REDSTONE ARSENAL, HUNTSVILLE, ALABAMA

AUGUST 24, 1966

Cost Reduction Week Observed At Redstone

Col. George H. McBride Receives BG Nomination

Col. George H. McBride, Project Manager of the Hawk air defense missile system at the U.S. Army Missile Command, has been nominated for the rank of Brigadier General by President Lyndon B. Johnson.

The nomination is to be sent to the U.S. Senate for confirmation.

Col. McBride is serving his third tour of duty at Redstone Arsenal. He last came here in 1963 and was named Assistant Commandant of the Ordnance Guided Missile School, a position he held until taking over as Hawk Project Manager in August 1964.

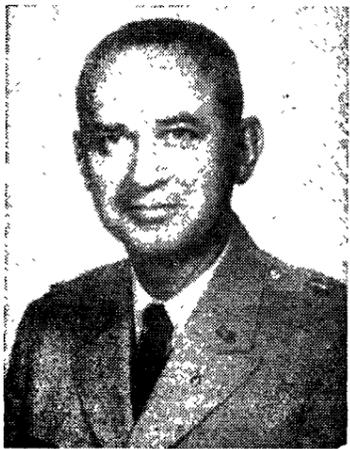

He was born in Birmingham, Ala., where he received his early education. Auburn University awarded him a bachelor of science degree in mechanical engineering in 1942.

Upon graduation from college, he was commissioned a Second Lieutenant in the Corps of Engineers Reserve and went on active duty. A few months later he was transferred to the Ordnance Corps and, during World War II, served as a maintenance company officer and commander in an Armored Division. He was Assistant Corps Ordnance Officer (Maintenance) for the XVIII Airborne Corps during the later stages of the war in Europe.

In December 1945, Col. McBride was released from active duty and accepted a position in Birmingham as a machinery and tool designer.

He returned to active duty in 1947 and was stationed at Eglin Air Force Base, Fla., as Cold Weather Test Officer for two years. During the next four years, he served in Puerto Rico, the Canal Zone and Washington, D.C.

Col. McBride first reported to

COL. GEORGE H. McBRIDE

Redstone in 1953 as Director of Training at the Ordnance Guided Missile School. After two years in that position, he enrolled in the Regular Officers Course at the Command and General Staff College, Ft. Leavenworth, Kan. He returned to Redstone and the newly established Army Ballistic Missile Agency, first as Deputy Director of the Training Division and later Deputy Director of the Industrial Division.

Col. McBride went to Turkey in 1959 as Ordnance Advisor to the 2nd Turkish Army, and from there back to the United States as Executive Officer and Director, Development and Proof Services, Aberdeen Proving Ground, Md.

The Hawk Project Manager is married to the former Mary Frances Jinnett, also a native of Birmingham. They have two daughters: Mary Eileen, a student at Auburn University, and Mrs. Jinnett Williams, wife of an Army Captain stationed in Stuttgart, Germany.

NEW GUIDANCE TECHNIQUE TEST SUCCESS

The U. S. Army Missile Command has announced the successful testing of three new missile guidance and control techniques recently at White Sands Missile Range, N.M.

The new components, under development by the Army Inertial Guidance and Control Laboratory of the Missile Command's Research and Development Directorate, are an inertial quality gyro with pneumatic output, a pneumatic computer, and a hot gas fired reaction control valve.

First the individual devices were designed, fabricated and tested in the Laboratory's facilities at Redstone Arsenal. Then the guidance and control section was shipped to White Sands and mated with a standard tactical missile airframe and propulsion unit.

The test firing, from a tactical launcher, successfully demonstrated. (See GUIDANCE on Page 2)

Tomorrow's Ceremony To Spotlight Savings

Six civilian employees will be honored this week at a Cost Reduction Week ceremony for their efforts in pushing the U. S. Army Missile Command well over its cost savings goal for fiscal year 1966.

The ideas of these workers were responsible for five cost reduction projects which were selected by the Army for display at the Pentagon in Washington. Only 62 other projects throughout the Army were picked for such recognition.

Five of those to be honored are in the Missile Command's Supply and Maintenance Directorate. Listed with their suggested projects and fiscal year 1966 savings resulting from them, they are: Doris D. Jackson, Capshaw, Ala., reducing the number of module assemblies stocked for the Pershing missile system trainer, \$37,920; Roy Henderson, Somerville, Ala., eliminating the need for stocking certain re-

sistors for field repair of the Sergeant missile system, \$33,000; D. B. Smith, Fayetteville, Tenn., and Nolan L. Craig, Huntsville, Ala., combining technical manuals on trailer-mounted electronic shops for the Hercules missile system, reducing the number from four to two, \$137,643; and Patsy H. East, Huntsville, reducing the number of Sergeant synchro transmitters, which are guidance components, stocked in the field, \$49,300.

Earnest A. Young, Huntsville, who works in the Hawk Project Office, suggested the utilization of excess trailers for hauling Hawk missile system radar equipment. The savings for fiscal year 1966 amounted to \$14,532.

More than 400 people from the Missile Command and the Nike-X Project Office are expected to attend the ceremony at 9 a.m. Thursday in Redstone's Rocket Auditorium. The principal speaker will be Lt. Gen. W. B. Bunker, Deputy Commanding General of the Army Materiel Command, parent agency of the Missile Command.

During his visit to Redstone, Gen. Bunker will tour the research and development laboratories and test ranges, stopping along the way to see displays of some of the Missile Command's projects where costs of operation were reduced.

Gen. Frank S. Besson, Jr., Commanding General, designated August 22-26 as Cost Reduction Week throughout the Materiel Command. He had planned to attend the local Cost Reduction ceremony, but will be unable to because of illness in his family.

(See COST REDUCTION on Page 3)

Chairmen Meet To Plan Fall Combined Campaign

The first major meeting of organizational element chairmen for the 1967 Combined Federal Campaign in the Huntsville area was held last week.

Purpose of the luncheon meeting was to orient the chairmen in the mechanics of the campaign and to furnish them campaign materials.

The 17 chairmen assured Maj. Gen. John G. Zierdt, General Chairman for the campaign, that each organization is fully staffed with monitors and solicitors totaling 1700 Army employees who will be participating in the collection of funds for local, National and International Charity agencies.

Attending the luncheon meeting were the heads of

seven Federal agencies or their representatives, other than Army which are participating in this year's campaign. Agencies are: Marshall Space Flight Center, Defense Contract Supply Agency, Social Security Administration, General Accounting Office, Army Audit Agency, U. S. Civil Service Commission, Economic Development Administration and the Federal Housing Administration.

