Comp Level Review Completed

A review of competitive levels for civilian personnel within the Army Missile Command competitive area has been completed and new levels assigned for all those employed as of Oct. 4, as well as all new jobs written for the Standard Commodity Command organization at the Missile Command.

New retention registers will be distributed, within a few days, to each organizational element so that individuals may obtain their new competitive level by reference to these registers.

As a result of the review, the number of competitive levels was reduced by more than 550. The competitive levels now established include new jobs that may not as yet be active.

Also, as part of the review, the Civilian Personnel Office has initiated a new numbering system for the competitive levels to facilitate implementation of the new concept and to reduce the possibility of errors.

Questions regarding competitive level concepts or changes in a person's competitive level should be pursued through supervisory channels to the appropriate individual who served as chairman. Unresolved questions will be referred by these chairmen to Jack McConaha, Civilian Personnel Officer and chairman of the Competitive Level Steering Committee.

The chairmen and their sub-committees are: Col. Robert Williamson, Project Management; Jack McConaha, Civilian Personnel Administration; Bruce MacIlveen, Comptrollership; Tom Davidson, Safety Management; John White, Procurement; W. T. Anderson, Quality Control and Inspection;

James C. Goodwin, Education and Training; Billy Tippins, Supply Management; Joe Coffman, Equipment Specialist; Frank James, Engineers and Scientists (non-construction); William Henry, Engineers and Scientists (construction); Col. Louis W. Haskell, Intelligence; Dr. Julian Kobleg, Librarians; David Harris, Information and Editorial (Information Specialist);

George Rudd, Information and Editorial (Technical editor-writer); Willie Calcote, Automatic Data Processing; Frank Buckley, Attorneys; George Hendrix,

(See Register on Page 4)

The Redstone Rocket is published by the Enquirer Printing Co., a private firm in no way connected with the Department of the Army. CARTOONIST AT WORK—Spec 6 Elbert A. Allgood, thinks of a punch line for his cartoon feature "The I's Have It" which will be appearing weekly in the REDSTONE ROCKET. Allgood looks at Army life through the eyes of the soldiers of today. He welcomes ideas for the weekly cartoons and can be reached at 876-5711.

Cartoonist Begins New Art Feature

Sp 6 Elbert A. Allgood, a Senior Illustrator in the Visual Arts Branch, U.S. Army Missile Command, is the originator and artist of the new cartoon feature "The I's Have It" that will appear regularly in The Redstone Rocket.

Artist Allgood has picked out many of the interesting facets of Army life, some from the past and some from the projected Modern Volunteer Army Program, and is looking at them through soldiers eyes.

Prior to his assignment to Redstone, Allgood was Senior Illustrator in the 3rd Army Training Aids Section at Fort Gordon, Ga.

He entered the Army in January 1961 and since that time served in

Korea from May 1961 to Sept. 1962, Germany from May 1964 to May 1966 and in Vietnam from June 1966 to June 1967.

Allgood has been drawing and cartooning for more than 15 years. Started as a hobby, it developed into his career.

Though his is a native of Oskaloosa, Iowa, he is married to the former Sara K. Bridges of Prosperity, S.C., and calls that his home.

The Allgoods have a son, Brian Neal, age 5.

Since Allgood is to furnish the ROCKET with a weekly cartoon feature, he will welcome ideas on humorous situation. Ideas can be called in to Sp 6 Allgood at 876-5711.

No Major RIFs Planned By DOD

WASHINGTON—The Department of Defense has apparently ruled out further major civilian personnel reductions and base closings pending Congressional action on the FY 72 defense budget request.

There had been continuing speculation on impending major defense reduction in force actions. A DOD spokesman told newsmen last week, however, that none would be forthcoming.

He said DOD planned to drop its civilian employment by 22,000 during the fiscal year beginning July 1, 1971, and cut 194,000 military personnel. He said that most, if not all, of the civilian reduction could be handled by attrition provided Congress appropriates the funds DOD has requested for FY 72.

"What I am really saying is that we are not, at this stage, announcing any base closures," the spokesman said.

"We have no list of base closures

to announce. There will be requirements to reduce. We would hope that most of them, providing the Congress appropriates the funds, most of the reductions—civilian reductions—will be by attrition. There will be minor RIFs, realignments here and there in order to adjust workload... The (military) departments need to evaluate this, so you won't hear any thing specifically about bases for some time, until the departments do a new evaluation of the workload."

In acting on the FY 71 defense bill, the Congress cut \$150 million from Operations and Maintenance accounts in DOD which must be absorbed by June 30, 1971.

Commenting on that action, the DOD spokesman told the press:

"Previously announced base closures and major realignments will continue... We had been anticipating the congressional action (\$150 million cut) for (See Reductions on Page 4)

Enlisted Council Cites Problems

The U.S. Army Missile Command has already effected some changes designed to support the Modern Volunteer Army Program. One of the most significant has been the establishment of an Enlisted Men's Council which opens direct communications among representatives of the lower grade enlisted men and the Troop Commander and SGT Major.

This council, composed of E-5's and below, has already held two meetings with the Troop Commander and Sergeant Major to discuss problems that affect men living in the barracks, those on the job and others relating to off-duty activities.

These council members, selected by fellow soldiers in open elections, have established a direct line of communication to the Troop

Commander that under the old system would have taken months or never have occurred at all.

Each council member talks to the men he represents, then brings up topics they would like to have discussed during the meeting. Conducted in a relaxed atmosphere, the "give and take" discussions have already produced concrete results.

LTC Floyd C. Gober, Troop Commander, opened the second meeting with a report on the recommendations from the first meeting and the actions that have been taken to date. His report to the council read like this:

RECOMMENDATION: That lower grade enlisted personnel be represented on the NCO Club Council.

ACTION: A recent change has been made in the method of selection of NCO Council members. Lower grade enlisted men are now represented on the council.

RECOMMENDATION: That a leathercraft shop be established by Special Services.

ACTION: Materials are available for leathercraft work through the supervisor of the ceramics shop. (information was obtained from the Special Services Officer).

RECOMMENDATION: That the Post Laundry use more care with uniforms to reduce the number of cracked or ruined buttons and zippers.

ACTION: LTC Gober discussed the problem with the head of the (See Council on Page 4)

VOLUNTEER MARCH—Spec. 4 Robert Newcomer of the Missile and Munitions Center and School was one of the 782 registered participants in the March of Dimes Walkathon Saturday. The Walkathon raised \$20,000, of which Newcomer's tired feet contributed \$123.75.

Nike-Hercules Goes Japanese

Nike Hercules missiles now bear the label "Made in Japan."

Japan under a co-production agreement signed with the United States in 1967, is manufacturing the air defense missiles at the Mitsubishi Heavy Industries facility in Nagoya.

This is the first time Hercules missiles have been produced outside the United States.

The Japanese have just completed acceptance test firings of their first production output—utilizing facilities at Fort Bliss, Texas—and Army officials there (See Nike on Page 4)

Answers Policy Changes

Effective immediately. Missile Command personnel who want to use the Rocket's question and answer service may call their questions directly to the Information Office by dialing 6-4161 or 6-4400.

Just say: "I have a question" and then be prepared to dictate the question. We'll want to know your name, organization, and office telephone so a direct call can be made back to you with the answer.

Now in its third week, the program thus far has averaged an authoritative answer within 24 hours of receipt of the question in the Information Office. Many have been answered the same day.

