FLEW 750 MISSIONS—Col. Preston B. Cannady, (right), Director of the Arsenal Support Operations Directorate, U.S. Army Missile Command, pins the Air Medal with 30 Oak Leaf Clusters on Capt. Robert M. Leigh. Capt. Leigh won the medal flying 750 missions over hostile territory in Vietnam from May 1968 to April 1969. He is assigned to the Aviation Branch at Redstone Arsenal.

Subject Of Conference To Be Design Experiment

Many of the nation's top scientists, consultants and educators will gather at Redstone Arsenal next week for the Fifteenth Conference on the Design of Experiments in Army Research, Development and Testing.

Sponsored by the Army Mathematics Steering Committee for the Army Chief of Research and Development, the conference will be hosted by the Army Missile Command Oct. 22-24.

Guest speaker at a banquet Thursday night at the Redstone Arsenal Officer's Open Mess will be Dr. Oskar Morgenstern, Chairman of the Board, Mathematica, and Professor of Political Economy at Princeton University. Master of ceremonies at the banquet will be Dr. John L. McDaniel, Technical

Director of the Missile Command's Research and Engineering Directorate.

Panelists for many conference sessions will include: Robert Bechhofer, Cornell University; O. P. Bruno, Army Ballistics Research and Development Center; A. C. Cohen, University of Georgia; Bernard Harris, Mathematics Research Center, U. S. Army; Boyd Harshbarger, Virginia Polytechnic Institute; H. L. Lucas, North Carolina State University; and Herbert Solomon, Stanford University.

The conference will include papers by several distinguished scientists.

A two-hour tour of Army and NASA facilities is planned for the group Friday afternoon.

Support Operations Gives Biggest Donation Total

Voluntary contributions to the 1970 Combined Federal Campaign in the Huntsville area are rolling into drive headquarters in record numbers with \$353,275 already accounted for and slightly over half of the assigned personnel listed as participants.

The second weekly report submitted by Robert Malone, the Area CFC Coordinator, indicated that all pre-campaign objectives are well within reach.

Malone pointed out that the drive officials sought a voluntary contribution from all Federally employed personnel in the area with a total gift equal to or better than the \$500,000 that was raised a year ago.

Department of Army personnel, including the employees of the Thiokol Corp., and the Rohm and Haas Co., have turned in dona-

tions totaling \$243,049. Sixty-eight per cent of the assigned personnel are listed as contributors.

The Marshall Space Flight Center has also gotten off to a fast start in the drive with 52 per cent participation and a total contribution of \$109,807.

The remaining \$419 was received from personnel of the Economic Development Administration. Eight more Federal agencies in the area are included in the drive but have not reported their activity to date.

This week's report reflects increased receipts but decreased participation in comparison with the same period a year ago.

After two weeks in the 1969 drive 71 per cent of the assigned personnel had made contributions totaling \$287,163.

(See SUPPORT on Page 2)

DEFENSE SUPPLY ASSOCIATION BEING FORMED

A chapter of the Defense Supply Association is being formed in Huntsville.

Members may be military, government employees, businessmen or students who have an interest in defense supply.

Among the objectives of the association are: promotion of close cooperation between the Defense Department and the industries with which it deals; and promotion of interest in Logistics as a

AUSA Holds Annual Meeting This Week

Army weapon systems managed from U. S. Army Missile Command Headquarters at Redstone Arsenal were prominently represented this week in exhibits and displays as a part of the Association of the U. S. Army's Annual Meeting in Washington, D. C.

Featured as an outdoor Army display in front of the Sheraton Park Hotel where the meeting was held were three pieces of Pershing 1-A equipment, the erector launcher, the missile and the XM 757 tractor.

Where to answer questions and demonstrate the equipment were SFC Ronald Bruno, Jr., and SP5 Kenneth G. Fulmer, Jr., both from Co. "D" School Brigade, U. S. Army Missile and Munitions Center and School.

A full-scale model of Dragon, medium anti-tank assault weapon had a prominent spot in the McDonnell-Douglas Corporation display in the indoor exhibit hall.

The first production model of TOW, being produced for the infantryman as a heavy anti-tank assault weapon system, was displayed by the Hughes Aircraft

Company along with the TOW helicopter sight and missile launcher.

The Ling-Temco-Vought display contained full scale hardware of the Lance missile on its tracked vehicle and techniques of Lance

MOST CIVILIANS

William T. Weissinger, a past president of the Tennessee Valley Chapter, AUSA, Monday accepted for the chapter an award for the largest civilian membership in the association. The award was presented during the opening session of the association's annual meeting in Washington, D. C.

propulsion were shown by North American Rockwell, Rocketdyne Division. Lance is a surface-to-surface ballistic missile being developed to provide greater fire support to Army Divisions.

A full-scale Shillelagh missile, designed as main armament for armored combat vehicles, was in

Colonel Jesse Fishback Joins Safeguard Command

Col. Jesse L. Fishback has joined the Safeguard System here and assumed the duties of Chief, Production Engineering Division, Production and Logistics Directorate.

He joined the Command after a tour of duty in Vietnam where he served as Commanding Officer, 937th Engineer Group (Combat) and later as Chief, Military Operations Division, Engineer Section,

Headquarters, USARV. His prior service also includes a tour in the Corps of Engineers Ballistic Missile Construction Office in Los Angeles.

The 50-year-old Mingo Junction, Ohio native graduated from West Point in 1943 and received a Master's degree in civil engineering from the University of Illinois in

(See COL. FISHBACK, Page 2)

POSTHUMOUS AWARD—Brig. Gen. George H. McBride, Acting Commander of the Army Missile Command, presents to Mrs. Anna Little of Huntsville medals awarded posthumously to her son, Sgt. Donald L. Cline. Part of the citation for Sgt. Cline, a rifleman with Company D, 1st Battalion, 4th Infantry Division, read: "When his company was attacked by an enemy force in Vietnam, Sgt. Cline led an assault on the enemy position. Although wounded, he continued to fire on the enemy until his squad reached safety. His bravery and intense desire to save the lives of his comrades at the risk of his own were the main factors in the defeat of the enemy forces." Among medals awarded for "conspicuous gallantry" was the Silver Star.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesdays. The publisher will receive editorial content for publication in the Rocket only through the information Office, Army Missile Command, Redstone Arsenal, Ala., 35809, Bldg. 5250, Room A-136, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanted—is 10 a.m. Monday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$7.42 a year, or \$4.00 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

Rocket Ruminations

Government is a trust, and the officers of government are trustees; and both the trust and trustees are created for the benefit of the people.
—Henry Clay

A Privilege And An Honor

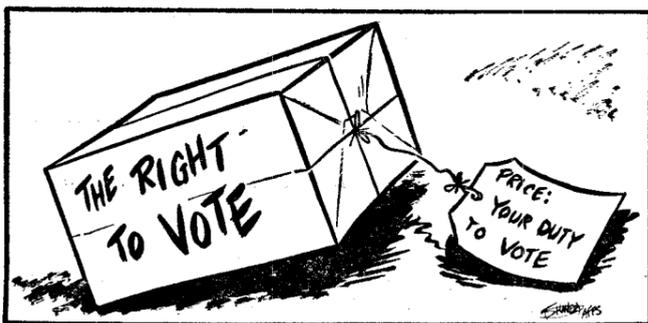

Back in 1789 and again in 1792 the Federalist party put up a candidate for President. He was George Washington, and he had no opposition in either election.

The popular vote in those days is unknown but the Electoral College gave Washington 69 and 132 votes.

The first Presidential election in which there was opposition was in 1796 when John Adams, a Federalist, defeated Thomas Jefferson, a Democrat Republican, 71 to 68.

It wasn't until 1824 that a popular vote record was kept. The count was 105,000 for John Quincy Adams and 155,000 for Andrew Jackson. (And because neither candidate received a majority, Adams was elected by the House of Representatives.)

In 1968, more than 72 million popular votes were counted. Voting interest has broadened. Some persons mail home

ballots from half way around the world. A few states permit 18-year-olds to vote.

The interest factor is of paramount importance. If eligible persons do not have enough interest in candidates and elections to vote—then those eligible delinquents have flimsy grounds upon which to launch a complaint about activities of office holders, or the state of affairs in general.

Several states are holding off-year elections this fall. The well-being of the citizens in those states should be considered by every voter, whether that voter be at home or stationed overseas.

Good citizenship makes voting an obligation. It also is a privilege. The word "privilege" should be given full consideration—that privilege can be lost under certain conditions.

Also, that privilege is something that millions of people around the world are denied. They do not have the right to vote for their leaders. And many who do have such a "right" are denied honest elections.

Americans have the right to vote and it should be looked upon as one of the most precious rights Americans have ever known.

Keep that in mind.—AFPS

AUSA MEET

(Continued From Page 1)

the display of Aeronutronic Division of Philco-Ford. Also presented by Aeronutronic were photographs and a mission explanation of the Chaparral air defense missile system and LOCAT, the firm's proposal for The Missile Command's Ballistic Aerial Target System (BATS).

SAM-D, planned for both battlefield and continental air defense against high performance aircraft and short range missiles, was represented by a half-scale model in the Martin Marietta Corporation display and by photographs in the Raytheon Company display. Martin-Marietta also had half scale models of Pershing 1-A and the Sprint missile.

