## GEN. McBRIDE RETURNS

**BRIEFS MMCS NCO'S**—Senior NCO's at the Army Missile and Munitions Center and School this week are hearing three presentations on the "Sentinel: Its Missions and Operations" as part of the Command Information Program. The presentations are being made at 2 p.m. Monday, Wednesday and Friday of this week at the Post Theater by Col. Robert W. McBride, Assistant Division Engineer for the Western Division, Huntsville Division, Corps of Army Engineers. Here he is greeted by the newly assigned MMCS Command Sergeant Major William P. Ansick who introduced the three presentations. The Huntsville Division of the Engineers manages design and construction of the massive facilities for Sentinel, the Chinese communist oriented antiballistic missile defense system.

## He Will Be Deputy CG, Air Defense Systems, Beginning September 25

A native Alabamian who already has served nearly seven years of his Army career at Redstone Arsenal is returning to the U. S. Army Missile Command as Deputy Commanding General of Air Defense Systems.

He is Brig. Gen. George H. McBride who officially will take over his new duties September 25.

Gen. McBride succeeds Brig. Gen. Clarence C. Harvey, Jr., who retired from active military duty in July. During the interim, Col. J. G. Redmon, Hawk Project Manager, has directed air defense operations.

As part of his new assignment at the Missile Command, Gen. McBride will be responsible for developing and managing air defense missile systems to protect Army field units as well as American cities from enemy aerial attack. These include such systems as SAM-D, Hawk, Redeye, Chaparral and Nike Hercules.

He has a broad missile background and is intimately familiar with air defense weapons.

In earlier assignments at Redstone, he served from June, 1956 to April, 1957 as Assistant Director, Support Operations Division, Army Ballistic Missile Agency; as Deputy Director ABMA, Training Division from May, 1957 to April, 1959; as Assistant Commandant, Army Ordnance Guided Missile School from June, 1963 to July, 1964; and as Hawk Project Manager from August, 1964 to January, 1967.

After leaving here in 1967, he served for a year in Vietnam as Commanding General, U. S. Army Support Command in Da Nang.

While he was away, Mrs. McBride, her daughter, and mother, continued to make their home in Huntsville. The General is a native of Birmingham.

Just prior to coming here, he was Deputy Commanding General of the Army Aviation Materiel Command in St. Louis, Mo.

Gen. McBride is a graduate of Auburn with a BS degree in Mechanical Engineering. Among military schools, he has attended (See GEN. McBRIDE on Page 3)

BRIG. GEN. GEORGE H. McBRIDE

## Sentinel Chooses Turney Outstanding Executive In Command During 1968

William O. Turney has been named the outstanding top-level executive of the U. S. Army Sentinel System Command for 1968. He is chief of the command's Contracts Office.

The Sentinel System Command Senior Executive Award for 1968 was presented to Turney by Brig. Gen. I. O. Drewry, Commanding General, during ceremonies in the general's office.

Turney was cited for his procurement management leadership during the recent conversion of the Nike-X Project to the Sentinel System Command.

Conversion of the research and development project to a major command expanded Turney's responsibilities to encompass procurement for production and deployment as well as for research and development.

The 43-year old Turney has been associated with the Army's missile development efforts since 1955. He joined the anti-ballistic missile program in 1957 when it was known as the Nike Zeus project.

Turney was named deputy chief of the Nike Zeus contracts office in 1961. He became chief of the contracts office in 1963 shortly after the project was redesignated the Nike-X Project.

WILLIAM O. TURNEY

## Army Spends \$2 Million For Vietnam

The U.S. Army has awarded a \$2,091,712 contract to Pacific Technical Analysts, Inc., to support work being done in Vietnam.

As a modification to an existing contract, the award provides for continued support of the Military Assistance Command in Vietnam.

Directing the program at the Army Missile Command, is the Overseas Research Group, Advanced (See ARMY SPENDS on Page 3)

## Gen. Young To Be Guest Speaker At AOA Luncheon Sept. 18 At Open Mess

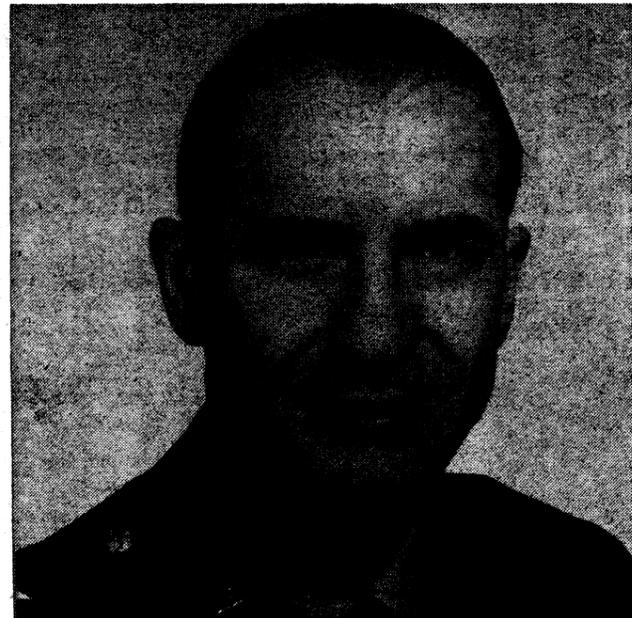

Design and construction of the largest complex of structures ever built to withstand nuclear weapons effects will be discussed by Brigadier General R. P. Young Wednesday noon, September 18, at the regular meeting of the Huntsville Chapter, American Ordnance Association.

General Young is Division Engineer of the Huntsville Division, U.S. Army Corps of Engineers. His division is charged with design and construction of the facilities for the nation's new Sentinel Ballistic Missile Defense System.

The meeting will be held at the Redstone Arsenal Officers Open Mess. Chapter President J. P. Smith said all members are urged to bring a guest.

No advance ticket sale will be made for the luncheon meeting, Smith said, but reservations may be made in advance by calling him at 741-2950, O. M. Hirsch at 876-6953, H. R. Lowers at 876-8735, or E. R. Billings at 534-0233.

The social hour begins at 11:30, and luncheon will be from 12:00 to 1:00. Luncheon cost is \$1.50, payable at the door.

GEN. R. P. YOUNG

## Hawk Signs \$15 Million Contract

The Army Missile Command has awarded a \$15 million contract to Raytheon Company for industrial engineering services on the Improved Hawk missile system.

The work will be performed at Raytheon's Andover, Mass. and Bedford, Mass., plants.

Hawk is a highly mobile member of the Army's air defense arsenal of missiles, capable of intercepting high performance aircraft and airbreathing guided missiles at low altitudes. The weapon system is in operation with Army and Marine Corps units in the United States and overseas.

Technical supervision of Hawk is from the Army Missile Command where Col. John G. Redmon is Hawk Project Manager. The Missile Command's Procurement and Production Directorate negotiated the contract.

### CORRECTION

In the August 28 Rocket, it was stated that the Red Cross ditty bags being prepared by volunteers both on and off post would be distributed in hospitals in Vietnam.

These ditty bags are being filled for every man serving in Vietnam. This takes a lot of effort on the part of the volunteers who sew the bags, gather the small luxury items to put in them, and then prepare them for shipping.

