Today Is Law Day

The Federal Bar Association and the Huntsville-Madison County Bar Association are observing Law Day today, climaxing with a dinner dance at the Redstone Officers Open Mess tonight.

Members of both organizations have been promoting Law Day activities in the Huntsville and Madison County Schools with talks to student bodies. The theme this year is "Only a Lawful Society Can Build a Better Society." Later in May, WHNT-TV will present a taped documentary concerning the possible consequences to an errant teenager who becomes involved in a crime.

At the banquet tonight Daniel J. Meador, Dean of the School of Law at the University of Alabama, Tuscaloosa, will be the principle speaker.

For work in the local schools, the North Alabama Chapter of the Federal Bar Association was selected as one of four outstanding chapters in the United States in recognition of its outstanding contribution to Law Day 1967.

In connection with this recognition, a citation was presented (See LAW DAY on Page 3)

ARMED FORCES DAY 1968—Huntsville Mayor Glenn Hearn today signed a proclamation setting May 18 as Armed Forces Day in the community. Looking on during the ceremony were Maj. F. T. Morano, Provost Marshal, Armed Forces Day Project Officer at the Army Missile Command; James Record, Chairman of Madison

County Board of Commissioners; Maj. Gen. John A. Barclay (Ret.), Community Armed Forces Day Chairman; and Col. J. N. Jean, Deputy Post Commander, Redstone Arsenal. Community plans are for a morning parade through downtown Huntsville and for display of United States flags throughout the city.

AUSA Membership Drive Reports Promising But Not Complete Picture

Results of the first two weeks of the annual membership campaign of the Tennessee Valley Chapter, Association of the U.S.

ELECTION FILLS WELFARE FUND COUNCIL SEATS

For the first time in several years the Civilian Welfare Fund Council has a female representative with the election of Sylvia Weyandt to fill one of the two seats allotted to the Directorate of Support Operations.

An employee of the Control Office, Mrs. Weyandt was one of seven employees elected last week to serve two-year terms on the ten-member Council.

Other new councilmen elected were, James Neely (DASO), James Brazelton (P&P), Thomas Campbell (R&D), Larry Fralick (Metrology), W. E. May (AMMCS), and Caleb Burgoyne (SENSCOM).

They will join Abner McNaron (MICOM), Thomas Childress (S&M), and Jack Bailey (an S&M employee who holds the at-large seat). Each of the three have another year to serve on their terms.

Michael Foster, the retiring president of the Council, said that he would call a meeting within the next week or two to reorganize the Council. The members will select officers for the coming year and the new president will make his committee appointments

Army, among Department of the Army military and civilian personnel at Redstone Arsenal indicate that steady progress is being made toward reaching a 1968 goal of 3,600 members.

Reports for the period reveal that 304 new members have signed up, 421 membership renewals have been received, and that the chapter has 1,458 whose membership renewals are not due, according to Shirley S. Miller, executive secretary of the Arsenal campaign.

"This total membership of 2,183 at the conclusion of the second week shows a net gain of 215 compared with results of the same period last year," Mrs. Miller said. "In '67 there were 219 new members, 395 renewals, and 1,354 active memberships."

Frank J. Buckley, Army Missile Command Chief Counsel and Executive Chairman for the Arsenal campaign, said he was encouraged by the first reports but that he had guarded optimism at this stage of the drive.

"Many of our reporting units have not turned in any new memberships, renewals, or currently active membership figures and until we get 100 per cent response from coordinators, we really can't tell where we are," he added.

He said he thought the third week could well be the crucial week of determining whether or not chapter membership would go from approximately 3,100 to the goal of 3,600.

Buckley urged campaign coordinators to concentrate on contacting individuals this week who may

Retirement Benefits To Be Defined For Army Civilians

"How does a Federal civilian employee go about retiring and what are the benefits available to him in retirement?" These and several other related questions are now facing a number of Army civilians at Redstone as they get ready to terminate their long careers of Federal service.

At the present time there are in excess of 300 Arsenal employees eligible to retire and they will be joined by several more during the next few months. These potential retirees are entitled to information covering the entire retirement procedure so as to make

James M. Darrah Dies

Funeral services for James M. Darrah, 41, were held in the First Methodist Church, Huntsville, Monday. Burial followed in Maple Hill Cemetery.

Mr. Darrah was Chief, Space Utilization Branch, Assistant for Logistics, Arsenal Support Operations Directorate until his death last Saturday from an apparent heart attack.

He had been employed at Redstone since November 1956 and was widely known on the Arsenal.

A native of Birmingham, he was a graduate of Auburn University, a member of the First Methodist Church, being vice president of a men's Bible class and a member of the church's commission on membership and evangelism. He

'A Lawful Society'

Law Day, U.S.A., is among the newest of America's annual days of celebration. It was marked first on May 1, 1958, yet in only 10 years it has become a significant national event, reaffirming each year the country's dedication to the rule of law and the heritage of freedom.

Throughout the nation, Law Day, 1968, will be celebrated with local ceremonies and observances. In the U.S. Army, activities within each major command will mark the day. For Law Day has a special significance to men in uniform. As both citizens and protectors of the United States, military personnel have a dual responsibility under the law.

In his proclamation setting aside May 1 as Law Day, 1968, President Lyndon B. Johnson emphasized the citizen's role. He urged all Americans to join in the observance of Law Day by making a personal commitment to:

- Obey the law.
- Respect the rights of others.
- Aid law-enforcement officers.
- Uphold the judgments of the courts.

This personal commitment is in keeping with the theme of this year's celebration. "Only a lawful society can build a better society." The President explained it this way:

"The law we recognize and respect . . . is a process of continuous growth that allows the creation of new rights for all men through a deliberative, democratic process. It is a system that permits existing rights to be protected, injustices to be remedied and disputes to be resolved, without recourse to self-defeating violence."

Here the serviceman's other role enters. For he is dedicated to the preservation of a society in which the rule of law can thrive. (ANF)

have forgotten to turn in renewals and to make a full reporting Friday through established channels.

The Tennessee Valley Chapter has the largest civilian membership of any chapter in the national organization and campaign officials are striving to hold this record.

The overall chapter membership campaign is being headed by Harris T. Mitchell, Civil Defense Coordinator for Huntsville and Madison County. Horace R. Lowers, Chief Engineer for the Army Missile Command, is general chairman for the campaign at Redstone.

Heading the campaign which is scheduled to be concluded by May 18 for the Army Missile and Munitions Center and School are Col. H. B. Dunn and Stanley Kreger. Joe LaHiere is directing efforts to increase membership among personnel of the Army Sentinel System Command.

AUSA is a voluntary, educational, non-profit organization of American citizens who manifest their interest in a strong United States Army by actively supporting an organization established to contribute its full resources and capabilities to advance the security of the United States.

Its purpose is to foster, advocate and support the legitimate role of the U.S. Army and all of its components as an integral part of a sound national defense for our country.

Key resolutions passed at the 1967 National Annual Meeting of the Association call for:

Maintaining the U.S. Army, the Army National Guard, and the Army Reserve at strengths, in quality and quantity, which will guarantee timely meeting of all commitments and contingencies.

Providing, within the strengths authorized by the Congress, Army National Guard and Army Reserve forces which are fully supported and capable of executing their assigned missions.

Dynamic career programs to recruit, retain and encourage continued service of dedicated civilian employees of the Army.

A soundly financed, well-managed, sustained military research and development program as essential to the security of the United States.

Improvements in, and sufficient amounts of strategic airlift and fast deployment logistic ships for sealift to meet the operational needs of U.S. Army forces.

Supporting and increasing the effectiveness of the ROTC program and the West Point Admission program.

Providing adequate housing for all military personnel and their dependents and supporting efforts to secure adequate off-post housing.

Enhancement of career incentives, including traditional service benefits, pay, retirement benefits, allowances, medical care and post-retirement employment opportunities.

Science Academy Elects Dr. Hartman To Office

An Army Missile Command physicist, Dr. Richard L. Hartman, has been elected a vice-president and chairman of the Physics-Mathematics Section of the Alabama Academy of Science, Inc.

