Enlisted Men Form Council

The first meeting of the Brigade Enlisted Men's Council of the Missile and Munitions Center and School was held last Tuesday in the Social Room at the Post Chapel.

Col. James Keown, School Brigade commander addressed the council at the organizational meeting.

In his opening remarks Col. Keown congratulated the men on their selection as representatives of their contemporaries and reminded the men of their responsibilities as council members.

Col. Keown said; "Through this council I hope to provide all of our enlisted men—student and permanent party alike with an additional means of communication

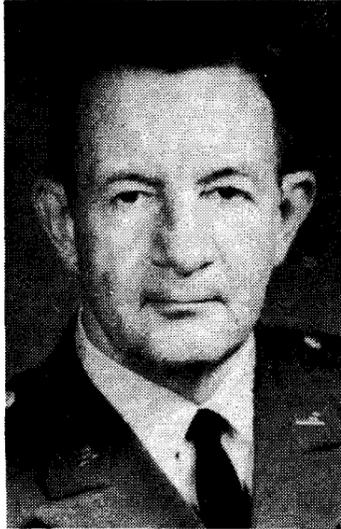

with me, an opportunity to contribute toward the improvement of local policies and conditions, and the opportunity to analyze the underlying decisions that affect job satisfaction and career attitudes."

He went on to stress the importance of the thinking ability of the council members to develop useful solutions to problems and to weed out the wild hair ideas that couldn't possibly be adopted. He emphasized that the value of the council lies with its ability to prove its worth, by getting the good ideas adopted.

Col. Keown pledged his support of the council. "My door will be always open to meet with representatives of this council," he added. "If I find your recommendation to be well founded and appropriate to the occasion, I will leave no stone unturned in implementing it or seeking the support of higher headquarters if that is required."

Col. Keown challenged the council members to get down and tangle with the facts of life as they exist here at Redstone Arsenal. To be sensitive to minority opinions and to know what the E-4's and below think on various issues.

Following Col. Keown's brief comments Capt. William Wallace, School Brigade S-1, presented a short orientation to the 16-member (See COUNCIL on Page 2)

GEN ALBERT O. CONNOR

Gen. Connor Schedules ROA Talk

Lt. Gen. Albert O. Connor will discuss the "Modern Volunteer Army" Friday night at the Redstone Arsenal Officers Open Mess.

The Commanding General of the Third Army is to be guest speaker at the Huntsville Chapter Meeting of the Reserve Officers Association.

Activities at the annual "Army Night" observance will begin at 6:30.

Gen. Connor, whose decorations include the Distinguished Service Medal, Legion of Merit with 2 Oak

CFC Funds Being Distributed Now

Over a half million dollars is being distributed by Huntsville's First National Bank this week through the generous giving of Federal personnel in the local area.

It is the \$506,305 that was contributed by some 18,000 military and civilian personnel during the Combined Federal Campaign for 1971. The six-week drive was held during October and November.

Despite a slight drop in total contributions, the 1971 drive was the third consecutive CFC to turn over \$500,000 to local, national and international health and social service agencies.

The final tabulation of funds was

accomplished last week by W.E. Sisson, the financial chairman for the drive. The cash donations have already been forwarded to the recipient agencies while the payroll deduction contributions will be forwarded regularly throughout the year.

The Huntsville-Madison County United Givers Fund is the largest single recipient of the annual contribution. The total amount designated for that organization is \$349,764.

The eight National Health Agencies will receive \$78,089 and another \$13,135 is earmarked for the four International Service Agencies.

The remainder of the cash donations were designated for the (See CFC on Page 2)

President Signs Pay Bill

President Nixon last week signed a bill and two orders granting a \$2.25 billion pay raise for military personnel and Civil Service Class Act employees.

The increases will average 7.9 per cent for military personnel and 5.96 per cent for Federal Class Act employees.

The pay boosts will be retroactive to Jan. 1 for military personnel and to the first pay period beginning in 1971 for Class Act Civil Service personnel.

Local Finance and Accounting officials said it was impossible to state specifically when the increases would be reflected in local pay checks until official revised pay schedules were received at Redstone Arsenal. Everything possible is being done to set up for the increases to be included in January pay for the military and the earliest applicable pay period for civilians, they said.

COL JEFF FORSYTHE

Col. Forsythe Heads Security

Col. Jeff Forsythe has been named Chief of a newly established Security Office at the Army Missile Command.

A graduate of the U.S. Military Academy, Col. Forsythe comes to Redstone Arsenal from the University of Cincinnati where he was Professor of Military Science.

As Chief of the Security Office, he exercises staff responsibility for intelligence and security activities at the Missile Command and (See SECURITY on Page 2)

Blood Donations Exceed '70 Quota

Despite the first participation drop in several years, Redstone personnel continued to surpass their quota at the Red Cross Blood Bank during 1970.

Well in excess of 500 voluntary donors reported to the bloodmobile each month with a total of 9,548 participants for the year. They contributed 8,318 pints of blood to the Red Cross program.

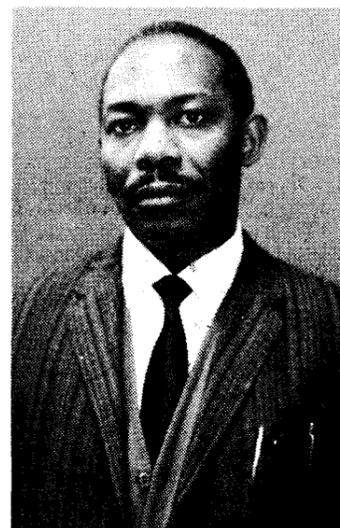

It was the third consecutive year during which the monthly quota was surpassed each month.

However, the overall participation dropped from 1969 when 11,342 volunteers responded to the monthly appeal and donated 9,786 pints of blood.

The Supply and Maintenance Directorate once more walked off with participation honors among the larger civilian organizations with the Missile Intelligence Agency coming on during the last half of the year to head to smaller units.

S&M won the quarterly plaque for each of the four quarters, repeating the performance of the year before.

The Sergeant Commodity Office posted the highest percentage of participation among the smaller organizations during the first quarter and the TOW Project Office took the honor for the second (See BLOOD on Page 2)

DR. LEON FRAZIER

Frazier Earns Degree

When Leon Frazier, 38, a one-time training instructor in Hawk and now Educational Specialist in the Curriculum Development Division, Directorate of Individual Training, was graduated from Oklahoma State University with a doctorate of education degree in psychology, he became the first civilian employee of the Missile and Munitions Center and School to obtain a doctoral degree while on (See FRAZIER on Page 2)

GI RANGE RIDER—PFC Robert Russell, 291st MP Det., herds a bull with his truck. The bull escaped from the pasture on Burose Rd., and each time Russell approached on foot the bull charged, so he used the truck. Russell, from Middletown, N.Y., herded the bull back into the pasture through the barbed wire fence. MP duties sometimes get strenuous according to the young soldier.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesday. The publisher will receive editorial content for publication in the Rocket through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809, Bldg. 5250, Room A-134, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P.O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wanteds—is 10 a.m. Monday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$7.42 a year, or \$4.00 for six months, tax included. Mailing arrangements may be made with the publisher, P.O. Box 520, Huntsville, Ala. 35640.

