ARADCOM Sets Field Office Here

Air Defense Group Expands Existing Liaison Facility

The U.S. Army Air Defense Command (ARADCOM) now has a field office at Redstone Arsenal, to work with Army and other accredited organizations represented at the arsenal in development, production and maintenance of air defense systems.

The field office is an expansion of the liaison office ARADCOM previously had at Redstone. The change was made because of increased responsibilities.

Lt. Gen. George V. Underwood, Jr., ARADCOM commanding general, said one of the reasons for expanding the office was the U.S. Government's decision to deploy Sentinel ballistic missile defense system, and the establishment of Sentinel System Command headquarters at Redstone.

Col. James W. Young, formerly ARADCOM Liaison Officer, heads the new office which soon will have a staff of about 20 persons, most of them military.

The field office will be under direction of Brig. Gen. Howard P. Persons, ARADCOM Deputy Chief of Staff for Plans and Combat Development at ARADCOM Headquarters in Colorado Springs, Colo. Gen. Persons is a former deputy commanding general of the Army Missile Command at Redstone.

A major function of the office will be the continued coordination between ARADCOM and the Army Missile Command at Redstone concerning anti-aircraft missile systems presently operational or in development. Those include the Nike Hercules, HAWK and SAM-D missile systems.

The office will serve as a point of contact between ARADCOM as (See ARADCOM on Page 3)

BREAKING GROUND FOR NEW ALABAMA EXHIBIT CENTER— Army, MSFC, local and state officials saw the first shovels of planning and work reach a milestone last week when ground was broken to signal construction of the Alabama Space Science Exhibit Center at the intersection of Alabama Highway 20 and Madison Pike. Left to right are Edward O. Buckbee, Director, Alabama Space Science Exhibit Center; State Senator Jack Giles, Member, Alabama Space Science Exhibit Commission; Dr. Wernher von Braun, Director, Marshall Space Flight Center; Martin J. Dority, Director of the

Alabama State Bureau of Publicity and Information, and representing Gov. Albert Brewer; former Lt. Gov. James B. Allen, Chairman of the Commission; Maj. Gen. Charles W. Eifler, Commanding General, U.S. Army Missile Command; and Huntsville Mayor Glenn H. Hearn. Completion of the center, expected to draw thousands of tourists annually, is scheduled in about a year. The Army made available approximately 36 acres of Arsenal land to the Center which is being designed to tell the story of military and space accomplishments at Huntsville.

Officials Named For Fund Drive

An experienced team of fund-raising administrators has initiated the organizational planning for the 1969 Combined Federal Campaign in the Huntsville area with the annual drive less than six weeks in the future.

Maj. Gen. Charles W. Eifler, Commanding General of the Army Missile Command, will once more head the four-week drive in support of the various local, national and international fund raising agencies with Robert Malone as Coordinator for the CFC Committee.

Al LaGrone will head the Missile Command campaign with T. U. Hardeman heading the campaign for the Marshall Space Flight Center. Stephan Zelobowski was named agency chairman for the Sentinel Systems Command.

The agency chairmen for the Army Missile and Munitions Center and School and the various other Federal agencies will be announced later.

Malone said that the CFC Operating Committee will be unchanged from last year with LaGrone doubling as chairman of finance and reports. Dave Harris will be in (See OFFICIALS on Page 3)

COL. MAC D. HENDRICKS

Col. Hendricks Named DASO Deputy Director

Col. Mac D. Hendricks has been named Deputy Director, Arsenal Support Operations Directorate, Army Missile Command. He succeeds Col. Anders O. Wiklund who has served as Acting Deputy Director and is now Assistant for (See COL. HENDRICKS on Page 3)

'Arsenal For The Brave' Is Official AMC Motto

"ARSENAL FOR THE BRAVE" has been adopted as the official motto of the U.S. Army Materiel Command, it was announced last week by General Frank S. Besson, Jr., Commanding General of the Army's largest logistical command.

The motto will be used on a new distinctive insignia (metal and enamel) being designed for AMC by the Army Institute of Heraldry.

The motto was developed through an AMC-wide contest which drew 16,302 entries by mil-

itary and civilian personnel throughout AMC's 190 installations and activities.

Before adopting "ARSENAL FOR THE BRAVE" as the official AMC Motto, General Besson personally reviewed all of the 16,302 suggestions received in the contest.

Commenting upon the number and calibre of the entries in the contest, General Besson said:

"The participation by so many thousands of the men and women of AMC in the effort to develop a (See ARSENAL on Page 3)

Brig Gen. Harvey Receives Award For Distinguished Army Service

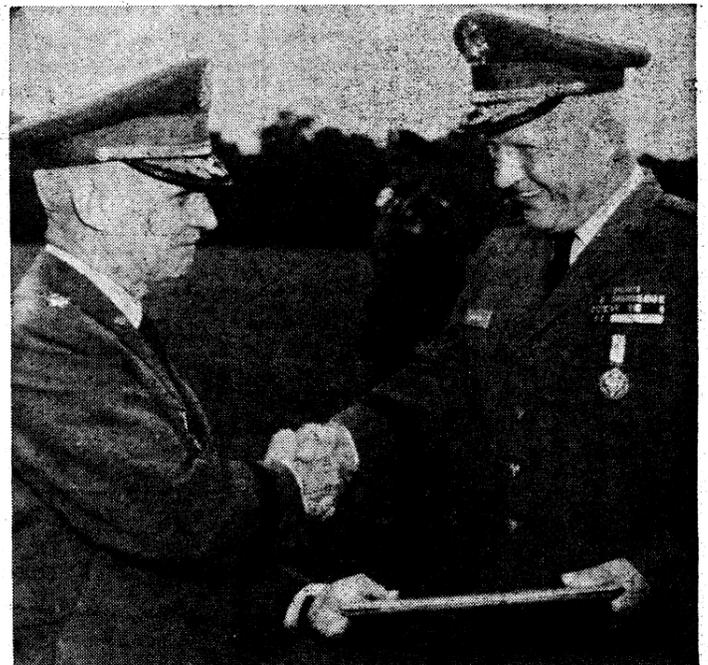

Brig. Gen. Clarence C. Harvey, Jr., received the Distinguished Service Medal, during his retirement ceremony last week.

General Harvey left the Army after 30 years of service. His last assignment was as Deputy Commanding General for Air Defense Systems for the Missile Command.

The citation presented to General Harvey along with his medal by Maj. Gen. Charles W. Eifler read in part:

"General Harvey displayed significant achievements as the manager of the air defense systems and as an outstanding leader of a complex military/civilian team of engineers, scientists, and technicians. He demonstrated managerial ability that has consistently and successfully emphasized improvements, utility, practicality, and economy of Army air defense weapons and has resulted in increased mobility, readiness and firepower for the Army.

"General Harvey was responsible for the development and production of new and improved missile weaponry and for improving the defense posture of the United States and the free world through (See GEN. HARVEY on Page 3)

RECEIVES AWARD—Maj. Gen. Charles W. Eifler (left) presents the Distinguished Service Medal to Brig. Gen. Clarence C. Harvey, Jr. General Harvey retired from the Army last week after 30 years of service. He plans to teach in California this fall.

Troops Fire Pershing 1-A

Pershing 1-A successfully completed its first service test firing Monday, with troops from the 2nd Battalion of the 44th Artillery, Ft. Sill, handling the launching.

The missile was fired from Gilson site near Green River, Utah, into a pre-selected target area on White Sands Missile Range, N. M.

First firing of the 400-mile-range missile from its new ground support equipment—called P1-A—came in March when it passed its research and development flight tests at White Sands.

Although the missile remains (See PERSHING on Page 3)

Bloodmobile Will Be Here Aug. 14

The Red Cross Bloodmobile will visit Redstone Arsenal August 14 between 8:30 a.m. and 2:30 p.m. at Bldg. 7110.

Volunteers willing to help are asked to contact Mrs. F. T. Morano, 837-0159. Volunteer Nurses should call Mrs. J. M. Loomis, 881-9582.

Donors visiting the Bloodmobile, even if not accepted, are issued blood donor cards valid for six months.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$7.42 a year, or \$4.00 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

Rocket Ruminations

Knowledge, in truth, is the great sun in the firmament. Life and power are scattered with all its beams.

—Daniel Webster

Help Wanted

HELP WANTED: Young men and women who are energetic, dedicated, intelligent and highly motivated toward public service. Must be of unquestionable character and able to work with people. Should be nearing end of military service. Can look forward to steady employment, many fringe benefits, promotions, varied assignments, retirement plan and public respect. More than 15,000 vacancies exist. Interested parties apply to any law enforcement agency.

TALK ABOUT ON-THE-JOB TRAINING!

There is the offer—can you fill the position? Our law enforcement agencies across the country are looking for capable young men and women to fill their ranks.

Those seeking to become police officers should not be looking for a "soft job." The hours are often long and unpredictable and there is a constant element of danger.

However, whether in small towns or large cities, law enforcement officers are taught the latest developments and techniques in psychology, communications, transportation, science and technology. No matter how well educated they might be at the start, their knowledge will grow and their capabilities will increase in order to keep pace with our changing society and the growing responsibilities of law enforcement officers.

Career law enforcement officers have the satisfaction of playing vital roles in their communities—of making major contributions to the well-being and growth of not only the individual citizens and towns they serve, but to the nation as well.

The role of the police officer is as varied as the individuals comprising this country. Friend, benefactor, counselor, life-saver, protector, neighbor, scientist, technician—these are only some of the multiple roles of police officers.

It is a rewarding, respected and vital profession. If you want to continue to serve your country after you leave the military service, investigate the opportunities available as a law enforcement officer. Your personnel or education officer can provide the necessary information to get you started. (AFPS)

Glen Arney Receives Civilian Service Award

A Supply and Maintenance Directorate worker whose career in the Federal service has been marked by a series of milestones of major achievements is the latest Meritorious Civilian Service award.

