Martin-Marietta Receives Defense ZD Flag

TOP ZD AWARD PRESENTED—Maj. Gen. John G. Zierdt, left, Commanding General, U. S. Army Missile Command, presents a Craftsmanship pennant to G. T. Willey, who retired as Vice President and General Manager of the Orlando Division of Martin Marietta Corporation on April 1. The pennant is symbolic of the Craftsmanship Award which is the highest award given in the

Department of Defense Zero Defects quality improvement program. The award was given the past Thursday to the Orlando Division and its employees "in recognition of sustained superior performance through individual craftsmanship reflecting outstanding achievements, increased efficiency, and economy."

Orlando, Fla.—There is a Department of Defense Craftsmanship pennant flying over the Martin Marietta Corporation's plant. The reason?

Employees of the defense firm have just received the two highest awards for achievement and craftsmanship in the Department of Defense Zero Defects quality improvement program.

Presentation of the awards was made last week by Maj. Gen. John G. Zierdt, Commanding General, U. S. Army Missile Command. Receiving the awards for the Orlando Division were G. T. Willey, Vice President and General Manager, who retired on April 1 after almost 50 years in the aerospace industry, and George E. Smith, who succeeded Willey on that date.

The Achievement Award was presented to the Orlando Division employees in recognition of improved quality as a result of participation in the Defense Department's Zero Defects program.

The Craftsmanship Award — symbolized by the pennant now flying from the firm's flagstaff — was presented "in recognition of sustained superior performance through individual craftsmanship reflecting outstanding achievements, increased efficiency, and economy." Both awards were for the period March 30, 1966 to March 30, 1967.

It was only two months ago that the Orlando Division received the Department of Defense Zero Defects Participation Award which is given to defense firms which have adopted the Zero Defects program.

Zero Defects was originated by Martin Marietta in 1962. It is a quality control improvement program designed to motivate employees to strive for perfection.

The Corporation is the first defense firm in the nation to receive all three Department of Defense Zero Defects awards.

James F. Halpin, who had been Director of Quality at the Orlando Division and who is now on special assignment at the Corporation's Aerospace Group Headquarters at Friendship, Md., was also given a U. S. Army Missile Command Excellence in Performance citation.

The citation was presented to Halpin for his outstanding contribution. (See MARTIN on Page 2)

Simultaneous Firings Give Troops Practice

Simultaneous launching of two Pershing missiles, followed shortly thereafter by a third climaxed the initial series of Pershing firings for 1967.

The three missiles were launched from the Blanding Test Site in Utah and impacted on White Sands Missile Range, about 400 miles away.

This was the first time since the off-range firings of Pershing started in 1963 that two of the missiles were fired and tracked simultaneously. Launch crews were soldiers from the U. S. 7th Army who were flown to the United States from Germany for the firings because there is no range in Europe of sufficient size or with necessary instrumentation capabilities for testing the 100 to 400 range Pershing.

Last week's firings were not only a noteworthy accomplishment for the troops, but also for missile range personnel who provided ground and flight safety, data collection and recovery support for the firings.

Pershing is managed by the U. S. Army Missile Command with Lt. Col. Edwin Rudd as Project Manager.

Last week's three firings brings this series at Blanding Test Site to a total of eight, all of which have been successful.

Earlier in March, two units from Ft. Sill and two from the 7th Army successfully fired four Pershings, and a unit from the West German Air Force launched

a fifth. The German troops had completed training at Ft. Sill and the firing was their graduation round.

Pershing is a tactical artillery weapon with nuclear capabilities. It was deployed to troops in the United States in late 1962 and to overseas units in early 1964.

TWELVE RECEIVE COMMENDATIONS

Twelve Redstone Arsenal officers and men have been awarded the Army Commendation Medal in recent ceremonies in recognition of their meritorious service.

Included on the list of honorees are six officers, two warrant officers and four enlisted personnel.

LTC Samuel S. Tillery, Jr., was awarded the Second Oak Leaf Cluster to the Commendation Medal and LTC Donald E. Burnett received his First Oak Leaf Cluster.

Other officers cited were Col. William S. Grabowski, Maj. Safron S. Canja, CPT Robert L. Brabenee and 1st Lt. Harry E. Trout.

CWO (W3) Arthur E. Wilkins was the winner of a Second Oak Leaf Cluster and CWO (W3) Bobbie D. Traylor was cited with his First Oak Leaf Cluster.

Enlisted personnel cited for their outstanding service are SMaj Russell T. Voisine, SSgt Douglas M. Kortright, SFC Garry L. Johnston and SP6 Edward J. Corbett.

Navy Awards Contract For "Sea Lance" Missile

DALLAS, Tex. — The Navy has awarded the Missiles and Space Division of LTV Aerospace Corporation a \$6,300,000 research and development contract for work on the Sea Lance missile, an adaptation of the Army Lance Missile, company officials said Thursday. The new missile, technically

called Landing Force Support Weapon (LFSW), is being designed for shore bombardment. It will have pinpoint accuracy, all-weather capabilities and a range longer than the biggest guns currently used by the Navy. Sea Lance will support United States Marine and Army.

(See AWARDS on Page 2)

SAIGON, ARVN — Col. Gilbert P. Levy (right), commanding officer of the Saigon Support Command, receives the first Oak Leaf Cluster to the Legion of Merit from Maj. Gen. Charles W. Eifler, commanding general, 1st Logistical Command. Colonel Levy was cited for his service as commanding officer of the Anniston (Ala.) Army Depot from August 1964 to July 1966. The veteran of 24 years of service was praised for his devotion to duty, leadership ability, resourcefulness and foresight. The 51-year old colonel is also a former Redstone Arsenal officer. The colonel's wife, Pat, and their two children live at 1208 Rickwood Road, Florence.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

Rocket Ruminations

Increased means and increased leisure are the two civilizers of man.
—Benjamin Disraeli

'Tis Spring

A sure sign that Summer is on the way in Alabama is the resumption of Retreat Parades and Reviews at Redstone Arsenal.

The redbuds have blossomed, peach blooms have given way to greenery, the pear and plum and apple have burst into bud, blossom, and leaf.

The Army band has polished its instruments, the honor guard's silver helmets are ready as the crack outfit shapes up its precision drilling—ready to greet a VIP or shine in a parade.

The world of wildflowers is already spilling over the landscape and the daffodils and crocus have already signalled to the bluebirds and other feathered folk that the magic of the North is calling. The tulips are waving on stately stems and the iris is putting forth its flags of green to accent the brilliant hues of blossoms bursting with rainbow flood.

Birds on the wing are calling—a few even scrapping over who will head a family.

The 'possums and foxes and skunks are showing a glistening whirr of fur at the approach of a human, but are unable to resist the call of Spring—the season for romping and showing off.

And the humans are throwing their "winter garment into the fires of Spring."

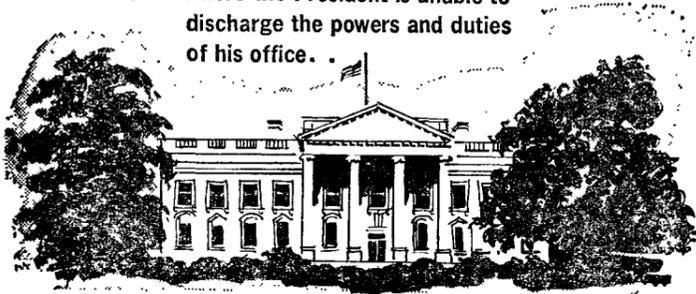

Presidential Disability

After 180 years of constitutional ambiguity and many years of careful study and research, the problem of Presidential disability and succession has been resolved and defined within the limits of human foresight and planning.

The 25th Amendment to the Constitution of the United States, ratified Feb. 10, 1967, gives the Nation

25th AMENDMENT

... where the President is unable to discharge the powers and duties of his office.

an orderly means of dealing with a crisis caused by either permanent or temporary disability of the President.

