**LET'S HAVE MUSIC**—Mrs. H. E. Miller, Co-chairman of Huntsville's "Operation We Care" receives recordings of "Goodbye Vietnam" from Jimmy Hydrick, country music recording artist. The records are to be sent by "Operation We Care" to staff members and patients of the 93rd Army Evacuation Hospital in Vietnam, the hospital adopted by the citizens of Huntsville and Madison County. Hydrick composed "Goodbye Vietnam" at the time his brother, who previously had been wounded in action, wrote to tell the family of his return to the States. The record has just been released. Hydrick is a Huntsville resident.

## AUSA To Install Officers At Annual Meeting July 9

The Tennessee Valley Chapter, Association of the U. S. Army, will hold its annual meeting for installation of new officers Wednesday evening July 9, in the ballroom of the Redstone Officers Open Mess.

In making the announcement Brig. Gen. Robert B. Spragins, incumbent chapter president, disclosed names of newly elected officers for 1969-70. They are:

Walter F. Eigenbrod, Huntsville attorney, president; William P. Burnett, Army Missile Command, first vice president; Edward D.

Mohlere, Marshall Space Flight Center, second vice president; Herbert E. Meyer, Sperry Rand Corp., secretary; John W. Monger, Alabama Space and Rocket Center, treasurer.

Members of the board of directors named by the results of written balloting of chapter members are:

Dolly Flowers, Army Missile Command; Tom D. Johnson, North Alabama Industrial Development Association, Decatur; J. J. Weed, State National Bank, Huntsville; (See AUSA on Page 2)

## Army Awards \$1.3 Million

The Army Missile Command has awarded a \$1.3 million contract to Applied Devices Corporation, College Point, N.Y., for production of modification kits to the Improved Hawk simulator.

The work will be performed at College Point.

Hawk is a highly mobile member of the Army's air defense arsenal of missiles, capable of intercepting high performance aircraft and air-breathing guided missiles at low altitudes. The weapon system is in operation with Army and Marine Corps units in the United States and overseas.

Technical supervision of Hawk is from the Army Missile Command where Col. John G. Redmon is Hawk Project Manager.

Contract negotiations were conducted by the Procurement and Production Directorate.

## COL. KIRKPATRICK RECEIVES EAGLES

The rank became full colonel for Monroe Kirkpatrick Monday during promotion ceremonies at Army Safeguard Logistic Command Headquarters in Research Park.

The official pinning of the eagles was performed by Col. C. W. Hospelhorn, SAFLOG Commanding Officer, assisted in Army tradition by Mrs. Kirkpatrick.

Col. Kirkpatrick is currently carrying two duty assignments in SAFLOG. He is director of both Personnel and Training, and Installations and Services. He has been with the Command since January of this year.

Prior to coming to Huntsville, he was assigned to Headquarters, U. S. Army Materiel Command, Washington.

## Local Firm Wins TOW Range Award

### Personnel Expects 650 Summer Employees Here

Three summer employment programs expected to attract more than 650 workers are getting under way at the U.S. Army Missile Command.

A graduate, faculty and undergraduate program expected to have 140 participants will begin on July 1 and will be completed in September when participants return to their colleges and universities.

An additional 100 temporary clerical employees are also expected to be hired by the Missile Command beginning July 1.

A total of 400 high school students—ages 16 to 21—will be taking part in the Federal Summer Employment Program for Youth, already under way at the Missile Command. All but a half dozen of these students were already working by June 18. Participants in this program, called "Summer AIDS", come from a number of States, but most are from Huntsville and Madison County.

An orientation for AID employees will be held in the Rocket Auditorium this morning, with a welcome from Maj. Gen. Charles W. Eifler, Commanding General, Army Missile Command.

John Hinkle, Chief, Training and Development Division, Civilian Personnel Office, will introduce AID employees to Col. W. F. Kaiser, Chief of Staff; Col. M. D. Hendricks, Deputy Director, Arsenal Support Operations Directorate; and Jack N. McConaha, Civilian Personnel Officer.

Leroy Daniels, Personnel Staffing Specialist, Civilian Personnel Office, will describe the AID Program—how it operates, what employees can expect, and what can be expected from employees. (See PERSONNEL on Page 2)

The Army Corps of Engineers at Mobile has awarded a \$406,987 contract to the Harold Construction Corporation of Huntsville for improvements of a range at Redstone Arsenal to conduct tests with TOW anti-tank missiles.

When modifications are completed in January 1970, the range will be available to the Army for production acceptance tests of TOW missiles.

TOW is the Army's new tank killer which can destroy armor or field fortifications. The weapon system is managed by the Army Missile Command under Lt. Col. Robert W. Huntzinger, Project Manager.

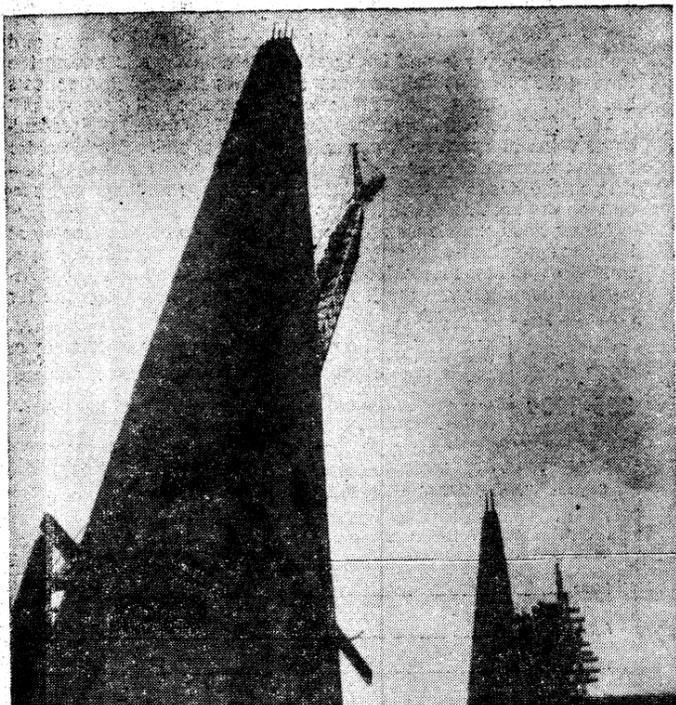

Improvements to the range will include the construction of a reinforced concrete blockhouse containing about 1,600 square feet of floor space; a small shop building and small engineering support building of prefabricated metal on concrete floor slabs; a service magazine with loading dock, a pump house, and a sewage pumping station of concrete masonry units; considerable paving, including 12 camera pads; utilities; and a chain link fence.

The Corps of Engineers sent advance notices soliciting bids to 132 contractors and material suppliers, furnished plans and specifications on request to 5 prime contractors and 37 subcontractors and material suppliers, and received 4 bids. This contract was set aside for award to a small business concern.

### International Visitors Council Gets Award

The Huntsville Council for International Visitors received official commendation from the Third U. S. Army yesterday for its continuing hospitality for foreign students and visitors to this area.

Ezell Terry, president of the local volunteer organization, received the Third Army certificate of appreciation, signed by Lt. Gen. J. (See VISITORS on Page 2)

**CONCRETE MISSILE? TEST STAND? No—** missile related. See story on page 10.

**THIS CALLS FOR CELEBRATION**—Col. A. G. Lange, Jr., Sergeant Project Manager, and Mrs. Lange cut cake for friends and well-wishers during a recent promotion ceremony at the Army Missile Command in which he was promoted to full colonel. Col. Lange is to be reassigned to Vietnam.

# The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the information Office, Army Missile Command, Redstone Arsenal, Ala., 35809, Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is 10 a.m. Monday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$7.42 a year, or \$4.00 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

## Rocket Ruminations

It takes great skill to conceal one's skill.  
—Francois, Duc de la Rochefoucauld

## Education Is Vital

For many years the labor movement in the United States has insisted that every American boy and girl should have the right to as high a degree of education as he or she is capable of.

Around the turn of the century this meant eight years of elementary school with a diploma as the passport to a decent job.

In the past few decades the elementary school diploma as the necessary passport escalated to a high school diploma, representing 12 years of schooling.

Now there are increasing signs that a limited college education and ultimately a college diploma will be the basic requirement when a young man or woman goes job hunting.

Attainment of a higher and higher level of education as the necessary goal of young Americans seeking the many more desirable and lucrative jobs is not simply a romantic concept based on social justice and democratic principles. Hard statistics compiled by the U.S. Department of Labor reveal that while a high school diploma is

generally a minimum requirement for a job, attainment of some degree of college education is rapidly becoming a "must".

Educational qualifications, in an ever increasing variety of jobs, are steadily rising. For instance, two years of college training is now required for nurses, bookkeepers, accounting clerks, certain types of mechanics, policemen, surveyors, draftsmen, watch repairers and laboratory technicians. Four years of college are required for insurance actuaries, auditors, accountants, industrial engineers and dieticians.

As industrial life becomes more complex, educational standards are being forced upwards. In a study published in the current issue of the Monthly Labor Review, economist Elizabeth Waldman reports that as of March 1968, five out of eight American workers 18 years and older had finished at least four years of high school. One out of five young workers completed college.

"This all time high level of educational attainment is the result of an uninterrupted educational upgrading of the work force for the past decade and a half," Miss Waldman wrote.

With this trend in the labor field today, now is the time to start thinking about improving your job potential. Don't wait until your military career draws to a close. See your education officer today.

Education is a vital necessity. (AFPS)

(Continued From Page 1)

and Karl A. Woltersdorf, General Computers Services.

Hold over directors will be: K. W. Slayden, Brown Engineering; Paul K. Schaeppi, Army Missile Command; Charles K. Sparks, Army Missile Command; Tom G. Thrasher, Shell Oil Distributor; Clinton Grace, International Business Machines; C. C. Lee, Thiokol Chemical Corporation; Gregory S. Moshkoff, Army Missile Command; and Dr. Walter Y. Walker.

Past presidents, in addition to Spragins, who will serve on the Board of directors are:

William T. Weissinger, III, Chrysler Corporation, and Dr. Frederik S. Schultz, General Electric.

Spragins pointed out that Mrs. Flowers was the first woman to be elected to the board of directors in the 10 year history of the chapter which recently chalked up its most successful membership campaign, topping 4500.

Department of the Army women employees of the Missile Command in the final days of the campaign, following a spontaneous dutch treat luncheon, reported their membership in excess of 750 and are claiming top woman chapter membership nationally.

The retiring president said this year's annual meeting would not feature an out-of-town speaker but would honor a local chapter member who has made significant contributions to Army activities at Redstone Arsenal and in Huntsville.