Everything advertised in this publication must be made available for purchase, use, or patronage without regard to the race, creed, color, sex or national origin of the purchaser, user, or patron. A confirmed violation or rejection of this policy of equal opportunity by an advertiser will result in the refusal to print advertising from that source.

Rocket Ruminations

An expert is a person who avoids small errors as he weeps on to the grand fallacy. —B. Stelberg

BLOOD

three-month period.

Missile Intelligence captured the participation plaque for each of the last two quarters.

The Missile and Munitions Center and School topped military participation during the year with the 7th Enlisted Training Company winning the monthly Category I award six times.

The Category I award for 1970 was won by the 200th Ordnance.

FRAZIER

(Continued From Page 1)

the payroll. He received the degree December 1970.

In September, 1969, while employed as an Education Specialist in Hawk, Frazier took an extended leave to complete work on his doctorate. He had received a bachelor of science degree in mathematics from South Carolina State in 1954, and master of science degree in education from Alabama A&M in 1969.

Frazier came to MMCS in May, 1958. He has served as a course coordinator, instructor supervisor, deputy branch chief, branch chief, and presently, education specialist.

Frazier commented that the fact he was able to obtain his degree, partly through the aid of the MMCS Tuition Assistance Program for civilian employees, "should be encouragement for other with similar goals."

Frazier's doctoral dissertation was entitled "An Experimental Investigation of the Differential Effects of a Varied Modification Technique on Fear of Failure." MMCS co-operated with Frazier in his dissertation research by making missile department materials available to him.

Frazier is married with three children, Angela, 19, Christopher, 14, and Celeste, 12. His wife, Janet, is employed at Huntsville's Cavalry Hill Junior High School as a teacher in special education. A native of Orangeburg, S.C., the Fraziers now live in Huntsville.

GEN. CONNOR

(Continued From Page 1)

Leaf Clusters, Bronze Star Medal with 2 Oak Leaf Clusters, Purple Heart and Combat Infantryman Badge, served with the Third Infantry Division during World War II.

During that time he planned and participated in four major assault landings in North Africa, Sicily, Anzio, and Southern France.

Prior to assuming command at Fort McPherson, Gen. Connor was Army Deputy Chief of Staff for Personnel.

For reservations, call Elmer Hargis at 895-3732, Loxie Doud at 453-2597 or Pete Redding at 536-1376.

SECURITY

(Continued From Page 1)

directs weapon system security. In addition to teaching at the University of Cincinnati, Col. Forsythe has served on faculties at West Point and the Command and General Staff College.

Among other assignments, he served for three years with the U.S. Embassy in Iraq.

Among hobbies he lists golf. Col. Forsythe is married to the former Cynthia Leigh of New Jersey and they have two sons.

DR. TURNER TO TALK

Dr. Jack Turner, Psychologist at the Huntsville-Madison County Mental Health Center, will be principal speaker during a meeting of the North Alabama Chapter, Society for Personnel Administration next Tuesday evening.

His topic will be "Behavioral Modification—A Tool for Prevention."

The meeting will begin at 6 p.m. in the Redstone Arsenal Officers Open Mess.

A Bronx VA Hospital researcher reports significant results in the immunization of guinea pigs against leukemia. It was demonstrated for the first time that active, specific immunity can be obtained in lab animals.

CFC

(Continued From Page 1)

United Fund agencies in twelve Alabama cities or counties, and four Tennessee counties.

Abner McNaron, the 1971 CFC Coordinator, highly commended local Federal personnel for their continued generous response to the needs of others.

He said the drive this year was conducted during a period of uncertainty due to personnel reductions in a number of agencies.

"Despite this uncertainty," he said, "local personnel responded with their usual thoughtful giving and recorded the largest per capita gift ever of \$26.25."

The reduction in the total contribution, he added, was attributed entirely to the drop of slightly more than 2,000 in the number of personnel solicited.

The percentage of participation remained at 97 per cent with the Army agencies recording 98 per cent and the Marshall Space Flight Center, 96 per cent.

COUNCIL

(Continued From Page 1)

council on how the Junior Officer Council operates. The Junior Officer Council is a similar group begun at MMCS one year ago and has proven to be quite successful in alleviating some of the irritations of the junior grade officers.

Under sample guidelines the newly formed council will be permitted to operate as freely as possible. They are to strive to improve communications between enlisted soldiers and the commander, through timely discussions and submitting appropriate recommendations.

Some topics the Enlisted Men's Council may deal with are any improvements concerning the billets and mess facilities, social and recreational activities, why customs and courtesies of the service exist, disciplinary matters affecting enlisted soldiers and numerous other subjects that directly pertain to the life of the enlisted men E-4 and below.

Capt. Wallace emphasized the importance of the committee to work freely and without the influence of officers and senior NCO's. He pledged to aid the council in any way possible whether it be information seeking or advice.

After Capt. Wallace's orientation the council elected temporary officers. Spec. 4 David Turner of Co. C, was selected as chairman. Elected as vice-chairman was Spec. 4 Jeffrey Streckler of B Company, and Spec. 4 Robert Stocking of Company D was named recorder.

Following the election of officers a short discussion ensued concerning the adoption of the constitution and by laws governing the council. It was moved that the meeting adjourn until the members had a chance to study both the constitution and the by laws. The council's next meeting is scheduled for 3:00 this afternoon in Mess No. 2.

Coal Near Normal Stockpile

Stockpiles of coal to fuel heating plant boilers at Redstone are almost back to normal, but the requirement to conserve utilities for economic reasons still exists, according to Army Missile Command officials.

Recent improvements in coal deliveries and the award of two supplemental contracts to coal suppliers have contributed to easing the problem of fuel shortages.

The combination of a directive to cut fuel costs and a dwindling supply of coal prompted an Army announcement in the Fall that every possible measure would be taken at Redstone to conserve utilities.

"Although our stockpile is building up, we must practice fuel economy and abide by the regulatory limits as a part of the overall utilities conservation program," LTC Philip H. Bradley,

Huntsville Merchants Get \$1½ M

The Army Missile Command's shopping list for goods and services covers more than 50 items from bread to batteries, and repair parts for missiles. Last month expenses totaled approximately \$11 million. Huntsville merchants shared \$1.5 million worth of this business.

A sampling of the variety of goods includes plumbing supplies, insulation material, peat moss, lighting fixtures, pillowcases, repairs for many kind of equipment and gravel as well as missile repair parts.

These awards do not include those for a million dollars or more which go for procurement of missile systems.

The contracts are executed by the Missile Command Procurement and Production Directorate.

Assistant for Logistics at the Arsenal Support Operations Directorate, said.

AMC Joins NASA In Flight Study

U.S. Army Materiel Command announces the strengthening of its R&D facilities for low speed aviation by establishment of a new laboratory and three directorates, and a change in assignment and name of the existing Army Aviation Materiel Laboratories. These actions stem from a November 1969 agreement between the Army Materiel Command and the National Aeronautics and Space Administration, providing for joint use of existing NASA test chambers, wind tunnels, and other facilities by scientists and engineers of the two agencies for conducting aeronautical research. This action is expected to save the Government more than \$100 million by eliminating the need for new construction by the Army of its own low-speed aviation research facilities.