Dr. Hartman conducts fundamental research in the Physical Science Laboratory's Solid State Physics Branch to determine the basic physical properties of various solid materials.

He received his undergraduate and graduate degrees from the Carnegie Institute of Technology, Pittsburgh, Penn. He is a member of the American Physical Society, Tau Beta Pi, Phi Kappa Phi and Pi Mu Epsilon.

Dr. Hartman was commissioned in the U.S. Army Ordnance Corps in 1958, serving two years in Iceland and at Ft. Meade, Md.

A native of Norfolk, Va., he is married to the former Cynthia Park, of Warren, Pa.

1968 Share In Freedom Campaign Kickoff Today With Nationwide Canvass

"The 1968 Share in Freedom Campaign," kicked off at Redstone today in conjunction with a nationwide person-to-person canvass aimed at increasing the voluntary participation in the U.S. Savings Bond program.

During a six-week period ending on Flag Day, June 14, all Federal personnel, not already enrolled under the payroll deduction plan, will be encouraged to become a regular participant. Those who are now purchasing Savings Bonds on a regular basis will have the opportunity to increase their deduction.

In announcing the yearly canvass among Arsenal personnel, LTC M. A. Jones, Missile Command Finance and Accounting Officer, said that all military and civilian personnel will be contacted by a fellow worker and asked to re-evaluate their saving schedule.

The message that will be conveyed is, "Your voluntary participation is solicited to help purchase the weapons and supplies needed by our fighting men in Vietnam."

No coercion or pressure of any kind will be used, Col. Jones added. "Rather," he said, "voluntary participation will be promoted by emphasizing the self-interest incentives for systematic savings and stressing the themes of national security, minimization of inflationary trends, patriotism, and the importance of strengthening our Nation's economic stability."

Gen. Frank S. Besson announced Army Materiel Command participation in a letter this past month. He urged all AMC installations to get behind this person-to-person canvass with wholehearted and unqualified support.

The Commanding General said that more than 165,000 AMC personnel are regularly investing in the nation's future by buying Sav-

ings Bonds through systematic payroll deductions.

This is, "a very commendable record and indicates that an AMC-wide rate of 90 per cent is an achievable goal." Gen. Besson stated that 80 per cent of all AMC military personnel participate in the Savings Bond program with the civilian rate being 77 per cent.

The Redstone rate of participation is even more impressive with 94 out of every 100 persons, military and civilian, enrolled for regular bond purchases. They invested in excess of \$5 million last year.

The main emphasis this year, according to Col. Jones, will be directed toward encouraging Arsenal personnel to increase their rate of saving through regular purchases of Freedom Shares.

Introduced a year ago as a companion product of Series E Bonds, Freedom Shares earn 4.74 per cent interest when held to maturity of four and one half years. The security notes must be held one year before they may be cashed.

One Freedom Share may be purchased for each Series E Bond purchased which has an equal or greater value. The Shares provide the same tax deferral privilege as E-Bonds and rise in value each six months.

RETIREMENT

(Continued From Page 1)

their adjustment orderly.

For this reason the Training and Development Division of Civilian Personnel has developed a series of pre-retirement planning sessions and is inviting senior employees to attend.

The series of seven two-hour sessions will be inaugurated on May 14 in Room A-115 of Building 5250. The opening session will answer the question, "What Does Retirement Mean," and will serve as an introduction to the series.

Subsequent sessions are slated for succeeding Tuesdays. They will go into the mechanics of retiring with an expert in each specific area serving as the session leader.

These experts, selected from private industry and various governmental agencies, will discuss and answer questions on such topics as, programmed benefits, the Federal Retirement System, preparations for and other aspects of retirement, with the final session being entitled, "Making a Dream Come True."

Lawrence Williams, the program coordinator, said that a great amount of time and effort had gone into planning an agenda that would be both meaningful and beneficial for potential retirees.

He added that, while attendance is strictly voluntary, those persons planning to retire in the near future will find answers to a number of questions they may have been pondering.

Board Looking For Typists, Stenographer

The Interagency Board of U.S. Civil Service Examiners is now accepting applications for Typist and Stenographer positions with North Alabama Federal agencies.

Typists and Stenographers must pass a written test, a performance test, and have either six months appropriate experience or a high school diploma. Starting pay ranges from \$4,108 to \$4,995 per year.

Applications will be accepted through June 6. Applications for similar positions in the Washington, D.C., area are accepted on a continuous basis.

For details and filing instructions, contact the Federal Job Information Center, 806 Governors Drive, S.W., Huntsville.

GET IN THE Now Group

THE "NOW GENERATION" ISN'T AN AGE. It's an attitude.

That's why you'll find men and women of all ages taking the Dale Carnegie Course this year—over 80,000 of them.

These are the people who want recognition **now**, who want promotions today, not tomorrow... people who've made up their mind to get what they want **for** themselves by the simple expedient of getting something **from** themselves. Now.

With Dale Carnegie training, here is what you can **get** from yourself: more confidence, decisiveness, and an improved ability to communicate with other people. We help you do this by first showing you how to discover your own, deep-down, unused **natural** abilities. Then, in 14 weekly sessions, the Dale Carnegie Course shows you how to develop these abilities.

It has worked for more than a million men and women. It can work for you. For more information, phone 536-9501 or write, now!

Personnel Administrators To Hear Gen. Medaris

The Society for Personnel Administration will have Maj. Gen. J. B. Medaris (ret.) as the principal speaker at the annual Spring banquet May 14 at the Redstone Officers Open Mess at 6:30 p.m. Gen. Medaris organized and commanded the Army Ballistic Missile Agency and then the Army Ordnance Missile Command here before his retirement from active military service. He is now the manager of Medaris Management, Inc. The General will be introduced by Robert F. Mello, a former director of Personnel under Gen. Medaris here and now Director of Personnel, Office of Economic

Opportunity in Washington, D.C. Both men have friends among the management at the Marshall Space Flight Center, among the Army elements here and in the business community, all of which will be represented at the banquet.

Gen. Medaris's address is titled "People in Our Changing Environment."

Tickets for the banquet are now available on a limited basis of first come first served. The ballroom at the Open Mess has a limited capacity.

Louise Parker of Marshall and Rufus Porter from the Army are jointly handling the tickets. Contact points in Bldg. 5250 are Fred Babes, F. J. Buckley and Dave Harris. In Bldg. 4505 John McDaniel has tickets; in 7444 John White; in 7101 Col. Nelson Jean; in 4488 Al Muller; in 3300 Col. M. R. Thome; in 5681 Dave Balkin; in 8027 Elise Fusch; in 5435 J. C. McKinney, Jr., and at the HIC Bldg. Jim Lynch has tickets.

University Offers New Scholarships To Junior, Senior

Three new scholarships are now available to full-time junior and senior students at the University of Alabama in Huntsville through the University of Alabama Foundation. Announcement was made by Patrick W. Richardson, Foundation president.

In addition to being at the junior or senior level, students must have attended UAH for at least nine semester hours and must have quality point average of 2.0 or over. Recipients of the three \$600 scholarships will be selected by the UAH Scholarship Committee.

May 15 is the deadline for making application. Forms may be obtained in Room 123, Graduate Studies Building, Sparkman Drive.

For the third consecutive year, the Foundation will grant 15 scholarships to 1968 high school graduates of Huntsville and Madison County, Richardson said. Awardees will attend UAH as full-time students beginning with the fall term. Individual high schools will choose the winners according to a criteria established by a committee of Foundation members and school officials. Students interested in applying for these scholarships of \$600 each, should contact their individual school officials.

Girl Scouts Need Camp Councillors

The Girl Scouts at Redstone Arsenal need volunteers to serve as camp counselors at the Girl Scout Day Camp on Squirrel Hill.

The Scouts provide transportation and nursery facilities. The girls are taught the values of outdoor Scouting including such skills as swimming, tennis, arts and crafts and pottery making among others.

Volunteers will serve from 9 a.m. to three p.m. June 17-21 and June 24-28. They will also be available for weekly, daily, or hourly assistance. For details, call Mrs. Jon M. Lindenauer 837-4902.

