VOL. XVI; NO. 17

REDSTONE ARSENAL, HUNTSVILLE, ALABAMA 35809

SEPTEMBER 6, 1967

Col. Schuppener Named School Commandant

WELCOME TO REDSTONE!—Maj. Gen. Charles W. Eifler, Commanding General of the U.S. Army Missile Command, extends a hearty welcome to Lt. Gen. Sakuyuki Takagi who headed a party of Japanese dignitaries in a two-day visit to Redstone recently. Gen. Takagi is Commander of the Air Materiel Command, Japanese Air Self Defense Force. While here the visitors toured some facilities and were briefed on many of the Army's missile activities. The tour to Redstone was part of a Department of Defense itinerary to acquaint the Japanese with U.S. research and development programs, both in government and private industry.

Awards Let For Redeye, SAM-D, TOW

A total of approximately \$18 million has been awarded by the U. S. Army Missile Command for work on three different missile systems.

General Dynamics Corporation, Hughes Aircraft Company and Raytheon Company are the firms receiving the awards for the Redeye air defense guided missile system, Tow weapon and SAM-D air defense system, respectively.

A \$7,747,719 contract has been awarded to the Pomona Division of General Dynamics Corporation to support production of the Redeye air defense guided missile system.

Under the letter contract, General Dynamics will supply long lead time items required in the manufacture of FY 68 Redeye missile system equipment.

Work will be done at the company's plant at Pomona, Calif.

Redeye is the Army's man-portable, shoulder-fired weapon that gives the infantryman an effective defense against low-flying enemy aircraft. It is the Army's only air defense missile system that can be picked up and held in the hand.

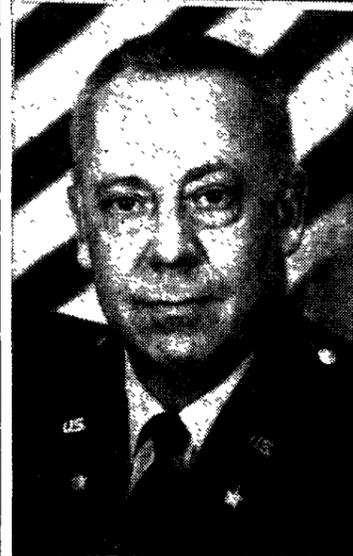

Col. John R. M. Conest is Redeye Project Manager.

Raytheon Company was awarded a \$5 million contract for continuation of work being done on the new air defense weapon system (See AWARDS on Page 3)

Former Redstone Officer Returns For Second Tour

The Continental Army Command Friday confirmed the appointment of Col. Paul B. Schuppener as Commandant of the Army Missile and Munitions Center and School.

Col. Schuppener has been serving as chief of staff of the Army Weapons Command at Rock Island Arsenal, Ill., and is expected to arrive here in early September.

COL. PAUL B. SCHUPPENER

The new commandant has wide experience in missiles and ammunition and other major fields of Army endeavor on the national and international level. This will be his second tour of duty at Redstone Arsenal.

Three Year Tour

Col. Schuppener served in research and development at the Army Missile Command from 1959 to 1962 and assistant chief of staff for research and development in 1961. The following year he was transferred to Paris, France, but remained on official assignment with the Missile Command throughout his three-year stay in Paris.

Colonel Schuppener succeeds Brig. Gen. Erwin M. Graham, Jr., as Commandant of the \$95,000,000 Center and School which trains missile and ammunition maintenance technicians for the U. S. armed forces and 29 foreign nations.

In 1955 to 1958, Colonel Schuppener served as Chief of the Guided Missile Commodity Coordination Office in the Office of the Chief of Ordnance in Washington, D.C. His office then operated in direct support of the Army's missile programs.

In 1959, Colonel Schuppener was loaned by Department of the Army to the Committee on Science and Astronautics of the U. S. House of Representatives to serve as a staff consultant. There he assisted in the scheduling of hearings and prepared committee reports on such subjects as satellites for world communication, ground-effect machines, dissemination of scientific information, and space propulsion.

From 1962 to 1965 he was Chief of the U. S. NATO-Hawk Liaison Office in Paris, France, where he was technical advisor to the U. S. Defense Representative, North Atlantic and Mediterranean area and (See COL. SCHUPPENER, Page 3)

Col. Graham Dons General's Stars

ABERDEEN PROVING GROUND Md. — The former Commandant of U. S. Army Missile and Munitions Center and School at Redstone Arsenal donned the silver stars of a Brigadier General in ceremonies here Friday afternoon.

Major General Kelsie L. Reaves, Deputy Chief of Staff for Individual Training, CONARC, pinned the stars on Col. Erwin M. Graham Jr. who commanded the AMMCS from July 1965 through August of this year.

General Graham is the new Commanding General of the U. S. Army Ordnance Center and School here.

1st Lt. Joseph J. Yanchar, until recently AMMCS Protocol Officer, has been named aide de camp to General Graham.

New Field Office Chief Is Army Research Expert

Col Charles L. Beaudry, one of the Army's experts in research and development programs, has been named Chief of the Army Field Office, Western Test Range, at Vandenberg Air Force Base, Calif.

Assigned to the Army Missile Command just last week, Col Beaudry visited here for a round of briefings, prior to taking over his new post. As the MICOM liaison officer there, he will coordinate all Army activities at the Western Test Range.

Col. Beaudry recently returned from an overseas tour where he was Chief of the Army's European Research Office in Frankfurt, Germany. Prior to that he headed the Range Operations Directorate at White Sands Missile Range, New Mexico, where he had responsibility for range support of all missile firings.

In addition to serving in a variety of assignments throughout the United States and Europe, he has served in the Far East.

A native of Lexington, Mass., he is a graduate of the U. S. Military Academy, obtained his master's degree in engineering metal- (See NEW FIELD on Page 3)

COL. CHARLES BEAUDRY

Huntsville Area Workers Hope To Continue Record

When the 1968 Combined Federal Campaign opens in the Huntsville area later this month Federal personnel will be seeking to continue a remarkable record of giving to support the needs of many local, national and international fund-raising agencies.

In each of the last two years the civilian and military population of Redstone Arsenal and the immediate area have brought national recognition to the community with their response to the once-a-year appeal.

The annual drive will be conducted over a six-week period opening with kick off rallies at the Army's Rocket Auditorium and at the Marshall Space Flight Center's Morris Auditorium, on September 18.