During the meeting Leonard M. Brockman, Executive Chairman, (See CHAIRMEN on Page 3)

ROCKET LAUNCHER WILL HELP CUT ARMY COSTS

A \$3,893,866 saving has been added up in the Research and Development Directorate of the U.S. Army Missile Command by improving the 2.75 inch rocket launcher the type in use in Vietnam on UH-1B helicopters.

The saving was made possible by the development of a new launcher with increased operational life, thus reducing the number needed to fill the Army's needs. The old launcher could fire an average of 175 rockets before replacement, while the improved version is capable of firing approximately 3,500 rockets without replacement of major parts or repairs.

In the spring of 1965, an intensive in-house engineering effort to provide a better, more reliable and repairable launcher which would increase operational life and lower program costs was begun in the Missile Command's Research and Development Directorate. The effort was completed six months later and the outgrowth of it was the improved launcher, known as the XM-158. The decision was then made to phase out the old XM-157 and procure the XM-158.

The \$3,893,866 cost saving was

made during fiscal year 1966. It is estimated that more than \$6 million will be saved during fiscal year 1967 because of the improvements made to the helicopter-mounted rocket launcher.

The new launcher consists of seven tubes clustered in a circular configuration. One launcher is mounted on each side of the helicopter in combination with the 7.62 mm machine gun.

Improvements made to the rocket launcher include increasing the wall thickness of the tubes, coating tube inner surface with a protective material, and providing a Teflon protective covering for electrical wiring exposed to the rocket blast. Also, the firing arm and launcher lock were redesigned and metal shroud around the cluster of tubes was eliminated for simplicity of disassembly, cleaning, repair and replacement of parts.

Three elements of the Research and Development Directorate were involved in the project. Technical supervision was performed by the Development Division. The Ground Support Equipment Laboratory had design and fabrication responsibilities, and test support was provided by the Test and Reliability Evaluation Laboratory.

LASER WORKS LIKE THIS—George Emmons, (right), electronic engineer in the Applied Physics Branch, explains to Dr. Donald M. Vestal (second from right), Professor of Mechanical Engineering at Auburn University, the working of the Laser in the Electromagnetics Laboratory of the Research and Development Directorate, Army Missile Command. In the background are Waite H. Todd (left) Branch Chief, and Lt. Manuel Flores, the escort. Dr. Vestal was a two-day visitor at the Missile Command last week.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, Huntsville, Ala., P. O. Box 346, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala.

Rocket Ruminations

If man does find the solution for world peace, it will be the most revolutionary reversal of his record we have ever known . . .

—George Catlett Marshall

"A Job For Everyone"

Army Employees at Redstone Arsenal have a double interest in the Department of Defense's Cost Reduction program.

First off, when the boss asks us to make a determined effort to deliver quality products, on time at the lowest possible cost, we strive to please. After all, it is part of our jobs to meet the goals set by management.

In the second place, each of us is a taxpayer. The money we save in cost reduction might very well be our own.

With these points in mind, then, we look with considerable personal pride on the cost reduction record established by the Army Missile Command during Fiscal Year 1966. We were able to report a savings of \$58.6 million, which is 135 per cent of the cost reduction goal assigned to us by the Army Materiel Command.

This accomplishment could only have been achieved through team effort. Success of our future efforts lies on the very same foundation—each of us working together toward a mutual goal.

General Zierdt, in calling for redoubled efforts toward cutting costs in the new fiscal year, said: "Designing and developing missile systems are tasks for experts, but cutting costs is a job for everyone."

Employee With 39 Years Retires From Service

Twenty six years of military service plus 13 years as a civilian employee of the Army came to an end this month with the retirement of John E. Ferguson, a program specialist with the Army

Missile Command. Interests in youth and church will now become major activities of the energetic Ferguson. Since he came to work at Redstone Arsenal in 1954, he has devoted much of his spare time to the Boy Scouts; served as secretary of the Whitesburg Junior High School P-TA; and worked diligently in programs connected with Church of the Nativity and other religious programs in the community. In addition, he is a member of the American Legion, Veterans of Foreign Wars, Elks Lodge, Eastern Star and the Masons.

Ferguson joined the army in 1927, serving until 1953 when he retired as a Warrant Officer. Prior to coming to Redstone, he was employed in civil service at Pine Bluff Arsenal, Ark.

At the time of his retirement, Ferguson was in the Program-Budget Division of the Office of Comptroller and Director of Programs. He had previously worked in the Supply and Maintenance Directorate of the Missile Command and was with the Army Rocket and Guided Missile Agency and the Army Ballistic Missile

JOHN E. FERGUSON

GUIDANCE (Continued From Page 1)

ed missile guidance and control by means of a no-moving part fluid system.

The test was the first of a planned series designed to prove the feasibility of techniques not used before in missile guidance and control. The control system put the missile near the predicted impact point, and all three components operated satisfactorily in the missile flight environment.

Agency, both forerunners of the Missile Command.

He and his wife live on Garth Road in Huntsville. They are parents of three sons, John, Richard and William.

Meadow Gold Dairies
601 CLINTON AVE., W. HUNTSVILLE, ALA.

Introducing the 2 family car.

The population explosion hasn't caught us sleeping. We made the Volkswagen Station Wagon big enough to hold about twice as much as a regular station wagon. So why not two families? There'd be seats enough (9). And luggage space enough (13 pieces). And enough windows to go around (21). Also, you'd be able to split fuel bills. (It averages 23 mpg to begin with). And you could park our 2 Family Wagon in 4' less space than a 1 family wagon. The problem, naturally, is to find another family with the same tastes in drive-in restaurants and movies, and such. However, maybe you already have enough people and belongings around your house to fill two wagons. Then all your problems are solved.

DIRECTORATE CHAIRMEN DISCUSS CFC PLANS—Leonard Twinem, Supply & Maintenance, (left), Willard Collins, Procurement and Production, (second from left), Maj. Gen. John G. Zierdt and Will A. Lewis, Research and Development, got together at last week's CFC luncheon to discuss the 1967 campaign. General Zierdt is General Chairman of the campaign.

Each Job Essential, Colonel Tells Graduating Classes

More than 110 students from the Army Missile and Munitions Center and School were reminded at formal graduation ceremonies Friday at the Post Theater that they are part of an overall pattern with each job an essential part of the military effort.

average in their studies.

Other honor students were: Pvt. Bryan F. Kayner 93.3; Pvt. Scotty E. Roetzel 89.9; and Pvt. Richard W. Meehan, 94.8.

