REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

JUNE 15, 1966

Gen. Miley To Speak At Procurement Meeting

Maj. Gen. Henry A. Miley, Jr., the Army's major buyer of essential mission materiel items from bayonets to ballistic missiles, will be the dinner speaker at the Army Missile Command's procurement symposium tonight in the Carriage Inn, Huntsville. His address is scheduled for 8 p.m., following a 7 p.m., dinner.

The General heads the Procurement and Production Directorate of the Army Materiel Command, Washington, D.C. The Missile Command is one of six major commodity commands reporting directly to the Army Materiel Command.

His audience will be potential Army contractors from Alabama, Georgia, Mississippi and Tennessee who have been invited to a day-long meeting today. Discussions cover the Army's latest requirements for missile repair parts and of simplified ways to do business with the Missile Command.

The Command spends more than \$100 million annually for items to maintain the Army's missiles, and is eager to add firms in this vicinity to its list of qualified contractors.

Gen. Miley, a native of Boston, was commissioned in the Coast Artillery Corps when he graduated from the United States Military Academy in 1940. He was later detailed to the Ordnance Corps.

The General has a masters degree in business administration from Northwestern University and is a graduate of the Army War College. His overseas assignments include the Pacific during World War II and two duty tours in Europe. In 1957 he became chief of the Tank-Automotive Procurement Division in the Office, Chief of Ordnance, Washington, D.C. He has been Director of the Procurement and Production Directorate at the Army Materiel Command since November, 1964.

Registration for the procure-

MAJ. GEN. HENRY A. MILEY, JR.

ment symposium began last night, for those who arrived the evening before the meeting, and from 7:30 to 9 a.m., today, at the Carriage Inn.

Col. B. A. Saholsky, who directs the Missile Command's procurement and production activities, will open the meeting at 9 a.m., today and Maj. Gen. John G. Zierdt, Missile Command Commanding General, is scheduled to address the group briefly.

Presentations by procurement officials from Huntsville, Birmingham and Atlanta will continue through the day concluding with a panel for discussion of questions submitted by the attendees. It is planned to adjourn the meeting at 4:30 p.m., and reconvene at 7 p.m., for the dinner.

The visiting contractors are encouraged to come to the Missile Command tomorrow morning where government personnel will be on hand for individual counseling. At that time qualified firms will have an opportunity to apply for inclusion on the Missile Command's Bidder's List and to pick up solicitations for bids on current procurements.

Actual items of hardware the Army needs for its missile systems will be on display at the Carriage Inn and on Thursday in Bldg. 4488 at Redstone.

ARPA Commends Missile Command

Commendation for a job well done has come to the Army Missile Command from the Director of the Department of Defense's Advanced Research Project Agency.

In testimony on ARPA programs before a Congressional Committee, Dr. Charles M. Herzfeld broke into his presentation to praise the Army's conduct of the HIBEX program.

"I may say here," he said, "that this program was done with the Army as our agent, and the Army performed just wonderfully. They recognized they had a good thing going, could learn a lot, they put good people on it, and it was a model of cooperation . . ."

The HIBEX program was sponsored by ARPA and directed by the ARPA Division of the Army Missile Command's Research and Development Directorate.

The program was conducted in connection with Project Defender, a series of investigations on techniques and concepts for ballistic missile defense.

The Boeing Company was prime contractor for the high boost experiment vehicles.

Early Settlers Answering Call

The information Office has been pleased to hear from a number of Redstone and Huntsville Arsenal "settlers" regarding their recollections of the early days when cotton fields and pastures were turned into the Army installations.

Among those responding are Louis Sisco, Bruce Stewart, Elsie Hugel, C. A. Broadway, W. T. Cook, Frank Neely and Sara R. Alspaugh. Some of these gave us the names of others, and some have brought in old photos.

We are still looking for photos, historical facts and anecdotes about the "old days." Call us on 876-3218, 876-1500 or 876-1400 or come in to see us in Room A 134, Bldg. 5250.

LT. COL. WILLIAM J. CHILCOAT

New Judge Advocate Assigned

Lt. Col. William J. Chilcoat is the new Staff Judge Advocate at the U.S. Army Missile Command following an assignment at Ft. Sill, Oklahoma where he held a similar position.

Col. Chilcoat, a veteran of World War II who earned a Silver Star Medal and a Bronze Star Medal with Oak Leaf Cluster while serving with the 104th Infantry Division in Europe, is a native Texan from Ft. Worth. He studied accounting and economics at Texas A&M where he received a BA degree and he earned a law degree at the University of Texas.

Since being admitted to the Bar in Texas, he has been admitted to practice before the U.S. Supreme Court and the U.S. Court of Military Appeals.

Col. Chilcoat prepared himself for practice before the higher court through studies which include graduating from the Advanced Course of the Judge Advocate General School at Charlottesville, Va., in 1959. After graduation, he remained as a member of the faculty until 1962. During 1963-64, he served in Korea as Chief of Military Affairs for eighth U.S. Army.

The colonel's activities center around his two professions: Army and the Law. He is a member of (See JUDGE ADVOCATE, Page 3)

Gen. Abrams Will Deliver Address At AUSA Dinner

Gen. Creighton W. Abrams, Jr.

The Army's Vice Chief of Staff, Gen. Creighton W. Abrams, Jr., will be the featured speaker when the Tennessee Valley Chapter of the Association, U. S. Army, holds its annual installation dinner-meeting at the Redstone Arsenal Officers' Open Mess on June 29.

Gen. Abrams will discuss "Materiel Readiness for Strategic Deployment" in his initial public appearance in the Huntsville area.

The dinner-meeting will inaugurate a new year of activity for the Tennessee Valley Chapter which recently concluded a successful membership campaign. During the month-long drive Chapter membership rose to over 4,200 making it the third largest among the 118 AUSA Chapters scattered around the world.

William T. Weissinger, of the Chrysler Corp., will head the new slate of officers who will be installed at the meeting by Oscar L. Betts, Jr., the outgoing president of the Third Region of the international organization.

Weissinger succeeds Dr. Frederick Schultz, of the General Electric Company.

Other guests for the installation will be Maj. Gen. George T. Duncan, Deputy Commanding General of the Third Army, and Col. J. D. Rosenberger, of Birmingham, the Alabama vice-president of the Third Region.

Gen. Abrams was named by President Johnson to be the Vice Chief of Staff for the Army in September 1964 capping 30 years of active commissioned service. He returned to Washington to assume his duties from Europe where he had been Commanding General of the Fifth Corps.

A native of Massachusetts and a 1936 graduate of the U. S. Military Academy, Gen. Abrams was a combat tank commander with the 4th Armored Division during World War II.

Following the close of the war in Europe he was assigned to the War Department General Staff with duty on the board to deter-

School Ups Bond Buying

United States Army Missile & Munitions Center & School participation in the savings bond program zoomed a whopping 47 percent in one fiscal quarter according to recent figures compiled by the bond drive chairman here.

Military personnel participating in the savings bond program rose from 91 to 96 percent, while Department of the Army civilians who became active in the bond program rose 6 percent to 97 percent.

The phenomenal increase in bond-participation, however, was noted among the Enlisted Training Company. Their figure leaped from a lowly 54 percent of personnel who had a bond in the third quarter to 90 percent, equaling the Army-wide goal.

The huge increase was due in part to close cooperation between Capt. Robert A. Nixon, bond drive chairman and the ETC commanders.

A total of 1,000 ETC personnel joined the savings bond program (See SCHOOL UPS on Page 3)

TWO STRATEGIC UNITS ACTIVATE

Two new units of the Army's highly mobile strategic forces were formally activated Monday, in a ceremony at the Army Missile & Munitions Center & School. Organization was directed by the U.S. Continental Army Command, of which the Center & School is an element.

Col. Zacarias F. Rael, acting commandant of MMCS, and Lt. Col. Gordon T. Fearson, director of the unit training, presented guidons and certificates of activation to the 522nd Ordnance Company (Ammunition) and the 200th Ordnance Detachment (Hawk Missile) units at the 9 a.m. ceremony at MMCS headquarters.

The two new units are being created by the Continental Army to augment its intensified combat training program which keeps large numbers of Regular Army and Reserve units in constant readiness for quick deployment to emergency areas throughout the world. Gen. Paul L. Freeman, commanding general of the Continental Army, also serves as commander of the Strategic Army Corps (STRAC) which can be moved instantly to crisis areas upon orders from the Joint Chiefs of Staff.

Capt. Richard L. May, 34, of West Des Moines, Iowa, will command approximately 100 men in (See TWO STRATEGIC on Page 3)

Chaparral Production Contract Goes To Philco

The U. S. Army has announced the award of a \$6,415,707 cost plus incentive fee contract to cover tooling cost and initial production of Chaparral air defense missile fire units.

