First Try

SAM-D Launch Successful

SAM-D, the Army's new air defense missile, has been launched successfully for the first time from its own sealed canister.

The test, conducted recently by Martin Marietta's Orlando Division at its Florida test facility, has verified design of the SAM-D tactical canister and launch system.

The missile, carrying a short-burn motor, was fired from a prototype launcher mounted on the ground. At launch, the missile exhaust blew away the rear cover and burst through the forward cover as planned.

Missile, launcher, and canister were full-scale tactical configurations to duplicate an operational launch environment.

All test objectives were accomplished.

Actual flight tests with SAM-D will begin later this year at White Sands Missile Range, N.M.

Being developed for defense against

high performance aircraft, SAM-D will replace Nike Hercules and Hawk missile systems now deployed worldwide.

SAM-D is now in engineering development during which the Army is fabricating, testing and evaluating tactical prototypes of the highly mobile weapon system. Brigadier General Charles Means is Project Manager and Charles Cockrell is his deputy.

SAM-D already has completed successfully a series of launch-eject, propulsion and control system flight tests. Also, the missile guidance scheme has been demonstrated, along with the system's phased array radar, a sophisticated unit that performs all the functions requiring several radars in other systems.

SAM-D's multi-function radar will detect targets, identify them, track them, and issue guidance commands to the missile in flight. It will be capable of handling several targets simultaneously.

REDSTONE FOREST

A recent survey of Alabama forests found that despite a booming forest products industry — in the past 10 years total timber harvest up 70 per cent, the pulp and paper industry more than doubled in capacity, pine lumber production nearly doubled — the state's timber growth is exceeding removals in most instances.

The survey found for example that along with industry expansion softwood volume has increased 30 per cent since 1963 while the hardwood inventory has grown 15 per cent, and net volume timber growth has increased about 11 cubic feet per acre.

Statistics like these are testimony to forest management, a practice the Army applies to its extensive timber holdings which include about 15,500 acres at Redstone, roughly 40 per cent of the installation.

Under the forest management program here large amounts of timber have been sold over the years; at the same time wooded area has been increased by about 2700 acres. And if the program goes as planned in coming years, a variety of valuable hardwoods will set off Redstone's reforested areas someday.

up noise buffers or quick-fixing desecrated or erodable areas such as landfills.

Second, it has a survival rate of 85 per cent, as opposed to a 15 per cent rate for most hardwood species.

The disparate survival levels showed up dramatically in an experiment here with hardwoods in 1970. Ever notice the numerous, curious looking areas on post where young pines form a perimeter around a grassy plot? Hardwoods had been planted in the circle — they didn't adapt to the soil.

Black walnut, lumber-wise one of the most valuable trees in existence, is among the hardwoods to be planted here, Bryant said, noting that on good sites it, like pine, grows to merchantable size in 20 to 30 years. It has already been planted in a few areas of the post with some success and grows naturally in Redstone's remoter reaches along with abundant oak, hickory, gum, locust, elm and other hardwoods.

Selective cutting methods are used in timber harvests here. This practice, besides perpetuating the timber yield, actually improves the forest environment in several respects. Most important, it keeps the numbers of trees at a level where they're not competing with each other and helps sustain the delicate food-cover-water balance necessary for wildlife to thrive as it does at Redstone. Overcrowding causes forest growth to stagnate and increases susceptibility to disease and insect infestation.

Clear-cutting, an environmentally devastating practice, is not done here.

No harvesting is permitted in two prime forest areas of the installation. Redstone has set aside a 150 acre preserve on Ward Mountain which contains nice examples of practically every tree species native to this area, with the exception of bottomland hardwoods. The preserve is used for camping, hiking, nature study and forest research.

The second area is a mature and virtually undisturbed forest of about 50 acres in the northeast portion of the Arsenal at "Vietnam Village".

Among Redstone's more valuable forest resources is a 1500 acre stand of pure red cedar which runs from the foot of Madkin Mountain to the northern end of Weeden Mountain. The trees average 30 to 40 feet in height, with 8 to 10 inch trunks.

Cedar is slow-growing and getting scarce in this area as demand outstrips supply, Bryant said, adding that the state is planning a study in hopes of finding a way to make it grow faster.

Also notable is a grove of about 50 chestnut trees, of an Oriental strain, thriving on the northwest side of Bradford Mountain. They were planted in the 1950s by Wheeler Refuge people. Some of the trees are about 35 feet tall and bear many nuts.

The Redstone Rocket

The Redstone Rocket is published weekly, on Wednesday. The publisher will receive editorial content for publication in the Rocket through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809, Bldg. 5250, Room A-134. Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 346, Huntsville, Ala. 35804, telephone 533-0471, as representative of the publisher. Advertising deadline—both display and wantads—is 10 a.m. Monday before publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$7.42 a year, or \$4.00 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 520, Huntsville, Ala. 35640.

Everything advertised in this publication must be made available for purchase, use, or patronage without regard to the race, creed, color, sex or national origin of the purchaser, user, or patron. A confirmed violation or rejection of this policy of equal opportunity by an advertiser will result in the refusal to print advertising from that source.

The forest management program, its reforestation aspect heretofore given almost exclusively to pines, is being tailored to include selective planting of hardwoods, according to Dave Bryant, post forester.

In light of previous bad experiences with hardwoods, the plantings will be on special sites where soil depth and composition indicate good survival, he said.

Pine plantings will continue, with 100,000 seedlings to be set out this winter on about 130 acres.

The post's penchant for pine results largely from two factors. First, it grows fast, a major consideration in setting

OCTOBER 22 . . .

The day to remember those who fought in the war to end all wars and all wars since is 54 years old this year.

On a drizzly day in 1918 Marshall Ferdinand Foch, the supreme commander of Allied Forces in World War I, and Matthias Erzberger, Germany's secretary of state, entered a railway car in the Compiegne Forest in France. At 5 a.m. they signed an armistice ending the four-year conflict which was then known as the war to end all wars.

The next year President Woodrow Wilson set aside Nov. 11 to commemorate the signing of the armistice. The signing was remembered with punctual fervor. All was stilled at a precise moment: eleven minutes after the eleventh hour on the eleventh day of the eleventh month.

Celebration of this day continued through the years with decreasing fervor as the people of the world forgot the joy which they felt when news of the armistice reached them, and when new wars brought new memories and scars.

The last armistice day was celebrated in 1953. The next year President Dwight D. Eisenhower signed an act of Congress which changed the name and meaning of Armistice day to Veterans Day "To honor veterans on the 11th day of November each year . . . a day dedicated to world peace." With this change it became a more meaningful day to more Americans as it now commemorates the courage and patriotism of all servicemen and women.

Nov. 11 also is celebrated in France and Great Britain as Armistice Day, and is set aside in Canada as Remembrance Day in memory of its men and women who have died in World Wars I and II and the Korean War.

In 1968 a federal law was enacted moving four holidays, Veterans Day included, to specified Mondays, starting in 1971. Veterans Day now is observed the fourth Monday of October, this year the 22nd of the month.

Alabama Honors Gen. Donley

The State of Alabama yesterday presented its Distinguished Service Medal to Major General Edwin I. Donley, Commander of the U.S. Army Missile Command.

Harry L. Pennington, Executive Secretary to the Governor, made the presentation for Governor George C. Wallace during a luncheon meeting of the Huntsville Rotary Club.

Pennington praised Donley, retiring October 31 after 32 years Army service, for both his military leadership and his service to the people of the state during his four years in command at Redstone Arsenal.

The citation accompanying the award said in part:

"During a period of substantial reductions throughout the defense establishment, General Donley, through his personal concern and imaginative leadership, has minimized the impact on the people under his command and the North Alabama communities in which they live.

"While accomplishing his military mission, he has provided assistance and counsel to civilian leaders in North Alabama, conducting an exemplary program of furthering good will and understanding between the military and civilian communities. He has personally aided North Alabama municipalities in securing new industry, lead three charitable campaigns which each raised

more than one half million dollars for charitable purposes, and has sponsored and authorized controlled public access to the military installation under his command to provide increasing outdoor recreational opportunities for Alabama citizens.

"General Donley also directed far-reaching actions to improve the quality of air and water in North Alabama which will directly

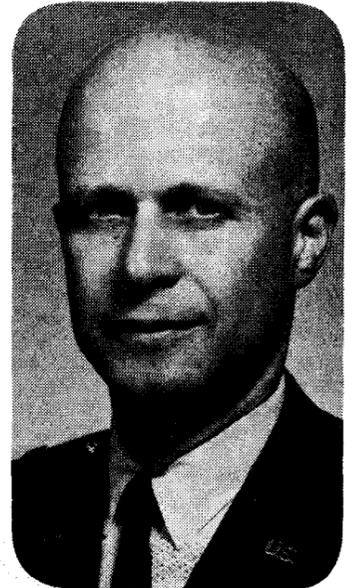

benefit all its citizens.

