REDSTONE ARSENAL, HUNTSVILLE, ALABAMA 35809

JUNE 7, 1967

Zierdt Receives Auburn Degree

The Commanding General of the U. S. Army Missile Command was recognized as "a distinguished administrator of scientific research and development programs" by Auburn University last Friday.

While members of his family and approximately 100 friendly well-wishers from Huntsville and Redstone Arsenal looked on, Maj. Gen. John G. Zierdt received the degree, "Doctor of Science, Honoris Causa," during June graduation exercises in the University's Cliff Hare Stadium.

It is the first honorary degree

conferred on the Army's missile chief, scheduled to retire from active military duty June 30.

Gen. Zierdt was one of three prominent citizens awarded honorary degrees during an impressive ceremony when 912 men and women received academic degrees from the State of Alabama's second largest University.

The others were Dr. Ralph Draughon, Auburn's President Emeritus, Doctor of Letters; and Southern Bell Telephone Co. President Frank M. Malone, Doctor of Laws.

Dr. Draughon served Auburn University as a student, teacher and administrator for nearly half a century, the last 17 years as president.

Malone began his career with Southern Bell in 1928 upon graduation from Auburn and ascended through ranks involving positions in most of the nine states served by the major utility. He was elected president in 1965.

Gen. Zierdt's citation read:

"John Graham Zierdt, Major General, U. S. Army, distinguished administrator of scientific research and development programs, first as a key member of the Army Ballistic Missile Team and more recently as Commanding General of the U. S. Army Missile Command, with its essential mission in the national defense, has been responsible for advancing the Army rocket and missile technology which is so important to the defense of the nation.

"Gen. Zierdt and his associates, in recognition of the growing capa- (See GEN. ZIERDT on Page 3)

MAJ. GEN. JOHN G. ZIERDT . . . Receives Honorary Doctorate

ELEVEN RECEIVE COMMENDATIONS

Eleven Redstone officers and an enlisted man have been awarded the Army Commendation Medal in recent ceremonies conducted at the Arsenal.

Included in the presentations was the First Oak Leaf Cluster to the Commendation Medal made to Lt. Col. William J. Steinebach. Col. Steinebach was cited for his service as the MICOM Inspector General.

Other officers cited for their meritorious service were, Captains William D. Taylor, William C. Pollock, Jr., Edward C. Johnson, Jr., John M. Fish, Jr., Max J. Gallagher, Manuel R. Flores, Jimmy D. McAuley, Thomas J. Biedecker, William G. Cembor and Rodney C. Dwyer.

The lone enlisted man honored was SSGT Lewis Pettigrew.

Aerospace Industry - Missile Command To Discuss Future Missile Planning

More than 900 representatives of top aerospace industrial firms have been invited to attend a classified briefing on Army future missile plans beginning next week

at the Army Missile Command.

Called an Advanced Planning Briefing, for Industry, the one day program will be presented to industrial executives on three different days—June 12, 14 and 16. Attendance is by invitation only. Sessions will be held at Rocket Auditorium on each of these days from 8:30 a.m. to 4:30 p.m.

In addition to representatives from more than 830 companies, including representatives from Canadian and British industries, other attendees from Army and Department of Defense agencies have been invited.

The program, hosted by the Missile Command's Research and Development Directorate, is intended to inform industry about Army Missile requirements and plans for the future. Each session will include classified presentations on missile development programs as well as information about the Army's research and development programs.

Maj. Gen. John G. Zierdt Commanding General of the Missile Command, will welcome attendees. John L. McDaniel, Technical Director of R&D is program moderator.

Mrs. Savings Bonds Will Be Here Friday Morning

Redstone will be one of the first ports of call in a nationwide mission of Mrs. U. S. Savings Bonds for 1967 to promote the sales of savings bonds and freedom shares.

Mrs. Dorie Damuth, of Magnolia, Texas, will arrive at the Arsenal on Friday morning to spend the morning visiting Army organizations and units. In the afternoon she will be with the Marshall Space Flight Center.

This will mark the fourth consecutive year that Redstone has been included on the agenda for the reigning Mrs. U. S. Savings Bonds.

During her visit with the Army, Mrs. Damuth will visit a number of organizations and speak to several assemblies of employees. She will also tour the Missile Display area and will witness a laser briefing.

Her tour will include a tour of the Missile School and will be concluded with a luncheon at the troop mess.

Mrs. Damuth won the title as a contestant in this year's Mrs.

America Pageant, held recently in San Diego. Competing as Mrs. Texas, she was chosen from among the finalists for the Savings Bonds title.

She is a 34-year old, brown-eyed, auburn-haired ranch wife. Her husband is a Montgomery County Commissioner and the couple have one son, Grover, who is 13.

The new good will ambassador for Savings Bonds succeeds Mrs. Joan Berry, of Wyoming, who visited Redstone a year ago this month.

DORIE DAMUTH . . . To Be Here Friday

Rock City Tour

The tour bus from the Redstone Arsenal Service Club will leave at 9 a.m. Saturday morning for Rock City, Tenn.

In addition to exploring the area, the Service Club staff is planning a picnic.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

Rocket Ruminations

The height of a man's pride can usually be determined by measuring the width of his intelligence. —Peggy B. Miller

Don't Be A Summer Statistic

According to U. S. government studies, one family in seven owns a boat and eight million Americans water-ski. Add to these the millions who swim and skin-dive and the more than 20 million fishermen and you have a good size crowd using the resources available for water sports.

Unfortunately, a great many of these fun-seekers will become statistics by the end of the summer. They will fall victim to accidents, many of them fatal, simply because they failed to use good sense and follow the ac-

cepted rules of conduct and safety for boating, swimming, water-skiing, skin-diving or fishing.

Even more unfortunate is the fact that the majority of these accidents and fatalities can be avoided. There are countless organizations, clubs and societies that are ready, willing and able to provide advice, instruction, and supervision to those who wish to learn the "right way" for their particular water sport.

Couple common sense and good judgment with knowledge and competent instruction, and you can be reasonably sure of surviving the summer and still have a good time in the process.

If you are a boating enthusiast, check with your local U. S. Power Squadron, Coast Guard Auxiliary, or boating club to learn about boating safety—then be sure to follow the advice of the experts.

Swimming, skin-diving and water-skiing clubs are found in every area where those particular sports are popular.

Don't be one of those persons who thinks, "It can't happen to me." Take the necessary steps right now to insure that it **doesn't** happen to you and that you'll be around to enjoy next year (AFNB)

bility for research in Auburn University engineering and scientific development, brought Auburn into a partnership with the U. S. Army Missile Command in basic and applied research problems. This partnership has been an important factor in the excellence of engineering instruction and research at Auburn and has permitted this University to contribute significantly to the National Defense.

Awards were presented by Auburn President Harry M. Philpott, who succeeded Doctor Draughon upon his retirement in 1965.

SENTINELS—Four U. S. Army Pershing missiles stand erect prior to launching from the Black Mesa firing point near Blanding, Utah. Two of the missiles, at left, were fired simultaneously and impacted on target at White Sands Missile Range, New Mexico, nearly 400 miles away. The firings were conducted March 28 by

troops of the U. S. Seventh Army here from West Germany. Pershing is a two-stage, solid-propellant system tipped with a nuclear warhead and is currently deployed with U. S. and German troop units in Europe. Dummy warheads are used in the 34-foot missiles for practice firings.

Pershing Missiles Light Night Over New Mexico

Two Pershing missiles put on pyrotechnic display over New Mexico Friday night as they were successfully fired from the Blanding, Utah, test site into White Sands Missile Range.

Both missiles carried "poppy ares", to aid ground cameras in tracking the warheads for precise verification of trajectories.

The flares were visible over a wide area along the flight-path as they broke through a cloud-udded sky.

U. S. troops from Ft. Sill, Okla., launched the missiles in the first of a new series of launchings for the system from the Blanding site.

Pershing is managed by the U. S. Army Missile Command with Lt. Col. Edwin A. Rudd as Project Manager.

Soldiers Chorus Sings Tonight At Service Club

Tonight the Third Army Soldiers Chorus will sing at the Post Service Club. The show begins at 8:15 p.m.

Songs range from jazz to the Beatles' beat.

Talent for the show is hand-picked from the finest vocalists and musicians in the Third Army Area. Capt. Carl Bond directs the chorus which is currently touring a seven state area, including Air Force and Navy bases.

MASTERS DEGREE. James McCraw has resumed his duties in the Supply and Maintenance Directorate after having completed his graduate studies at the University of Alabama. McCraw was granted his Master of Arts degree in industrial education. He is assigned to the New Equipment Training Division where his duties involve the development of the NET for the Chapparral system.

\$1.6 Million Contract Let For Shillelagh

A \$1,608,417 U. S. Army Contract has been awarded to G. W. Galloway Co., Baldwin Park, Calif., to supply containers for Shillelagh missiles.

Shillelagh is a gun-launched anti-tank guided missile system being developed for Army armored vehicles.

The Army Missile Command, manages the Shillelagh program under Col. Spencer R. Baen, Project Manager. Aeronutronic Division of Philco-Ford Corporation is prime contractor.

Shillelagh's 152mm gun-launcher can fire either missiles or conventional ammunition and is highly accurate against moving or stationary targets.

Awarding the contract for the Army was the Formal Advertising Branch, Repair Parts Division of the Missile Command's Procurement and Production Directorate, headed by Col. Sterling C. Holmes.