Aeronutronic Division of Philco Corporation received the award for the work to be performed at their Anaheim, Calif., plant.

The Chaparral Fire Unit is a self-contained unit capable of aiming and firing missiles against hostile aircraft. The unit can be mounted on any of several types of vehicles such as a self-propelled carrier (M730), railroad flat cars, flat bed trucks or trailers, or can be set up as ground emplacements.

In the development of the Chaparral system, maximum use has been made of existing military hardware.

The missile used in the Chaparral system is the Navy developed Sidewinder IC which has been modified to meet the requirements of a surface-to-air missile system.

A modified version of the M113 family of Army developed self-propelled vehicles, the highly

mobile M730 used as a carrier for the Chaparral system is lightweight, full tracked and can be made amphibious by addition of a swim kit. It is capable of extended cross country travel over rough terrain and of high speed on improved roads.

Chaparral is one of two systems recently selected by the Army for arming new air defense battalions being organized to provide field commanders with low altitude air defense in forward battle areas. It will complement the air defense role of the self-propelled Hawk systems and Redeye missile.

In addition to receiving the Chaparral, the new battalions will be equipped with the Vulcan, a 20mm automatic gun.

Chaparral development tests have been conducted at the Naval Ordnance Test Station, China Lake, Calif., and Eglin Field, Fla. Combined services and design tests are planned later this year at White Sands Missile Range, N.M.

The Army Missile Command's Chaparral Management Office (See CHAPARRAL on Page 3)

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-136, Extension 376-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 345, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

AIAA In Colorado Springs To Hear Thiokol Papers

Scientists and engineers of Thiokol Chemical Corporation-Huntsville Division will present five technical papers at the AIAA Second Propulsion Joint Specialists Conference in Colorado Springs, Colorado, June 14-17.

Dr. D. M. Adams will present his paper on "Igniter Performance in Solid Propellant Rocket Motors."

J. D. Martin will present his paper on "Domino Propellants."

J. W. Lee will present two papers: "A study of Air Augmented Propulsion for Air Launched Missile Application," co-authored with R. G. Hofer; and "Supersonic Combustion Ducted Rocket," co-authored with Dr. J. M. Murphy.

Dr. J. A. Farr will present "Solid Propellants for Air Augmented Propulsion Systems," co-authored with R. E. Askins and Dr. J. M. Murphy.

Explosives Meet Set

The Explosive Ordnance Disposal Division, USA Missile and Munitions Center and School, Commanded by Lt. Col. Richard M. Barb, will host the 1966 EOD Coordination Group Conference June 21 to 23.

Formed in January of 1963 the Coordinating Group provides guidance for systematic, well coordinated programs and actions on the part of all Major Commands involved to improve U. S. Army EOD capabilities. The group will be especially concerned with problems, the solution of which, requires cooperative action by several commands.

The Army's EOD Coordination Group exists to integrate the EOD plans and activities of major Army commands and is based on the

realizations that there is seldom a major problem area, action or objective in the Army's EOD program which does not have an important impact on the commands in areas of combat developments, training, operations and research, development and provision of material.

● Hostile fire pay, proficiency pay, and foreign duty pay can now be included in the total amount which can be allotted by an enlisted man serving outside the U. S. The new policy is contained in changes to AR 37-104 Soldiers taking advantage of the changes are cautioned, however, to adjust their allotments accordingly if any of their special pays are terminated.

● Soldiers on orders for Vietnam will find answers to the most frequently asked travel and assignment questions in a Command Information Fact Sheet compiled by U.S. Army, Vietnam, and published by the Office of the Chief of Information. The person-

al planning tips cover clothing and baggage, money, personal services, curfews, transportation, weapons, mail, leaves, churches and schooling, length of tour, legal matters, and immunization. The Fact Sheet is Issue Number 46 dated March 7, 1966.

SIX ON A FLAME—Though three on a match may be unlucky, these six new ordnance captains anticipate good fortune in their new rank as they light celebration cigars on a flaming ordnance bomb. The young officers were recently promoted at the U. S. Army Missile & Munitions Center & School. The captains are left to right: Donald C. Fischer; Daniel J. Lizdas; Nolan E. Tacani, Jr.; Raymond C. Achterberg; Donald E. White; and Robert A. Goodwin.

Army Birthday

General George Washington, wearing the buff and blue uniform of the Virginia militia, rode past the ragged groups of men clutching their handmade muskets. These were the men of the first United States Army. Only a few days before on June 14, 1775, the Continental Congress had created the Army and named General Washington as its first commander. Yet Washington, riding among his troops, saw little outward evidence in these men of an Army which could defeat the imperial might of Britain. In his diary, he wrote, "I found a mixed multitude of people here, under very little discipline, order or government. Confusion and disorder reigned in every department."

Within months, however, General Washington had forged the patriotism of these determined men into a force which secured bold success at Trenton, valiant triumph at Saratoga and final victory at Yorktown. Born 10 months before the United States itself was created, the Army purchased with blood and iron the freedom of the new nation.

In years to come, the Army's might and men grew as the United States expanded westward and became the bulwark of liberty around the world. At Chateau-Thierry, Normandy and Pork Chop Hill, the Army made the world safer for Democracy.

This year, as the Army marks its 191st anniversary, new soldiers in a new land have added the names Plei Me and Ia Drang Valley to the American lexicon of freedom. From a helicopter in Vietnam, a patrol in Germany, an outpost in Korea, the Army celebrates its birthday. Its mission is unchanged since the days of Washington—to preserve and defend the United States and its allies from aggression.

SECOND AWARD—Joseph F. N. Gambill receives congratulations from Col. Morris W. Pettit, chief of the Air Defense Control and Coordination Systems Office, for presenting a design change in the XM703 trailer housing the AN/TSQ-51 systems. The suggestion gained Gambill an award of \$675. Gambill is an industrial specialist who transferred to the U. S. Army Missile Command from Dyess Air Base, Texas. This is the second award he has received for suggestions changing the system. The first netted him \$250.

THE ARMY BIRTHDAY — JUNE 14

STANLEY R. RESOR
Secretary of the Army

As the United States Army marks its 191st year of distinguished service, I take great pride in extending my personal greetings and best wishes to all members on duty throughout the world.

The Army story since 1775 has focused on the individual soldier. Each member of the United States Army today continues to play an important role in the Army's heritage of service and achievement.

Each of you may take justifiable pride in the Army's accomplishments of the past and its ability to cope with the future. We are successfully meeting the challenge in Vietnam. Over 125,000 Army men and women have been deployed there during the past year. You are performing magnificently and the American people are proud of you.

I congratulate and commend each member of the United States Army as he carries on the tradition of almost two centuries of devoted service to our Nation.

1775 — 1966

ANF

HAROLD K. JOHNSON
Army Chief of Staff

As the Army marks its 191st year of service to the Nation, I should like to take this opportunity to express to each of you my personal admiration and pride in your magnificent performance of duty in the cause of freedom throughout the world.

For our troops in Vietnam, I have a special word of praise for your courage, determination, and sense of purpose. Despite the hazards, hardships, and separation from loved ones, you have demonstrated a thorough understanding of the stakes involved and the tasks that must be accomplished in order to end the Communist aggression and permit the Government of Vietnam to function effectively without external influence.

For the members of the Army at our installations and training centers in the United States and those manning our units in Europe, Korea, and other oversea locations, I send a special greeting and word of appreciation for your dedicated efforts and support in the accomplishment of our important mission.

I know that you are all keenly aware of the grave responsibilities which rest upon you and am sincerely confident of your ability to meet the challenges of the future.

NEW UNITS ACTIVATED—Left, Col. Z. F. Rael presents a new unit guidon to Capt. Richard L. May, symbolizing activation of the 522nd Ordnance Company. Col. Rael made the presentation as acting commandant of the US Army Missile & Munitions Center & School. The unit will specialize in ammunition management and maintenance support for tactical forces. Right, First Lt. Gary L. Starkey, commander of the 200th Ordnance Detachment, and Sp4 Robert P. Aldridge display the new guidon. The detachment will provide general support to Hawk air defense missiles.

Miss O'Keefe-Lt. Kulbacki Exchange Nuptial Vows At Post Chapel Saturday

The marriage of Miss Catherine O'Keefe to Walter Stanley Kulbacki of Boston, Mass., was solemnized in a 10:00 a.m. nuptial mass on Saturday, June 11, at the Redstone Arsenal Post Chapel with the Rev. Charles D. Logue officiating.

The bride is the daughter of Col. and Mrs. John T. O'Keefe of 504 Delaney Road, Huntsville. The groom is the son of Mr. and Mrs. Stanley J. Kulbacki of 209 Glenellen Road, Boston, Mass.

