## ABM: what happens now?

### Capitol Site Faces Appropriation Fight

The Army's anti-ballistic missile (ABM) program and the hundreds of military and civilian personnel in the Huntsville area involved in its management waited this week for detailed information on what the future holds.

There were indications that the wait could be a long one.

It may be several months before all the answers are in for the many questions inevitably posed by the treaty between the United States and the Soviet Union limiting deployment of operational ABM systems.

The Defense Department has said it will make public what details it can in testimony before the Senate Foreign Relations Committee when the committee holds hearings prior to the Senate vote on ratification of the treaty.

No date has yet been set for the Senate hearings to begin.

Potentially more important than the treaty, however, to the future of ABM activities here is the pending decision on deployment of a second ABM site. The ABM treaty limits each nation to two sites, one defending a portion of its ICBM force and the second defending its national capitol. This country could build a second site around Washington to match the Soviet ABM around Moscow.

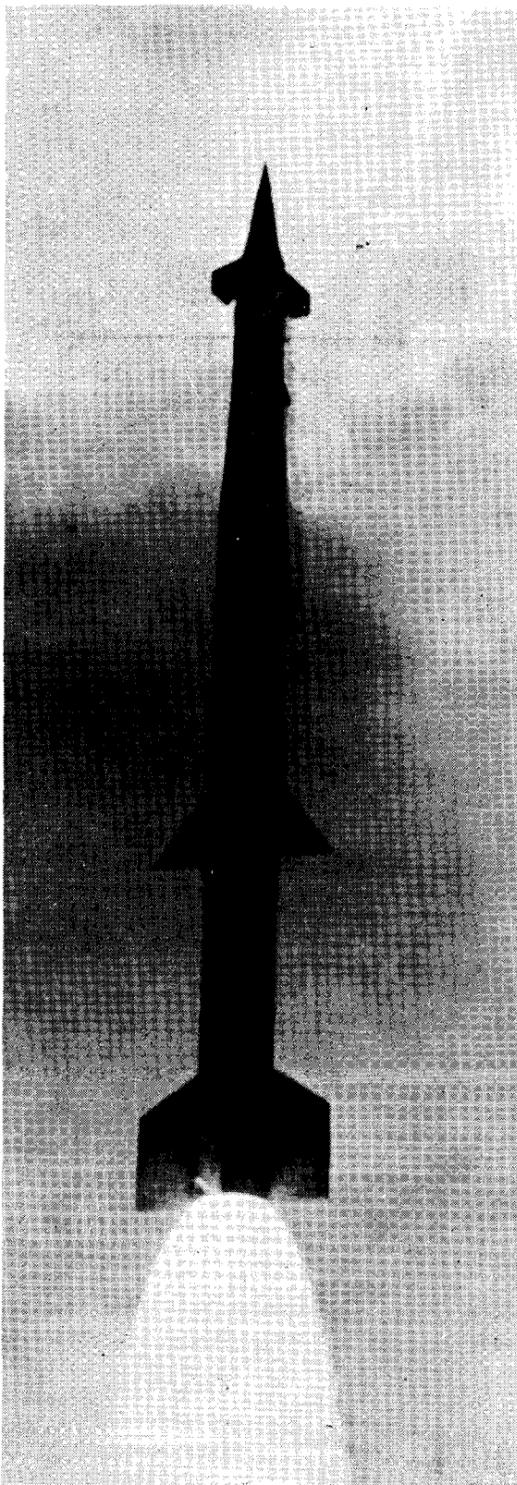

Regardless of how it votes on the treaty, the Congress must approve and appropriate funds for the Washington site. Some Senate leaders, including Senator Henry M. Jackson who fought for the ABM in the last major Congressional debate, now say they will oppose the Washington site. A decision on it could take months.

To date, the ABM situation shapes up like this:

**DEPLOYMENT:** Construction and deployment of the Safeguard North Dakota site will continue. Site work in Montana has been suspended. The Army has been directed by the Defense Department to plan for deployment around Washington, but that must be approved by Congress.

**R&D:** The treaty bans R&D on sea-based, air-based or mobile land-based ABM systems or work to devise rapid reload or multiple launch capabilities for ABM launchers. According to Defense Secretary Laird, Hardsite (now known as the Site Defense Program) "will continue to move forward. The Hardsite program in research and development as submitted to the Congress will continue to move forward."

The full text of the ABM Treaty appears on pages 10 and 11 of this issue.

Spartan

### Arms Accord Permits Further Development

The Army signed a \$168,360,000 contract with the Martin Marietta Corporation last week for the development and flight testing of the prototype Sprint II interceptor missile to be used in the prototype demonstration program for Site Defense.

This research and development contract is in accord with terms of the agreements reached by the US and the USSR and with Secretary of Defense Melvin R. Laird's directions to the Army concerning ABM research and development programs.

The 57-month contract was initially funded at \$14,400,000. The work will be performed by Martin Marietta's Orlando, division under management of the Site Defense Project Office, Safeguard System Command.

Sprint II is a modified version of the Sprint missile which is used as a short range interceptor missile in the Army's Safeguard Ballistic Missile Defense System. It will be capable of performing as the interceptor for the Site Defense System, for which prototype components are being developed by the Army.

Sprint II is an outgrowth of earlier work performed by Martin Marietta on the concept of modifying Sprint for Site Defense applications.

Under the contract Martin Marietta will verify that Sprint II meets system requirements, perform development and engineering work, conduct ground and flight test programs, and manage a team of subcontractors and vendors.

## Answers

(Editor's Note: The MICOM Information Office conducts a question and answer program for job-related questions of general interest. Such questions may be telephoned to 876-4161 or 876-4400, or mailed to AMSMI-G. Some questions are selected for publication in the Rocket. Names are withheld. It is not intended that this program take the place of the usual supervisor-employee relationship which is the proper channel for specific job-related questions.)

**QUESTION:** How long is the free return ticket issued by the Alabama Space and Rocket Center good for?

**ANSWER:** The return pass is issued upon request to any adult who had paid an admission at the ASRC. Should he or she return with two paying customers the ticket will admit him free. The return pass is good until December 31, 1972.

GOOD READING — Children of military personnel at Redstone will find a wider variety of reading material in the Post Library as the result of an Officers Wives Club gift of 140 library books. The books are for pre-school through fourth grade children. At the library last week when the new books went on the shelves were, standing, left to right, Mrs. Lewis G. Harkness and Miss Lillian Long, librarians, Mrs. Robert Eldredge who was in charge of selecting and purchasing the books, and Mrs. A. J. Forsythe, chairman of the Wives Club welfare committee. Enjoying the new books are, left to right, Tommy Vaughn, Michael Eldredge, Paige Waite, Ben Koreski and Denise Loshough.

# SAM-D Award Competition Won By IBM In Huntsville

IBM Corporation in Huntsville won a \$2 million dollar Missile Command contract last week to support development of the Army's new SAM-D air defense weapon system.

IBM was selected from among five companies that competed for the SAM-D Systems Engineering Cost Reduction Assistance Contract (SECRAC). Others were Brown Engineering, Boeing, RCA and Hughes Aircraft Company.

Under the one-year award, IBM will review the total SAM-D concept and design program, evaluate the systems engineering process and study ways to reduce production costs of the ultimate

tactical weapon system.

Brig. Gen. J.C. Fimiani, who manages the SAM-D program, described the contract as a new trend for the Army.