# The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$7.42 a year, or \$4.00 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

## Rocket Ruminations

You can never plan the future by the past.  
Edmund Burke

## Strictly American

Americans are currently engaged in that quadrennial phenomenon unique in the annals of political history and practice—our national elections.

This is not to say that other countries don't have national elections or that they are either more—or less—effective than those in the United States.

It is to say that our elections and the processes leading up to them are, to say the least, different.

Starting with the first Presidential Primary early in the election year, our populace is hallooed, hammered and harangued with the pleas, promises and protestations of potential presidents.

The show really gets on the road with the major party conventions. These are a combination of a Ziegfeld Revue, the World Series, a TV spectacular, the Constitutional Convention and a Fourth of July picnic all rolled into one.

From these emerge the final candidates, selected on

the basis of popular support by the majority of individuals in that particular political party.

Then until election day, the American people have the chance to concentrate on the opinions, views and policies of the major candidates.

By way of newspapers, radio and television, we are able to study, dissect, question, sift and determine the candidates' views on everything from aardvarks to zymurgy. From the mass of information, claims and counter-claims, we are able to arrive at a decision as to which man, in our opinion, would be best suited to guide this nation in the coming four years. The final choice is made on election day when we exercise our right as a citizen to vote.

There may be better ways to choose the President of the United States—no system is perfect. Although at times, our presidential campaign seems to lack the dignity and solemnity of the high office to which the candidates aspire, the campaign process is the free expression of free people exercising their right to have a voice in their future.

Although the campaign may have its entertaining aspects, it's a serious business. Use the coming weeks wisely so you can make an intelligent choice on election day.

Our system may not be perfect, but it is certainly the best history has produced. Choice, even under a possibly imperfect system, is far better than no choice at all. (AFPS)

FIRST PROMOTION IN NEW COMMAND—Brig. Gen. Mahlon E. Gates, Commanding General of the Army Sentinel Logistics Command, left, makes his first promotion since arriving in Huntsville. Recipient of the rise in rank is a member of his staff, PFC Richard L. Ryan.

## Community Hospitality Program Plans Being Mapped At Missile School

Plans for the community hospitality program for some 400 foreign students and their wives and children were mapped yesterday at a luncheon held by Col. Paul B. Shuppener, commandant of the Army Missile and Munitions Center and School, for members of the Huntsville Council for International Visitors.

A. Ezell Terry, president of the Council, headed a group of 34 persons associated with the continuing project which seeks to obtain "host families" for each of the foreign students assigned here.

Col. Schuppener, Maj. Randolph L. Scott and Mrs. Harriet Leech, executive director of the Council, spoke to the group and considered ways to facilitate the initial contact between the foreign visitors and interested citizens of the community. The luncheon was held at the Redstone Arsenal Officers Club.

Col. Schuppener reported that MMCS now has 188 students from eight Allied nations who are accompanied by 113 wives and 141 children. They come from Belgium, China, Denmark, Germany, Italy, Korea, Netherlands and Venezuela. It was pointed out that the inter-

national group is constantly changing, due to the different lengths of courses, and that a permanent group of host families is urgently required. In addition to the students, 26 German families are now stationed here as interpreters.

Maj. Scott said that only 25 of the foreign families have so far obtained American hosts and that 114 others have asked to be included in the hospitality program.

He emphasized that lavish entertainment is not required and that the basic purpose of the host family program is to show the visitors from abroad the true facts of American life.

Others attending the luncheon were Erik Fris, Angelo Ferranti, Dr. Paul Clem, Rev. Curtis Derrick, Mrs. Betty Farquahar, T. Pickens Gates, Walton Hughes, Mrs. William S. Reynolds, Martin Phillips, Mrs. James B. Leslie, Mrs. Robert W. Sleagle, Mrs. James Beasley, Charles Lewis, Patrick McCauley, Miss Becky Martin, Mrs. Charles Nixon, J. B. White, Rev. Bob Franklin, Rev. John H. Sadler, John Higdon, Mrs. B. B. Jordan and Mr. and Mrs. Leo Schiffman and eight members of the MMCS staff and faculty.

Mrs. Leech stressed the fact that the Huntsville Council for International Visitors maintains an office in the Madison County Court House and that prospective host families may call at any time during regular working hours.

She said that every effort is made, through personal files, to match host families and Allied students who have similar backgrounds and interests.

She especially praised James R. Record, chairman of the Madison County Board of Commissioners, for his support of the foreign student hospitality program for the past several years.

Fast service via connections in Atlanta

Leave Huntsville	7:00a	8:18a	5:32p
Arrive Los Angeles	11:39a 1-stop	2:29p	9:31p 1-stop
Arrive San Francisco	—	1:43p 1-stop	9:43p 1-stop

All flights via Southern to Atlanta, Delta Jets to L.A. and San Francisco . . . at 11:39a and 9:31p on Super DC-8s. Minimum fares: Los Angeles—\$111.55; San Francisco—\$119.55. Add tax to fares.

**NEW PLEDGE CARD**—Al LaGrone, the Missile Command coordinator for the 1969 Combined Federal Campaign, points out the changes that have been made in the pledge card for the current campaign to representatives of the Army organizations that will participate in the five-week drive. Shown with Mr. LaGrone are, Col. Joseph T. Prendergast, SENSOCOM, Col. Paul B. Schuppener, Commandant of the Army Missile Munitions Center and School, Col. Robert W. McBride, Corps of Engineers, and Lt. Col. R. E. Bundy, Sentinel Logistics Command.

**MEDAL FOR MERIT**—Receiving the Legion of Merit from Maj. Gen. Charles W. Eifler, Commanding General, Army Missile Command, is Lt. Col. Russell A. Simpson. Col. Simpson was cited for the efficient administration of contracts valued at \$80 million while serving as Contracting Officer, Headquarters, U.S. Army Procurement Agency Vietnam, 1st Logistical Command, from August 1966 to September 1967. General Eifler was Commanding General of the 1st Logistical Command prior to his present assignment.

# Lt. Col. John B. Levaas Named Executive Officer

A former sailor who has just returned from Army duty in the Arabian desert is the new executive officer of the Army Missile and Munitions Center and School at Redstone Arsenal, Ala.

The appointment of Lt. Col. John B. Levaas to the executive post at the \$95,000,000 international training center is announced by Col. Paul B. Schuppener, commandant.

Levaas entered the U.S. military service with the Navy in 1943 and served aboard destroyers during the liberation of North Africa, Sicily and Italy.

Born in Boston, Mass., in 1925 and educated at Monmouth College, N.J., and the University of Alabama in Huntsville, Levaas was directly commissioned in the Army in 1951. He has since served one tour of duty at Redstone Arsenal, where he also was graduated from MMCS. He has also filled assignments at the Raytheon Co. in Massachusetts and in the Paris office of the Army Missile Command which assists in the manufacture by European firms of the Hawk air defense missile system.

He and his wife, the former Mae Miller of Apollo, Pa., reside at Redstone Arsenal. Their two sons, Larry and Barry, 22 and 18, are attending, respectively, Pennsylvania State University and Nasson College at Springvale, Maine.

LT. COL. JOHN B. LEVAAS

## Managers Meeting Set By Quality Control Society

The Huntsville Section of the American Society for Quality Control will hold its annual "Manager's Night" meeting, Sept. 16, 7 p.m., at the Terrace Restaurant, State National Bank Building. Members are urged to bring their bosses as guests of the ASQC.

