VOL. XVI; NO. 15

REDSTONE ARSENAL, HUNTSVILLE, ALABAMA 35809

AUGUST 23, 1967

**WELCOME TO REDSTONE, DOCTOR**—John L. McDaniel, Technical Director of the Army Missile Command's Research and Development Directorate, greets Dr. Russell D. O'Neal, Assistant Secretary of the Army (Research and Development) outside Building 5400. The Secretary toured the McMorrow Laboratories and was briefed on the Army Missile Command during his visit the past week. He was in Huntsville to address the Control and Flight Dynamics Conference of the American Institute of Aeronautics and Astronautics.

## Army Needs Weapons Which Can Find Enemy, Dr. O'Neal Tells AIAA Meeting

Talking about missile system guidance, one of the Army's top experts last week said "We need a missile system that can be fired from beyond the line of sight—and find the enemy!"

"The Army badly needs, but does not yet have, this indirect fire capability," Dr. Russell D. O'Neal, Assistant Secretary for the Army for Research and Development, declared.

Dr. O'Neal's remarks were made in a prepared speech at Sheraton Motor Inn where he addressed members of the American Institute of Aeronautics and Astronautics at a conference on guidance, control and flight dynamics. Theme of the conference was "Trends in

Guidance."

"When I think of guidance, I think of providing the troops with missiles that can be delivered on target just over the next hill," the assistant secretary emphasized, "yet find and home on the enemy."

Admitting that the theme is "alarmingly broad," O'Neal directed his remarks toward three guidance trends: 1) Those for ballistic missiles; 2) Those for weapons that are guided all the way to their targets; 3) Navigation of men and machines whose function is to launch the weapons.

But much of his talk dealt with the indirect fire capability.

One promising solution, he (See DR. O'NEAL on Page 3)

## Capt. W. M. Nicholson Speaks To AOA Aug. 30

The head of the Navy's Deep Submergence Systems Project, Capt. William M. Nicholson, will speak to members of the Tennessee Valley Chapter of the American Ordnance Association here August 30.

Capt. Nicholson will speak at a luncheon meeting, to begin at noon at the Redstone Officers' Open Mess. An AOA spokesman said that the public is invited. Reservations may be made as late

as noon on August 29.

Appointed director of the Navy's Deep Submergence Systems Project last January, Captain Nicholson is responsible for the overall direction and management of ocean engineering programs in deep submergence. These programs include development of deep submergence vehicles, development of a system to salvage objects weighing up to 1,000 tons, (See AOA on Page 3)

## Missile Command Future Firm, General Declares

A sure future for the Army Missile Command and a continuing need for quality personnel to serve it were themes emphasized by Maj. Gen. Charles W. Eifler in a speech scheduled for presentation yesterday.

The commanding general assured Huntsville Rotarians in his first major address since returning from Vietnam that there is no reason to be concerned about the permanence of the Army operation here or the future of the Missile Command.

Acknowledging that Vietnam claims the Army's top priority, Gen. Eifler said each new commitment, each new development program will be examined critically in the light of what its contribution will be.

He cited recent authorizations to proceed with the Extended Range Lance, Pershing Ia and SAM-D programs, as well as activation of the Army Metrology and Calibration Center, among many reasons why he feels the Army continues to attach great importance to the work being done at Redstone.

Outlining the research and development task ahead, Gen. Eifler said "We must continue to develop and perfect the advanced sensors, new guidance and con-

trol systems, new propulsion systems, new structures, all necessary if we are to keep a leg up on rapidly expanding technology."

The general said the Missile Command must continue to attract and hold good people and he pledged support to the University Center and to all activities which promise better education "for our people and their families".

Praising the work done by MICOM research personnel, the general continued: "but for every man or woman we have working in a laboratory, nine more are doing other tasks in management and management support just as vital to us." Citing the ever increasing work load in supply, maintenance, procurement and production, Gen. Eifler termed the performance of personnel in those areas "vital to us."

"In the Army's eyes, we stand or fall on how well our missiles do when they are issued to troops and are in operational use," he said.

Pointing out that MICOM civilian employment is now approaching 10,000 and the Army payroll at Redstone nearing \$130 million annually, Gen. Eifler continued:

"We may, from time to time, (See FUTURE on Page 3)

## Lance Managers Meeting To Evaluate Entire System

Top management people who are developing the Army's new Lance battlefield missile system are meeting this week in Michigan to participate in the Lance Program Management Review.

Jim Studdard, Quality Assurance Manager for the Lance Project Office at the Army Missile Command here, said the meeting brings together top representatives from government and industry "to determine if the Lance development team is ready to produce quality hardware in quantity."

"We will evaluate the entire Lance program, its people, equipment and facilities, and all the countless management controls exercised over the program," Studdard said.

The Missiles and Space Division—Michigan LTV Aerospace Corporation, Lance prime contractor, is hosting the two-day meeting which begins tomorrow at the Michigan Army Missile Plant. Among contractor representatives will be Dr. G. M. Monroe, vice- (See LANCE on Page 3)

**NEW U. K. LIAISON OFFICER**—Lt. Col. Edward M. Lock, newly assigned Liaison officer for the United Kingdom, is welcomed by Maj. Gen. Charles W. Eifler, Commanding General of the U. S. Army Missile Command. The new liaison officer joined the Command last week following an assignment at the School of Artillery, Larkhill, England, where he served from August 1964, until July of this year as a technical staff officer. Former assignments have included the continents of Asia, Europe, and the United States. He takes over from Lt. Col. T. F. S. Southgate who takes over a new assignment in England.

# The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

## Rocket Ruminations

The most wasted day of all is that on which we have not laughed.  
—Sebastien R. N. Chamfort

## You'll Never Know

Congratulations—you're one of the lucky ones. It's almost Labor Day and you're still alive.

You managed to survive the Memorial Day weekend and the 4th of July holiday.

Memorial Day was the official opening of the summer vacation season. Unfortunately, 608 motorists never had a chance to tell their friends what a great time they had over the long weekend. Traffic deaths didn't take a holiday.

Over the 4th of July, millions of Americans took to the highways for another long weekend. It was a great chance for picnics, fishing trips, family vacations or a fast trip to see the relatives.

The families and friends of the 722 people killed in highway accidents over that long weekend will never forget that holiday.

Labor Day is a three-day holiday. There will be many people who will try to make up for what they have missed all summer on the last big weekend of the summer season.

Some of them are going to become part of the statistics for 1967.

If you're going to be on the highway over Labor Day, plan that everyone else on the road is going to do something that will involve you in an accident. This doesn't mean you must drive faster—or slower—to keep out of their way. It does mean you must be more careful and alert than ever.

Think a couple of hundred yards ahead and don't get caught in a tight spot. Always leave yourself a way out—someplace to go when the cars in front of you pile up.

Constantly concern yourself with the six cars that can directly affect you: the one ahead; behind; approaching; passing; ready to pull out from the roadside; and the deadliest one of all, the one you can't see.

That unwanted, unseen passenger riding with you will be waiting for you to make your first—and last—mistake behind the wheel. Watch out for the other driver and stay alive. (AFPS)

## Benefit Association Offers Two Group Insurance Plans

Applications for insurance with Redstone Benefit Association are being accepted during August. RBA offers two group insurance plans:

Group Life insurance for civilian employees of the Missile Command and the Missile and Munitions Center and School.

