

Between Tradition And Esprit

(Photo by Larry James courtesy
Leatherneck Magazine)

There is a hoary old story that might bear telling again as the Marines here at Redstone and elsewhere celebrate the Corps' 199th birthday Sunday.

At Tun Tavern in Philadelphia, it seems, the first Marine recruits were lined up at the bar, waiting their turn to be sworn in by the innkeeper and first Marine commandant, Sam Nicholas. As Sam moved down the line, the first man sworn is said to have turned to the sec-

The Redstone Rocket is published in the interest of the personnel at Redstone Arsenal, by the Enquirer Printing Co., a private firm in no way connected with the Department of the Army. Opinions expressed by writers herein are their own and are not to be considered an official expression by the Department of the Army. The appearance of advertisements in this publication does not constitute an endorsement by the Department of the Army of the products or services advertised.

Mostly Students

Marines At Redstone

If someone said, "Tell it to the Marines", the average denizen might be hard put to find a leatherneck to tell.

The fact is, Marines have been attending Redstone's Missile and Munitions Center and School since its inception in the early 1950's.

Finding an ear to bend would be easier today than at any time before with an average of nearly 200 Marines on post at any given time.

The great majority of Redstone Marines are students, here to learn about the Improved HAWK or the latest techniques in ammunition storage and handling. But between 30 and 40 Marines are stationed here permanently as instructors and administrative personnel. A Marine liaison officer is also active, keeping the Corps up on latest developments in MICOM missile systems.

When they're not hitting the books or at their duties, the Marines participate in Redstone's intramural sports program, frequently topping their division. The Marine Detachment has also consistently taken top honors in the post drill competition.

ond and, with a deflating sneer, growled, "BOOT!"

A Marine's aspirations to combat bravery are matched, as this story would indicate, only by his desire to be considered part of the 'Old Corps'.

This Old Corps is hard to pin down. In just about any Marine barracks in the states or overseas, some corporal is telling some newly arrived PFC about the Old Corps . . . of 1969. This is the kind of thing that becomes tedious to privates and PFC's and enrages the old salts.

One grizzled old pre-World War II veteran, a gunny in charge of supply, hung a sign over his door once. "Unless your 782 gear (a Marine's field equipment) consists of a sword and buckler," it said, "don't talk to me about the Old Corps."

The Old Corps lies somewhere between tradition and Esprit de Corps, and

(Continued Page 5)

The Rocket

The Rocket is published weekly, on Wednesday. The publisher will receive editorial content for publication in the Rocket through the Information Office, Army Missile Command, Redstone Arsenal, Ala., 35809, Bldg. 5250, Room A-134. Extension 876-1400 or 876-1500.

All advertising copy and payments therefor are received by Mrs. Vergie Robinson, P. O. Box 5351, Huntsville, Ala. 35805, telephone 533-0471, as representative of the publisher. Advertising deadline—both display and wanted—is 10 a.m. Monday before publication.

The Rocket is distributed free of cost to personnel at Redstone Arsenal. Mailing rates off post for the Rocket are \$9.54 a year, or \$6.36 for six months, tax included. Mailing arrangements may be made with the publisher, P. O. Box 930, Hartselle, Ala. 35640.

Everything advertised in this publication must be made available for purchase, use, or patronage without regard to the race, creed, color, sex or national origin of the purchaser, user, or patron. A confirmed violation or rejection of this policy of equal opportunity by an advertiser will result in the refusal to print advertising from that source.

ANSWERS

(Editor's Note: The MICOM Information Office conducts a question and answer program for job-related questions of general interest. Such questions may be telephoned to 876-4161 or 876-4400, or mailed to AMSMI-G. Some questions are selected for publication in the Rocket. Names are withheld. It is not intended that this program take the place of the usual supervisor-employee relationship which is the proper channel for specific job-related questions.)

QUESTION: What's max leave I can take on a selected Permanent Change of Station?

ANSWER: Thirty days, according to the latest change in AR 630-5 (Personnel Absences: Leave, Passes, Administrative Absence and Public Holidays).

QUESTION: Is it true that I won't get any pro pay next year?

ANSWER: That's right. As a result of recent congressional action, Superior Performance Pay for military personnel will be cut in half in December and discontinued altogether the first of the year.

Average Gift	\$36.75	\$31.38

... To The Editor

Editor:

As a member of "B" Company, School, Brigade, I am occasionally assigned to flag detail raising and lowering the American flag.

It's my understanding that there's a Post Regulation stating that vehicles passing when the flag is being raised or lowered should stop, their occupants get out, face the flag and either salute or place their right hand over their heart until the ceremony is over.

This is hardly ever observed at Redstone. Last night while on

flag detail even an MP car passed and kept going.

My Question is, why have such a regulation if it isn't going to be enforced? Those of us on flag detail respect the flag and would like to see others do likewise.

Logistics Seminar Seeks To Enhance Effectiveness

The Society of Logistics Engineers, Tennessee Valley Chapter, will sponsor a four-day course in the fundamentals of logistics on Nov. 19-22, at the Carriage Inn.

The program is designed specifically for, but not limited to, Missile Command interns and upward mobility personnel who will have duties relating to the logistics field.

Tailored to fit the true needs of the logistics layman, the course is the first of its kind and is aimed at enhancing on-the-job effectiveness.

Major areas of study include maintenance management, procurement, distribution

management, inventory management, automatic data processing systems, product quality assurance and general logistics topics.

MICOM personnel participating in the course are Colonel Marvin L. Worley, Jr., Director of the Directorate for Maintenance; Juan Gerala, Legal Office; Colonel Robert W. Huntzinger, Project Manager of the TOW Weapon System; Horace R. Lowers, Chief Engineer; John L. McDaniel, Director of the Research, Development and Engineering Laboratory; Major Paul K. McNamara, Directorate for Materiel Management; and William A. Parker, Jr., Deputy Director of

the Procurement and Production Directorate.

John C. Goodrum, executive director of SOLE, will discuss the "History and Philosophy of Logistics" and "Logistics in Space."

Other lectures will be given by representatives from the Air Force Institute of Technology, the Army Logistics Management Center, Texas A&M University, the Universities of Houston, Alabama and Oklahoma and Weber State College.

An approved installation training request form AMSMI-1011, is necessary for acceptance in the course.

For further information call Nora Zeman, 876-3574.

Inflation Aired

Government and industry are confronted today with a seemingly endless spiral of cost increases which leads the Huntsville Chapter of the American Institute of Industrial Engineers to a timely theme for its 12th annual conference and short course.

The theme: "Facing the Cost Crunch"

The one day conference will be held November 15 at the Sheraton Motor Inn and will include a number of top ranked speakers. Among them: Clyde M. Webber, President of the American Federation of Government Employees, and Richard Biedenbender, a special assistant to the Assistant Secretary of Defense for Installations and Logistics.

The program has been designed to aid industrial engineers and management personnel and will include presentations on inflationary causes as well as procedures and techniques being employed in government to combat inflation.

Key speakers from local government agencies include: BG George Turnmeyer, Deputy Commander of MICOM; John S. Potate, Associate Director (Management) of MSFC and William Turney, Contracting Officer, BMDSOM.

Registration begins on the 15th at 8 AM with sessions scheduled to start at 9 AM. Cost of the conference is \$40 for AIIE members or \$50 for non members. Additional information may be obtained from Richard Jackson (895-3000 or 837-4276).

Bootstrap On

Soldiers who have received orders to begin degree completion programs under Operation Bootstrap may participate despite Congress' recent cutoff of funds to finance the program.

"We have official work from Department of the Army that Bootstrap participants scheduled to begin studies in January will still receive financial assistance," said Charles Owens, Army Education Officer at Redstone Arsenal.

The fund cutoff voted by Congress this month prevents any new funding of the Bootstrap program, Owens said.

But those soldiers who have received orders to begin in January were funded before the cutoff was ordered.

In some cases, this means soldiers whose studies would extend through the current fiscal year will not be denied schooling, Owens said.

Their expenses had been fully financed, though their studies extend beyond the fund cutoff date, Owens said.

RSA Raytheon Produces Fuzes

The recent award of a \$9.6 million contract to Raytheon Company from Harry Diamond Laboratories for proximity fuzes will mean the addition of up to 10 employees at Raytheon facilities located on Redstone.

Employees will be hired from the Huntsville community, starting early next year, according to Jim T. Hiatt, Manager of Raytheon's Huntsville Missile Systems Division.

They will perform electromechanical assembly work, Hiatt added.

Although most of the fuze production work will be done at the company's Bristol, Tennessee, plant, final assembly, packaging and shipment to the Army will take place at Redstone.

