REDSTONE ARSENAL, HUNTSVILLE, ALABAMA 35809

NOVEMBER 1, 1967

## BUILDING HONORS TOFTOY

**COMMANDERS VISIT**—Discussing test program relationships Monday at Redstone Arsenal were Maj. Gen. Charles W. Eifler, Commanding General of the Army Missile Command, and Maj. Gen. Leland G. Cagwin, Commanding General of the Army Test and Evaluation Command at Aberdeen Proving Ground, Md. Gen. Cagwin was briefed during his visit on missiles being tested at world-wide facilities of his Command.

### School Sets Ceremony Friday Morning; Invites Public To Dedication

Leaders and veterans of the nation's missile and space programs will gather at the Army Missile and Munitions Center and School Friday morning, to pay sentimental and historic tribute to the man whom all consider to be the "father" of Redstone Arsenal as it exists today.

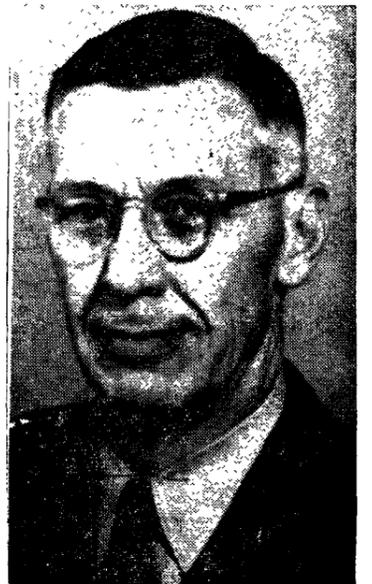

The occasion is the formal dedication of a new \$1,000,000 academic building to the memory of the late Maj. Gen. Holger N. Toftoy. He commanded this huge research and development center during its formative years and was responsible for bringing to the U. S. the team of rocket scientists now headed by Dr. Wernher von Braun.

Col. Paul B. Schuppener, MMCS Commandant, announces the following details of the ceremony to which all Arsenal personnel and the general public are invited.

The event is to begin at 11 a.m. in front of Toftoy Hall—Building 3495—which is located on Patton Road near Post Theater No. 1 inside Gate 10 of the Arsenal. In case of inclement weather, the ceremony will be held in Theater No. 1.

Mrs. Hazel N. Toftoy, widow of the general who died earlier this year, will join with Dr. Wernher von Braun, director of the Marshall Space Flight Center, and Maj. Gen. Charles W. Eifler, commanding general of the Army Missile Command in formally naming the building as Toftoy Hall.

Maj. Gen. Charles N. Toftoy and Mrs. George K. Williams, the son and daughter of Gen. Toftoy, will be special guests for the occasion. They will be joined by Lt. Gen. J. L. Throckmorton, commanding general of the Third U. S. Army at Atlanta. Col. B. J. Tutin, chief of operations for the Office of the Deputy Chief of Staff for Individual Training at the U. S. Con-

MAJ. GEN. HOLGER N. TOFTOY

### NEW HOURS SET FOR GATE NO. 7

In support of visitors to Redstone arriving at the new Carl T. Jones Field, hours of operation at Gate 7 have been changed. Also, a visitor control center has been established at the jetport.

Gate 7 will now serve arsenal traffic from 6 a.m. to 6 p.m. Previously, it was open only at peak traffic hours.

Col. Anders O. Wiklund, Assistant for Operations and Security, DASO, said that the changes are temporary. At the end of six months the usage and visitor load will be evaluated and changes made accordingly.

The visitor control at the jetport will be operated jointly by the Army and Marshall Space Flight Center.

### Combined Fund Campaign Concludes At Command

The United Givers Fund agencies in seventeen Alabama and Tennessee counties, or cities, will share in the generous support that Department of Army personnel gave to the recently concluded Combined Federal Campaign for 1968.

The annual fund-raising drive was officially concluded last week

### Photo Award Granted Here Second Time

For the second consecutive year, the U. S. Army Missile Command has won top awards in the Industrial Management Society's National Management Film Competition.

Of five awards going to Army Materiel Command elements, two came to the Missile Command.

Taking first place in the Management Techniques competition was "The Standardization Concept", a film for the Command's Procurement and Production Directorate. Gilbert Penney served as technical advisor with Howard H. Gates as Project Officer. Daniel Grice of the RCA Services Co. wrote the script.

In the Method Improvement category, a film made by the Missile Command for Anniston Army Depot took third place. Title of the picture is "Pursuit of Excellence". Gates was also Project Officer for the production with the script written by Robert C. Tedder of RCA.

Col. William F. Kaiser, Chief of Staff of the Army Missile Command, will receive trophies for the pictures during the Industrial Management Society banquet to be held in Chicago tomorrow.

(See PHOTO on Page 3)

### Ten Nations Represented At Graduation

Ten national anthems will be played as a feature of graduation ceremonies slated at 8:30 a.m. Friday, at the Army Missile and Munitions Center and School. The event is scheduled one hour earlier than usual to avoid conflict with dedication at 11 a.m. of the new \$1 million academic building, Toftoy Hall.

Among the 114 graduates from nine foreign nations and the United States will be the first students from Australia and Guatemala to ever receive diplomas from MMCS, bringing to 31 the number of foreign nations to send servicemen here. Other countries

(See TEN on Page 3)

**TALES OF THE SOUTH PACIFIC**—Brig. Gen. I. O. Drewry, Nike-X Project Manager, chats in his office with William R. Norwood, High Commissioner, Trust Territory of the Pacific Islands. Norwood visited General Drewry here last week for discussions and briefing on Nike-X testing activities carried on at the Kwajalein Test Site (KTS) in the Marshall Islands. The Marshalls are a portion of the vast Pacific Island territories administered by Norwood who reports to the Secretary of the Interior. Norwood, who had been in Washington, was returning to his headquarters on Saipan. General Drewry had just returned from a periodic visit to KTS, which he commands.

# The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Hartselle, Ala. 35640.

## Safe Investments For Everyone

Back in the old days of Tin Pan Alley, songwriters and lyricists made frequent observations that the happiness of success for which most people were looking was "Just Around The Corner" or "Back In Your Own Backyard."

The same can often be said of investments, those elusive and important things we all seek in order to improve our financial status.

Some investments, although they do make money in varying amounts at one time or another, involve either some risk or the chances of losing it all.

However, there are safe, sound investments requiring a minimum of initial capital, yet which still offer a guaranteed return.

Fortunately, such investments are immediately available to us. They're U. S. Savings Bonds, Freedom Shares and the Uniformed Services Savings Deposit Program—

opportunities familiar to all of us. They are, in fact, so familiar to us that we may be inclined to overlook their value in terms of thrift and sound investment.

That pot of gold "Over The Rainbow" is a nice dream, but the likelihood of getting "Pennies From Heaven" is very remote. The returns from small, sound investments are less spectacular than those offered by many get-rich-quick schemes, but they are certainly more reliable.

The 4.15 per cent interest paid by U. S. Savings Bonds doesn't sound like much until you convert it to dollars and cents. For example, the \$50 Savings Bond you paid \$37.50 for in January 1945 was worth \$74.56 in March 1967. And also remember that it's not only the financial return that is important, but the security of your investment as well.

Freedom Shares work the same way except they pay 4.74 per cent interest in only 4½ years. As for security, they are just as secure as our Nation.

The Uniformed Services Savings Deposit Program is reserved for military personnel serving overseas and pays you back \$10 for every \$100 you invest, a guaranteed return you seldom find in any investment.

Remember, "Wishing Won't Make It So," but safe, sound investment of your money in solid savings programs can, and you don't have to look very far to find them. (AFPS)

# Shillelagh Mass Production Slated By Mid-December

Facilities for the quantity production of the U. S. Army's Shillelagh anti-tank missile, newest in the long list of defense weapons being produced for the Armed Forces by Martin Marietta's Orlando Division, will be ready at Herndon Airport by mid-December, the Corporation has announced.

The move to the facility at Herndon, leased from the city, was dictated by award of a \$5.8 million production contract following an initial award from the Army Missile Command for relatively limited "educational" production of the missile. The combined contracts total nearly \$8 million.