He added that details on the program and ticket sales would be announced as soon as plans were confirmed.

## VISITORS

(Continued From Page 1)

L. Throckmorton, Commanding General, in a brief ceremony during the monthly meeting of the HCIV board of directors at the Madison County Court House.

The presentation was made by Col. Paul B. Schuppener, Commandant of the Army Missile and Munitions Center and School, an element of the Third Army. He pointed out that the Council's volunteer host family program, administered by Mrs. Harriet Leech, its executive secretary, in cooperation with the MMCS Foreign Liaison Office, has enabled hundreds of foreign students and their families to gain first-hand knowledge of the American way of life by being included in formal and informal social and recreational activities of local residents. The Council also provided entertainment for foreign visitors to the various Army commands here and the Marshall Space Flight Center.

## PERSONNEL

(Continued From Page 1)

Counseling services available to AID employees will be described by Mrs. Rae Sykes, AID Counselor, followed by briefings on health, safety, and fire prevention by Occupational Health Services; Safety Office, and Fire Prevention & Protection Division.

Guidance sessions for AID's will be conducted throughout the summer. These sessions will feature speakers on various subjects including jobs in the 1970's; how to succeed on your first job; and how to manage money.

The summer hire programs are administered by the Missile Command's Civilian Personnel Office. Coordinator of the Summer AID's program is W. R. Blackard. Miss Mable Romine coordinates the graduate, faculty, undergraduate and high school program and other summer hire programs at the Missile Command.

# Graduation This Week Set In Toftoy Hall

Friday morning's 64 graduates of the Army Missile and Munitions Center and School were welcomed by the guest speaker into their "first real job in the Army."

Lt. Col. James Williams, Chief of the Ammunitions Department at MMCS, spoke to the four graduating missile and ammunition classes during commencement ceremonies held in the Post Theater.

"I welcome you to that well discussed field that you have been hearing so much about throughout your course. The doors to your career field are wide open, and it's your challenge," he stressed to the graduates which included students from Germany and Japan.

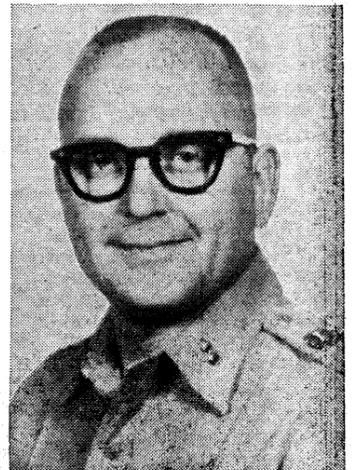

LTC Williams recommended three basic principals—discipline, initiative and perfection—to guide the new ammunition and missilemen in their respective jobs.

A Michigan soldier, Pvt. William L. Rye, topped all graduates in an ammunition storage course with an overall grade average of 96.1. Private Rye also received a plaque from the Association of the U. S. Army AUSA for achieving a grade average of 96 or above.

Other honor graduates included German Staff Sergeant Han-Joachim Zuefle in a Nike repair course, Pfc. Thomas F. Sowell, Jr. in a Hawk Fire Control course and

One-tenth of an ounce of uranium generated the first atomic bomb explosion.

Col. John W. Callaway is the commanding officer of Fort McPherson, Ga.

LT. COL. JAMES WILLIAMS

Pfc. David W. Flynn in a Combat Missile repair course.

Next Friday's graduation will be held in the auditorium of Toftoy Hall (Bldg. 3495), because the Post Theater is being repainted. The commencement ceremonies begin at 9:30 a.m. and the public is invited to attend.

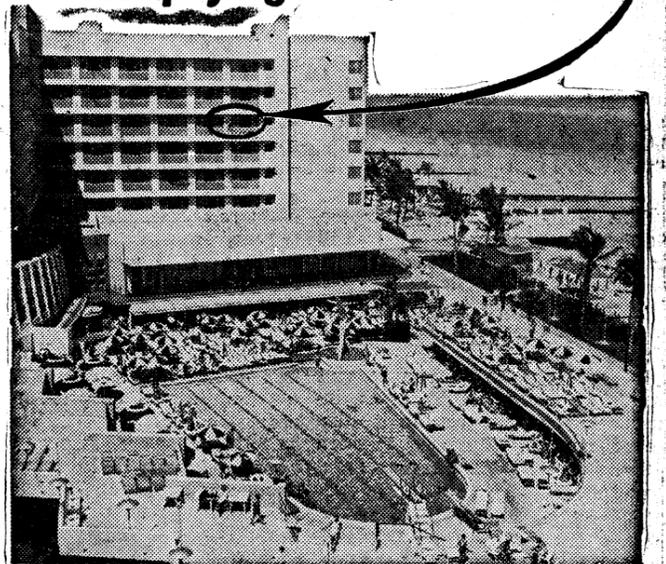

### TANI ON SCHEDULE

Tani's Variety Show is scheduled Sunday at the Service Club.

The feature entertainer will be Donna Emerick, folk singer. Donna is from Huntsville and has performed in many of the surrounding communities. Another newcomer to the show in Tricia Gann, dancer. She is a regular performer at one of the local night spots.

Other performers will be a local rock 'n roll band and two regulars, Linda Grose and Tina Ryder. Show time is 8 p.m. Sunday.

## How Would You Like To Live (TAX FREE) in a luxury apartment like this... without paying rent?

### Here's How!

Thousands of trained men and women of every age and background are doing it and having the time of their lives as well-paid management personnel in America's booming opportunity field of hotels, motels, clubs and resorts.

YOU COULD, TOO... and pay no income tax on the dollars-and-cents value of apartment, meals, and other benefits furnished for the convenience of your employer! You could save money TWICE—first on the live-in expenses that could cost you nothing, and second, on the tax this "extra income" represents!

No previous experience required and age is no barrier! Qualify at home in spare time or in only 4 months through resident training at world-famous Lewis Hotel-Motel Schools. Nationwide Placement Assistance helps get you the job you want! Mail coupon or write for FREE 52-page book today.

# Trainees Caught In Simulated Atomic Cloud

The closest thing to an atomic explosion that Redstone Arsenal has ever experienced took place in a wooded training area today at the Army Missile and Munitions Center and School. It was heard and seen for miles around.

The simulated nuclear blast was staged as a surprise exercise for the 273rd Ordnance Company, a Florida-based Army Reserve unit that is undergoing its annual summer training here. They specialize in moving and storing ammunition under batterfield conditions.

The men from the Madison-Tallahassee area of northern Florida were positioned with their vehicles and equipment in remote fields and thickets in the middle of the huge Redstone reservation. The terrain bears a strong resemblance to the jungles of Vietnam, with forests, high underbrush and primitive roadways.

Col. John R. Henderson, assistant commandant of MMCS, and Lt. Col. Matthew R. Thome, chief of the Unit Training Command, were on hand to observe the un-

usual training exercise. Its purpose was to see how the company, commanded by 1st Lt. Leonard T. Elzie of Madison, Fla., would respond to an unexpected thermonuclear attack in the field. Most of the 90 men in the company were unaware that something unusual was about to happen. They had their vehicles parked out of sight in the woods with communications running to a secret command post.

At about three o'clock this afternoon, explosive experts of the MMCS Unit Training Command detonated the mock atomic blast.

A huge mushroom cloud soon took shape over the area, and a fireball rose 300 feet into the air.

Instantly, the command post began to crackle with reports from all parts of the area. Immediate calculations were made by the commanders to determine the extent of probable damage to men and materiel, and quick assessments were made of the company's remaining strength. Decontamination and other protective measures

were taken.

By the time the smoke of the simulated atomic blast was drifting away, the Army Reservists were regrouping to hold their ground in the face of a possible enemy attack.

The 273rd Ordnance Company came to Redstone for fifteen days of active duty. The Florida group is one of several Reserve units from across the country who will come to the Missile and Munitions Center and School this summer for more of this highly practical and realistic training.

### INDIVIDUAL RECORDS NEEDED FOR DISCHARGE PROCESSING

Processing of personnel returned from overseas for discharge because of unfitness or unsuitability is sometimes delayed at CONUS transfer stations if losing units do not forward individual records

## Approximately 700 Army People Attend Local Classes

Approximately 700 people are spending time in local classrooms studying subjects ranging from Equal Employment Opportunity refresher training to basic communications.

The majority are studying in classrooms on post, the others at the University of Alabama in Huntsville.

Others are at Rock Island in the U.S. Army Management Engineering Training Agency.

Henry S. Cassell, Jr., is taking Operations Research Appreciation; William F. G. Harrison is enrolled in a PERT/COST course; Carlos W. Tucker is attending a seminar for Quality Managers; James B. Davis will attend a Warehousing Gross Performance Measurement Systems Workshop tomorrow; and Oscar L. Herndon is studying Work Planning and Control Appreciation.

Richard H. Boutillette, R. H. Leo and Ellis R. Bridges are at the Defense Weapons Systems Manage-

ment Center, Wright-Patterson AFB, Ohio for a two week course in Configuration Management.

Rolph O. Poehler is at the Financial Management Workshop for Operating Officials being conducted by the U.S. Civil Service Commission in New Orleans.

Mitchell G. Linney is at the Materials Research Corporation, Tuxedo, N.Y. to learn the Application of Sputtering.

Bobby G. Smith is in Huntsville at IBM studying S/360 OS Language Interface.

The American Geophysical Union and the Environmental Sciences Service Administration at Boulder, Colo., is holding an international symposium on Electromagnetic Distance Measurement and Atmospheric Refraction which Howard D. Irick is attending.

Sixteen local people are at the University of Oklahoma, Norman; James F. Crawford is taking a course in Industrial Relations; Tharon T. Harrison, John G. Mikitish and Charles V. Davidson are at a Social Sciences Seminar; Alton L. Maddux, Max Watson, Lelan E. Perry, Robert G. Hutchison, Wilber C. Johnson, Thanice E. Autry, Lovelle W. Autry, and Curley J. Kibodeaux are participating in a Natural Sciences Seminar;

Elizabeth R. Ferguson, Donald D. Williams, Horace M. Walker and Rose L. Fulda are at a Humanities Seminar.

## July 1969 Is Banner Month for New Federal Employee Benefits, Programs

July 1969 will be a banner month for Federal employees. Not only is a pay increase scheduled for white-collar and postal workers, but three new governmentwide programs also become effective.

The new Merit Promotion policy, Federal Incentive Awards Program, and discrimination complaints procedures are all effective July 1.