Maj. Gen. Charles W. Eifler, Commanding General of the Army Missile Command, conferred the second highest civilian citation on Glen Arney, chief of the Directorate's Provisioning Office in a ceremony here last week.

Arney is the third MICOM employee to be awarded the coveted citation in recent weeks. Another Supply and Maintenance executive, Howard Crumrine, and Lewis Aycock, deputy chief of the Finance and Accounting Center, were recognized earlier.

He was cited for his exceptional service as an executive in the management of the Army's logistic program for guided missile weapon systems, over a 13-year period.

The effectiveness of the provisioning program established by Arney has been recognized throughout the Department of Army and his procedures are in wide use throughout the Army establish-

GLEN ARNEY

ment.

A native of Banner, Va., Arney came to Redstone in 1953 from the Savannah Ordnance Depot in Illinois where he was an ammunition inspector. Since coming to the Arsenal his career has been a record of steady progression and his outstanding achievements have gained him wide acclaim as a leader in the Army Materiel Command's logistic support area.

Missile School Sets Graduation

The Missile and Munitions Center and School will send another 100 graduates winging toward field assignments Friday following graduation exercises in the Post Theater at 9:30 a.m.

Among the outgoing class are 20 officers, including one from Thailand and another from the Marine Corps.

Guest speaker for the event will be Maj. Clarence C. Greenhill, the facility manager in Directorate of Logistics at MMCS. He will speak on "responsibility and the code of conduct."

Maj. Greenhill is a veteran of 23 years service who came to MMCS after duty as assistant director of supply and service at the Army Terminal Command in Bremerhaven, Germany. While a sergeant first class in 1957, he received an appointment to the rank of first lieutenant with concurrent orders to active duty.

The 55th Army Band will precede the commencement program with music entertainment at 9:15. The public is invited to attend the proceedings.

Veteran Jurist Elbert Parsons Buried Sunday

Funeral services for Elbert H. Parsons, presiding judge of the 23rd Judicial District for 23 years, were held Sunday in the First Presbyterian Church of Huntsville, with burial following in the Maple Hill Cemetery.

The prominent 60-year-old jurist was a member of the Army Missile Command's local Army Advisory Committee and was identified with Army-community endeavors as well as many other civic efforts.

Judge Parsons had been hospitalized with a heart condition during the past spring but he had returned to his duties on the bench and was resuming his civic endeavors on a limited basis.

Survivors include the widow, a son and a daughter.

Directors Discuss AUSA Activities

Activities of the Tennessee Valley Chapter, Association of the U.S. Army, for 1968-69 were discussed last week during an organizational meeting of the Board of Directors.

It was the first time Brig. Gen. Robert B. Spragins (USA Ret.), recently installed president of the local chapter, presided.

He said chapter activities for the coming year had been discussed with Maj. Gen. Charles W. Eifler, Commanding General, U.S. Army Missile Command, and that General Eifler indicated he would fully support local AUSA activities as he had in the past.

Elected officials who have been designated specific areas of responsibility are as follows:

Walter F. Eigenbrod, first vice president, programs; William P. Burnett, second vice president, membership; Charles F. Owens, historian; William T. Weissinger, director, officer and non-commissioned officer recruitment; and Gregory S. Moshkoff, director, awards.

General Spragins said other committee chairmen were being considered and would be announced at the August meeting of the board of directors.

unchanged in the P1-A, the system's four track vehicle give way to wheels for all ground support equipment. The highly-mobile, fast-responding erector-launcher carries the complete two-stage missile on a single carrier towed by an eight-wheeled prime mover, a variation of the five-ton M656 truck developed for the Army by Ford Motor Co.

Other system improvements center on the programmer test station and a completely new battery controlled central linked by communications to higher headquarters.

The Pershing launches served as annual service practice for the

ARSENAL

(Continued From Page 1)

(Continued From Page 1) motto for the Command is truly spectacular evidence of the spirit and dedication of the AMC team.

"The 16,302 suggestions received covered every facet of AMC's vast and complex mission, and constitute an unprecedented expression of our collective determination to fulfill that mission to the utmost of our abilities.

"To all who offered suggestions for our motto, I extend my appreciation and heartfelt thanks, both personally and on behalf of the entire command."

Since no one individual suggested the precise wording ultimately developed and adopted as the official AMC motto, the two contestants whose entries most nearly duplicated the official wording were declared co-winners of the AMC Motto Contest.

The two winning contestants, both civilian employees at Edgewood Arsenal, Edgewood, Maryland, are Mr. Elwin C. Penski, research chemist; and Mr. Frank Komar, engineering technician.

Mr. Penski and Mr. Komar were each awarded a Certificate of Appreciation and \$250 in Savings Bonds at ceremonies honoring AMC's Sixth Anniversary held today at AMC Headquarters, Washington, D.C.

GEN. HARVEY

(Continued From Page 1)

better maintenance and support for fielded systems.

"Under General Harvey's leadership, the SAM-D Project Office was established in August 1965. The objective of this new weapon system, which will eventually replace HAWK and HERCULES is to provide a weapon system that is 15 to 25 years superior in technology and many times more effective than the current air defense system.

"His initiative and dedication were instrumental in welding together a program that was successfully selected by the Department of the Army and the Secretary of Defense for advanced development. Following this approval, the SAM-D concept has required expert support and coordination which General Harvey has skillfully provided.

"Throughout this period, General Harvey consistently produced results of the highest order, making major contributions of inestimable value to the national defense."

The general's wife, Frances, and two of his sons, Robert and David, attended the ceremony. Both boys are cadets at the United States Military Academy at West Point. A third son, James, is an Army Captain.

Following his retirement General and Mrs. Harvey are moving to California where they will make their home on the Monterey peninsula. This fall he will join the faculty at Robert Louis Stevenson School in Pebble Beach to teach math and physics.

Barnes to Read Paper During Indian Festival

Joe Barnes, a civilian employee in the Sergeant Project Office, will read a historical research report at the conclusion of the three-day Ta-Co-Bet Indian Festival.

Barnes is chairman of the Ta-Co-Bet Historical Association.

The program will begin Friday at the Indian memorial site atop Sand Mountain on Alabama Highway 40. Martin J. Darity, director, State Bureau of Publicity and Information, will give the welcome address.

Tom Connell of the Alabama Archaeological Society, Huntsville chapter, and historian Frank Grigg of Scottsboro will lead a historical session Saturday.

Dr. Walter B. Jones, retired state geologist, Huntsville, will present a paper Sunday afternoon.

Friday and Saturday nights an Indian drama, "Return To God's Mountain" will be presented.

Schedule Yields Variety

Contraband Day will be the theme of the activities planned for enlisted men at the Service Club on Sunday.

Special movies, contests, a treasure hunt and refreshments will be on the program. The opening of the treasure chest at 9 p.m. will climax the program.

Special movies to be shown are: The America Cup Race, Sailing Can Be Fun, and the 1967 World Series.

All enlisted men at Redstone Arsenal are invited to visit the Service Club.

Red Cross Group Collecting Items For Servicemen

Contributions are needed to help Red Cross volunteers fill Christmas bags for soldiers in Vietnam.

Boxes to collect items for the bags will be located at the Post Exchange, Rod and Rake Shop, Officers Open Mess and NCO Open Mess.

Volunteers who would like to help with the project are invited to call Mrs. N. L. Holland at 837-2031.

Examples of the items the Red Cross would like donated include: ballpoint pen, pencil and pencil sharpener, windproof cigarette lighter, pen-sized flashlight with batteries, plastic soap box with soap, small package of writing paper with self-seal envelopes, small plastic toothbrush holders including toothbrush, washclothes, small snapshot holders, small address book, pocket games, deck of playing cards, crossword puzzle book, nail clippers, sewing kit, shaving lotion in plastic container or small package of Kleenex.

These items will be placed in small ditty bags and given to wounded men after they are admitted to the hospital.

The bags are a joint project of the Redstone Arsenal Red Cross volunteers and the Huntsville-Madison County Red Cross Chapter.

DIALS, NAPPER TIE

The Golf Group sponsored by the Redstone Officers Wives Club played from tee to green with two-thirds handicap last Wednesday.

Tied for first place were Erlene Dials and Martha Napper, second was Charlene Powell and third was a tie between Johnnie Holmes and Billie Shupput.

Louise Julich from the office of the Deputy Commanding General, Land Combat Systems at the Army Missile Command, and Alabama state president of the Business and Professional Women's Club leaves this week to attend the In-

ternational Congress of that organization in London, England.

She will accompany Dr. Minnie C. Miles of the University of Alabama, a past state and past national president of the Club.

Before attending the Aug. 18-24

meeting, they will tour several European countries and visit the international headquarters of B&PW in Switzerland.

Nurses Appreciated Every Week of Year

Nursing staffs across Alabama will receive salutes this week (Aug. 4-10) with varied programs. Alabama has declared this "Nurse Appreciation Week."

Both Army and civilian nurses serve at the U.S. Army Hospital at Redstone. They staff the hospital, outpatient clinics and the occupational health service.

The nurses assist in surgery, keep watch on patients in wards and private rooms, assist with physical examinations and perform the myriad tasks that help the sick recover, and the well stay that way.

The Army nurse does not always have a solid hospital built to last in which she helps patients to recover. She usually has at least two or three assignments on or near the front lines of battle during a war, or she may have an assignment on an air transport plane which is turned into a makeshift hospital between a far away battle field and an Army hospital in the States.

The nurse corps is not confined to women. Men serve too.

They fight the grime of the battle field and the war on germs.

Off duty, they explore exotic lands, pursue a hobby, collect specimens from the places they visit, meet people all over the world and feel satisfaction because their profession is one of honor and service.

