Gen. Chesarek Retires Nov. 1

The White House announced last week that General F.J. Chesarek, commanding general of the U.S. Army Materiel Command, would retire from active duty with the Army effective Nov. 1.

General Chesarek has been commanding general of the Materiel Command since February 1969. He was named to the assignment from his position as assistant vice chief of staff for the Army. Before that he was commander of the Army.

Following the White House announcement General Chesarek issued the following message to all members of the AMC team:

"Due to urgent personal reasons, I have submitted a request for retirement effective 1 November 1970.

"I have done this with deep regret, as we are now engaged in work vital to the future success of our beloved Army. However, after more than 32 years of neglect of my parents and family, I feel compelled to provide them with my attention and effort at a time when they need it the most.

"The work we have undertaken together will, of course, go forward. It was only made possible by your devoted and inspired effort. Key to it all is teamwork. Only by pulling together for common objectives could we have done the job with the resources provided.

"Your accomplishments these past years have been impressive. Continued support of the war effort has demonstrated in full measure the traits that make the organization great: dedication, professional planning and follow through.

"During this difficult period of financial retrenchment, we have developed innovations of substance which permit us to do better with less. Here again, the same support has come forth as was provided during the buildup period.

"No greater honor was ever accorded me than to have the privilege of commanding the Army Materiel Command as my last active duty assignment.

"God Bless you."

F.J. Chesarek

Construction Of Gym Set

Ground breaking for construction of a \$250,000 gymnasium at Redstone Arsenal was washed out by the heavy rain Friday and has not been rescheduled.

The new facility will be used for the troop athletic program for Army Missile Command and other soldiers at the installation.

Low bidder on the metal panel building with a maple court floor and ceramic tile showers and locker rooms is the Inschoe Construction Company of Decatur. Completion is scheduled in the middle of March.

The building will have a full-size basketball court, four swing-away goals for practice, a wrestling-tumbling room, and other indoor sports. An enlarged bleacher along the side of the basketball court will

Marines Review Weapon Systems

The Marine Corps Surface-to-air Missile Systems Weapons Review Conference is being held this week at Redstone Arsenal. The conference, hosted by the Army Missile Command, brings together Marine officers and civilians in missile air defense from all over the United States.

The objective of the conference is to enable Marine personnel to increase their knowledge of present and future air defense systems. Conference visitors will receive briefings from the Army Safeguard System Command and the Missile and Munitions Center and School, as well as the Missile Command.

The conference will end tomorrow.

Contributors Pledging CFC Generous Gifts

Federal personnel in the Huntsville area continue to express their deep concern for the less fortunate with generous donations to the 1971 Combined Federal Campaign.

Cash contributions and payroll deduction pledges have risen to \$379,568 through the second full week of the annual fall drive. Participation is up to 64 per cent with the average gift per contributor at \$31.54.

Almost 19,000 personnel of 20 Federal agencies in the local area along with the employees of the

SPEC 5 JACK BERRETH

Berreth Named Soldier Of Month

Spec. 5 Jack D. Berreth, Missile and Munitions Center and School, has two good reasons for celebrating during the past few weeks. Prior to competing at the Redstone Arsenal level for Soldier of the Month honors he was promoted to his present rank.

The selection board also named the 24-year-old soldier as the Arsenal's sharpest soldier. It marked the eighth consecutive month that a soldier from MMCS has been named Soldier of the Month.

Berreth, a native of Klamath Falls, Ore., is assigned to the U.S. Army Unit Training Command where he is performing duty as a light air defense systems electronics repairman with the 280th Ordnance Detachment.

(See Berreth on Page 3)

A severe shortage of coal, being felt throughout the nation, is impacting Redstone Arsenal.

Specifically, building temperatures in all work areas will be closely monitored and probably lower this winter than they have been in the past.

And the coal shortage is only part of the problem. Electric power nationwide is also in short supply.

The situation is not expected to ease much in the foreseeable future.

Most critical now is the supply of coal to fuel the Arsenal's steam plants. A majority of the most heavily populated buildings on the installation are heated by steam. Coal deliveries are running well behind commitments, so much so that present levels will not maintain the coal fired furnaces in the steam plants throughout the winter.

Col. Preston B. Cannady, Deputy Post Commander, has named a special committee to find solutions to the fuel and electrical problems. More coal is the principal target of this committee, headed by LTC P.H. Bradley, Assistant for Logistics, Directorate of Arsenal Support Operations.

The Arsenal's coal is purchased under a contract administered by the Defense Fuel Supply Center. The contract called for the supplier to furnish a maximum of 107,600 tons in a 12 month period beginning April 1. Only 20,000 tons were delivered by Oct. 1, about 22,000 tons short. The present delivery rate of 5,000 tons per month must be raised to 11,000 tons if fuel supplies are to be adequate through the winter.

In a recent letter to all personnel at the Arsenal, Maj. Gen. Edwin I.