Nuptial music was presented by Miss Susan Colquitt of Huntsville.

Miss Vicki Zierdt of Huntsville served as maid of honor. Bridesmaids were Miss Gail Osborne, Mrs. Joanie George, Miss Nicky Ashley, and Miss Sue Clark, all of Huntsville.

Gowned alike, they wore floor length empire gowns of jonquil yellow crepe with a flowing back panel. The bodice was covered with a daisy cut lace. They wore matching Dior bow headpieces with attached float veils and carried a nosegay of daisies with yellow and white streamers.

Given in marriage by her brother, George, the bride wore a traditional gown of white peau de soie. Re-embroidered lace applique accented the Sabrina neckline and fitted bodice. The bell-shaped skirt was also accented with lace applique around the hem line. A double-panel chapel train of white peau de soie bordered with re-embroidered applique lace fell from a self-fabric bow at the waist. A fingertip veil of silk illusion cascaded from petals of crystal and lace edged in rice pearls. She carried a bouquet of gardenias and lily of the valley.

Cadet James Kulbacki, brother of the groom, served as best man. Ushers were Lt. Ernest Hahn, Lt. Arthur Kelly, Jr., Lt. John M. Shimshack, and Lt. James F. Hennessie.

For her daughter's wedding, Mrs. O'Keefe chose a two piece dress of aqua silk covered with beige lace. She wore beige accessories. Mrs. Kulbacki chose a pink ensemble with a matching coat and accessories. They both wore gardenia corsages.

A reception and brunch were given by the parents of the bride at the Redstone Officers Open Mess. The Gene Lewis Band played for the occasion.

For a wedding trip to Florida the bride wore a three piece powder blue linen suit with a white lace overblouse and white lace on the lapels of the jacket. She wore matching white accessories.

The couple will make their home at Ft. Bragg, N. C. where the groom is assigned to the 82nd Airborne Division.

A rehearsal dinner was given Friday evening following the rehearsal by the parents of the groom at the Redstone Officers Open Mess.

MISS O'KEEFE is Bride of Lt. Kulbacki

Party Day, Changing Coordinators Mark Bridge Group Meeting

Party day for the bridge group sponsored by the Redstone Arsenal Officers Wives Club on Thurs-

Tennessee Tech Alumni To Meet

The regular quarterly meeting of the North Alabama Chapter of the Tennessee Tech Alumni will be at the Sheraton Inn at 7:00 p.m. Friday.

Reservations for the meeting should be made by sending \$3.50 for each steak dinner desired to Mrs. Joe H. Daniel, 3021 Fairacres Road S. W., Huntsville, Alabama, Phone: 536-9004.

The Alumni Office at Tennessee Tech is making arrangements for the guest speaker and has informed the chapter to expect a surprise. All former students of Tennessee Tech are invited to attend this meeting.

days at the open mess was marked with a gift from the group to Mrs. Andrew Garrabrant, who has worked as the coordinator for the bridge session. She is relinquishing the responsibility.

The new coordinator will be Mrs. Arthur Matthews, who plans to continue in that capacity until Fall.

Among the ten tables of players, Mrs. J. D. Kirby scored high. In descending order were Mrs. Frank Goodman, Mrs. Leonard Flank, Mrs. C. J. Johnson and Mrs. William A. Shunk. At the bottom of the scorers was Mrs. Richard Ament.

SOCIAL and CLUB EVENTS

WE USED TO BE—Col. Erwin M. Graham, Jr., (right) Commandant, US Army Missile & Munitions Center & School, shows Captain Othman H. Kwaileet how the old Ordnance Guided Missile School operated before its changeover this year. Capt. Kwaileet is the first officer from Saudi Arabia to attend classes at MMCS. There now have been students from 24 different nations who have attended courses at the \$70,000,000 school.

Mary Lou Cox Achieves Big Dollar Savings

Something approaching the ultimate in cost reduction planning was attained here recently when Mary Lou Cox, of Supply and Maintenance, was awarded a \$500 cash award for her untiring efforts to eliminate unnecessary procurements.

Not satisfied with just deleting items which were no longer necessary on the Pershing missile system, Mrs. Cox went a step further and found a use for the

stock on hand of the items she had deleted.

Her suggestions, made through four separate proposals, resulted in a savings to the government of \$133,000 in reduced procurement. The cash award was presented to Mrs. Cox by Col. William Grabowski, Chief of the National Inventory Control Point.

In making the award Col. Grabowski told Mrs. Cox that her efforts represented an outstanding

accomplishment in the area of item management, and exemplified Secretary McNamara's Cost Reduction Program.

The inventory manager started her raid on the Pershing system a year ago when she deleted an obsolete relay from further procurement action. Later research indicated that similar action could be taken with a guidance readout chassis and a reader.

There were 2300 of the relays on inventory and Mrs. Cox discovered that they could be substituted for a similar item on a current configuration of the programmer test station.

Further research indicated that the chassis could be economically modified and used as a substitute for an item in critical supply and the reader was found to be identical to another item for which several back orders were held.

Through her intensive research, eight of the readers were salvaged for future use at a savings in excess of \$60,000.

A veteran Civil Service employee, Mrs. Cox came to Redstone in 1963 from Memphis, Tenn., where she had worked for the Air Force Vehicle Control Group.

Hard Hitting Twins Make Opponents Do Double Take

Pretty soon now a general complaint is expected from the players of the Civilian Softball league that they are seeing double in their games at the Recreation Area.

The word has already filtered down from three of the teams, for that matter, with a similar charge likely from eight of the outfits within another week or so.

It is not that the lights are playing tricks on the fielders or that the field is anything less than ideal. Rather it is the presence of a twin-dose of poison that is being dealt out to the opposition by the Communications crew.

For three games the Grainger twins, Floyd and Lloyd, have played a steady tattoo with their bats in leading Communications to three straight wins. Floyd has hit safely on eleven out of twelve tries while Lloyd has ten for twelve.

Their big bats led their mates to their third straight win last week in a 17-10 conquest of Procurement and Production. The only other unbeaten team, Finance and Accounting was rained out of their game with the G & C Lab.

Documentation started fast and then held on for a 15-10 win over Data Processing, the Computation Lab outscored Nike X, 19-11, and Pershing shaded the Propulsion Lab, 9-7. Rain also washed out the game between the Comptrollers and the S & M Lab.

P & P got off to a six run lead in the opening inning against Communications as Claude Harbin tripled with the bases full and Walt Heflin followed with a homer.

But Communications came back with seven in the second to take a lead that they never relinquished. Each of the Grainger boys delivered extra base blows during the rally. Wayne Henderson, the winner, settled down after a rocky start to limit the P & P hitters to three safeties over the last six innings.

Carl Honea unloaded a grand slammer in the very first inning to get Documentation started on their winning path and Hal Curtis kept the attack going with four straight hits. Jim Wilkes took the win.

Nike X started out like they meant to bat all night in their game with the Computation Lab and sent nine runners across the plate before the side could be retired. That is about as far as they got, however, as Buddy Gray limited them to just two more runs and five hits the rest of the way.

The Computation offense got rolling in the second with five

runs and six more came scampering across the plate in the third. Bob Smith and Dewey Kitchen connected for circuit blows while Jerry March, Bobby Beal and Paul Lindeman each hit safely three times.

Bill Savage and Chuck Lasseter paced the Nike X attack while Caleb Burgoyne turned in a sparkling defensive game from his left field position.

Pershing jumped off to a 9-1 lead on the Propulsion Lab after four innings and then had to put down two threatening rallies for their win. The Lab men netted a pair of runs in the fifth and came back with four more in the sixth.

George Williams set the offensive pace with four for four while Jim Patterson and Fred Thomason each collected a pair of safeties for the winners. Bill Wright was a defensive standout in the losing cause.

Annual Golf Tourney Here

Today, women dominate the Special Services Golf Course as the Redstone Arsenal Officers Wives Golf Group competes with clubs in Alabama and Tennessee in the annual Invitational Golf Tournament.

The women were out last Wednesday, sharpening their shooting in a low gross, low net tournament which netted Lella Mullins, Joy Pyle and Irma Wiklund 46s for low gross and Esther Holloway 31 for low net.

DIRECTORATE CHAMPS—Col. Russell Sell, Director of Supply and Maintenance, had the honor of congratulating the members of the Guided Muscles bowling team for their second straight S and M bowling championship. The Musclemen took the title by outscoring the Huntsville Brick and Tile team in a six-game playoff, 5755 to 5626. In the above picture, the Director congratulates George Farrar, the team captain with Tom Childress, Joe Holub and Charley Town looking on. Team members Nick Sparks, Jim Wiswall and Roy Herlston were not present for the trophy presentation.