Same Format

Bob Malone, the Area Coordinator, said that the drive will be conducted using the same general format that has proven so successful in past campaigns.

"This means," he stated, "that the main stress will be directed at indoctrinating all personnel in

the aims and purposes of the agencies included in the campaign, as well as the mechanics of the solicitation."

This system of "going to the people with all the facts" is credited with a large share of the success realized in the Huntsville area during each of the last two annual drives.

In 1965 the area was cited by the Civil Service Commission after having attained the highest percentage of participation and the largest per capita gift among the 36 areas of the country that employed the single drive concept. More than \$400,000 was turned over to the authorized fund-raising agencies.

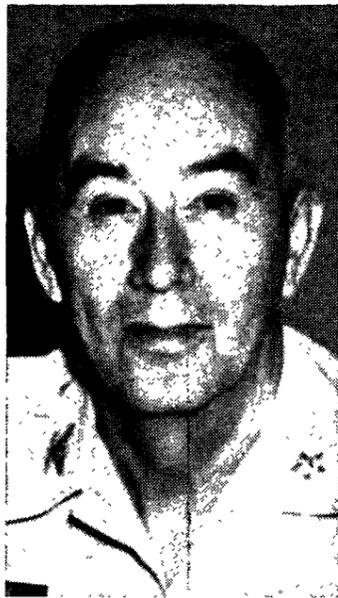

Donations Increase

Last year the response was greater in every category of the drive and the total contribution reached \$424,000. 97.5 per cent of the personnel solicited contributed to the drive with an average donation of \$20.33.

Almost half of the contributions each year were made through payroll deduction authorizations and it is expected that this system will once more prove popular in the area.

Marietta Graves, the payroll deduction coordinator, indicated that 4,784 Army personnel made pledges to the campaign through an authorization for regular payroll deductions.

Almost \$100,000 had been turned over to designated agencies by the payroll office by mid-August. Only eight of the original authorizations have been voluntarily cancelled.

HEADS I & S . . . COL. ADAMS

Col. Burr Adams Heads I&S Office

Col. Burr E. Adams has been appointed chief of the Missile Command's Installations and Services Office, succeeding Lt. Col. Walton S. Lemay, who has been assigned as acting Inspector General.

Col. Adams was last assigned at Schofield Barracks, Hawaii, from 1964-1967, where he was awarded the Commendation Medal. Prior to that assignment he was assigned to Sandia Base, N. M. for three years, following a year at Ft. Sam Houston, Tex.

His overseas service includes tours of duty in the European (See COL. ADAMS on Page 3)

MICOM vs. MSFC

The Missile Command and the Marshall Space Flight Center will be matched in the second game of the Redstone slo-pitch softball championship to be played at the military field on Patton Road this afternoon.

The game will get underway at 5:15, with the Finance Accounting Center taking on the Purchasing Office team of the MARS league.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wantads—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

Rocket Ruminations

Abstract liberty, like other abstractions, is not to be found.
—Edmund Burke

Friend or Foe?

A year or so ago, a cartoon that appeared in a national magazine showed the typical irate husband saying to his wife, "It's finally happened—there's an installment payment due every day of the month!"

Installment buying, credit cards and charge accounts have become as American as mom's apple pie.

When intelligently used, credit and installment buying allow us to do and have things for ourselves and our families that might not be possible if we had to pay cash immediately for everything.

Problems arise, however, when people lose sight of the fact that all those credit purchases must be paid for sooner or later and that credit costs money.

In addition to the basic cost of what you buy, you must consider the credit charges. These charges are what too many people ignore or don't understand.

Depending on what type of credit purchase you have made and who the seller is, your credit charges can range from six per cent to 120 per cent annually.

This is why it is vital that you not only know the firm with which you are dealing, but that you thoroughly understand the various terms, such as add-on, discount, interest-bearing, etc., that are used in dealing with credit and installment buying.

Your legal officer can explain everything you need to know about credit buying and can give you the advice you need to buy intelligently. It will be to your advantage to make use of his knowledge and advice **before** you make credit purchases and become over-burdened with bills.

Remember, your good name, your military career and the happiness of your family are at stake. Protect yourself and use credit buying wisely. (AFPS)

SIX NEW COURSES OFFERED AT UAH

Six special non-credit courses have been added to the curriculum at the University of Alabama in Huntsville for the fall term.

The newly added courses are: Government Procurement Law, Calculus Review, Graphics Workshop, Business and Professional Painting, Interior Decorating and Writing the Short Story.

Application deadline for the special non-credit courses is 9:00 p.m., Thursday, September 14. The application forms are available at the Office of Student Records in Morton Hall.

One-Time V-2 Assembling Area Is Now a Library

A silver-colored hanger at White Sands Missile Range, New Mexico, that once saw the assembling of V-2 rockets, now houses a library which is proving to be a vital component in supporting the Range's work generation. However, the library is not the usual "book" kind.

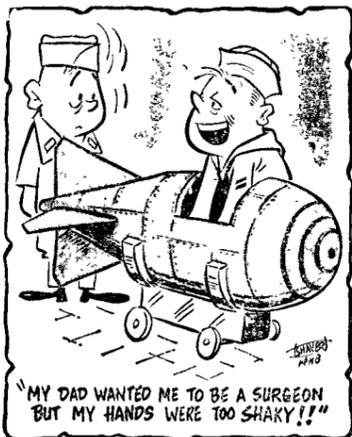

It is an Equipment Pool which caters to every branch of Range operation, loaning everything from inexpensive lettering sets to complex electronic networks. It claims more than 15½ million dollars in inventory.

The Equipment Pool's management system dates back to early 1965 after the commanding general of the national missile range requested that a centralized equipment library be established for all surplus and infrequently used equipment. Gradually items began accumulating in the designated hanger.

Then a check-out system was created and items were categorized and shelved. As the pool was organized, range divisions began to donate other seldom-used materials that might be needed by other directorates.

The library now loans about 82 percent of its inventory for range use. Borrowers may keep the items for six months and then renew their loans. Pool functions not only include loaning equipment but also having it maintained and calibrated.

The most obvious advantages of the Equipment Pool are that it allows maximum use of Range equipment and saves time and money that would be expended in ordering new equipment.