Donley, Commanding General of the Missile Command, said the coal shortage had compelled heat conservation measures. Among those he listed:

Thermostats in all offices are being set to provide maximum heat of 72 degrees. In shop areas, the temperature is being set at 55 degrees. Warehouses containing material that must be protected from freezing are to be kept at 40 degrees. Heat to others buildings will be cut off. Automatic timers are being installed to cut off heat in many work areas after hours and on weekends. On days when outside temperatures rise above 65 degrees, heat will be cut off.

The recent power shortage, dramatically illustrated by "brown-outs" in some of the major metropolitan centers along the East Coast, has prompted the Defense Department to direct all DOD installations to cut, by ten percent, the use of electricity not considered critical to mission operations. Redstone Arsenal is complying.

Redstone gets its electric power from the Tennessee Valley Authority which is also being pinched by the coal shortage. TVA burns coal to generate some of its power.

Three major coal fired steam plants provide the heat source for most buildings in the 4000, 5000 and

(See COAL on Page 3)

CWO Smith Receives \$610 Award

A former Redstone Arsenal officer has won \$610 for a suggestion he made while serving at the Army Missile Command.

CWO Willard C. Smith, who was a food advisor with the Post Quartermaster Division, Directorate of Arsenal Support Operations, suggested that safety shoes be repaired at the Redstone Arsenal shoe shop instead of being discarded and replaced by new shoes, as heels and soles wore out.

Now stationed in Vietnam, CWO Smith got the cash and a Certificate of Achievement from Maj. Gen. Hugh F. Foster, Jr., Commanding General of Headquarters, 1st Signal Brigade.

Awards to Mr. Smith were approved here and forwarded to Vietnam for presentation.

As a result of his suggestion, first year savings to the Army are expected to exceed \$12,000.

GETS CASH IN VIETNAM—CWO Willard C. Smith (right), a former Redstone Arsenal officer, gets \$610 cash for a suggestion he made while serving at the Army Missile Command. Making the presentation in Vietnam is Maj. Gen. Hugh F. Foster, Jr., Commanding General of Headquarters, 1st Signal Brigade.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesday. The publisher will receive editorial content for publication in the Rocket through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809, Bldg. 5250, Room A-134, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P.O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanteds—is 10 a.m. Monday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$7.42 a year, or \$4.00 for six months, tax included. Mailing arrangements may be made with the publisher, P.O. Box 520, Huntsville, Ala. 35640.

Everything advertised in this publication must be made available for purchase, use, or patronage without regard to the race, creed, color, sex or national origin of the purchaser, user, or patron. A confirmed violation or rejection of this policy of equal opportunity by an advertiser will result in the refusal to print advertising from that source.

Paper Power

What is mankind's most important invention?

It is difficult to pinpoint which one is more important than any other, but, ranking on a par with fire, the wheel and the inclined plane must be the very stuff upon which these words are printed: paper.

Man's use of paper is a comparative newcomer to the historical scene, although wasps and a few other insects and animals had been manufacturing paper for several millenia previous to that.

There is some evidence that paper, or paper-like material, was invented spontaneously within several ancient cultures. Generally, the Egyptians are credited with the achievement, although it apparently also cropped up in China, India, Polynesia and even, according to some authorities, among the Aztecs in Mexico.

The secret of making paper in quantity was lost to European cultures for several thousand years; records and important writings were laboriously inscribed on parchment — sheepskin, which could be peeled off in layers and used several times.

Paper was primarily used, during the past several hundred years, for books and other documents. As the paper industry evolved and improved, paper was used for more and more purposes. Today, in addition to using paper for traditional reasons, it is also used as packing material, clothing and even houses, just to name a few.

Nevertheless, paper is generally accepted as a most transient substance. Left to the elements, most of it decomposes quite rapidly, lessening the pollutive effect about which so many people are concerned.

Sometimes, what is printed on the paper is just as transient as the paper itself. Last week's Pulitzer prize story becomes a lining for this week's garbage can.

We might think about the real value of paper the next time we wrap our catch at the end of a fishing trip, or spread out some newspapers as a training ground for a puppy, or roll them and swat that same puppy with them when he makes a mistake.

Think about it, yes; but do it anyway. There is no better material around for the purpose, or for any one of thousands of other uses as well. (AFPS Editorial)

SAM-D DISPLAY—A display on the SAM-D Project Office's system engineering plan gets a final once over before shipment to Washington where it is being shown this week at the annual meeting of the Association of the U.S. Army. AMC asked for the exhibit on the SAM-D plan as part of its presentations on PROMAP-70. Making final checks are Richard H. Boutillette of SAM-D, technical advisor for the exhibit, and Jim Ronker (L) and Marvin Thomas of the Visual Arts and Presentation Division, DASO, who did the design and artwork.