COST REDUCTION

(Continued From Page 1)

A film, entitled "Cost Reduction is a Money Splendid Thing," will be shown at the Thursday ceremony. For those Missile Support Command personnel in Buildings 7101 and 7400 areas, showings of the film are scheduled for 8:30, 9:30 and 10:30 a.m. Wednesday in Rocket Auditorium. The film will be shown to all other personnel as soon as time will permit.

The Missile Command's cost reduction goal for the year ending this past June 30 was \$43 million. It was reached and exceeded by \$15 million.

Lt. Col. William H. Fogel, Research Analyst, U.S. Army Combat Development Command, addressed 119 graduating students, including a Lieutenant Colonel from Japan.

Col. Fogel also told the men. "If you really want to help us and want things done the right way, when you leave here on various assignments send us your ideas by writing to the school."

Three officers were presented the Association of the U.S. Army service school "outstanding student award" by William T. Weisinger, Tennessee Valley Chapter President of the AUSA. They were Cpt. Donald M. Buckbee, 96.3; Cpt. Ernest B. Jackson 97.6; and 2/Lt. Richard J. Raymon with a 96.5 grade average. The AUSA plaque is awarded to those students who attain a 96 point or better grade

high school and junior high school bands will be on hand each day of the week. The band concerts are in the evening, the entertainers will present afternoon shows. Every night a fireworks display will begin at 9:15 p.m.

Tuesday will be children's day for orphans, handicapped and underprivileged children. They will be guests of the Jaycees.

Hoagland said that the carnival will have bigger and better rides than those at past fairs in the area.

Among the attractions for the small fry, which includes Hoagland's two-year old daughter, Julie, will be the Boeing Clowns who will donate their time to the event.

Hoagland, a graduate from the Colorado School of Mines, finds that sawdust doesn't just lodge in shoes, but also gets in the blood. He's attended a convention and numerous fairs since the Jaycees chose him to head their 1966 enterprise in Huntsville.

He reports this year's event will house a whole tentful of Army missile equipment, and this will be the first year for a tentful of art. In all, there will be eight tents, six more than last year, filled with commercial and industrial exhibits, crafts fashioned by Home Demonstration Clubs. 4-H Clubs and Future Farmers of America and today's farmers will show off their livestock.

A barnyard zoo will be a feature for the youngsters. Hazel Green Jaycees will be in charge. Barker Bill or Tiger Terrell,

Missile Engineer Chairman Of Huntsville Jaycee Fair

General chairman for the 1966 Jaycee Fair in Huntsville Sept. 5-10 is a systems engineer in the MAW (medium anti-tank assault system weapons) Project Office.

Wes Hoagland was named chairman at the close of last year's Fair and has been on the run since then learning about how a well-run fair and carnival should be handled. The event will begin Labor Day with a parade through downtown Huntsville with the participants returning to the Coliseum at the Fairgrounds to select a beauty queen to reign for the week.

capita gift rate and payroll deduction.

CHAIRMEN

(Continued From Page 1)

Army, for the 1967 Campaign, said that no individual organizational goals would be set for contributions but in order to meet the needs of the local United Givers Fund, National Health and International Service Agencies, an expectancy goal for all Federal Agencies had been set at \$434,000.

In short remarks encouraging the organizational chairmen to get an early start and wind up the 1967 campaign in a hurry, General Zierdt cited last year's campaign results as something to live up to. He said he had received letters of congratulation from both the Secretary of the Army and the Chairman of the Civil Service Commission.

In the 1966 campaign the Huntsville area ranked first in participation rate, per

SOCIAL ^{and} CLUB EVENTS

NCO Wives To Award Scholarship

The Non-Commissioned Officers Wives Club will make their annual presentation of a college scholarship during a dinner meeting tomorrow evening at the NCO Open Mess.

Larry Bernard Bennett, son of Sp5 and Mrs. Eric L. Bennett, has been selected to receive this year's scholarship award. He will attend Howard University, Washington, D.C. where he plans to major in political science.

Lt. Col. Carl H. Hansen, the Assistant for Personnel and Administration at the Army Missile Support Command, will make the presentation.

The event starts with a social hour from 6:30 to 7 p.m. Dinner

Season Registration For Activities Plan At Coffee September 6

The Redstone Arsenal Officers' Wives' Club will hold a Welcome Coffee on Tuesday, Sept. 6, at 10 o'clock.

Mrs. R. A. Robinson, chairman of the Hospitality Committee, invites all members and prospective members to be guests.

Reservation deadline is noon Friday, Sept. 2, Mrs. T. H. Moseley Jr. 877-4064; Mrs. T. H. Lynch, Jr. 877-5764; Mrs. J. T. Price 877-4862 or Mrs. L. S. Schmitz 877-4138 will accept reservations. Cancellations will be accepted until noon Monday, Sept. 5, by Mrs. C. T. Bayer 877-5735.

More than thirty classes and/or tours are open for registration.

will be served at 7. Hostesses will be Mrs. Walter Keenan, Mrs. Frank Reid, Mrs. Jack Clemons, Mrs. Eugene Kemen and Mrs. Henry Reichelt.

COMMUNITY SERVICES VOLUNTEERS—Left to right) Mrs. C. E. Dye and Mrs. E. O. Drumheller, Noncommissioned Officers and Officers Wives representatives respectively, discuss a personal problem with the wife and son of a military man who is serving overseas. The wife is living in the community until her husband returns. Meantime, the Army Community Services Office will give her assistance such as housing; information, privileges of dependents to use facilities on post and other personal assistance she may need while her husband is overseas.

Wives Group Forms To Aid Community Services Staff

The Army Community Service Office is getting a lift from wives of military men stationed at Redstone Arsenal.

The wives group, composed of wives of officers and enlisted men who live on post or in the community, will serve in the Community Service Office as volunteer clerical help and advisors for wives with or without families, who come to Huntsville to live while their husbands are overseas.

The first committee appointed, the In-Take Committee, has Mrs. E. O. Drumheller and Mrs. C. E. Dye working as co-chairmen representing the officers and enlisted wives respectively with Mrs. K. R. Pasch and Mrs. P. R. Burch rounding out the membership. Publicity has been assigned to Mrs. William LaHatte and Mrs. Harry Bullard, who are the regular publicity chairmen for the officers and NCO wives.

The Office, a part of the responsibility of Lt. Col. Carl H. Hansen, the Assistant for Personnel and Administration in the Army Missile Support Command, is headed by J. H. Cranford. The second member of the regular Community Service Office staff is Pete Kasper. The basic responsibility of these people is to help dislocated families find the services the Army provides, as well as housing and emergency assistance when needed.