Transfer of the "educational" line at Martin Marietta's main plant here to the airport facility was accomplished over a recent weekend in a unique move effected without interruption of missile production. Employees simply left main plant work stations at the end of shift Friday, reported on Monday morning at the new location, and picked up work where they had left off.

Deliveries of the quantity-produced missiles to the Army will begin early in 1968 following completion of production line expansion.

Missiles produced initially by Martin Marietta here already have been successfully test-fired at White Sands Missile Range, New Mexico.

Shillelagh is standard armament on a modified version of the current main battle tank and on the General Sheridan lightweight armored assault vehicle. It will also be the primary armament system for the main battle tank now under joint development by the United States and the Federal Republic of Germany for use in the 1970's.

The Shillelagh system is type classified as "Standard A" by the Army, which recognizes it as among the most satisfactory and advanced equipment for its mission requirements.

Martin Marietta is a second-source producer of the missile.

The program is managed by the U. S. Army Missile Command, Redstone Arsenal, under Col. Spencer R. Baen, project manager.

## Lieutenant To Present Paper At Winter Meeting

First Lt. Billy Jay Walker, of the U. S. Army Missile Command will present a paper at the National Winter-Annual Meeting and Energy Systems Exposition of the American Society of Mechanical Engineers to be held Nov. 12-17 in Pittsburgh, Pa.

He is assigned to the Advanced Systems Laboratory of the Research and Development Directorate.

Lt. Walker's paper is entitled: "The 'Density Effect' Model: Prediction and Verification of the Flow Oscillation Threshold in a Natural-Circulation Loop."

## Science Fair Set By University at Madison Coliseum

The 14th annual North Alabama Regional Science Fair will be held in the Madison County Coliseum, Mar. 28-30, Philip M. Mason, regional coordinator, has announced.

Students in grades 7-12 in the counties of Madison, Morgan, Marshall, Cullman, Jackson, and Limestone may enter exhibits in the physical or biological sciences, individually or in groups.

Prizes will be awarded in junior and senior divisions to boys and girls for physical and biological science exhibits, for individual and group projects, and for special categories. Grand prize winners will compete in the International Science Fair in Detroit, Michigan.

The fair is sponsored by the HUNTSVILLE TIMES and the DECATUR DAILY in cooperation with the University of Alabama in Huntsville, which acts as host, and other colleges in North Alabama. Held under the auspices of the Alabama Academy of Science, the fair will be given special leadership and guidance by regional industries.

Information brochures have been mailed to junior and senior high schools in the six-county area. Further information may be obtained from the Office of the Regional Coordinator, Alabama Regional Science Fair, P. O. Box 1247, Huntsville, Alabama. 35807.

The annual meeting of the North Alabama Junior Academy of Science will be held at the University of Alabama in Huntsville concurrently with the regional science fair. Information on the Junior Academy meeting is available from Mrs. Ibbie K. Bradford, 852-4416.

### Theatre Schedule

- WED., Nov. 1  
"The Viking Queen" (M)
- THURS.-FRI., Nov. 2-3  
"A Funny Thing Happened on the Way to the Forum" (M)
- SAT., Nov. 4  
"The Wild, Wild Planet" (M-YP)  
Special Matinee, "Fancy Pants" (F)
- SUN.-MON., Nov. 5-6  
"The Big Mouth" (F)
- TUES., Nov. 7  
"Further Perils of Laurel and Hardy" (F)  
Two shows nightly at 6:00 and 8:30 p.m. Saturday matinee at 1:00 p.m. Sunday matinee at 2:00 p.m.

This Christmas, give the gift that keeps on giving — U. S. Savings Bonds.

## REDSTONE BENEFIT ASSOCIATION

### GROUP LIFE INSURANCE FOR CIVILIAN EMPLOYEES

We are pleased to announce that effective December 1, a new Group Family Life Insurance plan covering wives or husbands and children will be available to members of the Redstone Benefit Association. Now, for the first time, an employee can insure the entire family for a low quarterly premium. In adopting this coverage the Army Missile Command becomes one of the very first major Government Agencies to make these benefits available to its employees.

#### Quarterly Premiums Per Employee

Employee Salary	Under \$6,000	\$6,000 to \$12,000	Over \$12,000
Employee	Spouse \$2,000	Spouse \$4,000	Spouse \$6,000
Age	Child 1,000	Child 1,000	Child 1,000
Less than 30	2.80	4.00	5.20
30 — 34	2.80	4.00	5.20
35 — 39	2.90	4.55	6.20
40 — 44	3.50	6.30	8.10
45 — 49	5.00	8.80	12.60
50 — 54	7.00	13.00	19.00
55 — 59	10.00	19.00	28.00
60 — 64	15.00	28.00	41.00
65 and over	20.00	40.00	60.00

## DEDICATION

(Continued From Page 1)

Continental Army Command in Fort Monroe, Va., will represent his headquarters which controls the Missile and Munitions Center and School.

Also attending will be a number of members of the "Fort Bliss Old Timers", an organization of rocket pioneers who were associated with the Army's first missile and rocket development programs shortly after World War II under the supervision of Gen. Toftoy.

Following the ceremony, the Tennessee Valley chapter of the Association of the U. S. Army is co-host with MMCS for a luncheon for the official party at the Officer's Open Mess.

Others wishing to attend the luncheon on a "dutch treat" basis may make reservations by calling the MMCS Protocol Office at 876-7381 by the close of business today.

Gen. Toftoy commanded Redstone Arsenal from 1954 to 1958. Almost a decade earlier, he set in motion a series of historic events that led to the establishment of the Army missile and rocket program which has expanded into the huge activity at Redstone Arsenal where Army missiles are developed and giant rocket boosters are created for use in the space exploration program of the National Aeronautics and Space Administration.

Born in Marseilles, Ill., on Oct. 31, 1902, General Toftoy began his military career as a Reserve Officer trainee at the University of Wisconsin in 1920. During his second year there, he was appointed to the U. S. Military Academy at West Point, N. Y. and was graduated in 1926.

After flight training and service with the Artillery, he began to specialize in the development of several types of new weapons, including submarine mines widely used in World War II.

In 1944, as a Colonel, he became chief of the Army Ordnance Technical Intelligence teams assigned to Europe to seek out and evaluate captured enemy weapons and equipment.

This group was asked to find and report on two of the most spectacular German weapons of the war—the V-1 and V-2 rockets.

Developed by a group of scien-

**AFTER THE STORM**—Violent winds last Tuesday night closed the long career of one of the three air inflated structures used at the Army Missile Display Area. There was no damage to a small theater and historical displays inside which will be moved into

the two remaining domes. Directorate of Arsenal Support Operations will continue to operate the display area on a six day a week schedule. The domes, built almost 10 years ago and in almost constant use since, are all beyond their anticipated lifetime.

tists under the direction of Dr. Wernher von Braun and Gen. Alfred Dornberger at Peenemunde in Germany, these weapons became the object of a dramatic search.

Midway between Frankfurt and Berlin, an underground factory with V-2 parts was located. Then a key assistant to Gen. Toftoy, Col. James P. Hamill, made contact with Dr. von Braun and members of the Peenemunde scientific team who had retreated to the Harz Mountains in advance of the Allied armies.

Knowing that the U. S. Army was planning to add guided missiles to its weapons program, Gen. Toftoy returned to Washington in mid-1945 to recommend that the German scientists be brought to the U. S. for interrogation and possible employment.

By September of 1945, the first group of scientists, including Dr. von Braun, had arrived. Gen. Toftoy was transferred back to Washington and assigned responsibility under the Chief of Ordnance for direction of the Army guided missile program.

By April 1947, some 125 of the scientists had been brought to Fort Bliss, Texas, for work in a special research and development office there.

Thereafter, Redstone Arsenal, Ala., was established as the Army Ordnance Corps commodity center for rockets and guided mis-

siles.

In 1952, Gen. Toftoy himself came to Redstone as director of the Ordnance Missile Laboratories which was responsible for planning, technical control and supervision of what had become the nation-wide Army guided missile and rocket development program.

Within two years, Redstone Arsenal had become recognized as one of the Army's most important technical centers and Toftoy, first as a Brigadier General, then Major General, had laid the foundations of today's huge complex here.