Jet Ace Schedules Talk At Air Force Association Meet

Col. Francis S. Gabreski, USAF, Retired, will speak to the Air Force Association at a luncheon meeting May 14 on the evolution of the fighter airplane.

Eighth "Jet Ace" in aerial history, Col. Gabreski has accumulated over 5000 hours of total flying time, 4000 hours of jet time.

Recipient of twenty-three American decorations, his foreign awards include the French Legion d'Honneur, the Polish Cross of Valor, the Belgium Croix de Guerre, and the British Distinguished Flying Cross.

During World War II and the Korean conflict, Col. Gabreski's combined score of enemy aircraft destroyed stands at 37½ and makes him the top living Air Ace in the United States today.

Reservations can be made by calling one of the following: Mike Vacarro, 876-3249, Art Ouslev, 876-6585, 876-7878, or Bob Trenkle, 536-8735.

Pepotones To Visit

Roger Connor and the Pepotones will present a show at 8:15 p.m. Sunday night at the Redstone Arsenal Service Club.

The combo includes two girl dancers, a five piece band and vocals.

Enlisted men are invited to bring their dates to the free show Sunday night.

Major Jones Says It Is Commencement, Not End For Graduates At School

Maj. Robert E. Jones, speaking to many men who he helped train at the Army Missile and Munitions Center and School (MMCS) told members of a graduating class Friday they were experiencing "a commencement rather than a graduation . . . a beginning."

A senior instructor in the Munitions Division of Officer Training Department at MMCS, Maj. Jones had seen several of the 116 men who received diplomas pass through his block of instruction during their schooling here.

He outlined three principles necessary to developing the traits needed when students begin to put their knowledge to work: self-discipline, continuation of learning, and initiative.

Self-discipline, he said, is "planned control and training for the sake of development" with definite goals in sight. To attain this, the second principle must be practiced—continue to learn.

"The man who learns from his own experience is a wise man . . . from others' experience, an intelligent man . . . but the man who fails to learn from either is a foolish man," stated Maj. Jones.

Studying, persistence and confidence in one's ability must all be coupled with experience as methods of keeping abreast of new theory and technique, he added.

In conclusion, the students were

MAJOR ROBERT E. JONES

challenged to "take the initiative . . . don't wait to be told, act without being urged."

"This is your commencement, your beginning," urged Maj. Jones. "You must take the first step. Originate new ideas or new methods."

"Follow these three principles and this will, indeed, be your commencement."

CURLS on the SPRING SCENE

Here and abroad, what's coming up this Spring are curls and more curls, in endless variety, in charming versatility. This country's "Tender Curl" is a soft, light, summery version of the delightful Ruffled Curl Look. From Germany comes the new "Pirouette," with tip-top curls tumbling into a gentle cascade. Vienna presents the "Julie" trend . . . demure, appealing, wholly feminine. Again, curls prevail, to achieve modified height. All designs require a curl-base perm.

Foreign Student Program Headed By Lt. Sterling

Foreign students at the Army Missile and Munitions Center and School here receive their first impressions of the United States through the ministrations of a man who just exchanged his gold bar for a silver one.

William W. Stirling, foreign military training officer at MMCS, was promoted to first lieutenant in ceremonies recently. Lt. Stirling directs and administers the foreign student information program for the approximately 300 allies that enroll in the multi-million dollar rocket school yearly.

Though he speaks no foreign language but colloquial Spanish, Lt. Stirling, 24, has had soldiers from 31 foreign nations under his supervision. There is an average of 240 foreign students enrolled at MMCS at any given moment.

All the students arriving at MMCS theoretically speak English well. But their first few days in the United States are apt to be polyglot confusion as they hear the language outside of the classroom for the first time. Lt. Stirling, who directs classes that help them adjust to the culture and

traditions of the United States, smooths their path so that their first moments in the complicated technology of ammunition maintenance or missile repairs will not be overwhelming.

In the past few weeks, Lt. Stirling has had additional responsibilities, for his supervisor, Maj. Randolph L. Scott, chief of the Foreign Liaison Division at MMCS, has been acting secretary of the Center and School and has left the Foreign Liaison Division largely in the hands of Lt. Stirling.

A native of Jamaica, New York, Stirling graduated from the University of Miami, Coral Gables, Fla., in 1967 with a BBA degree. He won his commission in the ROTC program there and has been in the Army for a year. He and his wife, Kathleen, live at 230-C Niblo Drive, Redstone Arsenal.

Civilian Netters Open Industrial League Play

Bowden Leads CWF-Team Against General Electric

Competitive tennis returns to the Redstone recreation schedule this week with both the civilian and the military teams entered for

Hi-Lo's Fail To Overtake Leaders

The Three Plus Oners were only able to take a single point in their match with the Hi Lo's last week but that was all they needed to retain the lead in the Tuesday Morning Ladies League at the Post Lanes.

The win boosted the Hi Lo's to within a half point of the lead. The Four Hopefuls made second place a two-way affair by winning all four from the Snowballs.

The Anythings blanked the Pin Pickers and the Morning Glories gained a 3 to 1 margin over the Remarkables to complete the weekly slate.

Most of the individual scoring was accomplished in the top match with Mercy Villanueva handling the honors. The Hi Lo ace turned in a 495 reading while Jo Cannon topped the league leaders with 456.

seasonal play in the Huntsville Industrial Tennis League.

The CWF-sponsored Missile Command team will be returning for a second year of competition in the league's B Division. The civilian racket wielders will take on General Electric in their first match, starting this week.

The Redstone Arsenal team made up of military netters, will be making their initial appearance in league competition when they go up against the Decatur Tennis Assn. next week. The RSA team is in the league's C Division.

The matches, consisting of six singles and three doubles sets, are played over a two-week period with the opponents arranging the times.

Charles Bowden earned the right to the No. 1 position on the Missile Command team by virtue of holding down the top rung of the tennis ladder.

Joining Bowden in the opening match are Irv Kellogg, Charles McBrearty, Art Jones, George Elrod and Joe Hiatt. They will play the singles matches in that order.

Bowden is paired with McBrearty for the No 1 doubles. Elrod and Jones form the No. 2 team with Kellogg and Hiatt, the team captain, teamed for the other tandem set.

With another week to go before the match with the Decatur netters, the Redstone team captain, Doug Morgan, is with holding the designation of his pairings pending further changes in the military ladder.

At the present time Bob Shineflug holds the top place on the ladder followed by, Ken Van Auken, Jon Eikenberry, Wes Simmons, Morgan, and Dave Jeffery. Morgan indicated that the top

Spragins Tourney Coming Up

Members of the Redstone Officers Wives Golf Group who wish to participate in the annual Spragins Tournament May 8 will have to register either at the Pro Shop at the Arsenal Course or with Ann Dorris, special tournaments chairman, by Friday noon according to Midge Clisson, publicity chairman.

The tournament is an 18-hole medal play event, first sponsored by the late Maj. Gen S. L. Spragins, then by Mrs. Spragins, and now by the Golf Group.

Trophies will be awarded at lunch the following Friday at the Redstone Officers Open Mess.

For details, interested individuals can call Ann Dorris, 536-6066.

Andrews Claims Medalist Honor

When Howard Andrews made his annual pilgrimage to Augusta, Ga., for the Master's tournament earlier this month, he must have picked up a few pointers to strengthen his own game.

Last week Howard was a champion in his own right when he put together a pair of almost identical 29s to take individual medal honors for the weekly action of the P&P Golf League at the Piedmont Par 3 course.

The veteran linkster who hails from Augusta, fired a birdie on each of the nine-hole layouts in edging four of his rivals, each of whom toured the course in 59.

Bracketed a stroke behind Andrews were Lee Keim, Floyd Clark, Dave Renton and Bill Allen. Clark included three birdies in his string.

E. T. Perry combined with Allen to give the pair the lowest team total of the evening, a 122. Renton and Ed Foxworthy were a stroke off the pace with 123 while Andrews and Bob Mix turned in a 124 card.

six players on next Monday morning will be designated to play the singles and will be paired for doubles play.