Raytheon also uses the govern-

ment-owned facilities at Redstone to produce Dragon missiles for the Army. Dragon is the Army's new shoulder-fired tank killer that is far superior in range, accuracy and lethality to the 90mm recoilless rifle which it will replace.

The Army selected Raytheon in 1972 as an alternate producer of Dragon missiles. Once Raytheon qualifies as a second source for the missile, the Army Missile Command plans a competition between McDonnell-Douglas Corporation, developer of the Dragon weapon system, and Raytheon for the Army's long term production requirements.

The Dragon program is managed at the Missile Command by Colonel John M. Shea, Project Manager.

Cold Water Right And Left

In the near future you'll find that a turn of a left-hand laboratory tap produces the same as a turn of a right hand one: Cold water.

Facilities Engineer is in the process of disconnecting hot water heaters serving rest rooms and

administrative and service areas at Redstone.

Hot water will continue to be supplied to places having a special requirement for it, including housing and after-work clean up areas.

Commission Allots Two Weeks For Changes

Benefit and premium rate changes effective in 1975 for the health insurance plans participating in the Federal Employees Health Benefits program have been announced by the Civil Service Commission.

An "open season" during which eligible employees may newly enroll, and employees and retirees already enrolled may change from one plan to another, or from self-only to family coverage, is scheduled for November 15-30. Changes made by employees and annuitants during the open season will take effect the first pay period in January 1975, the same time that the new benefits and premium

rates become effective.

Although premium rates for most plans will be higher than current rates because of rising costs of health care, most employees will actually pay less than they do now because a change in the health benefits law increases the Government's contribution from 50 percent of 60 percent of total premium, and because of lower-than-average increases the Commission negotiated with the Government-wide plans.

For example, an employee with family coverage under the Aetna high option will have his take-home pay increased by nearly \$71 a year as the result of a reduction in

premium amount withheld from his pay. Similarly those with family coverage under the Blue Cross-Blue Shield high option will realize an increase in take-home pay of nearly \$63 next year.

The Government's contribution to premium amounts to 60 percent of the average high-option premium for the six largest plans in the Federal employee program. These are Aetna, Blue Cross-Blue Shield, the National Association of Letter Carriers, the American Postal Workers Union, and Kaiser Northern California and Southern California Plans.

Contrary to premature published reports during the time that the

Commission was negotiating rate-benefit changes, Blue Cross-Blue Shield benefits for treatment of mental illness will not be reduced for 1975. An exception is a \$50,000 lifetime limit per person. Expenses will be imposed on supplemental benefits payable for covered care of mental illness.

However, there will be a change in Aetna mental illness benefits: for 1975, the number of outpatient therapist visits for which benefits are payable will be limited to 20 a year per person or twice that number if treatment is in a community health center. Inpatient hospital benefits remain unchanged.

Thus, the Aetna plan will con-

tinue to provide substantial outpatient benefits for acute mental and nervous conditions, with no reduction in benefits for necessary hospitalization. In any case, employees will be able to choose during the next open season between the full coverage under Blue Cross-Blue Shield and the more modest outpatient benefits under Aetna.

Another important benefit change is that beginning in 1975 Blue Cross-Blue Shield will no longer cover private duty nursing care for hospitalized patients. Aetna will continue to provide this benefit under the same conditions as it did previously.

Buckle Up

Get A "Thank You"

Redstone Military Policemen may be stopping you on the Arsenal during November and December without your being a suspect of wrongdoing . . . and if you are the driver and have on a seat belt you'll be presented a "thank you."

The "thank you" will be a tire gauge which would retail from \$2 to \$2.50.

It's a courtesy campaign to encourage the wearing of seat belts and will apply if you are driving a privately owned vehicle. Sponsoring organizations are the Security Division and the Post Safety Office.

The Safety Office dug up safety promotional funds for the tire gauges and the MP's will have the pleasure of giving out something people want for a change.

A real cooperative effort, the idea was suggested by the IG. "If you aren't buckled in, you won't get a ticket," a Provost Marshall Division spokesman said. "The purpose of the campaign is to encourage the wearing of seat belts by all personnel."

Army And Environment

Major Harold J. Hicks of the Missile and Munitions Center and School will speak on "The Army and the Environment" to the South Huntsville Kiwanis Club Thursday evening at the Ramda Inn on South Memorial Parkway.

Major Hicks, chief of maintenance in the Office of Logistics at MMCS, holds a BS in math from Jacksonville State University and entered the Army in 1962 through the ROTC program at Jax State. He also holds an MS in systems analysis from the University of Rochester.

During his Army career, he has served in a series of Ordnance assignments in Germany, Vietnam and the U.S.

He is a graduate of the Ordnance Officer Advance Course and the Command and General Staff College.

Pershing Still On Target

Two Army Pershing missiles were fired successfully Thursday at McGregor Range, just northeast of Ft. Bliss.

Seventh Army soldiers from Europe launched the 35-foot-long missiles which impacted on target at White Sands Missile Range.

Thus far, four missiles have been fired during the fall series of operational tests. Two were launched earlier in October by the 3rd Battalion, 9th Field Artillery from Ft. Sill, the support unit for all Pershing firings.

The Army is testing for the first time new equipment that cuts the Pershing reaction time almost in half.

The 400 mile range Pershing has been operational for almost 12 years with battalions in the United States and Europe and is a major part of the NATO nuclear shield.

AUSA Hears Dr. von Braun

Dr. Wernher von Braun will speak at the Fall meeting of the Tennessee Valley Chapter of the Association of the U.S. Army November 12 in the Officers Open Mess.

His address comes within 10 days of the 25th anniversary of the Army announcement that the team of rocket scientists led by Von Braun, then working at Ft. Bliss, Texas, would be relocated to Redstone Arsenal.

Many accounts date the beginnings of Redstone growth as a space and missile center to that announcement.

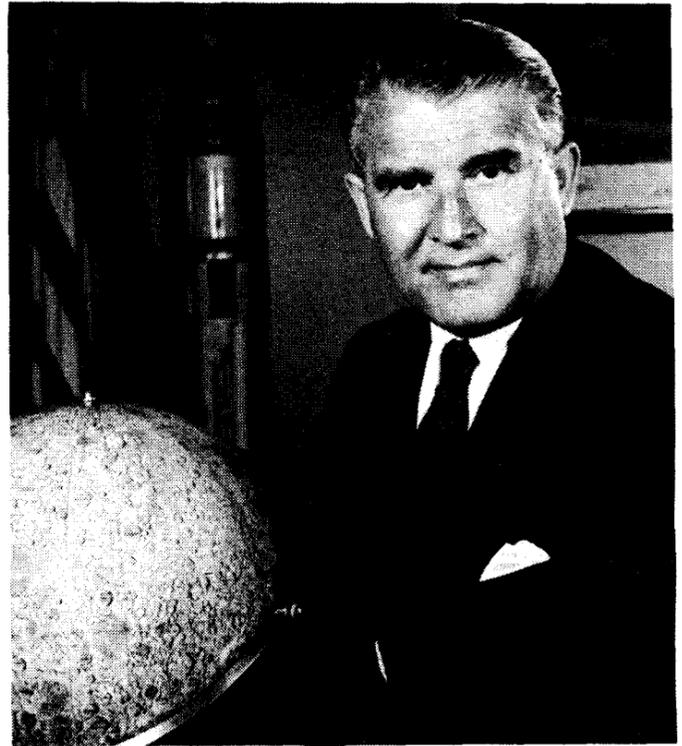

Von Braun and his group, key members of the team which developed the V-2, the first ballistic missile, moved to Redstone in the spring of 1950. They developed the Redstone and Jupiter ballistic missiles for the Army as well as the space vehicles which orbited America's first scientific earth satellite and launched our first successful lunar probe.

Transferred to the National Aeronautics and Space Administration by presidential decision, the space activities begun here under Army management continued in the Marshall Space Flight Center. Von Braun was named the Center's first director and served in that post throughout the 1960's. Launch vehicles developed by his organization carried the first men to the moon.

Von Braun is now Vice President for Engineering and Development of Fairchild Industries.

Tickets for the dinner and program are \$5 and may be obtained from Stacy Davenport (6-7135), Joyce Newton (6-3646), Pat Smith (539-6561), Avery Roan (533-5520), Fred Guest (895-2355 or Wanda Cospoer (895-4298.)

The event begins at 6:30 PM with dinner at 7:30 PM.

Dr. Wernher von Braun

Spot Bid Sale Set Next Week

There will be a local spot bid sale of government surplus property Thursday, November 14 in the Rocket Auditorium, building 7120. Registration starts at 8 and the sale begins an hour later.