"While enhancing the worldwide reputation for excellence of the Army missile team at Redstone, this fine soldier has rendered distinguished service to the State of Alabama and all its citizens."

Sammet Named Deputy At AMC

Major General George Sammet, Jr., Deputy Chief of Research and Development, Department of the Army, has been named Army Materiel Command Deputy Commanding General for Materiel Acquisition effective October 23.

General Sammet succeeds Major General J. R. Guthrie who was reassigned this month to the Pacific Command, Hawaii. He previously served as AMC tour as Deputy Director of Development.

NEW ASSIGNMENT—Brigadier General Louis Rachmeler, who has left Redstone for a new assignment in Washington, was awarded the Legion of Merit prior to leaving the Missile Command. The general was cited for meritorious service as Deputy Commander of MICOM. Major General Edwin I. Donley presented the award.

Sprint Scores At Low Altitude

A Sprint missile, launched and controlled by a research and development Missile Site Radar (MSR), successfully intercepted an ICBM target nosecone over Kwajalein Atoll in the Pacific Ocean on October 5.

The purpose of this mission was to test the capability of the MSR and its associated data processor to launch and guide the Sprint missile to a short-range, low-altitude intercept.

The interceptor missile passed close enough to the target, as verified by electronic instrumentation, to have successfully accomplished the intercept. Neither the Sprint missile nor the target carried an explosive warhead.

The Sprint was launched from Illeginni Island in the Kwajalein Atoll, 18 miles from where the MSR is located.

May It Rest

The persistent rumor that the newly-created U. S. Armament Command located at Rock Island Arsenal will eventually merge with the Army Missile Command was laid to rest last week.

ARCOM Headquarters took the usual step of issuing a news release which categorically denied the "substance or credibility of the rumor."

The ARCOM statement said that command had been told by the Department of the Army that "there are no such plans for a merger of ARCOM and MICOM".

Last January when the Army reorganization was announced, spokesmen in Washington explained that several alternative plans for merging various Army Materiel Command subordinate commands had been considered but were rejected in favor of the consolidation of the Munitions Command and the Weapons Command which resulted in ARCOM.

The merger brought together the related functions of "guns and bullets."

BETTER BUYS!

• Mmm BOY! THIS IS REALLY SHARP

Spic and span inside and out, you will agree about this new listing. Comfortable, carpeted and draped thruout, three excellent sized bedrooms, 2 large wallpapered TUB Baths, delightfully wallpapered sunny kitchen offers eating area and appliances including self clean oven. Garage. See this (Southeast) Spanish design Brick & Stucco home Today! \$27,900.00.

• PARKWAY ESTATES

Walk to Chaffee Elementary from this long low brick rancher on a large corner lot. Paneled family room. Completely equipped eat-in kitchen with pantry. 3 bedrooms and 2 baths. Central air and heat. Side entry double garage. Take over 5 1/4% loan with low \$145.86 total.

• CHILDREN GROW—HOUSES DON'T

And they can WALK to a choice school & "Y". Located on beautiful Hemlock Dr., S.E., this great 2 story offers over 2400' for your growing. Large separate dining, foyer, and Den complete w/FIREPLACE and bookshelves. 4 Bedrooms (master is excellent 14x18) and a fully equipped kitchen with separate breakfast area and pantry. Great 10x15 hobby room. Double garage. Deep lot. Fenced. \$37,900.00.

• FREE POOL SOUTH

Beautiful 2 story house, excellent location, mature lawn, big trees and garden plot. All four bedrooms are large and carpeted (master bedroom is a whopping 15'x22') and the large family room/kitchen has everything including pantry and carpet. The isolated formal dining and formal living divided by a large foyer spell sheer glamour. Den and 2 1/2 baths. Central heat and air. \$39,900.00.

• HIGH ON A HILL—RUTLEDGE

Brick Basement Home with fenced grounds, featuring above ground pool & deck & Bar-B-Q pit for family enjoyment. 3 bedroom, 2 vanity baths, and a built-in kitchen with adjacent family room. Central air and storm windows. Upper \$20's.

Health Insurance

The U.S. Civil Service Commission has announced changes in benefits and premium rates for the 40 plans participating in the Federal Employees Health Benefits program in 1974.

An "open season" is scheduled for November 15-30, during which time eligible employees may newly enroll and employees and retirees already enrolled may change from one plan or option to another, or from self-only to family coverage. (Changes from family to self-only coverage may be made at any time.)

Changes made by employees and annuitants during the open season will take effect the first pay period in January 1974, the same time that new premium rates become effective.

Premium rates for most of the plans will be increased by varying amounts in 1974 to enable plans to meet their benefit payment obligations to subscribers in the face of rising costs and increased use of health care, to pay for benefit improvements, or both.

The Government's standard biweekly contribution to premium during 1974 will be increased from \$4.04 to \$4.39 for self-only coverage and from \$10.17 to \$10.93 for family enrollment, adding \$47 million to the Government's 1973 cost of \$595 million.

The Government's contribution to premium cost is fixed by law at 40 percent of the average high-option premium of the six largest plans, not to exceed 50 percent of actual premium.

In addition to the two Government-wide plans (Blue Cross-Blue Shield and Aetna), the six largest plans include the American Postal Workers Union Plan, the National Association of Letter Carriers Plan, and the Kaiser Foundation Health Plans for Northern and Southern California.

For 1974, the Blue Cross-Blue Shield high-option premium will be increased by a little over 19 percent and the Aetna premium by a little over 13 percent.

The Commission noted that, because their premiums were reduced last year, the two Government-wide plans need larger increases than the other four plans.

For 1973, there was a 10 percent reduction in the Blue Cross-Blue Shield high option and a 5 percent

Most Premiums Going Up

Government-Wide Indemnity Benefit Plan (AETNA)

Benefits:

Changes in benefits are:

- The Hospital Room and Board Benefit is increased from 100 percent of the first \$1,000 to 100 percent of the first \$2,000 under the High Option and from 100 percent of the first \$500 to 100 percent of the first \$1,000 under the Low Option.
- The difference in charges between a private and semi-private hospital room, formerly excluded, is covered if the Carrier determines the use of a private room is medically essential for isolation to prevent contagion.
- The Deductible is increased from \$50 to \$75 per calendar year under the Low Option.
- A new method of computing the family limit on deductibles is provided (High and Low Options). Formerly, each of three family members had to meet the full Deductible; now, the expenses charged to the Deductible of any four or more family members may be combined to meet the family limit of \$150 (High Option) or \$225 (Low Option).
- Charges for surgical correction of retruding mandible or maxilla, formerly excluded, are now allowable in certain cases.
- Low Option Benefits for allowable expenses of an enrollee and family members, if any, that exceed \$10,000 in a calendar year, formerly payable at 75 percent, are now payable at 100 percent.
- The maximum benefits for a person confined on the effective date of enrollment are increased from \$1,000 to \$2,000 (High Option) and from \$500 to \$1,000 (Low Option).

Government-Wide Service Benefit Plan (Blue Cross)

Benefits

Changes in benefits are:

- The Double Coverage limitation now applies to a person covered by "no fault" automobile insurance or by any group health plan.
- Basic Benefits are provided for Chemotherapy for treatment of cancer.
- Dental care required as a result of accidental injury is no longer covered by Basic Surgical-Medical Benefits; Supplemental Benefits are provided for such care.
- Low Option maternity benefits are increased from \$150 to \$250 for hospital expenses, from \$20 to \$25 for hospital-administered anesthesia, and from \$125 to \$175 for physician care.
- The maximum Supplemental Benefit is increased from \$50,000 to \$250,000 for High Option and from \$25,000 to \$150,000 for Low Option; the additional \$2,000 formerly available each year to High Option subscribers who reach the maximum benefits is eliminated.
- Basic Hospital Benefits are no longer provided for hospital admission for cosmetic surgery not related to accidental injury.
- Successive hospital admissions are now considered to be one confinement unless separated by at least 60 days (formerly 90 days).

reduction in the Aetna high option. The other four plans whose rates help determine the Government's contribution all had premium increases for 1973.

AFGE Health Benefit Plan

Benefits

Changes in benefits are:

- Under the High Option, the number of days per calendar year for which Room and Board Benefits are paid in full is increased from 200 to 365.
- Under the High Option, the Plan pays the first \$500 of Other Hospital Charges in full, plus 80 percent of charges thereafter. Formerly, the Plan paid the first \$350 in full, plus 80 percent of charges thereafter.
- Under the Low Option, the Plan pays the first \$250 of Other Hospital Charges in full, plus 75 percent of the balance. Formerly, the Plan paid the first \$150 in full, plus 75 percent of the balance.
- Under the Low Option, the Maximum Benefit for each person is increased from \$10,000 to \$15,000.
- Under the Low Option, the Plan now pays 75 percent of charges for the services of a doctor within 48 hours of an accident.
- Benefits are now paid for charges incurred in a doctor's office or a medical clinic, up to a maximum of \$150, for services and supplies (other than charges for doctors' services) received within 48 hours after an accident or surgical operation.
- The Plan now pays a benefit for all expenses of voluntary sterilization up to \$100.
- The Plan now pays a benefit for all expenses of voluntary sterilization up to \$100 for male, and up to \$250 for female.
- The Plan now pays Maternity Benefits for one therapeutic abortion per calendar year.
- Surgical removal of impacted teeth is now specifically stated as an exclusion.