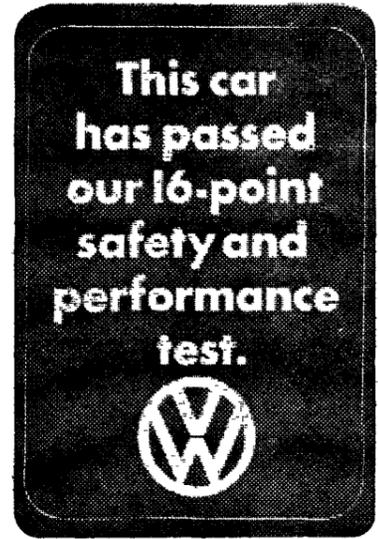

Group Accident insurance for military or civilian employees of these organizations.

The group life plan, with Home Life of New York, has been in effect since 1962. Civilians may purchase insurance coverage equivalent to their annual salary. Over 3200 employees are presently insured. Since 1962, 84 death claims have been filed with \$897,000 paid to beneficiaries. Also, 42 permanent disability claims have been approved, representing \$396,000 of insurance coverage. Home Life is presently developing a program to permit members to obtain life insurance for their dependents also. Officers of RBA have recently inquired into plans offered by other firms, particularly Occidental Life of California. Comparison of data obtained indicates that the Home Life program is the best obtainable for employees at Redstone.

The accident insurance program began last February. So far, over 800 military and civilian employees are insured with Continental Insurance Company. Their worldwide, 24 hour accident plan is especially attractive to Arsenal personnel. Quarterly rates begin at \$2.70 for 10,000; up to \$27.00 for 100,000. A travel insurance plan is also available, covering travel accidents only, at slightly lower rates. Spouse and dependent children coverage is also available, under either plan.

Eligible personnel are encouraged to apply. For information on application forms, phone 877-4308 between 9 a.m. and 1 p.m., Monday thru Friday, or write Secretary-Treasurer, Redstone Benefit Association, Room 3, Bldg 3159, Redstone Arsenal, Alabama 35809.

## This Sticker Means You Won't Get Stuck

We guarantee every car displaying this sticker 100% for repair of the engine, transmission, rear axle, front axle assemblies, brake system and electrical equipment for 30 days or 1,000 miles.

**DR. O'NEAL**

(Continued From Page 1)

pointed out, involves a laser beam to illuminate the target and guide the missile.

"Using this method, the man spotting with the laser illuminates the target and the missile follows the beam to the target."

Much promising work has been accomplished in optical tracking of moving vehicles here at Redstone Arsenal, O'Neal said. And efforts are being devoted to processors—both optical and digital—that can determine by the spectral and shape characteristics of an image, whether a target is, for example, an enemy or friendly tank.

Discussing other problem areas, Dr. O'Neal said the Army today finds itself in the strange position of having to reinvent aircraft gun and rocket sights.

"With the new emphasis on low-level tactical warfare, and the arming of helicopters with rockets and flexible guns, we are calling on manufacturers to apply modern techniques to the development of new, lightweight sights."

"Who earlier would have considered firing from an aircraft flying sideways, or backward, or almost stationary?" he questioned.

In other areas, Dr. O'Neal discussed hybrid navigation systems, inertial guidance systems for ballistic missiles and the use of fluid controls for guidance.

Summing up his remarks, he predicted among future trends:

—Continued development of unconventional inertial sensors, directed toward very small size and high accuracy.

—Development of more intelligent sensors for homing missiles.

—The evolution and use of hybrid navigation systems.

—A reduction in the costs of guidance and navigation systems to the Army.

The Assistant Secretary was introduced at the conference by Maj. Gen Charles W. Eifler, Commanding General of the Army Missile Command.

**FUTURE**

(Continued From Page 1)

make adjustments in our personnel and work load. I must insure that first things come first and that priority tasks get priority on our primary resource, people."

"As the Army continues to place such great emphasis on careful analysis and study, there will be a corresponding requirement for good technicians and management personnel to do the work. We are getting our fair share of these studies. I intend to take every one I can get . . ."

"The cost of the salaries of the people involved in this work is a small portion of the overall cost, but it's the wisest kind of investment. Good studies need good people."

In other areas, Gen. Eifler gave the community leaders his personal assurance that he intends to see that the excellent relationship between the command and the community continues.

He asked for community assistance in providing rental housing open to all military personnel in a price range that enlisted men and junior officers can afford.

Briefly reporting on his Vietnam experiences where he commanded the 1st Logistical Command Gen. Eifler reminded his audience that Redstone Arsenal and the community "have a very real, personal stake in Vietnam."

Owners of U. S. Savings Bonds need not worry about their investment, should they fall victim to a sudden disaster such as a flash flood or tornado. The Treasury acts quickly to replace or reissue Bonds in such hardship cases. When a tornado raced through Indiana in the Spring of 1965, one family lost 71 Bonds. Thirteen turned up in mutilated condition and were replaced; the other 58 were reissued. In the same tornado, another Indiana family lost 57 Bonds—all of which were replaced.

**LANCE**

and extension of the man-in-the-sea program.

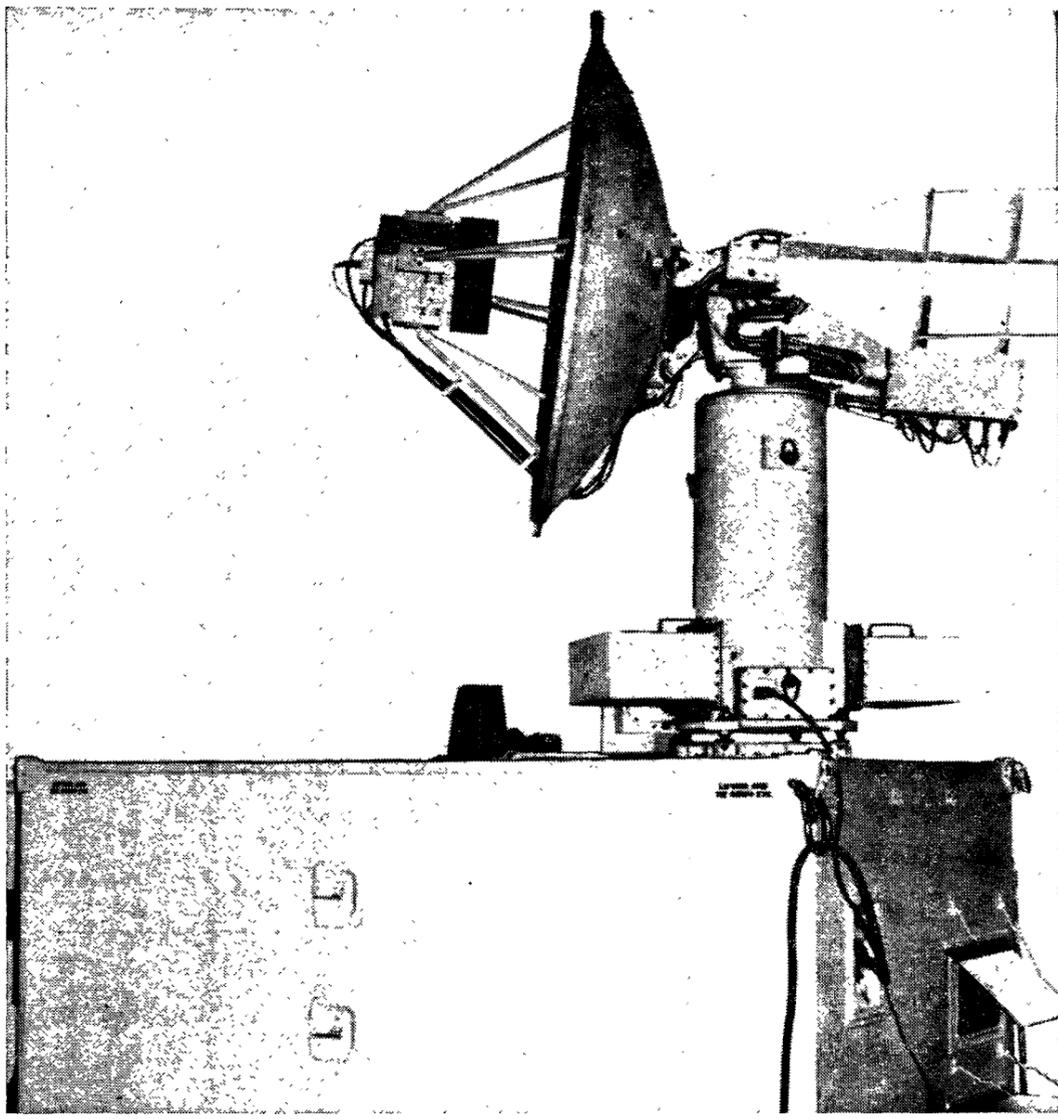

He also has responsibility for the development of the Navy's nuclear-powered, deep submergence ocean engineering and research vehicle the NR-1.