RECOVERY ROOM—Capt. James D. Cooper, Army nurse and anaesthetist, checks the blood pressure of a patient in the surgery's recovery room. The Captain is also in charge of Clinic B in the Troop Area. The Army is recruiting both men and women in the Nurse Corps. Capt. Cooper, whose home is in Athens, recently returned from a tour in Vietnam.

SURGERY—Maj. Naomi Higgins, surgical and medical nurse at the U.S. Army Hospital, Redstone Arsenal, removes a tray of instruments from the sterilizer in an operating room. Maj. Higgins is representative of nurses, in and out of the Army, who assume duties in more than one area. She is on duty in the outpatient clinic each day, and she assists with surgery when needed.

CONFERENCE—Nurse Madeline Griswold whose station is on Ward I at the U.S. Army Hospital confers with Maj. Sarah E. Perkins, Chief Nurse. Mrs. Griswold is one of a number of civilian nurses serving on Army posts. Maj. Perkins is a career Army nurse who has served in many places, most recently in Vietnam before assignment at the U.S. Army Hospital at Redstone.

Accountants Race Toward Undisputed Crown

Unbeaten Season Within Reach for F&A Hitters

It's just about all over but the shouting in the CWF Softball League with the Finance and Accounting crew all tuned up and ready to give out with a mighty yell.

The Accountants closed out all but two of their competitors for the second half crown last week and expect to complete the job this week. With two games left to go F & A can clinch the league title with one win and can complete an undefeated season by taking both.

Winners of the first half, the Accountants grabbed at least a tie for the second half with an 8-1 win over Data Processing. Only Pershing and ICO still have a chance to catch the Accountants.

ICO stayed alive with a 9-0 win over Supply and Maintenance and Pershing kept their slim hopes open by eliminating the G & C Lab, 18-1.

In other games last week the Comp Center ended the Documentation hopes, 7-5, after Documentation had handed G & C an 8-4 setback. DPO also saw their last chance shattered at the hands of the Comp Center, 12-7.

Elliott Agee set the stage for the latest Accounting victory in a string of 16 when he unloaded a three-run homer in the very first inning. From there on it was a series of DPO frustrations doled out by Johnny Johnson.

Jack Willis paced the attack with three out of four with Dwain Kidd and Buddy Lewis getting two apiece. Doug Peavey took the loss, when Norm Williams was the only DPO hitter to connect for two hits.

Del Williams had little trouble in pitching Pershing to its win over G & C when his mates scored 14 times in the first three innings. Dave Hillman and Wayne Dahlke hit homers while Dan Griffiss scored four times.

The Comp Center hit Documentation with a five-spot in the first inning and pinned the defeat on Charley Sneed with another pair in the fourth.

Coker took the win with Hemphill and Secrest setting the offensive pace with three hits apiece. Honea and Williams each homered for the losers.

Another fast start enabled the Comp Center to upend DPO. This time six runs went on the board with half of them coming around on Jay Robert's shot over the left field fence.

Roberts got two more hits and Bobby Beal added three more

MILITARY WIVES SET LEAGUE PLANS

The first call has been issued for dependent wives interested in bowling in the Tuesday Morning Ladies league during the coming season.

Tentative plans call for the league to organize with a meeting at the Post Lanes on Tuesday morning, September 3, one week before the opening of the league season.

Eligible women who might be interested in affiliating with the league may get additional information by calling Esther Matt at 837-5623, or Betty Boyd at 837-6258.

with Coker taking his second win of the week. Doug Peavey and Joe Stover homered in the losing cause.

Documentation evened their slate for the second round when they victimized G & C for their third win in six starts. Honea was back at it with another round tripper sandwiched between a pair of doubles.

Clayton accounted for all of the G & C scores with a bases-loaded double and a solo home run as Thacker took the setback.

German Students In Soccer Game

Seeking a revival of interest in soccer at Redstone, the German Air Force Detachment at the Army Missile and Munitions Center and School has scheduled a game for Friday afternoon at the field on Patton Road.

A team made up of international students at the University of Alabama will come to the Arsenal from Tuscaloosa to provide the opposition for the German team. The game is slated to start at 5 p.m.

The Alabama students will be visitors to the Arsenal on Friday for a tour of the facility and will conclude their visit with the game.

The MMCS students have fielded outstanding soccer teams for several years here and have competed against the strongest aggregations throughout the southeastern part of the country.

CFC Netters Still Second After Loss

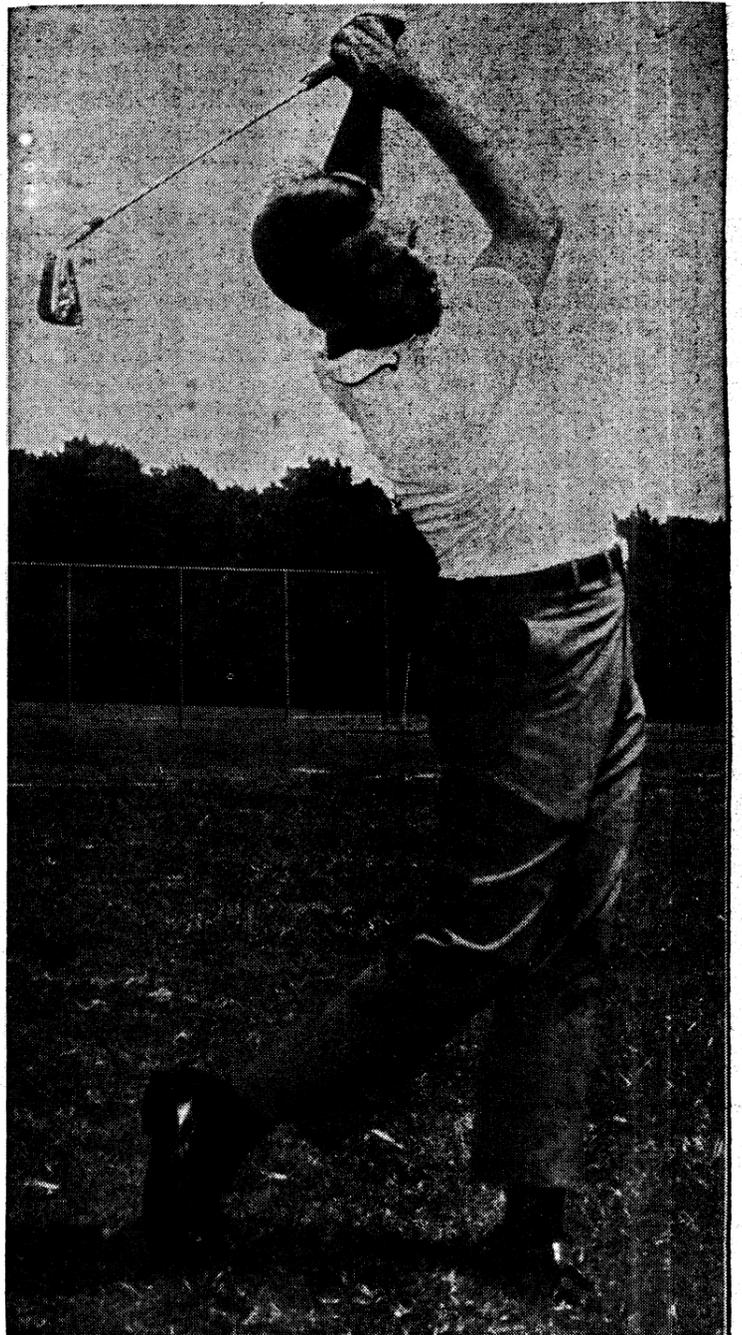

The Missile Command tennis team clung to second place in their division of the Huntsville Industrial League last week despite absorbing an 8-1 setback doled out by the Marshall Space Flight Center.

Only Chuck Bowden was able to break through the solid Marshall front and he prevented the sweep by capturing the No. 1 singles match.

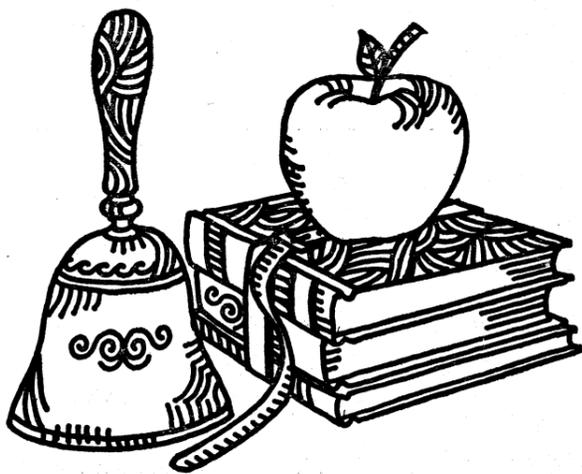

The same two teams are back at it this week as the league season draws to a close. Marshall tops the B Division with a comfortable lead over the CFC-sponsored MICOM team. The defending champion Lockheed team trails the Missile Command in third place.

A newcomer to the MICOM team, Don Holder, will make his first start in league play in this week's match. He will be playing the No. 4 singles set in addition to one of the doubles.

In addition to Bowden and Holder, the MICOM singles players are Art Jones, Irv Kellogg, Joe Hiatt and Charles McBrearty.

LEADING THREAT—PFC Bob Carpenter will be the top Redstone threat when the Third Army Golf Tournament opens next Monday at Ft. Rucker. Carpenter was the low scorer in the recent 72-hole qualifying meet held at the Arsenal course. He will be joined in the Third Army meet by Lt. Lee Rhoades, W-3 Pat Keefe and Spec. 6 Feiciano Milar. A native of Columbia, S.C., Carpenter is assigned to the Missile Command after having completed a course of training at the Missile School.