More than two million Federal employees will have better opportunities to be considered for advancement under the new merit promotion policy. It places emphasis on:

- Giving all employees the chance to receive full consideration for promotion.
- Using the most effective rating methods to identify highly qualified candidates for promotion, with use of written tests only when approved by the U. S. Civil Service Commission.
- Selecting from among the best qualified.

• Keeping employees well informed about the program and their own promotional opportunities.

Significant revisions will be made in the Governmentwide Incentive Awards program. These changes will streamline and clarify the program, establish higher minimums for cash awards, and help achieve consistency among agencies in its administration.

New procedures for processing complaints of discrimination on grounds of race, color, religion, sex, or national origin have four basic objectives:

- To provide maximum opportunity for informal resolution of problems which might result in complaints.
- To guarantee a fair and impartial hearing by a trained appeals examiner when a hearing is required.
- To speed up the entire complaint process.

### EFFECTIVE DATES

The above new Federal Pay Scales become effective on the first day of the first pay period beginning on or after July 1.

## Pay Raise Takes Effect On June 17

Army and Marshall Space Flight Center Wage Board employees at Redstone Arsenal and the Huntsville locality will receive pay increases, according to an announcement made today by the Department of Defense Wage Fixing Authority, Washington, D.C.

The Army said some 1,300 Wage Board employees of the U. S. Army Missile Command and the U. S. Army Missile and Munitions Center and School at Redstone Arsenal will receive the pay increase.

At the Marshall Space Flight Center almost 700 employees will receive the pay raise, the spokesman said.

The increase averages from 17c to above 40c an hour, depending on the employee's position and will be effective the first pay period after June 17 for employees of Army and Marshall Space Flight Center.

The new pay rates resulted from a recent wage survey of the Huntsville area under the direction of the Department of Defense Wage Fixing Authority with the U. S. Army Missile Command designated as the coordinating installation.

### PASSPORT NEEDED FOR COMMERCIAL TRAVEL TO THAILAND

Military personnel traveling to Thailand are reminded that they need a valid passport/visa when entering or leaving that country by commercial carrier. Failure to have the document can result in unnecessary inconvenience and expense to obtain one. AR 600-290 contains world-wide passport/visa information. In the near future Department of the Army plans to publish a circular on Thailand travel requirements.

May 17 is Armed Forces Day. The theme for 1969 is "Forces for Freedom."

During the first seven months of fiscal year 1969, 30,651 men with college degrees entered the Army.

# F&A, Comp Center Hold CWF Softball Lead

## Accountants Have Close Call; Ward Has Hot Bat

Some of the wives must have felt concerned for the safety of their husbands.

That's how torrid the action was in the Civilian Welfare Soft Ball League last week as base hits and line drives rained over every inch of the playing field.

When the smoke had cleared there were no physical injuries, fortunately, but several of the teams must have suffered from shell shock.

Front running Finance and Accounting and Comp Center continued to lead the field although there were some narrow escapes.

F&A, battling for its life had to score a whopping nine runs in the bottom of the seventh inning to nip determined Metrology 12-11. Russ Ward carried a lion's share of the burden for F&A, coming to the plate twice during the inning and stroking a homer and double, good for five runs.

In another outing F&A cruised past Financial Management 36-3. Comp Center, meanwhile, had an easy time of it rolling over SAFSCOM 29-2.

Sparked by hard-hitting Ed Trentham who had five for six, Jerry Arzsmann and Jerry Lankford, both with four for six, Comp Center plated its nine tallies in the second and added seven more in the fourth enroute to victory.

In other games SAFSCOM defeated S&M 12-4; MCD downed DASO 17-10; G&C blanked DPO 3-0, and Corps of Engineers 13-9; Pershing stopped Corps of Engineers 11-5, MCD 12-2, and Metrology 10-7; MTE turned back DASO 9-5; DASO beat F&M 20-10; MID downed S&M 15-1 and Metrology won by forfeit over SENSOCOM.

Against F&M Finance and Accounting exploded for 15 runs in the fifth inning enroute to the 36-3 decision. Dwayne Kidd, Elliott Agee and Bill Jacobs had five hits each for the victors, including two homers by Agee, while Buddy Lewis contributed two homers.

G&C had Jack Campbell on the mound and he threw a 3-0 shut-out at DPO, the only team to defeat F&A this year.

In SAFSCOM's win Jim Gillespie cracked five hits against S&M while Phil Ormsby had three for the losers.

Orlando Hale was the big gun for MCD with a grand slam homer in the third inning to spark his mates past DASO 17-10.

Pershing got power hitting from

Murray Hillman, Paige Stagner, Fred Thomason and Jim Allen in defeating Corps of Engineers 11-5 and MCD 12-2.

## MICOM Gals Eye Battle With IBM

### Big Orange Set For Showdown Tilt; Down Two Foes

Anyway you look at it, it's going to be a hum-dinger of a battle.

The 'Big Orange', the pride of the Missile Command, faces the formidable lassies of IBM in a showdown fracas tonight to determine the league lead in the Huntsville Industrial Softball League.

Game time is 6:45 at Northrup Field.

MICOM goes into the 'blue chip' battle with an 11-1 record while IBM is close behind at 10-1. Winner of the game will have the inside track toward the league championship.

MICOM, meanwhile, notched two additional scalps last week, tomahawking Safeguard 26-2 but battling for dear life to nose out NASA 6-5.

In fact, Helen Smith, slick-fielding second sacker for the Big Orange, lined a single in the last inning to give her mates the deciding run. Only seconds before Smith's game-winning clout, Barbara Furlough smashed a single to stalemate the match at 5-5.

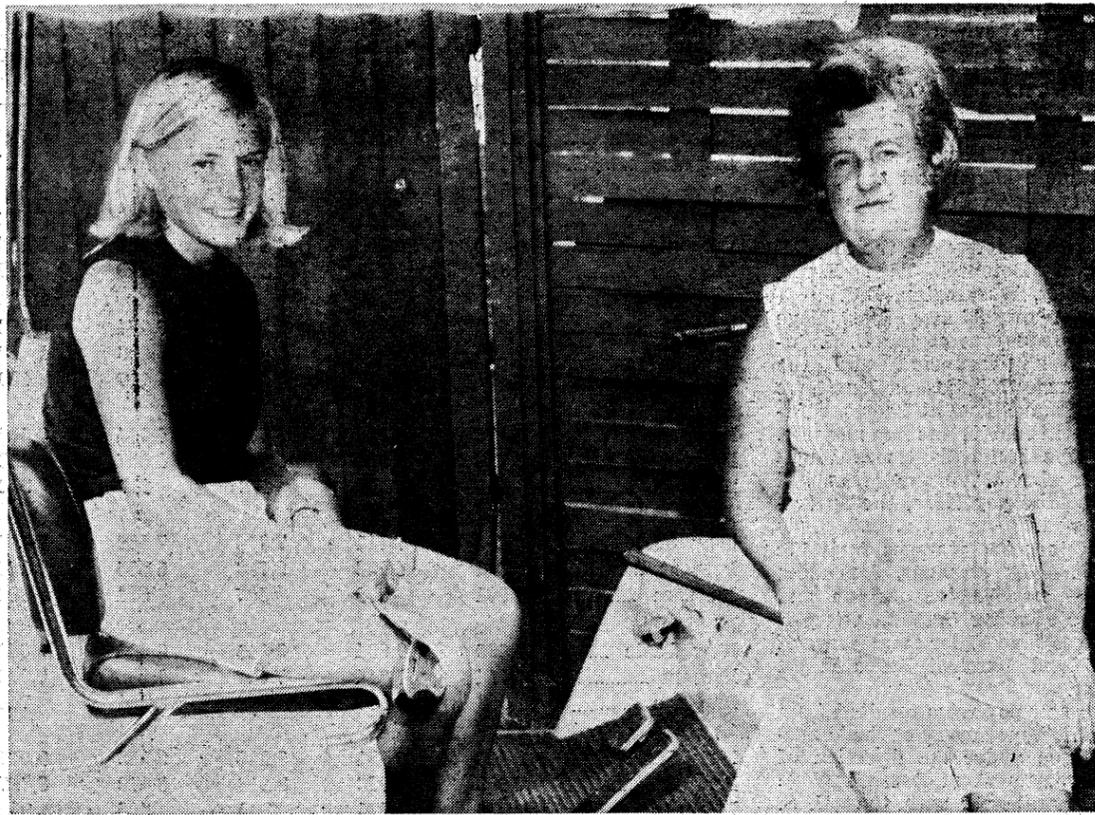

Ironically, these critical hits were the only safeties for Furlough and Smith.

NASA, apparently unawed or unimpressed by MICOM's imposing record, zoomed off to a five-run lead by the second inning and appeared to be headed toward a rout. But MICOM's big guns began to speak in the third inning and the Big Orange pulled within one run, 5-4, going into the final stanza.

At that point, Francis Bogue and Glenda Kidd both singled to set the scene for heroics on the part of Furlough and Smith.

In addition to Bogue and Kidd, Ruth Crisp and Sara Fisk had two hits each for MICOM. Gladys Hill was the winning pitcher.

Against SAFSCOM, Ruth Crisp was a standout offensively with 5-for-5 while Frances Bogue was close behind with three hits. Kathy Leeth, the MICOM shortfielder, was one of the defensive stars.

**NEW GOLF CHAMPION**—Mrs. Martha Napper (right) and Miss Martha Jones take a breather and chat about their sizzling battle last week in the Redstone Officers Wives Invitational Golf Tournament. Mrs. Napper won the crown, her first, by stopping Miss Jones, the defending champion, in 'sudden death'. Both had ended regulation play with 81s.

### Dethrones Champ . . .

## Napper Wins 'Sudden Death' Crown

Twenty-four putts may have been the key to the new champion in the Redstone Officers Wives Golf

Group Invitational Tournament last Wednesday, or the guardian angel of the defending champion may have tired during the sudden-death playoff between Martha Napper and Martha Jones.

Whatever the reason, there's a new champion.

This is Mrs. Napper's first win on the Arsenal course since she became a member of the club in 1958. Miss Jones from Decatur Country Club won the title last year and won the championship flight with an 81 this year, a tie with Mrs. Napper in the first flight. Local ground rules had been established in advance that a sudden death playoff would result should such a situation arise.

Miss Jones drove into the rough and couldn't recover an extra stroke. Mrs. Napper found that everything was going right with her game, as it had all day. She gained the title, and Miss Jones took home the silver as winner of the championship flight.

Special prizes went to Margaret Wicker of the Burning Tree Country Club, Florence, for the longest drive on No. 15. Faye Edmondson of Huntsville Country Club landed nearest to the pin on No. 8; Shirley Prewett on No. 11. Martha Jones smacked the longest drive on No. 3.

