SAM-D Bidders Conference Scheduled Here

WAR COLLEGE STUDENTS—Thirty-two students from the U.S. Army War College, Carlisle Barracks, Pa., were at Redstone Arsenal last week for a tour of facilities of the Army Missile Command and Marshall Space Flight Center. Here, Walter E. Jordan explains the Analog Simulator Facility in the Army Inertial Guidance and Control Laboratory to four of the visitors. From left to right are: Cdr. Lewis E. Denny, USN; Frank C. Smith; Col. Leon J. Hamerly, USA; Lt. Col. Stewart V. Spragins, USAF, son of Mrs. Marguerite Spragins of Huntsville and the late Maj. Gen. Robert L. Spragins, USA; and Jordan.

First Step To Be Taken To Start Contract Phase

Two-hundred industry and Government representatives will meet at the U.S. Army Missile Command here Friday for a SAM-D Bidders Conference as a step toward initiation of a Contract Definition Phase for development of the new air defense missile system.

Most of the visitors will represent contractors who have been asked to submit proposals for developing SAM-D (Surface-To-Air Missile—Development) for a battlefield and continental role in

the 1970's against aircraft and short range missiles. Others at the classified meeting will include representatives of various Government agencies involved in support of the weapons system through the development and deployment stages.

From among the contractors, two or more will be chosen to conduct a five-month Contract Definition effort of describing a missile system capable of simultaneously acquiring, tracking, identifying and destroying multiple air-support targets, using high performance missiles and minimum reaction time. Following this period, the decision of whether to proceed with SAM-D will be made and, if it is favorable a development contract will be awarded to one of the firms engaged in Contract Definition.

THE NETHERLANDS QUARTERMASTER VISITS COMMAND

Six officers from the Royal Netherlands Army arrived at Redstone Arsenal Monday for a tour and briefings on missile activities at the U.S. Army Missile Command.

The Army and Navy are working together on SAM-D in order that the system can meet future air defense needs of both services. Army plans are for SAM-D to eventually replace Nike Hercules and part of the Hawk air defense systems, both deployed in the United States and overseas.

Heading the party was Brig. Gen. C. F. J. W. Hafkemeijer, Inspector of the Quartermaster Corps. Others included Col. G. Ijsselstein, Lt. Col. T. A. Van Zanten, Lt. Col. A. W. Verbraaken and Maj. H. P. Schilpzand.

During the day, the group were briefed on the Army's anti-tank weapon systems, TOW and Shillelagh, as well as the organization and mission of the Missile Command.

The Army Missile Command's Procurement and Production Directorate, headed by Col. B. A. Saholsky, will conduct the conference in the Rocket Auditorium. Participating in the day of activities will be Col. Edward M. Dooley, SAM-D Project Manager, and Morris H. Knight, Chief, Systems Contract Division A, Procurement. (See SAM-D on Page 3)

Senators Seek Start On Nike-X Deployment

A unanimous decision by the Senate Armed Services Committee is the first step in what remains for the Army's Nike-X missile defense system a long road yet to be travelled toward production and eventual deployment.

Last week the influential group of senators added \$167.9 million to the Defense Department's FY67 budget and earmarked it for long lead time procurement for Nike-X. Nike-X project officials here at Redstone Arsenal viewed the action as a vote of confidence in their program, but cautioned that many things must yet happen before the funds are deposited to the Nike-X account.

In its nine year lifetime, Nike-X, and its predecessor system,

the Nike Zeus, have yet to receive any funds to deploy the proposed active defense against intercontinental ballistic missiles or submarine launched ballistic missiles.

Before the \$167.9 million passed last week by the Senate Committee, becomes an item in the Nike-X budget, these additional things must happen:

- Approval by the Senate Appropriations Committee.
- Approval by the full Senate.
- Approval by the House of Representatives.
- Approval by the Defense Department, which must finally authorize release of the funds to the Army project.

No one can yet predict how the (See SENATORS on Page 3)

Miss Hocker To Head New Joint Board

Miss Marian Hocker, a Redstone Arsenal career employee in civilian personnel, has been appointed to head the Pittsburgh, Penna. Interagency Board of Civil Service Examiners.

The new office will begin operations sometime in May and will cover all of Western Pennsylvania.

MISS MARIAN HOCKER

Miss Hocker, a native of Indiana, has served in varying capacities in Personnel work with the War Department, the Department of Agriculture, and the U.S. Civil Service Commission. Her assignments have taken her to such diverse posts as Chicago, Ill., and San Juan, P. R.

She transferred to her present post in June, 1962 from the U.S. Army Finance Center at Ft. Benjamin Harrison, Ind. Since coming here, she has twice served as (See MISS HOCKER on Page 3)

Gen. Zierdt Opens 1966 AUSA Membership Drive

Comparing the objectives of the Association, U. S. Army with those of the Missile Command, Maj. Gen. John G. Zierdt officially kicked off the Tennessee Valley Chapter's 1966 membership campaign at a luncheon on Monday at the Officers' Open Mess.

Speaking to the organizational chairmen who will carry out the drive to increase the chapter membership, the Commanding General of the Army Missile Command said, "The benefits to be reaped apply to our total military and civilian team."

The five-week membership drive is being conducted throughout the Arsenal and the neighboring community aiming to return the Tennessee Valley Chapter to the rank as the largest chapter of the world wide organization.

The local chapter passed the Ft. Benning Chapter during the drive

last year with a total membership of slightly over 3,800. However, the chapter at Ft. Bragg reported a membership of almost 5,000 early this year to relegate the Tennessee Valley Chapter to second place again.

The campaign this year has a primary objective of increasing the membership to over 5,000, according to Dr. Fredrick Schultz, the chapter president. "Of course," Dr. Schultz said, "we would like to also wrest the leading chapter honor from Ft. Bragg, but that objective is secondary."

"It is not our intention," he added, "to be involved in a contest for the sole purpose of winning a trophy for the largest chapter membership."

"Rather, we hope to strengthen the Association's voice in the Tennessee Valley area in response (See GEN. ZIERDT on Page 3)

REPRESENTATIVE SECRETARY—Judy Tidwell (Mrs. Benny) of Arab, Ala., is representative of a young lady on her way up. She of the U. S. Army Missile Command where her bosses (eight men and a woman) are either lawyers or legal assistants. The stacks of documents on her desk may vary in form as much as her bosses, but Judy is trying hard to live up to the motto of the National Secretary Association: "Better Secretaries Mean Better Business." It's National Secretary's Week across the Nation.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-135, Extension 976-1400 or 976-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication. The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

Rocket Ruminations

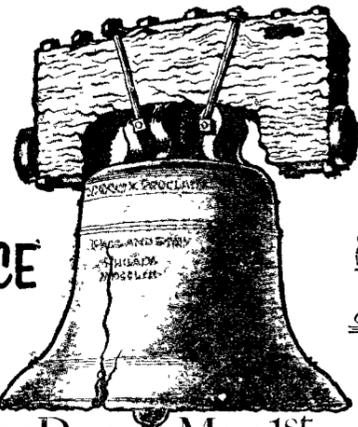

Worry, the interest paid by those who borrow trouble.
—George W. Lyon

Loyalty and Law Days, May 1 Symbols of Faith and Reason

In past years there have been three modern celebrations held on May 1 that are much a part of our century and its history. One is the Communist May Day, when Red leaders swing out their aggressive military power in massive parades and make rambling speeches about their own version of the future of the world.