"IBM will monitor the design and production efforts, not only of the SAM-D contractors, but the Army as well," Fimiani said.

This is the first major SAM-D contract to be awarded to a Huntsville company. All the work will be performed at IBM's facility in Research Park.

The highly mobile SAM-D is being developed for the Army to

defend against high performance aircraft in the late 1970s. It is intended to replace both the Nike Hercules and Hawk weapon systems. Both systems are deployed worldwide.

SAM-D's multi-function radar, which will perform all the functions requiring several radars in other systems, will detect targets, identify them, track them and issue guidance commands to the missile in flight. It will be capable of handling several targets simultaneously.

**FIRST AGREEMENT**—Colonel Harold F. Hardin, Jr., SAFLOG commanding officer, puts his name on the first agreement between SAFLOG and the American Federation Of Government Employees, local 1858. Ray Swaim, acting president of the Union, also signed the agreement.

## British Rapier Here For Tests

The Missile Command plans to take a close look at a United Kingdom air defense system called Rapier.

The low-level, forward area system to defend against aircraft comes to Redstone early next month to undergo a variety of tracking exercises, bad weather and rough terrain tests. Before coming here, test firings will be conducted at Fort Bliss, Texas.

Rapier is to be evaluated under an agreement just signed by the Department of Army and the United Kingdom. Under the agreement, UK provides military operators and maintenance personnel who will supply data and demonstrate the Rapier weapon system.

Edward B. Dobbins of the Research, Development, Engineering and Missile Systems Laboratory, heads the Rapier evaluation.

COL. G. F. GREGG

## Col. Gregg Is RASA Director

One of the most important assignments at Redstone changed hands last week when Colonel George F. Gregg became director of the Redstone Arsenal Support Activity. He succeeds Colonel A. J. Forsythe who is retiring.

In his new position Gregg has the responsibility for directing activities that provide supporting services to MICOM and to some extent, tenant organizations on Redstone.

Gregg came to this area in 1968 to be the first chief of staff for SAFLOG. Later he was the SAFLOG commanding officer, then moved to MICOM as a special assistant to the Commanding General.

## Youths Find Summer Work

More than 260 young people are being placed in summer jobs this year in the Army activities served by the MICOM Civilian Personnel Division. All are expected to be on the job by the middle of the month.

Included are those in the Youth Opportunity Back-to-School (YOB), the Summer Employment of Youth (SEY) and the Neighborhood Youth Corps (NYC) programs.

They are being assigned in the

Missile Command, the Safeguard Logistics Command, the Safeguard System Command, the Missile and Munitions Center and School, the Medical Department Activities, the Redstone Arsenal Support Office.

The youths range in age from 14 to 21 years, and come from needy and disadvantaged backgrounds. They are working as clerks, aides and wage grade employees.

Those in the YOB program who

Equipment Manager. . . .

# A Bookkeeper's Nightmare

It's Colonel Dean Bekken's job to make sure that "... for want of a nail the shoe isn't lost—" never happens at Redstone Arsenal.

As Equipment Manager for the Missile Command, he must acquire whatever is needed for the Army to perform its mission.

But that's only part of the job.

Col. Bekken and his staff of assistants not only acquire what is needed, they keep records and maintain it, check regularly to see that equipment is being used and replace old with new.

At the moment, he has more than 120,000 pieces of equipment in inventory valued at more than \$87 million dollars. These items differ from a voltmeter that fits in a shirt pocket to a crawler crane that weighs several tons.

**Mechanized Books**

Keeping records on what equipment is available and who's doing what to whom is a bookkeeper's nightmare. But MICOM has initiated a program of mechanizing property books that provides computerized reporting to higher headquarters and provides preprinted property records for property book officers.

"We have programmed into the computer some 37 of the 43 property books describing our inventory," said G.V. "Pete" Piercy, action officer for Colonel Bekken.

"It's a computer program that we developed at MICOM but it's to be used by all AMC subordinate commands."

Piercy said every piece of equipment costing more than \$1,000 dollars must be approved by AMC or the Department of Army. And higher headquarters has established precise guidelines for maintaining and using equipment.

In fact, utilization is one of the most important words in an equipment manager's vocabulary.

"If you don't use it, you obviously don't need it," Piercy explained the concept.

At an installation large as Redstone, some equipment is specialized and cannot have percentage of utilization criteria established for it. To determine a need for such equipment, Maj. Gen. Edwin I. Donley, Colonel Bekken, and directors of major MICOM activities and their equipment managers have begun "walk-throughs" to inspect and verify continued usage of equipment.

**Early Pay Off**

It already has paid off.

"As a result of walk throughs, more than one million dollars in equipment has been declared excess during the past year," Col. Bekken said. "This equipment has either been turned in to a central pool at MICOM or will be made

available to other government agencies."

Summarizing the job, Piercy said, an equipment manager must know:

1. What equipment is available
2. Age of it
3. Cost to maintain it
4. How much it's used
5. Does equipment fit the job

Along with utilization, getting equipment that fits the requirement is a vital part of the equipment manager's duties.

"We don't want a ten-ton truck doing a job that a motor scooter could do," Piercy said. "And when we replace a piece of equipment, we must get the most modern equipment we can at the most economical cost."

Seven assistant equipment managers from major MICOM installations are Pete Piercy of Redstone Arsenal Support Activity; James J. Fagan of Research, Development, Engineering and Missile Systems Laboratory; James Bond of Product Assurance; Wayne Canfield of Procurement and Production; Billy Davis of Management Information Systems Directorate; Glenn Switzer of Missile Intelligence Agency and Ruth Milner of Metrology and Calibration.

## Errors Not In Their Makeup

Who operates 24 hours a day, seven days a week, and is almost always accurate?

That's right—the men in the Redstone Telecommunication Center.

And for making so few errors while transmitting messages worldwide, Maj. Gen. Edwin I. Donley has just presented the entire group a Certificate of Achievement.

The award was based on last year's performance when the center transmitted an average of 3300 messages a month and had only 4.6 operator errors per 1000 messages. That accuracy record placed Redstone among the top six of 91 telecommunication centers connected to the Albany, Ga., switching center.

Operated by the Communications-Electronics Division, RASA, the center handles about 10,000 incoming narrative and data messages monthly, in addition to the 3300 it transmits. It operates as a multi-media terminal which means it can transmit and receive messages by magnetic tape, paper tape, punched cards or page

printer.

In addition, all transmissions to and from the center are recorded on magnetic tape.

The center's main piece of equipment is a high speed communication data processor which operates at 3000 words per minute.

Most of the work done by the Telecom Center supports the National Inventory Control Point, Directorate of Materiel Management, and the National Maintenance Point, Directorate for Maintenance.

Since most of the traffic for NICP and the NMP is processed by computers in Bldg. 5201, the center maintains close coordination with the Directorate for Management Information Systems which performs automatic data processing functions for the Missile Command.

## The Grand Tour Mission Presented

A mission to the outer planets, comets and asteroids is the topic of discussion for the Rocket City Astronomical Association during June.

Jack Archer, of the Boeing Co., will present the monthly pro-

gram on Friday evening, June 16, at the Planetarium on Monte Sano.

The public is invited with no admission charge for the program starting at 7:30.

Archer will discuss the outer planet missions, better known as

the grand tour mission and answer the how, when and why of future ventures.

## Race Driver Makes Pitch For Safety

Veteran Race car driver and former Indy 500 participant Johnny Boyd comes to Redstone on next week to present the Champion Highway Safety Program.