A native of Napa, Calif., Nicholson graduated first in the U. S. Naval Academy's class of 41. He also holds a master of science degree in naval architecture and marine engineering from Massachusetts Institute of Technology.

Most of his career has been spent in the material branches of the Navy, with duties in naval engineering, ship design and engineering management.

Reservations to attend the AOA meeting should be made through Horace Lowers (876-8535); Paul K. Schaeppi (876-3928); Col. O. M. Hirsch (876-6953); or William A. Giardini (532-1576).

Fires, burglaries and freak accidents have taken a large toll of U. S. Savings Bonds, but not a penny is ever lost by the owners. Any Bond lost, stolen, mutilated or destroyed is replaced free of charge by the Treasury.

**SEES AND TELLS**—New Mobile Target Tracking System designed for operation with the MQM-34D Firebee was recently tested at White Sands Missile Range, New Mexico. Shown above is the antenna and ground station enclosed within an all-weather, transportable shelter. The system was developed for the Army Missile Command by EPSCO, Incorporated, Westwood, Massachusetts.

**Target Tracking System Delivered To Command**

A new Mobile Target Tracking System designed for operation with the MQM-34D Firebee Target missile has been delivered under an Army Missile Command contract with EPSCO, Inc. The system has been undergoing successful tests at White Sands Missile Range, N. M.

The new system, for the first time, combines all missile flight control, tracking and telemetry data processing functions in one, fully transportable, ground system.

In operation with the Firebee target missile, the system demonstrated performance characteristics which readily met, or exceeded, the most stringent design specifications — specifications

which include a minimum slant range of 120 nautical miles, a maximum range error of plus or minus 10 yards, target tracking accuracies within plus or minus three mil in elevation and one-half mil in azimuth.

In addition to its outstanding performance characteristics, the Mobile Target Tracking System features an unusual degree of flexibility which encompasses a wide latitude of flight plan programming; continuous mission control data monitoring, checking and display; a complete back-up system for all primary control elements with automatic branch switching for emergencies; pre-selection of criteria governing

branch switching; provisions for both tape recording and data print-out all combined within one single target tracking system.

The new Mobile Target Tracking System comprises a mobile ground station and an airborne unit. All ground equipment, except antenna, are housed within an S-141 shelter. The antenna is modular in design and may be readily dismantled for shelter storage during vehicular transport by air, rail, truck or ship. The airborne unit features dense packaging. The complete unit is only 9" x 11" x 14 in dimensions and weighs just 26 pounds.

EPSCO is the first small business ever to receive an Army Missile Command contract for a complete system.

The system represents the coordinated efforts of the Missile Command Research and Development and Procurement and Production Directorates, and the Air Defense Commodity Office.

# Officers Wives Honor Mrs. Eifler At Tea

## Approximately 450 Attend Event At Redstone Mess

The new honorary president, Mrs. Charles W. Eifler, was honored by the Redstone Arsenal Officers Wives Club at tea last week.

Mrs. Thomas A. Rodgers, Wives Club president, was in the receiving line with Mrs. Eifler. Approximately 450 members and guests attended the mid-afternoon event.

Mrs. Eifler wore a long-sleeved white dress of dacron and cotton. Her corsage was of pink roses.

Chairman for the tea was Mrs. Anders O. Wiklund. Mrs. Clarence C. Harvey, Jr., served as honorary advisor on the committee. Mrs.

Arch W. Meagher was the decorations chairman, assisted by Mrs. Cyril D. Sterner.

The main serving table was centered with a pyramid arrangement of white gladioli and yellow chrysanthemums in a silver epergne lighted by yellow candles. The table cloth was white lace. Coffee and tea were poured from silver services.

Two punch tables with silver punch bowls at each end were placed at each end of the ballroom. The tables were lighted by candles in brass candelabra flanking an epergne with arrangements

of white gladioli and yellow chrysanthemums.

On stage a garden scene arrangement of white wrought iron furniture and bouquets were placed in front of a backdrop of bronze-green. To further emphasize the garden theme, greens filled urns were used on each side of the stage.

Mrs. Russell E. Teal was in charge of the refreshments and Mrs. Morris W. Pettit and Mrs. J. P. Kirkland were in charge of the servers.

Among the pourers were: Mrs. Edmond O'Connor, Mrs. I. C. Drewry, Jr., Mrs. John R. Henderson, Mrs. G. H. McBride, Mrs. John Barkley, and Mrs. R. B. Spragins.

Four former club presidents poured: Mrs. O. M. Hirsch, Mrs. W. F. Kaiser, Mrs. S. C. Holmes and Mrs. C. D. Sterner. In addition, members of the Wives Club Board, representatives on the Joint Activities Council, and other club members were among the servers.

Special guests at the event were wives of members of the Army Advisory Committee.

## DPO PERSONNEL, FAMILIES ENJOY ANNUAL PICNIC

Fourteen programmer trainees who joined the Data Processing Office staff in recent weeks were guests of honor at the annual DPO family picnic held last Saturday at the Civilian Recreation Area.

Over 240 DPO personnel, their family members and guests joined in the full day of entertainment and fellowship.

In the feature softball game, the Supply Sluggers defeated the Maintenance Maulers, 4-1, and were the recipients of the beautiful trophy presented by Edith Gibbs, the DPO Chief.

## PICNIC AND SWIM

Oak Mountain State Park and Lake near Birmingham will be the destination of the tour bus leaving the Post Service Club at 9 a.m. Sunday morning.

Swimming and a picnic are the main features on the agenda. Register for the tour is at the Service Club.

# Softball Tournaments Play At Weatherman's Mercy

## MILITARY CROWN MAY GO TONIGHT

One single victory was all that stood between the 291st MPs and the 1968 Redstone Arsenal softball championship at the start of the week as three other teams fought for the right to provide the final game opposition.

The Police assured themselves a spot in the championship game by taking a 11-8 win from D Company last week. Two earlier MP victims, the Officers and the 522nd Ordnance, join D Company in the tournament losers' bracket.

The latter two outfits were scheduled to go against one another on Monday evening with the winner returning to the diamond on Tuesday to test D Company. A good break from the weather man would enable the survivor of those games to enter the finals tonight.

The Policemen hunted their way to a pair of first inning runs against D and then used the long ball to hit the School troops with an eight spot and a 10-0 lead after two innings.

D Company fought back and reduced the margin to 10-8 in the fifth before Jarwes Nayman replaced Tommy Williams and preserved the MP win.

Bob Havertape delivered the

blow that threatened to turn the game into a rout when he tripled with the sacks loaded. Doris Chatman followed with a homer over the fence in left and Creekmore Williams made it 10-0 with another boundry belt.