A Redeye and launcher were

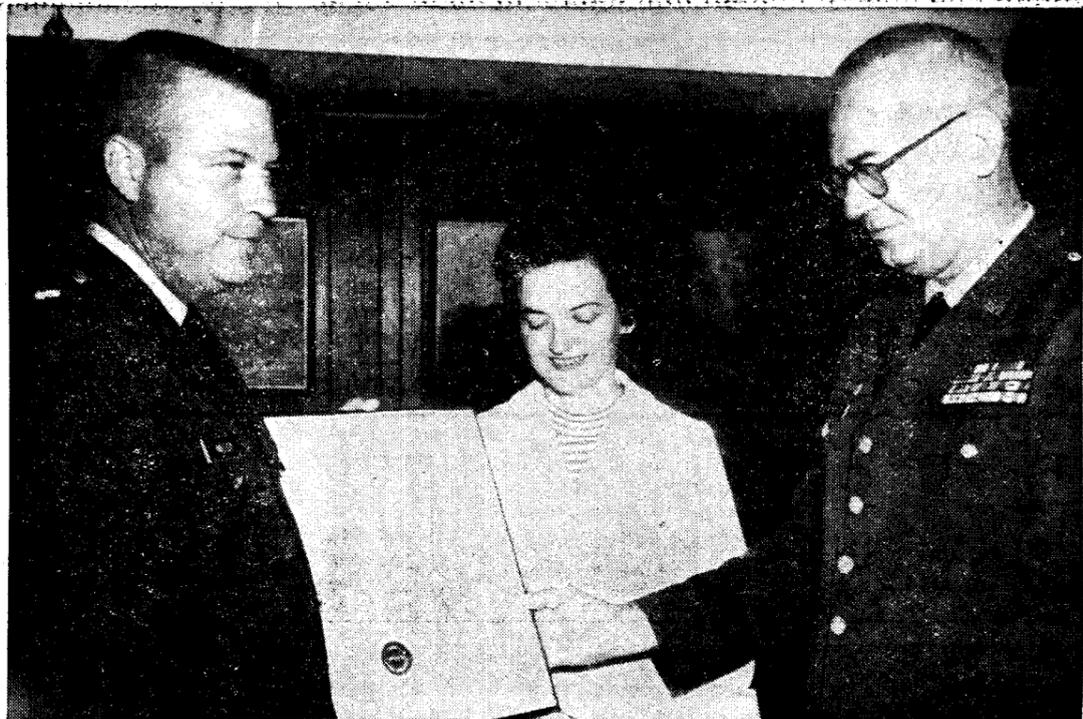

shown by General Dynamics Corporation, Pomona Division, and a launcher and motor were in the Atlantic Research display.

Firebee, a target missile produced for the Army Missile Command, was displayed by Ryan Aeronautical Co.

Models of the Land Combat Support System, another Missile Command development, were displayed by Radio Corporation of America and Litton Industries displayed Battery Terminal Equipment, AN/GSA-77.

Civilians Earn Certificates In Defense Procurement

Ten civilian employees of the Procurement and Production Directorate have been granted certificates in recognition of their

COL. MILLER HONORED—Lt. Col. Wayne B. Miller, Jr., left, receives the first oak leaf cluster to the Joint Service Commendation Medal from Brig. Gen. George H. McBride. Mrs. Miller, center, smiles her approval of the award. Col. Miller, Product Manager for MARS II, received the commendation for outstanding service as Foreign Military Sales Officer, Army Section, and as Chief, Joint Sales Branch, Joint Logistics Section, Headquarters, Military Assistance Advisory Group, Federal Republic of Germany from June 1966 to December 1968.

COL. JESSE L. FISHBACK

COL. FISHBACK

(Continued From Page 1)

1947. He is an active member of the Society of American Military Engineers.

Col. Fishback has served overseas tours in China, Burma, India, Japan, Korea, Germany, and Vietnam. His stateside tours include Virginia, Washington, New York, Kansas, Texas, Alabama, Tennessee, and the District of Columbia.

Included among his awards and decorations are the Legion of Merit with two Oak Leaf Clusters, Bronze Star with Oak Leaf Cluster, Air Medal with Oak Leaf Cluster, Army Commendation Medal, Vietnam Armed Forces Honor Medal 1st Class, and the Vietnamese Medal for Technical Achievement.

He is married to the former Jane Storer of Spokane, Wash., and they have six children, John (22), Jill (21), Jo Anne (18), James (17), Jerome (10), and Jeffrey (7). John is scheduled to graduate from West Point next year.

having completed the Defense Procurement Management Extension course of the Army Logistics Management Center.

The self-development course provided by the Center at Ft. Lee, Va., represented 132 hours of home study for the women.

The certificates were presented to Lorene Rice, Sarah McMurtrie, Mildred Wilkins, Mavis Hurley, Irene Chapman, Effie Millsaps, Wilma Reed, Linda Powell, Jane Cofer and Ruby Putman.

SUPPORT

(Continued From Page 1)

The payroll deduction method of contributing continues to be favored by contributors with \$285,177 received in this manner. Cash donations total \$63,098.

The Procurement and Production Directorate maintained the lead among Army agencies in participation, having reached 77 per cent. The Directorate of Arsenal Support Operations leads in total contributions with \$35,775.

Value Engineering Projects Eligible for Cash Awards

Value Engineering in the Missile Command took on a new dimension during the past year.

Cash awards totaling \$5,690 have been paid MICOM personnel in recognition of their VE cost reduction effort.

The VE office, Procurement & Production Directorate and the Incentive Awards Branch, Civilian Personnel Office have established a procedure to process all completed VE projects for incentive award consideration.

Thirteen cash awards ranging from \$15 to \$1,485 have been paid to Missile Command personnel. Among the leaders are Supply and Maintenance with \$2,640 awarded, Procurement & Production with \$1,265 awarded and Arsenal Support Operations with \$1,030 awarded.

Sharing in the awards were personnel of Research and Engineering with awards of \$490 and the Pershing Project with awards of \$265.

The procedures to initiate these awards are simple. After a Value Engineering action has been implemented under VE program procedures and validated for reporting under the Cost Reduction Program, the Value Engineering Office forwards the necessary

papers to the Incentive Awards Branch for consideration under the same procedures as if the originator had submitted the item as a suggestion.

Under this arrangement, the originator is relieved of the added job of writing up the suggestion and the originator's organization receives credit against its Value Engineering and Cost Reduction goals.

In each Directorate/Center and Project Office, a Value Engineering co-ordinator is available to provide advice and assistance in developing and submitting Value Engineering proposals. Personnel of the Value Engineering Office are available to provide additional assistance to Missile Command personnel in reducing cost and in earning recognition for both themselves and their organization for their achievements.

DEFENSE

(Continued From Page 1)

professional career in the military services. Logistics is defined as "the military science of supply and transportation."

Other aims are: to create a spirit of mutual helpfulness and cooperation among the Armed Services, Coast Guard, the Organized Reserves and the National Guard; and through its official publications, to keep members posted on instructions, activities and developments.

Those interested in becoming members of the organization should watch the Daily Bulletin for future meeting announcements.

Safeguard Wives Schedule Coffee

The wives of the officers of the Production and Logistics Division of the U. S. Army Safeguard System Command will be hostesses for the monthly Safeguard Coffee. Mrs. E. V. Lau is in charge of the arrangements for the coffee. This event will be on Monday, Oct. 20 at 10 a.m. in the Sentinel Room of the Redstone Arsenal Officers' Open Mess.

The permanent reservations list will be in effect. Those wishing to make reservations should call by Thursday evening, Oct. 16. Mrs. Robert Marcotte 837-6540, Mrs. Nell M. Hopkins 837-0315, or Mrs. Lau 837-6810. Cancellations also close Thursday evening, at the above numbers.

RSA Wives Welcome Decatur Visitors

Eight visitors from Burning Tree Country Club were among the competitors who played with the Redstone Arsenal Officers Wives Golf Group last week on the Arsenal course.

Martha Napper took honors for low gross, Erlene Dials for low net. Low putts were scored by Billy Shuput, the most by Louise Hix.

Elizabeth Barnett was high scorer on the five hole, Alma Hendley and Myrtle Lucket tied for high on eight, and Patch Allen and Lella Mullins were high on eleven and sixteen respectively.

HARVEST BALL SUCCESS—Some of the 350 persons who attended the Seventh Annual Harvest Charity Ball Saturday night at the Redstone Officers Open Mess go through the buffet line at the star-spangled event. Thousands of glittering silver stars decorating the

ballroom carried out the theme "Stairway to the Stars." Mrs. Robert C. Marshall was honorary chairman and Mrs. E. M. Ridlehoover was general chairman for the Ball.

Kathleen Jones Receives Highest NDTA Recognition

Kathleen P. Jones, Post Transportation Division, Arsenal Support Operations Division received the Distinguished Service Award at the 24th Annual Transportation and Logistics Forum. This award was presented recently at the Regency Hyatt House, Atlanta, Georgia by Welby M. Frantz, na-

tional president of the organization.

NDTA is an organization of professional men and women who represent all modes of transportation, all branches of the military and all agencies of Government concerned with commercial transportation and emergency transpor-

tation plans. Mrs. Jones is one of 15 selected from a membership of approximately 13,000 to receive this award. She is a charter member of the Huntsville Chapter and has held elective or appointive office almost continuously since the chapter was organized in 1960.

The Distinguished Service Award presented to individuals who have made a most outstanding and commendable contribution to the purposes and objectives of this

association.

The Huntsville Chapter also received the Distinguished Chapter Award for excellence in advancing the preparedness programs of NDTA. Other chapter members of MICOM are: Dorothy Sherrill, Stan Wilkins, Edna Armstrong, Virginia Arnold, Hattie Blades, Flora Ferguson, Adell McDonald, and Ben Teeter. The Commanding General, U. S. Army Missile Command is Honorary President. SAFLOG members are: John P. McNeely, Robert E. Stone, Reginald

A. Peltier, Col. Thomas L. Stovall, and Col. E. G. Topham. Virgil R. Colvin, Safeguard System Command is also a member.

PING PONG TOURNEY

A Post-Wide Pingpong tournament will be held at the Service Club on Sunday at 3:30 p.m..

Enlisted men wishing to enter the contest may register at the Service Club Sunday afternoon.

A trophy will be awarded the winner.

DISTINGUISHED SERVICE—Kathleen Jones accepts the National Defense Transportation Association's Distinguished Service Award from Welby N. Frantz, national president of the organization during the recent 24th Annual Conference in Atlanta.

Women See Demonstration Of Toastmistress Meeting

Arleta Martin, Federal Women's Program coordinator, and Lucy Grace, Training and Development Division of the Civilian Personnel Office were hostesses for a demonstration meeting by the Huntsville Toastmistress Club for women at the Army Missile Command.

The meeting was held in the auditorium of Missile Command headquarters building and was designed to instruct the 125 Missile Command women of Toastmistress goals of developing the ability to communicate and to be a leader. Training and Development is sponsoring a pilot club for interested

Communications Seminar, Art Show Set October 21-23

Ruth E. Giller, noted lecturer on civilian applications of scientific developments in the space program, will be the keynote speaker at the Ninth STWP/ATA-Huntsville Technical Communications Seminar, Oct. 21-23, at the Jetport's Skycenter Hotel. Mrs. Giller's title will be "You Better Believe It."