Back-to-school shopping? See HFC

If you run short of money outfitting your youngsters for school, here's a lesson for you: a Shopper's Loan from Household Finance can pay for all their back-to-school needs. With a Shopper's Loan you can shop anywhere—and HFC will tell you before you borrow what your loan will cost. Back-to-school shopping? Do it with a Shopper's Loan from HFC.

Police Down Sixth ETC To Take Lead In Softball

The 291st Military Police took a giant stride in the direction of the championship of the Unit Level Softball championship last week when they whipped the Sixth ETC in a crucial battle.

they handed them their fourth loss. The MP's defeated the Second ETC in their only other appearance of the week.

The standings at the start of

	W	L
Military Police	21	2
Sixth ETC	20	4
Missile Command	18	5
A Company	17	7
U T C	15	8
B. Company	15	9
Eighth ETC	12	9
Marines	13	11
Ninth ETC	10	11
C Company	10	13
D Company	10	13
Student Officers	9	13
522nd Ordnance	5	17

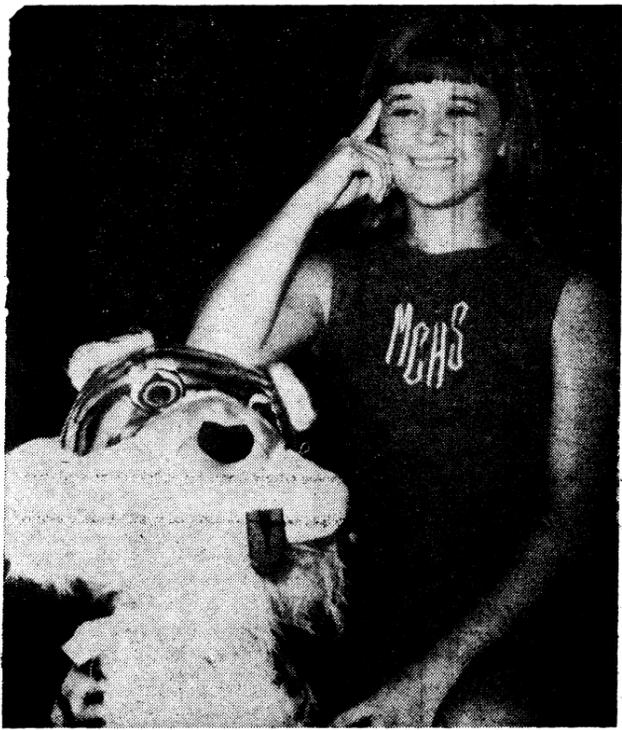

The two combatants went into the showdown with identical 19-2 records after the Sixth had defeated C Company earlier in the week.

Each of the two teams have eight games left on their schedule as has the third place MICOM entry. However, the Police now have two less defeats than the Sixth and three less than MICOM.

The third placers added to the woes of the School team when

Unusual Business Opportunity

Fabric Store in excellent location in Madison area. Must sell. Unlimited possibilities for right party. Any reasonable offer considered. For details and appointment to see, write 3302 Mulberry Lane, Huntsville, Ala. 35801. Please do not reply unless interested.

ON THE SIDELINE—Leading the cheering for the North team in the Alabama High School all-star football game in Tuscaloosa tomorrow evening will be Charlotte Thompson of Hartselle. Head cheerleader at Morgan County High School, Charlotte was selected for the role by the Alabama High School Athletic Association. Her father, Charles Thompson, is employed with the Technical Editing Section of the Supply and Maintenance Directorate. The game pitting the top players from the northern part of the state against those from the southern high schools will be played at Denny Stadium at the University of Alabama with the kickoff set for 7:30.

LADIES BOWLING LEAGUE ORGANIZES

Officials of the Ladies Field Services bowling league have started laying the groundwork for the coming season and have issued a call to all women employees of the Arsenal who might be interested in participating.

Alice Flear, spokesman for the league, said that the league matches will be bowled at the Starlite

Lanes this season starting at 6 p.m. on Thursday evenings. There were eight teams in the league last year.

Women interested in affiliating with the Field Services League can obtain additional information by calling Alice Flear at 876-8965, or Marge Torzillo at 536-2765.

Buses, Trucks Need Constant Maintenance

TIRES INSPECTED—William Milam takes a careful look to check for breaks in this huge tire in one of the shops of the Maintenance Support Division.

LINES OF BATTERIES—Rayford Frame checks the rows of batteries he has on charge in the Mechanical and Services Branch of the Maintenance Support Division.

LAWNMOWERS TOO—Clyde Freeman of the Mechanical and Services Branch in the Maintenance Support Division works on a lawnmower used on the Arsenal. Freeman's title is garden equipment repairman.

Everyone who has any business at the Army Missile Command is well aware of one of the services performed by the Maintenance Support Division of the Arsenal Support Operations Directorate. It's the maintenance done on buses, trucks, garden machinery, heavy motorized equipment, combat and tactical vehicles, and small arms repair.

This Mechanical and Services Branch has the job of mechanical repair, fixing tires, painting vehicles, greasing and oiling equipment, and restoring wrecked vehicles, among other such activities.

The requests for work to be done topped 30,000 during the last year.

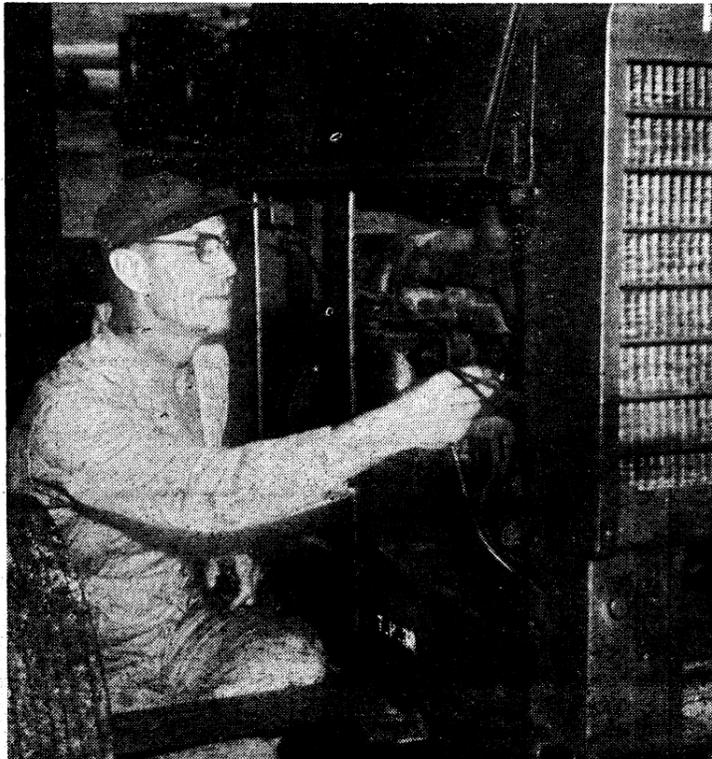

Technical Writing Short Course Set

The University of Alabama, Huntsville Campus, will present a short course in Technical Writing and Editing on October 7-11, 1968.

The course offers a detailed examination of the principles of technical writing and editing. It is NOT a grammar review. It is a practical lecture/discussion/workshop for both the editor and the writer. The writing supervisor and the engineer who spends considerable time writing will also find the course of value. This short course follows the progress of a professional writing assignment — preliminary planning and organizing; writing and revising, editing; and production.

This seminar is devoted to clarifying and simplifying the writing/editing task; making easy the preparation of technical proposals, reports, and presentations. The course presents the latest developments in writing and editing techniques, with emphasis on how to save valuable time, how to strengthen writer/engineer relationships, how to add creativity to a company's writing, and how to make all industrial writing more effective.

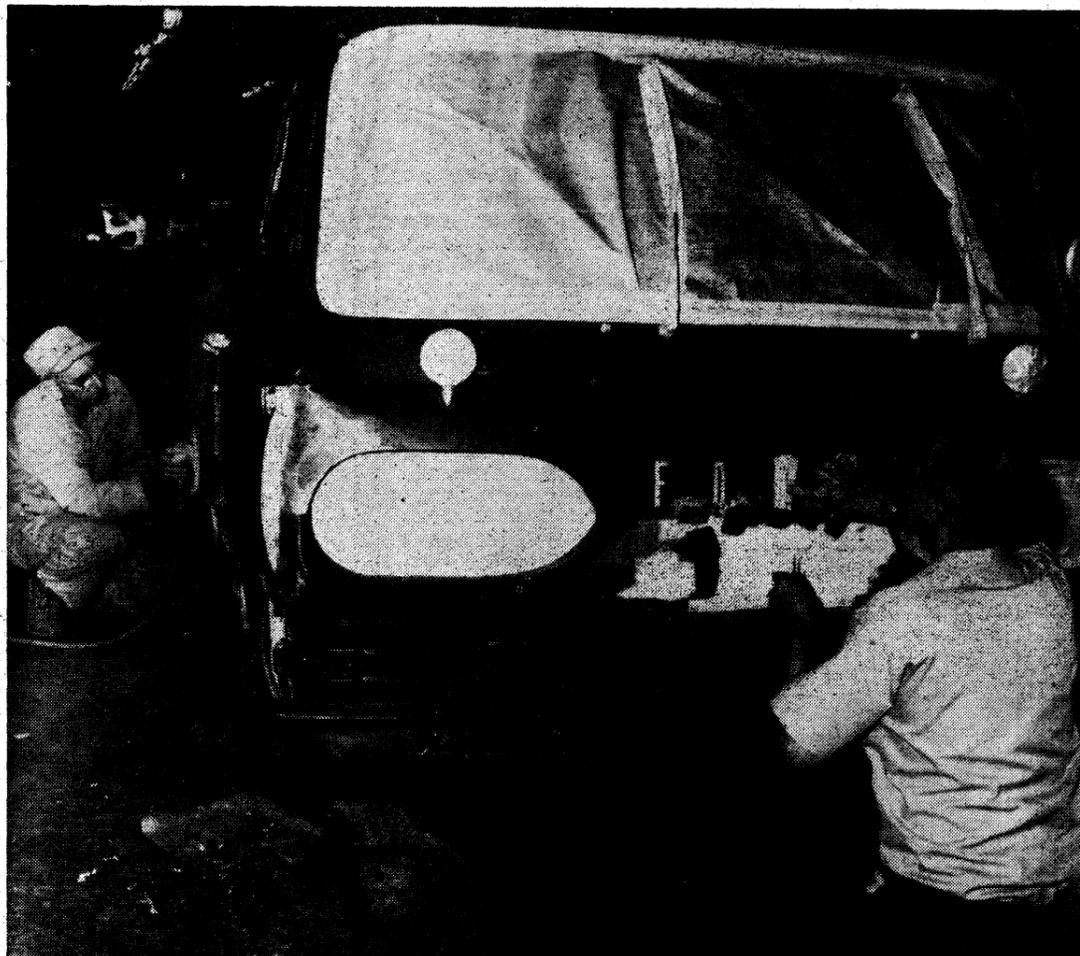

Enrollment may be made by companies or individuals. Since the number of participants is limited, reservations should be made early. For further information, contact the Conference Activity Division, University of Alabama in Huntsville, P. O. Box 1247, Telephone 837-0580, Extension 321 or 322.