ZERO DEFECTS CORNER

The Missile Command's "Zero Defects Employee-of-the-Month" for September is Joe Ann B. Cacace, Clerk-Sitno in the Provost Marshal Division, Arsenal Support Operations Directorate.

Joe Ann was recognized for her outstanding Zero Defects achievement in establishing and maintaining entry codes for all Intrusion Detection (ID) Systems. There are presently 38 ID Systems in use on the post which are ever-changing depending on the needs of the using agencies. She has established the very enviable record of performing this task error-free for the past four years. This achievement clearly reflects her keen interest and awareness in attaining a goal of perfection.

Mrs. Cacace was selected from a group of seven outstanding nominees considered by the MICOM Zero Defects Program Council. She has also recently been awarded the DASO Zero Defects Achievement Certificate by Colonel J. N. Jean, Director. Among her other achievements since employment here, is a quality increase received in 1965 for outstanding performance in all phases of her work.

Joe Ann is the daughter of Mr. and Mrs. John B. Brown of West Paducah, Kentucky. She attended Heath High School near Paducah and at graduation received an award for proficiency in business administration. She later attended and graduated from Draughon's Business College in Paducah.

She came to Huntsville in 1962 for a vacation and liked the area so well she returned shortly after and began her employment at Redstone Arsenal.

Joe Ann spends her off-duty hours caring for her four year old son, Michael, and listening to her collection of popular and classical record albums.

called SAM-D (Surface-to-Air-Missile-Development).

Under the contract, which is a modification to a previously awarded letter contract, Raytheon will continue advanced development efforts on SAM-D which is being designed to simultaneously acquire, track, identify and destroy multiple air-supported targets.

Work will be performed at the company's facility at Bedford, Mass.

SAM-D is being developed for a continental and battlefield air defense role in the 1970s, against high performance aircraft and short range missiles. The system will be highly mobile and may be mounted on either tracked or wheeled vehicles.

Col. Edward M. Dooley is SAM-D Project Manager.

A \$4.9 million contract which calls for FY 68 industrial engineering services on the TOW weapon system was awarded to Hughes Aircraft Company.

Under the contract, Hughes will plan and manage an industrial engineering program, including product and production engineering tasks, will conduct evaluation studies and tests, perform data analysis and document all efforts in the form of production drawings, specifications and manuals.

Most of the work will be performed at the Hughes facilities in Culver City, Calif., and in Tucson, Ariz.

TOW is one of the Army's newest tank killers being developed for the infantryman. The system may be carried by troops and fired from a ground emplacement or it may be mounted on a variety of vehicles. Combining a lethal warhead with high accuracy at both close and long ranges, TOW will

to a NATO agency. The North Atlantic Treaty Organization agency directed the European production of the Hawk air defense missile system. More than 50 major manufacturing companies in Belgium, France, The Netherlands, Federal Republic of Germany and Italy were engaged in a half billion dollar Hawk overseas production program.

Ordnance Instructor

During his assignment as an instructor and assistant professor of Ordnance at the U. S. Military Academy at West Point, New York from 1948 to 1951, Col. Schuppener taught and prepared texts on ballistics and the design of Army missiles and conventional weapons.

Born in Stitzer, Wisconsin, the 52 year-old Colonel, a 1938 graduate of the University of Wisconsin in electrical engineering, is a Regular Army officer and has been in the service since 1940. He is a graduate of the Army Ordnance School, Command and General Staff College, Ordnance Staff Officer Course and Top Management Engineering Training program.

Married to the former Helen Louise Utter of Madison, Wisc., Col. Schuppener and his wife have three children: Linda, 24, studying for a master's degree at State University of Iowa; David, 18, who will enter the University of Alabama in Huntsville, and Steven, 15, who will attend Butler High School.

The family will live at 25 Ripley Drive on Redstone Arsenal.

give infantry units increased firepower, not only against armored vehicles, but gun emplacements and other field fortifications as well.

The TOW program is managed by Col. James N. Lothrop.

Negotiating the contracts for the Army was Systems Contracts, Division A, of the Missile Command's Procurement and Production Directorate.

SOCIAL ^{and} CLUB EVENTS

Wives Club Coffee Set To Welcome Newcomers

The Redstone Officers Wives Club is planning a hospitality coffee Tuesday at 10 a.m. at the Redstone Officers Open Mess. Theme for the event is "Getting to Know You" as newcomers will be welcomed by the Club.

Reservations to attend the coffee may be made by noon Friday by calling: Mrs. Irvin Borgen, 877-

5766; Mrs. R. T. Holder, 877-5233; Mrs. W. L. Sherron, 877-4350; or Mrs. B. P. Rosseau, 877-5868. Cancellations should be made by noon Monday by calling Mrs. G. P. Higdon, 877-5054.

Tables will be set up at the coffee depicting activities sponsored by the Wives Club, and members may sign up to participate in those of interest to them.

Mrs. C. D. Sterner and Mrs. S. R. Baen are in charge of arrangements for the coffee.

Sojourners Plan Picnic Saturday

The Redstone Chapter of the National Sojourners has scheduled a picnic for Saturday afternoon at the RSA boat docks area.

All members are urged to bring their families and guests for an afternoon of fellowship. Catered food and drinks will be served.

Reservations may be made by calling LTC Rollins (876-3032 or 831-8394, Col. Seth Mize (876-7878), or LTC Jack Hendershott (876-8419) by tomorrow afternoon.

VERSATILE BAND DEBUTS AT CLUB

"The Quintets" featuring Miss Judy Henderson vocalist, will entertain enlisted men at the Service Club Sunday evening at 8:15 p.m.

This versatile show-dance band and Miss Henderson has been popular in the music circles in the Huntsville area. This is first appearance of "The Quintets" at the Service Club.

RETIRES—Colonel William C. Rogers receives the Certificate of Retirement from Col. John R. Henderson, acting commandant of the Missile & Munitions Center & School. Col. Rogers, a veteran of more than 25 years service, was Director of Logistics at MMCS for three years. His overseas assignments have taken him to Iran, Korea and the Philippines. Shown at left is his wife, Arvilla. The Rogers plan to spend their retirement in Colorado Springs.

Repeaters Score In Yard-of-Month

Redstone Arsenal yard-of-the-month winners for August feature a couple of repeaters.

The Area "A" selection went to Col. & Mrs. S. H. Abernathy at 30 Ripley Drive. The Abernathy's also won the plaque for May but judges said their lovely caladium and colorful Salvia made them winners again.

