Judge Advocate General To Address Federal Bar Association At Redstone

Huntsville's Federal Bar will be host next week to the Judge Advocate General of the U.S. Army.

Maj. Gen. Kenneth J. Hodson will be guest speaker Friday, Jan. 31, for the association composed of government affiliated lawyers. The luncheon meeting will be at the Redstone Officers Open Mess.

During his visit, Gen. Hodson will visit with Maj. Gen. Charles W. Eifler, Commanding General of the Army Missile Command. He will be briefed on Command activities by Lt. Col. H. G. Jeffers, Jr., Staff Judge Advocate, and Frank Buckley, Chief Counsel.

He will also meet with Brig. Gen. I. O. Drewry, Commanding General of Sentinel Systems Command.

A native of Crestline, Kansas, Gen. Hodson left his law practice in Jackson, Wyo., in May, 1941, to serve as an artillery officer in the Army. He subsequently moved to the Judge Advocate General's department where his assignments have taken him throughout the United States and overseas.

He is one of the authors of the 1951 Court Martial Manual and served as the senior U.S. member of the U.S.-Japan Committee from 1954 to 1957, supervising the exercise of criminal jurisdiction over U.S. personnel in Japanese courts.

Future Plans For Research Park Studied

Progress and future plans for the Huntsville Research Park were discussed during the annual meeting of the park's advisory board last Thursday.

Joe Peters, outgoing Advisory Board President, said that during 1968 facility expansion in the park had totaled almost 550,000 square feet. A major portion of the expansion is accounted for by the Army Sentinel System Command Headquarters locating in the park. Other expansions were made by the University of Alabama and IBM.

According to the Annual Report, expansion added 1,800 additional employees and 100 additional students to Research Park, bringing the total annual payroll at the park to \$94 million.

Advisory Board achievements for the past year cited in the annual report included:

Assisting SENSOCOM to locate in Research Park; establishment of a mutual aid program; construction of recreational facilities; installation of traffic lights at pedestrian crossings; and several studies concerning road expansions, curbs, gutters and drainage, and new signs and markers.

Cited as continuing park problems were:

Need for improved ingress and egress; curbs, gutters and drainage; entrance marker and interior signs; fire protection; beautification and street lighting.

Advisory Board officers for 1969 installed during the meeting were:

Charles Grainger, president; Mark Paul, vice president; and Ron Radhoff, secretary.

Maj. Gen. Kenneth J. Hodson

Army Awards Construction Contract Here

The Army awarded a \$2,730,533 contract Friday to cover construction of 170 new family housing units for military personnel at Redstone Arsenal.

The Mobile District, U.S. Army Engineers, made the award to the Ranger Construction Company of Huntsville. Work is scheduled for completion in February 1970.

The new housing, for non-commissioned officers and their families, will consist of 60 buildings containing from one to four housing units each. Some will be single story and some two story. All will be of wood frame construction with wood siding and individual air conditioning. Some of the units will contain two bedrooms, others three and some four bedrooms.

(See AWARDS on Page 3)

COST REDUCTION 'RE-EMPHASIS' TO BE KEYNOTE

"Re-emphasis" will be the keynote of a Cost Reduction meeting to be held tomorrow at the Rocket Auditorium on Redstone Arsenal.

Maj. Gen. Charles W. Eifler, Commanding General of the Army Missile Command, will discuss challenges and responsibilities of the program for the remainder of the fiscal year.

Also taking part on the program will be Roger Kerr, Cost Reduction Coordinator for Army Materiel Command.

Fourteen Missile Command employees will be recognized during the program, and will be presented awards for their contributions to the overall Cost Reduction Program.

Following the morning meeting, which runs an hour starting at 10 a.m., an afternoon workshop will be conducted for invited Cost Reduction representatives.

New Finance Officer Takes Over

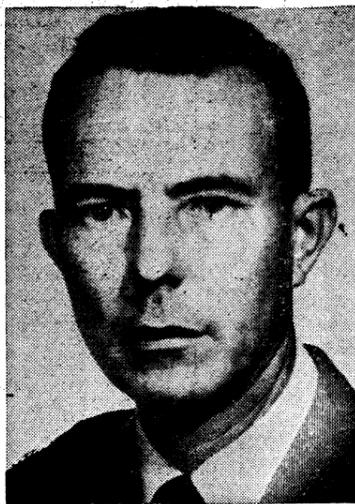

Two veteran finance officers, both of whom are recent recipients of high Army awards are the principals of a personnel switch between the Missile Command and the American forces in Vietnam.

Lt. Col. Thomas W. Fitzgerald, a recent returnee from the Southeast Asian Republic, has been named Chief of the MICOM Finance and Accounting Center replacing LTC Milton A. Jones who goes to Vietnam to join the 25th Infantry Division.

Col. Fitzgerald was awarded the Bronze Star as he completed a 12-month tour as Commanding Officer of the U.S. Army Central Finance and Accounting Center. Col. Jones was cited for his over three years at Redstone with the Legion of Merit.

A native of Ashland, Ill., the new MICOM officer is a veteran of over 16 years active Army service that included previous overseas tours in Guam and Japan.

He holds a bachelor's degree in Commerce from Notre Dame University and a Master of Business Administration from Indiana University. Since being transferred to the Finance Corps in 1959, Col. Fitzgerald has completed the Basic and Advanced Officers courses at the Army's Finance School.

Lt. Col. Thomas W. Fitzgerald

UK General Visits Here For Two-Day Orientation In Missile Technology

One of Britain's top generals got a red carpet welcome this morning, then began a two-day look at the latest in weaponry and missile technology as guest of the U. S. Army Missile Command.

Making his first visit to Redstone Arsenal is Lt. Gen. Sir George Lea, Head of the British Defense Staff in Washington.

While here, Sir George will meet with Huntsville community leaders as well as top military officers at Redstone. On Thursday, he will also tour facilities at the Army Missile and Munitions Center and School as well as NASA's Marshall Space Flight Center.

Tonight he will be guest of honor at a reception in the Redstone Officer's Open Mess, starting at 6:30.

Sir George plunged into a full schedule shortly after 8 this morning, following an honor ceremony at Missile Command headquarters and talks with Maj. Gen. Charles W. Eifler, Commanding General.

Throughout the morning he was briefed on many of the Army's newest missile systems. Later today, he was to tour the Research and Engineering Directorate where he was to see a display of Army weaponry.

Accompanying Sir George is Col. Peter A. Lowe, Deputy Commander of the British Army Staff.

Sir George and his party will leave Redstone Friday morning.

MRS. ELLIOTT DROWNS

Friends will regret to hear of the death by drowning of Mrs. Glenn T. Elliott, the past week in Thailand. Her husband, Col. Elliott, had been assigned to the ARADCOM office at Redstone Arsenal several years ago.

According to sketchy information received here, Mrs. Elliott's body will be returned to the United States for burial in Arlington, Ga. Her husband's home is Montevallo, Ala.

CHARLES BENTLEY MERRILL

Ben Merrill Dies In Crash

Funeral services for Charles Bentley Merrill, employed by the Army Missile Command for more than 10 years, were held Tuesday at the Huntsville Ward Church of Christ of Latter Day Saints.

Burial followed in Payson City Cemetery in Utah.

Merrill was killed Saturday when his light plane crashed into Lookout Mountain near Chattanooga, Tenn. He was 56.

Exact cause of the crash was unknown but reports from Chattanooga indicated that Lookout Mountain was shrouded in fog and visibility was extremely poor. Merrill was enroute from Huntsville to North Carolina.

Merrill was Chief of the Review and Analysis Branch, Shillelagh Project Office.

A native of Utah, Merrill was active in Huntsville aviation and (See MERRILL on Page 3)

COMPETENCE AND LEADERSHIP REWARDED—Col. James W. Gilman, right, received the Second Oak Leaf Cluster to the Legion of Merit last week presented by Brig. Gen. Mahlon E. Gates, Commanding General of the Army Sentinel Logistics Command. The colonel, who was first assigned to SENLOG as the Deputy Commander and later as the Special Assistant to the Commanding General, is retiring after 27 years of active Army duty. The citation accompanying the award said, in part, "His exceptional professional skill, clear insight and keen judgment have played an important part in current decisions affecting the programs of the Sentinel Logistics Command."

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the information Office, Army Missile Command, Redstone Arsenal, Ala., 35809 Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wantads—is noon of Friday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$7.42 a year, or \$4.00 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

Rocket Ruminations

The well of true wit is truth itself.

—George Meredith

Students Continue To Seek Further Training At School

The off-post training schedule for this week lists 20 Redstone civilians with over half of them spending the week in Norman, Okla., where they are attending graduate level classes at the University of Oklahoma.

The local personnel were selected for the training programs under the Missile Command's career development program administered by the Training and Development Division of Civilian Personnel.