The items for sale include: light fixtures, gas furnaces, motors, pickup trucks, tractors, bins, metal shelving and racks. Anyone can buy.

Property is located in building 7423 and at the Property Disposal Vehicle Yard on Warehouse Road. The items may be inspected each day excluding the weekend, between 8 a.m. and 3 p.m.

CONSERVING IS PERSERVING!

A miss-spelled word gets attention! As a little reminder that energy conservation is important business, Facilities Engineer is distributing stickers like the one shown here.

Armament Command

Field Office Set Up Here

The U. S. Army Armament Command has established a Cannon Launched Guided Projectile (CLGP) Field Office at MICOM, headed by Lieutenant Colonel John S. Farrington. Organizationally, this office will be co-located with the MICOM Missile Research, Development and Engineering Laboratory.

The new field office expands the guidance and control technical management capability of the CLGP Project Manager located at the Armament Command, Rock Island, Illinois.

Farrington has been the CLGP Liaison Officer at MICOM the past two years.

"As the CLGP program grows and goes from advanced into engineering development we anticipate our office staff will increase to seven, perhaps in about

a year. We are now authorized four people," Farrington said.

"MICOM support and coordination have been excellent. In addition to working with the research and development people at MICOM, we get support from the Product Assurance Directorate. As the program progresses, we'll need increased support from MICOM."

Personnel in the CLGP Field Office also monitor, evaluate and analyze guidance and control portions of Navy guided projectile programs.

CLGP is a 155mm shell with a laser seeker hardened to withstand the high G-launch from a 155mm howitzer. It is being designed to permit artillery to engage moving tanks and other hardened targets successfully with a first round kill capability.

MICOM Concept In Procurement

Government, MICOM, and industry leaders will gather at Redstone November 7 and 8 to discuss a new concept in the procurement and production field, design to unit production cost.

MICOM, a leader in the military services with this concept, will host the symposium, bringing together industry and government leaders to solve problems associated with the implementation and control phase of this concept.

The work of the conference will take the mode of case histories as presented by both government and industry spokesmen.

A dinner address will be given by

Captain Jim Rice, (USN), Assistant to the Director for Systems Acquisition Management, Office of the Secretary of Defense.

The keynote speech will be given by J. A. Muller, Chief of MICOM's Procurement Division. Other featured speakers will be Charles M. Scott, Chief of the Procurement Policy Division of the Army Materiel Command, and Dr. Pete Waterman, Special Assistant to the Assistant Secretary of the Navy.

Joe Huie, Chief of the Cost and Economic Information Systems Branch, will coordinate the conference and give a wrap-up address.

Heads EEO For Atlanta Region

The Atlanta Regional Office of the Civil Service Commission has elevated Lawrence E. Moore to the position of regional representative for the Equal Employment Opportunity program.

He replaced Frank Matthews this week. The latter has been transferred to the Regional Training Center.

Moore's principal responsibility will be to develop and maintain effective relationships with minority and women's groups. He will also provide leadership for the Federal EEO program to agencies throughout the Atlanta region including those at Redstone and in the Huntsville area.

An Air Force veteran, Moore began his Federal career in 1966 with Small Business Administration. He assumed a position as Personnel Management specialist at the Regional Office in 1972.

He attended Morehouse College and is a graduate of Georgia State University. Moore took his Master's degree from the Atlanta institution in Urban Administration and is presently pursuing a doctorate in political science there.

Bake 'n Take

The MMCS Officers' Wives will hold a "Take and Bake" sale at 10:00 a.m. Nov. 21 in the social room of the Post Chapel. Refreshments will be served.

"We're asking members to select their favorite cookie or cake recipe, bake it for the sale, and bring it along with a copy of that recipe," said Mrs. Paul Cowl, in charge of publicity for the club.

"This is a good opportunity to sample and collect new recipes," she added.

Ann Murray, 837-8895, will handle reservations from persons whose last names begin with letters A through L. Betty Willis, 837-4497, will register names M through Z. Reservation deadline is noon, Nov. 18.

CHAMPUS Benefits

Redstone Army Community Service is sponsoring a meeting of particular interest to parents of handicapped children November 13, at 7 p.m. in the library of the Post Chapel.

First Lieutenant Melvin Van Dyke, CHAMPUS Officer at the Redstone Army Hospital, will discuss CHAMPUS benefits available for military dependent children under the program.

After the presentation he will answer questions of concerned parents.

Showcase '74

In an air of pre-Christmas spirit, preparations are underway at the Pelican's Pocket, for Showcase '74 set for Friday and Saturday in the Recreation Center.

The fund-raising event features hand-crafted merchandise for sale with a percentage of the profits going to welfare projects. Quilts, candles, ceramics, dolls, baby gifts, jewelry and flower

arrangements are only a few of the items on display.

Consignment of goods for the sale began last week and continues until two this afternoon. All persons with first-quality, hand-made merchandise are urged to participate and bring their items to the Recreation Center.

Between Tradition And Espirit

(Continued From Page 1)

shouldn't be confused with either. It is, perhaps, made up of the men who embody both.

Men like Private Dan Daly, who defended a Marine post singlehandedly against several thousand Chinese troops in the Boxer Rebellion, armed only with a crude machine gun. Daly pulled off a similiar feat during World War I, becoming the only man to be awarded two Medals of Honor.

But the Marine's Marine, the epitomy of the Old Corps, would have to be a man named Lewis Puller. 'Chesty' Puller stories circulate in the Marine Corps like Paul Bunyon tales in a turn-of-the-century logging camp.

It is said that when Puller was told to form up a unit for Korea, his first recruiting stop was the brig. When his outfit was surrounded in the Keorean mountainside and was ordered to pull back, someone asked if he were retreating. "Retreat, hell!" said Puller, "We're just attacking in a different direction."

Puller wore five Navy Crosses on his chest (the Cross is the country's second highest award for valor), which makes the point that he was a tough customer, as tough as any of his troops. He earned one of the medals in the Haitian campaign, for example, by swimming upstream into the heart of the enemy's camp armed only with a knife. Once there

**"... Retreat Hell!
We're Just Attacking
In A Different Direction."**

he silently slit the throats of 13 sleeping enemy soldiers and then, clamping the knife between his teeth, swam quietly back to camp.

As tough as he was, Puller talked just as tough; which sometimes caused him to come to loggerheads with some of his less hardened contemporaries. In his later

years as a three-star, Puller lamented what he considered the plush accomodation of his Marines, feeling the men were going soft. "These men need exercise," he once said, "and I don't mean cutting the goddamned grass."

Say "Chesty Puller" to any Marine and you pull at the heartstrings of the Old Corps. This holds true for both enlisted men and officers (the majority of whom 'mustanged' from corporal and sergeant up to second lieutenant), because Puller was both.

It would be interesting to know how many newly commissioned second lieutenants recall Puller's comment on becoming an officer. "Now that I've got my commission," he said, "all I need is a war."

The Old Corps, then, isn't really a relative thing. That corporal could be talking about 1869 as well as 1969 and it wouldn't really make a difference.

The Old Corps is really a spirit. Like 'Chesty Puller', it is a hardness, inside and out. Why anyone should seek this out, maybe the Marines know.

Maybe the poet Carl Sandburg said it for them in "The People, Yes!". Here it is:

"To work hard, play hard, live hard and then die and go to hell after all would be too damned hard."

Happy birthday, Marines.

Arsenal Drivers Brave Accident Gauntlet

Many Redstone Arsenal drivers who commute through Huntsville run a gauntlet of hazardous intersections as they drive to and from work.

But once on the Arsenal, they seem to be on relatively safe ground.

These are the general findings of an informal study of data on traffic patterns and vehicle accidents from Redstone Arsenal authorities and the Huntsville Police Department.

The contrast between arsenal and city accident figures may arise from the two road networks involved, according to Captain Jimmie D. Lakey of the Provost Marshal's Office.

It wouldn't be fair to conclude that the difference lies with the law enforcement agencies involved, he said.

"We on the arsenal enjoy a pretty good road network, and it's the kind that's difficult to engineer in a city," he said.

The two roads that carry the bulk of commuter traffic to an from MICOM and MMCS are Patton Road, a north-south artery; and Martin Road, running east and west.

"Where those two roads cross is one of our most heavily traveled intersections, and we have a cloverleaf exchange—it's good for handling the peak traffic volumes mornings and afternoons," said Lakey.

REVERSIBLE LANE

Use of a reversible middle lane on the northern portion of Patton Road between Gate 10 and Neal Road on the Arsenal affords two lanes inbound or outbound during rush hours.

Martin Road, normally a two-way route, becomes two lane one way inbound or outbound during peak commuting hours for agencies on the south end of the installation.