Less auspicious, but honest, are the two designations for the day in the United States. For Americans, May 1 is both Law Day and Loyalty Day—the recognition of two different and yet interlocking ideas that have helped build our nation.

A DAY TO REDEDICATE AND DEMONSTRATE YOUR ALLEGIANCE TO THE IDEALS OF FREEDOM!!

Loyalty Day... Law Day May 1st...

In Law Day we recognize the rule, not of force, but of consent, that has enabled the United States to build a working government from a population drawn from every nation on earth. We acknowledge that it is through law we strive to meet the needs of all our citizens fairly and without discrimination.

In Loyalty Day we look to the past for a lesson to use today and tomorrow. We see in the American society proof that the blind-faith loyalty demanded by the Communist and other "by force" forms of government is less effective, less strong, than the questioning, reasoning and understanding loyalty Americans have always given this nation. We recognize those of the past who have given their loyalty, and dedicate ourselves to an equal measure of faith.

Loyalty and Law days stand in strong contrast to the Communist celebration of May Day. We offer human reason and faith in the ability of people to build a better world. The Communists can offer only massed weapons and the continued profile of threat and fear. (AFPS)

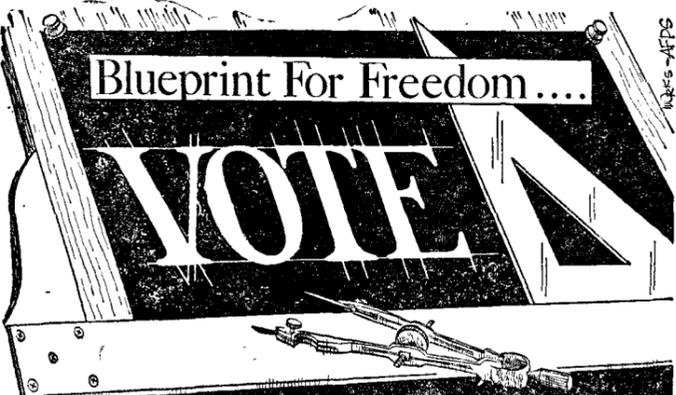

Primary Votes Count

KEEP an eye on any primary elections scheduled for your home state during the coming spring according to your convictions.

For too many persons ignore the primaries and vote only in the general elections. This is especially true of the military, since members of the armed forces vote largely by absentee ballot and thus face problems not encountered by the civilians "back home." For one thing, the civilians at home find it much easier to keep informed about candidates, issues and election dates. Military men and women can keep abreast, however, if they make the effort.

Blueprint For Freedom....

VOTE

In some states where one party is dominant, the real decisions often are made in the primary elections. What is decided there is simply ratified later in the general elec-

Eight Missile Command Men To Attend Naval Reserve's Research Seminar

Eight U. S. Army Missile Command employees will take part in a three-day Naval Reserve Research Seminar to be held next month in Huntsville.

Col. Thomas W. Cooke, Commander of the Army Missile Support Command, will welcome the visitors to the Seminar which will be held May 13, 14 and 15 at Redstone Arsenal. The Naval Reserve Research Company of Huntsville is sponsoring the meeting based on the theme "Missile and Space Research."

John L. McDaniel, Technical Director of the Research and Development Directorate, will speak on "Scope and Aims of Army Missile Command Research," and W. J. Lindberg, Chief of the Advanced Research Projects Agency Division, will speak on "Scope and Aims of ARPA Research." Their presentations will fall during the first session which will cover "Research Aims."

Other Missile Command participants and their topics will be: R. E. Alongi, "Strap Down Inertial Guidance;" J. L. Byrd, "Pure Fluid Control Systems;" William B. McKnight, "Medical Applications of Lasers;" Dr. S. H. Lehnigh, "Mathematical Techniques in Stability Theory;" Nick Mangus, "Electro-Optical Seekers."

Lt. Cmdr. Jacob Zarovsky will head a session on "Electronics and Electro-Mechanics." He is Chief of the Electro-Optical Branch, Electromagnetic Laboratory, R&D Directorate.

Lt. Commander J. H. Hoyle is Commanding Officer of the Naval Reserve Research Company. He is connected with the Command's Lance Project Office.

\$1 MILLION GOES TO RAYTHEON FOR HAWK SYSTEM

The Army Missile Command has awarded a \$1 million contract to Raytheon Company, Lexington, Mass., for maintenance and modification of special tooling and test equipment to support the Hawk missile system.

Work will be performed at Raytheon's plant in Andover, Mass.

Hawk is a highly mobile member of the Army's air defense arsenal of missiles, capable of intercepting high performance aircraft and airbreathing guided missiles at low altitudes with its conventional warhead. The weapons system is in operation with Army and Marine Corps units in the United States and overseas. Hawk also is built by NATO production organization made up of France, Italy, the Netherlands, Belgium and West Germany.

Technical supervision of Hawk is from the Army Missile Command at Redstone Arsenal, Ala., where Col. George H. McBride is Hawk Project Manager. The missile Command's Procurement and

WSMR Realigns Its Organization

WHITE SANDS MISSILE RANGE, N. M., Apr. 19—An organizational realignment designed for improved performance was announced today by Col. Karl F. Eklund, commander.

Some aspects of the realignment are effective immediately and transition will be completed by July 1, 1966.

The basic realignment action includes the establishment of new deputies: a Deputy for National Range Engineering; a Deputy for National Range operations; and a Deputy for Army Missile Test & Evaluation.

The Deputy for National Range Engineering will provide single management of the range's engineering efforts. His office will standardize engineering practices, improve reliability standards and promote more effective use of range facilities.

The Deputy for Army Missile Test and Evaluation will consolidate elements formerly assigned to the Army Missile Test and Evaluation Directorate and will be responsible for all Army Missile tests.

The Deputy for National Range Operations will run the National Missile Range. The present Computer Directorate will be renamed the Analysis and Computation Directorate and will include the present Data Analysis Directorate and Weapons Systems Simulation Branch of the Army Missile Test and Evaluation Directorate.

A new staff element, the Quality Assurance Office, was also established to supervise improvements designed to better meet range users' requirements.

Production Directorate negotiated the contract.

tions. If you want to make your ballot count, be sure you vote in the primary.

Even where the two major parties are evenly matched, primary elections are meaningful. Here you have the opportunity to choose the candidates who will represent your party in the general election.

Consult your voting officer about primary elections scheduled for your home state this year. Then read one or more newspapers from your home state to keep abreast of candidates and issues.

If this calls for a little extra effort, consider it part of your responsibility as an American citizen.

It's a small price to pay for the privileges you enjoy!

Soldiers Attempt Rescue

"We felt like we had to do something to help out. It didn't matter if there was danger involved or not."

These thoughts ran through the minds of SP4 Lee A. Goldman and PFC Joe C. Johnson, Company C, School Troop Command, U.S. Army Missile & Munitions Center & School Redstone Arsenal, Alabama in Florida when they came across a burning vehicle on the highway.

The accident happened around 9:35 p.m. on March 11, 1966 at a junction of Interstate Highway 10 and 75, about 10 miles Northwest of Lake City, Fla.