Section One of the amendment specifically authorizes the Vice President to become President in the event of the death or resignation of the President, rather than assuming only the "powers and duties" of the office.

Although this has been the custom since 1841 when John Tyler succeeded President William Henry Harrison, it was never officially stated in the Constitution.

To further insure that a qualified alternate is always available to assume the responsibilities of the Presidency in the event of crises, Section Two of the amendment gives the President authority to appoint, with the consent of both houses of Congress, a new Vice President, whenever that office is vacant. Thus, whenever a Vice President succeeds to the Presidency or dies in office and the office of Vice President is unfilled, the President is assured of being able to fill the office almost immediately rather than waiting until the next national election.

Section Three of the amendment provides a method for the President to temporarily transfer power to the Vice President at any time and to resume that power on his own option. This will allow an exhausted or ill President to gain respite from the burdens of his office.

Disagreements over a President's physical or mental condition and the automatic assumption of his powers and duties by the Vice President under certain conditions are covered by Section Four of the amendment.

Thus, the question of Presidential disability, long a serious problem, has been resolved and the Nation is assured of continuity in the exercise of the powers and duties of our most important office. (AFNB)

MARTIN

(Continued From Page 1)

butions to the Army Missile Command during the period January 1, 1963 to January 1, 1967.

The citation states:

"Halpin freely gave of his time and talents in promoting Zero Defects from its creation to a program of national significance. For his support of this Command . . . in the field of quality control, this award recognizes his achievement, which reflects great credit to him and the Martin Marietta Corporation."

AMMO COMPANY RETURNS HERE

The ammunition company sent to France in January to help move U. S. stocks of munitions and explosives from there to other NATO countries is back at the Missile & Munitions Center & School.

The 522nd Army Ordnance Ammunition commanded by Captain John S. LeGreca arrived at the Redstone Arsenal airport late Sunday night aboard two Air Force C-141 jet transports after a 10-hour flight from England. They were stationed in England for most of their three-month assignment.

The first ammunition company ever activated and trained at MMCS, the 522nd is tentatively scheduled to begin an advanced training course in a few days.

MANAGERS MEET FOR STUDIES IN ATLANTA

The 19th Personnel Management Conference for Executives recently graduated fifteen people from Redstone Arsenal including representatives from the Missile Command, the Center and School and Nike-X. The meeting was held at the Henry Grady Hotel in Atlanta.

This semi-annual conference is open to top civilian and military executives. Anyone who has attended a previous conference may be eligible to be a Case Leader as was John Debs of the Missile Command Inspector General's Office.

The Department of the Army Deputy Chief of Staff for Personnel sponsors the meeting for the Southeast Region with the Atlanta Army Depot in charge of coordination.

Others who attended include Delbert S. Spears, Gerald W. Myers, Walter J. Landers, Robert O. Black, Fred J. Cheplen, Paul L. Barney, Paul Teal, Shirley Miller, John H. Lynch, Jr., Robert H. Blessing, Elmer Hargis, Dana Speer, Curtis Williams, Sam R. Moore and Thomas G. Anderson.

forces during amphibious landings.

Research and development is being conducted at the Missiles and Space Division at Dallas and at MSD's Michigan facility at the Army Missile Plant at Sterling township near Detroit.

LTV Aerospace is the prime contractor for the entire Lance missile system, now in the preproduction stage.

The Navy launched a search for a Landing Force Support Weapon in 1961. The Naval Ordnance Test Station in California studied the Lance for this purpose in 1965 and concluded that a feasibility demonstration program should be undertaken.

The Sea Lance missile weighs one and one-half tons, has a 22-

ZERO DEFECTS CORNER

Winner of the Missile Command's "Zero Defects Employee-of-the-Month" Award for April is Miss Susanne K. Worsham (above), Clerk Typist in the Contract Pricing and Financing Branch of the Procurement and Production Directorate. Miss Worsham is recognized for her outstanding Zero Defects achievement in reducing typing errors. During a four-month period she has typed 236 pages of pricing reports, cost estimates, and correspondence with an accuracy rate of over 99.999%. Preparation of these documents involve typing narrative and numerical data in special formats where a high degree of accuracy is essential. In performing this job she has consistently demonstrated a keen awareness and desire for attaining perfection.

Miss Worsham was selected for the April award from a group of nominees considered by the MICOM Zero Defects Program Council. She was also recently presented the Procurement and Production Directorate Zero Defects Achievement Certificate by the Director, Colonel S. C. Holmes. Miss Worsham has been working in her present assignment since she began her employment at the Missile Command in October 1965. She resides with her sister and family, Mr. and Mrs. Cecil Wayne Pigg, Cecilia, Bobby, and Mike, in Pulaski, Tennessee. She graduated from Martin Junior College in Pulaski with an Associate of Arts Degree in premedicine, and later attended the University of Tennessee in Knoxville. She is also engaged as a part-time medical secretary at the Giles County Hospital in Pulaski.

The corsage Miss Worsham is wearing in the above photograph was presented to her by the other members of her organization in honor of her winning the "Employee-of-the-Month" award.

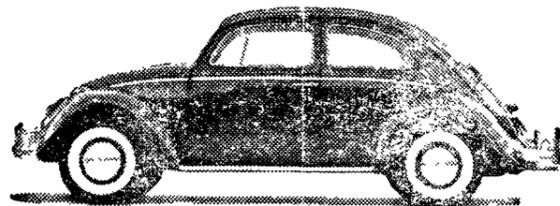

inch diameter, and is 20 feet long. Its components include a warhead section, a simplified inertial guidance and control system, and a propulsion package consisting of a dual chamber engine which utilizes pre-packaged storable liquid fuel.

Sea Lance will be fired from the MK5 launcher already being used by the Navy.

The initial program calls for development of a stabilization system

to keep the missile launcher accurately aimed while mounted on the deck of a moving ship.

The test program schedule includes firings of the Sea Lance at the Naval Ordnance Test Station under simulated shipboard conditions. Later, the missile will be fired from the Navy's experimental ship, the AVM-1 Norton Sound, off the coast of California.

SOCIAL and CLUB EVENTS

Forty Tables Of Card Players Attend Benefit

More than 40 tables of players attended the Benefit Bridge and luncheon sponsored by the Redstone Officers Wives Club to replenish the club's Welfare Fund last week.

The group met in the ballroom of the Officers Open Mess. Bridge winners for the day were: Mrs. P. McDaniel, Mrs. L. Strothers, Mrs. R. Eckstein, Mrs. M. Bevin, Mrs. E. Hirsch, Mrs. A. McCarthy, Mrs. J. Holmes, Mrs. D. Croxton, Mrs. A. Thomas, Mrs. L. Sheaffs and Mrs. E. Lederman.

Canasta winners were Mrs. H. Cooley and Mrs. E. Bolton. A special prize went to Mrs. M. Higdon.

Chairman for the event was Mrs. James T. Thompson assisted by Mrs. W. T. Lahatte. Serving on the committee were Mrs. E. E. Hayes, Mrs. J. S. Churan, Mrs. R. J. Percy, Mrs. S. R. Baenk, Mrs. R. C. Anglin and Mrs. Martin A. Waller.

All prizes were donations from local merchants.

THURSDAY BRIDGE

Winner at the bridge competition sponsored by the Redstone Officers Wives Club on Thursdays was Mrs. P. Harison. In second place was Mrs. A. Corp with Mrs. L. Nevelle third and Mrs. R. Allgeier low.

Mrs. Allgeier, 881-6088, handles reservations to play with the group.

FT. BELVOIR GRADUATES

William E. Prince, in the Facilities Office, attached with the Engineer and Service Division, US Army Missile Command, Tuesday completed the second Defense Family Housing Management Course of 1967 at the U. S. Army Management School. Conducted at Fort Belvoir, Va., this special week-long course was presented by the Army's senior school of managerial development. Included among the 54 graduates were both military officers and senior civilian employees of the Department of Defense.

A bevy of wives of junior Army officers modeled today a seasonal selection of casual apparel, at the Redstone Arsenal Officers' Open Mess.