"The city of Huntsville doesn't have these advantages, and they would be difficult to work out at best," Lakey said.

Tue rush hour traffic patterns in the city are far more complex than those on the Arsenal, he added.

"For rush hour traffic control

operations, our prime mission is to get the working population onto or off of Redstone Arsenal in the safest and quickest manner possible," Lakey said.

To accomplish that, members of

Policemen who direct traffic during the traffic volume peaks, which may last for just minutes. Some MP's leapfrog to other traffic control points as the traffic volume decreases after its peak.

"We don't have enough accidents at any intersection to plot any trends or patterns," said Lakey.

"Redstone enjoys a few other advantages, too," said Jerry Breedlove, a traffic program specialist for Military Police Operations.

"Rush hours for each agency are brief, and staggered duty hours are in effect all over the Arsenal," said Breedlove.

This breaks the commuting volume into smaller "chunks" that are easier to handle, he said.

TRANSIENT TRAFFIC

"In addition, most of the drivers on Arsenal roads during the rush hours are employees who are intimately familiar with their route and its traffic control devices. The volume of transient traffic, which would include drivers who do not often come to Redstone, appears to be quite low in the early morning and late afternoon hours," he said.

Meanwhile, heavy commuting traffic in the city can last for more than two hours morning and afternoons. At the same time, through traffic pours through the city on major commuting arteries.

As a result, key streets and intersections handling high traffic loads are the scenes of a major share of traffic accidents in Huntsville.

Many of these streets and intersections are traveled by Redstone Arsenal employees.

Those who leave Redstone via Martin Road and turn north on the Parkway pass a handful of intersections with 15 or more accidents since the beginning of the current year.

Airport Road has been the scene of 16 mishaps through the first week of October. Reports surveyed did not indicate how many involved

drivers were employed at Redstone.

The accident tally climbs and then tapers off at intersections along the way to the north end of the city.

Drake and the Parkway, once the leading scene of accidents in the city, shows 20 during the current year. An overpass recently completed at that corner may be the cause of the decline in accident rates there.

The corner of Bob Wallace and the Parkway has been the scene of 37. At Governor's Drive, the count is 44.

Heavy traffic volume at Wheeler Ave. (26), University Drive (45), Oakwood Ave. (37) and Mastin Lake Road (27) may be a factor in high accident rates at those intersections.

OVERPASS

An overpass at Bob Wallace and the Parkway is now under construction, with completion scheduled for within 300 working days after the contract was awarded by the State Highway Department.

On the calendar, that could mean completion in 12 to 20 months from now, according to an employee of the contractor handling the job.

Traffic will be detoured through

the construction zone while work is in progress.

University Drive was recently extended southeastward to Wheeler Ave., and the intersection of University and the Parkway was upgraded with double left-hand turn lanes and a new traffic control light system.

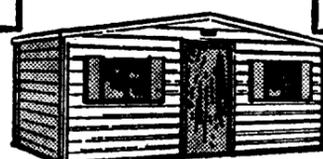

Some Redstone Arsenal drivers run a gauntlet along Jordan Lane between Bob Wallace Ave. and University Drive. Driving north, they cross Bob Wallace with 22 accidents for the year, Governor's Drive (41), Holmes Ave. (23) and the city intersection with the most reported accidents, University Drive and Jordan Lane (54).

Arsenal employees may not always be able to avoid streets and intersections with high accident rates. At a time when fuel supplies are marginally adequate, any efforts to conserve fuel almost dictate the shortest and most direct route for all travel. But an awareness of potentially hazardous points along the route may put drivers on their guard.

And with thousands of alert drivers behind the wheel in Huntsville, fewer may be touched by the inconvenience, expense or tragedy of motor vehicle accidents.

COMMERCIAL - RESIDENTIAL - FARMS - ESTATES - BUSINESS LIQUIDATIONS

Staff Sergeant Danile F. Brennan, Jr., of the Hazardous Devices Division at MMCS was selected last week as Instructor of the Quarter for the school.

Assigned to Explosive Ordnance Disposal since 1968, Brennan teaches a portion of the Hazardous Devices course taught at MMCS under funding from the Law Enforcement Assistant Administration.

He's a veteran of five years on the teaching platform.

"The Hazardous Devices students are highly motivated, and usually attentive," Brennan said shortly after his selection.

Part of that attentiveness may be due to Brennan's presentations. He impresses a board of seven members of the MMCS staff and faculty enough to earn the top instructor honor.

"I try to give my students the benefit of all the information and experience I have, and the other instructors try to do the same thing, said Brennan.

Practical exercises are a big part of the course.

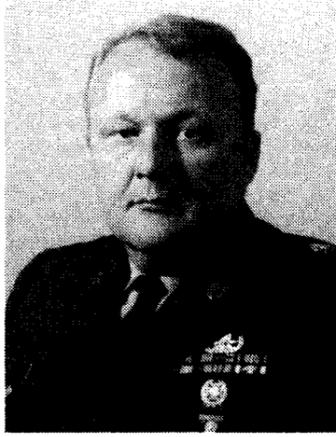

"In some specialized fields, demonstrated performance by the student in a practical exercise can be of more value than the written tests in the course," he explained.

But the practical exercises in the Hazardous Devices course involve more than developing manual dexterity, he says.

The 32-year-old sergeant joined the Army on graduating from San Mateo (Calif.) High School in 1960.

"I had decided that life had to include more than the classic pattern of graduating from high school and getting married," he said.

As Brennan was growing up, he

BRENNAN

and his family were somewhat mobile. His father, a sales representative with a food products company for many years, changed locations from time to time.

The Brennan family had lived in New York, Chicago, Seattle and San Francisco by the time Sergeant Brennan graduated from high school. He found he had grown to enjoy mobility.

So he joined the Army, serving in a handful of assignments in the U.S. and Southeast Asia.

He and his wife, Siriphon, live on the Arsenal with their four children.

The Association of the U.S. Army presented Brennan with a three-year membership in the organization, a \$25 U.S. Savings Bond and a plaque marking his achievement.

Suggestions Profit MICOM Employees

MICOM employees produced \$10,380,826 in first year measurable benefits through their 2,122 suggestions submitted during FY-74.

Employees received \$22,300 in awards for their achievements in the program.

The MICOM accomplishments represent almost 42 percent of the total amount of measurable benefits realized by all Army Materiel Command installations and activities.

Berney Waite, chief of the Employee Relations and Incentive Awards section of the Civilian Personnel Division, said MICOM can maintain its good records only if every employee, supervisor, director and office chief continued supporting the suggestion program.

"We've also met our goals in the past through such techniques as Suggest-A-Ramas, Suggestion Days and Suggestion Weeks," Waite said. "I anticipate these techniques will continue to be successful."

"Goals were assigned by a letter from the Chief of Staff dated August 24, addressed to the chief of each MICOM organizational element."

He pointed out that there are ways other than the suggestion program to recognize employees' achievements and contributions such as appropriate honorary or cash awards.

In addition to Outstanding Performance Ratings, Quality Increases, and Sustained Superior Performance awards employees

may also receive cash through Special Act of Service awards granted for performance exceeding job requirements as a one time occurrence.

"There are also honorary awards available through which employees can be appropriately recognized, and are fully described in Army regulations on incentive awards."

"These have specific criteria demanding high levels of achievement and tend to recognize service over a long period of a career," Waite said. "In many instances, the nomination of an employee must include a history of

previous awards received by the nominee.

"Because of these factors, nominations for these top honorary awards are submitted in response to special announcements publicized by the Civilian Personnel Division whenever an award is to be presented. Supervisors should be alert to these opportunities to recognize their employees."

The Incentive Awards program is administered by the Civilian Personnel Division. For further information or assistance relative to any aspect of the program, contact Waite or Mary Grimes, executive secretary, at 876-4135.

Athens College Classes On Post

The Army Education Center is offering seven courses through Athens College beginning November 21.

History II (HY 152) and Old Testament (RE 320) will be taught Mondays; Industrial Psychology (PS 365) and Business Statistics (BU 305) Tuesdays; Financial

Management (BU 415) Wednesdays; and Accounting II (AC 231) and Economics II (EC 223) Thursdays.

Pre-registration is open now and continues through Nov. 15 at Bldg. 3484. Registration will be from 4 p.m. to 6 p.m. Nov. 21, also at 3484.

Brings MICOM And Industry Together

Emery L. Adkins has been named Technical Industrial Liaison Officer for MICOM. He is the contact point for firms sending in unsolicited proposals for work related to missile development, or those wishing to find out whether or not MICOM has requirements for work within their capabilities.