Meteorological Working Group Plans Meeting

The Meteorological Working Group of the Inter-Range Instrumentation Group will hold its autumn meeting next week, Oct. 20-22, at the Ken Bar Inn in Huntsville. The Kwajalein Range Directorate, Safeguard System Command is sponsoring this thirtieth semi-annual meeting of the Group which is composed of officers and civilians of the Army, Air Force, Navy and government agencies. Expected to attend are some fifty members, associates, and guests.

Since its formation in 1956, the Meteorological Working Group has been instrumental in the inauguration of compatible meas-

uring systems on various test ranges. It helped establish the present cooperative meteorological rocket network, which was born in 1960 on the national and service rocket and missile test ranges. Soundings of the atmosphere to heights of forty-five miles are now provided at several locations.

The Group will see a special film on Kwajalein Missile Range facilities and will tour Redstone Arsenal facilities Thursday afternoon.

A banquet is scheduled Wednesday night and will also be attended by members of the North Alabama Chapter of the

American Meteorological Society. The guest speaker will be Mrs. Frances L. Whedon, Dept. of Army, Office of the Chief Research and Development, Environmental Sciences Division, Washington, D. C.

The Chairman of the Meteorological Working Group is Stanley Kubinski of the White Sands Missile Range. Representing the Kwajalein Missile Range and hostess for this meeting is Mrs. Novella S. Billions, Research Physicist of the Army Missile Command. Mrs. Billions is Meteorological Consultant to the Safeguard Kwajalein Missile Range Directorate.

Here's Proof

It Pays To Do Business With Shelby Cole At Homestead Mobile Homes

Mr. Shelby Cole:

The furnishing of a Mobile Home for my use during the time between placing the order and delivery of the double unit purchased by me is deeply appreciated.

The further assistance rendered by your employees, Tom Cagle and Eddie McDougal, in handling the delivery and set up of the loan unit so efficiently is especially commendable, and is a tribute to your ability to instill loyalty, and a desire to follow orders, in your employees.

Also, prevailing upon Bud Bailey to come out at night to install the air conditioner in the new unit, after hours, is gratefully commended.

May I again express my appreciation and gratitude for all the courtesies extended and most gratefully accepted.

Maj. Rishel Joins CDC Staff Here

Maj. Eugene B. Rishel III has just been assigned to Redstone Arsenal as the new Combat Developments Command (CDC) liaison officer to the Army Missile Command.

He comes here from Fort Bliss, Texas, where he was Chief of the Plans Branch in the CDC Air Defense Agency. While there he worked closely with the Missile Command on several air defense programs.

Among other assignments, he was a member of the Army Concept Team in Vietnam where he helped develop a program using dogs to locate Viet Cong mines and tunnels. He won both the Bronze Star and the Vietnamese Medal of Honor.

A 1963 graduate of Clemson, Maj. Rishel was a member of the 82nd Airborne Division and served a 16-month tour in Korea prior to joining CDC.

A separate major command, CDC is a requirements organization which looks into present and future combat ef-

fectiveness of the Army in the field.

Among hobbies, Maj. Rishel lists hunting, fishing and golf.

He is married to the former Robbie Robinson of Charlotte, N.C., and they have two children, Steve 14 and Claire 11.

Dr. Cotton To Address Three Groups

Dr. Frank Cotton, National President, American Institute of Industrial Engineers and head of the Department of Industrial Engineering at Mississippi State University, will discuss "Our Challenge for the 70's" at a dinner meeting Oct. 22 at the Elegant Steak Room, Huntsville, at 6:30 p.m.

Dr. Cotton is being sponsored by the Huntsville Chapters of American Institute of Electronics Engineers and American Society for Quality Control as well as the N. W. Alabama Chapter, American Society for Quality Control. Members of these societies and their wives are invited and non members and their wives are also very welcome. For reservations contact Ray Read 876-4024 not later than Oct. 19.

Two Germans Earn Honors

Two German students were among the five honor graduates at graduation exercises Friday at the Missile and Munitions Center and School as 43 soldiers completed training as missile and ammunition technicians.

Sgt. Wolfgang Slomian and MSgt. Wolfgang Landskron, both of the Germany Army, were awarded certificates of achievement for attaining averages above 90 in their respective courses.

Gym

(Continued From Page 1)

increase spectator capacity.

The new gym, located on Honest John Road between the tennis courts and the present workout facility, will be used for basketball, volleyball, karate, indoor soccer and boxing, and will be attached to the workout facility so that all facilities may be used at the same time. The Special Services Office staff anticipates double the present participation in gym use since it is in the middle of the troop area and much more accessible to the men.

The gym presently in use is several miles from the troop area. It was originally built as a warehouse. When the troop buildup after the missile program was headquartered at Redstone Arsenal justified a gym facility, the interior of a warehouse was remodelled and a basketball court was installed along with other exercise equipment. The present facility will be used until April.

much of the 3000 areas and will be operated at full capacity. Most buildings in the 7000 and 8000 areas are heated by gas fired furnaces. The 8000 areas specifically the cluster of buildings housing Finance and Accounting, has oil fired furnaces. Most buildings in areas isolated from steam and gas lines are heated by oil.