The products of that formative period have become historic: the Nike-Ajax and Nike-Hercules; Hawk; LaCrosse; Honest John; Corporal; Redstone; Sergeant; Pershing; the Nike-Zeus concept; the Jupiter which became operational with the Air Force; and the Jupiter-C which lofted the free world's first satellite; Explorer I; and the Pioneer which orbited the sun.

In the final chapter of his long career, Gen. Toftoy commanded Aberdeen Proving Ground, Md., the traditional "Home of Ordnance". As he departed from Redstone Arsenal, he received the Army's highest peacetime award, the Distinguished Service Medal, for his direction of the Army's missile program. He retired in 1960 and made his home with Mrs. Toftoy in Treasure Island, Fla., near St. Petersburg. He died in

## WINDS DESTROY DISPLAY DOME

Heavy wind gusts last week destroyed one of three large air inflated structures housing the U. S. Army Missile Display Area at Redstone Arsenal.

The dome that was lost measured 100 feet in diameter and 50 feet above the ground at its highest point. The structure was made of vinyl coated nylon fabric and was held erect by internal air pressure supplied by large blowers.

A small theater and historical exhibits of Army missile material were housed within the dome. There was no damage to the exhibits or theater. It is planned to

## TEN

(Continued From Page 1)

be Malaysia, Denmark, Germany, Greece, Italy, Japan and Tunisia.

The guest speaker to address the graduates of six different missile and ammunition training courses offered at MMCS will be Col B. J. Tutin, who is chief of operations for the Office of the Chief of Staff for Individual Training in the U. S. Continental Army Command at Fort Monroe, Va.

Walter Reed Army Medical Center in Washington, D. C. on April 19, 1967, and was buried with full military honors in Arlington National Cemetery.

## PHOTO

(Continued From Page 1)

All films were produced for the Missile Command by the RCA Services Co., headed locally by Wallace F. Bischoff.

## Supplies Cost \$32.5 Million

The \$32.5 million spent by the Army Missile Command during the past month in less than \$1 million contracts went mainly for supplies and repairs to keep the missile programs operating.

More than \$1.5 million was received by Huntsville businesses and by national companies with Huntsville offices.

The greater amount of the money was spent for missile repair parts and equipment \$30.4 million. The remainder covered office and laboratory supplies, food, automotive repairs and general support items.

Contracts for \$1 million or more go for procurement of missile systems and related equipment, and are not included in the \$32.5 million total.

The Missile Command's Procurement and Production Directorate negotiates and executes these contracts and awards.

**Drive Safely**

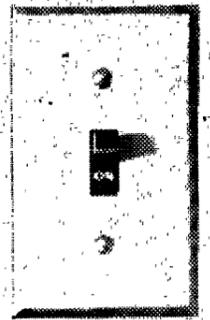

move the exhibits and theater into one of the two remaining domes.

The dome was ripped apart about 9 p.m. Wind gusts in excess of 55 miles an hour were recorded at about the same time.

The Army Missile Display Area was established in the three domes on a site off Patton Rd. 30 months ago. Hundreds of thousands of visitors have viewed the displays and exhibits.

The three air inflated domes were originally part of a five dome structure designed and built about 10 years ago. Portions were used for a time in Italy to provide portable storage space during the operational deployment of the Army-developed Jupiter intermediate range ballistic missile. The structure was returned to Redstone when the Jupiter missiles were withdrawn from Italy several years ago.

OPEN 7 DAYS PER WEEK

# Ballet Will Present Four Performances This Season

A four part program of professional and civic ballet performances, featuring two of the major companies in the world, will be presented in Huntsville this season.

Sponsored by Community Ballet Association, the only Huntsville ballet organization that is a member of the Arts Council Inc., the season will include performances by the Atlanta Civic Ballet, Nov. 18; American Ballet Theatre, Jan. 5; Royal Winnipeg Ballet, Feb. 25 and the Huntsville Civic Ballet on May 18. This is the Fifth Annual Season to be presented by C.B.A.

The Atlanta Civic Ballet is the oldest civic company in our country and will soon become the first professional group in the Southeast. The Royal Winnipeg Ballet of Canada is the only "Royal" company in this hemisphere and was chartered by Her Majesty Queen Elizabeth II. American Ballet Theatre, third attraction on the series, is recognized as one of the world's largest, best ballet companies. With over 100 works in the repertory, the company travels with 70,000 pounds of scenery and costumes plus full orchestra. There is no skimping on tour for this is a traveling company.

Final event will be Huntsville's own promising young company directed by Loyd B. Tygett. The company made a successful debut last year with guest stars from the

Royal Winnipeg Ballet and New York City Ballet.

Season memberships are available now and are on sale at the box office located at the Temporary Civic Arts Center, 311 Clinton Ave., W. For further information please telephone 539-2592 or in the afternoons 539-0961.

## ANTIQUES FAIR SCHEDULED THIS WEEK IN TOWN

Huntsville will hold its third annual Antiques Fair beginning Saturday, November 4 for four big days at the Carriage Inn.

Overflow crowds are again expected by the Grace Club Auxiliary, sponsors of the fund-raising project. Net proceeds will aid the building fund of the Rehabilitation Center for crippled children and adults in Huntsville.

More than 35 dealers from Alabama, Tennessee, Florida, Virginia, Georgia, Oklahoma, North Carolina, Ohio, Mississippi, New York, New Jersey, Connecticut, Missouri and South Carolina will be showing antique jewelry, art glass, furniture, coins, clocks, brass, rugs, decorative accessories, hand-painted china, bric-a-brac, miniatures, paintings, books, prints and porcelains, according to Mrs.

Frank Mickle, chairman.

The Antiques Fair is open to the public. Hours will be: Saturday, 6 to 10 p.m.; Sunday, 1 to 9 p.m.; Monday, 11 a.m. to 9 p.m.; and Tuesday 11 a.m. to 6 p.m. Admission tickets will be available at the door.

For further information contact The Arts Council, Inc., 311 West Clinton Avenue, Huntsville (phone 539-2592).

**CHRISTMAS GIFTS TO 93RD HOSPITAL**—"Operation We Care" will give citizens in the area an opportunity to send personalized gifts and cards to patients and staff of the 93rd Army Evacuation Hospital in Vietnam. Planning the operation of booths are, from left, Mrs. Erma Metcalf, NCO Wives Club, Redstone Arsenal; Mrs. James F. Hayes, President of MARS Women, Marshall Space Flight Center; Mrs. Gladys McNutt, Pilot Club, Huntsville; and Mrs. Stephen Gray, President of Officers Wives Club, Redstone Arsenal. Standing is Mrs. Joseph T. Prendergast who is coordinating the booth operation.

## 'We Care' Program Has Army Wives Supporters

The public will have the chance to support the Community's adopted 93rd Army Evacuation Hospital in Vietnam with a personalized touch to Christmas gifts.

"Thanks to our womens' clubs," said John W. Houtz, Community Chairman for Operation We Care, "booths will be set up in Dunnavants Mall and The Mall and op-

erated by members of the Pilot Club, MARS Womens Club, NCO Wives Club and the Officers Wives Club."

Houtz said that approximately 200 women will operate the booths which will be open during the respective mall hours, November 1 to November 15.

"The women have tackled the immense problem of giving the public the chance to send the needed one thousand gifts to the hospital patients and staff," said Houtz.

"The booths," continued Houtz, "will feature prepackaged gifts which will give the sender no problem of shopping or mailing. It will provide him or her the opportunity of inserting a personalized card in the package. An individual may also select and send his own gift if he wishes. The booths will handle only gifts going to the hospital."

"It is our hope that the Huntsville area citizens will respond overwhelmingly to show our support to these men in uniform who have been adopted by our community," he concluded.

### MISS HENDERSON TO SING

A stage show featuring Miss Judy Henderson and The Quintets will appear at the Service Club on Sunday evening at 8:15 p.m.

Miss Henderson, a versatile singer of popular and folk songs, is from Huntsville and is currently appearing at a local night spot.

Newcomers at Redstone Arsenal are invited to attend the Sunday night shows. There is no admission charge.

