VOL. XVI; NO. 27

REDSTONE ARSENAL, HUNTSVILLE, ALABAMA 35809

NOVEMBER 15, 1967

SEVENTEEN YEARS after receiving his wound, SFC Harzewski receives his Purple Heart from Col. Paul B. Schuppener, commandant MMCS.

Battle Of Paperwork Holds Up Purple Heart 17 Years

It took almost 17 years, but the Purple Heart finally overcame red tape.

Seventeen years ago, on Heart Break Ridge near Yangu, South Korea, a young Army PFC was wounded by enemy mortar fire. He lay in a field hospital for two months, somewhat consoled in the knowledge that he would soon receive the coveted Purple Heart.

But that was 1951. And that was Korea. And those were difficult days. There was precious little time for many things, and one award at least—the PFC's Purple Heart—had to be postponed.

The War ended. The PFC's division moved. The young G. I. returned to the States. And the Purple Heart was never awarded.

The PFC decided to make the Army his career. Today, still wear-

ing khaki, Sergeant First Class John Leon Harzewski, the wounded G.I., is assigned as an instructor in the Nike Missile section of the Army Missile and Munitions Center and School here.

Recently, during a routine personnel check, SFC Harzewski mentioned his unawarded Purple Heart. The personnel official processing the sergeant's records wrote to the Army Archives to investigate the missing medal. It was discovered that the PFC's Purple Heart had been lost under tons of Army paperwork.

The problem was quickly remedied. Red tape was cut, and 17 years after his wounds healed, SFC John Harzewski was awarded the Purple Heart in the office of Col. Paul B. Schuppener, commandant, MMCS.

Two Receive Meritorious Civilian Service Awards

Two veteran Missile Command civilians have been recognized for their individual contributions to the Army's missile program with the award of the Meritorious Civilian Service Award.

Maj. Gen. Charles W. Eifler, Commanding General of the Army Missile Command, made the presentations last week to Charles W. Hussey and Allan Platt. Each received a Certificate of Achievement and the handsome pin emblematic of the highest individual award made to civilian employees of the Missile Command.

Hussey is technical director for the Future Missile Systems Division of the Research and Development Division while Platt was cited for his accomplishments as Deputy Director of the Dragon Project Office.

In making the award to Hussey, Gen. Eifler enumerated several of the Missile Command engineer's significant achievements in the rapidly advancing age of missile technology and said that they, "reflect a continuing history of exceptional leadership and extraordinary management capability."

Since starting his Federal service with the Army at Redstone, the Kentuckian has had a very

significant role in the development of a great number of Army weapon systems from the Pershing and XM-3 systems through several of those that are presently in advanced stages of development.

Included among those are SAM-D, Chaparral, TOW, Lance, the Laser Semi-Active Guidance System, the Advanced Forward Area Air Defense System and the Multi-Rail Rocket System.

During his 17-year Redstone career Hussey has been the recipient of several awards and citations in recognition of his technical and managerial contributions and he has written a number of papers dealing with his research efforts for presentation to scientific and professional societies.

Dynamic technical leadership contributing to the successful development, production and fielding of a superior weapon system was specifically cited in the award to Platt.

An Air Force veteran and native of New Jersey, Platt came to Redstone from the Army Munitions Command in 1964 and he has been actively engaged with the development of Dragon from its original conception as the Medium (See MERITORIOUS on Page 3)

JUDGE ADVOCATE—Lt. Col. Heyward G. Jeffers, Jr., is the recently named Staff Judge Advocate at the U. S. Army Missile Command. He came here from Headquarters, Fourth Army, where he served as Deputy Staff Judge Advocate. A member of the American Bar Association and the Louisiana Bar Association, the colonel earned his degree in Law at Louisiana State University. He is living on post with his two children, Wendy 6 and Scott, 10.

Lance Performs Tropical Environment, Operational Engineer Design Tests

FORT CLAYTON, C. Z.—Lance, the Army's newest surface-to-surface missile, recently completed the tropical environmental and operational phase of the engineer design test at the U. S. Army Tropic Test Center.

Tropic environment tests in the Canal Zone were conducted in two parts.

The missile and its major components were placed in storage at Fort Sherman; Regular inspections were made to determine resistance to fungi, corrosion, high humidity, and salt laden air.

The operational portion of the tests included simulated firings of the missiles and 3000 miles of mobility runs in three tropical en-

vironments—jungle trails in evergreen rainforests, tropical savanna grass and swamp areas.

Even though parts of the new weapon system were previously tested in environmental chambers, various potential problem areas were uncovered during the tests in the natural environment.

Lance, which combines the reliability and low cost of a free rocket with the range and accuracy of a guided missile, is rugged, accurate and simple to operate. It gets its accuracy from a simplified inertial guidance and control system conceived and developed by the US Army Missile Command, Redstone Arsenal, Alabama. The Missile Command manages the Lance program under Col. Arthur F. Pottle, Jr., Project Manager.

The first Army missile to use a prepackaged, storable, liquid propellant, Lance and its launch fixture mounted on a self-propelled track vehicle, form a self-contained and self-sustaining unit which can be dismounted and transported by helicopter or dropped by parachute.

Lance was designed to provide the Army with a highly mobile weapon for general support of infantry, armored, mechanized and airborne divisions.

Engineers from Redstone Arsenal, a team from the US Army Artillery Board, Fort Sill, Oklahoma, and representatives of the US Army Test and Evaluation Command, Aberdeen Proving Ground, Maryland, and other interested agencies were in the Canal Zone during the test period.

Redstone Benefit Offers Family Life Insurance

Enrollment in the group family life insurance plan sponsored by the Redstone Benefit Association begins this week.

The rate schedule printed in the brochures is correct, according to William Heflin, of the Redstone Benefit Association.

Heflin was referring to a discrepancy in the rate schedule as advertised in the November 1 issue of the Redstone Rocket.

Representatives of the insurance company will be stationed in lobbies of buildings for the next three weeks. The daily bulletin will publish a schedule of specific buildings.

Information packets about the coverage, rates and an enrollment card is being distributed to all employees this week. Should anyone fail to receive the packet, he may contact the insurance company representative or call 876-5767.

The new family insurance plan expands the range of insurance policies being offered civilian employees by the Redstone Benefit Association. Deadline for enrollment is Dec. 1.

DISTINGUISHED SERVICE—The latest Missile Command winners of the Department of Army's Meritorious Civilian Service Award are pictured with the Commanding General following the presentation ceremony last week. Maj. Gen. Charles W. Eifler conferred the coveted award on Allan Platt (left) of the Dragon Project Office and Charles W. Hussey, who was cited for his accomplishments with the Research and Development Directorate. Mrs. Platt and Mrs. Hussey attended the ceremony held in the Commanding General's office.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension 876-1450 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates out post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35800.

Rocket Ruminations

Calumny is like coals—it either burns your hand or makes it dirty.

The Time Has Come

THAT time of year referred to as the "Holiday Season" is approaching again.

The three big holidays—Thanksgiving, Christmas and New Year's—mean long weekends or leaves for most of us. There are also parties and shopping trips that become more frequent during this season of the year.

With the long weekends and family get-togethers, we'll be spending more and more time in our automobiles, making full use of the highways and city streets.

However, the additional traffic helps create more

than seasonal excitement. It creates more and more opportunities for traffic accidents of all types. Couple the increased traffic volume with longer hours of darkness, winter driving conditions, and driver fatigue and inattention, and you have the ingredients for real holiday tragedy on the highways.

Now is the time for everyone to give serious thought to their driving habits, before getting involved in the holiday season ahead.

We are going to have to be more careful, more alert and more courteous than ever on the highways.

Constantly and conscientiously apply all the rules of good driving which are all too often neglected. And remember that courtesy, consideration and defensive driving will help you—and the other guy—have a safe, happy, holiday season. (AFPS)

AWARDED MEDAL — Sergeant First Class Floyd R. Read received the Bronze Star Medal from Colonel Paul B. Schuppener, commandant, Army Missile and Munitions Center and School, Redstone Arsenal, Ala. Floyd, who is currently an instructor at the school, was awarded the Bronze Star for his outstanding service in Vietnam from October 1966 to September 1967 while serving with the 519th Military Intelligence Bn. Read is a 1937 graduate of Lanier High School, Macon, Ga., and attended the University of Maryland.

Purchases Reach \$1.2 Million From Area Businesses

The Army Missile Command's awards and purchase orders to cover support of Army missile programs ran to more than \$27 million during the past month. Approximately \$1.2 million of this total went to firms in the Southeast, including \$880,000 received by Huntsville merchants.