Mrs. Giller is employed by the Cape Kennedy Area Chamber of Commerce as head of the Speaker Bureau. Before coming to the United States in 1952, she received her education at the University of London in veterinary medicine and institutional administration. She was employed by the Zoological Society of London to administer children's activities at Regent's Park and became a well-known radio and TV personality with her own show "Animal's Tea Party."

Mrs. Giller has served as club president, council chairman and regional secretary of International Toastmistress Clubs and is listed in Community Leaders of America.

"Communication for the 70's" is the theme of this year's seminar. The annual event is sponsored by the Society of Technical Writers and Publishers and the Association of Technical Artists.

Speakers of national prominence will present the latest advances and future forecasts in technical communication during the three-day program. Jury selected art from international entries will be displayed. The technical art awards will be presented Thursday evening, October 23, at the Awards Banquet. Henry N. Ehrlich, director of special projects in entertainment, Commonwealth United Corporation will be guest speaker.

Diabetes Association Forms H'ville Chapter

A local chapter has been formed of the Alabama Diabetes Association.

The Huntsville Lay Society of the state association has established objectives of carrying on an educational program for its members, assisting in a public education and detection program, promoting the welfare and care of diabetic persons and the advancement of diabetes research.

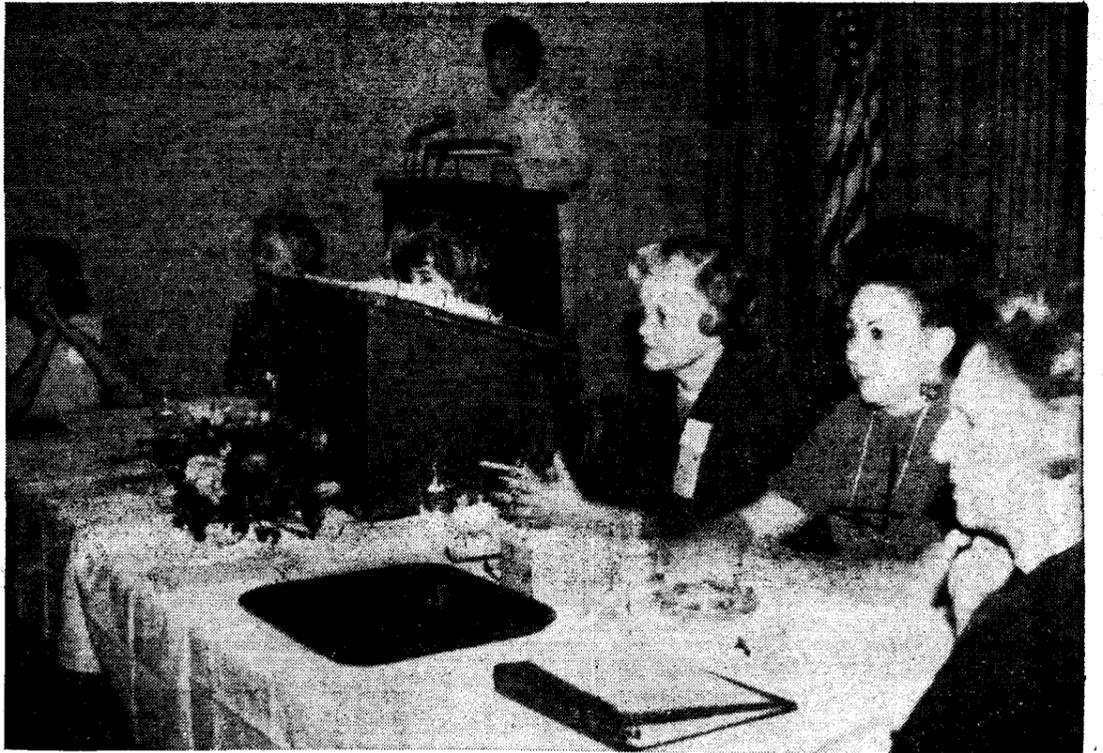

The local group meets at 7:30 p.m. on the fourth Thursday of each month in room 325 of the Madison County Court House. Paul C. Flandermeyer is president of the local society, Mrs. W. A. Estes is vice president.

women at the Missile Command.

The entire gamut of a Toastmistress meeting was presented from the Pledge of Allegiance through evaluation of the meeting and the individual's handling of his portion of the program.

Edith Gibbs, Chief of Data Processing in the Supply and Maintenance Directorate and the chapter president of the Huntsville Toastmistress Club, served as evaluator. Several other long time members, Koki Hardenburgh, Dolli Wiginton, Gere Wyss, Mary Jane Hearn, and Eileen Halleck participated as did two newer members, Martha Reynolds and Kathryn Houston.

Mary Alice Coulter, club president, conducted a concise business meeting—moving into the topic portion in which Mrs. Hardenburgh first called on Toastmistresses participating and then asked for volunteers from the audience. Mrs. Wyss explained some of the club's relationships to the Region; Miss Wiginton served as Toastmistress; and Miss Houston, Mrs. Reynolds and Mrs. Halleck demonstrated speech techniques.

TOASTMISTRESS MEETING DEMONSTRATION—The Huntsville Toastmistress Club, working with the Training and Development Division of Civilian Personnel, demonstrates the techniques of conducting a meeting and speaking off the cuff as well as from prepared material. At the microphone is Lucy Grace of the Training and Development Division; at the table left is Koki Hardenburgh, Dolli Wiginton; partly hidden is Gere Wyss and Mary Alice Coulter, Kathryn Houston, Eileen Halleck and Martha Reynolds.

We like him.

There is a special kind of man who comes to the Dale Carnegie Course.

He comes on his own.

He's not part of a company group, not a member of any executive-training class.

He comes because he's learned that even a college education, job experience and well-developed skills won't necessarily get him the position he wants in life.

He has developed a curiosity about

himself and others. He wants to know what his real abilities are, how they can be developed—and how he can get along best with other people.

This is the kind of man who relies on his own determination to achieve, rather than merely **hoping** he may someday make his goals.

You might say this kind of man doesn't **need** the Dale Carnegie Course.

But he's invariably the one who gets the most out of it.

Delta Nips Eighth ETC In Flag Football Clash

Company D squeezed out an overtime victory over 8th ETC, 1-0, and Company B mastered 95th Calibration, 12-0, to continue their leads in the military flag football leagues.

Co. D, defending champion, had to use the penetration overtime method to get past the stubborn 8th for victory No. 4 in a row in the American League. Overtime is decided by one point, awarded to the team which penetrates the other's territory after four alternating downs beginning at mid-field.

Co. B's win gave them a 3-0 mark in the National League, and another game with Co. A was re-scheduled.

The MP's were the only double winners of the week, 19-12 over 8th ETC and 13-0 over 200th.

Standings:
American—Co. D 4-0, Co. C 3-1, Marines 3-1, 6th ETC 2-1, 8th ETC 2-2, 7th ETC 2-2, ETC 1-3, 9th ETC 1-3, 1st ETC 0-5 (out of league.)

Netters Reap Big Cache Of Silver

Redstone players failed to take any of the team awards in the season-ending Huntsville Industrial Tennis League tourney but did amass several trophies for individual play.

The Civilian Welfare Fund Council was represented in all three of the divisions of play in the meet with military netters competing only in the B Division.

However, the soldiers produced a greater supply of trophies than their civilian counterparts, winning four position playoffs and finishing second in another.

Bob Blair took the No. 1 play-off, Bill Kellenberger, prevailed among the No. 2 players and Mark Peyton was the top No. 6 player. Blair and Peyton teamed to win the No. 2 doubles while Bill Wray was runner up in the third singles position.

The CWF netters corralled four pieces of silver with wins in the B and C divisions along with second place honors in A and C.

Chuck Bowden was the No. 1 runner up in the A Division and Jim Burt topped the fifth position in C Division.

Bill Dunlap and Emil Luft won the third doubles match in B while Burt teamed with Joe Mitchell to take runner up honors in the C Division's No. 1 doubles.

National—Co. B 3-0, MP's 3-1, MICOM 2-1, 200th Ord. 2-2, 522nd Ord 1-1, Co. A 1-2, 8th ETC 'A' 0-2, 95th Calibration 0-3, UTC (out of league).

Last Weeks Games:
MP's 19, 8th ETC 'A' 12, 200th 12, 522nd 8.
Marines 25, 9th ETC 6.
7th ETC 14, 5th ETC 6.
6th ETC 7, 9th ETC 6 (overtime).

Hubbard Fires Avengers Into AMC-Civilian Lead

M. R. Stevens set the Sprinters up and Bob Hubbard finished the job as the Avengers rode a four-point sweep into first place in the AMC-Civilian Welfare bowling league last week.

Stevens shot a 211 in the opening game and Hubbard came back with 216 and 201 as the Avengers scored their second straight sweep and became the third team to occupy the top spot in as many weeks.

Hubbard ended with a 601 total while Stevens stacked 553 maples in the Playmor pits. Earl Sims shot a 549 in the losing Sprinter

Season Ends With Scotch Foursome

The year-end Scotch 4-Some sponsored by the Redstone Officers Wives Golf Group ended with dinner at the Redstone Officers Open Mess where trophies were awarded to the following:

Midge Clisson and Lt. Col. Gerald A. Ludick, first low gross; Billy and Mike Shuput, second low gross; Aline and Frank Creighton, high gross;

John and Mae Levaas, first low net; Allen and Alma Hendley, second low net; and Chilly and Patch Allen, most sevens.

Joy and Reuben Mundy took honors for low putts, Mae Levaas and Allen Hendley landed closest to the pin on eight and Alma Hendley and Ralph Dials hit the longest drives on one.

Strike Outs Win Despite Bagwell

Charles Bagwell out duelled Jim Traglia in individual scoring but when it came to team play the latter's Strike Outs had it all over Bagwell and the Main Frames in the Comp Center Mixed League last week.

Traglia turned in a 533 as the league leading Strike Outs took three out of four points from the Frames despite Bagwell's 546 total that included a 218 game.

The win enabled the leaders to protect a four and a half point lead and knocked the Main Frames out of a second place tie.