MILITARY AIRLIFT COMMAND has been awarded the Daedalian Flying Safety Trophy for 1966. Presentation was made at the Order of the Daedalians annual meeting late last month. In attaining the lowest major command accident rate in 1966, MAC flew the greatest number of hours and airlifted more cargo and passengers than during any previous year. Other awards were won by PACAF and TAC units. (ANFB)

SELLING AT AUCTION

SATURDAY, JUNE 10, AT 10:04 2/3 A.M., DST

Two excellent commercial lots, three residential lots, 5 room dwelling, nice block building located on the cloverleaf just off I-65, 10 miles north of Athens, Ala. 3 miles west of Ardmore and 18 miles west of Huntsville, Alabama. Belonging to Mr. and Mrs. Fred Able.

LOT NO. 1 is a corner lot fronting 250' on a blacktop county road that goes to Elkmont, Ala. It is located on the Cloverleaf off Hwy. I-65 to Hwy. 53. This lot is an excellent location for any commercial business.

LOT NO. 2 is located on the Cloverleaf off Hwy. I-65 to Hwy. 53. This lot has a large concrete block building that has been used for a cafe and a truck stop. Has a large well that will furnish water for several businesses. These two lots consist of 262' frontage on access road off I-65 going back 250' deep. This is one of the most sought after locations on any cloverleaf on I-65 between Nashville and Birmingham. These lots have been sought after by more oil companies and motel operators than any property that has been offered on any cloverleaf on I-65.

This property will be sold separately and then as a whole; the highest price will determine sale. Here is a once in a lifetime opportunity to acquire acreage that is level, with water and electricity, on a cloverleaf of I-65 and the right distance from towns and cities. Commercial property like this all along I-65 has been sought after by all major oil companies in America.

LOT NO. 3 has 115' frontage on County Road going back 230' deep and is right behind the two commercial lots. This lot can be used as residential or commercial. It is level, a beautiful building site.

LOT NO. 4 with 115' frontage on blacktop County Road has 5 room frame house and a well that furnishes everlasting water. This is also a beautiful lot with a good home on it. With a little remodeling, this house could be made into a beautiful place to live.

LOT NO. 5 with 115' frontage on blacktop road goes back 232' and is a large level lot with an excellent home site. These residential lots are well located being only a short distance from Athens, Decatur, Huntsville, Ardmore, and other prosperous towns in the north Alabama section.

We repeat that this is the most valuable commercial property ever offered for the high, high dollar along I-65, north and south. These are prime commercial lots with vast potential. Drive out on I-65 and look at the property and your bid will be our bid. If you are looking for residential lots, be sure to look at 3 and 5. If you are looking for a nice home, be sure to look at the frame house on No. 4.

AND CHECK THESE EXTRAS!

262' frontage just off busy I-65 cloverleaf and Hwy. 53! A concrete block building! Ideal storage or can be used as service station! Fine drilled well that will furnish water for several businesses! This property is on the exit of I-65 and south traffic, with an exit of I-65 for north bound traffic! It is the highest priority commercial property that can be bought.

NCO WIVES CLUB MAKES AWARD—Miss Brenda Jackson, right, Butler High School senior, was the winner of a \$100 award given by the Redstone Arsenal Non-Commissioned Officers Wives Club during an assembly of the senior class at the school. The Club president, Mrs. C. E. Dye presented the award which is made to the children of Club members. Brenda is the daughter of SFC and Mrs. Horace Jackson, 1243-A Hermes, Redstone Arsenal. She plans to attend Howard University, Washington, D.C., and major in Physical Education.

Gen., Mrs. Zierdt Receive Honors At JANGO Dinner

The Redstone Arsenal Guild of the Junior Army Navy Guild Organization (JANGO) gave a farewell dinner honoring Maj. Gen. and Mrs. John G. Zierdt Wednesday night at the Redstone Officers Open Mess. They also held an awards ceremony following the dinner.

It was Gen. Zierdt who initiated the request to the JANGO Senior Board, Washington, D.C., to establish the Guild at Redstone in 1964, and Mrs. Zierdt has served as advisor to the Guild since it was

established.

The fourth JANGO class was enrolled this April and is now training as nurses aides at the Post Hospital and Dental Clinic. Since the first class was graduated in 1964, Redstone JANGOs have totaled more than 15,000 hours of service at post medical facilities.

JANGO Enitza Velez gave the welcoming remarks at the dinner. Mrs. Zierdt, assisted by Mrs. W. C. McHugh, Guild chairman, presented honors to the JANGOs in recognition of their hours of service.

Receiving white chevrons for their uniforms for 200 hours of service were Russelyn A. Bergmann, Nancy Jean Hooker, Elizabeth Anne Johnson, Mary Frances McHugh, Linda Parker, Kristine Smith, Debbie Verbeek and Donna Watson.

Jeannie Deppensmith, Rita Ellis, Linda Hooker, Deborah Justin, Susan McBrearty, Mary McHugh and Mary Dale Stockstill received blue chevrons for 300 hours service. Red chevrons for 500 hours of service went to Joan Accardi, Cindy Sterner and Enitza Velez. Pat O'Connor, Guild president, received a gold chevron for 700 hours.

Pat O'Connor closed the awards ceremony with the presentation to Gen. and Mrs. Zierdt of certificates of appreciation from JANGO headquarters, Washington, D.C.

WINNERS "C", "B" AND "A" — The "Yard of the Month" awards for May went to Lt. and Mrs. D. E. Spathelf, 250-B Nible Drive, (top) Lt. Col. and Mrs. L. D. Pyle, 459 Simpson Drive, (center) and Col. and Mrs. S. H. Abernathy, 30 Ripley Drive, all on Redstone Arsenal. The awards are divided among three areas according to the types of quarters, and are given each month by the Redstone Officers Wives Garden Club, an activity of the Redstone Officers Wives Club. The Pyles, who won the award for area "B" left for vacation just after the plaque was placed in their yard. Mrs. Spathelf has a neatly tended garden around her house and along the edges of the walks, and Mrs. Abernathy works in a bed of red geraniums and white flowered border plants.

DIALS CAPTAINS WINNERS

The Officers Wives Golf Group had Erlene Dials captaining the winning team in last Wednesday's competition. Members of the winning team were Charlene Powell, Billye Fogel and Rebel Elliott. Billye Fogel came in with low putts.

MRS. MATTIS WINS

Mrs. William Mattis won Thursday at the bridge competition sponsored weekly at the Officers Open Mess by the Redstone Officers Wives Club. Other winners were Mrs. Marshal Rieves and Lynn Corp.

Mrs. Robert Allgeier handles reservations to play.

PHOTOGRAPHERS TO MEET

Dr. Richard B. Sherrill will lead a group discussion on "Elements of Composition" at a meeting of the Huntsville Photographic Society on Monday, at 7:30 p.m. in the Temporary Civic Arts Center. For the next meeting a competition on "People" is planned. All who are interested in photography are invited to attend.

BRIDGE WINNERS

Monday night bridge competition at the Redstone Arsenal Officers Open Mess again had a couple among the winners at the six tables last week.

J. L. Stensby had the high tally with Mr. and Mrs. C. S. Brown in second and third places. Bill McGaha was low.

Reservations to play can be made by calling 837-1525.

Engineers To Meet

The Northeast Chapter of the Alabama Society of Professional Engineers will meet tomorrow at 6 p.m. at the Holiday Inn, West. Speaker for the evening will

be the Rev. Edsel Keith, R. St. Thomas Episcopal Huntsville, Alabama. Rev. topic is "Roll of the Prof in our Society."

THREE RECEIVE AUSA EDUCATION AWARD AT MMCS

A decorated Army war hero just back from Vietnam says helicopters armed with small missiles are helping to overcome one of the greatest dangers of battle there—the ambush by hidden Viet Cong snipers.

LTC. Joseph A. Masterson, who commanded the first armed helicopter company in Vietnam described the use of U.S. helicopters in Vietnam to 115 graduates from the U. S., Germany and Japan who received diplomas today at the Army Missile & Munitions Center & School.

Masterson, an 18-year Army veteran and holder of the Silver Star, said truck convoys can now proceed with much less worry about ambush. The armed helicopters fly ahead of the convoy at treetop level and comb out the danger areas he explained.

The chief of the Aviation Armament Branch, Army Aviation School at Fort Rucker, Ala., told of the use of special lights on helicopters that patrol Vietnamese waterways by night. Flying in groups, the aircraft swoop down and destroy the lurking enemy.

Three students were awarded the Association of the U. S. Army Educational Achievement plaque for averaging better than 96 in their courses. They were: Pvt. Arthur G. Dedmon, Murfreesboro, Tenn., 96.3; Pvt. Roger D. Derrick, Charleston, W. Va., 97.4 and Pvt. David A. Paterson, Moorefield, W. Va., 96.5.

United To Offer Special Rates To Wives On R&R

United Air Lines has asked the Civil Aeronautics Board for permission to file June 9 a request to fly wives of active duty status Viet Nam military personnel roundtrip between Honolulu and either Los Angeles or San Francisco for \$165, plus tax.

The filing seeks an effective date of June 24 for the new tariff.

The reduced rates will be offered military wives visiting their husbands who are in Hawaii for rest and recreation. The \$165 fare includes free meals and positive space accommodations on the flights.

A Polynesian variety show is scheduled at the Post Service Club at 8:15 Sunday evening.

The show includes polynesian dances, folk singers, impersonations and girls.

AWARD WINNER AT LEE HIGH—John Powell, son of Mr. and Mrs. Edward F. Powell, 2205 Harris Road, N.W., Huntsville, Ala., receives a \$100 award from the Redstone Arsenal Non-Commissioned Officers Wives Club. The award, made to children of Wives Club members, was presented before an assembly of the senior class at Lee High School. Mrs. C. E. Dye, right, Club president, made the presentation. The Club's scholarship chairman, Mrs. Edwin L. Gedling, is on the left, and Mrs. Powell stands beside her son, who plans to attend Auburn University where he will study electrical engineering.