You may, if you wish, submit your question in writing to the Information Office. Be sure and list your name, organization, and telephone number for direct response.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesday. The publisher will receive editorial content for publication in the Rocket through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809, Bldg. 5250, Room A-134, Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P.O. Box 346, Huntsville, Ala., 35804, telephone 534-4701, as representative of the publisher. Advertising deadline—both display and wantads—is 10 a.m. Monday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$7.42 a year, or \$4.00 for six months, tax included. Mailing arrangements may be made with the publisher, P.O. Box 520, Huntsville, Ala. 35640.

Everything advertised in this publication must be made available for purchase, use, or patronage without regard to the race, creed, color, sex or national origin of the purchaser, user, or patron. A confirmed violation or rejection of this policy of equal opportunity by an advertiser will result in the refusal to print advertising from that source.

Rocket Ruminations

Nothing is troublesome that we do willingly.

Answers

(Editor's Note: The MICOM Information Office provides direct, factual answers for job-related questions of Missile Command military and civilian personnel. Questions may be submitted by telephone or in writing. Dial 876-4161 or 876-4400. Give your name, organization, telephone number, and question. You will be telephoned the answer as soon as possible. If you prefer, submit the question in writing, giving name, organization and telephone number, to the MICOM Information Office, Rm. A-134, Bldg. 5250. An answer will be telephoned to you. Questions and answers of general interest will be selected for publication in the Rocket. Names will be withheld.)

QUESTION: What is the necessity of trainees when the Army is in a RIF position?

ANSWER: Trainees are required to insure a source of talented individuals to meet the long range needs of the Army for trained personnel. The number of trainees required is re-evaluated annually in order to make adjustments based on new information.

QUESTION: What is the status of the cafeteria survey which was published in the Redstone Rocket?

ANSWER: The survey was completed and results published in the Dec. 16, issue of the Rocket. The results are being used by the Post Restaurant Council to formulate ideas to be utilized in improving cafeteria service.

QUESTION. In 1947, due to a RIF, I was separated from Civil Service for a period of 21 months and as a result forfeited approximately 400 hours sick leave. As I was only out of Civil Service 21 months, my question is can I have this 400 hours re-credited to my sick leave account?

ANSWER: No. The Leave Act applicable on the date an employee was reemployed is the determining authority as to recredit of sick leave. Assuming you were reemployed during the year 1949 or 1950, you would not be eligible for recredit of sick leave. To be eligible, you would have had to be reemployed without a break in service of not more than 52 continuous calendar weeks.

QUESTION: If my 1970 W-2 Form is lost, what should I do?

ANSWER: If it is lost contact the Civilian Pay Section of the Finance and Accounting Division, MICOM Comptroller, at 876-8500, and give your name as listed on payroll records, your payroll number and the cost center of your organization for the W-2 Form to be reissued. However, if you have not received your 1970 W-2 Form and have changed address recently, it is suggested that you check with the Post Office servicing your old address before reporting your W-2 Form lost.

QUESTION: Under what conditions can abortions be performed in Army medical facilities?

ANSWER: Abortions may be performed in Army medical facilities in conformance with standards of good medical practice subject to the availability of space and facilities and the capabilities of the medical staff. Physicians and other medical personnel are not required to perform or participate in surgical procedures which violate their moral or religious principles. Decisions on whether abortions will be performed are determined by each individual Army hospital commander on a case by case basis.

REENLISTS—CPT Allen D. Andersen (left), Commanding Officer, Headquarters and Headquarters Detachment, Army Missile Command, administers the oath of reenlistment to SP4 Paul Link during recent ceremonies at Redstone Arsenal. Specialist Link, a cook at the Missile Command Consolidated Mess Hall, signed up for another six years. He and his wife Barbara are looking forward to an assignment in Alaska this spring.

'We Care' Finale On Feb. 4

Operation We Care has scheduled a "farewell and thank you dinner" on Feb. 4 to recognize and formally thank all who have supported the 93rd Army Evacuation Hospital in Vietnam since 1966.

The dinner, starting at 7 p.m. at the Carriage Inn, will conclude the Operation We Care program.

Taking part in the program will be Huntsville Mayor Joe Davis; James Record, Chairman of the County Board of Commissioners; and Maj. Gen. Edwin I. Donley, Commanding General of the Army Missile Command.

Also attending the Dutch treat dinner will be people who have supported the program.

The idea to adopt, and sponsor, a military unit in Vietnam originated in 1966 with the Huntsville-Madison County Chamber of Commerce, which subsequently did the organizational ground work. The city and county jointly named John W. Houtz as the first community chairman of Operation We Care that summer.

He was succeeded by James McMillan who served until the present co-chairmen, Mrs. H. E. Miller and Harris T. Mitchell, were named.

For further information, contact Mrs. Miller at 534-8792.

Five Cited As Scholars

"You have successfully completed a rigorous course of instruction and are now well-versed in the fundamentals," were the words CPT Daniel T. Workizer had for 92 Missile and Munitions Center and School graduates, Friday. But he warned, "the real work comes when you begin to apply what you know now, plus what you will learn in the future."

Five of the MMCS graduates received special recognition for outstanding academic performance in their respective courses. The honor graduates were: Spec. 4 David J. Grabner of Breda, Iowa with a 98.7 average in ammunition storage; Spec. 4 James E. Malott from Cedar Lake, Ind., with a 93.6 average in light air defense System Electronic repair; Spec. 4 David K. Roberts from Madison, Wis., with a 98.0 average in ammunition storage; Spec. 4 Keith L. Culver of Shidler, Okla. with a 99.3 average in ammunition records, and Pfc Kenneth A. Griffin with a 90.7 average in Hawk fire control repair.

Three of the five honor graduates finished with overall averages high enough to qualify as Association of the U. S. Army (AUSA) Honor Graduates. Donald C. Maliskey, representing the Tennessee Valley Chapter of AUSA, presented the three men with plaques commemorating their academic achievement. A graduate must achieve an average score of 96 out of a possible 100 to qualify for an AUSA award.

Col. Zeirdt Dies

Funeral services for Col. William H. Zierdt (USA Ret.) were scheduled to be held this morning at the Kreamer Funeral Home, Annville, Pa., with burial to follow in the Zion Lutheran Cemetery at Grantville, Pa.

The father of Maj. Gen. John G. Zierdt (USA Ret.), he died Sunday following a long illness.

Other survivors include a daughter, Cmdr. L. E. Zierdt, San Diego, Calif., and a son Lt. Col. William H. Zierdt, Jr. (USA Ret.), Falls Church, Va.

Clerical—Administrative; Col. Preston B. Cannady, Wage Board; and Curtis Williams, non-professional technical and other.

There are 285 Class Act job series, and the lowest number of competitive levels that could possibly be established would be between 1,000 and 1,200. There were approximately 2,366 competitive levels at the Missile Command before the review and there are now 1,800. The number of individuals in the various levels now runs from one in some levels to as many as 100 in others.

A comparison of the levels before and after the review is as follows: Civilian Personnel, 45 before 52 after; Comptroller, 104 before, 106 after; Safety Management, 9 before, 11 after; Supply Management, 131 before, 65 after; Procurement, 108 before, 95 after; Quality Control and Inspection, 29 before, 31 after.

Education and Training, 8 before, 7 after; Equipment Specialist, 27 before, 30 after; Engineer and Scientist, 835 before, 636 after; Intelligence, 32 before, 34 after; Librarians, 16 before, 11 after; Information and Editorial, 41 before, 31 after; Automatic Data Processing, 62 before, 50 after; Administrative and Clerical, 251 before, 165 after; Attorneys, 15 before, 21 after; Wage Board, 233 before, 126 after; and all others, 330 before, 126 after.

laundry and she assured him that more care would be exercised. The laundry asks individuals to check their clothing and call attention to the problem immediately so they can be repaired or replaced at once.