The Lucky Strikes took over sole possession of second by winning three from the Jesters with the McCormacks showing the way. Ray hit for 508 and Rita hit 500 even to break the spell that the

Makes Little Difference As Long As Pins Fall

Skill?
Or was it merely that stroke of luck everyone seems to think enhances your bowling?

Whatever it was it certainly helped Wendell Higa, 3rd ETC, last week as he set a new league high for individual scratch series in the MMCS Brigade League.

Higa, a 150-average bowler, posted a 617 to erase the previous high of 616 set earlier in the season by Company C's Dan Parham. In posting the record-shattering series, Higa rolled a pair of 200 games plus a 179. His 236 was the second high game for the evening.

The high game, 246, was rolled by Mike Katz, Headquarters Company. Katz also shot a 600-plus series, hitting a 609.

Ten 500-plus series were rolled

last week. Stan Baker, Company D, topped the list with a 569 and a 202 game. William Snow shot a 208 enroute to his 508 series. Other 500 sets were: Mike Vaughn (532), Parham (518), James Carpenter (513), George Mitchell and Art Brochu (512), Don Reichert (505) and D. R. Leith (502).

After last week's action, Big D, three-point winners over UTC, continues to hold the number one position with a 20-4 record. Chargin' Charlie, who split with Company A, is in second sporting a 19-5 slate.

Third place is occupied by Headquarters Company (18-6) and Company A is fourth with a 15-9 showing. Rounding out the top five is UTC, also with a 15-9 record but trailing Company A by 158 pins in the total pin department.

lanes held over the league's female stars.

The Gutter Dusters accounted for the only sweep in blanking the Bedel Florists as Norm Marsh led with 507 and the Alley Oops followed the lead of Hal Richards to three wins over the Whiskers.

The final match saw the Spares and the Skonks breaking even with Gene Matthews rapping 501 for the Spares.

attack.
The Travellers saw their stay in front limited to a single week in a four-point loss to the Raiders despite a 557 by Jim Watts and the Bombers stayed in second by winning three from the Metro-Cals.

Dan Pollard passed 200 twice in shooting a 576 to get the Tigers a sweep from the Bandits. Jay Foster turned in a 536 as the Voyagers blanked the All-Sports and the Alley Cats followed the lead of Karl Bayer to a shutout of the Jokers. Fred Holmer upended 548 sticks for the Bandits.

Mike Cooper, runner up for bowler of the year award last year, made his seasonal debut with a 561 as the Wonnors took three out of four from the T-Birds and the Rejectors turned in another blank job at the expense of the Lancers.

Golf Group Sets 54-Hole Tourney

The Golf Group sponsored by the Redstone Officers Wives Club will play a club championship tournament Oct. 21, 22, 23 at the Arsenal course—54 holes of medal play without the established season handicap.

The first day's competition will establish handicaps and flights in the tournament and determine the medalist.

Today is the deadline for entering.

through the air in completing a sweep over Cotaco. The lone score for the visitors came on a 65-yard kickoff return just before the half.

Lee Wickersham opened the scoring with a sweep from the 6, and Paul Fortson scored soon after on a keeper play from 16 yards away.

Fortson, who accounted for 181 yards in 15 carries, scored twice more before the half on runs of 50 and 45 yards.

Early in the second half Mike Johnson threw a scoring strike to Fortson from the 23 yard dash after intercepting a Cotaco pass.

The Devils found themselves on the short end of the score when Northern marched 54 yards the first time they had the ball. Steve McKnight got that touchdown back midway in the second period with a 15 yard jaunt a round end.

The second half was all Redstone with the Devil line consistently breaking through to throw Northern runners for losses. They put the winning points on the board with a safety when Wallace Johnson and Scott Dawkins teamed to drop a ball carrier in the end zone.

Dawkins scored an insurance touchdown late in the final period with a sweep from the six following a 63 yard sustained march.

den and Larry Silence accounted for a touchdown apiece as the Rebels raced the fifth straight City League victory at the expense of Southern.

The Arsenal youths were just as impressive on defense in keeping the Southern attack well under control except for a third period drive. Leading the Rebel charge on defense were Jay Linsy, Tom Blackburn, Steve McKnight and Dan Parish.

Hollingsworth and Silence handled the scoring the Saturday night victory with the former crossing the goal line in each half.

Once more it was a third period let up on defense that permitted the visitors to score.

The Raiders piled up 432 yards rushing and added 42 more

Rebs Win Twice—

Arsenal Youths Are All-Victorious

The Arsenal's pee wee footballers turned in another all-victorious week of play last week with the 90-pound Rebels accounting for half of the four winning starts.

The Rebs defeated Southern, 24-8, in a City League encounter on Monday night and repeated with a 22-8 decision over Cotaco in Brindlee Mountain League action on Saturday.

The Raiders followed up the Saturday win by blasting the 130-pound team from Cotaco, 46-6, and the Blue Devils made their record three out of five in defeating the Northern Whites, 16-6, in another City League game.

Two other Redstone teams, the Golden Eagles and the Bulldogs, were idle last week.

Defense Secretary Laird Outlines Basic Policy

(Editor's Note: In a major address to the National Press Club of Washington, D. C., Secretary of Defense Melvin R. Laird recently outlined current Department of Defense policy in the area of decision-making and management procedure. Excerpts from his address on this subject are being carried this week for the benefit for Rocket readers.)

"We are committed, both in principle and practice, to civilian control of the Pentagon. This does not mean, however, that every decision must be concentrated in the Office of the Secretary of Defense.

"In an organization as vast and complex as the Defense Department, such a centralization would mean few decisions could be carefully weighed and many decisions would be postponed indefinitely, or go by default.

Basic Policy

"The basic policy decisions on such things as choice of weapons systems for development, force levels, distribution of forces between missions and parts of the world, and so on, must be made by the Secretary of Defense to insure consistent, effective, and efficient implementation of national security policy set by the President.

"Although such basic policy decisions must be finally made by the Secretary of Defense, I cannot properly make such decisions in a vacuum. For maximum effectiveness, all elements of defense organization must contribute both information and viewpoints to the process. Decision-making must be fully participatory.

"To obtain full participation requires that we permit defense personnel, military and civilian, to express differing opinions freely, even from sometimes limited perspectives without the prospect of external second-guessing and criticism. Since assuming the office of Secretary of Defense, I have encouraged the expression of differences of opinion within DOD and have always attempted to give a fair hearing to conflicting points of view.

"We mean to preserve the principle of free discussion in the decision-making process within Defense by continuing our practices of generating working papers for internal use by the Secretary of Defense. I can only hope that the Congress will permit us to maintain that capability in order to insure that the Secretary of Defense has all the facts before him—the pro's AND con's—before making his decision on major weapons systems.

"We are moving toward a process by which the papers containing a limited viewpoint or preliminary analysis—working papers, that is—will culminate in a balanced paper containing a fair statement of all legitimate viewpoints and alternatives—on the basis of which a decision can be made. The basic content of this decision paper, unlike the working papers, could in the future be

made available to concerned Congressional Committees under appropriate security classifications in response to their requests.

Open Information

"Classification will be held to the minimum required by security, for we are also determined to maintain an open information policy so that the members of your profession and, through you, the American people can have the fullest possible understanding of the programs and the policies that are in effect within or proposed by the Department of Defense.

Decentralized Management

"Once basic policy decisions have been made by the Secretary of Defense, decentralization will be the watchword. Management of the functions authorized by the policy decisions will be delegated down to appropriate levels in the Department, together with commensurate authority to get the job done. When mistakes are made in the management of some functions, I do not intend to rush in and become the manager myself.

"What Dave Packard and I will do, whenever indicated, is find a man who CAN do the job that is being mismanaged. This indicates a third element that will accompany delegation of management responsibility and authority—that element is accountability.

"We believe this approach will lead to better decisions and greater efficiency. DOD is big and complex. No Secretary of Defense can do it all by himself.

"The development of leadership is tied very closely to decentralization. By decentralizing, we hope to get the maximum use of the talent at

all levels of DOD. The question comes down to who will be making the decisions one year, five years, ten years from now. You can't prepare or train a man to lead if you give him no chance to lead.

"As with any course of action, there are pluses and minuses to decentralization. It will bring about more effective administration. But let me be candid. It could also lead to more errors of judgment down the line.

"There has been a tendency in the past for the Secretary of Defense to move immediately across levels of authority to get at a mistake when it became visible. I intend as much as possible consistent with my ultimate responsibility as Secretary of Defense to resist that tendency whether it involves a management mistake or a potential scandal.

"When management responsibility and authority are placed in other hands, and accountability is enforced for decisions and actions taken, it is also necessary to permit your managers to seek their own solutions to problems that inevitably arise in such a complex and far-flung enterprise. The key word here is trust.

"When you pick a man and give him a big job, you have to be willing to let him do the job. As Secretary of Defense I will set the broad policy and keep a strong evaluative capability, but I'll expect my managers to come up with the specific tools and techniques to get the job done.

"To insure a continuing availability of talented people, we have set in motion several things including:

"The promulgation of a new basic statement on 'human goals' which sets forth our manpower principles.

"The establishment of a Presidential Commission on the All-Volunteer Armed Forces.

"The determination to make basic changes in the draft in order to drastically reduce its inequities.

"The launching of a basic review of our ROTC program; and

"The development of a new pay reform proposal which we will soon send to the Congress.

"We have been taking major steps to get control of the weapons acquisition process in order to avoid larger premiums for marginal performance gains, to minimize cost overruns, and to set in motion policies and programs that will bring about basic improvements in weapons acquisition—and in the general management of the Department of Defense.

Significant Response

"These steps have both a short-range and a long-range aspect. In the short run, we have instituted significant reforms to control these problems by more careful monitoring of the steps in the acquisition process. For example, we are requiring more realistic pricing and scheduling at the outset and then we mean to insist that the contractor remain within established ceilings or absorb any overrun that results.

"For the longer run, we have the Fitzhugh Panel hard at work looking over every aspect of the organization and management of the Department of Defense. We

expect major recommendations from that Blue Ribbon Panel that will lead to great improvements in the operation of the Defense Department in the future.

"No system that can be devised for such a large, far-flung and complex entity as the Department of Defense will ever be beyond improvement; but we believe the steps that we have already taken and the ones we will be undertaking will greatly improve the proficiency and capability of the Department of Defense to fulfill its mission."