**DISTINGUISHED GUEST**—Mrs. R. L. Humphrey of Birmingham (right), former secretary to the State Garden Club Judges Council, and Mrs. A. W. Meagher, president of the Redstone Arsenal Officers Wives Garden Club, discuss materials and treatment of items that can be used for Christmas decorations. More than 150 women, members and guests of the Redstone Arsenal Officers Wives Club, attended the workshop presented by Mrs. Humphrey October 25. Among the items she displayed were birdcages festooned with silver tinsel and fake holly, angels, candles highlighting a manger scene, madonnas with Christmas decorations or simply lighted by tapers held by festive candle holders, wreaths from various materials including nuts, burrs and berries. The items ranged from the informality suitable for a child's room, to the most formally stylized living room.

## NCO Wives Sponsor Costume Ball

The Non-Commissioned Officers Wives Club held their annual costume ball with a dinner dance last week at the NCO Open Mess.

Four prizes for originality were presented to Sgt. John Majikowski, Mrs. Majikowski, Sgt. Horace Jackson, and Mrs. Edwin Gedling. Seventy-four members and their husbands attended.

Honored guests were Sgt. and Mrs. Armond Voudrien. He is the new NCO Open Mess manager. Sgt. Voudrien has just completed a tour of duty in Korea. Prior to that he was the club steward at the Ft. McClellan Officers Open Mess, Mrs. Voudrien was the Service Club director at Ft. McClellan for 11 years.

Hostesses for the costume ball were Mrs. Edward Powell, Mrs. Lillian Tegmeier, Mrs. Edward Spooner, and Mrs. Frank Reid.

**THIRTEEN DOZEN CUPS**—As part of their program to send needed items to the 24th Evacuation Hospital in Vietnam, four members of the Redstone Non-Commissioned Officers Wives Club pack 13 dozen plastic cups and a few plastic glasses for shipment. Left to right are Mrs. Earl Brennan, Mrs. Charles Dye, Mrs. Robert Burke, and Mrs. William Clark. The Club previously sent electric razors to the Hospital.

**MONEY, MUSIC, MORALE**—Patients of the 93rd Evacuation Army Hospital in Vietnam are \$250 closer to having piped-in music. At left, J. Burl Galloway, president of the Huntsville Chapter of the Association of the U. S. Army, presents the check to John W. Houtz, Community Chairman of Operation We Care. The music distribution system was an item specifically requested by the hospital for the morale benefit of its patients who are flown in from the battle field by helicopter 'dustoff' crews. Organizations and individuals are invited by Operation We Care to contribute toward raising a total of \$750 for purchase of the music distribution system.

## Military Wives, 55th Army Band Help Community With Operation We Care

The 55th Army Band, Redstone Arsenal will give a public concert at the Operation We Care booth Friday.

Operation We Care is sponsoring booths, at which persons may send Christmas gifts to patients and staff of the 93rd Evacuation Army Hospital in Vietnam. The Hospital was adopted by citizens of Huntsville and Madison County.

The band's program, to be played in The Mall, will include band, light classic, popular and dixieland music. It will be under the direction of CWO DeWitt H. Mytinger, Bandmaster.

Special features of the concert will be a medley of Glen Miller tunes and a trombone trio and trumpet trio featuring a medley of Latin rhythms.

The 30 piece 55th Army Band was activated at Redstone Arsenal by CWO Mytinger in 1958, when it was transferred from Camp

Polk. He directed the band until 1963 when he transferred to Frankfurt, Germany. He returned this year to again direct the Band.

The 55th, like other Army bands, is a unique military unit to enter. Interested enlistees who are musicians can audition for the 55th Army band and be assigned to it if they pass audition tests.

The Operation We Care booths at both Dunnivant Mall and The Mall are staffed with members of the Huntsville Pilot Club, MARS Womens Club, NCO Wives Club and the Officers Wives Club. Some 200 volunteers will work at the booths during shopping hours until Nov. 15. They hope to assist the public in sending approximately one thousand Christmas gifts to patients and staff of the 93rd Evacuation Hospital. The booths feature a pre-packaged series of gifts to make the sending more convenient.

## Three Named To New Jobs

Col. John L. Keown, Commanding Officer of the School Troop Command, Missile and Munitions Center and School, has announced three changes in the STC command line.

ILT H. R. Levy has become Assistant S3 at the STC headquarters, being replaced as the commanding officer of 3rd Enlisted Training Company by Capt. David J. Murray. Murray moves over from the same post at 9th ETC, where 2LT William W. Van Wagner is the new C. O.

Levy, a native of Louisville, Ky., and 1966 graduate of Washington and Lee University, came to Redstone Arsenal following training at Aberdeen Proving Grounds, Md.

His successor, Murray, is from

Fort Worth, Tex., and attended Arlington State College in his home state. He has seen duty in Vietnam recently and was with the first infantry battalion to deploy to the Dominican Republic during a crisis there in 1965.

Van Wagner has served as project officer of the 227th Ordnance Detachment, executive officer of 2nd Battalion in STC, and executive officer of the 9th ETC before becoming its C. O. He is from Atwater, Calif., and entered the Army last March after graduating from the University of California at Santa Barbara in 1966.

All three officers were commissioned in ROTC training.

### CUPS SENT TO HOSPITAL

Members of the Redstone Non-Commissioned Officers Wives Club packed and shipped 156 plastic cups to the 24th Evacuation Hospital in Vietnam last week as part of their "Project Smooth Shave" program.

The program started in May when the Club learned of needs at the hospital. They first sent 11 electric razors, and have received a letter of appreciation from the chief wardmaster. The hospital has been using paper cups which don't hold up very well through repeated use.

The Club is funding the program through donations of money and articles.

# Raiders Withstand MICOM Rally For 16-14 Win

## Marauders Suffer Initial Loss On Missed Conversion

A pair of two-point conversions spelled the difference last Friday as the First Battalion Raiders brought the four-game winning string of the MICOM Marauders to an end in a Redstone Arsenal league game.

The Raiders scored the first time they got hold of the ball in the game and duplicated following the intermission and added a two-pointer after each for their win. The Marauders came back with a pair of second half touchdowns but missed the extra point try after the first.

The fans had no sooner taken their seats than Dennis Lomas broke off the right side of his line, cut to the sideline, and outraced the Marauder defenders on a 54-yard jaunt into the end zone.

Lomas also picked up the points for the conversion by taking a pass from Bill Cox out of the hands of a MICOM line backer.

The two teams settled down to a defensive struggle through the remainder of the half with neither being able to mount an offensive thrust.

The Raiders got moving after taking the second half kick off and drove steadily down field. Cox climaxed the drive when he connected with Lenny Davidson from the 20 yard line Davidson had cut to the side and broke back

across the center taking the perfectly thrown aerial as he crossed the goal.

The eventual winning points were carried into the end zone by Lomas on the business end of a double reverse.

The Marauder attack, stymied for almost three periods, started to click late in the third quarter with the Raider defenders falling back grudgingly. MICOM moved steadily from their own 18 to a first down on the Raider eight. Three plays were only able to get to the six but on fourth down, Jerry Griggs rolled out to his left and, keeping the ball, fought his way into the end zone, to cut the score to 16-6.

On the conversion attempt Wild Bill Wiggins broke through the Marauder blockers to spill the ball carrier as he was attempting to circle end.

The Marauders came right back with another drive from their own 23 midway in the final quarter. They marched to the 20 from where Griggs hit his fullback, Gary Crouse on a down and out pattern for the score.

This time Brad Jolley was handed the ball on the conversion attempt and he dove over guard for the two points.

Still not through the Marauders gave it one final try. Krouse and Jolley took turns at lugging the leather in a drive that carried to the Raiders 18, as time was running out. With five seconds showing on the clock, Griggs attempted a field goal from the 25, but the kick was off to the left.

The plucky Raider defense that consistently threw back the high scoring Marauder attack was led by Wiggins, Billy Wynnef, John Spencer and Joe Hackel. Lomas, Jess Hawthorne and John Watts were the secondary stars.

Bob Harvartape powered the MICOM defense assisted by Don Farber and John Duffy. Brent Miller and Doris Chatman were the heroes in the deep positions.

## MICOM Gals Win Second In League

The Missile Command has laid claim to the women's basketball championship of Redstone Arsenal following a come-from-behind 49-45 win over the MARS entry in a Huntsville Industrial league game last week.

It was the second win in two starts for the MICOM sextet and set the stage for first place duel with IBM this week. The only two unbeaten teams left in the seven team league met on Monday evening at the Joe Bradley gym.