Nayman collected three hits and C. Williams contributed a triple in addition to his homer.

## CIVILIANS HAVE LONG WAY TO GO

The scheduling nightmare that the CWF Softball league has suffered through this summer may soon be over. At least an end is in sight if the weatherman will cooperate a little for a change.

Right now the league is trying to wind up play in the third round with five teams still in the running. Four of them were scheduled to play three games on Monday with the winner returning the following night against Finance and Accounting.

This should provide a second team for the three-team playoff with the second round still in doubt. Redeye, the first round winner, and F & A would have to play off their second round tie in the event the Accountants fail to take the third round title.

Documentation, the Metrology

Lab and ICO are still in the running for the third round with one loss apiece in the double elimination tournament. Redeye has also lost once while F & A has won three straight.

They took two of them last week as the league was able to get in eight games between the showers. The Accountants edged Metrology, 6-5, and then swarmed all over ICO for a 17-1 win.

Metrology came back to eliminate P & P, 24-13, and the G & C Lab, 27-12. ICO was also a two time winner handing Documentation their first loss, 22-16, and duplicating against G & C, 23-11.

The Comp Lab eliminated Data Processing, 7-6, but suffered the same fate at the hands of Documentation, 17-9.

The Accountants got excellent pitching from Bill Owens in both of their wins. Julian Williams provided the winning margin against Metrology with a sacrifice fly that sent Mike Reed scampering home in the last inning.

Williams and Hal Jacobs collected four hits apiece in the rout of ICO and Russ Ward blasted a pair of homers. Ed Trentham ruined the shutout bid of Owens with a fourth inning wallop over the fence.

Ted Findley suffered a tough loss in the former game but came back to hurl the two Metrology wins with Sam Sanders, Jim Avent and Faye Lasley providing the offensive support.

Mike Andrews and Trentham collected five hits apiece as ICO whipped Documentation and the same two homered in the win over G & C.

Jim Hemphill was the hero of the Comp Lab win over DPO when he doubled in the tying and winning runs with two outs in the bottom of the 7th. Gene Matthews picked up the win while Hunter Horton and Joe McGough provided the offensive fireworks for the Processors.

Documentation was within an out away from elimination in their game with the Comp Lab when they erupted with ten hits and two walks good for ten runs. Charley Sneed was the winner as Sid Sapp and Carl Honea each hit safely twice in the winning rally.

## Women Bowlers Set Plans For Season

Preliminary arrangements have been announced for the formation of women's bowling leagues for Wednesday and Friday mornings.

The Wednesday Officers Wives League will get together for the first time at the Post Lanes tomorrow morning at 10:30. League members and other ladies who average 120 or better, are urged to attend the meeting and discuss plans for the coming season.

Ladies interested in obtaining additional information on the league may call Alma Hanson at 881-2438, or Ruby Thompson at 837-0966.

The Monarch Lanes, on Bob Wallace Ave., is planning to establish a Friday morning ladies' league and has called for women who might be interested to contact Anne Wiener at the Lanes.

The initial league meeting is planned for Friday morning, September 8.

**SIGN OF THE TIMES**—Most of the Redstone bowlers are just beginning to think of another season but as far as Tom Lindsay is concerned the duel with the maple ten pins is a twelve-month proposition. And apparently Tom is just as difficult to get along with in the summer as during the regular season. Last week the Fayetteville Flash bent his powerful hook into the 1-3 pocket for 24 strikes in posting a 734, the third highest league total ever rolled in Huntsville. In posting the first 700 of his career, Tom put together games of 262, 232 and 234 while competing in the S&M Summer Mixed League. Lindsay will be on the firing line for the strong Huntsville Brick and Tile quintet of the Supply Management League, when the regular season opens in mid-September.

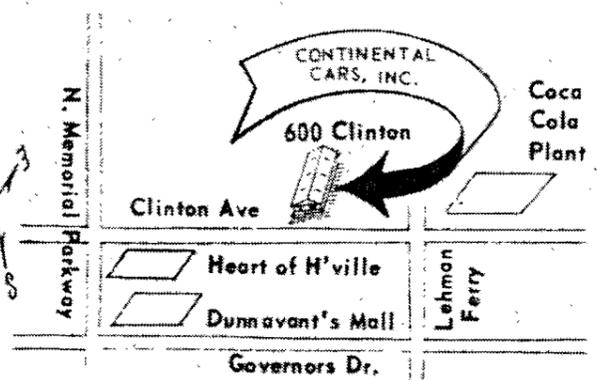

**WINNING COMBINATION**—With Willie Toney directing the action and Steve Folle on the firing line, the Third Battalion proved unbeatable in the Redstone baseball league this summer. Toney, who is First Sergeant for the 8th ETC, called the signals for the School team 15 games with Folle and Brian Parker accounting for seven wins apiece. Chuck Buckley, an outfielder kneels between the manager and his pitcher with Vic Vendemio, a player-coach, and another outfielder, Dan Miller, joining in a pre-game discussion.

# Boy Scout Roundup Begins; Units May Report Early

Boy Scout leaders are beginning the 1967 Tennessee Valley Council Roundup almost two weeks earlier this year than in the past.

The earlier date for the three month emphasis program was learned by the eight district chairmen Wednesday during a special kickoff meeting at Redstone Arsenal.

Col. J. N. Jean, Council Roundup Chairman, urged the District Chairmen to begin work immediately to widen the volunteer adult leadership. He stated that the Council stands in good shape from carry-over of boys and that the year promises to be headed toward a successful Roundup. Col. Jean, Director of Arsenal Support Operations Directorate of the Army Missile Command, hosted the supper meeting.

District Chairmen met with Arsenal Scout Representatives to discuss district Roundup programs which will initiate upgrading of units and recruitment of new boys and leaders. A team of two lecturers presented a demonstra-

tion of Army innovations in equipment. This demonstration will be presented in seven of the eight Scout districts of the council to assist kickoff of the 1967 Roundup.

Council President John Goodloe, who presided over an executive board meeting, honored the late Col. Thomas W. Cooke who had served as Roundup Chairman for the Tennessee Valley Council for five years.

District Roundup Chairmen and respective Arsenal Scout Liaison representatives by district include: Muscle Shoals, Dr. Joseph Booth; Capt. J. M. Crowell and 1st Lt. R. D. Higdon; Jackson, James Turner, Capt. R. T. Bacher and 2nd Lt. J. H. Wynn; Lauderdale, Doug Murphy, Capt. B. E. Gray and Lt. R. Rupacz; Cullman, Warren Thraikill, Capt. G. J. Gesslein and Capt. R. L. Scott; Limestone, Frank B. Lutz, Capt. T. Spight and Capt. T. V. Murto; Chicksaw, W. F. Bischoff, Capt. D. Murray and 1st Lt. Joseph Bertagnollie; Arrowhead, William J. Fesmure, Capt. B. B. Beard and 1st Lt. J. W. Sweetum; Creek, Sam Holdsambeck.

During the program, invocation was given by Chaplain J. C.

Zweirs. Lt. Col. E. J. Ottman, administrative remarks. Capt. Murrin and Lt. Bertagnollie gave and R. L. Haskins presented the lecture-demonstration.

## At Absolute Auction

**THURS., AUG. 24 AT 10:06 1/2 A.M.**

6 Room Home, 84 Acres, More Or Less, Household Furnishings Belonging To Mrs. Amanda Ball, Located 14 Miles North Of Pulaski On Highway 31, 15 Miles South Of Columbia, 2 Miles West Of Lynnville, Tennessee At Waco.