MEETS TOMORROW

Bill J. King, director of the Huntsville Model Cities Program, will talk to the Federal Government Accountants Association tomorrow night at the Ramada Inn.

His subject will be the purpose and future of model cities in Huntsville. The meeting begins at 6:30 p.m.

Howard Goans, 876-8303 and Harold Peterson, 876-4366 are handling reservations in the Missile Command.

Commendation Medals

Two men recently received the First Oak Leaf Cluster to their Army Commendation Medals: Lt. Col. James W. Donald and Lt. Col. Robert W. Huntzinger.

The basic medal was awarded 1st Lt. David W. Martin, SP5 Vicente V. Jaliq, Jr., SP4 Chuck C. Ogawa, 1st Lt. Max L. Harris, SSM Edgar R. Slayton and MSG Robert E. Krieger.

Madison Centennial Schedule Of Events

THURSDAY, OCTOBER 16

EVENING: 8:00 P.M.—CENTENNIAL QUEEN'S COTILLION AND BALL: Presentation of the seven finalist for the title of Madison Centennial Queen and her Princesses of the Royal Court of Honor. The Queen's Cotillion will be concluded with the seven ladies and Centennial officials leading a Grand March. The march will be followed by a Grand Ball with ladies and gentlemen dancing in old-fashioned regalia. Everyone is invited to join the festive occasion beginning at 8:30 and ending at 11:30 at Madison Jr. High School Gym.

FRIDAY & SATURDAY, OCT. 17-18:

OLD-FASHIONED BARGAIN DAYS

FRIDAY NIGHT: OCT. 17

7:15 p.m.: Pre-spectacle entertainment: Madison Jr. High School band concert.

8:00 p.m.: **PREMIER PERFORMANCE OF "MADISON MEMORIES."** The dramatic Historical Spectacular, spiced with musical comedy, and humor, depicting the thrilling highlights of the history of Madison and the area down through the years to the present day, and concluding with a projection into the future. This production is professionally in a special setting to make multi-level, three dimensional stage over 200 feet long, and with special lighting. With authentic historical costumes, special sound and musical effects, and with lavish use of properties, a cast of over 250 local people will tell the story of Madison in a thrilling, ninety-minute production. The Spectacular will be presented six nights (October 17-22).

During tonight's Premier Performance, the prologue will be highlighted by the announcement and crowning of the official Centennial Queen, and the introduction of her Royar Court of Honor.

SATURDAY: OCT. 18—OPENING DAY MORNING:

8:00 a.m.—Registration of visitors and dignitaries at the Hospitality Center; opening of Centennial Headquarters; formation of Parade at Madison Jr. High.

9:00 a.m.—**CENTENNIAL OPENING SALUTE:** Blowing of sirens, ringing of church bells, blowing of horns announce the Centennial Birthday Party.

9:15 a.m.—Parade begins; Major Centennial Parade featuring bands throughout the area and the States of Alabama and Tennessee, horse drawn vehicles, members of the Spectacle cast, military units, motorized equipment, floats, antique autos, Brothers of the Brush and Centennial Belles in costume, etc.

10:30 a.m.—Official Opening Day Ceremonies by city, county state, centennial officials, and Royal Court of Honor by Madison City Hall.

11:00 a.m.—Special barbecue luncheon on Front Street for former sons and daughters, pioneer citizens, dignitaries, and the public, highlighted with a special recognition program (special recognition plaques awarded) for former pioneers, sons and daughters.

AFTERNOON:

1:30 p.m.—Homecoming football game; Madison Jr. High "Hornets" vs. Randolph "Raiders" at Madison-Monrovia YMCA field. Halftime highlights will be the presentation of Madison Jr. High Homecoming Queen.

EVENING:

7:15 p.m.—Pre-spectacle entertainment at YMCA field: Introduction of visiting guests and dignitaries. Musical concert. 8:00 p.m.—Second performance of "Madison Memories" at YMCA Field.

SUNDAY, OCT. 19—FESTIVAL OF FAITH DAY:

Mornings—Centennial observance in all churches, with sermon emphasis on "One Hundred Years of Religious Endeavor in Madison."

Noon: 12:00-5:00 p.m.—"Art in the Park"—Out-door art exhibit for all ages, west of Madison City Hall and Centennial Headquarters.

Afternoon: 5:00 p.m.—"Old Fashioned Hymn Sing" and Inter-Denominational program at the Spectacle site. Music by

the massed choirs of all churches, and the audiences; program will also feature special musical presentations by talented groups and individuals.

EVENING: 8:00 p.m.—Third performance of "MADISON MEMORIES."

MONDAY, OCT. 20—LADIES' DAY:

MORNING: 8:00 a.m.—Presentation of all Old-Fashioned cooking and sewing contest entries. All ladies of the area are invited to bring their favorite old-fashioned recipes and sewing samples prepared and ready for judging to the Methodist Church Fellowship Hall.

9:00 a.m.—Judging and public viewing of Old-Fashioned cooking and sewing contest entries at Methodist Church (Samples of foods will be available at 11:00 a.m. Luncheon for a fee.)

11:00 a.m.—Ladies Day Luncheon (Nursery available in church for toddlers) All ladies of the area are invited to have lunch at the Methodist Church Fellowship Hall where contest food will be available for small fee. Ladies will need snack lunch for children.

Noon: 12:00—5:00 p.m. "Art in the Park" continuation of outdoor art exhibits on grassy area west of Centennial Headquarters.

AFTERNOON: 1:00 p.m.—"Ladies Workshop" at Madison Baptist Church with demonstrations for house wives of all ages. Prominent hair stylists will demonstrate hair pieces and wig styling; demonstrations of cake decorating and flower arrangements. An unusual demonstration of "De'coupage" (the art of purse making) will also be available for all.

EVENING: 6:30 p.m.—Pre-spectacle Program: Final Judging of Centennial Belles and Old-Fashioned style show of what the working girls and housewives of yesteryear wore. Special recognition will be given for the most outstanding individual Belle costume, the most outstanding Mother-Daughter costumes, the most outstanding Pre-school "Little Miss Centennial Belle costume, and the most outstanding "Miss Teenage Belle" (6-12 years). The gala old-fashioned fashion show will be concluded with special recognition for the oldest authentic costume displayed by anyone.

EVENING: 8:00 p.m.—Fourth performance of "MADISON MEMORIES."

TUESDAY, OCT. 21—"SALUTE TO YOUTH DAY":

MORNING: 8:30 a.m.—"Assembly Program"—at Madison Jr. High Gym. Old-fashioned costume contest for the kids with awarding of prizes. Judges will choose the six (3 boys and 3 girls) most outstanding costumes in the Primary, Intermediate and Junior High Grades. First, second and third prizes will be given in each of the primary, intermediate, and junior high grades. Poster contest for children in grades 1-5 work prominently displayed throughout the school. "Essay and Theme" contest for grades 6-9, with special recognition for outstanding work.

3:00 p.m.—"SOCK HOP" with live rock band in Madison Junior High Gym, featuring the music of

5:00 p.m.—Special "Father-Son, Mother-Daughter banquet at school cafeteria.

EVENING: 8:00 p.m.—Fifth performance of "MADISON MEMORIES" at Madison YMCA field.

WEDNESDAY, OCT. 22—"BROTHERHOOD DAY":

AFTERNOON: 4:30 p.m.—Burying of time capsule. 5:00 p.m.—Family barbecue, with special invitations to all county and surrounding city officials and their families to join with their Madison neighbors for the closing day of the Centennial. Special entertainment for the whole family.

EVENING: 7:00 p.m.—Pre-spectacle program: Final judging of the Brothers of the Brush, and awarding of prizes.

7:45 p.m. Citizenship award by Madison Civitans. Special recognition for outstanding citizen of Madison with awarding of plaque.

8:00 p.m.—Sixth and Final performance of "Madison Memories" at YMCA Field.

VISUAL COMMUNICATION

AN IMPORTANT PROJECT—John Kubilis, seated, Chief, Visual Arts and Presentations Division, discusses an important project with Ron Hertz, his Supervisory Illustrator, Land Combat and Staff Illustration Branch.

Whether they're doing simple line charts or detailed illustrations of missiles and equipment, the Land Combat and Staff Illustration Branch can handle the job.

As a branch of the Visual Arts and Presentations Division, this group of illustrators and audio visual specialists is playing an important role in depicting Land Combat Systems equipment and activities at the U. S. Army Missile Command.

The seven staff members, who provide visual aids for 28 offices have an impressive educational and professional background. Within the group there are three college degrees, one bachelor and two masters, and three with diplomas from commercial art schools. All together the staff has a total of 169 years professional experience, an average of over 24 years per man.

Ron Hertz, Supervisory Illustrator in charge of the Branch, has impressive credentials as an artist and illustrator. One of his paint-

ings, a Russian missile, hangs in the Library of Congress while others have appeared in such national magazines as ARMY and MISSILES AND ROCKETS OF THE WORLD.

A graduate of the University of Georgia with a Bachelor's Degree in Fine Arts, Hertz also has a diploma from the Famous Artists School of Commercial Art and Illustration.

Philip Andrews, an outstanding artist and illustrator in his own right, has paintings of missile systems displayed in the Commanding General's office as well as conference rooms and other staff offices.

He is a graduate of Auburn University with a Master's Degree in Fine Arts and pursues his hobby of painting in his own private studio.

One of the staff illustrators, James C. Roncker, did the original artwork of the Alabama Space and Rocket Center shown on the cover of the 1969 telephone directory for Huntsville.