Established at the NASA-Ames Research Center, Moffett Field, Cal., is a new U.S. Army Air Mobility Research and Development Laboratory, reporting to the U.S. Army Aviation Systems Command (AVSCOM), St. Louis, Mo., and with an assigned mission of directing and controlling AMC's Air Mobility Research, Development, Test and Evaluation Program.

Reporting to this new organization are:

- A new Langley Directorate, U.S. Army Air Mobility Research and Development Laboratory, NASA-Langley Research Center, Hampton, Virginia, with the mission of conducting basic research and exploratory development in the fields of low-speed aeronautics and aircraft structures.

- A new Lewis Directorate, U.S.

Army Air Mobility Research and Development Laboratory, NASA-Lewis Research Center, Cleveland, Ohio, which will conduct basic research and exploratory development in the field of aeronautical propulsion.

- A reorganized Ames Directorate, U.S. Army Air Mobility Research and Development Laboratory, NASA-Ames Research Center, Moffett Field, California, which will conduct basic research and exploratory development in the field of low-speed aeronautics. This laboratory was originally established in 1965, as the Army Aeronautical Research Laboratory.

- The U.S. Army Aviation Materiel Laboratories, Fort Eustis, Virginia, are redesignated at the Eustis Directorate, U.S. Army Air Mobility Research and Development Laboratory, with its mission remaining essentially unchanged.

Utilizing these new facilities, the Army Materiel Command will increase its studies on helicopters, aerodynamics, and structural dynamics of rotor types; wind tunnel wall effects tests for V-STOL aircraft; STOL model tests; the performance of parachute canopies; and parachute deployment and environment.

In recent years, much of NASA's effort in the area of low speed aviation technology has been concentrated on VTOL and STOL wind tunnel studies and flight research; general aviation aircraft; approach and landing of subsonic jets; and terminal area operations for this type of aircraft.

Low speed aircraft are generally considered those flying at a speed

B&PW PLAY PARTY

The Business and Professional Women's Club of Huntsville will sponsor a party for enlisted men at the Service Club Monday evening at 8 o'clock.

Members of the Women's Club will furnish all prizes and serve refreshments. This is the third in a series of parties planned by the B&PW Club for the enlisted men at Redstone Arsenal.

below 400 miles per hour.

The close research working arrangement between AMC and NASA will result in much wider exchange of knowledge, with projects among the various organizations covering a broad range of low speed aviation technology.

STWP MEETING

The Society of Technical Writers and Publishers will meet at Pepe's Restaurant, Sands Motel, tomorrow at 5:30 p.m. for dinner. Joe Kibbe, Engineering Section

Head, Sperry Rand Space Support Division, will talk on "Basic Technical Writing Techniques."

Reservations are being handled by Jeanene Flowers, 453-4718, and Julie Moore, 842-2676.

ROHM AND HAAS CLOSES DOORS—Locking the door to end 21 years of operation on Redstone Arsenal is Dr. Louis Brown, Interim Manager of Rohm and Haas' Redstone Research Laboratories. At left is Maj. Gen. Edwin I. Donley, Commanding General of the Army Missile Command who participated in a farewell ceremony with Rohm and Haas officials last Thursday. Gen. Donley praised Rohm and Haas "... for your many contributions to the Army's missile and rocket programs." Rohm and Haas was notified last year that a shortage of research funds made it impossible to continue contracts under which the company had been operating. Buildings and facilities have been assigned to the Missile Command's Research and Engineering Laboratories.

Engineers May Study Defense Engineering

A no-cost Civil Defense Engineering Course, "Fallout Shelter Analysis," is announced by its sponsors, the local Civil Defense Office and the National Society of Professional Engineers.

The class, open to engineering graduates, will meet for three hours one night a week for 13 weeks.

The course qualifies architects and engineers to analyze buildings to determine the degree of fallout protection afforded and methods of designing new structures resistant to gamma radiation resulting from nuclear incidents. The study is one of a series developed by the Office

of Civil Defense, Department of Defense, in fulfillment of its mission to provide a system of fallout shelters essential to the protection of the population from the effects of nuclear detonations. These courses are offered nationwide to architects and engineers without charge for tuition or texts.

The class will hold its organizational meeting on February 1, in Room M-50, Research Institute, University of Alabama-Huntsville, at 1900 hours. To pre-register, call the Civil Defense Office, 536-9611.

Nuclear Society Meets Tuesday

The American Nuclear Society is planning a regular business and technical program meeting at the Redstone Arsenal Officers Open Mess on Tuesday, at 6 p.m.

Dr. Fred Schulman, Special Assistant to the Manager of the Joint AEC-NASA Nuclear Systems Office, will be the featured speaker. Dr. Schulman will discuss "Uses of Nuclear Power in Space."

For further information contact the program chairman Martin O. Burrell at 453-2701.

OUTSTANDING PEOPLE

The following individuals from the Army Safeguard Logistics Command have recently received outstanding performance rating certificates: C. N. McElwee, Distribution and Transportation Directorate, W. M. Tarr, Maintenance Directorate, and A. L. Lang, Office of Comptroller and Director of Programs.

Toastmistress Club Begins Contest

The Redstone Toastmistress Club held the first of a series of preliminary speech contests, the winner to represent the club at the Council One, Dixie Region contest in April.

Mrs. Steven Suttles was judged the best speaker with "Steps to Becoming Svelte" as her topic. Runnersup were Mrs. Gordon Setterlund and Mrs. Richard Chapman.

Mrs. W. W. Seward presented the educational program and also won the best topic speaker award.

Guests at the meeting included Doris Caldwell, Pat Galyean, and Bob Bigbee of the Missile Intelligence Agency; James Braselton, Procurement and Production Directorate; and Landa Casteel, legal administrator, Huntsville.

The club also held an election. New officers are Mrs. Philip Certein, president; Mrs. Melvin Kilgore, first vice president; Mrs. Suttles, second vice president; Mrs. Clinton Roberson, secretary; and Mrs. Vera Ealy, treasurer.

JOBS OPEN

The U.S. Civil Service Commission, Huntsville Area Office, is accepting applications for Office Machine Operator, GS-2 \$4621 a year, and GS-3, \$5212 a year.

These positions are located in Federal Agencies in North Alabama.

A written test is required. In addition to passing the written test, applicants must meet the experience and-or training requirements outlined in announcement number AH-1-01.

For detailed information and application forms contact the Federal Job Information Center.

Two Named Logisticians

Col. C. W. Hospelhorn, Commanding Officer of the Army Safeguard Logistics Command, and Col. E. G. Topham, Director of Distribution and Transportation at SAFLOG, were recently notified of their selection into the Logistics Officer Career Program.

The prerequisites for selection into the program and award of the Army Logisticians's certificate includes diversified logistics background, schooling, and exceptional performance of duty.

Confirming Records For Pay Challenging

PFC's Dave Whatley and Bruce Zitkus help pay 5500 Redstone soldiers and other Huntsville area servicemen more than 9.9 million dollars a year, but they never see a dollar of the money.

