic award to Lt. William B. Boggs in the Ordnance Missile System Maintenance Officers course, for attaining an average of 97.6 percent.

Also recognized for high averages in each of the other five courses were: M/Sgt. George E. Ellzey, Ammunition Renovation; Sp/4 Edward R. Ates, Nike Test

Equipment Repair; PFC Robert A. Mohammed, Nike Missile Repair; Pvt. Gerald R. Fronk, Ammunition Records; and Pvt. Charles L. Harrison, Hawk Mechanical Repair.

SP4 JAMES D. DOTSON (Grundy, Va.) expects to find most anything when on patrol with fellow paratroopers of the 173d Airborne Brigade. While passing through the village of Xom Tra Tem on a recent patrol, they came upon a

woman in the final stages of labor. Dotson was the patrol medic so, swallowing hard, he went to work. When the patrol moved on, the population of the village had increased by one and its residents were marvelling at the many skills of the American soldier. (ANF)

Mildred Kutz Receives Citation For Cost Cuts

One Missile Command employee who is a firm believer in the slogan, "Cost Reduction is Everybody's Business," is Mildred Kutz,

an inventory management specialist in the Supply and Maintenance Directorate.

Mrs. Kutz was a recipient of a citation from Lt. Gen. L. J. Lincoln, the Army's Cost Reduction Program manager, in recognition of a management study she had performed resulting in a reduction of procurement costs totaling \$395,000.

Her study was concerned with the repair cycle for a solenoid valve used on the Nike Hercules system. Mrs. Kutz was able to recommend a reduction in the cycle from six months to three thereby eliminating the purchase of 1,402 valves at a cost of \$282 each.

Impulses from the ground are relayed through the missile guidance package to the solenoid valve controlling the flow of hydraulic fluid which causes the movement of fins and, in turn, guides the missile.

The valve is exposed to extreme wear and must be replaced frequently. However, the part is repairable and resupply is achieved largely by repairing unserviceable items for return to stock.

Analysis of the study prepared by Mrs. Kutz indicated that the normal six-month repair cycle, if reduced, could provide sufficient valves to satisfy the requirements

EFFICIENCY EXPERT—Mildred Kutz goes back to her drawing board and the tools of her trade as an Inventory Management Specialist in the Supply and Maintenance Directorate to study new means to reduce operating costs. Mildred recently completed a management study that resulted in reduced procurement costs totaling almost \$400,000. Her efforts to improve operating efficiency earned a citation signed by Lt. Gen. L. J. Lincoln, the Army's Cost Reduction Program manager.

Chemists To Tour Thiokol Plant Before Meeting

A plant tour of Thiokol Chemical Corporation has been scheduled for the members and guests of the American Institute of Chemical Engineers prior to their meeting Tuesday.

The tour will start at 4:00 p.m. at Thiokol and will include selected solid propellant manufacturing operations and a demonstration firing of a rocket motor.

Following the tour, the AICHE meeting will be held at Redstone Officers Open Mess beginning at 7:00 p.m. The speaker will be Richard Cole, Plant Manager, Reynolds Metal Company, Sheffield Plant. His topic will be "Technical Problems in Overseas Operations."

Reservations for the tour and the meeting must be made by Friday, with Mrs. M. H. Larimer, telephone 876-9422.

computed for the supply period.

An accelerated depot repair program was set up and unserviceable valves returned from the field on an expedited basis. From there it was up to the depots and they responded with priority handling to affect repair to the critical item.

Through the coordinated efforts of field units and repair depots, the repair cycle was effectively cut in half and the procurement of 1,402 replacement valves was eliminated.

Aeronutronic To Make Spare Shillelagh Parts

The U. S. Army today announced the award of \$1,093,552 to Philco Corporation's Aeronutronic Division to supply concurrent spare parts for the Shillelagh missile system.

Work will be done at the com-

pany's facility at Newport Beach, Calif.

Shillelagh is a gun-launched guided missile system being developed for Army armored vehicles. The system's 152-mm gun-launcher can fire either missiles or conventional ammunition.

The Shillelagh program is managed by the U. S. Army Missile Command, under Lt. Col. Spencer R. Baen. Aeronutronic Corporation is prime contractor.

Negotiating the contract for the Army was the Southwest Procurement Agency, Pasadena, Calif.

SGT. MAJOR REENLISTS

John W. Monger, Personnel Sergeant Major at the U.S. Army Missile Command, renewed his Army oath recently for another three years of active Army duty.

Sgt. Maj. Monger began his military career in the Navy in 1945. He switched to the Army in 1950 and has remained on active duty since.

A native of Lenoir City, Tenn., he attended business college in Knoxville before he entered the armed forces. Mrs. Monger, the former Miss Barbara Cardwell is also from Lenoir City. Both of their mothers still live there: Mrs. S. H. Monger at 205 E street and Mrs. Leoan Cardwell on West 7th Avenue.

Sgt. Maj. and Mrs. Monger have two teenage children, Steven and Linda. The family lives at Madison, Ala.

Sgt. Maj. Monger has served two tours in Korea and has earned the Army Commendation Medal with Oak Leaf Cluster. He has served as Sergeant Major for what is now the U.S. Army Missile Support Command at Redstone Arsenal and as a member of the Commanding Officer's staff.

He has been active in the Boy Scout program in his community and at the Arsenal. The Sergeant Major is also a sports fan—especially basketball.

Explosive Disposal Units Open Career To Qualified

If you can meet the rigid requirements, you may become part of an explosive disposal unit in the Explosive Disposal Career field, that is unique in the Army and military service.

To qualify personnel presently in service must be in grade E-5 or below, have a final Top Secret Clearance with background investigation completed, and have a General Mechanical score of 100 or above.

Once you complete 19 weeks of intensive training at the U. S. Naval Explosive Ordnance Disposal School, Indian Head, Maryland, you will become a member of this highly specialized, mobile unit. Training will cover identification, characteristics, recovery, and disposal of U. S. and foreign chemical and conventional ammunition and nuclear weapons. Upon graduation, you will be assigned to an explosive ordnance disposal unit. The units are widely dispersed among military installations and work closely with civil defense authority, civilian police, atomic energy commission, and the Federal Bureau of Investigation. Each unit receives two weeks of annual testing and training at the U. S. Army Missile & Munitions Center & School, Redstone Arsenal, Ala.

Opportunities for advancement are excellent. Grade levels are authorized through E-9 and each grade level may qualify for an incentive payment for demolition duty of \$55 per month above the base pay. Personnel in the MOS may also qualify for proficiency pay (Specialty) at the rate of \$50 per month.

For further information and a personal interview contact the Explosive Ordnance Disposal Division, Bldg. 3461, Tel. 877-3393, 876-6942.

KEEPING POSTED—Sgt. Major John W. Monger goes over the ledger from which he can find any military personnel assigned at the U. S. Army Missile Command—He is the Personnel Sergeant Major in the Personnel and Training Office. In November he was promoted to the highest enlisted rank: E-9 and in April he re-enlisted for three more years of active Army duty.