Warrant Vacancies In Various Skills

(ANF)—Vacancies for new Warrant Officer appointments currently exist in 31 of 99 specialties. commissioned officers are eligible to apply. Study Impacts On Environment

Dr. Anthony J. Wiener and Dr. Shiv K. Gupta head a list of nationally prominent authorities who will examine the dilemma posed for industry and society by concern over environmental impacts at the 11th Annual Conference and Short Course of the Huntsville Chapter of the American Institute of Industrial Engineers, October 25 and 26 at the Sheraton Motor Inn.

Dr. Wiener is chairman of the research management council of Hudson Institute and co-author of the book "The Year 2000." Dr. Gupta is a senior staff member of the University of Pennsylvania's Wharton School.

The theme of the conference, "Environmental Constraints: Dilemma and Challenge," will be explored in four sessions. The first day will be divided between sessions on "Technology and the Environment—Future Implications" in the morning and "Transportation and Energy" in the afternoon session. The second day's sessions will address "Industry and the Environmental Crises" in the morning and "Impacts of Safety and Health on Industry" in the afternoon.

More information about the conference can be obtained from Herbert Lewis at 837-3050 or 536-2012, or from Bert Johnson at 883-1550 or 881-4763.

Army's Sunday Punch Getting New Life

First it was SWAP, exchanging old ground support equipment for new.

Now the Pershing Missile itself is getting new innards, an updated guidance and control section that boasts the very latest in solid state electronics.

"We're modernizing Pershing to extend its useful life well into the future," said Colonel Samuel Skemp, Project Manager for the Army's most powerful battlefield missile.

"At the moment, we're flying old G&C Sections from Europe to Pueblo Army Depot for complete refurbishing and getting them back on site—all within sixty days." Simultaneously, the ground support equipment to fire the new missile is being modified at the rate of one firing battery per month. The rules for this program were set by the performance achieved during Project Swap; that is, this massive equipment conversion must have no operation of impact on the Pershing brigades' ability to perform its Quick Reaction Alert role and conduct training.

Skemp praised MICOM team members for the way they've supported the missile improvement program.

"A lot of people are doing a tremendous job, he said.

Major Herbert Mylks, Chief of Pershing System Support, said the task of coordinating and maintaining inventory control of available Pershing equipment' . . . is staggering.

There are eight major contractors and hundreds of sub-contractors from coast to coast who are part of the team producing the 400-mile-range missile.

The program to extend the useful life of Pershing was begun in 1969, Mylks said, after MICOM began to identify components that were sensitive to aging or wear and would be difficult to support beyond 1974.

That launched the missile improvement program.

"What we're doing is putting into Pershing the latest in technology," Mylks said, "and improving at the same time reliability and maintainability. We're fielding a state of the art that can be supported by the electronics industry."

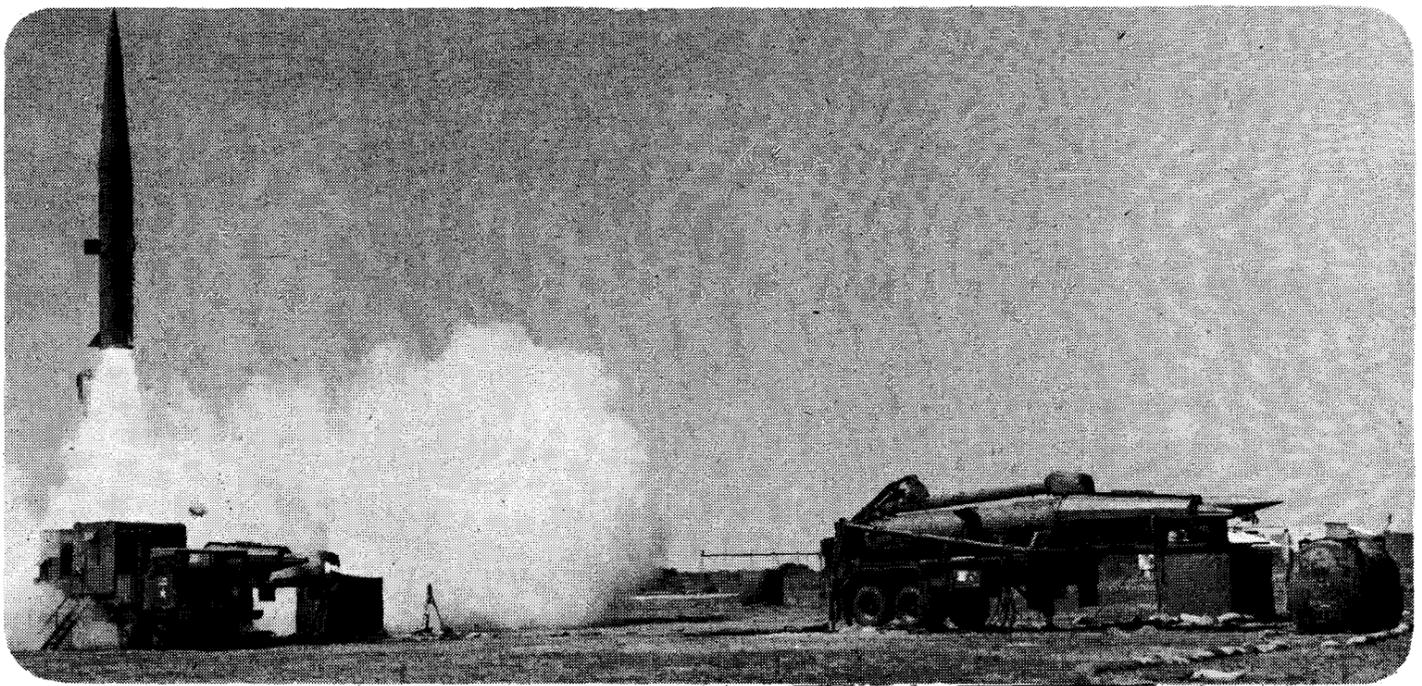

Initial production tests with new Pershing hardware were conducted at White Sands Missile Range, N. M., in June and got Army approval for issue in September.

"The new equipment is available for soldiers to fire next year in operational tests."

The missile improvement program is only part of a worldwide flurry of Pershing activity.

After a seven-year lapse, Pershing missiles went back into production earlier this year so the Army could replace its firing losses.

"That's one reason the MICOM team has such a monumental job with the modification program now underway," Mylks said. "The team is doing that in addition to

PERSHING GETTING NEW LIFE
 . . . MICOM is updating the Army's most powerful battlefield missile . . .

THE ROCKET — OCTOBER 17, 1973

Page 5

production, Pershing firings and other normal on-going activities."

To refurbish the G&C sections, a C-141 brings in old equipment every month to Pueblo from sites in Europe. As sections come in, technicians identify unserviceable components, remove them and replace with new components. They also inspect the guidance section skin for any flaws or dents, repaint and restencil the sections.

Every section is tested at least three times as a complete unit, Mylks said.

To keep abreast of what's happening and resolve problems that arise, the Pershing Project Office meets every week with other MICOM team members such as Maintenance Directorate, Materiel Management, Product Assurance, Guidance and Control.

"That way no problem goes unnoticed, or unsolved, for more than a week," Mylks said. "We stay on top of the situation and that's why we've been able to meet the sixty-day turnaround time."

Among people at Redstone playing a prominent role in the program are George Nichols, Special Assistant to the Project Manager for this program, the Pershing Item Managers, headed by Marion Legg, Materiel Management Directorate, Dot Sherrill, Transportation Coordinator, Materiel Management Directorate, and the Pershing Project Staff.

Joins Chapel Staff

Beth Adams has assumed the duties of religious education director, the first to serve in that capacity on the staff of the Redstone post chaplain.

Miss Adams completed her internship after obtaining a master's degree in theology from Emory University. As an intern she worked in an inner city church and with one of the first integrated congregations in Atlanta. Her undergraduate work was completed at Tennessee Wesleyan.

As the director of religious education, Miss Adams is responsible for the total religious education program. Her position is certified by the United Methodist Church. Later, she will work with the programs of the chapel auxiliaries.

Eventually she hopes to obtain a doctoral degree in the field.

Right now, she is getting acquainted with the people in the military community and is finding what is needed before establishing a program.

Her interests are diversified. While working in Birmingham, she sang with the Birmingham Civic Chorus. She also likes to play tennis, bowl, hike and canoe but she draws the line at rough camping.

BETH ADAMS

Safeguard Award Goes To Stanford

The SAFEGUARD System Command has awarded a \$1,960,700 contract to Stanford Research Institute (SRI) for continued investigations into the research, development, test, and evaluation of ballistic missile defense systems.

