

Two More Missile Command Employees Go To Vietnam

Two employees of the Supply and Maintenance Directorate have been selected for assignment with the Army Materiel Command's Quick Reaction Assistance team in Long Binh, Vietnam.

The two volunteers, both equipment specialists Gordon Bowen and Glendon Harrison, will leave Redstone in mid-October and spend six months at the AMC installation located approximately 20 miles northeast of Saigon.

The 25th and 26th Redstone civilians selected for Vietnamese assignments will be joined in Long Binh by 20 other civilians from AMC installations. The entire team recently completed a four-week training program to prepare them for their assignments, at Sharpe

Army Depot, California. Bowen has spent almost a quarter century as a civilian employee at the Arsenal. A native of Fayetteville, Tenn., he was hired originally by Redstone Arsenal as a mechanic apprentice in June 1942.

After spending a short tour with the Navy during the war years, Bowen returned to Redstone and has remained except for a fifteen-month period in the late 40s.

Harrison came to the Arsenal in April of last year from Shreveport, La., where he worked for a Nike defense battery installation.

He is also a Navy veteran having eight years on active duty including wartime service with a BYP squadron in the South Pacific.

CHAPARRAL TAKES A BOW

Air Defense Missile Is On Display For First Time

The U. S. Army's new air defense missile system, Chaparral, went on public display for the first time this week at the annual meeting of the Association of the U. S. Army in Washington, D. C.

Chaparral is one of two major weapon systems selected by the Army in 1966 to provide field commanders with low altitude air defense as part of newly-organized Air Defense Battalions. The other system is the Vulcan.

Chaparral is an infrared heat-seeking missile which is mounted on a highly mobile tracked vehicle, and was developed by the Army Missile Command to meet the requirements for a forward area air defense weapon.

The system consists of a launch and control assembly, vehicle and missiles. The missiles, an adaptation of the Navy-developed Sidewinder 1-C, modified for ground-to-air rather than air-to-air use are carried and fired from a turret mounting four launch rails. Additional missiles are stored in the pallet for ready access.

The missile is aimed by the gunner in the turret mount, who

keeps the optical sight aligned with the target, then the missile guides on the target's heat source automatically after launch.

The Chaparral system uses an XM-730 self-propelled tracked vehicle which can travel up to 40 miles an hour on the road, and is amphibious when a swim kit is added.

The Army began study and evaluation of Chaparral in November 1964, and a development contract was awarded early in 1965 to Aeronutronic Division of Philco-Ford Corp., the prime contractor. A contract was awarded in April 1966 for initial tooling and production.

Chaparral has completed successful test firings at White Sands Missile Range, N.M. and at the Naval Ordnance Test Station, China Lake, Calif.

Col. R. C. Daly is the Vulcan/Chaparral Project Manager for the Army Materiel Command, Washington, D. C. The Chaparral Management Office headed by Lt. Col. Donald Steenburn at the Army Missile Command supervises the program.

FIRST TIME OUT IN PUBLIC—The U. S. Army's Chaparral air defense guided missile system was on view to the public for the first time this week at the annual meeting of the Association of the U. S. Army, Washington, D.C. The program is supervised by the Chaparral Management Office at the Army Missile Command. Aeronutronic Division of the Philco-Ford Corp. is prime contractor.

CFC Collections Level With Same Time In 1966

"The next few days are crucial," is the way Al LaGrone looks at the third weekly progress report on the 1968 Combined Federal Campaign at Redstone.

While continuing to express optimism, the Army's executive chairman stated that the total amount contributed and pledged during the first three weeks was almost identical to that collected over the same period last year.

Cash donations and payroll de-

duction authorizations turned in to date total \$356,993, \$390 more than was received at this time a year ago. However, the ratio of participation is at 82 per cent this year, an increase of nine per cent.

Department of Army personnel have contributed \$249,954 with another \$107,039 being donated by Marshall Space Flight Center personnel. After three weeks in 1966 the figures were \$233,935 and

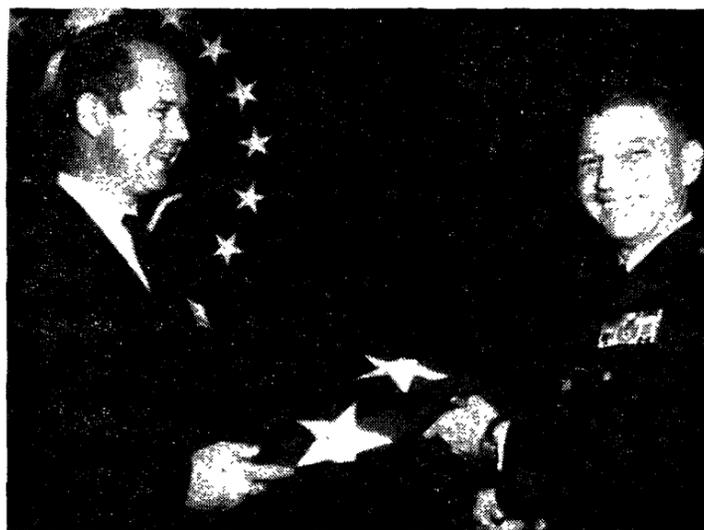

(See CFC on Page 3)

Procurement Fair

Next Wednesday has been set as the date for the next Army Missile Command Procurement Fair.

The fair, which is conducted by the Procurement and Production Directorate, will be from 8 a.m. until 4 p.m. in building 4438.

Procurement personnel will be on hand to answer questions and assist contractors who may personally pick up procurement packages containing the Missile Command's current requirements for missile repair parts.

CONTINUED EXCELLENCE—Glen R. Johnson, national director of the U. S. Savings Bond program for the Treasury Department, presents a new Minuteman Flag with two service stars to Maj. Gen. Charles W. Eifler. The flag represents three years of 90 per cent or more participation in the payroll savings plan by personnel of the MICOM headquarters units. Mr. Johnson presented the flags to eight Department of Army organizations at the annual Savings Bond recognition luncheon last week. The flags carried a total of 19 service stars.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension, 876-1400 or 875-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

Rocket Ruminations

Sincerity is the very foundation stone of true friendliness.

Think About Fire Prevention!

Across the Nation this week, various types of programs are being used to emphasize National Fire Prevention Week Oct. 8-14.

Fire prevention is, of course, a year round job for everyone. In some states, legislators have tried to legislate fire out of existence by passing bills making it illegal to smoke in bed, to accumulate memorabilia in piles in attic and basement, to install improper wiring, and to place improper ventilators on boats, automobiles and other machinery.

No amount of legislation can replace a citizen who thinks before his actions add a fire hazard at home or away.

During the last fiscal year at Redstone, fire took a toll of \$186,667 in property damage, an increase over the previous year's \$122,819. However it didn't hit the all-time peak of 1965 when fire losses totalled \$536,850. Property loss is bad, but worse is the loss of life that often accompanies a fire. At Redstone Arsenal, no life has been sacrificed in a fire.

Fire can be prevented if every citizen dedicates himself to the eradication of conditions that cause fires.

Today's Voice

From the days of early settlement until today, the people of the United States have been able to maintain a degree of political and personal freedom denied in many other countries.

Much of the credit for this belongs to the newspaper profession and those dedicated men and women who have and are working in it.