Berreth

(Continued From Page 1)

Prior to competing at the Arsenal level he was selected as the UTC soldier of the month and won over three other candidates at the MMCS competitive level.

A graduate of Southern Oregon College, Ashland, Ore., with a bachelor of science degree in business, Berreth entered the service in May of last year and completed his basic training at Ft. Lewis, Wash.

He received training as an electronics repairman at MMCS prior to being assigned to his present unit.

Berreth received a \$25 Savings

Bond from the Army Missile Command and a week-end on the town courtesy of the Huntsville Chamber of Commerce for being selected the Arsenal's top soldier.

Huntsville Division of the Thiokol Corp., are being solicited for contributions in the annual fund-raising effort in support of some 150 local, national and international health, welfare and social service agencies.

The lone fund-raising effort authorized for the Federal establishment each year will continue through Nov. 6 seeking a voluntary contribution from each of the assigned personnel.

Only eight of the 21 participating agencies have failed to report on their activity to date.

Payroll deduction pledges continue to be the overwhelming choice of contributors in making their donations.

A total of \$304,180 has been pledged to the 1971 CFC through regular payroll deductions. Cash donations during the first two weeks total \$75,388.

Planners Shoot For Zero On Overage Change Orders

Unlike sports teams that try to pile up points to win games, the staff of the Procurement Management Office in the Army Missile Command Procurement and Production Directorate is engaged in serious business to achieve a score of ZERO.

The tally they are trying to shave to nothing is the number of overage change orders. Objectives under PROMAP-70 include reduction of both overage letter contracts and change orders, but the Missile Command has already reached zero for overage letter contracts.

A letter contract is a useful means for speeding up the start of needed production of major missile items, and allows for full details of the contract to be made definite later on. However it is important to have the definite contractual relationship established soon for

good business management—and if that doesn't happen, the letter contract becomes overage.

The Missile Command has followed up closely on letter contracts and there have been none overage in about two years. At the end of September there were 11 letter contracts outstanding valued at \$10.7 million, but none were in an overage position.

The Army Materiel Command set a goal for the last fiscal year of \$50 million outstanding and \$25 million as the overage limit. The current goal is \$10 million outstanding and zero for those overage.

Change orders to existing contracts are another procurement management tool that is used for speedy improvement of a missile item as it is being produced. If this

action is not completed within a prescribed time limit, the change order is overage.

PROMAP 70

"We've been able to reduce the number of outstanding letter contracts, and to keep any from becoming overage through close management attention," Howard Smith of the Procurement Management Office said.

"We've had even more attention focused on the problem by the objectives of PROMAP-70, and it's paying off.

"As part of the plan to reach zero, we've established milestone dates and updated a computerized system to include a follow-up to the administrative contracting officer on all change order proposals prior to slippage in the dates for required actions.

"When a change order is issued, we feed all of the information about it into a computer which is programmed to produce a printout that tells us the dates for completion of each action. With this reminder in front of us, we can check to see what has happened—it tells us whether we're on time or need to push to meet the scheduled dates.

"We're using additional internal controls for completion of negotiation and final action. All change orders not definitized within 90 days after issue are reviewed by the assistant Director of Procurement Operations, and if they run as long as 120 days, they go to the Director of Procurement & Production. The real red light

Mrs. Chapman Is Best Speaker

Mrs. Richard Chapman received the best speaker cup for her autobiography delivered at lunch at the Redstone Officers Open Mess last week during the meeting of the Redstone Toastmistress Club.

Other speakers included Mrs. Houston Adams, Mrs. Alfred Czachowski and Mrs. Philip Certain. The Toastmistress for the day was Mrs. Clyde Miller and topics were handled by Miss Dudley Williams. Two topic

speakers, Mrs. Frank Henderson and Mrs. John Ballou, tied for first place.

Mrs. Jack Balch and Mrs. Helen Childress were introduced as prospective members.

School Wives Set Coffee

Wives of officers at the Army Missile and Munitions Center and School will have a Coffee and tour Oct. 27 at the Redstone Officers Open Mess with wives of men in the Combat Development Command, the Ammunition Department and the Office of the Secretary serving as hostesses.

Reservations for the Coffee and tour will be in affect for those on the permanent reservation list. The reservations committee is asking all who are on the list and do not wish to participate in the Space Center Tour to call.

Reservations until noon Oct. 23 are being handled by Mrs. Robert Vanlandingham (A-L), 837-5391, and Mrs. Bruce Garnett (M-Z), 837-2736. Cancellations close at noon Oct. 26.

goes on at 180 days because that is when they would become overage.

"When the requirement to cut down on our overage change orders was issued last November, we had \$17.3 million overage against a total of \$25 million open change orders. By intensive management and instituting new procedures we have made a drastic reduction in overage change orders.