In commenting on the program Boyd said, "On the race track or the highway attitude is the biggest factor in safe driving. By keeping a car in good operating condition, being mentally alert and practicing common courtesy, all of which reflect the proper attitude, we could substantially reduce the annual traffic death toll".

Now in its 17th year, the program has brought numerous awards to its sponsor, the Champion Spark Plug Company, including three National Safety Council Public Service Awards and the Alfred P. Sloan, Jr. award for outstanding service to highway safety.

Boyd will make two presentations on Thursday in the Post Theater Admittance is by invitation only.

Boyd has finished in the top ten four times at the 500 and in 1958 placed third. In 1957 he was leading the pack in the final stages of the race when he was forced to stop for an unscheduled tire change. Though this pitstop cost him a victory, it probably saved his life.

**LEGION OF MERIT**—Colonel John R. Prince was awarded the Legion of Merit at his recent retirement. He earned the honor for his leadership and personal direction of the Directorate for Plans and Analysis.

## Drive Safely

### IN A NATION OF ENGINEERS, BAD CARS DON'T SELL.

In Sweden, precision is a national preoccupation.

The smallest unit of measurement in the world is the Swedish Angstrom. There's one ten-millionth of a millimeter to every Angstrom.

A Swedish engineer developed the block gauge. A precision instrument that allowed a famous man from Detroit to enter into mass production of cars.

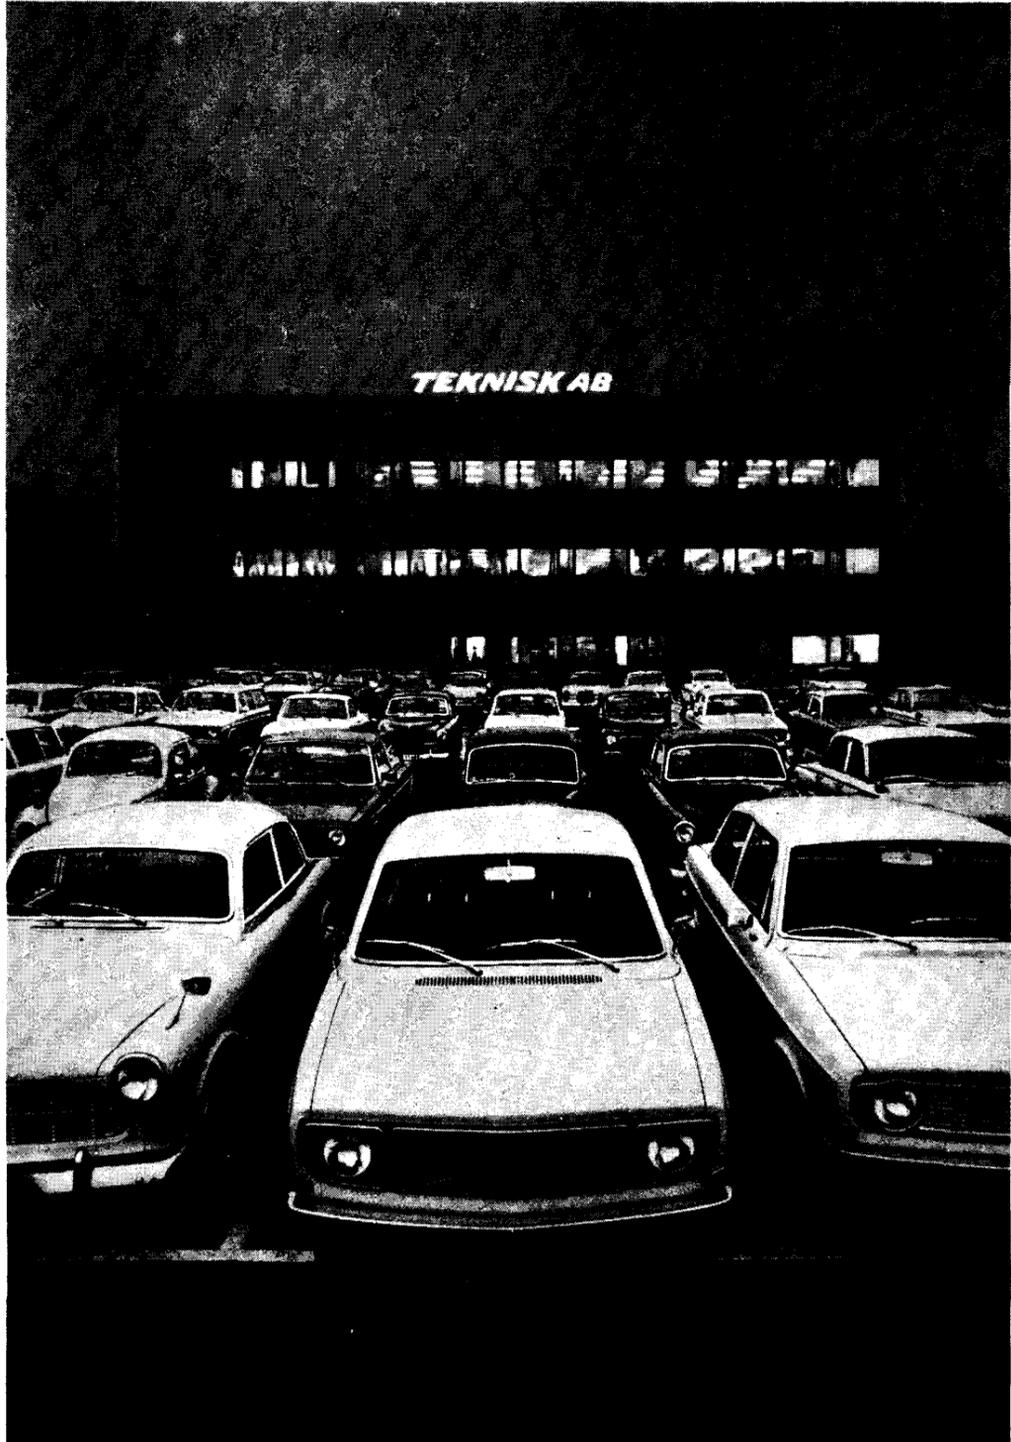

Today, Sweden is often referred to as a nation of engineers. Engineering is the largest industry, employing nearly 40% of the total labor force.

At Volvo alone, there are 517 engineers. And only 27 stylists.

We have to put a lot of emphasis on engineering.

Since Volvo is the largest-selling car in Sweden, a lot of our customers are engineers too.

Volvo.  
We build them the way we build them because we have to.

## Civilian Slo-Pitchers Seek Stopper For MISD Winning

by Doug McKee

Civilian Welfare Fund slo-pitch softball league swings into the second round of their schedule this week with seven of the teams looking for a way to sidetrack the hard hitting MISD crew.

MISD made it a win over each of their rivals last week when the Corps of Engineers fell under a barrage of home runs, 16-8. It was the second loss for the Corps and dropped them into third place.

In other games on the one-night schedule, Materiel Management edged ahead of the Engineers with a 19-14 win over Metrology, Missile Intelligence blasted GEM, 36-8, and SAFLOG entered the win column at the expense of Missile Systems, 11-7.

Russ Ward accounted for half of the six-homer attack that enabled MISD to sink the Corps and protect their unbeaten slate. The defending title holders got a pair of boundary belts from Buddy Lewis and a singleton stroked by John Roberts to give Bruce Coker the win over Dave Cassidy.