They were: Mrs. Joseph J. Bertagnoli, Mrs. James W. Hall, Mrs. Kenneth R. Lee, Mrs. Stephen R. Redfield, Mrs. William S. Lenzi and Mrs. Beau B. Beard.

More than two hundred women attended the luncheon event which was the bimonthly meeting of wives of civilians and officers assigned to the Army Missile and Munitions Center and School.

Hostessing the event were ladies of the Air Defense Department.

Mrs. Raymond C. Bishop and Mrs. Robert J. Percy shared chairmanship honors, assisted by the following committees: decorations: Mrs. Richard D. Higdon, Mrs. Kenneth R. Lee, Mrs. Robert G. Griffith, Mrs. Hugh L. George, Mrs. Larry D. Sanpier, Mrs. Carl E. Harrison, Mrs. Richard W. Eastman, Mrs. James E. Green, Jr., Mrs. William H. Baumann, Mrs. Paul T. Wolf, Mrs. James A. Gust and Mrs. Ralph L. Hayes; menu: Mrs. Carol D. Waller;

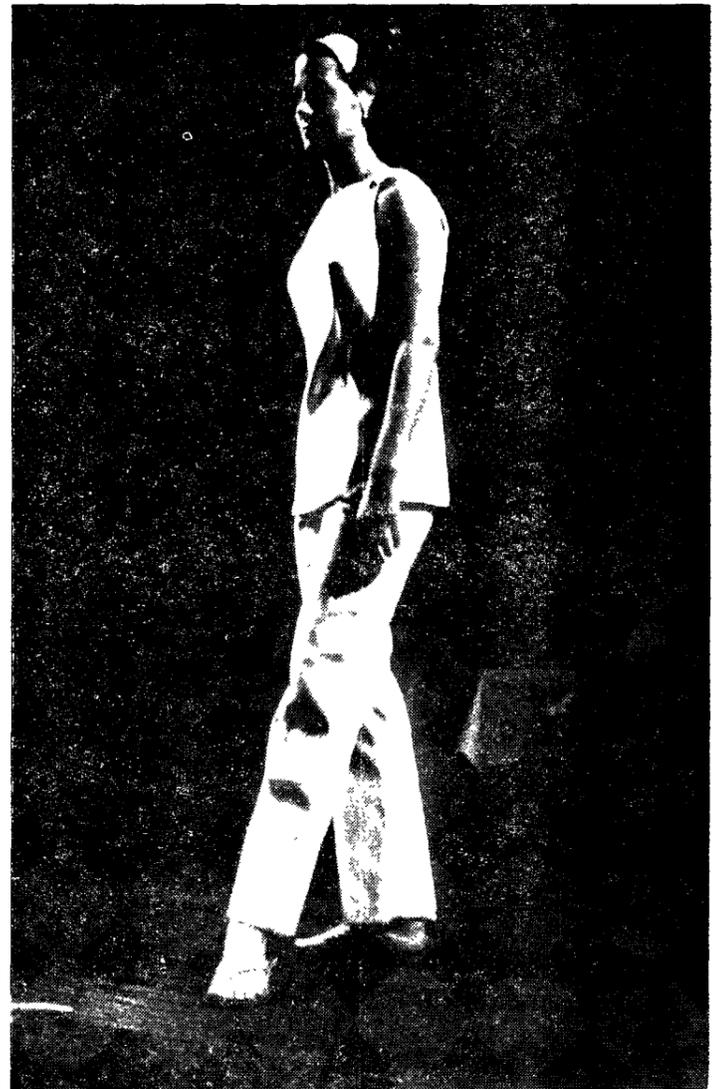

Posters: Mrs. Fenton L. Angell and Mrs. Stephen R. Redfield; wine tables: Mrs. Wilson T. Pierce, Mrs. James R. Fox, Mrs. Chessie T. McCurry, Jr., Mrs. Samuel D. Phillips, Mrs. Ernest Willhite and Mrs. Joseph Sheff.

Mrs. Charles D. Swick acted as commentator for the style show which was staged by Casual Corner of Huntsville.

Although none were shown the trend again this summer is to sun in a bikini and to cover up in casual clothes—mixed or matched and brilliant in hues of pinks, greens, gold, orange and purple . . . when others are watching. Necklines of overblouses are demurely high, many have sleeves

as do patio dresses and slack suits. Shoes are bare with these clothes. Hair is tucked inside floppy straw hats in gay shades, or held away from the face with head bands. Jewelry is oversize and obvious lucite or other material fashioned by man.

The summer scene on the links, around the pool, and at home on the patio promises to dazzle the least perceptive of the color conscious.

SLACKS TO RELAX—The costume features hip hugger slacks in crisp white with a "fool-you" demure overblouse which covers up the front and offers the sun a peekaboo approach with cutouts above and below the bodice fastening. Accents worn with this outfit are orange head band and sandals. These costumes were shown during the Missile and Munitions Center and School Wives lunch last week. The clothes and accessories are from the Casual Corner in the Mall.

COOL AND SHADY—Perfect for the patio party is this dress in green with kimona sleeves to help the straw hat shade sun-burnable arms and neck. The dress is appliqued with flowers and musical instruments in splashes of purple, yellow and orange.

NCO Wives Coffee Will Help Stock Lending Closet

NCO wives will hold a Coffee at the Temporary NCO Open Mess a week from today at 9 a.m. to help the Joint Activities Council stock the Lending Closet with cookware, cutlery, dishes and other items that a newly assigned family may need while their own household goods are still in transit from the installation they just left.

The NCO Wives Club is emphasizing that an individual need not be a member to participate in helping to establish the Lending Closet.

Hostesses for Wednesday's Coffee are Mrs. James Britton, Mrs. Franklin Harris, Mrs. David Lewis and Mrs. Horace Jackson.

A gadget corner will be set up for collection of donated items for the Lending Closet. The Closet will be serviced by Volunteers. The present plan is to open it on Mondays.

Left to right are Erin and Chyleane Flynn, daughters of Maj. and Mrs. William S. Flynn, and Ellen Davis, daughter of Mr. and Mrs. Don Davis. The children will be part of the group that will perform at the Officers Wives Club luncheon April 11.

Logistics Engineers Set Charter Meeting At Mess

Charles Stroud, an official of the Boeing Co., will be the guest speaker for the charter meeting of the Tennessee Valley Chapter, Society of Logistic Engineers, at the Redstone Officers Mess this evening.

The recently organized chapter of the national organization includes logistics oriented personnel of Federal agencies and aerospace companies throughout the area.

In addition to the speech by Mr. Stroud, the initial meeting will be highlighted by the presentation of the chapter's constitution and by-laws and an election of officers to serve for the coming year.

Harvey Wins Appointment To Academy

Robert C. Harvey, youngest son of Brig. Gen. and Mrs. Clarence C. Harvey, Jr., has received a Presidential Appointment to the U. S. Military Academy at West Point.

The appointment was made in national scholastic competition based on the results of College Board examinations.

Robert is a senior at Butler High School in Huntsville. His father is Deputy Commanding

General, Air Defense Systems, of the U. S. Army Missile Command. His oldest brother, Captain James F. Harvey graduated from West Point in 1964 and another brother, David D. is a second year man at the Military Academy.

STC Takes First All-Redstone Cage Tourney

Military Dribblers End Season With 27 Victories

The UCLA Bruins may have their Lew Ancindor, but when it comes to winning basketball games, the west coast collegians have nothing on the Headquarters Company team of the School Troop Command.

The STC cagers completed an all-winning season spanning 27 games last week when they captured the first All-Redstone basketball tournament with a 56-49 win over the RPL Quantum Jumpers, the Marshall Space Flight Center champs.

The two finalists were the last survivors of a six-team field that included the top two teams of the military league, the Marshall league, and the Civilian Welfare Fund league.

STC opened the tourney with a win over Documentation, the CWF kings, and continued on the winning trail against the Jumpers. The military cagers gained the final round by handing the Military Police their first setback.