ADJUSTMENTS MADE—Harry Bradshaw, engineer equipment mechanic, makes repairs on a welder. He is employed in the Mechanical and Services Branch of the Maintenance Support Division.

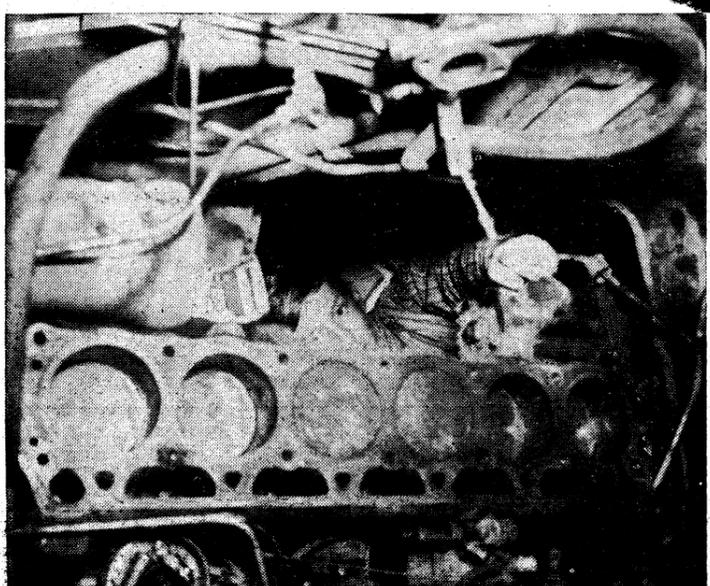

FORKLIFTS NEED HELP TOO—Sebrun Cunningham repairs a forklift, one of the pieces of material handling equipment that must come into a Maintenance Support Division shop to keep it in operating condition.

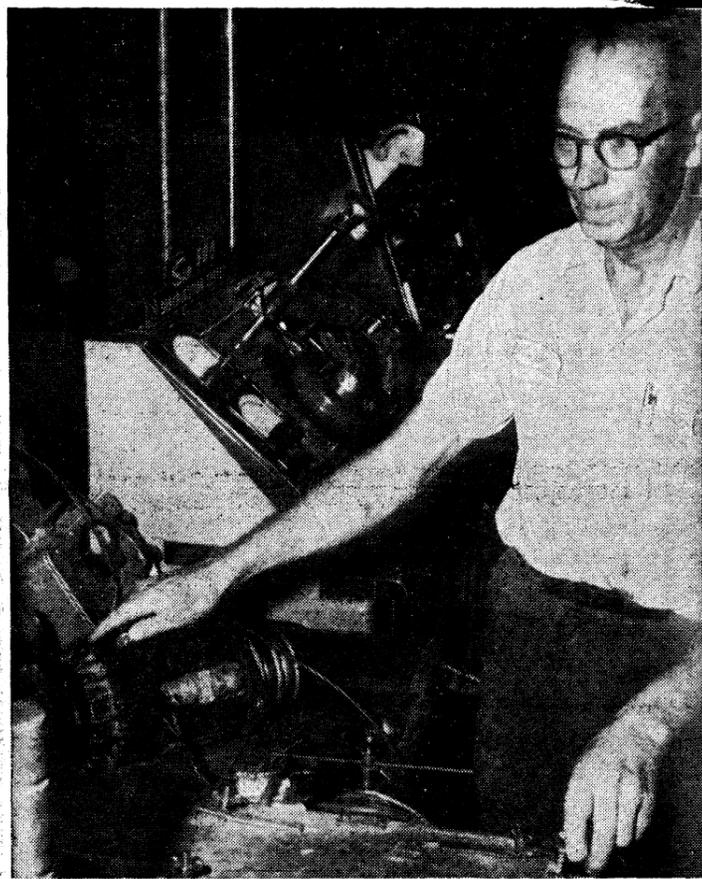

NEW PAINT JOB—Harrison Campbell, left, and George Ford prepare a vehicle for painting in the Mechanical and Services Branch of the Maintenance Support Division where all automotive equipment is serviced and repaired.

MMCS Personnel Make Miscellaneous News

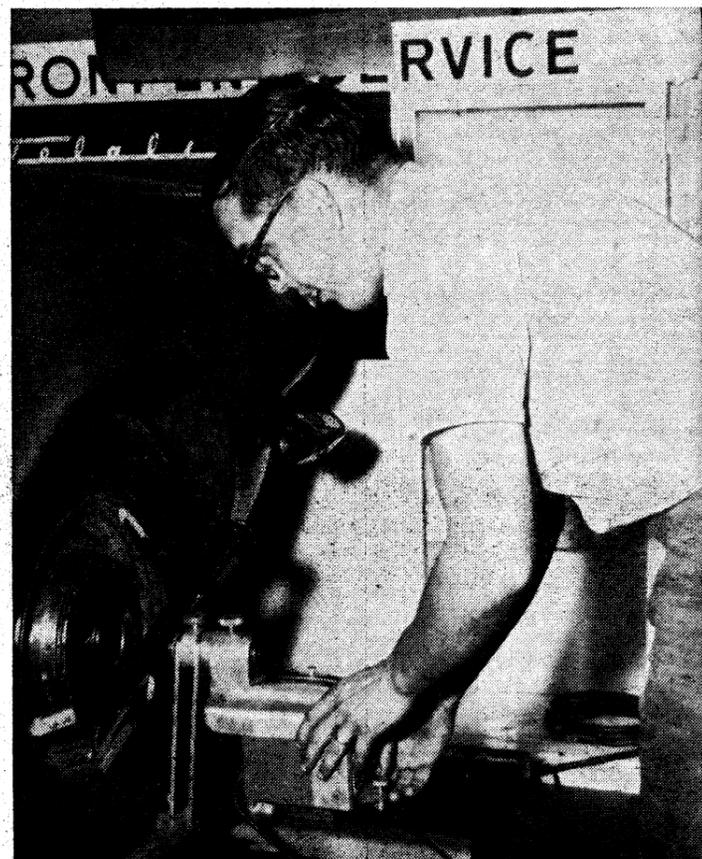

(Editor's Note: This is a new column which will appear when space permits, featuring news about individuals and units in the Missile and Munitions Center and School. Your contributions are welcome and should be sent to: Office of Information, Room 217, Bldg. 3300.)

LEARNING A TRADE—Leonard Worley, a student aid in the Mechanical and Services Branch of the Maintenance Support Division, works with auto mechanics as he trains for a career.

EQUIPMENT FOR ALL NEEDS—Using some of the up-to-date testing equipment available in the Mechanical and Services Branch of the Maintenance Support Division, James Randolph, an auto mechanic, runs a test on a generator.

WHEELS ON STRAIGHT—Grady Perkins, auto mechanic aligns the front end of a staff car in the Mechanical and Services Branch of the Maintenance Support Directorate.

Commendations

Army Commendation Medals were presented last week in the Directorate of Individual Training to three men. Sgt. Mtj. Herbert H. Parker of the ammunition department was awarded the third oak leaf cluster, his 13th citation in 21 years of duty. The day before retiring. Master Sgt. Dorris C. Wright and Sgt. 1st Class James W. Trump received medals. Sgt. Wright was NCO in charge of the Non-resident instruction department and Sgt. Trump served as senior instructor in the Hawk fire control branch.

In the Directorate of Logistics, the award was made to Master Sgt. Junior S. Gates, sergeant in charge of the maintenance department, who also retired last week. Other recent presentations have gone to Sgt. Maj. George R. Abreu, operations sergeant of Unit Training Command and 1st Sgt. Jesse E. Deatherage, now retired.

Duty Together

Spec. 5 Sammy Williams in personnel dug up an unusual parallel recently. Sp5 Leonard Kaufman and Sp4 James Harvey ended their time in service together here last week, just as they had begun active duty on the same day in '66 in the same outfit at Fort Knox, Ky.

The peculiarity is that Kaufman from Mt. Prospect, Ill., and Harvey, from Loveland, Ohio, were total strangers. They completed basic and advanced training together, then both were assigned to MMCS as personnel specialists.

Meritorious Service

Maj. (USA Ret.) Louis L. Pierce has been cited by Col. Paul B. Schuppener, commandant, with the Department of Defense Joint Service Commendation Medal for meritorious service. Mr. Pierce is a civilian instructor in land combat branch at Officer Training Department. The medal was awarded for three years of service prior to

retirement when he was a signal maintenance advisor to the Turkish Ground Forces Command.