This fine 84 Acre farm with large frontage on Highway 31 has 51 acres of cropland and 1/2 acre tobacco base. It has 14 acres more or less in bottom land east of Highway 31. Balance of the acreage is in permanent pasture. There is an abundance of everlasting water from a branch, wells and springs. This is an excellent location, only two miles from schools and churches, and within walking distance of Waco.

The 6 room home has 3 bedrooms, living room, dining room, kitchen, unfinished bathroom, large unfinished room upstairs. Has well on back porch that is one of the finest wells in this community. The house is heated by butane heat with individual heater throughout. The beautiful front lawn is well sodded with blue grass and has all kinds of shade. Has a concrete block two car garage, smoke house, large barn with hay storage area, sheds for feeding, and other outbuildings.

This is a well balanced farm having enough pasture land for any kind of livestock and plenty of bottom land to raise any kind of row crop or hay. There are not many farms with frontage on Highway 31 located between Pulaski and Columbia that you can buy at your own price.

**The Farm Will Be Offered In Two Tracts**

Tract No. 1 consists of 58 acres, more or less, on the west of Highway 31. This includes the 6 room main home, all outbuildings. Practically all this acreage is in pasture. This tract could make an ideal small farm. It is well fenced and has an abundance of everlasting water. It is in an excellent location in the rich farming community of Waco half way between Pulaski and Columbia.

Tract No. 2 consists of 26 acres, more or less, east of Highway 31. There are approximately 14 acres in bottom land and 12 acres in permanent pasture, with some timber. Also has a branch on the back of this tract.

We will sell Tracts 1 and 2 and then offer the farm as a whole; the highest price will determine the sale.

**Personal Property**

1 Refrigerator, 1 Electric Stove, Metal Cabinets, Roll Top Desk, Chairs, Tables, Roll Away Bed, Bedroom Suite, 1 Bed, 2 Dressers, 1 China Press, 1 Crosley TV, - Couch, Metal Porch Furniture, 1 Springfield, 6 H.P. Riding Lawn Mower. Other Articles Too Numerous to Mention.

TERMS: Farm 1/3 Down Sale Day, Balance in 1, 2, 3 Years, A Bankable Note At 5% Interest. Personal Property, Cash.

POSSESSION: Of the house, with delivery of deed; Of The Farm, January 1, 1968.

We want everyone to fly

Charge-A-Trip is a service mark of Eastern Air Lines, Inc. All fares plus tax. \*\*Family of 3. Husband, Wife, Child up to age 22.

# Photo Lab Moving Day Is Orderly Confusion

Moving can be fun—especially for the people of the photo lab who started making plans for their new home last summer.

Tom Wideman, Chief of the Photo Branch, Picorial Division, said they started moving by sections into the new photo lab and expect to be completely set up in their new home by September

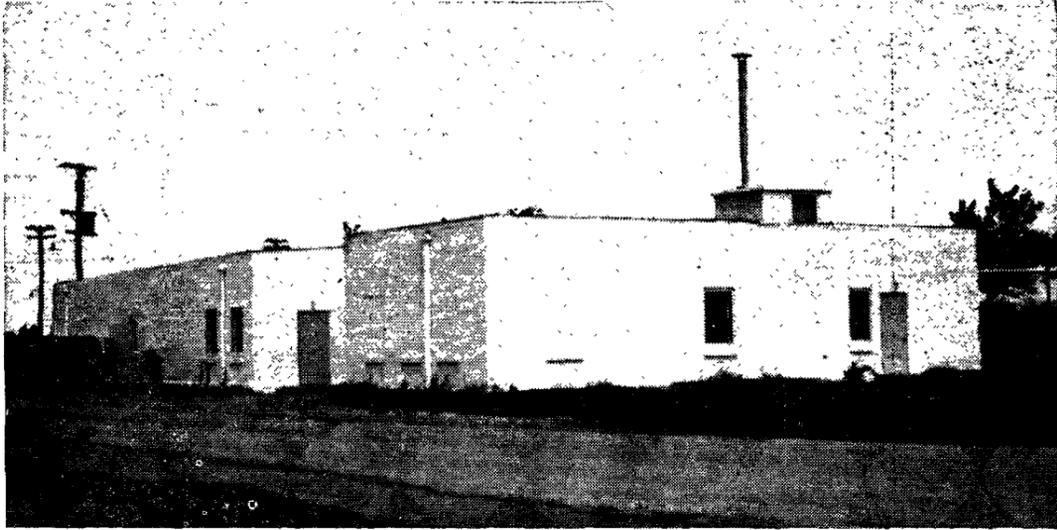

1st. Their new building 5451 is located across from the Headquarters Building (Army Missile Command) and next to the Research and Development Directorate just off Martin Road. Their telephone numbers remain the same.

"We will not be closed down

more than a maximum of four days in any one section of the lab" explained Wideman.

As far as the photographers are concerned, they have been working on assignments just as before.

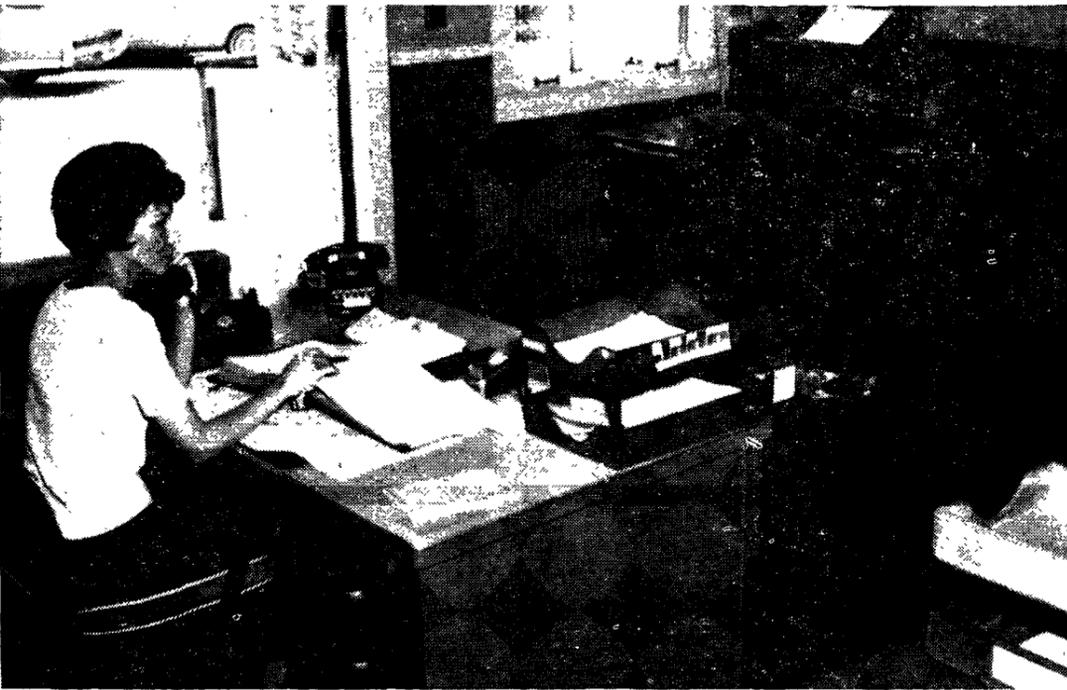

Wideman proudly pointed out that everything is under control and working out much better than they had expected.

**HOME, SWEET HOME**—It might look vacant now but it won't be that way for long. Here's the new home for the photo lab—Building 5451. Moving will be completed by September 1st.