Thirteen of the personnel are attending seminars on the campus in Norman and another is enrolled for a course of study offered by the University at Offutt AFB, Neb. The remainder are enrolled for classes at government schools in Illinois, Virginia and Ohio.

Joe May and Walter Tribble (SENSCOM) are attending the Seminar in Production Management on the main campus in Norman while William Marr (C&DP) is studying Contemporary Economic Methods and Analysis at the Nebraska Air Force installation.

Eleven others are attending the Seminar in Administrative Management Production. They are, Thomas Patton, Harold Best, William Wall, and Ronald Wicks, (SENSCOM), William Jann and Luther Smith (Pershing), Thomas Stramiello and Omar Norris (Hawk), Speed Hayes (Civ Pers), Clifford Coulter (R&D), and Larry Bockelman (Lance).

Another four went to Rock Island, Ill., for classes at the Army Management Training Agency.

Richard Hines (F&A) is enrolled for Introduction to ADP Systems, Harvey Mitchell (C&DP) is taking Operations Research Appreciation, Joseph Prescott (P&P) is taking the Organizational Planning course and Edward Sutton (VAAP) is attending classes in Quality Control Management.

Mitchell is spending one week at Rock Island, the other three will be there for two weeks.

Roy Phillips (Hawk) went to Ft.

Lee, Va., for the Army Test and Evaluation course at the Logistics Management Center, and Claude Kerry (P&P) is studying Contract Law at the School of Systems and Logistics, Wright-Patterson AFB, Ohio.

JOINS CDC STAFF—Maj. Robert A. Brown, a veteran of two tours in Vietnam, is the newest addition to the Combat Development Command's liaison office to the Missile Command. A graduate of Jacksonville State, he spent six months in Vietnam in 1963 and returned in November 1967 for a year as an Artillery Battalion S-3 in the 101st Airborne Division. He received the Bronze Star, Air Medal and Purple Heart during the latter tour.

Pamphlet to Explain Insurance Program

WASHINGTON (ANF) — A Veterans Administration (VA) pamphlet explaining insurance protection and the conversion privilege under the Servicemen's Group Life Insurance program soon will be included in the separation papers for military members.

Also, the Armed Forces of the United States Report of Transfer or Discharge (DD Form 214) now will be used to establish eligibility for converting the servicemen's group policy to an individual policy.

Within 30 days of separation, the VA will send each individual covered by SGLI additional insur-

VIETNAM VOLUNTEER—Harold O. Hill (right), a civilian employee of the U.S. Army Missile Command, receives the Medal for Civilian Service in Vietnam from Col. Marshall M. Motes, commander of the U.S. Army Depot at Qui Nhon. Hill, a resident of Madison, has volunteered and served three times in Vietnam. His most recent six months tour was as team leader of a 29 man special project force at Qui Nhon. His parents are Mr. and Mrs. Harvey Hill of 2807 Triana Blvd., Huntsville. Hill returned to his job in the Supply & Maintenance Directorate in December after completing a total of 12 months in Vietnam, over a two-year period.

Engineers Investigate Equipment To Improve Base Structure Of Army, Air Force Highways And Air Fields

Ft. Belvoir, Va.—Army Engineer earth compaction equipment will take a 20-year leap forward under a recently completed study by the Engineer Agency, US Army Combat Developments Command. Compaction is the vital technique in stabilizing soil for road and airfield construction and other building purposes.

Present engineer compaction equipment is primarily of World War II design and is unable to match increased engineer earth-moving capabilities. Engineer units have the capability of moving earth and laying pavement at a rate of 4-5 times greater than they can compact it.

The study is directed toward identifying a family of commercial equipment to increase engineer unit construction capabilities. The equipment recommended will reduce the number and types of compaction equipment in the Army inventory from nine to six.

The basic goal is to improve the Army's construction capabilities in support of the Army and Air Force.

Planning concepts of the 1970-1975 Army envision Engineer units able to construct airfields, ports, bases and routes of communication in support of ground and air operations faster than ever before.

Compaction is vital to the long

ance information together with a list of all participating insurance companies.

life of any base fill in constructing a road or airfield. It gives structural strength. High density compaction of earth, either by weight or vibration, can multiply the life of a highway or airfield by as much as 10 times and greatly reduces maintenance.

Optimum earth compaction tools designed to get high densities of soil and the capacity to do a large area at a time can be obtained by high rolling speeds of a machine which compresses to desired density in relatively few passes. A side benefit would be fewer pieces of machinery at the site and fewer trailers to haul the machines to and from the site.

In certain types of soils, water is essential for soil stabilization. It hardens the area and controls dust. This is important to aircraft, especially helicopters.

Water distribution will also change. Presently a 1,000-gallon tank is mounted on a five-ton truck with limited maneuverability off the highway. The study recommends using the Army's diesel tractor which can negotiate soft fill areas and have a 6,000-gallon tank—one vehicle doing the work of six.

Basically, in hard dollars and cents, the new equipment should reduce the cost of compacting a cubic yard 20-30 per cent.

Before you sign on the dotted line know what your loan will cost!

One reason you borrow with confidence from Household Finance is that HFC gives you the facts and figures before you borrow. The cost of your loan is explained clearly and simply in dollars and cents. No extras, no hidden charges, no surprises later on. If you need to borrow, choose HFC—the company that helps more service people every year than any other company of its kind.

Up to \$2000

LT. COL. MATTHEWS

Lt. Col. Matthews Named Product Manager, Land Combat Support Systems

Lt. Col. Frank A. Matthews has been named the Product Manager for Land Combat Support Systems (LCSS) at the Army Missile Command.

He is directing an office where overall management responsibilities are concentrated for the LCSS, a system of automatic test equipment designed to provide rapid detection of malfunctions in specified components of designated land combat tactical missiles under field combat conditions.

Col. Matthews arrived at the Missile Command in July and was in the Pershing Project Manager's Office prior to his present assignment. He came to Redstone after three years in Alaska where he was chief of the Inventory Control Center at the U. S. Army Alaska Support Command.

His first duty station in the

Army was Ft. Sill, Okla. followed by assignments in Germany, Redstone, Aberdeen Proving Ground, Md., Picatinny Arsenal, N. J., Korea, Pueblo Army Depot, Colo., and Ft. Leavenworth, Kansas.

The colonel is a graduate of the University of California, Berkeley, where he received a bachelors degree in chemistry. Later, he earned a masters degree in engineering science from Purdue University.

He is the son of Comdr. F. E. Matthews of Berkeley, Calif., and is married to the former Miss Pamela Hayes, daughter of the late Brig. Gen. and Mrs. W. P. Hayes. They have two children, David 15, and Cathy, 13.

Try A Wantad

MISSILE COMMAND CITED—Gen. Frank S. Besson, Jr., Army Materiel Command CG (left) presents the AMC "Commendation for Safety" for exemplary achievements in the prevention of accidents and the maintenance of a sound safety program during Fiscal Year 1968, to Maj. Gen. Charles W. Eifler, Commander, Army Missile Command, during the recent AMC Board Meeting at Aberdeen Proving Ground, Md. This is the sixth consecutive AMC safety award won by the Missile Command. In the past six years, the Missile Command won the following Army Materiel Command safety awards: "Award for Merit" in FY '63, "Commendation for Safety" in FY '64, "Award for Merit" in FY '65, "Award for Merit" in FY '66, "Award for Merit" in FY '67, and the "Commendation for Safety" in FY '68.

DR. FRED KELLER TO HOLD SEMINAR

Speaking at an Army Missile Command seminar on January 23 will be Dr. Fred Keller of Clemson University.

Dr. Keller, whose subject will be "Electron Paramagnetic Studies of Color Centers," will speak at a seminar conducted by the Physical Science Laboratory, Research and Engineering Directorate.

The seminar will be at 3 p.m. in the conference room of Building 5425 and will focus on the mechanisms of color center creation (damage center) in crystals and the nature of such centers.

Dr. Keller did his undergraduate work at Marshall University Huntington, W. Va., and graduate work at the University of Tennessee. After a post-doctoral appointment at Oak Ridge, he went to Clemson University, S.C., his present position.

The seminar will be open to the public; anyone interested in attending may contact Dr. Richard Hartman, Physical Sciences Laboratory, Research and Engineering Directorate, phone 877-2316.

MERRILL

(Continued From Page 1)

was a former president of the Space City Flying Club. He won fame two years ago by piloting a sailplane to an altitude of 29,000 feet in competition with pilots from the United States, Germany and England. For winning at Pikes Peak, Merrill was awarded the Diamond Medal by the Federation of International Aviation.

More recently he was actively working to promote a soaring club in Huntsville.