SIX CAPPED—Ceremonies at the Redstone Arsenal Post Chapel included capping of six new Red Cross Volunteers, the award of service pins, stripes, and longevity awards. The new Red Cross Volunteers (left to right) are: Mrs. J. Potts, Mrs. R. G. Enneking, Mrs. C. P. McBrearty, Mrs. W. C. Superneau, Mrs. A. Smith and Mrs. A. Thompson.

Three Would-Be Fielders Turn Victory Into Defeat

The G & C Lab softball team had their own version of "too many cooks spoil the broth" last week and came out of their experience with a loss instead of a victory.

In their version three fielders had a shot at a fly ball that would have been the final out of a win over the Comp Center. But when none of the three were able to make the catch, two Comp Center runners trotted around the bases with the runs that spelled out a 20-19 win.

The win boosted the Comp Center into a tie with Redeye for second place in the CWF Slo-Pitch League. Redeye took Documentation, 9-2, and Data Processing handed Finance and Accounting a 13-5 setback in the only other games played in another rain-shortened schedule.

The Comp Center and the Labmen staged a see-saw slugging match through six and a half innings and G & C held a 19-18 lead

with two out in the bottom of the seventh when misfortune struck.

Two runners got on base but Jerry Langford hit what appeared to be an easy fly ball into right center. The two outfielders converged on the ball along with the short fielder but each stopped short permitting the ball to drop.

Langford and Billy Mills collected three hits apiece in the winning attack while Bryan Baker hit for the circuit and J. C. Dunaway connected for a trio of safeties for the Lab men.

Del Williams pitched Redeye to their fourth win in five starts when he set Documentation down with six hits. He had a shutout going until the sixth when Sid Sapp homered with a mate aboard.

Ken Hunsicker paced the winning attack with a trio of safeties while Charlie Jones was the defensive standout. Sapp kept the Missilemen from making the winning margin even greater with two running catches in left field.

Les Gilreath connected for a pair of three-run homers and Doug Peavy doubled twice in leading the Processors to their win over the Accountants.

Bud Smith handled the pitching chores and received outstanding defensive support from Sid Douglas, Jerry Morris and Hunter Horton. Jimmy Reid and John Coker paced F&A with three hits each.

Redstone Meets Ft. Stewart In Third Army Meet

Redstone Arsenal was pitted against Ft. Stewart in the opening game of the 3rd Army Softball championship at Ft. Rucker on Monday.

The double elimination meet will be conducted throughout the week with the championship games slated for Saturday night.

The Redstone team was hastily put together during the two weeks preceding the meet and has only been able to get together for one game as a unit prior to the trip to south Alabama.

In that game the post team got shutout pitching from Fred Helmer in handing the Bragg Realty of the Huntsville Industrial League a 2-0 setback. Two other scheduled games were lost to the rain.

Third Bn. Takes Lead In Baseball

The Third Battalion has stamped itself as the team to beat with three straight wins in the Redstone Baseball league.

The Support Operations Directorate has captured a pair of wins in three starts while the Second Battalion has won one out of three. The First Battalion has yet to break into the win column after three starts.

DASO opened the season with a 2-1 win over the 2nd, but dropped the next game in a tight 5-3 game with the Third. The Second blanked the First, 5-0, and the Third rapped out a 10-2 win over the First.

S&M Golf League Schedule Opened

The Supply and Maintenance Directorate is the second major MICOM element to organize regular league competition for civilians in golf. The opening matches were played Monday evening at the Piedmont Par 3 course.

Personnel of the Procurement and Production Directorate formed a league last year and are now playing their second season on Thursday evenings, also at Piedmont.

Forty-three golfers, including two women, have signed up for play in the S & M Par 3 League which is being sponsored by the Civilian Welfare Fund Council.

Bob Gross was elected president of the league at the final organizational meeting last week with Lamar Sloan named vice president Ray Summar, secretary, and Wil-

Wins Pistol Match

Maj. Harry A. Lucker, a member of the Army Missile and Munitions Center and School and representing Redstone Arsenal, won the Alabama State Pistol Championship Sunday in Birmingham.

The five firing competitors, all members of the Redstone Arsenal Pistol Team were: Maj. Lucker, CWO William H. Little, SGM Robert G. Hadden, SFC Carl Lebeaumont and PFC Gary Sturtz.

Maj. Lucker fired a 2625 out of a possible 2700 aggregate to win the match this past weekend at the Magic City Gun Club range in Birmingham.

Liam Creel, treasurer, complete the slate of officers.

The league will play each Monday evening starting at 5:30 until early September and the season will be concluded with a tournament tentatively planned for mid-September.

MICOM Enters Huntsville Industrial Tennis League

The Missile Command tennis team got its first taste of competition in the B. Division of the Huntsville Industrial League when they started a match with Computer Sciences Corp.

The match, consisting of six singles and three doubles matches will be played over a two-week period on the municipal courts at Brahan Springs and Big Springs.

Irv Kellogg is the No. 1 player on the MICOM team with Joe Hiatt holding down the No. 2 spot. They earned their places by heading the tennis ladder that has been underway for the past two months.

The remaining singles positions for the opening match will be

filled by Tom Grubbs, No. 3, George Bush, No. 4, Jim Patterson, No. 5 and Jim Dailey.

Kellogg and Hiatt are teamed on the No. 1 doubles tandem with Grubbs and Bush making up the second duo. The No. 3 doubles team is made up of Gordon Lakso and Malcolm O'Neil.

This is the first time that the MICOM team, sponsored by the Civilian Welfare Fund Council, has been represented in Industrial League competition. In addition to Computer Sciences, their opposition in the B Division will come from Sperry-Rand, Northrup, General Electric and Lockheed.

Fifteen players are already par-

Reproduction Plant Is Busy, Noisy Place

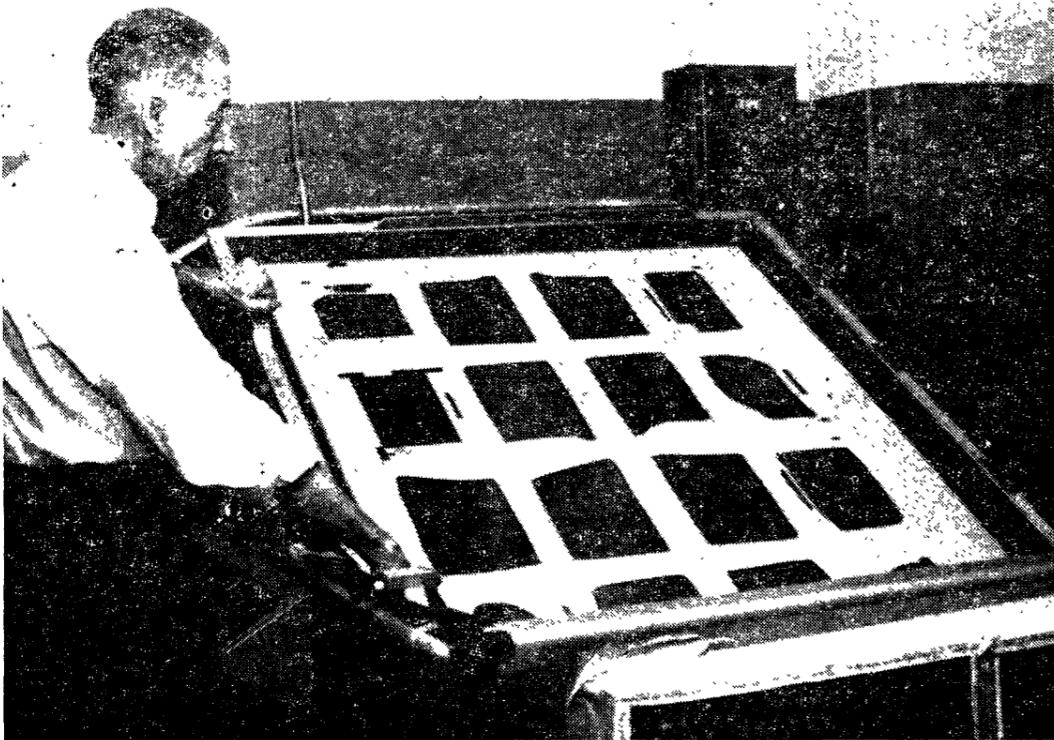

Editor's Note: The story about the reproduction plant, which consumes five tons of paper a day to produce orders that may last five minutes on a press run or extend into matter of days to produce, is told on page 12. This is the picture story of some of the equipment moving past camera and platemaker to the presses and on to the bindery.

Freddy Rogers operates a 41" Robertson Tri-color Camera.