Ninety percent of the work under the contract will be performed by the Huntsville facility of the California firm.

The sole-source, cost-plus-fixed-fee contract covers work to be performed by SRI through next September.

Thiokol Overshoots Goal

Thiokol/Huntsville Division has reported contributions of \$44,799.46 and a corporate contribution of \$2,000 as a result of the one week United Way Campaign just completed.

Participation hit 92 per cent with 634 of the 689 employees joining the Crusade and 341 (49.5%) contributing a fair share for a per capita contribution of \$65.02. The per capita contribution was \$58.59 a year ago.

Permanent fair share contributors increased 108% from 151 at the start of the campaign to 314 at the end. This represents 45.6 of total employees.

Mrs. Eugene M. McLain, United Way campaign chairman, congratulated John L. Chambers, Thiokol campaign manager, on the dramatic results. Chambers said, "It was the employees and workers. The momentum was there, the employees were ready to respond, and I don't think anything I could have done would have kept it from happening."

ABMDA Too

"It's just our way of saying it's good to be staying in the Huntsville area," is the way Captain William Hecker reported a tremendous success for the 1974 Combined Federal Campaign at the Anti-Ballistic Missile Defense Agency.

It took less than a week for the ABMDA co-chairmen, Hecker and Lester Rogers, to complete their solicitation and tally the results.

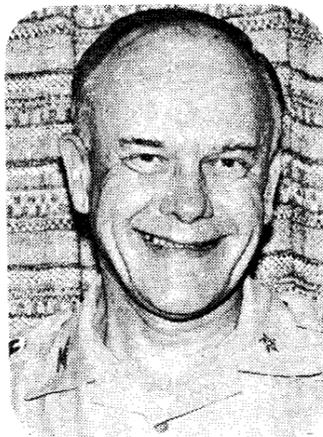

Their first, and final, report indicated 100 per cent participation with a per capita gift of \$58.

"That's not bad," Hecker added, "when you consider that our organization spent the summer wondering whether we would be transferring to some other locality."

New Chopper Previewed

(ANF) . . High Level Army officers and civilian personnel recently conducted a formal review of the utility tactical transport aircraft helicopter — the model scheduled to replace Huey Helicopters for airmobile operations in the 1980s.

The review was held so the Army could suggest improvements to the helicopters, which is supposed to start test flights in the Fall of 1974.

HONORED—Colonel Horace B. Dunn, was a recent recipient of the Meritorious Service Medal. Dunn was recognized for his outstanding accomplishments while serving as Chief, United States Army Section, Military Assistance Advisory Group in the Netherlands, 1970-73.

SAFE DRIVING TIP

"I drive with this thought in mind: I don't know who that person is nor what value they are to this world, nor how many people would be affected if he or she should be injured or killed, so, I always drive with the conviction of 'hitting the dirt' rather than him. After all, I know what I've got to lose."
...Herb Volk, a pro driver.

Arsenal Hosts Tennessee Valley Boy Scout Roundup

Some 5,000 boy scouts and leaders are expected to be honored during the Awards Ceremony hosted by the Arsenal on November 10.

The annual roundup, this year named the Manpower-Boypower Roundup, is chaired by Colonel George Gregg, Director of the Redstone Arsenal Support Activity.

Leaders of units achieving Roundup goals will be presented with Southeastern region certificates affixed with a seal. Also, each unit will receive a streamer for its unit flag. Unit leaders will be presented a Southeast region coffee mug.

For the scouts who have brought the most boys into scouting, in each respective district, there will be prizes. Also, the program of the day is designed to reward all scouts with interesting events, such as parachute drops, missiles, antique cars, police sentry dogs, and drill teams.

And to top it all off will be hot dogs by the dozens.

The event begins at eight and concludes by noon in the Missile & Munitions Center & School Training area E. The project officer of the event is Captain Walter B. Fuller, Special Services.

Tennessee Valley Council President Roscoe Roberts will

welcome attendees of the Roundup. With him on the platform is expected to be Mayor Joe Davis, Huntsville, and James Record, Chairman of the Madison County Board of Commissioners and the Council's O&E chairman.

ORGANIST—Ira L. Walker, Jr., noted Alabama church organ consultant, will give a special organ concert at the Post Chapel tonight. The public is invited to attend the 7 p.m. concert.

Technology Transfer Could Be The Answer

McDaniel Cites Need For Dynamic Energy Program

The nation has the ability and resources to solve its energy problem, says MICOM's Dr. John McDaniel.

The compelling need now, he told the "Development of Energy Resources" seminar at Athens College last week, is a technology transfer program to guide the ability and resources into the most effective channels.

McDaniel recommended applying to the energy problem the technology transfer techniques in use at the Missile Research, Development and Engineering Laboratory here, of which he is director.

"So vast are the ramifications of energy," McDaniel said, "that its totality is difficult to comprehend. Moreover, the related research and development is pursued at so many levels and in so many types of institutions that it is not easy to derive a composite picture of what

is being done, what is being neglected and what should be started now if a possible future disaster is to be averted."

Dynamic Balance

A "dynamically balanced" energy program is needed to bring this fragmented picture into focus, a program to maximize use of the nation's energy resources and its diverse research and development apparatus, he said.

First off, he continued, several conditions must be recognized and corrected, immediately. Among them:

—A dearth of R & D talent in many areas. "Far-sighted planning for the education of sophisticated energy technologists must be instituted," he said.

—Government needs to readjust in areas where it supports research, rejuvenate energy R & D agencies that have lost ground in the face of

modern developments and sponsor certain kinds of basic research that are difficult to fund privately.

—Communications gaps must be plugged between and among energy research groups in different fields. "Findings in one area are not necessarily available to another, nor is there productive cross-fertilization among activities," McDaniel said, and noted, "No single professional society is broadly concerned with energy, no technical journal serves as a clearing house for energy information."

To solve the energy problem on a long-range basis, McDaniel recommended that the nation redirect its thinking to make energy conservation a top priority, determine the trade-offs or expense necessary to achieve the desired result and encourage and provide funding for the most promising energy programs.

Energy Center

Further, he called for the establishment of a national energy clearing house to disseminate and transfer energy technology.

"This 'Energy Center', McDaniel said, "could prevent the duplication of effort which would be more likely to occur as the nation became more energy conscious and more work was initiated.

"The same methods used at MICOM in the independent research and development (IR&D) transfer process would prove highly effective, he continued, adding, "Such a center would evaluate energy research programs and recommend priorities for those which appeared most promising, using what we at MICOM call the systems approach.

Enumerating MICOM's long experience with technology utilization programs and its present network of transfer techniques, McDaniel explained that the IR&D program here is a system for "analyzing and indexing the tasks being performed

by approximately 125 companies and profit centers... Bibliographic information on each task is stored in a computer, and each month new entries are selectively disseminated to the functional activities of the laboratory....

Engineers Meet

The local chapter of the Society for the Advancement of Materials and Process Engineering will meet October 23 at Michael's Restaurant in Huntsville.

Speaker will be Frank Key, of Marshall Space Flight Center's materials division project office. The topic, "Compatibility of Materials in Skylab."

The program starts at 5:30 p.m. with a social hour and dinner. For reservations call Ray Parker, 876-3464.

NEITHER RAIN, NOR SNOW, NOR HOSPITAL CONFINEMENT—Though John Talarico was admitted to Redstone Army Hospital as a sergeant first class, he'll leave as a master sergeant. Talarico, chief technical NCO for the Doctrine, Training and Literature branch at MMCS, received congratulations and a kiss from his wife, Helene, upon his recent promotion. When his promotion came through, Master Sergeant Talarico was in the hospital for tests.

THE ROCKET — OCTOBER 17, 1973 Page 7

ALPHA Specialists Here For Development

The Missile Command, the first Army Materiel Command Agency to fully implement the ALPHA

system at its present stage of development, recently hosted a week-long series of meetings of more than 40 visiting specialists in ALPHA programs.

The new ALPHA, or Commodity Command Standard Systems as it is now called, is one of the largest automatic data processing projects ever undertaken. Its five-year objective is the complete standardizing of ADP systems throughout AMC. The purpose of the meetings was to review progress and develop recommendations for improved designs and techniques.

Colonel Marvin L. Worley, Jr., Director of Maintenance, and his staff served as hosts. Visitors included representatives from the Automated Logistic Management Systems Agency, Army Logistic Management Center, AMC Maintenance Management Center, AMC Inventory Research Office, and the six commodity commands.

James Stapula of the Directorate for Maintenance, chairman of the sessions, termed them "the most productive to date." He said this was due to "the dedication and expertise of the participants, and the hospitality of the hosts."

The hospitality included the award of a scroll to each visitor proclaiming him an honorary citizen of "Space City." The presentations were made by Mayor Joe Davis of Huntsville.

Honor Mrs. McDonald

Mrs. Thomas J. McDonald, wife of the retiring Commandant, will be honored by the MMCS officers' wives at a farewell tea next Wednesday at the Officers Open Mess.