Many people think of newspapers in the light of controversy. They fail to see them as they really are—as the only consolidated record of life as it is lived. Each day's issue is another page in the history of our time, telling of the joys of birth and marriage and the heart-break of death and tragedy. Whether a paper is the small county weekly in which the editor plays all roles from janitor to delivery boy or whether it is a large daily with a sizable staff, the newspaper gives its readers the serious news along with the happy; entertainment along with education; trade and commerce along with editorial comment.

Charles William Eliot has written:

"Carrier of news and knowledge
Instrument of trade and commerce
Promoter of mutual acquaintance
Among men and nations and hence
of peace and good will.

Carrier of love and sympathy
Messenger of friendship
Consoler of the lonely
Servant of the scattered family
Enlarger of the public life."

This is a fitting tribute to all America's press as we join in observance of National Newspaper Week.

ATTEND CONFERENCE—The Army Missile Command's Metrology and Calibration Center was host to a world-wide area Support Calibration Conference on problems being encountered in the field and the solutions. Representatives (left to right) are: Daniel Buckley, Director of Maintenance at the Army Materiel Command Headquarters; Richard Tyner, AMC Quality Assurance; LTC Peter L. Horne, chief of the Center at Redstone; LTC Roy Roberts, Calibration Agency, U. S. Army Pacific; and Porter Newton, Calibration Agency, U. S. Army Europe. Altogether, 65 experts attended the two-day meeting last week.

Award Totals \$5.5 Million For Production Engineering On Dragon Missile System

A \$5.5 million U. S. Army contract has been awarded to McDonnell-Douglas Corporation for advanced production engineering on the Dragon weapon system.

Dragon is the Army's new lightweight, one-man-operated weapon specifically designed to kill tanks and other infantry targets on the battlefield. It weighs about 27 pounds.

The letter contract calls for design and fabrication of special tooling, inspection and test equipment and the establishment of a pilot production line to support production, the Army said. Most of the work will be done at the McDonnell-Douglas facility at Titusville, Fla.

The Dragon program is managed at the U. S. Army Missile Command, Redstone Arsenal, Ala., by Lt. Col. Kenneth C. Van Auken, Project Manager. McDonnell-Douglas is prime contractor.

The Dragon will be far superior in range, accuracy and lethality to the 90mm recoilless rifle it will replace.

Negotiating the contract for the Army was Systems Contracts, Division A, of the Missile Command's Procurement and Production Di-

rectorate, headed by Col. Sterling C. Holmes.

Promotions

The following promotion announcement from the Army Missile & Munitions Center and School is made:

To Sergeant First Class (E-7): Gary L. Willis, Gene A. Davis, James M. Bell, Donald Fulgham, Johnathan Spencer, John B. Ringham, William B. Filer, Billy G. Allegood, David L. Tucker.

To Staff Sergeant (E-6): Daniel E. Buckner, Larry A. Wood, Lloyd J. Pearce, Calvin E. Cross, Edward H. Gent, Donald E. Christian and Charles F. Tadlock.

To Sergeant (E-5): Donald R. Corbin.

To Specialist 5 (E-5): John R. Simons, Gonzalo Martinez, Lawrence W. Somerwill, Arthur W. DuRea, Thomas E. Valliere, William N. Phillips, Benjamin Simeone, Victor R. Vendemio, Charles A. Jones and James S. Resko.

To Specialist 4 (E-4): 40.

Metrology Conference Held Here

The U. S. Army Missile Command was host last week to the U. S. Army Area Support Calibration Conference.

Lt. Col. Peter L. Horne, Jr., Chief of the Army Metrology and Calibration Center here, is in charge of the worldwide management missions and technical directions in this field.

Walter Keene of the Army Metrology and Calibration Center here was coordinator for the conference of approximately 65 military and civilian personnel engaged worldwide in Army metrology and calibration activities.

At the conference, information about new concepts, current technical information and techniques served to identify and help resolve existing problems in area support service.

The conference opened with a welcome from Maj. Gen. Charles W. Eifler, Commanding General of the Missile Command, before the technical sessions began.

\$121,052, respectively.

Two Army agencies joined the 100 per cent club during the week and five others moved to within threatening range.

The most recent perfect organizations are the Nike-X Project Office and the Air Defense Control and Coordination Systems Office.

Paul Phillips closed out the books on the Project Office's drive after enrolling each of the 348 assigned personnel. The ADCCSO

chairman, Howard Shaeff, turned in his final report listing each of the 91 assigned personnel as participants.

The two new 100 per centers joined the elite company of the Office of the Commanding General and the Comptroller and Director of Programs.

The Missile Intelligence Directorate is not far away with 99 per cent, the Directorate of Procurement and Production, and Land Combat Systems have attained 93 per cent, while the Quality and Reliability Management Office is now at 92 per cent.

TRAINEES SUPPORT CHARITY—Although engaged in highly realistic combat training in the woods of Redstone Arsenal for the past week, the 33 officers and enlisted men of the 220th Ordnance Detachment at the Army Missile and Munitions Center and School found time to contribute unanimously to the Combined Federal Campaign to assist welfare and charity programs throughout the Tennessee Valley area. Here Maj. Ray W. Miller, left, training officer of the MMCS Unit Training Command, accepts from 2nd Lt. Calvin R. Rose, detachment commander, contributions averaging better than \$12 per person. The detachment, which provides general support for the Hawk air defense missile system, is the second military unit at MMCS to achieve 100 percent participation in the 1967 fund drive.

COMMAND CONTRACTS \$1.5 MILLION

The U. S. Army Missile Command has awarded \$1.5 million to the Aeronutronic Division of Philco-Ford Corporation for continued engineering services on the Shil-

lalah anti-tank missile system. Work under the contract will be performed at Lawndale, Calif. Shillelagh is a gun-launched guided missile system being de-

veloped for the Army's armored vehicles. Its 152mm dual-launcher can fire either missiles or conventional rounds of ammunition. The Missile Command manages the Shillelagh program under Col. Spencer R. Baen, Project Man-

ager. Aeronutronic is prime contractor. Negotiating the contract extension was the Missile Command's Procurement and Production Directorate.

SOCIAL and CLUB EVENTS

SAME Regional Conference Scheduled In Huntsville

The Huntsville Post of the American Society of Military Engineers will be host to the Southeastern Regional Conference at the Carriage Inn in Huntsville Oct. 26-27 according to Col. H. H. Northington, president of the local post. Delegates from the region will begin registering on Thursday evening. An early bird social is also scheduled.

At the technical session the following morning, Brig. Gen. Ivey O. Drewry, Nike-X Project Manager, and John L. McDaniel, technical director for the Army Missile Com-

mand's Research and Development Directorate will speak. At lunch the keynote speaker will be Lt. Gen. William C. Cassidy, Chief of Engineers, Army. The banquet speaker that night is Brig. Gen. Edmund F. O'Connor, U. S. Air Force, director of Industrial Operations at the Marshall Space Flight Center. Afterward the Buzz Raines orchestra will play dance music in the Carriage Inn ballroom.

Tickets are being sold for the lunch and banquet by Brig. Gen. Pick Johnson (ret.), 536-3301; and Lt. Col. John H. Weaver, 876-4181.