SHAPING UP—If you are a female dependent of an active or retired military man, and if you are interested in engaging in physical activities such as demonstrated above—call the lady below. Mrs. Barbara Sherron, shown using the exer-cycle, has organized sessions for ladies to make use of the Special Services workout facility at Bldg. 3474 in the Troop area. Handball courts and a steam room are available, as well as the equipment pictured. Mrs. Sherron can be phoned at 837-3713. Or, simply show up at 8:30 a.m. Monday and Thursday.

Engineers Move Earth, Create Supply Point

The third weekend of each month the rumble of heavy earth moving equipment growls over the lands of Redstone Arsenal. The big machines belong to the Company C, 926th Engineer Battalion (Construction), and they are being used to complete a training Ammunition Supply Point.

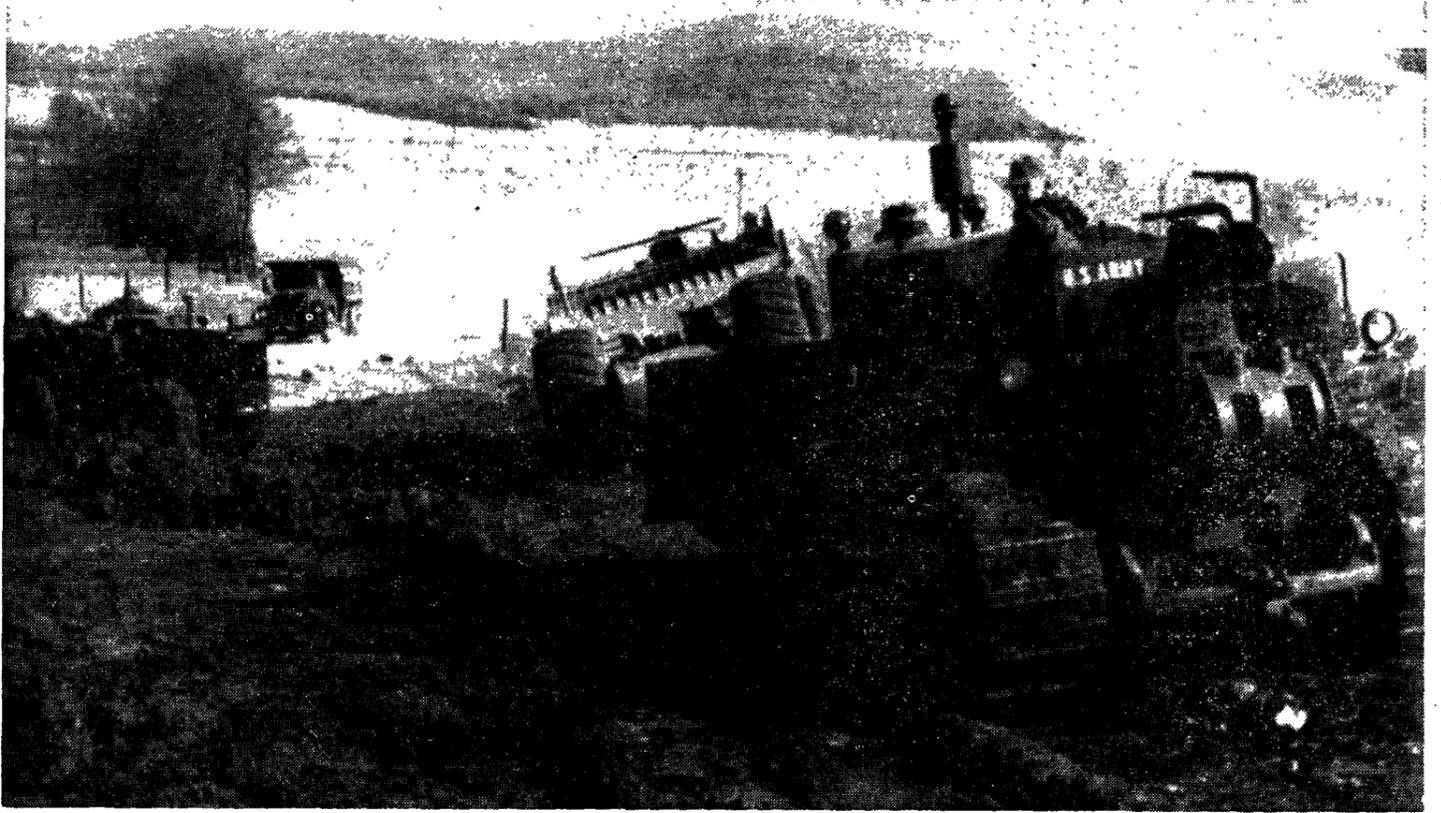

Capt. Harold Wright, Commanding Officer of the battalion, said that the unit's presence on the Arsenal represents a three-way benefit. The Supply Point will be used by ammunition students of the Missile & Munitions Center & School. It will give the Training Area G officer a facility in which he can properly handle the ammunition used in studies.

"And," Capt Wright said, "we need the training."

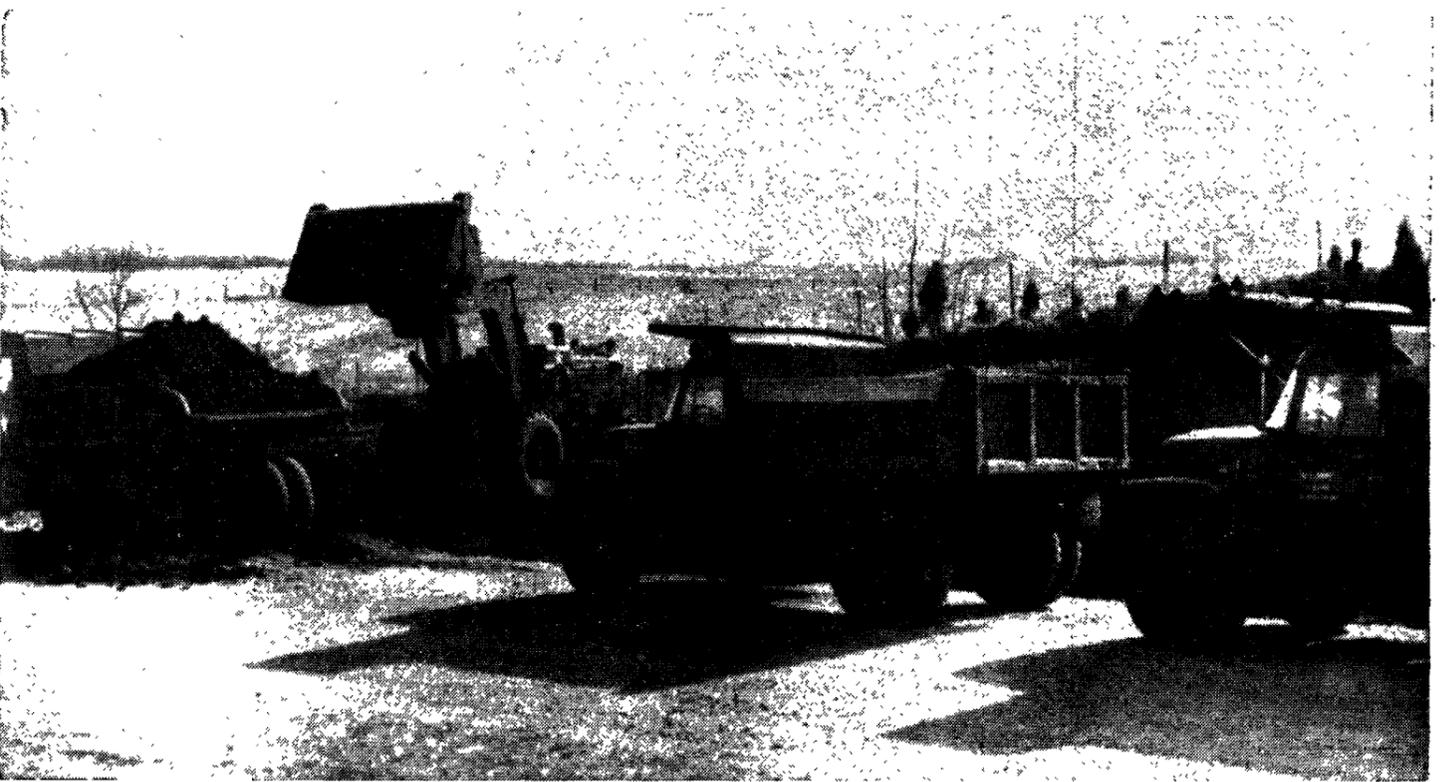

For the Supply Point the 926th

has moved, at least, small mountains. Construction has included 2 miles of graveled road, three ammunition storage pads with earth barriers and 600-foot barriers dividing the pads.