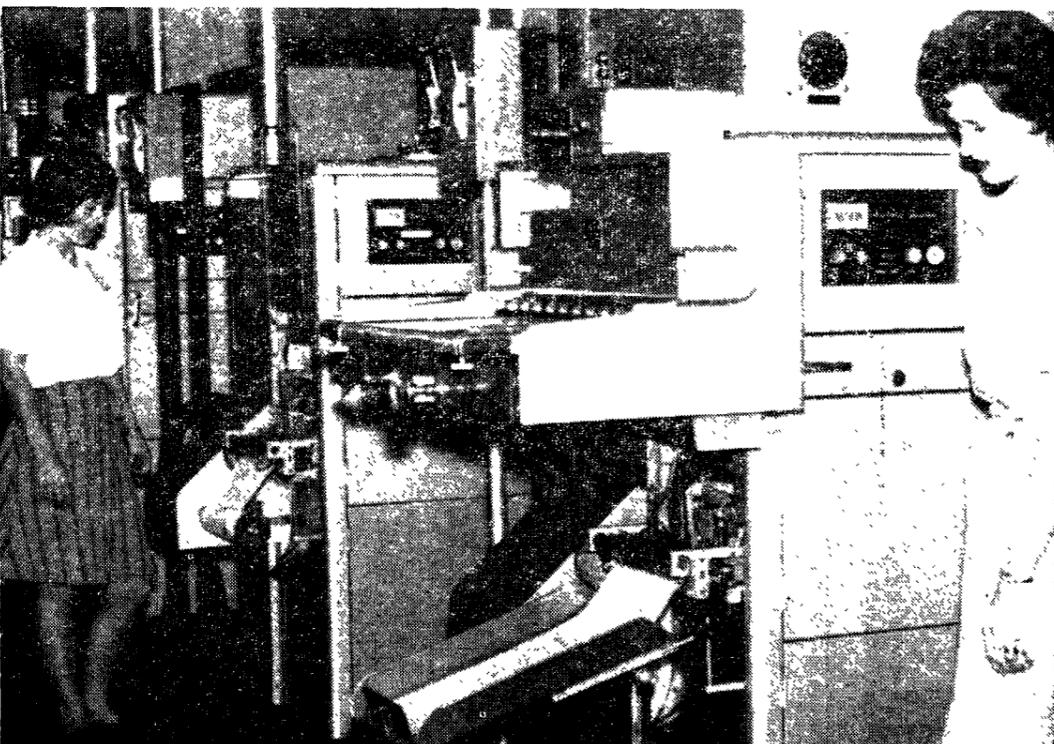

Jean Lyons, a Xerox press operator, affixes negatives to plastic cutout sheets.

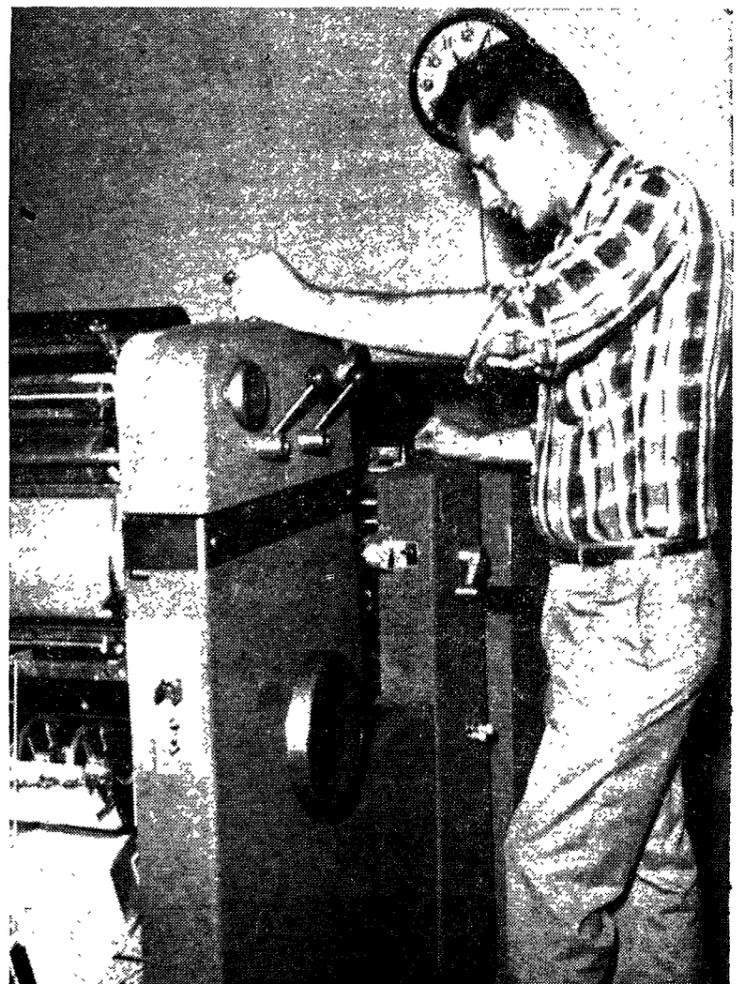

The fliptop 8000W Pulse Xenon Arc Platemaker being operated by Allen Cruse is unusual because it uses Xenon instead of a carbon arc.

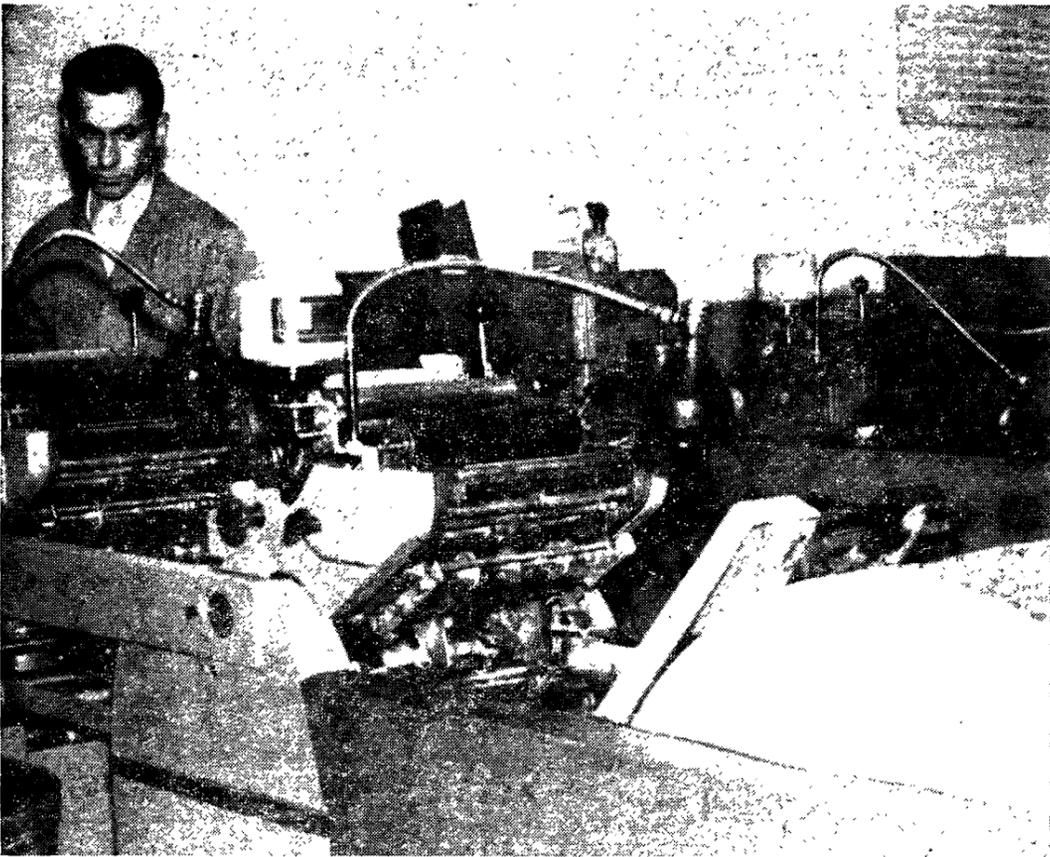

At the layout table, Martha Finkerton assembles pages for the presses.

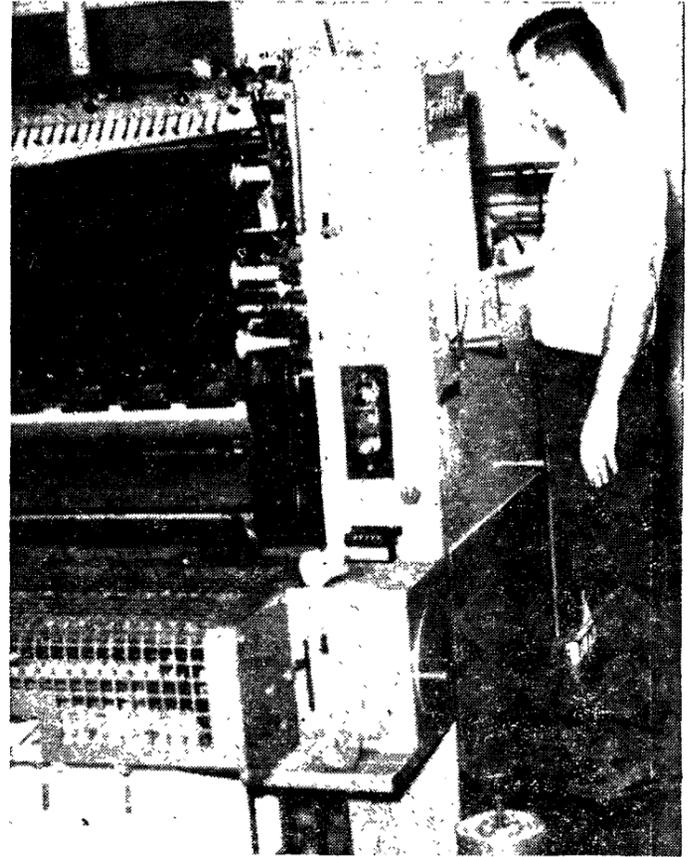

Three Xerox Copy Flow printers which will print as many miles of copy as the machine is fed all have different numbers—one, two and three. The operators here are Betty Jo Parton and Betty Weaver.