PLAN HARVEST BALL—Some of the committee representatives for the 5th annual Harvest Charity Ball sponsored by the Redstone Arsenal Officers Wives Club are (left to right) Mrs. William F. LaHatte, entertainment; Mrs. G. P. Higdon, Pink Pebblestone Players; Mrs. Clarence C. Harvey, Jr., honorary chairman; Mrs. Spencer Baen, properties for players; and Mrs. Joseph Churan, decorations. The event is scheduled Oct. 28 at the Redstone Officers Open Mess.

WHICH TWIN HAS THE TONI?—Well, neither, really—and as you probably notice, these lovely young ladies aren't twins either. But both are wearing similar earrings and, if you are still looking closely, you'll see that they have a message. They are emphasizing the Combined Federal Campaign, and suggest that one contribution will go a long way in helping a great many organizations to continue their humanitarian work. The two secretaries in the Procurement and Production Directorate are Brenda Clutts (left) and Pat Mullican.

Thrift Shop Needs Used Furniture

The Redstone Arsenal Thrift Shop, which does a lively exchange in all sorts of things, is very low on furniture, electrical appliances such as stoves, washing machines, heaters, etc., and on gadgets and dishes.

According to Mrs. Gene Budd, the Thrift Shop manager, all types of furniture are always in demand including such things as baby furniture, rugs, chairs and davenport. Bookcases are always in demand according to the past experience of the Thrift Shop workers.

Any Arsenal-connected individual can sell through the Thrift Shop. The Shop operates on Wednesdays and Fridays from 10 a.m. until 2:30 p.m. It is self-sustaining with volunteer help from among the officer and enlisted men's wives stationed here.

Tool Engineers Schedule Seminar

The American Society of Tool and Manufacturing Engineers Chapter 171 is sponsoring an Advanced Systems Management Seminar Oct. 19-20.

Col. W. R. Van Wert and Dr. Wernher von Braun are scheduled to welcome the participants at the Morris Auditorium in the Marshall Space Flight Center.

Members of the Army, of the Marshall Center, the Navy, the Air Force and missile systems contractors are on the agenda for the two-day meeting.

M. J. Rabatin, chairman of the Public Relations Committee, can be reached at 876-8686 for further details.

MONDAY BRIDGE

Monday bridge at the Redstone Officers Club last week was won by Capt. J. A. Jackson, first and CWO J. A. Joseph, second for the men; Mrs. M. Morgan and Mrs. A. Garrabrant, for the women.

Quality Control Meet

The Huntsville Section of the American Society for Quality Control meets Monday at the Russel Erskine Hotel at 6:30 p.m.

W. P. Carrier, director of Quality Control and Reliability for P. R. Mallory, Co., Indianapolis, will speak on "Quality Inspection in Mass Production."

Joe Pagano 859-1633, Al Steinbert 878-2905 and Ben Keyserling 876-3661 are handling reservations.

Thursday Bridge

Winners of the Thursday Bridge Group sponsored by the Redstone Officers Wives Club were Mrs. Arthur Pottle, first; Mrs. McF. Morgan, second; Mrs. Robert Ficke, third; and Mrs. Sam Schinender, low. Seven tables were in play. Reservations are handled by Mrs. Robert Allgeier.

Nike-X Program Review Takes Place At Orlando

ORLANDO, Fla — Department of Defense, Army and industry officials involved in the management of the Nike X missile defense program met here Friday to review the status of the program.

The one-day meeting is held annually to discuss progress made during the previous year and future plans.

The majority of topics covered in Friday's meeting concerned research, development and testing activities, however plans for production and deployment of the ABM system were also discussed.

Defense Secretary McNamara recently announced a decision to deploy a Chinese-oriented antiballistic missile system.

Dr. John S. Foster, Director of Defense Research and Engineering, was the keynote speaker at a pre-conference session held Friday evening. Lt. Gen. A. W. Betts, Army Chief of Research and Development and head of the Nike-X program, hosted the meeting. Brig. Gen. I. O. Drewry, Jr., Nike-X Project Manager, presided over the working session. Maj. Gen. C. W. Eifler, Commanding General of the Army Missile Command, was among key Army officials attending.

Attendees heard development and status reports on the Missile Site Radar, Perimeter Acquisition Radar and the Spartan and Sprint interceptor missiles, all of which will be used in the deployed ABM system.

A test version of the Missile Site Radar is being installed at the Kwajalein Test Site in the Marshall Islands and design work is underway on the Perimeter Acquisition Radar.

The Sprint missile has been undergoing flight tests at White Sands Missile Range, N. M., for more than a year. Similar tests are scheduled for the Spartan missile at Kwajalein.

Test results indicate that the system hardware can readily meet the deployment objectives of the recent decision.

Current estimates are that the program will be more complex than any other missile project ever undertaken by the Army and will require expenditures reaching a peak of more than \$1 billion a year.

The working sessions of the meeting were held in the plant of Martin, Orlando, and were

closed for security reasons. Dr. Russell D. O'Neal, Assistant Secretary of the Army, Research and Development, was among the attendees, who included:

Lt. Gen. Robert Hackett, Commanding General of the Army Air Defense Command; Daniel J. Fink, Deputy Director of Defense Research and Engineering; Maj Gen. Frank G. White, Commanding General of the U. S. Army Munitions Command; Brig. Gen. George Mayo of the Nike-X Systems Office; and Charles Lurch and Robert S. Sargent, assistants to Dr. Foster.

Nike Hercules Lets Contract

The Army Missile Command has awarded \$596,450 for first year effort on a multi-year contract for producing electronic tubes to Litton Industries.

Work on the contract will be performed at the company's facility in Williamsport, Pa.

Now deployed around key areas in both the United States and overseas, Nike Hercules has proven successful in tests against high performance aircraft at a variety of altitudes and has successfully intercepted short range ballistic missiles.

Col. M. W. Pettit is project manager of the Hercules system for the Army Missile Command.

The Command's Procurement and Production Directorate negotiated the contract.

Bloodmobile To Visit

The Bloodmobile will visit Redstone Arsenal between 8:30 a.m. and 2:30 p.m. Oct. 18.

The unit will be set up in Bldg. 7110, the old Post Hospital. Red Cross Volunteers willing to help may contact Mrs. E. M. Dooley, 837-6996. Volunteer nurses may call Mrs. J. M. Loomis, 881-9582.

Pvt. Moore Earns AUSA Study Award

A soldier from West Virginia Friday won the highest academic award given by the Army Missile and Munitions Center and School at Redstone Arsenal, Ala.

Pvt. Lawrence A. Moore, Jr., 23, of 1138 Spring Valley Drive in Huntington, West Va., received the outstanding student plaque of the Association of the U. S. Army for averaging 96.5 in the ammunition storage course in which students are taught procedures for handling a wide variety of military explosives.

J. Burl Galloway, president of the Tennessee Valley chapter of the AUSA, made the award, which goes only to students with grades of 96 or better, at a graduation ceremony in the Post Theater.

Pvt. Moore attended Marshall University in Huntington before entering the Army.

Col. Orman E. Hicks, deputy director of maintenance training at the Army Transportation School at Fort Eustis, Va., addressed 97 graduates who were completing several missile and ammunition courses. Col. Horace B. Dunn, director of the MMCS ammunition department, presided at the ceremony.

Col. Hicks told the graduates that they could advance their military and civilian careers by adopting an attitude described in an alphabetical sequence — active, brief, cheerful, direct, enthusiastic and fearless.