The Jumpers came back from their opening loss to eliminate the Test Lab Fireballs, Finance and Accounting and the MPs.

The two finalists battled on even terms through three quarters of play as Gary Arnett and Bob Murphy waged a duel for scoring honors. The score was tied 17 times and the lead changed hands on 15 occasions before STC was

able to forge out ahead by six points midway in the final period, 50-44.

From there Bill Lenzi and Len Castillo, the back court stars of the champions kept the NASA challengers off balance with their brilliant passing while Don Lawrence and Dewey Hicks combined to take control of the defensive boards.

Murphy topped the STC scoring in the championship game with 17. Lenzi hit for 13 and Castillo accounted for 12 more.

The leading scorer of the game, however, was Gary Arnett who canned ten out of 14 shots from the field for 20 points. Bill Harrison was the only other Jumper to score in double figures with 13.

Lenzi, floor general of the champions, was named outstanding player in the tournament and Arnett, play maker and leading scorer for the Jumpers, was awarded the sportsmanship award.

Joining Lenzi and Arnett on the tourney all-star team were Bill Flynn and Bob Murphy, of STC, Harrison, Matt Croughan and Jim Sanford, of the MPs, Charles Williams, F & A, Don Donald, Fireballs, and Bob Hubbard, of Documentation.

Hqs.	STC	FG	F	Pts
Bob Murphy	7	3	17	
Bill Lenzi	3	7	13	

TOURNAMENT WINNERS—Jim Traglia and Doris Hughey walked off with honors in the recent 9th annual Supply and Maintenance Singles tournament held at the Parkway Lanis in Huntsville. Traglia string together games of 218, 219 and 214 in capturing the men's scratch title with 651 and Doris topped the ladies with 508. The two made it a sweep by taking the handicapped titles also with 700 and 658, respectively.

S&M Women Hope To Resume League

Action has been initiated aimed at reactivation of the Field Services Ladies bowling league for the 1967-68 season. The league was inactive this season after several very successful years.

Peggy Austin has taken over the task of reforming the league and has asked those who might be interested in league participation to let her know. She can be reached

by phone at 876-8823.

She added that the league would be restricted to employees (female) and wives of employees within the confines of Redstone Arsenal. This includes military personnel, civil service and contractor employees.

Parmalee Blasts 665 For Lone Honor Count

Roy Parmalee was the only civilian bowler to crack the honor roll last week but the Management League star made the most of it with a ringing 665, the second highest total rolled in the three loops this season.

Rolling for the Shoot 'n Scoots, Parmalee opened with a 221 and added a 227 and 217 to come within five pins of an earlier effort by D. B. Smith in the same league.

Parmalee had a good running mate in Hal Miller with a 571 as the Scooters took all four from the Pin Busters.

In the race for the league lead the All-Sports tightened matters by taking three points from the Debuggers while Huntsville Brick and Tile was being held to a split by Lily Flagg. The Trophymen trail HUBCO by a single point as the league schedule entered the final three weeks.

Fred Stewart shot a 588 and Jerry Arnts upended 573 more for the All-Sports in their winning effort HUBCO upset 1067 in one game and 3009 for the set but had to settle for a split.

Billy Tippins fired a 257 game and ended with 592 while Tom Lindsay edged his buddy, D. B. Smith, 578 to 577, all in the HUBCO attack.

One single stick of maple was all that stood between John Montana and the Honor Roll as he led Pearsall Flowers to three out of four from the 7 Ups and the Management Manglers kept the Auto Center in their spin by winning three.

Dan Chepkaukas hit games of 201 and 205 and totaled 591 to grab individual honors in the Field Services League by two pins from Jim Haight.

The versatile Chepkaukas paced the league leading Bramblett five to a trio of wins from the Crackers. Banner TV, however, moved to within two and a half points of the lead by taking all four from Loeb's Barbecue.

Haight also passed 200 twice in setting the pace for TV men. Nick Sparks shot 547 in leading

the Guided Muscles to three out of four from the Baker Realtors and Art Sevigny got the Expeditors a split with the Misfits with 554.

Ed Berg and Bill Fickling combined for 575 and 558 respectively as the Keglers won three from the Rejects.

The Bombers took another step toward sealing the lid on the AMC crown for the second straight year by sweeping the tough T-Birds. The Ramblers took three out of four from the Hi-Lo's but fell to five points off the pace.

Jerry Keagy returned to the Bomber lineup with a 522 and Joe Medders shot a 534 for the Ramblers.

Dick Nutt took individual honors for the week with a 580 as the Tigers shot a 2992 total and won three from the Panthers. Slim Wilson continued his hot streak with a 553 in leading the Rejectors past the Tow Boys.

The Stars scored the only sweep of the week against the Alley Cats as Ken Bell totaled 535, the Skippers won three from the Packers and the Lancers split with the Maulers.

All-Sports Get At Least A Tie

A pair of three point decisions last week all but wrapped up the Comp Center Mixed bowling league season in favor of the All-Sports Trophies.

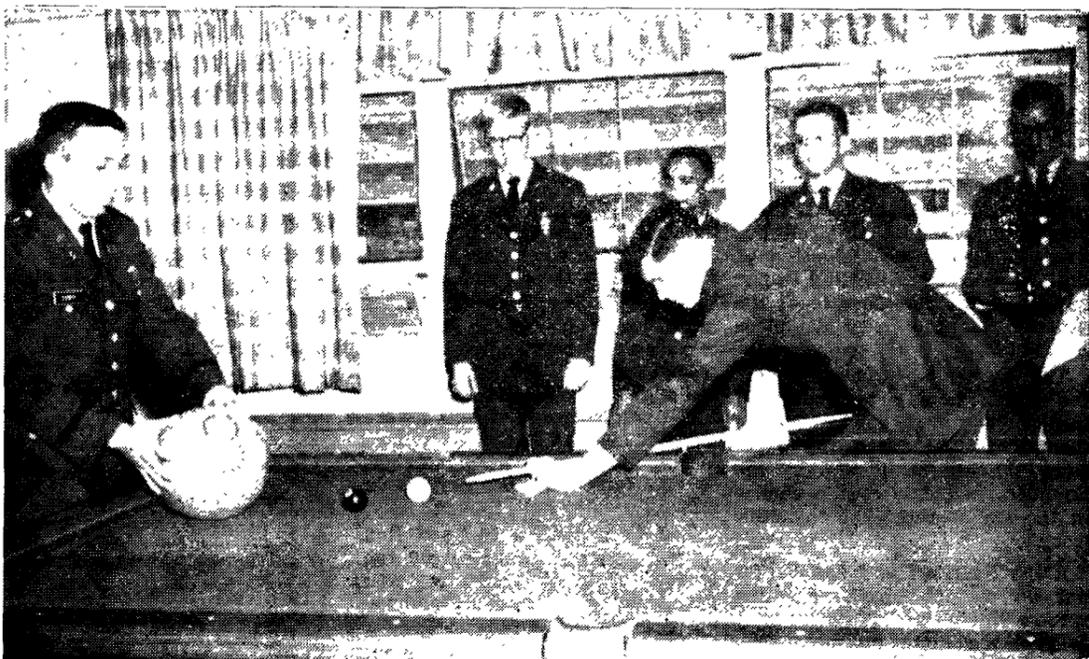

The Trophy makers took three out of four from the Squares while the Skunks were dropping to four points behind by losing three to the Hits 'n Misses. Either one win for the All-Sports this week or a single loss for the Skunks will end the race.

Wayne Spruell set the pace for the tie-clinching All-Sports win with a 532 while Jim Collins tossed a 524 in leading the Hits 'n Misses over the Skunks. Joe Bennett totaled 527 with a 204 game in the losing cause.

Randy Sumner rolled the top individual effort, but his 559 was almost wasted when the Alley Cats dropped three to the Lucky Strikes. Jimmy Likos was high for the Strikes with 520 and Ginny Hiatt was high among the women with 488 for the same team.