The guest speaker will be Leslie W. Ball, Director of Product Assurance, The Boeing Company. His subject will be "The Role of the Quality and Reliability Engineer in Total Program Management."

For reservations call Don Holloman 539-3771, ext. 301.

### TANI TO COME AGAIN

Tani's Variety Group will perform at the Service Club Sunday, Sept. 15 at 8 p.m.

Tani and her troupe are regulars at the club and present a variety of entertainment each performance.

This week Tani will add three new entertainers to the show. Jeanette Stewart will do acrobatics, Joe Wright will pantomime and Lynn and Linda are go go dancers.

Enlisted men are invited to bring their dates to all special entertainment at the club.

### NCO WIVES TO MEET

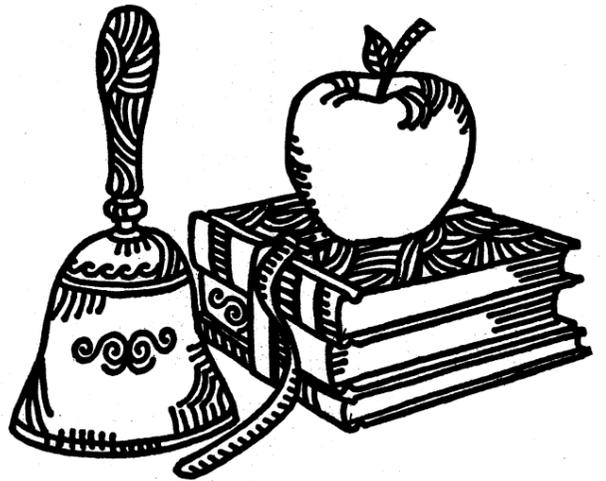

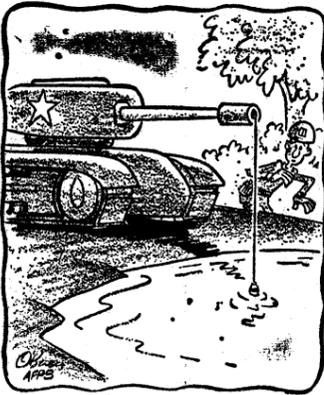

The NCO Wives Club will hold a business meeting in the Rod and Gun Club over the Post Office at 7:30 p.m. tomorrow.

Club officers are urging all members to attend.

### MANAGEMENT CLUB TO MEET

The Thiokol Management Club will meet Monday night, at Willowbrook Country Club. The social period begins at 6:30.

Guest speaker will be Rev. Odvar Berg of Athens, Alabama. The subject of his talk will be "Americanism."

## Key People Are Experts In Tactical Logistics

**EDITOR'S NOTE:** The Rocket is running a series of stories on key personnel in the Sentinel Logistics Command in order to acquaint us all with each other. This week three Directorate chiefs appear. Others will come as soon as appropriate people are on board and can give us facts for our stories.

The job has never been done before. They've been given it to do. They're here to do it.

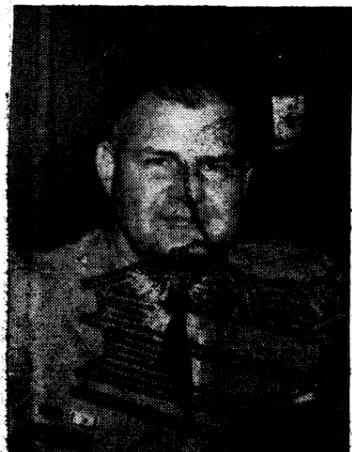

That briefly describes the key personnel at the U.S. Army Sentinel Logistics Command recently settled in the Huntsville Industrial Center.

The Army gave Brig. Gen. Mahlon E. Gates the overall responsibility for getting the task done. He and his staff are hard at work.

What is the task? It is logistical support for the Army's new Sentinel, the Communist Chinese-oriented anti-ballistic missile system now being readied for deployment.

SENLOG is a major subordinate command of the U. S. Army Materiel Command. Authority, responsibility and resources to support the sophisticated Sentinel have been centralized in SENLOG. The magnitude of the system creates problems never before faced by the Army.

Principal assistants for Gen. Gates in SENLOG are Col. James W. Gilman, the deputy commander, and Col. George F. Gregg, the Chief of Staff, Maj. John Farrington, Program Coordinator, heads of the six Directorates, Comptroller and Director of Programs and Director of the Logistic Data Management Office. Three of the Directorate heads are already in Huntsville. They are Col. John P. Downing, Jr., Col. Thomas L. Stovall and Col. James F. Prewett.

**COL. JOHN P. DOWNING**

The first officer to join Gen. Gates' staff while they were in Washington, D.C., Col. Downing came from the Management Systems Support Agency of the Office of the Army Assistant Vice Chief of Staff in the Pentagon.

He heads the Management Systems and Data Automation Directorate which contributes to development of advanced management

concepts and organization structures for this one-of-a-kind Army Command.

The colonel is vitally interested in pursuing some progressive planning activities of a technical nature to gain the maximum use of automatic data processing.

"We plan to fully employ modern information technology in support of our mission for analysis of logistic support alternatives and for complete visibility of logistic operations," he said.

Originally from Bangor, Maine, Col. Downing completed high school there and went on to the United States Military Academy where he was graduated in 1945. He received a masters degree in industrial engineering from Stanford University in 1958.

Among his former assignments in the U. S. are the Combat Developments Command, Ft. Belvoir, Va.; Office of the Chief Signal Officer, Washington, D.C.; the Electronics Proving Ground, Ft. Huachuca, Arizona; and West Virginia University, Morgantown.

Overseas tours have taken him to Izmir, Turkey; Korea; and Germany.

Col. Downing is married to the former Miss Myrtle L. Luke, and they have four children, Mary, Elizabeth, John, and Catherine. They are residing on Redstone Arsenal.

A Texas native, and career logistician Col. Stovall is Director of Distribution and Transportation at SENLOG.

He says that there are three main functions for his Directorate—accounting for all Sentinel System major items and repair parts, operating a dedicated transportation system to move items to sites, and operating a dedicated storage system for Sentinel essential items.

"Dedicated means here that we are concerned solely with storage and transportation of Sentinel items, no other Army materials included," Col. Stovall explained.

"Sentinel is the only Army missile system which will enjoy this degree of transportation and storage support," he added.

Col. Stovall was graduated from high school in Amarillo, Texas and he earned bachelor and masters degrees from the University of

Maryland. He attended the Command and General Staff College, Ft. Leavenworth, Kan.

**COL. THOMAS L. STOVALL**

He was assigned to SENLOG after a four year tour in the Office of the Deputy Chief of Staff for Logistics Headquarters Department of Army in Washington. He has been in the Army since 1943 and has been stationed at Pine Bluff Arsenal, Ark.; Ft. Detrick, Md.; Army Chemical Center, Md.; and the Office of the Chief Chemical Officer, Washington, D. C.

During World War II he was in the Western Pacific. Other overseas stations were in Korea and Germany.

Mrs. Stovall is the former Miss Ruth Wise. The Stovalls have two daughters, Jeanette, attending the University of Indiana, and Cynthia. They live at 7305 Atwood Dr. S.E. in Huntsville.