It was a similar situation in Area "B" where the plaque went to Col. & Mrs. J. S. Churan at 453 Simpson Drive. The Churan's won in July but the fuchsia in their hanging baskets and their dwarf marigolds won them the nod again.

Area "C" winners for August are Capt. & Mrs. M. S. Clark at 250-C Niblo Drive. Their yard features specimen coleus.

These awards are presented during the growing months each year by the Redstone Officers Wives Garden Club.

Mrs. Gibbs Talks To Women's Club

Edith Gibbs was the guest speaker at the monthly meeting of the MARS Women's Club at the Colonial Country Club last night.

The Chief of the Data Processing Office of the Supply and Maintenance Directorate spoke on the subject, "Human Relations."

BRIDGE WINNERS NAMED

Winners at the Thursday party bridge sponsored by the Redstone Officers Wives Club were Mrs. Witt Compton, high score, and Mrs. James Hoffman, second. Low score was held by Mrs. Lynn Corp. The group meets at the Redstone Officers Open Mess.

Mrs. Robert Allgeir handles reservations to play with the group.

COURSE OFFERED FOR BABYSITTERS

Teenagers who wish to be added to the current list of qualified baby sitters must attend a one-and-one-half hour course in emergency care set for 10 a.m., Sept. 16, at the Post Chapel.

Those eligible to participate are the teenage dependents, both boys and girls, of active duty military personnel assigned at Redstone Arsenal. The teenagers must reach age 13 by December.

The course will be conducted by the Post Surgeon, the Fire Marshal, and a representative from the Provost Marshal's Office, and will stress emergency measures to be taken by a babysitter. Certificates for completion of the course will be issued at a later date.

Parents and any others inter-

First Log Tests Big Transporter

"Big T," an experimental Conex transporter with a 16-ton capacity, is being tested by the 1st Logistical Command in Vietnam for the Army Materiel Command.

It is capable of carrying three Conex supply containers at one time and loading or unloading them without the help of forklifts. In the future it may provide a faster, more efficient means of supplying the combat soldier.

Interested are welcome to attend the course.

The program is sponsored by the Joint Activities Council.

For further information, call Mrs. Therman Richards, 877-5767.

Norwegian Sergeant Rates Highest In MMCS Class

Today's Army is manned by the finest generation in U. S. history and has the best education, weapons, food, clothing, housing and pay of any military organization in the world.

This statement was made to graduates of the Army Missile and Munitions Center and School last Friday by Lt. Col. Robert J. Noll, chief of military occupational speciality training at the Army Chemical Center and School at Fort McClellan, Ala.

Col. Noll told the 130 graduates from Denmark, Norway and the U. S. Army and Marine Corps that their size, health, vigor and intelligence is the envy of the world and urged them to take advantage of unparalleled opportunities offered by the military educational programs now offered by most nations of the free world.

Cited as honor graduates of their respective classes were: PFC Stanley E. Harrison of Bakersfield, Calif., who averaged 90.7 in Hawk pulse radar; Marine Lance Cpl. Dean H. Davis Jr. of Whitinsville, Mass., with 89.7 and SSGT. Ward M. Whitfield with 89.9, both in Hawk continuous

wave radar; PFC Donald E. Culley Jr. of Council Bluffs, Iowa, with 91.7 in Hawk missile and launcher repair; PFC Richard C. Keen of Bethlehem, Pa., with 91.8 in Sergeant missile guidance; PVT Rolla A. Miller Jr. of Hanna City, Ill., with 93.1 in Nike launcher control; PVT James G. Pickett Jr. of Tampa, Fla., with 86 in Nike launcher control; PFC Edward L. Masters Jr. of Jacksonville, Fla.,

with 93.9 in Nike radar and computer; Norwegian Staff Sgt. Steinar H. Ulsten of Oslo with 95.4 in Nike test equipment; PFC Houston O. Bishop of Memphis Tenn., with 93 in Nike missile repair; Marine Lance Cpl. Donald R. Burgin of Bridgeport, Texas, with 88.9 in Hawk pulse radar; and PVT Rex M. Wilmans of Newport, Ark., with 94.9 in ammunition storage.

Lt. Col. Robert W. Elliott of the MMCS Officer Training Dept. presided at the ceremony in the Post Theater, and national anthems of graduates were played by the 55th U. S. Army Band.

Wider Coverage Sought For Plan

Department of Defense has asked Congress to revise the Retired Servicemen's Family Protection Plan (RSFPP) to make it better understood by military personnel.

Only 15 percent of servicemen are now taking advantage of the RSFPP option to cover wives and dependents with their retirement pay in event of their deaths by accepting a lesser retirement entitlement, DOD noted in an August letter to both houses of Congress.

DOD's position is to eliminate inflexibilities of the current plan, principally to restore full retirement pay automatically when a wife dies, a child becomes ineligible because of age, or a divorce occurs.

For those with Option Four (Restoration of Full Retirement Pay) in effect, proposed legislation would also liberalize current withdrawal of the RSFPP option now permitted only with proof of severe financial hardship.

Changes also would push the election year decision to the 19th year of service, instead of the present 18th.

MPs Overcome 522nd Ordnance To Take Crown

MMCS Nine Within Out Of Big Upset

Only one out away from being victimized by a stunning upset, the Military Police got up off the floor and captured the 1968 Redstone Arsenal softball championship last week with a 4-3 extra-inning win over the 522nd Ordnance.

The scrappy School nine had stopped a 25-game winning streak of the mighty Police with a 3-2 win in the opening game of the final set. This forced another game between the rivals and the Ordnance team was within a single out of duplicating the score in the second game.

But Radford Jolly kept the MP hopes alive with a single to left. When the 522nd left fielder tried to make a shoe string catch of the drive, the ball got by him and rolled all the way to the fence enabling Jolly to circle the bases with the tying run.

After a scoreless eighth, Matt Croughan reached first on another Ordnance miscue, and was sacrificed to second. Nick Dondrinick delivered the winning blow with a single to right that sent Croughan sliding home with the winner.

The loss was a heart breaking loss to the determined 522nd and especially their stout armed pitcher, Glen Byous. Byous went the route in both games and allowed a total of seven hits in 16 innings.

The MPs opened the scoring in the final game in the first frame

when Jerry Griggs reached on an error. Doris Chatman forced him at second and stole second. Creekmore Williams sent Chatman home with a single up the middle, and he followed with the second run on another error.