RECOMMENDATION: That certain items, particularly Afro combs and other items in demand by black soldiers, be stocked more adequately by the PX.

ACTION: A list is currently being prepared of those items which are either missing or in short supply in the PX.

While some of the problems can be resolved in a short period of time, others were referred to the Deputy Post Commander who has incorporated them into tasks being considered for implementation under the Modern Volunteer Army Program.

Some of these areas are as follows:

RECOMMENDATION: That personnel assigned to Redstone Arsenal be paid a subsistence allowance rather than being forced to eat in the mess hall.

ACTION: Since such a decision must be based on feasibility studies and takes time, it was recommended as a task for the Volunteer Army Program.

Other recommendations such as the Army should assist in obtaining cheaper automobile insurance rates for lower grade personnel; establishment of an agency to aid enlisted men and their wives in obtaining employment; and that Enlisted Men belonging to the NCO Club annex be allowed to make liquor purchases at the NCO Club Package Store, are currently under study and evaluation.

During the last Enlisted Council meeting on Jan. 25th, COL. Preston B. Cannady, Deputy Post Commander, participated in discussions of some of the recommendations made by Council members.

LTC Gober and CSM Joel Sandlin both feel the Council sessions are an excellent way to find out what the men feel and what problems they have. Both men feel that now the lower grade soldiers have spokesmen to present their views, the lines of communication are

WHAT'S IT SAY?—Although both models, obviously, are Nike Hercules, look closely and you'll see strange markings on the model held by Colonel Morris P. Pettit. Translated, those markings mean "Japan—Air Self Defense Force." The Japanese are now producing Hercules missiles. At left is Wesley Swift, coordinator for the Nike Hercules co-production program.

Nike

(Continued From Page 1)

described the tests as "... highly successful."

Additional quality assurance tests are to be conducted by the Japanese there this fall.

Nike Hercules is this country's primary high altitude air defense weapon. It has proven successful against high performance aircraft at a variety of altitudes and has successfully intercepted short range ballistic missiles.

The program is managed by the Army Missile Command under Colonel Morris W. Pettit.

Although most missile components are being manufactured in Japan, the Japanese are buying ground support and test equipment from the U.S.

better defined and that they feel greater pride and interest in their organization.

Though the Missile Command Enlisted Men's Council is relatively new, its concepts and accomplishments can do much to make a military career more attractive to young men and women and to form a firm foundation for a Modern Volunteer Army.

Fund Raising Sing Planned

Gospel singing at Woodville High School Saturday night, beginning at 7 p.m., is being staged to raise funds for the Christine Campbell Fund.

Christine Campbell, a young widow and former secretary in the Sergeant Project, has just recovered from pneumonia. Earlier this year, she had both kidneys removed and is now dependent on the kidney machine at the University of Alabama Hospital in Birmingham to sustain life. Her parents and two children depended on her salary. Her disability retirement has been approved but her checks have not yet begun to arrive.

Now, supporters of the Chris Campbell Fund are trying to raise enough money to buy a kidney machine for her and others who need it so she will not have to make the twice weekly trips to Birmingham.

Admission to the Gospel Singing is free, but Vic Rumore, master of ceremonies, will give everyone an opportunity to donate to the fund. As a supplement re-

Reductions

(Continued From Page 1)

several months... Consequently our (DOD) personnel actions have been generally depressed and our personnel strengths are below those previously planned.

"We would continue to reduce personnel from now until June 30... At this stage it will not require base closures. As you know, if we made any wide scale RIF's at this time, by the time we went through Civil Service regulations, and announced them, and allowed the lead time, and pay terminal leave, there would be very little savings in terms of people.

"So what we are doing is slowing down our input of new hires and maximizing attrition. We believe that with some reprogramming of funds we can get through June 30."

freshments will be sold at the event.

Among the groups which will participate are the De Kabb Gospelaires, Gospel Echoes, Gospel Peacemakers, Waymakers, New Home Quartet and others.

School Accomplishes Major Reorganization

If you saw Master Sergeant Dudley Berryman sitting in his swivel chair as two men pushed him across a parking lot at Redstone Arsenal last week, he wasn't taking a joy ride. He was being "reorganized" and relocated."

A major reorganization of the Missile and Munitions Center and School (MMCS) became effective February 2nd when the Office of Doctrine Development, Literature and Plans was created and the Offices of Operations and Doctrine and New Materiel were phased out.

The new office is more than a

simple merger of the Office of Operations and the Office of Doctrine and New Materiel according to COL Gilbert P. Levy, MMCS commandant. He described it as a new staff element combining the present functions of the two old offices under a new organization with wider responsibilities.

The new office-called DDL&P for short—will consist of a Doctrine and Literature Division, Technical Plans Division, Operations Division, and Quality Assurance Office. These offices are now centrally located in buildings 3343 and 3344.

DDL&P has been assigned staff responsibility for all matters pertaining to logistics support, doctrine, MOS test development, the world-wide Army missile and munitions training literature program technical inspections, and all training plans and operations.

The new office is directly responsible to the commandant of MMCS in the discharge of its responsibilities. It also administers the MMCS Quality Assurance program. The existence of a separate activity for quality assurance is unprecedented in MMCS.

Col. Donald S. Hanline, chief of DDL&P, is the Staff Manager and the commandant's representative for all DDL&P functions. LTC James I. Town is serving as the chief of the new Doctrine and Literature Division and LTC Horace Dennis, Jr. as the chief of the new Technical Plans Division. Major John D. Foster is the acting chief of the Operations Division.

As part of the reorganization, the Registrar Division was moved from the Office of Operations to the Academic Records Division under the Office of Secretary.

Numerous benefits are derived from the reorganization, COL Levy said. A closer conformance to the Department of the Army Staffing Guide for service Schools, and organization more compatible with other Army service schools, a clarification and simplification of staff responsibilities, a formalized MMCS quality assurance program, a consolidated Army training literature program, and net reduction in operational resource requirements are among these benefits, he said.

EASY RIDER—MSG Dudley C. Berryman is the free wheelie here as the newly organized Office of Doctrine Development, Literature and Plans moves into buildings 3343 and 3344 at the Army Missile and Munitions Center and School. Pushers are Robert H. Blessing (left) and Robert S. Kinch, two civilians in the new office which combines and expands activities of the former MMCS offices of Operations and Doctrine and New Materiel under COL Donald S. Hanline.

Medics In Separate Competitive Status

The U. S. Army Medical Department Activities (MEDDAC) organization at Redstone has been placed in a separate competitive area for reduction in force purposes as of Jan. 13 according to a recent Civilian Personnel Bulletin.

Separate competitive areas may be established under Civil Service Commission rules provided the action permits adequate competition among personnel.

The Bulletin points out that a separate competitive area for MEDDAC will have no effect on the repromotion and reemployment priority programs provided by current regulations.

Personnel eligible for these programs will receive consideration for vacancies regardless of their competitive area, and correction action resulting from any appeal from the RIF last year will be taken on the basis of the previous competitive area. Also, this change has no effect on the area of consideration under the Merit Promotion program, the

Bulletin said.

A separate competitive area was established for the Army Safeguard System Command and the Army Ballistic Missile Defense Agency in August.

The Army Medical Department Activities include the U. S. Army Hospital at Redstone and its related services, the Dental Activities and the Veterinary Service.

HOME AND GARDEN

The Home and Garden Group sponsored by the Officers Wives Club meets Feb. 16 at 9:30 a.m. in the Patio Room of the Redstone Officers Open Mess.