**COL. JAMES F. PREWETT**

Another experienced Army logistician, Col. James F. Prewett, is the SENLOG Director of Maintenance.

"We're using proven Army maintenance practices as guidelines in organizing our Directorate functions," Col. Prewett said.

His Directorate's role is to develop and to provide maintenance support for the Sentinel system throughout its life cycle. The role

includes insuring system maintainability, directing and managing off-site repair and rebuild, providing technical assistance to sites, preparing data to support all aspects of maintenance and developing controls needed to keep up to the minute knowledge of maintenance status at every Sentinel site.

Col. Prewett was a Director in the 2nd Logistic Command in Okinawa before he was assigned to SENLOG.

This is his second tour in this community as he was at Redstone from 1954 until 1958 working in research and development areas. Another key assignment was as Secretary at the U. S. Army Ordnance Center and School at Aberdeen Proving Ground, Md.

He had service in Europe during World War II, and again in the early '50's, followed by a year in Korea, 1958-59.

Col. Prewett is from Memphis, Tenn. and holds a degree in industrial engineering from the University of Tennessee. He also has a masters degree in business administration from the University of Chicago.

Col. and Mrs. Prewett are the parents of five children, a married daughter, Mrs. Jeri Hanson, Larry attending the University of Tennessee; Barbara, Tom and Judy.

## Night Vocational Courses Start Monday, Sept. 16

The Huntsville area Vocational Technical Center will begin a new series of evening extension classes Sept. 16 according to the Training and Development Division of the Civilian Personnel Office.

Subjects to be offered will include: computer electronics, radio transistors, ultra-high frequency electronics, introduction to electronics, business English, refresher shorthand, advanced shorthand, major appliance repair, carpentry and millwork; welding, record keeping, office practice, auto mechanics, refrigeration and air conditioning.

A nominal fee is charged for each course. These vary in length from 14 to 28 weeks and require attendance either one or two nights a week.

Further information can be obtained from Hubert Christian, night supervisor at the Center. The location is 2800 Drake Avenue, phone 881-8770 or 881-8771.

The last three reside with their parents on Redstone Arsenal.

# Ward Accrues High Average In Nike High-Powered Radar And Simulation

Five men were singled out for honors at a graduation of the Army Missile and Munitions Center and School last Friday, led by a Nike missile radar student from Hempstead, Md.

PFC William F. Ward, Jr., compiled a 98.7 grade point average during 40 weeks of training on the Nike high-powered radar and simulator. For his efforts he was granted the special award of the Association of the U.S. Army.

Representing the Tennessee Valley Chapter of AUSA, Reavis O'Neal, Jr., gave the selective award to Ward and PFC Bruce W. Garver of East Liverpool, Ohio, who scored 97.2 in ammunition storage.

Designated as honor students for making the highest scholastic mark in their respective courses were: PFC Carl T. Meyer of Royal Oak, Mich., in combat missile systems;

PFC Allen R. Trent of Dallas, Tex., and Pvt. Charles E. Devore of Stone Mountain, Ga., both in Nike launcher control.

Lt. Col. Arthur W. Brochu addressed the group of 84 graduates on the subject, "Military Ideals." Brochu is the chief of explosive ordnance disposal training at MMCS. He told the class that the instruction of military ideals within the Armed Forces is considered the most vital of teaching.

These ideals are an instrument of national survival, he said, and it must be understood that although war is not ideal itself, it must be made to serve ideal ends.

In conclusion Brochu added, "To speak of ethics in the same breath with war may seem like hypocrisy, but we can't overlook that men who best understand armed power are the very ones who detest most the existence of wars."

PFC WILLIAM F. WARD, JR.

LOOK AT THE BIRDIE—There was a pause in the picnic at Guntersville Lake while everyone on the recent Post Service Club junket hammed for a cameraman. The event included swimming at Guntersville beach. One of the hostesses, Molly Patterson, the Service Club Director, is a former championship swimmer.

**GRADUATION SPEAKER** — Maj. Verle B. Hammond will address the graduating class at the Missile and Munitions Center and School Friday. He is chief of doctrine division in the Office of Doctrine and New Materiel at MMCS. His audience will consist of nearly 80 graduates, including eight members of the U.S. Marine Corps. The event takes place at 9:15 a.m. in the Post Theater and the public is invited to attend.

# MICOM Wins Softball Tourney Over Ninth ETC

## Enyart Hurls Win In Form Reversal

Unable to get the ball over the plate on Monday, Dave Enyart came back on Friday with a near perfect performance in hurling the Missile Command to the championship of the Unit Level Softball League.

Enyart blanked the 9th ETC on a single hit through six innings before surrendering a pair of safeties in the final inning as MICOM captured the final game of the double elimination tourney, 8-1.

The Ninth had forced the final game by handing MICOM a 9-2 setback earlier in the week with an eight-run outburst in the fourth inning. Enyart gave up a single hit in the inning but he and his successor, Tom Glynn doled out eight free passes to Ninth batters.

MICOM picked up single runs in the first and third innings then broke open the championship game with a six spot in the fourth. In the opening inning Sharp singled after the first batter had been retired and came on around to score on Wilson's double.

Sharp got his mates going again in the third with another one-baser. He took second on an infield out and scored as English drove a single through the right side.

In the fourth Hachy singled and Stovall and Gonzalez walked to load the bases. Sharp singled in a pair of markers, Tetzlaff plated another, and English doubled for another pair. Wilson made it 8-0 with a ringing triple that sent English scampering home.

Enyart lost his bid for a shut-out when Jones tripled off the top of the left field fence with one out in the seventh. The Ninth outfielder completed the circuit when

## Sweeps Feature Opening Pinfall

The Avengers and the Untouchables scored four-point sweeps as the F&A Mixed League pried the lid off the 1968-69 civilian bowling season at the Playmor Lanes last week.

The former quartet upended 2215 maples in blanking the Updates while the latter outfit was almost as rough on the Lane Runners with a 2148 pinfall. The M Squad broke even with the Twosomes in the only other match rolled on the opening card.

Mary Schmitz and Julian Williams waged an interesting duel for individual honors with Schmitz prevailing by 13 pins, 579 to 566. His 222 was the best game rolled while his Untouchable team mate, Frances Strickland, had the best game for the women, a 202.

Brenda Andrada turned in a 557 effort as she teamed with Williams in the Avenger attack. Beverly Cramer had a 200 game for the Twosomes.

Batten lashed a single through the box.

The MICOM right hander struck out six Ninth batters and walked only two in hurling the big win. His opponent, Allen proved to be no mystery to the MICOM hitters and they got to him for an even dozen hits with Sharp, Tetzlaff and English collecting three apiece.

## OWC GOLFERS START MEDARIS TROPHY MEET

Members of the Officers Wives Golf Group return to the Arsenal greens today for the second round of play in the annual Ginna Medaris Trophy tournament.

The 54-hole match play event opened yesterday and will be concluded with the final 18-hole round tomorrow. Marian Deppensmith captured the coveted trophy last year and is attempting to make it two in a row in the current meet.

The Golf Group's regular competition last week consisted of a Lo Gross-Lo Net-Lo Putt tourney with 20 golfers competing.

Jane Walker edged Martha Napper for low gross honors with Mrs. Deppensmith taking the low net award ahead of Lucille Johnson. The low putt award was won by Clara Miller with Martha Simpson second and Billy Shuput won the special high net award.