Companies in other Alabama cities received some \$264,000. These expenditures do not include the contracts for more than a million dollars awarded for procurement of missile systems, nor a portion of the orders for less than \$10,000.

The greater amount of the money went for missile repair parts. The rest covered supplies and equipment for office and laboratories, automotive and building repairs, clothing and food.

The Missile Command Procurement and Production Directorate executes these contracts.

ZERO DEFECTS CORNER it's up to you!

A near perfect performance over an eight-month period was recognized in the designation of Clara Sexton as the Missile Command Zero Defects Employee of the Month for November.

Mrs. Sexton is a card punch operator in the Support Operation Directorate's Computation Center. Her main duty calls for the operation of an IBM 056, verifier machine.

From the first of this year through August Mrs. Sexton key verified a total of 226,050 EAM cards compiling an accuracy rate in excess of 99.9 per cent. Only five errors were charged to her during the period and in five of the months she was credited with error-free performances.

A Missile Command employee for the past four years, Mrs. Sexton is a graduate of Gadsden Business College having topped her graduating class in academic standing.

She started her Redstone career as an employee of the Marshall Space Flight Center.

BUY

Buy with cash and save! Buy with an HFC Big Purchase Loan

Buying a color TV? A better car? New furniture? You can probably get a better bargain with cash in hand. You'll be able to shop anywhere and look for the very best savings on the exact brand or model you want. Then as you enjoy your big purchase, you repay HFC conveniently. So make that big purchase now with an HFC Big Purchase Loan.

LOANS UP TO \$2000 —with up to 30 mos. to repay

BRONZE STAR MEDAL—Sgt. First Class Ernest R. Fuller receives the Bronze Star Medal for outstanding meritorious service in Vietnam from Maj. Gen. Charles W. Eifler, Commanding General of the U. S. Army Missile Command. SFC Fuller is the noncommissioned officer in charge in the Department of Army Special Security Office at Redstone Arsenal. He held the same job while serving in Vietnam from September 1966 to September 1967. His parents are Mr. and Mrs. Sam E. Fuller of Troy, N. C. The Sergeant is married to the former Miss Alice Lee Williams, daughter of Mr. and Mrs. Lloyd Williams, Mt. Gilead, N. C.

RECEIVES BRONZE STAR—Chaplain (Maj.) John P. Kirkland, serving for the second time as a Chaplain at Redstone Arsenal, received the Bronze Star Medal for distinguishing himself in connection with military operations against a hostile force in the Republic of Vietnam. Mrs. Kirkland attended the ceremony at which Maj. Gen. Charles W. Eifler, CG of the Army Missile Command, pinned the medal on the Chaplain.

Project SPARTA Ends Tests On Australian Missile Range

Congratulatory notes and praise for a job well done were received by the U. S. Army Missile Command here last week for its role in completing missile research tests in Australia known as Project SPARTA (Special Anti-missile Research Tests in Australia).

Similar notes were forwarded to other members of the Sparta team, including Australian officials at

the Woomera Test Range; TRW, prime contractor for the program; Chrysler Corporation and LTV Astronautics.

One note from Dr. Pat Friel, of the Department of Defense, read, in part:

"Congratulations on your performance in achieving a series of successful experiments and obtaining extremely useful information having direct application to our common defense problems. The success of the SPARTA program underlines the efficacy of programs requiring interorganizational and international cooperation."

Dr. Friel directs the Project DEFENDER program for the Advanced Research Projects Agency, of which SPARTA was a part.

Another note from Dr. M. W. Woods, Director of Australia's Weapons Research Establishment (WRE), stated:

"This concludes one of the most successful and best organized series of trials we have conducted

at Woomera. The spirit of cooperation which has existed between your people and the WRE staff during this project has contributed greatly to its success."

And from Senator Denham Henty of Canberra, Minister for Supply:

"The program has been completed within a tight time scale and great credit is due to the Army Missile Command and TRW Systems for adhering to this schedule in preparing and firing the Sparta vehicles. This project has been most successful, largely because of the team spirit and close cooperation of the Australian and American Sparta teams at Woomera."

SPARTA was a cooperative program among the United States, Great Britain and Australia to study reentry phenomena.

Work on the program was directed by the Intercept Technology Branch, ARPA Division, of the Missile Command's Research and Development Directorate. The Missile Command managed the program for ARPA as part of a continuing series of studies in ballistic missile defense systems.

Two Marine Corps Parties Celebrate Anniversary

Members of the Marine Corps stationed at Redstone Arsenal celebrated their 192nd anniversary with two balls Friday night at the NCO Club Annex for the Marine students, and at Officers Open Mess for the staff NCO's and

officers.

The Marine Complement stationed here numbers almost 300, most of them students at the Army Missile and Munitions Center and School.

The Balls were attended by retired personnel as well as personal guests of the Marines.

Accountants To Hear Dr. Traylor

Dr. Orba F. Traylor, Professor of Economics and Public Administration, University of Alabama-Huntsville, will be the guest speaker at the meeting of the Federal Government Accountants Association on Nov. 16, at 6:30 p.m. at the Carriage Inn. Dr. Traylor will speak on "The Role of the Government Accountant and His Contribution."

Dr. Traylor has vast operational, academic, and research experience in the fields of public administration, financial administration, education and law.

He has also served as consultant to such organizations as John Hopkins University, the United Nations, and the Kentucky Department of Revenue. Before coming to Huntsville in 1965, Dr. Traylor served for five years as Director of Finance and Economic Affairs to the U. S. Civil Administrator of the Ryukyu Islands (USCAR), Department of the Army.

Dr. Traylor is a member of many professional organizations including the American Bar Association, American Society for Public Administrators, the American Economics Association, and the National Tax Association.

Artillery Schedules Ball Dec. 2

An Artillery Ball is scheduled in the Patio Room of the Redstone Officers Open Mess Dec. 2.

Maj. Gen. Charles W. Eifler has been invited as a special guest. The ranking Artillery officer at Redstone Arsenal now is Brig. Gen. Clarence C. Harvey, Jr.

Reservations are being handled by Major J. S. Frear.

Military Engineers To Meet Tuesday

The Society of American Military Engineers will meet Tuesday at 6:30 p.m. at the Redstone Officers Open Mess.

Douglas Edwards, head of Goodbody Company, will be the principal speaker.

Edwards, a graduate from Clemson College, with a degree in mechanical engineering will talk about The Nation's Economy. He has combined a career as engineer with that of a stock broker.

Reservations can be made by calling 876-6615.

THURSDAY BRIDGE

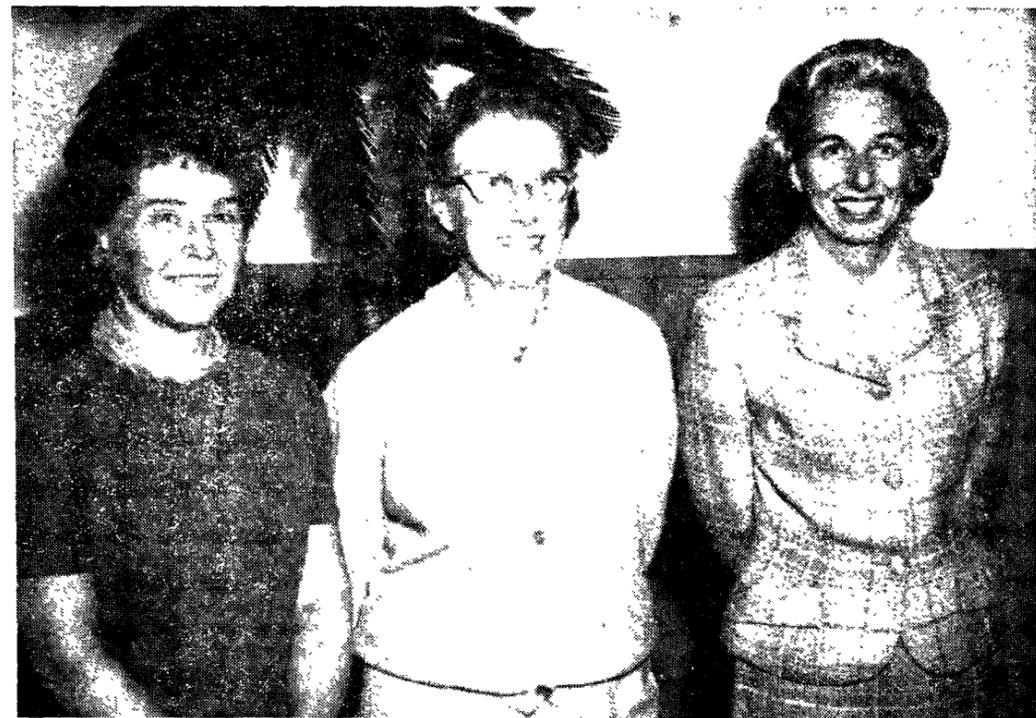

Mrs. L. Nevels won the Thursday bridge competition sponsored at the Redstone Officers Open Mess by the Officers Wives Club.