He is survived by his wife, Evva; a daughter, Diane; four sons, Maj. Charles Merrill of Elmendorf Air Force Base, Alaska, Dr. Ronald B. Merrill and David Merrill, both of Provo, Utah, and George Merrill, Huntsville; Three sisters, Mrs. Gladys Martineau of Walnut Creek, Calif., Mrs. Julia Skousen and Mrs. Fannie Gardner, both of Phoenix, Ariz.; two brothers, Anthony J. Merrill, Mesa, Ariz., and Orson Merrill, Boise, Idaho; a half brother, Dr. I. Ernest Gonzalez, Tiberson, Calif.

AWARDS

(Continued From Page 1)

There are presently 774 units of family housing on Redstone Arsenal. The last were completed in December 1959.

The new housing units will be erected on a tract lying south and east of a housing area south of Goss Road, and west of Vincent Rd.

Officers Wives Sponsor Welcome Coffee, Offer Variety Of Activities

The Redstone Arsenal Officers Wives Club held the semi-annual Coffee last week at the Redstone Officers Open Mess to welcome newcomers into the activities sponsored by the club.

The group has added one service activity to its volunteer program: the Retarded Children Association. Particulars may be learned by contacting Mrs. E. M. Dooley. She also handles the program for the nurse volunteers at the Red Cross Bloodmobile visits.

Among the special courses added this season is one in interior decorating which will be taught by Mrs. Don Mickell, instructor at the University of Alabama in Huntsville. Wives Club chairman for the activity is Mrs. E. J. Crochet.

Arts crafts and hobbies sponsored by the Wives Club include golf, headed by Mrs. J. M. Ivy; party bridge, Mrs. R. G. Ficke; duplicate bridge, Mrs. F. B. Goodman; bowling, Mrs. E. V. Lau; choral group, Mrs. Morris Pettit; home and garden, Mrs. K. C.

Johnson, and the book club headed by Mrs. L. P. Donlin.

Special courses being offered are ceramics which is handled by the Arsenal Special Services; candlemaking, instructed by Mrs. R. E. Wesson; sewing, Mrs. Carol Merritt; grape-making, Mrs. W. F. Diggs, instructor and Mrs. Raymond Hansotte, chairman;

Charm, instructor Mrs. Margaret Lindberg with Mrs. R. J. Proudfoot as Wives Club coordinator; cake decorating, Mrs. L. R. Wright; bridge, Mrs. F. B. Goodman; art, Mrs. John Winter, Jr.; children's ballet, Mrs. W. P. Martin; ballroom dancing with an Arthur Murray Studios instructor; slim and trim, Mrs. W. R. Wray; and tennis, Mrs. Wayne Witt.

All of the courses charge a fee to cover cost of materials and in some cases an instructors charge.

Wives of officers in the Procurement and Production Directorate were hostesses for the event. Mrs. William J. MacPherson, president, held a short business meeting during the event. Among the announcements was the report that \$1,000 is in the scholarship fund to be awarded to two students readying for the first year in college. The award is made on merit. Mrs. Raymond Hansotte heads the committee which will investigate the applications.

Eligible students are dependents of active Wives Club members.

Approximately 300 members and guests attended the first Wives Club meeting since the beginning of the New Year.

Mrs. S. C. Holmes, chairman and her committee of Directorate Wives poured. The serving tables were centered by blue and white flower arrangements.

NCO Wives Adopt Davis Home For Old

The Redstone Non-Commissioned Officers Wives Club elected new officers for the coming year during their business meeting Jan. 13 at the NCO Open Mess.

The new officers are: Mrs. John Mazikowski, president; Mrs. W. E. Hamer, first vice-president; Mrs. James Russell, second vice-president; Mrs. Daniel Slate, secretary; and Mrs. Edwin Gedling, treasurer.

The new Board members are Mrs. Joseph Cormier, Mrs. Thomas Saunders and Mrs. James Harmon. The parliamentarian is Mrs. Horace Jackson.

Installation of the new officers will be held on Saturday in the NCO Open Mess with a social hour starting at 6:30 p.m. and installation from 7 to 8 p.m. following a roast beef dinner.

Hostesses for the month are Mrs. Stanford Lindquist, Mrs. Ecolia Russell, Mrs. Frank Miller and Mrs. E. McGee.

Mrs. Joseph Hollowell was a guest at the business meeting and Mrs. Robert Clark and Mrs. Robert Roland became new members.

The Club will make a \$25 donation to the Huntsville Dental Health Auxiliary. Also, the Club voted to adopt the Davis Home for the aged. Each month, a donation will be made to the Home. This month they gave a dryer.

Maj. Graves Will Speak At Graduation

Maj. Hardy L. Graves, director of the supply department at the Army Missile and Munitions Center and School, will be speaker at the MMCS graduation Friday in the Post Theatre at 9:30 a.m.

Students from five missile courses and two ammunition courses totaling 103 graduates will receive diplomas at the ceremony, which is open to the public.

Maj. Graves, a 1960 graduate of Tuskegee Institute, is a veteran of Vietnam, where he advised the

New Arrivals

The new arrivals at the Post Hospital are as follows:

SP6 (Ret) and Mrs. Joseph H. Godwin, son, Daniel Steven, Jan. 11.

SP5 and Mrs. Walter James Meldrum, Jr., son, Walter James III, Jan. 11.

SP5 and Mrs. Thomas M. Porter, daughter, Gay Lynn, Jan. 12.

SP5 and Mrs. Donnie Roy Wenginger, son, Blaine Gail, Jan. 13.

SP4 and Mrs. James C. Williams, daughter, Kimberly Anne, Jan. 13.

SP4 and Mrs. Allan D. Laven, daughter, RoseAnne Marie, Jan. 14.

CPT and Mrs. Ralph J. Thomann, daughter, Catherine Regina, Jan. 14.

Chaplain Workshop Is In Session At Redstone

The Workshop in Pastoral Care for Chaplains of the Army Materiel Command is in the final scheduled session at the Missile Command.

They met last night, will have sessions all day today, and will close the workshop tomorrow. The workshop staff is headed by Chaplain (Col.) Lee A. Cousin, Chief Chaplain, Army Materiel Command; Byron B. King and Chaplain (Lt. Col.) Frank C. Riley, workshop leaders, the former is director of the Crisis Center, Dona Ana Mental Health Services, Las Cruces, N. Mex., and the latter is Post Chaplain at White Sands Missile Range; and Chaplain (Lt. Col.) Homer G. Benton, workshop director and a member of Chaplain Cousin's staff.

The visitors and local Chaplain staff dined at the Redstone Officers Open Mess last night with Maj. Gen. Charles W. Eifler, Commanding General of the Army Missile Command, and opened the workshop with presentations by Chaplain Riley and Mr. King after dinner.

AIAA Will Meet

The American Institute of Astronautics and Aeronautics will meet at the Redstone Officers Open Mess Jan. 28 at 7 p.m.

Donald M. Ross, deputy director of the Air Force Rocket Propulsion Laboratory, will talk about "Low Cost Launch Vehicle Propulsion."

Bill Lloyd, 876-3552 and R. Wisniewski, 876-8868 have tickets for the meeting.

people on improved agricultural techniques. He has also been stationed in Naples, Italy.

Directorate Cuts Number Of Secret Keepers

Prominently displayed on one wall at the U. S. Army Missile Command is a sign which warns: "The only safe way is to say nothing."

The sign is a constant reminder to missilemen at Redstone Arsenal to "button the lip" about highly classified missile research conducted there.

Now the Missile Command's Research and Engineering Directorate has come up with an idea which promises to strengthen security in another critical area — handling secret documents.

These documents must be readily available when needed but guarded like gold at Fort Knox when not in use. And if the documents aren't enough to cause custodians to have nightmares, records keeping connected with the job will.

To streamline handling of secret documents, the R & E Directorate is centralizing its location of accountability records, instead of having every office maintain its own records. By doing this, R & E is reducing the number of custodians (freeing many of them to re-

turn to other secretarial duties), reducing records keeping, establishing more clear-cut responsibility for records files and, in general, improving efficiency and promoting security.