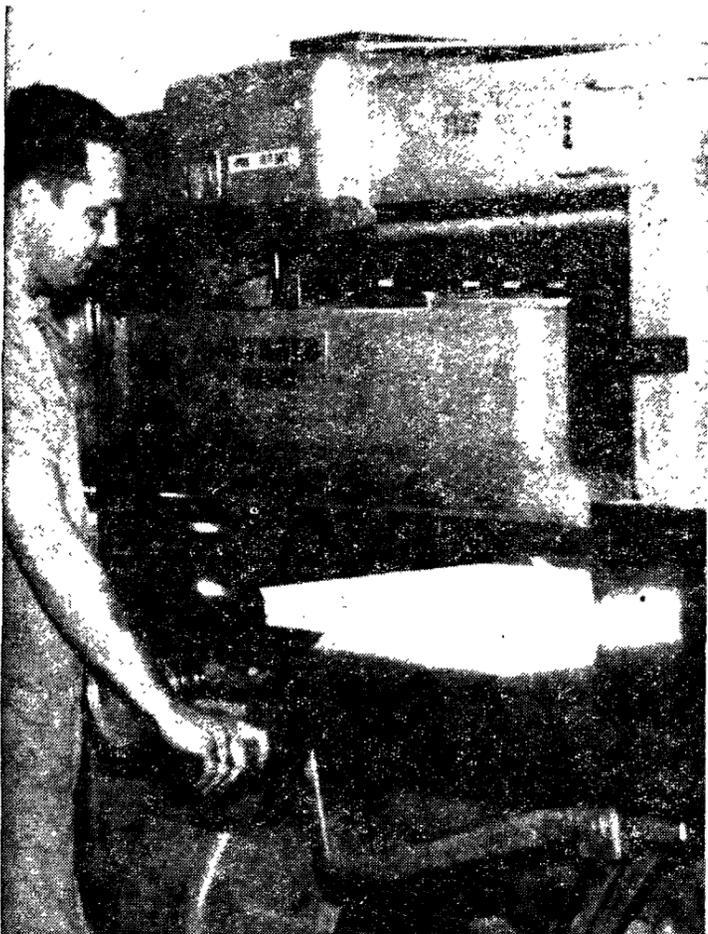

Bill Cunningham produces a four-page document on this dualith Davidson offset press.

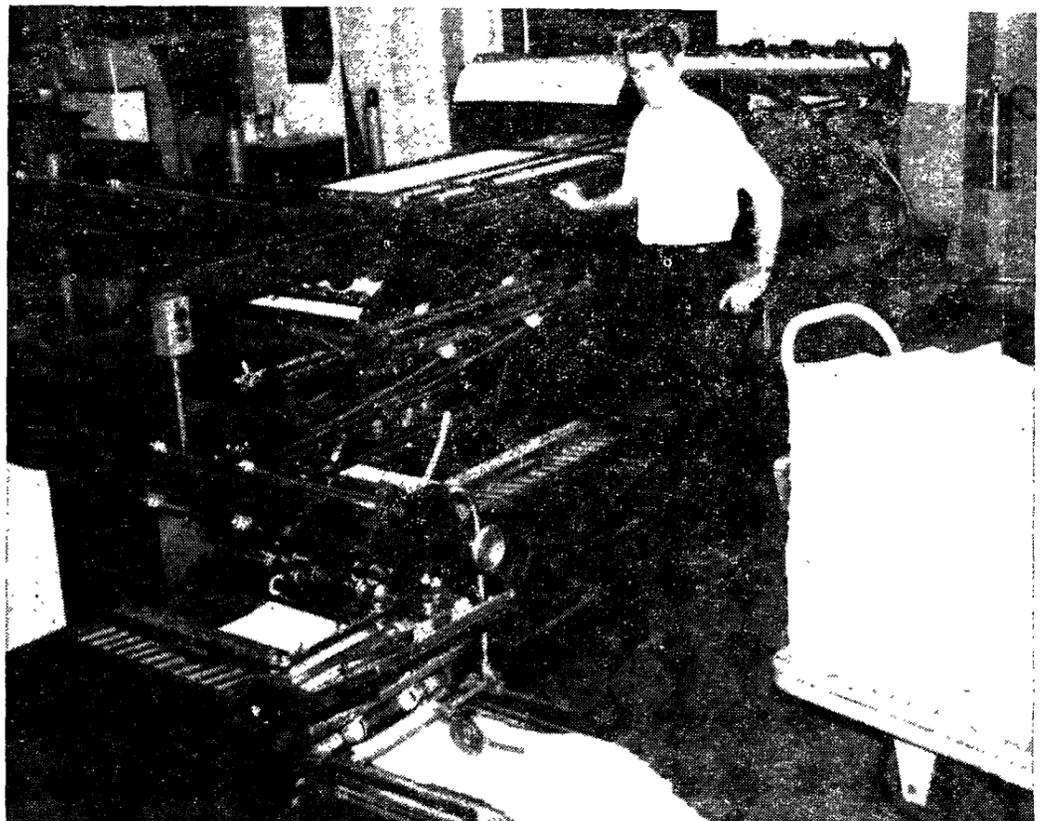

The tandem press with a sorter that will take 100 sheets and sort them into the proper page sequence is one of several in the Reproduction Plant. George Mitchell is operating this one.

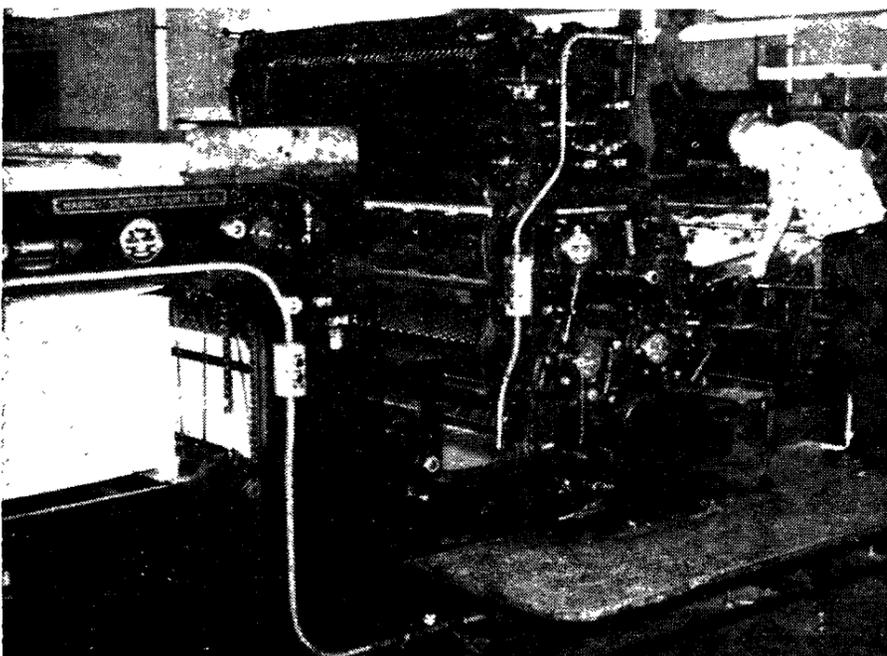

Dewitt Hodnett watches copy fall into the dual baskets on the 2336 Millier Offset Press. The press section, heart of any printing operation, is divided into heavy and small offset press operations with separate supervisors over each.

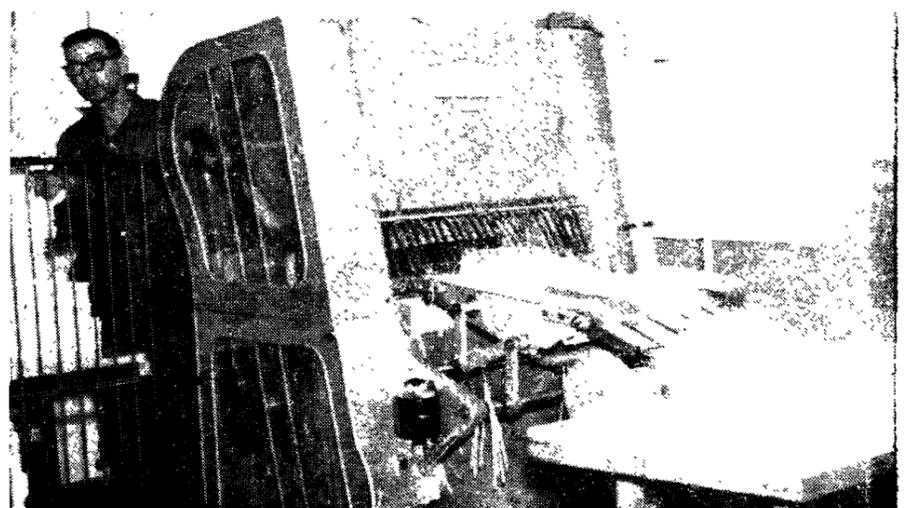

Lee Florence, a pressman, when in a hurry sometimes cuts his own sheets on the 64" paper cutter. It will cut as deep as the gap between blade and table.

Clifford Walker checks on his 39"x52" Baum Folder as a 32 page sheet is folded to 8½"x11", ready for the three-knife cutter which Joseph Presnell is operating below.

A little slow, the big press can print a 32 page booklet on one sheet. Here operator Herbert Maxwell adjusts for a run.

The Pivano cutter is one of two pieces of equipment authorized to be purchased from outside the United States by the Congressional Committee in charge of all printing rules and regulations.