The order of finish was:  
**Championship Flight** — Martha Jones, 81, Decatur; Beverly Price, Turtle Point of Florence, 83; and Shirley Bergeron, Willowbrook, 86;  
**First Flight** — Martha Napper, Redstone, 81; Rita Nicholas, Colonial, 84; Faye Edmondson, Huntsville CC, 89;

## Two High Schools Add ROTC Courses

Two of the 35 high school ROTC programs added by Third Army this year are in Huntsville.

Grissom and Lee high schools have added Army ROTC to the curricula.

Schools participating in the program conduct a three or four year ROTC training course which includes instruction in leadership, military history, marksmanship, drill, first aid and other basic military skills.

High school graduates completing the Junior ROTC program can enter the service in the pay grade of Private E-2, rather than the recruit grade, when they voluntarily enlist or are inducted into the Army. They also may receive credit for their Junior ROTC training when they enter the college-level ROTC program. Junior ROTC participation, however, does not obligate students for future military service.

## Theater Schedules

WEDNESDAY, June 25 — "The Fixer" (M)  
 THURSDAY-FRIDAY, June 26-27 — "Where it's at" (R)  
 INCREASED ADMISSION: adults 50c, children 25c  
 SATURDAY, June 28 — Walt Disney's "Never a Dull Moment" (G)  
 SUNDAY-MONDAY, June 29-30 — "True Grit" (G)  
 INCREASED ADMISSION: adults 75c, children 25c  
 TUESDAY, July 1 — "From Russia, with Love" (M)  
 Two shows nightly at 6:00 and 8:00 p.m. Sunday matinee at 2:00 p.m.

# MICOM Sews Up First Half Softball Crown

## 8th ETC Is Victim, 2-1; Unit Training Moves Up

MICOM sewed up the American League championship for the first half of the Special Services military softball season with perfect 9-0 mark, whipping 8th ETC 2-1 in the finale last Thursday.

Unit Training Command suddenly spurred to the top of the National League by besting 2nd ETC 6-2 and Student Officer and Headquarters Company, 5-4, while SOCHHC turned around and knocked off unbeaten Company D 10-9 in extra innings.

In the only other games last week, the 8th kept its slim chances to tie alive by beating 522nd Ordnance Company 13-9 before the final loss, and 7th ETC nudged past 291st MP's 15-14.

In another phase of action, a previous 10-7 win by Co. D over the MP's has been rescheduled after an allowable protest was lodged and both teams consulted following a controversial suspension of play in their contest. It is slated for tonight.

Two other games were on tap Monday, including a showdown between Co. D and UTC and a makeup between 2nd ETC and MP's. If Co. D was Monday's winner (results were not in at press time), then a three-way tie will need

playing off in the National circuit among Co. D, UTC and SOCHHC.

Highlights of last week's five games included Gene Cagle's pitching victory for MICOM over the 8th which ended in the last inning on Tommy Glynn's bases-loaded double. Jack Newnom hit a homer for MICOM's first run, but the 8th had tied it on a triple by Looka.

Richard Hailey struck out 11 to hurl UTC over the 2nd with support from Mike DeSanctis with two hits and triples from Jim Boatwright and Elton Helzer. James Curruth and John Pinkerton swatted doubles for the losers.

Helzer also had two hits in UTC's squeaker past the Officers with Bill Ausmus gaining the win over Gene Perrault. Jim Porter tripled in defeat. UTC came from behind twice in the decision.

Delta then bit the dust when Roger Robicheau hit a two-run homer to tie in the seventh inning. A bases-loaded single by Don Porter won it for SOCHHC in the extra frame after Stan Baker had put 'D' ahead again. Don Reickert slammed a homer for Co. D.

Vic Hayden rapped a pair of doubles and a triple to lead the

8th's assault on the 522nd, offsetting a homer by Lockwood and three hits by Duffy Aldridge. Alexander also contributed two doubles and a single.

The 7th scored 11 times the last two innings to come back against the MP's, marring a double and single by Cecil Roberson. For the winners, Williams had three hits while Lee and Kleinfelter hit triples.

### MESS SPONSORS TENNIS

Lee Norton, tennis instructor, is available for both adult and youth tennis instruction of members of the Redstone Officers Open Mess and their dependents.

He first met with enthusiasts Saturday. Lessons are being offered hourly Tuesdays and Thursdays from 8 to 11 a.m. for dependents and from 6 to 8 p.m. for adults.

The instruction will terminate in a tournament at the end of the Summer. Members of the Mess who were unable to see Norton Saturday can call him at 837-5257.

# Redstone Park Soon Will Return To Nature

Redstone Park is disappearing! This old housing project dating back to World War II is moving out, unit by unit, to new localities in Alabama, Mississippi, Tennessee and Georgia.

The 300 housing units, some of them duplexes, are being sawed into two and three bedroom units, sold to private individuals, and moved to new locations in the four state area. So if you live in the Huntsville-Redstone Arsenal area and you see a house going down the highway on a truck, it is probably one of the Redstone Park units moving to its new location.

More than 200 of the units have already been sold and moved and it is estimated that all units will be gone by the end of August. All that will remain of this once important housing area will be the trees and the narrow asphalt streets crisscrossing the 65 acres at Farley, just south of the Arsenal.

The disappearance of Redstone Park will close an important chapter in the history of Redstone Arsenal. It all started back in 1942 when Redstone was providing much of the ammunition to soldiers battling the German and Japanese war machines. Shortage of housing for ammunition line workers in the Huntsville area constituted a major problem.

In May, 1942, the War Housing Authority contracted for 300 family units to be constructed on 65 acres at Farley, two miles from the south entrance to the Arsenal. By March, 1943, the workers were moving into their new quarters and Redstone Park was born.

With a shortage of automobiles, tires and gasoline rationing, residents of Redstone Park had their own private transportation system to work.

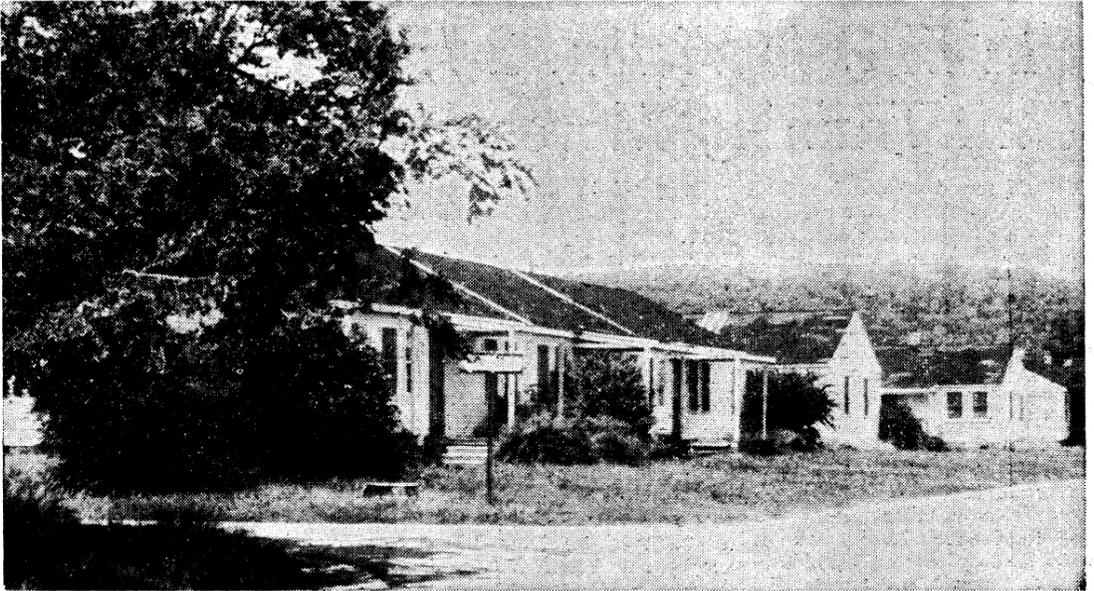

Known as the "Redstone Express", an engine and three railway car carried workers from Redstone Park to the ammunition lines on the Arsenal and back home again. The three cars, formerly property of the New York City

elevated railway system, were purchased and renovated by the government for that purpose.

Mrs. Norene Brooks, an ammunition line worker and one of the early residents of Redstone Park, back in 1943, recalled the shortage of rental housing in Huntsville and how happy she was to live in the new housing. In reminiscing, Mrs. Brooks, now Off-Post Referral Assistant, Redstone Billeting Office of the Army Missile Command, remembered riding the "Redstone Express" during the war years.

After World War II, the ammunition lines closed down and many of the housing units were empty. The Huntsville Housing Authority wanted to terminate its lease, but the shortage of rental housing and the buildup that preceded the Korean War created a need for the units.

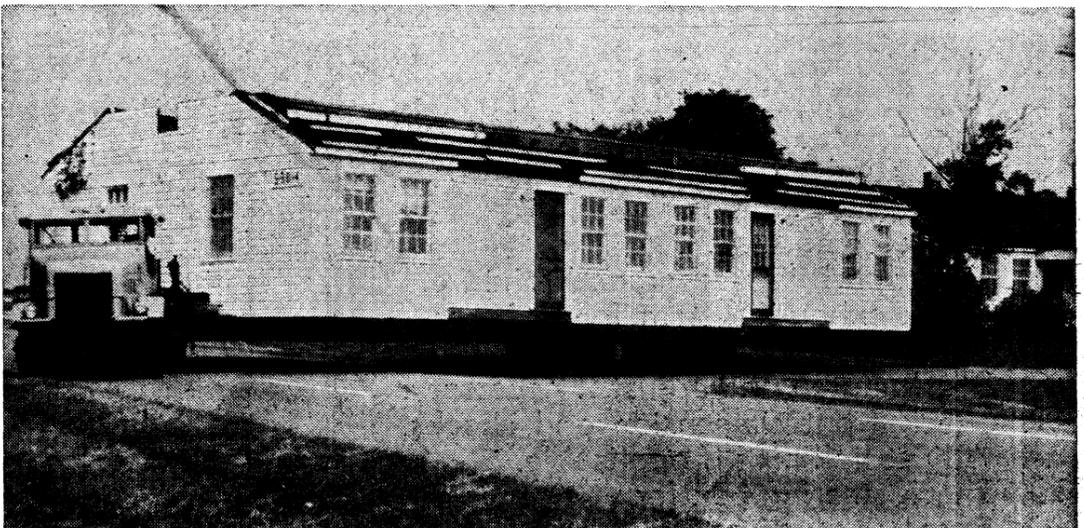

Finally in January, 1956, Redstone Park was transferred to the Department of Army, renovated and used as military housing units

**REDSTONE PARK TO GO**—These housing units of Redstone Park, the World War II Housing Project south of Redstone Arsenal, will soon be sold and moved to individual locations in Alabama, Mississippi, Tennessee and Georgia.

