Save computer paper for recycling

Army will profit from used computer paper collected by contractor

Now there is a place for all that used computer paper that piles up in Army offices each day.

Rather than just throwing it out, workers are encouraged to put it in boxes for recycling. South Central Recycling, a Huntsville company, has won a contract to collect used, unclassified computer paper here for recycling. The company will in turn pay the Army a percentage of the market value.

"We surveyed the arsenal on June 17 and Nov. 25 of 1988 to see who generated what kind of computer scrap that was not classified information — didn't have to be pulped," said Jerry Holton, an environmentalist who is the Redstone Arsenal recycling program manager. "We found that the responses said we generated about 135 net tons of computer paper scrap each year."

This information was taken to the Defense Reutilization and Marketing Office (DRMO) who in turn put out a contract bid on April 25. South Central Recycling Inc. was the winning bidder, the high bidder. "They were the high bidder because they're buying, not selling," Holton explained. "They bid 21.75 percent of market."

Under the one year contract, the company will pay the Army for the computer paper scrap. "We figure it's worth about \$5,500 per year," Holton said.

The computer paper recycling contract is part of the Redstone Arsenal Recycling Program; every installation is required to have a qualified scrap program. Such materials as construction scrap and renovation scrap are turned over to the DRMO and "then they sell it and we get 100 percent of the proceeds," Holton said. "We made \$137,950 in FY '88 on sales of scrap. Our biggest moneymaker was copper, but the biggest by weight was heavy and light steel.

"Now we're going to go after other things we think will be profitable and we think scrap paper will be one of them," he said. Specifically, computer printout paper — unclassified — has been targeted. The DRMO, part of the Defense Reutilization and

Marketing Service, has a regional office in Memphis. The local office on post tries to ensure that recyclable materials don't wind up in the landfill and handles the sales of such materials for the Army. Bill Neppel, who works in the sales division of the DRMO, is handling the computer paper scrap sale. "I'd just like to thank him publicly for the help that he's given us," Holton said.

Participation in Redstone's recycling program is voluntary. Workers are encouraged to participate, however, because half of the proceeds goes to the morale and welfare fund for non-appropriated fund activities for soldiers. The other half goes to environmental projects. "You get the cash and you cover the overhead and we're making an intentional effort not to have any overhead (expenses such as collection bins), and whatever's left — half of it goes to environmental projects and then the other half goes to morale and welfare," Holton said.

Under the computer paper recycling contract, the contractor furnishes outdoor bins at buildings 5201, 8027, 5687 and 5250. Workers won't have to dump their paper; they can just put their box in the bin. Starting in June, the pickup schedule will be as follows: every Friday — buildings 7471, 7612, 7613, 5678, 4488 and 3710; last Friday of the month — buildings 111, 3222, 3453, 3618, 3623, 3651, 3749, 3777, 4484, 5425, 5681, 7120, 7770 and 7442. If Friday is a holiday or the arsenal is closed for some reason, the pickup would be the following workday.

"We're shooting for June 2nd as the first pickup," Holton said. "People should start saving their computer paper now. The contract has a 30-day cancellation provision; if we don't deliver what we said we would and he finds there's not enough to cover his overhead so he can still make a profit, then he can pull out of this. Obviously, we want to make this a success."

Those in buildings not listed for pickups can either take their paper to buildings with the outside bins or

contact the building custodian at the nearest pickup point. "And if they have sufficient generations, 100-150 pounds a week, that they didn't report on our earlier surveys, then contact me so I can try to get them on as a pickup point," Holton said. His phone number is 876-6125.

COMPUTER ROOM — Rhonda White, a computer operator in commercial operations section of Information Systems Command in building 5201, stands near just some of the Army's used computer paper.

Annual family picnic has added treat for first arrivals

BY SKIP VAUGHN

Set for June 3, the annual family picnic on post has had more than just a name change.

The first 5,000 people at this year's Redstone Arsenal Community Family Picnic, formerly known as the MICOM Picnic, will get free food.

"The 20 picnic committees voted to provide free food and refreshments to the first 5,000 persons attending the picnic this year," said Maj. Roy Johnson, the picnic chairman. "And this'll be accomplished by issuing tickets at the visitors reception area when you first come into the civilian recreation area. The food will be a choice between a hamburger meal or hotdog meal. And each ticket-holder will have the opportunity to receive up to three free sodas."

Food will be provided through the Post Restaurant, and late arrivals or those wanting more food and refreshments will be able to purchase them at the picnic.

The name was changed because the picnic is not only for members of the Missile Command, according to Johnson. "We changed the name to better emphasize the point that the picnic is hosted by the post CG (commanding general) and open to all tenant activities in the Redstone community — to include such people as Strategic Defense Command, Ordnance Missile and Munitions Center and School, Missile & Space Intelligence Center," he said, "all of the tenant activities, employees and their families. It's not exclusively for MICOM."

The full day of music and recreation is set for 10

a.m. to 4 p.m. Saturday, June 3 at the civilian recreation area on the Tennessee River. In case of inclement weather, it would be held the following Saturday. "The Redstone metrology team has assured us that we will have outstanding weather," Johnson said, laughing.

Admission is free for the picnic, sponsored this year by the Procurement Directorate. "The Civilian Welfare Fund and, in particular, Carl Chambers, who's the president of the Civilian Welfare Fund, has worked very closely with our picnic committees and has provided the major funding of non-appropriated funds for the picnic," said Johnson, a contracting officer in Procurement Directorate. "We certainly appreciate their assistance."

Picnic plans include more than 50 displays, exhibits and activities. There will be bingo at the Rustic Lodge with shuttle buses going to the lodge from the recreation area. Other activities include parachuting and rappelling demonstrations by the 20th Special Forces Group of the Alabama Army National Guard.

"We're going to have numerous static displays and exhibits of major weapon systems, courtesy of OM-MCS," Johnson said. "We're looking forward to having a pontoon boat ride. And we're going to have the finals for three sporting activities on the day of the picnic — coed softball, men's softball, and volleyball." The deadline for entering sports teams has been extended to May 23; if interested call Ken McClain 876-1328, Mark Stevens 876-7297, Linda Norwood 876-7291 or Don Catlett 876-5045.

There will be many children's activities — including such things as a children's ferris wheel, face painting, a magician, clowns, and carnival games.

Door prizes will be given away every 30 minutes, Johnson said. "And we're going to have the dunking booth for our selected Redstone Arsenal celebrities who have been nominated through an exhaustive screening process," he quipped. Other activities include a tethered, hot-air balloon ride in which a balloon restrained by three nylon straps will rise about 15 to 20 feet. There will also be a demonstration of BMX bike and dirt bike motorcycle. "That was real popular last year, we brought it back this year," Johnson added.

Picnic planning has been under way since January by about 35 chairmen and co-chairmen. "Predominately the committee chairmen are from the Procurement Directorate but we certainly encourage all organizations to feel that they can participate and help out because this is geared for the entire community," Johnson said. "And if there are people out there that do want to participate, they can call me at 876-2585."

A big crowd is expected on picnic day. "We're drawing from a potential community population of approximately 20,000 people and we expect a large crowd to take advantage of this great day of fun in the sun on the Tennessee River," said Johnson.

"I would like to personally thank Col. John Burlingame, the chief of staff, Al Reeder, the director of (See Picnic, cont'd on page 3)

MLC fish fry

Editor:

On the evening of May 5, my wife and I spent a very enjoyable evening attending our first Missile Logistics Center (MLC) Fish Fry. It was sponsored by the Maintenance Engineering Directorate personnel, with over 400 people attending who consumed almost 500 pounds of catfish, hundreds of hush puppies, plus all the trimmings.

The MLC folks, who put this event on, were as committed to the task as they are dedicated to missile logistics.

The fish fry committee and staff went to great lengths in restoring the Rustic Lodge to a state of "party readiness." Since this was the first major event of the spring season, this group undertook sprucing up the grounds, repairing doors, replacing a heating element to the warmer, scrubbing and waxing the floor and extending the eating area by adding a colorful tent outdoors. The next MICOM group that has reserved the Lodge should be in luck!

After the socializing and a delicious meal, we were all well entertained with an "in-house" performance that would rival any TV variety show, complete with music, costumes, and props. It was an evening of true family fun and one in which I was proud to be a part.

I extend my thanks to all MLC employees who had a part in this enjoyable evening and look forward to other similar events.

I salute each and everyone of you.

James L. Flinn III
Director,
Missile Logistics Center

Selfish drivers

Editor:

This letter is not concerned with the following groups of drivers:

1. The Rideout Road (inbound and outbound) drivers who try to follow the posted rules concerning restricted traffic lanes.
2. The Goss Road drivers who are attempting to get into the outbound traffic.
3. The Bradford Drive drivers who are attempting to get into the inbound traffic.

This letter is concerned with that small group of drivers who either never learned any rules about driv-

ing courtesy or who choose to ignore the rules of driving courtesy in favor of the "Me First Rule."

This letter is concerned with that small group of drivers who use the right lane (ignoring the backed up traffic) to drive all the way to the restricted lanes area and think that someone is supposed to let them break into the line.

If this group of drivers could be observed closely, I suspect that they could be accused of using this type of driving habit day-in and day-out.

As far as I am concerned this small group of selfish, self-centered drivers could starve to death before I would let them break into the line if I could help it.

If other rules-obeying drivers would adopt some of this type attitude, I believe we could break the "Me First" drivers of some of their selfish, self-centered driving habits.

Crawford T. Kelley

Children's month

Editor:

The emphasis, in the volunteer Army, is on the family. This is very apparent every April when installations all over the world celebrate the "Month of the Military Child." Nowhere on earth is the celebration bigger than at Redstone Arsenal. Everyone — the command, soldiers, family members, civilian employees, contracted personnel, and the Huntsville community — pulls together to make all of the events work for the military child.