The two soldiers noticed parts of a car on an overpass and then saw a burning car beneath the overpass. They quickly stopped their car and ran to see if they could assist. As far as they could see there were no other cars around.

They noticed a girl on the pavement one or two feet from the burning auto. They moved the girl further away from the flames and tried to question her about others, but she was in a daze and could only mumble about one other boy in the car.

Another motorist joined them and they searched for other injured people. They couldn't find anyone outside the car but could see two boys and a girl inside the flaming wreck. The flames and heat prevented all efforts to rescue these people.

Other motorist began stopping and when Highway Patrolmen arrived the soldiers left the scene, knowing that the situation was now in the hands of competent authorities.

The following day they heard on the radio that the victims were all students at Florida A&M University and that the girl who survived had been treated and released from the hospital that morning.

One thing they agreed upon after the accident. They both feel that "in a case like this we think it is everyone's responsibility to stop and render assistance in any way they can."

MISS HOCKER

Continued From Page 1)

president of the Huntsville International Toastmistress Club and as secretary for the Society of Personnel Administration.

Her 'beat' at the Arsenal has been the Nike-X Project, the Combat Development Command, and the U.S. Army Missile and Munitions School and Center. She and her mother have been living in Huntsville on Eustis St. Mrs. Edna Hocker, in addition to keeping house for her daughter and crocheting prize winning afgans at the local fairs, shares her daughters enthusiasm for collecting antique dinnerware and fine cut crystal.

Among the goals of the newly established agency is consolidation of recruiting information, examination, and registers under one agency to eliminate the need for seeking job opportunities through personnel examiners in individual agencies.

Some of the goals are consolidation of information about Federal job opportunities in the geographic area where the board is located; to provide federal career advisory service to anyone upon request—especially college students, minority groups, physically handicapped and others.

The Agency will serve as the primary source of information for agencies recruiting and examining eligibles from the register for specific requirements. The Agency

SENATORS

Armed Services Committee decision will fare as it proceeds up the ladder of future actions.

Col. I. O. Drewry, Nike-X Project manager, is quick to point out that regardless of the eventual decision on deployment funds, his program still continues in urgent development with the nation's highest priority. The FY67 defense budget also provides nearly half a billion dollars to continue research, deployment and testing of the system.

Veterans in the anti-missile missile system development program here point out that this is the second time a Congressional group has initiated action to include deployment funding for the weapon system. In 1959, Congress appropriated \$137 million for long lead time procurement leading to eventual deployment, but the funds were not released by the Defense Department.

According to Col. Drewry, the Nike-X project must, as one of its missions, be able to support a production decision at any time. In order to maintain this capability, the project will spend some \$13 million this fiscal year on production planning and production engineering. A similar amount has been requested for the coming fiscal year.

The goal of production planning and production engineering efforts are to reduce production lead time, reduce costs and increase system reliability.

If—and at this stage it is a significant word, the \$167.9 million approved by the Senate Committee is turned over to the Army it would mean that Nike-X would commence as soon as possible preparation of production facilities and manufacture of components which require a long time to produce and those for which there will be a heavy requirement.

The Nike-X project attitude toward the most recent news concerning deployment, then is one of watchful waiting.

will also be responsible for development and administration of recruiting plans and programs. It is charged with carrying out a vigorous program of community relations to support the recruiting and examining programs.

N. J. Oganovic Will Talk To Personnel Association

Nicholas J. Oganovic, Executive Director, U.S. Civil Service Commission, will address members and guests of the Huntsville Chapter Society for Personnel Administration at a dinner meeting Wednesday, May 18.

The meeting will be held in the Redstone Arsenal Officers Open Mess. Oganovic will meet the next morning with Maj. Gen. John G. Zierdt, Commanding General, U. S. Army Missile Command, to outline personnel trends in government. He will be briefed on the Command and tour Research and Development facilities. Later that day he will go to Marshall Space Flight Center.

Oganovic was named Executive Director of the Civil Service Commission, the Agency's top career

post, in July, 1965. He served for five years as the Deputy Director and earlier as CSC Regional Director in St. Paul and Denver and as Director of the Commission's Bureau of Departmental Operations in Washington, D. C.

In 1964, he received the AmVets Silver Helmet Award for his work in extending employment opportunities to the physically handicapped and was winner of the National Civil Service League's Career Service Award in 1963. A native Minnesotan, he was graduated from St. Cloud Teachers College and the University of Minnesota.

Transportation To Install New Officers In Chapter

The National Defense Transportation Association's Huntsville Chapter will install new officers tomorrow at 7 p.m. during a meeting at the Holiday Inn West.

Main speaker for the meeting will be Col. Gay Campbell, Chief of Staff, Eastern Area, Military Traffic Management and Terminal Service, Brooklyn.

James L. Martin will be installed as president, John W. Forney as executive vice president and Mildred Bobo as secretary-treasurer.

The schedule calls for six more vice presidents: Charles Albright, air; R. I. Knowles, rail; James C. Allen, civic affairs; John Petri, government; J. Wayne Hoskins, highway; and B. L. Heddesten, industry.

Members of the Board of Directors are: Harvey Abbott, James C. Allen, Oscar LeVay, Dorothy Sherrill, Stanley C. Wilkins, and John W. Forney.

U.S. Savings Bonds offer guaranteed return, liquidity, safety, and a direct contribution to America's security and your own.

SOCIAL ^{and} CLUB EVENTS

At The Service Club

By BETTY HAYES

Can you believe it? The last week in April is here. If you have enjoyed the activities for April, you can look forward to fun-filled events in May and the months to come.

Tonight you can look forward

to seeing a delightful travelogue at 7:30 p.m. Come early to get a choice seat.

Thursday evening has been set aside for a sports spectacular at 7:30 p.m. A popular and exciting sports event of the past is in store for you; don't miss it.

The third post-wide tournament for the month is planned for Friday night when a chess tournament will take place at 7 p.m. I suggest that you stop by at your earliest convenience to sign up for the event. A trophy will go to the chess champion.

Saturday afternoon coffee hour has been scheduled. Stop by for a hot cup of coffee and light refreshments at 3:30 p.m.

On Saturday evening favorite card games will be played at 7:30 p.m. Refreshments will be served to those who participate in the games.

Do you remember the Shandells? They played for the George Washington's Frolics in February. Since they were well received that evening, the Staff has asked them to play for the Maypole Dance on Sunday at 8 p.m.

The evening of games will be held in the main lounge on Monday night at 8 p.m.

On Tuesday evening the little lounge will be reserved for bridge players at 7 p.m.

See you at the Service Club.

Births At Post Hospital

Phillip Dwayne Carr, April 14, son of SFC and Mrs. Malcolm L. Carr, Huntsville.

Alisha Marie Knolley, April 14, Daughter of Sp-4 and Mrs. Charles J. Knolley, Huntsville.

Michael Hugh Murphy, April 16, son of 2/Lt. and Mrs. Robert M. Murphy, Redstone Arsenal.

Christopher John Yanchar, April 17, son of 2/Lt. and Mrs. Joseph J. Yanchar, Redstone Arsenal.

Edward Joseph Bowers, April 18, son of Sp-4 and Mrs. Francis J. Bowers, Redstone Arsenal.

Barbara Joyce Upshaw, April 18, daughter of Sgt. and Mrs. Jimmie Upshaw, Huntsville.