Many wives of junior service men do not realize that by establishing their identity with the local Provost Marshall they are entitled to use their cars on post to go to the commissary, the chapel, the Post Hospital and other services the Army provides for

dependents of its members. The Community Services does not include acting on behalf of such specialists as chaplains, legal assistants, finance or other services the Army provides, but it can guide displaced families so that they can apply to the proper authorities for relief and assistance in the area the circumstances apply.

At present, the office also keeps a list of wives and widows of retired military personnel who are living in the vicinity of the Arsenal.

Daily bulletins and post newspapers are mailed to this list, which numbers about 150, once a week.

Anyone eligible is being urged

by the staff to register with Community Services and if nothing else, become acquainted with the members of the military community. The office is located in Building 7101, the Army Missile Support Command Headquarters. The phone number is 876-8957.

The Wives Group became active participants in the program Monday morning, when the first volunteer reported for duty at the Office. Volunteer hours will be from 10 a.m. until 3 p.m.

Plans for expansion of the volunteer services will be announced later.

The wives whose husbands are overseas are advised by the staff that the name, rank, serial number and unit of the husband and/or father, and the present address of the wife and family as well as the names and ages of the children are needed for the Community Services Office records.

Claudette Hollaway, Double Agent On Sunday

"Time is a very small thing when it comes to helping in the program to train our men going to Vietnam." This was one explanation given by Claudette Hollaway when asked why she gave up her weekends to take part in the US Army Missile & Munitions Center & School Vietnam Training Program.

Miss Hollaway, a clerk-typist in the Data Analysis Office of the Army Missile Support Command Finance & Accounting Center at Redstone Arsenal, portrays a Vietnamese woman in a recently constructed Vietnamese village similar to those located in that war torn nation.

Her role assumes many parts. When trainees enter the village she may be in the role of a Viet Cong sympathizer in which case she could be on guard in the tower, hidden in the vast tunnel network, or located in a hut, always armed with a weapon.

Other times she may appear friendly to the American troops.

At this time she furnishes information concerning the enemy to the trainees and they must evaluate it and take appropriate action. During visits by touring groups she assumes the role of hostess and is on hand to serve refreshments to the visitors.

Clad in black clothing and conical straw hat the 22-year-old volunteer bears little resemblance to the girl who was born in Arab, Alabama and graduated from the local high school.

Miss Hollaway was coached by 1/Lt. Jack E. Merle and SSgt Henry T. Asselin of the Republic of Viet Nam Training Committee until her role was letter perfect before she was allowed to take part in the training.

One problem she overcame was her nervousness at the sounds of explosions which took place all around her. She laughs about it now but she admits that "in the first few days I was continually shaking and watching everyone in anticipation of them setting off

one of their booby traps." She quickly added that firing a rifle wasn't too large a problem because "I have fired a few of these things during my life in Alabama."

Training for individuals begins on Saturday morning and runs through Sunday afternoon. This doesn't leave Claudette with too much free time during the weekend but she feels that it's a small sacrifice for the satisfaction she gets out of helping.

Maj. Griswold Named Chief Of Range Operations

Maj. W. H. Griswold, who has served as a Nike missile system project officer at both Redstone Arsenal and White Sands Missile Range, is the new Chief of the Range Operations Division at the Army's Kwajalein Test Site in the Pacific.

The Test Site is operated by the Nike-X Project Office at Redstone Arsenal, as a research and development site for the Nike-X missile

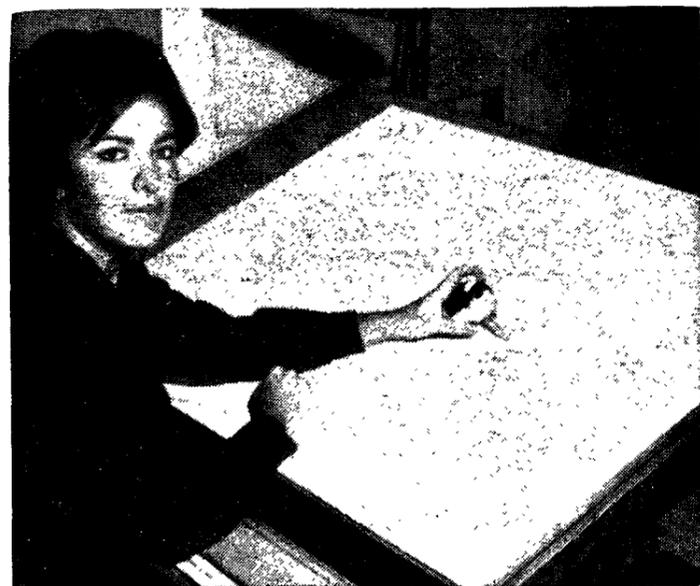

RESERVES OFFER NEW STUDY PLANS

All Officers of the Armed Forces, regular and reserve, are eligible to attend one of the dynamic new courses offered by the Naval Reserve Officers School starting Aug. 31 at the Naval Reserve Training Center in Huntsville.

The courses were specifically selected to meet both civilian and military professional needs of Officers in the Huntsville area. The courses are: Industrial Management, Fundamentals of Science, and Fundamentals of Digital Data Systems.

The Instructors were also specifically selected to teach the courses in that their civilian occupations with private industry are the same as the subject they teach.

Those desiring to enroll for the courses may so tonight at the Training Center. The classes will meet each Wednesday night during the normal school year, providing enough retirement points for a satisfactory year of Federal Service.

MULTI-TALENTED LADY—Claudette Hollaway pauses during her work as a 'draftsman' in the U.S. Army Missile Support Command Finance and Accounting Office at Redstone Arsenal, Alabama. She is also a clerk-typist in the office and in her spare time volunteers for duty as a Viet Cong sympathizer in the U.S. Army Missile & Munitions Center & School's Viet Nam village.

defense system and other Department of Defense projects.

Maj. Griswold was involved in Nike Ajax development work at Redstone in the early 50's. He also attended the Ordnance Guided

Missile School, predecessor of the Missile and Munitions Center and School.

Mrs. Griswold is the former Bobby Jean Jackson of Tuscaloosa, Ala.

The Redstone Rocket — August 24, 1966 Page 6

JUST A HOMEROCY—Female sympathizers don't sit around the house and wait for their menfolk to come home, as Claudette Hollaway exemplifies. Here she poses in front of her "house" with the tool of her trade, a Viet Cong rifle.

THERE IS A REASON WHY EVERYONE RECOMMENDS

N.A.C.C.

... It's because our training results in a good job for our graduates—we have 100 per cent placement for all graduates for 19 years. Our placement is free, and our graduates have lifetime brush-up rights.