NEW OFFICERS—Col. Russell Sell is pictured with the newly elected officers who will direct the activity of the Field Services Bowling league next season. The officers are, left to right, Troy Faulkner, vice-president, Col. Sell, John Weaver, president, Warren Schoenknecht, secretary, and Len Twinem, treasurer.

CALHOUN OFFERS SCHOLARSHIP

A scholarship for a person wishing to study watch repair is available at the John C. Calhoun State Technical-Junior College, Dr. Carlton Kelley, president, announced.

D. E. Forrester, watch repair instructor, who is accepting applications for the scholarship, said the only requirements are to be a high school graduate, and score high on mechanical aptitude and mechanical reasoning.

The scholarship, worth \$360, covers the tuition (\$15 per month) for the entire two-year course.

The scholarship, worth \$360, covers the tuition (\$15 per month) for the entire two-year course.

Spring Ringer Ends

Tutta Colquitt copped the most improved golfer title in the Spring Ringer Tournament sponsored by the Redstone Arsenal Officers Wives Golf Group by paring 29 strokes from her score.

Winner in the first flight was Lillis Lewis with a 36 followed by Betty Haywood with 26.

In the second flight Camile Slendering came out on top with a 38 and Jackie Hightower was in second place with 26.

FRANKLIN G. BROYLES

Broyles Advises School Graduates 'Don't Let Down'

Graduating students at the U.S. Army Missile & Munitions Center & School, Redstone Arsenal, were told Friday that they play an important role in programs which have a direct influence upon the defense and the capability for survival of the United States.

The graduation guest speaker, Franklin G. Broyles, Chief, Systems Engineering Branch, Systems Requirements Division, Nike-X Anti-Missile System Project Office, told the 157 graduates, "Today commemorates your transition from qualified learners to qualified doers."

Broyles said that support troops, such as the graduates, sometimes lose sight of their vital role because of the minimum glory they receive on the battlefield. But, he added, "For those who would subordinate the logistics effort, I have only to refer you to the present conflict in Southeast Asia."

William T. Weissinger III, Vice President of the Tennessee Valley Chapter, Association of the United States Army, presented AUSA plaques to three students who had attained a academic point average of 96 or above.

The three were SP-6s Rondy L. Miller and Floyd D. Hamby with 97.6 and 96.6 averages respectively in the Nike Radar and Computer courses, and CWO Jorgen A. Hanson (Denmark) with a 96.9 average in the Hawk Mechanical Repair course.

Other honor students were Lt. Bruce C. Ganas, Ammunition Officer course; PFC Wallace A. Axelrod, Nike Test Equipment Repair course; PFC Thomas H. Campbell, Hawk Internal Guidance and

NEW CONTRACTS LET FOR SERGEANT

SALT LAKE CITY, UT., June 13 —Contract awards totaling \$1.8 million for continued work on the Sergeant Missile System have been awarded to Sperry Rand's Sperry Utah Company Division, by the Army Missile Command.

Under a \$1.1 million contract, missile system electronics will be modified to improve Sergeant fire-on-time-reliability in all extremes of combat environment in which U.S. Army and Federal Republic of Germany troops might use the system.

A contract for \$600,000 for additional Sergeant system product and production engineering services and a \$40,000 contract for updating Sergeant test equipment used by the Pueblo Army Depot complete the award package.

All work will be performed at Sperry's Salt Lake City plant.

The Sergeant is managed from the Army Missile Command with Maj. W. A. Cole as Acting Project Manager.

Have you ever had the urge to take flying lessons? Or maybe you are a licensed pilot with a yen to get back in practice.

The Redstone Arsenal Flying Club may have the answer for you.

For the past eight years the Club has operated at the Huntsville Airport in the interests of the health, welfare and morale of military and civilian personnel of the Arsenal, and other military personnel in the area.

At the present time the Club has approximately 25 members who have access to three airplanes. They are available for use by members for their own use on a rental basis. Instructors are also provided for those who might be interested in learning to fly.

The planes available to members are a Cessna 195, a Cessna 140 and a Navion. Plans call for the purchase of another plane in

Launcher Electronics Repair course; Pvt. Philip M. Allred, Ammunition Storage course; and Pvt. Richard H. Lorensten, Ammunition Records course.

Students from Germany, Belgium and Venezuela were also among the graduates.

the near future, with a four-place Cessna 172 being most favorably considered.

The 195 is a 5-place, 140 mph craft completely equipped with radio and navigation equipment. The rental on it is \$14 per flying hour.

The Cessna 140 is a 2-place airplane equipped with radio and basic navigational equipment and can be rented for \$6 per hour.

The 4-place Navion is also completely equipped with radio and navigational equipment and rents

for \$12 per flying hour.

Club members are able to obtain a private license for approximately \$400 if they have never had previous flight instruction. The initiation fee is \$50 and the monthly dues are \$5.

NEW PAINT JOB—Officials of the Redstone Flying Club are shown inspecting the new paint job on the Cessna 140, one of the three planes that are available for use by Club members. They are, from left to right: Lester Holmes, president; Jerald Joiner, assistant treasurer; and Mason McCary, vice president. Club membership is open to military and civilian personnel at the Arsenal, and to military personnel in the area. Persons desiring additional information on the activities of the Flying Club may call 534-3874.

"They have the most seats,
because they have the most jets!"

Come to where the seats are -- United

When you have someone mighty important waiting, a thousand miles away . . .
. . . and when you have just 48 hours to catch up on six months of living . . .
. . . then, friend, you *need* a friend.

Come to where you'll find one. United Air Lines. We fly more jets with more seats to more U.S. cities than any other airline. We've probably saved more romances and kept more servicemen from being AWOL, than any other airline, too.

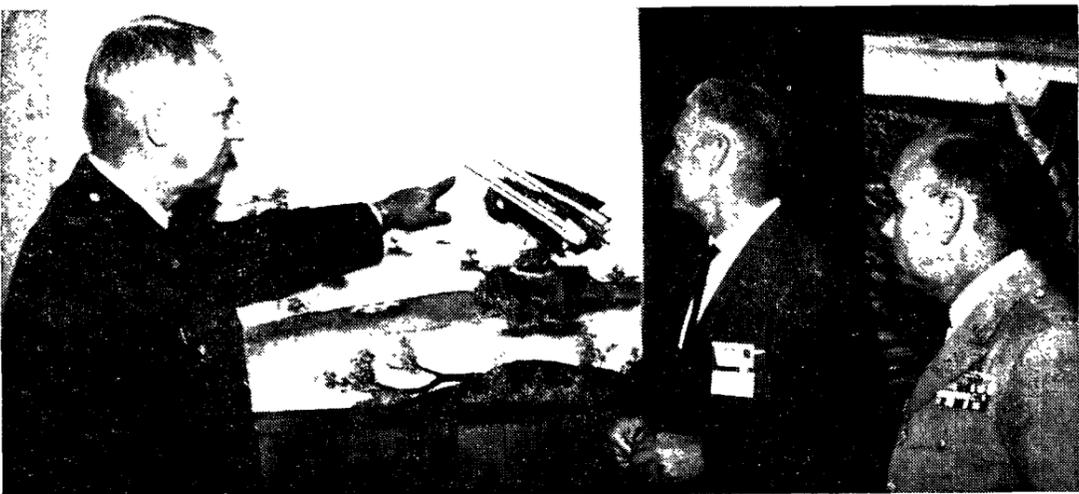

Men and women in uniform, with authorized military leave or furlough papers, fly (stand-by) at 50% off regular Coach fare. (This rate also applies within 7 days after discharge.) They can sit wherever the seats are, even in First Class when the other seats are filled.

So next time you want to get the most mileage out of your pass or leave, see your Joint Airline Office, Travel Agent, or us, United Air Lines.

For information and tickets, visit or call your JAMTO office located at Bldg. 3684, Neal Road, Tele. No. 876-5851.

fly the friendly skies of United.

American Defenders of Bataan & Corregidor, Inc., will hold its annual convention May 5-8, 1966, at the Statler-Hilton Hotel in Cleveland, Ohio. Convention chairman: Joseph A. Vater, 18 Warbler Dr., McKees Rocks, Pa. 15136.

HAWK, THE INTERNATIONAL MISSILE—The General Manager of the NATO Hawk Management Office, Lt. Gen. W. J. Riejniese (Retired) of the Netherlands (center), and a party of five from his headquarters in Paris visited the U. S. Army Missile Command at Redstone Arsenal last week. Here, Col. George H. McBride, Hawk Project Manager, points to an artist's concept of three Hawks on a launcher. Looking on is Col. Sterling C. Holmes, Missile Command Liaison Officer assigned to the NATO Hawk Management Office. A production organization made up of France, Italy, The Netherlands, Belgium and West Germany builds Hawk for NATO. The air defense missile also is operational with United States Army and Marine Corps units.