In second place was Mrs. D. P. Rosseau with Mrs. Norman Thompson third. Low was Mrs. Ralph Walton.

Reservations to play with the group are handled by Mrs. Robert Allgeier.

CLUB CHAMPION—Tex Whittemore accepts the championship trophy from Rita O'Connor during a lunch following play for the Redstone Officers Wives Golf Group on the Arsenal course. The plaque will have Tex's name added before it returns to the Golf House where it normally hangs. Tex's take-home prize is a piece of holloware silver.

NEW OFFICERS—Chairman of the Officers Wives Club Golf Group for the coming year is Erlene Dials (center). Loy Stafford (left) is the vice chairman and Ann Koontz, secretary-treasurer. They were elected last week during a lunch at the Redstone Officers Open Mess.

Col. Beaudry Gets Medal

The Army Commendation Medal with First Oak Leaf Cluster was presented recently to Col. Charles L. Beaudry, Chief, Army Missile Command Field Office, Air Force Western Test Range.

Col. Beaudry received the award in recognition for his outstanding accomplishments "in establishing a vast network of associations with foreign research activities and military attaches" while assigned as Commanding Officer, Army Research Office—Europe.

The award was presented to Col.

Beaudry by the Commander of the Air Force Western Test Range, Brigadier General Clifford J. Kronauer, during ceremonies held at Vandenberg AFB, California.

Stop looking for the "ideal" Christmas gift—there's none better than U. S. Savings Bonds. Buy them at your bank and get a free gift envelope.

LOTS OF SUPPLY EXPERIENCE—These four employees of the Supply and Maintenance Directorate were among the local Civil Service employees who were honored recently by Maj. Gen. Charles W. Eifler in recognition of their having accumulated 30 years of Federal service. Each of the workers was presented a certificate of achievement and a 30-year service pin. The honored workers are, left to right, Thomas E. Kavanaugh, Major K. Fowler, G. n. Eifler, Winifred M. Ivy and Joe C. Cleera.

SOCIETY HONORS ENGINEER—Lt. Gen. R. A. Wheeler (USA, Ret.) presents the national award of merit of the Society of American Military Engineers to Freeman G. Lee of the Land Combat Systems Commodity Office. Lee was cited for his outstanding technical and educational contributions for national defense as a member of the local chapter of the Society, with special recognition for his work in the area of Civil Defense. The presentation was made during the Southeastern Regional Conference held recently in Huntsville.

PROMOTION—The leaves of Lieutenant Colonel are pinned on John R. Perkins by his wife, Norma, and Col. John R. Henderson, Assistant Commandant at the Army Missile and Munitions Center and School. The 37-year-old Lieutenant Colonel won his Army commission at Officer Candidate School. He is the Executive Officer, School Troop Command, at MMCS.

European Style Football Introduced At Arsenal

Redstone Rugby Club Meets Ft. Jackson Here Sunday

Sports fans at the Army Missile and Munitions Center and School have become accustomed to the sight of foreign students playing soccer matches against such foes as Georgia Tech, Auburn and St. Bernard College.

Now American players at Redstone are popularizing another football game of foreign origin, scheduling matches with collegiate and military teams throughout the South and Mid-West.

Webster's New Collegiate tidily sums the sport up in a nutshell: "a football game in which play is continuous; kicking, dribbling, lateral passing, tackling and the scrum are featured, and interference (blocking) or substitution are not permitted."

It's Rugby, or ruggur if you please.

Action is its synonym, and the game is played with reckless abandon.

So if you like to be with the action, the Redstone Arsenal football field is the scene this Sunday. At 11 a.m., the Redstone Rugby Football Club will host the Fort Jackson, S. C., Palmetto Rugby Club.

The following Sunday, Nov. 26, the Atlanta Rugby Club will visit here, then the Redstone contingent will close its winter season at Memphis, Tenn., against St. Louis University on Dec. 2.

The local club has been smashing about for a year with its founders, Capt. Charles Wells and Carter Wellford, as chief promoters.

This pair of enthusiasts has rounded up a present squad of 27 men, but newcomers attracted to the sport are always welcome. Wells, Wellford, Bob Taylor and Dick Williams form the nucleus of the squad as the only men with prior experience, but several former soccer and American football buffs have adapted their skills to the popular British sport.

Many others with no prior experience—such as Dave Olmschenk, an ice skater from New York City who had never engaged in contact sports—have caught the fever after watching a contest.

"One day at practice," reports Wells, "some guys were walking across our field and we yelled to them, 'if you get on the field, you have to play.' So they played a pick-up game with us and liked it, and joined the club."

Wells, on active duty with the Army serving at Sentinel Systems Command, is one of two RRFC players with a Ph.D. degree. After a football career at Vanderbilt University, he played four years of Rugby for St. Louis University while working on his doctorate in system mechanical and aerospace engineering at Washington University in St. Louis.

Wellford was president of the ruggur team at the University of Virginia.

During their playing days, both he and Wells became acquainted with Ed Lee, president of the Eastern Rugby Football Union, who found out both men would be in Huntsville. Lee wrote each a letter suggesting they get together, thus the birth of the Redstone Rugby Football Club. Wellford serves as president of the RRFC and Wells as vice-president and captain.

Their teammates come from a wide variety of backgrounds from coast-to-coast and abroad in England, Scotland and South Africa. The non-military players work in Huntsville at places such as Lockheed, Boeing and Brown Engineering.

Taylor, the club secretary, was a valuable addition to the union with his background as an alternate on the Scottish International team and captain of the popular Glasgow Old Boys.

Williams brought prior experience from two years at the University of California at Berkeley.

Four others join Wells in adding military flavor to the Redstone club: PFC Ray Durbin of the 227th Ordnance Detachment at the School; 2LT Kenneth Robb and 2LT Tom Craig, both of Procure-

ment and Production Directorate; and 2LT William Thrall of Supply and Maintenance.

Durbin is a former soccer player from Pittsburgh, Pa., as is Andre Nageon-deLestang of Say Shell Island, South Africa, who competed while schooling in England.

Frank Coble of Fayetteville, N. C., was a defensive safety at North Carolina State and Hall Bryant played quarterback for Huntsville High School. Martin Lowsen of Eaton, England, possesses a Ph.D. in vibration dynamics.

Other club members include Huntsvillians Carey Hall, Carl Darling, Ralph Hargrove, Larry Lawrence, Rodney Sharp, Bill Keys, Tom Smith, Jim Williams and Paul Smilchek. Others are Bob Bay of Louisville, Ky., Bryan Adcock of London, England, Dave Lister of Hull, England, Scott Duigiud of Louisville, Ky. and Dale Loy of New Orleans, La.

Probably the most unique RRFC regular is Bruce Stenko of Seattle, Wash. He was coaxed to watch the game by Williams, a fellow worker at Boeing, and Stenko became so interested that he undertook intensive study of the rules and became the team's own traveling referee!

"I don't think anyone else in the South knows the rules well enough to referee," says Wells.

Rugby, named for the village school where it was first played in Warwickshire, England, can be coarsely described as a combination of American football and soccer, played with a ball similar to a football.

The flow of play is perpetual—no timeout, except a two-minute halftime break (no player can leave the field) or a two-minute referee's break to assist an injured player from the field if necessary.

When watching a ruggur contest, two important rules should be kept in mind: off-sides and the fumble, or knock-on.

Any player on offense who gets in front of a ball carrier is off-sides (if caught in front of the ball when it changes hands, the only action allowed is an attempt to get behind the carrier) and a

free kick is awarded to the opposing team.

A knock-on occurs when the ball hits on the fly between the elbow and hand and is propelled forward. The penalty is a set scrum, which involves the eight forwards from each side locking heads and shoulders and having a "push-off-war" while two hookers try to retain possession of the ball.

Another unique formation is the line-out, used whenever the ball goes out of bounds. Each team

lines up perpendicular to the sideline and the ball is thrown between the lines, with the effect being similar to the jump-ball in basketball.

