'We Care' Sends Christmas Gifts To Vietnam

GIFT FROM SPAIN—Brig. Gen. C. C. Harvey, Jr., (left) Deputy Commanding General for Air Defense Systems, accepts for the Army Missile Command a sword presented by Spanish officers this week during their visit to Redstone Arsenal. Making the presentation are Brig. Gen. Juan Rodriguez Carmona and Brig. Gen. Jose Vignote Berro, Chief of AAA units in Spain. While here, the Spanish party was briefed on the Hawk air defense system and maintenance procedures as part of their Annual Service Practice.

Combat Developments CG Visits Redstone Agency

Lt. Gen. Harry W. O. Kinnard, Commanding General of the U. S. Army Combat Developments Command, Ft. Belvoir, Va., was scheduled to visit facilities at Redstone Arsenal here yesterday. The Combat Developments Command is one of the three major divisions of the Army and is responsible for developing what the soldier needs to sustain him in combat.

Upon his arrival at Redstone Army Airfield, Gen. Kinnard was to be greeted by Col. R. H. Edger, Chief of the CDC Maintenance Agency here and Col. Paul B. Schuppener, Commandant of the Missile and Munitions Center and School.

Then the general was to pay a courtesy call on Brig. Gen. C. C. Harvey, Jr., Deputy Commanding General for Air Defense Systems at the Army Missile Command.

The agenda called for a visit to the Combat Developments Command Maintenance Agency's headquarters to be briefed by Col.

LT. GEN. H. W. O. KINNARD

Edger. Following this talk with Col. Edger, Gen. Kinnard was to (See CDC HEAD VISITS on Page 3)

Col. Dunn Now Heads Operations

The appointment of Col. Horace B. Dunn, Jr., as chief of the office of operations at the Army Missile and Munitions Center and School at Redstone Arsenal, Ala., was announced by Col. Paul B. Schuppener, commandant. It was effective on Nov. 27th.

Col. Dunn succeeds Lt. Col. Milton I. Fogel who is soon to be reassigned to duty in Okinawa after serving here since July, 1965. Col. Dunn reported here last July from Rock Island Arsenal, Ill., and has been director of the ammunition department in the directorate of individual training.

A veteran of 28 years of Army service, Col. Dunn began his career as an enlisted man and won his commission at Officer Candidate School in 1942. He has attended La Salle Junior College in Illinois and Humboldt State College in California, as well as the Army Command and General Staff Col. (See COL. DUNN on Page 3)

Shillelagh Men Meet At Arsenal

Community Cooperation Makes Merry Christmas Possible At Hospital

Missilemen who are connected with the development of the Army's Shillelagh anti-tank weapon system today began a two-day meeting at the U. S. Army Missile Command.

Col. C. D. Sterner, Deputy Commander for Land Combat Systems, welcomed conferees this morning and set the stage for the Shillelagh Special In-Process Review.

Among those attending are representatives from the Army agencies concerned with the Shillelagh program in each of its applications—the General Sheridan, the M60A1E1 Tank and the Main Battle Tank 1970. Other agencies include the Army Materiel Command, Combat Developments Command, Test and Evaluation Command, Missile Command and Headquarters Department of the Army.

The Missile Command Shillelagh Project Office is sponsoring the review under Col. Spencer R. Baen, Shillelagh Project Manager, who is the program chairman.

"The purpose of the review," (See SHILLELAGH on Page 3)

Gen. Eifler Hospitalized

Maj. Gen. Charles W. Eifler, Commanding General of the U. S. Army Missile Command, entered Martin Army Hospital, Fort Benning, Ga., Monday for urological surgery for the treatment of a cyst on the kidney.

Brig. Gen. C. C. Harvey Jr., Deputy Commanding General, Air Defense Systems, will be acting Commanding General pending Gen. Eifler's return.

Although there will be no snow in the tropical climate of Vietnam, Christmas for patients and staff members of the 93rd Evacuation Army Hospital will have trees, trimmings, gifts and cards, thanks to Huntsville area residents.

Almost 800 gifts were sent through the Operation We Care booths which were set up to see that the Community's adopted hospital personnel had a merry Christmas.

"We supplied 300 gifts to staff members and 487 to the patients," said Mrs. Joseph T. Prendergast who coordinated the Christmas Booth activity for Operation We Care. "The Girl Scouts in Huntsville also forwarded 2,000 Christmas cards as a volunteer project," she added.

John W. Houtz, Community Chairman for Operation We Care, said that the number of gifts forwarded was greatly aided by the fact that organizations and one individual donated groups of gifts. These included Redstone Saddle Club, Republican Women's Club, Officers Wives Bridge Club, Key Club of Huntsville High School, MARS Women's Club of Marshall Space Flight Center, Cumberland Presbyterian Women of Good Shepherd Church and R. W. Richter.

Mrs. Pat Houtz, who served as a chairman for acquiring Christmas trees, said that a small tree for each ward and one 15 foot tree had been shipped to the Hospital.

"Green trees with all trimmings were purchased," she said. "Several organizations throughout Huntsville donated the money for purchase and shipping."

The Operation We Care booths were operated by more than 200 women volunteers of the Huntsville Pilot Club, Redstone Arsenal Officers Wives Club, Redstone Arsenal NCO Wives Club, and the MARS Women's Club.

Houtz concluded, "Operation We Care Christmas support to the Hospital was successful. It is a tribute to the community, and the officers of We Care appreciate the efforts of all."

Arsenal Aircraft Burns In Maryland

An aircraft assigned to the U. S. Army Missile Command caught fire in the air Tuesday of last week and made an emergency landing in a farm field approximately 15 miles west of Baltimore, Md. The crew of three escaped without injury.

The aircraft, a twin engine C-47, departed Redstone Arsenal Army Airfield about 5:30 a.m. CST on a routine flight to Aberdeen Proving Ground, Md., where it was scheduled to pick up cargo and fly on to Otis Air Force Base, Massachusetts.

At about 10 a.m. EST while the aircraft was passing West of Baltimore, the number two engine caught fire. When attempts to extinguish the fire failed, the crew made a successful emergency landing in a field off Rt. 144 near Elliott City, Md. The aircraft was de- (See PLANE BURNS on Page 3)

NONE HURT IN CRASH—Firemen use foam to put out a fire aboard a C47 cargo plane which crash-landed 15 miles west of Baltimore last week after one engine caught fire. The plane was

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$6.36 a year, or \$3.50 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

Rocket Ruminations

Men who are called model husbands needn't get all puffed up over it; according to the dictionary, "model" is "a small imitation of the real thing."
—Fred Clifford

A Lady Thanks You—

A lady from Decatur, Illinois thinks the soldiers at Redstone Arsenal are knights in shining armor—mounted on a white Falcon.

It seems she was stuck with a flat tire on a road leading from U.S. 36 to Bement, Ill., when two young men in a Falcon stopped, changed the tire for her and hurriedly put their tools away and took off before she felt she had properly thanked them.

She wrote the Personnel Officer to let it be known that she is grateful to two young men, travelling on a tight schedule who would take the time to help someone in distress.

She told the Personnel Officer, "... If there is any way to enter a merit on their records for such an act of helpfulness, they certainly deserve it."

It All Adds Up

Money seems to be a major concern of everyone. Not only how to make and save money, but more importantly, how to spend it wisely.