Seven graduates were cited as honor students. They were: 2nd Lt. Kieth C. Coffey of Mobile, Ala., with 95.6 in the ammunition officer course; Pvt. Dennis C. Schlegel of El Cajon, Calif., with 95.3 in Nike missile launcher; Pfc. John F. Schneck of Allentown, Pa., with 91.5 in Nike radar and computer; Pfc. James R. Carroll of Little Rock, Ark., with 95.2 in Nike system repair; Pfc. David P. Rubis of Arlington, Va., with 93.8 in Hawk missile and launcher; Pfc. Robert

REGULATION CHANGE

A. Barnett of Covina, Calif., with 88 in Sergeant missile guidance; and Pfc. Leslie Y. Dogen with 92.7 in Pershing missile guidance and control.

A change to Army Regulation 600-200 has been issued explaining procedures selection criteria, and specific qualifications for voluntary assignment of enlisted personnel to special duties and certain organizations, including Office, Secretary of Defense, Defense Communications Agency, Defense Intelligence Agency and JCS. Change also lists criteria for assignments in classification and interview positions at U. S. Army Reception Stations and Training Centers. (AFPS)

Honor Roll Membership Eludes Arsenal Keglers

Civilian league bowlers suffered through their second straight week of action without a single honor roll total last week although a few well-placed marks would have boosted several of them into the select company.

No less than 16 maple maulers ended their kindling stacking sessions with totals of over 550. The Supply Management League pro-

vided the only sweep of the evening with the Auto Center as their victims. Dan Chepkaukas shot a 235 game and totaled 572 while D. B. Smith accounted for 551 sticks.

Frank Lau outlasted Tom Patterson, 579 to 553, as the Shoot 'n Scoots split with the Lily Flagg Auto Clinic. Gene Tetri helped the Scooters with 544.

The Esso Bees provided most of the noise in the Field Services League with a 1079 game and a 3032 series total, good for a sweep over the Rebels.

Ken Thew was high with 580, Bob Adams chipped in with 556 and Jim Haight fired a 549. Tom Palmer led the losers with 543.

Ed Bledsoe and Al Sarge combined scores of 555 and 540 respectively as the Expeditors took all four from the Washouts, and Fred Stewart cooled off a little from Monday but still got a 543 as the Guided Muscles split with the Satellites.

The sweep by the Expeditors gave them a share of the lead with the Bees and the Crackers, and knocked the Washouts all the way to a fourth place tie with the Musclemen. The Crackers earned a share of the lead with a sweep over Baker Real Estate.

The Bombers swept the Wonners and the All-Sports took three out of four from the T-Birds to move into a tie for the AMC lead as the Voyagers were suffering through a sweep at the hands of the Alley Cats.

Bob Brand turned in a 234 game for the Bombers while the Alley Cats win was a team effort including a 1074 game and a 2983 total.

Bob Lindeman accounted for 563 maples in leading the Raiders over the Packers, Jim Kyzer collected 533 as the Stars split with the Lancers, and Chuck LeMonde put together a 233 game for the Rejecters.

Girls Basketball Starts Next Week

The Missile Command will be represented in the Huntsville Industrial Women's basketball league this winter with a team sponsored by the Civilian Welfare Fund Council.

The MICOM entry, coached jointly by Sid Douglas and Gladys Hill, will be pitted against Space Craft in their first game Monday evening. The game is scheduled for 5:30 at the Huntsville Youth Center on Triana Blvd. across from Joe Bradley School.

Seven teams are entered for league play with three games scheduled each Monday night. The league schedule will run for 14 weeks ending January 29, 1968.

In addition to Space Craft, teams entered in the league will represent, the Marshall Space Flight Center, Boeing, Brown Engineering, IBM and General Electric.

Douglas said that the MICOM team would be taking the floor with a very minimum of practice due to the unavailability of a suitable floor. He figured that this might hamper their play in early games, and is hopeful of getting the team rolling before too many games are played.

He said that team berths are still wide open and any civilian

MOST VALUABLE—Glen E. Byous, center, of the Army Missile and Munitions Center and School, receives a trophy from Lt. Col. Charles E. Chapman for being named "Most Valuable Player" during the 1967 softball season at Redstone Arsenal. At right, is Capt. John S. LaGreca. The burly right-hander from St. Joseph, Mo., helped the 522nd Ordnance Company gain runner-up position in the 12-team double-elimination tourney and nearly engineered a "miracle" victory in the championship game against the powerful 291st Military Police Company. Facing the Military Police, who were riding a 25-game winning streak, the 21-year-old soldier pitched two complete games. He gave up only four hits and slammed a two-run homer in the 522nd's 3-2 upset win, and allowed only three hits in an extra-inning, 4-3 loss in the final. The 522nd barely qualified for the playoffs with slightly over a "500" won and lost record while the MP's were 21-1 during the regular season. As a soldier, Byous is a mechanic with the 522nd ammunition unit.

A few openings are available for regular bowlers who would be interested in becoming members of the Field Services League. The league bowls at the Parkway Lanes on Wednesday evenings, starting at 6. Those interested in aff'ating with the league are asked to call Warren Schoenknecht at 876-2395.

vided 11 of them with another pair coming out of each the Field Services League and the AMC loop.

Fred Stewart won bowler of the week honors for the second time in four weeks when he mangled 591 maples in a head to head duel with Joe Medders who totaled 583.

Stewart got a big boost from Chet Wysocki, with 578, as the All-Sports Trophies took three out of four from the Medders-led Ramblers. Ken Bell pitched in with a 561 and Ken Shipp added a 546 in the losing attack.

The Strike Outs came up with another three-way attack and used it in handing the Bushwackers a trio of setbacks. Ed Lawson set the pace with 574, Bob Oliver kicked in with 564 and Hal Williams flattened 553 sticks.

Huntsville Brick and Tile scored

Arsenal Little Leaguers Win Pair From Monrovia

Redstone's junior footballers turned on Monrovia for a pair of wins in Huntsville Parks and Play-ground league games last week but the third Arsenal entry dropped a 14-0 decision to the Huntsville Northern League eleven.

The 80-pound Hawks opened the week's action with a 21-6 win over the Monrovia team while the Rams were taking a 20-7 victory over the same team in the 95-pound class. The Mustangs were the only Redstone losers of the week in falling to the Northern League 110-pounders.

woman desiring to tryout is certainly welcome. Those interested in seeking a place on the team can get additional information from Gladys Hill at 877-8581.

Larry Silence, Bobo Bearden and Mike Lucian took turns carting the pigskin into the Monrovia end zone while Don Kane was successful on each of his conversion attempts for the Hawks. Silence was the workhorse of the Hawk attack and rushed for a total of 118 yards in 17 carries.

The defensive line play of Robin Ramirez, Bill Willis and Danny Barnes prevented the Monrovia team from mounting any sustained ground attack while Mitchell Pigg and Butterball Stewart were outstanding in defending against an aerial attack.

The Rams weren't able to get their attack rolling in the first half but made up for it after the intermission with a pair of sustained marches for touchdowns.

Gus Steenberg provided the Arsenal youths with a 6-0 halftime lead by returning an intercepted pass 45 yards. Woody Gray concluded one of the marches with a 6-yard sweep and Brad Shuput drove over guard for the final six pointer. Mike Tillyer added a pair of conversions.