Scoring stems results from three sources: a try, where the ball is run across the goal and downed (literally a "touchdown" worth three points); a conversion after the try, which is a dropkick or placekick from any point on a line perpendicular to where the try was touched down (worth two

points); and a kick-through (worth three points). Scores are set up with strategic movement of the ball by running, lateral passing and kicking on a 110-yard long field.

The competition is rugged, the skills are keen and the stamina is demanding. A visit to the Redstone Arsenal football field next Sunday morning promises you a jolly good show.

And, who knows? You just might get hooked . . .

RUGGED RUGGER—The action is fast, furious and exciting on the Rugby field. Play is continuous through two halves, with no timeouts or substitutions allowed. Ball carriers run without the benefit of blocking and contact is the name of the game, as displayed here by members of the Redstone Rugby Football Club in competition with rivals from Birmingham.

All-Sports Fight Off Dual Threat

The All-Sports Trophies are back in sole possession of first place in the AMC bowling league by winning a close one while each of their co-leaders of last week were being victimized with narrow defeats.

A 12-pin margin in the third game provided the Trophy Makers with a clean sweep win but five and nine pin losses prevented the Rejectors and Voyagers from keeping pace. Each had to be content with 3 to 1 wins.

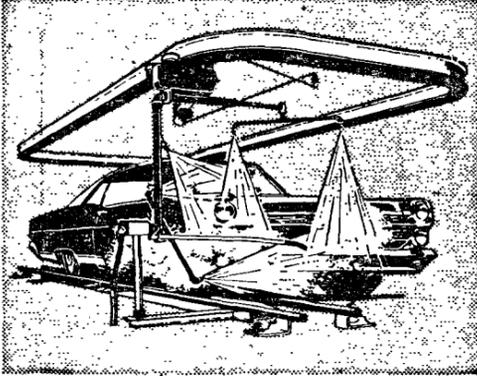

Mac McClure and Hugh Valentine teamed up with 565 and 540 respectively to lead the All-Sports in their sweep of the Avengers.

George Thurlow fashioned a 569 total and got plenty of help from Joe Renard and Ray Wernle for the Rejectors in their 3 to 1 win over the Travelers. Gene Totri's 211 in the third game prevented the Rejectors from taking all four.

The Voyagers took the first two games from the Stars before dropping the third by a single mark. Gaylord Huffman chucked an opening 236 and totaled 545 for the winners, with Ed Kellis pacing the Star attack.

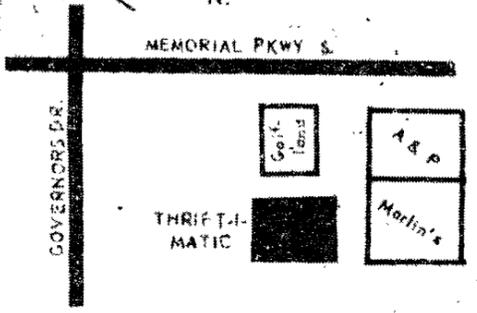

The Lancers upset a total of 2955 sticks in scoring a sweep of the Tigers and the Raiders took all four from the T-Birds. The Bombers and Alley Cats won three apiece at the expense of the Packers and Winners.

Deer Stalkers Will Have Opportunity At Arsenal

Deer hunting will be permitted on Redstone Arsenal for the first time in a series of weekend shoots beginning this Saturday.

Animals of either sex may be taken. Season limit is one deer per hunter.

Participation will be restricted to active duty and retired military personnel. Detailed plans have been made to insure the safety of individual gunners and also provide a fair chance to hunt for all those interested.

The special weekend deer hunts will continue on Saturday and Sundays only until the Alabama deer season closes in mid-December. On those days, all hunting areas south of Huntsville Spring Branch east of Indian Creek will be limited to deer shooting only, according to Sgt. Arnold McJunkins, deputy game warden. Hunting for other game in season will be allowed on the remaining portions of the Arsenal provided the usual area permit is secured in advance.

Hunters will be required to wear hats and either jackets or vests of bright red, yellow or orange while hunting deer. Only shotguns loaded with slugs will be permitted.

Taking of deer of either sex was recommended by Fish & Wildlife Service biologists as a means of controlling the Arsenal herd which has expanded rapidly from the few animals initially liberated on the installation several years ago.

SGT. McJunkins gave this resume of the regulations controlling the deer hunt:

Special safety orientation meetings will be held tomorrow in the Post Service Club, Bldg. 3711 at 12-12:45 p.m., 1-1:45 p.m. and 3:45-4:30 p.m.

A drawing will be held on Friday, to select 80 hunters for the opening day and an additional 80 for the Sunday hunt. Personnel whose names are drawn will be notified by phone Friday which day they may hunt.

Those scheduled to hunt will participate in a drawing at 4:30 a.m. on the day of the hunt to determine individual stand assignments. Hunt headquarters will be in the Post Gym, Bldg. 5663.

A hunter will be driven to his assigned stand prior to sunrise each morning. He must remain within 50 yards of his assigned

Foster Nabs First In Redstone Duel

George Foster and Jim McCormack waged a hot personal duel for individual honors in the Redstone bowling league last week with the former edging out front with the best game and the best series total.

McCormack, however, got a little more mileage out of his efforts when his mates on the Facts five backed him for a 3-1 win over Dean's Trailer Court in a battle for the league lead.

Foster wheeled a resounding 253 in the middle game of his set and ended the series with a 610 Honor Roll count for the Alabama Commission. The Commission however, was only able to win one point from Zales Jewelers.

McCormack shot a closing 244 for a 604 series as the Facts boosted their lead to four points. Jim Deshler led McCormack's supporting cast with 561 while Vic Passavant shot a 579 and Bill Marshall added 554 to Dean's attack.

Gibson's moved into the runner up spot by taking all four from Standard Oil with Zales claiming fourth behind Dean's. Jim Harris topped Gibson's with 569.

The Super Hawks scored the only other sweep of the evening at the expense of Pin Palace despite a 575 put together by Dave Blackwood for the Palace.

Wright's 66 turned in the best team total when their 3003 was good for a trio of wins from Holcomb Agency. Ed Murrah topped the assault with 568, Hal Jackson turned in a 558 and Carl Ward hit for 552. Chuck Brandburn hit a 561 tally for the losers.

stand. A return trip will be made to collect all hunters at 11 a.m. Those desiring to return in the afternoon will assemble at hunt headquarters by 1:30 p.m. for transportation. A final pickup will be made at sunset, and all hunters will be returned to hunt headquarters.

Standbys will be allowed to occupy numbered stands during the afternoon hunt each day provided the hunter assigned has not returned to hunt headquarters by 2 p.m.

After the initial weekend, persons desiring to hunt deer will be required to apply to the Deputy Game Warden not later than 4 p.m. Tuesday. They will be notified by telephone of the date they are to hunt.

CFW Cagerettes Keep On Winning

Two hands proved better than one last week when the Missile Command girls basketball team raced to their fourth straight win in the Huntsville Women's Industrial league.

Yvonne Marks canned 34 counters and her team mate, Gladys Hill, ended her evening's work with 33 as the General Electric sextet fell to MICOM, 84-73.

The two sharpshooters from Loretto, Tenn., had to be just about that accurate too because Connie Kirkpatrick accounted for 57 points in the losing cause. She connected on 24 of 31 attempts from the floor in posting a record individual point total for the league.

The Missile Command girls had a date with Boeing on Monday of this week and will take on Brown Engineering at the Joe Bradley

M Squad Sweep Cuts Into Spoilers' Lead

Operating on a full head of steam, the M Squad rolled to within a half point of the lead in the F and A Mixed bowling league last week with a clean sweep of the ERs.

Their bid to take over the top rung of the league's ladder was thwarted when the Spoilers came back from a pair of losses to the Six Packs to win the final game and preserve a small part of their leading advantage.

The solid one-two punch of Johnny Johnson and Julian Williams together with a generous assist from Sarge Hamilton was too much for the ERs in each of the three games.

Johnson fired a 235 in the middle game and totaled 555 while his teammate polished off a 552 count with a 222 in the finale. Sarge was tops among the feminine bowlers for the week with a 455 total.

Raiders, Rockets Clash For Second

Second place will be up for grabs on Friday evening when the First Battalion Raiders and the Third Battalion Rockets clash in the final game of the Redstone Arsenal football league.

The Missile Command Marauders clinched the league title a week ago with their seventh win

gym next Monday evening in a 5:30 encounter.

Pat Jones completed the MICOM scoring with 17 points. The hard-pressed defensive trio of Paula Legg, Linda Jones and Helen Smith didn't have much luck with Kirkpatrick, but they shackled the rest of the GE shooters in protecting the lead.