Approximately 450 volunteer hours were performed for the 2,000 or more children and adults who attended the Block Party at the Youth Center. The Fishing Rodeo, sponsored by Outdoor Recreation and the PX, was a hit with many Redstone families. A special Fun Day at the Youth Center was attended by more than 250 children 6 weeks through 5 years of age. Many other events were held daily throughout the month.

There is no way to thank everyone personally for their contribution to the "Month of the Military Child," but you know who you are, and you know what you contributed. On behalf of all the children who were the recipients of your generous gifts of time and talent, we thank you all.

Shirley Mohler
Chairperson,
Month of the Military Child

Free testing

Editor:

I wish to respond to "Pressure Testing" from the *Rocket* dated May 10. I am employed in the MED-DAC area and I am annoyed with the opinion expressed in the letter regarding the blood pressure check/cholesterol check offered at building 4488. I have several statements regarding the general attitude of the Redstone Community concerning MEDDAC and what it offers.

1. These tests were offered by MEDDAC through the community health nurse (singular) at PVNTMED. Maj. Willis, the community health nurse, is the only person assigned to that job and her duties are too numerous to list. She had to recruit a nurse from Occupational Health to help her with the free testing opportunity offered to civilians at building 4488. I stress the word free because I feel that we all need to remember that this was a perk and not a requirement. This was in fact extra work given to the community health nurse. I've noticed that civilians here want everything free that they can get, and they want it as of yesterday. No one cares about someone else having extra work or about the logistics of putting this on. They only think about themselves.

2. PVNTMED, and specifically Occupational Health, were created to monitor the health risks of individuals, both civilian and military, who are exposed to hazardous conditions at their workplace. Many people are scheduled through Occupational Health for physicals (free of charge to the individual) periodically to ensure their safety and well-being. It is amazing to me that the no-show rate for the office is approaching 30 percent. That means that 30 percent of the people scheduled for mandatory physicals just aren't showing up, nor do they bother to let the office know that they won't be there for their appointment. In turn, the staff

of the office sit and wait on these people to come and 30 percent of the allotted appointment time is wasted. Maybe the program would work better if the appointment system were scrapped and they served on a first come, first served basis. I'm sure that the line would extend out the door every day with people waiting to get their free physical examination.

3. The testing offered was originally only for building 4488 employees, however personnel who called their friends and a loosely interpreted article in the Daily Bulletin and *Rocket* made sure that many more people were on hand for the session. There may be future dates scheduled. My advice to personnel is to sit tight and wait patiently for your area to be announced.

4. Finally, it is regrettable that people had to wait in such long lines. I witnessed these lines at building 5250 and I understand your frustration. Let's all try to remember one important fact: one person can only do what one person can do. Perhaps some of the hospital staff could volunteer their time to assist the community health nurse at any future free testing dates that might be scheduled.

Name withheld by request

Contractors

Editor:

Once again it's time to ask, "do contractors benefit Redstone Arsenal and our government?"

And once again the answer is "NO"...

One case in point, recently our office sent two vehicles in for their annual maintenance, and when they were returned a week and a half later the seats, which had had no rips or holes in them had been recovered. Also the hoods and roofs of the vehicles which had not been faded or dented, had been repainted. None of this work had been requested or required. Now, after the last few weeks, with all the rain we've gotten, the parts of the vehicles that were repainted are starting to bubble up and chip away. Why?, you might ask. Because our...contractors didn't realize that before you paint a car you have to wash the dirt off of it! And no, someone didn't just forget to wash it, because the same thing happened last year...

I think it's time to dump the contractors on Redstone Arsenal and go back to civil service so that the government will get its money's worth.

Mobile home tax

Editor:

An ad valorem tax is a tax imposed on the value of property. The most common types of ad valorem taxes are imposed by states, counties and cities on real estate. Ad valorem taxes can be imposed upon personal property such as motor vehicles. Alabama allows an exemption from the ad valorem tax on automobiles. The tax in question refers to mobile homes only.

The new Alabama law which attempts to levy an ad valorem tax on mobile homes owned by soldiers stationed in Alabama is contrary to protections afforded soldiers under the Soldiers & Sailors Civil Relief Act. The Soldiers & Sailors Civil Relief Act states clearly that the personal property of the servicemember is to be taxed, if at all, by the state wherein he or she is domiciled. The tax as applied to non-domiciliary members in the Army may be contrary to the Soldiers & Sailors Civil Relief Act. It appears that the State of Alabama will no longer accept Soldiers & Sailors Civil Relief Act affidavits in order to exempt soldiers from the requirement to pay this tax. The State of Alabama has attempted to avoid this principle by deeming personal property attached, even temporarily, to utilities to be real property and thus subject to ad valorem taxes. However, federal courts have held that a permanent attachment to realty is required to transform personal property protected by the Soldiers & Sailors Civil Relief Act into real property, thus subjecting it to taxation by the state. The federal courts have held that states could not tax non-domiciliary servicemembers for mobile homes not permanently attached to the land although several states' statutes purported to do so.

Advertising Offices . 539-3980

The Redstone Rocket is published weekly on Wednesday. The publisher will receive editorial content for publication in the Redstone Rocket through the Public Affairs Office, Army Missile Command, Redstone Arsenal, AL 35898, Bldg. 5250, Room A-134. Extension 876-1500.

The Advertising Office of the Redstone Rocket is located at 108-B South Side Square, Huntsville, AL 35801, phone 539-3980. Post Office Box 5351, Zip 35805.

Advertising deadline for display and commercial classified is 5 p.m. Friday before the Wednesday publication.

The Redstone Rocket is distributed free of cost to personnel at Redstone Arsenal, NASA, and Industrial Park, Huntsville. Mailing rates off post for the Rocket are \$20.00 a year, tax included.

Everything advertised in this publication must be made available for purchase, use or patronage without regard to race, color, creed, sex or national origin of the purchaser, user or patron. A confirmed violation or rejection of this policy of equal opportunity by an advertiser will result in refusal to print advertising from that source.

Competed purchase halves TOW 2 subsystem cost

Competitive purchasing has halved the cost of the TOW 2 subsystem which gives the Army's Bradley fighting vehicle the capability to defend against tank attack.

The Missile Command contracted April 28 to buy subsystems for the year 1989 under an arrangement in which production will be shared by two competing contractors.

For subsystem requirements over the succeeding five years, congressional permission will be sought to award in 1990 a multi-year, low-offerer-take-all contract.

For the 1989 purchase, 725 subsystems, the two

competing contractors are sharing the work in a 70/30 split. Texas Instruments won the 70 percent share on a low bid of \$120,022 per subsystem. Hughes Aircraft Company bid \$145,000 to receive the 30 percent share.

The subsystems, heretofore obtained sole source from Hughes since 1985, cost the Army \$251,701 apiece last year on a purchase of 437 units. At that price, the 1989 units would have cost over \$90 million more than they did competed.

Hughes was the subsystem development contractor. When production began in 1985 the sole source unit cost from Hughes was \$353,835 for 300 subsystems. In an effort to trim the cost and ensure an industrial base

sufficient to meet Army needs, MICOM conducted a competition for a second source producer which was won by TI from a field of six contractors. TI had been a major subcontractor to Hughes for the subsystem, supplying the missile guidance set.

To contain costs, MICOM in recent years has turned increasingly to competitive and multi-year procurements of missile systems.

The competitive procurement strategy for the TOW 2 subsystem was executed for the Missile Command principally by Virginia Thompson of Procurement Directorate and Mike Parmenter of TOW Project Office.

Aberdeen three get probation in environmental trial

Three high-level civilian managers at Aberdeen Proving Ground convicted in February of illegally storing and dumping hazardous chemicals were sentenced Thursday in Baltimore to three years' probation. U.S. District Judge John R. Hargrove also ordered each to perform 1,000 hours of community service work.

Hargrove rejected arguments by prosecutor Jane F. Barrett that the men be given jail sentences and \$15,000 fines, noting that they had unblemished backgrounds and unlike many white collar crimes theirs did not involve financial profit.

He said he did not fine them "because they don't have the resources." Their attorneys said legal ex-

penses for the six-week trial and a probable appeal approach \$250,000.

Sentenced for violations of the Resource Conservation Recovery Act were:

William Dee, 50, an SES, convicted of one count of illegally storing, treating disposing of hazardous wastes. He faced up to five years in prison and fines of \$250,000.

Carl Gepp, 52, a GS-14, and Robert Lentz, 51, a GS-15, convicted of three counts of illegally storing, treating or disposing of hazardous wastes. Both faced a maximum seven years' imprisonment and fines of up to \$750,000.

The case has been watched with great interest by federal employees and environmental groups. These are the first federal officials ever convicted of routinely violating environmental laws.

Dee, Gepp and Lentz were associated with the Pilot Plant, a ramshackle facility in the Aberdeen Proving Ground's Edgewood area used for manufacturing experimental batches of chemical warfare ingredients.

They were accused of storing hazardous chemicals without a permit, of improperly labeling and storing them in leaking containers and in some instances of pouring them down the drain.

For their part, the men said they had not willfully violated any laws and that they had tried repeatedly without success to get the Army to correct conditions at the pilot plant, which was caving in.

The federal employment status of Dee, Gepp and Lentz is unclear, but an Aberdeen spokeswoman said that will be left up to their employing activity, the Chemical RD&E Center, of which the three are long-time employees.

Picnic

Procurement Directorate, and Lt. Col. Bill Bond, deputy director of Procurement Directorate, for their active support throughout all the planning and without whose help the planning would not have gone as smoothly as it has," he said, "and I'd also like to thank each of the picnic chairpersons that have contributed so much of their personal time to assure that we have a successful picnic."