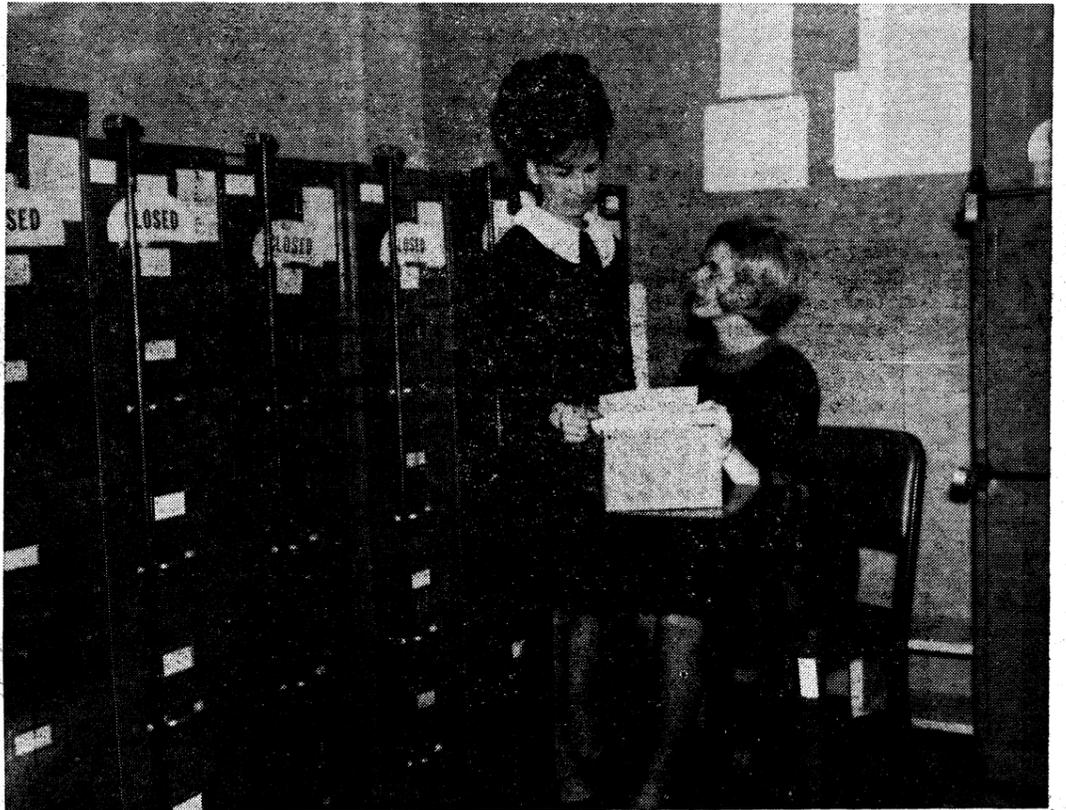

Under the new arrangement, persons requiring access to material can still borrow daily from one of the central locations — returning it by 4 p.m. — or check out the material for 30 days. Each engineer, for example, will be allowed to check out 25 documents, at any one time, over a 30-day period.

This program already has been implemented in the Ground Support Equipment Laboratory.

Until recently GSE lab had several offices of secret material and had 12 different custodians. Now, all secret files are located in the lab's Program Coordination and Administrative Office and there is one custodian.

William E. Whitener is Chief of the Office and Peggy Patterson is full-time custodian.

When the security program is implemented throughout R & E, there will be less than 20 custo-

WE'VE GOT A SECRET!—These two pretty Army secretaries, in fact, have a roomful of secrets (in those cabinets locked and bolted). Here they are chatting about new filing procedures which are being implemented in the Army Missile Command's Research and Engineering Directorate. At left is Helen Gawreluk and seated is Barbara Elliott.

dians, a drop from 98.

Simultaneously with the reductions in custodians will be a corresponding drop in maintaining records of accountability.

For example, every office containing secret documents must maintain a register listing every piece of material—papers, slides, pictures, or what have you. This register must show not only current material but all documents maintained in the office for the preceding year.

Along with the register there

are files of receipts which show at all times where every document is — if it is checked out, where the material is, who is signed for it.

Finally, there are records of destruction which must be kept over a three-year period, showing every document that was destroyed.

Officials in R & E's Program Coordination Office say the new security procedures will be fully implemented later this year.

ROCK 'N ROLL BAND WILL PLAY

A new Rock 'N Roll Band will appear at the Service Club at 8 p.m. for the entertainment of enlisted men.

This musical group was organized in 1967 and is under the direction of John Gaught. The band was in such great demand by civic groups in Huntsville and Decatur that they were given the name of "The Traveling Sounds."

President & Cabinet

Editor's Note

President Richard M. Nixon was sworn into office shortly after noon Monday. Most of us are familiar with photographs of our new Commander-in-Chief, Vice President Spiro Agnew and some members of the new cabinet because of their past public service and last fall's campaign. However, there are some new faces and names in the cabinet. Since these individuals will have important roles in the national life during the months and years to come, the Rocket is running photographs of President Nixon's official family available from Armed Forces Press Service this week so that we may become better acquainted with the leaders of the new administration.

Sentinel, S&M Score Initial Wins

Two quintets made their initial dent in the victory column and another continued along an unscarred road toward the league title in Civilian Welfare Fund basketball play last week.

Sentinel downed the Corps of Engineers, 49-44, on Tuesday and the Supply and Maintenance Directorate had too much for SAM-D, 60-45, on Friday. It was the first victory for each of the winners.

In another Friday evening encounter ICO crushed the Procurement and Production five, 82-40, for the seventh win on an unbeaten string for the defending league champs.

Data Processing handed the Metrology Lab a 54-40 setback and Quality Analysis prevailed by the same score over the G&C Lab in other Tuesday games at the Scruggs St. Community Center. Missile Intelligence made it six out of seven with a 67-59 win over Finance and Accounting in the final Friday game at Joe Bradley School.

Sentinel pulled away from the Engineers late in the final quarter of their game after the score had been tied no less than ten times and the lead changed hands twelve times. The winners had a slim 24-22 lead at the half.

Floyd King topped the Sentinel scorers with 17 and John Clark hit for 12 more. Lou Brock was high for the Engineers with 12, with Bill Fitzgerald getting 11 more.

S&M unleashed a trio of sharpshooters in racing to their first

win at the expense of SAM-D with Hall, DeWeese and Laster taking turns at bombing from the outside. S&M led by ten, 28-18, at the half.

Hall hit on eight of ten shots for 16 points, DeWeese and Laster each hit seven fielders and a charity toss for 15. Smith popped in 20 points for the Missilemen and Bensinger joined in double figures with 10.

Greg Bogue and Bob Hubbard fired ICO to a devastating second half attack that enabled the leaders to more than double the score. P&P had remained in the game during the first two periods, trailing 35-22 at the half.

Bogue upped his individual scoring lead with 25 points and Hubbard tossed in 18 more. Ronnie Phillips hit for 14 points and Jerry Williams 10 more for P&P.

DPO led from the start in dropping the Metrology Lab who were playing without their top point maker, Bob Rice. The winners led 27-19 half way through.

Al Maddox topped DPO with 17, Billy Largen collected 15 and Bishop Arnold got 10 more. Orville Lee, the other half of the high-scoring Metrology Lab duo, tossed in 14 points in the losing cause.

Neil Winterburn led the QA quintet to their seventh win in eight starts with a 19-point production and Don Wood pitched in 12 more. Jerry Dooley bombed the nets for 20 for the Labmen.

Four starters scored in double figures as Missile Intelligence outlasted the Accountants in a hard fought duel. The winners led by a single point, 30-29, at the half, and only 61-59 with a minute to go.

Mel Thomas fired three straight goals in the waning seconds to secure the win and ended with 24 for the game. Scott hit for 15, Powell 14, and Gentry got 11 more. Danny Franklin led the Accountants with 18, Elliott Agee had one less and Elmer Perry collected an even dozen.

Voyager Thrust Aimed At First

The slowly dwindling lead of the Bombers in the AMC League reached a three month low last week as the Voyagers moved to within five lengths of the reeling leaders.

The warmed up second placers cut their deficit by two with a three to one win over the Travelers while the Rejectors were surprising the leaders in taking three of their four points.

Chuck LeMonde stirred up the Rejector coup with a 227 opener and a 561 total while his mates provided the help in overcoming the 553-537 tandem of Bob Brand and Walt Heflin.

Gaylord Huffman kept the Voyager attack rolling with a 576 as the Travellers went down fighting behind the 551 lead set by Jim Watts. Huffman closed out his set with four straight strikes that clinched two points.

The T-Birds got back into contention by sweeping the Tigers and the All-Sports did the same at the expense of the Alley Cats. Howard Roop topped the Birds with 535 and Bill Esslinger paced the Sportsmen with 539.

Joe Brewer put together a 550 total as the Metro-Cals took three from the Spartans, Jim Kyzer led the Sprinters to an upset sweep of the Raiders and Morris Ray was the kingpin for the Winners in their win over the Lancers.

In the final match the Bandits dealt another blow to the sagging Avengers as Paul Mingle cranked out a 536 and Willy Wiggins backed him with 534.

MILITARY CAGERS PLAN 2ND ROUND

The second round of play will be the topic of discussion when coaches and managers of Unit Level basketball teams get together for a meeting at the Service Club this afternoon.

Sgt. Dorf, of the Special Services Office, said that it is important that all league teams be represented for the 3 p.m. meeting. Schedules for the remainder of the season will be distributed.

Big Three Unable To Halt Whackers

The Bushwhackers may not be in front of the Supply and Maintenance bowling league but when they take on the league leaders they sure know how to get the job done.

Twice they have matched strikes and spares with the Renegades on two occasions this season winning six of the eight points to keep the front-runners from making a complete runaway of the race.