CAPT. MALCOLM P. O'NEILL

Capt. O'Neill Named Aide To General

A combat veteran of the Vietnam conflict has been assigned as Aide-de-Camp to Maj. Gen. John G. Zierdt.

Capt. Malcolm P. O'Neill has been named to replace Capt. Terry M. Carlton as Aide to the Commanding General of the U. S. Army Missile Command. Capt. Carlton will attend the Army Munitions and Missile Center and School.

A native of Chicago, Capt. O'Neill went to Vietnam in 1965 where he served as Unit Advisor in a Reconnaissance Company of the 21st Vietnamese Infantry Division.

He was awarded the Purple Heart in May, 1965 and earned an Oak Leaf Cluster to his Purple Heart in July. Capt. O'Neill received an Air Medal in May, 1966 and earned the Bronze Star with the Valor device in October, 1966, adding an Oak Leaf Cluster to the latter in December, 1966.

Capt. O'Neill came to Redstone Arsenal in March and has been serving as an instructor at the Munitions and Missile Center and School.

A graduate of Senn High School in Chicago, Capt. O'Neill holds a BS degree in physics from De Paul University.

His parents, Mr. and Mrs. James C. O'Neill, are residents of 1446 W. Rosemont Ave., Chicago.

If You Are A Navy Or Marine Corps Veteran You Should Be In the Fleet Reserve Association!

THE ENLISTED MAN'S LOBBYIST

The Fleet Reserve Association, an organization composed of career enlisted men of the U.S. Navy and U.S. Marine Corps, is the enlisted man's official lobby in the U.S. Congress. The Association has three employees: its National Secretary, National Financial Secretary, and the Editor of the FRA official magazine, "Naval Affairs," registered as accredited lobbyists. They present the enlisted man's viewpoint on all legislation affecting military personnel.

AN EXAMPLE OF FRA'S LOBBYING

A prime example of enlisted men lobbying for the protection of their rights is the Fleet Reserve Association's current "Hospital Rights Program." This program was instituted to protect the military retiree's medical care at military facilities.

Public Law 569, The Dependent Medical Care Act of 1956, states in Section 301 (b), "Medical and dental care in any medical facility of the uniformed services MAY, under regulations prescribed jointly by the Secretaries of Defense and Health, Education and Welfare, be furnished upon request AND SUBJECT TO AVAILABILITY OF SPACE, FACILITIES AND CAPABILITIES of the medical staff, to retired members of the uniformed services." Section 301 (c) provides for medical care to retiree dependents on the same basis.

In 1961, the Appropriations Committees of Congress in the conference report on the Military Construction Appropriations bill for that year, noted that hospital care for retirees was only on a SPACE AVAILABLE basis and it directed the Defense Department NOT to program space for retiree bed needs in building new hospitals.

In compliance with the 1961 ruling, the Department of Defense and the Bureau of the Budget have NOT programmed retiree beds in the new Long Beach naval hospital, or the two new hospitals replacing the Army's Letterman General and the Navy's Cak Knoll hospitals. The latter two have lost a total of 266 retiree beds! The same action will be taken on the remaining 47 hospitals to be built under this program.

Over one year ago, the Fleet Reserve Association formed a special committee, the HOSPITAL RIGHTS COMMITTEE, to conduct a comprehensive study of medical care for retirees. This was prior to the Department of Defense's action. The Fleet Reserve Association budgeted \$30,000 to initiate the Study.

After a comprehensive study, including the mailing of a questionnaire to all its members, to which 45% replied, the Fleet Reserve Association proposes a practical plan to guarantee, by law, medical care to the military retiree and his dependents. The plan is outlined in a 64-page pamphlet entitled, "Military Retirement Hospital Rights."

The study outlines the problem factually in part one; it presents a practical solution clearly in part two and a ringing justification of that solution in part three. The study has been mailed to every member of Congress, officials of the Executive Branch and the Department of Defense, to every officer of flag rank in the Navy and Marine Corps, to every naval medical officer of the rank of Captain and above, to senior officers of the other services and other veterans organizations.

We have received hundreds of letters from ranking military officials stating their wholehearted approval of our method of focusing the attention of the Congress and public on this serious problem.

Scores of letters from Congressmen have poured in, expressing awareness of the problem, requesting more pamphlets and information and pledging support to our principles. The Honorable Carl Vinson of Georgia, Chairman of the House Armed Services Committee, on 26 February 1964 appointed a special subcommittee, headed by Representative L. Mendel Rivers of South Carolina, to study this problem.

The FRA pursued the fight on all fronts and caused three bills (HR-10707, HR-10737, HR-10763) to be introduced in Congress during the week of April 7, 1964. These identical bills would provide medical care to retirees and their dependents in military facilities through a minimal contributory program as outlined in the 64-page study.

The Special Subcommittee of the House Armed Services Committee conducted extended hearings on the problem from 14 April to 2 July 1964. The enlisted man's viewpoint on the subject was presented by the National Secretary, Mr. Robert A. Means, of the Fleet Reserve Association. The Subcommittee's counsel joined the committee members' praise of Mr. Means' testimony stating, "It is the finest testimony presented in this hearing."

The initial hearings are completed and the result of the testimony of many witnesses clearly establishes the government's moral, if limited legal, obligation to provide medical care to military retirees and their dependents.

At present, the Special Subcommittee's findings are being compiled into a study that will be the basis of writing legislation guaranteeing medical care to retirees and their dependents. This legislation will be introduced in the 89th Congress. When it is introduced, the Fleet Reserve Association will again be present to protect YOUR interests.

FORTY YEARS OF SERVICE

This then, is the manner in which the Fleet Reserve Association has represented the enlisted man on every piece of major legislation affecting him for the past forty years. Many of the benefits that are taken for

granted by today's serviceman are the result of the Association's leadership, hard work and concentrated representation on Capitol Hill and within the military establishment. Some of the major benefits attained are:

1. Increased pay for active duty, fleet reserve and retired personnel.
2. Protection of retainer and retired pay.
3. Temporary officer pay with retired pay of rank.
4. Free rations while in naval hospitals.
5. Normal rotation from sea to shore duty policy.
6. Uniform clothing allowance.
7. Commuted rations for enlisted men.
8. Dependents quarters allowance.
9. Dependents travel allowance.
10. Shipping of household effects at government expense.
11. Accrued leave pay.
12. Protection of physical disability retirement rights.
13. Mobile home transfer allowance.
14. Relocation allowance. (1955)
15. Active duty dependents hospital care. (Dependent's Medi-Care Act of 1956)
16. Greater survivor's benefits (Survivor's Benefit Act of 1956)
17. Social Security Coverage for active duty time.
18. Family Separation Allowance. 1963.

In addition to the Hospital Rights Program, the FRA is supporting legislation to insure Hazardous Duty Pay for flight deck crews, equitable payments of proficiency pay, improved military housing, equitable subsistence and per diem pay, a fair system of variable reenlistment allowance, and base pay equal to that of their civilian counterparts.

HISTORY OF FRA

With the enactment of the Naval Reserve Act of 1916, permitting enlisted men of the regular Navy and the regular Marine Corps to transfer to the Fleet Naval Reserve, upon completion of 16 and 20 years of active service, the need for an organization to preserve the rights and benefits granted them and their dependents, by Congress, became apparent.

Due to the intervention of World War I, no attempt was made to secure direct representation for the enlisted man in the halls of Congress.

The "Philadelphia Plan," the blueprint for the present day Fleet Reserve Association, had its inception in the mind of a Chief Yeoman, George L. Carlin, on duty in Philadelphia, Pennsylvania, who is rightfully called "The Founder of the Fleet Reserve Association." Shipmate Carlin, aware of the advantages of unity, held several informal meetings composed primarily of enlisted men on duty in the Fourth Naval District in a formal organizing assembly at 2417 South Broad Street, Philadelphia in October 1922 less than one hundred shipmates met and joined together and elected officers. One of the first acts of this group was the appointment of "Bob" White to represent them in Washington, D.C.

In 1923 came the first test of the ability of the new organization to provide protection to its members and potential members. Shipmates who had accepted temporary commissions in the Navy in WWI, were taken aback by a decision of the Comptroller General that only enlisted time could be counted as time served for transfer to the Fleet Naval Reserve. In the interim, many men, with commissioned service, had transferred to the Fleet Naval Reserve. Under the sponsorship of the new organization, Bill HR-4820 was written in such a manner that no one could question its intent. This was the first of many signal victories by the group, later to be

ENTERPRISE BRANCH NO. 278
FLEET RESERVE ASSOCIATION
3118 ANDROS ST., S.W.,
HUNTSVILLE, ALABAMA

NOTE: Associate Memberships are available for former Marine Corps or Navy (Reserve or Regular Service) who desire to support the Fleet Reserve's Programs.

known as the Fleet Reserve Association.