SP4 BILL RICE, left receives congratulations and savings bond from Col. Erwin M. Graham, Jr. as July "Win-a-Bond" choice.

SP4 Rice Pens Jingle In Suggestion Contest

SP4 Bill L. Rice as the winner of the U. S. Missile & Munitions Center & School Win-A-Bond Contest conducted during July has been announced.

SP4 Rice, of the Pulse Circuits Branch, Advanced Subjects Division, Missile Components Department, was presented a \$25 U. S. Savings Bond and a Letter of Appreciation for his winning entry by Col. Erwin M. Graham Jr., Commandant.

The Army Suggestion Program Benefits MMCS because it
Saves money
 Utilizes (self improvement) resources
 Gains new ideas
 Guarantees maximum efficiency
 Enlists all personnel
 Skyrockets morale
 Typifies the Army way

According to Royce Riddle, field representative for the contest,

"the response was gratifying."

The winner was picked from 13 finalists by a committee headed by Dr. C. M. Hersh. The finalists will be published in the MMCS daily bulletin periodically.

HOME ON THE R&D RANGE or T&RE Missile Activities at Redstone

One of the most widespread activities at the Army Missile Command is that of the Test and Reliability Evaluation Laboratory of the Research and Development Directorate. These facilities run from environmental test chambers that can simulate any weather condition to flight test ranges on which small missiles are flown. Since pictures speak louder than words, here are some scenes of the T&RE Lab's varied activities.

- 1) Rocket sled test.
- 2) TOW controlled impact drop.
- 3) Static test stands.
- 4) Vibration test.
- 5) The boss directs activities.
- 6) Preparing 'chopper' for test.
- 7) Test instrumentation missile ready to go.
- 8) Lance in "deep freeze".

Comptrollers Pose Real Threat To DPO Sweep

Data Processing may have had things pretty much their own way so far in the Civilian Softball League but according to the Comptrollers, "They better not try to rest on their laurels."

The Processors have raced through eight straight second round games in their efforts to win both halves of the league race while the Comptrollers have taken seven out of eight in their efforts to make the playoffs and still have a date with the leaders.

Jim Bishop kept the Comptrollers in the race last week by twirling the first shutout of the season over Pershing 6-0. DPO countered with a 13-10 win over G & C Lab and a 17-5 conquest of the Propulsion Lab.

Documentation split a pair, handing the Comp Center a 15-8 lacing and then falling to a 12-11 loss to the Prop Lab. Pershing came back with an 8-3 win over Procurement and Production and Finance and Accounting edged the Comp Center, 21-20.

Bishop was the master all the way in blanking Pershing. He allowed the hard hitting missilemen just five hits and didn't walk a batter. Wilbur Daniels and Hal Jacobs provided him with the bat-

ting support with three hits apiece while Dennis Vaughn and Bill Powers were the defensive stand-outs.

DPO started fast with seven runs in the opening inning and scored in every other inning in their win over the Prop Lab as Gary Mann, Les Gilreath and Doug Peavy collected four hits apiece.

Joe McGough blaster a pair of homers and Mann hit for the circuit to pace the win over G & C. Norm Williams also joined in the homer parade and Bud Smith joined Peavy as winning pitcher for the games.

Documentation got a pair of homers from Hewel Carter and three hits each from Carl Honea, Tony Duncan and Randy Knight in their win over the Comp Center. Jim Wilkes was the winner.

Two nights later Documentation jumped off to an early 9-2 lead against the Prop Lab but was guilty of several costly errors for the loss. The Engineers came through with some timely hitting led by Bill Crownover and Jim Wright.

Crownover collected three singles and a triple to drive in five runs and Wright connected for a

three run homer as Seiford Schultz picked up the win.

Wayne Dahlke and Jay Allen collected a pair of safeties apiece to lead Pershing over P & P in a defensive battle. Caleb Burgoyne made his initial appearance on the mound for Pershing a winning effort by limiting P & P to seven hits. The defensive play shortstop Walt Heflin kept the losers within range.

The Comp Center rallied for five runs in the top of the seventh and tied the Accountants, but turned around and lost in the bottom half of the final inning on a pair of infield errors.

Elliott Agee, Julian Williams, Jack Willis and Charlie Harper collected three hits apiece in the winning attack and Johnnie Johnson picked up the win. Johnson scored five times including the winning run.

University Offers Non-Credit Course

The University of Alabama in Huntsville will offer during the fall quarter a wide variety of special non-credit courses, ranging from a graphics workshop to a lecture series on "The Changing South in Perspective." Persons are urged to participate in the offerings according to their interests and needs. The courses are designed to stress such benefits as refresher training for such fields as engineering and mechanics, the development of reading skills for

those wishing to improve their reading, the achievement of greater understanding of such topics as industrial purchasing and investments, and a broadening of the cultural concept of the student.

Nine different courses will be offered. Others may be added from time to time. These will be announced through local news media.

According to Dr. Charley Scott, Director of Instruction at the University, there will be increasing

emphasis on the development of these special non-credit courses as the University of Alabama in Huntsville continues to grow. "The University feels its obligation to provide facilities and services for bringing to the people of the Tennessee Valley region those educational opportunities consistent with the needs of the people and with the University resources available to maintain excellence," Dr. Scott said.