JOHNSON

AER campaign gets extended

The Army Emergency Relief fund-raising campaign here has been extended to June 19.

The annual drive had collected \$44,000 by May 15 which was formerly the last scheduled day. The goal is \$60,000.

"We're going to extend our campaign to the 19th of June to give people the opportunity to participate because we're short of our goal," said Juanita Adams, the AER officer for Redstone. "Plus, there's a Volksmarch that will be held and Armed Forces Week, and also the Redstone Arsenal Community Picnic will

have some fund-raisers hopefully to meet our goal."

Last year's campaign set a record by collecting \$55,464. This year's drive began March 15.

Army Emergency Relief is a non-profit organization that provides financial assistance in times of emergency need for active duty and retired military and their families. It also provides an educational assistance program for spouses and dependent children of soldiers.

To contribute, call Adams 876-5468 or Lt. Col. Richard Richey, AER campaign chairman, 876-1029.

Rape victim among seminar speakers

With her identity protected, a rape victim will be among the speakers at a Rape Prevention Seminar set for next week.

The seminar is scheduled for May 24 at 2 p.m. and again at 6 p.m. at the Post Theater. The annual program is presented by the Investigations Branch, Provost Marshal Office.

Jarvis, a local rape victim, is to relate the circumstances of her attack. "She'll be hidden behind a screen like last year," said Charles Thorpe, a criminal investigator and coordinator for the seminar.

The other two scheduled speakers include Maj. Kathleen Young, the head nurse in the emergency room at Fox Army Community Hospital; and Judy Ray, the rape prevention coordinator for Helpline of Huntsville.

"A lot of people are reluctant to report rape immediately. We want to stress to them the importance

of getting to a hospital so treatment can be received and evidence can be collected," Thorpe said.

This fourth annual program will last an hour. "It's for anyone that wants to attend, but we'd like to encourage the female employees — both military and civilian — to attend," Thorpe said. "We've had good turnouts in the past."

'Super water tank' enhances decontamination training

Workers at the Ordnance Missile and Munitions Center and School have placed the final touches on a newly-built water tank for use in chemical decontamination training.

The sheet metal fabricated, 1,600-gallon capacity water tank can be transported by a 5-ton truck. In decontamination training, soldiers use water to remove or neutralize chemical agents from personnel and equipment.

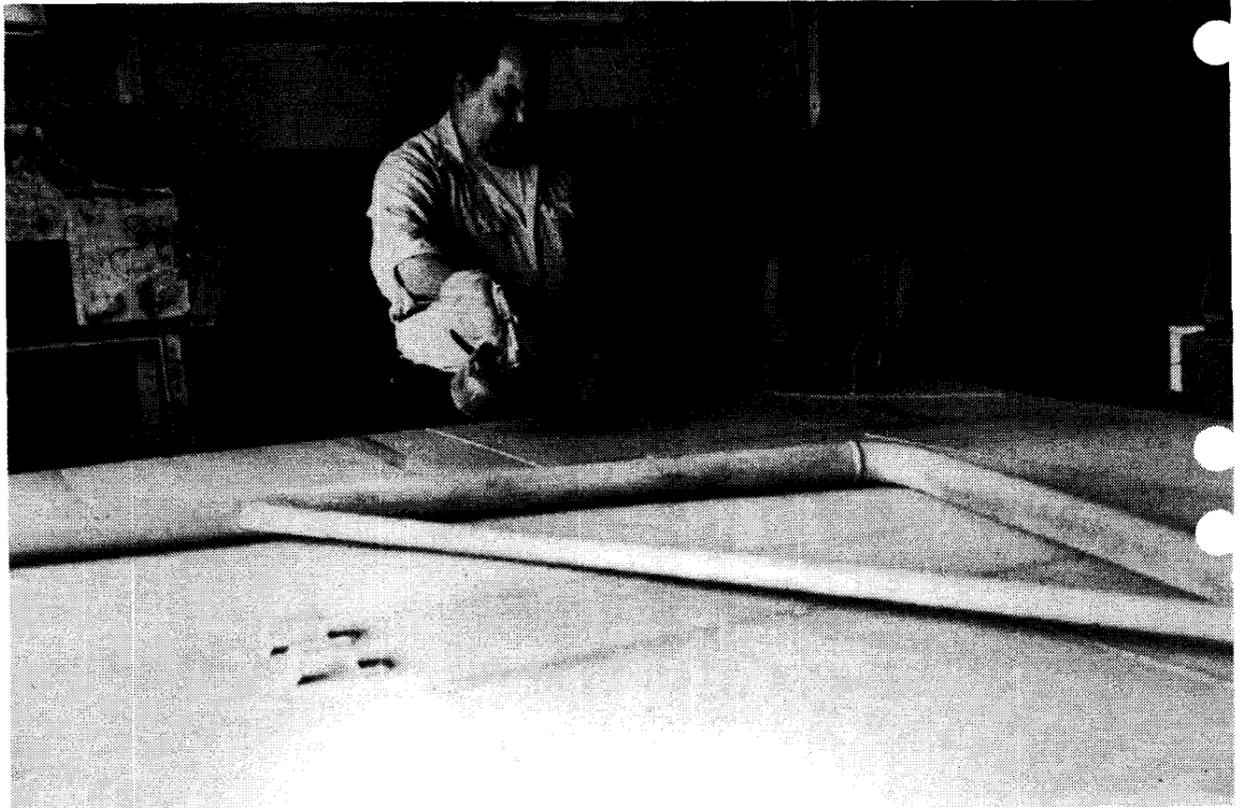

The tank is "designed to provide water logistics for decon training during Technical Escort Training," according to Capt. Johnny Mathews, chief of the Technical Escort Training Center. The center is part of the Explosive Ordnance Disposal Division of the OMMCS Munitions Training Department.

"This tank could prove to be a possible solution to the water-logistics burden being shouldered by decon units throughout the U.S. Army," Mathews stated. "The most surprising thing is that the tank was manufactured by the (OMMCS) Training Devices personnel at the surprisingly inexpensive cost of less than \$3,000."

Mathews, who originated the idea, traced the process from the beginning. In 1984, he was assigned as the Decon Platoon leader of the 1st Infantry Division (Forward) at Goeppingen, Germany. "During a pause during a field problem, I challenged members of my platoon to take a Tanker Pump Unit (TPU) and an M12A1 Decon Apparatus, and move them to the Main River to draw water from this 'textbook' source," he recalled. "During the operation, I noticed that the TPU, although well designed for dispensing liquids, was not the best piece of equipment for the job of tactical decon logistics. The huge pods were high mounted, causing a high center of gravity. The electrical pump offered a dimly slow discharge rate, and the TPU profile offered the decon logistical element as a choice target for enemy aircraft and artillery spotters. Since then, I have been toying with the idea of designing a 'super water tank'."

Initially, Mathews felt that several 360-gallon water tanks for the M12A1 could be mounted on the standard 5-ton cargo truck in a tandem arrangement in which tank discharge could be accomplished via a common flexible hose. Because of each tank's heavy weight, and the five ton's 13-foot long bed, only two tanks and 720 gallons of water could be carried. This was only a little over half of the tanker pump unit's capacity. "However, I did like the concept of a low, rectangular and easy to operate tank," Mathews added. "This led me to conceive of a longer tank similar in construction to the M12A1 tank."

The tank would have a low height yet possess a great width and length encompassing the entire dimensions of the 5-ton truck's bed. Because the tank's bottom would rest on the 5-foot-high bed of the truck, no pump would be needed solely to discharge the tank's contents. Also, because the tank was flat and rectangular, cargo could still be loaded on top for use at

FINISHING TOUCHES — R.M. Driver of OMMCS Training Devices Branch paints the newly-built water tank.

the natural source (lake, stream or river). "Also, a generator was mounted on the M577 Command Post and was handled via a cargo boom and block and tackle," Mathews said. "Why not place a similar boom on top of the tank to enhance its capabilities to carry additional items on top, to include a portable decon pump, which could be lowered off the side for remote water draw operations."

In 1987 at OMMCS, Mathews showed a preliminary drawing to an NCO working at what was then called the Chemical Training Facility (now the technical escort training center). This NCO, Sgt. Richard McCarthy, was studying drafting in his spare time and quickly produced a depiction of Mathews' design for the "super water tank." About a year later, after having further refined the drawing, Mathews submitted the idea to the Army Suggestion Program. "Vicki Porter assisted me greatly by showing me the proper forms and procedures to properly submit my ideas under the program," he said.

Mathews discussed local fabrication of the tank with Maj. Charles Twing, chief of the Explosive Ordnance Disposal Division. Twing approved of the idea and later the director of the Munitions Training Department, Lt. Col. William Kirby, suggested that the bot-

tom line for recommendation should spell out that the local fabrication would save money. Randy Porter of the Training Devices Branch assisted Mathews in finding that the tank would be produced for \$3,000 here rather than being ordered through the supply system for \$7,152. On March 17, 1989, Kirby and Col. Roy Willis, assistant commandant of OMMCS, approved that the tank should be built to support training and save money.

Construction began shortly thereafter. One of the first hurdles to be overcome by Randy Porter and his team of fabricators, was to determine the best material from which to construct the tank. Aluminum was light, but 1,600 gallons of water was heavy and eventually steel proved to be the ideal medium. "During the construction, many techniques were implemented by these men and much head scratching was done trying to ensure that the tank met all of the specifications," Mathews recalled. "Ron Hyatt, a master at metal bending, took much care to ensure that all of the sheets of steel, not cheap by any means, were bent at the correct point and aligned properly along all edges. A mistake here would cost in time and money. Eventually, all edges were aligned to the

Redstone invites former workers home for celebration

BY PAM ROGERS

The Army installation which helped make Huntsville the high-tech center it is today is inviting everyone "home" to Redstone Arsenal for a two-day open house during the annual Huntsville-Madison County Armed Forces Celebration.