Byous got those run back in the fourth with an inside-the-park homer after a walk to Dick Briere. Herm Lee picked on the next pitch and sent a drive over the fence in left to give the 522nd a 3-2 lead.

The MP manager, Tommy Williams went all the way on the mound and other than the two home runs, was able to keep the Ordnance men from scoring although reached for seven hits.

Byous took the opening night decision from Jarwes Nayman in another well played duel. He was in complete command of the situation except for the fourth inning when the MPs put together two of their four hits with a walk to score a pair of runs.

Tommy Brown opened the Ordnance first with a single and stole second. Lee singled in the first run. The MPs made it 2-1 on a walk to Chatman along with hits by Dondrinick and Bob Havertape.

Ron White doubled to open the seventh for the 522nd and beat the throw to third on Mel Bratton's bunt. Tom Holmes singled to plate White with the tying run and Mike Robuck followed with another one-baser that sent Bratton racing home with the winning run.

LILLIPUTIANS—The juniors in the Junior Golf Tournament at the Arsenal Golf Course pose after playing and winning over their competition. The girls are blond Barbara McBrearty, the champion for the girls, Ann Henley, runnerup, Andy and Pat McBrearty. Pat edged out his brother to take the boy's title.

Arsenal Youths Attain Highest Scouting Rank

The highest rank in scouting was conferred upon three members of Redstone Troop 308 last week at the Troop's 33rd Court of Honor conducted at the Post Chapel.

Captain Robert Mullen, Scoutmaster, presented Eagle Scout awards to Mark Northington, James Richards and Jere Cave in recognition of their having attained the highest degree of scouting proficiency.

The awards to the three brought to seven the number of Eagle medals that have been presented to members of the very active Troop 308 in the last year.

The son of Col. and Mrs. H. H. Northington, Mark has been scouting for five years having joined as a tenderfoot while his father was stationed at Ft. Bragg. During that time he has earned 29 merit badges.

He has participated in four troop conservation projects, ten Good Turn and Service projects and completed 66 days of troop camping. Mark holds the God and Country award and has served as

assistant patrol leader and has earned the Senior American Red Cross lifesaving certificate.

James began his scouting in 1960 in Anchorage, Alaska, and completed his second class requirements within a year. The son of LTC (ret.) and Mrs. C. R. Richards has since advanced through the scouting ranks earning 21 merit badges and attaining Star and Life rank.

He has participated in two Troop conservation projects, six Good Turn and Service projects and is credited with more than 100 days of Scout camping.

He has served as patrol leader and scout instructor, was the Troop Honor Scout, and the troop nominee for Order of the Arrow.

Jere has accomplished a phenomenal record in scouting having attained the rank of Eagle in just three years, all of which was spent with Troop 308. He has earned 26 merit badges during his scouting career attaining First Class rank within a year and later became a Star Scout.

He has participated in three conservation projects, twelve good turn service projects, and credited with 76 days of Scout camping. He has been named Troop Honor Scout on two occasions and holds the Brave Camping Award.

DEPARTMENT OF DEFENSE has directed that all individuals entering on active duty in the Armed Forces must have a Social Security Account Number. This is part of an overall program to eventually substitute the SSAN for the military Service Number (MSN) as personnel identification.

EAGLE SCOUTS—Talking over the coveted Boy Scout Eagle Award are, left to right, James Richards, son of LTC (Ret) C. R. Richards; Jere Cave, son of Capt. (Ret) and Mrs. John Cave; and Mark Northington, son of Col. and Mrs. Hartsell Northington. The scouts are members of Redstone Troop 308 and were awarded the Eagle during Court of Honor ceremonies last week.

AND STILL CHAMPIONS—Members of the Finance and Accounting Center softball team took a few minutes off from their duties for a team picture after taking the CWF playoffs in a sweep of two games from the Redeye Project Office. The Accountants are back at it this week as they bid to take the All-Arsenal slo-pitch title in a best two of three set with the MARS champions. Charles

Harper and James Armstrong kneel with the emblem of their victory. Their team mates standing are, left to right, Bill Owens, Dwayne Kidd, Bruce Coker, Hal Jacobs, Russ Ward, Mike Duty, Richard Hines, Mike Reis, Elliott Agee, Julian Williams, Hubert Smith and Collis Terry.

NEW LEAGUE HAS TEAM OPENINGS

Would you be interested in getting into a Mixed Bowling League that bowls at the Starlite Lanes on Sunday nights?

If that happens to be your cup of tea, or maybe just the thing you've been looking for, you are just the person that Mel Webb is looking for.

Mel has started action to form a league that would bowl each Sunday evening, starting at six. Several teams are already lined up but there is room for a couple more.

He asked anyone interested to give him a ring at 876-3312, or to give their name to Dub Carroll at the Starlite. An organization meeting for the league will be held at the lanes on September 18, starting at six.

Same Cast

Accountants Seek Playoff Revenge

Fresh from a sweep of the Civilian League playoffs, the Accountants from the Finance and Accounting Center were hopeful of duplicating the trick this week and wrap up the Redstone Arsenal slo-pitch championship for the year.

The Accountants opened a best of three set with Purchasing Office, winners of the MARS league crown, last night. The second game is set for 5:15 this afternoon and if a third game is necessary, it will be played tomorrow afternoon at the same time.

Tonite's game will be played on the military softball field on Patton Road.

This will be the second year that the Army and NASA leagues have matched their skill in a playoff. The same two teams met last year with the Purchasing Office taking the crown.

Got Going Late

The Accountants got off to a slow start this season, dropping three games while the Redeye Project Office was winning the first round of the season. The two teams shared the second round and F & A grabbed the third round.

In the playoff last week, the Accountants pounded out a 12-5

win in the opener and came back with a 9-4 victory in the second game.

Elliott Agee got the Accountants off to a fast start in the opener with a three-run homer in the first inning and Russ Ward closed out the scoring a three-run-homer in the first inning and Russ closed out the scoring in the seventh with a grand slammer.

In between the two Ruthian clouts, Bill Owens had the situation well in hand and kept the Redeye offense well in check. He scattered their hits over the route, permitting single runs in five different frames.