Go Regular

A pair of appointments to the Regular Army were recently made to Capt. Joseph J. Bertagnolli, former commander of Company C now attending a course at MMCS, and Capt. Perry C. Butler, chief of artillery section in weapons branch. Capt. Bertagnolli came on duty in 1965 after being commissioned through ROTC at Seattle University. Capt. Butler, a six-year veteran who came here from Vietnam, was an ROTC trainee at Drexel Institute of Technology.

Promotions

Persons recently promoted in the school include Maj. Coleman O. Bevis, Jr., Maj. William S. Littlefield and Maj. Frank M. Vargas, Chief Warrant Officer Lavon G. Messervy, 1st Lt. David T. Morgan, and 1st Sgt. Bobby M. Hamilton.

Maj. Bevis, commissioned in 1961 through ROTC at Florida State University, also holds a master's degree from New Mexico State University. Maj. Littlefield was commissioned in ROTC at the University of Maine and came to MMCS following a year in Vietnam. Maj. Vargas has served 10 years since his ROTC training at University of Texas, El Paso (then Texas Western).

CWO Messervy, a guided missile maintenance technician in Doctrine and New Materiel with 22 years experience, was promoted to grade W-4.

Lt. Morgan originally went through MMCS as an enlisted man in the 1st ETC, helped build the mock Vietnam village, then attended Officer Candidate School at Aberdeen. He returned for an officer course here and assumed command of the 7th ETC upon graduation last December, where he still serves.

First Sgt. Hamilton is the "Top"

BIG EQUIPMENT MUST ROLL—A heavy crawler tractor undergoes repair in the Maintenance Support Division Mechanical and Services Branch. Frank Ashe has the problem of putting the machine back in running order.

SMOOTH RIDING ASSURED—Tommie Ford greases a vehicle on the rack, one of the maintenance functions of the Mechanical and Services Branch of the Maintenance Support Division.

at 8th ETC; he shifted there from technical inspection branch upon promotion.

Correspondence Courses

The Non-resident Instruction Department is in full swing now with its vast correspondence extension course programming and it has turned out its first full-fledged graduate. Staff Sgt. Lawrence G. Munson completed a subcourse on Hawk missile system to supplement his job as a radar instructor. With a superior rating, too . . .

Personnel in the Office of Operations bid "aloha" Monday to Sgt. Maj. James H. Atherton, who departed for duty in Hawaii.

Thomas Schaefer Earns Highest Scouting Award

A member of Redstone Arsenal Troop 308 for the past four years, Thomas Schaefer attained the goal of Boy Scouts the world over when he was awarded his Eagle Scout badge by his troop last week.

The son of Mr. and Mrs. Norman E. Schaefer (407 Harold's Drive, Huntsville) was one of 19 boys honored for their scouting proficiency at the Troop's 37th Court of Honor. Mr. Schaefer is employed in the Missile Command's Procurement and Production Directorate.

A very active and dedicated Scout, Tommy has participated in seven conservation and 25 good turn and service projects, is credited with 72 nights of scout camping, and has earned 21 merit badges.

He completed his Eagle requirements early this year and was nominated for the Order of the Arrow at the same time. At summer camp this year Tommy earned the chief camping and scout lifeguard awards.

Another Troop 308 Eagle, Jere Cave, was presented the Bronze Palm, while Robert Sandoval became a Life Scout, Kenneth Trump

SHILLELAGH BOSS PROMOTED—Col. Robert J. Proudfoot, Shillelagh Project Manager, gets silver eagles pinned on his shoulders during a recent promotion ceremony at the Army Missile Command. Maj. Gen. Charles W. Eifler, Commanding General of the Missile Command, does the honors with an assist from Mrs. Proudfoot.

Command Spends \$14 Million For Services

Several hundred orders and awards made by the Army Missile Command during the last month totaled approximately \$14 million to cover support services for the missile programs.

Huntsville's share ran to more than \$290,000, and business concerns throughout the rest of the state received about \$210,000 worth. The remainder of the money was spent nationwide.

The supplies and services include laundry, automotive repairs, laboratory equipment, all types of material used in offices, food and building materials.

These orders and awards were executed by the Missile Command Procurement and Production Directorate, and do not include awards for a million dollars or more which are for missile systems and related equipment.

won his Star badge, and Gerald Zuhm earned First Class recognition.

The remaining honorees were recipients of merit badges and attendance medals with Mike Cooper winning five merit badges and Mark Bergaman being cited for the fourth time for participating in over 80 per cent of the troop activities during the scout year.

Other merit badge winners

were, Trump, who won four; Doug Turrell, Barry Ward, and Jeff Heath, with three apiece; Mike Creech, Geoffrey Hamilton, Greg Heath, Ed Jones, Danny Mathis, and Robert Sandoval, each with two; and Mike Barnwell, Jere Cave, Joe Kirkland and David Paseur.

In addition to Bergman, the attendance medals were presented to, Greg and Jeff Heath, Ed Jones,

Thomas Schaefer, Mike Creech, Joe Kirkland, Danny Mathis and Barry Ward.

Who's standing by?

United flies more military standbys than any other airline.

So how does it happen you often see a United standby counter with no servicemen there?

Because United has by far the largest fleet, and the largest jet fleet, in the world. We have the most frequent flights to and from the majority of the 111 U.S. cities we serve (including all major ports of entry).

That adds up to more seats, better chances for you, when you buy your standby ticket on United. Anyone in U.S. uniform, with D.D. Form 1580, flies for 1/2 Coach fare. You can even reserve a Coach seat for 3/4 fare. Both fares apply within seven days of discharge.

The real reason we fly more standbys is that we do our friendly best not to keep them standing by very long.

And "our friendly best" is the best you'll find.

For information and tickets, visit or call your JAMTO office located at Bldg. 3684, Neal Road, Tele. No. 876-5851.

Civilians Leave Stations For Advanced Training

Thirty Arsenal civilians left their normal duty stations this week to engage in career development training programs offered by military schools, industrial facilities and leading universities scattered across the country.

The local personnel were selected for the advanced training in their individual career fields under the Missile Command's career development program administered by the Training and Development Division of Civilian Personnel.

Two of the locals, both from the Supply and Maintenance Directorate, are staying on the Arsenal for their training at the Army Missile and Munitions Center and School.

William Hanes is taking the Hawk Continuous Wave Radar Repair course while Bernice Belcher is enrolled for the Nike Launcher Control Repairman course. Hanes will spend four weeks at the School while Belcher's training will extend through November.

A group of thirteen went to Ft. Lee, Va., for study at the Army Logistics Management Center.

Robert Reiff (S&M) is attending the ADP Systems in Logistics Management course and Frank Westerman (MMCS) is enrolled for Defense Inventory Management. The former class is two weeks in length with the latter extending over a six-week period.

Also there for six weeks will be James Pierce, Charles McColly and Billy Pearson (S&M). They are attending the Maintenance Management course.

The remainder of the Ft. Lee contingent are attending the five-week Defense Procurement Management course. This group includes Karolyn Pond (Gen. Counsel) along with James Gray, Judith Staggs, Walter Matthews, Cecil Donaldson, Robert Anderson, John Mackesy and John Heffington, (all of P&P).

Robert Thompson (Missile Intelligence) is studying Advanced Watercolor Techniques at the John Pike School in Woodstock, N.Y., while Hubert Lemaster, Arnold Bengston and Lester Bagley (S&M) along with James Burch (DASO) are at the White Sands Missile Range, N.M., for Hawk New Equipment Training.

Charles Vick (R&D) is in Los Angeles for two weeks to study Modern Computer Svstems at the University of California while Charles Sparks (Metrology and Calibration) is in Cambridge, Mass., this week for the Communicating Technical Information course at Massachusetts Institute of Technology.

Two Research and Development

Research and Samuel Uptain is enrolled for Microwave Semiconductor Devices and Circuits.

The remaining six are spending the week in Norman, Okla., where they are studying Problems in Motivation at the University of Oklahoma.

They are, James Richard, Bill Pales and Wilmer Steinhauser (Missile Intelligence), Harold Best (SENSC), William McBride (Management Science) and Luther Smith (Pershing).

Directorate employees are spending two weeks in Ann Arbor, Mich., for advanced study at the University of Michigan.

Harold Burnam is taking Foundation and Tools for Operations

EARN LEGION OF MERIT—Capt. Robert L. Bonus, and Capt. Fred E. Walker, Jr., were both presented the Legion of Merit for outstanding services and exceptionally meritorious conduct during their assignments at the U.S. Army Hospital. Capt. Bonus served as chief of surgery, Capt. Walker as chief of clinics. The award was made by Maj. Gen. Charles W. Eifler, Commanding General of the U.S. Army Missile Command. The two doctors were on duty at Redstone for two years.

How Valuable is your Military Training in Electronics?

Plenty! Supplement it with specialized knowledge of advanced electronics and you'll be set for promotions and better pay in the service . . . profitable civilian employment when you retire. CREI Home Study Programs cover every major area of electronics: communications, radar and sonar, missile and spacecraft guidance, nuclear engineering, nuclear instrumentation and control. Study in off-duty hours, on your own schedule. For FREE book with full details, call **837-1690** or write: Frank Turner, Space Capitol Motel, 4809 Governors Drive, W. Huntsville, Alabama 35805.

*A Volvo is smaller than a big car.
At the same time, it's bigger than a small car.*

Most people know that a Volvo isn't a big boat. But what they don't know is that a Volvo isn't a little bug. They think because it isn't big and its name begins with "V", it must be small. This is wrong. Volvo is compact (not economy-sized) outside, cavernous inside. In the front, it has only three-tenths of an inch less leg-room than a Buick Riviera. In the back,

it has two-tenths of an inch more leg-room than a Chrysler. It has more head-room than a Cadillac Eldorado. And a trunk so big it puts many of the Detroit cars to shame. If you've hesitated to buy a Volvo because you think it's too small, maybe you ought to stop in and take a close look. You could be in for a big surprise. Or a small shock.