"We have 51 open actions valued at \$25 million. Of these, two are overage and valued at \$300,000—quite a drop from \$17.3 million.

"At the end of June we identified 51 open actions that were the only ones that could possibly be overage at the end of 1970. Since then, we've cut the number to 25. At the rate we're going, there will be none overage by the end of December. We're going to score zero!"

May Keeps Plugging, Wins Masters Degree

While most people have been spending their summer days basking in the sun and their winter evenings throwing a 16-pound ball down the alleys, one Missile and Munitions Center and School Educational Specialist has

been putting his nose to the grindstone. Recently, his toil reached its fulfillment when he was awarded a Master of Arts degree in Educational Psychology.

William C. May, assigned to the Administration and Operations Office at the Missile School, received the degree from the University of Alabama after spending the past three summers attending classes and the evenings of the past three years in the night school in order to re-

ceive the required number of college-credit hours for the degree.

In 1948, May entered Troy State University, Ala., and graduated in 1952 with a bachelor of science degree in Education. He then went out into the world and worked at several jobs around the South; at Kessler Air Force Base, Miss., for a year, then for the Sperry-Rand corporation, and then back to Kessler AFB in 1955.

In 1958, he came to Redstone Arsenal and has been here since. In 1967, after 15 years of working, May decided to make the college scene once again and started attending night classes at the University of Alabama in Huntsville, and completed six credit-hours of instruction. He

then attended summer sessions at the University of Alabama in Tuscaloosa, and added six more hours to his final goal of 33 credits.

From 1968 to the end of summer, 1969 was repeated and he

collected 24 hours credit. In the fall of 1969, he attended night classes at Athens College, and to gather in three hours of credit and attended summer sessions at the University of Alabama, and earn the final six credits.

Engineer Gives Paper Describing Patent Disclosure

A paper prepared by Joe S. Hunter and L. Jack Little was presented by Hunter at the Government Microcircuit Applications Conference at Ft. Monmouth, N.J., last week.

Titled "Design of Compensated Output Solid State Differential Accelerometer" it describes the solid state accelerometer on which the men have been granted a patent disclosure. The accelerometer is mechanized so that bias in higher even-ordered nonlinearities are automatically cancelled.

Hunter and Little are electronic engineers in the Internal Guidance and Control Laboratory of the Research and Engineering Directorate.

down Maple Lane

The Lucky Strikes weren't so lucky last week in the Redstone Officers League as the team was knocked out of the first place by the Five Splits. The Splits were fourth prior to last week's outing. Also, the Rolling Stones were stopped by the D-Squared, sending the Stones to fifth while the Squared took over second.

Bowlers who believe that sand bagging is "the thing," should check with the Sand Baggers as it didn't pay off for them when the Blackjacks dumped the team out of seventh place. Enroute to the win the 'Jacks established a new team series mark posting a 2909.

The race for first place in the loop is tight as only six and one-half points separate a field of 12 after five weeks of bowling.

OFFICERS MIXED LEAGUE

Nobody wants the first place spot in the Redstone Officers Mixed League as a new leader (the third opening night) emerged after last Monday night's action. The Bombers

bombed eight points from the Hi-Counts to take over the No. 1 position while the Counts are tied for third with the Boosters.

The D-Yanks, formerly a first place team, is one point off the pace in second while M&Ms, Pin Droppers, Redstones and Bowl Weevels round out the standings.

The Banditos are still holding the number one position in the Friday Night EM Mixed League. Even though the high powered Dan Powers has departed (left the service) John Goltz is expected to fill in (that is whenever he can get his foot in good shape) the vacant slot.

Of course, if the Wiggins'—the distaff side of the pair—can continue to pop the pins they will probably be tough to handle. But, the Wood Choppers and the Spotters have a great deal to say about that. The two are tied for the number two spot and if Erna Schiro gets hot, Katie bar the door.

In third place is the Chargers. And, if they can muster four

charges at one time they could blow the entire league to bits. The team won three points from its opponents last Friday with one charge missing. So, look out Banditos, 'Choppers and anybody else in the path, here come the Chargers.

The Delta 88s continued to win in the School Brigade League. The 88s from Co. D leads the loop by two points. Retired, led by Larry Makanani's 606 series, moved into second place with a sweep over Nike Ack while 200th Ord. was losing three to Co. C Nike Track is still on track and maintained its hold on the third place spot.

ALPHA FIRE HOT

Co. A came alive last week posting the night's high team game. The Alpha quintets shot 1128 led by Buddy Creek's 236. The score set a new high for other teams in the league to shoot at.

BIG EIGHT TOURNAMENT turn out was largest ever. Thirty some odd hopefuls were out trying to knock down eight or more pins with one ball across 16 lanes. Lanes 8, 9 and 10 were jinx lanes (Curtis had the pins glued). Those who progress passed lane No. 1—four—were stymied at either 8, 9 or 10. Alas maybe someday a lucky reporter

will be calm enough to crash the Big Eight.