Whatley and Zitkus are Pay Disbursing Specialists in the Military Pay Branch of the Army Missile Command Finance and Accounting Center and they play an important role in getting the troops paid each month.

These young soldiers are responsible for checking all morning reports from military units that are paid by the Redstone F & A Center. This means that any soldier reporting to a unit, leaving for reassignment, going on leave, being promoted or leaving for temporary duty reflects a change in unit strength and in the man's pay which must be indicated on his financial data record folder.

Approximately 50 to 100 morning reports are received and checked each day with actions requiring pay changes underlined and turned over to unit payroll clerks. These items are important because they dictate whether or not the soldier will receive the correct amount of pay at the end of the month.

Actually Whatley and Zitkus are members of a military-civilian team that makes up the Military Pay Branch. This Branch, headed by Mrs. Mona Moorer, handles financial records for all soldiers assigned to the Army Missile Command, the students at the Missile and Muni-

tions Center and School, soldiers assigned to SAFEGUARD and SAFLOG, the U. S. Marine Detachment, and transient military personnel in the area.

Whatley and Zitkus are among the newest members of the Military Pay Administration Team, but they are performing like veterans.

Dave Whatley, who will be 21 in February, entered the Army April 2, 1970 at Amarillo, Texas. Following basic training and Advanced Clerk Typist School at Fort Ord, Calif., he attended the Army Finance School at Fort Benjamin Harrison, Indiana, before being assigned to the Missile Command F & A Center.

Discussing his job, Whatley revealed he liked this type of work because it kept him busy and fitted in with his future plans for a career in business administration.

He is the son of Mr. and Mrs. Kenneth G. Whatley, Box 53, Channing, Texas, and graduated from Channing High School in 1968.

Bruce Zitkus, who will be 23 this month, entered the Army in June 1970. He received his basic training at Fort Polk, La., and then attended the Army Finance School prior to his assignment to Redstone.

He is the son of Mr. and Mrs. Irving Zitkus, 131 Parkwood Lane, South Bend, Indiana. From 1966 to 1967 he attended Vincennes Jr. College and then moved to the University of Indiana for the 1968-69 term where

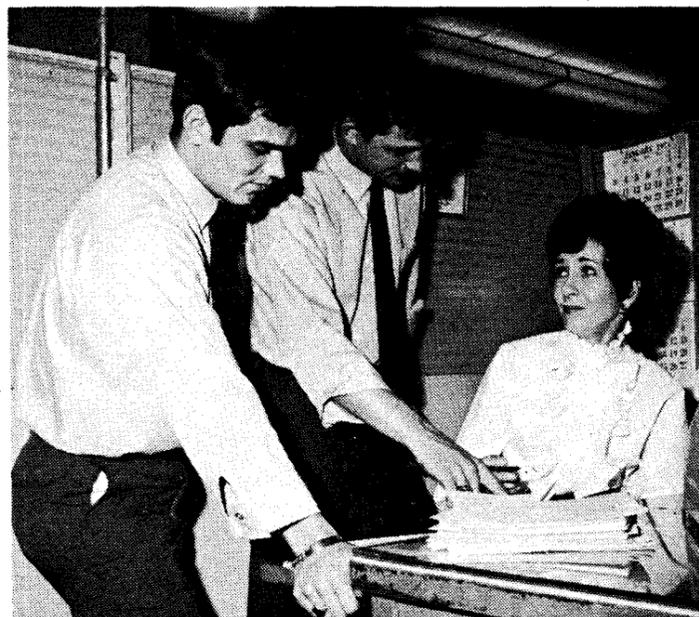

he was working toward a degree in elementary education.

While attending Finance School, Zitkus took part in the new seven week trial course that covered military pay, disbursing, travel and the new joint Uniform Military Pay system that is due to be introduced in the Army later this year.

Discussing his job and assignment to Redstone, Zitkus commented that he was surprised at the large number of civilians here as compared to other bases he had been assigned to. He said that while his job doesn't quite tie in with his plans for a future in education, it does give him valuable experience in meeting and working with people.

According to LTC T. W. Fitzgerald, Chief, Finance and Accounting Center, "Paying our soldiers correctly and on time is our most important function. I have found that the young soldiers assigned to finance are quite mature and are anxious to do a good job."

For PFC's Whatley and Zitkus, it's work hard all month to get the troops paid on time . . . and incidentally they like to get paid on time too!

CHECKING PAY RECORDS—PFC Bruce Zitkus, left, and PFC Dave Whatley, center, check unit morning reports with Mrs. Mona Moorer, Chief, Military Pay Branch, on corrections for soldier's financial data record folders. Zitkus and Whatley are Pay Disbursing Specialists and have the responsibility for checking from 50 to 100 unit morning reports daily for pay status changes.

Veterans who served between Feb. 1, 1955, and March 3, 1966, (as well as Vietnam Era veterans) are eligible for GI Bill educational benefits. Contact the VA.

Housing Help Available For Low Grades

MAJ. PERRY C. BUTLER

Graduates To Hear Maj. Perry Butler

This Friday's graduation ceremony at the Missile and Munitions Center and School will feature an address by guest speaker Major Perry C. Butler, chief of the school's Pershing missile instruction division.

Butler holds Bachelor of Science and Master of Business Administration degrees, the former from Drexel Institute of Technology and the latter from the University of Georgia. He earned his commission through the ROTC program while attending college.

Butler served as a Division

Modern living quarters for servicemen assigned to Redstone at prices they can afford to pay, are assured through the efforts of the Housing Referral Service Section of the Army Missile Command Family Housing Office.

Every month about 100 servicemen pass through this section where they receive personalized and convenient service that leads them to housing near the Arsenal they might never find on their own.

Off-post housing referral service is especially important to the lower ranks, for at present, no quarters are available on Redstone for those in the four lowest ranks unless an E-4 has had two years of active duty and has a commitment to serve six years.

The approved list at the Housing Office includes 6,033 apartment units, 1445 trailer units, and a number of individual houses that are for rent or sale.

Of especial interest to the lower ranks is a very modern apartment complex (144 units) which qualified last June 30 under the Federally assisted rent supplement program. The rental rate a serviceman pays is based on his

Ordnance Advisor with Military Assistance Command, Vietnam, and has also served with the 4th Armored Division in Germany. He has received the Bronze Star Medal, the Army Commendation Medal with first Oak Leaf Cluster, and the Vietnamese Honor and Staff Medals.

The graduation ceremony will be held at 9:30 a.m. in the Post Theater.

total income. If he meets the income provisions of the program, he pays 25 percent of his salary toward the rental cost and the Federal Government pays the remainder. The rental cost includes utilities.

"We make every attempt to handle housing requests very promptly—sometimes we've found something for a man that is compatible with his pay, within an hour or two after he comes to see us," Will A. Ducheslove, the Housing Referral Officer, said. He is ably assisted by Mrs. Norene Brooks who has been working with family housing at Redstone for 16 years.

The procedure for seeking housing is very simple. The serviceman comes to the Housing Referral Service section where he completes a card telling his needs and his income. Immediately the lists of available housing are given to him along with other relevant information about Redstone.

Ducheslove and Mrs. Brooks give the servicemen directions on how to reach various places listed, and offer every assistance possible to help people solve their housing problems.