Ends Pat Mohr and Ken Trump along with line backer Greely Kyle and deep backs Craig Willis and Mike Williams played the starring roles in the Ram defense.

The usually potent passing arm of Steve Joselyn was rendered ineffective by a series of dropped passes leading to the Mustang downfall. On four separate occasions Joslyn hit receivers only to have each one of them dropped. Ed Jones proved to be the only consistent ground gainer for the Redstone team.

Mike Clardy, playing his first game for the Mustangs, and Ken Joslyn played outstanding games on defense for the Arsenal team.

ALL IN ONE EVENING TOO — Wayne Spruell gave Arsenal bowlers something to shoot at for the rest of the season when he cut loose with a blistering 676 during a recent session of the Big 10 league at the Monarch Lanes. Wayne, who works in the MICOM Computation Center sandwiched a big 254 in between games of 216 and 206 in rolling "the best series I ever had."

ARSENAL SCOUTS REACH EAGLE—Peter R. Baen, son of Col. and Mrs. Spencer R. Baen, and Paul L. Hundley, Jr., son of Mr. and Mrs. P. L. Hundley, completed their long journey down the Eagle Scout Trail recently. The two are members of the Redstone Arsenal's Troop 234 and were honored during ceremonies.

MEETS PRIME MINISTER—Roy L. Pugh (left), Deputy Chief of the ARPA Division, Army Missile Command, gets acquainted with Australia's Prime Minister, Harold Holt, at Woomera Test Range. The prime minister was making his first visit to the test range and Pugh was there in connection with a series of tests being conducted by the U.S., Australia, and Britain under the ARPA sponsored program SPARTA (Special Anti-missile Research Tests in Australia). Looking on at right is R. J. Rockcliff, Principal officer of Ranges in Australia.

Missile Command Spends \$18.3 Million Nationwide For Goods And Services

Army Missile Command spending during the past month for goods, services and repair parts ran to more than \$18.3 million nationwide. Firms in the Southeast received approximately \$1.5 million of this total, including \$900,000 which went to Huntsville. The awards cover such items as rental and maintenance on busi-

ness machines, office and laboratory supplies, food, clothing, building repair and maintenance, and repair parts for Army missiles. The orders are executed by the Missile Command Procurement and Production Directorate. None of these awards are for the million dollar or more contracts going to contractors for

procurement of missile systems and related equipment.

SPARS HOLD REUNION

Twenty-five years ago the first of 11,000 young women became SPARS, female reserve component of the Coast Guard. This Nov. 23-25 many of them will meet at Palm Beach, Fla., for a reunion. It will be at the Biltmore hotel, their "boot camp" a quarter-century ago. (AFPS)

People need money for all sorts of reasons.

You may not need a bowling ball at all—but whatever you do need money for—we'll understand.

Because we've learned this: there are as many different reasons for borrowing money as there are people who borrow.

That's why we don't put special labels on our loans. Whatever you need money for is okay with us. And our okay is just as BIG as anybody's!

If you could use some of our money now, call us. Better yet, come on in and talk today.

Your Mutual man will understand.

CARE EMPLOYEE—Mr. Leon C. Knowles has been named September's "CARE Employee of the Month" at the Army Missile and Munitions Center and School. At left, Col. Raymond C. Bishop, director of the Air Defense Dept., presents the award to Knowles as J. T. Kilbourn, chief of the Acquisition and Computer Branch looks on at right. Knowles won the award for suggesting a rescheduling of weekly graduation ceremonies to avoid interference with continuing training activities. He is the fourth person at MMCS and the third in the Air Defense Dept. to receive the monthly award which promotes participation in the Army's Zero Defects Program.

PROMOTED—The leaves of lieutenant colonel are pinned on Harvie T. Ingram (right) by Lt. Col. George A. Steenborg of the Redstone Arsenal office of the Combat Development Command's Maintenance Division. Ingram is the son of Mr. and Mrs. O. M. Ingram of Piedmont, Ala., and received his Army commission at Officer Candidate School. He is Signal Officer for the CDC agency here and came to Redstone from duty in Thailand.

Belcher Honored

Alton H. Belcher, purchasing agent with the Redstone Research Laboratories of Rohm and Haas Company, has been named assistant vice president of the National Association of Purchasing Agents. In this capacity he will represent District Seven, which is composed of eight southeastern states.

A charter member of the North Alabama Purchasing Agents Association, Belcher has held local and state offices and has also served as a national director.

He has been associated with Rohm and Haas since 1951. During World War II he served as an Infantry officer in Europe. He is a native of Petersburg, Va., and holds a B. S. degree from Virginia Polytechnic Institute.

Pvt. James Russell Earns AUSA Academic Award

A soldier from Nebraska, won the Army's highest academic award at the Missile and Munitions Center and School at Redstone Arsenal.

testing. National Anthems were played by the 55th Army Band.

Pvt. James S. Russell, of 1145 Olive Ave. in Hebron, Neb., received the outstanding student award of the Association of the U. S. Army for his average of 98 in the ammunition storage course. He is a 1962 graduate in business administration of Hastings College in Nebraska. The award was presented by Charles Sparks, a director of the Tennessee Valley chapter of AUSA at a ceremony in the Post Theater.

The 107 graduates from the U.S. Army and Marine Corps and Germany heard Lt. Col. Harvey D. Piper of the Army Finance School at Fort Benjamin Harrison, Ind., emphasize the importance of individual initiative and integrity in the maintenance of the Army's complex missile and munitions equipment. Lt. Col. Raymond Reason, Jr. of the MMCS Hawk Division, presided at the ceremony.

Ten students were cited as honor graduates. They were Pfc. Lawrence J. Hesse of Calamus, Iowa, and German Staff Sgt. Joerg Peter Gaul with 94.6 and 95 respectively in Hawk radar; Specialist Harry V. Carfrey of North Hills, Pa. with 89.7 in Nike radar; Pfc. John T. Tornow of Stanley, N. Y. with 90.2 in Hawk missile and launcher repair; Staff Sgt. William H. Tyson of St. Francisville, La. with 90.3 in Hawk fire control; Pfc. Rodney A. Bearup of Flint, Mich. with 86.8 in Sergeant firing set repair; SP4 Andrew D. Mamlis of Lowell, Mass. with 91.3 in Sergeant test equipment; Pfc. Gerald M. Bender of Lakeside, Calif. with 91.4 in Pershing guidance and control; Pfc. Jonnie L. Walker of Merritt Island, Fla. with 91.6 in Pershing ballistic missile testing; and Pfc. Russell R. Barr III of Mount Morris, Mich. with 93.2 in land combat missile

GLASS IS TESTED

Hydrostatic pressure tests of glass spheres, one of them 44 inches in diameter, are being carried out by Navy to learn if glass may someday be able to replace steel in deep submergence pressure hulls. Scientists at Naval Ship Research and Development Center say effective use of glass could provide a depth capability about five times that of high strength steel. (AFPS)

LONG STUDY—Paul T. Kornman, General Engineer in the Directorate of Arsenal Support Operations, completed the Industrial College of the Armed Forces course "Economics of Our National Security Structure". Looking over his certificate of completion beside the huge stack of course texts, he commented that its completion assuredly requires the 12 to 18 months recommended by the Industrial College. Kornman sandwiched the studies with other duties such as writing and teaching at the University of Alabama Campus a course of Local Damage Forecasting & Assessment, the local portion of an Army Materiel Command Course of Weapons Effects Data.