**SAW 'EM IN TWO**—Workmen are busy sawing the housing units into single and double units so they can be moved by truck along the highways to their new locations.

**AND AWAY WE GO**—A duplex from Redstone Park moves out on the highway to begin its last journey to a new location where it will be set up and become a home again.

**BACK TO NATURE**—James N. Weldon of the Post Engineers, in white shirt, inspects the site of one of the Redstone Park duplexes, as workers of the Home Co., clean up foundations, tie off utility lines and restore lots to their original state. Housing units will be all gone by the end of this August.

## President Nixon Directs Cut In Federal Hiring Level

A 45,000 reduction in the level of Federal employment has been directed by President Richard Nixon in the Administration's 1970 Budget review.

The President also requested that Congress repeal Section 201 of the Revenue and Expenditure Control Act, which imposes restrictions on hiring in the Executive branch.

WO Maurice O. Parker of Fort Campbell, Ky., was recently named the top U.S. Army Criminal Investigator.

Women's Army Corps private Eula M. Durbin has been named to try out for the U.S. Parachute Team at West Point, N.Y.

**America  
needs your  
help**  
**BUY U.S.  
SAVINGS BONDS,  
NEW FREEDOM  
SHARES**

while additional Wherry units were under construction.

As the newer and more modern Wherry Housing became available, the need for the older units at Redstone Park decreased.

Actually, a violent storm in 1966 signaled the beginning of the end for Redstone Park. The storm tore off shingles and wrecked roofs and, if this wasn't enough, pipes and plumbing froze and burst. Maintenance costs became prohibitive and with the availability of Wherry Capehart Housing, the Redstone Park housing area was declared excess to Department of Army needs.

Plans were made to dispose of the apartments in three increments. As units became vacant, they were not rented again and sale of the units was made by competitive bids won by the Home Co.

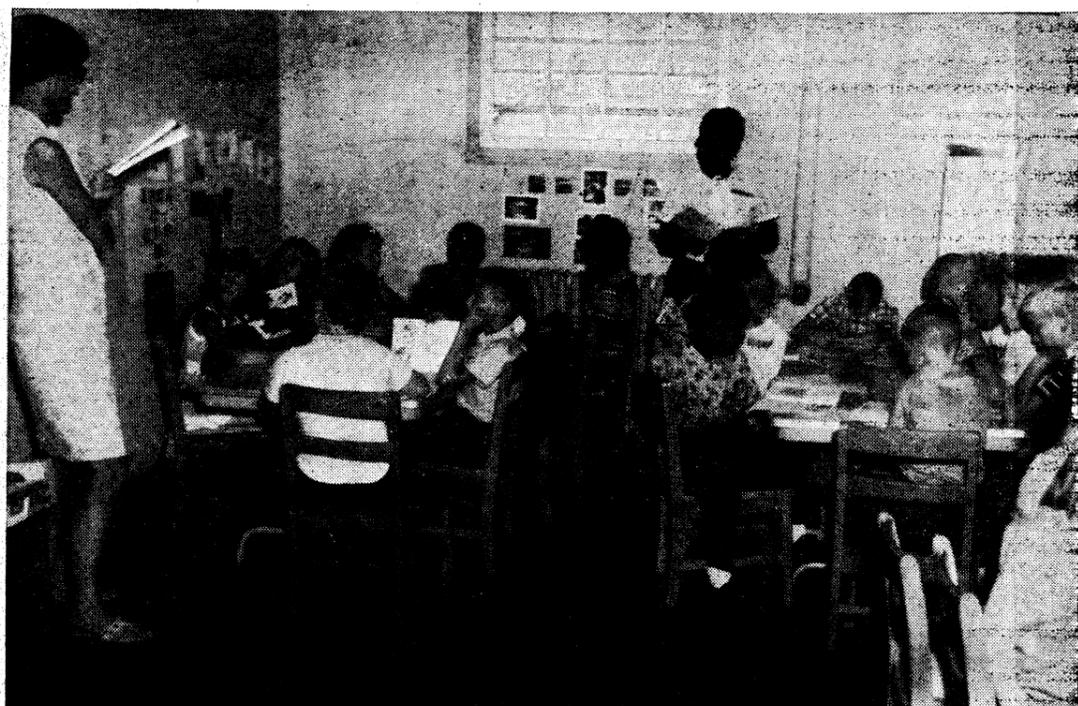

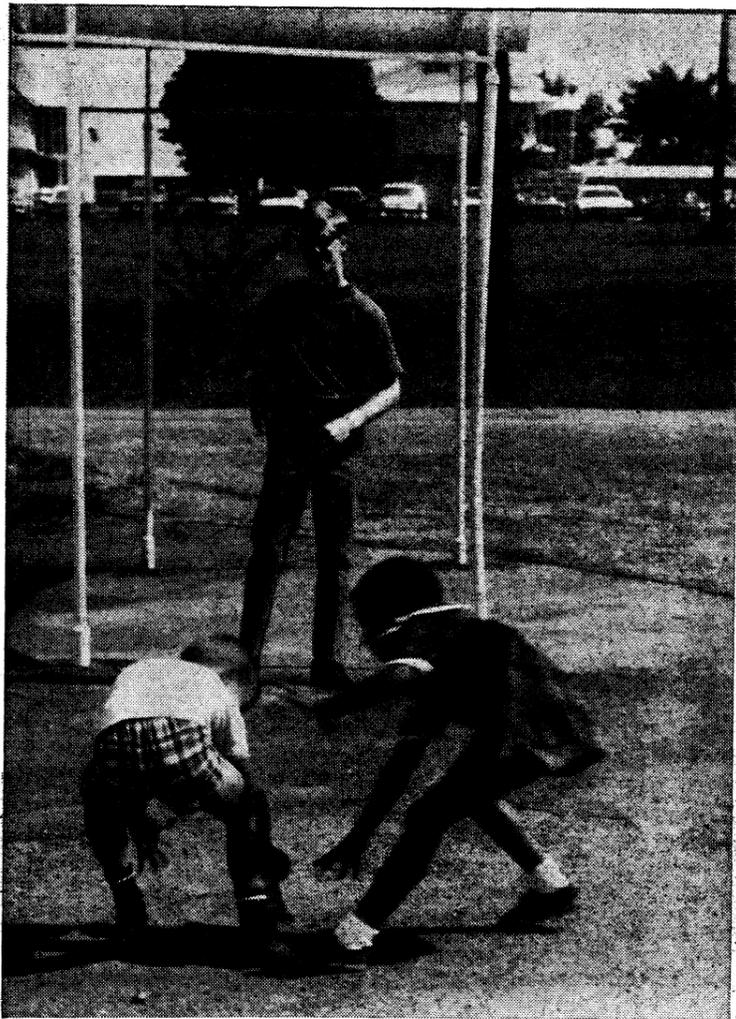

As of today, two increments of the Park have been sold and moved to locations in Alabama, Tennessee, Mississippi and Georgia. August 23 is the target date for clearing out the final increment.

Each time a unit is moved out of the Park, a Home Co., crew completes final requirements of the sale which call for removing the foundation, plugging all utility lines and cleaning up the site.

James N. Weldon, Realty Specialist with the Missile Command's Post Engineers, inspects the area after the houses are gone to make sure all requirements have been met.

Soon all the houses will be gone from Redstone Park and all that will remain will be memories. Grass and weeds have already started growing across the streets, and shrubs, without a trimming hand, have started their return to nature.

To the residents of Huntsville and Redstone Arsenal, the disappearance of Redstone Park is the end of an era. But during a time of need, it served its purpose well.

**AT VACATION BIBLE SCHOOL**—There's time for play, above, time for study, upper right, and time for making things in arts and crafts, lower right. This year 325 are attending the school including age three through grade 9. Volunteers are parents and teenagers. Sponsored by the Post Chaplain, the administration and curricula is under Chaplain (Capt.) George R. Hattle who is usually assigned fulltime to the Missile and Munitions Center and School troops.

## Military Pension Benefits Good Reason To Re-up

One of the greatest appeals for young men and women to stay in the Army is the pension plan. This unique plan allows for retirement at a comparatively young age and while the retiree still has years of productivity ahead.

A young man or woman entering the Army at 18 could retire with half his base pay at 38 years of age and 20 years service. This means the retiree could have a guaranteed income from his retirement and supplement it with the salary from a civilian job he would get based on his service experience.

An example could be a typical retiree who is an E-6, 40 years old and has just completed 20 years service. He would receive a pension of \$219 a month for the rest of his life, which would amount to \$2,628 a year. Based on current statistics this person's life expectancy would be around 67 years, which means he would draw a total of \$70,956 in pension money. Translated into civilian economy a private individual would have to have \$54,360 deposited in a bank, drawing five percent interest a year to equal the Army retirement pay.

The pension would be higher.

The higher the retirement grade, the greater the pension. In the case of an E-7, he would draw \$249 per month for \$2,989 a year and \$80,703 over his lifetime.

These pay outs are computed on a life expectancy of 67 years and since medical science is continual

## University Offers Course In Management By Mail

A major step toward meeting the individual management development needs of Department of the Army military and civilian personnel has been jointly announced by Army Materiel Command's Management Engineering Training Agency at Rock Island, Ill., and the University of Nebraska at Lincoln.

Management field correspondence courses implement the jointly-sponsored Management Development Program. Department of the Army military and civilian personnel who cannot attend classes can earn three semester hours of university credit in each course toward a degree.

A series of three correspondence

ly discovering ways to increase the life span, the pay out could be even larger.

In addition to the pension, a retiree has lifetime use of the commissary, post exchange and medical care all of which add up to a sizable saving.

Questions about the Army as a career or retirement benefits can be answered by calling 7-8204 or by visiting Room 16, Building 3482 from 8:00 a.m. to 4:30 p.m. Mondays through Fridays.

courses make up the entire management program package. The basic course is "Principles of Management," which covers such areas as organization and systems theory, planning in a dynamic environment, communication and control, computerized informational systems, leadership and motivation in complex organizations, and executive development. Personnel who complete the full program will choose three courses from the following electives: Principles of Management, Electronic Data Processing, Administrative Policy, Human Behavior in Organization, and Production Planning and Control. AMC's Management Engineering Training Agency, established to train both DA military and civilian personnel in management improvement techniques, has earned an international reputation for its work in management training, research, and consulting. Its more than 50,000 alumni include not only U.S. Personnel but military officers and officials from many other countries throughout the Free World.