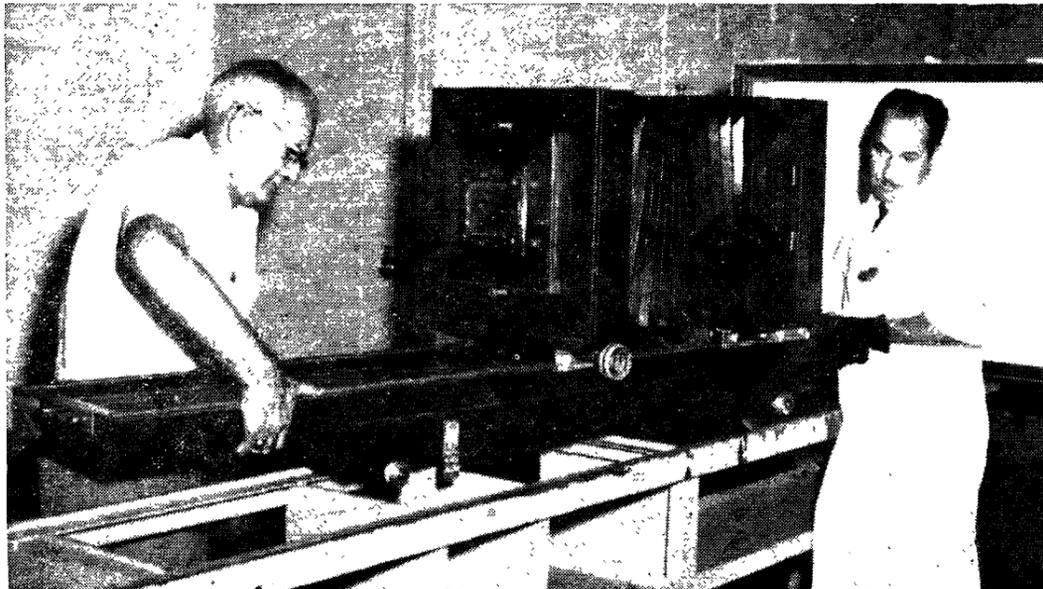

**A LITTLE WORK NEVER HURT ANYONE**—After moving several items before this, Carl Pickens, Don Godwin, and Randy Bowling, a summer student, are becoming pretty experienced in how to maneuver big things like the color enlarger.

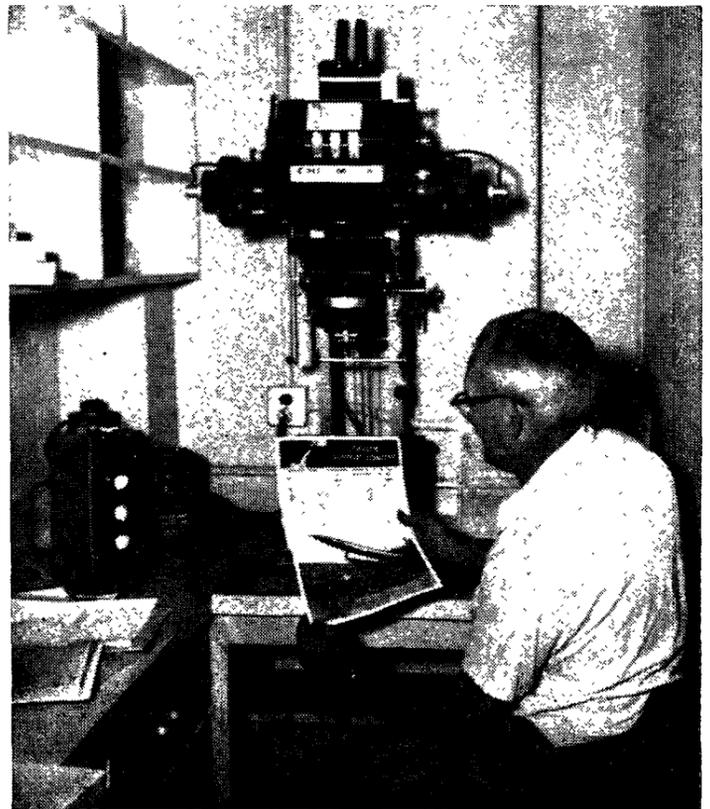

**"THINGS ARE JUST AS BUSY AS USUAL"**—Says Doris Hunter, one of the receptionists at the photo lab. Taking photo work orders from people all around Redstone Arsenal is certainly enough work—but then moving, too, is enough to keep any little lady on her toes . . . But at least the girls get to dress like the men during moving time (notice the long pants and sneakers??).

**WHAT A WAY TO SPEND A SUMMER AFTERNOON!**—Well, these men don't mind working hard now because they know they're moving into a bigger and better new home. Pictured here are Carl Pickens and summer student, Randy Bowling.

**THIS MIGHT LOOK LIKE AN ACCORDIAN BUT IT'S REALLY A CAMERA!!**—Carl Pickens and Rex Evers look as if they're having trouble in deciding how to move this monstrous copy camera. Let's hope they both decide to go in the same direction!

**THERE'S NO PLACE LIKE HOME**—Carl Pickens has no trouble adjusting himself to the photo lab's new home. Pickens, already settled in the new environment, is getting ready to make a print on the color enlarger.

**HOLD HER STEADY NOW, JAMES**—James Capley and Rex Evers take no chances when loading the copy camera into the moving van. The moving van may be empty now but it won't be for long—there's so much to move!

## Career Development Draws Twenty-Six To Classrooms

Twenty-six Missile Command civilians departed from their regular duty stations this week to embark upon training programs at military schools, contractor facilities and leading colleges across the country.

The local personnel were selected for the advanced schooling under the Commands' career development program administered by the Training and Development Division of Civilian Personnel. The off-post courses are made available to enable employees to improve their career potential.

Nine of the local personnel went to Ft. Lee, Va., for schooling at the U. S. Army Logistics Management Center for advance training in their career fields.

Five of them, all from the Supply and Maintenance Directorate, are enrolled for the five-week Defense Advance Inventory Management course. They are Wilford Brisendine, Hesley DeBow, Eddie Carter, Georgia Leeth and W. Churchill Braddy.

The remaining four will be at the Virginia installation for three weeks for the Defense Advanced Procurement Management course. They are Otha Acuff (Hawk) and Fred Segrest, James Brown and Nellie Campbell (P & P).

Bernard Troup (Pershing) is spending this week at the Joint Military Packaging Center at Aberdeen Proving Ground, Md., for the Preservation and Packaging course, and John Mountain (DASO) is in Chicago to attend a workshop on the IBM 360 System.

Emmett Scarborough (Hawk) and Edward Johnson (P & P) are spending the week at the U. S. Naval Material facility in Washington where they are taking the Procurement Executive Refresher course.

James Blasingame (Lance) is enrolled for Advanced Production Management at the School Systems and Logistics, Wright-Patterson AFB, Ohio. Two others at the same school are Clyde Parker (Hawk) and Clyde Estes (S & M).

Parker is attending the two-week Contract Law course and Estes will be in Ohio for three weeks to study Maintenance Management Information Systems.

Stanley Green (Dragon) is at the Contract Management Institute in Denver for Pricing and Negotiating Prime and Subcontracts and the MICOM Special Assistant for Equal Opportunity is attending the National Urban League Conference in Portland, Ore.

Allen Davis (DASO) is enrolled for EAI 680 Maintenance at Electronic Associates in West Long Beach, N. J., and John Cotney (DASO) spent Tuesday at the Man-

agement Center of Cambridge, in St. Louis, for Measuring, Controlling and Reducing the Cost of Maintenance Work.

Four of the MICOM employees stayed in Huntsville for training

They are Verna Price (Dragon), Nellie Sloan (Redeye), Gary Smallwood (TOW) and Lawrence Miller (DASO).

The final two, both from the Research and Development Directorate, went to Los Angeles to attend classes at the University of California.