IT GOES THATAWAY—Checking the azimuth laying gear and theodolite prior to simulated launch of a Pershing missile is Maj. Gen. Charles W. Eifler, commanding general of the U. S. Army Missile Command, who visited the Orlando Division of Martin Marietta Corporation for briefings October 5. At right is Martin engineer Oved Gonzalas, in charge of test operations.

ASK

Ask how much your loan will cost and HFC will tell you—before you borrow

Before you make a purchase, you naturally want to know the price. The same should be true when you borrow money. When you come to Household Finance, HFC will tell you in advance what your loan will cost. The HFC Manager will answer any questions you have to make sure you understand everything about your loan.

Remember, no matter what your need, wherever you're stationed, there's an HFC office nearby, where you can get prompt, understanding money help.

Every year, thousands of servicemen borrow confidently from Household, because they like doing business with people who know their business. If you need a loan, see HFC. You're always welcome.

NEW STUDENT—Guatemalan Capt. Manuel De Jesus Mendizabal, left, shown looking at a brochure of Florida vacation spots with Major Edward W. Schroth represents the 31st Allied country to send students to the Army Missile and Munitions Center and School at Redstone Arsenal. Cpt. Mendizabal will study the officers ammunition course at MMCS. This is the second stateside tour for the 27-year-old Army Captain who was in San Antonio, Tex., two years ago. Maj. Schroth heads the office responsible for the administrative support and informational training and tours for all the Allied students at the school.

ARMY HONORS AIR FORCE RETIREES—Troops of the Army Missile and Munitions Center and School and the Army Missile Command marched last week to honor two Air Force officers at a retirement parade at Redstone Arsenal. From right are Lt. Col. Trevor I. Dumitru and Col. Samuel Yarchin of the Air Force who have been serving with the Marshall Space Flight Center; Col. Paul B. Schuppener, MMCS commandant who was reviewing officer; Air Force Maj. Gen. Samuel A. Phillips of NASA Headquarters in Washington; Col. Anders O. Wicklund of the RSA Directorate of Support Operations; Col. William F. Kaiser, Missile Command chief of staff; and Air Force Brig. Gen. Edmund O'Connor, director of industrial operations at MSFC.

Huntsvillians To Send Gifts To Vietnam

Plans are underway to give Huntsvillians a chance to send person-to-person Christmas greetings and gifts to the Community's adopted 93rd Evacuation Army Hospital in Vietnam.

John W. Houtz, community chairman for the Operation We Care program, has announced that booths in several shopping centers in the city will be set up to provide names of hospital staff members.

"We will assist interested persons in readying gifts for overseas mailing," Houtz said.

"Because Christmas mailing to Vietnam must be accomplished by the middle of November, we plan to have the booths in operation by the last week in October," he added.

The committee voted to raise \$750 for purchase of a system to pipe music to wards of the 700 bed hospital. The system, is one of the morale items mentioned by the Hospital when asked what Operation We Care could provide.

Organizations, businesses, or individuals may contribute toward the system. Houtz said that the Operation We Care budget has some funds from previous contributions which will be used to help defray the \$1,000 cost.

November 1 Deadline Date

SERVICEMEN and Women have until Nov. 1 to submit letters to Freedom Foundation on the subject, "Freedom—My Heritage, My Responsibility."

Top award is \$1,000 with hundreds of other cash awards and honor certificates going to runners-up in the contest.

Entries should be mailed to Freedoms Foundation, Valley Forge, Pa. 19481. (Full information on the contest is available in Galley Guide for July 1967.

COMMENDATIONS

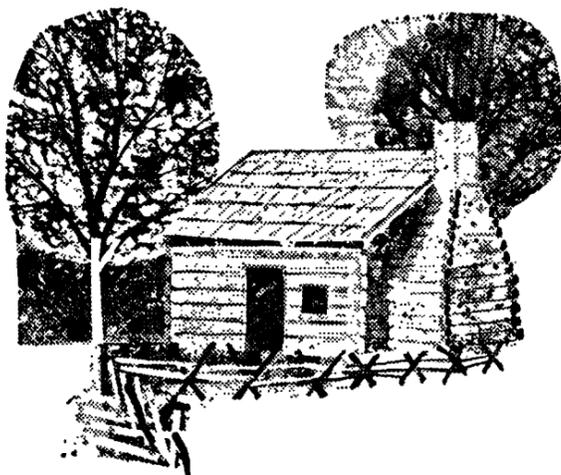

Five Redstone officers have been awarded the Army Commendation Medal in recent ceremonies held in recognition of their meritorious service.

They are LTC Charles E. K. Gerritzen, Col. Goodale, Capt. Cosby and Lt. Gerritzen are assigned to the Missile Command, Maj. Hoagland is here on assignment with Army Intelligence and Security and Capt. Glass is a medical officer assigned to the Post Hospital.

JOB WELL DONE—Master Sergeant William L. Farmer (left) receives the Army Commendation Medal with Oak Leaf Cluster from Col. Paul B. Schuppener, commandant of the Army Missile and Munitions Center and School at Redstone Arsenal, Ala. The veteran of 25 years of Army service received the decoration for outstanding performance with the First Logistical Command's directorate of supply in Saigon, Vietnam. He returned recently and is now the senior non-commissioned officer in the MMCS directorate of logistics.

Mrs. N. T. Dennis Dies In Cleveland

Funeral services and burial for Mrs. Norman T. Dennis, wife of a Project Manager of the Mauler Program at the Army Missile Command, were held today at Arlington National Cemetery.

Mrs. Dennis died Sunday in Cleveland, Ohio, from what was described as a "massive stroke". She was 54.

Preliminary services were held yesterday at St. Peter's Episcopal Church in Lakewood, a suburb of Cleveland. Col. and Mrs. Dennis lived at 20123 Lorain Road, Fairview Park.

Col. Dennis is assigned there as Director of the Defense Contract Administration Services Region. While at Redstone, he directed development of the Army's Mauler weapon system. Mrs. Dennis was widely known throughout the Huntsville area, having served

among others areas, as President of the Redstone Officer's Wives Club.

Receive Awards

Awards were presented to 13 military and civilian personnel of the Army Missile and Munitions Center and School Friday, September 29 by Col. Paul B. Schuppener, MMCS Commandant.