Government, business, industry, organizations, families and individuals are vitally concerned with getting the most for their dollar. Magazines and newspapers frequently publish articles on "How to Cut Costs" and "How to Get the Most for Your Money."

The Department of Defense and the various armed services are no different. They, too, want to cut costs and get the most for their dollar, or rather, the taxpayers' dollar.

The Department of Defense and the individual services have programs to cut spending and waste and to insure maximum economy and efficiency.

But what does this have to do with you? Why should you worry about government spending?

You should be concerned because it's our money that is being spent. More than half of every dollar you pay in taxes is spent on our defense establishment in one way or another.

Now, what can you do to help save your money and how much difference does it really make? Whether you are in an administrative field, a mechanic, vehicle operator or whatever, you can treat the material, tools and equipment you use as if you were paying for them out of your own pocket. Use them wisely, treat them carefully and eliminate all unnecessary waste.

What you help save as an individual may not amount to a great deal, but coupled with the dollars saved by other personnel, it adds up to millions of dollars each year saved because individuals are cost conscious.

No program can be totally successful without the complete cooperation of everyone. In the past five years, the Department of Defense has saved more than \$14 billion through the Cost Reduction Program.

There is, however, much more that can be done and that is where you come in. Remember, it's your money.
(AFPS)

COL. J. N. JEAN
TO INSTALL OFFICERS

Sojourners, Heroes Will Install Officers Friday

Officers will be installed Friday night for the Redstone Chapter of the National Sojourners and the Monte Sano Camp of Heroes of '76 at the Redstone Officers Open Mess.

Col. J. N. Jean, director of the Arsenal Support Operations Directorate will be the installing officer.

The newly elected officers for the Sojourners are: Earl D. Hicks, president; Don S. Hanline, first vice president; Joseph A. Justin, second vice president; W. O. Aden third vice president; George N. Elledge, secretary; and C. R. Richards, treasurer.

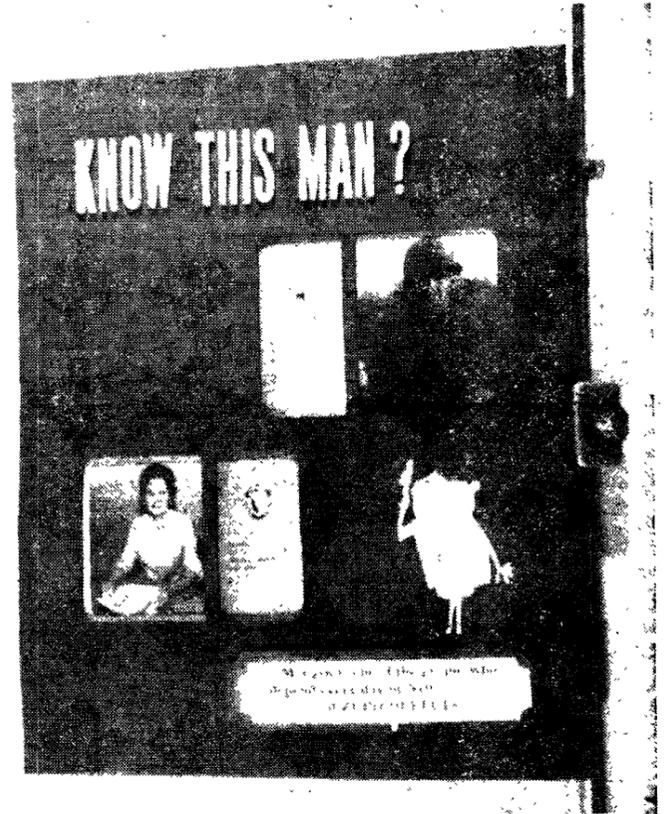

The Heroes officers will be: Joseph A. Justin, commander; Donald M. French, Chief of staff; James F. Nixon, Jr., Paschal S. Redding, Jr. and John H. Graham, assistant chiefs of staff; George Elledge, adjutant.

Wives and girl friends are invited. Reservations are being handled by Charles Rollins, 876-3032.

NEW HAT—Mrs. Randolph L. Scott caps her husband with his new field grade officer's hat. Maj. Scott was appointed chief of the foreign liaison division of the Army Missile and Munitions School the same day he received his promotion to major.

New Foreign Liaison Chief Changes Hats, Changes Job

Nov. 20 was an eventful day in the life of Randolph L. Scott, as he was promoted to Major and also appointed chief of the foreign liaison division by Col. Paul B. Schuppener, Commandant of the Army Missile and Munitions Center and School.

Maj. Scott, who succeeds Maj. E. W. Schroth in the liaison office, came to Redstone Arsenal for schooling in the ammunition and missile maintenance officer courses and his present assignment from headquarters of the 191st Ordnance Battalion in Vietnam.

He received a Bachelor of Science degree in chemical engineering from New Mexico State University in 1959 and entered the U. S. Navy a year later. Scott was commissioned as a Navy ensign through officer's candidate school, then received a direct Army commission through interservice transfer in May, 1965. His previous assignments include duty with an

oceanographic detachment, as well as nuclear weapons training at Sandia Base, N. M.

Scott now lives at 327 Roberts Drive on Redstone Arsenal with his wife, Barbara, and two children, Rosilyn, 6, and Lewis, 5.

Volunteers Receive Caps

Twenty-one new Red Cross Volunteers were capped last week by Maj. Georgia Hasler, Chief Nurse at the U. S. Army Hospital at Redstone Arsenal.

Ceremonies were held in the Post Chapel. Mrs. Joseph Holmes, assistant chief of Hospital (Clinic) Volunteers assisted Maj. Hasler.

Maj. Hasler, who has been at the Hospital since the Spring of 1965, was presented a Red Cross certificate of appreciation and was thanked by Mrs. Zacarias Rael, Chief of Arsenal Volunteers.

Those receiving caps were: Mrs.

Franklin Cochran, Mrs. Niles Crouch, Mrs. Woodrow Crum, Mrs. Steven Dorchak, Mrs. William Eaton, Mrs. Gleenwood Flint, Mrs. Arthur Gregory, Mrs. Allen Hendley, Mrs. Paul Herring, Mrs. Richard Holder, Mrs. Jon Lindenauer, Mrs. Robert Loy, Mrs. Robert Mann, Mrs. John Mumford, Mrs. Fredrick Niedermeyer, Mrs. Ben Powell, Mrs. Dean Rodeman, Mrs. Randolph Scott, Mrs. Donald Sherrow, Mrs. James Stimach and Mrs. Carol Waller.

Mrs. Milton Jones, chief of Hospital (Clinic) Volunteers, presented the class pins and Col. J. N. Jean presented certificates. The Colonel is director of the Arsenal Support Operations Directorate.

Mrs. Henry Arrott, vice chief of Arsenal Volunteers led the Volunteer pledge and Lt. Col. Russell Gale, Post Surgeon, accepted the new class on behalf of the hospital.

Chaplain John P. Kirkland, Jr., gave the invocation and the benediction and Mrs. Andrew Garbrant, an Arsenal Volunteer, served as organist.

Immediately following the ceremony, a reception was held in the Chapel social hall honoring the newly capped volunteers. Mrs. Louis Strihafka, Mrs. Thomas Kelley and Mrs. Earl Kingsley served as hostesses.