"It's our contribution to the Alabama Reunion," said Dave Harris, public affairs officer for the Missile Command.

Harris added that the invitation is also part of an observance of the 40th anniversary of the Army missile program in Huntsville.

The location, in 1949, of the Army Ordnance Rocket Center here, marked the beginning of an era during which Huntsville, once a small agricultural community, was hurled into the space age almost overnight.

From the original Ordnance Rocket Center, which

no longer exists, evolved today's Missile Command, Strategic Defense Command, Ordnance Missile and Munitions Center and School, and NASA's Marshall Space Flight Center.

"We want everyone who ever worked at Redstone Arsenal or Huntsville Arsenal in a military or civilian capacity to come for a visit and bring their families," Harris said.

Former Redstonians will be welcome to visit their former work areas and are encouraged to participate in the celebration activities.

"They did something special and we want to recognize that," Harris said.

Redstone's planned Armed Forces Celebration activities include a military parade with static military displays and an air show on June 16, and a day of family activities June 17, featuring a German-style

volksmarch (a 10- or 20-kilometer stroll through the woods), German food and music, a street fair, exhibits by civic and law enforcement agencies and the Drifters in concert.

These activities are a part of the fifth annual community-wide observance of the decades-long friendship between the Army and the Huntsville area.

Other celebration events include static aircraft displays at the Huntsville International Airport June 10, a patriotic church service at Redstone's Bicentennial Chapel June 11, a proclamation luncheon June 14, military and industry exhibits at the Von Braun Civic Center June 14 through 16, and several defense-related symposia throughout the week.

For more information about the celebration, call the Huntsville-Madison County Chamber of Commerce at 535-2029.

Retired Officers donate start shack to golf course

Volunteer starters at the Redstone golf course now have a permanent structure from which to operate, thanks to The Retired Officers Association.

Initial planning for the new start shack came from Art Ousley and the late Frank "Pappy" Creighton. Ousley is a retired Air Force colonel and Creighton was a retired Army colonel.

The new structure, paid for through donations by members and friends of TROA, was dedicated to the memory of Pappy Creighton by Maj. Gen. Gus Cianciolo, commander of the Missile Command and Redstone, during a ribbon-cutting ceremony last Thursday.

The structure was designed by Creighton and built by Ousley and other members of the organization.

"In December, Pappy built a model and brought it to my house. That was a week and a half before he died," Ousley said. He presented the model to Creighton's widow, Alene, at the dedication ceremony.

Others who assisted with the construction of the start shack include Brandon Parker, Bill Teir, Bob Langley, Don Vander Heyden, Larry Anderson, all retired Army officers; and Jack Davis, who is retired from the Air Force.

RIBBON CUTTING — Alene Creighton and Maj. Gen. Gus Cianciolo cut the ribbon for the new start shack. Redstone Golf Pro Chip Enlow (left) and Art Ousley complete the group.

Women engineers form chapter of professional group

BY SANDA LAGER

Thanks to the efforts of a dozen local women, two years of planning have culminated in the formation of a Huntsville chapter of the Society of Women Engineers, an international organization with a membership of more than 14,000 women and men.

"It takes a long time," said Carolyn Pardue, one of the organizers. "We had to go through a year as a SWE interest group, demonstrating to the national organization that we could have meaningful meetings and had women committed to making the organization a success."

The society was chartered in December 1988 with 12 members, including Pardue of the Radar Branch, Advanced Sensors Directorate, Research, Development and Engineering Center. Other charter members include Alicia Allen, Corps of Engineers; Bette Anderson, Janeil Hill and Virginia Woods of Delta Research; Susan Duggan, self-employed; Elaine Hinman of Marshall Space Flight Center; Kate Leonard, University of Alabama in Huntsville; Elaine Moss of the Missile and Space Intelligence Center; Gisele Nogues, Strategic Defense Command; Cindy Philistine, Boeing Company; and Keli Schultz, Intergraph.

Pardue said the organization is showing a slight, steady growth, noting that, "so many of our members travel extensively, it makes it difficult for them to attend meetings regularly."

The Huntsville-Madison County chapter is open for membership to any woman or man in the area. Members include engineers employed by the federal government and area contractors. The group presently has one male member, Pardue said.

"We represent all engineering jobs in Huntsville — not just in government," said Pardue.

The Society of Women Engineers is a non-profit educational service organization of graduate engineers and men and women with equivalent engineering experience. It is dedicated to the advancement of women in the engineering profession.

Pardue explained that one objective of the local group is to ensure that female engineering students have a mentor in the profession.

"This is a profession that has opened up in its acceptance of women during the last several years. But there still exists a need to reach women in college and let

them know, 'if this is what you're interested in, there's no reason not to pursue a career in engineering,'" she said. "There's a need to educate both women and men."

The organization attempts to reach young women of all ages who may have an interest in the engineering profession. Members of the group visit public schools during National Engineering Week in order to encourage young women in junior and high school who may be leaning toward an engineering career.

Chapter members also serve as volunteer counselors at the Alabama Space and Rocket Center's Space Camp, and one member who is on the faculty at University of Alabama in Huntsville is the sponsor of the UAH Society of Women Engineers campus chapter.

Additionally, the organization sponsors and/or participates in various technically-oriented or women-oriented conferences in an attempt to reach women returning to the workforce.

The chapter is this year awarding a scholarship to an Alabama female student, made possible because of a gift to the new organization. "We hope to be able to continue and increase the amount of the scholarships each year through our fund-raising projects," Pardue said.

At its last meeting on May 9, the following 1989 officers were elected: president, Elaine Moss; vice president, Pardue; secretary, Gisele Nogues; treasurer, Cindy Philistine; section representative, Virginia Woods.

Monthly meetings alternate between the first Monday and second Tuesday of each month. The next meeting will be June 5. The group meets at the UAH student center at 5:15 p.m. for dinner and at 5:45 for the speaker and program.

For more information on the Society of Women Engineers, call 533-6888.

H&N/M-K Employees Receive H&N, Inc.,'s Second Quarter FY 89 High Achievers Award

On 8 May 1989, Certificates of Appreciation were presented by the H&N/M-K Project Director, John Dobson, to six employees of the Facilities Engineering Department, H&N/M-K, presented on behalf of Forrest C. Six, President, Holmes & Narver, Inc., Orange, California. The award, which included a framed certificate and a U.S. Savings Bond, was in recognition of the outstanding program for inspection, preventive maintenance, and testing of lifts and hoists during the past three and one-half year period as a part of the Redstone Arsenal facilities contract.

Employees receiving the awards are shown from left to right:

Paul E. Taylor, Foreman, Metal/Welding Shop

Jeffrey L. Ayers, Cleburn Harris, Jr., William A. Tyer, Thurman W. Dunson, Industrial Equipment Mechanics

Billy J. Tunstill, Superintendent, Structures and Grounds Division

Elementary school staff honored tonight

The staff of Morris Elementary School, where many Redstone Arsenal children attend, will be recognized tonight in an appreciation dinner at the NCO Club.

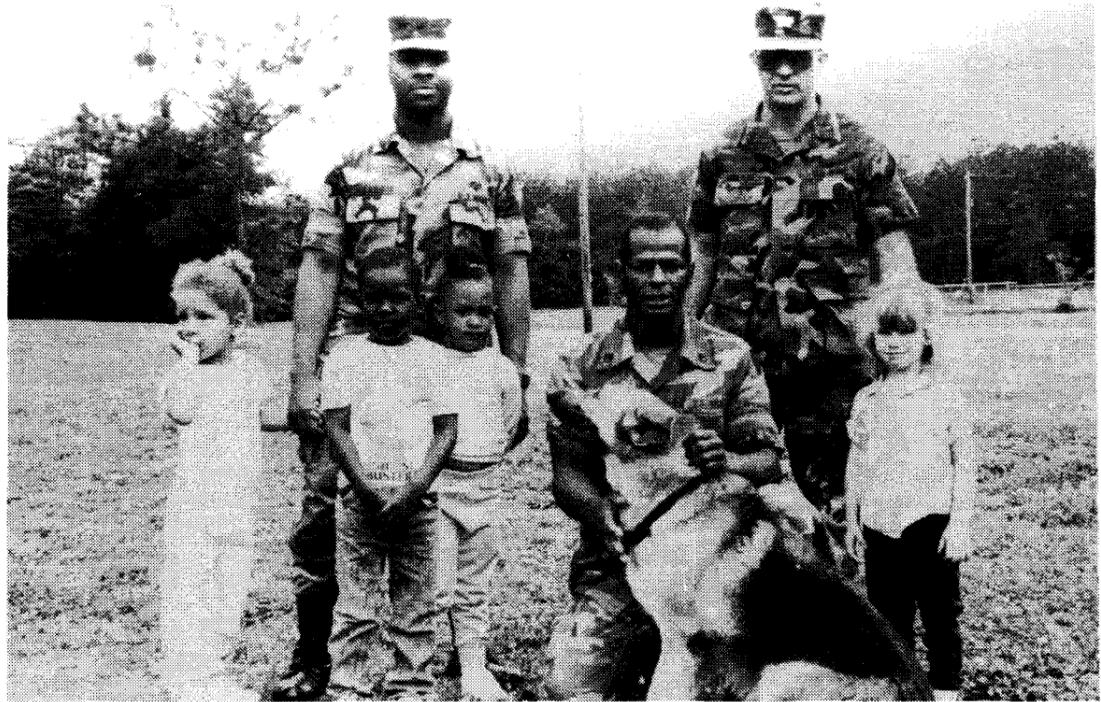

"It's an appreciation dinner that the parents are putting on for the teachers," said Barbara Goldsby, a military spouse on post who works with the PTA at Morris Elementary. "The military is recognizing the teachers for their outstanding job with the military children."