The Engineers were busy running the bases themselves with Hamil Martin whacking three solo shots and Clyde Wright contributing a two-run homer.

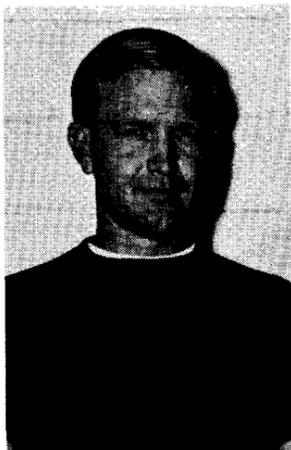

Materiel Management made it six out of seven during the first round at John McPeters, Hunter Horton and Bill Hart slammed four-basers. Hart had three more safe hits in the contest and Dave Blackwood got four more in the winning attack.

Don Agner took the loss for Metrology, but not through his own prowess with the bat. Dave had a perfect four for four evening.

Bob Pacheco and Gary James totaled an even dozen safeties between them in leading MIA to their run away win over GEM. Jack Harris connected for the only home run as Curt Gentry coasted to the win. Ray Whiddon collected three hits in the losing cause.

Graham Hall bested Tom Johnson in the battle to stay out of

the cellar. Stu Friedrich and Perry Michael did the same for Missile Systems.

RUSS WARD

## Skeet Match An All-Blue Affair

It was a Blue evening at the Pine Bluff Skeet Range last week when the Missile Command skeet shooters got together for a Huntsville Skeet League match.

The MICOM Blues walked off with the first shootout of the season against the MICOM Reds, sweeping the three match points with neither of the quintets shooting up to their potential.

Charles Lewis busted 48 of 50 targets for the best score carded by the winning quintet while Kirby Moore downed 47 birds for the Reds.

Joining Lewis on the firing line for the Blues were Bill McCorkle, Ron Foreman, Jack Campbell and Ray Wisniewski.

The win enabled the Blues to jump over the Reds into second place, a point behind the Marshall Center entry. The Reds are another point off the pace in third.

Next week's pairings find the Blues trying to take over the lead at the expense of MARS while the Reds are pitted against Boeing.

CHAMPUS will pay for the authorized services of physical therapists, psychologists, speech therapists, speech pathologists, audiologists, social workers, occupational therapists and nurses.

## MICOM Girls Drop 2-1 Verdict At Sheffield

The Missile Command girls softball team kept their slate clean in Huntsville Women's Softball league play last week but tested defeat for the first time this season in a special exhibition played in Sheffield.

The CWF-sponsored gals pounded the ball to every corner of the Astro Space field for a 17-1 win over Brown Engineering on Tuesday and a 40-0 rout of GCS two nights later in league play.

On Saturday night Coach Dwayne Kidd took the MICOM girls to Sheffield for a double bill against the Royal Electric team of that city. The Royals captured the opener, 2-1, but MICOM came back to square accounts with a 14-2 victory in the afterpiece.

Glenda Kidd, Pat Shipp, Barbara Ikard and Jackie Carswell collected three hits apiece with Ikard and Barbara Roberson hitting homers in the win over Brown. Sara Fisk was the winner.

Ikard kept up her long ball barrage in the waltz over GCS collected three homers and a triple in a six-for-six performance. Shipp connected for a pair of circuit clouts with Kidd and Fisk getting one apiece. Gladys Hill picked up her first win of the season with the shutout.

The opener in Sheffield turned out to be a near perfect defensive duel with each team getting seven hits in a game that was played in 40 minutes.

MICOM scored first with a single tally in the third but Sheffield put three of their hits off Hill together for a pair of runs in the fifth for the win. Kathy Leeth was the only MICOM player with more than one hit and drove in the run.

Leeth kept up her hitting in the finale with four safeties and Kidd Duplicated as MICOM put together a 23-hit attack for the equalizer.

Two of Glenda's hits went for the circuit and Barbara Roberson clouted another homer. Pat Shipp collected three hits with the win going to Fisk.

## Powers, Britton Share Walters Golf Trophy

William Powers, SAFSCOM, and Keith Britton, Corps of Engineers, Huntsville Division, had the low net scores of 65 Saturday to share overall first place honors in the third annual Colonel Jim Walters Golf Tournament at Twin Lakes Golf Course in Arab.

Defending champion Bob Nix, USASAFSCOM, fired a 66 net to tie with Jack Little, ABMDA, for the top spot in the A-Division of the Championship Flight. Keith Britton's 65 net also gave him first place in the B-Division of the Championship Flight.

First Flight winners: A-Division,

Major General R. C. Marshall, USASAFSCOM, 70 net; B-Division, Walt Heflin, SAFSCOM, 69 net.

Second Flight Winners; A-Division, Bud Ova, SAFSCOM, 67 net; B-Division, Major Bob Sullivan, SAFSCOM, 66 net.

Colonel (ret.) Jim Walters, the man for whom the tournament is named, took the honors for the shot closest to the pin on hole Number Two; Bill Tourney, SAFSCOM, was closest to the pin on hole Number Sixteen.

Ken Dempsey, SAFSCOM had the longest drive and Hugh Watson, SAFSCOM, the most single-putt greens.

## For Soldiers Only

A 25-year-old University of Alabama student and discharged Army veteran was recently fined \$100 for wearing his Army uniform.

At that he was lucky. He could have been fined \$250 and imprisoned for six months.

Those are the maximum penalties that can be imposed for illegally wearing a military uniform.

There has been an upsurge of uniform violations during the past couple of years—both by former servicemen and by civilians who have never been in the Army. Many violations probably stem from ignorance of the law. A few perhaps represent a deliberate attempt to degrade the Army.

Whatever the reason, the Army is concerned and reminds that unauthorized wearing of the uniform is taboo.

A federal law states:

"Whoever, in any place within the jurisdiction of the United States or Canal Zone, without authority, wears the uniform or a distinctive part of the uniform of the armed forces of the United States, Public Health Service or any auxiliary of such, shall be fined not more than \$250 or imprisoned not more than six months, or both."

That brings up the question: "What constitutes a military uniform?"

Any surplus store will sell at the drop of a buck or two, fatigues, combat boots, khaki pants, even a field jacket. Worn by themselves, without any identifying insignia—no problem. After all, a pair of brown pants is a pair of brown pants.

But don't put on a combat jacket with stripes, an AMC shoulder patch and military insignia. That's a no no!

Lt. Steve Wallace, Chief of Enlisted Personnel in the MICOM Directorate for Personnel, Training and Force Development, said all military who retire or are discharged from active military duty are briefed on proper wear of the uniform—when it can and can't be worn.

"The Army wants people to be aware of the law against misuse of the uniform and what can happen to those who violate it," Wallace said.

Life is full of maybes. Take some of the maybes out of your future with regular purchases of U.S. Savings Bonds.

**BIG PLANS - LITTLE PLANS**—With summer here some Arsenal employees have their spare time already planned for every minute. These employees came to work prepared. . . one brought his big car and boat so he can go fishing or boating as soon as work is over. Another brought his little car and camping trailer so he can hit the trail after work.

## AT ABSOLUTE AUCTION

Saturday, June 17 At 10:17 2/3 A.M.