The plan for contact with the industrial community supporting MICOM research and development was implemented at Redstone by Dr. John L. McDaniel, director of the Missile Research, Development and Engineering Laboratory (MRDEL).

Assigned to the Advanced System Concept Office in MRDEL,

Adkins says he is visited by an average of five contractor representatives a day.

"We have unsolicited proposals evaluated by the appropriate element of our organization, then reply to the contractor within 30 days," Adkins said. "If the proposal results in something that would fit our needs, and we have the funds, we buy it." During the past year MICOM logged in approximately 150 unsolicited proposals sent directly to Adkins' office.

Technical Industrial Liaison Officers are being appointed at each subcommand of the Army Materiel Command to improve relations and communications with industry.

Missilemen, Fourth Rule Their Divisions

By Dave Cowan

It turned out to be one of those seasons last week in the RSA Flag Football League—probably the most contested finish in recent years—as four playoffs determined a divisional champ and second, third and fourth place teams in both league divisions.

Almost everyone but the supercool folks from MCIOM, who captured their division easily in the East, had to settle their differences for the final league standings and a berth in the upcoming playoffs that got underway Monday night.

The crucial battle developed in the Western section of the league with four of five teams jockeying for playoff berths and the divisional championship.

The 4th students overhauled the 8th for the crown, while the 291st MPs whipped the 7th SC to take fourth in the final league standings. Meddac wasn't involved in a playoff game. They took third with a 9-5 record—two games behind the 8th students.

THURSDAY

In playoffs last Thursday night, the 4th students whitewashed the 8th, 14-0; 291st MPs blanked 7th SC, 6-0; 6th SC shut out the Marines, 6-0; while Company B beat Company A, 14-2.

The 8th never got started against the 4th. The lower-numbered unit took a 6-0 lead in the first half on quarterback Cornelius Williams 35-yard TD pass to James Carter.

The 4th chalked up the win in the final half when Stephen Hudson intercepted a Jim Johnston pass for a 60-yard return and a touchdown. Williams hit Kelly Jordon in the end zone for the PAT.

Quarterback Johnnie Lee hit Oral Alsbrooks on a 15-yard pass for a TD to give the 291st MPs a 6-0 win over the 7th students. The MPs, who lost their first four games, finished the season with a 6-9 record.

The 6th students took second place in the Eastern division of the league with their win over the Marines.

Student quarterback Stanley Woods fired a 6-yard pass to Ronald Danko for the only score of the game. The students upped their

mark to 8-7, while the Marines dropped to third with a 7-8 slate.

Because Company C forfeited out of the league, Companies A and B met in the final playoff game.

The B's came out on top with a 14-2 win as quarterback Donald Purser hit John Riecke on a 60-yard pass for a TD, while Riecke took another pass from Purser for the PAT.

Purser found Dave Walker open in the second half for a 50-yard TD bomb. David Best nabbed Purser for a safety in the first half for the A's only tally.

WEDNESDAY

In Wednesday's action, Company C forfeited to the Marines; 6th SC stunned Company B, 26-6; 8th SC edged the 291st MPs, 8-0; while Company A forfeited to MICOM.

Stanley Woods and Marshall Goodman ran for TDs, while Ron Danko passed for two as the 6th SC easily beat Company B.

The students took an 8-0 lead in the first half on Woods nine-yard run, while Bruce Kirk added the two-point conversion. In the final half, the 6th chalked up three more TDs.

Goodman rambled 40 yards for a score, while quarterback Danko hit Emerson twice on 22- and 10-yard

passes for TDs. The B's lone tally came on a 30-yard pass from quarterback Donald Purser to Randy Hiedt.

Leo Mayhue grabbed a safety and then took a 55-yard pass from quarterback Tom Johnston for a TD as the 8th students posted a 8-0 win over the 291st MPs.

TUESDAY

Company C forfeited to Company B; MICOM nipped 6th SC, 12-6; Marines blanked Company A, 8-0; and the 4th students registered a

Dependent Youths Rout Madison

The RSA Saints chalked up 321 yards offensively and their sixth straight victory with a 32-0 win over the Madison Colts in a Pop Warner contest Oct. 26.

The Saints have rolled over their

TOUCHDOWN—Saint fullback Kyle Rose outruns tacklers for a 15-yard TD run against the Madison Colts last Saturday. The Saints won 32-0. (Photo by SSG Greg Prior)

14-0 upset over Meddac Tuesday night.

Jeff Perrin's 30-yard run for a TD was the winning tally for MICOM against the 6th students. The score came after both clubs ended the first half deadlocked at 6-6.

Student Stanley Woods scored for the 6th on a three-yard run. Missileman Art Perrin set the stage for brother Jeff's game-winning score with a 40-yard catch from quarterback Mike

opponents at the rate of 31.6 points per game, while their defense has held their opposition to 5.3 points per contest.

In their latest victory, Robin Harris and Bobby McEvoy rambled for 196 and 118 yards, while Colt fullback Kirt Harder grabbed 90 yards in 18 rushes.

The Saints started the scoring in the first quarter on a five-yard run off tackle by Harris. Halfback McEvoy on an end around sweep ran 41 yards for the Second Saints TD after Richard Rodriguez' pass interception.

Leading 12-0, Saint fullback Kyle Rose found running room up the middle behind the blocking of Gerald Cantrell, Sammy Long and Billy Holloarn and raced 51 yards on the first play of the second half.

McEvoy scored the Saints fourth TD with a 41-yard spurt on a pass reception from quarterback Rodney Dinkel, while record-setter Ron Bentley kicked the successful PAT.

Fullback Harris set a North Central Alabama Pop Warner record with his second TD of the day. On their own seven-yard line, Harris broke tackle and rambled 93 yards for the Saints' final TD.

The Colts mustered one good drive to the Saints four-yard line, but the Arsenal youths' defense held and took over on downs.

Saints

The RSA Saints, led by Bobby McEvoy's two touchdowns and 175 yards rushing, rolled over the Madison Colts 32-0 in a Pop Warner contest last Saturday.

The Saints' speedy offense,

Spry for a first-half touchdown.

Joe Broswell ran 60 yards for a TD, while R. R. Cromwell added the PAT to give the Marines an 8-0 win over Company A.

Meddac's chance for a divisional crown in the West failed as quarterback Cornelius Williams fired two TD passes of 20 and 25 yards to Donald Jackson and James Whitfield for a 4th victory over the medical team.

averaging 32 points per game, had trouble scoring against the Colts early in the game — both clubs ended the first quarter scoreless.

However, Saint Bobby McEvoy raced 59 yards on their first possession of the second quarter for a TD. Quarterback Rodney Dinkel later plunged into the end zone from the one-yard line to give the Arsenal team a 12-0 halftime lead.

The Saints increased their lead on the opening kickoff of the second half when Madison fumbled the boot. On the first play from scrimmage, McEvoy nabbed a pass from Dinkel and raced 27 yards for the score. Ron Bentley successfully kicked the PAT.

The Arsenal youths took a 26-0 lead later in the quarter when Dinkel ran a triple option play for his second TD. The Saints' final score came on a 15-yard scamper by fullback Kyle Rose.

The Saints picked up 300 yards offensively, while the Colts, led by fullback Mike Sketers with 44, gained 82 yards — only five of them coming in the second half.

Madison's offense was halted by a strong Saints defense led by linebacker John Doane with 12 tackles.

Both teams will compete in post-season bowl games later this month. The Colts will travel to Florence, S. C., while the Saints journey to Castonia, N. C. to compete in the Little Pumpkin Bowl.

One Win After Two Setbacks—

Redstone Five Taking Shape

By Dave Cowan

Cullman, Ala.—Fourth quarter "blues" continue to plague the Redstone Arsenal basketball team as they dropped their second straight game last Sunday here to the Cougars of Cullman Junior College, 104-80.

The Cougars jumped off to a 29-22 first period lead with the help of center Bob Tubbs, who sank 10 points.

Cullman took a 52-42 halftime lead on the strength of rebounding, although Fred Morgan netted 14 for the Rockets.

The Rockets closed within five points of Cullman late in the third stanza, 76-71, but poor passing and several missed layups put the Cougars 12-points ahead.

Tubbs sank 21 points, while Joe Tueburris, Glenn Edwards, Cliff Keller and Maurice Fields nabbed 14, 16, 13 and 12 respectively for the Cougars. Willie Rice led the Rockets with 17, although he missed nearly the entire first half of the game. Other Arsenal scorers were Art Perrin and Morgan with

16 each, while Richard Mitchell grabbed 10.

Ft. Campbell 97 Rockets 80
Ft. Campbell, Ky.—A well-balanced shooting attack failed to produce a win for the Redstone Rockets when they dropped a 97-80 game to the Campbell Eagles last Saturday here.