Erline Dials Heads Golf Group For Officers Wives

The Golf Group of the Redstone Arsenal Officers Wives Club elected officers at a lunch meeting last week at the Redstone Officers Open Mess.

New officers are. Erline Dials, Chairman; Loy Stafford, vice chairman; and Ann Koontz, secretary-treasurer.

The occasion was a brunch at which trophies were awarded to winners of the Fall Ringer and the Club Championship Tournament.

Among the 18 hole winners of 54 holes of medal play were: Erline Dials, medalist and runner-up in the championship flight; Tex Whittemore, club champion; Clara Miller and Loy Stafford, winner and runnerup in the first flight; Camille Schlendering and Edna Hodges, winner and runner-up in the second flight.

Tournament chairman for the season is Martha Napper with co-chairman Grace Wachslar.

The most improved player in the Fall Ringer is Billie Shupput.

Betty Lou Ivy accumulated low net with Marian Deppensmith second. Erline Dials had low gross. This was among the 9-hole players.

Lucille Johnson was most improved among the 9-holers with Helen Churan showing low gross and Imogene Cruse low net. Second low net trophy went to Ann Koontz.

Wives And Husbands Play Scotch 4-Some

Golfing wives were hostesses to golfing husbands among the Golf Group sponsored by the Redstone Arsenal Officers Wives Club in the annual Scotch 4-some tournament which ends with Sunday night supper at the Officers Open Mess.

Mrs. E. W. Powell, vice chairman, and Mrs. Edmund O'Connor presented trophies to Mrs. Kenneth Whittemore and Leonard Carlson for low gross; Mr. and Mrs. Frank Napper tied with Mr. and Mrs. Glenn Johnson for low net; Lt. Col. and Mrs. A. C. Hendley for second low net; Mr. and Mrs. M. M. Shupput for third low net and Mr. and Mrs. William Wachslar for low putts. George Melochick hit the longest drive for the men; Erline Dials for the women. Among the men Col. A. O. Wiklund landed closest to the pin and among the women, Helen Budd.

Twenty-six couples competed in the tournament on the cold and windy course. Traditionally, the Golf Group closes its formal program of play with the Scotch 4-some.

OFFICER BAGS RECORD CLASS MOOSE

LTC Albert H. Nettleship, Chief, LANCE Project Field Office at the Michigan Army Missile Plant proudly displays the trophy size bull moose that he shot while hunting in north-west Ontario. The antlers measure over sixty-one and one-half inches in width at the widest point and have near perfect conformation. Col. Nettleship believes this rack will score high enough to gain recognition in the Davey-Crockett record book for Canadian moose. Hunting some 35 miles

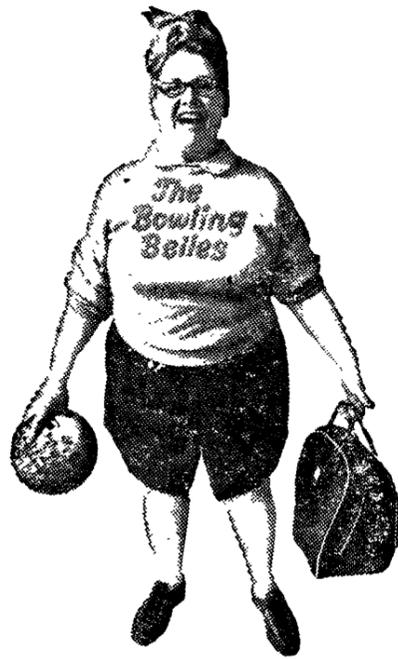

east of Perrault Falls, Col. Nettleship used a rifle of his own design and chambered for the powerful .338 Winchester Magnum Cartridge to bring this bull down at long range.

in eight starts.

The two Missile School elevens will be tangling for the second time in their 7:30 encounter at the Arsenal gridiron on Patton Road.

The Rockets came from behind

to hand the Raiders a 15-8 setback in their first encounter early in October. Since then, however, the strengthened First Battalion handed the Marauders their only loss by winning 16-14.

People need money for all sorts of reasons.

You may not need a bowling ball at all—but whatever you do need money for—we'll understand.

Because we've learned this: there are as many different reasons for borrowing money as there are people who borrow.

That's why we don't put special labels on our loans. Whatever you need money for is okay with us. And our okay is just as BIG as anybody's!

If you could use some of our money now, call us. Better yet, come on in and talk today.

Your Mutual man will understand.

Col. Thome Earns Medal

Lt. Col Matthew J. Thome, Executive Officer of the Army Missile and Munitions Center and School, Redstone Arsenal, Ala., was awarded the Army Commendation Medal by Col. Paul B. Schuppener, Commandant, for outstanding service with the Eighth Army Support Command in Korea during the past year. Attending the ceremony were Mrs. Thome and their daughter, Martha Ann.