### 125.6 ACRE DAIRY FARM

MODERN 6 ROOM HOME, 4 ROOM HOME, 84 HEAD REGISTERED JERSEY COWS AND HEIFERS; LOCATED 7 MILES NW OF HARTSELLE, ALABAMA ON HIGHWAY 41. FRO HARTSELLE, GO HWY. 36 TO IRON MAN ROAD, TURN RIGHT, GO TO NEEL, ALABAMA, TURN LEFT ON HWY. 41 TO FARM. FROM DECATUR, GO COUNTY HWY. 41, 11 MILES SOUTH TO FARM. FROM CULLMAN, GO HWY. 157 TO HWY. 41, 7 MILES TO FARM. BELONGING TO MR. AND MRS. TRAVIS CLARK.

#### 125.6 ACRE FARM AND 6 ROOM MODERN HOME

The farm, consisting of 125.6 acres all in lush pasture, is one of the finest farms in north Alabama. The modern home consists of three bedrooms, living room, kitchen, breakfast room, bath, screened in front porch, enclosed back porch, located on a beautiful shaded lawn with flowers and shrubbery. The permanent pasture includes orchard grass, regal clover, fescue and about four acres coastal bermuda. This is one of a few demonstration farms which would cost \$200-\$250 per acre to get it into the good condition it is now in. It has had the right kind of fertilizer year in and year out and will grow any kind of grasses or hay. This 125.6 acre farm will produce as much as an ordinary 300 acre farm in the state of high production that it is now. It is fenced and cross fenced, has a large feeder barn, shed, Grade A milk parlor. All the buildings are in excellent repair. Also has four room house, two acre lake, two fine everlasting wells, if you are looking for a small dairy farm that will produce enough grass for a large herd of cattle, be sure to look this farm over and be with us on sale day.

THE FARM WILL BE OFFERED IN 17 TRACTS, IN COMBINATIONS, AND AS A WHOLE; HIGHEST PRICE WILL DETERMINE SALE. TRACTS OFFERED ARE AS FOLLOWS:

TRACT NO. 1: Consists of 5.06 acres, more or less, fronting 242' more or less on Hwy. 41, in well sodded permanent pasture and has a fine homestead.

TRACT No. 2: Consists of 41.06 acres, more or less, all in permanent pasture, with the 6 room home and outbuildings and the two acre pond. This is one of the finest tracts to be found in any area of this county. It has a pump in the pond to furnish water to dairy barn and all feed lots around barns.

TRACT No. 3: Consists of .8 acre, more or less, fronting 244' more or less on 40' road. The four room home is located on this tract.

TRACTS 4-7: Each consists of 1.36 acres, more or less, to 1.70 acres, more or less, with 160' more or less to 200' more or less frontage. These are excellent building sites, well sodded in permanent grasses.

TRACTS 8-10: Each consists of 3.6 acres, more or less, with 210' more or less frontage on 40' road. If you are looking for a baby farm, with all the conveniences of the city, be sure to look these over.

TRACT No. 11: Consists of 5.28 acres, more or less, fronting 303' more or less on 40' road. This is as good a building tract as you will find anywhere in this area.

TRACT No. 12: Consists of 7.69 acres, more or less, fronting 254' on 40' road and 1280' more or less deep. This is a level, well sodded tract.

TRACT No. 13: Consists of 11.2 acres, more or less, fronting 112' on 40' road and is another good tract to build the home you have always wanted.

TRACTS 14 & 15: Consist of 13.8 Acres, more or less, and 12.7 acres, more or less, respectively, are rolling to level and have 640' more or less frontage on County Road No 22, only one mile from Neel, Alabama. A lot of people are looking for small acreage close to towns on a blacktop road. If you are one of these, be sure to see these tracts. They are ideal for this purpose.

TRACTS 16 & 17: Each consists of 5.37 acres, more or less, fronting 225' more or less on County Road No. 22. These are exceptionally good tracts to build any type home you desire.

If you are looking for lots, small acreage or a larger dairy farm, be sure to attend the sale of the Travis Clark property located in the heart of north Alabama and the TVA area.

Reason for selling: Mr. & Mrs. Clark are moving to Moulton, Alabama, and have already purchased a farm there.

### 84 Head Fine Registered Dairy Cattle

This is one of the finest herds of jersey cattle in the north Alabama area. Mr. Clark is now milking about 60 head and has 20-25 head heavy springers, some of which will be fresh by sale day. The cattle are rich in the blood of Brampton, Mariu, Design, Beacon, Wonderful Sleeper. There are also 12 open heifers to sell. The herd average is about 48 lbs. milk per day. All the cattle are young, averaging about five years. As you know, Jersey cattle are scarce, and it will not be long until base building period. Why not get your replacement cattle here at this sale? They will fit into anyone's registered or grade herd. The entire herd has been tested for TB and bangs disease and are clean.

TERMS: Real Estate—25% down sale day, balance on or before 30 days. Cattle—Cash sale day.

POSSESSION: Of Main House—90 Days. Of 4 Room House—30 Days. Of All Outbuildings And Land—With Delivery Of Deed.

SALE WILL BE HELD RAIN OR SHINE. LUNCH WILL BE SERVED, REAL ESTATE WILL SELL FIRST AND CATTLE IMMEDIATELY FOLLOWING.

**PREP Series D-Day Plus 28 Years**  
**Open June 19**

PREP—the Pre-Discharge Education Program—will soon begin a series of summer classes at John C. Calhoun Junior College. The classes meet Monday thru Friday from noon to 5 p.m. starting June 19.

PREP is a program designed to help servicemen who lack a high school diploma to continue their education and prepare themselves for higher education or vocational training.

Even if a soldier has a high school education, he may still enroll in the program if his GT score is under 110 and he has the approval of his Commanding Officer.

Yesterday, June 6, marked the 28th anniversary of the invasion of Normandy and the beginning of the end of "Festung Europa."

On that day, names such as Utah, Omaha, Red Beaches 1 and 2 joined the list that would forever be immortalized in the American Forces illustrious battle honors.

Each year several veterans organizations and individuals return to the beachheads which still contain rusting hulks of weapons and fortifications of that long ago battle. Many return to pay homage to their fallen comrades and to visit the cemeteries where they lie. Others come to try and retrace the battle lines along what was then the impregnable western wall.

Whatever the politics, many men and nations who fought there will pause for a moment of silent prayer on this day to pay tribute to those who died on that historic day so long ago.

PREP will pay up to \$175 per month to cover the costs of tuition, fees, textbooks, and supplies. This educational assistance will not be subtracted from a soldier's regular G.I. bill entitlements.

Building 3484 has additional information about PREP. All interested military personnel are invited to call Mr. Owens of the Center at 876-2844.

# "\$8,000 helped."

Sergeant Roy Smith was going for more than the bonus when he reenlisted.

"The \$8,000 helped. But part of my reason for staying in the Army is I can get the rest of my college credits for a degree. I've got 2 years in already.

"I enjoy the job I'm doing now as a drill sergeant. But I'd also like to try military intelligence. And eventually get to go to OCS.

"It's all there. It's completely up to me and my qualifications for it."

Sergeant Smith views the Army as one big opportunity for a guy who wants to get ahead.

There are job and educational opportunities. In advanced electronics. Cryptography. Foreign languages. Data processing. Communications. Traffic

analysis. And lots more.

And travel opportunities. In Europe. Korea. Hawaii. Alaska. Panama. And the time to enjoy it. To live it. In a way no tourist ever could.

And the opportunity to save money on all the everyday things.