HIGH & LOWS: Willie Wiggins 550, 572-210, Jim Arblaster 532-200, Larry Makanani 606-201, 213, William Delchamps 543, Charlie Rodeen 521-200, George Matt 595-226, 204, Buddy Creek 569-236, Dave Atchison 532-216, Ralph Nearhoof 594-208, Herb Town 539-209, Wylie Cooper 533-208, Ray DeBolt 554, M Presely 500, M. Webb 566, Rita Webb 517, Horace Jackson 109 (at Pin Palace), Rod MacIvers 534, Richard Hailey 572, Darrell Watson 214, Lilliam Rodeen 522-221, Maxine Bean 490, Doris Burke, all spare game of 181.

SAFEGUARD COFFEE

On Monday, Oct. 19, wives of the officers of the U.S. Army Safeguard System Command will meet for coffee at 10 a.m. at the Redstone Officers Open Mess.

The permanent reservation list is in effect. Cancellations or additional reservations may be made until noon Friday, Oct. 16, by telephoning Mrs. Wayne M. Stoller 837-6645, or Mrs. Ernest V. Lau 837-6810.

Mrs. Lau is in charge of the arrangements and will be assisted by wives of the Production and Logistics Directorate. These include Mrs. Jesse L. Fishback, Mrs. Neil M. Hopkins, Mrs. Robert F. Sullivan, and Mrs. Gilbreath.

Young Quarterbacks Direct Twin Wins For RSA Elevens

A pair of crafty quarterbacks, Terry White and Ron Hollingsworth, provided most of the fireworks as two Redstone Arsenal elevens won a pair of victories apiece in youth football last week.

White passed for two touchdowns and ran three more as the Redbirds took a 14-8 decision in City League action and added a 40-0 rout in a Mountain League game on Saturday.

Hollingsworth was at the helm for a 20-0 victory scored by the Rebels in a City League contest and again on Saturday when his mates hung up a 20-6 Mountain League victory.

Both the Redbirds and the Rebels perform in the 95-pound class of the City League and the Mountain League's 100-pound division. Another Arsenal eleven, the Raiders, made it a three-game sweep on Saturday by scoring a 16-0 win over Union Chapel in a 130-pound contest.

The Birds edged National, 14-8, for their City League win as White hit Kiki Males with a 29-yard scoring aerial in the last second of play.

National had taken an early lead and the Birds weren't able to get the equalizer until the third period when Gary Makani scampered 39 yards with a pitchout.

The Saturday night rout was scored at the expense of Union Chapel as White scored on runs of 5 and 36 yards in addition to throwing a 46-yard scoring strike to Ronnie Robinson.

Males and Mark Ikemire were other touchdown makers for the Birds.

The Rebels trotted a whole host of powerful runners into their fray with Montovia on Thursday evening with Mickey Huffman, Mickey Willis and Carl Gober each packing the pigskin into the end zone for touch-

downs.

Defense was at least half of the story in the City League win as well as the Saturday victory over Warrenton. Monrovia was only able to gain 33 yards against the strong Rebel rush while the Mountain League rivals had to be content with a single first down. Hollingsworth scored on dashes of 36 yards and 17 yards in the win over Warrenton. In between he connected with Huffman for another six pointer from 23 yards away.

OWC Golfers Vie for Title

A three-way tie resulted in the flag tournament among members of the Redstone Officers Wives Golf Group a week ago at the Redstone course.

The winners were Charlene Powell, Jane Walker and Marian Deppensmith. Edna Hodges came in second.

The group will battle for the club championship this week, possibly with playoffs on Friday

Saddle Club Sets Fall Trail Ride

The fall trail ride of the Redstone Arsenal Saddle Club is slated for Sunday afternoon with the riders scheduled to leave the Club Stable area at noon.

Riders from Saddle Clubs in the surrounding area have been invited to attend the affair including a cook out at the club house following the ride. The cook out is tentatively slated for 4 p.m.

A minimum charge will be assessed all those joining in the ride to cover the cost of the cookout.

Sprinters Blast Maples In Record-Setting Spree

Irv Laity was the individual standout and the Sprinters created the biggest noise on the team front in Civilian Welfare bowling league action last week.

Laity sandwiched a 226 between games of 181 and 191 to just miss Honor Roll status with a 598. The veteran Tiger maple mauler showed the way to his mates for a 3 to 1 win over the Cobras. Charles McCleery rapped a 224 game and a 544 set for the Cobras while Dan Pollard aided Laity with a 535 count.

The Sprinters strung together games of 1026, 1037 and 1061 for a seasonal high of 3124, but still only won three points from the Bombers who had a 1037 of their own in the opener.

Art Frederick topped the Safeguard quintet with a 574 with Al Rossi and Earl Sims close behind. Joe Barnes was the top gunner for the Bombers for the second straight week.