CSM Billy Prysock is to present a certificate of appreciation at the dinner which begins at 6:30 p.m.

"There are over 300 on the arsenal that go to Morris and there are even more (students from military families) that live off post," Goldsby said. She and her husband, 1st Sgt. Richard Goldsby, have sent two children to Morris, including one who has since advanced to middle school. Their daughter, Katie, is in the second grade at Morris.

"These teachers really work with the military," Barbara Goldsby said. "I think it's excellent, it's a beautiful staff. The teachers are outstanding. They handle problems gracefully, very professionally."

Morris Elementary has students in kindergarten through fifth grade. For sixth grade, students advance to Westlawn Middle School.

WORKING DOG DEMONSTRATION — Children from the Child Development Center were guests at the veterinary clinic during National Pet Week and saw a demonstration by the military working dogs. Shown with Benny, a female German shepherd, are from left Elizabeth Sharpe, Brandon Jamerson, Tynicia Thomas and Ashley Whitmarsh. Soldiers, from left, are Spec. Kenneth Gaines, technician at the clinic, Sgt. Randy Barbour, kennel master, and Dr. (Capt.) George Renison, deputy commander of veterinary services.

Armed forces celebration exhibits feature robot

BY SANDA LAGER

If the thought of soldiers being replaced by robots conjures up fictional Star War images, meet the Hero 2000, one of the most advanced, personal and educational robots in the world.

Currently being used to teach robotic fundamentals to staff and faculty at the Ordnance Missile and Munitions Center and School, the teaching robot is capable of performing these functions: measurement of distances and light levels, location of light sources, hearing sounds, and sense of touch.

Possible applications of Hero 2000 robots would be to replace soldiers in certain dangerous situations such as explosive ordnance disposal and disarming bombs, said Earnest Willhite, chief of the Computer Training Division at OMMCS.

The Hero 2000 is also used in demonstrations throughout the U.S. in the Army's recruiting efforts, Willhite said.

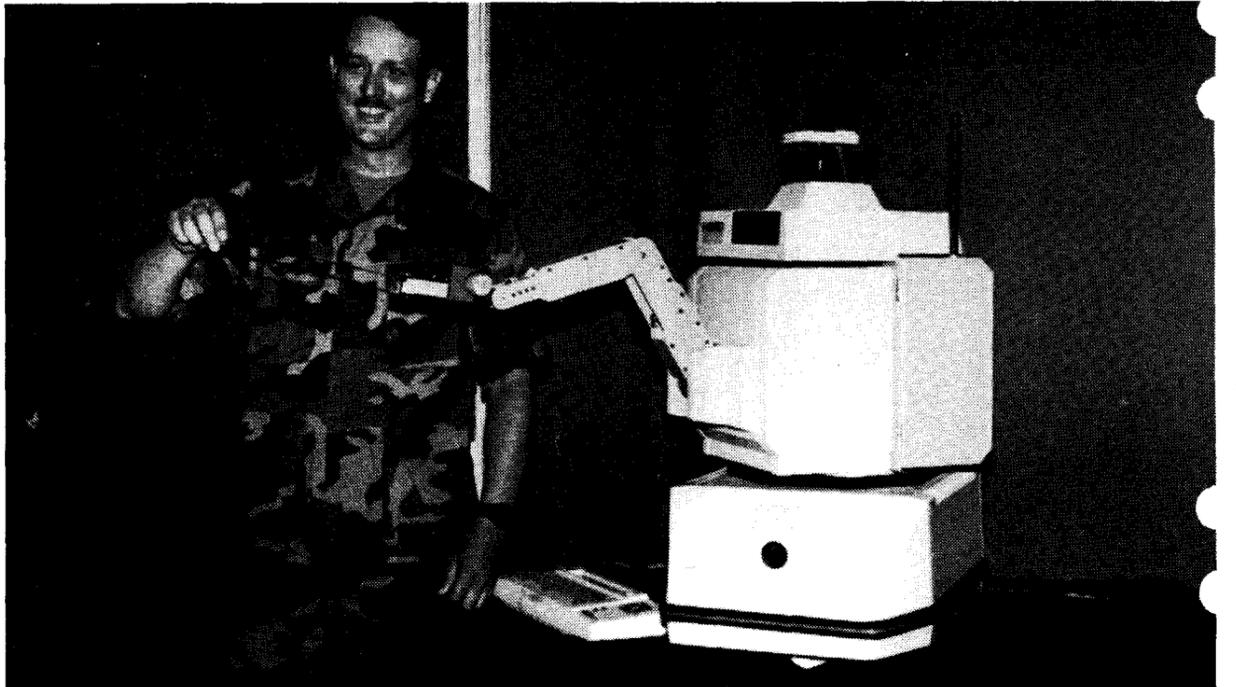

The Hero 2000 robot will be one of 120 military and industrial exhibits on display at the Von Braun Civic Center during Armed Forces Celebration Week, June 10-17.

The exhibits officially open on Wednesday, June 14 at 1:30 p.m., following a luncheon at the Von Braun Civic Center, where Lt. Gen. Max Bunyard, Army Materiel Command deputy commander for research, development and acquisition, is to be the keynote speaker.

Exhibits will be open for public viewing in the East Exhibit Hall for approximately 15 hours over a three-day period.

"The purpose of displaying these exhibits is to show the community at large what the Army, including AMC and the Army Missile Command, is doing in the development and acquisition of military hardware," said Capt. John Adams, Research, Development and Engineering Center and exhibits coordinator for the event.

MICOM will sponsor 15 booths, which the civic

TRAINING ROBOT — SFC Angelo Perez, training instructor in the Electronics and Technology Training Department, demonstrates the Hero 2000, which combines in one device the functions normally found in several different robots.

center is donating to the Army, and will feature a cross section of the various activities being conducted by the Army. In addition to six booths devoted to MICOM activities, the Army Materiel Command will bring four displays focusing on an introduction to AMC and its mission; how to do business with AMC; and its role in research, testing, acquisition and distribution, and maintenance and sustainment for the Army.

Additionally, the Strategic Defense Command will exhibit in two booths, as well as the Ordnance Missile and Munitions Center and School in three exhibits, one of which will be the Hero 2000.

"These will all be high quality presentations, with an emphasis on interactive videos, actual hardware that can be touched, felt, heard," Adams said.

The exhibits present a "good opportunity for government and industry representatives to develop an understanding of what the other is doing in the Army in the Huntsville area," he said.

The exhibits will be open to the public during the following hours: Wednesday, June 14, 1:30 to 4 p.m.; Thursday, June 15, 10 a.m. to 4 p.m.; and Friday, June 16, 10 a.m. to 1 p.m.

Spoilers outlast Comic Relief for bowling league title

The Spoilers took three games from Comic Relief to win the championship of the Missile Logistics Center winter bowling league.

Ken Brooks rolled a 201 game and 521 series, and Lorenza Elliott shot a 500 series to pace the Spoilers.

After struggling during the latter part of the season, the Misfits finally got it together and beat the Alleycats to take second place in the final standings. Juanez Alexander shot a 502 series, Irene Garoppo bowled 24 pins over her average, and John Hope rolled 48 pins over his average for the Misfits. Mike Colgan bowled a 213 game with a 541 series for the Alleycats.

Art and the Honeybees won three games from the Luckies as Carolyn Craig shot 58 pins over her average. The unlucky Luckies were led by Luz Crawford with a 202 game and 505 series, and by Don Cunningham who bowled 32 pins over his average.

Bounty Hunters snatched three games from Mickey's Crew as Roy Brown rolled a 210 game and 555 series, Shelby Williams shot a 510 series, and John Warren bowled 29 pins over his average. For Mickey's Crew, Walt Stewart shot a 222 game and 550 series while Juli Polka rolled 34 pins over her average and had her first all-spare game.

The Family took four games from the Challengers. Jean "Mom" Edwards bowled 34 pins over her average while daughter Melanie Johnson rolled 21 pins over hers. Cindy Ebersole shot a 500 series for the Challengers.

Screwballs shut out Pollaks by taking four games as

Gil Orr bowled 54 pins over his average and Tommy Miller rolled 34 pins over his average. (In the previous week Orr shot a 225 game, his first of the season.) For Pollaks, Peggy Bartnikaitis shot 30 pins over her average and Edie Lemke bowled 29 pins over hers.

Behind the 8 Ball, led by James Cox who bowled 38 pins over his average, ripped three games from the Avengers. Roosevelt Readus shot 31 pins over his average for the Avengers.

Pinheads shut out Papa Smurf and Smurfettes. Margo Thigpen rolled 34 pins over her average and Linda Johnson bowled 28 pins over hers to give Pinheads their four-game win.

A meeting for summer league is set for 5 this afternoon at Redstone Bowling Lanes; anyone interested in bowling in the league should attend. League officers and rules will be voted on. Anyone interested in joining individually or bringing a team should call Roosevelt Readus 876-4989 or Billie Kuhn at the bowling center 876-6634. The summer season will begin Wednesday, May 24 at 5 p.m.