Mrs. Doris Goans, president of the Sherwood Park Garden Club, will speak and demonstrate her original creation for the home... such as dried, framed flower arrangements and unusual candlesticks made from bottles.

All Officers Wives Club members are encouraged to attend.

Tax Time

WASHINGTON (ANF) — Military taxpayers are reminded that the 1969 Tax Reform Act raised the gross income levels at which returns must be filed. Previously a return had to be filed when gross income reached \$600.

A single person must now file only if his income is \$1,700 or more. Married persons living in the same household and filing jointly must file if their income is \$2,300 or more. These totals are increased by \$600 if a person is 65 or older. Other married persons generally are required to file if they have income of \$600 or more.

Civilian Cage Rivals Race Toward Showdown

MISD And Engineers Each Win Twice To Stay Even

Civilian Welfare Fund basketball gets into the final round of league action with the Corps of Engineers and MISD locked in a two-team duel for the championship.

Each has won twelve times besides splitting a pair of contests with each other. Only Engineering QA among the other six entries, has been able to win half of their games and they are exactly even with five wins and as many losses.

Two of those defeats were inflicted on the Engineers last week when MISD captured both ends of a two-game series on Wednesday and Friday evenings.

The co-leaders had to go to an overtime before prevailing in the Wednesday contest, 63-61, but came back to overwhelm QA two nights later, 91-47.

The Corps matched MISD in winning two of their own. The initial win was scored at the expense of the winless Metrology Lab five, 88-46, while Missile Intelligence was beaten in a closely fought game, 72-66.

In another overtime contest, the Directorate of Individual Training edged Safeguard, 61-56. The final game on the weekly card saw Safeguard come back to hand Metrology a 55-50 setback.

MISD gets a chance to gain a jump on the Engineers this week with games scheduled against Safeguard tonight and the Metrology Lab on Friday. The Corps has one game slated with Research and Engineering providing the opposition on Friday.

QA will also be in action twice playing the middle game each

night. Their opposition will come from Missile Intelligence tonight and DIT on Friday. The final game tonight has Metrology going against R&E.

Jim Bunnell fired MISD to their first win over QA with an 18-point outburst including five points in the overtime period. Don Springfield ripped the nets with 21 points and Neil Winterburn added 17 more in the losing cause.

John Reppert took over the scoring lead in the second win over QA with a 27-point outburst, and Springfield topped QA again with 14.

Jerry Mullinax and Jerry Dooley each scored 18 points in the Corps of Engineers winning effort against Metrology with Jay Freeman hitting 17 for the losers. Mullinax came back with 22 in the win over MIA while Gary Moore sacked 25 for MIA.

Noel Moore Sets Tempo For Loud AMC Pinfest

GILGENAST

AMC bowlers were getting their strikes in clusters last week with no less than a half dozen better than 225 games going into the books but only one league member was able to sustain his strikes long enough to throw an Honor Roll total.

Noel Moore authored the best single game of the evening, a 266, and he used his big middle game in stoking up a 624 series to widen his hold on the league's individual average race. The Alley Cat star boosted his per game output to 182 with his second better than 600 count.

Ed Gilgenast was close behind Moore with a 258 game and John Goltz strung together enough strikes for a 242. Chuck Turner

rolled a 234, on pin better than Dick Nutt got in his big game, and Lee Keim turned in a 226 game.

On the team front the DeVaults went through a bad scoring night but still won all four points from Nutt and The Tigers to up their lead to a full nine points.

The Sheraton 800s went through an equally unproductive evening and dropped all four to the Tow Boys and fell to third as the T-Birds, riding a 3032 series total, roared into second with a 3-1 win over the Bandits. Howard Roop rapped a 570 count for the Birds and Dick Gill added a 559 while Goltz ended his set with a stack of 597 maples, in the losing cause.

Turner totaled 588 for his three games as the Cobras continued their surge over the Bombers and Gilgenast steered the Raiders to a sweep of the Jokers with his big game and 580 total. Jimmy Galbreath added a 556 to the Raider attack.

The All-Sports followed the lead of Keim to a 3-1 win over the Wonners and the Sprinters had the same winning margin in battle with the Rejectors.

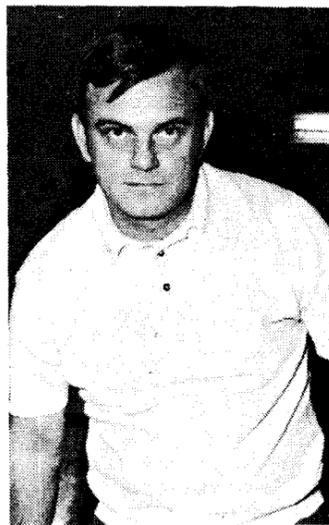

Keim shot a 549 while John Sinclair topped the Wonners with 530. Bob Brock was high for the Sprinters with 530 while Chuck Le Monde had a 543 and Chuck Mount a 530 for the Rejectors.

CAVERN TOUR

The Service Club will sponsor a tour to Cathedral Caverns, located at Grant, Ala., this weekend.

Cathedral Caverns is one of the most popular tourist attractions in this area due to the world's largest stalagmite and the history of the Cherokee Indian tribe that inhabited the cave.

The bus will leave the Service Club at 11 a.m. Saturday and return at approximately 3:30 p.m.

MOORE

Girls Tourney In Second Week

The Missile Command girls got off to a winning start but Safeguard was victimized by State Farm as play opened last week in the post season playoff tournament of the Huntsville Women's basketball league.

Second round play in the double elimination meet was played at Joe Bradley School gym this week with MICOM pitted against Fashion Two Twenty and Safeguard trying to stay alive at the expense of Automatic Electric.

In opening round games MICOM had little trouble in disposing of RCA, 52-39, and Safe-

guard dropped a 62-56 decision to the regular season champions. FTT advanced with a win over Automatic Electric.

Gladys Hill captured scoring honors for MICOM by tossing 19 points through the hoops. Tiki Harrison, returned to the lineup after missing two games backed up Gladys with a 17-point production.

The other member of the starting forecourt brigade, Joyce Ingram, connected for nine points and Wyonell Pennington got five more. Marina McClure completed the MICOM scoring with a single field goal.

Auto Center In S&M Lead

The Auto Center used a 3-1 win over the Bushwackers as the springboard in vaulting into the top spot of the S&M Bowling League standings last week.

The Center pin toppers got their chance to take over when the Pinspotters took three out of four from the King Pins, occupants of the lead for the past two weeks.

Joining the Pins and Spotters in a three way deadlock for second, a point off the pace, was the Lot-o-Pins, a clean sweep winner over the last place Reba Bowling Apparel quintet. The fourth match on the weekly card ended in a 3-1 win for U-Tote-Um over MID.

The new leaders took their lead from Herschel Ouzts with a 540, and got plenty of support from Ray Whalen and Gene Martin. Buck Wade tried to swing the decision to the Whackers with a 569 and wound up with the best handicapped series of the evening at 653.

The most productive bowler turned out to be Bob Faust who rapped a 580 count in pacing the Pinspotter win. Gil Vitale and Dick Pingry kept the Pinspotter attack rolling while Jim Poules was high man for the ousted leaders.

Lot-o-Pins got a 526 total from Mike Finstermacker while Jesse Partridge shot a 534 for Reba's.

Clayton Bales authored the best single game of the evening putting together a 244 and totaled 573 in leading the Grocers to their win. He got help from Bob Harris and Bill Goodpaster with Frances Cline setting the pace for MID.