The Rockets put six players into double figures, but couldn't handle Larry Varnedoe of Campbell—a former Third Army all-star. Along with his stealing tactics, the speedy guard led the Eagles with 18.

Campbell took a 24-23 lead at the end of the first quarter. It was a see-saw battle during the next period as both clubs ended the half deadlocked at 50-50.

The Rockets had a golden opportunity in the early minutes of the third stanza. Leading 55-50, Redstone missed two easy layups.

The missed shots along with several questionable foul calls turned the game completely around for the Eagles. In the next four minutes, the Eagles went

from a five-point disadvantage to a 13-point lead, which they held for the remainder of the game.

Charles Turner and Joe McFarland followed Varnedoe in the Cougar's scoring with 17 and 10, while Kermit Crawford led Redstone with 17; followed by Willie Rice, Richard Mitchell and Art Perin with 13 each. Ray Smith and Fred Morgan rounded out the Rocket's scoring with 11 each.

Redstone 75 Hibbetts 54
The Redstone Rockets, behind a strong offensive attack, got their first basketball win last Wednesday when upended Hibbetts Sporting Goods in Huntsville, 75-54.

Flying Club

The regular monthly meeting of the Redstone Flying Club is slated for Thursday evening at Toftoy Hall starting at seven.

Winter flying will be discussed and a film will be shown.

All present and prospective members are encouraged to be present for the meeting.

The win followed an early 81-60 loss to Calhoun Junior College on the opening night of the exhibition season, which pits Redstone against local teams and numerous colleges and universities throughout Alabama and parts of Tennessee and Georgia.

Hibbetts jumped off to a 6-2 lead early in the game, but the Post team came back to notch the score at 8-8 minutes later. Richard Mitchell put the Rockets out in front 10-8 on a 15-foot jump shot. From then on out, Redstone extended their lead; taking a 38-29 halftime advantage.

(Youths Con't from Pg. 8)

Rams

The RSA Rams captured the 10 to 12 year-old division crown in the Pop Warner Football League with a 41-0 win over the Madison Jets on Oct. 21.

The loss-free champions move now to Gastonia, N. C. where they will represent the North Alabama Pop Warner League in the Pumpkin Bowl.

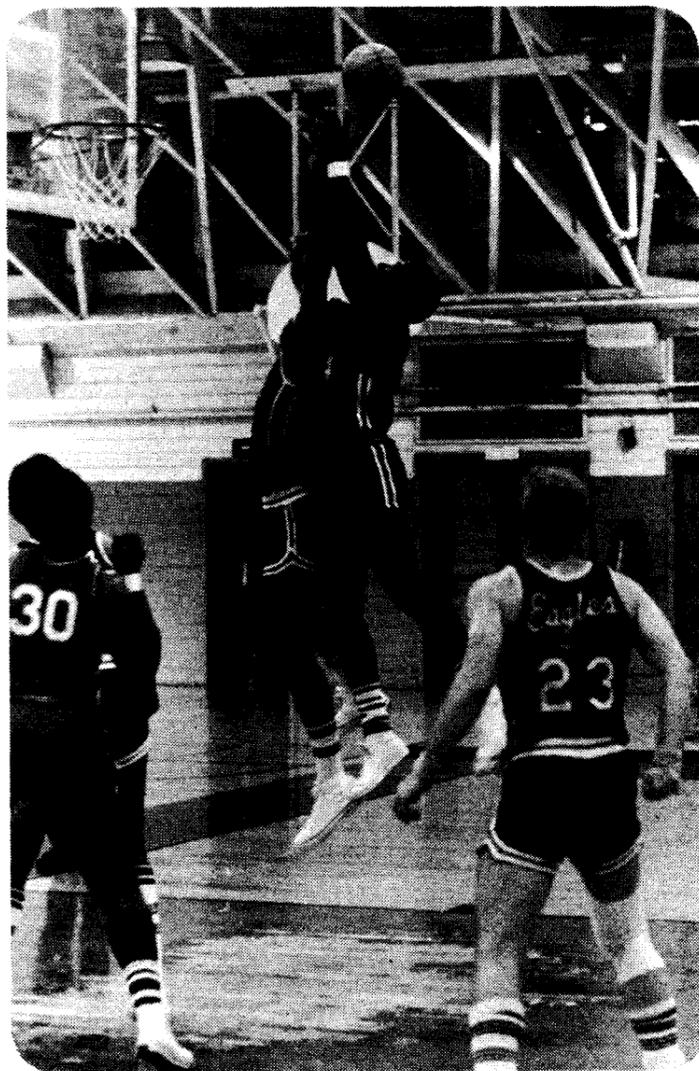

The Rams won their division easily over the Jets, rolling up 204 yards offensively. The Arsenal youths jumped off to an early lead when defensive guard Fritz Griebing recovered a Jet fumble and raced 30 yards for a TD.

The Rams took a 13-0 lead at the end of the first quarter on halfback Mark Archuleta's 14-yard run.

The Rams added two more TDs in the second period. Archuleta scored both on a 38-yard run and a 14-yard pass from quarterback Kevin Berry after Ronnie Charles pounced on a Jet fumble. Tracy George kicked the PAT to make it 27-0 at halftime.

An early third period fumble by the Jets led to another Ram TD. George scored on a power play up the middle and also added the successful PAT.

A 20-yard run by George

REBOUNDS—Forward Kermit Crawford (24) outjumps Campbell player for a rebound in a game against the Eagles last Saturday at Ft. Campbell. The Eagles won 97-80.

Hibbett's Glenn Garrett, an all-Southeastern Conference (SEC) star at the University of Alabama, had the sporting goods team moving in the early going until Redstone applied a tough zone defense.

Garrett was held to 10 points, while Tom Barby led Hibbetts with 15. For the Rockets, Willie Rice and Ray Smith had 12 and 10, while Fred Morgan, Kermit Crawford, Mitchell, Ron Castine and Morris Rooker netted eight each.

set up another TD in the final quarter for the Rams as Jeff Hodge carried the pigskin eight yards for the score.

YeZZi and Charles with seven and four tackles respectively, allowed the Jets no first downs and backed them 24 yards into the minus column in rushing.

(Periodically volunteers in the Dependent Youth Activities program will be featured in the Rocket. Features this month are the football and cheerleading coaches for the 1974 season.)

BARBARA AIKEN

Dependent Youth Activities director Joe Hopkins says Barbara Aiken is a Georgia Peach when it comes to DYA programs.

Aiken is currently heading two jobs in this year's program. She's a Girl Scout leader and coaches cheerleaders for the 80-pound Lions. She is a native of Jackson, Ga.

She previously served as a Girl Scout leader and an American Youth Activities advisor in Germany and a Boy Scout committewoman at Fort Dix, N.J., and in Georgia.

In addition to her work with DYA, Aiken is a substitute teacher for Madison Pike, Westlawn and Ridgecrest schools in Huntsville. Her husband, MAJ William R. Aiken, is assigned to the Redstone Readiness Group.

DENNIS YATES

SP6 Dennis Yates of the Missile Maintenance Branch at the Missile and Munitions Center and School has been coaching football and baseball in the DYA program for the last two years at Redstone.

The Texan from Lewisville has coached football and baseball. This year he managed the 80-pound Chiefs, who took second place in the Junior Pee Wee Division of the Pop Warner Football League.

JUDY CHANCE

Judy Chance, who is working towards a master's degree in special education at the University of Alabama in Huntsville, still finds time to coach a group of cheerleaders for the 120-pound RSA Saints.

Last year in the DYA program, Chance served as cheerleader director.

A native of Gadsden, Ala., she has coached drama in youth programs at Colorado Springs. She enjoys good books, movies and travel and has special interest in horseback riding, Red Cross work, water skiing and all spectator sports.

TERRY CHANCE

Judy's husband, SP5 Terry D. Chance of Recreational Services, also participates in the DYA program as the head coach of the 120-pound RSA Saints football team.

The 31-year-old specialist coached football and baseball in Colorado, South Carolina and Georgia. His football team in

Florence, S.C., captured a district championship.

Chance has managed the Babe Ruth All Stars in Huntsville for the last two seasons. He is from Port Arthur, Tex., and has been at Redstone two years.

BETH GRIEBLING

Although she has no daughters, Beth Griebing is coaching a group of girl cheerleaders for the 95-pound RSA Rams. It is her first experience with the DYA program.

Griebing is a native of Tiffin, Ohio, and a former Cub Scout den mother.

Her husband, MAJ Harry W. Briebing, is the assistant chief nurse at the U.S. Army Hospital here.