The University of Nebraska will present the Management Development correspondence courses through its Department of Management. They will be administered by the Extension Division of the University and the instructor will be Dr. Henry H. Albers, Professor and Chairman, Department of Management.

Tuition for each course is \$45 plus the cost of text books. Inter-

## YOUTH BAND SETS SUNDAY CONCERT

The Huntsville Youth Band is scheduled to present a concert at the Army Missile Display, Sunday, at 2:30 p.m.

Under direction of Danny Della-Calce, the 65-piece band will play a variety of numbers. Approximately 30 majorettes will perform

with the band. The band, comprised of youth between the ages of nine and 18, is sponsored by the Huntsville City Police. For convenience of the audience, covered bleachers have been placed at the band stand.

ested personnel should contact their training officer or write to: Extension Division—U.S. AMETA-M, The University of Nebraska, Lincoln, Neb., 68508.

Sign up for U.S. SAVINGS BONDS, FREEDOM SHARES

## AUCTION

On Premises Friday 10:30 A.M. July 4th Rain or Shine

Scottsboro, Alabama

314 Prime Acres being offered in tracts or whole. 2 miles paved road frontage. Ideal homesites and business sites. Many industrial plants already in the area—more sure to come.

FREE \$100 to be given away FREE

Music and entertainment by DEXTER AND THE DERBIES

Lunch will be available. Bring your friends—inspect this property before sale time as the auction will be conducted under the big Auction Tent. Terms: One third down sale day, balance on delivery of deed within 60 days. If other terms are desired, please make your own arrangements before sale day. Call or write for Free Brochure. Directions to property from Scottsboro: Take Hwy. 72 West (Huntsville Hwy) Approx. 8 miles to Jack Wells Store, turn left, go 1 mile, watch for Auction Signs. Our Representative will be on property from 2 P.M. Sunday, June 29th and from 10 A.M. Thursday, July 3rd.

# Space And Rocket Center Soon Open To Public

To the traveler on Highway 20 West, thick concrete walls rising from the ground astride a small hill appear to be a bunker or blockhouse. That is exactly the impression they were designed to create.

The building under construction will house the Alabama Space and Rocket Center. It is scheduled for opening in a few months.

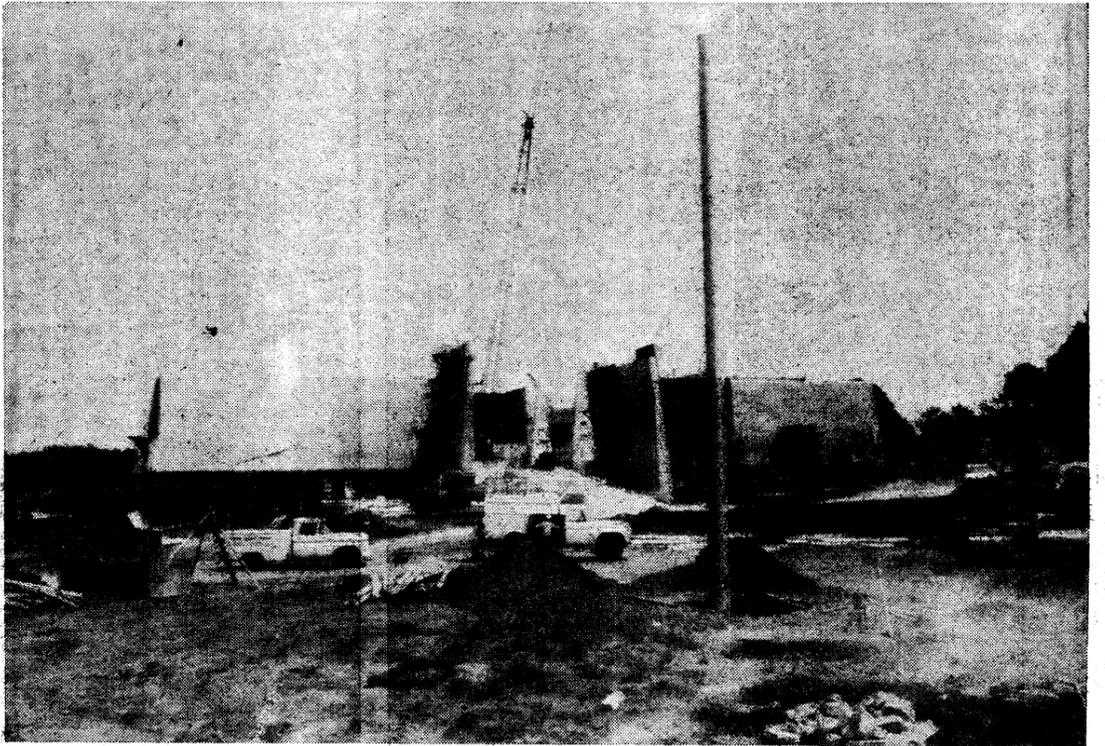

Funded through a bond issue by the people of Alabama, the Space & Rocket Center will be a tourist attraction featuring the technological applications and hardware of the Army Missile Command and Marshall Space Flight Center. Emphasis will be on advances made in missile and space work with dynamic displays to portray it. Though the "museum" aspect of the Center will not be emphasized, items which led toward success for the Army and NASA will be included.

A typical visit will bring the visitor from a 500 car parking lot, along a path winding through a grove of trees, to the entrance plaza of the unique concrete building.

Inside the visitor may view films regarding missile and space aspects, or he may elect to begin his tour through the complex. Visitors will be given enough background in rocketry to enable them to appreciate such presentations as guidance, propulsion, materials, and reentry which go into the complex business. As a visitor moves through he will walk around, or, if he chooses, walk through the 40 foot high Atrium. Half way through the display, he will reach a glassed entry which gives a panoramic view of the Army missiles and space rockets. He can walk among them, or continue his tour in the building.

Throughout the Center, the visitor will have a special ear phone. As he approaches a display item he will begin to hear about it as a result of a small transmitter device at the display.

The Alabama Space Science Commission, chaired by Sen. James B. Allen, has almost brought the Center to reality. The commission has worked toward the objective of a blend of entertaining the visitor while informing him of the complexities of rocketry.

**ROCKET PART**—Old Reliable, Redstone missile, in the near future will grace the pole in the foreground, as one of the landmarks in rocketry. In the background another landmark is rising, the Alabama Space and Rocket Center as seen from the outside display area. Note that in the center, interior of the building are the two pillars which appear on page 1 of the Rocket. They are two of four which will support the "flying" roof of the atrium.

## BIDS FOR CONCESSION CONTRACTS

for vending machines are now being accepted by N.C.O. Open Mess, Redstone Arsenal, Alabama. Bids must be submitted by June 25, 1969.

**M/Sgt. William E. Higdon**

**SIDE VIEW**—The Alabama Space and Rocket Center as motorists see it when driving East on Highway 20.

**FIRST VISITOR**—A construction worker enters the main entry of the Alabama Space and Rocket Center. The concrete building features

a blend of vertical batten effects and bush hammered concrete, both of which can be seen at the right.

# Laser Experiments May Rid Waterway Of Weed

The use of lasers to rid ponds, rivers and lakes of unwanted water plants is now being studied at the Army Missile Command for the Army Corps of Engineers.

Experiments now going on at the Missile Command are with a continuous beam carbon dioxide laser to determine the effects of zapping water hyacinths with the giant laser.

Working with Missile Command physicists, Dr. Thomas Barr, Jr., and John Ehrlich of the Physical

Sciences Lab, Research and Engineering Directorate, is Dr. Richard Couch, a biologist with nearby Athens College.

Such plants as the water hyacinth, which grows above the water, and the water milfoil, which grows beneath the water's surface, are now creating a serious problem in water transportation in some areas.

Over 500 square miles in the southeastern United States is covered by water hyacinths alone. Other problem plants include alligator weed, water lettuce and water chestnut.

So far, no satisfactory technique has been found to get rid of the pesky plants.

Chemicals and biological methods, such as importing plant-eating bugs and fish, have both been tried. Unwanted side effects are drawbacks to both methods. Herbicides may kill fish and harmless plants, while biological methods may get out of hand and upset the balance of nature.

Mechanical methods, such as mowing the plants produce only temporary results at great expense. The plants grow back and must be recut, like grass on a lawn.

Dr. Couch theorizes that lasers may destroy plants by deactivating enzymes or by breaking down genetic material.

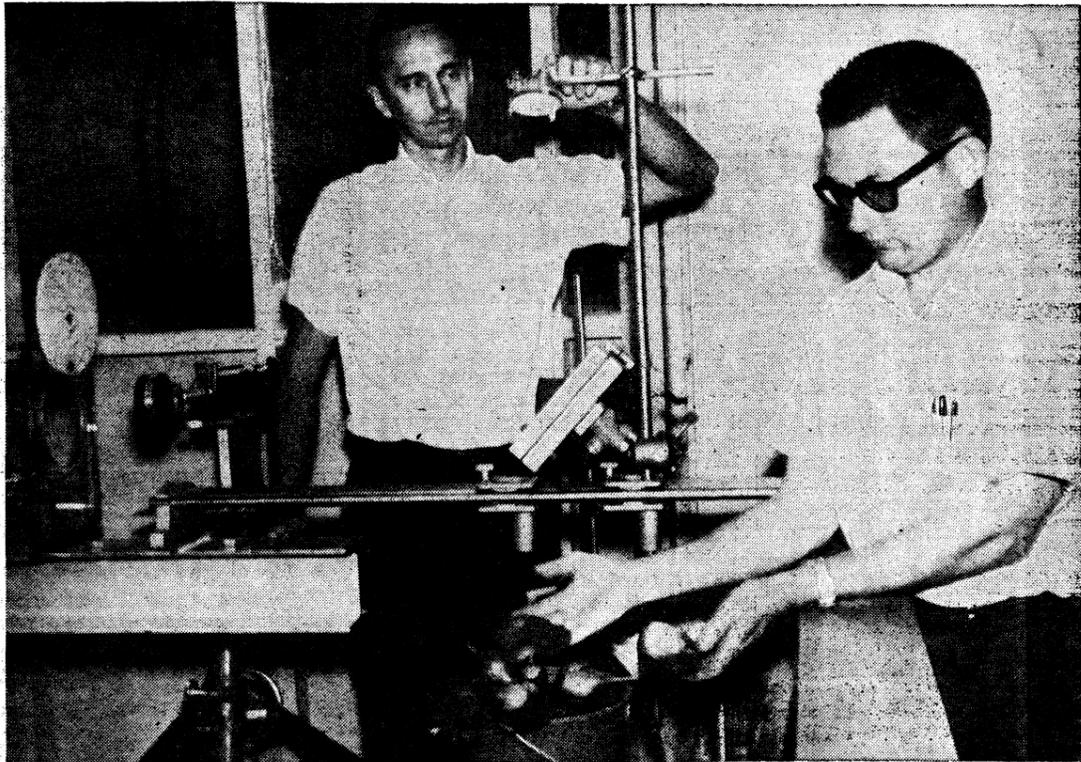

If lasers prove effective, lasers mounted on planes or boats might be used to quickly rid a lake or

river of unwanted plants, opening it to transportation.