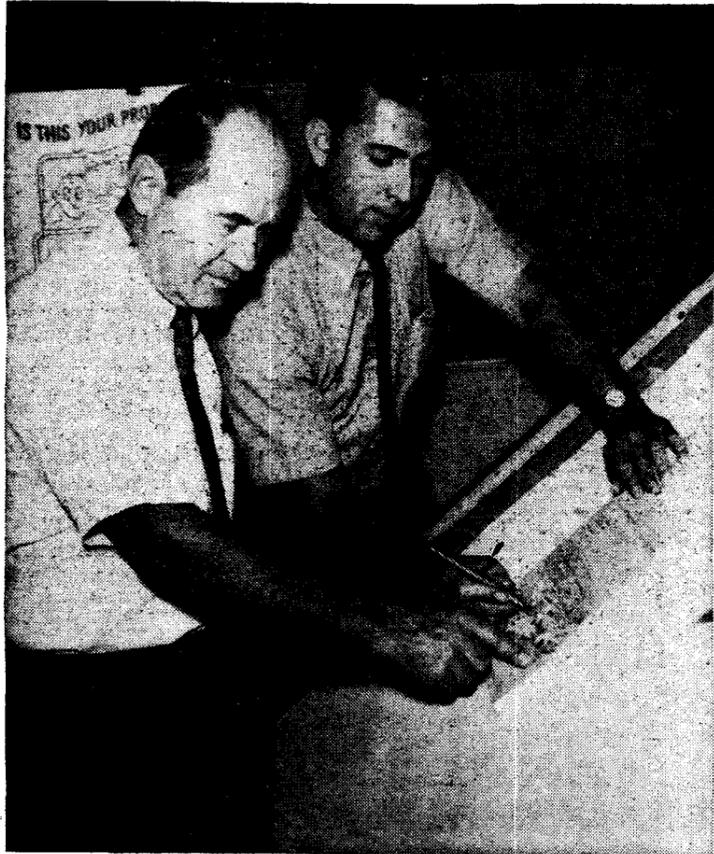

Senator James B. Allen from Alabama, Chairman of the Commission the Alabama Space and Rocket Center, received an original painting done from the drawing on the cover of the telephone directory.

Roncker, a graduate of Famous Artists School of Commercial Art and Illustration, is a veteran artist with 30 years professional experience.

Paul Dahl, illustrator for Pershing, MARS II and Procurement Assurance and Test Management Offices, can lay claim as "Dead End Illustrators" in the Branch. He started his career in commercial art more than 40 years ago and has spent the last 11 years on the Huntsville Arsenal.

In his spare time Dahl is a full-time farmer and bowling enthusiast.

Visual Information Specialist Marvin H. Thomas is one of the most versatile members of the staff and assigned directly to

IT REPRODUCED FINE—James C. Roncker, left, Illustrator, and Ron Hertz, right, Supervisor, look at a 1969 Huntsville telephone directory with a drawing of the Alabama Space and Rocket Center on the cover. Roncker was the artist who drew the original artwork for the cover.

A VERSATILE FELLOW—Marvin H. Thomas, Visual Information Specialist, checks the layout of a brochure before it goes to the printer. Thomas, who is assigned directly to the Chief, Visual Arts and Presentations Division, does illustrations, prepares briefings and other materials required by the division.

ART TAKES MANY FORMS

office of the chief of the division. His duties range from illustrations and brochure layout to briefing aids and line charts for the staff offices.

He is currently working on a mural that will feature work of all of the illustrators in the branch. This mural depicting Huntsville—Space and Missile Progress is destined for the Madison County Courthouse in conjunction with the Huntsville—Redstone Arsenal community relations program.

Thomas graduated from the Kansas City Art Institute and School of Design with a Master's Degree in Fine Art and from the Famous Artists School of Commercial Art and Illustration.

In addition to his artwork, Thomas is widely known for his unique hat collection.

Leon T. Hinds, the youngest member of the staff in age and experience, has painted missile systems that are displayed in many of the project offices. He

is currently working on a landscape that will include all missile systems within Army Missile Command.

Hinds attended Birmingham Southern Art School and has 10 years professional experience.

For John Vickers, Visual Information Specialist, his 18 years in photography and visual aids is an important asset. With the photographic equipment at his disposal, Vickers turns out the big 30 by 40 inch pictures and charts used by the Zero Defects program and other staff offices.

Off the job Vickers is an ardent cyclist who likes trail riding and hill climbing on his speedy motorcycle.

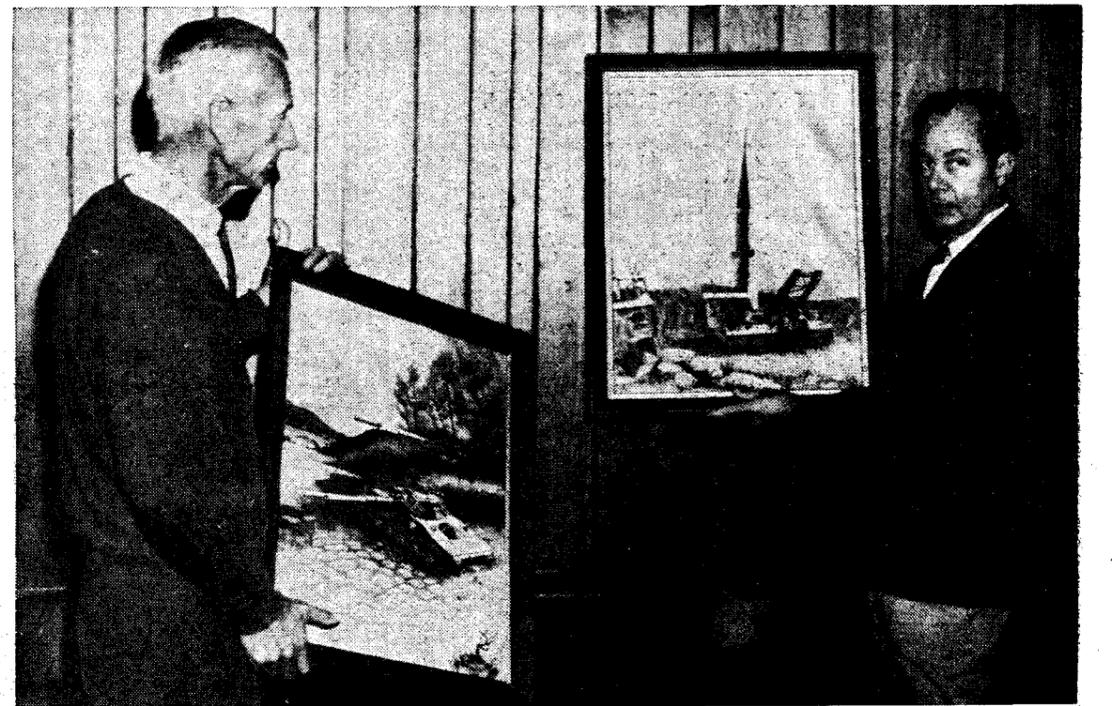

According to John Kubilis, Chief, Visual Arts and Presentations Division, "the Land Combat and Staff Illustration Branch has the professionalism and creativity that make them unique in their field. Their outstanding efforts help tell the story of the Army Missile Command."

BIGGER AND BETTER PRINTS—John Vickers, Visual Information Specialist, takes a 30 by 40 inch print from the automatic processor that will be used in the Zero Defects Program. His facilities are the only ones on the Arsenal capable of rapidly producing such large pictures and charts.

ONE MURAL COMING UP—Leon T. Hinds, youngest illustrator on the staff, is shown working on a mural that depicts many of the Army Missile Command missile systems. Such murals give a graphic idea of the progress made in missiles over the years.

HANG THEM STRAIGHT—Paul Dahl, left, illustrator for the Pershing, MARS II and Product Assurance and Test Management Offices, holds a painting of the Shillelagh Weapons System as fellow illustrator, Philip Andrews, hangs a painting of the Pershing. These paintings show the missile systems operating under field conditions and are displayed in the conference room and project offices.

NAMES IN THE NEWS
 by SP5 Ted Beattie

Six soldiers in 1st Battalion were decorated with the Army Commendation Medal last week in the monthly awards ceremony, Brig. Gen. George McBride presiding.

Gen. McBride, acting commander of Army Missile Command, pinned the ARCOM on Master Sgt. Freeman Chandler, Co. C; SFC Donald Piroli, Co. A; SFC Dan Watkins, Co. D; SFC William Filer, Co. A; SFC Peter Baumann, Co. B; Staff Sgt. Dean Britt, Co. D; SP5 Kerry Lovvorn, Hq. Co.; and SP4 Wilbert Gauthier, Co. D.

Other presentations at the ceremony included Post Soldier of the Month SP4 Robert Blair, Co. B; Battalion Soldier of the Month SP4 Robert Brooke, Co. C; Blood Donor Trophy to C. A. commander Capt. Edward Barry; and Honor Company to Co. B. Commander Capt. Michael Miller.

Sgt. Chandler was cited for service on Okinawa, Sgt. Filer for instruction in the MMCS Doctrine and New Materiel Division, Sgt. Baumann for instruction in MMCS ammunition training, Sgt. Britt for career counseling at Ft. Camp-

bell, Ky., and Sgts. Piroli and Watkins and Specs. Lovvorn and Gauthier for meritorious service in Vietnam.

Spec. Blair worked his way up the Soldier of the month ladder to the top spot post-wide. He is an instructor in electrical branch of the E-M Division at Missile Components Dept.

The 23-year-old Suffolk, Va., native is a 1968 graduate of mathematics from William & Mary College and he was an honor student at MMCS before assignment as an instructor here.

Awards were also in line at 3rd Battalion. Capt. J. L. Osborn named 3rd ETC under Capt. J. A. Brocker as honor company for the month, and one of its members, PFC Timothy Garvin, was screened as Soldier of the Month.

Clement (Slim) Weideman, a technical illustrator at Training Aids Dept. the past 3½ years, received a \$25 cash prize for drawing a demonstrative poster in a

SLIM WEIDEMAN

Zero Defects campaign contest.

Weideman's idea, depicting a man on skis slamming into a tree, will be used throughout the year by the Zero Defects Program Council. His was among 12 winners from over 300 entries.

Five career soldiers boasting over a century composite service received promotion stripes last week, including one to the top enlisted grade of E-9.

Sgt. Maj. Walter Brennan ("I've often been called Will Sonnett and Grandpa McCoy," he laughs) earned the '9' stripes with enclosed star. He is NCO in charge of Ammunition Records Branch, where he has been a chief instructor since returning from Vietnam nearly a year ago.

On Thursday, the day he was promoted, Sgt. Maj. Brennan had served "19 years, nine months and three days."

The other four promotions were from SFC to E-8 for Master Sgts. Willard Campbell, George Cantrell, Archie Carnell and Kenneth Miller.

Sgt. Campbell works in Ammunition Storage Branch and is assigned to Co. B; Sgt. Cantrell instructs in Pershing Division out of Co. D; Sgt. Carnell, also of Co. B, is in the Technical Inspection Branch; and Sgt. Miller of Co. C is an instructor in Nike Division.