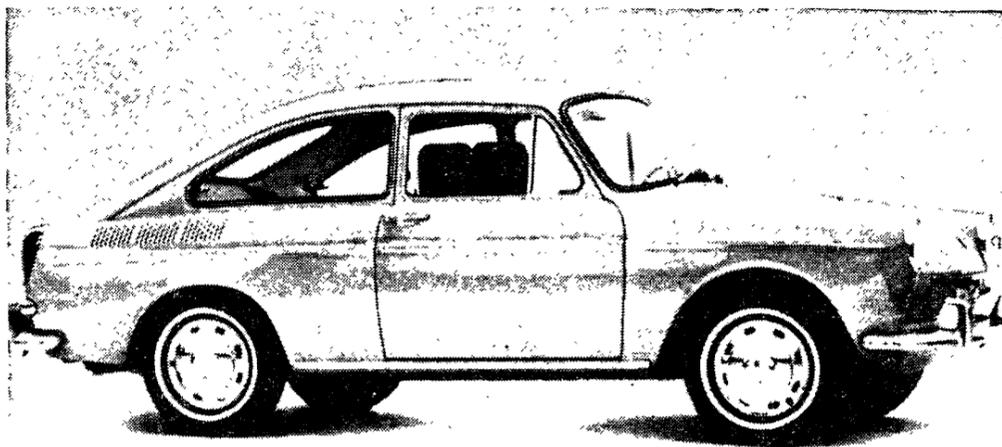

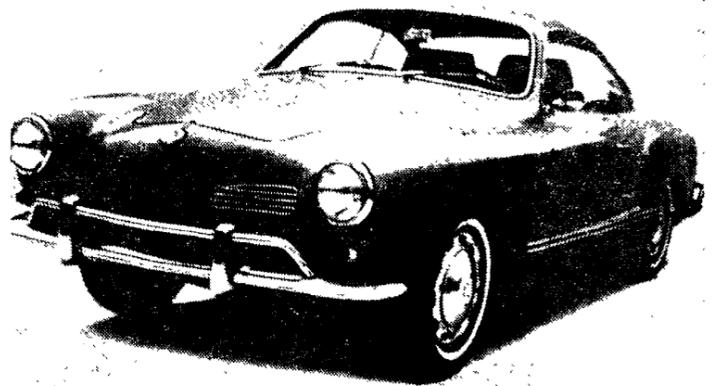

The recipients and their awards were: CPT. Carroll W. Merlick—Bronze Star; CPT Roland D. Brown, MSG William L. Farmer and 1/Lt James R. Black—Army Commendation medal; SSG John W. Lewis—Department of the Army Certificate of Achievement; SP4 Robert J. Davis—Soldier of the Month; SFC James P. Gist—Explosive Ordnance Disposal Certificate; SFC Raymond Pierce (Mess No. 4)—Best Mess award; Donald M. Preisen—outstanding performance award; SP6 William Kirchdofer, Nellie A. Sams Michael L. Reynolds and Myron B. Foster, Sr.—suggestion award.

MILITARY STRENGTH FIGURES for May 1967 show a slight decrease in overall strength. The total numerical strength of the U. S. Armed Forces on May 31 was 3,369,699. This represents a decrease of 844 from the April 30 reporting date. Figures represent full-time military personnel, both regular and reserve on continuous active duty and officer candidates. It also includes cadets at all service academies. (ANFB)

What's New Pussy Cat-t's? The Volkswagen Karmann Ghia, That's What . . .

It Looks Like a Sports Car. It Isn't!

It's got the long, low sculptured lines of a sports car. It's custom-made like a sports car. It's got a 4-speed stick shift, like a sports car. It's even got bucket seats and padded headrests for two, like a sports car. But that's where the sports car ends. And the Volkswagen begins. Because the rest is all Volkswagen. The Ghia doesn't cost \$5,000 like a sports car, it costs only half that. It gets up to 28 m.p.g., 40,000 miles per set of tires. It cruises at 82 m.p.h. After all, it's a Volkswagen.

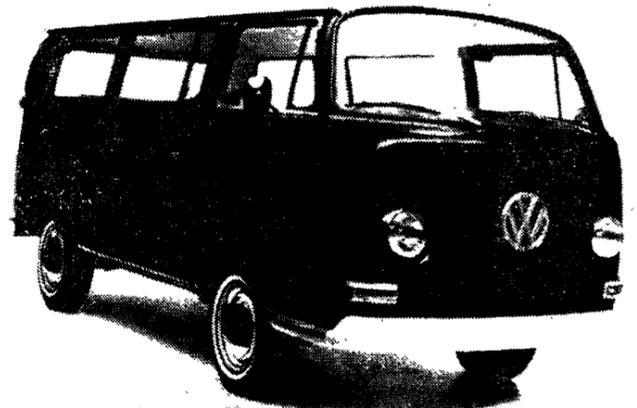

The Volkswagen Fastback

We didn't have the heart to change the outside (after all, it's the most beautiful VW we make). But we added a lot of extras, like extra padding, safety belts for all the passengers, and many others. But, it still gets 27 miles to the gallon of regular gas. It still does 84 m.p.h. So you see, we did but we didn't change the Fast-Back.

The Volkswagen Station Wagon It's All New for 68

The inside is all new fully-lined just like a car. But the room is still there. We added bucket seats up front with an aisle between. We added 57 h.p. air cooled engine (that doesn't need anti-freeze). 23 m.p.g. on regular gas.

If you want a surprise, drive it.

BRIEFING FOR GERMAN VISITOR—Receiving briefing on Lance missile system equipment is the Honorable Lothar Haase, member of the Federal Parliament from the Federal Republic of Germany (front, center). Conducting the briefing is Lt. Col. R. A. Garibay, special assistant to the Lance Project Manager (right). Looking on are (l to r) Col. J. G. Redmon, Hawk Project Manager; Lt. Col. Hans Z. Behrends, German Liaison Officer, AMMCS; and Richard Holleran (rear), escort-interpreter, Department of State. Included in the tour were briefings on the Army's ground to air missiles.

IEEE Panel To Discuss Uses Of Electronics In Medical Practices

The role of electronics in medical diagnosis and treatment will be the subject of a panel of three doctors and four engineers at 6 p.m. tonight during the meeting of the Institute of Electrical and Electronic Engineers at the Redstone Officers Open Mess.

Participants will be Dr. Ellis Sparks and Dr. John Lenton, specialists in internal medicine; Dr. Wallace Frierson, specialist in

environmental health; Bill Johnson, Ken Skinner, John Beal and Charlie Rogers. Dr. Thomas A. Barr will be moderator.

The discussion will cover types of devices which might be designed and produced by local electronics firms and which would be economically and functionally practical for use by individual doctors.

TANI TO RETURN

Tani's Fall Follies will appear at the Service Club Sunday.

The Fall Follies, a musical show, will feature Hula dancers and the modern Go Go Discoteque. Night club novelty acts will be added to the program to give a variety of entertainment.

The hour long show will start at 8:15 p.m. Enlisted men are encouraged to bring guests.

RCA WHIRLPOOL APPLIANCES

ABSOLUTE AUCTION SAT., OCTOBER 14th 10:02 & 48 / 50 A.M.

717 Acre farm belonging to Mr. & Mrs. Lester Jackson, located in the 18th Civil District of Giles County fronting on Fall River Rd. 12 miles S.W. of Pulaski, 8 miles N.E. of Lawrenceburg. Go Hwy. 11 to Anthony Hill, turn right at Anthony Hill on black top road. Follow arrows to Fall River Rd. Sale will be held on premises.

717 Acre Farm will be offered in 5 tracts from 95 acres to 197 acres and as a whole. The highest price will determine sale.

This farm has 2 beautiful water falls that will furnish plenty of water for irrigation. There are approximately 500 acres considered good tractor land, all this land is strong and will grow any kind of row crop. There are several beautiful building sites on each tract. This farm is located in one of the rich farming sections of Giles County with a lot of young timber and some marketable hardwood timber on the tracts now.

TRACT NO. 1—Fronting on Fall River Rd. consisting of 119 acres. Abundance of open land with several beautiful building sites. This is an excellent tract.