After trailing for three quarters of their game with MARS, the MICOM gals, led by Yvonne Marks and Gladys Hill, put on a stirring rally that turned defeat into victory.

Yvonne tossed in five straight shots from the field during the last period and Gladys made good on two of three attempts while the MICOM defense was limiting the Space Cadettes to a pair of goals and a free throw in the final period.

A large share of the credit for the win, according to Coach Sid Douglas, belongs to Pat Jones for the great defensive job she turned in on Gail Buckbee, the leading MARS point maker.

The Marshall sharpshooter had tallied 26 points in her first league game but was limited to 12 this time by Pat.

Yvonne tallied 31 points to lead both teams in scoring and Gladys added 12 more to the MICOM attack. Wynell Newton hit for five and Linda Jones completed the scoring with a free throw. Rosemary Cabosie topped MARS with 17.

**TOP LINKSMAN**—This sextet of Supply and Maintenance Directorate employees are shown as they gathered recently at the Directorate office to accept their awards for the annual S and M golf tournament. Eighty-one contestants competed in the handicap meet held at the Colonial Country Club for the first time this year. Ken Beam (front right) earned the right to have his name inscribed on the permanent trophy by firing a 66 handicapped score over the 18-hole route. On the other side of the giant Directorate trophy is Aubie Latham, the tournay medalist. Flight winners shown in the rear are, Walt Churchill, Warren Shelton, Bill Clemons and Gary Phillips.

## Voyagers Share Lead In AMC

The Rejectors and the Voyagers turned out to be a parlay in the AMC Bowling league last week when they got together to force a reshuffling of the league standings.

The Rejectors were the real culprits when they handed the erstwhile leading All-Sports quintet a clean sweep setback. The Voyagers took full advantage of the opportunity by winning three from the Travelers to grab a share of the lead.

The Bombers had a chance to make it a three-team deadlock but were only able to split with the Tigers and settled for a third place tie with the Rejectors, a single point away from the top.

In other matches the Avengers made it four-for-four at the expense of the T-Birds, the Winners won three from the Raiders, the Alley Cats did the same to the Lancers and the Packers took three out of four from the Stars.

Oliver Patrick captured individual honors for the week by wheeling a lusty 592 count, including a pair of better than 200 games, in pacing the Avengers to their sweep.

Jim Galbreath put together the best game, a 225, and totaled 639 for the Voyagers who also got a 525 from George Huffman.

Walt Heflin signalled a return

## Cage Clinic Set For Service Club

The first call has gone out from the Special Services Office for the coming basketball season. The call is for attendance at the annual Officials Clinic to be staged at

to his normal stride with a 542 effort for the Bombers and Dick Burke turned loose a 537 count for the Packers.

the Service Club next Monday, Tuesday and Wednesday.

Sgts. Bill Heizer and Irv Lyles recently returned from the Third Army Clinic and will be in charge of the sessions. They report that there are a number of rule changes for this season and are looking forward to a large turnout.

All officials and coaches are expected to attend and players are encouraged to join in the sessions which will start at six each evening.

# Supply Keglers On Record Binge

Strikes were delivered in wholesale lots by Supply Management League bowlers last week and they added up to the most productive session of maple mauling in league history.

No less than four Honor Roll counts went into Tom Lindsay's league records as well over half of the 50 bowlers that went to the post ended with 500 or more pins to their credit.

Their totals were put together out of an accumulative per game average of 173 and included 27 games of over 200.

The secretary had a big hand in the ten pin spilling himself, al-

though the other half of the "Big Orange" duo from Fayetteville, D. B. Smith, grabbed off most of the honors. Smith ended a 645 set with a rousing 247. Lindsay shot a 246 midway through a 644 series total.

Lee Hollenback shot a 621 and Bob Oliver turned in a 605 to complete the Honor Roll additions of the week. Buck Roberson and Fred Stewart missed the elite company by the smallest of margins and Ken Bell ended with a 591 reading.

On the team front the Pin Busters went over 1000 in each game on the way to a 3107 Handicap

total and a clean sweep win over the Bell-led Ramblers. Charley McCleery topped the Pin Busters with 579, Ernie Danes hit for 566 and Howard Lee turned in 543.

The sweep boosted the Busters into a share of the lead with the Huntsville brick and Tile five, winners of three out of four from Lily Flagg Auto Clinic.

Smith and Lindsay got a lot of help from Billy Tippins with a 578 in the HUBCO attack while Hollenback fired the Lily Flagg cause aided by Tom Patterson with 544.

Roberson and Stewart were pitted against one another with the former setting the pace for a Bushwacker sweep at the expense of the All-Sports. Bob Larkin tossed a 243 opener and ended with 555 for the winners and Jim Marquis pitched a 569 for the Trophy makers.

Oliver turned in his heroics in support of the Strike Outs 3 to 1 win over the Auto Center. Hansel Fooshe aided the cause with a 236 game and a 580 total.

The final match ended in a 3 to 1 win for the Shoot 'n Scoots over Building Supply. Roy Parmalee was the top shooter with 553, Art Plautez accounted for 546 sticks and Gene Totri had a 544 accounting.

## Grid Season Ends For Arsenal Youths

The Redstone Arsenal little league football season will draw to a close on Saturday when players, coaches, cheerleaders and parents get together at the NCO Open Mess at noon for the annual awards banquet.

Lt. Col. Robert T. Ash, chairman of the Joint Activities Committee, will handle the presentations including an award to the most valuable player on each of the three teams.

The teams completed their season's play last week with the 110-pound Mustangs closing out on a winning note with a 28-6 whipping of the Northern League.

The 80-pound Hawks tied the Southern League, 7-7, in their finale while the 95-pound Rams were on the short end of a 33-12 score also with the Southern.

Steve Joslyn ran for a pair of touchdowns and passed 30 yards to Zack Golden for another in the Mustangs win. Mike Clardy scored the other after sweeping end and racing 75 yards.

Larry Joe Silence broke off tackle and outran the secondary on a 20 yard scamper for the Hawks score and Robin Ramirez posted the tying point with a successful conversion.

## Williams Sets F&A Pace By Two Pins

The Spoilers maintained their lead in the Finance and Accounting Center's mixed bowling league last week at three and a half points by taking a 3 to 1 win from the Gutter Dusters.

The runner up M Squad quartet had the same winning margin over the Counterfeiters and the Six Packs were held to an even split by the Misfits.

Julian Williams of the M Squad and Bill Owens, pace setter for the Misfits, staged a personal duel for individual honors for the evening. Williams out-distanced Owens, 556 to 554, for the series lead although the latter rolled the best game, 210 to 203.

Anna Cox was the top scorer among the women bowlers with a 178 game and a 443 series count. Her efforts set the pace for the Spoilers in holding onto the lead over the M Squad.

## Spares Continue Dash To Crown

There appears to be no way of stopping the Spares in what is beginning to look like a headlong dash for the championship of the Comp Center Mixed bowling league.

The Strike Outs put in their last week but when it was all over the Spares had their fifth sweep in eight weeks of league play and a full eight point lead over the runner up Lucky Strikes.

The Strikes were only able to take a single point from the defending champion All-Sports. The Bad Gnus took a sweep from the Skunks, Huntsville Realty won three from the Fortren Fours and Courts & Co. took a trio from the Hawks.

Bobby Beal and Carol Key handled the honors for the leaders with 527 and 519 respectively. Carole included games of 179 and 180 in her string as she shot the highest female total of the league season.

Bobby Todd strung together a 239 game in pacing the All-Sports with 517 and Roy Roberts accounted for a 210 game for the Realtors.

Norma Street followed Carole among the women with a 491 for the Bad Gnus and Ginny Hiatt had a 456 for the Lucky Strikes.

## Legislators Give Hunter-Angler Serviceman Break

Recent legislation now makes it possible for servicemen on active military duty stationed in Alabama to hunt and fish during the regular seasons in the State of Alabama without purchasing a state hunting or fishing license.

Those planning to hunt waterfowl however are reminded that they must have in their possession the Federal Migratory Bird Stamp (Duck Stamp) which can be purchased at any post office.

Active duty servicemen planning to hunt on state management areas must also have in their possession the required permit which can be obtained without charge from issuing points in each county.