A 23-year veteran, Master Sgt. Dudley Berryman, was one of three reported reenlistments. He and Spec. 6 James Hall were sworn in on new three-year hitches, while Staff Sgt. Donald Christian took a six-year oath.

Sgt. Berryman works in Non-

SGT. FRANCIS WATTS SPEAKING . . .

Resident Instruction Dept., Spec. Hall is assigned to 5th ETC, and Sgt. Christian to 9th ETC.

Hold the line a minute, folks! Let's set the record straight for Staff Sgt. Francis E. Watts, supply sergeant at Company B.

He has a private "Trimline Touchtone" in his barracks room, red even, and it's probably an Army-wide first. Sgt. Watts had the phone installed on April 14, thus he refutes the claim of a Key West, Fla., artilleryman who says he is the first soldier to have

a phone in his billets.

Sgt. Watts noticed a picture of Sp4 Don Allan in Army Times (Oct. 8, P. 3) along with the PIO clerk's notion that he was setting precedent.

So, Sgt. Watts called the young soldier to find out when he installed the instrument and found that it was only three weeks ago.

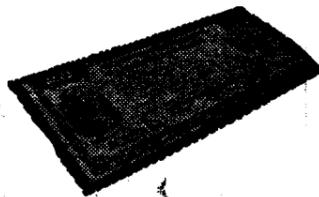

Our Redstone man keeps in touch with Mom and Dad in Ellsworth, Maine, with "four or five calls a month."

Well, just one more item to dust for inspection. . .

Number Nine in a Series . . .
"I Will Prepare Myself . . ."

By MIKE ROTHENBERGER

Staff Representative

Dale Carnegie & Assoc., Inc., New York
 Copyright 1965, Dale Carnegie & Assoc., Inc.

A very prominent businessman went downtown to his office one morning, a couple of hours earlier than usual. He had some things he wanted to do before the employees came to work. No one was there when he arrived except old Tom, the custodian of the building. Old Tom was a faithful employee of many years service to the company. When the boss walked into his office, there was old Tom emptying the ash trays, dusting the furniture and tidying up the place.

When the boss noticed him going about his routine, he said, "Tom, you know, as I look around this place, I can't help thinking what an asset you have been to our organization for all these years. You have kept this place clean and cheerful for our employees and our customers to enjoy." "Tom," he said, "You are an important member of this organization and I want you to know that I appreciate you and all you have done." Old Tom said, "Thank you, boss," and walked out of the room with his dust cloth in his hand.

A few minutes passed and the boss had settled down to work at his desk—and then the door to his office opened and in came Tom. His eyes were moist—there was a tear on his cheek. The boss could not understand. He said, "What is wrong, Tom, did I say something to offend you?" Tom said, "No boss, you didn't offend me, but I have something I want to tell you." "Boss," he said, "You know that I have worked right here in this place for seventeen years—twelve of those years I have worked for you—and this morning is the first

time anyone ever told me that they appreciated anything I do." He said, "Boss, I just want you to know that I appreciate what you said to me this morning more than I have ever appreciated my paycheck that you signed for me. I just wanted to tell you." He then turned and walked out of the room.

It was Professor William James of Harvard who said, "The deepest principle in Human Nature is the craving to be appreciated." He didn't say—the want or the desire—he said the craving. Man will not give us his best for money alone, but he will give us everything possible if we will give him a bit of sincere appreciation.

When we understand this simple principle, when we resolve not to criticize or condemn, but instead, look for every opportunity to drop a word of honest appreciation here and there, we will find that life will take on a new glow. We will find that more and more fine people will be attracted to us. This is a universal principle. We can use it at home, at the club, at the office, or any place else where we associate with other people. When we have made it a habit to give honest praise and appreciation, we shall have taken another giant step forward toward the self-preparation that will enhance our success and happiness. The development of a keen awareness of the thoughts, the feeling, and the reactions of other people is another way that I can "Prepare Myself," and assure that some day my time for a more rewarding life will come.

NEWLY-PROMOTED—Lt. Col. George B. Kuykendall, Jr., Executive Officer of the Safeguard System Command, grins broadly following the promotion ceremony in which he received his silver leaves from BG R. C. Marshall, Acting Commanding General. Also shown are Kuykendall's daughter Deborah Kay (second from left), his son Darryl Lee (center front), and his wife Peggy (right).

Thiokol's Maverick Has First Successful Flight

Thiokol Chemical Corporation-Huntsville Division's solid propellant Maverick motor performed successfully in its first flight test on 19 September, 1969. The first air launched test of the Maverick air-to-ground missile was conducted successfully at the Air Force Flight Test Center, Edwards Air Force Base, Calif.

Launched from an F4 Phantom 2 jet fighter, the rocket powered Maverick in this test was unguided, but possessed the aerodynamic and mass characteristics of the ultimate operational missile. The operational version will be guided by television and is designed to attack small hard tactical targets such as tanks and sealed fortifications.

Maverick has been under development for the Air Force by Hughes Aircraft Company for just

over a year. The test was one of a series conducted jointly with the McDonnell Douglas Aircraft Corporation to demonstrate safe launch and jettison of the Maverick from the F-4. There will be several more air launched tests similar to this one to prove safe operation from the aircraft throughout the F-4 flight envelope.

The Maverick is about eight feet long, one foot in diameter, and weighs about 500 pounds. It will be able to deliver a focused high explosive warhead at various ranges and speeds, including supersonic flight. Its automatic TV guidance will provide the missile with the ability to track its target after launch without any further reference to its parent aircraft. The missile is also designed for use on other aircraft such as the A-7D.

Federal Agencies Help Community With UGF Drive

The Missile Command and the Marshall Center have joined with industrial concerns in the local area in a unique program aimed at increasing the understanding of the objectives of the Huntsville-Madison County United Givers Fund.

Each of the large Federal agencies at Redstone have designated top flight personnel to serve with the Fund's Loaned Executives during the course of the current drive to raise \$1.2 million to support the work of some 32 community services.

Abner McNaron and Dolly Flowers of the Missile Command and the Marshall Center's Donald Laurine are on loan to the United Givers Fund along with 18 other executives representing 14 Huntsville area industries.

Mrs. Flowers is working as a full-time secretary to the Loaned Executives while the others are

available on call to assist organizations in whatever way necessary

to assure a successful conclusion of the once-a-year appeal for funds.

McNaron and Laurine have already answered several calls from industrial concerns in the area for assistance in setting up campaigns among their employees.

Army Signs Pershing Contract

The U. S. Army Missile Command Friday awarded the first increment of a \$19.3 million contract to Martin Marietta Corporation for work related to the Pershing missile system.

Work under the contract includes redesign of the Pershing's transportable power station and modifications to missile equipment.

Amount awarded today was \$5,766,000. Remainder of the contract will be funded on an annual basis.

Most of the work will be performed by Martin Marietta's Orlando Division, prime contractor to the Army for the 400-mile-range battlefield missile system. The Pershing program is managed by the Missile Command, under Col. Rutledge P. Hazzard, Project Manager.

The Pershing is a two-stage, 35-foot ballistic missile. It was deployed with American troops in Europe in 1964 and was later adopted by the West German Air Force. Both U. S. and West German Pershing units are currently assigned a major deterrent role in Europe in support of NATO forces.

Negotiating the contract for the Army was the Missile Command's Procurement and Production Directorate, headed by Lt. Col. James T. Haynes.

TO TOUR PARK

The Service Club has scheduled a tour of David Crockett State Park and Museum Saturday.

The park and museum are located near Lawrenceburg, Tenn. on the site of the Crockett home. A recreation area, including a new 40 acre lake and picnic facilities, is available to the public.

The bus will leave the Service Club at 9 a.m. and return at approximately 4:30 p.m. A picnic lunch will be furnished.

Many Follow Career Study Programs Across Country

Thirty-five Department of Army civilians have been named to engage in career development training programs at government schools, industrial plants and leading college located in eight states, the District of Columbia and in Canada.

The training is available to

local civilian employees under the Command's career development program administered by the Training and Development Division of Civilian Personnel.

The locals will be away from their regular duty stations for periods up to six weeks in length.

The largest group of Redstone personnel is at the University of Oklahoma this week for courses of study leading to a graduate degree. Eight are enrolled for Problems in Human Behavior and three others are taking the International Law course.

In the former group are Charles Schooley, Leonal Breneman and LeRoy McClay, (of SAM-D), Billy Burton (Hawk), Kenneth Jones (R & E), Kenneth Brookings (Mgmt Se), William Anderson (P & P) and Don Roland (SAFSCOM). In the latter class are Finis Self (TOW), J. Paul Schumann (Msl Intel), and William Moore (Hawk).

Four others are at Ft. Lee, Va., this week to attend the Automated Logistics System Development Seminar at the Army Logistics Management Center.

They are John Torzillo, Owen Creel and John Jones (S&M) and Gerald Myers (SAFSCOM).

John Recob (R&E) is at Frankford Arsenal, Pa., for Optical Theory while Bryan Baker (DASO), James Norman (P&P) and Samuel Ennis (S&M) are taking the Basic Digital Computer course at the Tobyhanna Army Depot, Pa. Both

courses are two weeks.

Five MICOM employees are enrolled for advance training at the Army Finance School, Ft. Benjamin Harrison, Ind.

Ernest Blackmon (R&E) and William Douglas (DASO) are attending the four-week AMC Comptroller ship course, and Judy Hanson (DASO) will spend two weeks in Indiana for Programming and Budgeting. The other two, Theresa Brewer and Edward Sobczak (DASO) are studying Military Accounting, another two-week course.

Bester Owen (Msl Intel) is in New Mexico this week for the

Advanced Nuclear Weapons Orientation at the Defense Atomic Support Agency. He is accompanied by Donald Dixon and John Butas (SENSCOM).

Hubert Powell (DASO) spent three days in Toronto, Canada, attending the conference of the National Association of Suggestion Systems.

Walter Zuhn (Metrology) is attending the Intermediate Executive course of the DOD Computer Institute in Washington, and William Freeman (DASO) is spending

two weeks in Chicago for study with the IBM Corporation.