The tea, scheduled for 1:30, will be in the Hawk Room.

The McDonalds plan to reside in Huntsville after Col. McDonald's retirement, on October 31.

Reservations are being taken by Mrs. James Fields (A-L) at 837-6944 and Mrs. Harold Hicks (M-Z) at 837-5736 until noon on Monday. Cancellations will be accepted until noon Tuesday.

HAPPENINGS—Hillard R. Frey prepares to place a poster in the new glass enclosed bulletin board mounted at the entrance of the Rod and Rake shop, Bldg. 3658. The board features activities in which the customers might be interested, such as the poster which tells that Enlisted and NCO military can attend the Huntsville Symphony series at half-price admission. The board was added during the recent renovation of the shop.

Symphony Sets Concert Series

Enlisted soldiers can attend the series of programs sponsored by the Huntsville Symphony Orchestra at half price admission. The season tickets are available through the Arts Council, 539-2592 or from Mrs. Margie Martin, 881-4377.

The first regular concert will be presented October 27 at 8:15 pm with a repeat on the 28th at

3:00 pm. Guest soloist Gene Bullard, tenor, will appear with the symphony.

Concerts to follow include a pair of Christmas performances in collaboration with the Community Chorus, Dec. 8-9, and later appearances with Martin Berinbaum, trumpeter, Jan. 19-20; Christiane Edinger, violinist, March 9-10; and James Dick, pianist, April 20-21.

The regular price for season tickets is \$15.00. Tickets at the door will be \$4.00.

Coffee House Sunday

A musical stage show, featuring Donna and Dee-Dee, will provide the setting for the October Coffee House at the Service Club on Sunday evening.

This Huntsville musical duo, along with other guests, will present a show of ragtime, popular and country and western music, along with dancing and comedy.

Showtime is at eight with coffee and refreshments being served throughout the program.

Accountants Meet

The Huntsville Chapter, Federal Government Accountants Association will hold its regular monthly meeting Thursday evening at Michael's Restaurant.

Harry Levine, National President of the Association, will be the guest speaker.

Guests are invited and reservations can be made by contacting Carl Hardy, telephone 852-0656.

Tag Exemption An Oversight

This year, Alabama's exemption of military members from the \$13.00 automobile license fee is granted to National Guardsmen only. As before, vehicle property tax is not exempt.

Removal of other qualified servicemen from exempted status is the result of an apparent legislative oversight in drawing up the state's new military code.

In 1969 the exemption, for many years available to National Guard members only, was extended to active and active reserve military members who entered the service from Alabama while Alabama residents and continued their state residency.

The 1969 provision, although

originally written into the new code, was omitted in an unlikely sequence of events during the last legislative session.

Only two no votes in the bill's final passage suggest that the omission was inadvertent.

Governor Wallace deplored the omission and said that he will do all he can to get it corrected as soon as possible.

Safeguard Wives

Safeguard Systems Command wives of officers will honor Mrs. Rutledge P. Hazzard at a farewell luncheon at 11:30 a.m. at the Carriage Inn Oct. 15.

Information can be obtained from Mrs. Louise G. Hergert, Jr., 837-6693 or Mrs. John E. Schaefer, 837-6085. The permanent reservation list is not in effect for this event.

Barracks Get New Furniture

(ANF)—A new line of wood furniture with english oak finish will begin arriving in the spring at barracks built under the last fiscal year's construction program.

Each soldier in a three-man room will receive a desk, desk

chair and lamp. In one and two-man rooms there will be additional lounge chairs, end tables and lamps.

Plans are underway to provide all barracks with such furniture as funds and space permit.

New Program For Procurement Careerists

Procurement careerists from Army elements in the Redstone area will hear the details of new appraisal, screening and referral procedures at meetings tomorrow and Friday presented by a Department of Army team headed by Lieutenant Colonel Bobby A. Hiland. Meetings will be in Bldg. 5250 at MICOM and in the Safeguard building.

Briefing Schedule

MICOM employees—Thursday, 9 a.m. to noon. Friday 9 a.m. to noon and 1 to 4 p.m. in Rm A-115, Bldg. 5250.
SAFSCOM and Corps of Engineers employees — Thursday 1:30 to 4 p.m., at Safeguard Bldg.

The new procedures are designed to improve a system now used to assess the performance and potential of procurement careerists GS 12 and above. The intent is to give a more realistic measure of employees' capabilities. Similar procedures are to eventually apply to all professional civilian career fields.

At the present time, data are taken from personnel records, including lists of awards and historical job information to go into a data bank. When there are promotion opportunities, the computer kicks out a long list of names of those considered eligible for the position.

Pre-Determine

"Under the new procedures," James K. Fowler of the MICOM Procurement and Production Directorate, said, "we're going to pre-determine on an annual basis, by using the same data bank base plus panel screenings done beforehand, whether or not a person is in a promotable category for a specific job or two, or not promotable, or eligible for lateral assignments in certain jobs.

"The manner in which we are going to make that determination is more finite and meaningful since all elements essential in expressing an employee's potential will have been considered."

Fowler was chairman of a Department of Army sub-committee which developed the new procedures.

"Every procurement careerist (GS 12 and above) will be notified by letter annually as to where he or she stands. The letter will say that a person is either promotable for an executive development group, eligible for lateral assignments, or is non-referrable for promotion without further experience and development," he said.

Army-Wide

The new procedures, to go into effect for procurement careerists Army-wide in January 1974, includes a number of changes.

As an example, instead of relying substantially on the Form 1559 used for career appraisals, a new procedure will be used that requires much more definitive information about an individual's performance and potential.

Procurement careerists covered by the new program will be able to describe fully their experience; education, training and development; contributions to professional journals; professional society memberships; desires for training; and factors to be considered before relocating.

More weight will be given to degrees in subjects pertinent to procurement than to degrees in other fields.

After employees complete their input, their supervisors look at it and summarize the individuals' potential by careful subjective analysis of 25 key factors.

The appraisal then goes to a local screening panel for review. Results of this panel's actions are forwarded to the Army Materiel Command to a second panel, and finally to a Department of Army panel. The panels sum up what the supervisor said, evaluate the person's input, and decide the individual's career potential and needs for training.

As a final result, the employees are assigned to specific referral rosters or put on non-referral status. Letters are sent annually to all careerists advising them what their status is.

Can Only Assume

As procedures are now, persons know that if they have

Conduct Ratings Dropped

(ANF)—Conduct and efficiency ratings have been deleted from enlisted personnel's Form 20. The ratings had been used primarily to determine eligibility for the good conduct medal and different types of discharges.

They were deleted because they frequently conflicted with the enlisted evaluation report.

tenure, a degree and a reasonable performance record, and receive an inquiry about availability for other positions, they can only assume they are promotable.

After the new system is operational, each person will know whether or not he is promotable, eligible for an executive development group, eligible for lateral transfer or non-referrable.

Only a limited list of names (five or 10) will be furnished to

an agency when there is a vacancy or promotion opportunity.

"This procedure also gives us a clearer picture of the people who have high potential and those who should receive additional training," Fowler said.

"We're going to wind up having a program that contains a positive mix of objective and subjective data provided by both

the careerist and his supervisor. This eliminates the antiquated, fixed, computerized reference formulas.

"In addition, for the first time we'll have an across-the-board look-see at all GS-12s and above in the Army and get uniformity and balance in the career program."

Here's the uniform of the day for your Hawaiian vacation.

You can get it for a lot less with United's special new offer.

As low as \$140.75 (plus air fare) per person. For 10 days and 9 nights of doing your own thing in the Islands. Or a total of \$165.22 (plus air fare) for two people. This includes 2-day car rental and round-trip transportation between airport and hotel.

With this uniform, you're ready for almost anything.

For a breathtaking ride in an outrigger canoe or a lazy stroll down the beach. For a fast horseback ride or spectator horsemanship—watching a polo match in the suburbs of Honolulu. For an intimate picnic for two or a spree in the world's most famous shopping center, Ala Moana.

You get the idea. Hawaii is your kind of vacation place no matter what kind of vacation you're looking for.

And now it can be yours at remarkable savings. Look at these discounts:

- 50% off on air fare when you fly standby (military personnel only).
- 33% off on air fare for positive space (military personnel only).
- 25% off on lodging at Reef Towers or Cinerama Reef in Waikiki.
- 50% off on Grayline Tours.
- Discount on Hertz cars.
- Discounts at certain restaurants.
- Free boat tour of Pearl Harbor.

Pick up a free, full-color "Top Secret" brochure from your SATO agents. They can explain all the details on how you can take advantage of our big discounts. And they can help you plan your vacation and make travel arrangements. Just drop in at your base airline ticket office or call 881-6772, 881-7668, 881-7270.

The friendly skies of your land.

PETERSON

LINTON

James W. Linton and Arthur W. Peterson, recent retirees from federal service at the Missile Command, were presented the Department of the Army Meritorious Civilian Service Award for their outstanding achievements.