NANCY HUDSON

Nancy Hudson, a Providence, R.I., native finds the southern climate makes her duties as cheerleader coach for the RSA Chiefs football team easier.

This is her first year in the program. Hudson was previously a Girl Scout committee mother in Germany for two years.

She is married to MSG Jimmy A. E. Hudson, an 18-year Army veteran, who is assigned to the HAWK Division at MMCS.

CIPRIANO P. ARCHULETA

MSG Cipriano P. Archuleta was in his third year of coaching football for the DYA program when he was transferred to Fort Gordon, Gs., last week.

Archuleta, who hails from Las Vegas, N. M., coached the 95-pound RSA Rams before his departure.

ROBERT HARRIS

A veteran of three years of football coaching in the DYA program, Robert Harris is managing the 80-pound RSA Lions this season.

Formerly of Tuscaloosa, Ala., Harris is a program analyst in the Planning and Analysis Office at the Marshal Space Flight Center.

JULIAN BERRY

For eight years, CW Julian Berry has served in practically every position of the DYA sports program.

Presently director of RSA football and assistant coach of the 95-pound RVAMS, Berry previous coached and officiated football and baseball.

He has also directed T-Ball, football and baseball programs.

The Washington, D.C., native is assigned to the Communications Command Agency here.

NEW LOCATION

Looking for the Game Warden?

You can find him at Building 8009, that's across from Fire Station No. 5 at the intersection of Buxton and Shields roads.

The office moved recently from its former location at the entrance to Range No. 1 just off Patton Road.

The telephone number remains the same: 6-7590.

Pidcock Leads Pistol Squad

SSG Thomas J. Pidcock, assigned to the veterinary clinic of MEDDAC, has been named captain of the Redstone Pistol Team. Pidcock succeeds SFC Pete Alley, who has received orders for reassignment.

"With my departure and another team member's ETS, the team has immediate vacancies for interested persons," Alley said.

Permanent party soldiers who wish to try out for the Redstone team may contact Pidcock at 876-2441.

The team participates in nearly 30 pistol matches each year against pistol teams from within a 150 mile radius.

The shooting season finale includes competition at the First Army championships each April at Ft. Meade, Md.

Permanent party soldiers who wish to try out for the Redstone team may contact Pidcock at 876-2441.

College Knowledge Leads To Degree

Twenty-five local men and women, including a number from the Missile and Munitions Center and School, were awarded associate degrees by the New York State Board of Regents during September.

The Redstone Arsenal degree recipients were among 669 who received degrees through the Regents' external degree program during the year.

"A number of those who received degrees never attended college classes. They passed college equivalency examinations or completed military education courses to meet degree requirements," said Charles Owens, Army Education Officer at Redstone.

The External degree program is designed to allow persons to earn academic credit for what they know, regardless of how that knowledge was acquired. Associate and bachelors degrees are awarded.

Candidates take examinations to find how much "college knowledge" they may have gained through experience or informal study.

In addition, credit for academic work at accredited institutions may be applicable to fulfill degree requirements.

The external degrees are conferred by the University of the State of New York, the oldest state educational agency in the nation. It was established by the New York state legislature in 1784.

The institution has no buildings or teachers of its own, but its members are drawn from faculties of colleges throughout the state.

Redstone Arsenal personnel who earned degrees on their own or through the Army Education Office are:

Associate in Science graduates: Solon L. Cole, Robert Davidson, Richard L. Elkinton, Thomas H. Perry.

Associate in Arts graduates: Harry E. Beemer, Charles M. Blackwell, Dorene H. Bradley, Gilliam Carpenter, James P. Corbett, David G. Fronius, Harley J. Gray, Robert E. Hannaway, Robin R. Hauck, Kenneth W. Ille, William P. Moran, John T. Mathieu, James J. Putbresi, Beverly L. Ross, Arlan E. Rounds, Mark H. Schultz, Stephen D.

Tackett, James W. Wasmund, Hubert M. Williams, Charles S. Willis, Howard R. Raymond.

The University of the State of New York has jurisdiction over every educational endeavor in New York state, including schools from elementary through the university level, libraries, museums, historical societies, and other similar activities.

The external degree program began in 1972 as an outgrowth of the Regents' College Proficiency Examination Program. The program is funded through the Carnegie Corporation, the Ford Foundation and the Kellogg Foundation.

Those pursuing associate in science degrees through the program must earn at least 60 semester hours distributed among the humanities, the social sciences and mathematics or natural sciences, to include up to 30 hours of electives.

An associate in arts degree through the program requires 60 hours, of which at least 48 hours are in the liberal arts, social sciences and natural science or math. The remaining 12 credits are available for electives.

The Regents External Degree program also offers an associate's degree in applied science in nursing.

NEW WARRANT—Swearing in ceremonies for WO1 George Wilson were held late in October with Colonel James Walsh presiding. Wilson is assigned to the 95th Service Company with duty assignment in the Field Operations Section of the Army Metrology and Calibration Center. He will leave Redstone for a tour in Okinawa in March 1975.

Stinger Given Close Look

Army, industry and Marine Stinger will be an all-arms Corps representatives gathered at the Missile Command this morning to take a close look at progress being made on the Army's Stinger air defense system.

"We're reviewing every aspect of the Stinger program," said Colonel David H. Souser, Stinger Project Manager at the Missile Command who directs development of the plane killer for both the Army and Marine Corps.

"We want to make sure that everything is happening that is supposed to happen and that everybody is on schedule."

The program review will terminate on Thursday.

forces immediate air defense wherever they have to fight. Using the latest infrared technology, Stinger will be able to counter more sophisticated aircraft threats.

OWC Bazaar This Weekend

The Recreation Center will host the 1974-75 officer's Wives Club Annual Bazaar sale in the Big Lounge on Friday and Saturday, starting at 10 in the morning, each day.

All enlisted personnel, their family and friends are invited.

Valley Scouts In Arsenal Roundup

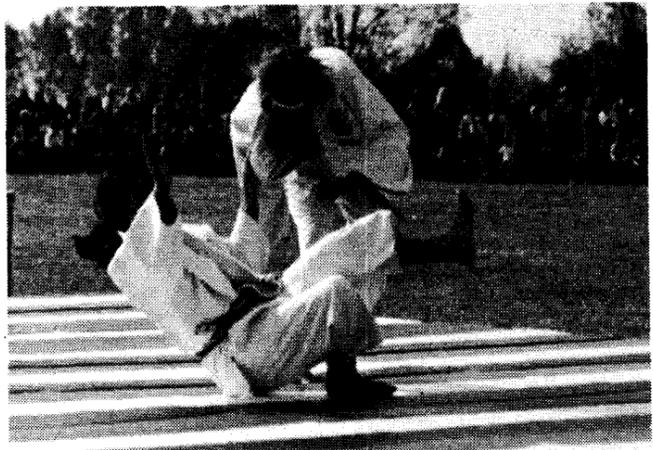

Thousands of lively scouts and their harried leaders assembled at Redstone Arsenal last weekend for the 1974 Roundup

awards ceremony.

Major General Vincent Ellis welcomed the enthusiastic group who earned the trip to the event

by reaching Roundup goals. More than 2,500 boys have been added to the rolls of scouting in the Tennessee Valley Council.

This year's roundup theme was safety, and the Redstone Fire Department emphasized the theme by fire fighting demonstrations. Other Arsenal related organizations performing for the scouts include the Dependent Youth Activities which featured a judo team, the 55th Army Band, the Missile & Munitions Center & School which featured missile systems, and the 291st MP Company.

SCOUT ROUNDUP JUDO

ADP Council Convenes Here

MICOM will host the fall meeting of the Automatic Data Processing Council of the Southeastern States November 14 and 15 at Huntsville's Carriage Inn.

Program Chairman for this meeting is Dean Popkins, ADP Security Officer of MICOM Major General Vincent H. Ellis will welcome the delegates Thursday morning to two days of discussions and presentations centering on the theme of ADP Security and

Privacy of Personal Data Files.

Walter Haase of the Office of Manpower and Budget, General Services Administration, will give the keynote address, "Security, Privacy, and Administrative Responsibility."

Other top Federal officials will give presentations covering pending legislation, Federal Regulations, and committee findings on the Right of Privacy.

Joint AIA/NSA Meet This Month

MICOM's Product Assurance Directorate will host the fall meeting of the Joint Aerospace Industries Association / National Security Industrial Association Nov. 19 and 20.

Theme of the meeting, to be held in Bldg. 5250, will be "MICOM Storage Reliability Program."

Attendees will include quality

assurance managers and directors from the Army and industry. The joint efforts serve to strengthen communications with industrial firms.

While here, the group will tour MICOM's new Advanced Simulation Center and will gather one evening for a dinner at the Redstone Arsenal Officers Open Mess.