The CWF champs used the same scoring formula in the second inning with a trio of runs in the opening frame, and a four spot in the sixth. The Missilemen, still on a run-an-inning diet, managed to knot the score at 3-4 in the fifth but saw their hopes smashed with the late F & A rally.

Jacobs Sets Pace

Singles replaced homers in the second game with every member of winner's cast making a generous contribution. Hal Jacobs punched a trio of safeties, while Julian Williams, Mike Reid and Rick Hines each hit safely twice.

The Accountants are confident that their hard hitting attack will be sufficient to turn the tables on their adversaries from the other side of the Arsenal.

Manager Williams said that his crew is a much improved defensive team this time around mainly because of the pitching of Owens. "We have always had plenty of hitting," he said, "but this year our defense has given us a well rounded club."

It's going to take a strong defensive effort, however, with the likes of Bill Crawford, Bud Lively and Morris Jacobs swinging their bats for the MARS team. Crawford averaged .522 over the season with Lively two points behind.

A one-time Cincinnati Reds pitcher, Lively shared home run honors on the team with Jacobs, each with a dozen boundary belts. Ben Ridgeway handles the pitching for the Ben Cavaliere—directed Marshallmen, and it is altogether possible that the series will be decided by him and Owens.

CO-OPs Ready For School After Summer Work

LET'S DISCUSS YOUR ARMY CAREER—Roy Roberts of Gadsden, a sophomore majoring in Business Education at the University of Alabama, holds a briefing session with some new MICOM employees. Roy enjoys working with people as a student trainee in personnel management at the Civilian Personnel Office. Roy, now on his first co-op training period, came to work for the Army in order to gain experience in his field and to save money to go back to school.

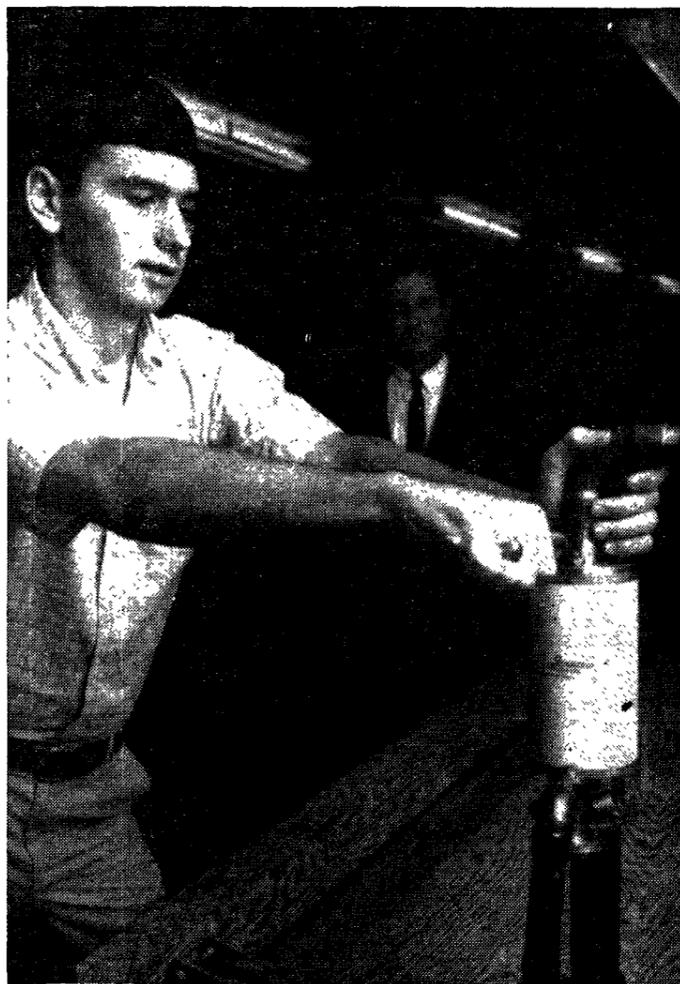

CO-OP FINDS A CHALLENGING JOB—Leonard Daniels, Jr., a junior from Snead, Fla., majoring in electrical engineering at the University of Florida, is on his third co-op training period as a patent advisor. Leonard, who plans to become a patent attorney following graduation, said that the best feature of his job is that he works in a small office where he receives a lot of individual attention and advice when he needs it. Leonard and his supervisor, Jack Voight are analyzing a new invention received from the Research and Development Directorate.

CO-OP DISCUSSES CONTRACTS WITH HIS SUPERVISOR—Paul Graves, a Business Administration major at Alabama A&M, is working as a contract assistant for the Procurement and Production Directorate. Paul and his supervisor, Carl J. Hanzlik, discuss the compiling and coordination of contractual documents in their office of the Systems Contract Division. Paul, who is on his second co-op training period, says his job has been of great benefit to him in school.

"I LEARN SOMETHING NEW EVERY DAY"—Mary Lynn Frazier, a co-op student from Mississippi State University, discusses the results of some missile-in-flight graphs with David A. Mendel. Mary Lynn is a sophomore from Columbus, Miss., majoring in aerospace engineering and working in the Advanced Systems Lab of MICOM's Research and Development Directorate. Presently her job involves computer study and analyzing graphs, but she'll be working more independently after she has taken more background courses in the field. Mendel is Chief of the Advanced Concepts Branch.

"MY JOB IS JUST GREAT! I ENJOY DOING RESEARCH"—Thomas Dale Cosby of Rogersville, a physics major at the University of Alabama, works for the Research and Development Directorate. Tom and his supervisor, Andrew Jenkins, are in the Physical Sciences Laboratory examining a shock tube which can be used in measuring radiation and chemical weight processes at different wave lengths. Tom is on his first co-op training period worked most of the time with researchers in the Aeromechanics Branch of the Laboratory in analyzing different research projects.

Math Department Increased At UAH

The University of Alabama in Huntsville has announced the addition of three faculty members to the mathematics department for the 1967 fall term.

Dr. Lloyd W. Johnson comes to UAH from Oklahoma State University where he was chairman of the math department for 16 years. He will be a professor of mathematics.

Dr. Robert E. Haymond will serve as associate research professor and head the Computer Sciences Laboratory. He comes to the Huntsville campus from the University of Iowa where he was associated with the department of computer science.

The third new member of the math department is Dr. Peter M. Gibson who will be an assistant professor. He taught previously at North Carolina State University.