IT'S NEVER OVER TILL the last pin falls, is the advice D. B. Smith has for his buddy, Tom Lindsay, following last week's session of the Supply Management League. Tom had his mineralite working almost to perfection with a 246 in the middle game of their set and finished with a 644 total. But D. B. was not to be denied and polished off a 247 in the final game of a 645 set. The two Fayetteville Flashes are team mates on the powerful Huntsville Brick and Tile quintet. Lindsay was bowler of the year among Redstone civilians in 1966 and Smith took the honor last spring.

Take that HAND-OFF and go to your

# Doctors Of Philosophy Work In Laboratories

An academic atmosphere with wide latitude for research. Sound like an advertisement for one of the big ivy-covered institutions?

No, this is really a composite description of the U. S. Army Missile Command given by three Army officers who hold Doctor of Philosophy degrees in chemistry.

The three are performing basic research in the Command's Research and Development Directorate. Each believes that his job allows him to contribute significantly to the Army's mission as well as benefiting himself professionally.

Capt. William N. Knopka, who began his assignment at Redstone Arsenal in March, 1966, says "I consider my work here as equivalent to post-doctorate study. The work environment is probably more academic than in some universities and we are allowed to conduct research within broad areas."

1st Lt. Leonard J. Kuzma has been at Redstone only a few months but has definite ideas about his assignment: "I think it's a good idea for the Army to assign a man to do the work he's best qualified to do. I feel I can contribute more to my job and also advance myself professionally."

1st Lt. Frederick A. Hartman, who began work at the Missile Command just the past August, plans to continue research in inorganic chemistry which he began in graduate school.

The three are working in the Optical Spectroscopy Branch of the Physical Sciences Laboratory.

Capt. Knopka, a native of Buffalo, N.Y., earned his BS degree in chemistry from Canisius College and his MS and PhD degrees in June 1965 from Seton Hall University where he was a research fellow.

A native of Youngstown, Ohio, Lt. Kuzma earned his BS degree

from Youngstown State University and was awarded his PhD in May 1967 from University of Notre Dame where he was a research assistant.

Lt. Hartman is also an Ohioan—from Cincinnati. After completing his BS degree at the University of Cincinnati, he went on to Ohio State University where he earned his doctorate in February 1966.

The basic knowledge of the three chemists is often pooled when they act as consultants in other research areas. For example, other scientists and engineers performing laser research consult with them informally to obtain an interdisciplinary approach to the problem of laser development.

According to Dr. James A. Merritt, chief of the Optical Spectroscopy Branch, he has had the service of eight or nine uniformed PhD's over the past few years. All have significantly contributed to the branch's mission. The synthesis program on which the three officer team is now working would be impossible without the services of capable officer-scientists, he said.

DOCTORS AT WORK—1st Lt. Frederick A. Hartman (left) weighs out a sample in a "dry box," used when experiments must be conducted in a dry atmosphere, while 1st Lt. Leonard J. Kuzma (right) makes adjustment to a vapor fractometer, used to analyze the purity of gas samples. Looking on is Capt. William N. Knopka. All are research chemists in the Missile Command's Research and Development Directorate, and each holds a Ph.D in chemistry.

# Twelve Physical Scientists To Attend Meeting Nov. 2-4

Twelve U. S. Army Missile Command scientists will attend the Southeastern Section Meeting of the American Physical Society to be held Nov. 2-4 at Clemson University, S. C.

The scientists, all of the Research and Development Directorate's Physical Sciences Laboratory, will present papers and learn of recent developments elsewhere in the fields of solid state, plasma and nuclear physics research.

Dr. Thomas G. Roberts will serve as chairman of the Plasma Physics Section at the meeting.

Dr. Arthur H. Werkheiser will present two papers: "Impulsive Heating, I, Theory," and "Impul-

sive Heating, II, Experimental."

Ten other Missile Command scientists will present papers as follows:

Romas A. Shatas (solid state), "Effective Potentials of Aggregate Defect Centers."

Dr. Horst R. Wittmann, "Shape of Donor Band Tails in Heavily Doped Compensated GaAs."

Dr. Howard J. Foster, "Electron Wave Functions and Band Gap Parameters in bcc Crystals."

Dr. Charles M. Bowden, "Spin-Lattice Coefficients for Substitutional Gd<sup>3+</sup> in CaF<sub>2</sub>."

George A. Tanton, "Color Centers in CaF<sub>2</sub>, SrF<sub>2</sub>, and BaF<sub>2</sub>."

Perry F. McDonald, "Frequency

Dependence of UPR Absorption in CaF<sub>2</sub>:U<sup>4+</sup>."

Dr. Richard L. Hartman, "Recent Innovations in EPR Spectroscopy."

Dr. Thomas G. Roberts, "The Propagation of Intense Pulsed Beams at Relativistic Energies in Plasma Columns."

Charles M. Cason, "Chopper Wheel Co.-N.-He Lasers."

Dr. Thomas G. Miller, "Response of Deuterated Benzene Scintillators to neutrons and Gamma Rays."

## TWO MEN COMMENDED

Two warrant officers were presented Army Commendation Medals by the Army Missile Command's Commanding General Friday.

Receiving the medals from Maj. Gen. Charles W. Eifler were: CWO John P. Caulkins and WO Paul Massey, Sr.

Caulkins award was made on the basis of his efforts in coordi-

nating and solving supply and maintenance problems for the Hawk Project Office.

WO Massey earned his medal for meritorious service in Vietnam in support of allied counterinsurgency operations.

# Drive Safely

**BEST MESS**—SSGT Arthur W. Bowman accepts the October Best Mess Award on behalf of Mess No. 4 in the Army Missile and Munitions Center and School. With 11 cooks serving 1400 personnel daily, Mess No. 4 has now won the award twice consecutively.

# ...to the Gate...

## United gets you more places with more jets.

Want to get home fast? Fly United, the airline with the big lift. United serves more U.S. cities than anyone else; serves them with the world's largest fleet, including more than 200 jets. You can fly on them (stand-by) for 1/2 regular Coach fare; you sit anywhere the seats are—even First Class when the other seats are filled.

Or we'll reserve a Coach seat for you at 2/3 regular fare. Just call United or go to your nearest ticket counter.

These special fares are for men and women in United States uniform on active duty status, with DD Form 1580. Fares also apply within seven days of discharge.

Fly with the one that gives you the most chances to get home fast: United.

For information and tickets, visit or call your JAMTO office located at Bldg. 3684, Neal Road, Tele. No. 876-5851.

# ASK

Ask how much your loan will cost and HFC will tell you—before you borrow

Before you make a purchase, you naturally want to know the price. The same should be true when you borrow money. When you come to Household Finance, HFC will tell you in advance what your loan will cost. The HFC Manager will answer any questions you have to make sure you understand everything about your loan.

Remember, no matter what your need, wherever you're stationed, there's an HFC office nearby, where you can get prompt understanding money help.

Every year, thousands of servicemen borrow confidently from Household, because they like doing business with people who know their business. If you need a loan, see HFC. You're always welcome.

# McDaniel Foretells Future Army Missile Systems

A look into possible future Army missile weapon programs was given to the Southeastern Regional Conference of the Society of American Military Engineers Friday by John L. McDaniel, Technical Director of the U. S. Army Missile Command's Research and Development Directorate.

Tying in his presentation with artist's concepts of future systems, McDaniel discussed use of lasers as illuminators and seekers to provide out-of-line-of sight observation and fire on targets.

Army interest in multiple artillery rocket systems was indicated in a variety of slides showing how such systems could be employed. He showed one eight-sequence picture of an Army Missile Command-developed multiple rocket launcher tested the past summer at White Sands Missile Range, N. M.

Such systems "... show the capability to deliver tremendous quantities of munitions through its multi-launch capability. . .", he pointed out.

Use of small helicopter multiple rocket systems in Vietnam is the possible forerunner of advanced systems, such as the new Advanced Aerial Fire Support System, McDaniel said.

Development of multiple rockets parallels the Army's interest in multipurpose weapon systems.

Under long range study is the possibility of combining direct fire and indirect fire capabilities in a single vehicle and multipurpose role. To carry weapon development even further, McDaniel pointed to the use of multipurpose sensors for engagement of airborne as well as surface-to-surface targets.

The meeting attracted a large attendance which was addressed by Lt. Gen William F. Cassidy, Army Chief of Engineers and Brig. Gen. I. O. Drewry, Nike-X Project Manager, among others.