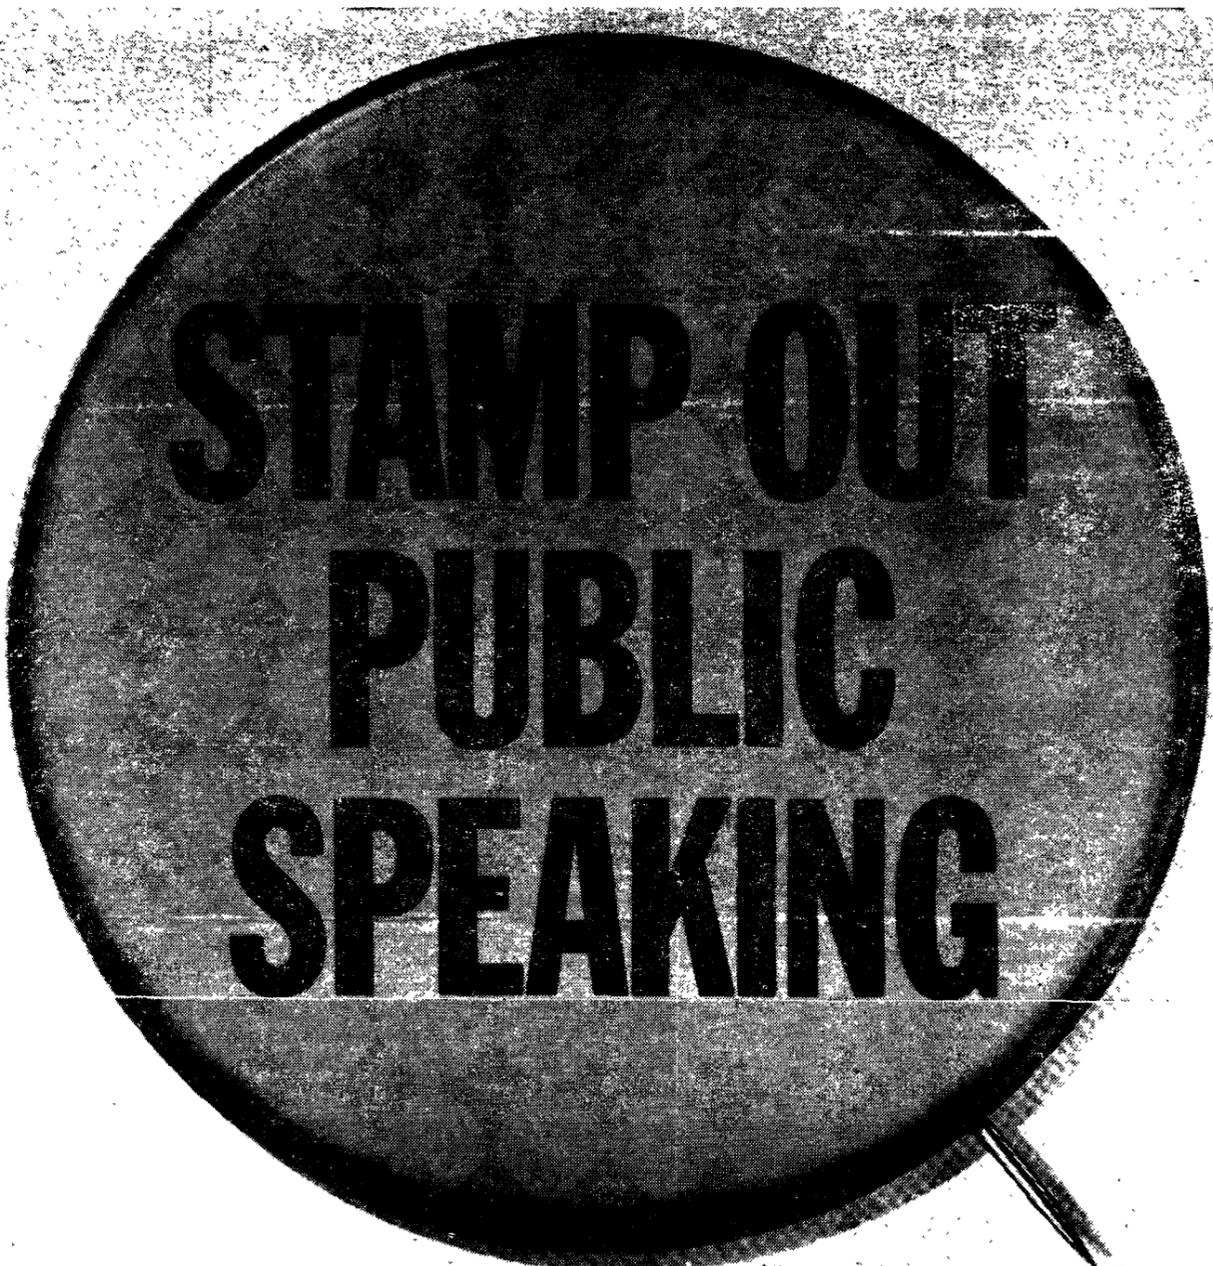

Northern Lights Blvd, Anchorage, Alaska. His wife, Mary Norton

Thome, is the daughter of Mr. and Mrs. Robert Marier, 4107 Lakeview Drive, Olympia, Wash. The Thomes live with their six children at 7607 Ensley Drive, Huntsville, Ala.

The citation stated that as Chief, Ammunition Division, and later as Deputy Director of Supply and Maintenance, Thome demonstrated exceptional professional knowledge in the critical position of Eighth Army Nuclear Surety Officer and provided particularly valuable guidance to the Eighth Army Staff on special ammunition.

Thome was graduated from Roosevelt High School, Seattle, Wash., and attended the University of Washington, where he studied Oriental Languages, Political Science, and Far East History. During World War II he served as an enlisted man in the Marine Corps, where he saw duty in the Pacific.

He entered the Army in 1949 with a direct commission and has since seen service in Europe and Asia. He was wounded in Korea in 1950. Thome is the son of Matthew J. Thome, 2439 East

● As a matter of fact, there is no such thing as "public" speaking. There is only private speaking—from one mouth to one ear at a time.

Whether you're talking to a chairful, a roomful or a nation full of people, the principles of human communication are the same. The need to be articulate, meaningful and memorable in your daily encounters with your boss, your family and the people who live and work with you is far more important than any platform speaking technique.

Basic human communications—getting your best ideas across, winning recognition and appreciation—

is one of the areas in which the Dale Carnegie Course has helped more than a million men and women. Through Dale Carnegie training you can discover and evaluate your natural abilities, improve your decision-making powers, strengthen your confidence and resolve. Public speaking? Who needs it?

If you'd like to write for information, our address is below.

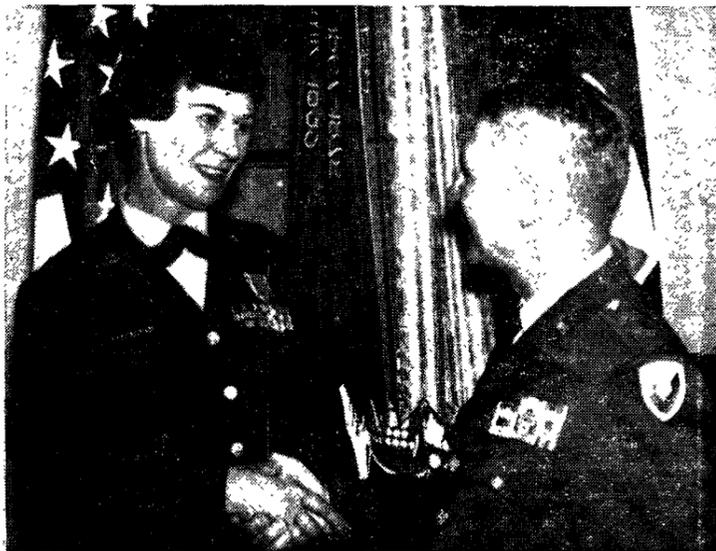

DALE CARNEGIE COURSE

JOINT SERVICE COMMENDATION—Lt. Col. Richard F. Cox came to Redstone Arsenal from China where he served as Deputy Assistant Chief of Staff, Operations Division, Military Assistance Advisory Group. Friday he received the Joint Service Commendation Medal for his accomplishments in China. He is now executive officer in the Research and Development Directorate. Mrs. Cox was present for the award to her husband.

NOW LIEUTENANT COLONEL—Harry Lee Elliott was promoted recently to Lieutenant Colonel. Elliott is the new director of the Missile Components Department Army Missile and Munitions Center and School. Before coming here, Elliott served at the Army Calibration Agency, Pirmasens, Germany. He was brought up and educated in Kentucky, graduating from Dry Ridge High School, Dry Ridge, Ky. in 1949 and from Eastern Kentucky University where he received his commission from the Reserve Officers Training Corps in 1953. He possesses a Bachelor of Science degree in Business Administration.

LEGION OF MERIT—Lt. Col. Esther M. Effengham was presented the Legion of Merit Medal by Maj. Gen. Charles W. Eifler, Commanding General of the U. S. Army Missile Command. Col. Effengham has been at the Arsenal since 1965 as the Chief of the Personnel and Training Office. The Medal was presented before her retirement from active military service at the end of October. During her career, her assignments spanned both the Pacific and Atlantic Oceans. For her service in Japan, she received the Bronze Star Medal. While assigned at the Presidio in her hometown, San Francisco, she was awarded the Army Commendation Medal.

REDSTONE BENEFIT ASSOCIATION

GROUP LIFE INSURANCE FOR CIVILIAN EMPLOYEES

We are pleased to announce that effective December 1, a new Group Family Life Insurance plan covering wives or husbands and children will be available to members of the Redstone Benefit Association. Now, for the first time, an employee can insure the entire family for a low quarterly premium. In adopting this coverage the Army Missile Command becomes one of the very first major Government Agencies to make these benefits available to its employees.

Quarterly Premiums Per Employee

Employee Salary	Under \$6,000	\$6,000 to \$12,000	Over \$12,000

60 — 64	14.90	27.90	40.90
65 and over	19.90	39.90	59.90

Lt. Col. Garibay Slated To Talk

Lt. Col. Raul A. Garibay, who is assigned to the U. S. Army Missile Command here, will be the speaker at the Army Missile and Munitions Center and School's graduation exercises Friday, November 17.

LTC Garibay will address 70 graduates of five MMCS classes at 9:30 a.m. in the post theater. Included in the graduating classes will be one Jordanian enlisted man, 45 U. S. Army enlisted men, and 24 U. S. Army officers.

Col. Garibay's current assignment at the Missile Command is as a special assistant to the project of the Lance Missile System. He also serves as Research and Development Coordinator with the Missile Command.

A native of El Paso, Tex., the colonel is a graduate of Texas Western College with a B. A. in Mathematics. LTC Garibay has served overseas in Germany, Korea, and Okinawa.

Volvo Sales Headed For All Time Record

Can a Swedish-built compact car make it really big in the giant-dominated auto world of America?

According to Mr. Stanley of Continental Cars, Inc., local dealership for the Volvo line of compacts and sports cars—that's exactly what is happening.

During the month of August, Mr. Stanley reported, Americans continued to buy Volvo automobiles at a record-breaking rate. Volvo sales in the U. S. for the first nine months of 1967 showed a gain of 24% over the same period of last year.

"With the year just three-quarters over", Mr. Stanley pointed out, "Americans have already bought 23,122 Volvos. This is more than the entire year's sales for every year since 1955—with the exception of 1966. Volvo officials expect that 1967 sales will exceed by more than 5,000 cars last year's all-time record of 25,126 units."

The Volvo line, manufactured by AB Volvo of Gothenburg, Sweden, consists of two and four-door sedan, station wagon and sports coupe models, all powered by a four-cylinder over head valve engine. Latest addition to the line is the 144S sedan, which embodies such safety features as dual braking system (with power-assisted discs at all four wheels,) impact-absorbing front and rear body sections, and lap-and-chest safety belts . . . as standard equipment. "With today's auto safety-consciousness" Mr. Stanley commented, "the rising sales figures of the 144S aren't surprising."

Mr. Stanley also pointed to increasing sales of the 1800S sports coupe—and to the growing number of Volvos being sold with automatic transmissions (42% of total sales have been the automatic-equipped version.)