Larry Carlson Repeats As Arsenal Junior Champion

For the second straight year Larry Carlson won the honor of being the best young golfer at Redstone following his win in the annual Youth tournament sponsored recently by the Officers Wives

Club Golf Group. The son of a retired Army officer captured the crown by besting Gary Miller for first place in the championship flight. Tim Thompson shaded Brad Shupput to win the first Flight crown.

LARRY CARLSON

The Junior Flight of the tournament turned out to be a family affair with the McBrearty's taking three of the four honors. Barbara won out over Ann Henley among the girls and Pat McBrearty edged his brother Andy for the boy's title.

Eighteen dependent youths participated in the tournament at the Redstone course. The meet climaxed the youth program sponsored by the OWC during the summer months.

Mrs. John Miller, the program chairman reported that the clinics were successful despite the fact that rain throughout the summer had made scheduling a difficult problem. Three of the clinics had to be cancelled and the younger players were restricted to five holes in their tournament.

The win scored by Carlson in the tournament climaxed a remarkable recovery by the plucky youth following a serious injury

Official Lists Ten Commandments Of Human Relations

Federal employees and Federal agencies have been asked to wage a continuing crusade for improved service to the public, and for improved communications with the public.

Here are one man's ideas on the subject, the "Ten Commandments of Human Relations," expressed by L. J. Andolsek, Vice Chairman of the U. S. Civil Service Commission:

1. Speak to people — there is nothing as nice as a cheerful word of greeting.
2. Smile at people—it takes 72 muscles to frown and only 14 to smile.
3. Call people by name—the sweetest music to anyone's ears is the sound of his own name.
4. Be friendly and helpful—if you would have friends, be friendly.
5. Be cordial—speak and act as if everything you do were a real pleasure.
6. Be genuinely interested in people—you can like everyone if you try.

less than a year ago.

Larry suffered a fracture and a dislocation above the right knee in a junior high football game last fall and according to his father, Lt. Col. L. W. Carlson, "His chances of ever participating in athletics again looked pretty slim."

He was told that football was out for sure and it would be another year before he could even think of playing baseball or basketball. But Larry was determined to spend the summer on the golf course and his Doctor said a little golf would help strengthen his leg.

At first it was like learning a new game but after a few rounds he had his swing back and he was shooting in the 80s again.

"It's going to be better next year," the middle member of the golfing Carlson boys confidently said. He went on to mention that he was hopeful of making the Butler team next spring where he would join older brother, Lee.

This would leave it up to Lenny to keep the Carlson name going among the younger set of Redstone golfers.

Astronomer Tells 'Origin Of Stars'

The Rocket City Astronomical Association will hear a discussion of the origin of stars when they meet at the RCAA Planetarium on Monte Sano at 7:30 tomorrow evening.

The guest lecturer for the evening will be Dr. Helmut Abt, an astronomer at the Kitt Peak National Observatory in Tucson, Ariz. His subject will be "Stellar Evolution."

Dr. Abt is president of the Astronomical Society of the Pacific and a Council member of the American Astronomical Society. He is presently visiting the Marshall Space Flight Center for participation in a short course on modern astronomy.

The next open house at the Conrad Swanson Observatory is scheduled for Friday evening, September 15 starting at 7:30. A movie, "Amateurs and the Sky," will be shown continuously at the open house, which is open to the public with no admission charge.

7. Be generous with praise — cautious with criticism.
8. Be considerate of the feelings of others—it will be appreciated.
9. Be thoughtful of the opinion of others—there are three sides to a controversy: yours, the other fellow's, and the right one.
10. Be alert to give service—what counts most in life is what we do for others.

Marine Team Here For TOW Training

One of the Army's newest weapons systems, the TOW, may serve as the prime killer of heavy armor for the Marine Corps as well as the Army.

Last week a team of Marines from Quantico, Va., came to Redstone for five days of intensive, although somewhat unique, training in the operation of the system.

The same team will later operate TOW when the Marines conduct troop tests for proving out the system prior to final acceptance.

Shotgun shells, loaded in a special device in the tube, were used in lieu of missiles for the training. This gives the gunner a simulated reaction to actual firing of the weapon and prepares him for firing real missiles.

The program was conducted by the Hughes Aircraft Company, prime contractor for the TOW system, under the supervision of the New Equipment Training Division of MICOM's Supply and Maintenance Directorate.

In addition to the firing exercise, the training for the Marines included an introduction to the TOW system, theory of system operation, organizational and field maintenance, and system operational tasks.

The TOW program is managed by the Missile Command under Col. James N. Lothrop, Project Manager.

Cal Tech History Dept. Has Answer!

Have a question about the history of Alabama, America or Western civilization?

Although it may be a "\$64 question," it's almost a cinch that at least one of the nine teachers in the History Department at the John C. Calhoun State Technical Junior College can answer it.

Interim Dean Jack Campbell said, "We feel we have an outstanding faculty in the History Department. All but one have had teaching experience and they are specialists in their areas."

These areas include subjects which are taught concerning the history of Alabama, America and Western civilization.

The number of teachers in the History Department has been expanded from seven last year to nine to meet the increase in enrollment expected when the fall quarter begins September 14.

Each student is required to take two courses in history if he is to obtain a junior college Associate of Arts degree.

CHRISTMAS GIFTS FOR VIETNAM—Mrs. William F. Kaiser adds her donation for the ditty bags to be wrapped, packed and mailed by the Red Cross to U. S. Soldiers in Vietnam as Christmas gifts. Mrs. Zacarias F. Rael, chairman of the Red Cross volunteers at Redstone Arsenal, stands by as the gift is donated. The goal is to fill 50 bags with small, practical items. Boxes for receiving the donations have been placed in the Post Exchange, the Commissary, the Rod and Rake Shop, and the Officers Open Mess.

Boy Scouts Call At Arsenal Homes

The Red Cross Volunteers at the Arsenal have enlisted the aid of the Boy Scouts in their efforts to fill Christmas bags to be sent to soldiers in Vietnam.

The Scouts will make house-to-house collections of articles to put in the ditty bags. They will visit all residences on the Arsenal on Saturday. Any householders wishing to contribute a small, practical gift should have it ready when the Scouts stop.

Gift donations are also being received at the Post Exchange, the Commissary, the Rod and Rake Shop and at the Officers Open Mess. All donations should be

Raytheon Given Hawk Contracts

The Army Missile Command has awarded contracts valued at \$9.8 million to Raytheon Company, Andover, Mass., for work on the Hawk air defense missile system.