The charter of the Fleet Reserve Association was obtained on November 11, 1924, in the Court of Common Pleas, Philadelphia, Pennsylvania and flushed with confidence from its early successes the Association continued in its service to members and has a present membership of 60,000 belonging to 280 branches located all over the world.

NATIONAL EXECUTIVE OFFICES

In 1956 the Fleet Reserve Association purchased a building to house its National Executive Offices in Washington, D.C. The building is located just below Du Pont Circle at 1303 New Hampshire Avenue, N.W.

SERVICE TO MEMBERS

From these national offices stems a flow of hundreds of letters daily in answer to members' request for information, advice and service on such questions as:

1. Personal standing on Seavey-Shorvey duty lists.
2. Intercession in behalf of cases of hardship overlooked by the regular authorities.
3. Clarification and validation of records and claims entered with the government.
4. Speedy and accurate aid for surviving beneficiaries entering claims for benefits.
5. General information and advice to aid you in your service career and retirement.

The FRA is one of the few service organizations recognized by the Administrator of Veterans Affairs in the presentation and adjudication of claims before the Veterans Administration.

LEGAL REPRESENTATIVES

The FRA retains the law firm of Shields and Shields, the foremost specialists in military law, as its legal counsel and representative in cases the Association presents to the U.S. Court of Claims and other courts.

MEMBERS ARE INFORMED

All members are informed of legislation, legal decisions and personnel policies affecting their career and retirement through the official voice of the Association, "Naval Affairs," the monthly publication. The magazine also carries news of the Association from the national and branch levels. Subscription to the magazine is automatic with the payment of dues.

AFFAIRS AT THE BRANCH LEVEL

On the local branch level, meetings are held at least once each month. At these meetings the members transact the pending Branch and Association business in a democratic manner according to parliamentary procedures.

Social meetings, dinners, picnics, and other forms of wholesome entertainment round out the social affairs of a branch. Most branches have auxiliaries composed of the members' wives, mothers, sisters or daughters. Your branch is active in civic projects in your community in accordance with the Association's motto, LOYALTY, PROTECTION AND SERVICE.

MEMBERSHIP ELIGIBILITY

The Fleet Reserve Association has no legal connection with the "Fleet Reserve" component of the U.S. Navy as established by Congress.

If you are male and have four years of active Federal enlisted military service, with an obligation to serve two more years on active duty to complete six years of active duty and are presently serving on active duty in the U.S. Navy or U.S. Marine Corps; or drawing either retainer or retired pay from these Services you are eligible to join the Fleet Reserve Association.

Annual dues are \$8.00, less than 2 1/2 cents a day. This includes your annual subscription to the Association's publication "Naval Affairs."

MAIL TO: Branch 278, Fleet Reserve Assn.
Herman Griffith, Secretary-Treasurer
3118 - Andros St., S.W., Huntsville, Ala.

APPLICATION FOR MEMBERSHIP

I wish to join the Fleet Reserve Association and enclose \$8.00 for payment of dues for one year which includes subscription to "Naval Affairs."

Huntsville, Ala.

OUTSTANDING PROFESSIONAL SKILL—Col. William Roedy, deputy manager of the Nike-X Project Office, is shown accepting the annual Award of Merit of the Society of American Military Engineers being presented by Col. Harry L. Fox (USA ret.), National Director of the Society. The award was presented to Col. Roedy at a luncheon meeting of the local chapter at the Officers Open Mess last Thursday. A past vice-president of the Huntsville Chapter, Col. Roedy was cited for his outstanding professional skill and his service to the Society.

Average Soldier Reaches High School Graduation

The educational level of the soldier in the United States Army has greatly increased in the past 10 years according to recent surveys made by the Army.

The permanent party personnel at USAMMCS are an example of this sky-rocketing trend.

According to a recent survey 72 percent of the commissioned officers in the U. S. Army are college graduates, compared with 51 percent ten years ago.

A survey by Paul R. Fisher, Educational Director of Redstone Arsenal shows that at MMCS, the 194 officers average 15.9 years of schooling, including 48 going beyond the graduate level.

The Army desires enlisted personnel to have a high school education, 12 years of schooling. The MMCS survey shows enlisted men having an average of 12.1 years of education.

The Army offers two main reasons for the overall increase in educational development. First, the military education which provides the soldier with necessary skills to perform his job. They are either trained on-the-job or receive formal schooling through military schools. Secondly, soldiers are afforded an opportunity to attend off-duty academic or technical instruction. High School and college courses are available through numerous colleges and universities, both in the United States and overseas. The major portion of the expense in furthering an education is paid by the Army.

Movie Schedule

Theater No. 1

WEDNESDAY, June 15
"Secret Agent Fireball" (M)

Poe Scheduled To Attend Defense Institute

A Missile Command mathematician, Arthur C. Poe, III, has been selected by the Department of Army for attendance at the Institute of Defense Analysis in Washington, D. C.

Poe will leave his duties in the Research and Development Directorate on June 20 and will be at the IDA and the University of Maryland for a year. He will be granted a Masters Degree in Economics from the University at the successful conclusion of his studies.

The Institute is a graduate level school operated by the Defense Department in cooperation with the University of Maryland. It trains military and civilian personnel in the techniques of planning, programming and financial management systems for ultimate assignment to high level positions with DOD agencies.

The particular concern of Poe's studies will be system analysis and

force level planning.

A native of Akron, Ohio, Poe has been employed by the Missile Command since 1958 with all of his career having been spent with

the Advanced Systems Laboratory.

He is a graduate of Oberlin College in Ohio and has done graduate work in Mathematics at the University of Chicago.

Illustrators Exemplify Zero Defects Program

Two illustrators who specialize in drawings accompanying application for patents have chalked up a very respectable record in "Zero Defects."

William Jennings and Buell Hanners of the U. S. Army Mis-

sile Support Command Patent Center, following the very strict rules outlined by the U. S. Bureau of Patents, have turned out 322 sheets of drawings in the past two years without an error.

Since every patent must be ac-

companied by a drawing, and since the size of the paper, the shade of the ink and the size of letters and figures are precisely outlined in the instructions, patience and ingenuity are required of the patent design illustrator. The demand for precision is based on conformity and the need to be able to reduce the illustrations in reproducing them. Because often abstract ideas must be illustrated, the draftsman's imagination is

taxed to conceive a visual picture.

The U. S. Patent Office requires corrections, or an entire new drawing if the submissions do not meet the requirements. This has not happened to Jennings and Hanners. The Patent Office also requires the cost of the new drawing be absorbed by the applicant, an added incentive to the men; for a defect free drawing on the first go-round.

Jennings, an alumnus of Clemson University, has been at the

Arsenal for the past eight years. He has more than seventeen years of Government service. The Jennings family transferred to Huntsville from Charleston, S.C.

Hanners is a native of Hartselle who lives in town and owns a farm close to the Flint River. He gained his knowledge of draftsmanship at the Decatur Trade Center and transferred from the Army Ballistic Missile Agency to the Support Command when the Agency was dissolved.

Gudaitis Is MIT Graduate

William V. Gudaitis of the Army Missile Command is one of 45 industrial and government executives to graduate Friday, June 10, from the Massachusetts Institute of Technology.

Gudaitis, Deputy Director of the

Army Inertial Guidance and Control Laboratory. Research and Development Directorate, is the only Department of Army executive in the class of Sloan Fellows in Industrial Management at MIT. He and the other students will be awarded Master of Science degrees.

The Sloan Fellows, all with five to 15 years experience in management, have been on leave from their organizations for the full year of graduate-level study. Special emphasis was placed on economics, finance, accounting, marketing and human relations. Each member of the group was required to submit a thesis based on individual research.

Belgian Visitors Receive Briefings On Army Programs

The Deputy Inspector General and the Corps Artillery Commander of the Belgian Army were visitors today of the Army Missile Command.

Maj. Gen. Victor M. Leeuwereck, Deputy Inspector General, Maj. Gen. Emile J. Raemaekers, Corps Artillery Commander, and Col. Rene V. DeVlyder, Director of Infantry, were given briefings on Army missile programs and toured research and development laboratories during their one-day visit here.

They were welcomed to Redstone by Brig. Gen. E. I. Donley, Deputy Commanding General for Land Combat Systems of the Missile Command.

Astronomers To Meet

Tomorrow night the Rocket City Astronomical Association will meet at the Brown Engineering Company on Sparkman Drive at 8 p.m. to hear Dr. T. C. Helvey discuss the Far Future of Human Space Flight.

Dr. Helvey is the director of the Institute for Space Education at the University of South Florida, Tampa.