Like free housing. Free dental and medical care. Commissary and post exchange privileges. Low-cost life insurance. Plus one of the best retirement plans offered by any employer. Anywhere.

It's all here. It's up to you. Your Army Career Counselor has a whole book of job, duty station and training opportunities just waiting for you. He'll give you lots of reasons for staying in.

Sergeant Smith has good reasons for staying in.

## Why are you staying in?

# U.S. - U.S.S.R. ARMS AGREEMENT

The historic accords reached in Moscow by President Nixon and Soviet leaders on limiting deployment of strategic nuclear missiles are defined in two documents.

The treaty limiting deployment of anti-ballistic missile systems (ABMs) must be ratified by a two thirds vote of the U.S. Senate before it takes effect. Leaders of the two nations also signed in Moscow an interim agreement setting limits on the number of intercontinental ballistic missiles and submarine launched ballistic missiles. Although that agreement does not require Senate approval, it is tied to the ABM treaty and formal implementation must await ratification of the treaty.

Although specific details have not yet been determined, the ABM treaty will have a major impact on the Army commands and agencies in Huntsville directly involved in research, development, testing, production and deployment of America's ABM.

The ABM treaty briefly:

1. Limits each side to one ABM site for defense of their national capital and one site for each side for the defense of a portion of its ICBM force.

2. Limits each side to a total of 200 ABM interceptor missiles, 100 at each site.

3. Limits ABM radars to six for each side within a circle 150 kilometers in radius around the national capitals and a total of 20 radars in the ICBM defense site.

4. Restricts on ABM radars that may be built in the future to space tracking or early warning and limits their size so as not to create a clandestine ABM potential.

The interim agreement:

A. Limits ICBMs to those under construction or deployed by July 1. (This will mean about 1618 ICBMs for the Soviet Union and 1054 for the United States.) Modernization is permitted.

B. Freezes construction of submarine launched ballistic missiles on all nuclear submarines at the current levels.

The complete text of the ABM treaty follows:

## THE ABM TREATY

"The United States of America and the Union of Soviet Socialist Republics, hereinafter referred to as the parties,

Proceeding from the premise that nuclear war would have devastating consequences for all mankind,

"Considering that effective measures to limit anti-ballistic missile systems would be a substantial factor in curbing the race in strategic offensive arms and would lead to a decrease in the risk of outbreak of war involving nuclear weapons,

"Proceeding from the premise that the limitation of anti-ballistic missile systems, as well as certain agreed measures with respect to the limitation of strategic offensive arms, would contribute to the creation of more favorable conditions for further negotiations on limiting strategic arms,

"Mindful of their obligations under Article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,

"Declaring their intention to achieve at the earliest possible date the cessation of the nuclear arms race and to take effective measures toward reductions in strategic arms, nuclear disarmament and general and complete disarmament,

"Desiring to contribute to the relaxation of international tension and the strengthening of trust between states,

"Have agreed as follows:

## ARTICLE I

"1. Each party undertakes to limit anti-ballistic missile (ABM) systems and to adopt other measures in accordance with the provisions of this treaty.

"2. Each party undertakes not to deploy ABM systems for a defense of the territory of its country and not to provide a base for such a defense, and not to deploy ABM systems for defense of an individual region except as provided for in Article III of this treaty.

## ARTICLE II

"1. For the purpose of this treaty, an ABM system is a system to counter strategic ballistic missiles or their elements in flight trajectory currently consisting of:

"A. ABM interceptor missiles, which are interceptor missiles constructed and deployed for an ABM role, or of a type tested in an ABM mode,

"B. ABM launchers, which are launchers constructed and deployed for launching ABM interceptor missiles, and

"C. ABM radars, which are radars constructed and deployed for an ABM role, or of a type tested in an ABM mode.

"2. The ABM system components listed in paragraph 1 of this article include those which are:

- "A. Operational,
- "B. Under construction,
- "C. Undergoing testing,
- "D. Undergoing overhaul, repair or conversion, or
- "E. Mothballed.

## ARTICLE III

"Each party undertakes not to deploy ABM systems or their components except that:

"A. Within one ABM system deployment area having a radius of 150 kilometers and centered on the party's national capital, a party may deploy:

"(1) No more than 100 ABM launchers and no more than 100 ABM interceptor missiles at launch sites, and

"(2) ABM radars with no more than six ABM radar complexes, the area of each complex being circular and having a diameter of no more than three kilometers, and

"B. Within one ABM system deployment area having a radius of 150 kilometers and containing ICBM silo launchers, a party may deploy:

"(1) No more than 100 ABM launchers and no more than 100 ABM interceptor missiles at launch sites,

"(2) Two large phased array ABM radars comparable in potential to corresponding ABM radars operational or under construction on the date of signature of the treaty in an ABM system deployment area containing ICBM silo launchers, and

"(3) No more than 18 ABM radars each having a potential less than the potential of the smaller of the above-mentioned two large phased array ABM radars.

## ARTICLE IV

"The limitations provided for in Article III shall not apply to ABM systems or their components used for development or testing, and located within current or additionally agreed test ranges. Each party may have no more than a total of 15 ABM launchers at test ranges.

## ARTICLE V

"1. Each party undertakes not to develop, test or deploy ABM systems or components which are sea-based, air-based, or mobile land based.

"2. Each party undertakes not to develop, test or deploy ABM launchers for launching more than one ABM interceptor missile at a time from each

FULL SPEED construction of missile defenses the Grand needs.

launcher, nor to modify deployed launchers to provide them with a capability, nor to develop, test or deploy automatic or semi automatic or other similar systems for rapid load of ABM launchers.

## ARTICLE VI

"To enhance assurance of the effectiveness of the limitations on ABM systems and their components provided by this treaty, each party undertakes:

"A. Not to give missiles, launchers or radars, other than ABM interceptor missiles, ABM launchers, or ABM radars, capabilities to counter strategic ballistic missiles or their elements in flight trajectory, and not to test them in an ABM mode, and

"B. Not to deploy in the future ABM radars for early warning of strategic ballistic missile attack except at locations along the periphery of national territory and oriented outward.

# ENT Limits On Nuclear Deployment Spelled Out By Historic Pact Construction Continues At North Dakota Safeguard Site

**HEAD.** Tactical facilities of the Missile Site Radar site being at Grand Forks, N.D., as part of the Safeguard ballistic missile system. The facilities are being built under the supervision of the Area Engineer, Huntsville Division, Army Corps of Engi-

which impede verification of national technical means of compliance with

the provisions of the treaty. This obligation shall not require changes in current construction, assembly, or overhaul practices.

### ARTICLE XIII

"1. To promote the objectives and implementation of the provisions of this treaty, the parties shall establish promptly a Standing Consultative Commission, within the framework of which they will:

"A. Consider questions concerning compliance with the obligations assumed and related situations which may be considered ambiguous:

"B. Provide on a voluntary basis such information as either party considers necessary to assure confidence in compliance with the obligations assumed:

"C. Consider questions involving unintended interference with a national technical means of verification:

"D. Consider possible changes in the strategic situation which have a bearing on the provisions of this treaty:

"E. Agree upon procedures and dates for destruction or dismantling of ABM systems or their components in cases provided for by the provisions of this treaty:

"F. Consider, as appropriate, possible proposals for further increasing the viability of this treaty, including proposals for amendments in accordance with the provisions of this treaty;

"G. Consider, as appropriate, proposals for further measures aimed at limiting strategic arms.