LOOKING FOR MORE HARDWARE—Four members of the Redstone pistol team display the team trophies that they have brought home from matches throughout the southeastern region in recent months as they set plans to add to their loot in the coming months. In addition to the team awards, each of the team members has cornered an imposing array of individual awards. Shown in the above picture are, left to right, SSGT Thomas Wegemer, Sp 6 Tibor Kocsis, Sp 6 William Hickey and CSM Herbert Kaim. Another team member, SSGT Howard Alspack, recently left Redstone for a tour in Germany, while Capt. Jay Manning has joined the team.

Redstone Pistol Team Faces Stern Schedule

The Redstone pistol team has opened a drive to recruit additional team strength with a formidable slate of regional matches scheduled for the next three months.

The team presently numbers four shooters in addition to the team captain, Capt. Jay Manning, and between them have turned in a very respectable record in a number of recent matches.

However, Capt. Manning indicated a desire for several more shooters to strengthen the team for the upcoming matches. The next event is scheduled for February 11-14 at Pensacola, Fla.

The team captain said that military personnel desiring to tryout for the team should re-

port to the small bore range on Thursday afternoon after 3:30. He said they should bring their own weapon, but that the ammunition is furnished.

Four members of the Redstone team captured first place rating in the most recent team match held at the Arsenal range. Shooters from throughout the state competed in the National Rifle Association approved 2700 aggregate match.

CSM Herbert Kaim, a distinguished master, captured the grand aggregate in sweeping the master category. Manning, also scored in the master classification taking first in the .22 center fire event.

SSGT Thomas Wegemer took

P&P Golfers Meet To Talk About Season

Preliminary plans for another season on play by the P&P Golf League will be discussed at an organizational meeting called for next Tuesday evening.

Bill Donehoo, the league president, urged all present members and those players desiring to join the league to attend the 7 p.m. meeting at the Piedmont Par 3 course club house.

He said officers will be elected for the coming season, rules will be discussed and a tentative

the grand aggregate as well as the center fire aggregate for the expert class and SP6 William Hickey came out first among the experts in the .22 aggregate.

Kaim, Wegemer and Hickey as well as SP6 Tibor Kocsis are assigned to the Missile and Munitions Center and School while Capt. Manning is with the Missile Command's Office of the Staff Judge Advocate.

down Maple Lane

By SP5 Bill Hayes

The flame under the sizzling School Brigade league was turned up even higher this week as D. Co. and HHC each took four points to retain their tie for first place. Hanging in there closely, Co. B took four themselves, falling into step one-half point behind the leaders.

Third, fourth and fifth places are held down by Co. A, Retired and Co. C respectively, with only 5 1/2 points separating the top six teams. Hold on to your crying towels—the big shuffle could happen this week.

Luck and alleged "clean living" were prime factors in MMCS Officers' competition this week as league-leading Second to None won close ones to defeat the School Brigade's Bowling Detail.

Stars Harry Fleming and Doug Krebs bootstrapped the team in spite of a weak showing by the rest of the quintet.

Trailing first place by seven points, SOC still leads the Loggers by three, while the rest of the pack is spread out like candidates during Ranger week.

Friday night, the EM Mixed league developed a close first four places. The Woodchoppers still hold their four-point lead, though the Chargers and Bee Gees are still holding hands in second place. The Banditos dropped a slot to third this week, still only six points out of the lead.

In a dramatic departure from the norm, Larry Makanani rolled

schedule will be drawn up.

In addition to Donehoo, an employee of the LCSS Product Office, the present slate of officers includes Floyd Clark, secretary-treasurer, and Lee Keim, sergeant at arms.

Twenty-two two-man teams competed last season playing their weekly matches on Tuesday evenings at the Piedmont course. The championship was won by the team of Howard Andrews and Les Fisk.

a tearful 121 game—far below his 180 average. Been away from the training table, Larry?

In the RSA Officers league, Hardhats caught the 5 Splits in third place, while Wheelers are close behind in fourth. Sperry increased their lead over third place, but still fall 5 1/2 games behind the first place Lucky Strikes.

HIGHS & LOWS

Roy Henderson 597-247 (league season high game), Ollie Graves 594, Charlie Rodeen 559, Willie Wiggins 574, Don Reichert 236. John Glaese 592-224, Ralph Nearhoof 580-231, Vincent Baer 561. Steve Rutz 550, Bud Griffin 585-231, Oliver Groves 580-237, Sally Gerheuser 552-200, Erna Schiro 531-200, Maxine Bean 516, Terry Makaanani 510, Willie Wiggins (again) 593-225.

Lock-In Is Out

WASHINGTON (ANF) — The so-called lock-in policy that required a newly promoted individual to complete two years in the new grade before being eligible for retirement has been suspended until June 30, 1972.

Individuals serving in pay grades 06, 05, W4, W3, E9, E8, and E7 who have completed all other service obligations and who are otherwise eligible may voluntarily retire between now and June 30, 1972, providing they have completed six months active duty in that grade.

Military Basketball— MICOM Continues All-Winning Pace

Post Intramural basketball passed thru the mid-season games this week with different situations in each association.

In the American Association, undefeated MICOM bolstered their lead by burying 227th Ord 83-33. HHC-SOC gained an easy point from a no-show 4th ETC needing only one basket to tally the win. 95th Cal dropped two this week, falling to Co. B 52-39 and 227th Ord 72-64. 227th Ord's win was their first of the season.

HHC-SOC share the number two slot with 1st ETC, two games behind MICOM, while 3rd ETC's 7 and 4 record puts them one game out of the already tight second place race.

The NBA's 9th ETC and 6th ETC share the top slot with 9 wins each, but the 9th has only

1 loss compared to 3 for the 6th, leaving room for a standings change by week's end.

The 9th ETC edged 5th ETC 38-34, while 6th ETC won decisive victories over Dental Det and 7th ETC, 62-48 and 58-51 respectively. Called the most-improved team of the season by at least one observer, the 6th ETC is hard on the heels of the 9th ETC squad. Co. C holds a very even 5 and 5 record.

The 249th Ord, sliding past Dental Det 45-41 and losing a squeaker against HHC-UTC 39-44, remained one game behind the leaders in the win column. Co. D moved up (?) to a three-way race for the cellar by smashing HHC-UTC 60-42, keeping HHC-UTC close to a balance in wins and losses.

PINEWOOD DERBY CHAMP—Jeff Blankenship shows the winning annual Pinewood Derby sponsored by Redstone Cub Scout Pack 308. Presenting the award is Lt. Col. Wayne Stoller, Commander of Pack 308.

Blankenship Wins Derby

Jeff Blankenship, son of Sp 7 and Mrs. John Blankenship, won first place in the annual Pinewood Derby "speed" category last week sponsored by Redstone Arsenal Cub Scout Pack 308.

Jeff Stoller, son of Lt. Col. and Mrs. Wayne Stoller, won the top prize for design.

Thirty nine cars were entered in competition.

Second place in the speed

category went to Daniel Watson, son of SFC and Mrs. Darrell Watson while the runnerup prize in design was won by Randy Berry, son of CWO and Mrs. Julian Berry.

Early Dental Care Helps Straighten Teeth

This is the third in a series of four articles on dental health published by the Redstone Rocket, in cooperation with the Dental Activity, Redstone Arsenal, in observance of National Children's Dental Health Week, February 7-13.

LTC Richard I. Hart, the post Preventive Dentistry Officer often is asked questions concerning alignment of erupting teeth.

COL. Hart feels many of these questions can be answered easily by explaining that there could be

several reasons for your child's teeth to be erupting out of alignment. You should consult the dental officer to see just what the problem is.