Horst Wittman is enrolled for Modern State Physics and Wallace Branham is taking Management Information Systems.

## SELLING AT AUCTION

Saturday, August 26 at 10:04 1/5 a.m.

**182 ACRE FARM, FARM EQUIPMENT, TRUCKS, 43 HEAD OF POLLED HEREFORD CATTLE BELONGING TO MR. AND MRS. W. R. MALONE, LOCATED FOUR MILES EAST OF PULASKI, TENNESSEE, ON HIGHWAY 64, 40 MI. NE OF HUNTSVILLE. THE FARM**

This 182 acre farm will sell in 13 tracts and then as a whole; the highest price determining sale. Frontage on Highway 64 and Thompson Chapel Road; the west boundary being Leatherwood Creek and the east boundary is Buchanan Creek. Several springs, two large barns, white pailing fence around front, balance is excellent woven wire fence.

One of the finest row crop and livestock farms in Giles County, having two large barns, 40 acres of bottom land, 60 acres of rolling land and remainder in timber and permanent pasture.

There are several beautiful building sites, one excellent building site, septic tank already installed, has running water to the home site. Abundance of shade trees, overlooks Highway 64 and is just the right distance from the highway.

Tract No. 1 has 112' frontage on Hwy. 64, goes back 920 1/2' and 252' across the back. It is level, as nice a home site as you will find in Giles County.

Tracts 2 through 9 and 13 has 106' frontage, going back 940' to 1,088' deep, approximately 2 1/2 acres in each, level, beautiful home sites.

Tract No. 10 has all the improvements including two barns, a large shed, an excellent building site with abundance of shade and a winding drive from Thompson Chapel Road up to the home site. The barns and tool shed are practically new. 43 acres of practically all level land.

Tract No. 11—48 acres with approximately 25 acres of bottom land; the balance in permanent pasture. It fronts on Thompson Chapel Road and joins Tract No. 10. The tract will make several good home sites or one nice small farm. Everlasting spring furnishes plenty of water. There are barns, shops and all kinds of outbuildings.

Tract No. 12 has 66.5 acres with a lot of permanent pasture land and some good hardwood timber. Water is furnished by springs. It is an excellent tract with building sites. This tract has some of the finest pasture land you can find in Giles County.

**Location, Natural Advantages and Many Improvements** Seldom will you find land with such potential for sale at auction in an area such as this. Only four miles east of the growing, progressive city of Pulaski. Rich land, convenient location, abundant water, good roads, excellent fences, barns and the benefit of years of careful planning make these tracts attractive and lucrative for a variety of uses. You can raise stock, raise hay, subdivide, just hold for gain, or any of a hundred things . . . the man with foresight will have many ideas here.

### Paved Road Frontage Lends Itself To Real Showplace Development!

Whatever your ideas for development are, you can fill your needs here. Frontage on paved roads mean first-rate home sites, or sites for commercial use and the land will be offered in tracts to suit everyone's requirements.

### Small Acreage To Suit Everyone

Buy one of these tracts and let your family have fun building your own home. You can enjoy the peace, quiet and privacy of the country and still be only minutes from the conveniences of shopping, schools, churches. This property is on school bus, mail and milk routes; and all utilities are available.

**LUSH GRASSLAND . . . CHEAP FEED FOR HIGH CATTLE PROFIT! 182 ACRES MOSTLY IN PERMANENT PASTURE ON 13 TRACTS.**

This 182 acre farm is so divided that a person interested in Giles County farm land can get any tract or tracts that will suit his need. Sold separately and as a whole; the highest price to determine sale. This farm has over 1,178' frontage on Highway 64, only 7 miles from I-65.

### FARM EQUIPMENT

- |  |   |
|--|---|
| 1 1965 Four Wheel Factory Made Wagon     | 1 Back Oiler                                |
| 1 Two Wheel Farm Wagon                   | 1 1966 Garden Tiller                        |

## \$4.9 Million Earmarked For Hawk

The Army Missile Command has awarded a \$4.9 million contract to Raytheon Company, Lexington, Mass., for production of guidance and control components for the Hawk air defense missile system.

The work will be performed at Raytheon's plant in Andover, Mass.

Hawk is a highly mobile member of the Army's air defense family of missiles, capable of intercepting high performance aircraft and airbreathing guided missiles at low altitudes with its conventional warhead. A solid propellant, supersonic missile, Hawk is operational with U. S. and North Atlantic Treaty Organization troops.

Technical supervision of Hawk is from the Army Missile Command, where Col. J. G. Redmon is Hawk Project Manager. The Missile Command's Procurement and Production Directorate negotiated the contract.

Drive Defensively!

### Charles L. Barrineau Funeral Services Tuesday

Funeral services were held yesterday for Charles L. Barrineau, former Personnel Management Analyst in the Civilian Personnel Division of the Arsenal Support Operations Directorate.

Barrineau died at Huntsville Hospital Sunday, following a heart attack. Burial will be in Pensacola, Fla.

He was employed by the Government for 28 years before he retired last December.

He began his career at the now inactivated Ft. Barrancas, Fla. He also worked at Milan Arsenal, Tenn., before joining the Civilian Personnel staff at Redstone Arsenal where he served in a number of positions. Sixteen of his 28 years

## Friday's Graduates Will Hear Navy Commander

Next Friday's graduates of the Army Missile and Munitions Center and School will hear the first Navy officer ever to address a graduation ceremony at the Redstone Arsenal school.

He is Commander Kenneth Ploof who heads the Naval School for Explosive Ordnance Disposal at Indian Head, Md., where MMCS

were at Redstone.

Surviving are his wife, twin sons and a daughter.

CDR. KENNETH PLOOF

maintains a detachment of about 60 officers and men and supervises the Army portion of EOD instruction given at the tri-service training center there. Lt. Col. Robert W. McRae is the MMCS detachment commander at Indian Head and is accompanying Commander Ploof on the visit to Redstone.

Commander Ploof was born in Highgate, Vermont, and enlisted in the Navy in 1936. He became a Chief Gunners Mate and Master Diver and was commissioned Ensign in 1942. During World War II, he conducted diving and salvage operations around the Solomons Island and Okinawa in the Pacific.

In 1945, he received a personal commendation from the Secretary of the Navy for extraordinary performance of duty during a typhoon off Okinawa.

Postwar work in developing self-contained underwater breathing devices led to several tours of duty on submarine rescue vessels and assignment as commanding officer of the Navy Underwater Swimmers School at Key West, Fla. He was executive officer of the U. S. S. Eldorado prior to assuming command of the EOD school.

The graduates to be addressed by Commander Ploof include 88 students from the U. S. Army, Germany, Laos and Thailand.

## Procurement Fair Offers 200 Procurement Packages

Approximately 200 procurement packages valued at some \$600,000 were offered at the Army Missile Command's Procurement Fair today in Building 4488 at Redstone Arsenal. The day-long event opened at 8:30 a.m.

The Fairs are sponsored by the Missile Command's Procurement and Production Directorate

headed by Col. S. C. Holmes.

Special arrangements are made for Fair visitors to enter the Arsenal, and roads leading to building 4488 are clearly marked.

The first Fair was held last October. At these occasions qualified contractors may examine the current requirements for missile repair parts, select the packages of interest to them, and subsequently submit their bids.

Procurement Officials say that past Fairs have been highly successful from the standpoint of participation by contractors, and as a result the Directorate has been able to add a substantial number of firms to its bidder's list. They also said that delivery of goods has improved from business generated at the Fairs.