TRACT NO. 2—consisting of 155.50 acres adjoining Tract No. 1. Has frontage on county road, and is an excellent tract that will grow anything & has some timber.

TRACT NO. 3—has 197.4 acres with 1125 ft. frontage on Fall River Rd. Has abundance of open land and some timber. There are several good building sites on that tract. This is one of the finest tracts of the entire farm.

TRACT NO. 4—consisting of 151 acres with frontage on county road joining tract No. 5 & The Charles W. Thornton Farm. Has some timber & some open land. Water falls are on this tract.

TRACT NO. 5—consisting of 95 acres, mostly in young & marketable timber. This tract will pay for itself with its timber.

Whether you want 717 acres or small acreage, be sure and attend the auction sale of the Lester Jackson Farm. Buy the tract or tracts you desire.

This is a chance to buy excellent farm land near 2 county seats on good farm to market road. Well-watered by 2 large water falls, springs & creeks.

TERMS: 1/3 cash, balance 1-5 years. Payable annually. Bankable note at 6% interest. Possession with deeds.

Engineers, Scientists Hear Dr. Lange Talk About Nike-X System

ST. PETERSBURG, Fla. — The Chief Scientist of the Army's Nike-X Project described it here Friday night as an evolving missile defense system that will continue to apply new technology.

Dr. Oswald H. Lange told a meeting of aerospace and electronic engineers: "Nike-X will keep its large ears and eyes open to pick up novel technologies. Its task is to use the best of available technology to design and produce the best up-to-date defense system."

Taking what he called a long term and purely speculative look, Dr. Lange forecast innovations he felt might be included in future ballistic missile defense systems.

"One of these," he said, "might be missiles which are equipped as either offensive or long range defensive systems. That is they would be capable of either long range surface to surface or surface to air roles."

He predicted further improvement in the quality of long range sensors, that is the means of detecting with accuracy "enemy missiles at launch and during their ascent." Dr. Lange noted that present defensive systems have "at best 500 seconds" in which to in-

tercept and kill attacking missiles once they are detected by radar.

He said that rapid advances being made in data processing equipment—increased capacity and speed with reduced physical size—are currently outpacing Man's ability to master and make use of the machines.

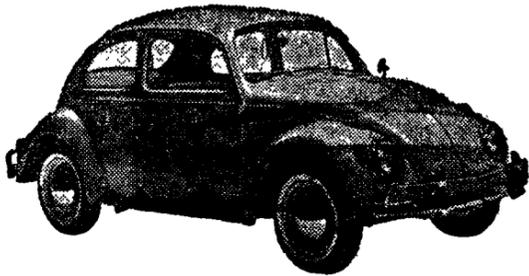

A key member of Brig. Gen. I. O. Drewry's staff in the Nike-X Project Office, Dr. Lange described briefly, the operation of the anti-ballistic defense system ordered into production recently by Secretary of Defense Robert S. McNamara. He said the ABM system to be deployed will use two radars, two missiles and data processing equipment, all of which were developed by the Army in the Nike-X program.

CANADA HOSTS MEET

Canadian Armed Forces hosted the U. S. Military Testing Association meeting, Sept. 26-28, at Toronto. It is the first time the Association has met outside the United States. Canada joined the group in 1959, a year after its formation. The group includes all facets of military personnel testing and evaluation.

Military Academy Seeks More Cadets To Train

HQ, USCONARC—"Upon the west bank of the Hudson... where mountains fold in on the river's broad reach... where Storm King and Breakneck brood... twin guardians of the highlands gate... a remarkable institution stands... WEST POINT." Want to go there? That is the question U. S. Continental Army Command (CONARC) is asking qualified soldiers.

CONARC is presently helping the U. S. Military Academy (USMA) at West Point, N. Y., in its campaign to find men of high leadership qualities who have a sincere interest in attending the Academy. By 1972, the Military Academy will be authorized an enrollment of 4,417. The previous authorization was 2,529.

West Point cadets are prepared for Army officer careers through courses in the arts and sciences which lead to a bachelor of science degree. They are also readied physically, mentally, and militarily through rigorous training. The Corps of Cadets, as students are called, follows in the footsteps of such men as Grant, Lee, Pershing, MacArthur, Eisenhower, and Taylor.

Soldiers interested in attending the USMA should consult both Army Regulation 350-55 and CONARC Regulation 350-55 for requirements. Briefly, a candidate admitted to West Point must be 17-22 years old; a U. S. citizen; a high school graduate; physically sound; single and never have been married, and have a desire for a military career.

A regular Army soldier must attend the U. S. Military Academy Preparatory School (USMAPS), Fort Belvoir, Va., for nine months

before becoming eligible for a nomination to West Point. The first step for the enlisted man is to write a letter through his unit commander to the Commandant of the USMAPS requesting admittance. He should arrange to have transcripts of grades from high schools and any colleges attended sent directly to the USMAPS.

Another method is to apply directly to his Congressman for a Congressional nomination. Even if he receives such a nomination, he must attend the USMAPS. To do this, he must also apply to the Commandant of the USMAPS for admission.

Keep in mind that your unit commander is always ready to discuss West Point opportunities with you.

SAVINGS IDEAS ARE WORTH MONEY!—Two Army Missile Command employees receive official commendations and share a \$205 cash award for a cost savings idea which has been adopted by the Army. Getting awards are Dewey Lancaster, 2nd from left, who works in Missile Intelligence, and Ray Thompson, right, who works in the Mail and Records Division of the Administration Office. Savings to the Army from their suggestion are expected to amount to \$4,100 for the first year. Making the presentations are D. P. Vander Heyden and Julia Morrow.

McBrearty Enjoys Role Of Underdog

Chuck McBrearty will be out to spring his third consecutive upset this week when he takes on Irv Kellogg in the final match of the CWF-sponsored Missile Command tennis tournament.

The No. 6 seeded McBrearty is threatening to turn the A Division upside down and only the match with Kellogg stands between him and the crown.

The B Division final is also for this week with Gordy Lakso pitted against Larry Jones.

McBrearty opened play with a stunning upset of the second seeded Joe Hiatt and continued his giant killing play with a decisive win over the fourth seed, Tom Grubbs.

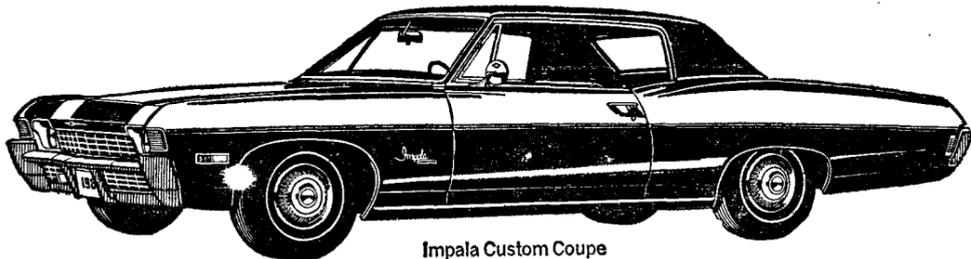

Kellogg started play at the top of the ladder and has turned in wins over George Elrod and Gary Brown.

Lakso earned the final round with wins over Roy Welch and Jerry Pitts while Jones was eliminating Y. C. Whitlock and Hal Peterson.