The intense beam of a laser can melt or vaporize small areas of any material. Unlike ordinary light, the laser puts all its output

into light with one narrow wavelength. Thus its power per interval of wavelength is much greater, and all the light from the entire diameter of the end of the laser is in phase.

Later experiments are planned with copper vapor and pulsed nitrogen lasers which, unlike the carbon dioxide laser, could penetrate the water to kill underwater plants such as milfoil.

**FOCUS ON WATER HYACINTH**—Setting up an experiment to use the Army Missile Command's continuous wave carbon dioxide laser on a water hyacinth are physicist John Ehrlich, Physical Sciences Lab, Research and Engineering Directorate, Army Missile Command (left) and Dr. Richard Couch, a biologist from nearby Athens College. Lasers are a possible means of exterminating unwanted water plants. The work at Redstone Arsenal is being performed for the Army Corps of Engineers.

### TO PICNIC AND SWIM

The Service Club will sponsor a picnic and swimming in Decatur Saturday.

Enlisted men wishing to make the trip are requested to register at the Service Club. The bus will leave the club promptly at 11 a.m.

## Gen. Feyereisen Named Director Of Materiel

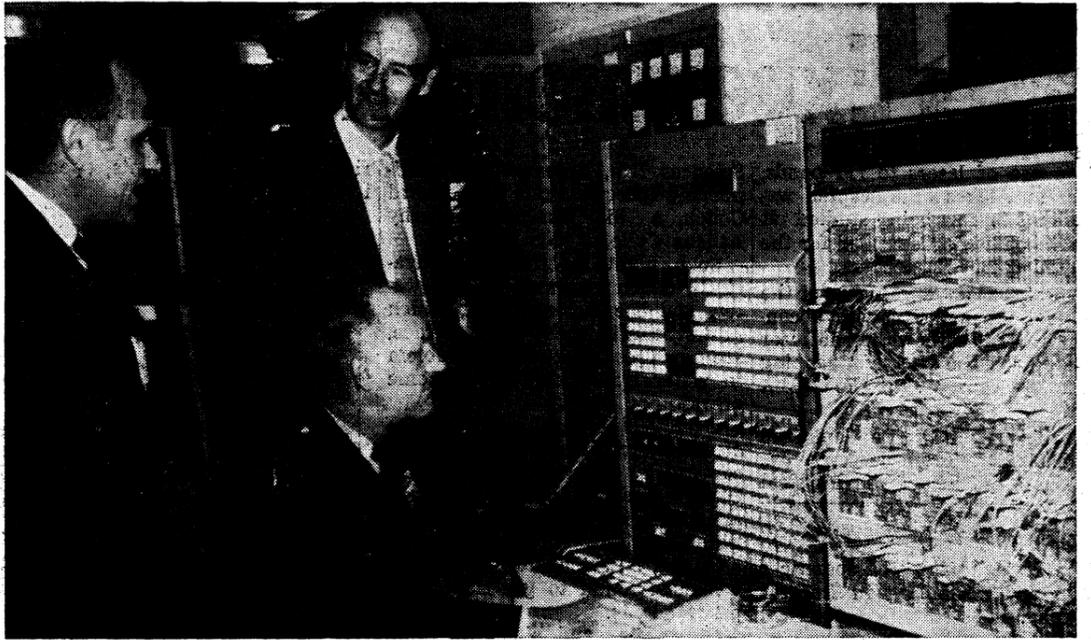

Maj. Gen. Paul A. Feyereisen, who served as the Army Materiel Command Deputy Chief and later Acting Chief of Staff during 1962-63, has been named the Command's Director of Materiel Requirements, Headquarters, AMC. He will assume his new position later this month.

Now serving as a Deputy Com-

manding General, U. S. Army Electronics Command, Fort Monmouth, N. J., Gen. Feyereisen is also the United States Program Manager for the Mallard project. This project involves the development and production of an international tactical communications system for the field Army of the future.

In his new assignment Gen. Feyereisen will succeed Brig. Gen. W. W. Stone, Jr., who has been reassigned to the Office, Assistant Chief of Staff for Force Development.

Gen. Feyereisen served on the Planning Group in 1962 which was responsible for the reorganization of the Army and the establishment of AMC.

**SIMULATION**—Army Missile Command Advanced Sensor Laboratory officials tell Brig. Gen. Mahlon E. Gates how they simulate new types of missile guidance during his recent visit at Redstone. Talking with the General are, Jacob Zarovsky, left, and W. J. Lindberg, the laboratory director. Gen. Gates is the deputy director designee of Research, Development and Engineering at the Army Materiel Command.

## Course Opens For Enlisted Personnel

To increase supervision of maintenance on the Army's Land Combat Support Missile System (LCSS), a repair technician's course has been widened to include enlisted personnel.

Solely a course for future warrant officers in the past, the training has been expanded to include NCO's (E-6 and above) in a supervisory capacity.

An authorized input of 80 has been projected to the coming fiscal year, including 17 immediately in the two classes to be held this summer. The course is 34 weeks long, and the first two classes commence on July 9 and Aug. 27 at the Army Missile and Munitions Center and School.

The purpose of the training is to provide a working knowledge in inspecting, testing and repairing the LCSS through the support maintenance level. Emphasis is heavy on job-oriented repair procedures, techniques and supervision of ordnance shop practices.

Included in the classwork are fundamentals of pulse circuits, radar, solid state devices special circuits theory, and circuit diagnosis and repair.

Prerequisites for enlisted personnel interested in taking the course, which will produce a 27Z MOS, include credit for a class in algebra and some general science background—or a standard score of over 44 on GED tests at high school level.

A standard score of 100 or higher in the electronics aptitude area is also required, with a working knowledge of basis electronics electricity equivalent to the scope of instruction contained in the ballistic missile helper's course.

Another requirement is minimum of six months field experience in the maintenance of missile or electronics systems. Others include normal color perception and full use of both hands; two years active duty service remaining after course completion; and an interim "secret" security clearance.

In the past, an enlisted man had to be qualified for appointment as warrant officer to receive this training, but the field has been expanded to eliminate that requirement.

Persons qualified and interested in receiving the LCSS supervisor course can obtain further information about enrollment from:

Registrar, USAMMCS, ATTN: AJQ-O, Redstone Arsenal, Ala. 35809, Phone: 877-2404 or 877-8250.

### CONTAMINATION CONTROL

A short course "Principles and Practices of Contamination Control" will be held at the University of Alabama in Huntsville, August 18-22, 1969.

This course is designed for the engineer or scientist who is concerned with developing or administering contamination control programs or who for other reasons wishes to upgrade or broaden his present knowledge of this discipline. The course will be presented from a systems point of view, as an integrated discipline, as opposed to previous presentations of contamination control.

**MISSILE & MUNITIONS  
CENTER & SCHOOL**

**NAMES IN THE NEWS**

by SP5 Ted Beattie

Personnel at the Unit Training Command are keeping extra busy during these first weeks of summer. Reserve units from Georgia and Florida have arrived and started training last week under the auspices of UTC.

UTC soldiers shook the Arsenal Thursday afternoon when they set off a simulated atomic explosion. It was all part of training exercises that the 273rd Ordnance Company (Ammo) from Madison, Florida are undertaking. The men from the Florida-based Army Reserve unit were undergoing normal training maneuvers on an Arsenal terrain which bears a strong resemblance to the jungles of Vietnam.

The 802nd Ordnance Company (Ammo) from Gainesville, Ga. moved into the same area Monday morning while the 273rd headed back to their company area in Splinter Village. Soldiers from the Florida unit will attend ammunition storage and records courses during their final week of summer training. The 802nd undergoes similar combat exercises this week before returning to their home station in Georgia.

A Reserve unit from Puerto Rico is scheduled to arrive the early part of July.

**AER DRIVE**—In the past MMCS has contributed significantly to providing aid and assistance to members of the Army family. Assistance through the Army Emergency Relief and Army Relief Society may be rendered under varying types of emergencies, conditions or situations. Almost anything that may cause hardship or distress beyond the ability of the soldier or his family to meet may merit consideration by AER.

LTC Charles Stone, Chief of the Personnel Division, is the campaign chairman for the MMCS drive which started last week. Colonel Paul B. Schuppener designated the period of June 15 to August 15 for the AER drive at the Missile School.

Each duty section will be contacted by an AER representative.

**NEW CO'S**—Change of command ceremonies took place early last week as Capt. Michael W. Miller moved from his duties as CO of HHC to the command post of the Student Officer Company. Capt. Miller replaces Capt. T. Sands who departed MMCS to attend an officers course at Aberdeen Proving Ground, Maryland.

**RE-UP NEWS**—Six career non-commissioned officers with a total of 89 years service reenlisted during the past week.

Four Bravo Company men and two Company C soldiers signed on the dotted line. The B Company NCOs included SFC John P. Gavin six years who recently completed 14 years service, SFC Paul Davis (three years) with 18 years of duty, SFC Archie Carnell (three years), NCOIC of the Technical Inspection Branch and SSG O'Neal Poston (six years) who has completed seven years service.

SFC John Stubbert reenlisted for six years after recently finishing nine years of active duty. SFC Jerry New, with 17 years service, signed up for an additional three. Both NCOs are assigned to Charlie Company.

MMCS Career Counselor, SSG Dean Britt, reports that over 66 per cent of eligible personnel reenlisted during the second week of June. 50 percent reenlisted during June's first week.

**AWARDS** — Receiving an Army Commendation Medal during the Commandant's Award ceremony today is 1Lt. Vincent G. Oliver. 1Lt. Oliver is assigned to the Student Officer Company.

William T. Wells (UTC) received a sustained superior performance award and outstanding performance rating. Also awarded outstanding performance ratings are Phyllis M. Gviou (Logistics), John M. Gullick, Jr. (OTD) and Wilferd J. Schmidt (Doctrine and New Ma-

teriel).