"When appropriate," Ducheslove said, "our office works closely with the Army Community Service at Redstone, the Red Cross, Army Emergency Relief, the Federal Housing Authority and the Veterans Administration. We keep in close touch with local real estate interests and the community to advise of military housing needs, get listings of available units and encourage open housing

for military personnel."

"All permanent change of station orders should include instructions, to incoming personnel who require off-base housing, not to rent or lease off-post facilities without first consulting our office."

"Although this comparatively new off-post referral program is functioning well, I feel it could be further improved with the help of the appropriate administrative

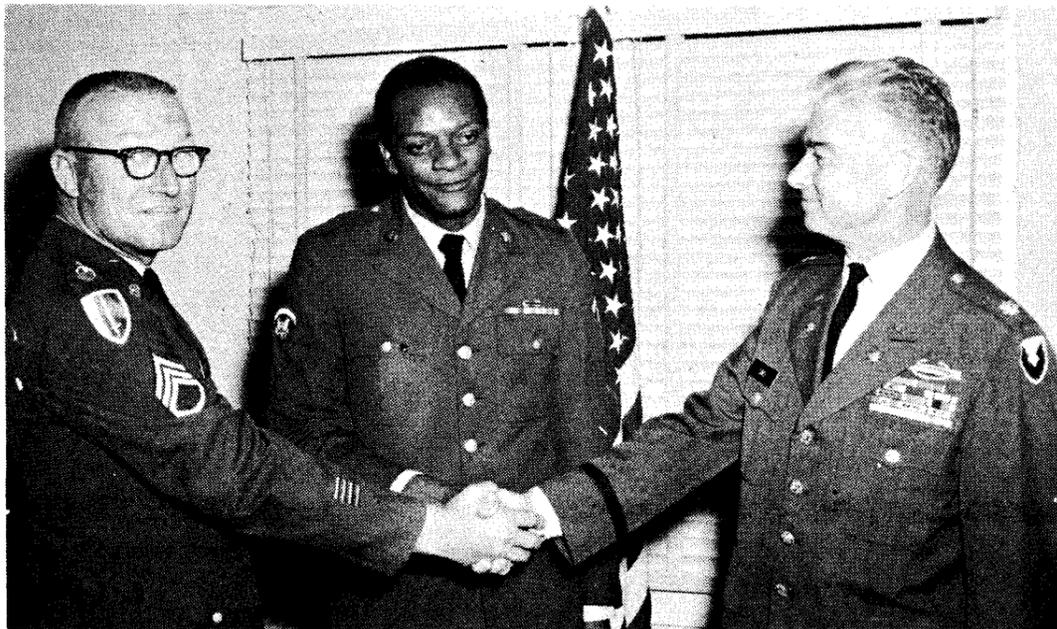

offices to insure that all incoming personnel needing off-base housing clear through our office in person," Ducheslove pointed out.

"The basic mission of our office is to provide a conveniently available service to assist personnel of all services and of all ranks who move into the area, to locate suitable off-base housing.

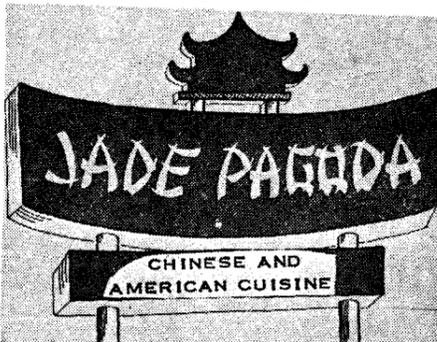

"It's part of an overall Department of Defense program."

LISTS OF HOUSING—Mrs. Norene Brooks, left, and Will A. Ducheslove, Housing Referral Officer at the Army Missile Command Family Housing Office, consult lists of available off-post housing for military personnel assigned to Redstone. Mrs. Brooks assists Ducheslove in finding approved and suitable housing for servicemen.

NEW TOURS—The Missile Command's recruiting rate got a big boost on the last day of 1970 when SSGT Floyd Burke (left) and SP 5 James Walker were sworn in for additional tours of active duty by LTC James Sims, Chief of the Military Personnel Office. Sgt. Burke, the Sports NCO in Special Services, signed up for three years. He has completed 12 years. Specialist Walker signed over for a period of six years which will bring his active duty career to 15 years. He is a dental hygienist at the Redstone Dental Clinic.

The School Brigade League 1970-71 is just a carbon copy of the league during the 1969-70 season. Three teams, Co. A, Co. D and Retired, are still battling for top honors. Position night was to be held Tuesday evening the first half of league play ended. And as usual, the Delta 88s and Retired were at it again, with Co. A close behind. Last year the two teams battled to the bitter end with the Retired team clinching the crown in the final week—position night.

In Tuesday's action Co. A was handed a three point loss by Co. C, the 88s took three from the Marines while Retired did likewise to HAWK. Hq. Co. was shocked by Half 'n' Half, Nike Track moved closer to the top with a three point win over 200th Ord Det., and five Aces took three from SSD. Al Jordan led Co. B to the only shutout win of the night as battlin' bravo swept four points from another Co. B entry, the Ammo Dept.

Well, the Sandbaggers have really sandbagged in this league. The one-time challengers for the top spot are now resting in eighth place in the Redstone Arsenal Officers league. The Five Splits have overcome their handicap

Ten Pin Spree Fells Records

It was a night for new records last Monday in the S&M Mixed bowling league with Mike Henrickson and Lisa Carleton each taking a share of the honors.

Henrickson shot a big 226 game and completed the three-game series with a stack of 596 Playmor maples, both seasonal highs for the league. Mrs. Carleton wasn't able to crack the high game for women, but did replace the former series high with a 530 count.

Billy Davis also made a strong bid to get into the act by shooting a 241 game, but fell short because of the Henrickson game and had to settle for next best.

In team play the Lucky Strikes continued their season long hold on first place and are now nine full points out ahead of the closest rival.

(splits) and moved into second place while the Lucky Strikes are continuing to knock down the pins and hold a four point bluge.

Sperry holds down the number three spot with Wheelers, Blackjacks, Misfits, Hardhats, Sandbaggers, D-Squares, Spoilers, Rolling Stomes and Dippers completing the standings.

The Banditos regained the first place position in the Friday Night EM Mixed League. The quartet chopped the Woodchoppers in the position night fiasco led by John Goltz' 566 series. Actually, the position night did not mix up the standings too much. The Chargers and the Bee-Gees are still tied for the third place spot with the Chargers holding an 822-pin lead.

BOWLERS NEEDED: The secretary of the Friday Night EM Mixed League has put out a call for more bowlers. Doris Burke reports that within the next three months several members of the league will be leaving on military orders. Anyone interested in bowling should call Doris Burke at 539-6757. Guaranteed placement on a team.

HERE & THERE: The Chargers were without one of its charges Friday night when position night rolled around but she was out for a good reason. As one bowler put it, she was on her honeymoon. Not really her husband just returned from Vietnam. We missed you, Sarah Brock but we understand.