Also contributing to Volvo's success this year is a continuing boom in sales to American tourists for delivery overseas. With European delivery sales 32% above the first nine months of last year, (September European delivery sales were 55% ahead of the same month last year) Volvo ranks second only to Volkswagen in this important sales area.

EXPLOSIVE CERTIFICATE—SFC James P. Gist, Jr., receives the Explosive Ordnance Disposal Certificate from Col. Paul B. Schuppener, Commandant, Missile and Munitions Center and School. Gist was commended for having received the highest academic average during a six-weeks Explosive Ordnance Disposal Course at the Navy Explosive Ordnance Disposal School, Indian Head, Md. MMCS is responsible for Army explosive training there. The 35-year-old Sergeant serves as Senior Instructor with the Explosive Disposal Division, Unit Training Command, at MMCS.

HEADING FOR 25—Sgt. Major Robert S. Payne, the Army Missile Command's Provost Marshal Division, re-enlists for an additional three years to his almost 22 year career. Col. Anders O. Wiklund, Acting Deputy Director, Arsenal Support Operations Directorate, conducted the reenlistment ceremony. Sgt. Payne, a native of South Pittsburg, Tenn., entered the Army at Ft. Bragg in 1944. He was discharged in 1946, reentered in 1948, and has been with Military Police units since. His overseas tours include Europe and the far East. He was assigned to Redstone Arsenal in 1964. Sgt. Payne is married to the former Virginia Privett of Jasper, Tenn., and they have two sons, Doug and Mike.

Tests Set For Navy ROTC Scholarships In This Area

The test date for the 22nd annual national competitive ROTC examination is Dec. 9. Eligible high school seniors and graduates must submit applications before Nov. 17.

The Regular NROTC Program offers an outstanding opportunity for a young man to gain a regular commission while studying at one of the 52 NROTC colleges and universities. The Navy furnishes tuition, fees, books, and uniforms, plus a subsistence allowance of \$50 per month to NROTC Midshipmen. Each summer NROTC Midshipmen go on interesting and rewarding at-sea training periods. After completing his college course and all military requirements, an NROTC Midshipman is commissioned as a regular officer in the U. S. Navy or Marine Corps and goes on active duty with the operating forces.

The program is available to male high school seniors and graduates who will reach their 17th but not 21st birthday by July 1, 1968. Those who make a qualifying score on the Navy College Aptitude Test will be interviewed and given thorough medical examinations early in 1968. Approximately 1,700 young men will be selected to attend college next September and to prepare for naval service.

NROTC Bulletins and application forms are available from local high school counselors and Navy Recruiting Stations, or from the Chief of Naval Personnel (Pers-B6411), Department of the Navy, Washington, D. C., 20370.

Looking for a christmas gift that is stylish and tasteful? U. S. Savings Bonds are always appropriate — are always appreciated.

RECOGNIZE CONTRACTOR REPRESENTATIVE

In a recent ceremony the HAWK Project Office Manager, Col. John G. Redmon, expressed his appreciation for a job well done to Frederic "Fritz" K. Wrigley, HAWK Representative from Aero-

jet-General Corporation.

Wrigley has been the Aerojet HAWK Representative for the past five years and has been recognized as exemplifying, in the words of Colonel Redmon, "exceptional competence . . . and has indeed served well the best interest of

both Aerojet-General Corporation and the U. S. Army.

Wrigley was presented a Certificate of Appreciation and a Letter of Appreciation. He has been assigned to the Aerojet-General Field Office at Lancaster, California as a Senior Representative.

Bargain Counter!

© 1962 VOLKSWAGEN OF AMERICA, INC.

You'd think they'd never seen a reasonable price tag on a used car before.

Well, you see them every day, here.

The prices. And the flock of bargain hunters, too.

We're mainly concerned with selling new Volkswagens. But, as long as people keep trading in other makes, we'll keep up a brisk turnover in used cars, too.

Of course, "trade-ins" come in all sizes, shapes, ages and degrees of experience. And a great used car bargain for

the teen-ager getting his first set of wheels would never satisfy the family man looking for a family car.

But that works both ways!

The family man gets a bargain the youngster could never afford when he picks up a good, solid, roomy, fairly new, used sedan he can depend upon. And, at the right price.

Come in and shop around, won't you?

It's like most bargain counters: we won't even mind if you handle the merchandise.

Lt. Haile, PhD, Logs Time Simulating Missile Flight

If most of his friends and associates at the Army's missile and rocket center here fail to call him "Doctor", William B. Haile, Jr., doesn't feel offended. It's all part of his job. He happens to have another title at the moment—First Lieutenant.

Lt. Haile, who has a Ph.D in Engineering Mechanics, is assigned to the Army Missile Command's Research and Development Directorate doing research on future missile systems.

As part of his duties in the System Dynamics Branch, Advanced Systems Laboratory, Lt. Haile conducts research in many

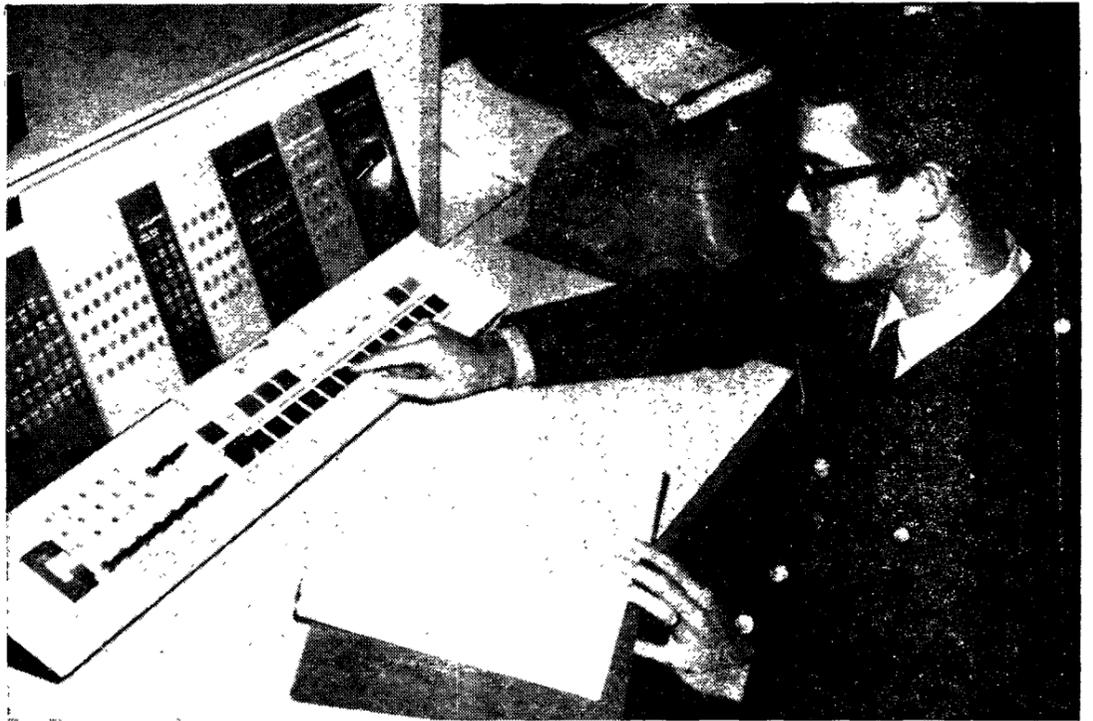

areas of flight mechanics.

A native of Washington, D. C., Lt. Haile is a 1962 graduate of Virginia Polytechnic Institute in Blacksburg, Va., with a BS in Engineering Mechanics. He remained at VPI to earn both his Master's and PhD degrees.

While working on his PhD, he taught engineering mechanics for nearly two years.

Lt. Haile's plans for the future are still fluid, "But I would like to continue working in the field of research and development," he said, "perhaps in structural mechanics."

He is married to the former Phyllis Marie Andis of Bristol, Va.

HAILE AT WORK—As part of the job in future missile system research, Lt. William B. Haile, Jr., logs a lot of computer time. Here he programs the computer to simulate missile performance. Lt. Haile, who has his PhD degree in engineering mechanics, works in the System Dynamics Branch, Advanced Systems Laboratory of the U. S. Army Missile Command's Research and Development Directorate.

Contractors, Gov't Study Radiation Effects On Electronic Systems

The Army Missile Command hosted a conference last week on radiation effects on Army guided missile electronic systems.