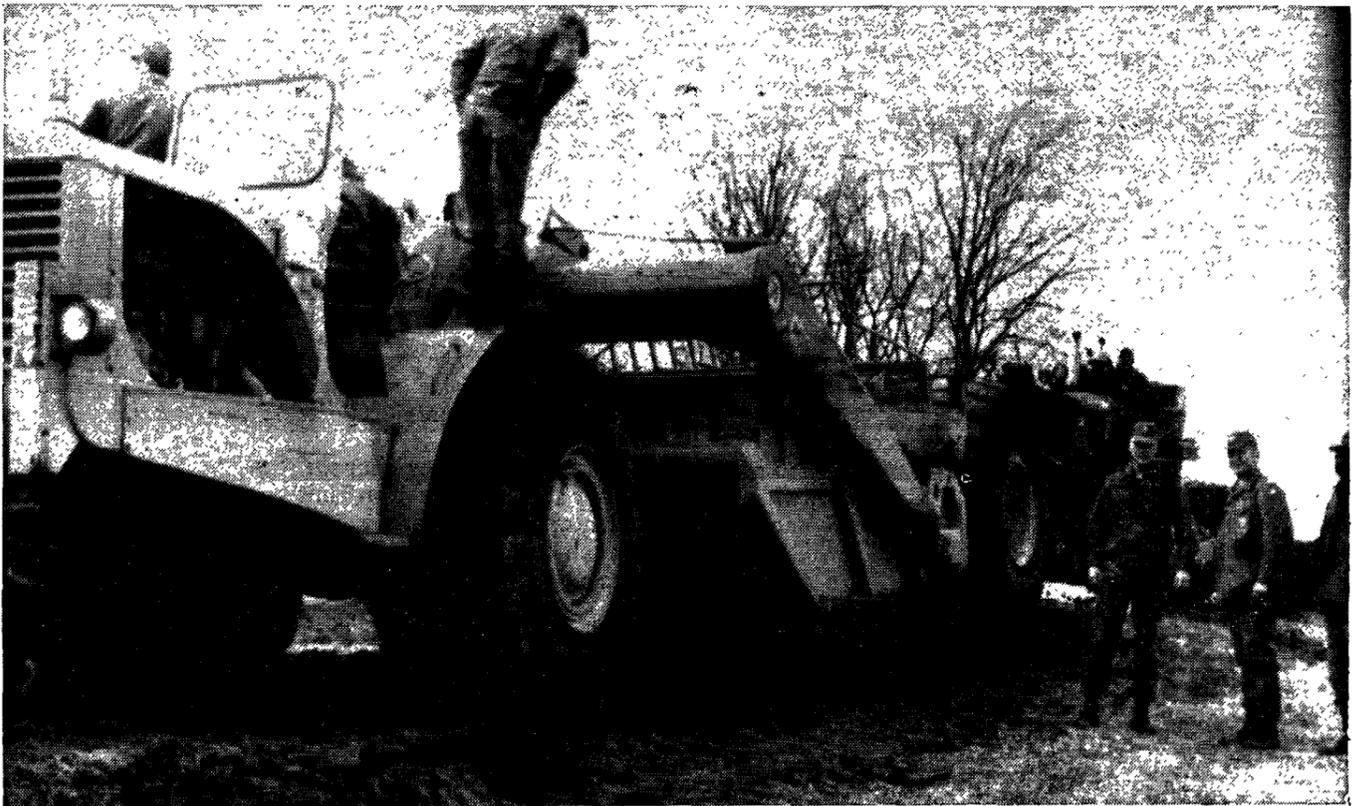

"We were able to complete the job more easily through an addition of an 18 yard motorized pan." In addition to continuing road and supply point work, the 926th will assist in construction of hardstands and expansion of recreation areas.

BORROW PIT—Dozier operator Sp4 Jimmy Bunn moves a motorized pan along the borrow pit adding strength to the 18 cubic yard pan. At right a front end loader lifts dirt into dump trucks.

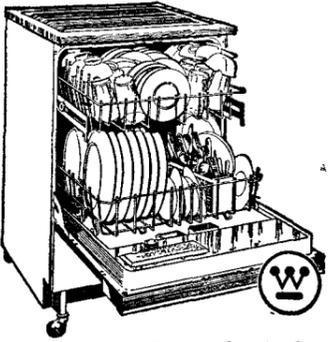

COUNT OFF—Dump trucks are lined for loading roll call. The continual process is part of the 926th Engineer Battalion (construction), U.S. Army Reserves, contribution to the construction of an Ammunition Supply Point north of the U.S. Army Airfield at Redstone Arsenal.

PANORAMIC—An unidentified Reservist catches a bird's eye view of the 18 cubic yard motorized pan as the day's construction is about to begin. Left to right are 1st Lt. Richard Harper, Missile & Munitions Center & School; Capt. Harold Wright, Commanding officer of the 926th Engineer Battalion; and Master Sergeant Major W. Kidd of the 926th.

Entries Being Taken For Spring Golf Meet

Col. Anders O. Wiklund, chairman of the RSA golf committee, has announced that entries are being accepted for the annual Men's Spring Handicap tournament.

The match play event will be staged in flights with the opening round matches scheduled for the week of May 13. Second round matches will be played during the week of May 20 with the flight championships to be decided on June 2.

Col. Wiklund said that each of the flight champions would be awarded trophies and that the playoff between the flight winners will not be staged this year.

Maj. Gregory Ogden and Capt. Robert Hannon, co-chairmen of the tournament committee, completed plans for the annual meet last week.

They indicated that all active duty and retired military personnel are eligible to compete. Entrants must either have an established handicap, or have an attested score covering 36 holes.

A pair of dog fight events are

scheduled for the Arsenal course this week end. A men's dog fight will be the feature on Saturday with a mixed event slated for Sunday.

ROHM AND HAAS TRANSFERS TWO TO FAYETTEVILLE

Earl D. Bosserman has transferred from Rhom and Haas Company's Research Laboratories at Redstone Arsenal, Huntsville, Alabama to the company's Fibers Division to assume the position of Quality and Process Control Supervisor at the Fayetteville, North Carolina, plant. Also transferring from the research laboratories at Huntsville to Fayetteville is Rodrick E. Lide who will assume a position in the Technical Assistance Department.

Bosserman graduated from Cuyahoga Falls High School in 1943 and served in the Army as a navigator with the rank of Second

Ten Teams Enter . . .

CFW Softballers Prep For Opener

Lieutenant from 1943 to 1945. Upon completion of his military service, Bosserman attended the University of Alabama where he obtained a B.S. in chemistry in 1949 and an M.S. in analytical chemistry in 1951.

Bosserman joined Rohm and Haas at the Redstone Arsenal Research Laboratories in June 1951. At the time of his transfer to Fayetteville he was assigned to the Chemical Engineering Section at the Redstone Laboratories.

Lide is a native of Alabama. He graduated from Robert E. Lee High School, Montgomery, Alabama, in 1956 and subsequently attended the University of Tennessee where he obtained a B.S. degree in chemical engineering in 1960. He is a member of Alpha Chi Sigma, Society of the Sigma Xi, American Institute of Chemical Engineers, and a Professional Engineer registered in the State of Alabama.

Before his transfer to the Fayetteville plant, Lide was head of the Process Development Group of the Chemical Engineering Section at Redstone.