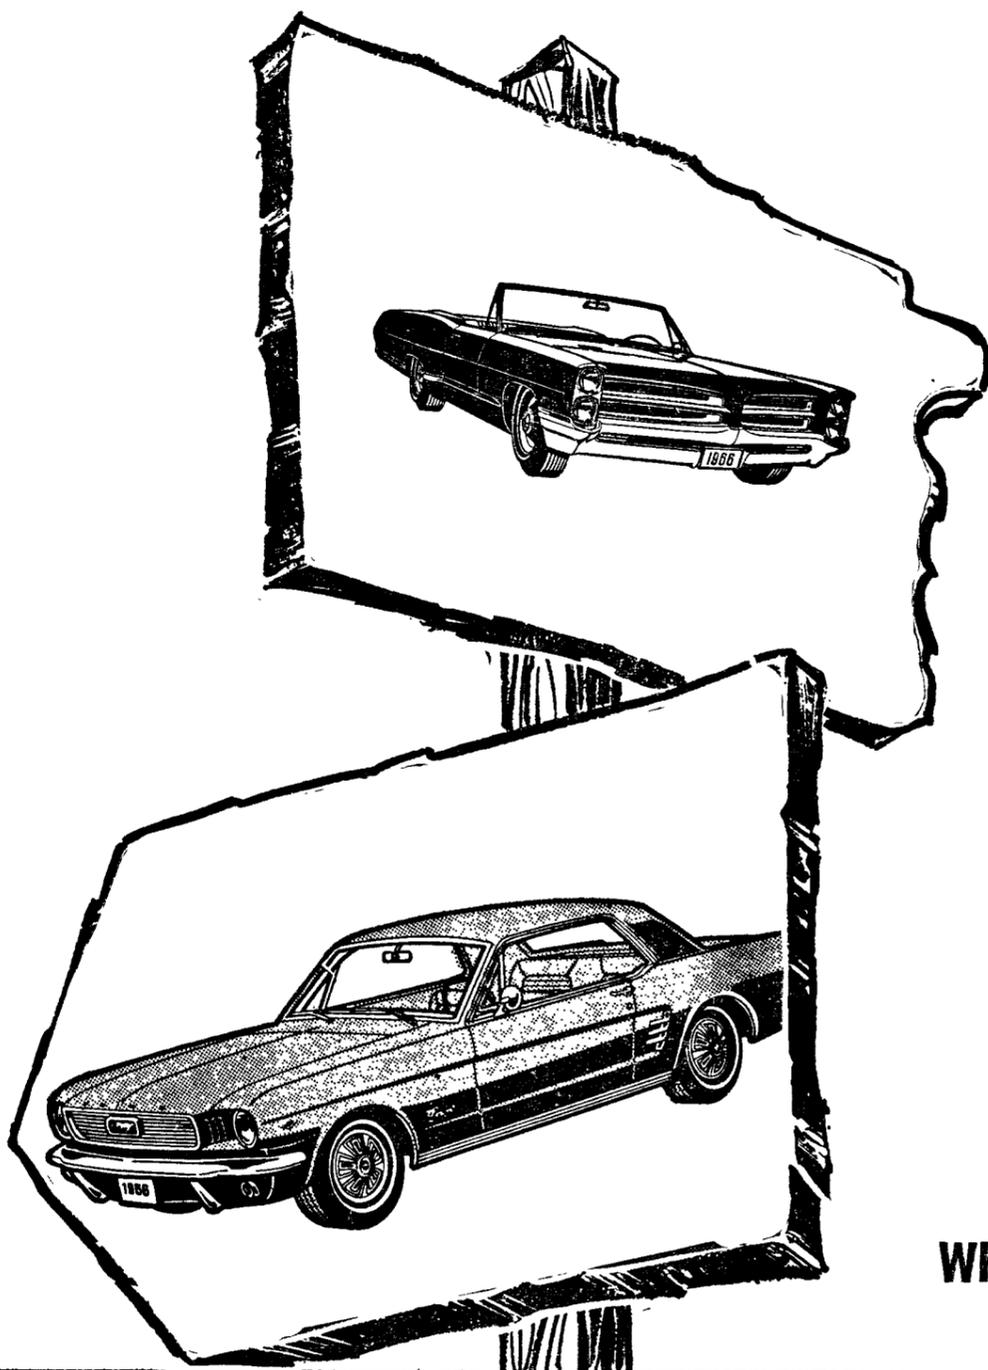

The University of Alabama in

Huntsville hopes that professional and non-professional residents, technical workers, high school graduates, college graduates and those without degrees, retired persons, housewives and husbands will see opportunities to benefit in technical, social, and cultural ways by enrolling for one or more of these special non-credit courses. Brochures describing the various courses being offered during the fall quarter may be obtained by request from the Office of Student Records, Room 108, Morton Hall, or by telephoning 837-4700

extension 266 during the day or 837-2440 during the evening hours. Anyone wishing to participate in a special non-credit course must complete an application for that course prior to the deadline announced in the brochure describing the course.

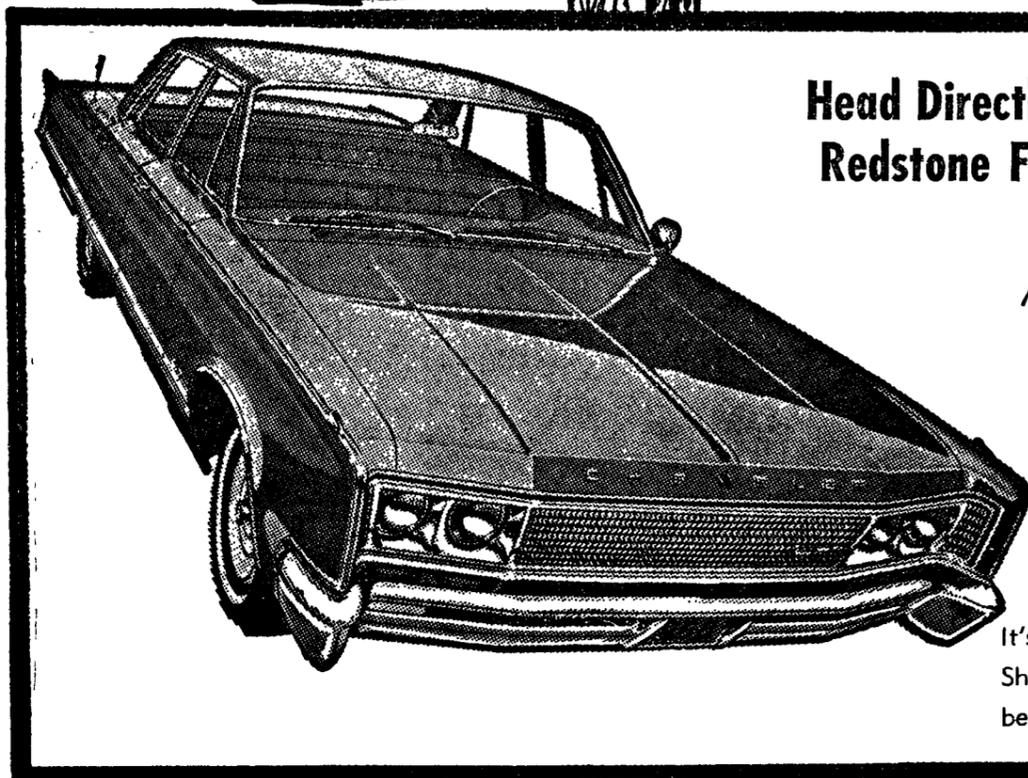

Specific details of the nature of each course and reminders of enrollment deadlines will be forthcoming through the news media at appropriate times.

Miss Morgan Joins Missile School Staff

It's a long way from teaching school children in Ethiopia to instructing soldiers in the U.S. Army Missile & Munitions Center & School, but Margaret Morgan not only looks forward to her work as an electronics instructor, she is also advancing her career in mathematics.