Helen Matthews ended a single pin behind Ginny and Bobby Beal added a 512 in another losing effort as the Spares dropped three out of four to the Bad Gnu's.

Drive Safely!

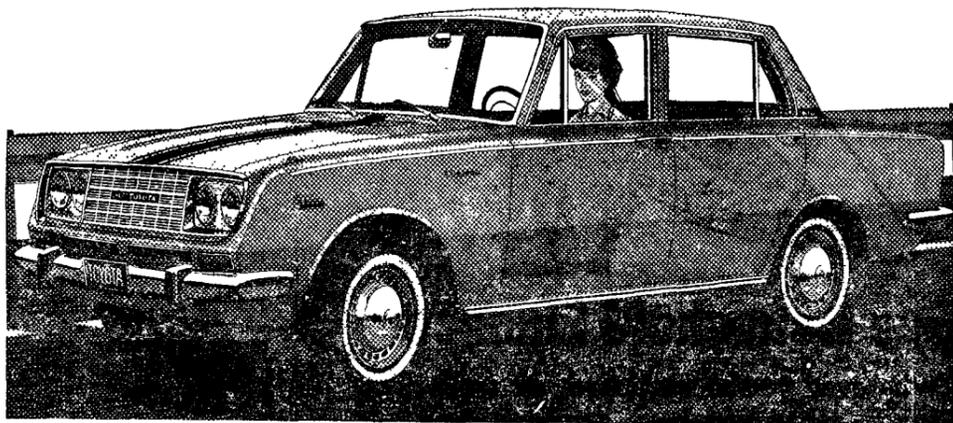

BEHIND THE EIGHT BALL?—Not these two men. Robert C. Fluitt, shows the aim that netted him the recent School Troop Command (MMCS) pool tournament while 1/Lt. William S. Lenzi holds the hardware he used to win Most Valuable Player honors in the 1966-67 Redstone Arsenal company-level basketball league. Lt. Lenzi, led Headquarters Company, STC, to the post championship with an unblemished record. Fluitt is in the 3rd Enlisted Training Company at the school. In the background are other basketball and pool players who received trophies at STC Sports Awards ceremonies in the Headquarters Company dayroom.

AN OMISSION
The name of Major Robert J. Feist of the Combat Development Command's Maintenance Agency at Redstone Arsenal was inadvertently omitted from last week's story listing officers who have been recommended for promotion to lieutenant colonel by Department of the Army in DA Circular 624-31.

Black Jack Lead Widens In MMCS

The Black Jacks stretched a single point lead into a full three points last week as they all but wrapped up the championship of the MMCS Officers bowling league with a record performance at the expense of the second place Rounders.

The runner up five went into the match hoping to knock off the leaders and take over the lead themselves. But when the Jacks were through with them, the Rounders had only a slim chance in the league race that ends this week.

Ralph Nearhoof and Ron Parker put on a back-to-back shooting spree with 602 and 594 respectively to give the Rounders more than they had bargained for. Tom DeLoach, Mike Medokowich and Orrin Butterfield chipped in to give the Jacks a new seasonal series total of 2937 including 2718 scratch.

Parker finished his set with a 242, Nearhoof had games of 225 and 202 and Butterfield shot a 219 game. Milt Fogel paced the Rounders with 588.

Terry Park shot a 550 set to get the Bad Gnus an even split with the Rocket Rollers and George Steenborg was high man with 510 as the Squirrel Hill Mob took three from the Hubs.

The Swags won three and a half from the Satellites as Don Davis collected 520 sticks and Jerry Whittaker accounted for 515 more, in their bid to wrest the runner up spot from the Rounders.

In the season final this week the Swags have the last chance to stop the Black Jacks while the Rounders are pitted against the Satellites.

Strikes Within Point Of Crown

The Lucky Strikes all but clinched a berth in the roll off for the A-B-C Officers bowling league title last week when they swept all four points in their match with the War Hawks.

The sweep enabled the Strikes to carry a three point bulge over the second place Wheezers into the last night of action in the second half tonite. One point will assure the Strikes of at least a tie and an even split will give them the right to take on Saturn for the league crown.

Ted Price with a 542 and Don Vanderheyden with 534 were the leaders for the Strikes as they won one game by a single pin and another by nine.

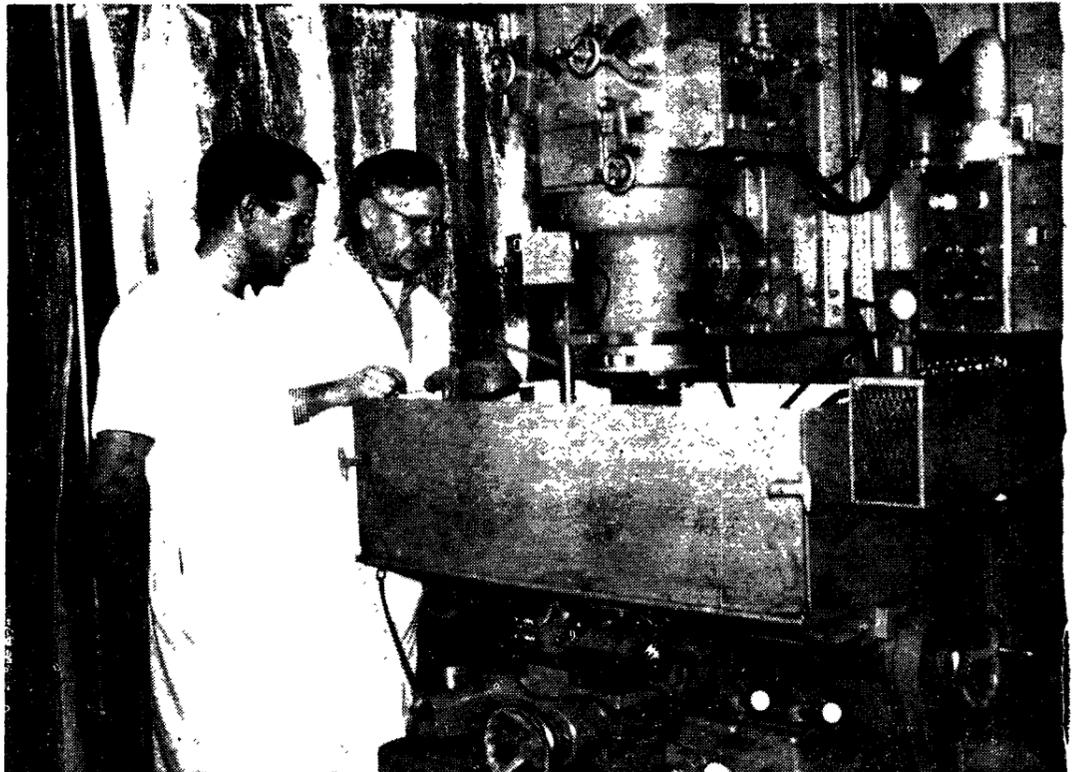

The Wheezers tried vainly to cut the deficit with a sweep over the Mixers but all they accomplished