Personnel Officer Home For Daughter's Graduation

Back in Huntsville for the high school graduation of his daughter, William Blackard, of the Civilian Personnel Office, is looking forward to his return to Vietnam later this month.

Blackard went to Southeast Asia late in February on a three-month temporary assignment for the Army Materiel Command. At the close of that tour he agreed to return for a full twelve-month tour in the same position.

The personnel staffing specialist was assigned to Nah Trang where he was engaged in recruiting Vietnamese nationals and placing American civilian volunteers in positions with Army and

Navy units plus elements of the Republic of Korea Army.

Two other MICOM civilians, Harry Kirby and Robert Hall, are presently in Vietnam as position classifiers with the AMC team located in Saigon. Earl Bracey is expecting to leave this month for a year as Civilian Personnel Officer in Pleiku.

The office in Nah Trang is one of eight that has been established in Vietnam by the Army Materiel Command to handle personnel matters for American civilian volunteers and the local nationals who work for Allied Forces.

DA Award Goes To Ammunition Record Keeper At Munitions Command, Joliet

An attractive young supervisor of the Army Materiel Command (AMC) from the Midwestern plains was rewarded by the Department of the Army for her role in saving U. S. taxpayers more than \$10 million. Miss Shirley J. Gomora of Coal City, Ill., received a \$4,700 special service award from Secretary of the Army, Stanley R. Resor, at a special Ladies' Day Award Ceremony at the Pentagon. General Frank S. Besson, Jr., AMC Commanding General, also congratulated Miss Gomora.

She had previously received \$300 from the agency where she is employed. The \$5,000 total is the highest cash award which can be approved by the Army.

The chain of events which led to the award began in 1965. Miss Gomora was then employed as an "item manager" at AMC's Army Ammunition Procurement and Supply Agency (APSA) Joliet, Illinois. Her duties included maintaining stockpile records on several ammunition items, including projectiles for an obsolete flat trajectory 155mm gun. Although the gun was obsolete and no longer used, APSA has 1.2 million projectiles stored for it in depots.

The flat trajectory gun has been replaced by a 155 mm howitzer which uses a slightly different projectile. When the new howitzer went into service in Vietnam, APSA was called upon to buy it additional ammunition.

Aware of the 1.2 million stockpile of ammunition for the old weapon Miss Gomora sparked a review which disclosed that with minor changes costing \$2.34 per projectile the stockpile could be used. New projectiles for the 155mm howitzer cost \$2413 each. Deducting the \$2.34 modification cost left a savings of \$21.79 each. Validated savings by avoidance of procurement of new ammunition totaled \$10,478,000 in FY 1966. Additional savings of about \$15 million are predicted for the current fiscal year as a result of her action.

The APSA Commander, Brig. Gen. B. R. Luczak, labeled Miss

Gomora's contribution to the Defense Cost Reduction Program as "an outstanding example of the splendid job being done by women in the supplying of ammunition to our troops in Vietnam."

AT AUCTION

SAT., JUNE 10 AT 2:02 1/4 P.M., DST

The Three Acre Lot In Skyline Acres Subdivision And A Beautiful 3 Bedroom Split Level Home Belonging To Jimmy D. Merrill, Located In Highland Subdivision, One Mile East of Ardmore.

The Longest Charge

The Norelco Rechargeable 40C delivers twice as many shaves per charge as any other rechargeable.

All you have to do is charge it overnight for two weeks of close, fast, comfortable Norelco shaves. The Rechargeable works with or without the cord. Either way, Norelco rotary

blades whisk off your beard without a nick or a pinch. And the famous Microgroove 'floating heads' glide over the rough terrain of your face for a Norelco shave that's 35% closer.

And there's a pop-up trimmer for sideburns. Altogether, this Norelco Speedshaver® 40C has more features than any other shaver on the market.

And if you want to shave with a battery-operated shaver, take this Norelco 'Flip-Top' Cordless Speedshaver 20B along. It has an on/off switch and it works on 4 penlight batteries. The 20B also has Microgroove heads, flip-top cleaning,

new battery ejector and a mirror, too. Either way, Norelco wins the battle against whiskers.

Norelco®

the close, fast, comfortable electric shave

Sergeant Units Testing Proficiency With Missiles

A Ft. Sill, Okla., Sergeant missile unit has moved to Orogrande Range Camp, N. M., to test its proficiency with the ballistic missile system.

The 3rd Battalion, 38th Artillery will fire the Sergeant missiles on the White Sands range.

Lt. Col. A. G. Lange, Jr., manages the Sergeant Project Office for the U. S. Army Missile Command.

The flights of the 34.5 foot Sergeant will be monitored by White Sands Missile Range safety and data gathering equipment. The first firing is scheduled for the week of June 12.

CHAPMAN'S WILL REMEMBER MAY

May was a memorable military month for the family of Lt. Col. Charles E. Chapman of the Army Missile and Munitions Center and School here with father and son receiving special recognition by the Army.

While his father was being named to head the new Unit Training Command at MMCS, a promotion to Specialist 4 came to Michael Chapman, 20, now stationed at the Ordnance Center and School at Aberdeen, Md. Sp4 Chapman is a 1966 graduate of Butler High School in Huntsville.

To cap the month, LTC Chapman received the Legion of Merit on May 27 for outstanding service last year with the First Logistical Command in Vietnam where he was both deputy director of ammunition and deputy commander of the 52nd Ordnance Ammunition Group.

Missile Matters Roll Presses Round Clock

Without a printing press, the great majority would probably be as well-informed as the caveman—an expert at his job and ignorant of almost all else.

At the Army Missile Command the printers produce a variety of

(See Pictures on Pages 8 & 9)

documents, the bulk of printed matter that consumes more than five tons of paper daily deals with the printed word, equations and chemical formulae relating to missiles.

PRODUCTION PLANNING

Each day the production planners schedule 100 or more orders that may occupy only five minutes of press time or may stretch into a matter of weeks.

The Reproduction Division of the Arsenal Support Operations Directorate has both offset presses and photo copiers to take care of jobs large and small.

Even though the Army operates the plant, the Army is not the only user. The National Aeronautics and Space Administration's Marshall Space Flight Center has a contract to use the plant as well as both Army and NASA contractors with a need to print material

which might cause a national security compromise if contracted on an open commercial press. When the space and weapons missions of the Army were separated, the Army retained the weapons and NASA took over space but remained a tenant at Redstone Arsenal.

JOINT COMMITTEE APPROVES

The Joint Committee on Printing in the U. S. Congress, which governs all Federal Agency Print Shops, decided the taxpayers would be saved dollars if the Army continued to operate the plant for both missions.

The Army Missile and Munitions Center and School has a great deal of material printed for trainees in missile maintenance and ammunition handling. The Nike-X Project Office uses the plant for its literature, and the Army Missile Command has a continuing need for printing everything from telephone directories to missile procurement packages. An extreme case for the latter item included several thousand drawings which all had to be reproduced to make the package complete. That required special justification.

After the production planners have scheduled a job on the barrel-like chart, sectioned to show where an item will be until it rolls off the presses, the item moves on to the copy camera; or if it is a small photo copy job it will move directly to that section.

XENON PLATEMAKER

When the cameraman is through, the negatives are assembled and made up in page form for the platemaker. The platemakers are particularly proud of the xenon arc platemaker al-

though they also still use the one with a carbon arc which has been in service much longer.

The offset presses handle all kinds of jobs. Some of them are dualith printers which automatically sort up to 100 sheets sequentially. If a full 200 page booklet is produced on these presses, the binders will not use staples. Small items may or may not be stapled.

The Martini perfect binder the plant uses was purchased with Congressional approval. It is one of two pieces of foreign equipment the plant owns because a similar item was not manufactured in the United States at the time of purchase.

SIXTEEN PAGE RUN

The big press will handle a full sixteen page run on a single sheet. This is sent through the folder which shapes it for the three-knife cutter. With one stroke, the cutter separates the pages for the binder.

Among the various items turned out in the plant are the security badges for employees, contractors and visitors.

John Tyson, the Division chief, has been in printing all his life, he says. He began in a lithographers shop while he was still in high school and arrived here with the guided missile and rocket group who transferred from Ft. Bliss, Texas in 1951.

PROFESSIONALS: THEY STAY

The next in command, Wallace Phillips, has been here equally long. In fact, almost everyone in the plant has a long record on the job. Ray Smith, shop foreman, Clifford Cooley, production planner, John Allen, chief of the photo

copy section, and Morris Davis, heavy press foreman, as well as pressmen, the photo copiers, the plate makers, the binders and all the rest. A few are new. Attrition takes its toll as it does in every business.

AIR UNIVERSITY'S ACADEMIC Instructor Course has graduated its 20,000th student since opening at Maxwell AFB, Ala., in September 1948. TSgt. Earl R. Turley, instructor at Ballistic Missile Analyst Course, Chanute AFB, Ill., was awarded 20,000th diploma. (ANFB)

THE VOLVO 122S SUPER . . .

IT'LL LAST LONGER THAN THE PAYMENT BOOK ! !

Volvos are Swedish cars, built to survive Swedish driving conditions. Which are rough. The winters in Sweden are rarely mild and often severely cold. 70,000 miles of Swedish roads unpaved. And there are no limits on how fast you can drive on Swedish highways. Volkos last an average of 11 years under these conditions.