Two Male Twins, April 18, sons of CWO and Mrs. David L. Grimes, Huntsville.

FAMOUS GUEST HONORED—Mrs. Eleanor Searle Whitney, center, is served refreshments at the reception in her honor following her talk on religious subjects April 19 at the Post Chapel. Serving her is Mrs. I. O. Drewry and on the right is Mrs. Charles Cranford, both of whom were members of the committee sponsoring Mrs. Whitney's visit to Redstone. The guest speaker and soloist is a world traveler, lecturer and former opera soloist.

Mrs. Saholsky, Charles McBrearty Win Party Bridge

The Monday night party bridge group had four tables in play last week at the Redstone Officers Open Mess.

The evening's winners were Mrs. B. A. Saholsky and Charles McBrearty.

Mrs. McBrearty, who is one of the coordinators for these weekly meetings, said that many of the eligible players are not making reservations because of misunderstanding. She has been confronted by several who believe this is a duplicate bridge session. Members and associate members of the Open Mess are eligible to play.

Mrs. McBrearty's phone number is 837-0546. Also accepting reservations is Mrs. Jeff Kirby, 877-4030.

Mrs. McCollum Is Winner At Bridge

Mrs. W. R. McCollum won first place in the Thursday bridge competition sponsored by the Redstone Arsenal Officers Wives Club at the Officers Open Mess.

Among the five tables, Mrs. J. D. Kirby was second and a tie placed Mrs. Jacque Blackmon and Mrs. A. Garrabrant in third place.

Mrs. C. E. Johnson was low. Mrs. Garrabrant handles reservations to play with the group.

Keep Freedom In Your Future

With U. S. Savings Bonds

Reception Climaxes Talks By Mrs. E. S. Whitney

Mrs. Eleanor Searle Whitney, World traveler, lecturer, former opera soloist and speaker for Christ, was the guest speaker and soloist April 19 in the Post Chapel. The audience was composed of the Redstone Arsenal military population and their dependents from both the Catholic and Protestant congregations of the Chapel.

Chaplain John P. Kirkland, Jr. gave the welcoming remarks, and Mrs. Kirkland introduced Mrs. Whitney who sang a religious solo and spoke on her experiences in Bible study.

Chaplain Charles D. Logue joined Chaplain Kirkland in welcoming Mrs. Whitney to Redstone and gave the benediction. Mrs. George

C. Kahl, organist, played the prelude and postlude.

The sponsoring committee for Mrs. Whitney's Arsenal visit included Mrs. John Boyes, Mrs. R. M. Colquitt, Mrs. Charles Cranford, Mrs. F. M. Creighton, Mrs. I. O. Drewry, Mrs. Robert Hall, Mrs. J. G. Higgins, Mrs. Kirkland, Mrs. F. H. Niedermeyer, Mrs. John Thompson and Mrs. C. D. Sterner.

A reception for Mrs. Whitney was given in the Chapel Social Room following the program.

Lt. Col. Clark To Be Interviewed On 'Today' Show

Lt. Col. Margaret G. Clark of Arab, Ala., former Chief Nurse, U. S. Army Vietnam, will be interviewed on the NBC television program "Today" May 2. Local stations carrying the program include W A P I T V (Birmingham) and WMSL-TV (Decatur).

Lt. Col. Clark recently returned from Vietnam and is now chief of the nursing service, Noble Army Hospital, Ft. McClellan. Two weeks ago she was honored with a parade and civic observance in Arab. Photographers from Redstone Arsenal filmed portions of the event at the request of the Department of the Army. Selected segments of the film are scheduled to be used on the "Today" program.

Lt. Col. Clark was chief nurse at the U. S. Army Hospital at Redstone Arsenal from 1950-53.

Technical Artists Schedule Meeting

The Association of Technical Artists will meet Tuesday night, May 3, at the Redstone Officer's Open Mess.

The program will include an exhibit of monoprints by Anniston artist of note, Nora Sewell Devine, and a demonstration workshop led by James W. Holder. Holder is a technical illustrator with the U. S. Army Missile Command.

The meeting will be open to all professional illustrators and technical artists. The agenda includes a social period at 7 p.m., business at 7:30 and the technical session at 8:00. ATA members and other interested persons may call Eleanor Werden at 876-0606 for further details.

SPORTS

Bombers, Guided Muscles Win Their Loop Titles

PARADE OF STARS

Redstone League: Jim Gulley, 609 (228), Jim Denk, 590 (202-216), Jack Ward, 581 (225), Bill Adams, 572 (220), Bill Kirk, 571 (224), Bob Adams, 551, Walt Jackson, 549, Vic Passavant, 545.

AMC League: Jim Gulley, 567, Al Siegman, 563 (217), Dick Gore, 556, Bill Crews, 555, Floyd Clark, 553, Hal Totten, 543, Bob Brand, 532, Ed Kellis, 531.

Supply Management League: Nolen Honea, 607 (232), Cecil Bunch, 588, Joe Hill, 575, Talmadge King, 568, Tom Patterson, 566, Dave Hubbard, 552, Jim King 556, Roy Parmalee, 553, Henry Watson, 550.

Field Services League: Howard Jess, 562, Ray Poke, 554, Fred Harper, 548, Hal Miller, 544, Bob Adams, 527, Nick Sparks, 527.

The Bombers and the Guided Muscles grabbed league championships as two of the four civilian bowling loops wound up their season a week ago while the Huntsville Brick and Tile five nailed the Supply Management crown with two more sessions on the schedule.

In the Redstone League, however, a real dog fight is still going and will probably carry into the final night before a verdict is reached between Dean's Trailer Court and the Ginger-Ruth Shop. The two contestants meet in a head-to-head clash this week with Ginger-Ruth needing a sweep to take over the lead. A sweep by Dean's would close out the hopes of their only remaining rivals.

The Bombers made it four championships in five years when they took three out of four from the second place Maulers on the final night. The well-rounded Bomber attack took the win despite a 567 by Jim Gulley and a 553 by Floyd Clark. Bob Brand paced the Bombers with a 532.

The TOW Boys wound up in third when they turned a hot hand into a sweep over the Ramblers. Al Seigman set the pace with a 563 as the team from TOW fired a 1022 game and a 2974 series total. Dick Gore led the Ramblers with 556.

The Bombers took the high series award for the year with a 3126 and the Cavaliers put together the season's best game, a 1108.

Tom Patterson posted the best individual average, a 179 for the Ramblers, Bill Stepp's 688 was the best handicapped total and the 291 game rolled by Bernie Robinson topped the league.

The Musclemen snatched the Field Services crown away from the Crackers by a half point by taking three of the four points in the match between the two rivals on the last night.

Howard Jess set the pace for the winners with a 562 and Nick Sparks added a 527. Central TV took third with the same margin over the Chiefs by getting a split in their season ending match.

Paul Barney was the leagues top bowler over the long haul, posting a 180 average, two pins

better than Al Sarge. Ray Poke had a 277 handicapped game and John Echenroth had a 705 series total. Barney tossed the best scratch series, a 641, and Sarge fired a 246 game.

The best team series for the season was turned in by Central TV when they posted a 3154 early in the year. The Expeditors had the best game, a 1145.

Dean's Trailer Court moved a step nearer the Redstone title by taking three out of four from the Six Shooters as Vic Passavant, Charlie Levoy and Carl Worley all shot in the 540s. Jack Ward had a 581 for the Shooters and Walt Jackson turned in a 549.