Here are the final standings for the MLC winter league: Spoilers, 75 ½ wins, 44 ½ losses; Misfits, 74 ½ wins, 45 ½ losses; Comic Relief, 73 ½ wins, 47 ½ losses; Art & the Honeybees, 71 ½ wins, 48 ½ losses; Alleycats, 71 wins, 49 losses; Bounty Hunters, 62 wins, 58 losses; Family, 61 wins, 59 losses; Luckies, 60 ½ wins, 59 ½ losses; Mickey's Crew, 59 wins, 61 losses; Challengers, 56 ½ wins, 63 ½ losses; Screwballs, 56 ½ wins, 63 ½ losses; Pollaks, 54 wins, 66 losses; Behind

the 8 Ball, 53 wins, 67 losses; Avengers, 52 ½ wins, 67 ½ losses; Pinheads, 49 wins, 71 losses; Papa Smurf & Smurfettes, 30 wins, 88 losses.

Volleyball league begins tournament

MMD was the top seed as the Civilian Welfare Fund volleyball league began tournament play May 16.

The double-elimination tournament resumes May 18 and May 23 with games at 5, 6 and 7 p.m. at the old post gym. In the final, on May 25, there will be either one or two games with the first starting at 5 p.m.

MMD led the final regular season standings followed, in order of finish, by Natives, SDC-1, SDC-2, Hellfire, and SEPD in sixth place. Only a small percentage separated the first two teams, according to Marilyn Boster, league president and team captain of MMD. Bill Andrews coaches the league leaders.

"Bill Noel is the captain and coach for the (second-place) Natives," Boster said. "He's an excellent volleyball player."

Military air traffic controllers here expand expertise

BY SANDA LAGER

The Redstone Army Airfield has accomplished a feat only one other airfield Armywide has managed: the cross-training and qualification of its air traffic personnel in both tower and radar control operations.

Army flight facilities were notified in February 1987 that by April 1, 1989 all tower technicians (MOS 93H) and radar controllers (MOS 93J) must be dual trained in both radar and tower operations and converted to a new 93C MOS.

Don Alexander, Air Traffic Control Division Chief at the airfield said, "These guys knew what they had to do and they jumped in and did it." of the nine soldiers who were affected by this change.

"We feel particularly proud because we accomplished this on time, as directed by the Army," said Alexander, noting that the airfield in Los Alamos, N.M., was the only other facility worldwide that completed the conversion on the Army's timetable. Redstone's conversion was complete on April 1, 1989. Other air traffic control facilities are still working to complete the dual training of technicians, he said.

"It wasn't always easy for these guys. There were sacrifices each had to make," Alexander said, because of the matching of schedules needed to ensure a trainer and a trainee could work the same six and a half hour shift, as well as one soldier's consideration of the other in scheduling time off. "The fact that we are currently understaffed by two people didn't make things any easier either," he added.

In addition to the nine military controllers at the airfield, three civilians complete the contingent of controllers at the airfield. Civilians, however, were not involved in the cross-training exercise, since they have always been both radar and tower qualified, Alexander said.

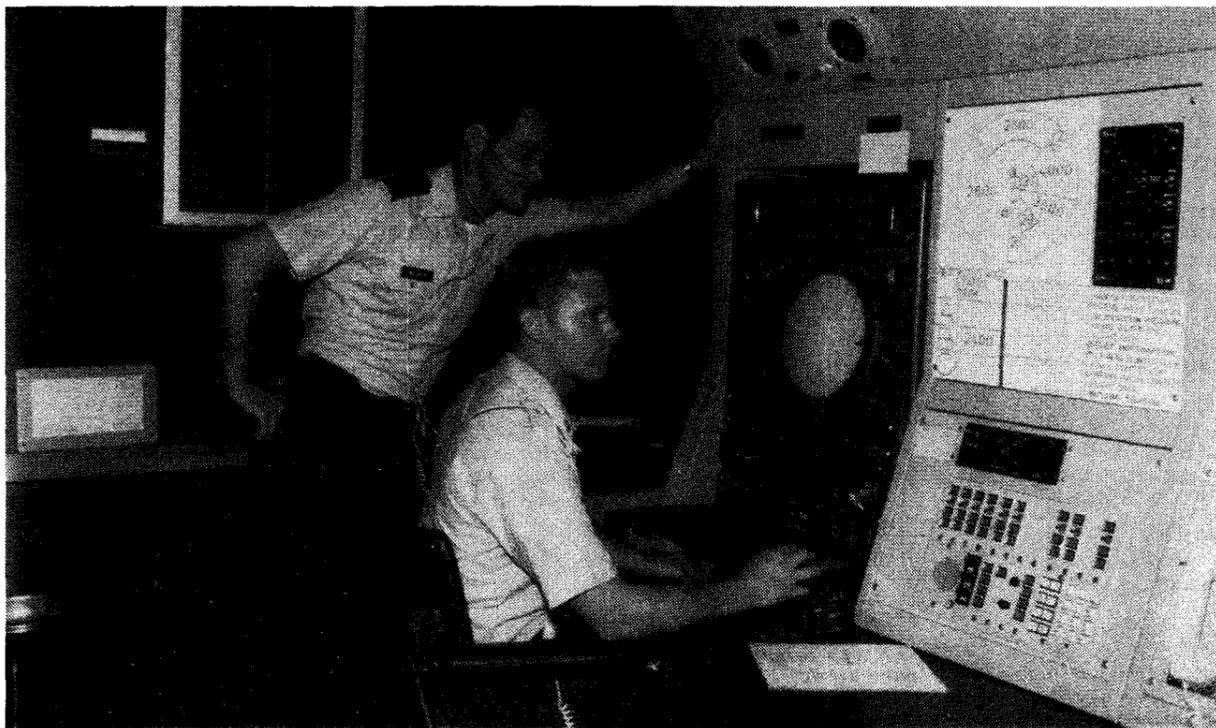

Sgt. Rick Cody thinks having dual trained technicians makes for smoother operations at the facility. "In the past, radar and tower people didn't really understand what the other was doing. It's much better to have the complete picture. Also, by broadening our knowledge, those getting out of the military will have an opportunity to complete for a broader range of jobs," he said.

Cody thinks, however, that the career soldier's opportunity for promotion has not been enhanced by the combined MOS.

"Promotions were slow in this field even when there were two MOSs. Now, with just one, the promotion process will bottleneck even further," Cody said.

Several of the technicians spoke of the slow promotion process, but one career soldier, SSgt. Leroy Clayton, said that for him job satisfaction is more important than promotions. "I just enjoy what I'm doing so much that I'd rather be here without the promotions, than elsewhere and getting promoted but not enjoying my work."

Alexander said the prognosis for increased promotions should improve by the end of this fiscal year. The information furnished him at the air traffic controllers conference at Fort Rucker, Ala., last month was that

RADAR ROOM — Sgt. Troy Walker, standing, and Spec. Alan Barnett, get a "hand-off" from the FAA tower at the Huntsville-Madison County Airport of aircraft approaching the Redstone Airfield.

projected retirements of senior non-commissioned officers in air traffic control is "very high. With this large loss of E-7, E-8 and E-9 grades, the promotion possibilities will open up for our people."

Also provided at the conference was information that on the low side — E-3 and E-4 — there exists a critical shortage of personnel. To offset that, Fort Rucker will graduate 600 students trained in air traffic control next year, as compared to the current 300-400.

Cody mentioned that one advantage of working in air traffic control operations is "actually performing what your MOS says you will do. In most MOSs, you're preparing for war. This is one of the few where we are actually doing on a day-to-day basis what we would be doing, even in wartime."

Alexander said that the FAA has "taken a new look at military controllers," since 1981, when during the national air traffic controller strike the FAA "saw how good military controllers were." During that incident, 3,500 military controllers stepped in to assist with a crisis created when FAA controllers, demanding higher wages and shorter working hours, walked off the job.

Now, Alexander said, the FAA is "more than willing" to hire former military air traffic controllers. The Army currently has about 2,000 controllers, while the Air Force has around 6,000 controllers, Alexander said.

Spec. Alan Barnett will be leaving the Army in a few weeks. His plans are to test with the Federal Aviation

Administration and apply to attend their air traffic controller school in Oklahoma City, Okla. Sgt. Troy Walker plans to take the FAA examination before he leaves the military, in 1993.

Alexander said the Redstone Airfield controllers are a group of "professionals, dedicated to doing their jobs as air traffic controllers, oftentimes sacrificing personal lives and careers to get done what needs to be done."

An Affirmative Action/Equal Opportunity Institution

BREAKING GROUND — Officially breaking ground for construction of Redstone's new Enlisted Club are Carol Burchett, the club manager; Maj. Gen. Gus Cianciolo, the post commander; and Pvt. Enoch Capps of B Company, 832nd Ordnance Battalion. The \$2.1 million facility, being built by Marable Construction out of Tuskegee, Ala., is slated to open in April 1990.

Letters

(Cont'd from page 2)

The position of the Army's Legal Assistance Office is that soldiers should refuse to pay this tax. The soldiers should then advise the Legal Assistance Office of a full description of all the pertinent facts concerning each assessment against the soldiers. The office point of contact for this action is Capt. Donald W. North.

Capt. Donald W. North
Chief,
Legal Assistance Office

Young Redstone artist decorates billboard

Not everybody gets to have their artwork displayed on a billboard.

Alexandra Nieves, 8, daughter of SFC Victor and Dagmar Nieves of Redstone Arsenal, has been honored just that way. She was among 20 youngsters whose artwork graced Huntsville billboards to announce Panoply, an annual outdoor arts festival held May 12-14.

In a contest sponsored by the Arts Council and Patrick Media, a panel of judges selected winning artwork from 41 participating schools in Huntsville and Madison County. The panel chose 20 designs from among the first place winners to appear on billboards. The winning artwork was also displayed at Panoply, and the winning students were awarded ribbons at a ceremony during the festival.