The DeVault Ultraprecisions

protected their single game bulge at the top of the standings by winning three from the Metro Cals. The second place Bandits had the same luck in combat with the Tow Boys.

All five of the DeVault bowlers were in the 500s with Ken Bell setting the pace at 553. Bob Brand added a 234 game to the attack and Pete Coulter topped the Metrology Lab five with 532.

The Sheraton 800s accounted for the only sweep at the expense of the Alley Cats behind the lead of Chuck Hennis. Noel Moore chopped down 568 sticks for the luckless Cats.

The Rejectors added to the gloom of the All Sports with a 3 to 1 win as Ben Jones shot a 552, the T-Birds overcame a 551 by Jimmy Galbreath for a 3-1 win over the Raiders and Jack Brooks paced the Jokers to three points from the Wonnors despite Mike Cooper's 545 tally.

Firebees To Be Used In Arctic Hawk Tests

The operational capabilities of U.S. Army Hawk missile system will be tested this winter in sub zero Arctic weather with Tele-dyne Ryan Aeronautical Firebees serving as the "enemy" stand-in.

Normally used to pull Towbee targets for Hawk and Redeye firings, the jet-powered Firebees will be flown as primary targets in the Arctic tests, according to Army Missile Command officials.

Facilities at the Army's Arctic Test Center, Fort Greely, Alaska,

will be used for the test program.

The test program is scheduled to begin in November and conclude next February, the coldest period of the winter. Firings of the Hawk missiles will be conducted only when the temperature drops below 25 degrees below zero.

Fort Greely is 104 miles south of Fairbanks, Alaska.

Firebees are in current use by the Army in support of weapons firings programs at Fort Bliss, Tex., the White Sands Missile Range, N.M., and in the Western Pacific for Hawk units based in that area.

Target missile support for these arctic tests is under management of the Air Defense Control and Targets Project Office at the Missile Command.

in case of ties. The annual tournament is 54 holes of medal play with the competitors in flights shooting for low gross for the three days of play.

They also plan a consolation tournament for members who have not won this past season.

Wives Club Trio In State Tourney

The Redstone Officers Wives Golf Group was represented by three members at the State Championship tournament staged last week at the Turtle Point course in Florence.

Carol Saccuzzo topped the Arsenal delegation by claiming the consolation title for the first flight of the tourney. Also playing in the state meet were Marian Deppensmith and Charlene Powell.

Hunters Anticipate Good Season For Birds, Deer

Hunting season is here again and Redstone Arsenal personnel can check out their equipment and hunting times with the Game Warden's office.

According to SFC John Levan, Deputy Game Warden, hunting on the Arsenal will be governed by Missile Command Regulation 210-2, Appendix C, and the Alabama game laws.

Personnel authorized to hunt on the Arsenal include active duty and retired military and their dependents. The regulation provides that military or retired personnel may invite two guests and that they are responsible for their guests.

Reports from the Game Warden's office indicate that there will be lots of hunting activity during the next few months. Dove season is now in progress and will end on Nov. 9. However, since it is a split season on dove, activity will start again on Dec. 19 and last through Jan. 7.

Rabbit, squirrel and coon hunters can take to the woods tomorrow. Squirrel season ends on Jan. 11, while rabbit and coon hunting extends through February 27.

Bow and arrow hunters can try their skill when deer season starts tomorrow. Bow hunting will be on week days (no weekends) through Jan 11, and hunters must use bows with 40 lb. pull and 28 in. draw (no cross-bows permitted).

Gun season on deer opens Nov. 13 and extends nine weekends through Jan. 11.

Other hunting seasons due to begin before Christmas are:

Quail season, Nov. 20 through Feb. 27; Duck season, Nov. 23 through Jan 16; and Goose season, Nov. 14 through Jan. 22.

Persons desiring to hunt on the Arsenal must contact the Game Warden's office for orientation

and a permit to hunt. No one will be allowed to hunt on the Arsenal without going through this procedure.

Game limits, hours of hunting, areas for hunting and safety rules will be given by members of the Game Warden's office during the orientation.

Anyone wishing information about hunting rules and regulations can call the Game Warden's office at 876-8912 or visit the office located in Building 7817.

MISSILE & MUNITIONS CENTER & SCHOOL
NAMES IN THE NEWS
 SP4 Win Henderson

THEY'RE AT IT AGAIN !!!
 Our re-enlistment NCOs have been at it again! Since our last report two weeks ago, they have brought about the addition of 35 man-years of talent for the Army, with 11 re-enlistments. Two went for six, two for four, six took another three, and two EM extended to complete 30 years of service.

The gentleman going for six was SSG Tom Sutphin, Jr., assigned to Co. C. Those for four were two first-termers, Sp4 Eugene Garlington, and Sp4 Melvin D. Butler, both from the 249th Ord. Det.

The three-year men were: SFC Clem J. Shamus, Jr., Co. A; SFC Charles M. Des Rosier, Co. A; SFC John C. Scott, HHC, UTC; MSG Robert E. Knight, Co. D; MSG Roy L. Henderson, Co. D; and SSG Jim McGuire, Co. D.