One of the reasons may be that your child lost his first teeth too soon. Whatever the reason—dental decay, injury, or even heredity—the remaining teeth have shifted to fill the empty spaces. When the permanent teeth erupt, they are forced to enter the mouth out of their normal alignment.

Another problem could be that your child's dental arch is not

sufficiently developed to hold the larger permanent teeth. Thus all teeth in the mouth are crowded.

Whatever the problem, the dental officer can be of help. He may replace a missing tooth with a space maintainer—a wire device which keeps the teeth from shifting into the empty tooth socket. This device then permits the permanent tooth to erupt where it should in the

mouth. He may also recommend that you consult an orthodontist—a specialist in correcting deformities of the jaw and teeth. If the problem is caused by lack of growth in the dental arch, the orthodontist can recommend specific treatment, including the extraction of primary teeth to make room for those permanent teeth

which have already erupted. However, the dental officer is the only person who can diagnose your child's problem and who can decide what course of treatment is advisable. Regular dental visits, beginning when the child is 2½ or 3 or when all his primary teeth have erupted, will permit the dental officer to keep close watch for any problems which might develop.

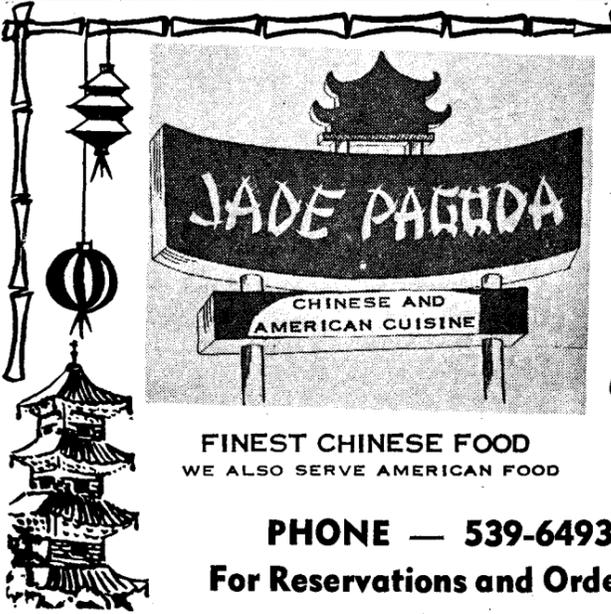

Hunter Tagged As Logistics Career Reserve

Mark G. Hunter, chief of the Program Management Office in the Army Missile Command Land Combat Support Systems Product Office, has been notified of his selection for entry into the Army's Logistic Career Program for Reserve Components. He holds a commission as a major in the Army Reserves.

Under the program, Hunter expects to participate in appropriate logistic training assignments and extension courses.

DRUG ABUSE PROGRAM
Robert Stagg, chairman of the Drug Abuse-Narcotics Coordination Committee of the Huntsville Community Council will be moderator for a panel of experts on drug abuse—the program for the Redstone Officers Wives Club lunch Tuesday at the Redstone Officers Open Mess.

Other panel members are Dr. Daun Addams, clinical psychologist at the Mental Health Center, and Lt. Richard Anderson of the Criminal Intelligence Unit, Huntsville Police Department. A special guest will be a young man who has been on both sides of the drug scene.

AFGE Plans Banquet In February

B. Benton "Bun" Bray, general counsel of the House Sub-committee on Government Operations, will be the featured speaker at the annual banquet of Local 1858, American Federation of Government Employees.

The event, held each year to commemorate the founding of the Civil Service system, has been scheduled for the evening of February 13 in the Sheraton Motor Inn.

Everett Brouillette, local president, said Congressman David Henderson, Chairman of the Sub Committee on Government Operations, is the standard bearer for legislation to equate salary and other benefits for wage board and non appropriated fund employees.

Henderson has already committed himself to proposing to a new pay bill on behalf of wage board employees. Bray may comment on the proposed legislation during his banquet address.

Brouillette said the local has invited Senator John Sparkman and Congressman Bob Jones, as well as William Usery, Assistant Secretary of Labor; Ludwig Andolsek of the Civil Service Commission; Charles Mullaly of the Department of the Army and Grove Webster of the National Aeronautics and Space Administration.

Gordon House, Chairman of the Banquet Committee, said the local also has extended invitations to James Record, Chairman of the County Commission; Mayor Joe Davis, MG Edwin I. Donley; BG R.C. Marshall and Dr. Eberhard Rees, Director of the Marshall Space Flight Center.

Commenting on the dinner, Dennis Garrison, AFGE Fifth District National Vice President, said it had been held annually for many years as a tribute to the merit system of Civil Service. Garrison said ticket sales would be limited to 500 and urged those planning to attend—among the 18,000 federal employees in this area represented by Local 1858—to make early reservations.

Tickets may be obtained through AFGE shop stewards or at the Local office in Building 3648.

Livestock Inspector Jobs Announced

The Mobile Area Office of the U.S. Civil Service Commission has issued an announcement for the position of Livestock Inspector (General) GS-5. Starting salary is \$125.00 per week. The announcement, No. AA-1-01, provides applicants with career employment opportunities in the Federal service throughout the state of Alabama and Northwest Florida.

Application forms are available at any Area Office of the Civil Service Commission, and at most large U.S. Post Offices.

Additional information may be obtained by contacting the Federal Job Information Center, Room 105, 107 St. Francis Street, Mobile, Alabama 36602 or Sutherland Building, 806 Governor's Drive, S. W., Huntsville, Alabama 35801.

MORAL SUPPORT?—George Robinson didn't exactly need moral support when he reported to the Bloodmobile last week for another of his regular donations of blood to the Red Cross. But since it was a special occasion, Mrs. Robinson accompanied her husband to Building 7110 and had the honor of pinning a ten-gallon donor emblem on his lapel. Col. Preston Cannady, Deputy Post Commander, was also on hand for the rare event. An aerospace engineer in the Research and Engineering Directorate, Robinson has been a regular donor since the start of the Red Cross program and, in his own words, "couldn't begin to say how many times he has donated." The 10-gallon pin is emblematic of his donations since transferring to Redstone in 1953 from Ft. Monmouth, N.J.

Materiel Need Concept Reduces Documentation

The Department of the Army has approved a Materiel Need (MN) concept in a major streamlining of the life cycle process for Army materiel.

Under the new concept, four materiel requirements documents—Qualitative Materiel Development Objective, Qualitative Materiel Requirement, Small Development Requirement and Small Development Requirement-Expedited—have been replaced by Materiel Need (MN) documents.

Use of the MN concept will reduce documentation processing time and increase joint efforts between the Army Materiel Command, the materiel developer, and the Combat Developments Command.

The new Materiel Need (MN) concept differs from the existing Life Cycle Management Model in that it uses a single format to establish the need for new or improved systems for the Army. It provides guidance to the materiel developer throughout the life cycle of the item.

The MN will be established through joint CDC-AMC effort, developing specifics in terms of materiel needs through direct give and take between the user and developer. The MN will start at the beginning of the concept formulation phase. Characteristics of the Materiel Need will be prepared as "bands of performance" within which it is possible to optimize the overall system. As long as the item under development does not go outside these levels it will not be necessary to revise the MN and the resulting item will be acceptable to CDC.

External coordination of the MN will occur only once. It will be revised as necessary throughout

the life cycle, based on information gained in concept formulation, contract definition, engineering development, testing and production, and by changes which occur in the threat, concept of use, technology, costs and time to develop. A final detailed definition of the item is not stated until completion on the development and testing phases.