"My daughter won first prize for Ridgecrest (Elementary School)," said SFC Nieves of B Company, 73rd Ordnance Battalion. This was the first time in about three years of the contest that a Ridgecrest student has won first prize, he said. His daughter's artwork, depicting children dancing around the world, appeared on a billboard on Drake Avenue across the street from a car dealership.

Ceremony honors soldier missing from Vietnam War

A Memorial Day ceremony May 29 in Pulaski, Tenn., will give special recognition to a soldier missing in action in Vietnam.

SSgt. Jerry Glen Bridges was a flight engineer on a U.S. Army helicopter transporting medical supplies in South Vietnam on Oct. 20, 1968, when all crew members and the helicopter were lost. He is among the 2,383 soldiers still missing in action from the Vietnam War.

His mother, Ora Bridges, lives in Pulaski and is a native of Giles County. "For the last few years, since I've come back from Germany, she's been like a mother to me," said Joe Robison, a retired Army master sergeant who resides in Pulaski.

Robison, a Vietnam veteran, served 27 years in the Army. In 1982 he came from Germany to the Redstone Readiness Group where he retired last August. Like Ora Bridges, he attends Highland Baptist Church in Pulaski.

"When I came from Germany and started going to church up there, she came to me and told me she had a son missing in action in Vietnam," Robison said. "She's 80 some years old. She's just a very dear friend."

The Memorial Day ceremony will be held at 10 a.m. May 29 in Memory Gardens on the Minor Hill Road in Pulaski. Among the scheduled participants are State

Sen. Bill Richardson of that Tennessee district; Dwight Mercer, pastor of Highland Baptist Church; and the 101st Airborne Division of Fort Campbell, Ky. The 101st Airborne Division is to provide a 21 gun salute, taps, and presentation of the flag to Ora Bridges.

Military people here, especially Vietnam veterans, are invited to attend the ceremony, Robison said. "It could've been you or I; I just don't think we should forget them," he said, referring to those missing in action.

On Sunday, May 28, Highland Baptist Church will conduct its Memorial Day service at 11 a.m.

 SESSION V Oct. 23-Dec. 16

**PUT A LITTLE CLASS
IN YOUR NIGHT LIFE!**

Program office here will continue to support DSREDS

With DSREDS now operational at its twelfth and last site, the new challenge is ensuring that it stays "technologically refreshed", according to Henry Younger, DSREDS program officer here.

"Technological advances in the last four years already have made some of our support equipment obsolete," Younger noted. For example, it is now possible to improve output processing times for technical data packages by 33 percent and DSREDS Program Office is planning an equipment upgrade to accomplish that.

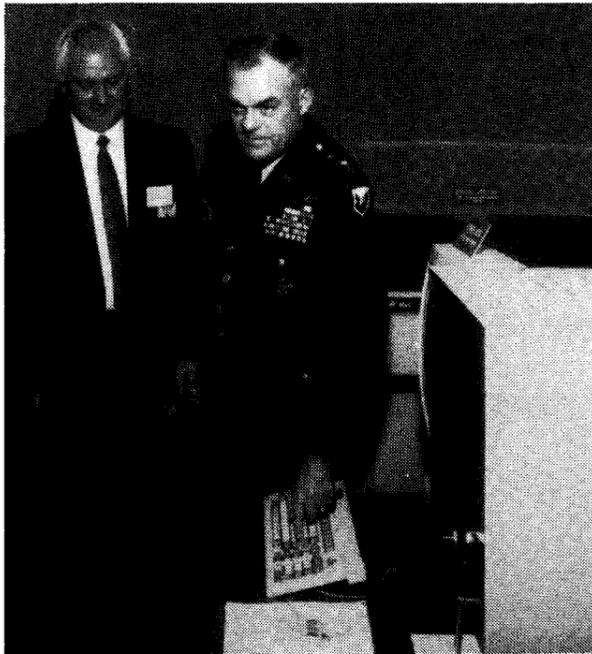

Another enhancement involves obtaining personal computer-based display terminals which will allow users to download whole groups of engineering drawings rather than referencing them singly on view-only terminals. MICOM soon will load its millionth engineering drawing into DSREDS.

One of the world's most advanced systems for data storage and retrieval, DSREDS can store up to nine million documents. They are kept on aluminum optical disks that are arranged and dispensed like records in a juke box. About 20,000 documents are stored on the two sides of a disk. A stack of these disks less than two feet high will hold as much information as 1.5 million aperture cards.

The DSREDS program office was chartered here in 1984 to acquire 12 Digital Storage and Retrieval Engineering Data Systems, seven for the Army and five for the Air Force. The MICOM DSREDS system was formally accepted from the contractor, AT&T, in 1987.

The twelfth and last system became operational at the Fort Belvoir Research, Development and Engineering Center this year on Jan. 31.

Younger said that with all 12 systems in place, DSREDS Program Office — which includes James Johnson, Bobby Beal, Gerald Howard, Jerry Austin, Horace Tate, Marsha Kerr and Violet Campbell — will

LAST SYSTEM ON — DSREDS is "working great," according to the program manager, Henry Younger, shown at left. The twelfth and last system was ceremoniously turned on by Lt. Gen. Jerry Max Bunyard on Jan. 31 at Fort Belvoir.

remain active, pursuing system enhancements, implementing a standard technical data configuration management system to interface directly with DSREDS, and adapting DSREDS to DOD's CALS program, an umbrella network for fast and efficient information sharing between Defense activities, other government agencies and vendors.

One-hour photo shop opens at PX

A one-hour photo shop officially opened Monday in the Post Exchange Mall, building 3220.

Redstone One Hour Photo is run by High Tech Developments Inc. out of Titusville, Fla. The photography company has a large retail shop in Titusville and one-hour labs on four military bases. "So we do have experience in all aspects of photography and photo finishing," said Phil Keeling, the president.

The photo shop, which uses Kodak paper, processes and prints color film. It takes one hour for 35mm, 110mm and 126mm film, and two hours for disks, according to Keeling. Prices are \$2.70 for processing and 25 cents a print.

"We've got the best one hour prices," Keeling said, "and also we have the experience in photo finishing and photography and in cameras. If the customer has a problem, generally we'll be able to help them with it. They get the benefit of our expertise in photo finishing and in photography."

The shop is open from 9 a.m. to 7 p.m. Monday through Saturday, and 11 a.m. to 5 p.m. Sunday. "We have specials that we're running that are good till the end of the month," Keeling said.

Besides the main store in Titusville and the one-hour shop here, the company has a one-hour shop at Patrick Air Force Base, Fla., and this month is opening one-hour shops at Homestead Air Force Base, Fla., and Fort McClellan, Ala.

Your flanks are exposed...

So you better be sure about your car insurance.

You're an ace driver. But it's a jungle out there on the road. You need heavy backup. Are you sure about your present coverage? Are you paying too much? Is the company dependable? What about claims? Can they save you money with deductibles? Answers to these questions are as close as your phone. Call your GEICO Representative before you drive another mile. You can get a free, no-obligation rate quote in minutes. And be sure to ask about these other GEICO extras:

- A low initial down-payment starts your coverage
- Fast-action, 24-hour claim service in the U.S. and Canada
- GEICO has offices near most major military installations
- Convenient payment plans make budgeting a breeze

- GEICO can arrange overseas car insurance for you
 - Over a half century of GEICO dependability and experience
- Insist on quality car insurance. Stop in or call your local GEICO Representative today for a free rate quote.

S. Huntsville Across From Grissom

Tank

(Cont'd from page 4)

closest tolerances. Ron knew his stuff. Gerald Belue looked at the length of the tank in relation to its weight and spent much time designing proper lifting points for the anticipated crane lift that would someday lower the tank into the back of a 5-ton truck. The result was four massive steel flanges at the corners that would support the weight of the tank under the most arduous of conditions."

Bob "Preacher" Heacox took precise measurements to ensure adequate clearances, especially for the cargo boom. "After all, what good is a bathtub, if the drain is located too high to let out the water," Mathews said. Van Hollis not only machined many of the parts for the tank, but also built a special jig in order to properly align all of the holes drilled into the rear of the tank for mounting of the 4-inch-diameter gate valve. "The massive valve was procured for free from DRMO at the direction of EOD Division's logistical wizard, Ken

Key," Mathews added. "Don Cranford, surety officer for OMMCS, helped to save time in acquiring the valve by unraveling some of the logistical bottlenecks."

SFC Bobby Smith, NCO-in-charge and SSgt. Donald Patterson, decon chief, of the technical escort training center, supported the project by procuring standard military fittings for the water tank throughout the fabrication process.

"The end result is a Decon Water Logistics device, that was conceived as a result of real-world experience, and built in a little over a month by highly skilled craftsmen at the training devices branch for a cost savings of more than half the price for the standard item in the inventory," Mathews said. "I thank the Good Lord for the idea, and for the many persons who helped to make it a reality. Future decon training will be 'top notch' as a result."

Redstone Scout makes Eagle

A member of Boy Scout Troop 308 of Redstone Arsenal attained the prestigious rank of Eagle Scout in a ceremony May 7 at the Post Chapel.

Michael Gibat, 18, son of retired MSgt. David and Phyllis Gibat of Huntsville, received the highest award a boy can get in Scouting at a court of honor ceremony.

Gibat is a junior at Grissom High School. His Eagle Scout project was "beautification of the Bicentennial Chapel grounds," his mother said. His father retired from the Army in 1987.

House For Sale By Owner

My mother has decided to relocate after making this house her home for 30 years. It is a one owner house. It has 3 bedrooms, one bath, utility room, fenced-in backyard, walk to elementary and middle schools, TVA energy package. \$41,000. Located at 2910 7th Avenue, S.W.