**TIRED OUT**—2/Lt. James M. Masser, from Natchitoches, La., adjusts his cap after crawling through several adjoined truck tires at the "obstacle" course recently at the Army Missile & Munitions Center & School here. The obstacle course is designed primarily for physical conditioning and the soldier is required to run it against time after becoming familiarized with it through practice runs and instruction. Crossing a narrow eight-foot log bridging a pool of water and climbing and descending a cargo net more than 20 feet high are two of the seven obstacles that must be negotiated in the MMCS course. All school troop command student officers and enlisted men are required to go through the course. Watching Masser is 2/Lt. Michael B. Marlowe. In the background is Lt. Col. Fred L. Long, Jr., Executive Officer of the School Troop Command.

**GRADUATION DAY**—Turning on bright smile, Mrs. Charlotte F. Baugh receives diploma from Col. J. G. Redmon, Hawk Project Manager, marking her completion of Defense Procurement Management Extension Course. Mrs. Baugh, a procurement analyst for Hawk Project Office, completed the 132 hour U. S. Army Logistics Center course in one year. The Athens resident has been with the Hawk Project Office for four years.

## Employee Of Year Nominations Open

Employees of the Army at Redstone Arsenal are eligible to be nominated to compete for "Federal Employee of the Year", a program sponsored by the G.E.X. Members' Advisory Council.

The selected individual will receive a \$100 Savings bond as well as a personal plaque commemorating the honor. The awards will occur during an Awards Banquet on Oct. 28.

The deadline for submitting nominations is September 30. Forms on which to submit the nomination are available from George Apostolos, Government Employees exchange, 2601 Memorial Parkway.

The Members' Advisory Council will conduct the selection which will be based upon an individual's performance and activity in four major areas. The nominee will be considered for significant contributions to his parent service, for significant contributions to his immediate unit, for contributions to the community and character qualifications.

# Support In Vietnam Is Provided From School-Trained Personnel Here

A major effect of the transfer of ammunition maintenance training here in 1965 is that most of the ammunition and missile support technicians now serving in Vietnam were trained at the Army Missile and Munitions Center and School at Redstone Arsenal.

Lt. Col. Charles E. Chapman, who is now commander of Unit Training at MMCS serving with both ammunition groups and logistical headquarters in Vietnam, made this point Friday to 104 graduates of the school at a ceremony in the Post Theater. Receiving diplomas were students from the U. S. Army and Marine Corps and Germany, Italy, Japan and Venezuela. Lt. Col. Chester L. Langley of the MMCS Officer Training Dept. was master of ceremonies.

Pointing out that the rotation of units and a steady flow of individual replacements to Vietnam since 1965 has brought MMCS-trained personnel to the fore, Chapman praised the quality and performance of both missile and ammunition graduates of the school.

He said that to his knowledge, no Allied soldier or unit in Vietnam has had to disengage from the enemy or withdraw from the field because of the inability of support forces to pass him the ammunition he needs.

Chapman also pointed out that most of the missile maintenance men now in Vietnam—where missiles have been deployed but not fired in combat—were also Huntsville-trained.

Harris T. Mitchell, vice president of the Tennessee Valley chapter of the Association of the U. S. Army presented an outstanding student award to Pvt. Gary D. Byrne of Hastings, Neb., who averaged 96 in the ammunition storage course. Byrne, 23, holds a 1966 business administration degree from Hastings College.

Two Huntsville soldiers were among the graduates. They are Private First Class Bobby Franklin Harris, son of Mr. and Mrs. James F. Harris, 4801 Rumson Rd.; and Private First Class Buford O Cagle, whose parents are Mr. and Mrs. Ernest B. Cagle of 405 O'Shaughnessy Ave. N. E. Both completed the Nike missile repair course.

Cited as high men in their respective classes were: Sgt. First Class Gerold Hanau of Germany in Hawk missile maintenance; Pfc. Millard T. Scherich of Corvallis, Ore., in Nike missile repair; Sgt. First Class Douglas R. Leith of Harvey, Ill., in Nike radar; Pvt. First Class David C. Nelson of Holden, Mass. in Hawk radar; Marine Staff Sgt. James E. Cejka of Martell, Neb. and Pvt. First Class Jerry R. Ritchie of Granite City, Ill., both in Hawk missile and launcher courses; Staff Sgt. Hans-Peter Sass of Auf-dem-Wicksburg, Germany, in Sergeant missile test equipment; and Capt. Asdrubal Alcalá of Venezuela in ammunition renovation; Sgt. First Class Eddie H. Newkirk in Hawk pulse radar; and Staff Sgt. Paul E. Peck in Hawk continuous wave radar.

## RECEIVE AWARDS

Three Redstone Arsenal officers have been awarded an Oak Leaf Cluster to previously received Army Commendation Medals while two other officers and an enlisted man have received their first Army Commendation Medals.

Chaplain (LTC) Robert E. Johnston, Maj. Elvin J. Kidd and Capt. F. Kelley,

Alexander C. Miller were cited for the second time by the Army for their meritorious service.

The Commendation Medal awards were made to First Lt. Willard G. Preussell, Jr., CWO (W4) Ralph P. Dials, and Sgt Elmer

## Deputy Aviation Officer Becomes Lieutenant Colonel

Robert D. Bayne, Deputy Aviation Officer for the Missile Command, was promoted to lieutenant colonel last week.

Col Bayne came to the Command in November, 1965, from an assignment with a flight detachment stationed at Siagon, Vietnam. During the year he served as Chief of the Flight Section in Vietnam, he earned 12 clusters to the Flight Medal which he originally earned in the Belgian Congo

in 1960. In addition to the Flight Medals, the Colonel was awarded the Bronze Star Medal before leaving Vietnam.

Mrs. Bayne attended the promotion ceremony and helped Maj. Gen. Charles W. Eifler, Commanding General of the Missile Command, pin the new silver leaves on her husband's shoulder.

Col. Bayne is a native of Greenville, S. C., who entered the Army in May 1947 and received his commission on a battlefield in Korea in September, 1952.

He is a senior Army aviator with a total of 9300 hours flying time, qualified to operate both fixed and rotary wing craft. He is also a fixed and rotary wing instrument examiner who holds a civilian airline transport rating.

Col. Bayne is qualified as a master parachutist who holds the Combat Infantry Badge.

**NEW LEAVES**—Maj. Gen. Charles W. Eifler, Commanding General of the U. S. Army Missile Command, and Mrs. Robert D. Bayne, pin the silver leaves of a lieutenant colonel on her husband. Lt. Col. Bayne is the Deputy Aviation Officer at Redstone Arsenal. Before he came here in November, 1965, the Colonel earned 12 clusters to his Air Medal and a Bronze Star in the year he served in Vietnam.

## Lt. Cochran Now Heads Protocol

Appointment of 1st Lt. Franklin H. Cochran as Protocol Officer at the Army Missile and Munitions Center and School, is announced by Col. John R. Henderson, acting commandant.

He succeeds 1st Lt. Joseph J. Yanchar who is being transferred to the Army Ordnance Center and School at Aberdeen Proving Ground, Md., as personal assistant to Col. Erwin M. Graham, Jr., who recently assumed command there after serving as commandant of MMCS since mid-1965 and being nominated for promotion to Brigadier General.

Lt. Cochran will be stationed in the Office of the Commandant and will be in charge of arrangements for all official visits, tours and other military and civic events at MMCS.

A 1966 graduate in economics of the University of Arkansas who was commissioned in the ROTC program, Lt. Cochran, 24, has been serving as commander of the 7th Enlisted Training Company at MMCS. He is a graduate of the Ordnance Officers Basic Course at Aberdeen and of the Ammunition Officer Course at MMCS.

Lt. Cochran is the son of Mrs. Frances Cochran of 909 Harb Ave., Corning, Ark. and is married to the former Bettye Fay Lane of Fort Smith, Ark.