Sergeant Contractor Earns Zero Defects Achievement

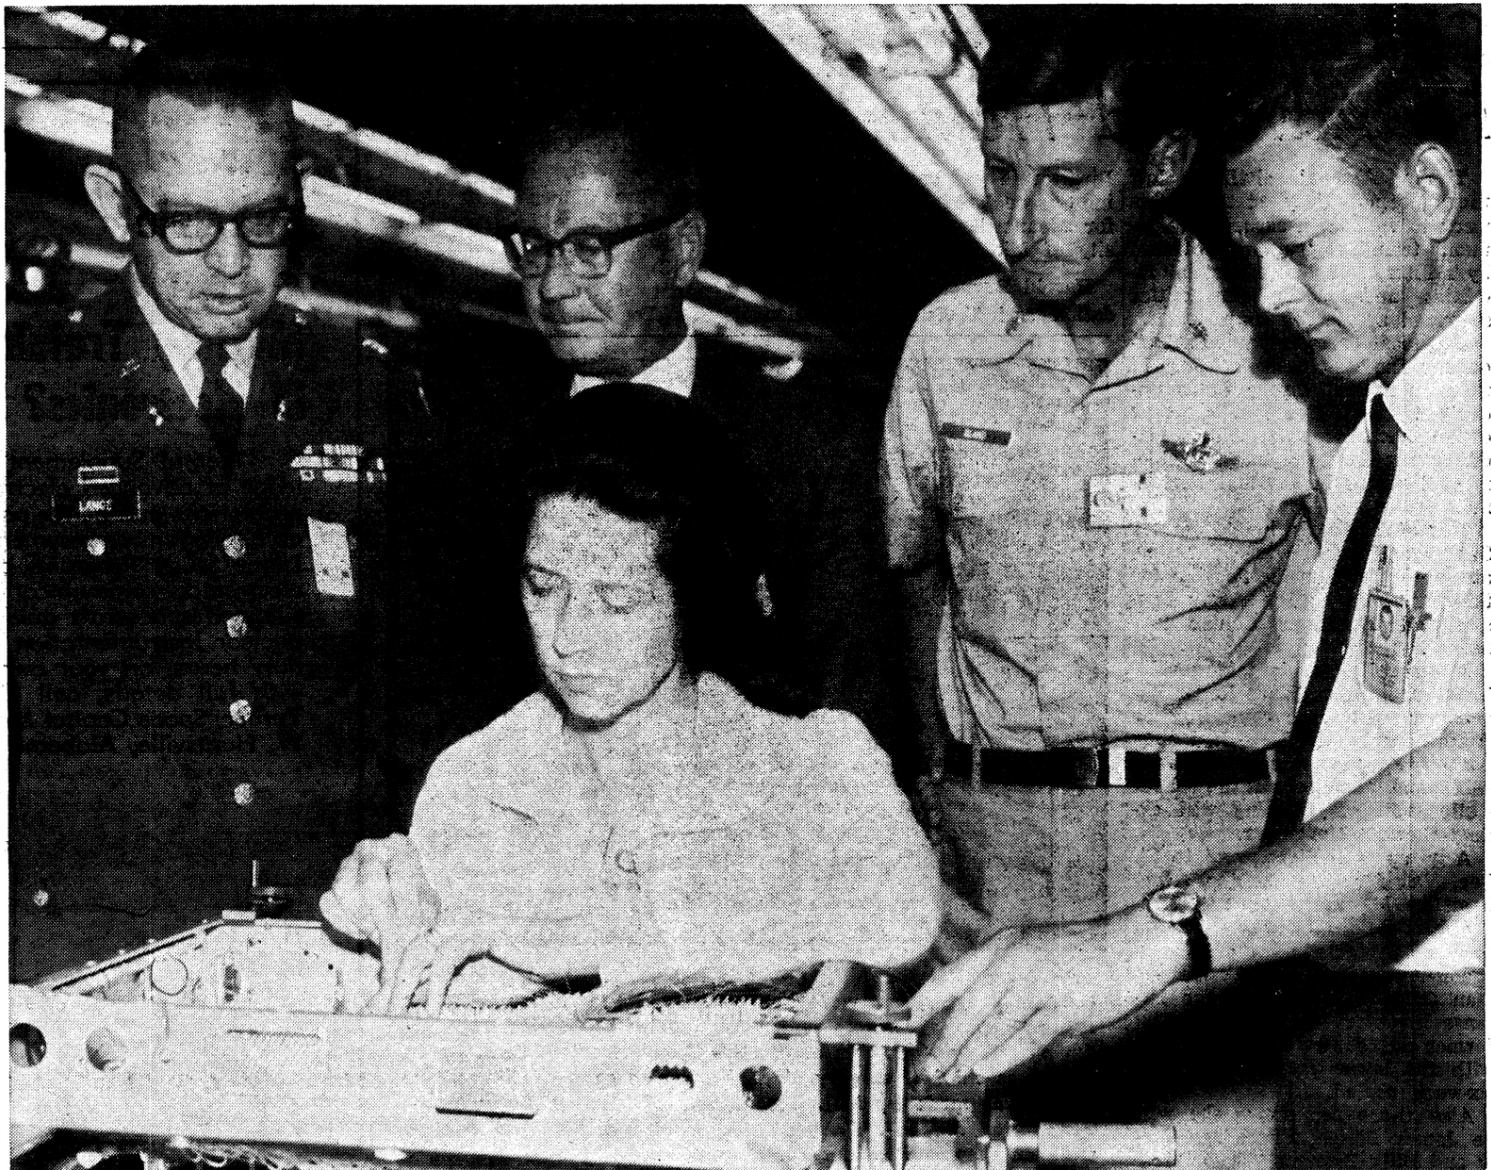

The Salt Lake City operations of Univac Federal Systems Division has been awarded the U.S. Army's Zero Defects "Achievement" award.

Lt. Col. Arthur G. Lange, Jr., Sergeant Project Manager at the Army Missile Command, with Lt. Col. Kenneth B. Bland, USAF, and commander of the Defense Contract Administration Service District office, Salt Lake City, made the presentation to Kenneth B. Osswald, quality assurance and manufacturing engineering manager who accepted for the more than 2,600 Univac Salt Lake employees. Univac officially adopted the Zero Defects program in November, 1964. The company is prime contractor for the Sergeant Missile System.

The "Achievement" award, the first to be awarded by the Army in Utah, is granted "... in recognition of demonstrated improvements measured against contractor-established programs." According to Osswald, "Effects of the Zero Defects program for the 1967 period of measurement have been to reduce by 10 percent defective assembly units which reach final inspection and test, to lower scrap costs 43 percent compared to any previous year of operations, and to realize application of the Cause and Removal of Error (CARE) program techniques to every product defect."

Osswald also said, "The benefits we have realized over the years from the Zero Defects program have been achieved through the interested participation of all employees on an individual 'pride in workmanship' basis."

During the ceremonies, Col. Lange, spokesman for the award presentation stated, "To us this award is tangible evidence of the high quality for which your company is known. This quality results from the conscientious effort of every employee to attain Zero Defects on his or her job."

TECHNIQUE FOR ACHIEVING "ZERO DEFECTS"—Hand wire wrap of a computer logic chassis is described to Lt. Col. Arthur G. Lange, Jr., Sergeant Project Manager, U.S. Army Missile Command, by John Lawless (far right), Univac Salt Lake assembly supervisor. Also watching Mrs. Carol Christensen, hand wire-wrap operator, is N. H. Barberio, Univac Salt Lake manufacturing manager, and Lt. Col. Kenneth B. Bland, USAF Commander of the Defense Contract Administration District Office, Salt Lake. Occasion for the inspection tour was presentation of the U.S. Army's Zero Defects Achievement Award to the Salt Lake operations of Univac Federal Systems Division.

Col Lange continued, "... I can speak with authority regarding the

Sergeant weapon system produced here, but I am sure my comments apply equally to all the other products. ..."

AT AUCTION

SAT., AUG. 10 AT 10:05 21/28 A.M.

The lovely 6 Room home with 2 baths and basement, 4 acres, belonging to Mr. and Mrs. J. C. Henderson. Located on the Prospect to Elkton Road 6 miles west of Highway 31, one mile east of Prospect, Tennessee.

This modern home located on the Elkton to Prospect Road consists of 3 bedrooms, large living room, family room, kitchen, 2 baths, a partial basement. It is heated by electric heat, has built-in stove, two air conditioners. The house has been completely remodeled, inside and out. Water is supplied by a well; also has a city water tap that goes with the property.

The house is located on four fine acres, with large frontage on the Elkton to Prospect highway. It is one of the finest modern homes ever offered for sale in this community. The house is in excellent condition, ready for you to move in. The beautiful front lawn is well sodded. There is a good garden spot and some woods behind the house. The house is built on a well drained lot. This property is located only a short distance from the Cloverleaf of I-65 and approximately 25 miles north of Huntsville. Reason for selling: Mr. and Mrs. Henderson are moving to Alabama to be closer to their work. Their new home will be ready to move into in two or three weeks, so you will get immediate possession of this home.

TERMS: 25% down sale day, balance on or before 30 days. A First Federal of 70% to 80% is available if you can qualify. The home will also pass FHA or GI requirements.

POSSESSION: With delivery of deed.

AT AUCTION

Saturday, Aug. 10 at 1:04 7 / 8 p.m.