NAMES IN THE NEWS

By SP4 FRANK HARRIS

PVT Mary Martin has arrived for her first Redstone tour and is assigned to Co. C and will work as a clerk typist at First Bn. Headquarters.

She was employed as a waitress in Madisonville, Ky., before entering the Army in 1974.

PVT Donald L. Smith came to Redstone on a guaranteed station of choice enlistment. He is also assigned to Co. C with duty as a clerk at S-1, School Brigade.

Hailing from Danville, Ala., he graduated from high school there before entering the Army earlier this year.

SP5 Morgan R. Ware recently re-enlisted and collected a sizable bonus for the six years he added to his Army career.

FOSNIGHT ALEXANDER

PROMOTIONS

CPT Gayln B. Alexander, Jr., was recently promoted to his new rank. He is assigned to Co. B with duty as unit coordinator for the EOD Division.

A native of Union City, Tenn., Alexander graduated from the University of Tennessee with a BS in education before entering the Army in 1970 under the ROTC program.

CW1 Roy E. Fosnight, was recently appointed to his new rank at School Brigade Headquarters.

Fosnight, an instructor assigned to the HAWK Division, has been in the Army since 1966.

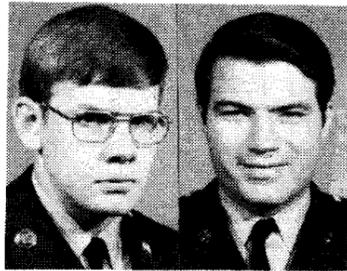

He is a graduate of S. R. Butler High School, Huntsville and a native of Pulaski, Tenn.

He is being re-assigned to Korea.

Boston-based recruiter SSG Donald E. Harvey spotlighted a MMCS student for his GT score of 160 in this week's Army Times.

PVT Paul K. Shier of the 4th Student Company, a four-year enlistee, earned the maximum score.

Shier, at Redstone since mid-September is taking the 15-week Lance Missile Repairman Course. Lance repairmen are trained to care for the complete missile system, a concept unique in missile training.

SMITH WARE

Ware, a HAWK Pulse Radar Repairman, is assigned to Co. A and works in the Maintenance Division, Office of Logistics.

PROMOTIONS

Captain Gaylon B. Alexander, Jr., was recently promoted to his new rank at Redstone Arsenal.

Alexander is assigned to Co. B with duty as Unit Coordinator for the EOD Division.

A native of Union City, Tenn., he graduated from the University of Tennessee with a BS in education before entering the Army in 1970 under the ROTC program.

Carolina Group On Center Stage

The Harlem Revue, a show band from North Carolina heads the list of entertainers appearing at the Recreation Center on Sunday.

The Revue, has appeared at many college campuses and various functions, throughout the south and are quite popular with

fans every where. The group recently completed tours on both coasts.

Enlisted men may invite or bring guests to all stage shows at the Recreation Center. Show time is eight.

FARM ANTIQUES LIVESTOCK
ON THE PREMISES

Located 3 1/2 miles north of Fayetteville, on Highway
231 North.

The farm contains 41 acres and is perfectly situated, being only 3 1/2 miles North of Fayetteville, with frontage on Highway 231 and also has Clark Mill Road extending down the side of the farm.

THE LAND—Consists of level to rolling productive land for pasture with approximately 8 to 10 acres rich and productive bottom land adjoining Norris Creek on the back side of farm. A perfectly balanced small unit presently carrying a large number of cattle and capable of producing better grazing with concentrated efforts.

THE HOUSE—Large 9 room frame house with bath and gas heat. There is an upstairs with 2 stairways. This house was constructed with the best of materials, having lots of the things that cannot be had today, including the hand carved trim, etc. The house is in good basic condition which could be developed into a lovely home with a beautifully shaded setting.

WATER—Supplied by well at the house, 2 ponds for livestock plus Norris Creek on the back of farm.

FENCING—Adequate for cattle.

Regardless of the continued inflation, Real Estate has always proven to be the soundest investment of any. If you should consider the possibility of living on a small farm, grow livestock and garden, yet commute to off-farm employment, this farm could not be beat. This farm has been in the Alexander family for more than 25 years and is one of the most sought after of any small farm in this area. Being sold only because the owner is moving to town.

Be sure to inspect prior to date of sale. Make your arrangements and be present to buy. If you desire, the Agents will assist you in helping to procure your financing.

HOUSEHOLD BELONGINGS AND ANTIQUES

Information contained in this advertisement is derived from sources believed to be correct but not guaranteed by Agents.

"The Army's been good to this Army wife."

Mrs. Vera Coles, whose husband's a tanker, likes the Army. And likes to talk about it.

"Charlie wasn't in the Army when we first got married. But after a while we decided to give Army life a try.

"One of his reasons for joining, and for reenlisting, is college. He says that although it might take a little longer in the Army, it's easier, and a whole lot cheaper.

"The medical benefits are important to us, too. Our bills would have been impossible as civilians. Plus, the doctors have been outstanding. You know, they don't treat you like you're just another case.

"But basically, we're staying in because we're happy here, as a family. And I think that's the best reason of all!"

**Today's Army gets better
every time a good family reenlists.**

PHONE 881-6682

You may not have the most economical engine in your VW.

You can't have it when your VW is not performing properly. It's what you bought your VW for: lower gasoline bills, performance with economy. Let your VW continue to give you the economy you paid for with our Engine Performance Special.

Electronic engine performance analysis . Replace plugs, points . Inspect distributor cap, rotor, and wires . Set timing and dwell angle . Adjust valves . Replace valve cover gaskets . Check compression . Adjust carburetor, including emission controls . Clean air cleaner . Check and adjust fan belt tension

ENGINE PERFORMANCE SPECIAL

\$19.00 (PLUS TAX)

REG. **24.25**

THIS SPECIAL PRICE ONLY VALID WITH COUPON

Models with air conditioning slightly higher; ask for our special price.

Your response was good. We have extended our Service Special to Nov. 29, 1974

UNIVERSAL VOLKSWAGEN, INC.

2305 North Memorial Parkway
Huntsville, Ala. Phone 539-7454

All work is done by trained VW mechanics, using genuine VW parts. We personally guarantee all work on your car for six months or 6,000 miles, whichever comes first, in normal use.

Valid until Nov. 29, 1974

1975 GRAND TORINO

The mid-size Torino proves that solid can be beautiful. Bigness is inside where you need it to give full-size six-passenger comfort. Great operation economy too. Gran Torino has 351 CID V-8 with solid state ignition, cruise-o-matic transmission, gas saving steel-belted radial white wall tires with wheel covers, power steering and brakes, AM radio, vinyl seats, air-conditioning, convenience group, and tinted glass. Mid-size handling, mid-size price - with luxury and comfort.

1975 THUNDERBIRD

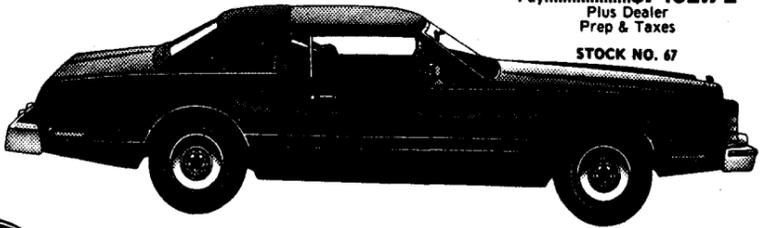

Decide for yourself. Besides the very specialness of Thunderbird itself, and the superb feel of Thunderbird's ride, there's more to consider. All those lavish extras that come standard: Air-conditioning, AM-FM multiplex radio, opera windows, gas-saving steel belted white sidewall radial ply tires, 460CID 4V V-8 with solid state ignition, select shift cruise-o-matic transmission, tinted glass, deluxe bumper group and cornering lights.

The uniqueness of Thunderbird in styling and in its driving pleasure. Make a little thunder of your own!

1975 FORD LTD LANDAU

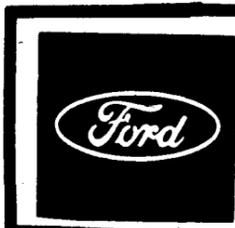

This demo model comes with features such as 406cc. 2 barrel engine, radial white wall tires with color keyed wheel covers, fender skirts and rear bumper guards. The interior has flight bench seat with center armrest, automatic controlled air-conditioning, power steering and brakes AM-FM stereo tape player and tinted glass. The main thing you don't get is hundreds of pounds of extra weight and almost a foot of extra length. The new Ford LTD Landau advantage is the security of a solid well-made automobile but with sensible size and weight.