**PUT YOUR
NAME
ON A
FREEDOM
DOCUMENT!
U.S.
SAVINGS
BONDS**

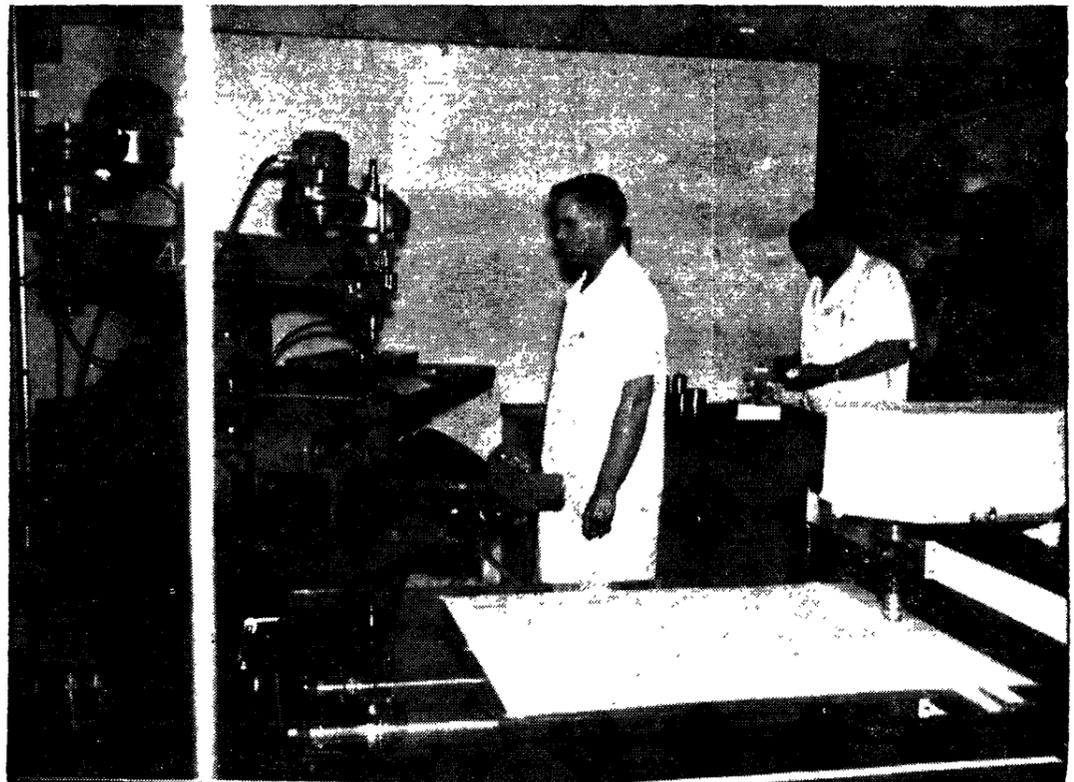

was to stay alive for another week. Saturn got a split in their match with the Pin Splitters and the Black Jacks have the last chance to stop the Lucky Strikes while the Wheezers will try to get back into the running against the Splitters.

Tom Wilkerson gunned a 233 game and a 570 series. Wiley Cooper accounted for 568 sticks and Bill Stienebach hit for 535 for the Wheezers.

Hopefuls won three out of four from the Black Jacks. Tom Rogers led Saturn with 530 and Duane Ready turned in a 517 reading for the Splitters.

TOO HARD FOR CUTTING MACHINES—When the men in the Precision Fabrication Shop of the Missile Command A. I. G. & C. Laboratory get some material that can't be shaped by one of their saws or lathes, they put it in this electric discharge machine to shape grooves and slots. Working here in this Research and Development facility are Robert Cannon, left, and Fred V. Henderson.

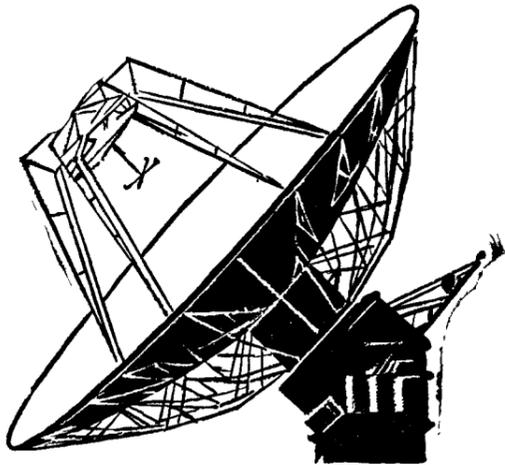

TALENTED MACHINE—Machines are wonderful, and they save many man hours, but they won't perform magic by themselves. Although this line tracer device can follow the outlines of a drawing, on surface in foreground, and tell its mechanical slave behind it where to cut a piece of metal, it can't think and adjust itself for any necessary modifications. The expert on the machine is Joe Collier, left, and his back-up man is Walter Bond. Both are experienced in the development of precision components, Collier with 13 years in the profession, and Bond with seven. They can work any place in the Fabrication Shop of the Missile Command A. I. G. & C. Laboratory as required.

PUTTING THE PARTS TOGETHER—After parts are fabricated, Instrument Makers in the Missile Command A. I. G. & C. Laboratory assemble them as a step toward a prototype of an experimental missile under development by engineers in the Research and Development Directorate of the Missile Command. Mack P. Bradford, left, and Ray Jones work on a fin barrel assembly while engineer William H. Hodges of the Laboratory checks their progress.

Classes Hear Colonel Urge Immediate Report

The modern Army needs more men who know how to register an official complaint.

This statement was made to graduates of the Missile and Munitions Center and School here Friday by Col. Julius T. Shepard of Atlanta who is chief of the Third Army's Maintenance Division there.

He told 153 students from Japan, The Philippines and the U. S. that so much new and advanced equipment is coming into the Army today that rapid reports are needed on malfunctions that show up in field operations.

Col. Shepard, who is responsible for maintaining Army equipment

7th ETC Takes Over STC Lead

The Seventh ETC made a move toward untangling the three-team logjam at the top of the School Troop Command bowling league last week when they hung a 3 to 1 setback on the Headquarters Company Seconds.

The loss left the Seconds five points off the pace being set by the 7th with the Headquarters Firsts in between, two points behind the leaders.

Jim Sangermano led the Seventh to their win with a 232 game and a 548 total while Ray Waldrep was the top Headquarters gunner with 565.

The First kept pace with the 7th by winning three from 2nd ETC as Ed Ratliff fired a 569. Wayne Briggs topped the 2nd with 536.

C No. 2 scored a sweep over Nike FMTE, as Frank Noel shot a 565, the 6th ETC won all four from the 3rd ETC and B No. 1 went four for four against C No. 3.

Jerry Wiener took individual honors for the league with a 588 as A Company won three from the Marines. Doug Damp joined Wiener in overwhelming the Marines with 564.

in seven Southeastern states said quick reports on equipment trouble help the Army's round-the-clock readiness program.

Col. Shepard presented diplomas to the graduates at a ceremony in the Redstone Arsenal Theater.

The outstanding student award of the Association of the U. S. Army was won by PFC Kenneth R. Berends of Baltimore, Md., who averaged 96.2 in a Nike test equipment course.

Honor men in their classes were: 2/Lt Jeffrey Gude, 91.4; 2/Lt Gary M. Warner 90.9; Pvt. James L. Marnul, 92.9; SSG Robert L. Beckworth, 90.0; LCP Charles E. Durfee, (USMC), 91.4; PFC George R. Steele, 94.3; PFC Robert E. Leese, 92.4; Pvt. James J. Lafferty, 94.8 and Pvt. Enrique C. Berrios III, 95.1.

ELDER HALF OF only father-son chaplain team in Army history serving simultaneously on active duty has been named chaplain of year by Reserve Officers Association. He is Chaplain (Col.) James A. Connert, Ft. Myer (Va.) post chaplain and Chaplain-in-Charge, Arlington National Cemetery. His son is Chaplain (Capt.) Reynold B. Connert, paratroop chaplain, Ft. Benning, Ga. Elder Connert was once chaplain, 82nd Airborne Division, making 64 jumps as morale booster for airborne trainees making their first jump. (AFNB)

\$1.9 Million Contract Let On Chaparral

Electronic test equipment for the U. S. Army's Chaparral air defense missile system will be funded under a \$1,935,176 cost plus incentive fee contract to the Philco-Ford Corp., Army Missile Command officials have announced.

Work under this award will be performed at the corporation's Anaheim Calif., manufacturing facility.

Chaparral is being developed to meet the requirement for a forward area airdefense weapon. It is one of two weapons selected by the Army for arming air defense battalions being organized to provide field commanders with low altitude air defense in forward battle areas.