Both men were employed in the Directorate for Maintenance. Linton served as Deputy Director of Maintenance from 1971-1973. He was also awarded the Department of Army Certificate of Achievement for being selected as the Missile Command nominee for the National Civil Service League Career Service Award for 1973.

Peterson was recognized for exceptional performance of duty as Chief of the Maintenance Engineering Division, and for his contributions to the maintenance engineering program from 1969-1973.

Saddle Club Re-Schedules Fall Trail Ride For Sunday

The Redstone Saddle Club will hold its Fall Trail Ride on Sunday beginning at 12:30. The event was rained out last Sunday.

"The ride is open to the public, with riders and non-riders invited to join us," said Arthur Decker, activities co-ordinator for the group.

Participants are invited to be at the Saddle Club near Jordan Lane for registration and payment of a nominal fee to cover the cost of the cookout.

The cookout is planned for about 3 P.M. on Madkin Mountain. In the event of rain, the trail ride will be held on Monday.

Ralph E. Osborne

Funeral services were held Monday for Ralph E. Osborne, who died Saturday in a local hospital.

Osborne, 45, was an education specialist at the Missile and Munitions Center and School since October of 1966. Osborne came to MMCS in 1962, when he began his career as an instructor.

Survivors include the widow, Betty, a son, John; four daughters, Mrs. Harvey Winkler, Miss Sonny Osborne, Miss Suzy Osborne and Miss Sandy Osborne, all of Huntsville; the parents, Mr. and Mrs. John D. Osborne; and four sisters.

Services were at the St. Paul United Methodist Church of Huntsville. Burial was at Valhalla Memorial Gardens.

Further information is available from Decker after 7 p.m. at 837-3491.

Maintenance Trio Cited For Service

Three Directorate for Maintenance employees were presented the Department of Army Certificate of Achievement for distinguished service during the past year.

Lee W. Millican of the technical publications division, was recognized for being selected as MICOM's nominee for the National Civil Service League Special Achievement Award for 1973. He was noted for his work in microdocumentation.

Estelle M. Owen, depot maintenance division was honored for her selection as the Command's nominee for the Federal Woman's Award for 1973, on the basis of her personal and professional achievements.

Ben A. Thompson, Jr., land combat maintenance engineering division was also selected as a nominee for the National Civil Service League Special Achievement Award for 1973. He designed an inexpensive and practical tooling fixture to permit Pershing flight hardware to be repaired in the field, thereby effecting substantial cost savings to the government.

STANLEY NEWTON

Readiness Wives Group Meets

Wives of officers in the Redstone Readiness Group will hold an all-day meeting to work on Christmas projects Nov. 6 at 475-B Cooke Drive.

Co-hostesses are Mrs. William Winkenhofer and Mrs. Bill Aiken. Each member will furnish a salad. This event is scheduled instead of the monthly coffee. Mrs. Hazel Smith, mother of Major Doyle Smith, will be a special guest.

Bridge is scheduled every third Tuesday each month between 9 and 11:30 a.m. Mrs. Van Quick will be the first bridge hostess at 274-A Wesson Circle.

LTC M. F. (Spike) Spicer (Ret.)
10103 Dunbarton Dr., S.E.
Huntsville, Ala. 35803
Res: 881-4741

He's ready to serve you.

When you are investing in life insurance, you need to have confidence in the man you're consulting. That's why we go out of our way to find men like Spike Spicer to represent us.

Spike's professional outlook and training make him the kind of life underwriter you will want to deal with. He's thoroughly prepared to analyze your situation and advise you accordingly. Your needs are his only concern.

Whether you have questions on your present coverage or are considering additions to your program, call Spike. You'll be glad you did.

PROVIDENT MUTUAL LIFE INSURANCE COMPANY OF PHILADELPHIA

few months, quits, works a few months . . . doesn't mean that he loathes his job or that he's a quitter.

He is a co-op student, one of 38 presently employed at the Missile Command in a variety of fields including science, engineering, comptroller and business and industry.

Newton is a management analyst trainee in the Directorate for Materiel Management. He is also a student at the University of Alabama in Huntsville. A resident of Rogersville, he commutes to work every day.

Under the program, a student attends classes for one semester or one quarter and then works full-time during the next. "It does take longer to get through college," says Newton, "but I think that's the only disadvantage. In my case, it's worked out great and I've received a lot of valuable experience right here on the job."

It won't be long now before he has his degree in hand. He will graduate in February with a Bachelor of Science degree in Business Administration.

When a co-op student completes his college education, there is no further obligation either on the part of the student or the employing agency to maintain contact. In most cases, however, the Missile Command has been able to

offer permanent positions.

Newton began working in Materiel Management late in 1971. Since then he has had four work phases. I've been given much more responsibility than I expected to receive as a student." He recently conducted training briefings for the Combined Federal Campaign.

At home in Rogersville, he is active as commander of the VFW post and enjoys the various civic projects. He is also commanding officer of an Army reserve unit in Sheffield.

Before applying for the co-op program, he thinks a student should consider the time it will take. "Other than that, it's really helped me."

Contract Managers Hear IBM Assistant

The Huntsville Chapter, National Contract Management Association, will hold its next dinner meeting next Tuesday evening at the Redstone Officers Open Mess.

Guest speaker for the occasion will be Clarke Sinex, a staff assistant to the manager for manufacturing, IBM Corporation in Huntsville. He will discuss "Conversion of the Metric System."

Reservations may be made by calling Phyllis Grant (876-2723) or Peggy Stelman (837-5830, ex. 313) by noon on Monday. Guests are welcome.

Youths Claim Win, Tie With Campbell

The RSA Redskins continued their torrid pace in the Ft. Campbell National football league last Saturday with a 28-0 win over the Campbell Bears.

The Redskins, undefeated in the league, rolled up an impressive 219 yards in offense while containing their opponents to 25 yards.

After trading punts in the first quarter, Redstone scored on a 9-yard run off tackle by Kevin Males. The TD was set up by a 12-yard run by Anthony Doane.

In the second period, the Redskins added two more TD's on Billy Males' 29-yard sprint around left end and a 13-yard end sweep by quarterback Steve Ferris. Kevin Males added both two-point conversions. He had helped set up the first of the two TD's on a 52-yard run.

The Redskins final TD came on a 34-yard pass from Jon Doolittle to Chris Kinch after Eddie Coleman had intercepted a Bears pass.

The RSA tribe averaged 8.5 yards per rush with Kevin Males leading with 61 yards in two carries. Defensively, Billy Males had nine tackles, while Doane and Kevin Males added eight tackles each. Coleman and Kevin Males nailed two pass interceptions each during the game.

Rams Maintain Perfect Slate

The Redstone Rams ran their unbeaten, untied, unscored on slate through six Mountain League contests with convincing wins on each of the last two Saturdays.

Lacey Springs was a 22-0 victim on October 6 and Cotaco dropped a 28-0 encounter to the Arsenal youths last Saturday. The Ram defense was so tenacious that both league rivals were held to minus figures on offense.

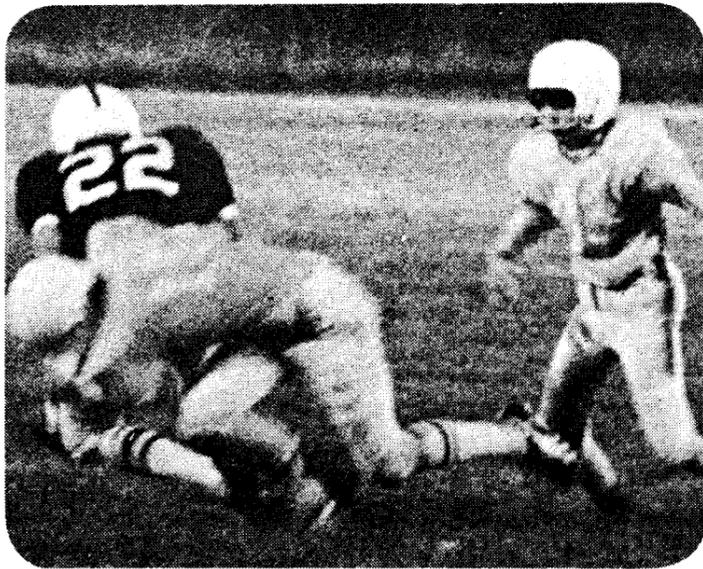

Lacey Springs held the high scoring Rams scoreless through half of their game before Mark Archuleta raced 23 yards off tackle for the first six-pointer early in the third quarter. Jerry McKnight ran a two-point conversion.

Soon after Redstone mounted a sustained drive that carried 60 yards before dying out at the Lacey Springs 20. However, the Ram defense quickly turned the ball back at the four and John Yezzi plunged into the end zone. Archuleta converted and it was 16-0.

A 48-yard scamper by Archuleta capped the scoring in the final stanza shortly before Jerry McKnight picked off a Lacey Springs pass to halt their most serious threat of the game.