Jim Gulley turned in the best individual effort of the week when he fired a 609 for the Standard Oil five in their winning effort against the Photo Lab.

Valley Cleaners moved to within a half point of the third place Six Shooters by sweeping four points from the Pin Palace as Bill Kirk shot a 571.

The only other honor roll count of the week was turned in by Nolen Honea in the Supply Management League. Honea used a 232 game as the springboard to a 607 series for the Marauders.

The Brickers saw their lead whittled to eight and a half points, but with only two weeks to go, that is plenty. The All-Sports Trophies won all four of their points and have all but clinched the runner up slot.

The Satellites turned in most of the weekly fireworks when they fired a 1063 game and a 3038 total in taking three out of four from the New Streaks. Talmadge King led the attack with a 568 and Bill Crownover added a 547.

UNIT LEVEL SOFTBALL

THIS WEEK'S GAMES TONIGHT

Hqs, STC vs. 2nd ETC, 1800, Fld 1

BEGIN NEW YEAR—The Tuesday Morning Bowling League elected officers for the coming year. Left to right are: (standing) Jeanette Soles, secretary; Esther Matt, sergeant-at-arms; Rosemary Denmark (seated center) vice president; and Virginia Payne, president. The group is beginning a new season of play during the summer. All of the officers were among the high bowlers during the past season which ended early because some of the members are transferred. They bowl at the Arsenal lanes.

CFW Softball Shifted To The Recreation Area

It is eleven down and five to go as far as the CFW Softball League is concerned with the season opener tentatively for May 9 at the Civilian Recreation Area.

Eleven teams have entered the fold according to the league president, Julian Williams, leaving one opening in the Men's Division. The remaining openings represent the four teams that are needed for a Woman's Division.

Williams called for a final pre-season meeting for next Monday afternoon at which time the league rules will be discussed and a

schedule drawn up.

Teams already in the fold for the season include the defending champions from Finance & Accounting and the Pershing Project Office, second place finisher a year ago.

They will be competing with Data Processing, Computation Center, Nike-X, Guidance & Control Lab, Propulsion Lab, Communications, Comptroller & Director of Programs, Documentation Branch and Procurement & Production.

All league games will be played on the two new diamonds that have been laid out at the Recreation Area at the south end of the Arsenal. The fields are ready for action, however, the lights and outfield fences may not be in place for the opener.

There will be one game scheduled to start on each field, three afternoons a week, until the lights are available.

Four Units Enter Post Baseball Race

A mid-May opening is planned for the 1966 Unit Level baseball schedule with four teams in the running.

The Troop Command completed the four-team roster last week when they decided to field a team to do battle with three MMCS nines. The school teams will represent the Second and Fourth ETC units and the Student Training Command.

Games will be played at Linton Field on Tuesday and Friday evening. There will be one game each evening.

The Special Services Office is also looking ahead to the possibility of fielding a post team this summer that would play a schedule of games against the better semi-pro outfits in the northern Alabama area.

The plans are, however, very tentative and will depend upon the interest that is shown for such a program and the availability of players to form a representative team.

Final word on a post team is not expected until late in May.

Military Personnel Get Special Rates

Redstone military personnel will be able to attend Atlanta Braves' games in Atlanta this summer at a special reduced rate through an agreement between the baseball team and the Third Army.

Under the agreement, uniformed military personnel will be admitted to the Atlanta Stadium by showing a valid identification card and paying one dollar at the ticket office.

The ball club said that it would not accept reservations for tickets under the special military rate and the only place to get the tickets is at the gate on the day of the game.

Persons wishing to make reservations for future Brave games may do so in Huntsville by calling the Southern Airlines ticket offices.

Scotch Foursome Opens RSA Season

Col. and Mrs. Russell Sell combined their golfing talents on Sunday to take the low gross award as the Redstone Arsenal golf season opened with a Scotch Foursome tourney on the Arsenal course.

The S & M Director and his wife used 43 strokes to tour the nine hole meet that attracted 27 couples. The putts award was split two ways and the overall low score ended in a four-way deadlock, each with 41.

The W. N. Blackmons' required 16 putts to share that award with the Paul McDermotts'.

Sharing the low overall total were the C. Graingers', the W. Loomis's, the R. Mundy's and the W. J. Wachslers'.

CIVILIAN GOLFERS SET FOR OPENER

Organized league competition in golf returns to the Redstone civilian recreation program tonight when the P & P Handicap League tees off on a 17-week schedule at the Piedmont Par 3 courses in Huntsville.

Eighteen two-man teams are entered in the league which represents the first organized golfing activity for Arsenal civilians in several years. The league matches will be played each Wednesday evening, starting at 5:45.

Howard Anders is president of the newly-formed league comprised almost entirely of civilian employees of the Procurement and Production Directorate. Fred Simpson is secretary and treasurer of the loop.

SPRING RINGER ENDS

The Spring Ringer Tournament for the Golf Group sponsored by the Redstone Arsenal Officers Wives Club ended with Joy Mundy at the top and Lee Zierdt in second place.

Midge Clisson and Betty Haywood took third place in a tie.

Playing the regularly scheduled competition last Wednesday Jeanette Sell came in with low gross on the even holes followed by Martha Napper, Grace Wachslar, and a fourth place tie between Joy Pyle and Liliith Lewis.

The fine weather drew 25 participants.

The United States Armed Forces Institute has announced that a course in college geography is now available. The course, College Geography I (A 521), has as its goal an understanding of the nature of the earth's surface as a habitat of man. (AFPS)

Two Computation Laboratory Men Active In Meet

Roger A. MacGowan and Wilton L. Whigham of the Army Missile Command Computation Center recently participated in the 1966 Army Numerical Analysis Conference held at the Headquarters of the Army Personnel Research Office in Washington, D.C.

The conference was held by mathematicians engaged in the computer solution of scientific and engineering problems, and is sponsored by the Army Mathematics Steering Committee.

Both Missile Command representatives participated in a panel discussion on "Automated Computer Program Documentation," with MacGowan serving as moderator for the discussion. The panel also included representatives from the Army Mathematics Research Center, at the University of Wisconsin, Deputy Chief of Staff, Logistics Data Processing Center, Radford Arsenal, Ballistic Research Laboratories, Aberdeen Proving Ground, Office of Tracking Data Acquisition, NASA Headquarters, and Space Information Systems Division, Raytheon Corporation.

MacGowan also acted as chairman for one of the technical sessions at the conference, and attended a meeting of the Army Mathematics Steering Committee's subcommittee on Numerical Analysis and Computers.

THURSDAY LEAGUE—Betty Boyd, secretary-treasurer for the Thursday night bowling league at the Arsenal Lanes, tries for a strike while other newly elected officers (left to right) Jackie Keenan, Gerry MacIver, and president Anne Wiener await their turn. There are still openings in the league for the summer. Interested teams can call Mrs. Boyd at 877-4072 or Mrs. Wiener at 881-5074.

Food for the Gemini 8 astronauts was in bite-sized and rehydratable items. Water is placed in rehydratable packages with a special gun. Bite-sized items needed no rehydration. The breakfast scheduled for the second day of the flight is a typical meal. The menu called for sausage patties, beef and gravy, strawberry cereal cubes, beef sandwiches, toasted bread cubes, peaches, grapefruit drink and orange drink.