This RCAA meeting is open to the public. Admission is free.

PERFECTIONISTS—Buell Hanners (left); and William Jennings discuss an illustration which will accompany an application for a patent. They are employed in the Patent Center of the U. S. Army Missile Support Command. During the past two years their 322 pages of drawings have passed U. S. Patent Office standards without question, a perfect example of Zero Defects.

Wherry Area Utilities Now Distributed By Army

Huntsville Utilities-owned gas and electric distribution systems in the Wherry Housing area of Redstone Arsenal have been purchased by the Army.

This now means that gas operation and maintenance to the government-owned housing units will be provided by the Post Engineers. The Army purchases gas on a bulk rate for the family housing units.

Electrical operation and maintenance to the Wherry area will also now be the total responsibility of the post Engineers.

The Post Engineer estimates

that the purchase of utility systems will result in a savings to the Government of more than \$11,000 a year.

Wherry housing units were built in the early 1950's under a law that permitted construction of dependent housing on Federal installations by private builders. This included furnishing utility service on a private basis. Congress later passed a law permitting the Government to obtain ownership of this type housing and the utility distribution systems supplying them. The Wherry units at Redstone were purchased by the Army several years ago, while the utility systems remained under ownership of the city.

Other residential areas on Redstone were already being serviced from Arsenal owned utilities and are not affected by the recent change.

ACQUIRING ARSENAL UTILITIES—Col. Thomas W. Cook, Commander of the Army Missile Support Command, prepares to sign a purchase agreement under which the Army recently acquired gas and electrical distribution systems on Redstone Arsenal from Huntsville Utilities. Looking on left to right are Huntsville Mayor Glenn Hearn; Edward Cobb, General Manager, Huntsville Utilities; William T. Hood, Post Engineers; and Harry Rhett, Chairman of the Board, Huntsville Utilities.

IEEE AUTOMATIC CONTROL GROUP MEET TOMORROW

The Institute of Electrical and Electronic Engineers Automatic Control Group will meet tomorrow at 7:30 p.m. at the Alabama Research Institute.

Pure Fluid Amplifiers, will be the topic of L. B. Taplin, Manager of the Energy Conversion and Dynamic Controls Laboratory of the Bendix Corporation Research Laboratories Division.

Since 1961, Taplin has authored or co-authored eleven technical papers about pneumatic controls and fluid power systems. He also has a number of patent applications on file in the fluid power field. Taplin is a member of IEEE.

Spanish Army Representatives Visit Here

The Army Missile Command was host this week to Brig. Gen. Carlos Hernandez, Risueno, Commanding General of the Infantry Center of the Spanish Army.

Brig. Gen. E. I. Donley, Deputy Commanding General for Land Combat Systems of the Missile Command, welcomed General Risueno and his party to Redstone Arsenal.

They received a general briefing on Missile Command missions and missile projects and tour of facilities.

Included in the party were Lt. Col. Fernando Herrera Reuda and Maj. Sebastian Perez Crusells.

\$1.5 Million Award Made For Shillelagh Spare Parts

The U. S. Army has awarded a \$1,496,905 follow-on contract to Philco Corporation's Aeronutronic Division to supply spare parts for the Shillelagh anti-tank guided missile system.

Being developed for Army armored vehicles, Shillelagh's 152mm gun-launcher can fire either missiles or conventional ammunition.

The program is managed by the Army Missile Command under Lt. Col. Spencer R. Baen, Project Manager. Aeronutronic is prime contractor.

Negotiating the contract for the Army was the Southwest Procurement Agency, Pasadena, California.

MacGowan Participates In Computation Seminar

Roger A. MacGowan, a computation specialist with the Army Missile Command Computation Center, was a guest faculty member on June 7 at the Automatic Data Processing Management Training Center.

A seminar on Scientific and Technical Applications of ADP was conducted at the center. Sponsors in Career Development, U. S. Civil Service Commission, Washington D. C.

Army Science Conference Has Command Participants

Eight engineers and scientists in the Research and Development Directorate of the U. S. Army Missile Command will present papers on various technical subjects during the June 14-17 Army Science Conference at the U. S. Military Academy West Point.

The Missile Command's Chief Scientist, Dr. William W. Carter, and John L. McDaniel, Technical

Director of the Research and Development Directorate, each will preside over a session of the four-day meeting.

The purpose of the conference, the fifth to be held, is to provide an opportunity for Army scientists and engineers to present the results of their work. It is being planned and conducted under supervision of the Chief of Re-

search and Development, Department of the Army.

Titles of the papers and the Missile Command people who will present them are:

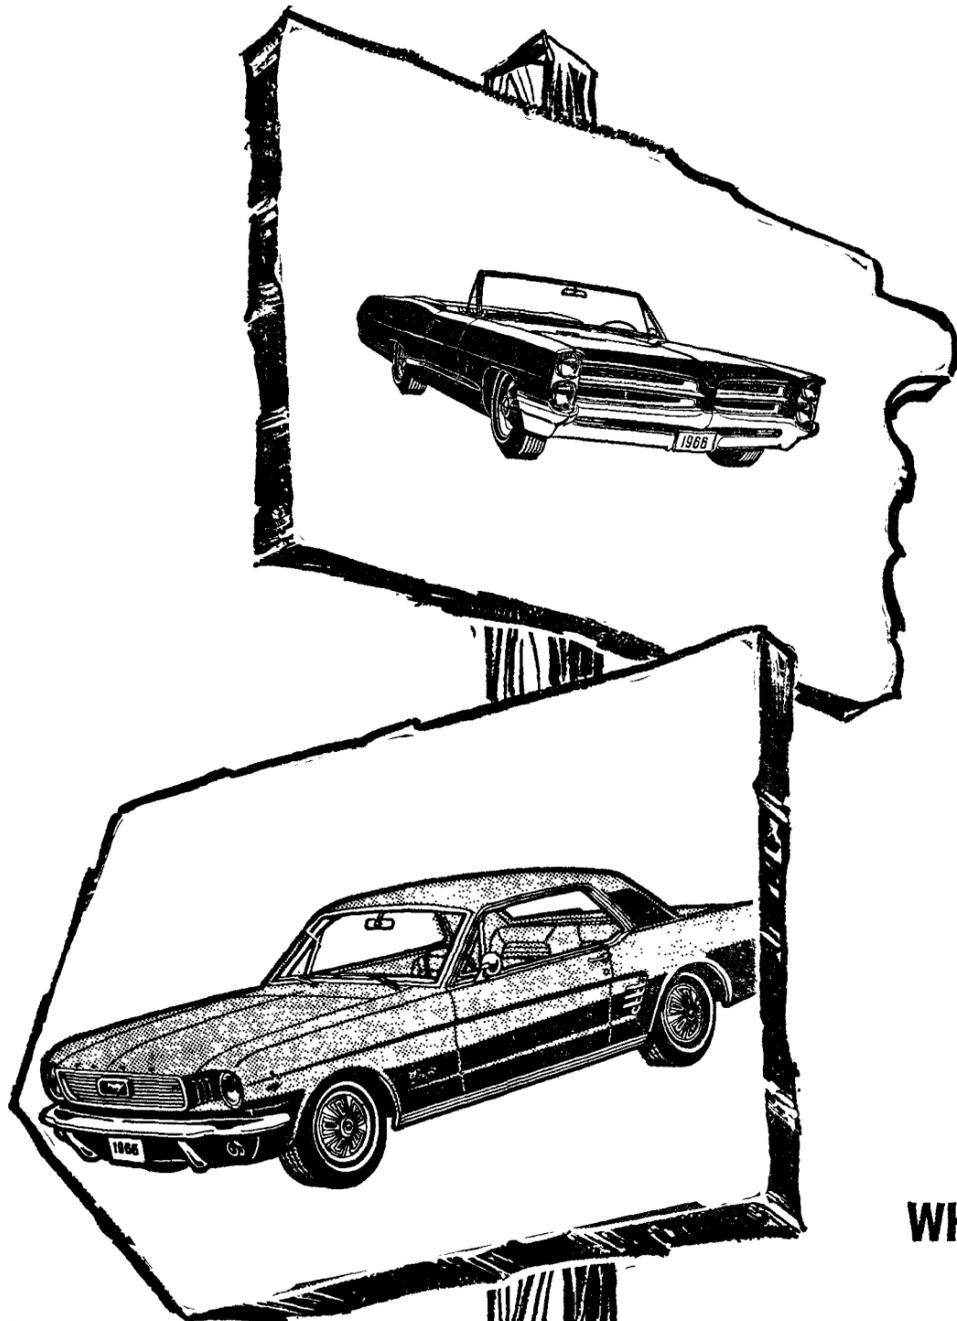

"A New Binder for Composite Solid Rocket Propellants," Henry C. Allen, Propulsion Laboratory; "Self-Focusing of Intense Beams of Relativistic-Electrons," Thomas G. Roberts, Physical Sciences Laboratory; "Ductility of Refractory Metals Through Thermal Techniques," Julian E. Bynum, Structures and Mechanics Laboratory; "A New Energetic Polymeric Binder for High Performance Propellants," Chester W. Huskins, Propulsion Laboratory; "A Laser

Deviser for Use in Clinical Treatment of Malignant Tumors," William McKnight, Electromagnetic Laboratory; "A Correlation of the Base Drag of Bodies of Revolution with a Jet Exhausting from the Base," Charles E. Brazzel, Advanced Systems Laboratory; "Investigation of Exchange Effects in Ruby by Line Shape Comparisons," Dr. Richard L. Hartman; and "A Study of Sub-Optimal Control Laws," Kelly V. Grider.