SCHEDULE MEETING

Frank G. Broyles, deputy chief of the Systems Requirements and Test Division of the Sentinel Missile System Command, will speak on the overall aspects of the Sentinel System at the meeting of the Society of Aeronautical Weight Engineers tomorrow. Films on the Sentinel System will be shown. The meeting will be at the Stork Club, Catalina Motel at 8 p.m. preceded by a social and dinner at 6:30 p.m. For reservations telephone Fred Clark at 842-3226.

HUBER TO TALK TO METALS MEN

The American Society for Metals will host a joint meeting with the Society of Aerospace Material and Process Engineers Dec. 7, at Michaels Restaurant, Holiday Inn West, beginning at 5:30. For reservations, call Earl Hasemeyer at 876-2405.

Guest speaker will be Oren J. Huber, assistant director of the Metals Engineering Institute of the American Society for Metals. Huber holds a B.S. degree in engineering physics from Ohio State University and has done graduate work in the fields of metallurgy and education. In the course of his career with Battelle Memorial Institute, Jack S. Heintz, Inc. and the Sandia Corporation, he has been involved in both non-destructive testing and processing of metals. In addition, he has teaching experience both in the Navy and in the California school system.

Huber's subject will be "The Metallurgist in the Plastics Industry."

Special guests of ASM for dinner and the technical program will be David Vial, President of Explorer Post 306 and five other members of the post.

BAND SCHEDULES CONCERT AT POST SERVICE CLUB

The 55th Army Band, under the direction of CWO Dewitt H. Mytinger, bandmaster, will give a Seasonal Concert at the Post Service Club Sun. Dec. 3 at 8 p.m.

Special guest entertainers appearing with the band will be the Redstone Officers Wives Chorus, directed by Mrs. Morris Pettit and harpist, Mrs. John Mumford. Another special feature of the program will be the presentation of Im Weissen Roessl for the members of the German Community.

The 55th Army Band was activated at Redstone Arsenal by Mr. Mytinger in 1958, when he was transferred from Ft. Polk, La. He was transferred to Frankfurt, Germany in 1963 and returned to direct the band at Redstone Arsenal this year.

Tariff Retaliation Possible Rusk Testifies To Senate

Under the principle of reciprocity governing our trade relations with other countries, our trade partners would be entitled to retaliate against U. S. exports if stiff import quota bills were enacted. Massive retaliation by other countries against U. S. exports would cause severe damage to the national economy as well as to our

foreign relations. Secretary of State Rusk, testifying on October 18 before the Senate Finance Committee which is considering the legislation, said: "If we keep out imports, foreigners will keep out our exports, which means reduced employment for Americans. As trade barriers rise, there will be an increased incentive for our own entrepreneurs to establish or buy up subsidiaries abroad in order to get inside the barriers erected against our direct exports. Again, this would mean fewer jobs for Americans."

The Secretary also pointed out that a reversion to a protectionist policy "would nullify 20 years of our efforts in Western Europe to build up a healthy partner able to defend itself and join us in meeting the vast needs" of the developing nations. "A massive outbreak of trade restrictions in the United States would turn Western Europe inward and against us," he emphasized, "because it would have no realistic alternative. This would have incalculable consequences for our political and military positions."

President Johnson on October 23 also addressed himself to the problem of "healthy trading conditions on which the prosperity of many nations depend." He stressed the importance of "preserving the gains won in the Kennedy Round" of tariff negotiations. Under the June 30 agreement that resulted from the Kennedy Round, the most sweeping tariff concessions in history, covering about \$40 billion of world trade, were exchanged among 53 nations. During the next four years much lower tariffs against U. S. exports in Europe, Canada, and Japan are to come in-

to effect in stages, according to the agreement.

Noting that "freer trade often causes temporary but painful dislocations," President Johnson agreed that tariff concessions "will not be easy." But "we must consider our common interests to protect our consumers, to promote competitive industry and agriculture, and to raise the productivity and wages of our workers," he stated, adding: "We have an enormous stake in keeping and extending the benefits of 30 years of constructive trade policy."

A THANKSGIVING WISH—Sgt. First Class Walter C. Gibson, a patient at Redstone Army Hospital, wishes he could take a bite of the Thanksgiving cake baked by Madison County's champion cake baker, Miss Lyla Carol McMullen. The petite student, who was awarded four blue ribbons at the recent County Fair for her cooking, presented the Army hospital with this and a "sweet pea" cake for the holiday. She is the daughter of Mr. and Mrs. Blake McMullen of Gurley, Oh, yes, about the sergeant. Capt. Marie Cahn, a nurse at the hospital, stands by to see that he sticks with the rigid 1,000 calorie daily diet prescribed for him.

How to save money regularly, in spite of yourself

Just ask your paymaster for a card like the one above, and fill it out.

This makes you an official member of the Payroll Savings Plan, entitled to all the rights and privileges thereof.

From now on saving money is no problem. Every payday, your employer sets aside a little from your check and puts it toward the purchase of a U. S. Savings Bond. Your savings come automatically. There's no temptation. No backsliding.

You can get your savings when you need them. But, of course, they'll be worth 33 1/3% more if you wait until your Bonds reach maturity.

Being a Payroll Saver entitles you to feel pretty proud of yourself, too. Because your savings help protect your country's future as they help provide for your own.

Why not talk to your employer and get started saving regularly this payday? You'll be amazed at your new perseverance.

Rohm And Haas Has Shoot On Pitts Big Cove Farm

The J. P. Pitts farm in scenic Big Cove community was the site recently of Rohm and Haas Company's annual Turkey Shoot. This event is one of the highlights of the social activities sponsored each year by the company's Employees Association.

The shoot was attended by about 375 people, and 23 were lucky enough to take home a turkey. Three or four rounds were limited to the ladies and children. The table fare was appropriate and ample—with barbecue and all the trimmings. J. P. Pitts, long-time

employee of Rohm and Haas Company's Redstone Research Laboratories, has hosted this event for the past six or seven years, and his farm has become part of the tradition.

Ed Allen is president of the Rohm and Haas Company Employees Association, and Joe Atnip is chairman of the Athletic Committee. The Redstone Research Laboratories of Rohm and Haas Company operate under contract with the Army Missile Command to conduct exploratory development in chemical and engineering technology.

ROHM AND HAAS MARKSMEN

Bob Oliver High As Six Bowlers Hit Honor Roll

Four Honor Roll counts in the Supply Management League and another pair in the Redstone League turned last Monday into a banner night for the Arsenal's civilian bowling fraternity.

Fred Stewart, Bob Oliver, Ernie Danes and Floyd Clark authored the better than 600 totals at the Starlite Lanes while Earl Estes and Bill Lasewicz joined the elite company during the weekly Pin Palace session of their league.

A regular contributor to the Honor Roll, Stewart fired a 614 as the All-Sports Trophies leaped over the Huntsville Brick and Tile keglers into the league's throne. room. Chet Wysocki chipped in with a 547 as the Trophy makers took all four from Lily Flagg. Ed Gilgenast shot a 558 in the losing cause.

Danes proved to be the culprit for the Tilers as they dropped all four to the Pin Busters. Ernie uncorked a 628 set that included games of 212 and 225.