The scoring last Saturday was more evenly divided, two touchdowns in each half with Cotaco failing to pick up a single first down and ending the contest with a total offense of minus 55 yards.

Archuleta opened the scoring on the second play from scrimmage with a 16 yard slant off tackle and Yezzi got the other first half score from the one.

RAIDER'S GROUND ASSAULT—Fullback Jim Olson (No. 22) rambled 38 yards before being tackled in a Mountain football game against Neel. The Raiders won 36-6.

More Than 1800 Yds. Gained

Raiders Keep Record Intact

The RSA Raiders, behind a strong aerial and ground attack, blanked Lacey Springs 34-0 last week to remain undefeated with a 6-0 record in the Mountain football league.

Midway through the season, the Raiders are in undisputed first place in the league. Their offense has tallied 216 points and more than 1800 yards, while their defense has limited the opponents to 18 points and 250 yards in offense.

The Arsenal youths scored in every quarter with two TD's coming in the first on Donnie Blackburn's five-yard run and a nine-yard pass from Sandy Downes to Mark McKnight.

Hans Burley added a TD in the second period on a 21-yard end sweep and Downes hit Doug Bolles with a 34-yard TD pass in the third quarter. The Raiders ended the scoring in the final period on a 42-yard pass from Blackburn to Jay Levasseur.

RSA Raiders Down Neel 36-6
Quarterback Sandy Downes threw four scoring passes as the Raiders mauled Neel 36-6 October 2 at the Danville Football Field.

Downes was four for four in passing with 185 yards, while Mark McKnight was on the receiving end three times for 176 yards. The Raiders racked up 331 yards in total offense.

The Raiders scored twice in the first quarter after Neel netted a TD on a 53-yard pass on the first play of the game. Downes hit McKnight on 34 and 98-yard pass plays, with Hans Burley adding a two-point conversion.

The Arsenal youths put the game away in the second quarter as Downes hit Roger Lowery and McKnight for 19 and 44-yard TD's. A Neel turnover gave the Raiders their final score with Jim Olson scoring.

A heroic run by Ronnie Hollingsworth gave the RSA Dolphins their only touchdown as the Arsenal youths settled for a 6-6 tie with the hosting Ft. Campbell Browns in a national league game Oct. 6.

The Dolphins, who were held scoreless throughout the game, eluded the shutout with seconds remaining when Hollingsworth blasted up the middle for a two-yard TD.

The TD was set up by a 75-yard drive in 11 plays.

The Browns held a 6-0 lead early in the second quarter when a Dolphin fumble gave the "Bluegrass" youths the pigskin on the Dolphin 22-yard line. The Browns scored on a seven-yard pass from quarterback Walter Lucht to Jerry Wright.

With three seconds remaining

in the game, the Browns tried to break the tie after recovering successful on-side kick and sprint for the goal line. Dolphin Dave Lewis made a desperation tackle on the two-yard line to preserve a tie for Redstone.

Hollingsworth led the Dolphin offense with 63 yards in 16 carries. Dave Burrows gained 55 yards in eight tries, followed by Lewis with 34 yards in eight attempts. John Moorhead led the Browns with 22 yard in eight carries, while Wright completed four passes out of six attempts.

Deppensmith Low In OWC Competition

Marion Deppensmith took first place in the 18-hole low net competition staged last week by the Officers Wives Golf Group.

A three-way tie for second place went to Ann Sloan, June Young and

Joy Mundy. Sonja Skemp captured third place with Shirley Burnell in fourth.

The nine hole group played a round of blind partners. Winners were Nancy Hecker, Shirley Winters and Norma Worley.

TENNIS CHAMPION—Clifton A. Brashier, using devastating overhand smashes and aggressive volleys, defeated Phillip Thoni in capturing the Redstone Arsenal Tennis championship. Brashier downed Thoni in straight sets, 6-4, 6-4. In the final set, Thoni held a 4-1 game edge, but Brashier came back with five straight games to grab the set and the match.

Mizell Rules

The new golf champ of Maintenance and Materiel Management Directorate is Tom Mizell. He shot a low net 65 in the annual fall M&MM handicap tournament held at the Arab Country Club on Columbus day.

Top shooters in the championship flight were Mel Tack, first place, Fred Hopper, second, Aubie Latham, third, and Howard Cooper, fourth.

Other first place winners were Hoot Pritchett, first flight, Bill Treadwell, second flight, and Mizell, third flight.

Low gross scorers were Bill East, Gene East, Aubie Latham, and Jack Farris, all tied with a 76 for the course.

The best-ball two-man event ended in a five-way tie between the teams of Jack Farris-Mel Tack, Max Baer-Fred Hopper, Bill Treadwell-Bill Clemons, Charles Bagwell-Alex Oliver, and Hoot Pritchett-Roy Nelson, all with a 62.

Anyone For Ping Pong

A post-wide ping pong tournament will be held at the Service Club, Saturday afternoon starting at 3:30.

A trophy will be awarded to the winner of the tournament.

Barnes Bags Biggest Bass

C.O. Barnes bested the field to boat the biggest bass in the Maintenance and Materiel Management fall fishing rodeo held recently on Guntersville Lake. He weighed in a six-pound piscatorial prize.

The Citrano brothers, John and Sam, netted a bevy of big bass to win first money for the heaviest haul.

Warrant Officers Hargraves and Raymond outclassed all comers to cop cold cash for the crappie catching crown.

Archers Bag Five Deer

Bob Goss, a 26-year old civilian employee, downed the first deer of the archery hunt at 8:40 a.m., Friday, when he brought in a 78 pound, five point buck.

Another bow hunter, Ron Smith, bagged the only doe since the

Colts Capture Twin Victories

The RSA Colts, behind a strong defense, trounced the International Bears 24-6 last Wednesday in a Huntsville football league contest.

The Colt defense intercepted two Bear passes, recovered two fumbles and blocked one punt. The Colts now have a 4-1 record for the season and are 1-1 in league competition.

Last Saturday in a "B" Division game, the younger Colt team nipped the American Eagles 8-6. Quarterback Brian Knowles hit

John Kinch with a TD pass and Bobby Murphy added the winning two-point conversion.

In the 95-pound division Wednesday game, the Colts recovered a Bear fumble in the first quarter and scored on a four-yard run up the middle by Robin Harris. Minutes later, Randy Speakman intercepted a Bear pass. Three plays later, quarterback Rodney Dinkel hit Harris with a 15-yard toss for a TD.

In the second period, Speakman intercepted his second pass of the game. The Colts marched 77 yards to set up their third score, on a 32-yard pass from Dinkel to Ernie Collier.

The final TD came on a 45-yard pass from Dinkel to Collier. The Colts made six first downs, including 237 yards in total offense.

The awesome four—Kinch, Willie Witford, Speakman and Gerald Cantrell—sparked the Colt defense with numerous tackles.

opening of the hunt, a 96 pounder. Larry E. Faust brought down a 101 pound, seven point buck while William King captured a six point buck weighing 117 pounds.

Lieutenant Colonel Frank McMullen killed a 47 pound, two point buck.

FIRST DOWN—Bob Goss, left, shows his 78 pound, five point buck, the first deer killed in the arsenal archery hunt. PFC (ret.) Dennis Camp sponsored Goss in the hunt.

Civilian Cagers Meet Thursday

The Civilian Welfare Fund basketball league will start laying plans for the coming season when they meet tomorrow afternoon in Room N-22, Building 5678, at two.

Officers will be elected, a tentative schedule set up and rules and regulations for league play will be discussed. Deadline for entering teams in the league is November 1.

League games will be played on Tuesday and Thursdays at the old post gym.

Something For Everyone In Huntsville

There's a place for you. Maybe you haven't found it yet, but it could be closer than you think, whatever your hobby or interest. The chances are good that if you take a look around the Huntsville area you will find something for everyone.

In an attempt to provide readers with information on existing clubs and organizations in the area, the Rocket has viewed what is available and how to get involved.

This is only a sample of the many, many interest groups located outside of the arsenal. Additional information concerning other non-profit organizations designed to promote a single type of activity is welcomed.

CYCLING

Are you having a weight problem, missing out on your exercise, or do you just like being outside? The Spring City Cycle Club may be just the thing for you.

Taking the name of a cycle club that existed in the area in 1892, this group of bicycle enthusiasts banded together to promote safe and "just plain fun" cycling activities.

The group is particularly interested in family memberships but welcomes any individuals who desire to ride and race with people who share their interest.

Meeting the third Sunday afternoon of every month at 2 p.m., in the auditorium of the public library, members plan rides which take place on the weekends. The shortest ride thus far was five miles long, while the longest trek covered 60 miles. A race was held at the University of Alabama in Huntsville.

For information call Mrs. Boyd, 883-8470.

AUTOS

Gentlemen — start your engines. Is this familiar to you? Then you may be a fan of the racing circuit or at least have some knowledge of the sport. Perhaps you just like cars.