Her experiences in Ethiopia began in 1962 when she was assigned teaching duties in a small village with other Peace Corps workers. At this time there were only 180 volunteers in Ethiopia and her group consisted of five others.

According to Miss Morgan, about one Ethiopian child in every thousand gets the opportunity to read and write in school. Selection of students is far different from the manner to which we are accustomed. On opening day of school children gather outside

the school gates. When the gates are opened they make a dash for seats in the school building. Those getting seats are allowed to remain and those not fortunate enough to get seats are turned away and must try again the following year. School is five days a week and goes from the first grade until completion of college 16 years later.

Teaching wasn't her only duty in Ethiopia. Her group 'planted' a model farm which was used for demonstrations. The Peace Corps farm had a growth of extremely large potatoes and was considered a huge success.

Margaret attended Albertville High School in Alabama and later graduated from Birmingham Southern College. She taught 7th and 8th graders in Birmingham before departing for Ethiopia. Upon her return to the U.S. in 1964 she resumed teaching, this time in Albertville.

She applied for a position with the \$70 million school and was accepted. She is assigned to the Directorate of Individual Training, Missile Components Department and is in the Advanced Subjects Department as an electronics instructor trainee.

Chaplains Schedule Sunday Afternoon Reception Here

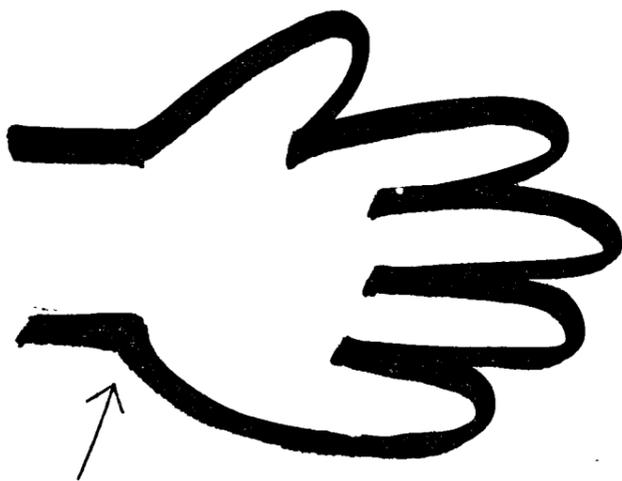

A reception at the Post Chapel next Sunday afternoon between 2 and 4 p.m. will honor the departing post Chaplain, Maj. John P. Kirkland, Jr., and the incoming Post Chaplain, Maj. Robert E.

Johnston. Mrs. Kirkland, Mrs. Johnston, Chaplain (Maj.) Peter T. Farrelly and Chaplain (Maj.) and Mrs. George Kahl will be in the reception line to greet all of the mili-

tary community. Invitations have been issued in each unit on post. Personal invitations have not been mailed to individuals, but the staff at the Post Chapel is inviting everyone to meet Chaplain Johnston and to wish Chaplain Kirkland farewell until his upcoming tour is complete.

BRONZE STAR FOR VIETNAM—Maj. Al Smith Madlock (left), recently assigned to the Hawk Project Office as the U. S. Army Missile Command, receives the Bronze Star Medal for outstanding meritorious service in Vietnam during the past year. A native of Coosa, Ga., Maj. Madlock enlisted in the Army in 1944 and also has served in Europe, Japan and Korea. Pinning on the medal is the Commanding General of the Missile Command, Maj. Gen. John G. Zierdt.

Lance Torture Chambers Hold Prototype Hardware

Environmental tests have begun on Lance tactical prototype hardware, during which the Army's new battlefield missile system is undergoing just about every torture test imaginable.

These tests, being conducted on missiles and all ground support equipment, are part of the Army's development plan to provide a weapon system that can perform anywhere in the world.

Announcement of the tests was made today by the U.S. Army Missile Command, Redstone Arsenal, Ala., which manages the Lance Program. Col. W. E. Mehlinger is

Project Manager; LTV's Michigan Aerospace Division is prime contractor.

At Aberdeen Proving Ground Md., Lance is undergoing rugged overland and water tests, facing some of the toughest obstacles that test engineers can devise. In rough-road and cross-country operations, vehicles are going up steep grades that a soldier would have trouble climbing; plowing through bogs that would stop the most powerful trucks, and bouncing over terrain that is designed, literally, to shake vehicles to pieces.

In addition, the two Lance vehicles—the Self-Propelled Vehicle and the Transporter-Loader, are swimming in a lake 12-feet deep to demonstrate ability to navigate deep streams.

Meanwhile, air drop tests are in progress at Yuma Proving Ground, Arizona. One phase of it involves more than 10 tons of equipment—the system's Self-Propelled Vehicle with a missile aboard—which is parachuted to the desert floor beneath six giant parachutes.

Later, other Lance equipment will go into deep freeze at Eglin Air Force Base, Florida. In test chambers simulating Arctic weather conditions, Lance will be operated in sub-zero temperatures that require men to wear heavy, fur-lined clothing. These tests are a "warm up" for the real thing, when intensive Non-Firing Arctic

tests are staged at Fort Greely, Alaska.

Then, at Fort Sill, Oklahoma, soldiers will conduct field tests during which they will take Lance equipment to the field, work with it and set up for simulated firings, similar to operating conditions in a tactical situation.

And at Redstone Arsenal, Ala., equipment will be placed in special chambers and subjected to such conditions as sand and dust, salt spray, humidity, fungus and sunshine.

The Missile Command's Test and Reliability Evaluation Laboratory, under the test team leader concept, is coordinating inputs from all the commands connected with Lance testing and is conducting

MICOM portions of the tests.

Data gathered from all the tests will be reviewed and, if needed, design changes will be incorporated into the final hardware design, production configuration.

Lance, now in advanced production engineering, is being developed to fill the Army's need for a highly mobile weapon system that can be transported by plane and air dropped and can go anywhere the soldier goes. The first Army missile to use pre-packaged storable liquid propellants, Lance can carry either a nuclear or conventional warhead.

Lance has undergone development flight testing at White Sands Missile Range, N.M., since March 1965.

make or break a mess hall. In fact, I credit the joint effort of all the people who work here for winning this award."

During competition the mess halls are judged on meal preparation, attractiveness of serving lines and dishes, cleanliness of area and personnel, and records management.

Mess No. 1 feeds all permanent party of MMCS, including officers, as well as various allied officer and enlisted personnel.