Last week the Rens had three bowlers with better totals than any of the Bushwhackers but it went for naught against the determined Whackers with their well-round attack led by Jimmy Likos with 555 and Buck Roberson at 545.

The leaders only lost a single point of their lead despite the blank. George Foster was the top gunner for the Rens with 580, Ray Barter snote a 568 and Bob Adams tossed in a 566.

The runner up Reba Bowling Apparel five ran into another three-man blast put up by the All-Sports Trophies and dropped three points despite a 575 effort shot by D. B. Smith.

Ray Herlston paced the Sportsmen with a 589, Charles Nipper stroked a 559 and Chet Wysocki southpawed a 545 count.

Len Twinem grabbed the League's Bowler of the Week award with a handicapped total of 644 but it wasn't enough to get the Dragons over a single point from the Pin Busters. Howard Helmick and Charles McCleery were the big reasons with 580 and 576, respectively.

Bill Bentley and Ed Gilgenast traded 544 totals as the Chiefs split with Lilly Flagg. The Auto Center won three from the Baker Realtors despite a 561 by Garland Kinslow and the Cracker Jacks blanked Tad's as Jerry Catcher hit for 542 and Chris Leachman totaled 540.

MINOR SPORTS TOURNAMENTS SET

The Post Workout Facility in Building 3474 has started accepting entries for tournament play in handball, squash and paddle ball.

Competition in the three minor sports will start on February 10 with the deadline for entries being Thursday, February 6. Plans call for doubles and singles play in each sport.

All active duty military personnel and retired military personnel in the local vicinity are eligible to compete. First and second place trophies will be awarded in each event.

Photography Class Will Be Taught By Maj. M. Fox

An officer at the Missile and Munitions Center and School will soon begin instruction for 'photo bugs' during his spare time.

Maj. Maurice Fox, chief of Storage and Transportation Branch at Officer Training Dept., will teach a nine-week course in basic black-and-white photography beginning Tuesday, Jan. 28, at 7:30 p.m.

The course, which will cost \$10, includes five classroom lectures and three sessions in the darkroom applying developing and printing principals.

Maj. Fox is vice-president of the Huntsville Photographic Society, which meets monthly to share viewpoints, hold critique sessions, hear guest speakers, and judge competition.

Members of the local club can take the upcoming course at half price; or \$5 will pay membership fees for anyone taking the course and wishing to join the organization.

More detailed information about the nature of the course is available through Maj. Fox by phoning 837-6991 after duty hours.

Veterans Entitled to Educational Aid

WASHINGTON (ANF) — The Veterans Administration (VA) reminds veterans separated from service after Jan. 31, 1955, that they now are entitled to one and one-half months of educational assistance — up to a maximum of 36 months — for each month of military service.

A law that became effective in December liberalized the Post-Korean G.I. Bill limit of one month of educational assistance for each month of service for veterans with at least 181 days of service, including some after Jan. 31, 1955.

The VA especially urges Post-Korean veterans who did not return to school because they could complete only a couple of years of college under the old formula of one month entitlement for each month of service to contact their nearest VA office.

HUNTERS BAG FIVE DEER

Arsenal hunters settled some scores with the deer herd in a special two day extension to the regular season making the 1968-69 big game hunt the most successful ever held on the post.

Five bucks were taken in the special hunt during the weekend of 11-12 January according to Sp5 William Ferguson, deputy game warden. During the regular Arsenal deer season held during late November and early December, hunters failed to down a single animal.

Last year when deer were legal game here for the first time, three bucks were taken.

Since the season closed last week, two additional bucks have been killed by motor vehicles on the post.

Successful hunters this year included:

Donald Howard, who downed a spike buck; James Cheatwood, a seven pointer; D. L. Carroll, a three pointer; Neil R. Raanft, a three pointer and Arnold D. DeGeorge, an eight pointer.

NOT HUNTING

A Chrysler employee, Robert C. Boyd, believes Redstone Arsenal signs that say: "Deer Crossing."

Boyd was driving West on Martin Road last week when a 150-pound buck leaped another vehicle and landed on the hood of his car.

The deer was killed instantly. Damages to Boyd's car were estimated at several hundred dollars.

This was the second deer killed on post by motorists last week. Ironically, only five were killed during regular season hunting which ended January 13.

Sgt. Maj. Of Army Talks At AUSA Meeting

Whatever the U.S. Army is called upon to do, it will respond.

Sergeant Major of the Army George W. Dunaway said this during an address to the Tennessee Valley Chapter, Association of the U.S. Army last Thursday Night.

The Army's top enlisted man, just back from a fact finding mission among the troops in Europe, said the time is approaching when the war in Vietnam may be over.

"But, the world is filled with trouble spots," he said, "and the Army must be ready to respond wherever it is needed."

The Army Chief of Staff's direct liaison with troops in the field briefly reviewed the fighting in Vietnam where he has served two tours of duty.

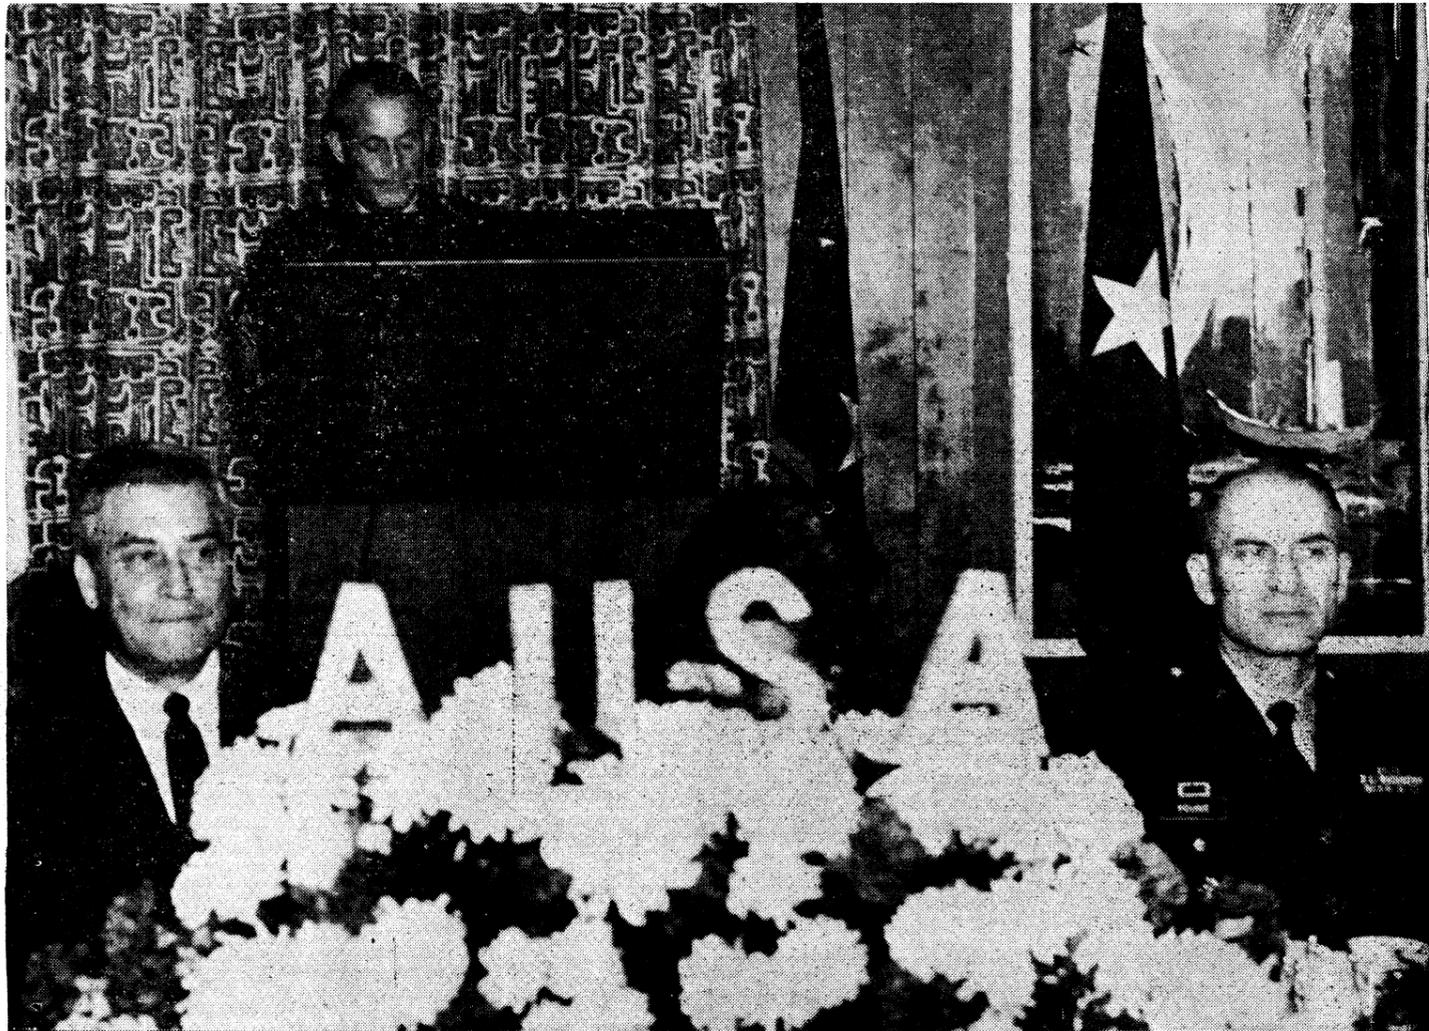

He said that in most of the nation's wars the United States had earned the reputation of always being a winner, combat had been conventional.