HIGHS & LOWS: Wesley Mondy 536-225, Dave Vervaecke 537-223, Rod MacIvers 521, Gary Sprinkle 213, Bernice Monday 178, an all spare game; Erna Schiro 529, Lil Rodeen 495, Esther Matt 493, Tom Wilkerson 570, Jerry Ludick 567-202, John Glease 565-210, Ray Dinger 547-210, Vinc Bare 545-201, Hank Brotherton 541, Wesley Monday 562, Bud Griffin 527, Reb Hurst 527, Bud Carter 524-225, Sarah Brock 513, Gerry McIvers 509, Al Jordan 528-204, Nick Payne 565, Roy Henderson 540-203, Ray James 527, Richard Robinson 525, Don Reichert 528.

Engineers Out To Even Score In Friday Duel

Round two of the duel for civilian basketball supremacy comes up on Friday evening when the Corps of Engineers and MISD have it out for the second time of a three game series.

The Engineers will be trying to even the score with their unbeaten rivals and at the same time tie them for the top spot of the league standings. MISD went one up in the series with a 78-61 victory in December.

The game will be the final game of a three-game card at the Joe Bradley school gym. Another triple header is set for tonight with the Engineers getting a final tuneup for their big battle with Safeguard providing the opposition.

Each of the leaders scored a pair of impressive wins in games played last week with MISD making it eight in a row while the Engineers boosted their slate to seven wins against the single setback.

Whackers Off To Fast Start

It just takes more than a split season to keep the Bushwhackers from walking away with the S&M Men's bowling league championship this year.

The Whackers completed a title-winning first half of the season just before Christmas with a clean sweep over the second place Reba Bowling Apparel five. And last week they started the second half in much the same manner—by sweeping the Rebas.

Chris Leachman and George Kynerd shared honors in the second half jumpoff. The former shot a 564 total while the latter reached 632 with handicap.

One more sweep and a pair of deadlocks completed the league action at the Playmor last week. Lot-o-Pins left Missile Intelligence winless while U-Tote-Um broke even with King Pins and the Auto Center split a set with the Pinspotters.

The best individual effort of the week was turned in by Dick Pingray who shot a 574 for the Pinspotters. Bob Faust hit for 540 and Gil Vitale rapped a 527 for the same team while Gene Martin put together a 544 count for Auto Center in the deadlock match.

Lot-o-Pins took their lead from Willie Aichele while Francis Cline was the top MID shooter. Oliver Graves turned in a 542 and Al Jordan a 526 for the Grocers while Mike Henriken topped the Pins at 530.

The front runners walloped the Metrology Lab, 85-26, and then ran over the Directorate of Individual Training, 99-51. The Corps whipped Missile Intelligence, 83-41, and Research and Engineering, 64-37.

R&E got an even break on the week by shipping DIT, 50-45, and Safeguard made its only appearance a winning one by taking Engineering QA, 68-52.

MISD got a 24 point performance from Fred Smith along with a 21-point output from Danny Franklin in racing to their rout of Metrology. Kenny Magnant was high for the Labmen with eight points.

Bob Hubbard and Jim Bunnell took over the scoring lead in the MISD win over DIT with 26 and 22 points respectively. Larry Veech topped the School five with 15 and Andy Phillips added 11 more.

Hamil Martin was the leading C of E point producer against MIA with 20 points and Jerry Dooley hit for 17 more. Phil Shepherd led the losers with 10.

Jerry Mullinax fired 20 points in leading the way for the Corps' win over R&E. Steve Smith tossed in 17 in the losing cause.

The R&E win over DIT was directed by Jim Burnett who tallied 16 points. Phillips scored 13 and Veech collected 11 for DIT.

The Safeguard-QA contest was all but decided during the first half with the QA star, Neil Winterburn, out of the lineup. The Anti-Missilemen rolled out to a 44-15 lead through the first two periods.

The second half was a different story as Winterburn tried desperately to get his mates back in the game scoring 26 points. But Safeguard was able to stave off the comeback to post their fourth win in seven games.

Jerry Reeves was the leading Safeguard point maker with 25.

Goltz Raps 614 In Bandit Raid

A trio of Bandits stole the show last week as AMC bowlers returned to the Parkway Lanes after a two-week layoff with an overall mediocre performance.

Only two totals over 550 went into the books other than the three game sets rolled by John Goltz, Willie Wiggins and John Callahan who appear to have the Bandit attack ready for a stretch run at their second straight league title.

Goltz put together his second straight Honor Roll count when he closed out a 614 run with a 241 game. Wiggins shot a 225 in the middle and ended a pin short of the 600 barrier while Callahan hit an even 550.

Their efforts got the Bandits a 3-1 win over the second place Sheraton Motel five whose only point came in a 1053 to 1001 win in the first game. Jim Hill turned in a consistent 188-189-188 run for a 565 in the Sheraton attack.

The only other over 550 total was rolled by Noel Moore, the league's top average bowler at 180. However, Moore's 554 (234 game) was not enough to keep the Alley Cats from going down to a 3-1 setback dealt out by the T-Birds.

The league leading DeVault Ultraprecisions dropped three of four points to the Cobras but clung to a five-point advantage. Bill Davis rapped a 548 and Chuck Turner hit for 544 more in the Cobra win.

The Metro Cals added to the Tiger woes with a sweep and the Rejectors scored another shut-down with the Wonnors on the losing end.

Veterans who plan to begin GI Bill enrollment in high school or college should contact their nearest VA office immediately for assistance.

Included in this shipment are choice Kermans, in many pastel colors, fine Keshans, Hamadans, part silk Ghoms, Borjollou, Kazvin, Bokhara, Beloucheston, Luristan, Shiraz, Saddlebagh, very fine Nain, Afghans, Prayer rugs, Ardebil, Serebend Heriz, fine Isfahans, Turkish, Sarouk, Tabriz, unique antique rugs.

AUCTIONEER: MOHAMMED MIZANI **TERMS: Cash or Check**

MAJ KENNETH INGRAM AND HENRY ALLEN

Suggestions Pay Off

Two Army Missile Command employees have discovered that the Army Suggestion Program can mean money in the bank.

Maj. Kenneth Ingram and Henry Allen got checks for more than \$1000 each last week for suggestions they submitted while both worked with the Redeye Project Office.

Allen, who now is employed by the Product Assurance and Test Management Office, got \$1265 for his idea which enabled the Army to use fewer targets and missiles to accomplish tests of a new Ballistic Aerial Target System (BATS). He suggested a change in the training program for Redeye gunners that resulted in an estimated first year savings of \$164,118.

Maj. Ingram, who is Secretary of the General Staff, got \$1055 for a suggestion establishing an "in-house" computer capability to support the Redeye Stockpile Reliability and Surveillance Program in lieu of contracting computer services. Estimated first

year savings are \$70,126.

Maj. Gen. Edwin I. Donley, Commanding General of the Missile Command, presented both awards.

Army Awards Hawk Contract

An Army Missile Command contract for \$4,428,000 has been awarded to Raytheon Company for Improved Hawk field conversion.

Hawk is the Army's air defense system that can search out and destroy attacking aircraft at altitudes of less than 100 feet and more than 38,000 feet.

The Hawk Program is managed by the Missile Command at Redstone Arsenal, Ala., under Col. Harry A. Buzzett, Project Manager. Raytheon is prime contractor.