Long Range Tracking Computer To Be Built

Sylvania Electric Products, Inc., has awarded a \$283,000 contract to Computer Control Company Inc., Framingham, Mass., to produce a digital computer system for a long range tracking and instrumentation radar/ALTAIR that will aid anti-missile studies.

The award was made by Sylvania Electronic Systems, a division of the company, which is developing the radar system under a multi-million dollar prime contract from the U.S. Army Missile Command, Redstone Arsenal, Ala. The work is being sponsored by the Advanced Research Projects Agency (ARPA) of the Department of Defense as part of its Project Defender.

The Missile Command manages the program for ARPA. Chief of the ALTAIR Office is A. Y. Harper, ARPA Division of the Research and Development Directorate.

The computer, which will control the operation of the radar, will be incorporated into the ALTAIR system by Sylvania. The

president of Alpha Metals, Inc., Harold Hertzog and his vice president, Martin A. Boyle. The presentation was made by Howard H. Manko, director of research and development for the corporation.

Manko discussed theories, selection of material, design, fluxes, quality control, inspection, and other approaches to soldering.

Berry Pierce, technical coordinator for the meeting, said that although this one was confined to generalities in soldering techniques, another more detailed conference is planned in the future. Pierce is an engineering technician supervisor in P&P Documentation Division.

radar system, to be located on Rio-Namur Island in the Kwajalein Atoll, will complement others presently used in ARPA's ballistic missile defense research.

ALTAIR is expected to increase the capacity of Project PRESS, part of the Defense Department's anti-ballistic missile program which seeks to determine how a lethal warhead could be distinguished from other objects entering the earth's atmosphere.

Lincoln Laboratories of the Massachusetts Institute of Technology, technical director of Project PRESS, is acting as ARPA's consultant during the ALTAIR development program.

DISCUSS NEW TECHNIQUES—Paul Schaeppi (left) Deputy Director of the U. S. Army Missile Command's Procurement and Production Directorate, discusses soldering techniques with Howard H. Manko, an expert from a New Jersey firm who outlined design, technique and materials for various kinds of uses during a seminar here last week. The Directorate sponsored the seminar which drew 300 representatives from industry and government.

Soldering Techniques Studied At Seminar

The Soldering Techniques Seminar sponsored by the Production and Procurement Directorate of the U.S. Army Missile Command drew more than 300 people last week from as far away as the West Coast as well as local industry and government representatives.

The meeting, held in the Army's Rocket Auditorium, was opened by Paul Schaeppi, Deputy Director of the Production and Procurement Directorate, with a welcome and summary of the reasons for the seminar.

Schaeppi said, "It is the belief of this command that through

this seminar a mutual and better understanding between industry and government personnel will be attained in the over-all field of soldering.

"With a cross fertilization of ideas from everyone, we are of the opinion that this knowledge can obtain better results and more satisfactory end items.

He explained that it wasn't the intent to solve all problems but rather to leave speaking the same language and thinking in the same vein.

TOW Production Engineering To Begin

An \$864,578 U.S. Army contract has been awarded to Hughes Aircraft Company for advanced production engineering on the TOW missile system.

TOW is one of the Army's newest heavy anti-tank assault weapons being developed for use by the infantryman.

The contract calls for continued planning, preparation tooling and inspection equipment to support production, the Army said. Work will be done at Hughes facilities in Culver City, Calif., and Tucson, Ariz.

The TOW program is managed by the U.S. Army Missile Command, under Lt. Col. Ballard B. Small, Project Manager. Hughes Aircraft Company is prime contractor.

Weighing about 160 pounds, TOW can be carried by troops and fired from a ground emplacement; the system breaks down into units for easy handling. Or, it may be mounted on a variety of vehicles, including helicopters.

In operation, the gunner obtains a telescopic sight picture of a target, then launches the missile which follows his line of

sight. For moving targets, the gunner tracks the target with his sight, thus generating signals that correct the missile's course.

In tests at Redstone Arsenal, gunners have guided TOW missiles to direct hits on tanks more than a mile away.

Combining a lethal warhead with high accuracy at both close and long ranges, TOW will provide infantry units with increased firepower, not only against armored vehicles, but gun emplacements and other field fortifications as well.

Raytheon To Make Support Equipment For Nike Hercules

The U. S. Army has awarded a \$2,750,000 contract to Western Electric Company for support equipment for the Nike Hercules air defense guided missile system.

Under terms of the firm-fixed-price contract, Western Electric will provide improved modifica-

Contamination Meeting

Tonight the American Association for Contamination Control will be host to a joint discussion of Army Missile Command and Marshall Space Flight Center representatives of Zero Defects in Particle Monitoring of Contaminants. The meeting begins at 4:30 p.m.

Charles Riley of the Missile Command will be panel moderator and A. Lieberman chairman. Panel members are Ted Lewis, Fred Beyerle, Mitchell Pickard, all from the Marshall Center; and Ray Cole of General Electric.

tion kits for the Nike Hercules which is deployed around key areas in both the United States and overseas.

Work will be done at the Company's plant at Burlington, N. C.

Nike Hercules is the United States' primary high altitude air defense weapon. In tests, it has proven successful against high performance aircraft at a variety of altitudes and has successfully intercepted short range ballistic missiles.

The U. S. Army Missile Command, manages the program under Col. Rawlins W. Colquitt, Project Manager. Western Electric Company is prime contractor.

Negotiating the contract for the Army was the System Contracts Division B, Branch 2, of the Missile Command's Procurement and Production Directorate, headed by Col. B. A. Saholsky.

The Directorate for Armed Forces Information and Education has announced the availability of a new film, "Southwest Asia and India, Today."

Jesse S. Frampton Will Graduate From Harvard

BOSTON, MASS.—Jesse S. Frampton, Chief, Review and Analysis Branch, U. S. Army Missile Command, Redstone Arsenal, will be graduated May 6 from the 11th session of the Program for Management Development conducted by the Harvard University Graduate School of Business Administration. This session began Jan. 17.

Participating in the 16-week program were 72 business executives, government and military leaders. Each was sponsored by his organi-

zation as a middle manager of high potential, and they represented 21 states, Washington, D. C., Canada, and eight overseas nations. PMD is operationally oriented, designed to equip middle managers to handle their day-to-day assignments with a broader perspective and to prepare them to assume increasing responsibility in the years ahead. Including this class, the Middle Management Program (begun in 1954, and the forerunner of PMD), 908 men have completed the program.

Redstone Personnel Taking Courses In Schools, Plants

Off-post training courses were made available to 87 Redstone personnel in recent weeks under the Command's career development program administered by the Training and Development Division of Civilian Personnel.

The courses were offered at military schools, contractor plants and leading universities located in every section of the country. The graduate-level training is intended to assist those who are chosen to increase their potential in their individual career fields.

The largest single group of locals took their training at the

U. S. Army Management Engineering Training Agency at Rock Island, Ill. Twenty locals went to the Illinois installation for enrollment in eight different classes.

Fred Babes (Admin Office) and Kenneth Champagne (TOW) took the ADP Appreciation course. William Willoughby (Qual & Rel Mgmt) was enrolled for Statistical Quality Control I. Louis Jackson (AMSC) attended the Top Management Seminar, and Gerald Chalkin (R & D) and John Debs (Inspector General) took Work Methods and Standards Appreciation.