Join AMC-CDC teams have converted some items to appropriate materiel Need status including: Artillery Locating Radar, Mechanized Infantry Combat Vehicle, Improved Float Bridge,

Improved Hawk, 155MM Howitzer, Improved Nuclear Projectile, and the Helicopter Point Target Weapons Subsystem.

MN documentation for improved Hawk and three others has been completed and forwarded to the Chief of Staff of the Army for approval. The three remaining documents will be submitted independently to DA within the next 30 to 60 days.

The Materiel Need concept, streamlining development and procurement of needed hardware and equipment, was one Army response to some of the requirements given the Services by the Deputy Secretary of Defense.

AMC set up a special task under its Program for the Refinement of the Materiel Acquisition Process

LTC Comer Steps Up

LTC Winston L. Comer has been named Safeguard Systems Command Information Officer, succeeding Col. James R. Duncan who has been reassigned to Continental Army Command Headquarters at Ft. Monroe, Va.

LTC Comer joined the Information Office in April 1969 and was Plans and Policies Officer prior to being named chief. The El Dorado, Ark., native previously had experience with the Antiballistic Missile Program

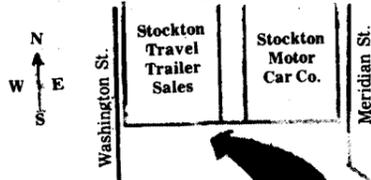

(PROMAP-70), dealing with refinement of requirements documentation.

during an assignment at White Sands Missile Range where in was involved with testing of the Nike Zeus program.

He has also served overseas assignments in Germany and Vietnam.

MAJ. MICKEY GARRETT

MAJ Garrett Will Speak

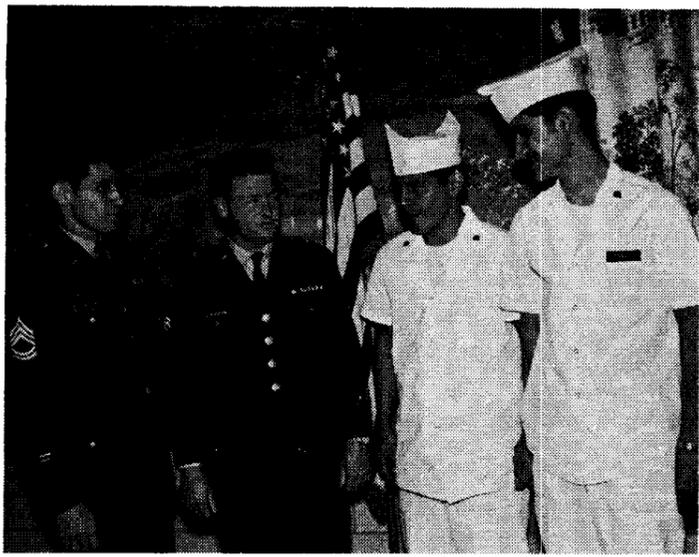

One hundred and five students graduating this Friday from the Missile and Munitions Center and School will hear an address by guest speaker Maj. Mickey Garrett, an instructor with Logistics Division, Officer Training Department.

The graduation ceremony will be held at 9:30 a.m. in the Post Theater.

Garrett holds a Bachelor of Science degree from Henderson State College, Arkadelphia, Ark., and has done post-graduate work at George Washington University.

He completed the ROTC program at Henderson, finishing as the distinguished military graduate.

The major's overseas assignments include a tour with the 619 Ordnance Company, Kreisfeld, West Germany, Headquarters, Advance Weapons Support Command, Pirmasens, West Germany, and the 605th Field Dep., Saigon, Vietnam. He is the recipient of a Bronze Star and Army Commendation Medal.

NINETEEN MORE YEARS—(Left to right) SFC Ernest Fuller, Sp6 Michael Blackburn, Sp4 Emery Smith and Sp4 James Randall exchange congratulations after re-enlisting during ceremonies held recently at the U.S. Army Missile Command, Redstone Arsenal. Collectively, the four men re-enlisted for a total of 19 years and received re-enlistment bonuses totalling more than \$4,600.

Third Army Gets Awards

The Third U.S. Army was recently cited for being tops in safety and reenlistment in ceremonies at Fort McPherson, Ga.

Gen. Ralph E. Haines, Jr., commanding general of Continental Army Command (CONARC), awarded the Department of Army Award of Honor for Safety and the CONARC Reenlistment Award to Lt. Gen. Albert O. Connor, commanding general of Third Army. Gen. Haines presented the awards during a luncheon given in his honor upon his first official visit to Third Army headquarters since he assumed command of CONARC on Nov. 1, 1970.

Third Army captured CONARC's top reenlistment trophy for the fourth year in a row for fiscal year (FY) 1970. This command, whose area encompasses the Southeastern United States and Puerto Rico, reenlisted almost 13,000 personnel during the year and achieved 129.95 percent of its assigned objective.

At Redstone Arsenal, the Missile and Munitions Center and School (MMCS), with 259 reenlistments, contributed to Third Army's achievement by attaining 116.14 percent of its assigned objective for FY 70. Significantly, MMCS

had 103 more reenlistments in FY 70 than in FY 69.

The Army's top award for safety went to Third Army for FY 70 for reducing accidents, injuries, and damage costs due to accidents by 20 percent over the previous year, when the command received the second highest award for safety bestowed by Department of the Army.

For FY 70 the Missile and Munitions Center and School had a 69 percent reduction in recordable accidents compared to FY 1969. MMCS had nine recordable accidents in FY 70 compared to 29 in FY 69. A recordable accident is an accident that results in the loss of a duty day.

Since March, 1968, Third Army has trained approximately 150,000 troops in an eight-hour defensive driving course, and has been cited by the National Safety Council for its safety program.

According to MMCS Safety Officer, John E. Beaudoin, at MMCS the Defensive Driving course is being presented on a continuing basis. All personnel are being scheduled for this course as soon as possible after their arrival at the school, Beaudoin noted. Defensive driving is further underscored by video tape presentations to all personnel each Friday afternoon with presentations by the Commandant prior to each major holiday.

WINS LEGION OF MERIT—Colonel J.R.M. Covert (left) gets the Legion of Merit (First Oak Leaf Cluster) from Maj. Gen. Edwin I. Donley, Commanding General of the Army Missile Command, during a recent ceremony at Redstone Arsenal. The colonel was cited for "... meritorious service as Hawk Project Manager." Colonel Covert has recently been reassigned as Commanding Officer of the Army Air Defense Command field office at the Safeguard System Command. (U.S. ARMY PHOTO)

Send Prompt Claims Asks CHAMPUS

CHAMPUS beneficiaries are being encouraged to submit claims for payment of authorized outpatient medical care bills to their state fiscal agents for reimbursement as soon as possible after the annual deductible has been satisfied.

Many CHAMPUS beneficiaries pay their medical and pharmacy bills directly to the provider of care and send the receipts or itemized statements to the Fiscal Administrator for reimbursement only at the end of the fiscal year. This practice causes a large increase in the number of claims received the Fiscal Administrator during the summer months.

Because of the increased volume of claims, their complexity (shoe boxes filled with receipts, itemized statements, prescriptions, etc.) and the summer employee vacation period, huge backlogs build up in the Fiscal Administrator's office, payments are

delayed 90 to 120 days, and everyone gets mad.

How can beneficiaries help eliminate these delays? Simple, make regular submissions to the Fiscal Administrator throughout the fiscal year (1 July—30 June) after the annual outpatient deductible requirement has been met. The deductible is \$50.00 in charges for one beneficiary, not to

exceed \$100.00 per family for two or more beneficiaries who use the program. Submissions should be made every two or three months when the value of the receipts or itemized statements exceed \$25.00 to \$30.00.