The Missile Command's Procurement and Production Directorate negotiated the contract for the Army.

CSM IREL B. REED

CSG Reed Joins Missile School

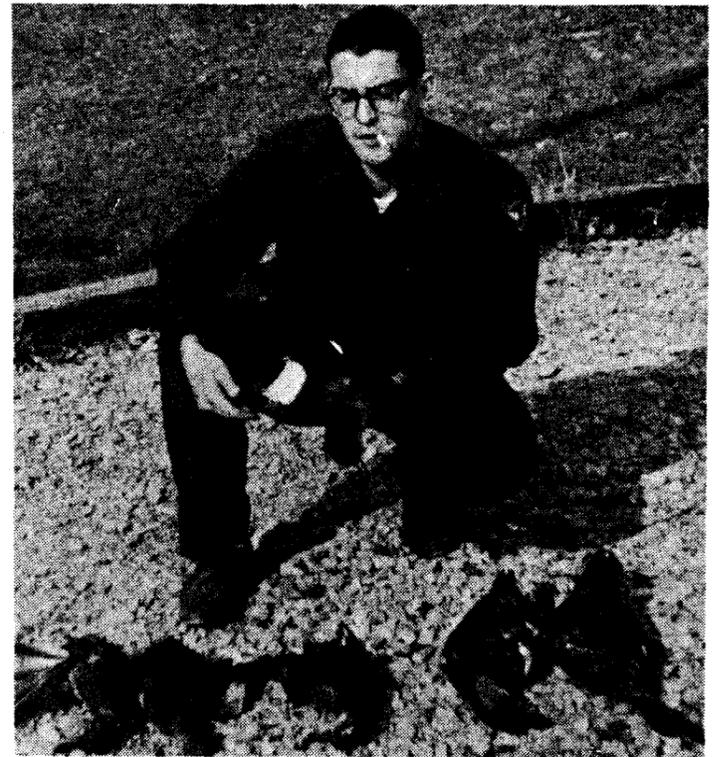

The commandant of the U.S. Army Missile and Munitions Center and School has announced that Command Sgt. Maj. Irel B. Reed has been named to the top enlisted position.

Reed replaces Command Sgt. Maj. Clyde W. Riker, who had been acting as the School's command sergeant major since last September. Riker will now devote full time to being the top enlisted man at the U.S. Army Unit Training Command.

A native of Tennessee, Reed comes to the School from assignment with the 11th Inf. Bde., Americal Division, Vietnam. Prior to that assignment the 31-year veteran served with the Third U.S. Army as a chief instructor of ROTC at Middle Tennessee State Univ., Murfreesboro, Tenn.

In addition to his tour in Vietnam, Reed has also seen overseas duty in Germany and Korea. His last tour of duty in Germany was as Sergeant Major of the 3rd Inf. Div. His stateside duties have been at Ft. Knox, Ky., and Ft. Benning, Ga.

During World War II Command Sgt. Maj. Reed participated in the Normandy, Northern France, Rhineland and Ardennes campaigns. His awards and decorations include the Soldiers Medal, Air Medal, Bronze Star, French Fourragere, the World War II Victory Medal, the Army Commendation Medal with two Oak Leaf Clusters, the Senior Parachutist Badge and the Combat Infantryman's Badge.

PROUD DUCK HUNTER—SSG William Moore, displays one of the Baldpate, the 2 Mallards, one Black and one Wood ducks that he shot on The Arsenal, during the current duck hunting season. SSG Moore is assigned to MMCS. SFC John Levan, deputy game warden reminds hunters that duck season ends on Jan. 16.

Dial 112 For Redstone News

University Offers Network Modeling

A short course in CPT-PERT-GERTS Network Modeling Methods will be offered by The University of Alabama in Huntsville, February 22-26, 1971.

This course is designed to introduce the student to the fundamentals and usage of various network modeling, evaluation, and simulation techniques. Methods and applications in the areas of project planning, scheduling, and control are discussed in the first half of the course. The second half is devoted to the discussion of a recently developed generalized network simulation technique, GERTS. The applicability of GERTS to the simulation of projects, scheduling problems,

sequencing problems, and network problems in general will be discussed and illustrated. Sample cases will be run on the Univac 1108 and provided to the student. Topics of interest to both managerial and working levels are included.

Instructors will be Richard M. Wyskida, Ph.D., Chairman, Industrial and Systems Engineering, The University of Alabama in Huntsville and James P. Ignizio, Senior Research Industrial Engineer, UAH.

Applications for this course may be obtained from the UAH Division of Continuous Education, P.O. Box 1247, Huntsville, 35807, telephone: 985-6010. Enrollment in the class will be limited to 30 students.

NAMES IN THE NEWS

SP4 Jerry Berg

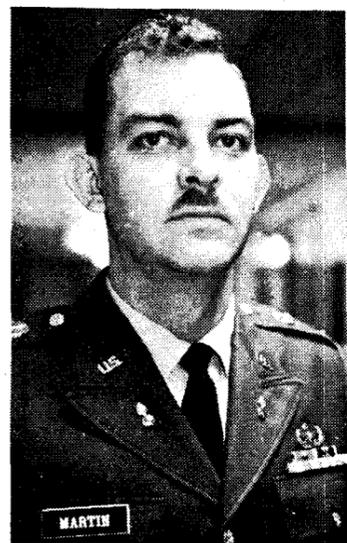

Presentation of the Meritorious Service Medal and the Bronze Star highlighted the Commandant's award ceremony last week. The MSM was awarded to CW3 Robert L. McCall for his outstanding service to Hawk Division in the position of Assistant Operations Officer. McCall has served in that capacity since May 1968, and was cited for making an invaluable contribution to the

CW3 ROBERT L. McCALL

efficient use and availability for equipment for training in the division. McCall has 25 years of service in the Army to his credit. He doesn't know yet where his next assignment will be, but he'll soon be leaving Redstone.

Incidentally, the presentation was a first here at MMCS—the first time that the actual medal for the MSM was pinned on a soldier. The design of the medal was approved by the Defense Department in mid-1969 but until now recipients have had to be satisfied with the ruby and white colored ribbon.

CPT. WILKES T. MARTIN JR.

The Bronze Star Medal, First Oak Leaf Cluster, was for CPT

Wilkes T. Martin, Jr., who recently arrived at MMCS from a year's duty in the Republic of Vietnam. Martin was credited with outstanding service as CO of the 99th Ordnance Detachment (EOD) at Phouc Vinh. A native of Inman, S. C., he is now assigned to the Hazardous Devices Division of OTD as an instructor.

HARDWORKING DAC'S

The commandant had his work cut out for him last week with no fewer than 22 Outstanding Performance Rating certificates to present to MMCS civilians. Each of these energetic employees was cited for his or her diligent work over the past 12 months.

Ernest L. Braden, William E. May, Jr., Mrs. Jennie M. Rucker, John T. Kilburn, Jr., and Robert E. Lovett were recipients from Air Defense Dept. and in Land Combat Dept., certificates went to Kenneth E. Carroll, Mrs. Mary C. Stafford and William J. Lundy. Over in Officer Training Dept., Clarence P. Carey was the lone awardee.