Vietnam, he said, has been a battlefield with fronts on all sides and that it had been necessary to change our concept of operations from that of advising and assisting another Army to that of building and supporting large units of our own for sustained combat.

Sergeant Major Dunaway said that military objectives have been accomplished in Vietnam and that the enemy has been forced to the peace table. He said the U.S. Army had suffered heavy losses but that the enemy losses were several times more than ours.

He cited professional leadership as the basic means the U.S. Army used in accomplishing its missions.

(Continued on Page 9)

Sgt. Maj. of the Army George Dunaway (at podium) addresses Tennessee Valley Chapter membership. Walter Igenbrod (left), first vice president, and Brig. Gen. Robert P. Young are shown in the foreground.

Command Sgt. Maj. William P. Ansick, MMCS, leads Sgt. Maj. of the Army George Dunaway into headquarters to begin series of briefings.

SGT. MAJ. of the Army George Dunaway (center) and Mrs. Dunaway chat with Maj. Gen. Charles W. Eifler during AUSA meeting.

Command Sgt. Maj. Ansick, MMCS, presents traditional swagger stick as gift of senior NCO's at school to Sgt. Maj. of the Army George Dunaway.

average of 88.9. The course included two German sergeants. Honor graduate in the Sergeant missile repair course was Pfc. John R. Lieb with an average of 85.8.

Five Classes Graduate From Missiles, Munitions Courses At Center, School

The first graduation of 1969 at the Army Missile and Munitions Center and School saw 48 graduates of five different courses receive their diplomas Friday morning in the post theatre.

The graduates, all enlisted men, were addressed by Capt. Robert A. Loy, commanding officer of the 522nd Ordnance Company at MMCS. Capt. Loy is a former honor graduate and instructor at MMCS who spent eight years as an enlisted man before earning his commission in 1966.

A Huntsville soldier, SP4 William D. McLendon, the son of Mr. and Mrs. William L. McLendon of 2102 Conway Drive, was among the graduates.

Capt. Loy mentioned the extensive practical exercises the students completed during their courses, and said that "one of the most tedious practical exercises I can think of is Vietnam," where often mistakes can mean the loss of life. He cautioned the students to apply the principals learned at MMCS when they go out into the field for their assignments.

He told the graduates of the necessity for producing dependable work and mentioned that the "man who fires missiles and ammunition depends on you."

He compared the trust that the Apollo 8 astronauts placed in their crew to the trust that artillerymen must be able to place in missile repairmen and ammunition crews.

Heading the graduates with an average of 98.8 in ammunition records was Pvt. Robert H. Baker Jr. of Atlanta, Ga. Baker received a plaque given by the Tennessee Valley Chapter of the Association of the United States Army to every graduate with an average of 96.0 or higher.

Pvt. David G. Gundlach of Everett, Wash., led the ballistic missile repair helper course with an average of 91.8. Pfc. Melvin M. McGhee of Richmond, Va., was top man in the Hawk missile pulse radar repair class, scoring 91.3 as a final average.

Pfc. Lawrence W. Baggett of Colorado Springs, Colo., topped his missile repair course with an

Sgt. Maj. of Army George Dunaway, accompanied by all senior NCO's of MMCS, gets a rundown on what Missile Components Dept. teaches future missile troubleshooters at MMCS.

Master Sgt. Lawrence Vultaggio, chief instructor in Radar and Transistor Branch, explains a schematic of a multistage printed circuit board to Sgt. Maj. of the Army George Dunaway.

Sgt. Maj. of the Army George Dunaway runs a test himself, checking the output of a printed circuit on the transistor trainer designed and built by members of Missile Components Dept.

SGT. MAJ. OF ARMY TALKS

(Continued From Page 8)

He added, "Our Army is a changing Army in a changing society and will meet the challenges of tomorrow."

Prior to Sergeant Major Dunaway's address the Tennessee Valley Chapter of AUSA presented the Redstone Arsenal Non-Commissioned Officers Open Mess with

a podium in appreciation of the support the Open Mess has given the chapter.

The presentation was made by Missile Command Sergeant Major John W. Monger, a member of the chapter's board of directors, and accepted by Sergeant Major Roy White, president of the Redstone Non-Commissioned Officers Open Mess board of governors.

Another feature of the program was the presentation of appreciation awards from the chapter to Department of the Army civilians who have served volunteer tours of duty in Vietnam. These were made by Walter Igenbrod, first vice president, who presided.

Sergeant Major Dunaway arrived at Redstone Arsenal Thursday morning. During the afternoon he toured Arsenal facilities and was briefed on Army activities here. Friday morning he met with senior non-commissioned officers on post and toured the Army Missile and Munitions Center and school.

We like him.

There is a special kind of man who comes to the Dale Carnegie Course.

He comes on his own.

He's not part of a company group, not a member of any executive-training class.

He comes because he's learned that even a college education, job experience and well-developed skills won't necessarily get him the position he wants in life.

He has developed a curiosity about himself and others. He wants to know

what his real abilities are, how they can be developed—and how he can get along best with other people.

This is the kind of man who relies on his own determination to achieve, rather than merely **hoping** he may someday make his goals.

You might say this kind of man doesn't **need** the Dale Carnegie Course.

But he's invariably the one who gets the most out of it.

MISSILE & MUNITIONS CENTER & SCHOOL
NAMES IN THE NEWS
 by SP5 Mike McKenzie

Two new commanders have been assigned in School Brigade. Capt. Martin W. Miller, Jr., has taken over Headquarters Company and 1st Lt. Herbert W. Benedict is now in charge of Co. B.

CAPT. MILLER

Capt. Miller has been serving in S-1 at Brigade Headquarters. He is a veteran of Vietnam service, wearing the Bronze Star and Purple Heart. Capt. Miller is a mathematician and ROTC graduate of Indiana University of Pennsylvania replacing Capt. George P. Chavez. Lt. Benedict moves into 'Bravo' following duty in Korea with the 72nd Armor, 2nd Infantry Division. He was a platoon leader, Redeye missile section leader, and S-2. He replaces Lt. Peter Hook, who is in Valley Forge, Pa., military hospital recuperating from a broken leg suffered while playing with the 1st Bn. football team this fall.

An Army Commendation Medal was presented to Sfc. (Retired) Robert A. Burke of Company B in an awards ceremony at 1st Battalion. He formerly worked in the Office of Doctrine and New Ma-

teriel. Others recognized at the formation included:

SP6 Eugene Boney, Co. C. certificate of achievement, Nike Acquisition and Computer Branch. Master Sgt. Chester Potter, Co. D., suggestion award, Land Combat Dept.

SP4 Dennis Wood, Co. B, MMCS soldier of the month, Missile Components Department.

CP4 George Delano, Co. D, Battalion soldier of the month, Pershing Division.

Company B. (Lt. Benedict, 1st Sgt. Walter W. Dukes), Commander's trophy for excellence in sports activities and recreation.

Company C (1st Lt. Ronald C. Hale, 1st Sgt. Franklin T. Holmes), Battalion honor company.

In 2nd Battalion, monthly awards were abbreviated because the students were gone most of December during the holiday break.

Presentations were made to: PFC Philip Riley, 7th ETC, Battalion soldier of the month, Hawk continuous wave radar student.

LT. H. W. BENEDICT

X-O COMMISSIONS SON—Lt. Larry Levaas (center) receives his gold bars on graduation day at Penn State from his parents, Lt. Col. and Mrs. John Levaas. Col. Levaas is executive officer of MMCS.

1st Sgt. Lawson Archer, 4th ETC, most valuable player on company (1st and 4th ETC's combined) flag football team.

4th ETC (2nd Lt. M. L. Tomlinson, 1st Sgt. Archer), trophy for highest percentage participation in blood donor program.

Lt. Col. John B. Levaas, executive officer of MMCS, and his wife recently had the privilege of seeing their son commissioned in the Regular Army at his commencement exercises at Penn State University.

2nd Lt. Larry M. Levaas received a degree in business administration and was distinguished military graduate from his ROTC group of 55. He is now attending the basic officer Armor course at Ft. Knox, Ky.