Oliver and Clark were pitted against one another with the latter's Rambler quintet coming out with a 3 to 1 win. Oliver, however, had the better of the duel, 638 to 613, on games of 212, 201 and 225. Clark had a 299 and a 217.

The Auto Center featured a father-son attack for the third sweep of the evening over Building Supply. Morgan Caudle hit for 587 and his son, Bill, flattened 541 more sticks. Henry Vaughn clouted a 573 for the Suppliers.

Jim Likos shot a 567 for the Bushwackers and Hal Miller turned in a 552 for the Shoot n Scoots as the two teams split even in the final league match.

Estes strung together games of 228, 204 and 200 for a 632 set in leading the Alabama Commission to a sweep over the Super Hawks in a Redstone League match.

He got a lot of help from Jim Lawrence with a 576 in pacing the Commission to a 3069 team total. Don Wright turned in 593 for the Hawks.

The Zale Jewlers were even more proficient with Lasewicz at the helm. Bill shot an opening 246 for a 627 series, Julian Wil-

liams added a 580 and Ed Waldrup accounted for 557 more as the Jewelers turned in a 1077 game and a 3105 series. It was good for three out of four from the Holcomb Agency.

The League-leading Facts quintet had a 1068 game and a 3010 set in winning a trio from the Credit Union. Jim Mathus was the top gunner with 589, Ron Daigle turned in a 566 card and Marty Schmitz shot a 555.

Ray Profitt with 580 and Bill Marshall with 555 paced Dean's Trailer Court to a trio of points from Valley Cleaners and Bill Hackett accounted for 565 maples as the Control Office won three from Wright's 66. Jim Stewart shot a 566 total for the filling station five.

Gibson took all four points from Pin Palace, Burkett's won a trio from Standard Oil and the Hornsby five won three out of four from the Hawks.

CWF Girls Team Keeps On Winning

Not even an injury that sidelined one of their key offensive threats was enough to slow down the Missile Command girls basketball team as they raced to their sixth straight win in the Huntsville Industrial League last week.

Their 66-58 conquest of Brown Engineering enabled the Civilian Welfare sextet to complete the first round with a victory over each of their six rivals.

Boeing had little trouble in disposing of Space Craft, 83-51, and MARS led all the way in handing General Electric a 75-49 setback in other games played at the Joe Bradley school gym this week.

The MICOM hopes suffered a jolt early in the game when their ace play maker and rebounder, Gladys Hill, was forced to leave the game after turning her ankle. But Pat Jones moved into the fore court and kept the high scoring attack rolling.

ROD LIDE DISPLAYS HIS WINNING TARGET.

Yvonne Marks was once more the high scorer for the Army girls with 37 points. Pat accounted for 18 more and Wynell Newton hit for eight. The Clark sisters, Peggy and Cathie, provided most of the Brown scoring with 48 points between them.

MARS got a 39-point production from Gayle Buckbee in handling

the GE sextet their fourth loss in five starts. Peggy Hayes added 24 points to the winning margin while Connie Kirkpatrick tossed in 34 for GE.

Jean Thomas was the top gunner in the Boeing attack that saw eight different girls score. She shot 25 points and Billy Faye Bass hit for 18 more. Bonnie Pike was

the Space Craft leader with 22.

Rugby Club Ends Season Saturday

The once-beaten Redstone Rugby Club will try to close their fall season on a winning note Saturday when the undefeated St. Louis University ruggers come to the Arsenal for a game.

Redstone won the only previous game with the invaders when they handed the Billikens a 11-9 setback in the Easter Rugger Fest in St. Louis last April. Chuck Wells, a member of the Redstone team, captained the St. Louis team for four years prior to being assigned to the Arsenal.

The Sentinel System Command officer played a starring role in the local team's win over Atlanta here last Sunday. Wells accounted for two tries as Redstone overwhelmed the Georgians, 31-3, for their sixth win in seven starts.

In turning back the Atlanta invasion, Redstone gained revenge for their loss suffered last month in the Georgia capital.

Other scorers in the latest win were Frank Coble, Dave Olmschenk, Ray Durbin, Bob Taylor and Hall Bryant, each of whom scored a try. Andrea Nageon deLestana kicked five conversions.

The Third U. S. Army maintains 94.2 million square feet of building space. This space is equivalent to that of approximately 43 Empire State buildings.

MANAGEMENT COURSE COMPLETED—Mrs. Evelyn K. Hollingsworth receives her certificate for completion of 132 hours of home study in a correspondence course from the Army Logistics Management Center. Col. S. C. Holmes, Director of the Missile Command Procurement and Production Directorate, made the presentation. The recipient is employed in the Directorate's Procurement Requirements and Production Division.

DON'T WATCH TV TOMORROW NIGHT!

Watch yourself instead! See yourself developing into a more positive, more confident, more effective person. How? By giving up a few passive evenings of TV-watching to attend the Dale Carnegie Course. Too tired? Perhaps you're just bored. Men and women who **have** taken the Dale Carnegie Course say it fills them with new goals, new energies and greater interest in life. Many say it has even helped them get better jobs and more money. One thing is certain: The Dale Carnegie Course can help you find hidden powers **within yourself**. It can even make TV more interesting!

LT. COL. H. L. ELLIOTT

Lt. Col Elliott Heads Ammunition Department

Lt. Col. Harry Lee Elliott replaced Col. Horace B. Dunn as director of the Ammunition Department of the Directorate of Individual Training at the Army Missile and Munitions Center and School on Nov. 27. Col. Dunn has become chief of operations at the School.

Elliott served briefly as the director of the Missile Components Department before his present assignment. Before coming to MMCS, he was at the Army Calibration Agency, Pirmasens, Germany.

Elliott was brought up and educated in Kentucky, graduating from Eastern Kentucky University where he received his commission from the Reserve Officers Training Corps in 1953. He holds a Bachelor of Science degree in Business Administration.

A retired Navy captain recently found, among his papers, fragments of two \$50 Savings Bonds recovered when his ship was sunk at Pearl Harbor. The Bonds are now worth \$162.52, but rather than exchange his fragments for replacements, the captain is keep-

ing them as mementos. Meanwhile, the interest continues to grow—at the current rate of 4.15 percent.

Third U. S. Army repairs and maintains 550 miles of railroad.

'Tis the season!

When you do, ring Mutual.

Gifts, decorating, clothes, entertaining and more gifts . . . the list grows by the hour!

There's every reason to need extra money this season. That's why we want you to call us. Because whatever you need money for is okay with us. And our okay is just as BIG as anybody's.

Call now or come on in and get your money today. To be jolly!

Your Mutual man will understand.

Contractor Shares In Savings On Shillelagh

NEWPORT BEACH, Calif. — A Lawson, Philco-Ford vice president senior official of the U. S. Army Missile Command has presented Philco-Ford Corporation's Aeronutronic Division a cash award of \$14,503.78 as the Newport Beach firm's share of \$58,000 saved by the Government. The award was the first increment of Aeronutronic's share in several million dollar savings on the Shillelagh guided missile program.

The savings resulted from value engineering design changes to the Shillelagh missile suggested by Aeronutronic engineers and approved by the Missile Command. Under Department of Defense policy, Aeronutronic shares in savings actually realized by the Government over a three-year period. This share or "royalty" is paid in increments as missiles are delivered.