CFW softball teams are getting in their final practice licks this week in preparation for the opening of the season on Thursday, May 9.

Ten teams officially entered the loop when the league held its organizational meeting last Friday. Walter Heflin, the league president, presided over the meeting that was held to finalize the league schedule and playing rules.

Heflin said that the league would play a two-round schedule with a double-elimination tournament following the regular season to decide the league championship.

All games will be played at the Civilian Recreation Area, with four games each Monday, Tuesday and Thursday evenings. Two games will be played on each of the diamonds with the games scheduled to start at 5:15 and 6:45.

Opening games will have Documentation and ICO having it out on Field No. 1 while the Metrology Lab tests the Pershing Project Office on Field No. 2. The G&C Lab will take on Data Processing Office on Field No. 1 with Finance and Accounting slated to meet the Supply and Maintenance Directorate on Field No. 2 to complete the opening night schedule.

The other two league entries representing the Comp Center and the Sentinel Systems Office will see their initial league action the following week.

John Harris Keeps Erratics In First

John Harris was anything but erratic last week as he guided the league leading Erratics to a 3 to 1 win over the Alley Cats in the feature match of the weekly MMCS Officers league card.

Harris included a 211 game in his 575 total to grab the league lead in each category. Charles Cox was next in line with a 538 as the Bad Gnus shut out the Beer Framers.

The Squirrel Hill Mob blanked the Brigadiers, the Hawks took all four from the Misfits and the Pin Techs scored another shutout with the Penguins as their victims. Jim Green upended 513 sticks for the Hawks while a 201 game by Don Hutchings went for naught in the Misfit cause.

The final match on the card saw the Pin Heads take three out of four from the Lucky Warriors despite a 524 turned in by Bill Bernor.

LOGEX '68: School Men Participate

On Monday, 110 personnel from the Army Missile and Munitions Center and School (MMCS) here departed for Fort Lee, Va., for participation in this annual logistical exercise which the Army uses to test its streamlined support concepts.

MMCS has the overall monitoring responsibility for the munitions and missile 'play' in the exercise, which is designed to sharpen the skills necessary for supply support to fighting men. Involved in the actual ammunition service during the maneuver will be "players" and "controllers" from the Ordnance career officer course at Aberdeen Proving Ground, Md., the Explosive Disposal training center at Indianhead, Md., and the Special Weapons course at Sandia Base, N.M.

Also involved are recent MMCS graduates from the missile and munitions officer, ammunition officer, missile maintenance officer and ammunition records courses, as well as instructors from various departments.

Senior representative for the local group is William H. Terry, department chief of the general ammunition division, who will serve as the MMCS liaison officer at LOGEX in his capacity as a Lieutenant Colonel in the Army Reserve.

Col. Paul B. Schupener, MMCS Commandant, and Col. Horace B. Dunn, Jr., Director of the Office of Operations, will journey to Ft. Lee on May 7 to observe the school's activity in the exercise.

This week is being used for pre-training in the peculiarities of the play, while the actual week-long execution of the logistical war game takes place May 3-10.

This year LOGEX involves 3,500 people from all the service schools, plus individuals and units from Army Reserve components. The Administrative Support to the Theater Army (TASTA-70) will be used for the first time.

This concept of combat service support provides a more responsive and functional distribution of supplies in a theater of operations. Under the TASTA-70 concept, many shipments of supplies go directly to a user, by-passing one or more support elements along the way.

Also, soldiers participating in this year's logistical exercise will make greater use of automatic data processing equipment. Computers identify supply problems quickly, allowing more time for command activities.

Who's standing by?

United flies more military standbys than any other airline.

So how does it happen you often see a United standby counter with no servicemen there?

Because United has by far the largest fleet, and the largest jet fleet, in the world. We have the most frequent flights to and from the majority of the 111 U.S. cities we serve (including all major ports of entry).

That adds up to more seats, better chances for you, when you buy your standby ticket on United. Anyone in U.S. uniform, with D.D. Form 1580, flies for 1/2 Coach fare. You can even reserve a Coach seat for 3/4 fare. Both fares apply within seven days of discharge.

The real reason we fly more standbys is that we do our friendly best not to keep them standing by very long.

And "our friendly best" is the best you'll find.

For information and tickets, visit or call your JAMTO office located at Bldg. 3684, Neal Road, Tele. No. 876-5851.

Lt. Robert A. Loy Assumes Command Of 522nd Ord

The 48 men of the 522nd Ordnance Company at the Army Missile and Munitions Center and School (MMCS) greeted a new commanding officer in ceremonies Friday afternoon.

Capt. Frankie L. Mullins, who has been company commander for the past six months, stepped down, and 1Lt. Robert A. Loy took over. "The 522nd is in excellent shape,"

commented Lt. Loy. "Capt. Mullins has done an outstanding job." During Capt. Mullins' command, the unit received an outstanding rating in the commandant's inspection.

Capt. Mullins will take a two week missile orientation course at MMCS before going to Aberdeen Proving Ground, Md., for a nine month ordnance officers career course. His wife, Pat, and two children will accompany Capt. Mullins to Aberdeen.

Lt. Loy comes to the 522nd from the maintenance branch of the ammunition department at MMCS, where he was chief. He began his military career as an enlisted man shortly after graduating from high school in Richmond, Va., in 1957, and received an OCS commission in 1966.

The new company commander first came to MMCS as an instructor in the Pershing Division, after tours in California and Germany. After his commission, he returned as a student to take an ammunition officers course, then went to Long Binh, Vietnam, where he was commanding officer of the 76th Ordnance Detachment, 3rd Ordnance Battalion.

The son of Mr. and Mrs. Alfred B. Loy, Jr., 2746 Linden Ave., Knoxville, Tenn., Lt. Loy has two years of college at the University of Alabama in Hunts-

CHANGE—Lt. Robert A. Loy (left) receives the guidon of the 522nd Ordnance Company, Missile and Munitions Center and School, from Capt. Frankie L. Mullins.

ville. He is currently studying German at UAH and plans to major in business administration. He and his wife, Marye, live at 220B Dyer Circle, Redstone Arsenal.

Sure You're a College Graduate, but...

IS THERE A JOB WAITING?

If not, GRAD can put you on the right track.

As a college graduate anticipating an Armed Forces discharge, you're in a good position. Employers are hard-pressed to find enough qualified personnel. They need people like you but have trouble finding them.

Here's where GRAD fits in, GRAD is a computerized system that can make your resume available to hundreds of top-rated employers from coast to coast...

ALL AT NO COST WHATSOEVER TO YOU!

GRAD will give you immediate and far-reaching exposure—whether you majored in engineering, science, business, finance, or liberal arts. It will permit you to specify the job, location, and salary you want. You'll have to fill out only one resume, eliminating hit-or-miss mailing of multiple copies. You'll be contacted only by interested employers. There's no limit to the number of times your resume will be reviewed and forwarded for consideration.

Fill out the reply coupon below and send it to the College Placement Council, the non-profit organization that also publishes the COLLEGE PLACEMENT ANNUAL. You'll receive a GRAD Pack containing a resume sheet and information about the system. Do it now! It won't cost you a thing—now or later.

Eighteen More Employees Pursue Career Programs

Eighteen Arsenal civilian employees left their normal places of duty this week to engage in off-post training courses in their individual career fields at military schools located in various parts of the country.

The local personnel were selected for enrollment for the ad-

vanced courses of study under the Missile Command's career development program administered by the Training and Development Division of Civilian Personnel.

Half of the total number went to Rock Island, Ill., for training at the Army Management Engineering Training Agency.

David Farmer (R&D) will be at AMETA for three weeks for Design and Analysis of Experiments and William Kallbrier (P&P) is spending this week there for the Quality Assurance Appreciation course.

Two others, Thomas Kavanaugh (S&M) and William Ashby (Mgt Sc) will spend two weeks there studying Management Statistics.

The two-week Semlnar for Middle Managers is being attended by five Missile Command civilians. They are Willie Wood, Marian Czachowski, and Eugene Werner (S&M), Reuben Dunlap (Hawk) and Freeman Lee (LCCO).