One of several auto clubs in the area is the Sports Car Club of America (regional—Tenn. Valley) which sponsors three major events each year, the Heart of Dixie National Rally, the Johnny Reb Divisional Rally and the Rallye Du Noir, a night pro series rally. These events are attended by contestants from all over the nation. Checkpoints on the courses are manned by local club members.

The group meets the last Wednesday of each month, at 7 p.m., in the Inter-Continental Imported Auto Supply, 2007 Bob Wallace Ave. The October meeting will be held on the 24th at Irelands Restaurant.

For information call Pat Schwarz, 881-4857.

ROAD RALLIES

A locally oriented group is the Twickenham Auto Club which meets the first and third Thursday of each month at 7:30 p.m. in the meeting room of the Family Steak Barn Restaurant, 4210 Oakwood Ave., N.W.

There are no requirements as to the type vehicle that may be entered in the club's road rallies which involve following a planned course at stated speeds. Driving skill is also tested on the slalom courses.

October 27th is the day for a fun rally and party open to anyone with an interest in cars or meeting fellow auto enthusiasts.

For information call Victor Van Leeuwen, 837-1765, or Jim

Burruss, 837-2007.

ANTIQUES

If your loyalty lies with the older generation you might want to look into the Antique Automobile Club of America, North Alabama region, which meets the fourth Thursday of the month at Bill Penny's Body Shop, at 7 p.m.

You don't have to own an antique auto for membership. The October meeting will feature a slide show from the Hershey, Pennsylvania Antique Car Show.

Call Dan L. Shady for information at 539-5216.

CAMPING

Members of the Huntsville Campers Association (Astro Campers) are combining their

love of outdoor living with a desire to meet new people and work in a group atmosphere.

The group has traveled to campsites in Alabama and Tennessee. Members need not have a camper. Some pitch tents at the camps.

For information call Mr. or Mrs. Hugh Mosher, 852-2628.

MODEL AIRPLANES

About 100 members of the Rocket City Radio Controllers, a model airplane club, meet to build and fly their planes at the old Huntsville Airport. There are several father-son teams in the group. All ages are welcome.

The group meets the third Monday of the month at Toftoy Hall on the arsenal. Anyone interested in learning to build or fly model airplanes is welcome to visit. Members fly radio controlled planes and gliders.

For information call Art Azlin, 453-2396 or H. H. Rodgers, 852-1102.

EARTH SCIENCES

If you're interested in the earth you may want to dig deeper into this one, the Alabama Archeological Society. Meetings are held the third Tuesday of the month at 7 p.m., in the Twickenham Hotel.

A planned program is presented at each meeting on an area of archeology or some related field. Visitors are welcome.

For information call Frank Brown, Jr., 852-1279.

GEM-MINERALS

The Huntsville Gem and Mineral Club also meets at the Twickenham Hotel. This group gathers on the first Tuesday of the month at 7 p.m., to hear lectures on such topics as jewelry making.

For information call Thomas Stramiello, 876-5058 or Jack Rogers, 876-4001.

GUNS

Anyone interested in beginning a collection of guns or related items is welcome to visit the North Alabama Gun Collector's Association which meets once a month. Meetings are announced to members by mail.

In addition to programs on guns and hunting practices, the club sponsors two gun shows each year at the Raymond Jones Armory.

You don't need to own a col-

lection, just have the interest.

For information call Bill Kellar, 876-1600.

GAMES

Do you like to play games? The Chess Club meets every Monday night, 6-10 p.m., at the Big Spring Community Center. Sessions are available for all levels of players.

Tournaments are held every two months. A new one will be starting the first Monday in November. If enough interest is shown, classes for beginners may be organized.

For information call Bob Rader, 533-5900.

ARCHERY

You could be right on target by calling for information on archery clubs in the Huntsville area. The Huntsville Archery Club is temporarily not meeting due to a change in location; however, Mrs. B. H. Funk, Jr., 881-0190, has information on that group as well as other clubs near Huntsville.

BRIDGE

The Bridge Center, 3209 S. Leeman Ferry Rd., is open every night of the week except Tuesday and Thursday for bridge sessions.

sions open to the public. You may come with a partner or as a single player. Beginner classes will be announced by the club later.

For information call George Sullivan, 881-6628.

THE ARTS

Patrons of the arts may find comfort in the activities of the Huntsville Music Appreciation Group which meets the first Tuesday of the month. Meetings are varied and are held in the homes of club members.

Broadway show tunes, and Russian music are only a couple of the areas studied by the group.

For information call Mrs. Nellis Smith, 881-7386.

COUNTRY MUSIC

The old-time country music is being preserved by members of the Huntsville Association of Folk Musicians, a non-profit organization designed to promote and play the traditional country sound.

Members give a number of concerts each year for charities as well as for enjoyment. The club will sponsor a concert on

Dec. 1st, by nationally known folk performer, Mike Seeger.

Meetings are announced to members by mail.

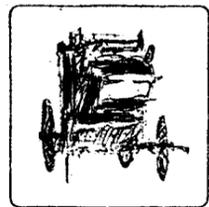

For information call Jim Weaver, 881-3768 or write the Association at P. O. Box 1444, Huntsville, Ala., 35807.

READING

Friends of the Library is a group organized for the purpose of aiding the Huntsville Public library by adding new books and other materials.

Their goal this year is to raise funds to establish an FM radio station at the library. The group

Just south of Steamboat Springs are 12,000 of Colorado's most spectacular acres. We've named the area Stagecoach, and dedicated it to serve as nature intended — for family recreational living.

You'll enjoy the activities of a ski resort, a summer resort, a country club. Ski Stagecoach, Colorado's newest ski area, is the first phase of a ski resort which will encompass two magnificent areas with potential for 20 lifts. The Stagecoach master plan also includes two 18-hole championship golf courses, an 860-acre lake and marina for sailing, water sports, and fishing, 12 tennis courts, two clubhouses, equestrian facilities, and hiking trails. Not just near Stagecoach — within Stagecoach.

Stagecoach will be the complete year-around residential-recreational community.

A unique territory now open to settlers.

For more information, send in the coupon below or call Mike O'Dell collect at (303) 481-2035

I would like more information about the 12,000 acres of land known as Stagecoach.

Free overnight lodging and Stagecoach tour

OCTOBER 17, 1973

Hobby?

Continued From Page 16

meets the third Tuesday of the month in the library conference room.

For further information call Angelo Ferranti, 539-8438.

LITTLE THEATRE

The Huntsville Little Theatre welcomes anyone who wants to become involved in dramatic productions. There are a vast number of talents and skills required to produce a play including carpentry, costumes, make-up and set designs.

Tryouts for roles are open to the public, no prior experience necessary. The next production will be "The Glass Menagerie." Tryouts will be held for this play on Oct. 21st, at 2 p.m., and Oct. 22nd at 8 p.m., in room 12 of Martin Hall, UAH.

For information call Rene Sevigny, 536-8721.

LITERARY ASSN.

Reading, writing and love of literature characterize members of the Huntsville Literary Association an organization designed to stimulate and coordinate literary activities in the North Alabama-Tennessee Valley Region. The organization publishes POEM magazine and sponsors the Young Writers Contest for Jackson and Madison county students.

Lectures, workshops, poetry readings, discussions of novels, play productions and dramatic readings are some of the activities.

For information call Mrs. Robert Coulter, 539-3928 or Mrs. Franklyn Broyles, 534-2832.

CAMERA BUGS

You could get in the picture with the Huntsville Photographic Society which meets every second and fourth Monday of the month at the Temporary Civic Arts Center.

Programs include lectures, films, slide shows and a monthly photography session to shoot live models.

Darkroom facilities are available for member usage.

For information call Sam Tumminello, 534-5807 or 859-2500, ext. 219.

DANCING

If dancing is your thing, maybe you'd like to become a Dixie Traveler, a Bama Rambler or a Mountain Square. These are only a few of the many square dance clubs in and around Huntsville.

For a complete listing of clubs, meeting times and places, call Bickie Raspilair, 881-4168.

ANIMALS

Animal lovers may find their place in the Huntsville Kennel Club, organized to perpetuate and promote pure-bred dogs. Two training classes are held each year to teach members how to show their dogs. Point shows are also held which lead to championship competitions.

The group meets the second Tuesday of each month, at 7:30 p.m., in the Army Reserve Center, Meridian St.

For information call Jack Jones, 536-8924.

EMPLOYEE BENEFITS

Additional coverage for civil service employees only.

Present conditions demand more permanent planning to update your present program, because of this we are offering a supplement to meet these demands. The supplement is a permanent individual, not "group" program but is available to you with group advantages.

THE NEW SUPPLEMENT PROGRAM HAS SEVERAL DISTINCT ADVANTAGES

- ★ No physical examination. Guaranteed issue
- ★ Premium will never increase
- ★ Can never be cancelled
- ★ Can be continued if you leave Federal Civil Service
- ★ Cash loan values
- ★ Permanent coverage, not term
- ★ This program features a bi-weekly deduction from your paycheck which goes to a financial account for your insurance payment.
- ★ You can be contacted personally