Reimbursement claims for inpatient related care may be submitted at any time without regard to the outpatient deductible.

EXCHANGE OPEN SUNDAY

The main Post Exchange store will be open on Sundays between the hours of 1 p.m. and 5 p.m. starting Feb. 7, according to Hillard Frey, General Manager of the Post Exchange.

These new hours have been established to provide better service to the troops who are unable to shop during the regular hours.

Frey stated the new hours would be in effect during a trial period to allow PX officials to determine if the hours should be kept the same or changed to meet the needs of the soldiers.

NAMES IN THE NEWS

SP4 Jerry Berg

NEW ARRIVALS

LTC Walter G. Greiner arrived this week from his previous assignment at Fort George G. Meade, Md., to assume new duties as chief of Hazardous Devices Division, OTD.

LTC GREINER

MAJ. HOLLOWAY

Another new chief within DIT this week is MAJ Clark E. Holloway, new chief of the Nike Division. Holloway joins MMCS from the 7th Infantry Division in Korea.

Other officers arriving this week were CPT Henry M. Matri,

SP4 BERG

CW2 Wilfred B. Theberg, 1LT Nathaniel Speight, 2LT Judson P. Breedlove, Jr., and 2LT Panormitis Stavlas.

Matri becomes a writer for the Nonresident Instructor Dept., of DIT. He arrived at MMCS from the Hawk Missile Support Element at Pupyong, Korea.

Theberge will take up duties as an inspector for the Inspection and Surety Branch after his last assignment at 619th Ordnance Detachment at Kaiserslautern, Germany.

Speight, who will be chief of the RVN Committee of the School Brigade, recently completed a tour with G-2, 23rd Infantry Division (Americal) in Vietnam.

Breedlove becomes a training supervisor in the air defense department of Nike-Hercules Division, after completing a course of study here at MMCS.

Stavlas becomes Project Officer for Admin-Operations of the Land Combat Department after graduation from the AG Officers Basic course at Fort Benjamin Harrison, Ind.

CHANGE OF COMMAND

CPT Carol D. Williams turned over command of the 9th Enlisted Training Company Thursday to 1LT William D. Krebs, IV.

Williams will attend the Ammunition Officers course at MMCS.

Krebs, who will command the training company, was previously assigned to the Office of the Secretary at MMCS. He is a 1968 graduate of the University of Vermont in Burlington. He holds a Bachelor of Science degree in Engineering.

AWARDS

Five awards were presented this week in the Unit Training Command. In awards ceremonies held Thursday in UTC's headquarters building, three Army Commendation Medals were presented, the Third Oak Leaf Cluster to the Bronze Star Medal and a Certificate of Achievement was awarded.

SFC LeBEAU

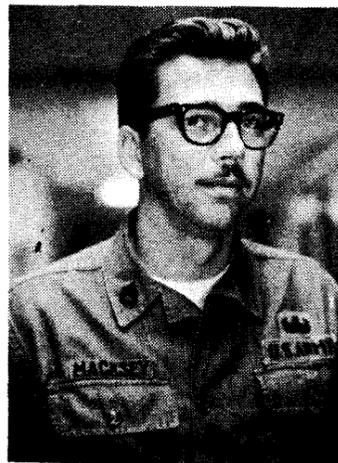

SFC Raymond LeBeau, the newly appointed Career Counse-

lor for Unit Training Command, was awarded the ARCOM for service as the Senior Instructor of Basic and Advanced Course Subjects and NCOIC of the ROTC Rifle Team and Coach at Providence College, Rhode Island.

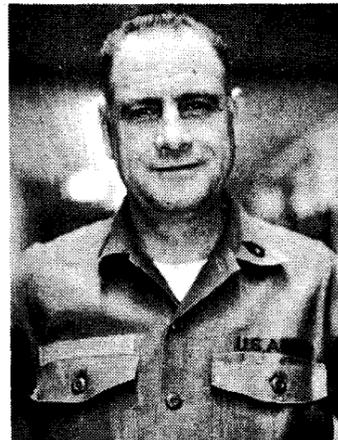

SP4 PAULINO

Spec. 4 Roy Paulino was presented the AROM for Meritorious Service while serving in support of military operations against communist forces in Vietnam. Paulino served with the 539th Transportation Company, Pleiku, Vietnam.

SSG MACKSEY

SSG Arthur Macksey of the EOD Division, Unit Training Command was presented the Third Oak Leaf Cluster to the Bronze Star Medal, Sergeant Macksey distinguished himself while serving with the Headquarters, Third Ordnance Battalion, Vietnam.

SFC KNIGHT

SFC Harold Knight received a certificate of achievement from his previous duty assignment where he served as Missile Maintenance Chief and Detachment First Sergeant for the 86th Ordnance Detachment, Sagami, Japan. SFC Knight is the acting First Sergeant for the 249th Ordnance Detachment assigned to MMCS.

TWO PROMOTIONS

Two promotions were announced Friday. Company A commander Raymond Tallman was promoted to First Lieutenant in a short ceremony held in the A Company Orderly Room by COL J. L. Keown, School Brigade commander.

1LT John Toenes an instructor in the Missile Division, Officer Training Department was pro-

Technician Openings Announced

The Huntsville Area Office of the U.S. Civil Service Commission is now accepting applications for Technical Aids in Science and Engineering, at grades GS-2 and GS-3 for employment with Federal agencies in North Alabama.

Technical Aids perform a wide range of nonprofessional support and technical assistance duties in research, development, testing, surveying, drafting, mapping, and similar activities in which the Federal government is engaged.

To qualify for these positions, all applicants must have for the GS-2 grade level, six months of appropriate experience, a high school diploma or GED Equivalency which included specified courses and for the GS-3 grade level, one year of appropriate experience or one academic year of post high school education in an accredited institution which included 12 semester hours, or the equivalent, in courses appropriate to the position applied for. The starting salary for the GS-2 grade level is \$4621 a year and for the GS-3 grade level, \$5212 a year.

Applications will be accepted until further notice. For further details, contact the Federal Job Information Center, 806 Governors Drive, S.W., Huntsville, Alabama, 35801.

Surplus Property To Be Auctioned

A sale of surplus government property will be held at Redstone Arsenal on Feb 9 in the Rocket Auditorium, Bldg 7120.

Although individuals must be present to buy, no bid deposit is required. Registration for the sale will begin at 8:00 a.m. and the sale will start at 9:30 a.m.

Items for sale will be available for inspection Mondays through Fridays from 8:00 a.m. to 3:00 p.m., beginning Feb. 2. All items are located on Warehouse road.

Property to be sold includes automobiles, pick up trucks, carryalls, panel vans, warehouse tractor, a one and one-half ton van, semitrailer vans, trailers, storage tanks, bicycle, jewelry, a work table and a metal picnic table.

The sale will be conducted by representatives from the Defense Surplus Sales Office, Forest Park, Ga.

ENGINEERS MEETING

The American Society of Mechanical Engineers will meet at Pepe's Restaurant, 2700 Memorial Parkway, W.W., Feb. 16, at 6:15 p.m.

Norman S. Wamack will present a talk, "Fabrication of Thick-Walled Vessels." Wamack is Supervisor of Welding Engineering at Combustion Engineering—Chattanooga Division.

For dinner reservations call Art Carr in Huntsville at 453-3576 or Don Edgar in Decatur at 552-2295. Reservations should be made by noon on Feb. 15.