## MICOM Cagerettes Look for Players

The first call has been issued for prospective members of the Missile Command's girls basketball team that will be playing in the Huntsville Industrial League again this season.

Coach Sid Douglas said that the Civilian Welfare Fund-sponsored team will start practicing as soon as arrangements can be made for the use of a floor. The league season will open on October 21 with all games being played at the Joe Bradley School gym on Monday evenings.

The MICOM girls got off to a fast start last season and won their first eight games before a rash of injuries forced the team to hobble home in second place with three losses in the last four games.

Douglas said that the team would have to be rebuilt almost from scratch with not over four or five returning members. That is his reason for getting started as soon as possible.

He asked that anyone interested in trying out for a place on the team to contact Gladys Hill at 877-8581, or Helen Smith at 876-5969.

GOLFERS, ALL—The annual junior golf tournament sponsored by the Redstone Officers Wives Golf Group played last week on the Arsenal Course was among boys between 10 and 12 years old. In the front row are Steve Totri, Craig Holland and Joe Lau. Back row includes Robert Feist, James Ivy, Terry O'Connor, the champion, Brad Shuput and Bruce Conoly.

## Officials Needed For RSA Football

Special Services reports a desperate need for football officials for the upcoming season. A rules clinic will be set soon. Anyone interested in earning money as an official, contact SFC Irving Lyles at 876-2501.

Tackle football is sponsored by Special Services on the battalion level and five teams are in the league this year: 1st, 2nd and 3rd Battalions from School Brigade, Unit Training Command, and Army Missile Command.

On the unit level, 15 squads have signed up to participate in flag football. From the school are teams representing the four permanent party companies—A, B, C and D—and the 11 student companies—1st-4th ETC combined, 2nd ETC, 3rd ETC, 5th-7th ETC combined, 6th ETC, 8th ETC, 9th ETC, Student Officer Company-Headquarters Company combined. MICOM, the MP's and 200th Ordnance Company round out the league.

## CFW Netters Take Second To MSFC

The Missile Command tennis team captured one title and added a quartet of seconds in gaining runner up honors for the B division of the Huntsville Industrial Tennis League.

The CFW-sponsored team had taken second place in regular season play behind the Marshall Space Flight Center team and they duplicated that standing in the season-ending tournament completed last week.

Chuck Bowden, the MICOM leader throughout the season, was the lone winner for the Army team by capturing the No. 1 singles competition. George Elrod and Don Holder reached the finals before losing in other singles matches.

Two of the three MICOM doubles entries advanced to the final round with the Elrod-Art Jones and the Irv Kellogg-Joe Hiatt teams taking runner-up honors.

In winning the tourney crown, the strong Marshall team had eight finalists with seven of them coming through with titles.

The civilian netters have turned their attention to their challenge match with the Redstone Arsenal team that captured the championship of the C Division of the city league.

Bob Shineflug, the military ace, got Redstone off to a fast start by trimming Bowden in the No. 1 singles, but Holder returned the favor by taking the No. 6 singles from Gordon Lakso.

## O'Connor Wins Junior Golf Tournament Here

The Junior Golf Tournament champion, Terry O'Connor shot an 85 in the 36 hole tournament last week to shut out runner-up Brad Shuput who scored a 98.

In the first flight Joe Lau won over Robert Feist. Second flight winner James Ivy was determined in a sudden death play-off with Craig Holland.

Ten boys between the ages of 10 and 12 were in the competition sponsored by the Redstone Officers Wives Club. Billie Shuput was tournament chairman for the junior group.

Other participants include Steve Totri, Lee Wickersham, Don Perault and Bruce Conoly.

## AMC Bowlers Off With Slow Start

AMC bowlers got off to a rather inauspicious start of the 1968-69 season last week with only one team able to score a sweep and outstanding individual performances at a minimum.

The Bombers got the jump on their 15 rivals by scoring the sweep with one of their patented performances. The former champions battled the Spartans on almost even terms through the three games coming out with winning margins of two, eight, and three pins.

The Voyager-Bandit match ended in a split with six quintets taking three to one margins to share the runner up slot behind the Bombers. The three-time winners were the T-Birds, the Raiders, the Avengers, the Metro-Cals, the Wonners and the defending champion All-Sports five.

Ray Wernle was just about the only individual to cut much of a caper and he accumulated most of his fireworks with a closing 234 game for a 553 total.

Rick Taylor was next in line with 529. Carl Bayer hit for 518, Lee Keim had a 517 total while Ken Bell and Wiley Vickers each turned in 511 cards.

## Arsenal Youths In Grid Openers

Action for the Arsenal Little League football teams got underway this week. There are six teams involving about 150 military dependents of the Missile and Munitions Center and School and Army Missile Command.

The 95-pounders started the schedule Monday against Monrovia, and two games were played Tuesday in the 70-pound division—the Blue team playing Northern and the Gold team meeting Monrovia.

Tomorrow night the 80-pounders take on Monrovia at Davis Hills Jr. High with kickoff at 8 p.m. Two games are on tap Saturday on the Arsenal field on Goss Road: The 100-pound unit and the unlimited division tackle Union Hill at 6 and 7:30 respectively.

Next Monday, the Gold 70-pounders face Northern at Davis Hills, followed immediately by the 80-pound squad vs. Northern.

**BEFORE DISASTER STRUCK**—The 291st Military Police Company dropped a pair of early season encounters in the Unit Level Softball league and then set sail on an unbeaten string that extended over 22 games to capture the regular season championship. In the post season playoff tournament the Policemen suffered a pair of startling upsets and were eliminated early as the Missile Command took the crown. The Military Police players are, left to right, rear

row: John Dudkowski, Cecil Roberson, Tommy Williams, Ben Shelton, Baill Madeya, Tom Kaminski and Ken Jackson. Middle row: Tommy McBride, Roger Lasich, Charles Graeber, Mike Vagnerini, Tom Corneil and Roderick Rohrer. Clifford Moser, the team coach, is in the foreground flanked by batboys, Gary Shelton and Daryl Williams. Robert Horn was not available for the picture.

# ERROR MEANS THE END

Sometimes there is no margin for error in a task. One such task is the dismantling of explosives—the mission of the EOD soldier.

EOD stands for Explosive Ordnance Disposal. At the Army Mis-

sile and Munitions Center and School is an entire division of EOD qualified personnel, headed by Lt. Col. Arthur W. Brochu. It is their job to insure that other men in the field throughout the U. S.

are up-to-date in their methods.

The year-round activity of the EOD Division at MMCS involves presentation of the annual Army Training Test (ATT) to the 56 EOD detachments based within the continental U.S. Aiding Col. Brochu in the administration of this function are deputy chief Maj. Donald F. Knapp and Sgt. Maj. Timothy E. Elmer.

They deal in one of the Army's most delicate operations. The EOD principle, pioneered by bomb-riddled England, was first formed by the U. S. when she entered World War II. It was necessitated by Germany's saturation of allied areas with delayed action fuse bombs. Bomb disposal squads, using often fatal trial-and-error means, began what later broadened into a mission to include other explosive ordnance.

Men now active in EOD undergo extensive and rigorous training which includes 19 weeks of schooling in chemical, basic EOD and nuclear weapons disposal.