Morris H. Knight, Chief, Systems Contract Division, P & P Directorate, presented the value engineering royalty check to John B.

Lawson, Philco-Ford vice president and Aeronutronic Division general manager.

Knight noted that DOD policy provides contractors with substantial financial incentives to undertake value engineering, because both the Government, and ultimately, the American taxpayer benefit from the savings which result.

Lawson explained that the value engineering program represents a conscious effort by Philco-Ford to develop cost-cutting ideas beyond that which are already a contractual obligation. Government approved value engineering proposals on the Shillelagh Program are expected to net over \$10 million in savings over the next three years, with the savings split between the Government and the Contractor.

"This proves that saving money can really pay off," Lawson said. "It's almost like receiving a tax refund."

VE SAVINGS PAYS OFF—Morris H. Knight, seated left, Chief, Systems Contract Division P&P Directorate, U.S. Army Missile Command, Redstone Arsenal, presents \$14,503.78 check to John B. Lawson, Philco-Ford vice president and Aeronutronic Division general manager, seated at right, as H. J. Langlie, director of Product Assurance, standing left, and E. L. Montgomery, standing at right, Aeronutronic Tactical Missile Systems Operation director, look on. Check was first increment of Aeronutronic's share of value engineering savings on Shillelagh missile program. Langlie is responsible for the Aeronutronic value engineering effort. (Philco Ford Corporation Photo)

Top Award Goes To Film Made At Missile Command

The U.S. Army Materiel Command recently won two first place awards, two third place awards, and an honorable mention award in the annual management film competition sponsored by the Industrial Management Society in Chicago, Ill.

Brig Gen. Jack E. Babcock, Director of Management Systems and Data Automation at HQ Army Materiel Command, Washington, D. C. represented Gen. Frank Beson, Jr., Commanding General of Army Materiel Command, at the Industrial Management Society Clinic Banquet in Chicago on Nov. 2.

The Industrial Management Society (IMS) is a professional management organization. AMC has been a member for several years with resultant benefits from the exchange of management knowledge, methods, and techniques between industry, education, and

government.

The U. S. Army Missile Command, won first place for its film "The Standardization Concept", in the management techniques category; and Aberdeen Proving Ground, won first place for its film "Quick Change Artistry", in the methods improvement category.

Headquarters, Army Materiel Command, Washington, D. C., won

third place in the management motivation category, for its film "Cost Reduction is a Money Splendid Thing"; and Anniston Army Depot, won third place for its film "Pursuit of Excellence," in the management techniques category.

Tobyhanna Army Depot won an Honorable Mention award in the methods improvement category for its film, "Full-Time Value with CONEX".

'Pershing Tech' Graduates Experts On System

"What gates MILI-23 into the DIM during a TIR instruction?"

So reads one jargon-ridden exam question that faces a select group of students attending special schooling in Orlando, Florida.

The question, selected at random from the 25 contained in a weekly test paper, concerns the Pershing missile system. (The answer, we're told, is "ENFC.")

The students are career Army officers, warrant officers, sergeants and Army-employed civilians from across the nation, assembled in Orlando for technical training on the Army's 400-mile-range weapon.

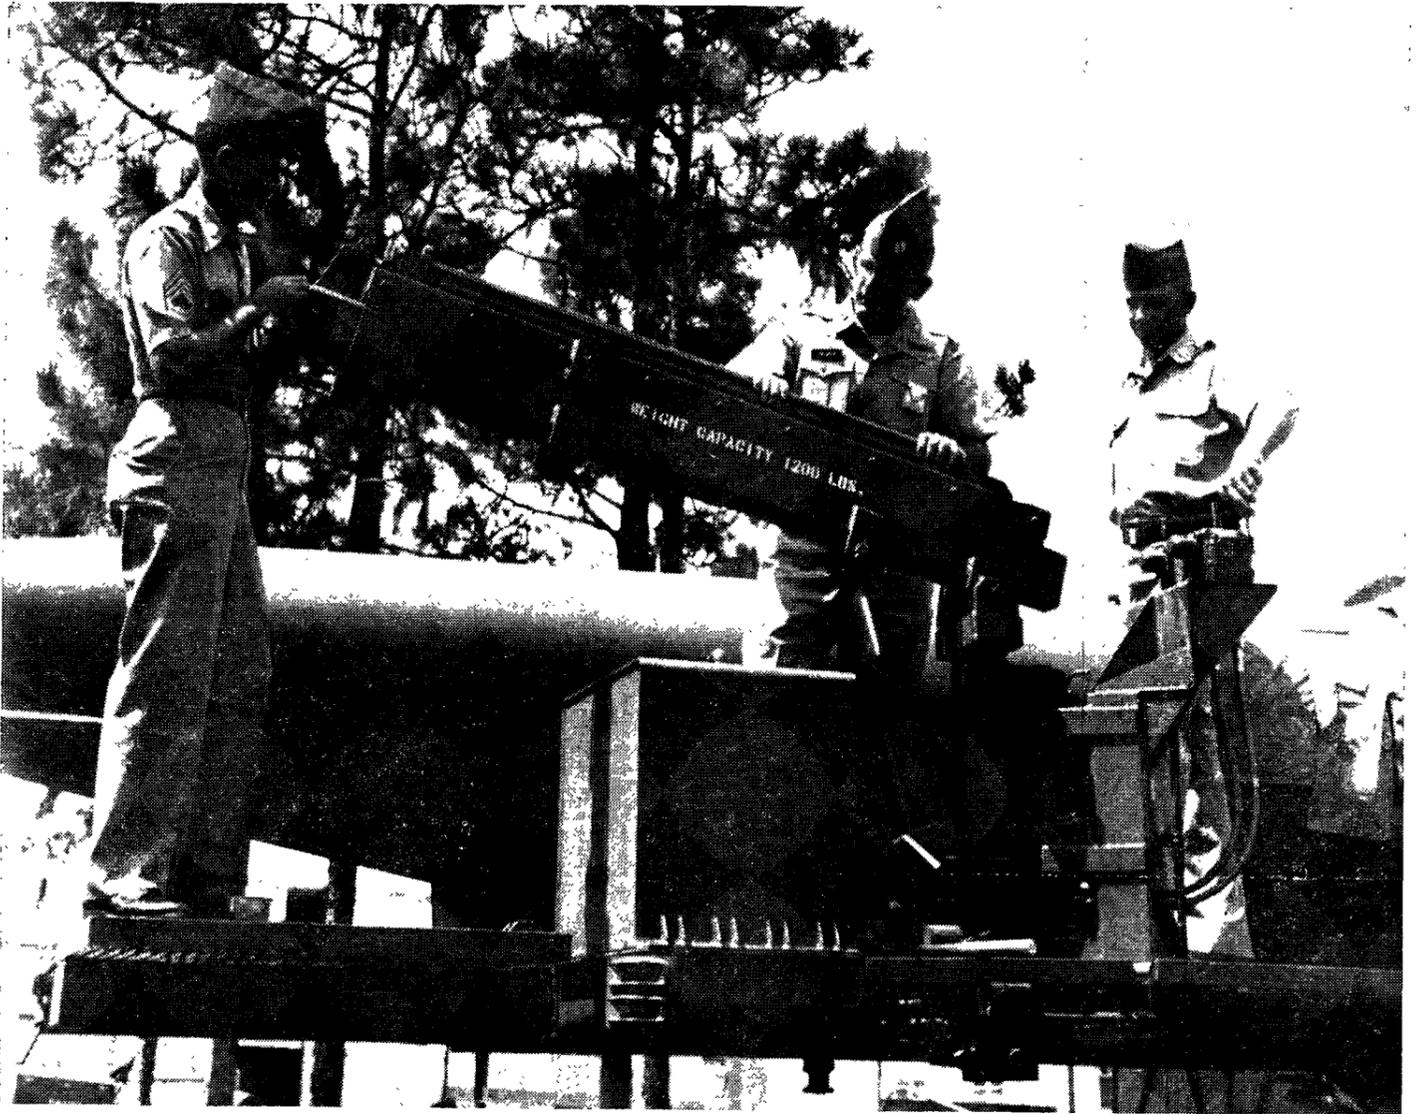

The classroom is on the second floor of building 10 in the sprawling complex that makes up the Martin Marietta plant on the southwest edge of Orlando. And the teachers are Martin Marietta technical experts who conduct some 20 courses covering six broad subject areas.