Direction of development, production and field support of the missile system is the responsibility of the Missile Command's Chaparral Management Office headed by Lt. Col. Donald H. Steenburn. Col. R. C. Daly is the Vulcan/Chaparral Project Manager at the Army Materiel Command, Washington, D. C.

The contract was negotiated and executed by the Missile Command Procurement and Production Directorate. Col. S. C. Holmes is the P&P Director.

DOD STATISTICS SHOW that 1961 through March 4, 1967. Additionally, another 1,721 lost their lives in Vietnam through non-hostile action causes from Jan. 1, 1961 through March 4, 1967. (AFNB)

Hawk System Retrofit Kits To Be Built

A \$1,791,979 contract for 128 Calibrator Standard Retrofit Kits for the Hawk air defense missile system has been awarded to Raytheon Company, Lexington, Mass., system prime contractor, by the U. S. Army Missile Command.

The work will be performed at Raytheon's plant in El Paso, Texas, and at the Fairchild Instrument Corp., plant at Palo Alto, Calif.

Hawk is a supersonic, surface-to-air guided missile capable of searching out and destroying attacking aircraft at extremely low altitudes. It is in operation with Army and Marine Corps units in

the United States and overseas. The weapon system also is built and operated by a NATO production organization.

The Army Missile Command at Redstone Arsenal is responsible for technical supervision of Hawk. Col. John G. Redmon is Hawk Project Manager.

The contract was negotiated by the Missile Command's Procurement and Production Directorate.

'LOG' SALVAGE UNIT SAVES TIME AND MONEY—LONG BINH, RVN—U. S. Army PFC Kenneth Morris gets an assist from Vietnamese worker Nguyen Dong in removing a wheel from a 2½-ton truck at the 1st Logistical Command's 218th Collection, Classification and Salvage Company here. The salvage company, an element of the Log's Saigon Support Command, handles more than 1500 tons of salvaged material each month in support of combat and combat support units in Vietnam's III Corps sector of operation. The Log unit salvages, scraps and processes for disposal all items in the Army's supply system except medical, aircraft, cryptographic and missile equipment.

NEW TELEPHONE NET SHORTENS EM SCHOOL APPLICATION PROCESS

WASHINGTON (ANF)—The Army plans to initiate a telephone network program in April which will speed up the processing of some 25,000 enlisted personnel school applications a year.

Whereas it normally takes between 30 to 60 days for various command levels to approve a soldier's application for a service school quota, the new Telephone Quota Allocation System will shorten that process down to a few days.

The system, developed by the Office of Personnel Operations' Enlisted Personnel Directorate (EPD), is expected to go into effect shortly throughout the United States.

An installation commander, once he has approved an application, has the application information phoned directly to EPD's Schools Branch office in the Pentagon. Within minutes, the caller is told whether the application is approved and when there will be a class vacancy.

Formerly, a soldier's application had to be sent from the installation to the major command, to EPD, then back through the same channels.

When the Telephone Quota Allocation System was tested in Third U. S. Army earlier this year, 72 percent of the calls to the

Schools Branch office resulted in an applicant being accepted into the school of his choice. Many of

the remaining 28 percent were not accepted because of conflicting dates of the applicant's availability and school course vacancies.

The telephone system will not apply to senior grade enlisted applications, advanced medical courses, and applications requiring certain types of waivers.

Nike Hercules Contracts For Engineering Services

The U. S. Army Missile Command has awarded an \$8,499,994 contract to Western Electric Company for engineering services for the Nike Hercules and Improved Nike Hercules air defense weapon system.

Work will be performed at Western Electric's plant at Burlington, N. C., at Douglas Aircraft Company, Santa Monica, Calif., and General Electric Company, Syracuse, N. Y.

This award covers a nine-month period and includes a \$3.2 million letter contract obligated earlier.

Now deployed around key areas in both the United States and overseas, Nike Hercules has proven successful in tests against high performance aircraft at a variety of altitudes and has successfully intercepted short range ballistic missiles.

The Hercules system is managed by the U. S. Army Missile Command, Redstone Arsenal, Ala., E. L. Smock, Acting Project Manager. Western Electric Company is prime contractor.

The Army Missile Command's Procurement and Production Directorate negotiated the contract.

Two Films Scheduled For Astronomer Group

Two films will be shown to members and to the public by the Rocket City Astronomical Association during the Open House scheduled Friday night. The first showing will be at 6:30 p.m., subsequent showings on the half hour.

The telescope will be focussed on Jupiter, Venus and Mars. Appropriately, the films from the NASA film library are "The Log of Mariner-Mars" and "The Search for Extraterrestrial Life."

Qualified observers and trainee observers will be on hand to guide the uninitiated. The Observatory-Planetarium is located on the East end of Monte Sano Mountain.

STUDIES MANAGEMENT

FORT BELVOIR, VA., — Army Chaplain (Capt.) Robert W. Riley, Fund Custodian and assistant Post Chaplain at Redstone Arsenal, recently completed the fifth Army Installation Management course of this fiscal year at the U. S. Army Management School. Located at Fort Belvoir, Va., this is the Army's senior school of managerial development.

Included among the 54 graduates were both military officers and senior civilian employees of the Department of Defense.

For the past three weeks, the group has participated in intensive classroom and discussion work.

Drive Defensively

Interagency Announces Examinations

The Interagency Board of U. S. Civil Service Examiners for North Alabama, has issued examination announcements for jobs as projection equipment operator, \$2.31 an hour, food service worker, \$1.40 an hour, and housekeeping aid, \$1.40 an hour.

Registers established as a result of these examinations will be used for filling positions in the Veterans Administration Hospitals in Birmingham and Tuscaloosa, Alabama, and in other Federal offices and installations in the 38-county area serviced by this Interagency Board.

To qualify for Projection Equipment Operator, W-6, applicants must meet the experience requirements as set forth in the examination announcement.

To qualify for Food Service Worker, WA-1, and Housekeeping Aid, WA-1, applicants are required

to take a written test covering dexterity and ability to follow oral instructions. This written test will be offered in Anniston, Birmingham, Decatur, Demopolis, Florence, Gadsden, Huntsville, Jasper, Sylacauga, Tuscaloosa. Further information is contained in the announcement.

Position of Food Service Worker and Housekeeping Aid are restricted by law to persons entitled to veteran preference. Applications for this examination will be accepted also from applicants who are not entitled to veteran preference, but non-preference applicants will be considered only when applicants entitled to veteran preference are not available.

LIGHTWEIGHT ENTOMOLOGICAL survey kit is being developed by U.S. Army Limited War Laboratory, Aberdeen Proving Ground, Md. New kit will weigh about two pounds, instead of 110 pounds. Army entomologists collect data on insects which cause illnesses and diseases impeding military operations. (AFNB)

T. Makanani Too Tough For Spares

Terry Makanani showed the way and her Angel team mates followed last week and between them the Rare Spares didn't stand a chance in the Thursday Morning Ladies bowling league.

Terry shot a resounding 566 total that included a 202 game and the other Angels provided the rest of the pins for a clean sweep over the second place Spares.

Ginny Payne was a distant second place in the individual scrap with a 480 and Fran Heishman was next in line with 472. Fran had the advantage when it came to winning points as the Bowling Bags took three out of four from the Splatter Pins.

The Do Nothings scored a sweep at the expense of the Tipsters and the Queen Pins split evenly with the Four Hopefuls in other matches.

Men or Women

—If your family is growing and with it your responsibilities, the future could look better in the field of life insurance sales. To encourage ambitious men or women, the Huntsville Agency of one of the nation's leading insurance companies offers a free aptitude test designed especially to measure your chances for success in insurance sales. Men and women selected for these openings will be eligible for 25 month training program while they establish themselves. Phone Mr. Martin at 539-4109. TODAY. "An Equal Opportunity Employer." "DRIVE A LITTLE—SAVE A LOT"

Courses Open For Enlisted Men To Advance Knowledge

FORT MONROE, VA. — The enlisted man, whether a private of six months or a sergeant with 10 years service, wants to get ahead. The goal is promotion, better pay and better assignments.