Those extending to complete their thirty-year stints were 1SG Lawrence M. Jackson, HHC, UTC for two years and SFC John Stefaniak, Co. C for one.

TRADING OD FOR CIVIES . . .
 Five MMCS soldiers will retire from military service at the end of this month. They are: CW4 Billy B. Bourne, HHC, Sch Bde; SFC Charles W. Freeze, Co. B; SFC Billy F. Oman, Co. A; SSG Verlon R. Thornton, Co. A and SSG Edward P. Wenz, 6th ETC, all have completed 20 years of service.

CPT. DAVID R. JENNINGS

PRESENT AND FUTURE

The guest speaker at graduation exercises, Friday, Oct. 9, was CPT David R. Jennings, D and NM Div. This Friday Oct. 16, the guest speaker will be MAJ Earl L. Welch, Mun. Div., OTD.

CPT Jennings, a native of Watervliet, Mich., entered on active duty as a commissioned officer through the ROTC program at Western Michigan University, in 1963. In 1965, he became an RA officer. Since his service time started, he has seen two CONUS and one overseas assignments.

In CONUS, he has been to Schenectady, N.Y., as part of the

146th Ord. Det., and then his present duty here at Redstone. His overseas tour was spent with the 2nd Inf. Div., Korea, as commanding officer, Co. B 702nd Mnt Bn.

MAJ. EARL WELCH

MAJ Earl L. Welch, this week's guest speaker, received his commission via the ROTC program at the University of Chattanooga, in 1962. His first assignment was at Ft. Hood Tex., followed by a tour in Germany.

After a brief 11-month stay in the U.S. he served another overseas tour, this time in RVN. While there, he served as commander, 60th Ord. Co. from Sept. 67 to Jan., 68, and then as an Ammunition Officer from Jan. 68 to Sept., 68.

He came to Redstone in Sept., 1968 and has served here since.

2LT. ROGER L. CARON

"MAINE-IACS" ARISE !!

A "State-of-Mainer" has arrived at Redstone to serve as the Executive Officer, 3rd Bn. He is 2LT Roger L. Caron, a native of Lewiston, Maine.

LT Caron came into the service in April, 1969, and completed OCS training at Ft. Belvoir, Va., after completing basic training at Ft. Dix, N.J. A 1964 graduate of Lewiston High School, Maine, he attended John Carroll Univer-

sity where he worked towards a degree in psychology.

CSM THURMON WILLARD

AWARDS FOR 2ND BN

The highlight of the Award Ceremony held by the 2nd Bn., Tuesday, was the presentation of the Air Medal, and the 3rd award of the Bronze Star to CSM Thurmon G. Willard. Also receiving a Bronze Star was CPT John F. Franklin, III, CO, 5th ETC.

CSM Willard received the Air Medal, 2nd through 6th Awards,

for acting as an observer on flights in RVN. Requirements for the award call for 25 flight hours under combat conditions or 50 hours in a supporting role. He received his awards for participating in both phases. The 3rd OLC to the Bronze Star was presented for his activity against hostile forces in RVN between the period of August, 1969 to August, 1970.

CPT Franklin received his Bronze Star for meritorious service while serving with the 421st Mun. Maint. Squadron, RVN, from April, 1968 to January, 1969.

Other awards presented during the ceremonies were an ARCOM to Sp5 James M. Leonard, and the Honor Co. Trophy and Blood Donor Trophy, to the 7th ETC.

ALL AROUND THE POST . .

Several other awards were presented to deserving individuals around MMCS this past week. Among these are an ARCOM to CPT Joseph A. Finch, Asst. S-1, Sch Bde, for meritorious service while serving in the S-1 shop.

Other presentations were: Outstanding Instructor Certificates to SFC Jesse F. Johnson, SFC Edward L. Thomson and Mr. Robert E. Walker, all receiving their second award from the Nike Div.

Those receiving certificates from the Hawk Div. were Mr. David H. Mitchell, third award, and Gunnery Sgt. Arthur B. Cohan, his second.

Civilians receiving Outstanding Performance Ratings were Eugenfusz Cebula and Charles McGougan. A ten-year service Pin was presented to Cecil Butler. All three persons work under DIT.

Wives Club Hears Candle Use Talk

Members of the Restone Officers Wives Club heard a lecture by Mrs. Myrtis Powell of Decatur on candles in flower arrangements and other decorative touches.

Mrs. Powell, who has just written a book on candlemaking, exhibited a variety of candle shapes she has made: frogs, mushrooms, footballs and bottles as well as more conventionally shaped and decorated candles.

The Redstone Home and Garden Club were hostesses for the meeting and used their special techniques and accessories to decorate the lunch tables. Mrs. Preston B. Cannady, Wives Club president, introduced the hostesses, special guests and the head table to the members.