"Dean of men" for "Pershing Tech" is John W. Burkhart, a professional educator with a background in physics acquired from Elizabeth College in Pennsylvania. As chief of Pershing technical training, Burkhart heads a staff of instructors who will number 34 at the peak of the current training cycle early in 1968.

Working hand in glove with the Martin Marietta staff is Jack K. Rogers, who serves as "on-campus" coordinator and training officer for the Army. Rogers has his degree in education from Kansas State.

The program is conducted for the U. S. Army Missile Command, under whom Martin Marietta serves as prime contractor for development and production of the Pershing system. Lt. Col. Edwin A. Rudd is Pershing Project Manager.

Included in the program are 16 courses designed to train military instructors and Army civilian maintenance technicians in the new Pershing 1-A ground support equipment. Graduates of

OPERATING A HYDRAULIC LIFT on the Pershing improved erector-launcher are, left to right, Sgt. 1st Class Willie B. Juhan,

Captain Arthur H. Swisher, and Master Sgt. David O. Oliver—all Army students at the Martin Marietta Pershing school.

these courses will return to their home units where they will, in turn, train others in the improved Pershing system.

Four additional courses are offered to officers and enlisted men

who will run service tests on Pershing 1-A.

The curriculum includes courses in all technical aspects of the missile system to develop ballistic missile digital equipment technicians, missile maintenance technicians, inertial guidance and control repairmen, electro-mechanical repairmen, artillery maintenance technicians and missile maintenance repairmen, among others.

Courses range in length from four weeks to over four months, according to Burkhart, with the first two classes already underway. The final class in the series will graduate in April 1969. The peak of the training sessions will be reached in April 1968 when six classes of about 20 students each will be underway at one time.

The school runs eight hours, five days a week. School facilities include eight classrooms, a Pershing equipment laboratory, and an electronic trainer room. An outdoor area with actual equipment is used in some 40 percent of the instruction.

Written and performance examinations are given at the end of each 40 hours of instruction—

on the average of one a week—capped by a final exam at the end of the course.

Progress of the student is relayed to the Army in a series of reports which cover such things as attendance records, grades, ac-

ademic achievement, and cumulative averages.

Students attending the school, particularly for the longer courses, take families with them and take up temporary residence in Orlando.

California Firm Receives TACFIRE Contract Award

Data Systems Division, Litton Industries, Van Nuys, Calif., has been declared the winner of the Contract Definition Phase of the Army's TACFIRE Program in competition with two other contractors. The announcement was jointly issued by Maj. Gen. William B. Latta, Commanding General, U.S. Army Electronics Command and Brig. Gen. Wilson R. Reed, Commanding General, Automatic Data Field Systems Command.

TACFIRE is the short title for Tactical Fire Direction System, part of the Army's overall program to exploit the new technologies of data processing and subminiature electronics. This program, called "ADSAF" or Automatic Data Systems within the Army in the Field, is directed by Gen. Reed as the Army's Project Manager. TACFIRE is a digital computer based system which will be designed to increase the effectiveness of field artillery supporting fires by automation of functions heretofore handled manually. Significantly improved response time and accuracy are design requirements.

was a five month study in which three competitors submitted technical designs, contract proposals and price quotations for a "Total Package Procurement" of the TACFIRE system. This is a relatively new concept in the Defense Department wherein the Government contracts for the development, production and field support of a delivered system. This procurement is of particular significance because it is the first major Army project to undergo contract definition in which the ensuing procurement is to be placed on contract using the total package procurement concept. It is anticipated that the contract will be awarded to Litton Industries in the near future.

The Electronics Command at Fort Monmouth, N. J., furnished procurement and technical support to the TACFIRE Project Manager and will be the developing agency for TACFIRE. Many other Army and Government agencies participated during the Contract Definition phase and also in the evaluation of three proposal submissions of the competing companies.

Col. Frederick C. Spann, Director, TACFIRE Directorate, Auto-

OUTSTANDING INSTRUCTOR—SSgt. William Walter Cline receives a plaque for being the outstanding instructor of the post for this quarter from Col. Paul B. Schuppener, commandant of the Army Missile and Munitions Center and School, Redstone Arsenal. Cline is an instructor with the Hawk Division of the School which trains 10,000 students per year from the U.S. Forces and 32 foreign nations. Cline is a 1957 graduate of Findlay Senior High, Findlay, Ohio, where he played football. He is the son of Mr. and Mrs. William Daily Cline, 14801 NE 5th Ave., N. Miami Beach, Fla. His wife, the former Joyce Bowden, is the daughter of Mrs. Mable Bowden, 1636 Cherry St., Findlay, Ohio.

matic Data Field Systems Command, Ft. Belvoir, Va., has been designated the TACFIRE Program Director.

Allies To Graduate At Missile School

A class of 77 students from seven courses will graduate from the Army Missile and Munitions Center and School at Redstone Arsenal on Friday, Dec. 1. The ceremony will take place at 9:30 a.m. in the Post Theater and the public is invited to attend.

Included in the outgoing group are 15 U. S. Army officers, plus 62 enlisted men from the U. S. Army, U. S. Marine Corps, German Air Force and Danish Air Force.

Guest speaker for the occasion will be Col. Horace B. Dunn, Jr., the new chief of the office of operations, which is in charge of the planning and coordinating of training at MMCS. Col Dunn is a 28-year veteran with previous assignments with the U. S. advisory group to the Republic of China and with the combat operations center in South Vietnam.

SFC Dinse, SFC Gibson Commended For Suggestion

SFC Robert A. Dinse and SFC Charles Gibson received commendations for suggestions from Col. Paul B. Schuppener, commandant of the Army Missile and Munitions

Center and School.

Dinse designed noise suppressors for the radar system of the Hawk missile, which resulted in increased student safety and equipment effectiveness. Gibson designed a device that prevents overflowing of hydraulic fluid on Hawk missile test equipment.

Dinse, the non-commissioned officer in charge of the Hawk powered illumination building, came to the School from the 59th Artillery, Hanau, Germany. He is a 1947 graduate of Techumseh High School, Tecumseh, Mich., and a member of the Eagles, the American Legion, and the Jaycees.