## Twenty-Five Men Receive Stripes

The promotion of 25 enlisted men at the Missile Munitions Center and School is announced by Col. Paul B. Schuppener, commandant.

To be Sergeant First Class from Co. A, School Troop Command: Walter W. Howland and James T. Doland; from Co B, Marvin A. Walker.

To be Staff Sergeant from Hq. Co., Unit Training Command: William R. Boulineau; Co A, STC: Reihard W. Weinmann, Alexander S. Ader, Jr., and John H. Watts, Jr.; Co C, Raymond R. Hunt,

Herbert F. Bates, William B. Jourgensen, Ralph C. Harris, Fred R. Hausknecht, Alton T. Neel, Theodore A. Keys, Paul R. Nava, Lawrence E. Fanning and David L. Kelley.

To be Specialists Five from the 522nd Ordnance Company: James R. Kidd; Co A, STC, Michael Shannon, George A. Goehrig; Co B, STC, Walter M. Sincek; Co C, Mark L. Erhart, Kenneth L. Manning, Kenneth B. Robinson and Robert L. Tanner; Co D, James P. Halpin.

**BRIEFING**—Col. Peter A. Lowe, from the General Staff Office of the British Army in Washington, D.C., examines a Redeye missile dummy with Wayne Shaul of the Redeye Project Office. Shaul was among the missilemen briefing the Colonel during his two-day visit last week. Lt. Col. C. M. Locke, the British Liaison Officer to the Army Missile Command, was Col. Lowe's host during the visit.

Thanksgiving can be more meaningful — if you have a nest egg of U. S. Savings Bonds and Freedom Shares.

**RECEIVES MEDAL**—Maj. Leland C. Collins is pinned with the Bronze Star Medal by Col. Paul B. Shuppener, Commandant of the Army Missile and Munitions Center and School at Redstone Arsenal. Collins, the new director of the Television Department at MMCS, was cited for meritorious services performed as an assistant director of the Southeast Asia Pictorial Agency and Deputy Information Officer for II Field Forces in Vietnam. He returned in September from a one-year tour there.

## Holmes Attends Conference

Frank H. Holmes, Incentive Awards Chairman at the Missile Command attended a national convention in Chicago, where delegates sought the answer to: How to stimulate U. S. workers to think up new ideas that will lower the cost of doing things in industry and government, thereby benefiting American consumers, stockholders and taxpayers.

Holmes was one of more than 700 delegates to the 25th annual convention of the National Association of Suggestion Systems, held at Chicago's Edgewater Beach Hotel.

Theme of the convention: "Today's Suggestor Investment In Tomorrow."

7 ROOM AND BATH COLONIAL HOME 128 ACRE FARM, LIVESTOCK, FARM EQUIPMENT AND HOUSEHOLD FURNISHINGS BELONGING TO MR. S. D. MORRIS AND MR. & MRS. M. H. MORRIS. LOCATED 12 MILES SOUTH OF PULASKI, TENNESSEE, ONE MILE OFF HIGHWAY 31. FROM PULASKI GO HWY. 31, SOUTH, CROSS ELK RIVER BRIDGE, TURN SECOND ROAD TO LEFT, GO ONE MILE TO FARM. FOLLOW ARROWS. FROM HUNTSVILLE, ALABAMA, AND PLACES SOUTH GO HWY. 31 TO SHADY LAWN GRILL, TURN FIRST ROAD TO LEFT, GO ONE MILE TO FARM.

**THE FARM**  
This 128 acre farm, better known as the Nathan Merrill farm, has 105 acres of cropland, 6 acre cotton base, and 13 acre corn base. The farm has a mile to mile and one-half frontage on Cash Point Road. This is an ideal location, only 30 miles from Huntsville, Alabama. Most of the farm is sown in permanent pasture, with about 20 acres in woodland. Plenty of water furnished by springs, a branch running through the entire farm, a branch on the east boundary and an everlasting well. The farm is well fenced and cross fenced. It is located in one of the rich farming sections of Giles County on school bus, milk and mail routes, a short distance from the new \$250,000 Welcoming Station on I-65. Practically all the farm is level to rolling land and is one of the finer farms we have sold in 1967.

The beautiful colonial home consists of 7 rooms and bath, large front porch, screened in back porch. There is one bedroom, living room, dining room, kitchen and bath downstairs, 3 bedrooms upstairs. Has 3 fireplaces that can be used. This is as modern a home as you will find in the city. The lawn is well sodded with blue grass and has plenty of permanent shade. There is also a young orchard and a grape vineyard. Outbuildings consist of two large barns, two tenant houses, smoke house, large feeder barn with Grade B Dairy and another feeder barn; all excellent outbuildings.

**Years of Work Put Into This Land. You Can Benefit**  
This is the kind of farmland that is becoming increasingly hard to find. It has been cleared, money and labor have been poured into it to make it what it is today. With land everywhere increasing in value, and the demand for all sorts of farm products moving upward, this property is almost certain to be worth much more in the future. Buy now—enjoy the security of ownership—reap the profits from a productive farm—resell later at a profit.  
If you are in the market for a farm that is a farmer's farm and a well located farm be sure to attend the auction on November 4. Mr. Morris is going to sell this farm for the high dollar. Your bid will be our bid.

**FREE! FREE! FREE! A Transistor Radio To Some Lucky Person At The Sale. Nothing To Buy.**

# Weapons Advances Do Not Make Man Less Important

Though there are some 3,000,000 persons serving in the U. S. armed forces and their weapons and equipment are rapidly becoming automatic, the role of the individual military man is more important than ever.

This statement was made to graduates of the Army Missile and Munitions Center and School at Redstone Arsenal Friday by Col. Rex H. Hampton of the Army Command and General Staff College, Fort Leavenworth, Kans.

Col. Hampton, who was recently nominated for promotion to Brigadier General, spoke to 90 students from Germany, Japan and the U. S. who received diplomas at a ceremony in the Post Theater.

Col. Hampton, a senior faculty member at the high-level Command and Staff College, gave the

graduates specific examples of how individual soldiers have responded to emergencies in the maintenance and handling of nuclear and conventional weapons. He recently commanded artillery missile battalions in Europe which kept the powerful Pershing ballistic missiles on constant alert.

Individual initiative is still the essential ingredient of this technological society, he declared.

Walter F. Eigenbrod, a director of the Tennessee Valley chapter of the Association of the U. S. Army, awarded outstanding student plaques to four graduates who averaged 96 or better in their studies. They were: Pfc. Richard D. Kirkpatrick of Elwood City, Pa., with 97.1 in Nike test equipment; Pvt. Dwight L. Coffman of Austin, Minn., and Pvt. Stephen C. Klinkert of Clinton, Ill., both with 97.4

**DECORATED FOR VALOR**—With wife Carolyn Jo looking on, Capt. Avery T. Salter, Jr., is decorated with the Bronze Star for Valor by Col. John R. Henderson, Assistant Commandant of the Missile and Munitions Center and School, Redstone Arsenal. Salter received the citation for duties performed as commanding officer of the 85th Explosive Ordnance Disposal Detachment in South Vietnam. His unit came under hostile fire last February while removing and destroying ordnance near an infantry landing zone. Salter received his commission in 1965 from the Officer Candidate School at Fort Benning, Ga., and is currently assigned to the ED Division of Unit Training Command, MMCS.

and Pvt. Jeffrey L. Stone of Madison, Wisc., with 96.8, all in the ammunition records course.

Cited as honor graduates were: German Air Force Sgt. Wilfried Huedepohl of Mechernich, Germany, with a 94.3 average in Hawk missile and launcher; Pfc. James Birdsall of West Palm Beach, Fla.,

92.3 in Pershing missile inertial guidance and control; Pfc. Michael Rea of Buffalo, N. Y., 94.0 in Pershing missile digital computer; Pfc. Michael Graham of Pamoona, Calif., 90.2 in combat missile systems; and Pvt. Ernest Ikerd, Jr., of Clarksdale, Miss., 94.9 in ammunition storage.

## CONTRACT FOR CONSOLE KITS FOR NIKE HERCULES SIGNED

The U. S. Army Missile Command has awarded a \$1.3 million contract to Western Electric Company for production of console kits for the Nike Hercules Missile System.  
Work will be performed at Western Electric's plant at Burlington, N. C.