Tharon Harrison (P&P) and Clayton Morgan (Hawk) are taking the Configuration Management at the Defense Weapons System Management Center, Wright-Patterson AFB, Ohio.

Completing the list are three DASO employees who are spending this week in Milwaukee, Wisc., for study of Air Conditioning Controls. They are Talmadge Dixon, Stonewall Sanders and Kenneth Winsett.

\$11.4 Million Pays Service, Support Bills

The Army Missile Command's awards for supporting goods and services totaled approximately \$11.4 million during the past month and went to firms nationwide.

Many small business concerns shared in the awards, including two in Huntsville which will supply repair parts for the Hawk missile system. Semco, Inc. received \$103,985, and Day Enterprises, Inc. was awarded \$57,760.50.

Other Huntsville businesses got awards amounting to more than \$711,000.

The variety of services extends from a blanket purchase agreement with a Huntsville seamstress to furnish sewing on of insignia, altering draperies, repairing table cloths, flags and like items, to supplying food and repairs for office equipment.

The Missile Command Procurement and Production Directorate executed the awards.

SATURDAY
OCTOBER 18
at 10:17 21/29 a.m.

THE EXCELLENT COMMERCIAL AND BUSINESS PROPERTY, TWO LOTS, 103'x308.3' FROM STREET TO STREET WITH ALLEY ON ONE SIDE, LOCATED IN THE GENERAL BUSINESS DISTRICT OF HUNTSVILLE, ALABAMA, FRONTING ON WALKER AVENUE AND HOWE AVENUE AT 127 WALKER AVENUE, BELONGING TO MR. AND MRS. C. A. COOPER.

This valuable business property consists of an 8 room house, 5 baths, 5 kitchens, two large halls; that can be rented as 5 apartments or offices. Most rooms have good carpets; kitchens have built-in stove, wall and floor cabinets, new refrigerators, and inlaid linoleum on the floor. All bathrooms are in excellent condition and some have colored fixtures. The heating system is individual electric room heaters; cooling system consists of four large window A. C. air conditioner units. This house is in excellent repair throughout.

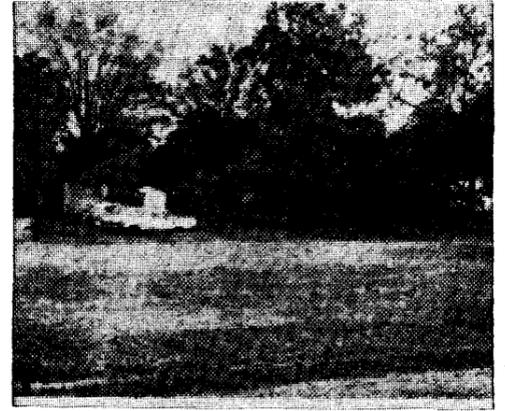

The property fronts 103' on Walker Avenue, 100' on Howe Avenue and is 308' deep with a public alley on the east side. It is zoned commercial and is in the downtown business section only 1/2 block from Quick-Chek on Walker Avenue, and is only two blocks from the new multi million dollar urban renewal downtown district. This is one of the most sought after lots to go under the auction hammer in the downtown area of Huntsville. It is now housing the P & W Electric Company and was renting for \$395 per month before the Electric Company moved in. Since it could not be used as an apartment house and a place of business, the tenants had to be moved out; but there are several renters interested in these apartments now.

WE WILL OFFER THIS PROPERTY IN TWO TRACTS AND THEN AS A WHOLE; THE HIGHEST PRICE WILL DETERMINE SALE.

TRACT NO. 1

Consisting of lot fronting Walker Avenue 103' and going back 154' more or less. The 8 room house used as 5 apartments or 5 offices is on this tract. This property is level, is well located, is on city water and sewer and has a 12' alley running from Walker to Howe Avenue.

TRACT NO. 2

Consisting of lot fronting 100' on Howe Avenue and going back 154' more or less. This is one of the finest lots for business or commercial use that can be found in this area of Huntsville. It is level, has water, sewer and all city utilities and is ready to build on. These tracts are zoned C-3 which is general business. With this zoning, a person can build on 100% of the lot.

ATTENTION INVESTORS! SPECULATORS! BUSINESSMEN LOOKING TO THE FUTURE!

Dane Earns AUSA Honor

Denmark had only one student in the graduating class of 93 at the Missile & Munitions Center & School Friday but he was the lone winner of the Association of the United States Army award.

Corp. Erik Ostergaard topped all graduates with a grade average of 96.2. The AUSA recipient completed training in the Nike Missile Repair course with 12 other students.

Those receiving certificates for honor graduates in their classes were: 2Lt Thomas M. Petry, Missile Maintenance Officer course; SFC Behcet Pekus, Nike Radar and Computer Repair; PFC Eric R. Dod, Hawk Continuous Wave Radar Repair; Pvt. Richard I. Gargus, Missile System Apprentice; PFC John H. Benham, Combat Missile System Repair.

A member of the Enlisted Reserves, PFC Joseph C. Webster, was the honor graduate in the Ammunition Storage class and also was awarded the AUSA plaque. He was not present at the graduation exercises. He was released from active duty early.

The Friday morning exercises were held in the Post Theater at Redstone Arsenal. The audience was treated to a 15-minute prelude of music by the 55th U. S. Army Band.

The speaker for the commencement was Maj. Carl M. Powe, Chief of the Pershing Division, Land Combat Department, MMCS.

Maj. Powe's address was in a futuristic vein and challenged the men to prepare for a goal. He then gave the men three requirements for attaining that goal. The major listed education, reputation, and advertising as the things one must acquire in order to achieve status in the civilian or military life.

Maj. Powe is a strong advocate of education, having graduated from The Citadel of South Carolina and the University of Oklahoma. He holds a B. S. degree in chemistry and a Masters in Business Administration.

Maj. Powe was introduced by Maj. James M. Sponseller, chief

Freedoms Foundation Theme 'Goals' For America For 1979

VALLEY FORGE, Pa (ANF) — Six separate \$5,000 awards are being offered to editorialists, producers of radio-television programs and authors who submit winning entries for the "Goal for America for 1976" awards program.

The program, sponsored by the Freedoms Foundation, Valley Forge, Pa., is open to everyone. The theme "Goals for America for 1976" should reflect the best thoughts on this subject to set forth those ideals and actions needed to maintain the fundamental freedoms Americans enjoy under the constitutional system of government, law and order, and the dynamic, free enterprise system.

To be eligible for the 20th anniversary awards, material must have been written, developed or released during the period Nov. 1, 1968 to Nov. 1, 1969. All nominations must be in the hands of the Foundation no later than Nov. 1, 1969.

The awards selection will be determined by a distinguished, independent group of experts in accordance with established procedures. All awards will be announced at the Foundation's Valley Forge National Headquarters on May 1, 1970. Awards will be presented in ceremonies that day.

One award of \$5,000 and an encased George Washington Honor Medal will be given in each of the following categories: Magazine or newspaper feature article or series, magazine or news-editorial, campus publication feature article or editorial, radio program, television program and book.

Additional information on any specific award category and nomination forms are available from the Awards Administration, Freedoms Foundation, Valley Forge, Pa. 19481.

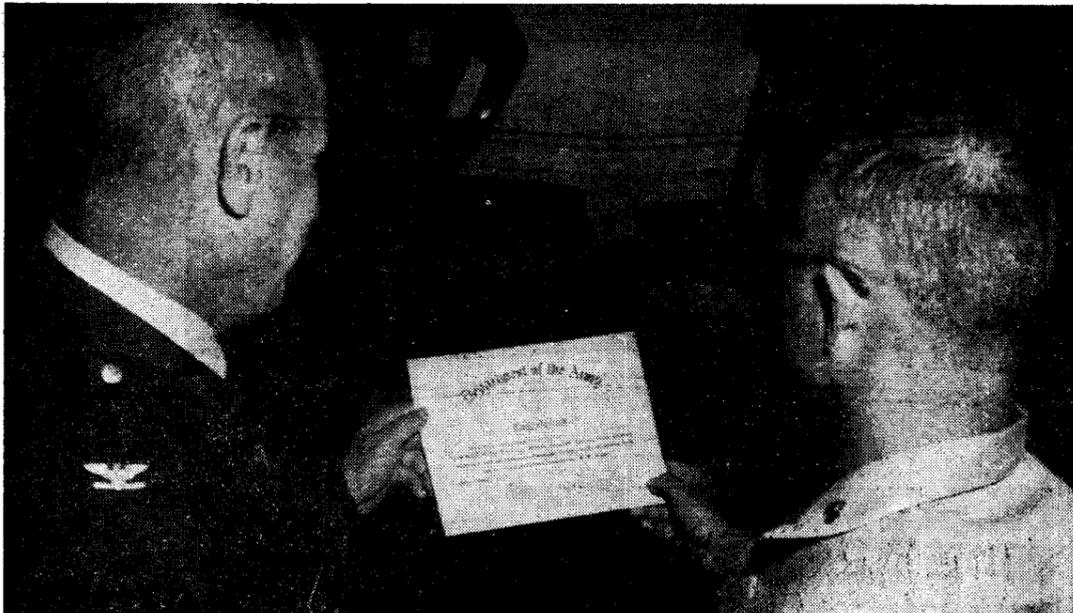

Col. Prewett Gets Proficiency Award

The Director of Maintenance at the Army Safeguard Logistics Command, Col. James F. Prewett, has been awarded the Department of Army certificate of proficiency as a career logistician.

The colonel has been in the logistics officer career program since 1964. To attain the certificate, an officer must have the rank of colonel and have served as a logistician for at least five years in assignments of increasing responsibility.

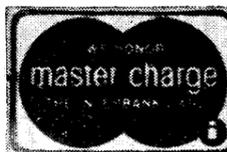

Col. Prewett joined SAFLOG soon after the Command was established. He came to this assignment from Okinawa where he was a Director in the 2nd Logistics Command.

Artillery Weapons Branch, New Material Division, Doctrine and New Materiel, USAMMCS.

OFFICIAL LOGISTICIAN—Col. James F. Prewett, right, Director of Maintenance at the Safeguard Logistics Command, holds the certificate he has just received which was presented by Col. Cecil W. Hospelhorn, left, Commanding Officer of SAFLOG. The certificate designates Col. Prewett as an Army logistician, an honor he has earned through years of responsible logistic assignments.