To insure that they remain competent, EOD units come to Redstone annually for testing and

refresher training. MMCS provides them with a week of both under the direction of Maj. James R. Lowe and chief instructor Master Sgt. Erving L. Nichols. Their Testing and Training Branch receives vital assistance from the Range instruction and Support Branch, functioning under Maj. Ralph O. Ekonen, who retired in August. Capt. Gene C. Flack is now functioning as chief. M/Sgt. Clair R. Stairrett is the NCOIC.

Upon arrival at MMCS, the visiting unit is issued a complete set of tools, equipment and documents. They are readied for a week of ATT designed to determine their tactical and technical capability.

The test covers five major areas: conventional ammunition, chemical and biological munitions, nuclear weapons, technical intelligence, and tactical and general subjects.

On the ranges, a multitude of problems in each major area are constructed to test a unit's ability to recognize and identify, then render safe and dispose of various hazardous explosives.

Trained and experienced evalua-

tion teams from Col. Brochu's division closely observe all actions during the ATT and note any deviation from authorized procedures or violations of safety and security standards. Each unit is presented with a formal critique which points up each problem area found during ATT.

All mistakes are referenced to a particular source authority and the unit is judged satisfactory or unsatisfactory in each of the five phases of testing. The value of the ATT lies in its thoroughness. Seldom is there less than 55 work hours jammed into the week by all the personnel involved.

During the group's second week at MMCS a refresher training program is designed to cover all facets of EOD. Special emphasis is placed on particular areas which the unit found troublesome in ATT.

Then there is a complete familiarization with up-dated technical procedures such as new manuals and regulations, new tools and equipment, or new explosive items of U.S. or foreign make. Finally comes an orientation on EOD op-

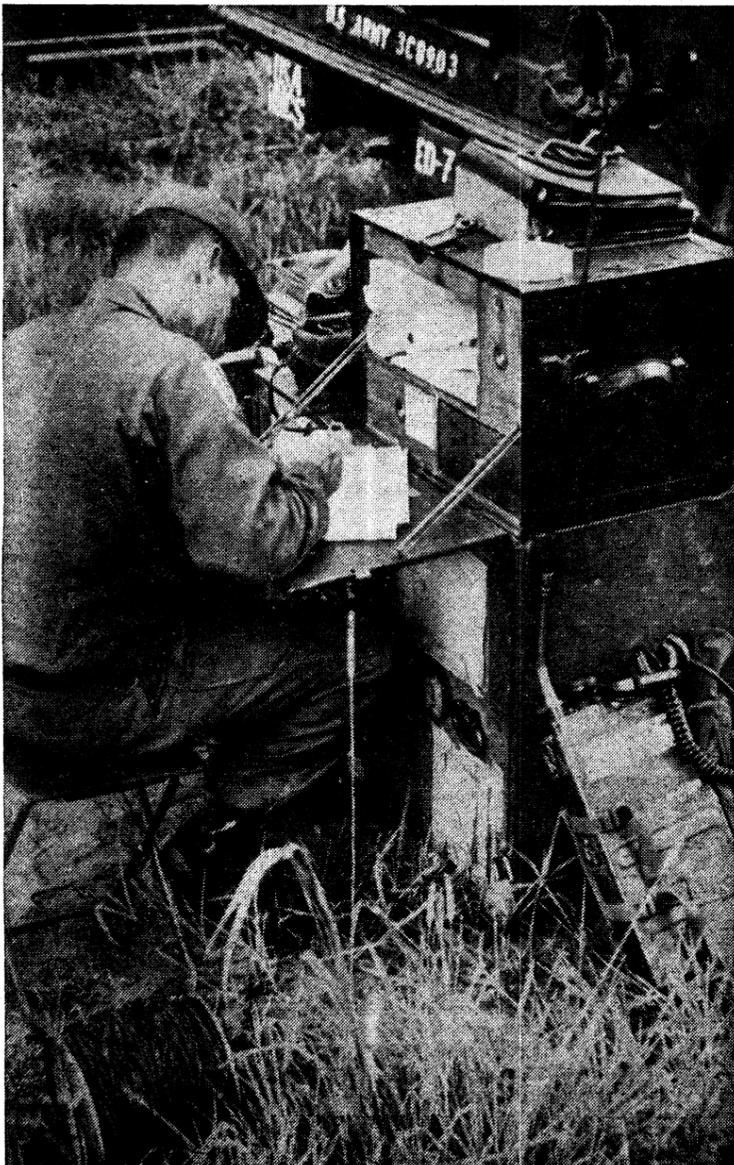

(See ERROR on Page 9)

**PREP PRECAUTIONS**—Members of the 13th Ordnance Detachment (EOD) of Atlanta, Ga., prepare for a chemical field problem by taking temperature at ground and six-foot levels, useful in determination of the danger point of chemicals and for evacuation purposes.

**CLEARING THE WAY**—As the EOD soldiers approach the unidentified rocket, they shovel a path of decontamination powder where they move.

**OVER AND OUT**—Central communications are established for a field mission problem as all members of the detachment are continually in touch throughout the mission, reporting and recording all pertinent data.

## ERROR

(Continued From Page 8)

erations presently used in Vietnam — especially ordnance devices being used by the enemy there.

The EOD specialist is trained to disarm anything that constitutes an explosive threat to life or property, from a .22 caliber bullet to a large bomb. He must maintain

his proficiency through required testing and training geared to keep him current. The reasoning is simple: only 30 of the original 500 original WWII bomb disposal men lived to tell about it.

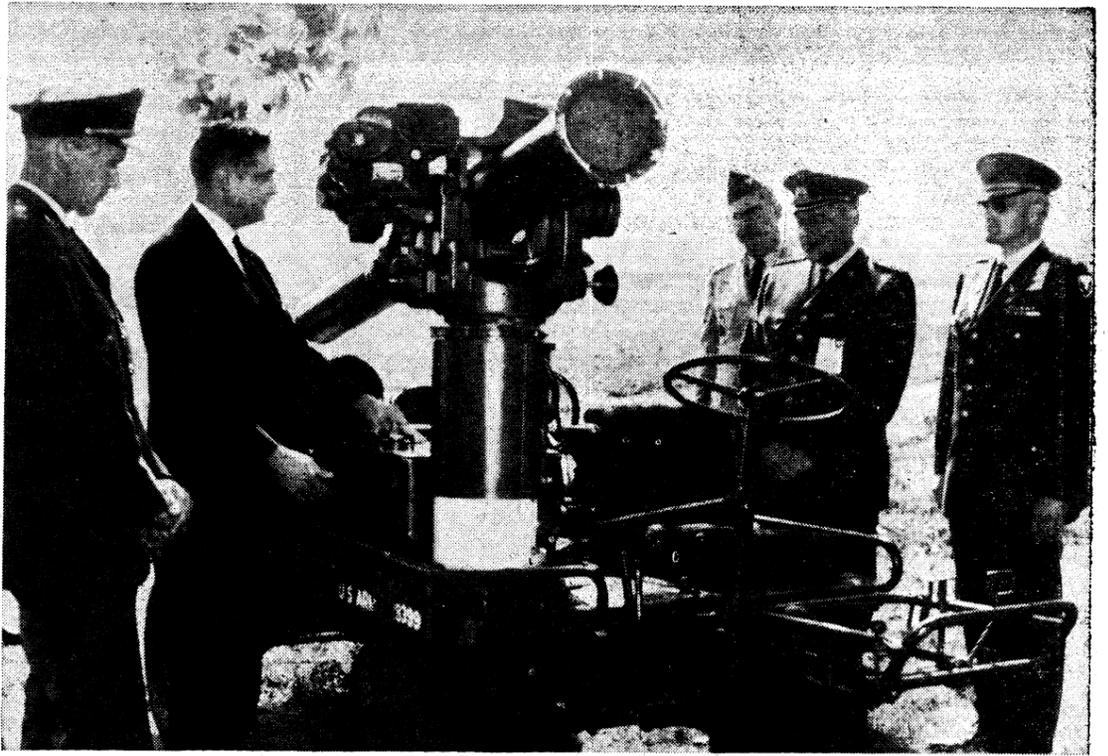

That's where the EOD professionals at MMCS come in. They can leave no margin for error.