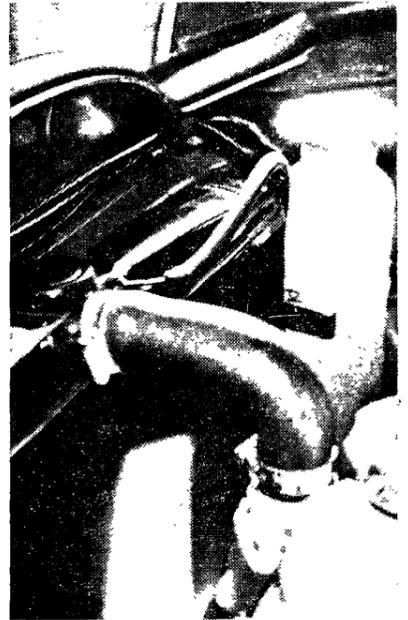

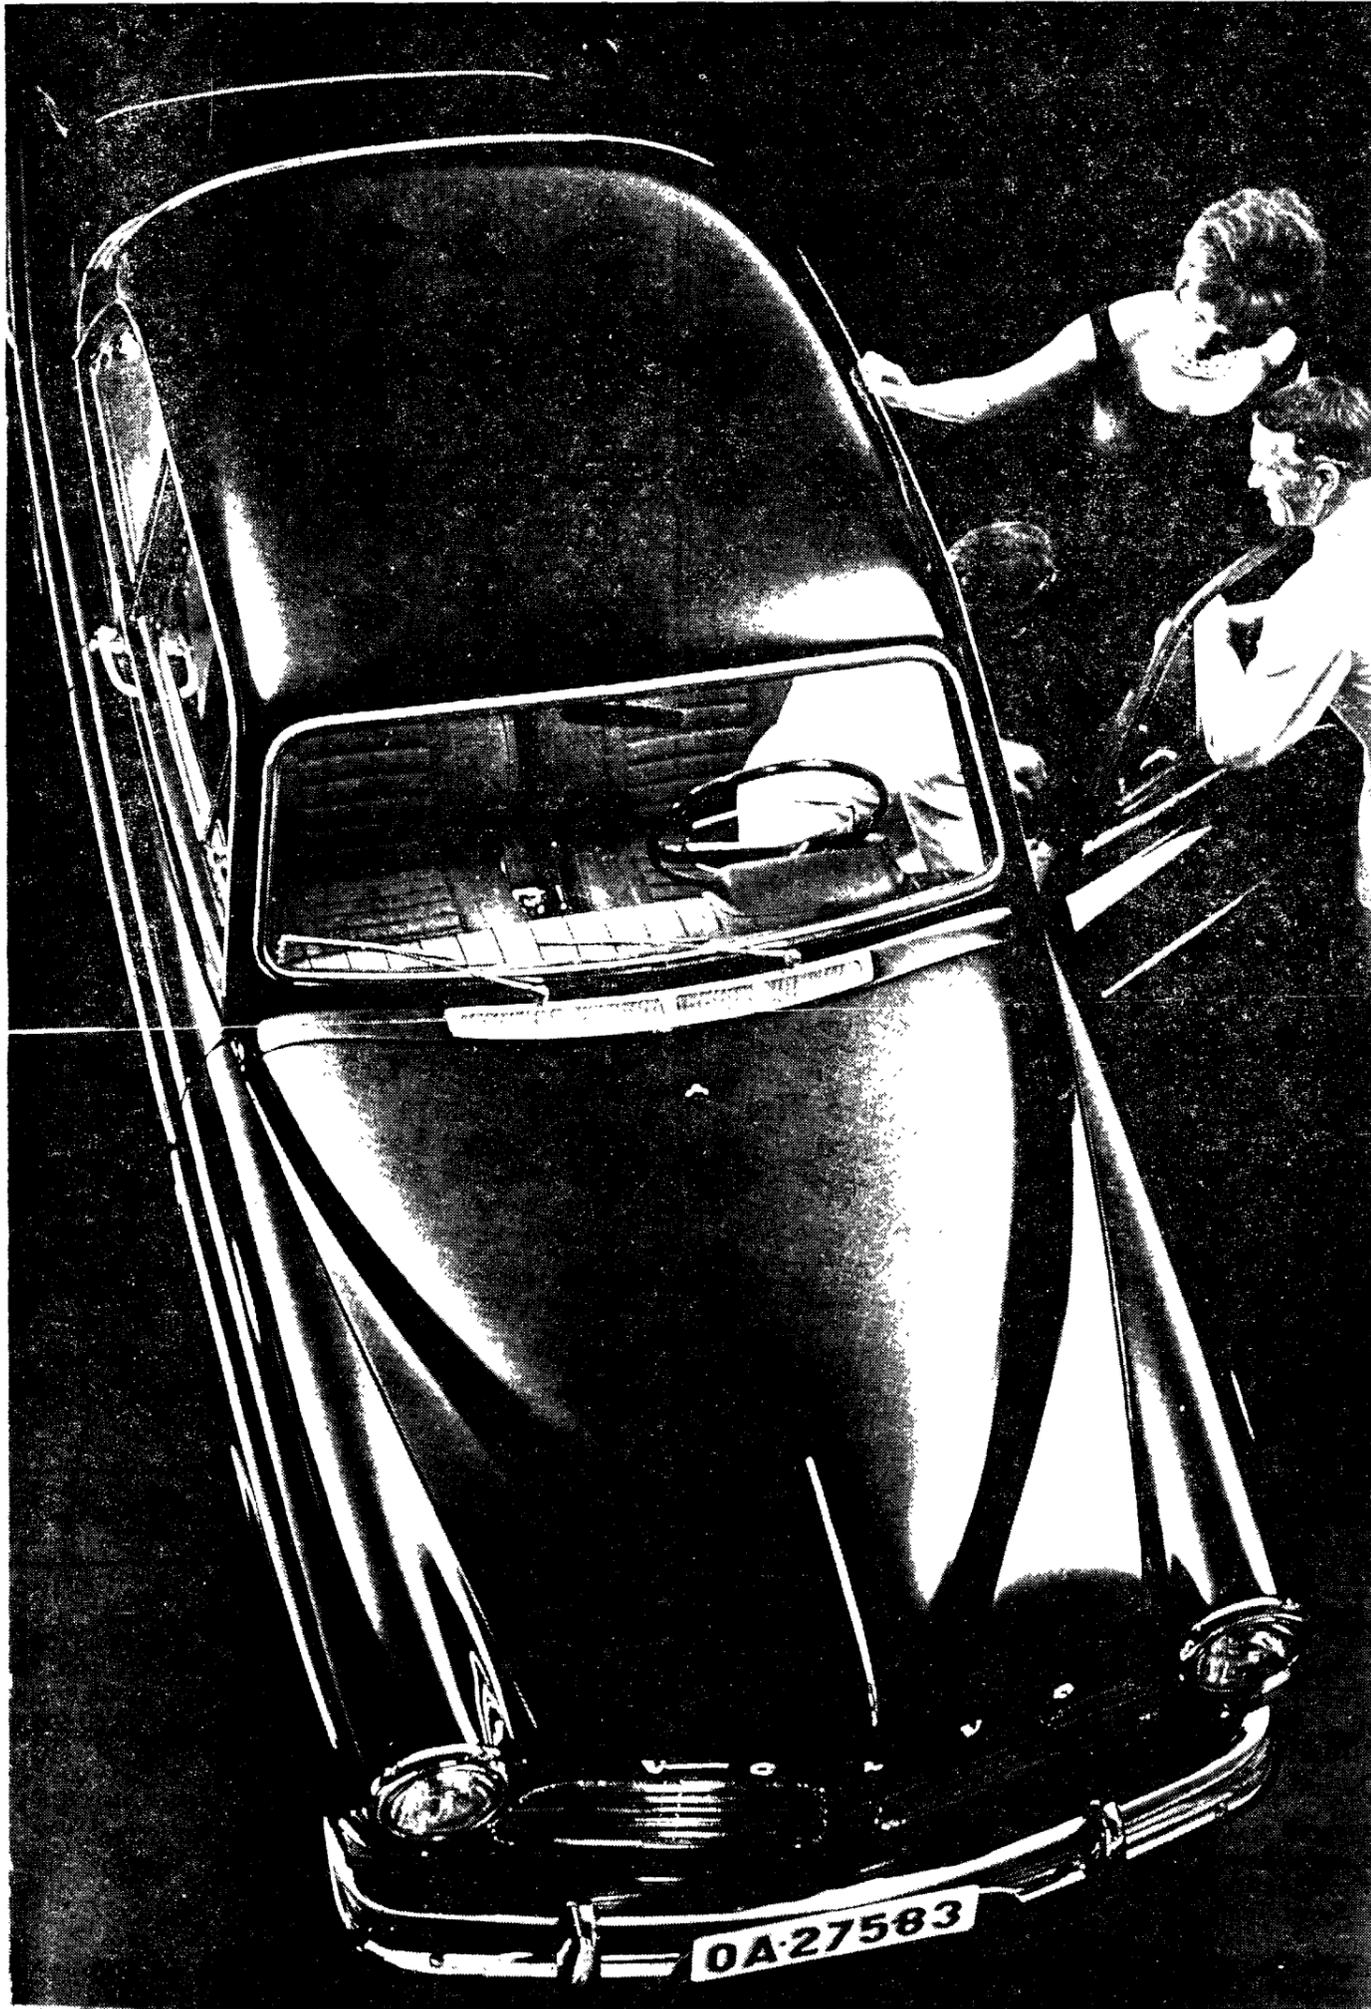

While they're lasting, they do a few other things too. Out accelerate every compact in their class, and get over 25 miles to the gallon—even with automatic transmission.

That probably accounts for the large number of repeat buyers Volvo has.

71% of Swedish Volvo owners make their next car a Volvo too. (That's pretty impressive, even if we do say so ourselves.)