Now deployed around key areas in both the United States and overseas, Nike Hercules has proven successful in tests against high performance aircraft at a variety of altitudes and has successfully intercepted short range ballistic missiles.

The Hercules system is managed by the U. S. Army Missile Command, under Col. Morris W. Pettit, project manager.  
Negotiating the contract for the Army was the Missile Command's Procurement and Production Directorate.

**THIS IS VIETNAM**—Raymond Whalen (left) and Carmon Gill look over informational data about Vietnam as they prepare to leave for voluntary tours of duty with Army Materiel Command units assigned to Vietnamese installations. The two Supply and Maintenance Directorate employees left Redstone last week along with Herbert Cleveland, of the Hawk Project Office, to join the Quick Reaction Assistance team at Long Binh, South Vietnam.

## More Missile Command Men Are Serving In Vietnam

The rapidly growing Redstone community at the AMC installation in Long Binh, South Vietnam, was increased again this week with the arrival of three more

Arsenal civilian volunteers.

The three, Herbert Cleveland, Carmon Gill and Raymond Whalen, were selected from a long list of AMC employees who have volunteered for tours with Quick Reaction Assistance teams in the Southeast Asian country.

Their departure from Redstone brings to 32 the number of local civilians who have been selected for duty in support of our combat troops. Almost a hundred MICOM personnel have signed up for Vietnamese tours in addition to those who have already been selected.

Cleveland, from the Hawk Project Office, and Whalen, an employee of the Supply and Maintenance Directorate, will spend three months at Long Binh while Gill, also from Supply and Maintenance, will be in Vietnam for six months.

An inventory management specialist, Cleveland has been a member of the Project Office team

HERBERT CLEVELAND

for four years after having spent twelve years in a similar capacity for the Air Force at the Gadsden Depot, Brookley Air Force Base and Kelley Air Force Base in Texas.

Gill, a veteran of three years active service with the Air Force, has been employed by the Missile Command since 1959. He came to the Arsenal from Ft. Polk, La., where he had been employed in the logistical support mission for seven years.

Whalen has been employed as

## FOUR CAPTAINS RECEIVE MEDALS

Four Army captains received the Army Commendation Medal at ceremonies here on October 25.

Capt. William H. Bailey, Deputy Branch Chief, Advanced Subjects Division, Pulse Circuits Branch, USAMMCS, received his award in recognition of improvements within his area of supervision. Improvements include the development of a Pulse Student Workbook which has increased the students' ability to comprehend more material in a shorter period of time.

Capt. Beau B. Beard, Deputy Chief, Nike Division, Air Defense Department, Directorate of Individual Training, USAMMCS was recognized for administrative improvements instituted within his division. He organized instructor teams which resulted in improved scheduling procedures.

Capt. Richard H. Comfort, Training Officer in the Training Branch, Office of Operations, USAMMCS received the award for meritorious service while staff supervisor of all officer courses and of common electronic subjects for enlisted and warrant officer students.

Capt. Terrell W. Park, Air Defense Training Officer, Training Branch, Training Division, Office of Operations, USAMMCS was recognized for outstanding service while charged with the supervision and guidance of all warrant officer and enlisted training on Air Defense Systems.

a supply clerk in the Stock Control Division for the past three years after having worked for the Pueblo Army Depot in Colorado for four years.

His active service was spent with the Army as a non commissioned officer in the Armored In-

fantry.

Most of the Redstone volunteers have been sent to Long Binh located approximately 20 miles northeast of Saigon. Others have put in their tours at installations in Saigon, Qui Nhon and Baie de Cam Ranh.

## This sticker means you won't get stuck.

It means we guarantee 100% the repair or replacement of all major mechanical parts\* for 30 days or 1000 miles.

But not every car on our lot gets one.

Our mechanics have to check them first. Inside and out. Bumper to bumper.

They check the cylinder compression, valves, plugs, points, carburetor, transmission, rear axle, tie rods, fan belt, steering, springs, shocks, suspension, wiring, wheel bearings, and tires.

This is our 16-point safety and performance test. If a car passes, we tune the engine, tighten the doors, adjust the brakes, clean the air cleaner, give it a grease job, and change the oil.

Then we clean it, polish it, and put it up for sale. With a blue and white sticker on the windshield.

After all this testing, tuning, and tightening, it's the only thing that sticks.

# Design Tests Complete On Self Propelled Hawk

The Army has completed engineering design tests of the SP (Self-Propelled) Hawk, its newest version of the solid-propellant surface-to-air defense missile system.

SP Hawk will provide additional mobility and ease of emplacement to the proven effectiveness and reliability of the present Hawk system currently deployed with Army and Marine Corps units in the United States and overseas.

The tests were performed by Raytheon Company, system prime contractor under the technical supervision of the U. S. Army Missile Command's Hawk Project Office, Redstone Arsenal, Ala. Col. John G. Redmon is Hawk Project Manager.

The heart of the SP Hawk battalion is the independent firing section of the Self-Propelled Platoon. The key to this mobile firing section is the new Self-Propelled Launcher (SPL), basically a tracked vehicle with a Hawk launcher mounted on its bed.

Three SPL's, each carrying three ready missiles and towing trailer-mounted system equipment, make up the SP Hawk firing section. The towed equipment consists of the standard Hawk CW Acquisition and CW Illuminator radars, and a new Platoon Command Post which provides fire control functions.

The independent firing sections and associated support sections make up the SP platoons. Two SP platoons and a towed platoon, which has all standard Hawk equipment, along with the support and administrative organizations, make up the SP Hawk Battery. There are three batteries and a mobile and versatile direct support organization in an SP Hawk battalion.

The detection and tracking equipment consists of a continuous wave acquisition radar for target acquisition and a high-powered illuminator radar for acquiring, tracking and illuminating the target. A trailer-mounted battery control central will act as both control and communications center for the firing section.

During the engineering design test program, the contractor conducted design performance tests, various laboratory tests, component qualification, initial system integration and limited road tests. In addition, target acquisition, fire

control and firing tests were performed at White Sands Missile Range to determine system performance characteristics.

Concurrent with the engineering design tests were extensive road tests of the new system at Aberdeen Proving Ground, conducted by the Army's Test and Evaluation Command as part of the engineering service test program. Further engineering service tests are continuing at White Sands Missile Range, including march order and emplacement tests, target acquisition and tracking tests, and firing tests.

Throughout the test phase, close coordination by the Hawk Project Office, the Test Evaluation Command and Raytheon Company was accomplished to avoid duplication of effort.

# Chaparral System Seen By Redstone Personnel

Chaparral, the Army's newest air defense missile system, was on display Thursday and Friday at the Army Missile Command. Included also in the display at Redstone was the weapon system test equipment.

Three soldiers from the Air Defense Board, Ft. Bliss, Texas were on hand to operate the equipment. The system was first shown to the public at the recent annual meeting of the Association of the U. S. Army, Washington, D. C.

The Chaparral system combines the supersonic, passive homing missile, a self-contained launcher system, and the highly mobile tracked XM 730 cargo carrier. The missile's infrared sensing enables it to lock on target.

Chaparral is one of two weapon systems selected by the Army to provide field commanders with low

altitude defense. The other system is the Vulcan 20 mm automatic gun.

The Chaparral Management Office of the Missile Command directs development, production and field support of the new missile system. LTC Donald H. Steenburn is chief of the Office. The Vulcan/Chaparral Project Manager for the Army Materiel Command in Washington, D. C. is Col R. C. Daly.

## Majerus Schedules Conference Paper

John N. Majerus, scientist with the Redstone Research Laboratories of Rohm and Haas Company, will present a paper before the American Society of Civil Engineers Specialty Conference at North Carolina State University on Nov. 8-10. The title of the presentation will be "Microscopic Variables and Phenomenological Constitutive Equations."

Majerus, a native of Detroit Lakes, Minn., received a B. S. from Santa Clara University in 1960, and an M. S. from the University of Illinois in 1962. He is married to the former Barbara Close of Hillsboro, Illinois, and they, with their five children, reside at 6105 Richwood Drive.

The Rohm and Haas Laboratories, located on Redstone Arsenal, operate under the direction of the Research and Development Directorate of the U. S. Army Missile Command.