**PATCHIN' UP**—Identification has been made and a leak discovered, which the troubleshooter now seals to render the rocket safe before moving it to another area for destroying.

**ROOTING OUT TROUBLE**—Samples of contamination are taken from shrubbery and objects in the area surrounding an unidentified ordnance item in an attempt at identifying the chemicals involved.

**SWEDES LOOK AT TOW**—Robert P. Whitley (second from left), Deputy Project Manager, briefs Swedish Army officers on the new TOW tank killer during their recent visit to the U.S. Army Missile Command. Right center is Brig. Gen. Pehr G.R.G. Grenander, Director of Weapons, Royal Swedish Army Materiel Administration. With him are Col. Thomas C. Rohan, left, Office Chief of Research and Development, Department of Army, and Lt. Col. Robert W. Huntzinger, TOW Project Manager at the Missile Command.

## Lt. Col. H. G. Jeffers Heads AUSA Plans Group

Lt. Col. H. G. Jeffers, Jr., U.S. Army Missile Command Staff Judge Advocate, has been named to head a Planning Committee for the Tennessee Valley Chapter, Association of the U.S. Army.

In making the announcement following a monthly meeting of the Chapter's board of directors, Brig. Gen. Robert B. Spragins (USA Ret.), President said:

"I feel the chapter needs a planning committee to assure continuity of its activities from year to year when officers change."

He added that it would be a three person committee with other members being selected to represent Department of the Army civilian employees and business members of the chapter.

Other action resulting from the Board of Directors meeting included announcement that the chapter was sending a \$25 memorial contribution to the Lurleen B. Wallace Memorial Cancer Fund in memory of John W. Houtz, Chapter Treasurer who died several weeks ago, the naming of Thomas L. Collins to replace Houtz, and that a chapter meeting was being planned for November or December.

General Spragins said that there would be an outstanding speaker for this meeting.

### OPEN HOUSE

CWO and Mrs. DeWitt Mytinger will hold open house Sunday, Sept. 22 between 2 and 5 p.m. for friends of their daughter, Mrs. Andrew S. Rocco, (Dee). The Roccas live in Philadelphia.

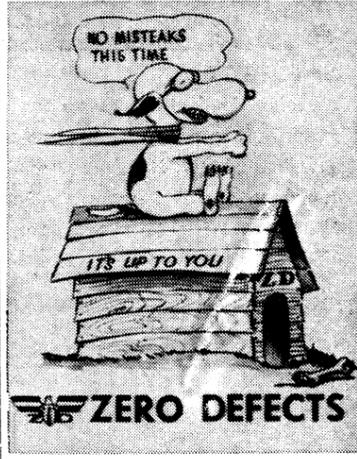

Dee graduated from Butler High School in 1962 and worked for the Post Exchange and the State National Bank in Huntsville before joining her parents in Germany. The Mytingers live at 321 Hughes Drive on the Arsenal.

## Dentists Participate In School Program

The Redstone Arsenal Dental Surgeon, Col. Joseph Churan, and the Preventive Dentistry noncommissioned officer, SSG William Snodgrass, accepted an invitation to give four separate classes on oral health to 240 children and 23 teachers from schools included in the Educational Enrichment Program in Huntsville.

A story, movie cartoons, as well as coloring books depicting proper care of teeth were given to the various groups. Also as part of their language arts program, a dental health poster contest was conducted. Categories were selected from the second and third grades, the fourth and fifth, and the sixth and seventh grades.

The best poster from each grade

category competing was awarded a prize of an electric toothbrush donated by the Huntsville-Madison County Dental Society.

EVERETT C. LINDSEY

## Lindsey To Speak Tomorrow

Everett C. Lindsey, veteran lecturer on human motivation, will speak to top management staff in the Army Missile Command and the Sentinel System Command tomorrow.

Two sessions will be held in the Rocket Auditorium at 10:30 a.m. and 1:30 p.m.

Lindsey is a personnel advisor to the Gulf Oil Corporation and is active in civic and business organizations. He is a member of the International Platform Association.

His topic will be: "Human Motivation in Connection with the Cost Reduction Program."

## Chaparral Component Will Be Manufactured In Anaheim, California

The U.S. Army Missile Command has announced the award of \$3,634,000 for production of components for the Chaparral guided missile system. The letter contract went to the Aeronutronic Division of the Philco-Ford Corporation. The work will be performed at the company's Anaheim, California plant.

The Chaparral is in the second production phase. The system uti-

**SCHOOL FIRST**—Col. Mac D. Hendricks (far left) of the Directorate of Arsenal Support Operations presents the Post Commander's Character Guidance Award to units from the Missile and Munitions Center and School. In Category II (from 100 to 299 men), Headquarters Company of Unit Training Command took the honors (above), received by commanding officer Capt. William H. Bates as 1st Sgt. Lawrence M. Jackson looks on. The winner in Category III (99 men or less) was 200th Ordnance Detachment, also of UTC, represented by CWO William H. Hollingsworth, Jr. and Master Sgt. Cliett D. Hartwell. It was the first time the award was won by MMCS in seven years.

lizes a modified Sidewinder 1C missile in a multiple mount, mounted on a highly mobile self propelled tracked vehicle.

The system is being developed to meet Army requirements for a forward area air defense system, and has been selected to arm new air defense battalions.

The Missile Command's Chaparral Management Office, headed by Lt. Col. Donald H. Steenburn,

directs development of the system. The Chaparral/Vulcan project manager for the Army Materiel Command is Col. R. C. Daly stationed in Washington, D.C.

The contract was negotiated by the Missile Command Procurement and Production Directorate. Col. S. C. Holmes is the P&P Director.

# This Volvo definitely has a bug in it.

97% of a Volkswagen fits inside a Volvo.

The 3% got squished in the squeeze.

Of course, the act of squeezing a VW into a Volvo was a small achievement when compared to the final result.

The world's first car with the trunk in its engine compartment. And the engine compartment in its trunk.

Obviously, this incredible automotive breakthrough has a purpose.

And it's not to belittle the beetle.

But to correct a misconception people have about Volvo.

Many people think Volvo is a tiny little car.

The full absurdity of this thinking becomes apparent when you consider that Volvo is built in Sweden, the land of the vikings. Did you ever hear of a four-foot viking?

Actually, Volvo is built for six-footers.