James Harchanko (Hawk), Lawrence Ryan (Metrology Center) and Rowland Theraldson (AMSC) participated in the Middle Management Seminar, and John Ramsey (P & P), Coy Jackson (TOW), James McClure (Nike-X) and Roy Lowrance (R & D) were included in the Operations Research Appreciation Class.

The PERT/COST course was attended by Lt. Douglas Plikaitis, Verlin Cronn and Robert Ramsey (all of S & M), Carl Jones and Alton Stewart (Hawk) and Mark Thomas (SAM-D). The Rock Island contingent was completed by Robert Neumeyer (Sergeant) who attended the Seminar for Quality Managers.

Another 14 of the locals went to Ft. Lee, Va., for their training at the U. S. Army Logistics Management Center.

Ulric Phillis and Earl Harrison (both of S & M) were enrolled for Army Logistics Management, and James Onkst (Sam-D), Louis Fliszar (P & P) and Eugene Werner (S & M) took Defense Quality Control Management.

Edward Johnson, William Kirk and Sara Warren (all of P & P) together with Gerald Walters (Hawk) studied Defense Advanced Procurement Management. James Vinson and Martha Morgan (General Counsel) and John Fitzpatrick, James Robinson and Daniel Freret (all of P & P) were enrolled for Defense Procurement Management.

Gerald Rinker (Consol Supply) went to the AMC Field Safety

Agency at Charlestown, Ind., for the Industrial Safety course and Malcolm Tulley (S & M) took Basic Microwave Calibration at the Frankford Arsenal in Philadelphia.

Several more of the locals took specialized training courses offered by the Air Force. Two of these, James Ballard (Redeye) and Harold Oliver (ADFDS Office) went to Holloman AF Base, N. M., for a course in R & D Procurement Management.

Nimrod Hall (Sergeant), Leo Schiffman (Hawk), Glen Sadler (Nike-X) and Stanley Prosser (Lance) were enrolled for the Defense Weapons Systems Management course at Wright-Patterson AF Base, Ohio.

Peggy Pruett (P & P) took a course in Advanced Cost & Economic Analysis at the Ohio installation and Franklin Cowart (P & P) went to the same place for Contract Administration.

Twelve Supply and Maintenance civilians went to Ft. Bliss, Tex., to take the Hawk System Engineering course offered by the Raytheon Co.

They were George Ganvoski, Clifford Brantner, Ernest Lenaz, William Horton, Harry Harris, Donald Quick, Walter Krakauskas, Perrin Cothran, Marlin Springer, Joseph Stewart, Ervin McFarland and Ray Dobbs.

Another large group went to West Covina, Cal., for the Redeye NET Field Maintenance course with the Honeywell Co. In this group were, Clarence Hudson, Robert Hume, Brian Duff, Edwin Grady and Hubert Stewart (all of S & M), Richard Hewer (MMCS), and Edgar Alban (AMSC).

Howard Vester (AMSC) studied Projection Equipment Repair at the U. S. Army Signal School, Ft. Monmouth, N. J., and Leon Starkey (Lance) went to Warren, Mich., for the Lance Technical Specialist Course at the Ling-Temco-Vought plant.

Luther Adams (Civ Pers) took the Civilian Personnel Officer course at the Department of Army in Washington, and Donald Karas (F & A) was also in the nation's capitol for the Advanced Seminar in ADP & Financial Management

at the Civil Service Commission.

A. L. Conder and H. L. Hightower (both of P & P) went to Watertown Arsenal, Mass., for a basic course in Metals Inspection, and Karl Bezner and Walter Jordan (both of R & D) stayed in Huntsville to take Combined Analog Digital Simulation at Control Technology, Inc.

Charles Simmons and Harvey Adams (MMCS) went to Culver City, Cal., for the TOW Staff Planners course at Hughes Aircraft, Donald Casey (S & M), Edward Meehan (S & M) and Francis Zawacki (AMSC) studied the Redeye NET Field Maintenance course at General Dynamics in Pomona, Cal.

Jack Hardesty, Frank Daniels and O. M. Esslinger (all of S & M), together with L. E. Walker and L. J. Keim (of P & P) took the

Missile System Logistical Support Orientation at the Missile & Munitions Center and Emmett Austin (S & M) was enrolled at the Redstone school for Acquisition Radar and Computer Repair.

Walter Murphree (Gen Counsel) took Contracts Administration at George Washington University, and Rene Riviere (R & D) attended the 11th Institute on Research Administration at American University, also in Washington.

MANAGING DIRECTOR

SOMETHING FOR EVERYONE—Ronnie Corey inspects a turntable and wonders where the music and the records are at the Redstone Arsenal Thrift Shop. If Ronnie's dad took him into the room containing toys and bicycles, he managed to lead his son away again. It's just possible there was a shortage of such items, because the turnover in electrical appliances, mowers, furniture, and bicycles is pretty swift. The profits from the Thrift Shop, now where Rod and Rake used to be, go to help support the Joint Youth Council activities on post including the Nursery. Ronnie is the son of SP5 and Mrs. William Corey. SP5 Corey is stationed here with the Medical Detachment at the U. S. Army Hospital.

NO PINK ELEPHANTS?—An unlikely but true juxtaposition of unrelated objects occurred here last week when the Army Missile & Munitions Center & School frundled a B-47 Stratojet bomber obtained from the Air Force for ammunition training past the Saturn moon rocket static test stand of the Marshall Space Flight Center. Observers shook their heads at the sight of a rocket strapped down so it wouldn't launch and an airplane moving along the ground.

**Headquarters Company

Palmer Receives Scholarship To Yale In Fall

A part-time student technician in the Research and Development Directorate at the U. S. Army Missile Command, Carl L. Palmer, will enroll at Yale University this fall under a \$7,200 scholarship.

Palmer, a graduating senior at William H. Councill High School in Huntsville, is one of 1,025 students picked from among 6,000 applicants for the Yale freshman class. The scholarship, \$1,800 a year for four years, goes along with his admission.

Actually, he will be attending Yale under two scholarships, total-

ing \$3,300 annually. Earlier this year, in competition with 5,000 high school seniors from across the nation, Palmer won one of 225 four-year National Achievement Scholarships of \$1,500 a year.

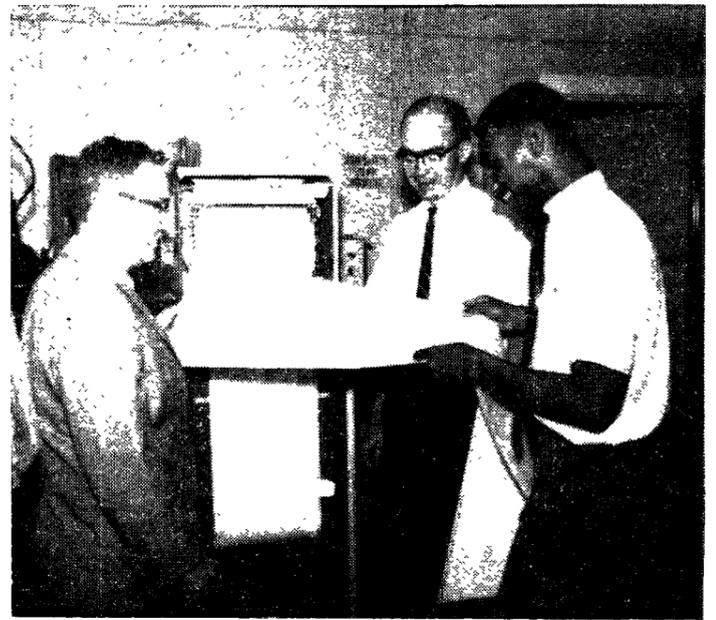

Palmer, 16, is a native of Huntsville. His parents are Mr. and Mrs. Hamilton Palmer, 2116 Holmes Ave., NW.