Approximately 200 representatives attended from Department of Defense Agencies, contractors involved in nuclear radiation studies or development of missile systems, and Missile Command laboratories.

The conference was divided into four sessions: Requirements

and Criteria; Basic Mechanisms and Applications; Electromagnetic Effects; and System Vulnerability Studies.

Lloyd I. Lively of the Command's Research and Development Directorate was chairman of the meeting.

The opening address was by Dr. N. F. Wikner, Deputy Director (scientific), Defense Atomic Sup

Mrs. Massey Named CARE Employee Of The Month

The only woman on the faculty of the Army Missile and Munitions Center and School, Mrs. Lois Massey, received the "CARE" employee of the month award from Louis W. May, deputy director of the school's Missile Components Department.

The plaque is awarded to the employee who does most toward the portion of the Army-wide "Zero Defects" program known as Cause and Error Removal. Seven of nine efficiency suggestions submitted by Mrs. Massey were adopted by MMCS management. She is the fifth recipient of the award since the program began three years ago.

A veteran of 35 years of teaching, Mrs. Massey has taught everything from elementary school to high school to Bible class. She graduated with honors from Harding College, Searcy, Ark., in 1931 and began her career in Oklahoma as a primary teacher. She has been an instructor in radio engineering and radio maintenance for the Air Force, a high school mathematics teacher, an Indian Service primary teacher, and a high school principal.

She came to the Missile and Munitions Center and School in June 1962 as electronics instructor and technical advisor. In her spare time, Mrs. Massey teaches piano and is a Bible teacher at Memorial Parkway Church of Christ in Huntsville.

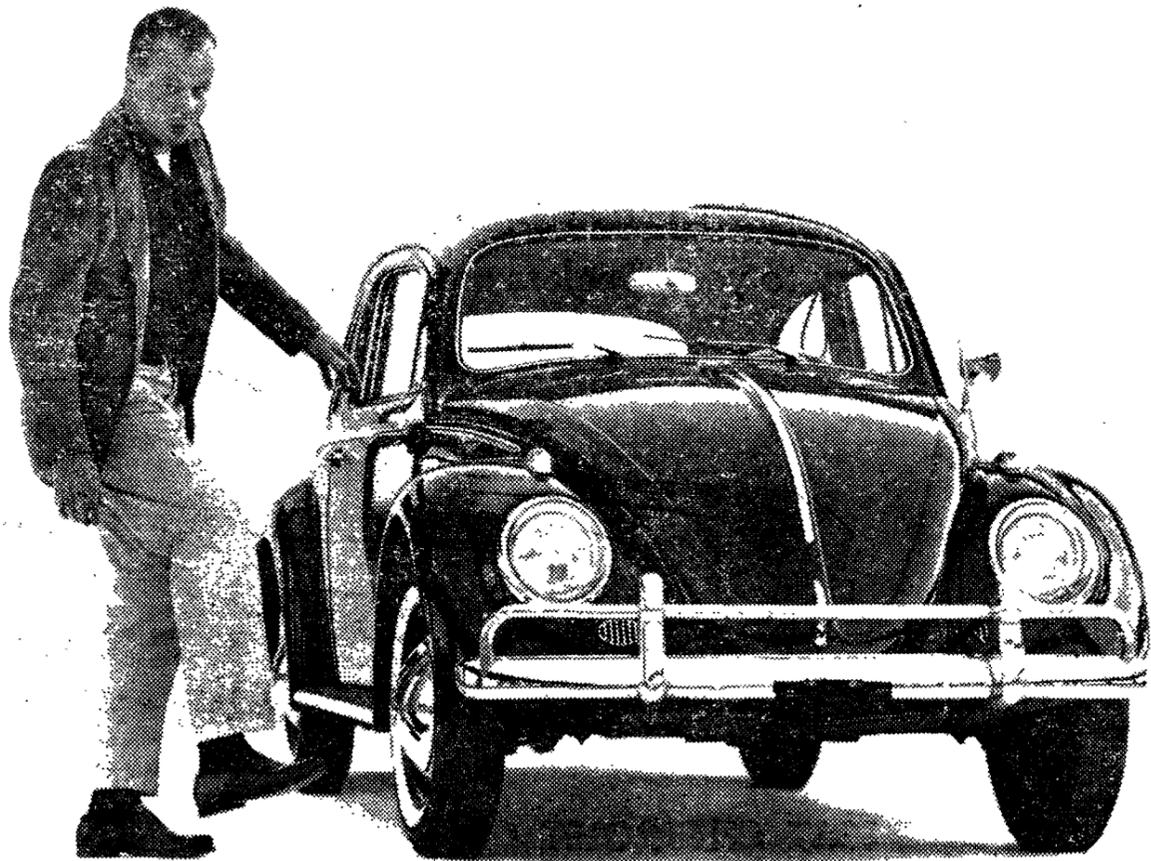

Mrs. Massey's mother, Mrs. J. L. McGregor, lives near Fort Worth,

Tex. Her daughter, Mrs. Sue Jordan, lives with her husband and two baby girls in Saint Louis, Mo.

CAPPING CEREMONY
Tuesday at 8 p.m. qualifying Volunteers in the American Red Cross program at Redstone Arsenal will be capped in a candle light ceremony at the Post Chapel.
Awards of chevrons and pins for services time will also be made during the ceremonies.

FIRST TO REPRESENT MALAYSIA—The Army Missile and Munitions Center and School recently graduated its first students from the Federation of Malaysia, the 31st foreign nation to be represented at this global training center. Cpl. Kamaruddin Bin Hamid (left) and Cpl. Abu Bakar Bin Abdul Rahman (right) received certificates of graduation from the ammunition storage course. The young men have returned to Malaysia for military assignment there.

©1961 VOLKSWAGEN OF AMERICA, INC.

Go ahead. Kick it!

One of the things most people do when they buy a used car is kick the tires.

It won't tell you a thing.

But we all do it.

It won't tell you, for instance, that this little beauty ('58, '59, '60?—who can tell with VWs?) has passed a rigid 16-point safety and performance check.

Or that the entire car, inside and out, has been

renovated, rehabilitated, washed, polished and put in first-class running order.

People who kick tires are right about one thing: they're concerned about how the car stands up. That's why so many people are looking at VWs. New and used.

VWs are very solid little things.

So go ahead. Kick it. Be our guest.

Dental Assistants Begin Training On November 28

A training class for Red Cross Volunteers as dental assistants at the Post Dental Clinic will begin Nov. 28 at 8:45 a.m.

Trainees will have ten hours of orientation and 30 hours on the job training to earn certification.

Redstone Arsenal is one of very few posts who use Red Cross Volunteer dental assistants although some stations in Germany do.

Details and registration can be obtained by contacting Mrs. D. E. Bowers, 881-4656 after 4 p.m. Registration closes Nov. 20.

METEOROLOGISTS MEET

The American Meteorological Society will meet tomorrow at 7:30 p.m., in the Large Conference Room of the Lockheed Missiles and Space Company, in Research Park.

Dr. A. M. Holliday, Technical Assistant at Marshall Space Flight Center, will talk about: "From Sand to Circuits to Saturn". He will discuss the fabrication and characteristics of microcircuits.

Persons acquainted with the field of chemical electronics will also find the talk of special interest. The general public is invited to attend.

Lt. Col. Dorchak Speaks To Graduating Classes

Graduates of the Army Missile and Munitions Center and School here Thursday were urged to keep up with the times by their guest speaker, Lt. Col. Steven Dorchak, project officer in the Redeye missile division of Army Missile Command.

In remarks to the missile students, Lt. Col. Dorchak pointed out that a solid foundation in technological information has been laid for them, but that "the particulars you know will be obsolete in 1980."

By 1980 man will be on the moon and the everyday shopping of the housewife will be conducted by a push-button grocery index directly connected to a warehouse which will select, bag and deliver the goods all electronically, he predicted.

Possibilities such as these create the need for constant study, re-evaluation and "staying with the system" in the field of missiles, which Lt. Col. Dorchak deems a "glamorous business."

He also directed attention to the graduating members of the munitions field, calling them the "backbone of the Army."

At the commencement ceremony

LT. COL. STEVEN DORCHAK

IMPROVED HELICOPTER

Improved helicopter performance to reduce losses and improve aircrew rescues in Vietnam is currently being worked on by Defense Research and Engineering. While speedy pilot pick-ups are made in South Vietnam, combat aircrew recovery in the North is complicated and requires increased hover performance and speed of rescue vehicles. As for reducing helicopter attrition, additional means such as better armor and directional ground fire detection equipment is an immediate goal. (AFPS)