From Doctrine and New Materiel, Ernest E. Wysong, Jack L. Matthews, Harvey W. Adams and James D. Lowe were spotlighted, as were James F. Nabors from the secretary's office and a trio from Methods of Instruction at DIT: Wallace H. Fitzmorris, Charles M. Gibbons and George Melochick.

Charles W. Fisher and Charles W. Gibson from the Office of Operations were honored, along with Roy H. Lynch, Mrs. Elizabeth R. Reddick and Miss Dorothy A. Vessels, all from the comptroller's shop.

With that long a list of hardworking MMCSers to inspire the rest of us by their example, we don't have much excuse for not doing at least as well, do we?

Finally, but not least by any means, the commandant presented a certificate of service to Arlow Wise of Air Defense who recently passed the 20-year mark in his government service career.

NEW REGIME FOR JOC

The Junior Officers Council at MMCS announced its semiannual installation of new officers last week. The newly-elected chairman of the council is CPT William L. Trimble, assistant S-3 for School Brigade. The vice-chairmanship will be filled by 1LT Robert D. Peek, assigned to the Admin-Operations Division of DIT, and 2LT Gerard A. Bolduc from Doctrine and New Materiel will be serving as recorder for the council.

HENDERSON TAKES OVER 4TH

There's a new CO at the 4th ETC this week. In charge of command ceremonies held Monday CPT Jack R. Braden, company commander of the 4th for the

CPT. JAMES R. HENDERSON

past 19 months, passed the guidon to his successor, CPT James R. Henderson.

The new CO is no stranger to MMCS as he's been working in the Office of Operations for the last seven months. He's also a native of North Alabama, having grown up in Decatur and attended Florence State University. He received a Bachelor of Science degree there in 1964, at the same time earning his Army commission through the ROTC program.

CPT Braden, meanwhile, will be on his way to Sunflower Army Ammunition Plant at Lawrence, Kan., where he will assume duties as executive officer of the plant.

BEST OF 2ND BATTALION

Two companies in the 2nd Battalion were honored yesterday for being best of the battalion during December—one in overall military appearance and the other in blood donations. For the 7th ETC it was the fifth consecutive month that they've walked off with the battalion Honor Company trophy. Let's hope the other companies in the battalion haven't given up in the monthly race for sharpest company—those troops at the 7th aren't infallible, after all.

The most generous blood donors of the battalion for December were the men of the 4th ETC. Their blood donations during the month of December added up to the largest percent participation Arsenal-wide in the Red Cross large unit category.

And speaking of giving blood, the Red Cross Bloodmobile will be at MMCS again January 27th. Let's give them a record turnout and fill a few thousand of their pint bottles with life-giving red stuff.

AIR DEFENSE INSTRUCTORS HONORED

Five instructors from Air Defense were spotlighted last week for the outstanding jobs they've been doing in teaching their specialties. Each of the men has been named outstanding instructor for the department one or more times in the past. William L. Hill and MSG Robert W. MacDonald were Hawk Division's honored instructors, and for Nike Division it was Leon G. Knowles, SSG Richard E. Brown and SFC William P. Nichols, Jr. Knowles is now working in Land Combat Dept., but was cited for his job while with Air Defense.

UAH Seeks Medical School Dean

The search committee for a Dean of the Medical School at The University of Alabama in Huntsville is actively seeking a person to lead in the development of medical programs at the University here. The committee is composed of Dr. John G. Castle, director of the Division of Natural Sciences and Mathematics, UAH chairman; Dr. John Chenault, chairman of the State Board of Censors; Dr. Carl Grote, president of the Medical Staff of Huntsville Hospital; and Dr. Clifton K. Meador, Dean of the School of Medicine, The University of Alabama in Birmingham. This committee recently appointed by Dr. Benjamin B. Graves president, The University of Alabama in Huntsville, is expected to make its recommendations soon.

UAH, in cooperation with the

medical community in North Alabama, and with strong support of interested citizens is moving rapidly toward the establishment of medical programs at UAH in the very near future. Governor elect George Wallace has assured his support for expanding medical education in this region. Funding for this school will be sought in the upcoming Legislature.

ALABAMA A & M UNIVERSITY

In recognition of the increasing demand for skilled data processing technicians Alabama A & M University proudly announces the continuation of a new dynamic program for meeting these demands. The vehicle is called:

THE CERTIFICATE PROGRAM IN COMPUTER SCIENCE

The total program consists of 15 modules, semester equivalents, that have been sequenced for maximum transfer of learning. This modular construction also permits the individual student to enter the program at his particular point of readiness.

The sixth session will begin on January 14, 1971. Registration will be conducted during the hours of 9-5 in the Computer Center, Carver Complex for the period Jan 6. through Jan. 15. The following courses will be offered:

Course No.	Course Title	Time Meeting	Day
S300	Introduction to Automatic Data Processing (Theory)	6-10 P.M.	TTH
S310	Introduction to Computer Science (Theory)	6-10 P.M.	MW
S320	Introduction to Cobol Programming (Theory-Lab)	6-10:10 P.M.	TTH
S330	Introduction to Fortran IV (Theory-Lab)	6-10:10 P.M.	MW
S340	Advanced Cobol (Theory-Lab)	6-10:10 P.M.	MW
S470	Numerical Analysis (Theory-Lab)	6-10:10	TTH

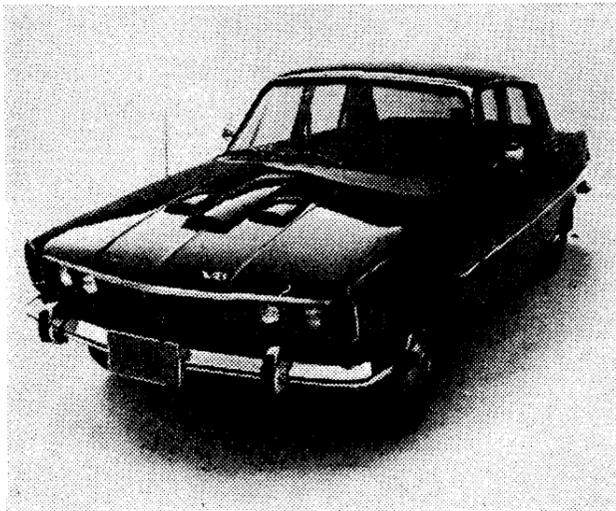

CREDIT

Certificates of completion will be presented for each module successfully completed by the student as well as a letter grade reflective of his achievement. After completing on or more of the certificate modules, and a student decides to enroll in a degree producing program at Alabama A & M University, he may present his certificate(s) for evaluation in the same manner as he would transfer credit from another institution and apply for admission.

The Rover 3500S.
A \$6,000 sportscar
for grown-ups.

Sportscars are fun. But there comes a time in every man's life when he wants more than a hot engine that corners nicely. The Rover 3500S is manufactured by British Leyland, England's leading sportscar builder. Its 3½-litre, aluminum V-8 will allow the car to do 117 m.p.h., without strain. But it comes with the best suspension, the best power steering, the best seating (for four) and the best selection of driving and safety equipment money can buy. If you've outgrown sportscars, but you still love beautifully functioning machinery, come in and try the 3500S. See (and feel) what the next step up is like.