The Army Missile Command employs Palmer for three hours each weekday afternoon in the Solid Mechanics Branch of the Physical Sciences Laboratory, where he is assisting in research on a new

high temperature material.

At Councill High School, Palmer is president of the National Honor Society chapter and valedictorian of his graduating class with an "A" average. He is also president of the Student Council, past-president of the Junior Engineering and Technical Society and an executive member of the Community Youth Council.

In accepting admission to Yale, Palmer declined an \$1,800 annual scholarship to Dartmouth College, as well as scholarships to Boston and Howard Universities. He was one of four Alabama state finalists for a scholarship given by The

YALE SCHOLARSHIP WINNER—Carl L. Palmer (right), a senior at Councill High School in Huntsville and part-time student technician in the Research and Development Directorate at the U.S. Army Missile Command, inspects data collected from an experiment with two of his supervisors in the Physical Sciences Laboratory's Solid Mechanics Branch. He will enroll at Yale University in the fall under two four-year scholarships totalling \$3,300 a year. From left to right are: Richard E. Ely, Chief, Solid Mechanics Branch; Dr. James F. Benzel, Jr.; and Palmer.

NEW CHIEF VISITS—Maj. Gen. Phillip F. Lindeman, newly appointed chief of the U. S. Army Audit Agency, placed the U. S. Army Missile Command high on his orientation schedule for post and installations across the Nation. The General, a native of Honolulu, received his commission in 1930. His present assignment was made April 1. At Redstone Arsenal he conferred with (left to right) Robert Mullins, Missile Command Special Assistant for Special Review, Adam Buckavogh, chief of the Army Audit Agency Office here, and J. J. Christy, District Manager of Army Audit with headquarters in Atlanta.

Research Contract Goes To Martin

A \$750,000 U. S. Army contract has been awarded to Martin Company, Orlando, Fla., to conduct research for the Advanced Research

Projects Agency. The letter contract will support ARPA's Project Defender program, a study of ballistic missile defense systems.

Work on the program will be directed by the Systems Concepts and Techniques Branch, ARPA Division, of the Research Development Directorate at the U. S. Army

Missile Command. The Missile Command manages the program for ARPA, an agency of the Department of Defense.

Negotiating the contract for the Army was Systems Contracts, Division A, of the Missile Command's Procurement and Production Directorate headed by Col. B. A. Saholsky.

School Emphasizes 'Zero Defects' For Modern Management Improvement

More than 2,000 members of the permanent party at the Army Missile & Munitions Center & School this week received an ultra-modern introduction to the "Zero Defects" concept of modern management improvement by means of closed circuit television.

Lt. Gen. Louis W. Truman, commanding general of the Third U. S. Army; Col. Erwin M. Graham Jr., commandant of MMCS; and Bob Jones, Operations Manager of Station WHNT-TV participated in the 45-minute video tape presentation which was produced by the MMCS Television Division under supervision of Major Edward S. Raleigh, chief, and Mr. Allen C. Metzger who heads the Zero Defects program in the Office of the Comptroller at MMCS.

All three speakers hammered away at the heart of the Zero Defects program—increased personal pride in job performance.

Gen. Truman said the Zero Defects program is being put into effect at more than 100 southeastern installations of the Third Army following spectacular success in other Army areas.

Col. Graham cited the recent outstanding achievement of the Martin Company in delivering a Pershing missile system to Fort Sill, Okla. on a short deadline without any defects.

He characterized the entire program as a matter of getting each person to pay as much attention to his job as he does to personal

THE BEST BY TEST. Paul Barney (right) and Tom Patterson earned the Bowler of the Year laurels in two of the four civilian bowling leagues by posting the highest individual averages in the Field Services League and the AMC League, respectively. Barney took the Field Services crown with an average of 180, two pins better than Al Sarge was able to post. Patterson averaged 179 for each game to take the AMC crown by four pins over Ken Beil.

matters.

Col. Graham said the opportunity now exists throughout all types of U. S. endeavor for a rebirth of pride in personal craftsmanship such as distinguished the

Renaissance period of the 15th Century.

He stressed the responsibility of supply and maintenance personnel in building up the "confidence level" of combat forces who rely upon them for weapons that are supposedly ready for use on short notice.

The Zero Defects program will continue indefinitely at MMCS,

Awards and Decorations

By direction of the Secretary of the Army, the U. S. Army Commendation Medal has been awarded to the following named officer personnel in recognition of their meritorious service.

Army Commendation Medal (Second Oak Leaf Cluster): Colonel George E. Meaders and Major Roy A. Merrill, Jr.

Army Commendation Medal (First Oak Leaf Cluster): Col. Glenn Crane, Major Dale Hamil-

ton, Jr. and Major Jose A. Carrasquillo Acevedo.

Army Commendation Medal: Lt. Col. Stanley H. Tyler, Lt. Col. Henry L. Watson, Major Marvin M. Allums, Major Edward E. Roy, Major Edward L. Kidd, Capt. Paul J. Lanphear, Capt. Robert D. Doleman, Capt. Blas C. Herrero, Capt. Otto J. Thamasett, 1st Lt. David H. Bliss, 1st Lt. Arthur M. Doyle and Chief Warrant Officer (W-3) Don E. Geouge.

with outstanding job performance and suggestions being rewarded.

Conferences Keep Missile Men Busy

Three U. S. Army Missile Command employees are taking part this week in conferences throughout the country.

B. W. Barnett, Technical Supervisor of the Army Interservice Data Exchange Program at the Redstone Scientific Information Center, was a participant in the Fourth National IDEP Conference. The two-day meeting ended Friday in New York.

John T. Grissom, a research physicist, will present a paper on "Neutron Reaction Studies of Nd142" at the Fourth Annual Student Conference of the American Nuclear Society. The meeting is sponsored by the Atomic Energy Commission and is to be held at the University of Illinois, Urbana, Ill.

Both men are with the Command's Research and Development Directorate.

Harry F. Vincent, Project Director, Research and Development Directorate, presented a paper at the 1966 Annual Meeting of the Missiles and Astronautics Division, American Ordnance Association, Ft. Bliss, Texas.

This meeting was also addressed by Maj Gen. John G. Zierdt, Commanding General of the Army Missile Command.

BOOMING WELCOME—First Lieutenant Francisco Hernandez (left) of Venezuela, is greeted upon his arrival to U.S. Army Missile & Munitions Center & School, Redstone Arsenal by Colonel Erwin M. Graham Jr., School Commandant. Lt. Hernandez is the first officer from South America to attend a course at MMCS. Escorting Lt. Hernandez was 2d Lt. Thomas McDonald of the Foreign Liaison Office. That's not really a live hand grenade Col. Graham is holding . . . it's a chrome plated 'grenade lighter'.