THE 145 ACRE LIVESTOCK OR ROW CROP FARM WITH 9 ROOM HOME, 3 LARGE BARN, AND 25 HEAD OF FINE DAIRY COWS BELONGING TO MR. & MRS. WOODROW PATTERSON; LOCATED 11 MILES SOUTHEAST OF PULASKI, TENNESSEE, 4 1/2 MILE FROM ELKTON, 1 1/2 MILES WEST OF BRYSON ON THE BRYSON ROAD. FROM PULASKI, GO HWY. 31 TO WIDNER GROCERY, TURN LEFT ON BRYSON ROAD, FOLLOW ARROWS FROM HUNTSVILLE, ALABAMA, COME HWY. 53 TO HWY. 31, TURN RIGHT ON BRYSON ROAD, FOLLOW ARROWS.

The farm is located only 25 miles from the Rocket City, Huntsville, Alabama, in a fine farming community of Giles County. The farm is located on black top Bryson Road and has one-half mile of frontage on I-65. Of the 145 acres, more or less, 100 acres is in excellent bottom land, 50 acres in permanent pasture and approximately 15 acres in woods. Everlasting water is furnished by large pond with spring in the bottom of the pond, several other springs, a well at the house, and branch running through the entire farm. There is a hog farrowing building on the farm, 10'x60', and consists of 10 separate farrowing stalls. The two large barns on the farm are in excellent condition; one is a feed barn, the other is a Grade B dairy barn. There is plenty of storage room for tools and farm equipment.

This farm is one of the most well balanced farms a person can buy. It is so well arranged that it has water in practically every lot. The rich, level land will grow any kind of row crop or hay. The farm is fenced and cross fenced, is on mail and milk routes, and has all utilities.

CROPLAND AND BASES

The farm has 83 acres of cropland with 27 acres of corn, 12.6 acres of cotton, 45 tobacco, 29.5 acres of wheat. Farms of this type in this fine section of Giles County very seldom are for sale. The only reason Mr. Patterson is selling this farm is because his health is forcing him to curtail his farm operation to a smaller farm. Mr. Patterson must sell the farm on doctor's orders. See this excellent farm and be at the sale on August 10. Your bid will be our bid.

LIVESTOCK—25 HEAD OF EXCELLENT HOLSTEIN AND JERSEY COWS

- 1 Jersey Cow With Calf
- 1 Brown Swiss Cow With Calf
- 7 Holstein Cows, Fresh
- 5 Heavy Springers
- 11 Are in Milk
- 4 Wheel Rubber Tire Wagon

TERMS: 25% down sale day, balance on or before January 1, 1969 or as crops are gathered.

POSSESSION: With delivery of deed.

LT. COL. J. R. A. SMITH

LT. COL SMITH BECOMES LANCE LIAISON FOR UK

Lt. Col. J. R. A. Smith of the United Kingdom is the new Lance Exchange Officer at the Army Missile Command.

The 40-year-old officer was honored in June by being named a Member of the Most Distinguished Order of the British Empire (MBE). This is a military and civil award presented by the Queen, personally, at Buckingham Palace for services to the country.

His job at Redstone is with the Test Division of the Lance Project Office.

Col. Smith comes here from the U.S. Army School in Germany where he was an instructor with the NATO Department.

Since entering the service in 1945, he has served in India, Malaya, Korea, Hong Kong, Germany and the United States.

Col. and Mrs. Smith and their two children reside on Cole Drive in Huntsville.

DR. WILLIAM McKNIGHT

William McKnight Returns After Advanced Study

A U.S. Army Missile Command physicist, has recently returned from two years study at Oxford, England, where he was awarded his doctorate in physics.

Dr. William B. McKnight is chief of the Applied Physics Branch, Physical Sciences Laboratory, Research and Development Directorate. This branch develops and adapts lasers and laser devices for application to guided and ballistic missile systems.

Dr. McKnight came to Redstone

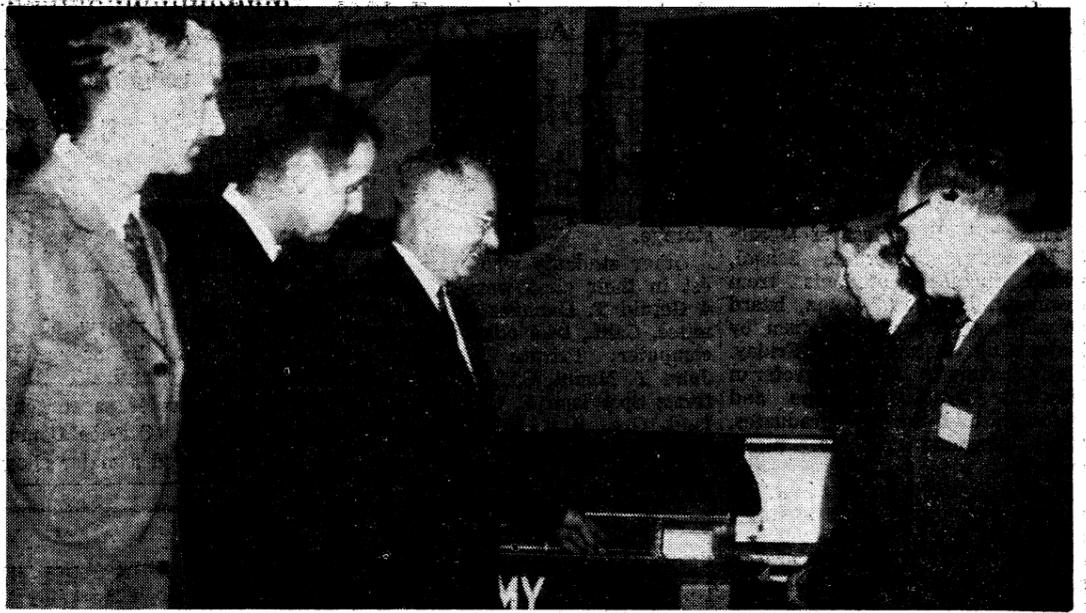

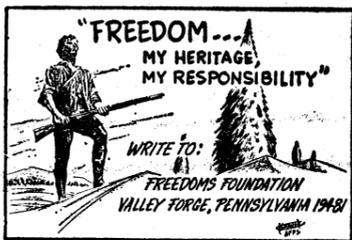

Arsenal and the Missile command in 1953 from the U.S. Navy Underwater Sound Reference Laboratory at Orlando, Fla. His early work here was in the field of rocket testing. Later he was in charge of programs underway to develop infrared and optical techniques for missile guidance.

His work in recent years has been primarily with lasers. In recognition of his laser work, he was awarded the Army Research and Development Achievement Award in 1964. He had previously received this award in 1961 for his work with infrared techniques. The Army Missile Command Scientific and Engineering Award was presented to Dr. McKnight in 1964, and again in 1966.

Dr. McKnight is a native of Macon, Ga. He received his B.S. degree in physics in 1950 from Purdue University. Before receiving his doctorate from Oxford, he did graduate work in physics at the University of Alabama.

He is a member of Delta Kappa Rho, the American Physical Society and the American Optical Society.

He is married to the former Helen Bowling of Colliersville, Tenn. The couple are the parents of two daughters: Tandy Carol, 11, and Linda Kathryn, 9.

MURRAY STATERS STUDY MISSILES—Norman Comus, center, of the Ground Support Equipment Laboratory, Army Missile Command Research and Development Directorate, describes missile hardware to, left to right, Robert Jones, Frank Fazi, Kenneth Winters and Paul Lyons of Murray State University, Ky. staff and faculty. The visitors were at Redstone recently with a group of high school teachers who are students at Murray State this summer studying electronics, and came for briefings and tours sponsored by the Missile Command's Army Inertial Guidance and Control Laboratory and Center.

MMCS Students Told Learning Never Ends

The graduating class of Missile & Munitions Center & School, which included students from Germany, Italy, and Japan, heard an address on professionalism by Major Guy Beavers last Friday. Maj. Beavers a 17 year veteran who has served in Europe and Vietnam, told the 126 graduates, "The learning process never ends."

He said the rate of learning varies, depending on attitude, drive, and desire, but that everyone has the ability to be a professional. He said a professional must adopt determination and be able to face failure. But above all he must know his goals. In closing he asked, "Do you have what it takes? I urge you to make professionalism your goal."

Reavis O'Neal, representing the Tennessee Valley Chapter of the Association of the U. S. Army, awarded plaques to students who maintained a 96 per cent average or better in their class.

Receiving top honors were Private James L. Short of Boaz, Ala., 97.5, ammunition storage; Pvt. Lynn R. Anderson of Delphi, Ind., 96.5, ammunition records; First Lieutenant Lutz Stark of Germany, 96.5, air defense missile; Pvt. Sam L. Delap, 96.4, ballistic missile; Pvt. Donald L. Fox of Junction City, Ohio, 96.4, ammunition storage; Pvt. Gary L. Dietterle of Moberge, S.D., 96.3, ammunition records; Master Sergeant Yoshiyuki Kittaka of Japan, 96.1, Nike missile; Pvt. Delmas L. Keefer of Hancock, Md., 96.0 ammunition

storage.

Other students who were highest in their class were Specialist 4 Gerald T. Hammes of Los Alamos, Calif., 94.4 Nike radar and computer; Private First Class John T. Mount, 92.5, missile systems; Sp.4 Tom F. Gunn of Portland, Ore., 91.9, Nike radar and simulator.

Civil Service Approves Change In Temporary Promotion Procedures

After careful review of comments submitted by agency personnel directors and officials of employee and veterans organizations, the Civil Service Commission has approved a major change

in the procedure for returning an employee to his regular job after he has served in a higher grade under a temporary promotion.

Temporary promotions may now be terminated without recourse to

adverse action procedures when the temporary need has been met. The change is expected to stimulate agency use of temporary promotions instead of the practice of detailing an employee to a higher grade position without increasing his pay. When a temporarily promoted employee was restored to his regular job, previous procedures were the same as if he had not performed well and was being demoted for cause. This encouraged agencies to use details rather than temporary promotions.