"2. The parties through consultation shall establish, and may amend as appropriate, Regulations for the Standing Consultative Commission governing procedures, composition and other relevant matters.

### ARTICLE XIV

"1. Each party may propose amendments to this treaty. Agreed amendments shall enter into force in accordance with the procedures governing the entry into force of this treaty.

"2. Five years after entry into force of this treaty, and at five year intervals thereafter, the parties shall together conduct a review of this treaty.

### ARTICLE XV

"1. This treaty shall be of unlimited duration.

"2. Each party shall, in exercising

its national sovereignty, have the right to withdraw from this treaty if it decides that extraordinary events related to the subject matter of this treaty have jeopardized its supreme interests. It shall give notice of its decision to the other party six months prior to withdrawal from the treaty. Such notice shall include a statement of the extraordinary events the notifying party regards as having jeopardized its supreme interests.

### ARTICLE XVI

"1. This treaty shall be subject to ratification in accordance with the constitutional procedures of each party. The treaty shall enter into force on the day of the exchange of instruments of ratification.

"2. This treaty shall be registered pursuant to Article 102 of the Charter of the United Nations."

### ARTICLE VII

"Subject to the provisions of this treaty, modernization and replacement of ABM systems or their components may be carried out.

### ARTICLE VIII

"ABM systems or their components in excess of the numbers or outside the areas specified in this treaty, shall be destroyed or dismantled under agreed upon procedures within the shortest possible agreed period of time.

### ARTICLE IX

"To assure the viability and effectiveness of this treaty each party undertakes not to transfer to other states, and not to deploy outside its national territory, ABM systems or their components limited by this treaty.

### ARTICLE X

"Each party undertakes not to assume any international obligations which would conflict with this treaty.

### ARTICLE XI

"The parties undertake to continue active negotiations for limitations on strategic offensive arms.

### ARTICLE XII

"1. For the purpose of providing assurance of compliance with the provisions of this treaty, each party shall use national technical means of verification at its disposal in a manner consistent with generally recognized principles of international law.

"2. Each party undertakes not to interfere with the national technical means of verification of the other party operating in accordance with paragraph 1 of this article.

"3. Each party undertakes not to use deliberate concealment measures

**AUSA PLANNING MEETING**—L. N. Hightower (second from right), Chairman of the current membership campaign by the Tennessee Valley Chapter of the Association, U. S. Army, discusses broadening the chapter's support from the industrial and business and professional sectors with several of his assistants. Conferring with Hightower are Dick Zwagerman, Raytheon Co.; Don Mills, Safeguard System Command, Assistant Publicity Chairman; Harold Anderson, SAFSCOM, Administrative Assistant; Hubert Ford, Rutledge Realty, Business and Professional Chairman; and Al Bryan, Raytheon Co., Industry Sector Chairman. Hightower is Deputy Director of Production and Logistics for USASAFSCOM. A June 1 tabulation of the membership campaign reveals that the total new members, renewals and current members reported were 1,574, up 509 from that reported last week.

## Youth Suggests

When the Incentive Awards Committee of the MICOM Civilian Personnel Division started a campaign this month to encourage more suggestions, there was no expectation that the idea would spread to children.

But Elena Callen, daughter of Sergeant and Mrs. Ralph E. Callen, decided she had a good suggestion and the program was one way to make it known. She got an official form, wrote her suggestion and sent it in.

She wrote: "I suggest you hire little girls (like me, I'm 11 years old) to do some work. You only have to pay 25 cents to 50 cents a day. Especially on weekends or during summer vacation because we don't really have anything to do except watch TV and it don't hurt to make a little extra money. Does it?"

On the back of the form she printed in large letters "PLEASE." Her father is assigned to the Missile and Munitions Center and School.

The Army can't hire 11-year-olds, but if anyone needs a baby sitter, Elena's home phone number is 837-6164.

## Opryland, USA, On Tour Agenda

The Service Club has a special treat on tap for Arsenal enlisted personnel and their families this Saturday with a trip to Opryland, U.S.A.

The recently opened family entertainment park near Nashville, has all sorts of rides, shows and exhibits, and features music of America from Bluegrass Folk Songs to Dixieland Jazz and Country and Western music of today.

The fee for the tour is \$4.75 for adults, \$3.00 for children 5 through 12 with those under twelve admitted free. The fee includes gate admission and all rides, shows and exhibits.

Departure time for the bus from the Service Club is 9 a.m.

Persons wishing to take the tour may sign up at the Service Club. Further information may be obtained by calling 876-4531.

## Polynesian Troupe At Service Club

"The Pearls of the Pacific," from Hawaii, will be at the Service Club, on Sunday evening with show time at eight.

This authentic, exciting group of musicians, dancers, and singers will present the Fire Walk of Tahiti, the Torch Supplication dance to the Fire Goddess, Pele of Hawaii, the drum dance of Tahiti and Borabora, the grandmother's dance of Papeete, and the graceful hulas of Hawaii.

**THIRTY YEARS**—Three from SAFLOG have received their pins and certificates for 30 years of Federal Service. Left to right are Ray Johnson, Alfred Bermender and John Holloway.

The staff can take care of 112 children. Mrs. Moore recommends reservations on a permanent or as needed basis.

## Hodges, Sullivan Shoot Low Totals

The Golf Group sponsored by the Officers Wives Club played a Crier's Tournament, converting the scores on the three worst holes to par last week on the Special Services course.

Edna Hodges, in Flight A, netted 64. Mimi Diehl and Camille Schlendering were a close second with 65s.

In Flight B Fran Sullivan shot a net 59.

Today the Group will play nine holes and meet for lunch at the Redstone Officers Open Mess.

## Career Women Attend Seminar

Women in career fields who work at Army commands served by MICOM's Civilian Personnel Division attended a seminar last week designed especially for their participation.

The seminar, "Managerial Development for Women" was held at the University of Alabama in Tuscaloosa. Twelve women from local Army commands attended. The course was offered previously, and if demand justifies, will be repeated once each year.

Topics covered included communication management, involvement of women in community life, and women in a military

**EXCHANGE GAVEL**—Mrs. James T. Haynes, past president of the Officers Wives Club, hands the gavel to Mrs. V.V. Wallis, newly elected president during a coffee at the Officers Open Mess. Ways to practice humanness when working with minority groups were described recently during the second session of a three-part seminar for persons in the Directorate of Personnel, Training and Force Development.

Dr. Carl H. Marbury, a Alabama A&M University dean, is conducting the sessions. He told of ways to overcome problems common to minority groups - poor whites, blacks and Indians.

Most of the more than 60 who attended this session of the seminar were white employees of the Directorate. The seminar was planned to help all individuals gain a personal awareness of inherent problems and to encourage them to join in a team effort to resolve them.

Among the highlights of Dr. Marbury's discussion:

—People have a tendency to look out for those who look like themselves. We have to overcome this habit and treat everyone equally.

—Prejudice and bigotry color judgement. We must be fair and human, try to rid ourselves of preconceived and perhaps subconscious feelings.

—Learn to be equitable in a natural way. Practive humanness, put yourself in the other fellow's shoes until it becomes your normal outlook.

—We are doing a lot for minority groups in a short span of time to make up for the years when they were neglected. At the present rate we will look back in 20 years and be surprised that so few minority group members were employed in state and federal agencies. Even so, progress is still slow.

—What you see in the mirror may look good to you, but ask an associate to evaluate how well you're doing. Constructive criticism can help you to improve.