When that is finished, he will head for Airborne training at Ft. Bragg, Ranger training at Ft. Benning, then assignment in Europe.

Results have been posted from the semi-annual Physical Combat Proficiency Test (PCPT), and a two-foot high gold loving cup for 1st place has been awarded by School Brigade to the 7th ETC.

The rotating prize went to the 7th for a score of 416.88, slightly ahead of the 5th ETC's 416.15 score. Rounding out the standings were: 1st ETC (407.58), 4th ETC (406), 3rd ETC (390.78), 8th ETC (389.57), 9th ETC (388.2), 6th ETC (383.12), Headquarters Co. (380.98), Co. A (377.34), 2nd ETC (374.18), Co. B (374.12), Co. C (372.95), Co. D (372.94), and Student Officer

Other Names in the News:

SP5 Roger Devole, Redeye, was named instructor of the quarter and SP5 Kerry Steeno, Shillelagh, instructor of the month in Land Combat Dept. Reenlistments — Master Sgt. Henry Davis, Co. C,

Hawk Fire Control; SFC J. B. Deason, Co. D, steward of Mess No. 1 now departed for an advanced food supervisor course at Ft. Lee; Staff Sgt. Kenneth Reisinweber, Headquarters Co., Unit Training Command. Promotions—Capt. John Cool, Capt. Stafford Baugham, Lt. Richard Coote, Lt. Gerald Crocker, Lt. Elrie Freeman, Lt. James Carpenter, SFC Arnold Knight, SFC Roger Young, and SFC Hans Weber.

ANNUAL AWARD SET FOR TOP HANDICAPPED FEDERAL EMPLOYEE

A new award has been established for the annual selection of an Outstanding Handicapped Federal Employee of the Year. It was developed and recommended to the Civil Service Commission by a task force of the Interagency Advisory Group Committee on Selective Placement.

The new award has been established by CSC to recognize individual achievements and, by publicizing them, to increase awareness of the contributions being made by the handicapped in the Federal service. Recipients are to be chosen from nominations made by agencies.

An agency may nominate one employee each year but no individual is to be nominated two years in succession. Nominees must meet the following criteria:

—Job performance clearly exceeding requirements in spite of severely limiting physical factors.

—Courage and initiative in overcoming handicaps that served as an inspiration to others and resulted in a positive influence toward opening opportunities for handicapped persons in the Federal service.

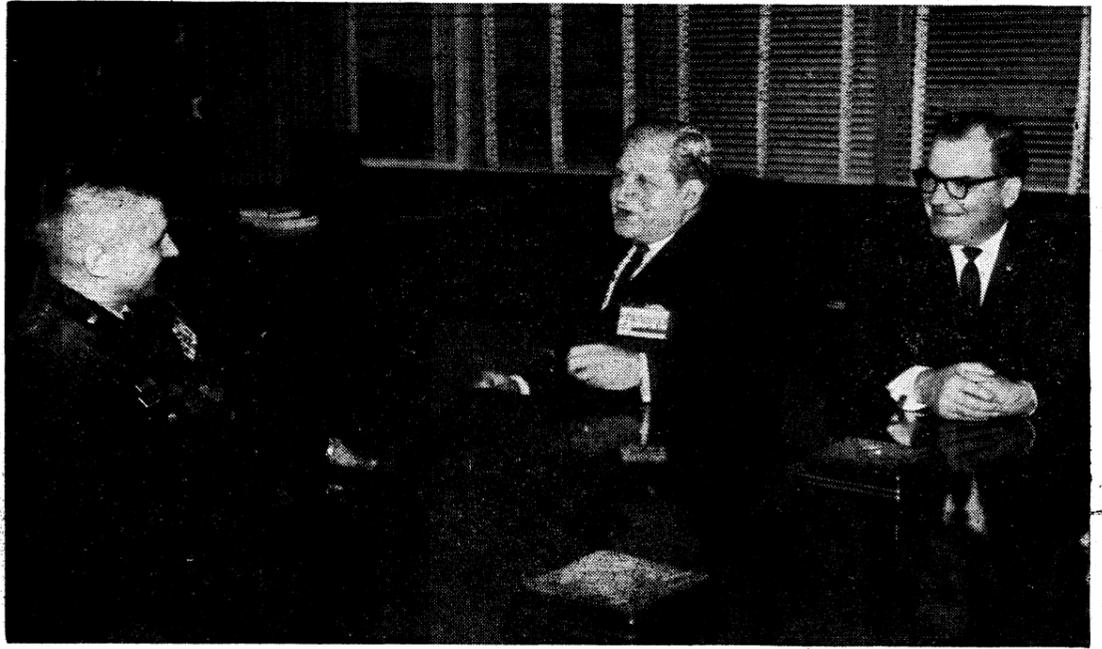

A committee will select ten finalists from all agency nominees from whom the Outstanding Handicapped Federal Employee of the Year will be chosen. This committee will include the Director of Selective Placement Programs and Medical Director, both of the U.S. Civil Service Commission, and two agency personnel directors.

Selection of the Outstanding Handicapped Federal Employee of the Year from among the ten finalists will be made by a committee of key government and non-government officials. All ten

finalists will be honored at an appropriate ceremony in March of each year in Washington, D.C. The Outstanding Handicapped Federal Employee of the Year will be awarded a plaque and the other finalists will receive certificates.

Nominations should be forwarded to the Director of Selective Placement Programs, U.S. Civil Service Commission, 1900 E Street, N.W., Washington, D.C. 20415 by January 1 of each year.

Departments and agencies are encouraged to develop agency awards, the winners of which would be likely nominees for Outstanding Handicapped Federal Employee of the Year. Such agency award plans would also lend themselves to the identification of candidates for nomination, through local organizations, for the Handicapped American of the Year Award given by the President's Committee on Employment of the Handicapped.

PERSONNEL TALK, NO DOUBT—Ludwig J. Andolsek (center), vice chairman of the Civil Service Commission, Maj. Gen. Charles W. Eifler, Commanding General of the Army Missile Command, and Dennis Garrison, 5th Regional vice president of the American Federation of Government Employees, enjoyed a few minutes of informal talk the past week during Andolsek's visit to Redstone Arsenal. He was in Huntsville as guest speaker for the annual meeting of Lodge 1858, AFGE.

Thiokol Announces Two Changes In Management

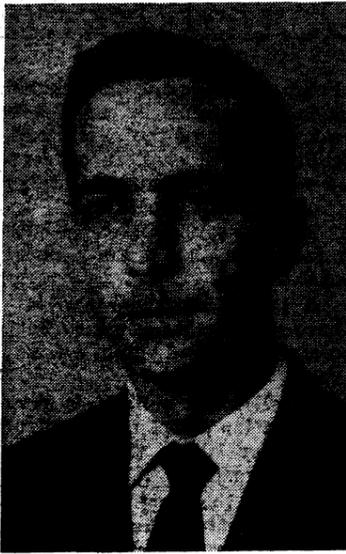

John H. Goodloe, General Manager, has announced appointment of R. D. Franklin as Manager, Research and Development, at Thiokol Chemical Corporation, Huntsville Division. W. C. Smith will succeed Franklin as Project Director.

Franklin replaces Dr. T. A. Neely who is transferring to Thiokol's Georgia Division in Camden County, Ga.

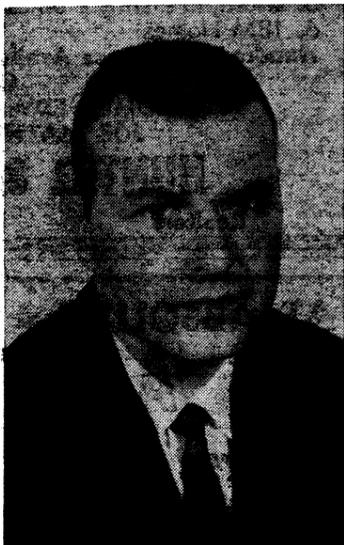

A native of Arkansas, Franklin received his BS in Mechanical Engineering from the University of Arkansas. Since joining Thiokol in 1955, he has served in various capacities—most recently as Project Director responsible for many motor development programs including the Spartan motors for the Sentinel System.

Smith attended Texas Christian and received his BS in Mechanical Engineering from Auburn University. Since 1957, he has worked on a wide variety of motor development programs at Thiokol's Huntsville Division, and he leaves the position of Program Manager in which he was responsible for management of several current development programs.

R. C. McCauley, a graduate of Auburn University with a BS in Chemical Engineering will succeed Smith as Program Manager. His most recent assignment with the Division was as Associate Program Manager for Basic Research and Special Projects.

Post Dentists Participate In National Children's Dental Health Week

February 2-8 is the 21st annual National Children's Dental Health Week. As part of the observance, the Redstone Rocket, in cooperation with the Preventive Dentistry section at Redstone Arsenal, today begins a series of four articles on facts you should know about dental health.