The Red Cross Bloodmobile is scheduled to visit the Arsenal again this Friday. Both military and civilian personnel at MMCS are encouraged to visit the Service Club Friday and give blood.

**FREEDOMS FOUNDATION** — Do you like to write? There's an opportunity waiting for you to win anywhere from \$50 to \$1000 for just writing a letter.

That's all — just a 500 word letter.

If you take the time to enter the Freedoms Foundation Letter Awards Program, you may be a winner. The Foundation is offering \$1,000 to the writer of the best letter among active duty personnel. Also, there are 50 awards of \$100 each and 50 awards of \$50 each for active duty members. The top 10 winners, regardless of service, will be invited to Valley Forge, Pa., to receive the awards at the annual Freedoms Foundation presentation ceremony on George Washington's Birthday, Feb. 22, 1970, followed by a trip to Washington, D.C. Duplicate awards will be given in the Reserve category.

"My Hopes for America's Future" is the subject for the 1969 contest. The letters must not exceed 500 words and should be sent to the Foundation by Nov. 1. For more information on the contest, contact the MMCS information office.

**VISITS** — A former Commandant of the Missile and Munitions Center and School returns Friday for a speaking engagement at a Dining Inn to be held in the Officers Club.

Brig. Gen. Erwin M. Graham, one of the founders and later the missile school's commandant from mid-1965 until August 1967, will also address a class of officers in OTD Friday afternoon and make

RESERVIST uncrates ammunition boxes during two weeks of summer training at MMCS.

SOLDIERS from the 802nd Ordnance Company (Ammo) prepare ammunition boxes for shipment to combat units.

some video tapes for classroom use at MMCS.

Gen. Graham is presently Commanding General of the U.S. Army Procurement and Supply Agency in Joliet, Ill.

**FAREWELL** — The school's senior enlisted men bade farewell Friday night to 10 departing senior NCOs. The semi-formal affair, held

quarterly in the NCO Club, was attended by approximately 150 senior enlisted men and their wives.

School Brigade CSM G. A. Self, presented pen sets to the following departing individuals: SFC Clyde Jones, SFC Vernon Dorton, SFC Rueben Patton, SFC Arthur Williams, SFC Albert Osman, SFC

Roger Simond, SFC Billy Faircloth, SFC Peter Buenger, SFC Erich Stielow and SFC Alfred Nollmer. The latter two are German students who are returning to their homeland. Welcomed into the ranks of the senior enlisted grades were SFC N. Lewis (Hawk Maintenance Branch) and SFC C. J. Shamus (TV Department).

The new Volvo 164 is here.

**THERE'S A GOOD PLACE!**—Floyd Hennessee isn't a traffic director: he's custodian for Bldg. 5400. But he obligingly posed for this picture to illustrate a newly opened parking area for Research and Engineering Directorate employees. Thanks to Hennessee's suggestion, some 16 additional parking spaces on the west side of Bldg. 5400 are available on a first come, first served basis.

## Early Bird Saves Shoe Leather

People who come to work early at the Army Missile Command's Research and Engineering Directorate might not want a worm but there are other compensations.

Col. Nils Bengtson, boss of R&E, has authorized 16 new parking spaces on the west side of Bldg. 5400.

These spaces are close in and assure almost 'drive in' access to the building for employee parking.

The additional spaces, carved from what once was a 'secured area', are located between A and B wings. They were opened for free parking following a suggestion by Floyd Hennessee, building custodian.

There's only one catch to the offer.

You've got to be an early bird to get the worm, uh, parking place!

## BONANZA AUCTION SALE

**SATURDAY, JUNE 28 AT 1:08 21/30 P.M.**

234 ACRES OF THE MOST SOUGHT AFTER LAND IN HUNTSVILLE, ALABAMA, PART ZONED HEAVY INDUSTRY, PART NOT ZONED, SOLD IN 21 TRACTS, COMBINATIONS, THEN AS A WHOLE; HIGHEST PRICE DETERMINING SALE. LOCATED IN THE CITY LIMITS OF HUNTSVILLE ON GREEN COVE ROAD, 3/8 MILE OFF MEMORIAL PARKWAY OR HIGHWAY 431. BELONGING TO THE HALL ESTATE, BEING SOLD FOR DIVISION.

The Chancery division of the Circuit Court of Madison County has ordered the **BOB KELLER REALTY & AUCTION COMPANY** to sell on the premises the 234 acres, more or less, belonging to the Hall Estate. This property fronts 3,520' on Green Cove Road, soon to be a four lane road, and is some of the finest land for heavy industry to be found in Madison County. It is located only a short distance from the Tennessee River, within 3/4 mile from the Automatic Electric Company's new plant that is working 1,000 to 1,500 now and will soon hire between 3,000 and 5,000. There is approximately 2,600' of N&C&St. L railroad track on the property and a spur line already on one tract. **THE PROPERTY HAS CITY WATER, GAS, SEWER, IS LEVEL AND READY TO BUILD ANY KIND OF INDUSTRIAL PLANT.** Since Huntsville has become an industrial city, rather than depending on one industry to keep the prosperity going, it has an announcement this week of two more large industries moving to Madison County and Huntsville.

### AN INVESTMENT OPPORTUNITY!

This tract of land located within the city limits of Huntsville, just off a major highway offers the investor or speculator a certain appreciation. With increasing demands for industrial sites, home sites or for small acreage and with the influx of industry, these 234 acres are directly in the path of this city's growth. With its excellent commutability it represents an opportunity for developers or individuals to acquire land that is not only exceptional and desirable at present but will increase in value with the logical growth of the city in this direction.

### THE TRACTS WILL BE OFFERED AS FOLLOWS:

**TRACT NO. 1:** Fronts 200' on Green Cove Road and is an exceptional tract for any kind of industry. It has a spur tract on the west side and there are several farm buildings on the tract. It consists of 6 acres, more or less, with excellent building sites.  
**TRACTS 2-9:** Each front 200' on Green Cove Road and consists of 6 acres. Tract No. 2 has a building and has several good building sites. All of these tracts are zoned heavy industry. Water, sewer, gas and all utilities are available.  
**TRACT NO. 10:** Fronts 490' — on Green Cove Road and consists of 7.5 acres, more or less, having Aldridge Creek as one boundary. This is an ideal tract having everything desired to build any kind of heavy industry.  
**TRACT NO. 11:** Fronts 430' plus — on Green Cove Road and has for the west boundary Aldridge Creek. It consists of 20.6 plus acres, all level, and is 940' plus—across the back.  
**TRACTS 12, 14, 15** All front 200' on Green Cove Road and consist of 6 acres and have excellent sites for any kind of heavy industry.  
**TRACTS 16 and 17:** Each consists of 12 acres, more or less, with 200' frontage on the highway and going back 2,600'. The back of these tracts has not been zoned and can be used for residential or commercial property.  
**TRACT NO. 18:** Consists of 12 acres, more or less, with N.C. & St. L. Railroad as the east boundary. Also running through this tract is a spur of N.C. & St. L. Railroad. There is one small building on this tract.  
**TRACT NO. 19:** Consists of 19.6 plus — acres having a 30' egress and ingress from Green Cove Road. This is one of the finest tracts for heavy industry to be found in Huntsville. It has the N.C. & St. L. Railroad as the west boundary.  
**TRACT NO. 20:** Consists of 19.1 acres, more or less, with 990' plus — on the north side, 250' on the south side, 1300' on west side and Aldridge Creek as the east boundary. There is a 30' egress and ingress from Green Cove Road on the tract.  
**TRACT NO. 21:** Consists of 38.5 acres, more or less, having Aldridge Creek as the west boundary, is 1,950' on north side, 1,300' deep and 1,660' across back. There is a 30' egress and ingress from Green Cove Road.  
**TRACT NO. 22:** Consists of 18 plus — acres, 600' x 1300' with a 20' egress and ingress from Green Cove Road. There are several good building locations on this tract.  
**THIS 234 ACRES OFFERS A WIDE CHOICE FOR HOME BUILDERS, FOR HEAVY INDUSTRY SEEKERS AND DEVELOPERS TO SELECT THE AREA THEY PREFER. MOST OF THIS LAND IS OPEN, BUT THERE IS A SMALL AMOUNT OF WOODED AREA WHICH WILL PROVIDE SHADY HOME SITES. ALL THE LAND IS LEVEL AND WELL DRAINED AND CAN BE DEVELOPED EASILY WITHOUT THE EXPENSE OF A LOT OF GRADING. ALL CITY UTILITIES ARE AVAILABLE WITH A 20' UTILITY EASEMENT AT THE BACK OF ALL TRACTS.**

This property will sell for division among the heirs and your price will be our price. So be with us under the big tent on June 28.

**TRACTS 1-17 ARE ZONED HEAVY INDUSTRY. TRACTS 18-22 HAVE NOT BEEN ZONED. TRACTS 1-17 ARE INSIDE CITY LIMITS OF HUNTSVILLE, TRACTS 18-22 ARE OUTSIDE CITY LIMITS.**

**TERMS:** 25% down sale day. To be deposited with the Register in Chancery of the Circuit Court of Madison County, Alabama. Balance due and payable upon approval of the sale by the Court. Warranty deed to be issued by the Court on its approval.

**POSSESSION:** With delivery of deed.

**FREE FREE FREE FREE**  
**\$100 CASH AND TRANSISTOR RADIOS**  
**NOTHING TO BUY**

**So You Ask . . .**

**WHY PLAY OUR GAMES ON SUNDAYS ? ? ? ?**

**Contrary to popular belief . . . Sundays weren't really intended for watching Pro Football on television.**

**Sunday afternoons are for the same family togetherness you enjoy on Sunday mornings at Church.**

**Sunday afternoons are for family diversion.**

**Sunday afternoons are for family entertainment . . . music—marching—precision marching—baton twirling and exciting Professional Football.**

**The quite a bit of difference between TV watching and the thrills provided by the live action.**

**So you see . . . you can still have your football excitement . . . with all the other goodies thrown in.**

**SO . . . WOULD YOU CONSIDER RE-PHRASING THE QUESTION ? ? ?**

**Your Alabama Hawks didn't switch to Sunday as a drill, they are stressing family entertainment.**

**Enjoy your family on Sunday...then back to the routine on Monday.**

**Season Ticket Prices**

**AND**

**Family Plans Available**

**CALL 534-HAWK or 536-3391**

**WATCH YOUR HAWK SHOW EACH SATURDAY 5 P.M. ON WAAY-TV-31**

**"Play Hawk Football and Win" on WAAY Radio-1550 on Your Dial**