To them is directed a new guide of correspondence courses helpful to career advancement or preparation for MOS evaluation and proficiency testing.

The Continental Army Command publication, CON Pam 350-2, lists educational guidance for career programs, schools participating in the extension program, and revised and new correspondence courses.

Programs for furthering military education in selected MOS from the lowest to highest grades are outlined in the pamphlet. Each career group list shows courses and subcourses available through correspondence study from CON-ARC schools.

For example, an enlisted man in the MOS Career Group (98) Signal Intelligence can turn to the pamphlet for titles, scopes, lesson titles, credit hours and text references pertaining to the field of study which will be useful in plan-

ning his Army career.

In this instance, the Cryptanalytic specialist course will be useful to grades E1, 2, 3, and 4 with MOS 98B20. This course requires 307 credit hours and includes such topics as Air/Ground Operations, Basic Cryptography, and CBR Operations. As an individual advances in the career group, he may take the Cryptanalytic Supervisor Course which requires 341 credit hours of study in such advanced areas as military cryptanalysis and map and aerial photograph reading.

As an E7, 8 or 9 with MOS 98Z50 he is offered the Signal Intelligence Operations NCO course which requires 179 credit hours of study in such areas as Basic Communications Security, Electronic Intelligence, and Radio Procedure.

Con Pam 350-2 also provides a listing, by school, of the individual curriculum available for correspondence study in preparation for MOS evaluation and proficiency tests.

The Army Air Defense School at Fort Bliss, Tex., for example, of-

CARE PACKAGES FOR 'CHARLIE'—BONG SON, RVN—A 1st Logistical Command soldier, U. S. Army Sp4 Alvin Brown (Winnfield, La.), of the 606 Ordnance Company, guides a pallet of 155mm howitzer projectiles into place at Task Force Buono. The task force commander, Maj. Daniel Buono (209 Colony Court, Pittsburgh, Pa.), right, supervises the operation. The Forward Supply Area (FSA), controlled by the Log's Qui Nhon Support Command, is supporting combat elements of the 1st Cavalry Division (Airmobile) and the 25th Infantry (Tropic Lightning) Division during Operation Pershing in Binh Dinh Province, north of the seaport of Qui Nhon. SEARCHING FOR MINES—Sp4 Paul D. Howard, of Utica, Mich., a soldier of the 196th Light Infantry Brigade, sweeps over an area leading to a new bridge near Tay Ninh with a mine detector.

Army Now Offers Counterinsurgency Course By Mail

FORT MONROE, VA. — Army officers now will get credit on their qualification records for "counterinsurgency" training completed through Army extension correspondence courses.

A Department of the Army decision regarding AR 611-103 provides equivalent credit for special extension correspondence courses which parallel resident courses offered by the Special Warfare School at Fort Bragg, N. C., and Civil Affairs School at Fort Gordon, Ga.

Previously, credit was given only for courses completed in residence at the two schools.

Keep Freedom In Your Future

With U. S. Savings Bonds

DOD HAS REQUESTED Selective Service System to provide Armed Forces Examining and Induction Stations with 11,900 inductees in March for assignment to the Army. This brings the total for the first three months of this year to 38,400. January's call was for 15,600 and February's was for 10,900. (AFNB)

Study Says Warrant Officers Need New Career Incentives

WASHINGTON (ANF)—An Army study group has recommended new incentives and advancement opportunities for warrant officers.

The Warrant Officer Study Group, after examining the warrant officer program and career opportunities, presented these major points which have been ap-

\$1.7 Million Goes For Nike Hercules Support Equipment

The U. S. Army Missile Command has awarded a \$1,734,936 contract to Raytheon Company, Lexington, Mass., for support equipment for the Nike Hercules air defense guided missile system.

The contract calls for delivery of magnetron tubes. Work will be performed at Raytheon's plant at Waltham, Mass.

Now deployed around key areas in both the United States and overseas, Nike Hercules has proven successful in tests against high performance aircraft at a variety of altitudes and has successfully intercepted short range ballistic missiles.

The Hercules system is managed by the Army Missile Command, under E. L. Smock, Acting Project Manager. The Missile Command's Procurement and Production Directorate negotiated the contract for the Army.

Club Sponsors Tour Bus To See Holiday On Ice

"Holiday On Ice" will be the destination of the tour bus leaving the Service Club Saturday, April 15, at 1 p.m. for the Birmingham Municipal Auditorium.

The Service Club staff has arranged the tour and has tickets for enlisted men who wish to join this tour on sale until April 10.

Two of the featured skaters are Ronnie Robertson, whose phenomenal ability to spin at 420 revolutions per minute caused the NASA doctors to hire him for experiments in connection with astronauts whose space capsules might spin at such dizzying revolutions. The scientists were trying to determine blackout point of such spinning.

The second feature, Petra Burka, swept all women's competition in 1965 and then turned pro.

In addition, the "Holiday" is an extravaganza of lavish costumes and a full cast of skillful skaters with medals for their abilities in grace and clowning.

ONE OF LARGEST hospitals outside the U. S. is scheduled for completion April 1 at Cam Ranh Bay, RVN. It is being enlarged from 280 to 400 beds, and will have a 100-bed Casualty Staging Unit similar to that at Da Nang.

Pershing Component Contract Awarded

The Army Missile Command has awarded a \$828,440 contract to General Precision, Inc., Kearfott Division, Little Falls, N. J., for Hydraulic Actuators for the Pershing missile system.

Pershing is a highly mobile missile capable of delivering a nuclear war head on targets ranging from 100 to 400 nautical miles. It is in operation with U. S. Army troops in the United States and Europe, and with Federal Republic of Germany Air Force units. The weapon system is managed

from the Pershing Project Office at the Missile Command. Lt. Col. Edwin A. Rudd is Pershing Project Manager.

The firm fixed fee contract was negotiated by the Missile Command's Procurement and Production Directorate.

proved by the Chief of Staff of the Army:

- Create new opportunities for warrant officers to be promoted to grades CW3 and CW4.

- Establish a branch in the Office of the Executive for Career Planning, Officer Personnel Directorate, to provide long-range career planning.

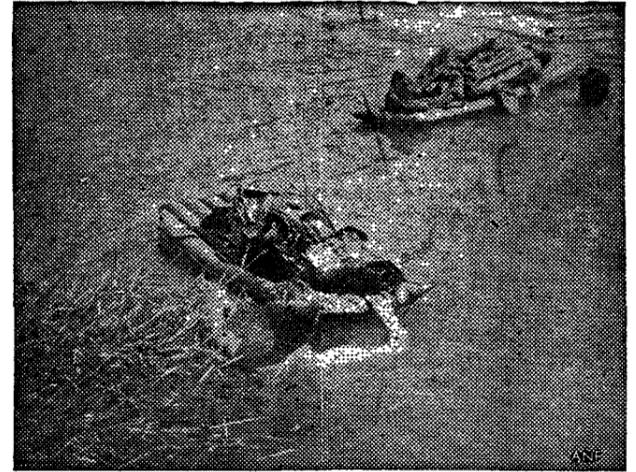

- Increase opportunities to attend military and civilian schools to develop a regular pattern for career progression.

- Modify the warrant officer military (MOS) structure to provide better management and to accurately identify skills.

The possibility of creating additional warrant officer grades, CW5 and CW6, was examined in the study, but it was decided this proposal needs further exploration.

TOWN HONORS PILOT

Townpeople of Llanquera, Bolivia, will honor the memory of a U. S. Air Force pilot who crashed near the town last summer by naming their new village school the "Captain R. D. Hickman School." Capt. Hickman was flying a SAC WU-2 high altitude reconnaissance aircraft that crashed in a mountain near Llanquera.

KEEP IT FLOATING—Two soldiers of the 2d Battalion, 1st Infantry, 196th Light Infantry Brigade, keep their equipment dry by floating it on air mattresses while swimming across the Soui Ben Da River near Tay Ninh, Vietnam