Arthur Dyle (Msl Intel), W. B. Hendry (Senscom) and Hilliam Hadaway (R&D) are attending the Advanced Atomic Weapons Orientation at the Sandia Base, N.M.

Lawrence Walker (Lance) and Gene Holden (Hercules) are spending three weeks at the School of Systems and Logistics at Wright-Patterson AFB, Ohio.

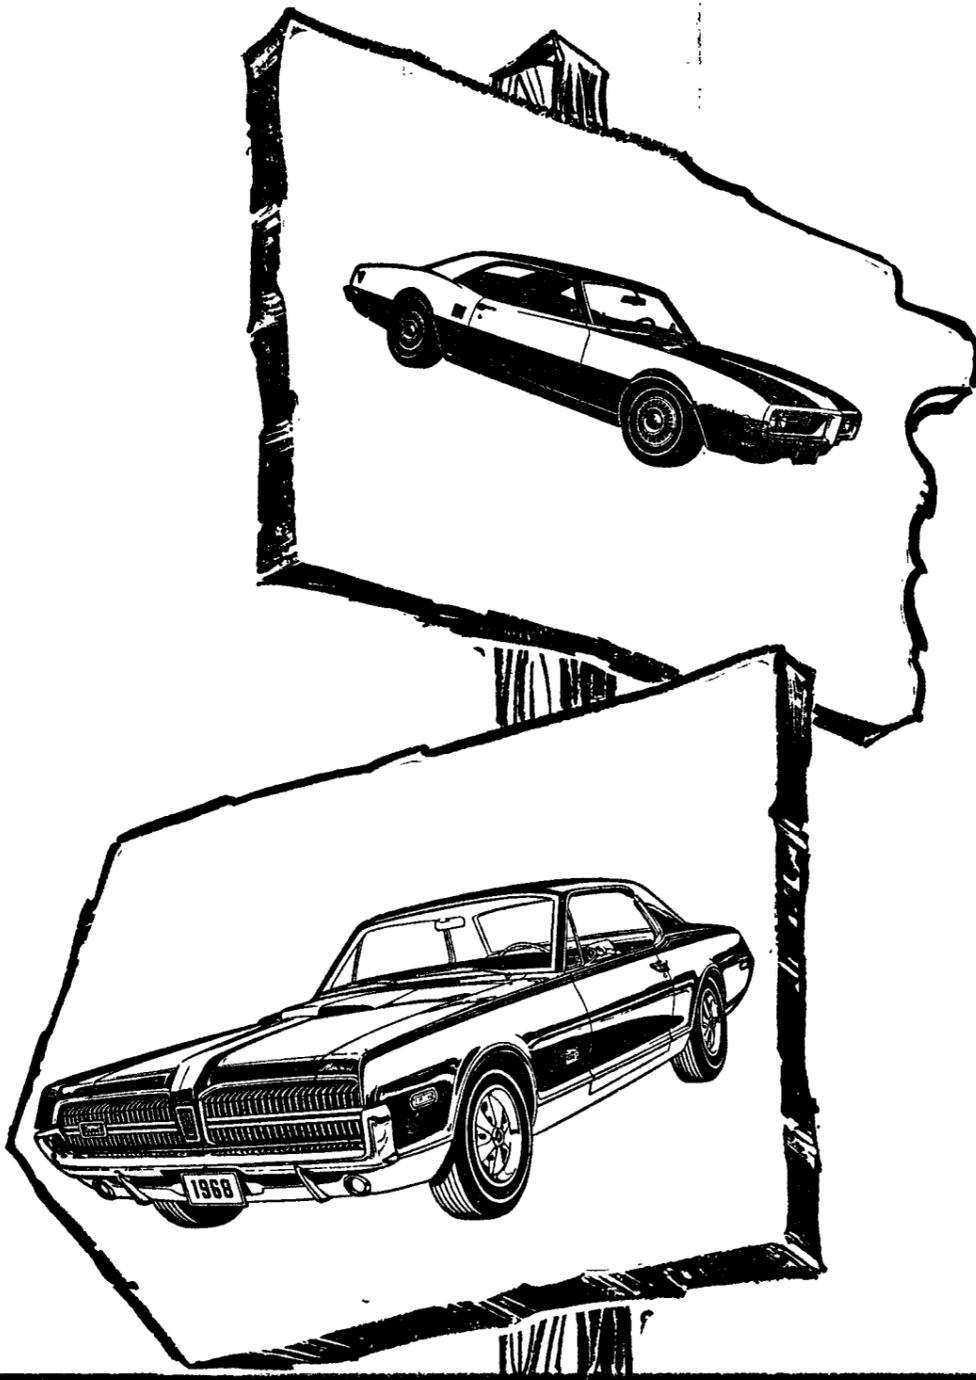

The former is enrolled for Advanced Contract Administration while the latter is taking the Defense Data Management course.

Another pair of locals are spending this week in Washington, D. C., where they are attending classes at the Naval Materiel Com-

mand. They are John Kerr (TOW) and Edward Ertl (P&P).

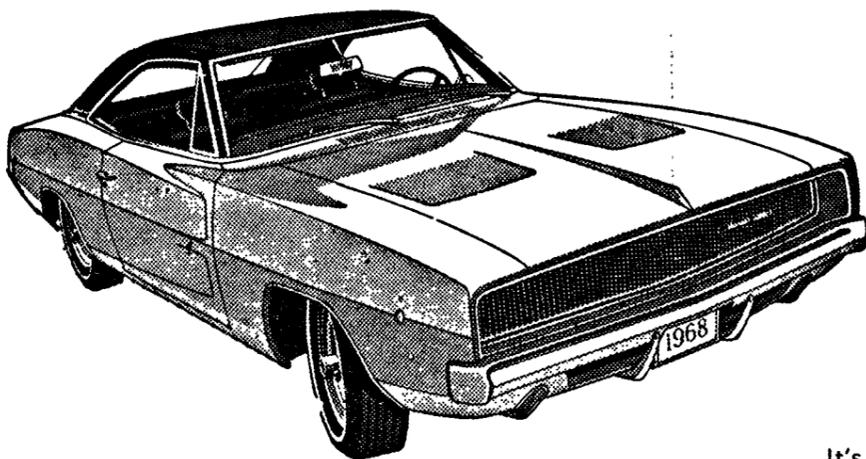

Norman Mead (P&P) is studying Hewlett Packard test equipment maintenance at the Hewlett Packard Co., in Palo Alto, Calif., and James Wigmore (S&M) went to Manchester, N.H., for study at Sanders Associates, Inc. He is taking a five-week course in forward area alerting radar maintenance.

Two Get Patents For Firing System Tester

Two ingenious scientists of the U. S. Army Missile Command's Research and Development Directorate have received a patent for invention of a test system which reaches into the very heart of a missile.

James B. Wright and J. Darryl Holder, both electrical engineers with the Army Inertial Guidance and Control Laboratory and Center, call their invention a pulse energy discriminator, and it is used in the checkout of an Army missile. Complete testing of a firing system previously consisted of actually firing the missile. Now, with the Wright-Holder pulse energy discriminator, a firing system can be tested before firing, preventing failures.