A lot of newspaper stories have said tooth decay may be completely cured within a few years. Is this true?

Generally, the outlook is very optimistic for complete control of tooth decay within the next ten to twenty years.

One of the most promising studies involves the use of a specific enzyme. Apparently, this enzyme attacks a product of the specific streptococci that are associated with caries or decay.

This product is involved in the

formation of dental plaque or calculus. Plaques is one of the most important considerations in decay formation, because it adheres to the teeth and provides a nest for the bacteria which produce the acids that attack the teeth.

Thus, by causing a breakdown of the plaque, we may significantly reduce caries.

Also, fluorides, as you know, have proven highly effective and safe in preventing caries. Countless studies show that children who drink fluoridated water from birth will have as much as 65 per cent less decay than children who do not have the benefits of fluoridation. However, today, the best

way to prevent decay is to observe the four dental health rules:

1. Cut down on sweets.
2. Always brush your teeth immediately after eating.
3. Visit your dentist regularly.
4. Drink fluoridated water.

The average temperature in the Antarctic is 35 degrees colder than the average temperature in the Arctic.

The plateau that covers most of the continent of Antarctica is the world's largest and driest desert. For example, at the South Pole, annual precipitation amounts to less than 2 inches. By comparison Phoenix, Ariz., in one of the driest parts of the United States, has an annual rainfall of 7.2 inches.

AT ABSOLUTE AUCTION
Thurs., Jan. 23 at 10:15 1/4 A.M.
The lovely 10 room and 3 bath home on large lot, antiques and household furnishings belonging to Bryan Pigg Estate. Located at 314 South First Street next to U.S. Post Office at Pulaski, Tennessee, just across from Windsor Village.
THE HOME
This lovely 10 room home with 3 baths is in excellent repair. It has 3 bedrooms, kitchen, dining room, living room, 2 baths, a small sewing room or office downstairs and 3 large bedrooms and bath upstairs. The lot fronts 85' on South First Street and is 82 1/2' deep. There is a paved alley on the north side between this property and the U. S. Post Office. The lot is zoned intermediate business and is one of the finest commercial lots left in Pulaski. This is an excellent location right at the crossroads of Highway 31 and 64. It can be used as residential property or for any kind of business. The home is of brick construction. The front lawn is well sodded and has beautiful shade and shrubbery. There is also a hedge and flowers around the entire front. The house has a large front porch and a side porch, partly screened. This is one of the finest homes ever sold at auction in Giles County. The property is within walking distance of churches, stores and the Square.

COMPUTER TALK—Discussing ease of maintenance of improved programmer test station for the Pershing missile system are Dr. Samuel Seely, visiting consultant to the Army Missile Command (seated) and Bruce Hagerdon, Army Inertial Guidance and Control Lab and Center, Research and Engineering Directorate, Army Missile Command. Dr. Seely, on the staff of the Electrical Engineering Department of the University of Massachusetts, was here to discuss certain electromagnetic and other electronic problems.

Procurement Course Ends At Alabama A&M College

Officials from the Army Missile Command Procurement and Production Directorate have just concluded a series of presentations at Alabama A&M College on "How We Do Business in the Directorate."

The meetings, held once a week for 10 weeks, were attended by students from the college's business administration department. The Army procurement officials volunteered their time for the program and the students attended on a voluntary basis.

The intent of the project was to explain various aspects of procure-

ment to the students and encourage them to consider this field for their careers.

Both the Army and the college students had an opportunity to benefit from this informal procurement course. The Army hopes to raise the competence level of prospective employees and broaden the area from which new employees might be recruited.

The students learned how procurement business is conducted, and gained an insight into a field not normally covered in great detail by their regular business administration courses.

AT AUCTION

COMPLETE LIQUIDATION SALE OF RAY LUMBER

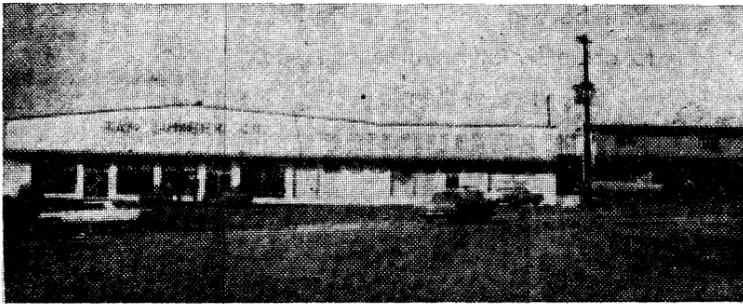

COMPANY, INC., HUNTSVILLE, ALABAMA

MONDAY, JANUARY 27, TUESDAY, JANUARY 28, WEDNESDAY, JANUARY 29 AND THURSDAY, JANUARY 30 IF NECESSARY. SALE WILL BEGIN EACH DAY AT 10:03 1/16 A.M. AND EACH NIGHT AT 6:33 1/16 P.M. LOCATED 902 BOB WALLACE AVE.

REAL ESTATE WILL SELL TUESDAY, JANUARY 28 AT 1:03 29/30 P.M. THE COMPLETE LIQUIDATION INCLUDES THE 24,000 SQ. FT. BUILDING NOW BEING USED BY RAY LUMBER CO., INC., TWO OFFICE BUILDINGS, 6 OFFICES COMPLETE WITH TWO BATHS, THE OTHER 4 OFFICES WITH BATH. 6 ROOM HOME WITH BATH, LARGE WAREHOUSE, \$100,000 STOCK OF HARDWARE, LUMBER, OFFICE FURNITURE, TRUCKS, PAINT, SHOP TOOLS AND OTHER ARTICLES TOO NUMEROUS TO MENTION.

REAL ESTATE

● Will Sell Jan. 28, 1:03 29/30 P.M. ●

TRACT NO. 1: Is the main tract now housing Ray Lumber Company 24,000 sq. ft. building. The lot fronts 105' on Bob Wallace Avenue and goes back 350' to Railroad Spur Track. The building has modern glass front and is now being used as showroom. It has tile floors, central heat and air with two 10 ton air conditioners. There is a large steel building for warehouse. Has large paneled offices and large walk in fireproof safe. The building also has a large department that is separate from the main showroom. It can be rented and used as a separate business if the buyer so desired. The large warehouse adjoining the showroom has concrete floor throughout. This property could be used for super market, warehouse, automobile agency or any other kind of business. The front is paved for parking. This is one of the finest locations just off Memorial Parkway you can find in the Rocket City of Huntsville. Has concrete loading chute on spur tract.

TRACT NO. 2: Is one of the neatest office buildings you will find anywhere. There are 6 modern offices on lot with 53' frontage and 140' deep. The building has two modern rest rooms, central heat and air with 7 1/2 ton air conditioner and heat pump. All the offices are paneled and the entire building is in excellent repair. It is now renting for \$360 per month.

TRACT NO. 3: Is a large modern office building with extra lot for parking. The lot fronts 107' on Bob Wallace Avenue and goes back about 140' deep. Has large parking area at the front, side and rear. There are four paneled offices and four rest rooms in the building. All are in excellent repair. It has central heat and air. Rents for \$450.00.

TRACT NO. 4: Has the large warehouse, 60' x 260', 15,600 sq. ft., about 300' on the Main Line Railroad, 296' on a Railroad Spur Track. The large warehouse has concrete floor. It is a frame building in excellent condition. This is an excellent piece of light industry property. We are selling only the real estate and not the concrete mixing plant on the tract. Rented \$125 per month.

TRACT NO. 5: Has a garage building, 60' x 56', constructed of concrete and brick, with concrete floor. Has approximately 260' on the Main Line Railroad and has access to and frontage on Bob Wallace Avenue. This property is renting for \$325 per month.

TRACT NO. 6: Has 6 room home and bath, 60' frontage on Bob Wallace Avenue and approximately 560' deep. This property is renting for \$40 per month.

If the property sells separately, an abstract title will be furnished each purchaser for each tract. If it sells as a whole, the title will be furnished on the property as a whole. There is no if on this property, whatsoever. It will be sold to the highest and best bidder.

THE PROPERTY WILL BE SOLD SEPARATELY, IN COMBINATIONS AND AS A WHOLE; THE HIGHEST PRICE WILL DETERMINE THE SALE.

This property is now rented for \$1,300 per month not including Ray Lumber Company. With the rent that has been offered Ray Lumber Company, the potential rental for this property is \$4,000 to \$5,000 per month.

This is an excellent piece of property for investors. These buildings have been rented nearly 100% since they opened. We think this is one of the finest opportunities for anyone to invest in real estate in the Rocket City of Huntsville.

TERMS ON REAL ESTATE: 25% down sale day, balance on or before 30 days. Money will be put in Escrow Account until buyer receives abstract title.

FREE—FREE—Door Prizes On Each Sale And \$50 Cash Each Day And An Extra Prize On the Day Real Estate is Sold. FREE—FREE—NOTHING TO BUY.