An instructor with the Hawk Division of the Directorate of Individual Training, Gibson graduated from Griffin High School, Griffin, Ga. He came to the School from the 30th Ordnance Co., Korea.

LEGION OF MERIT—Col. John R. M. Covert, center, Redeye Project Manager, is awarded the Legion of Merit in a recent ceremony at the U. S. Army Missile Command. Doing the honors is Brig. Gen. C. C. Harvey, Jr., Deputy Commanding General for Air Defense Systems, while Mrs. Covert looks on. Col. Covert was cited for "outstanding performance" as Commander of the 69th Artillery Group, within the NATO air defense system, from August 1964 to July 1967.

Secretary Announces Way Reserve Strength Holds

The Secretary of Defense announced recently that in order to permit Reserve Components of the Army to meet the average annual strengths of 400,000 for the Army National Guard and 260,000 for the U. S. Army Reserve as specified in the 1968 Department of Defense Appropriation Act, each component would be authorized an allowance of 3 percent above

the Congressional mandate.

This additional authorization is designed to compensate for the fact that in recruiting and processing Reserve Components personnel, there is a lag between discharge of individuals and enlistment of replacements.

In the case of the U.S. Army Reserve, the 3 percent additional authorization will be distributed

among units presently programmed for the reorganized structure.

In the case of the Army National Guard, the 3 percent additional authorization will be used primarily to permit the creation of about 125 company and detachment size units to be added to the 2900 units presently programmed in the reorganized structure. This is in response to state requests for units to accomplish state missions.

There will be no significant additional costs resulting from these actions. The Army's budget already includes funds to support the Congressionally mandated strength. The Army's equipment procurement program will not be

augmented since the units added to the National Guard are being provided in response to state requests and are over and above Federal military requirements. The units will be issued equipment already included in the materiel program for mobilization reserve stocks.

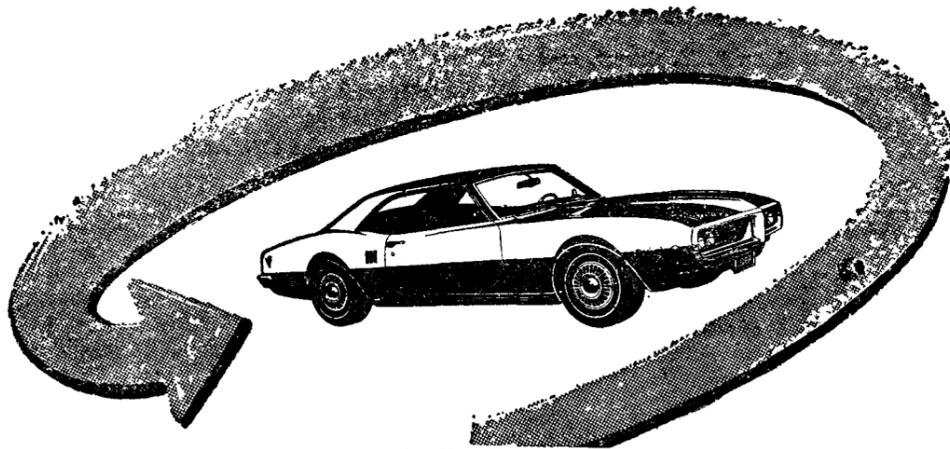

The date for commencing the reorganization of the Army's Reserve Components is Dec. 1, 1967.

Civilians Go To School To Further Develop Skill

Thirty-six Army civilians at Redstone will leave their normal duty stations next week to embark upon training courses under the Missile Command's career development program.

They will go to military schools, leading universities and contractor plants located in nine states and the District of Columbia. The advanced training courses range in length from a week to three months.

Under the program administered by the Training and Development Division of Civilian Personnel, Department of Army civilians have the opportunity to take advanced training in their career field for the purpose of maintaining their currency and to increase their promotion potential.

Eight of the locals will go to Rock Island, Ill., for training courses at the U. S. Army Management Engineering Training

Agency. Among these, George Elrod (R & D), Billy Poe (S & M), Leland Lavender (Sentinel) and Thomas Williams (Land Combat), will attend the two-week Top Management Seminar.

Robert Cleveland and Thomas Sanders (S & M) are enrolled for PERT/Cost, Ernest McGee (DASO) will take Management Statistics, and Frank Tipps (Hawk) will study Quality Control Management.

Another group of eight will go to Athens, Ga., to study Planning, Programming and Budgeting under the Civil Service Commission. They are James Godwin, Dillard Broadway, Homer Owsley and Robert Van Roo (S & M), Charles Davidson (Shillelagh), Mabel Young (VAAP), Clara Colquitt (Hercules) and Nancy Brown (Sentinel).

Morris Schill (P & P) and William Walker (Sentinel) will go to Ft. Lee, Va., for the Quality Control Management course at the

Army Logistics Management Center, while Billy Britton (DASO) will study ADP Systems at the Army Finance School at Ft. Benjanun Harrison, Ind.

Bruce McMann (VAAP) will be in Watertown, Mass., for the Basic Course in Metals Inspection, Kenneth Motes (P & P) will study Infrared Image Conversion at Frankford Arsenal, Pa., and Glenn King (S & M) will go to Sheppard AFB, Tex., for Management of Training Materials.

Wallace Clayton and Joseph Friar (VAAP) are scheduled to attend the Inspector Training course at the AMC Ammunition School, Savanna, Ill.

Going to the AMC Field Safety Agency, Charlestown, Ind., for the Applied Safety course are Reginald Parks (R & D), Jones Harbarger (Thiokol) and L. C. Ewing (VAAP).

Delia Black (DASO) will be in Chicago for two weeks to study Training and Development under the Deputy Chief of Staff for Personnel, while Robert Gunter (Ch Counsel) and Donald Dockery (P & P) go to Washington for the Executive Refresher course at the Naval Material Command.

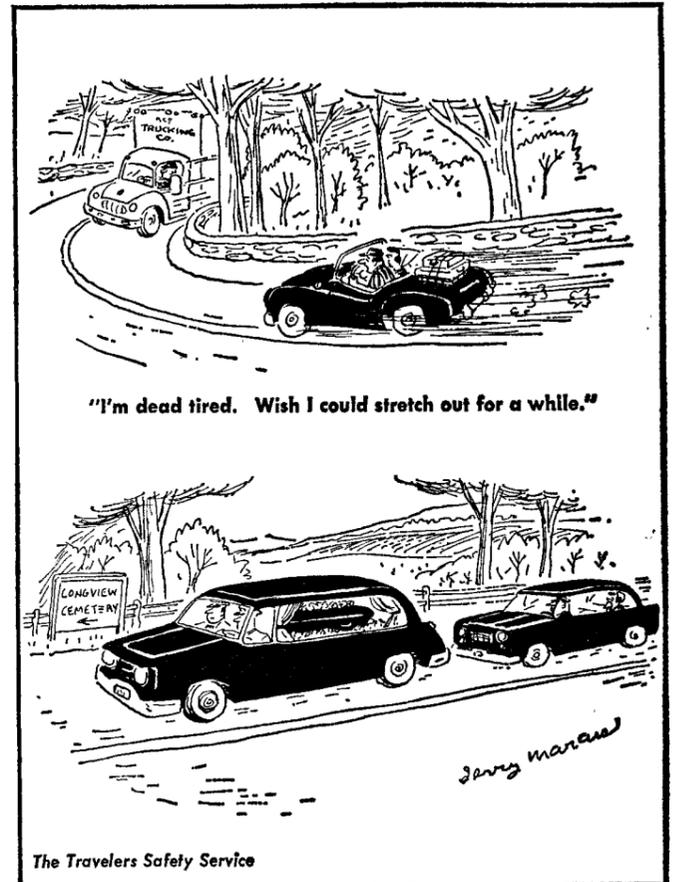

Jerry Brookshire (Mgmt Sci) will stay in Huntsville for the UNIVAC 1108 Operating System with Sperry Rand and Reba Phillips (R & D) will do the same for the Systems Analysis and Design course offered by the IBM Corp.