Mess Steward Says:

Cooks, Other Help Earn 'Best Of Year' Plaque

If a baseball player batting over .300 for the season is considered one of the best in his trade, what would you consider an Army Mess Hall that averages .750 for the year.

The US Army Missile & Munitions Center & School's Mess Hall No. 1 recently received the ninth award for Best Mess of the Month which has earned them the "Best Mess of the Year" award for 1966.

Col. Erwin M. Graham Jr., Commandant of MMCS awarded the plaque to 1/Lt. Peter Gutter, unit Mess Officer. SFC E7 Leonard B. Houk, Mess Steward for Mess No. 1 accepted the plaque for his per-

sonnel and cited their work as the key to success. He said, "The cooks are really the ones who

Scientist To Participate In Aerospace Conference

A Redstone Arsenal scientist, Dr. Oskar M. Essenwanger, lectured recently to college science teachers from across the country attending a National Science Foundation conference on "Aerospace and Space Physics" at Colorado State College.

Dr. Essenwanger, who is Chief of the Aerophysics Branch, Physical Sciences Laboratory, Research and Development Directorate, at the Army Missile Command, de-

livered four one-hour presentations on structure of the atmosphere and its impact on aerospace operations. The meeting was held the first week in August.

This is the second year he has participated in the conference on the campus at Ft. Collins, Colo. It is scheduled annually to acquaint college science, mathematics and natural science teachers with advances in the United States' aerospace program.

Col. Marcelle Receives Assignment In Washington

Col. David A. Marcelle, Comptroller and Director of Programs for the U. S. Army Missile Command, has been given a new assignment as Director of Accounting, Office of Comptroller of the Army, Washington, D. C. He will take up his new duties on September 1.

During the four years he has been at Redstone Arsenal, Col. Marcelle has been Command Finance and Accounting Officer from August 1, 1962, to June 30, 1965, when he assumed his present assignment. He has served as Chairman of the Missile Command Steering Committee for the design, development and installation of the PEMA Management Accounting and Reporting System. During the period 1963-'65 he led

each of the Command's major elements as Chairman of the Army Savings Bond Program and earned the Minuteman Flag Award. He also served as Chairman of the Labor Management Advisory Committee (and was concerned with negotiating several agreements with the American Federation of Government Employees.)

Col. Marcelle, a native of Troy, N.Y., entered the Army as a 2nd Lieutenant of Infantry in December, 1940. During World War II he served as a Battalion Commander in the Southwest Pacific and the Philippines. On Luzon and in Japan he served as Assistant G-3, Headquarters, Sixth U. S. Army. From 1946 to 1949 he served as Operations and Intelligence Officer, Alabama Military District. In

COL. D. A. MARCELLE

Germany he was Commander of Troops, Kitzingen Basic Training Center and Post Commander. His other assignments included duty in the Office, Deputy Chief of Staff for Personnel, HQ, DA; member of the DA Intelligence Board; intelligence and command assignments in Korea and Japan; and duty with the "All American" 82nd Airborne Division.

Col. Marcelle received his B.S. degree from the University of Maryland and has attended other colleges, including the University of Alabama as a graduate student. He has completed several courses at the Infantry, Intelligence, and Finance Schools; the Command and General Staff College and the Armed Forces Staff College.

He is well-known for his participation in Martial Arts and is a skilled instructor in judo and aikido; he is the holder of several Blackbelt degrees.

SELLING AT AUCTION

Thursday, Aug. 25, at 10:33 1/2 A.M.

The large concrete block building, all equipment, trucks, and other articles too numerous to mention. Belonging to the J. F. Rosson Trucking Seed and Fertilizer Company, Campbellsville, Tennessee. Located 15 miles north of Pulaski, Tennessee, 15 miles south of Columbia and Mt. Pleasant, Tennessee in the center of Campbellsville, Tennessee, on a blacktop road.

Mr. Rosson has been operating this business for many, many years. He has authorized us to sell on the premises the complete operation of the J. F. Rosson trucking, seed and fertilizer business, due to the fact that Mr. Rosson is retiring from active business.

This building located on a lot 60x80 ft., a concrete block building 36x71 ft. with concrete floor, metal roof and in excellent repair. Can be used for garage, feed store, gas station, grocery store or any other commercial business. It is in an A-1 location. Each article will be sold separately and that will be the final sale. If you are interested in a growing business or a good business, be sure to look this location over. Mr. Rosson has decided to have a complete dispersal sale, and everything will sell for the high, high dollar.

For Further Information, Contact MR. J. F. ROSSON AT CAMPBELLSVILLE, TENN. AT 363-4831

Terms: Real Estate—1/3 down, balance in 1, 2, and 3 years at 5% interest, a bankable note. All shop tools, trucks, and garage and seed equipment will be sold for cash.

A loader at Wales, Tennessee, that Mr. Rosson has been using to load and unload coal and corn and anything so desired, will sell at the Campbellsville location. It is located at the Wales Station Depot. Be sure to go by and look at this conveyer. This can be used at Wales, Tennessee, by taking Mr. Rosson's contract with the railroad, payable \$25 per year rent.

Other Equipment

- 1 1958 International Truck
- 1 1956 International Truck
- 1 Safe
- 4 Hay Hooks
- 2 Boomers
- 1 Log chain and light cord
- 2 Boomers
- 4 Scoops
- 1 Air Grease Gun
- 4 Gandys
- 2 Hydraulic Jacks
- 2 Foot Tubs and Water Cans
- 2 Forks
- 4 Scales
- 2 Water Hose
- 2 Axles, New Ring Gear and Pinion
- 5 Tarpaulins
- 1 Applicator
- 2 Conveyors
- 2 Grease Guns
- Tractor Wagon
- Tools and Bolt Clippers

Other articles too numerous to mention. Will offer at auction Mr. Rosson's interest in the scales joining the building. Mr. Rosson will sell his share of these scales and property to the highest bidder, so be sure and attend the auction of all this property at Campbellsville.

Also selling that day will be the building joining the Rosson building. It is now being used as a warehouse for seed and fertilizer. It is now owned by Mrs. C. B. Yokley. It will sell immediately following the sale of the Rosson building. Terms on this building will be cash.

PINTS AND DONOR—Donald L. Voorhees, Chief of the Adjutants Office and Chief of Records Control in the Army Missile Support Command, is a five gallon donor to the Red Cross Bloodmobile. Surrounded by racks of pints at the last visit of the unit Wednesday at Redstone, Voorhees smiles after the 40th pint was added to his record. He has been a regular contributor since he came to Redstone to be the Adjutant. He stayed on in the same office when he retired from active Army Service.