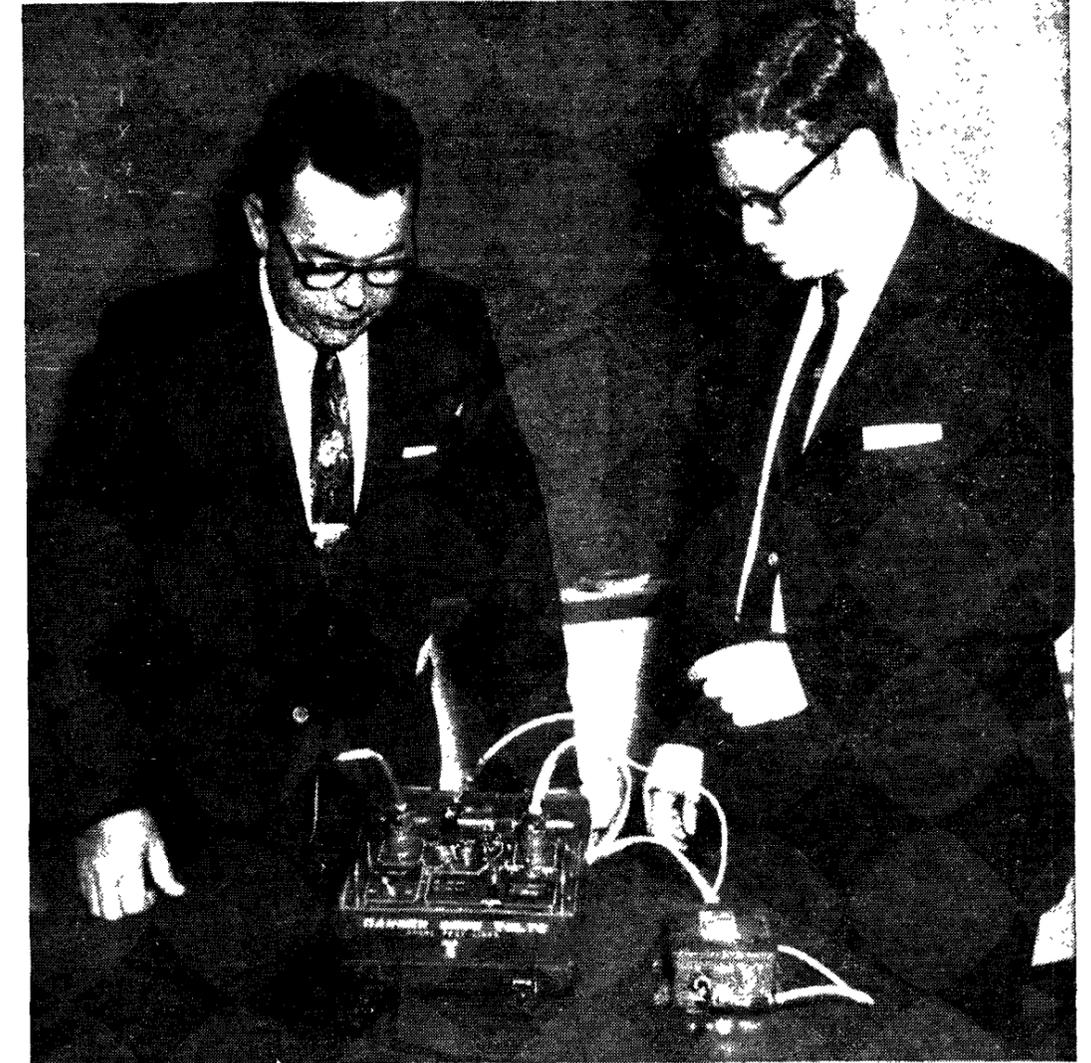

Wright and Holder are both known as "tinkerers." Wright, a veteran of 14 years with the Missile Command, has two other patents pending, and the pair is awaiting a patent on another device.

Born in Water Valley, Miss., Wright began training as a civilian in Army Signal Corps Radio School in Paducah and Lexington, Kentucky. In May, 1943, he was inducted into the Army. After his discharge in 1946, he attended the University of Southern Mississippi, graduating in 1950 with a B.S. in mathematics.

From 1950 to 1954, Wright was associated with the U. S. Air Force at Keesler Air Force Base. In 1954 he came to Redstone Arsenal and began work with the Army Inertial Guidance and Control Laboratory and Center, and has been continually associated with it to the present.

Holder is a native of Roanoke, Ala. He received his B.S. in electrical engineering from Auburn University in 1961. After graduation, he held a position with the Boeing Company in Seattle, Wash. for a short time before coming to the Missile Command in 1962.

While the Wright-Holder team holds the patent on the pulse

PAIR RECEIVES PATENT—U.S. Army Missile Command engineers James B. Wright (left) and J. Darryl Holder demonstrate their "pulse energy discriminator", a device for which they recently received a patent. Both are employed by the Army Inertial Guidance and Control Laboratory and Center at Redstone Arsenal.

energy discriminator, the government is permitted to utilize the invention without payment of royalties, since the device was developed in an Army research laboratory.

DEFENSE LANGUAGE INSTITUTE has been requested to train more than 10 thousand students in FY68, an increase of 1,900 over previous year's requirements. Increase is attributed to larger inputs in Vietnamese training, largest single language area. Complete schedule shows 63 languages and dialects will be taught during year. (AFNB)

ACCEPT POSTHUMOUS AWARD—Col. N. M. Bengtson (right) Director of the Missile Command's Research and Development Directorate, presents the Department of the Army Certificate of Achievement posthumously to the family of Max D. West. As Chief of the Systems Branch, Future Missile Systems Division,

Research and Development Directorate, West directed a group of scientists engaged in developing and managing research, development, test and evaluation of advanced development projects. Left to right are: Mrs. West; Max, 12; Sarah (Sally), 8; Cary, 16; and Col. Bengtson.

WHICH APE?
GORILLA WARFARE recently challenged the patience of a pointman for a 101st Airborne Division reconnaissance patrol. Searching for enemy rocket launching sites east of Phouc Vinh, Sp4 Terry Anderson of West Plains, Mo., heard loud noises in the jungle brush. The paratrooper aimed his M-16 rifle in the direction of the noise and prepared to fire. Then another member of the patrol yelled at him: "Relax, it's only a gorilla." As the other patrol members approached, they saw a baby gorilla about three feet tall scrambling into the jungle. "I was really confused," Anderson said. "I didn't know whether Roger meant gorilla or guerrilla." (ANF)

RECRUITING SERGEANTS STUDY TO BE AMMUNITION STORAGE SUPERVISORS

Twenty-one former recruiting sergeants are getting their first lessons in ammunition renovation, storage, and records this week in a special course instituted by the ammunition department of the Missile and Munitions Center and School.

Designed to produce a new career for the sergeants first class, the ammunition storage specialist course will answer a critical need for non-commissioned officers in the ammunition field.

designed for the specific purpose of producing ammunition supervisors. The special course will take the most challenging parts of the ammunition storage, renovation, and record courses and eliminate a lot of the practical exercise work. "Most of the pick and shovel work has been eliminated from the course," says SGM Herbert H. Parker, sergeant major of the ammunition department. "We have concentrated on the supervisory aspects of the work."

Previously, there was no course

Upon completion of the course,

the new ammunition sergeants will be assigned to overseas posts in Korea and Vietnam, where the

need is critical for their 55B40 military occupation specialty.

Effective Communication To Be Subject At MMCS Graduation Next Friday

For the second consecutive week, graduates of the Army Missile and Munitions Center and School (MMCS) here will be addressed by a Major James Lowe.

However, this time his middle initial is 'R.' and he is chief of the test and training branch of Explosive Disposal Division, Unit Training Command.

Maj. Lowe's subject at the Friday ceremony will be "Effective Communications" and his audience will include graduates of seven courses. Scheduled to receive diplomas are 74 enlisted men from the armed forces of China, Japan, Korea, Denmark and the United States.

An eight-year veteran, Maj. Lowe began his career with the basic Ordnance and nuclear weapons courses for officers and a three-year tour in Germany. He has since served at Ft. Bliss and Ft. Sam Houston in Texas, completed three more Army courses, and put in a year with the 533rd Ordnance (ED) Detachment in Vietnam.

Among his citations, Maj. Lowe numbers the Bronze Star, Vietnamese Campaign and Service Medals, and the Explosive Ordnance Specialist and Supervisors Badges.

Although born in nearby Florence, Ala., he received formal education at Loudon, Tenn., and went on to Washington and Lee University in Lexington, Va. There in 1959 he earned a Bachelor of Arts degree and an ROTC commission.

Mrs. Lowe, Lillian, sons Bill, 7, and Ed, 1, and daughter Kathy, 5, all live at 348 Crowell Circle here with Mai. Lowe.

Graduation exercises take place at 9:30 a.m. Friday in the Post Theater on Patton Road, with appropriate music and national anthems provided by the 55th Army Band. Guests are encouraged to attend the service.

MAJOR JAMES LOWE