Joe Brewer and Jesse Rich (S & M) will leave for three months in Orlando for a new equipment training session at the Martin Company.

William Moore (Hawk) will spend the week in Los Angeles for a course in Fracture Mechanics at the University of California and

Was It Sudden?

Jerry Marcus

The Travelers Safety Service

Driving while tired and sleepy slows reactions and results in accidents.

Edward Wilkinson (R & D) will attend the Winter Institute on Quantum Theory at the University of Florida.

REVIEW CRITIQUE—Team leaders of a Department of Army review team get together with Missile Command officials for a critique following their visit to Redstone recently. The eleven-man team was here to assist the National Inventory Control Point in the resolution of specific problem areas and to improve the overall management of secondary items. Shown at the critique are, left to right, A. A. Stewart, deputy director of Supply and Maintenance, Lt. Col. T. L. Stovall, and George McKinney, of the DA team, Brig. Gen. C. C. Harvey, Deputy Commanding General for Air Defense Systems, and Col. Marvin H. Snow, Chief of the NACP. Col. Stovall was the Supply Policy expert with the team that was headed by McKinney.

Hanoi Exploits American Prisoners For Hard Cash

Hanoi's practices in merchandising at a price propaganda films and photographs of American prisoners of war have been strongly deplored by the Department of Defense. "It is important that the American people know that these films are Communist propaganda and that this propaganda is being sold throughout the world for hard cash," Paul H. Nitze, Deputy Secretary of Defense emphasized recently.

Even as propaganda, the films have carried their own telltale mark of fakery, Mr. Nitze pointed out. "Instances have been uncovered in which the enemy has used the deceitful technique of dubbing voices. In other instances the physical appearance or behavior of the captured men belied any thought that their appearances or their statements were voluntary."

The Hanoi government has thus far refused to abide by provisions of the Geneva Convention covering prisoners of war. Representatives of the International Committee of the Red Cross continue to be denied access to prisoners of war held in North Vietnam. Mail privileges to and from families are restricted or totally denied. Hanoi has not provided the ICRC with the names of the prisoners being held.

"Contrary to Hanoi's propaganda claims, American prisoners have been able to write or receive

letters in only a handful of instances," Mr. Nitze said.

The Geneva Convention, to which North Vietnam has adhered, states that military men who are held as prisoners of war must "at all times be protected, particularly against acts of violence or intimidation and against insults and public curiosity."

The United States has made many efforts through the ICRC, and through neutral nations, to get Hanoi to comply with the Convention and to permit neutral verification of Hanoi's claims that they are treating prisoners of war decently.

Those efforts have so far been unavailing. They will continue nonetheless.

Third U. S. Army has over 18,000,000 pieces of equipment from typewriters to missile systems that must be maintained.

Development Evolutionary Lt. Col. Steenborg Tells Missile School Graduates

"Development is evolutionary, not revolutionary," said Lt. Col. George A. Steenborg, in his address to the 92 graduates of the Army Missile and Munitions Center and school here Wednesday.

"If we know what has happened in the past, we know what to expect in the future," said Steenborg, a research analyst with the Combat Development Command at Redstone Arsenal. He spoke of the trends toward automation, computerization, technologization,

and mobilization in today's Army. The motto of the Combat Development Command, said the colonel, is "Vision to Victory." He then told of helmets with built-in radios, equipment that tests itself, machine to machine communication, and an Army on wheels. The Army of the future will have thousands more engineers, to assure that "the taxpayers get a bang for their buck," he quipped.

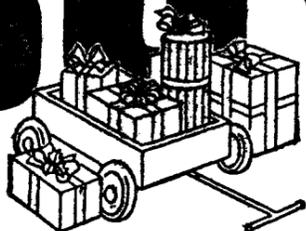

Seven German enlisted men and officers graduated in the cere-

mony. 1LT Bernd Dietrich Bork, of Berlin, was an honor student in the Pershing ballistic missile maintenance technician course, graduating with a score of 91.3.

Six other men were recognized for top honors in their class. Pvt. Clyde H. Naber of Waco, Neb., received a plaque from the Association of the U. S. Army for his average of 96.2 in the ammunition storage course. The citation was presented by Mr. Greg Mochcoff, of the Awards Committee of AUSA.

Other honor students were L/Cpl. Marvin E. Honeywell (USMC) of Bethlehem, Pa., who scored 92.4 in the Hawk pulse acquisition radar and battery control repair course; L/Cpl. Michael H. Vavra (USMC) of Exeter, Neb., 82.5 in the Hawk continuous wave radar repair; Cpl. David B. Pasker (USMC) of Coogon, Ia., 88.4 in Hawk missile and launcher repair; Pfc. Robert C. O'Neill of Council Bluffs, Ia., 89.3 in Hawk pulse radar repair; Pvt. James H. Devine of Sunnyvale, Calif., 89.9 in Sergeant ballistic missile repair; Pfc. George A. Phipps of Dallas, Tex., 87.7 in combat missile systems repair.

New Assault Bridge Tested at Fort Belvoir

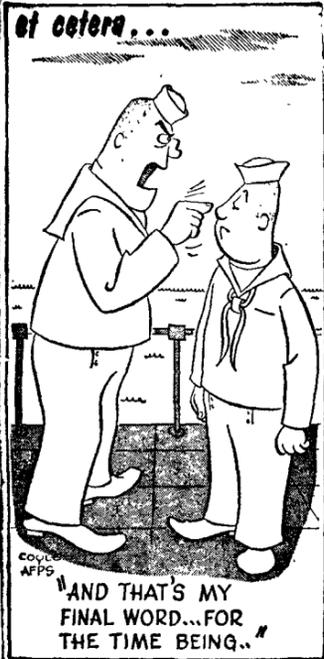

ASSAULT BRIDGE—A new lightweight assault bridge unfolds to span a gully at the U.S. Army Mobility Research and Development Center, Ft. Belvoir, Va. The aluminum alloy bridge weighs 2,700 pounds and can be emplaced where heavier bridge equipment would bog down. This will make it useful in the marginal terrain of the Vietnam rice paddies and

swamps. The new bridge is capable of supporting 15-ton loads over spans up to 33 feet. It is operated hydraulically and can be emplaced in less than two minutes from its mounting on the M-113 armored personnel carrier. After manual hookup of two hydraulic connections, it can be retrieved by reversing the launching procedure.

BEST MESS — SFC Leonard B. Houk, of Mess Hall No. 1, received the best mess award for November from Col. Paul B. Schuppener, commandant of the Army Missile and Munitions Center and School. Houk, with a staff of 8 cooks, serves 2100 people a day.