—People say things to others they shouldn't because they don't think of others as human beings.

—Give every human being a chance. Every time you turn down a person you may be the one who renders the final blow to his self respect.

—It is very important for at least one person to be understanding.

—Men of reason should use common sense.

—Every person can be a blessing to society if given a fair opportunity.

Dr. Marbury said that he almost became a school drop-out after the third grade because he was discouraged by the attitudes of teachers in the first three grades. Then came the fourth grade teacher who had the human touch and changed his life. (He went on to head his high school class and earn scholastic honors at the three colleges he attended.)

He compared improvements in relations with minority groups to sending a rocket to the moon. There are forces working against the flight, problems to overcome, and changes to be made in mid-course to reach the objective.

The final session of the seminar will be June 22 when Dr. Marbury will continue his discussion on resolving minority group problems. Each person in the Directorate has been directed to attend one session of the seminar.

FOR YOUR USE—SSG David McNeal, left, and SSG Tom Zatowski, center, of MMCS, help T.C. Collier, property book officer for Special Services, check out one of the four new sets of camping equipment that are now available. Each set includes a tent, lantern, stove and ice box. There are now eight sets of camping equipment available for checkout on a first come first served basis at building 3491. There is no charge for use of camping equipment and soldiers can check on recreational equipment available for use by calling 876-1418.

Mail Traffic End Nets Award

SP5 Christopher Trout, legal clerk and administrative assistant in Headquarters, Troop Command, earned \$100 with a suggestion that the detachments among the special troops establish separate mail rooms.

The adopted suggestion is the largest to be presented under the Military Suggestion Award Program at Redstone.

In the past, mail was distributed from the headquarters building creating a traffic problem in front of the building during the hours the mail room was open.

Trout is from Stewartstown, Pennsylvania and attended Pennsylvania State University before entering the Army.

Eastern's Leisure Class. Is it better than standby?

Standby  
If you wait, it's 50%.

Leisure Class  
If you wait, it's free.

Eastern has a new way for you to fly. Besides First Class and Coach and Standby, Eastern has Leisure Class™.

Leisure Class costs you the same as you'd pay for coach (2/3 regular fare). But we don't guarantee you'll get on your scheduled flight.

If you do, it's the same as Coach. But if Coach is full, you may fly First Class. Without paying anything extra. And, if the whole plane is full, you won't get on at all. And that's the good part.

Because then you get

your money back. And we put you on our very next flight that has seats available, and fly you free of charge.

Now, our lawyers would get nervous if we left this out:

Leisure Class does not apply when you're on official government business and your ticket is being paid for by a government agency.

Nor to some reduced fare tickets. Nor to the Air-Shuttle, nor Bermuda, Jamaica, Mexico and Bahama flights. Nor when the originally scheduled plane is grounded

due to adverse weather conditions, equipment failure or equipment substitutions.

To qualify for a free ride, you must have your Leisure Class ticket at the boarding gate 20 minutes before flight time.

The number of Leisure Class tickets per flight is limited.

And, if you have to wait, it will be anywhere from several minutes to several hours.

But if you've got more time than money, you probably won't mind that at all.

Call Eastern or your base JAMTO office for details.

## Award Diplomas For NSM Course

It was diploma time for the 114 graduates of the National Security Management Course Group Study Program in graduation ceremonies at the Officer's Open Mess, this past week.

Over half of the graduating class were members of the Missile Command, SAFSCOM, and SAFLOG, while the remainder of the graduates were from NASA and the local Army Reserve organizations.

The National Security Management Course, a part of the Industrial College of the Armed Forces program, was sponsored and taught locally by members of the Army Reserve School in Huntsville.

Captain P.R. Ray, U.S. Navy, Director, Correspondence School, Industrial College of the Armed

Forces, and Colonel W.H. Terry, USAR, Commandant, U.S. Army Reserve School, Huntsville, presented diplomas to the graduates.

Colonel B.H. Keyserling, USAR, Ret., served as Moderator for the program.

Army Missile Command graduates were: A.R. Baker, W.E. Billingsley, J.R. Munger, R.F. Culley, M.E. Graham, L.F. McMurtree, M.K. Smith, R.D. Bibb, J. Donahue, C.D. Kitchens, B.R. Miller, S.L. Wilson, E.C. Hudgens, R.L. Mitchell, B.E. Givens, LTC G.F. Adamson, J.R. Winkley, J.E. Neumann, F.R. Cheverie, W.E. Whitner, W.M. Wood, S.A. Long, LTC D.S. Fugit, N.O. Childs, R.E. Brooks, J.J. Costello, P.S. Griffith, J.E. Jones, D.M. Potter, C.H. Town, S.M. Weems, C.B. Duncan,

W.M. Less, T.E. Sanders, M.H. Carpenter, B.Z. Jenkins, R.L. Harrison, E. Shannon, B.B. Certain, R.A. Deep, J.H. Henderson, L.F. Chandler, W.D. Hallock, B. McPherson, M.G. Chris, R.T. Hancock, Dr. J.Q. Lilly, H.E. Christiansen, H.R. Seid, M.K. Taylor, W.R. Ashby, C.H. Laney, and C.B. Rymer.

MMCS graduates were: S.W. Clements, C.J. Bartkoviak, H. Duke, and M.H. Smith.

SAFSCOM graduates were: A.E. Frederick, E.E. Dutton, N.H. Walker, R.B. Perry, and R.E. Goodwin.

SAFLOG graduates were: J.H. Self, P.E. Kirkland, W.D. Varner, and T.F. Hayes.

COMPLETE COURSE—Doris Keahey (left) and Margaret Couch, procurement clerks in the Directorate of Procurement and Production, completed the Defense Procurement Management Extension Course and were awarded certificates for 200 hours. Mrs. Keahey has been at the Missile Command since 1958 and Mrs. Couch has worked here since 1964.

WASHINGTON (AFPS) — The Commerce Department's ship is making a 6,800 mile trip from American Samoa to South America in an effort to locate in the South Pacific what may be the oldest piece of the earth's crust in this area.

SELLING YOUR HOME?

**In just six minutes we'll "show" your home to interested buyers moving here from everywhere.**

Any Realtor will be happy to list your home. So will we . . . but in addition to "pushing" your house locally, we'll also flash a photo listing of your home to a nationwide network of Realtors who are in contact with people moving here. Only ERA members can offer you this service.

**HOW THE SYSTEM WORKS:** Special electronic equipment in the offices of ERA Member Brokers provide a FREE listing service to anyone relocating to another city. In just six minutes, a listing and photo of your home will be in the hands of interested prospects across the country; people who will be interested in seeing your house the moment they arrive here. Best of all, this exclusive listing service is yours at NO EXTRA COST! Call or come in today.

### Black History

### Elijah McCoy - Inventor

There must be a dozen stories about the origin of the expression, "The Real McCoy", but one of the best concerns a Black man named Elijah McCoy. He lived a story-book life. His slave parents escaped to Canada where he was born.

He lived for a time in Scotland and returned to America, to Detroit, where he worked as fireman on a railroad... as an oiler. In those days, machinery had to be shut down very often and hand oiled. McCoy simply invented the lubricating cup, a device that solved that problem.

He then went on to patent more than fifty inventions dealing with lubrication devices, many of which are still in common usage on railroads and steamships all over the world. In his day, no respectable piece of machinery was complete without the McCoy lubricating cup, and the owner would brag, "It's the real McCoy."