In the front, Volvo has only three-tenths of an inch less legroom than a Buick Riviera. In the back, it has two-tenths of an inch more

legroom than a Chrysler. In headroom, Volvo has more than an inch on the Rolls-Royce Silver Shadow.

But, as everyone knows, quality matters more than quantity.

So we'll tell you about something Volvo has in common with the Rolls-Royce. Both have been voted among the seven best-made cars in the world by Road & Track Magazine.

Which means the Volvo you buy should definitely not have a bug in it.

## Communications To Be Topic At IEEE Meeting

Bernard Rider, assistant vice-president for engineering of the Government Communications Systems Department of Western Union, will speak tonight at the monthly meeting of the Institute of Electrical and Electronics Engineers.

Rider's topic will be "Computers in Communication."

The meeting will be held at the Redstone Officers Open Mess and will be preceded by a social hour at 6 p.m. Dinner will be at 7 p.m. and the program will begin at 8 p.m.

Tickets can be obtained by calling Lou Ewing at 883-3661.

Rider earned an ME degree in 1944 and an MS in EE degree in 1946 at Stevens Institute of Technology. He joined the National Company in 1956 as Assistant Director of Engineering and supervised engineering activities in communication and in atomic resonance frequency control.

In 1960 he became Director of Advanced Technology at Litton Systems, Inc. where he was responsible for developing advanced concepts for military applications. He has been at Western Union since 1964.

## AT AUCTION

THURSDAY, SEPTEMBER 19 AT 1.33 19/38 P.M.

THE A-1 LOCATION OF BEAUTIFUL 30-UNIT WINDSOR VILLAGE MOTEL AND GULF SUPER SERVICE STATION. LOCATED AT THE CROSSROADS OF THE STATE WHERE HIGHWAYS 31 AND 64 MEET, THE POPULAR EAST-WEST AND NORTH-SOUTH ROUTES, ONLY 7 MILES FROM INTERSTATE 65, BELONGING TO MR. LOUIS SCHUTT AND MRS. JANICE SCHUTT.

### SALE NO. 1

The first sale will be the super Gulf Service Station buildings with paved driveway into this highly desirable commercial property. It has 94.5 ft. frontage on Highway 31, 67.5 ft. in the back, and 50.6 frontage on Highway 64. This is one of the most modern stations in Pulaski, Tennessee, located just across from U.S. Post Office and within walking distance of the banks and stores around the Square. The lease with Gulf Oil Company is for \$250 per month plus a cent per gallon over 25,000 gallons pumped. This property will be sold subject to the Gulf Oil Company lease with all easements honored.

### SALE NO. 2

Sale No. 2 consists of beautiful Windsor Village Motel with 28 units, a large office with three units above it that can be used for other rooms making it a 30-unit motel or as an apartment for operators of the motel. Windsor Village Motel is of English design and is built of stucco and rock. All 28 rooms are furnished with excellent furniture. The motel has enough linens for 2 1/2 changes. Practically all rooms have television and air conditioning. Here you have every-thing needed for a motel operation except a new owner. There are \$10,000 worth of Windsor Village signs up now on all major highways.

WE WILL OFFER THIS PROPERTY SEPARATELY AND AS A WHOLE: THE HIGHEST PRICE WILL DETERMINE THE SALE. TERMS: If the property sells separately, \$25,000 payable on each tract; balance in equal payments in 10 years at 6% interest. If property sells as a whole, \$50,000 down, balance on or before 10 years at 6% interest.

POSSESSION: Gulf Oil Station lease will be taken over with delivery of deed. Windsor Village Motel, with delivery of deed. For plats or brochures, write Keller Realty Co., Box 290, Pulaski.

**NAMES IN THE NEWS**

by *SP4 Mike McKenzie*

Lt. Col. Arthur W. Brochu, who heads our Explosive Ordnance Disposal Division, completed a school's commandant. \* \* \* The first student to work at

**SP4 ROGER M. SLARSKI AND SP4 RONALD M. SLARSKI**

unique experience recently in the United Kingdom. He attended the British Joint Services Bomb Disposal School near London.

Officers and non-comms from the armies of Britain, Malaysia and Libya, from the Royal Air Force and Navy, and from the U. S. Air Force were also in attend-

**LT. COL. BROCHU**

ance at the five-week course in bomb and special weapons disposal.

It took place at the Royal Engineer School, which is sort of the "Fort Belvoir of England," according to Col. Brochu. He reported the training as "very demanding . . . they use all different equipment from ours, although similar, and condense the material greatly to finish in five weeks."

The British are pioneers of bomb disposal, having formed squads for that purpose during the Nazi blitzing of England in World War II. Experts at the school estimate Britain has another 20 years of work ahead to finish clean up from WW II—there are reportedly some 5600 bombs that have not been located around the countryside.

Col. Brochu, who was promoted during his temporary duty there, is only the second U.S. Army officer to be selected for attendance, although there is a regular exchange system established through the EOD mission at Indianhead, Md. It was a unique experience for an American Army officer to be promoted at a joint service school by a Royal Navy superior, Commander S. R. Honour, the

MMCS through the Cooperative Education program has now departed for completion of his undergraduate degree, with a goal of returning here as an instructor.

William Kimber of Birmingham began his co-op apprenticeship here in February of '67, alternating semesters at Alabama A&M and here. When he finishes this final year of study in mathematics at the A&M education department, he will be qualified to teach missile electronics due to his training here. He worked in the Mis-

**W. M. KIMBER**

sile Division of Officer Training Department under R. D. Holland.

There's nothing like togetherness, and sometimes the Army recognizes this. Such is the case, so far anyway, of twin brothers Ronald M. and Roger M. Sklarski, SP4's who just completed 34 weeks of training on Nike test equipment.

Born four minutes apart 21 years ago, their Army careers have paralleled in every detail. They enlisted together last October, went through basic training in the same company at Fort Benning, and came to the 7th Enlisted Training Company at MMCS.

Now they're awaiting orders for Okinawa. The Sklarski's are from New Market, N.H. Roger earned a draftsman's diploma from New Hampshire Technical Institute and Ronald received an associate degree in accounting from McIntosh College before they enlisted.

Another case of sibling students came up recently when PFC's Stephen and Erwin Levings of Superior, Wis., passed through the 44-week Nike radar and computer course. They enlisted last June and took basic together at Ft. Campbell before assignment to the 8th ETC. Both are instructors with MMCS now, working out of Company A. Stephen is two years older at 20.

OTHER NAMES IN THE NEWS: In Training Aids Department, director C. J. Markvart gave letters of appreciation to SP5 Ray E.

Harp, a photographer, and SP4 Brown, a draftsman, along with student summer aides John Coggin (carpentry), Cindy Sterner (composing machine) and Jimmy Marion (publications clerk) . . . CWO Robert L. Ward of Pershing Division has been promoted to W-2 . . . WO Ernest E. Williams of Technical Inspection Branch received an Army Commendation

Medal prior to departing here last month for school and future assignment overseas . . . PFC Johnny H. Harrison at the 522nd Ordnance Company reenlisted for four years to travel to Germany as a cook . . . Capt. James M. Todd was promoted while attending the missile

maintenance officer course at Student Officer Company . . . Several men were promoted to Spec. 5 in Unit Training Command and School Brigade, including one who was sorely tempted to use special influence to get it printed in the Rocket (see by-line) . . .