Of the three contracts, the largest is for \$7.5 million for ground support equipment. The second contract is for \$1.1 million for refurbishing GFE Launchers for Self-Propelled (SP) Hawk. The third contract is for \$1.2 million for guidance and control components for the US Marine Corps Hawk missile.

Raytheon, prime contractor for the missile system, will perform the work at its facilities in Andover and Waltham, Mass., and other locations.

Hawk, in operation with U. S. Army and Marine Corps units in the United States and overseas, is a 17-foot long supersonic missile that can search out and destroy attacking high performance aircraft or air-breathing guided missiles at low altitudes. The system is also built and operated by a North Atlantic Treaty Organization production group made up of France, Italy, the Netherlands, Belgium and West Germany.

The Army Missile Command at Redstone Arsenal, Ala., is responsible for technical supervision of Hawk. Col. J. G. Redmon is Hawk Project Manager.

The contracts were negotiated by the Missile Command's Procurement and Production Directorate.

AT LEAST TEN historical volumes are planned as an official U. S. Army history of the war in Vietnam, according to the Army's Office of the Chief of Military History. The historical documents will include administration, logistics, engineer, and medical activities, along with the combat and advisory roles.

turned in by September 22. The Volunteers will be present at the Officers Wives Club Welcoming coffee next Tuesday morning to accept gift items.

SWIMMING POOL OPEN FOR PUBLIC VIEWING Saturday and Sunday Sept. 9th and 10th

1105 Chestnut Road, N.W. (University Park)

HALF OF OFFICE IS WELL COVERED

The Comptroller of the Army Missile and Munitions Center and School reports that 11 of the civilian employees assigned to his

office—or just half of the total of 22 who work there—have accumulated sick leave ranging from over 500 hours for the "lowest" to more than 2,000 for one employee.

Their combined total amounts to \$70,947.

The 11 persons between them have a total of more than five and a half years due them in case of emergency.

DASO Office Has Own Space Problem

James M. Darrah, Jr. an Army "space man" is content to follow the exploits of America's astronauts from the ground.

Darrah and his co-workers, H. Gerald Rinker and Ellis D. Hollingsworth, have their attention focused on inner space, specifically that within some 2,200 buildings on the Arsenal. That amounts to more than 10 million square feet of floor space. They are

"INNER SPACEMEN"—Ellis D. Hollingsworth and James Darrah, right, are concerned with the problems of inner space and how it is used at Redstone Arsenal. The two Army spacemen found the astronaut helmet on the desk interesting but of no particular use in deciding how best to use 10 million square feet of floor space.

charged to see that what's available is properly used.

The problems of inner space and how to apportion it to the many persons and operations requiring room to grow in are faced daily in Darrah's office which comes under the DASO Deputy Assistant for Logistics, J. B. Ellis.

"A lot of people used to kid us by saying our space problems could be solved if we had a wall on wheels," Darrah said. He must have thought the argument had merit.

He invented a wall on wheels, a type of partition mounted on wheels, faster, easier and more economical to use than other means of turning big spaces into little ones. A patent is to be issued to him soon.

The people who urge Darrah to come up with a building stretcher, however, have struck out so far. "I haven't put much thought into that one," he says.

Instead, Darrah, Rinker and Hollingsworth have tried to explain to others how best to use the space available to them. One way they have found is to teach a portion of a course on work simplification to personnel from the Missile Command and the Missile and Munitions Center and School.

"The course is not only helpful for those taking it," Darrah said: "but it's helped us out too when the students carry back to their work sites some of the thoughts that they have picked up in the course and apply them."

The Army spaceman served a hitch in the Navy before studying for his degree in personnel-labor relations which he received from Auburn University in 1950 together with a commission as an Army reserve officer. He served a tour on active duty prior to joining the Army operations at Redstone as a management analyst in 1956. He's been in the space business since 1958.

He feels his college minor—in psychology—has been of great help in his job.

"You really have to know how to treat people in this space business," he said. "You would be amazed how upset some people get when you mention the word 'change'."

Darrah and his wife, Lucy, originally from Birmingham, now make their home in Huntsville with their three children.

Off the job, he enjoys wood working, painting and stamp collecting. Allocation of space within the Darrah's home is left strictly to Mrs. Darrah.

As for outer space, Darrah says: "I'm in no hurry to go there, but when the other spacemen do, I may apply for a job, as an inner outer spaceman. . . or would that be outer inner spaceman?"

Army OCS Reduced To Three Schools

(ANF) The U. S. Army will cut back its expanded Officer Candidate School program after completion of present training cycles.

OCS will be phased back from the present eight-school program to three schools, at Fort Benning, Ga., Fort Sill, Okla., and Fort Belvoir, Va. It is expected that the phase back will be completed within the next seven months.

Under the expanded OCS program, the Army commissioned more than 19,000 officers during Fiscal Year 1967. This compares with 3,627 officers commissioned through OCS in Fiscal Year 1966 and the 10-year annual average of 1,187 OCS commissions for the period ending June 30, 1966

Army plans call for OCS operations now conducted at: Fort Gordon, Ga.; Fort Knox, Ky.; Fort Lee, Va.; Fort Eustis, Va. and Aberdeen Proving Ground, Md., to be discontinued after completion of present classes.

CS Board Seeks Nurse Applicants

The Interagency Board of U. S. Civil Service Examiners for North Alabama, 806 Governors Drive, S. W., Huntsville, Alabama, 35801, has issued an examination announcement for the position of Professional Nurse, GS-5, \$5331 a year; GS-6, \$5867 a year; GS-7 \$6451 a year.

This examination was issued August 31, 1967, and is open continuous. The register established as a result of this examination will be used for filling positions in Federal agencies and installations in the 38-county area serviced by this Interagency Board.

To qualify for Professional Nurse, applicants must possess the specific experience requirements as set forth in the examination announced for this position.

All qualified applicants will receive consideration for appointment without regard to race, religion, color, national origin, sex, political affiliations, or any other nonmerit factor.

LEGION OF MERIT—Lt. Col. William H. Clausen, Combat Developments Command Liaison Officer to the U.S. Army Missile Command, is shown receiving the Legion of Merit "for outstanding meritorious service." Doing the honors is the "boss" of the Missile Command, Maj. Gen. Charles W. Eifler.