Sole prices effective through May 21, 1989. Sale prices limited to normally stocked items. We reserve the right to limit quantities. If an advertised item is not available during a sale period, a rain check will be issued on request. Sale prices valid at participating stores. Some advertised items appear at everyday low prices. Similar items of similar savings may be substituted at any time.

MAKE-A-WISH FOUNDATION DONATION CENTER

Officers wives end year with merit awards, luncheon

The Officers Wives Club officially ended its 1988-89 year last week with a luncheon and installation of officers for 1989-90.

The club also presented merit awards to high school seniors, college undergraduates and club members enrolled in college.

Huntsville Mayor Steve Hettinger gave a presentation on "Vision 2000," a communitywide, long-range planning effort.

"It's designed to answer two fundamental questions. They are, what do we have today; and what kind of community do we want to leave for our children and grandchildren? Vision 2000 gives us a chance to take a step back and look," he said.

Graduating high school seniors who won merit awards were Sarah Bisch, daughter of retired Col. and Mrs. Frederick R. Bisch; Michele Leone, daughter of retired Maj. and Mrs. Nicholas Leone; and Heide Patterson, daughter of Lt. Col. and Mrs. James Patterson.

Merit winners in the college undergraduate category were Margaret Garnett, daughter of Col. and Mrs. Bruce Garnett and Debra Goodridge, daughter of retired Col. and Mrs. Clair Goodridge.

OWC members who received merit awards were Leslie Best and Margaret Kolasinski.

Newly-installed club officers are Joan Johnson, president; Alma Huston, first vice president; Jennifer Hames, second vice president; Leah Amato, recording secretary; Judy Westrum, corresponding secretary; and Gisela Muilek, treasurer.

PRESIDENTS — Joan Johnson (left), newly-elected president of the OWC, poses with outgoing president Anne Lewis.

Announcements

Contract management

The National Contract Management Association (NCMA)- Huntsville Chapter will have its monthly luncheon meeting at 11:30 a.m. May 25 at the Officers Club. Scheduled speaker is Paul McQuade, attorney with the government contracts group of the Washington, D.C., law firm Pillsbury, Madison and Sutro. He is to discuss "Commercial and Foreign Sales and DOD's Regulations Concerning Recovery of Non-Recurring Costs." Attendance is open to everyone. For reservations, call 536-1527 by May 24.

Preseparation orientation

The next preseparation orientation — not retiree orientation — for military personnel with ETS or Release from Active Duty dates through Sept. 24, 1989, will be held from 8 a.m. to noon May 25 in building 3495 (Toftoy Hall), auditorium room 119. Representatives from Veterans Affairs, Employment Services, Military Pay Division and others will be present to brief attendees and answer questions pertaining to post-separation plans. Spouses are encouraged to attend. It is mandatory for specified personnel to attend.

Property managers

The Rocket City Chapter of the National Property Management Association will hold its monthly meeting at 4:30 p.m. May 23 in the conference room of building 4471 at the Marshall Space Flight Center. For more information, call Robbye Petroski 544-5370.

Government accountants

North Alabama Chapter of the Association of Government Accountants will meet on Thursday, May 18 at Michael's Restaurant, in the Ramada Inn, South Parkway. Social hour begins at 6:30 p.m., with dinner and program to follow. The program will consist of the annual awards presentations and installation of officers. For reservations, call Hurley Hughes 876-8215 or Karen Cooper 544-7301.

Children's physicals

Sports, summer camp, scouting, and day care physicals as well as pediatric immunizations will be provided from 8-10 a.m. Saturday, June 3 in the family practice clinic at Fox Army Community Hospital. The hospital says it will schedule fall school physicals and school sports physicals in August. "We will not routinely schedule these physicals during normal clinics to better serve those with other medical needs." Arrival times will be assigned at 8, 8:30, 9 and 9:30 a.m. to distribute the load and reduce waiting time. Stop by the patient representatives office or call 876-8621/2857 by June 1 and schedule a time. You should bring shot records and any other paperwork. Your time can be saved by completing as much of the paperwork as possible before June 3. Completing parent information such as medical histories, allergies, dates of immunizations, etc., will speed your departure from the medical facility.

Dog training classes

Decatur Kennel Club is sponsoring dog training classes beginning June 5 for eight weeks at Delano Park, 6th Avenue (tennis court area), Decatur. Puppy training, beginner and advanced obedience and conformation handling classes are available. Cost is \$25 to \$35. Orientation and registration session will be held at 7 p.m. May 30 at the Aquadome, 1202 5th Ave. SW, Decatur.

Babe Ruth baseball

Redstone Youth Sports Program is "in dire need" of coaches and at least four more players for Babe Ruth (14 and 15-year-old division) baseball. Call Ted Compcoc, youth sports director, at 876-2255/5437.

Summer bowling league

Bowlers can sign up for the Redstone Lanes' "Monday Night Scratch League" which is scheduled for May 22 through Aug. 28. A meeting is set for 6 p.m. May 22 at the bowling center off Patton Road. For more information, call Rick Johns 876-5892 or 837-5510 (home).

Movies

Here's the Post Theater schedule; starting times are 7 p.m.: Saturday, May 20 — *Bill & Ted's Excellent*, rated PG, 90 minutes. Sunday, May 21 — *Bill & Ted's Excellent*. Tuesday, May 23 — *The Naked Gun*, PG-13, 84 minutes. Thursday, May 25 — *Farewell to the King*, PG-13, 119 minutes. Friday, May 26 — *Dead Clam*, R, 96 minutes. Admission fee is \$1.50.

Ordnance Ball

Redstone Arsenal will celebrate the 177th birthday of the Ordnance Corps at the annual Ordnance Ball on May 20 at 6 p.m. at the NCO Club. This celebration is open to all officers and senior noncommissioned officers (E-7 to E-9) active duty, reserve components or retired, GS-9 and above. The theme is "One Corps, One Voice." Brig. Gen. James Ball, chief of Ordnance, is the scheduled guest speaker. Music will be provided, and a photographer will be available. Tickets cost \$15 per person. For more information, call Lt. Col. Donald Kern 876-5307.

Learning center

The Fox Army Learning Center is offering the following self-paced word processing courses: Wang Word Processing, Introduction to Word Processing, WordStar, and WordPerfect. The center also offers the following self-paced, computer based courses: Communication Skills, Consulting Skills, The Helping Relationship, Beginning Typing, Technical Typing, Military Correspondence and Office Practices, Time Management, Gregg Keyboard for Information Processing, and The Army Functional Files System (TAFFS). To enroll in these courses and more, stop by the Fox Army Learning Center located at Fox Army Community Hospital or call 876-9563.

OMMCS picnic

The OMMCS annual summer picnic will be held June 2 from 2:30-8 p.m. at the NASA recreation area, and many of the school's VIPs have volunteered to be targets for the dunking booth event. Besides the dunking booth, there will be several adult and children's games, a door prize drawing, and plenty of food and drink for all. All school permanent-party personnel and their families are invited to attend and dunk their boss. Cost is \$5 for adults, and \$3 for children 12 and under. For more information, call Capt. Travis Callaway 876-1081/1921.

Education center

The Montgomery GI Bill was amended to allow soldiers a "second opportunity" to reverse their original decision not to participate in the Montgomery GI Bill, according to the Education Center. "June 30, 1989 is the last day of a seven month extension granted by Congress to ensure all eligible non-enrolled soldiers who entered active duty for the first time between July 1, 1985 through June 30, 1988 are afforded every opportunity to participate in this VA program." Stop by the Education Center, building 3222, for enrollment.

Recreation Center tours

"Join us on Saturday, June 17 for a cruise on the General Jackson Riverboat at Opryland in Nashville," says the Recreation Center. The cost is \$40 and includes transportation, admission and a prime rib dinner on board. Tour departs at 3:30 p.m. and returns at about 1 a.m. Sunday. On Sunday, June 25, a tour group will be going to Six Flags Over Georgia; cost is \$21.50 per person and includes transportation, admission and a bag lunch. Both tours are open to the entire Redstone community—military and civilian. For more information, call the Recreation Center 876-4531 weekdays from 1:30-10 p.m., and weekends from 10 a.m. to 10 p.m.

NAACP banquet

The NAACP Life Membership Banquet will be held June 3 at the Sheraton Inn ballroom, 4404 University Drive. Social hour begins at 7:30 p.m., and the banquet at 8. Scheduled speaker is Earl Shinholster of Atlanta, southeast regional director for the National Association for the Advancement of Colored People. For ticket information, call the local NAACP office 533-2618. The office is located at 224 Church St., Suite L.

HOW TO PLACE A REDSTONE ROCKET CLASSIFIED AD

The Redstone Rocket provides the Rocket Classified section as a free service to active duty military personnel and army civil service personnel at Redstone Arsenal.

To place a Rocket Classified ad:

Type or legibly print a brief description of what you want to sell on an 8 1/2 x 11 inch piece of paper (no 3 x 5 cards or torn paper will be accepted).

Only home numbers will be listed in the advertisement. No office phone numbers will be accepted. Sign the ad, and list some type of identification, such as a building number, badge number, etc.

The deadline is 5 p.m. on Friday before the Wednesday publication. Ads will run for one week only. You may resubmit them.

The Redstone Rocket will not accept classified ads for business. A business classified ad or for those who are not military or civil service is \$5.75 (1 column x 1 1/4 inches, bordered, about 20-30 words).

If you submit more than one classified at a time, place each one on a separate piece of paper.

Mail Rocket Classified ads to: Sara Grant & Associates, Attn: Redstone Rocket Classifieds, P.O. Box 5351, Huntsville, Alabama 35801.

The Redstone Rocket will not accept any classified ads by telephone.

The Redstone Rocket is not responsible for typographical errors or for omissions in this section. Classifieds will be published as space permits. First come, first served basis.