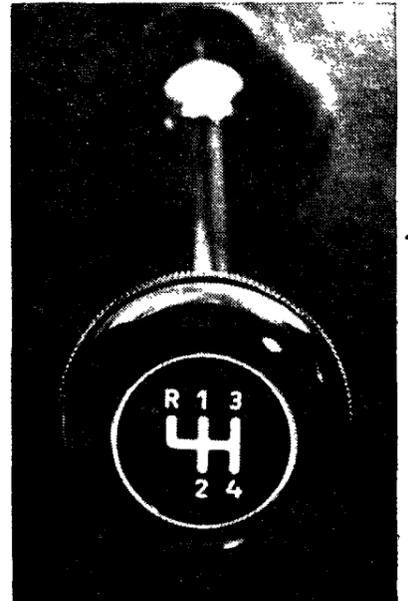

If you're wondering how long a Volvo is likely to last in the U.S.—where driving conditions are a lot better—we can't tell you. Volvo hasn't been here 11 years yet. Saying it'll merely outlast your payment book may be ridiculously understating our case.

There's no question that owning your own car—really owning it, free and clear—gives you an enjoyable feeling. What's even more enjoyable is owning a car that's a pleasure to do your driving in.

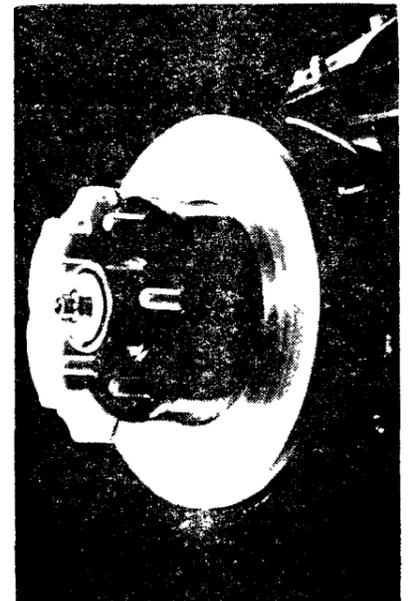

This radiator won't blow its top!

The sealed engine cooling system is also standard equipment. It keeps the radiator from overheating, and blowing its stack. When the radiator starts getting too hot, the steam flows into a bottle, cools down to water again and drains back into the radiator. If you've ever stood around waiting for an overheated radiator to cool (and who hasn't?), you'll appreciate that.

Four-speed fully synchronized gear box

Now about shifting gears. Either you like to or you don't. If you like to, Volvo's standard gearshift is synchronized in all 4 speeds. No nerve-grating crunches, ever. Not even when you downshift into first. If you don't like to shift gears, Volvo has an optional automatic drive that's so efficient you'll still be able to get over 25 miles on a gallon of gas.

Dual Braking System for even safer braking

All Volvo passenger cars have disc brakes in the front and drum brakes in the rear, so you get even braking in all 4 wheels. No sway or fading in emergency stops. To make braking even easier, we've put Volvo servo-assist power brakes on all models this year as standard equipment. We've also installed a diaphragm clutch, which takes less pedal pressure to operate than the old clutch.

Some of the best things about a Volvo are the things you don't see.

Like the 115 H.P. Engine—Anti-Fog Device, and of course optional equipment, Air Condition, Auto Transmission and many others, why settle for less, get luxury and economy in Volvo 122S Super.

President Asks Pay Gap Close By October 1969

President Johnson has proposed to Congress a 4.5 percent pay increase for all except the very highest paid Federal civilian employees, to take effect October 1, 1967.

He recommended that Congress "take the final step this year to achieve full (pay) comparability with private industry," and proposed a two-stage plan to remove the remaining comparability lag

in all grades by October 1, 1969. The first step would take effect in October 1968 and the second a year later.

Submitting the bill, the President said:

"Through the years, this Nation has built a corps of public servants whose quality is unmatched by any other country in the world.

"Our career employees are well-trained and experienced. In ever-

increasing numbers, they are skilled professionals. They include not only administrators and managers, but doctors, lawyers, diplomats, economists, scientists, engineers, actuaries, systems analysts, law enforcement officers, nurses—and many others critically needed to provide public services in a complex world.

"These men and women come to the public service not by chance

but by choice. They come because they are challenged by problems that are far-reaching—and fateful. They come because Government offers unique opportunities for unselfish service.

"From them, we expect unusual dedication. In turn, they have a right to expect from their Government rewards that match their contributions.

Proposed rates for General Schedule employees are as follows:

Grade	Annual rates and steps									
	1	2	3	4	5	6	7	8	9	10
GS- 1	\$ 3,776	\$ 3,902	\$ 4,028	\$ 4,154	\$ 4,280	\$ 4,406	\$ 4,532	\$ 4,658	\$ 4,784	\$ 4,910

REDSTONE ARSENAL, ALABAMA

School Draws 59 Civilians Seeking To Develop Career

Fifty-nine Redstone civilians left their normal duties early this week to enroll for graduate level training sessions at military schools and leading colleges located in twelve states.

Their training programs, offered under the Missile Command's Career Development Program, will range from two days to eight weeks during which they will take courses intended to keep them abreast of recent developments in their individual career fields.

Four of the Arsenal personnel will remain in Huntsville for their training courses with three of them enrolling for study at the University of Alabama and the other receiving his training at the Missile School.

William Henderson (S & M) will spend seven weeks at AMMCS for the Redeye portion of the Combat Missile System Repair Course. Ray Wernle and James Hicks (DASO) and Gerald Parham (S & M) are at the University this week for a 40-hour course in cryogenics Engineering.

Another group of eight employees of the Supply and Maintenance Directorate will be at the AMC Ammunition School in Savanna, Ill., for two weeks to take the Guided Missile Ammunition Orientation course.

They are Alex Oliver, James Scott, Jesse Rich, Curtis Wade, Clyde Allen, Lynn Wright, Bish Tarwater and Otis Rhodes.

A like number left for the U. S. Army Logistics Management Cen-

ter, Ft. Lee, Va. Two of these, Richard Seale (Redeye) and Helen Thummel (Lance) are enrolled for the Research and Development Management Orientation.

Robert Gunter (Gen. Counsel) is taking the Defense Advanced Procurement Management course along with Billy Ward, William King, Vera Osborne, Myrtle Weeks and Kenneth Yates, all from the Procurement and Production Directorate.

Twelve more are at the U. S. Army Management Engineering Training Agency, Rock Island, Ill., where they are enrolled in five different courses.

George Ratts (C & DP) is studying Economic Analysis for Decision Making, and Garry Barnard (R & D) is taking Probabilistic Methods in Operations Research. The former is a two-week course and

the latter lasts a week longer.

Francis Porges (C & DP) and John Englert (Mtg Sc) are taking Managerial Communications, while Louis Sisco (R & D), Wallace Thomas (Shillelagh) and George Hurley (Land Combat) are attending the Seminar for Quality Managers.

Attending the Top Management Seminar this week and next are Willard Collins (P & P), George Smith (C & DP), Stanley Kreger (MMCS), Nimrod Hall (Sergeant) and Jack Voight (DASO).

Melvin Capps (Nike-X) is at the Dugway Proving Ground, Utah, this week for CBR Weapons Orientation, and Irene Moore (Hawk) is taking Techniques of Review and Analysis at the Army Finance School in Indiana.

Elmus Brock (DASO) will spend three weeks at the Army Management School, Ft. Belvoir, Va., for the Army Installation course, while Geraldine Sullivan and Robert Kennedy (DASO) will be in New York City for a course in Recruitment and Placement offered by the Deputy Chief of Staff for Personnel.

Frank Macomber (P & P) is

spending two weeks at Frankford Arsenal, Pa., to study Application of Measuring Techniques, and Arthur Pickett (DASO) is at the same place this week for Certified Soldering.

Five more locals are taking courses offered by the Civil Service Commission at Athens, Ga., and Berkeley, Cal. James Little is on the west coast for Skills and Goals of Management.

Robert Nelson (Hawk), Clyde Pope (Hercules), and Barbara Simmons and Hollos Bridges (DASO) are in Athens for the Development Program in Planning.

Another group of five are in Ohio for courses at the School of Systems and Logistics at Wright-Patterson AF Base. Included are Bettye Matkin (Sergeant) who is studying Contract Law, and Ernest Christmas (S & M) who is taking Industrial Maintenance Management.

Donald Dixon (Nike-X) and John Ray (Sergeant) are enrolled for Management of Value Engineering, and Edwin Hart (P & P) is taking Systems Engineering and Configuration Management.

James Williams (R & D) is in

Orlando, Fla., for Integral Electronics at the Arinc Research Corp., and Thomas Mizell (S & M) is taking the Lance Technics Specialist Course at the Ling-Ten co-Vaught plant at Warren, Mich.

Ben Cobb is taking Foundation of Perception and Learning at the University of California in Los Angeles and Leonard Brockman (DASO) is attending the Trainees Specialists Institute at Cornell University, Ithaca, N. Y.

John Cox (C & DP) is enrolled for an eight-week General Science course at Jacksonville State University, Ala., Julian Bynum (R & I) is spending two weeks in Bethlehem, Pa., for the Workshop in Fracture Mechanics at Lehigh Univ., and Robert Siron will be at Pennsylvania State University this week for Mechanics of Polymer

The remaining three will receive their training at the University of Michigan. They are Robert Webb (DASO) who is studying Advanced Infrared Technology, Helen Boy (R & D), enrolled for Atmospheric Physics, and Thomas Diggs (Qu & Rel) whose study will be the field of Mathematical Advances in Operations Research.