Others from Redstone Arsenal planning to attend the Army Science Conference are Dr. Oswald

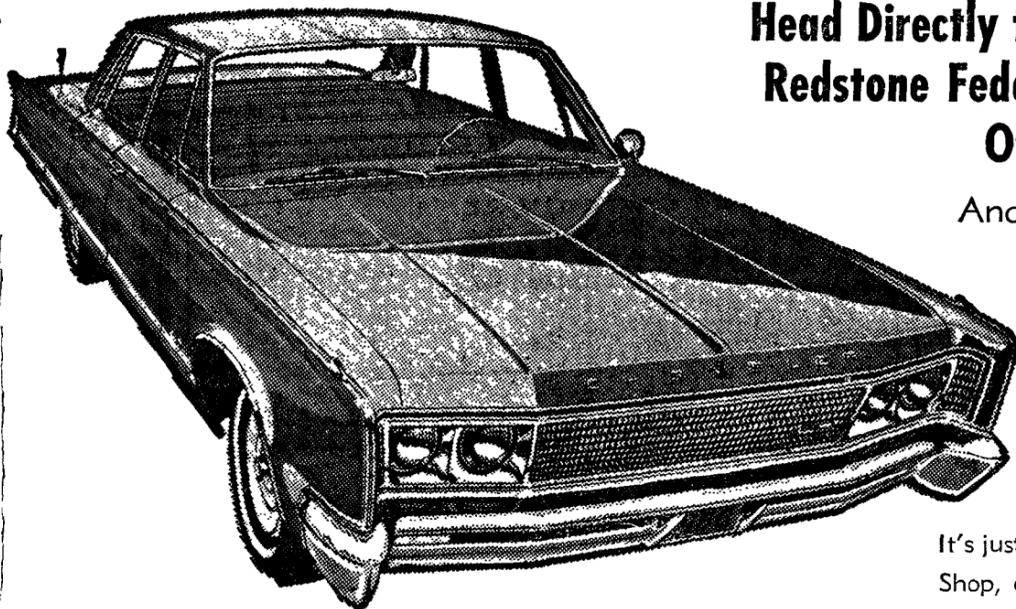

H. Lange, Chief Scientist, Nike-X Project Office, and James J. Fagan, Scientific and Engineering Assistant to the Director of the Missile Command's Research and Development Directorate.

● The new Army Green wool gabardine overcoat and the Army Green raincoat now being phased into regular wear will not be worn with organizational shoulder patches or sleeve insignia denoting enlisted rank, according to a DA announcement. However, the new coats may be worn with civilian clothing. (ANF)

Chemists Present Award

Chester W. Huskins, chairman of the North Alabama Section of the American Chemical Society presented the third annual Madison Marshall Award to Professor Carl S. Marvel of the University of Arizona last Wednesday.

The event took place at the dinner meeting at the Carriage Inn Motor Hotel. The award is presented in memory of Dr. Madison Marshall, a research chemist at Chemstrand in Decatur and former head of the Department of Chemistry at Athens College. The award

was established in 1963 and first presented in 1964 to professor George B. Kistiakawsky. Last year Nobel Laureate Peter J. W. Debye received the award.

FIRST FROM THE CONGO—First Sergeant Francois Tshiteya of Leopoldville, The Congo, is the first student from his African nation to enroll at the Missile & Munitions Center & School. Studying in the ammunition department, he brings to 23 the list of foreign nations that have sent representatives to study here.

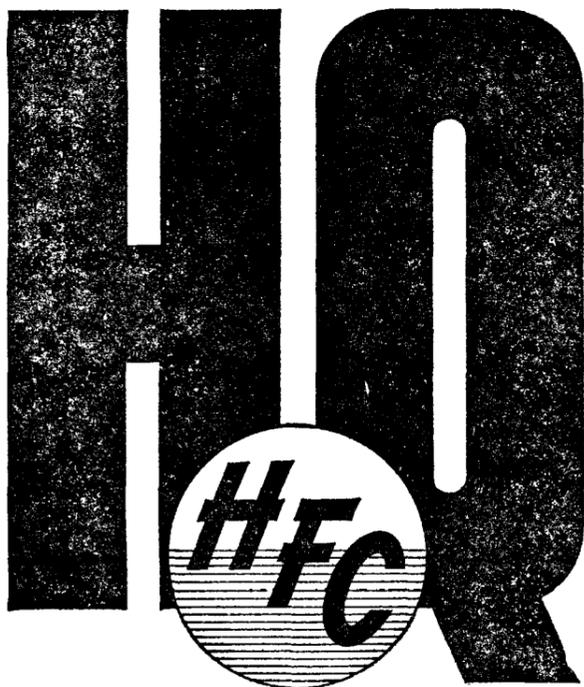

SHORT COURSE

The University of Alabama, Huntsville is offering a short course in statistical methods in engineering experiments July 25-29.

NEW PERSONNEL OFFICERS—Newly elected officers of the Huntsville Chapter, Society for Personnel Administration, get together to discuss plans for the coming year. They will be installed at the chapter's meeting June 21 at the Redstone Officer's Open Mess. From left are James Blackburn, Chief of Civilian Personnel's Employment and Services Division, Army Missile Support Command, president; James Self, Personnel Supervisor for SPACO, Inc., vice-president; and Mrs. Jean Litchfield, Personnel Specialist in the Civilian Personnel Office, AMSC, treasurer. John Hinkle, Chief of Training and Development Division, AMSC, is the outgoing chapter president.

A child to educate? Monthly investment of \$37.50 in Series E United States Savings Bonds will grow to \$10,964 at the end of 17 years, assuming the current rate of yield is unchanged during the automatic 10-year extension period.

Headquarters Company for 150,000 servicemen a year

Household Finance helps all kinds of servicemen with all kinds of money needs: paying bills and instalment contracts, going on leave, covering everyday shopping needs—or big purchases—like a better car.

NOW SUNBEAM SEDANS START AS LOW AS \$1549.00

Sunbeam IMP Sports Sedan—Now Only \$1549.00

This spunky car is about the next most economical thing to a bicycle. But it seats 4 adults in comfort and you can put 3 children in the back seat. It gets to 40 miles per gallon, has no greasing points and converts in a jiffy to a station-wagon. Does up to 70 mph and is so tough it recently ran Miami, Florida to Fairbanks, Alaska in only 121 hours. Perfect for the economy minded family or for light business deliveries.

Sunbeam "1725" Deluxe Sedan—Now Only \$1813.00

Maybe you need a little more car. This one offers 4 door convenience and seats 5 adults in complete comfort. Yet it's still compact, gives you real easy parking and economical operation. Up to 30 miles per gallon efficiency. With its plush interior and huge trunk it is the ideal family car. Full synchro-mesh 4-on-the-floor transmission is included in the price but you can have American Automatic Transmission as a very reasonable optional extra.

**Rescue Units
Meet Tonight**

A meeting on the proposed consolidation of rescue units in Huntsville and Madison County will be held tonight at 8 o'clock in the Huntsville Utilities Building Auditorium.

The meeting is to discuss the newly formed Huntsville-Madison County Emergency Rescue Board and acquaint the public with the capabilities represented by the consolidation.

The idea of pooling rescue efforts resulted from a study of the Madison County Council of Community Organizations. The proposal would coordinate city, county and state law enforcement officials, Civil Defense personnel, the Civil Air Patrol, River Patrol and the Madison County and Speleological Rescue squads.

**SAME To Hear
O'Quinn Talk**

The Society of American Military Engineers will meet at the Redstone Officers Open Mess tomorrow night at 6:30 p.m.

After dinner, Frank M. O'Quinn will discuss some of the equipment under test by the Army Armor and Engineer Board. He is chief of the Board's Pioneer Branch, Engineer Division at Ft. Knox, Ky. O'Quinn will illustrate his talk with a color-sound movie.
